ANTH 353 Feminist Anthropology (5) I&S, DIV Explores the history and contemporary practice of feminist ethnography at the interdisciplinary intersection of anthropology and gender studies. Examines how the inclusion of women, as subjects and researchers, has influenced anthropological knowledge production, and how the cross-cultural imperative of anthropology has influenced understandings of gender, sexuality, and race. Offered: jointly with GWSS 353; W.

ANTH 356 Visual Anthropology (3/5) I&S/VLPA Introduction to the history of Visual Anthropology as a sub-discipline. Students will learn to critically analyze ethnographic film and still photographs, and will become familiar with a range of approaches anthropologists use in producing visual ethnography.

ANTH 357 Peoples and Cultures of Central and Inner Asia (5) I&S Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with JSIS A 357/NEAR E 357.

ANTH 358 Culture and Cognition (5) I&S/NW Surveys anthropological theories and research on the relationship between language, thought, and behavior. Examines the influence of cultural inheritance on perception, classification, inference, and choice. Describes relevant cross-cultural research methods and evaluates theoretical models used by cognitive anthropologists. Prerequisite: either ANTH 203, LING 203, or PSYCH 355.

ANTH 359 Linguistic Ethnography (5) I&S Language use in cultural contexts. How language reflects world view. Language use in culturally significant settings. Analyzes sets of culturally specific terms in semantic domains. Includes projects demonstrating application of theory and method to data addressing specific problems. Workshop format.

ANTH 360 Anthropology of Popular Culture (5) I&S Analysis of the forces that shape popular culture. Examination of the local meanings of global trends in music, clothing, and leisure activities through case studies around the world. Students learn ethnographic methods and conduct an original research project.

ANTH 361 Anthropology of Food (5) I&S Explores how foods reproduce social relations, the meanings food acquires within culture, how food systems are intertwined with structures of power and economic inequality, national cuisines and restaurant cultures, the global marketing of foods, controversies surrounding GMO foods, and alternative food communities. Prerequisite: one 200-level ANTH course.

ANTH 362 Anthropology of Tourism (5) I&S, DIV Anthropological approaches to tourism. Debates about cultural encounters and cultural change, authenticity, economic development, social inequalities, identity, gender, ethnicity, nationality,

and cultural representation. Prerequisite: one 200-level ANTH course.

ANTH 363 Applied Visual Anthropological Practices (5) VLPA/I&S Using applied visual anthropological practices in hands-on training students will learn and gain field experience in using photographic techniques before going out to do research.

ANTH 368 Mythical Figures and Cultural Formations (3) I&S Anthropological perspective on the social and cultural formation of a variety of mythical figures. Examines their emergence and historical specificity, cultural meaning, and social implications. Emphasizes narrative in considering how contemporary institutions and public perceptions of danger are shaped by notions of "character" and the "monstrous."

ANTH 369 Special Problems in Anthropology (3-5, max. 10) I&S Delineation and analysis of a specific problem or related problems in sociocultural anthropology.

ANTH 370 Han Chinese Society and Culture (5) I&S Themes in the society and culture of the Han Chinese people. Concepts of self; personal interaction; family, gender, and marriage; communities and the state; religion and ritual; class, social categories, and social mobility; culturalism, nationalism, and patriotism. Offered: jointly with JSIS A 370.

ANTH 371 Anthropology of Development (5) I&S Development refers to social, economic, cultural, political transformations viewed as progress. Studied from anthropological perspectives. Historical, social context for emergence of ideas of development. Role of development in promoting national cultures. Impact of development on individual citizenship, families, rural-urban relations, workers, business, environment. Prerequisite: one 200-level ANTH course. Offered: jointly with ENVIR 371.

ANTH 373 Labor, Identity, and Knowledge in Healthcare (5) I&S Presents anthropological perspectives on provision of healthcare as a complex social phenomena. Examines division of labor, and how social groups come to occupy particular positions. Considers how knowledge and skills are gained, how they are recognized and valued, and

may become sources of identity. Prerequisite: one 200-level ANTH course.

ANTH 374 Narrative, Literature, and Medical Anthropology (5) I&S Introduces anthropological perspectives on the workings of narrative in illness, healing, and medicine. Considers writings in medical anthropology alongside other genres of writing about similar topics. Readings include memoirs and fiction as well as scholarly articles.

ANTH 375 Comparative Systems of Healing (5) I&S Introduction to the anthropological study of healing. Examines local approaches to healing, considering their similarities and differences, and addresses their place within global systems. Includes anthropological theories of healing.

ANTH 376 Anthropology of Disability (5) I&S, DIV Introduces anthropological perspectives on disability. Considers disability as produced through the interaction of bodily impairments with social structures, political economies, cultural norms and values, individual and group identities, institutional orders, medical practices, assistive technologies, and other factors. Considers ethnographic studies of disability in international as well as U.S. settings.

ANTH 377 Anthropology and International Health (5) I&S Explores international health from medical anthropological perspective, focusing on serious health problems facing resource-poor societies around the globe and in the United States. Develops awareness on political, socio-economic, ecological, and cultural complexity of most health problems and anthropology's consequent role in the field of international health.

ANTH 378 Sustainability, Resilience, and Society (5) Introduction to concepts of sustainability and resilience and their relevance to environment and society in the current Anthropocene era. Understanding sustainability and resilience through ecological footprints, lessons from small-scale societies, case studies of resource management, theory of common property regimes, philosophies of environmental stewardship, and implications of climate change.

ANTH 380 Subject, Person, Place: Introduction to Social Theory (3) I&S Introduces contemporary critical thinkers in anthropology. Includes works on

governmentality and discipline; politics and bare life; race and recognition; gender and embodiment; and capitalism and subjectivity. Develops an understanding of how contemporary theory frames anthropology and skills in critical spoken and written analysis.

ANTH 399 Junior Honors Seminar (5) I&S Teaches skills required to write senior Honors thesis, including evaluation of academic and scientific writing, formulation of problem, collection of bibliographic and other resources, evaluation of research proposals, and research proposal preparation. Final product is a formal thesis prospectus.

ANTH 401 Museum Decolonization and Cultural Collections (5) I&S, DIV Focuses on the need for museums to acknowledge and dismantle ongoing colonial violence. Opportunities for active student research with cultural collections at the Burke Museum. Readings, guest speakers, and assignments center on Indigenous research methods and ethics.

ANTH 402 Introduction to Experiential Ethnography: Towards a Critical Re-Enchantment of Every Day Life (5) I&S Develop or continue ethnographic research, gain skills and theoretical frameworks from auto-ethnographic, phenomenological, experimental, post-experimental and experiential approaches, and contribute to what an 8th, or future moment in ethnography/anthropology might look/feel like as it bends towards the sacred and moral in social science research for a free democratic society.

ANTH 403 Qualitative Research Methods in Sociocultural Anthropology (5) I&S Introduces qualitative research methods of anthropology, and data generated. Methods covered include interviewing, focus groups, participant-observation, discourse analysis, and use of visual materials. Addresses ethics as relevant to every phase of research. Explores methods through focus on a specific thematic topic, which varies from year to year. Offered: W.

ANTH 404 South America (5) I&S Survey of anthropological research among the traditional peoples of South America. Historical background and contemporary life of cultural groups of the Amazonian Basin. Transformation of traditional

lifestyles through the process of European conquest and the aftermath of colonialism. Detailed study of selected societies. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 405 Urban Health Methodologies: Ethnography of the Invisible in search of New Urban Commons (5) I&S Conduct urban anthropology field-research and examine paths for human liberation while exploring connections between contemporary urban anthropology theoretical perspectives, critical medical anthropology, and new and emerging social possibilities for new urban commons. Emphasis placed on ethnographic methods, introduced through field exercises that require the application of one or more techniques.

ANTH 406 China's Environment (5) I&S Analysis of contemporary environmental problems in China, including population, food, water supply, pollution, biodiversity, and environmental activism. Combines natural science and social science perspectives. Prerequisite: either ANTH 210, ENVIR 201, JSIS 200, JSIS 201, or JSIS 202. Offered: jointly with JSIS A 406.

ANTH 407 Global Futures in East Asia (5) I&S Explores interlinked modernity projects in China, Japan, Korea, and Taiwan and how the education of youth figures in projects of national development and international economic competition. Offered: jointly with JSIS A 407; AWSpS.

ANTH 408 Experiments in Southeast Asia (5) I&S J. Grant Exploration of science, health, development, and politics in Southeast Asia through ethnographic and historical case studies.

ANTH 409 Queer Health (5) I&S, DIV Examines the relationship between Western biomedicine and Queer theory. Critically analyzes the modes of thinking, caring, being, and expressing that emerge as a result of the "merger" of these two fields with contradicting views of gender, sex, health, wellbeing, and sexuality. Offered: jointly with GWSS 409.

ANTH 411 The Culture and Politics of Food: Study Abroad in Italy (8-12) I&S Study Abroad program at the UW Rome Center focusing on the organization, politics, economy, and culture of the local food system at increasing scales of analysis: the city of

Rome, the region of Lazio, the nation of Italy, the European Union, and the world.

ANTH 412 South Asian Social Structure (5) I&S, DIV Examines caste, class, and community in modern India. Transitions from colonial typology to analysis of social change, diversity, stability, and caste hierarchy in rural society. Current debates on class and community in Indian society, rural and urban, explored through themes of identity, structure, and mobility. Prerequisite: one 200-level ANTH course. Offered: jointly with JSIS A 412.

ANTH 413 Anthropology of the Modern Middle East and North Africa (5) I&S Presents an anthropological perspective on social/cultural aspects of contemporary Middle East and North Africa. Explores how anthropologists examine key issues in region including identity, politics, economics, religion, and conflict. Considers how ethnographic representations challenge assumptions about people's politics of region and elucidate contemporary manifestations of local, national, regional, and global power.

ANTH 414 Applied and Public Anthropology (5) I&S Considers the practical application of anthropology's methods and theories to the challenges and research needs of communities and organizations. Concentrates on a specific topic each quarter. Includes a required service-learning component that helps students connect classroom learning beyond the University.

ANTH 415 Visual Anthropology Methods: Video (5) VLPA Visual forms of communication as tools for understanding and communicating anthropological concepts. Requires weekly readings and film viewings. Central component is the production of a video for public engagement and consumption. Offered: A.

ANTH 416 Comparative Social Movements: Mexico and the United States (5) I&S, DIV D. PENA Historical, ethnographic, and theoretical perspectives in the study of Mexican-origin communities in social movements in Mexico and the United States with a focus on workers, immigrants, peasants, women, indigenous peoples, and students as forces of collective mobilization and social, cultural, and political change. Offered: jointly with CHSTU 416.

ANTH 417 Surfacing the Stories of Hanford: Local and Global Health Disparities (5) I&S, DIV Stories and experiences of people whose lives and land are shaped by the Hanford plutonium processing facility in central Washington. Students conduct research, including interviews and critical discourse analysis, and contribute to public education regarding health disparities and the intergenerational impacts of radiation exposure. Prerequisite: ANTH 215.

ANTH 418 Indian Heritage of Mexico and Central America (5) I&S, DIV Indian civilizations of Mexico and Guatemala, their origins and ecological foundations. Contemporary communities of Mexico and Guatemala, focusing on creative adaptation of pre-Columbian traditions to modern national realities. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 419 Collective Memory and Violence (5) I&S Present perspectives on cultural aspects of collective memory and relationship to violence. Explores how memories shape meaning of identity and community and influence contemporary conflict. Considers representations of the past in relation to collective violence, suffering, and trauma, including genocide. Considers relationship between memory and potential for justice and peace.

ANTH 420 The Social Life of Psychiatry (5) I&S Anthropological perspective on social and cultural aspects of contemporary psychiatry. Explores psychiatry as a social practice, an arena for competing cultural assumptions about mental illness and treatment, and a source of diagnostic categories and interpretive methods that influence larger society. Considers how psychiatry influences and is influenced by the cultural history of Europe and the United States.

ANTH 421 Belief, Ritual, and the Structure of Religion (5) I&S Systematic survey of concepts, models, and theories that characterize the anthropological study of religion. Consideration of the human universal basis of religion and of diverse ways in which religions are constructed and related to social experience. Prerequisite: either ANTH 321 or JSIS C 201; JSIS C 202.

ANTH 423 Traffic Across Cultural Boundaries (5) I&S Focuses on the movement of cultural patterns and processes across boundaries, examining the "contact

zones" in colonial encounters, moving to borrowing and blendings along ethnic and national borders. Examines border crossing of immigration and diasporas. Ethnographic examples from the Americas and Africa. Prerequisite: one 200-level ANTH course.

ANTH 424 Hunter-Gatherer Societies (4) I&S Comparative examination of human foraging societies, emphasizing ethnographic cases and socioecological analysis. Foraging and human evolution; rationality of foraging societies; population and reproductive strategies; variability in social organization and land use; power relations between the sexes; ritual and belief; contemporary status of hunter-gatherer populations. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 425 Anthropology of the Post-Soviet States (5) I&S L. BILANIUK Analysis of Soviet and post-Soviet culture and identity. Historical transformations in Soviet approaches to ethnicity and nationality; contemporary processes of nation building and interethnic conflict. Examination of culture through the intersection of social ritual, government policies, language, economic practices, and daily life. Regional focus varies. Offered: jointly with JSIS A 427.

ANTH 427 Anthropology in Urban Settings (3) I&S Cross-cultural examination of theoretical issues in anthropology as studied in urban places. Focuses on ethnic identity and the formation of urban ethnic groups; migration and its rural and urban consequences; family and kinship organization as an adaptation to urban complexity; the nature of urban voluntary associations; law and politics; and the developments in anthropological method. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 428 Anthropological Perspectives on Ethnicity (5) I&S, DIV Anthropological approaches to ethnicity and ethnic group relations with reference to other models including race, caste, class, regional groupings, nations, religion, and stratification. Data drawn from precolonial, colonial, and postcolonial periods. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 429 Expressive Culture (5) VLPA Anthropological view of one expressive aspect of

culture: plastic and graphic arts, myth and folktale, music, dance, humor and tragedy, or play and games. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 430 The Anthropology of Music (3) VLPA/I&S

Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with MUSIC 480.

ANTH 432 Sociolinguistics I (5) VLPA/I&S, DIV

Interrelationships between social and linguistic factors influencing variation in speech production and perception, morphology, syntax, lexicon. Considers contribution of ethnic, regional and socioeconomic group memberships to dialect differentiation and progression of language change. Nonstandard language, diglossia, pidgins, creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400. Instructors: Evans, Wassink Offered: jointly with LING 432.

ANTH 433 Sociolinguistics II (5) VLPA/I&S

Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Instructors: Wassink Offered: jointly with LING 433.

ANTH 435 Economic Anthropology (5) I&S

Chief features of nonmonetary and simple monetary economics. Impact of central or metropolitan market economy and industrial technology as peripheral systems, especially of small-scale and limited monetary circulation. Development and application in anthropology of economic concepts, including Marxian. Prerequisite: either one 200-level ANTH course or LING 203.

ANTH 437 Political Anthropology and Social Change (5) I&S

Study of politics from different anthropological perspectives, especially processual approaches to political change. Focused examination of cultural aspects of modern state formation in local

and regional contexts. Themes: colonialism and nationalism, regime and transitions, local politics and global processes, social construction of bureaucracy. Prerequisite: one 200-level ANTH course.

ANTH 439 Pidgin and Creole Languages (5)

VLPA/I&S Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Instructors: Wassink Offered: jointly with LING 430.

ANTH 442 Global Asia (5) I&S, DIV

Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with GWSS 446/JSIS A 452; W.

ANTH 443 Anthropology of Modern Japan (5) I&S

Examines the problem of modernity in Japan since the late nineteenth century, with emphasis on contemporary Japan. Critically addresses previous anthropological work concerning patterns of Japanese "culture." Particular focus on the influence of modern forms of power, media, and exchange in the construction of present-day Japan. Offered: jointly with JSIS A 449.

ANTH 444 Politics of Representation in Modern

China (5) I&S, DIV A. ANAGNOST Focuses on issues of representation and power in twentieth century China. Combines substantive information on modern Chinese society and culture with recent debates in social theory and the politics of representation. Major themes include Chinese nationalism, body politics, popular culture, and everyday practice. Offered: jointly with JSIS A 403.

ANTH 445 Literature and Society in Southeast Asia

(5, max. 10) VLPA/I&S Focus on either Vietnam or Thailand. Provides students with opportunity to explore how those living in Southeast Asia have reflected on the radical social changes their societies

have undergone through novels, short stories, and poetry. Prerequisite: either one 200-level ANTH course or LING 203. Offered: jointly with JSIS A 447.

ANTH 446 Class and Culture in East Asia (5) I&S, DIV

Examines the nexus between culture and systems of social stratification/class in East Asia, with an emphasis on Taiwan, Korea, Japan, and China. Topics include class formation, mechanisms of social mobility and reproduction, markers of status and hierarchy, resistance, and the formation of class identity. Offered: jointly with JSIS D 443.

ANTH 448 Modern Korean Society (5) I&S Sorensen

Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South Korea since 1945. Offered: jointly with JSIS A 448.

ANTH 449 Social Transformation of Modern East Asia (5) I&S Sorensen

Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Offered: jointly with JSIS A 405.

ANTH 450 Language and Gender (5) VLPA/I&S, DIV

Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with GWSS 450/LING 458.

ANTH 452 Explorations in Biopower (5) I&S

Explores Foucault's concept of biopower - power organized around life - from the perspectives of its theoretical mediations and its anthropological interventions. Looks at specific descriptions of what biopower is and ethnographic extensions of the concept to particular settings and experiences taking place within the modern state.

ANTH 453 Culture, Controversy, and Change: The Case of Female Circumcision (3) I&S

With female circumcision and its surrounding debates as "a tool to think with," develops a number of skills: identifying stakeholders and rhetoric in loaded

debates, assessing opposing arguments, critically evaluating scientific evidence, and situating controversial issues in their proper political, historical, social, and cultural contexts.

ANTH 454 Women, Words, Music, and Change (5)

VLPA/I&S, DIV Comparative analysis of use of myths, tales, music, and other forms of expressive culture to account for, reinforce, and change women's status and roles. Offered: jointly with GWSS 454.

ANTH 455 Areal Linguistics (3, max. 6) VLPA/I&S

Issues involved in classification of languages. Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Processes such as borrowing, vocabulary specialization, lexical change, and language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with LING 455.

ANTH 456 Contemporary Ethnography (5) I&S

Discusses several contemporary ethnographies. Focuses on what constitutes ethnography and how ethnography is done, as well as the relationship between ethnographic description, methodology, and theory. Covers a range of geographical areas, theoretical perspectives, and literary styles.. Prerequisite: either a 100- 200-level ANTH course or LING 203.

ANTH 457 Ecological Anthropology (5) I&S

Survey of anthropological research on interaction between human societies and their environments. Logic of different subsistence systems; intensification and transformation of subsistence strategies; population regulation; ecological aspects of human nutrition, disease, spatial organization, ethnicity, social stratification, conflict, and cooperation; historical roots of current ecological crisis.

ANTH 458 Ethnobiology: Plants, Animals, and People (5) I&S

Culturally mediated relationships between human and natural environment studied in a comparative and evolutionary framework. How do peoples in diverse cultures recognize and name plants and animals and understand their relationship with nature? How is this traditional ecological knowledge applied in people's daily lives? Prerequisite: either BIO A 201, ARCHY 205, or one 200-level ANTH course.

ANTH 459 Culture, Ecology, and Politics (5) I&S, DIV

Critical studies of class, gender and race differences in environmental politics. The political-economic dimensions of ecological change. Contemporary environmental movements including the varieties of bioregionalism, deep ecology, ecofeminism, ecosocialism, environmental justice, and social ecology. Offered: jointly with ENVIR 459.

ANTH 460 History of Anthropology (5) I&S

Sources and development of leading concepts, issues, and approaches in anthropology. Findings of anthropology in relation to scientific and humanistic implications and to practical application. Main contributors to field; their work and influence. Past, present, and future perspectives, including anthropology of modern life.

ANTH 461 Historical Ecology (5) I&S/NW

Explores a global range of case studies in the historical dimension of the environment, human adaptation, and cultural change. Investigates the co-evolution of environment and culture in archaeological and historical contexts. Develops a better understanding of modern human-environmental dynamics as historically situated. In

ANTH 463 Critiques of Contemporary Capitalism (5)

I&S Karl Marx inaugurated radical reworkings of both social theory and political action. Begins with some of his seminal writings, then considers the Frankfurt School, British labor theory, and postcolonial theory. Uses these readings to understand economy and subjectivity produced through the aporias of late capitalism. .

ANTH 464 Language Politics and Cultural Identity

(3) VLPA/I&S Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with LING 464.

ANTH 465 Critical Anthropology of Mass Culture (5)

I&S Critical overview of theories of mass culture and their relationship to current anthropological practice. Analyses of the historical interconnections among capitalism and commodity fetishism,

modernity and representation, and media and consumption.

ANTH 466 Anthropology Honors Thesis ([1-9]-, max.

18) I&S Individual research under the direction of a thesis adviser, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

ANTH 467 Anthropology of Education (5) I&S, DIV

Uses a wide range of social theory and philosophy to investigate mechanisms which reproduce inequality and asymmetry in American education.

ANTH 468 Anthropology of Care (5) I&S

Introduces the anthropology of care, with an emphasis on ethnographic studies of care practices. Considers how care practices generate patterns of relationality and visions of the human. Explores where caring happens, who is involved in care, what counts (or does not count) as deserving of care, and how politics shapes care.

ANTH 469 Special Studies in Anthropology (3-5,

max. 15) I&S Delineation and analysis of a specific problem or related problems in anthropology. Offered occasionally by visitors or resident faculty.

ANTH 470 Minority Peoples of China (5) I&S

Interaction between China and the peoples of its periphery, including inner Asia, Tibet, northern mainland Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisite: one 200-level ANTH course; LING 203; either ANTH 370/JSIS A 370 or HSTAS 454. Offered: jointly with JSIS A 470.

ANTH 471 Colonialism and Culture (5) I&S, DIV

Explores the cultural, political, and historical implications of the power to colonize. Readings include ethnographic, historical, and literary works on colonialism, nationalist responses, and postcolonial positions.

ANTH 472 Case Studies in Medical Anthropology and Global Health (5) I&S

Uses multidisciplinary case studies to analyze quantitative parameters of diseases; contrast the description and analytic approaches of health sciences, anthropology, and other social sciences; integrate diverse disciplinary perspectives into cohesive information; organize

class presentations; and apply critical thinking in approaches to complex health issues. Offered: Sp.

ANTH 473 Anthropology of Science and Technology

(5) I&S/NW Introduces the study of science and technology as social and cultural phenomena. Considers both theoretical and methodological questions. Readings include key texts from interdisciplinary field of science studies as well as selected ethnographic texts. Examples taken from U.S. society and other local contexts. Prerequisite: one 200-level ANTH course.

ANTH 474 Social Difference and Medical Knowledge

(5) I&S, DIV Explores relations between medical and social categories: how social differences become medicalized; how medical conditions become associated with stigmatized social groups; and how categories become sources of identity and bases for political action. Considers classifications (race, gender, sexuality, disability) and how each has shaped and/or been shaped by medical science/practice.

ANTH 475 Perspectives in Medical Anthropology (5)

I&S Introduction to medical anthropology. Explores the relationships among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with HSERV 475.

ANTH 476 Culture, Medicine, and the Body (5) I&S

Explores the relationship between the body and society, with emphasis on the role of medicine as a mediator between them. Case study material, primarily from contemporary bio-medicine, as well as critical, postmodern, and feminist approaches to the body introduced within a general comparative and anthropological framework.

ANTH 477 Medicine in America: Conflicts and

Contradictions (3) I&S Introduction to the pragmatic and theoretical dilemmas of current biomedical practice with emphasis on social and cultural context. Case studies in technological intervention, risk management, and other health-related issues used to explore connections among patients' experiences, medical practices, and the contemporary social context.

ANTH 478 Introduction to the Anthropology of Institutions (5) I&S

Historical, theoretical, and ethnographic perspectives on the study of total institutions, with an emphasis on prisons and psychiatric facilities. Includes issues of subjection and subjectivity, institutional social dynamics, and social justice concerns.

ANTH 479 Advanced Topics in Medical

Anthropology (3-5, max. 15) Explores theoretical and ethnographic advanced topics in medical anthropology.

ANTH 483 Africa Living with HIV/AIDS (5) I&S

Examines the epidemiological, historical, political-economic, and social-cultural dimensions of Africa living with HIV/AIDS and the current challenges and debates in international HIV/AIDS policy and programming. Various approaches and analytical models help students grasp the complicated and multiple effects, responses, conditions, and debates surrounding the African HIV/AIDS pandemic.

ANTH 484 Ideologies and Technologies of

Motherhood (5) I&S, DIV Examines how motherhood is culturally constituted, regulated, and managed within various ideological and technological milieus. Uses ethnographies from anthropology and case studies from feminist legal theory. Topics include slave mothers, surrogate mothers, lesbian mothers, transracial mothers, co-mothers, teen mothers. Prerequisite: GWSS 200. Offered: jointly with GWSS 458.

ANTH 487 Cultures and Politics of Environmental Justice (5) I&S, DIV

D. PENA Comparative survey of environmental justice movements in the world with focus on critical studies of environmental racism, risk, and sustainable development. Provides theoretical knowledge and research methods incorporating the study of equity and autonomy in environmental impact and risk assessment and other aspects of environmental policy politics. Offered: jointly with AES 487.

ANTH 488 Agroecology (5) NW/I&S

Cross-cultural survey of agroecological research methods, theoretical problems, policy issues, and ethical debates. Local knowledge and ethnoscientific bases of alternative agriculture. Comparative political ecology of agroecosystems with a focus on indicators of social equity and ecological sustainability.

ANTH 489 Anthropology Practicum (2-9, max. 15)

Faculty-supervised internships, either on or off campus, in organizations utilizing anthropological skills in nonacademic settings. Settings may include museums, academic journals, social service or other governmental agencies, and private nonprofit service agencies.

ANTH 490 Healthcare and Aging (5) I&S Explores healthcare and aging in anthropological perspective. Introduces population aging as global phenomenon, and its social and health consequences. Considers local variations in meaning and social organization of aging and the life course. Focuses on health challenges of aging and how they are understood and addressed. Readings emphasize ethnographic studies.

ANTH 491 Honors Colloquium (2, max. 12) I&S

Introduction to anthropological research. Students read original articles and papers and discuss them with authors. Research presenters include department faculty, visiting faculty, and advanced graduate students. Credit/no-credit only.

ANTH 492 Settler Colonialism (3) Explores the varied impact of late 20th and early 21st century European settlement across the globe. Focuses on both the global legacies of colonialism and the continued socio-political movements of indigenous populations. Encourages a broad perspective on what settler colonialism is like today.

ANTH 494 Feminist Performance Ethnography: Performing Art As and At the Site of Feminist (5) VLPA/I&S

Explores the relationship between ideas and practices of feminism, performance, and ethnography through readings, writing, movement, and artistic expression. Students conduct fieldwork and use personal narrative and everyday life performance techniques to create performances that explore the potential of performance ethnography to contribute to equity, liberation, and justice.

ANTH 495 Advanced Problems in Ethnology (3-5, max. 10) I&S Current problems in ethnology. Seminar format.

ANTH 496 Alter/Native Power: Exploring Alternative Strategies from Inside Anthropology Out (5) I&S, DIV Explore, question and challenge

externally-assigned identities and approaches to ethnography and social inquiry as a means to unpack and challenge the political and economic consequences of them, such as enslavement, poverty, or genocide, in service of re-creating and re-tooling a new anthropology for liberation.

ANTH 497 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5) I&S, DIV A. OSANLOO Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with LSJ 425.

ANTH 498 Women's Rights and Politics in Islamic Society (5) I&S, DIV A. OSANLOO Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with LSJ 421.

ANTH 499 Undergraduate Research (*, max. 12)

ANTH 500 Preceptorial Reading (6) For beginning graduate students who have not had adequate training in the problems, principles, and methods involved in the analysis and comparison of social and cultural systems. Not open to graduate students in the sociocultural anthropology program.

ANTH 503 Preceptorial Reading in Linguistic Anthropology (6) For beginning graduate students who have not had prior training in the problems, principles, and methods involved in linguistic anthropology. See also course description for ANTH 203. Not open to graduate students in the linguistics program.

ANTH 507 Current Issues in Sociocultural Anthropology (2) Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic anthropology. Prerequisite: first-year sociocultural graduate students in good

standing or permission of sociocultural faculty.
Credit/no-credit only.

ANTH 508 Current Issues in Sociocultural Anthropology (2) Biweekly presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to social, cultural, and linguistic anthropology. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty. Credit/no-credit only.

ANTH 509 Sociocultural Anthropology Problem Paper (4) All first-year graduate students in sociocultural anthropology select a topic for independent research, conduct that research, and prepare a paper of about 25-50 pages on the topic chosen. Prerequisite: first-year sociocultural graduate students in good standing or permission of sociocultural faculty.

ANTH 510 Seminar on North American Indians (3) Advanced comparative treatment of selected aspects of the Indian cultures and societies of North America.

ANTH 514 Regional Seminar (3-5, max. 15) Comparative treatment of selected aspects of cultures and societies of a particular region or area.

ANTH 515 Visual Anthropology Methods: Video (5) Visual forms of communication as tools for understanding and communicating anthropological concepts. Requires weekly readings and film viewings. Central component is the production of a video for public engagement and consumption. Offered: A.

ANTH 516 Rethinking Area Studies (5) "Area study" is critiqued for its sources of funding, relationship to governmentality, and for ignoring other forms of global linkage in its particular framing of cultural, social, and political connectivity. Designed for graduate students conducting research on, in, or across such an "area." Attempts to rethink regions.

ANTH 517 Seminar on South Asia (3) Advanced analysis of selected problems in South Asian ethnology and social structure. Prerequisite: ANTH 412.

ANTH 518 Advanced Qualitative Methods in Anthropology and Public Health (5)

ANTH 519 Advanced Qualitative Methods in Anthropology and Public Health (5) Provides students with both a theoretical foundation in qualitative approaches to research in anthropology and public health and in-depth training in qualitative data management, analysis, interpretation, and presentation. Focuses on how to frame research questions, design, appropriate research strategies that incorporate qualitative methods, and analyze data. Offered: jointly with G H 538; even years.

ANTH 521 Seminar on the Anthropological Study of Religion (3, max. 9) Advanced seminar in the anthropological study of religion designed for students who have a background in the theory and applications of theory developed in the anthropological study of religion. Seminar topics vary each quarter. Prerequisite: ANTH 422 and graduate standing; permission of instructor for graduate students in Comparative Religion.

ANTH 522 Peoples and Cultures of Central and Inner Asia (5) Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with JSIS D 572/NEAR E 558.

ANTH 523 Seminar on Religious and Political Violence (5) *Robinson* Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with JSIS B 523.

ANTH 524 Current Issues in Medical Anthropology and Global Health (2) Guest speakers showcase local expertise in the field. Speakers share information about the path that led them to research in MAGH, and raise current research questions in their field of expertise. Credit/no-credit only.

ANTH 525 Seminar in Culture Processes (3, max. 6)

The concept of process and its application to the study of culture.

ANTH 526 Political Islam and Islamic

Fundamentalism (3/5) *Robinson* Examines political Islam as a modern phenomenon produced at the intersections between localized and globalized political cultures and between political, religious, and social authority. Focuses on anthropological studies to examine how Islamic publics produce moral judgments about political practices. Offered: jointly with JSIS B 526.

ANTH 527 Ethnicities, Nations, and Cultural

Identities (3) Exploration of how cultural differences have been represented in ethnic and national narratives and how these narratives have shaped identities and social relations.

ANTH 528 Gender and Sexuality in China (5)

Explores gender and sexuality in China's process of modernization, from the late Qing dynasty through the building of the Republic, Communist revolution, and post-Mao economic reform. Examines, through historical, anthropological, and cultural studies scholarship, the centrality of these social constructs in terms of family, state, labor, body, and ethnicity. Offered: jointly with GWSS 528/JSIS A 528.

ANTH 530 Dialectology (3) The principles of dialect deviation as related to linguistic structure and usage.

Prerequisite: LING 452, LING 462, LING 508, or permission of instructor. Offered: jointly with LING 530.

ANTH 532 Sociolinguistics I (5) Examines social variation in the phonology, morphology, syntax, and lexicon of languages and dialects. Includes nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, and language attitudes.

Prerequisite: either LING 200 or LING 400. Instructors: Evans, Wassink Offered: jointly with LING 532; S.

ANTH 533 Law, Liberalism, and Modernity (5)

Examines relationships between law, culture, and power through post-structuralist theories that consider subjectivity, agency, and identity. Explores connections between modern liberal law and the body, possessive individualisms, and discourses of

rights. Topics include rights-talk, globalization, biopolitics, subject-making, modern nation-states, the rule of law, neo-liberalism, and legal cultures.

ANTH 535 Research Issues in Demography and Population Studies (1-2, max. 7)

Interdisciplinary seminar on current research issues in demography and population studies. Critical analysis and discussion of readings drawn from anthropological, economic, geographic, and sociological approaches. Credit/no-credit only. Offered: AWSp.

ANTH 536 Seminar in Visual Anthropology (3-5)

Significance of anthropological cinema and photography placed in historical perspective. Screening of films to determine the role of the anthropologist as filmmaker, as well as the role of the filmmaker as anthropologist.

ANTH 537 Political Anthropology and Law (3, max. 6)

Seminar on special topics in politics and law and their interrelationships.

ANTH 539 Social Movements in Contemporary India (5)

P. RAMAMURTHY Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with GWSS 539/JSIS A 531.

ANTH 540 Anthropology of Place (5) Explores a variety of ways that "place" has been studied and theorized. Attention paid to places as they are sensed, inscribed, practiced, narrated, scripted, created, and reclaimed. "Place" also discussed in relation to issues of the environment, travel, diaspora, race, class, and gender.

ANTH 541 Cultural Aspects of International

Development (3) Emergence of development as an aspect of late colonialism and the decolonization process. Ways in which development came to visualize social change in sectoral terms like rural land use, cities, and education, while objectifying people in target groups. Relationships between development and modernity, and development and globalization.

ANTH 543 Seminar in Anthropology and Political Theory (5) Examines the role of political theory in contemporary anthropology. Designed to work through particular thinkers or constellations of thought that inform anthropological thinking today. Content dependent upon instructor, but may include such topics as Marx, Weber, and Durkheim; Foucault, the Anthropology of Reason; and Frankfurt School.

ANTH 549 Dance Performance Ethnography (3)
McMains Theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses on dance methods and theories. Also discusses methods and theories applicable to other physical practices such as music, theatre, sports, and performance art. Offered: jointly with DANCE 550; W.

ANTH 550 Field Techniques in Ethnography (5)
Techniques of collecting, ordering, and utilizing ethnographic data in the field. Problems of rapport, elicitation, observation, interpretation, and ethics. Credit/no-credit only.

ANTH 551 Research Design (5) Focuses on the basic components, format, and writing style of grant proposals. Works through various stages of proposal writing, including titles, abstracts, introduction, theoretical orientations, significance, methodology, data analysis, etc. Discusses funding sources, human subjects reviews, and preparing budgets. Prerequisite: permission of instructor.

ANTH 552 Practicum in Ethnographic Research (3)
Techniques of data recording, analysis, and writing for the field ethnographer. Not recommended for non-anthropology graduate students. Prerequisite: ANTH 550; ANTH 551.

ANTH 556 The Evolution of the Family (3) Biological evolution of species-specific behaviors and forms of sociality linked to human mating, reproduction, and parenting. Cultural evolution of human systems of kinship and marriage as fitness-maximizing adaptations to a wide range of habitats. Prerequisite: upper-division course in evolutionary theory, population genetics, behavioral ecology, primatology, or animal behavior.

ANTH 559 Seminar in Language and Culture (3, max. 9) Theoretical and methodological problems in language and culture.

ANTH 560 Discourse and Culture (5) Exploration of discourse and narrative as culturally constitutive activities. Critical examination of the social implications of cultural variation in discourse. Techniques of discourse analysis in anthropological research.

ANTH 561 Seminar in Methods and Theories (3, max. 9)

ANTH 562 Clinically Applied Anthropology (3)
Anthropology as it relates to interdisciplinary delivery of culturally relevant healthcare. Cultural variation in illness beliefs and behavior, types of healing practices, illness prevention, social support networks. Prerequisite: graduate standing, permission of instructor. Offered: jointly with NURS 562.

ANTH 565 History of Sociocultural Anthropological Theory (5) First year core class that examines concepts at the heart of contemporary anthropological theory - race, culture, indigeneity, gender and sexuality, experience, ethnography, meaning, rationality, and representation, among others - emerged as foundational categories of analysis from the late nineteenth century onwards as anthropology came to be gradually defined as a distinct discipline of study. Prerequisite: graduate standing in anthropology or permission of instructor. Offered: A.

ANTH 566 Theory of Sociocultural Anthropology (5)
Second core-course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: ANTH 565.

ANTH 567 Theory of Sociocultural Anthropology (5)
Third core-course sequence for the beginning graduate student in sociocultural anthropology in which the development of theory is analyzed and emphasis is placed on the relation between theory and a growing body of ethnographic data. Prerequisite: ANTH 566.

ANTH 569 Special Topics in Sociocultural Anthropology (3-5, max. 15) Delineation and analysis of a specific topic or set of related topics in sociocultural anthropology.

ANTH 570 Environmental Anthropology (5) Current issues in the study of human environment interaction from a cross-cultural perspective: ecological adaptation and maladaptation; ethnoecology and indigenous knowledge; anthropogenic environmental change; political ecology of "development;" interrelations of cultural and biological diversity; conflicts over indigenous land use and property rights, environmental justice, resource conservation, and sustainability.

ANTH 572 Environmental Anthropology Research Methodology Colloquium (2, max. 10) Environmental anthropology research methodology and practice. Presentations by faculty and advanced students, hands-on exercises, and extensive discussion. Students at various stages in the program learn practical details of current methods. Limited to environmental anthropology PhD students. Credit/no-credit only.

ANTH 573 Current Issues in Environmental Anthropology (2, max. 10) Presentation and discussion of current research and scholarly literature in environmental anthropology and related fields. Prerequisite: graduate standing in any field of anthropology or permission of instructor. Credit/no-credit only.

ANTH 574 Culture, Society, and Genomics (3) B. MCGRATH Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with NURS 582/PHG 521; Sp.

ANTH 575 Cultural Construction of Illness: Seminar in Medical Anthropology (5) Historical and comparative examination of depression, neurasthenia, somatization, hypochondriasis, and hysteria. Anthropology of psychosomatics and psychiatry, including cultural analysis of selected biomedical, indigenous folk medical, and popular common-sense conceptualizations of illness.

ANTH 578 Special Topics in the Anthropology of Institutions (5) Explores theoretical issues.

ANTH 580 Presenting Research Effectively (2) Designed to help advanced graduate students develop the ability to present research projects effectively in a variety of formats relevant to the academic job-search process (c.v., job letter, interview, etc) . Faculty and alumni speakers share information, advice, and guidance regarding the job-search and the various paths toward meaningful employment. Credit/no-credit only.

ANTH 581 Dissertation Writing (3) Students experiment with different styles of anthropological writing. They apply writing techniques and styles to their own material. Students peer review for one another. Credit/no-credit only.

ANTH 583 Africa Living with HIV/AIDS (5) Examines the epidemiological, historical, political-economic, and social-cultural dimensions of Africa living with HIV/AIDS and the current challenges and debates in international HIV/AIDS policy and programming. Various approaches and analytical models help students grasp the complicated and multiple effects, responses, conditions, and debates surrounding the African HIV/AIDS pandemic.

ANTH 584 Ways of Speaking (5) Theory and literature of the ethnography of communication, with special emphasis on the descriptive-comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with COM 584.

ANTH 592 Settler Colonialism (3) Explores the varied impact of late 20th and early 21st century European settlement across the globe. Focuses on both the global legacies of colonialism and the continued socio-political movements of indigenous populations. Encourages a broad perspective on what settler colonialism is like today.

ANTH 599 Effective Teaching of Anthropology (1) Class required of all graduate students who accept teaching assistantships: instruction in teaching methods and issues, e.g., professional ethics, preparing and delivering lectures, leading discussion groups, test writing and grading, diversity in the classroom. Credit/no-credit only.

ANTH 600 Independent Study or Research (*-)

ANTH 700 Master's Thesis (*-) Credit/no-credit only.

ANTH 800 Doctoral Dissertation (*-) Credit/no-credit only.

ARCHAEOLOGY

ARCHY 101 Exploring Archaeology (5) I&S

Introduces perspectives from archaeology on the long term history of the diversity and the dynamics of human life. Examines how archaeologists gather and use data and how that information is relevant to contemporary society. Concepts and methods introduced through readings focus around a theme that varies such as environmental issues, warfare, and migration.

ARCHY 105 The Human Past (5) I&S Explores human cultural and biological evolution: how ancestors 2,500,000 years ago were like us but still different, Neanderthals and their extinction, social/economic revolutions from foraging to farming to states and empires, setbacks, failures, relationships with social and natural environments, and the role of technology. Examines the astonishing variety of adaptations humans have made.

ARCHY 109 Archaeology in Film (5) I&S Deals with depictions of archaeology by and for non-archaeologists and implication of those depictions at the intersection of archaeology, the human past, and popular culture.

ARCHY 205 Principles of Archaeology (5) I&S

Techniques, methods, and goals of archaeological research. Excavation and dating of archaeological materials. General problems encountered in explaining archaeological phenomena.

ARCHY 208 Introduction to Archaeological Data Science (5) NW Pyramids, Stonehenge, Nazi Death Camps: Pseudo-archaeology makes radical claims about such sites, but what do the data reveal? Tackles false claims about the human past using archaeological data. Hands-on experience of data analysis and visualization using the software program R in computing laboratories.

ARCHY 212 Introduction To Ancient Egyptian Archaeology (5) VLP/IA&S *Stephanie Selover* Survey of the archaeology, art, and architecture of ancient Egypt from the prehistoric cultures of the Nile Valley (c. 10,000 BCE) until the end of the New Kingdom (c.1000 BCE) , exploring Egyptian gods, divine kings, pyramids, temples, mummification, society, government, religion, medicine, magic, sex, childbirth, and death. Offered: jointly with NEAR E 209.

ARCHY 234 Trash and Dirt (5) I&S How do we develop a sense of disgust? What is the life cycle of cultural objects? How do people "clean up"? Where does your trash go? What can sh*t tell us about human history? What is considered "dirty" in different cultural contexts and different historical moments? Archaeologically centered exploration of diversity of human practices in defining and handling dirty stuff.

ARCHY 235 Exploring Graffiti: Combining Landscape Archaeology and Data Science (5) I&S Hidden stories behind Seattle's graffiti, combining techniques from archaeology and data science. What does graffiti say about the city? About anti-establishment struggle? About social vindications? Is it gendered? What types of graffiti populate the city? Where? Is graffiti opportunistic? Territorial? Are there graffiti hotspots? What does Seattle's graffiti ecology look like?

ARCHY 236 The Mystery behind the Material World (5) I&S Things are everywhere. We make them and they also make us. Things are evocative, aesthetic, and unnerving. They define us. We need them to communicate, to remember, to govern. But things need us too. This course is an introduction to the study of things, architecture, and so on from an interdisciplinary perspective. Topics such as identity, memory, commodities/gifts, cognition, and agency are explored through the analysis of the material world. Offered: jointly with ANTH 236.

ARCHY 269 Special Topics in Archaeology (3-6, max. 12) I&S Investigation of special topics in archaeology focusing on developing basic analytical, practical, and numerical skills.

ARCHY 270 Field Course in Archaeology (12) I&S Introduction to field acquisition of archaeological

data through survey and excavation. On-going field projects; recovery and recording techniques.

ARCHY 272 Short Field Course in Archaeology (5)

I&S/NW Learn how archaeologists detect human occupation on the landscape by surveying, excavating, and crating evidence of the past. Students learn from start to finish the process of archaeological field investigation. Location may change from year to year.

ARCHY 299 Archaeological Laboratory Techniques

(1-3, max. 12) I&S Laboratory procedures geared to one specific archaeological research project. Archaeological collection, its processing and curation, how archaeological materials are processed, and how significance is determined. No more than 5 credits may be used toward an anthropology major. Prerequisite: either ARCHY 105 or ARCHY 205.

ARCHY 303 Archaeology of Africa and Eurasia (5)

I&S Explores African and Eurasian prehistory from beginnings of human culture to rise of states and empires. Examines first tools made by humans, spread of humans out of Africa, origins of agriculture, and rise of state society. Covers Africa, Near East, Egypt, China, India, Europe. Prerequisite: ARCHY 205.

ARCHY 304 Archaeology of the Americas (5) I&S

Explores the history of earliest Americans, beginning with crossing of land bridge between Asia and North America and eventual spread over the Americas. Highlights prehistory and best examples of western hemisphere's states and empires. Covers Mexico, Yucatan, Peru, southwestern and eastern United States, Washington. Prerequisite: ARCHY 205.

ARCHY 309 Archaeology of Mainland Southeast

Asia (5) I&S Covers the archaeology of mainland Southeast Asia from the first colonization by hominins to the appearance of written texts, especially in Thailand, Cambodia, Laos, Vietnam, and Myanmar. Emphasizes methods of acquiring archaeological data and addressing current controversies about mainland Southeast Asia prehistory. Prerequisite: ARCHY 205.

ARCHY 313 Ancient Technologies of the Near East

(5) I&S Introduction to ancient pyrotechnic technologies. Covers the laboratory methods used

by modern archaeologists to study ancient ceramics, glass and metals, the methodologies behind the creation of these materials, and the invention of these technologies in the Near East, with brief comparisons with China and the New World. Offered: jointly with NEAR E 313.

ARCHY 319 Archaeology of Australia (5) I&S

Archaeology of Australia with an emphasis on understanding of the evidence and interpretation of both singular events and long-term processes in prehistory. Prerequisite: ARCHY 205.

ARCHY 320 Archaeology of the Northwest Coast (5)

I&S Origins, development, and variation of Pacific Northwest cultures, focusing particularly on Washington. Adaptations to maritime and interior environments. Artifacts from a variety of archaeological sites. Technological, functional, and historical significance of Northwest artifacts.

ARCHY 325 Archaeology of Island Southeast Asia

and the Pacific (5) I&S History of the human occupation of the South Pacific Islands, especially Indonesia, Philippines, Micronesia, Melanesia, and Polynesia. Focus on current debates about human migrations, long distance maritime trade, political structures, culture contact, and colonialism. Emphasis on the analysis of the primary archaeological and documentary data. Prerequisite: ARCHY 205.

ARCHY 345 Global Ethnoarchaeology (5) I&S

Examines ethnoarchaeological techniques, practices and hands-on applications to understanding how humans create and occupy archaeological sites and make artifacts from across the world.

ARCHY 369 Special Problems in Archaeology (3-6,

max. 12) I&S Delineation and analysis of a specific problem or related problems in archaeology focusing on developing research and scholarly communication skills.

ARCHY 372 Archaeological Field Recording

Techniques (5) I&S Teaches hands-on archaeological field techniques. Prerequisite: any 200 level ARCHY course

ARCHY 373 Principles of Archaeological Field

Recording (3) I&S Provides students the theoretical, technical, and mathematical basis for using different

recording and mapping devices (e.g. Total stations, DGPS, GIS) used in archaeology. Prerequisite: any 200 level ARCHY course

ARCHY 377 Archaeology of the Arctic (5) I&S

Archaeological history of the circumpolar arctic and subarctic from Pleistocene to the nineteenth century. Variability in human adaptation and social change in extreme cold environments such as Eurasian tundra, North Pacific rim, Beringia, and North American high arctic. Prerequisite: ARCHY 205.

ARCHY 378 Prehistory of the Arid West (5) I&S

Archaeology of arid western North America, with particular emphasis on the earliest peoples of this region (and on the peopling of the New World in general) , and on the prehistoric hunter-gathers of the Great Basin and Southwest.

ARCHY 403 The Archaeology of Landscapes (5) I&S/NW

Study of landscapes in archaeology. Methods for landscape research: historic maps, diaries, aerial photographs, geophysical and satellite imagery, etc. Archaeological landscape surveys: principles and limitations. Review of various theoretical approaches. Examination of key case studies, issues on landscape heritage, and indigenous landscapes. Prerequisite: any 200 level ARCHY course

ARCHY 410 Introduction to Archaeological Theory (5) I&S

Explores core theories guiding archaeological research for the past half century. Read and discuss exemplary expositions of different theoretical paradigms and their applications. Short essays and mock debates will challenge students to understand the goals and assumptions of different approaches, and the role they play in effective research. A final paper will go deeper on a topic of choice. Prerequisite: ARCHY 205 or permission of instructor

ARCHY 459 Special Topics in Archaeological Science (3-5, max. 10) I&S

Prerequisite: ARCHY 205

ARCHY 465 Public Archaeology (5) I&S Examines archaeology as practiced, regulated, represented, and paid for in the world outside of academia. Reviews the development of cultural resource management laws in the context of other social changes, investigates archaeology job opportunities outside of academia, and discusses how the public

learns about and funds archaeology. Prerequisite: ARCHY 205.

ARCHY 466 Archaeology Honors Thesis ([1-9]-, max. 18) I&S Individual research under the direction of a thesis adviser, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

ARCHY 467 Research Ethics in Archaeology: Conservation, Accountability, and Stewardship (5) I&S

Advanced survey of ethics issues that arise in archaeology including: accountability to descendent communities; professional codes of conduct; response to looting and commercial exploitation of the record; and the implications of a conservation ethic and principles of stewardship for archaeological practice.

ARCHY 469 Special Studies in Archaeology (3-6, max. 18) I&S

Consideration in detail of specific archaeological topics, either methodological or substantive in content, of current interest. Offered occasionally by resident, new, or visiting faculty. For advanced undergraduates and graduate students. Prerequisite: ARCHY 205.

ARCHY 470 The Archaeology of Extinction (5) I&S/NW

Uses archaeological and paleoecological data to examine the argument that prehistoric peoples caused vertebrate extinction, from the late Ice Age extinction of ground sloths and saber-toothed cats in North America to the extinction of moas in New Zealand some 500 years ago.

ARCHY 472 Historical Archaeology (5) I&S Theory and method in historical archaeology of the Americas. Prerequisite: ARCHY 205; ARCH 473 which must be taken concurrently.

ARCHY 473 Historical Archaeology Laboratory (3) I&S

Provides students training in historical material culture analysis. Prerequisite: ARCHY 205; ARCHY 472 which must be taken concurrently.

ARCHY 480 Advanced Archaeological Analysis: Ceramics (6) I&S

Surveys history of ceramic studies in archaeology and introduces analytical methods involving ceramic function, style, unit construction and sampling, use wear, and trade and exchange. Laboratory provides hands-on experience with prehistoric ceramics, and applies various techniques

for studying composition, form, manufacturing methods, and firing strategies. Prerequisite: ARCHY 205.

ARCHY 481 Zooarchaeology (6) NW/I&S Seminar on techniques and methods employed in analysis of faunal remains from a wide range of Pleistocene and Holocene settings, including archaeological sites, coupled with a laboratory focusing on identification of faunal remains from these settings.

ARCHY 482 Geoarchaeology (3) I&S Seminar on the identification, analysis, and interpretation of sediments and soils associated with archaeological remains. Covers geomorphology, geochemistry and geophysics in archaeology. Prerequisite: ARCHY 205.

ARCHY 483 Lithic Technology (5) NW, QSR Current approaches to analysis of lithic technology, including types of information obtainable (technological, functional, social, ideological) and constraints affecting the formation and analysis of lithic assemblages. Lectures and seminars surveying recent research and debates.

ARCHY 484 Archaeological GIS (5) I&S Teaches students the basics of GIS through a series of hands-on tutorials using archaeological datasets, and provides them with a critical view of the application of this tool within the field of archaeology. Prerequisite: any 200 level ARCHY course

ARCHY 486 Geoarchaeology Laboratory (3) I&S Laboratory course covering a variety of geoarchaeological techniques, with experiments designed to illustrate major concepts. Prerequisite: ARCHY 205; ARCHY 482, which may be taken concurrently.

ARCHY 487 Dating Methods in Archaeology (6) NW Introduces students to the theory and method of dating in archaeology. The class will be divided into two parts. The first part will (a) give a general overview of dating theory, (b) survey several of the main dating methods, and (c) provide discussion of particular applications presented by the students. The second part will focus on the methodology and technique of one particular dating method, luminescence dating.

ARCHY 488 Lithic Technology Laboratory (3) Application of methods to archaeological problems

relating to stone artefacts. Basic lab skills to prepare for advanced research. Prerequisite: ARCHY 205.

ARCHY 489 Archaeology Practicum (2-9, max. 15) I&S Faculty-supervised internships either on or off campus in organizations utilizing archaeological skills in academic or non-academic settings. Includes cultural resource management companies, government agencies, private non-profit organizations, tribal governments, and museums.

ARCHY 490 Museum Curation Practicum: Archaeology (1-5, max. 15) Application of museological training in curation of archaeological collections including ethnographic, geological, or zoological collection materials in the Burke Museum. Supervised work ranges from fundamental collection documentation and research to preventive conservation, storage, and other special curation projects:

ARCHY 494 Archaeological Data Visualization (5) NW Data visualization, an essential component for discovering, understanding and communicating information provides a solid background in the theory and practice of data visualization as it applies to archaeological datasets and paleo-environmental datasets. Uses graphical packages found in the Python ecosystem to explore elementary concepts in archaeological narratives, visually.

ARCHY 495 Quantitative Archaeological Analytic Techniques (5) NW, QSR Introduction to quantitative approaches to archaeological problems; data screening, numeric methods of classification and identification, graphical and computer-based seriation techniques, and the analysis of spatial patterning in artifact distributions.

ARCHY 496 Computational Quantitative Methods in Archaeology (3) NW Introduction to basic programming skills, computational solutions and visualization techniques needed to explore and investigate archaeological datasets.

ARCHY 499 Undergraduate Research (*, max. 12)

ARCHY 508 Histories of Archaeological Theory and Practice (5) Advanced history of archaeological theories and traditions of research practice. Topics include the formation of scientific and humanistic research traditions in anthropological archaeology;

comparative global histories of archaeology; object biographies and histories of craft practice in emerging research traditions; and critical histories of inequality and marginality in archaeology.

ARCHY 509 Archaeology and Explanation (5)

Analytical and historical examination in archaeology and philosophy of science. Prerequisite: permission of instructor.

ARCHY 510 Introduction to Archaeological Theory

(5) Explores core theories guiding archaeological research for the past half century. Read and discuss exemplary expositions of different theoretical paradigms and their applications. Short essays and mock debates will challenge students to understand the goals and assumptions of different approaches, and the role they play in effective research. A final paper will go deeper on a topic of choice.

Prerequisite: ARCHY 205 or permission of instructor

ARCHY 512 Looting and Loss (5) Explores the history and context of the recent politicization, looting, and destruction of archaeological and cultural sites in the Middle East and beyond, set against the background of museums, antiquities laws, and the ethical considerations of modern archaeologists.

ARCHY 513 Ancient Technologies of the Near East

(5) Introduction to ancient pyrotechnic technologies. Covers the laboratory methods used by modern archaeologists to study ancient ceramics, glass and metals, the methodologies behind the creation of these materials, and the invention of these technologies in the Near East, with brief comparisons with China and the New World. Offered: jointly with NEAR E 513.

ARCHY 519 Archaeology of Australia (5) *B. Marwick*

Archaeology of Australia with an emphasis on understanding of the evidence and interpretation of both singular events and long-term processes in prehistory. Recommended: A background at least equivalent to a bachelor's degree in the field or a related interdisciplinary field Offered: AWSpS.

ARCHY 520 Principles of Archaeological Theory (5)

Review of principles of archaeological theory. Student presentation of research on archaeological theory and seminar discussion or presentations. Open only to first-year graduate students in anthropology.

ARCHY 525 Archaeology of Island Southeast Asia and the Pacific (5)

History of the human occupation of the South Pacific Islands, especially Indonesia, Philippines, Micronesia, Melanesia, and Polynesia. Focus on current debates about human migrations, long distance maritime trade, political structure, culture contact, and colonialism. Emphasis on the analysis of the primary archaeological and documentary data.

ARCHY 530 Prehistory of the Northwest Coast (5)

ARCHY 535 Exploring Graffiti: Combining Landscape Archaeology and Data Science (5)

Hidden stories behind Seattle's graffiti, combining techniques from archaeology and data science. What does graffiti say about the city? About anti-establishment struggle? About social vindications? Is it gendered? What types of graffiti populate the city? Is graffiti opportunistic? Territorial? Are there graffiti hotspots? What does Seattle's graffiti ecology look like?

ARCHY 545 Ethnoarchaeology (5) Examines ethnoarchaeological research, theory, techniques, practices, and hands-on applications to understand how humans create and occupy contemporary sites in order to better understand archaeological sites. Part of the requirement will be to explore processes of creating an artifact from a culture.

ARCHY 560 Seminar in Archaeological Methods (5, max. 20) Basis, limitations, and applications of a particular archaeological analytical method, or closely related set of methods. Prerequisite: permission of instructor.

ARCHY 561 Dating Methods in Archaeology (6)

Theory and method of dating in archaeology. How archaeologists determine time, in both relative and absolute senses. Methodology of stratigraphy, seriation, radiocarbon dating, dendrochronology, obsidian hydration dating and other methods. Special emphasis on, and laboratory experience in, luminescence dating.

ARCHY 570 Seminar in Archaeological Theory (3-6, max. 18)

Detailed consideration of a particular archaeological theory or closely related set of theories, including their methodological and epistemological bases.

ARCHY 573 Indigenous Archaeology (5) Examines theory, method, and ethical issues raised by indigenous approaches to archaeological practice. Prerequisite: permission of instructor.

ARCHY 574 Meta-archaeology: Philosophy and Archaeology (1-5, max. 5) Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about science and values. Offered: jointly with PHIL 574.

ARCHY 575 Archaeological Field Research Design (6) Nature of the archaeological record, and methods and techniques of field research, to illustrate range of data sources and modern techniques of general applicability. Practical experience in mapping, map interpretation, sampling design, remote sensing, photogrammetry, and research proposal writing. Prerequisite: permission of instructor.

ARCHY 576 Designing Grant Proposals (5) Design and writing of grant proposals for archaeological research at both dissertation and senior investigator levels, with particular emphasis on National Science Foundation structure and requirements. Prerequisite: upper-level graduate standing and permission of instructor.

ARCHY 579 Approaches to the Material World (5) Exploration of major theoretical approaches used to understand the relationship between people, the material world, and objects (material culture) .

ARCHY 599 Teaching Archaeology (2-6, max. 12) Provides instruction in archaeological pedagogy. Includes syllabus development, text selection, lesson planning and delivery, lab section planning, assessment and grading strategies, technological support, staff management, and troubleshooting.

ARCHY 600 Independent Study or Research (*-) Prerequisite: permission of instructor.

ARCHY 601 Internship (3-10, max. 10) Credit/no-credit only.

BIOLOGICAL ANTHROPOLOGY

BIO A 100 Evolution and Human Behavior (5) I&S/NW Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Offered: jointly with BIOL 108.

BIO A 101 Human Biological Diversity (5) NW Exploration of human biological variation, including skin color, body form, blood groups, genetics, and reproductive strategies. Introduction to the theory of evolution through natural selection. Offered: A.

BIO A 136 Our Inner Primate (5) NW/I&S Nonhuman primates (NHPs) are humans' closest living relatives, though the relationship is complex and ethically fraught. Explores how NHPs have influenced the way humans think about culture, art, music, religion, language, biomedical research, conservation, and the way humans perceive themselves.

BIO A 201 Principles of Biological Anthropology (5) NW Evolution and adaptation of the human species. Evidence from fossil record and living populations of monkeys, apes, and humans. Interrelationships between human physical and cultural variation and environment; role of natural selection in shaping our evolutionary past, present, and future. Offered: AWSpS.

BIO A 206 Plagues and Peoples (5) I&S/NW Infectious diseases have shaped human culture, biology, and history, in a remarkable array of ways for different pathogens and different societies. Uncovers why, by considering in turn the biology, demography, and cultural history of epidemics. Students develop a broader understanding of biocultural approaches to human disease. Offered: Sp.

BIO A 208 Sex and Evolution (5) I&S/NW Addresses the evolution of sexual reproduction and mating behavior, particularly as exhibited by humans. Focuses on concepts such as natural selection, sexual selection, and kin selection. Demonstrates how evolution can inform our understanding of sexual strategies, conflict, and orientation, as well as marriage, parenthood, and mate preferences.

BIO A 269 Special Problems in Biological Anthropology (3-6, max. 12) I&S/NW Explores a specific problem or set of problems in biological anthropology with a focus on understanding how the problem is framed and communicated using different theoretical and methodological frameworks.

BIO A 270 Human and Comparative Anatomy (5) NW Introduction to the primate anatomy. The anatomy is described in detail.

BIO A 300 Evolutionary Biology of Women (5) NW Explores evolutionary influences on human female biological development and physiological expression from puberty through menopause. Applies a biocultural perspective, encompassing ecological and cultural influences, in examining variation in these biological processes and expressions across and within populations. Prerequisite: BIO A 101 or BIO A 201

BIO A 344 Applied Biomechanics of Human Movement (5) NW, QSR Explores human motion using the principles of Newtonian mechanics, including kinematics and kinetics of movement. Recommended: high school trigonometry.

BIO A 348 Evolutionary Biology and Human Diversity (5) NW Examines human biological diversity in the context of our primate history with modern evolutionary theory as the framework. Prerequisite: BIO A 201.

BIO A 350 Men's Health across the Lifespan (5) I&S Explores demographic, biological, epidemiological, psychological, sexual, sociological, cultural, and economic perspectives on the health of males.

BIO A 351 Principles of Evolutionary Medicine and Public Health (5) NW Introduces evolutionary theory and explores evolutionary causes of health and disease. Considers how natural selection and the legacies of our human, primate, and deeper ancestries have shaped our biology. Topics include mental disorders, aging, cancer, diet, obesity, diabetes, infectious diseases, racism, and health differences between human groups.

BIO A 355 Evolutionary Medicine and Public Health (3) NW Explores evolutionary causes of health and disease. Considers how natural selection and the

legacies of our human, primate, mammalian and bacterial ancestries have shaped our biology. Topics include mental disorders, aging, cancer, diet, obesity, diabetes, infectious diseases, racism, and health differences between human groups. Prerequisite: either BIO A 201 or BIOL 180. Offered: jointly with BIOL 385.

BIO A 369 Special Issues in Biological Anthropology (2-6, max. 12) NW Exploration and analysis of a specific issue in biological anthropology with a focus on critical analysis on methodological approaches and theoretical frameworks.

BIO A 370 The Nonhuman Primates (5) NW Origins, major evolutionary trends, and modern taxonomic relationships of the nonhuman primates. Their distribution and habitat in relation to behavioral and morphological adaptations and their status as endangered species.

BIO A 372 Uses and Abuses of Evolutionary Views of Human Behavior (5) I&S/NW Interaction of human behavior and biology as it has been interpreted within an evolutionary framework. Discusses various challenges to Darwinian theory, particularly Lamarckism and creationism. Topics include biological determinism as exemplified by racism, myths of human origins, the clash between biological and cultural determinism, and modern genetics and behavior. Prerequisite: BIO A 201

BIO A 382 Human Population Biology (3) NW Explores human fertility and mortality, and their relationships to the size and structure of populations through time. Emphasizes the biological and cultural determinants of these life course events in evolutionary perspective. Introduces the quantitative tools needed to understand these phenomena, including formal demography, epidemiology, and population genetics. Prerequisite: BIO A 201.

BIO A 387 Ecological Perspectives on Environmental Stress, Adaptation, and Health (5) NW How human populations respond to environmental stressors in biological-behavioral terms and the relationship of this adaptational process to health. Nutritional, climatic, and sociocultural stress and associated patterns of birth, disease, and death throughout human history in hunting, gathering, farming, pre-

industrial, and industrial societies. Prerequisite: BIO A 201.

BIO A 388 Human Fossils and Evolution (5-) NW

First of a two-part series. Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: either BIO A 201 or BIOL 180.

BIO A 389 Human Fossils and Evolution (-5) NW

Second of two-part series. Evolution of human anatomy and behavior as adaptations to changing environments. Human fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Prerequisite: BIO A 388. Offered: S.

BIO A 409 Human Sexual Selection (5) NW

Application of sexual selection theory to humans. Explores current literature, including research methods, ongoing debates, and relationship between data and theory. Examines topics such as sexual dimorphism, mate choice, intra-sexual contests, sperm competition, sexual conflict, and reproductive outcomes. Prerequisite: BIO A 208.

BIO A 413 Human-Primate Interface: Implications for Disease, Risk, and Conservation (5) NW A

multidisciplinary approach to exploring the transmission of pathogens at the human-primate interface. Delves into the challenges of mitigating the impact of primate-borne infectious diseases on public health as well as conserving free-ranging primate populations in the twenty-first century. Offered: Sp.

BIO A 420 Anthropological Research on Health Disparities (5) I&S

Students conduct original research on the social determinates of health disparities in populations residing in King County, Washington. Students gain experience in qualitative research methods, and integrate primary data analysis with information in the published literature on determinants of health. Prerequisite: ANTH 215.

BIO A 423 Social Networks and Health: Biocultural Perspectives (5) I&S Examines the many ways that social interactions positively and negatively influence

our health, and vice versa.. Considers why such influences are important to understand, how one measures them, what recent research has shown, and explores how they relate to other health determinants, both biological and cultural.

BIO A 450 Biodemography Seminar (5) I&S/NW

Introduction to theory, methods, and literature of biodemography. Examines biological mechanisms underlying patterns of aging, mortality, fertility, and population growth and decline. Includes readings from anthropology, sociology, demography, evolutionary biology, molecular biology, and epidemiology. Covers prehistoric, historic, and modern human populations, and non-human model systems. Offered: W.

BIO A 454 Hormones & Behavior (5) NW

Bidirectional interactions between human behavior and hormonal responses, with emphasis on stress, biological rhythms, challenge, and arousal. Examination of logistical and ethical issues related to biomarker data collection in anthropological, biodemographic, and epidemiological research. Co-requisite: BIO A 455.

BIO A 455 Laboratory Methods in Hormones & Behavior (3) NW

Introduction to the theory and methods of laboratory-based research on human behavior and hormonal responses, with emphasis on stress, reproductive functioning, and prosociality. Covers lab methods for enzyme-linked immunosorbent assays (ELISAs) and their application in anthropological, biodemographic, and epidemiological research. Co-requisite: BIO A 454.

BIO A 459 Laboratory Methods in Anthropological Genetics (5) NW

Introduction to the theory and methods of laboratory-based research in anthropological genetics. Covers laboratory methods for sample collection, DNA extraction, genotyping, analysis, emerging molecular genetics technologies, and their application in anthropological, biodemographic, and epidemiological research. Student design and carry out a laboratory-based project. Prerequisite: BIO A 201.

BIO A 465 Nutritional Anthropology (3) I&S/NW

Examines the interrelationships between biomedical, sociocultural, and ecological factors and their influence on the ability of humans to respond to variability in nutritional resources. Topics covered

include diet and human evolution, and nutrition-related biobehavioral influences on human growth, development, and disease resistance. Prerequisite: BIO A 201. Offered: jointly with NUTR 465.

BIO A 466 Biological Anthropology Honors Thesis ([1-9]-, max. 18) NW Individual research under the direction of a thesis adviser, culminating in a senior honors thesis. Open only to upper-class students in departmental honors program.

BIO A 468 Human Reproductive Ecology (5) NW/I&S Examines fertility variation within and across human societies. Biocultural and ecological perspectives on male and female reproductive maturation and senescence, female fecundity, birth intervals, parental investment and cooperative breeding. Prerequisite: BIO A 208.

BIO A 469 Special Topics in Biological Anthropology (3-5, max. 15) NW Delineation and analysis of a specific problem or a more general area in biological anthropology. Offered occasionally by visiting or resident faculty.

BIO A 470 Evolution of Human Behavior (5) I&S/NW Key concepts, research strategies, and debates concerning the processes and outcomes of human behavioral evolution. Emphasizes the complementarity of various methods and theories for understanding human biocultural evolution, including behavioral ecology, dual transmission theory, phylogenetic analysis, and evolutionary psychology. Prerequisite: BIO A 201.

BIO A 471 Evolutionary Perspectives on Parenting and Childcare (5) NW Examines the use of evolutionary principles to understand variation in parenting and childcare practices in modern, historic, and prehistory human populations. Contextualizes human parenting and childcare adaptations in a broadly comparative and theoretical perspective.

BIO A 473 Biological Adaptability of Human Populations (5) NW Mechanisms enabling humans to maintain homeostasis in extreme environments: high altitude, heat, cold, nutritional deficiency, radiation. Adaptive process operating at levels of physiology, metabolism, and population, including the strategies of fertility and birth spacing. Prerequisite: BIO A 201.

BIO A 476 Sociocultural Ecology and Health (3) NW Sociocultural ecology of health/disease, focusing on humans as bioculturally integrated beings and on populations as biocultural units of adaptation. Examples of research on disease, both infectious and chronic, and patterns of morbidity and mortality, infant, maternal, old age, with particular attention to situations of sociocultural changes. Prerequisite: BIO A 201.

BIO A 477 Evolutionary Perspectives on Sex and Gender Roles (3) I&S/NW Critical examination of theories explaining the evolution of sex differences and associated gender roles. Consideration of gender differences in mate preferences, parental investment, subsistence, aggressiveness, and risk-taking. Stresses interactions between biology and culture. Prerequisite: BIO A 201.

BIO A 482 Human Population Genetics (5) NW, QSR Micro-evolutionary changes in human populations. Effects of mutation, selection, inbreeding, gene flow, and genetic drift as causes of evolutionary change. Prerequisite: BIO A 201.

BIO A 483 Human Genetics, Disease, and Culture (5) NW Considers relationships among genetic aspects of human disease, cultural behavior, and natural habitat for a wide variety of conditions. Also considers issues of biological versus environmental determinism, adaptive aspects of genetic disease, and the role of cultural selection. Prerequisite: BIO A 201.

BIO A 484 Applied Human Growth and Development (5) NW Examination of cultural, ecological, and evolutionary factors influencing variation in human growth and development from fetal life to adolescence. Quantification of variation in growth and nutritional status using basic computational software and statistical assessment.

BIO A 485 Research in Growth and Development (2, max. 8) NW Focus on topics relating to primate growth and development. Prerequisite: either BIO A 484, BIO A 495, or BIO A 496, any of which may be taken concurrently.

BIO A 486 Primate Socioecology (3) NW Variety of social systems exhibited by nonhuman primates and adaptive significance of these societies; social systems in terms of the present ecology and

evolutionary past of the species; the function of communicatory gestures and vocalizations, tradition, kinship, and social roles in maintaining and structuring groups over generations; the relationship among mating systems, foraging strategies, ranging patterns, and ecological separation. Prerequisite: either BIO A 370 or PSYCH 418.

BIO A 487 Human and Comparative Osteology (5)

NW Introduction to the vertebrate skeleton. The skeleton is described in detail and various methods of determining age and sex, as well as osteometry and modern statistical methods for handling such data, are presented.

BIO A 488 Primate Evolution (5) NW Major trends in nonhominid primate evolution through the Cenozoic. Discussion of the specimens, geological context, and age of the fossil taxa and their relationship to modern taxa. Practical experience in analyzing fossil material. Prerequisite: BIO A 201.

BIO A 491 Issues in Human Paleontology (5) NW

Addresses the relevance of the hominin fossil record in understanding the evolution of our species. Prerequisite: either BIO A 388.

BIO A 495 Growth and Development: Infancy (5)

NW Genetic and environmental influences on growth and development from prenatal life through infancy. Includes exploration of methods for assessing development and comparisons of development in non-human primates with human development. Prerequisite: BIO A 370.

BIO A 496 Growth and Development: Adolescence and Reproductive Maturity (5) NW

Genetic and environmental influences on growth and development during adolescence. Emphasis on the interaction of biological and social factors in attainment of reproductive maturity. Compares conditions of non-human primates with human conditions. Prerequisite: BIO A 370.

BIO A 499 Undergraduate Research (*, max. 12)

BIO A 502 Preceptorial Reading (6) For beginning graduate students who have not had adequate training in the study of primate principles and methods involved in the study of evolution, human genetics, and the evolution of modern populations.

Not open to graduate students in the biological anthropology program. Offered: AWS.

BIO A 520 Human Behavioral Ecology (3-5)

Principles and methods of evolutionary behavioral ecology, and critical examination of their application to human behavior in such areas as resource utilization, mating, parenting, life history, cooperation, and competition.

BIO A 521 Hominin Evolution (5-) Evolution of hominin anatomy and behavior as adaptations to changing environments. Hominin fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Offered: W, odd years.

BIO A 522 Hominin Evolution (-5) P. KRAMER

Evolution of hominin anatomy and behavior as adaptations to changing environments. Hominin fossils: their geological context, age, ecological setting used to reconstruct the evolution of our species during the last six million years of earth history. Offered: Sp, odd years.

BIO A 523 Social Networks and Health: Biocultural Perspectives (5)

Examines the many ways that social interactions positively and negatively influence our health, and vice versa. Considers why such influences are important to understand, how one measures them, what recent research has shown, and explores how they relate to other health determinants, both biological and cultural Offered: jointly with CS&SS 523.

BIO A 525 Biocultural Research Methods and Study Design (5)

Survey of basic conceptual issues in the design of empirical research, with special attention to problems that arise during anthropological fieldwork. Topics include defining data needs, sampling strategies, problems with co-funding, proposal writing, human subjects approval, and basic ethical issues in human biocultural research.

BIO A 526 Quantitative Methods and Modeling for Biocultural Anthropology (5)

Surveys the concepts, tools, and methods for developing quantitative models based on underlying biocultural processes. Introduces methods of testing models from observations collected in anthropological field studies. Oriented toward longitudinal research of

fertility, mortality, disease dynamics, population genetics, and other biocultural processes.

BIO A 544 Applied Biomechanics of Human Movement (5) Explores human motion using the principles of Newtonian mechanics, including kinematics and kinetics of movement. Recommended: high school trigonometry.

BIO A 550 Skeletal Biology and Prehistoric Demography (5) Composition and structure of calcified tissue. Analytical techniques and their contribution to interpretation of the archaeological record.

BIO A 559 Laboratory Methods in Anthropological Genetics (5) Introduction to the theory and methods of laboratory-based research in anthropological genetics. Covers laboratory methods for sample collection, DNA extraction, genotyping, analysis, emerging molecular genetics technologies, and their application in anthropological, biodemographic, and epidemiological research. Student design and carry out a laboratory-based project. Prerequisite: BIO A 201.

BIO A 568 Human Reproductive Ecology (5) A consideration of the determinants of fertility variation within and among traditional human societies. Biocultural and ecological perspectives on pubertal timing, nuptiality, duration of birth intervals, and reproductive senescence.

BIO A 569 Behavioral Ecology and Demography (5) Demographic analysis relevant to anthropological research on small populations. Use of data collected through local surveys, genealogical methods, and from other sources. Focuses on use of demography to analyze social and biological processes with adaptive and/or cultural-historical significance. Emphasizes theoretical approaches.

BIO A 584 Topics in Ecology and Adaptation (3, max. 9) Seminar dealing with various aspects of ecology and adaptation. Topics vary each quarter.

BIO A 588 Topics in Primate Evolution (3) Emphasis on fossil taxa and their importance in understanding the morphologies and distributions of members of modern taxa. Prerequisite: BIO A 488 and permission of instructor.

BIO A 590 Biological Anthropology Seminar (2, max. 18) Includes presentations by participants and guest lecturers of current literature and ongoing research in topics pertaining to human and nonhuman primate evolution, biology, anatomy, genetics variation, and behavior. Credit/no-credit only.

BIO A 591 Issues in Hominin Paleontology (5) Addresses the relevance of the hominin fossil record in understanding the evolution of our species.

BIO A 600 Independent Study or Research (*-)

APPLIED MATHEMATICS

APPLIED MATHEMATICS

AMATH 301 Beginning Scientific Computing (4) NW Introduction to the use of computers to solve problems arising in the physical, biological, and engineering sciences. Application of mathematical judgment, programming architecture, and flow control in solving scientific problems. Introduction to MATLAB and Python routines for numerical programming, computation, and visualization. Prerequisite: either MATH 125, Q SCI 292, or MATH 135. Offered: AWSpS.

AMATH 342 Introduction to Neural Coding and Computation (3) Introduces computational neuroscience, grounded in neuronal and synaptic biophysics. Works through mathematical description of how neurons encode information, and how neural activity is produced dynamically. Uses and teaches Matlab as a programming language to implement models of neuronal dynamics and to perform coding analysis. Prerequisite: MATH 125 or MATH 135. Offered: W.

AMATH 351 Introduction to Differential Equations and Applications (3) NW Introductory survey of ordinary differential equations; linear and nonlinear equations; Taylor series; and Laplace transforms. Emphasizes on formulation, solution, and interpretation of results. Examples drawn from physical and biological sciences and engineering. Prerequisite: MATH 125 or MATH 135. Offered: AWSpS.

AMATH 352 Applied Linear Algebra and Numerical Analysis (3) NW Analysis and application of numerical methods and algorithms to problems in

the applied sciences and engineering. Applied linear algebra, including eigenvalue problems. Emphasis on use of conceptual methods in engineering, mathematics, and science. Extensive use of MATLAB package for programming and solution techniques. Prerequisite: MATH 126 or MATH 136. Offered: AWSpS.

AMATH 353 Partial Differential Equations and Waves (3) NW Covers traveling waves of linear equations, dispersion relation, stability, superposition and Fourier analysis, d'Alembert solution, standing waves, vibrations and separation of variables, traveling waves of nonlinear equations, conservation laws, characteristics, breaking, shocks, and rarefaction. Prerequisite: either AMATH 351, MATH 136, or MATH 307. Offered: Sp.

AMATH 383 Introduction to Continuous Mathematical Modeling (3) NW Introductory survey of applied mathematics with emphasis on modeling of physical and biological problems in terms of differential equations. Formulation, solution, and interpretation of the results. Prerequisite: either AMATH 351, MATH 136, or MATH 307. Offered: AWS.

AMATH 401 Vector Calculus and Complex Variables (4) NW Emphasizes acquisition of solution techniques; illustrates ideas with specific example problems arising in science and engineering. Includes applications of vector differential calculus, complex variables; line-surface integrals; integral theorems; and Taylor and Laurent series, and contour integration. Prerequisite: either MATH 126 or MATH 136. Offered: A.

AMATH 402 Introduction to Dynamical Systems and Chaos (4) NW Overview methods describing qualitative behavior of solutions on nonlinear differential equations. Phase space analysis of fixed pointed and periodic orbits. Bifurcation methods. Description of strange attractors and chaos. Introductions to maps. Applications: engineering, physics, chemistry, and biology. Prerequisite: either AMATH 351, MATH 136, or MATH 307. Offered: W.

AMATH 403 Methods for Partial Differential Equations (4) NW Covers separation of variables, Fourier series and Fourier transforms, Sturm-Liouville theory and special functions, eigenfunction expansions, and Greens functions. Prerequisite:

AMATH 401; either AMATH 351, MATH 136, or MATH 307. Offered: Sp.

AMATH 422 Computational Modeling of Biological Systems (3) NW Examines fundamental models that arise in biology and their analysis through modern scientific computing. Covers discrete and continuous-time dynamics, in deterministic and stochastic settings, with application from molecular biology to neuroscience to population dynamics; statistical analysis of experimental data; and MATLAB programming from scratch. Prerequisite: either MATH 135, MATH 307, or AMATH 351 Offered: A.

AMATH 423 Mathematical Analysis in Biology and Medicine (3) NW Focuses on developing and analyzing mechanistic, dynamic models of biological systems and processes, to better understand their behavior and function. Applications drawn from many branches of biology and medicine. Provides experiences in applying differential equations, difference equations, and dynamical systems theory to biological problems. Prerequisite: either AMATH 351, MATH 307, or MATH 135; and STAT 390. Offered: W.

AMATH 481 Scientific Computing (5) Project-oriented computational approach to solving problems arising in the physical/engineering sciences, finance/economics, medical, social, and biological sciences. Problems requiring use of advanced MATLAB routines and toolboxes. Covers graphical techniques for data presentation and communication of scientific results. Prerequisite: AMATH 301; either AMATH 351, MATH 135, or MATH 307; and either AMATH 352, MATH 136, or MATH 308 . Offered: A.

AMATH 482 Computational Methods for Data Analysis (5) Exploratory and objective data analysis methods applied to the physical, engineering, and biological sciences. Brief review of statistical methods and their computational implementation for studying time series analysis, spectral analysis, filtering methods, principal component analysis, orthogonal mode decomposition, and image processing and compression. Prerequisite: AMATH 301; either AMATH 352, MATH 136, or MATH 308. Offered: W.

AMATH 483 High-Performance Scientific Computing

(5) Introduction to hardware, software, and programming for large-scale scientific computing. Overview of multicore, cluster, and supercomputer architectures; procedure and object oriented languages; parallel computing paradigms and languages; graphics and visualization of large data sets; validation and verification; and scientific software development. Prerequisite: AMATH 481; and either AMATH 352, MATH 136 or MATH 308. Offered: Sp.

AMATH 490 Special Topics (1-5, max. 15) Topics of current interest in applied mathematics not covered by other undergraduate courses.

AMATH 498 Senior Project or Thesis (1-6, max. 6)

Intended for Honors students and other advanced undergraduates completing a special project or senior thesis in applied mathematics. Offered: AWSpS.

AMATH 499 Undergraduate Reading and Research (1-6, max. 6) Credit/no-credit only. Offered: AWSpS.

AMATH 500 Special Studies in Applied Mathematics

(* , max. 25) Lectures and discussions of topics of current interest in applied mathematics. May not be offered every quarter; content may vary from one offering to another. Prerequisite: permission of instructor.

AMATH 501 Vector Calculus and Complex Variables

(5) Emphasizes acquisition of solution techniques; illustrates ideas with specific example problems arising in science and engineering. Includes applications of vector differential calculus, complex variables; line-surface integrals; integral theorems; and Taylor and Laurent series, and contour integration. Prerequisite: either a course in vector calculus or permission of instructor.

AMATH 502 Introduction to Dynamical Systems and Chaos

(5) Overview methods describing qualitative behavior of solutions on nonlinear differential equations. Phase space analysis of fixed pointed and periodic orbits. Bifurcation methods. Description of strange attractors and chaos. Introductions to maps. Applications: engineering, physics, chemistry, and biology. Prerequisite: either a course in differential equations or permission of instructor.

AMATH 503 Methods for Partial Differential Equations

(5) Covers separation of variables, Fourier series and Fourier transforms, Sturm-Liouville theory and special functions, eigenfunction expansions, and Greens functions. Prerequisite: either AMATH 501 and a course in differential equations or permission of instructor. Offered: Sp.

AMATH 505 Introduction to Fluid Dynamics

(4) Eulerian equations for mass-motion; Navier-Stokes equation for viscous fluids, Cartesian tensors, stress-strain relations; Kelvin's theorem, vortex dynamics; potential flows, flows with high-low Reynolds numbers; boundary layers, introduction to singular perturbation techniques; water waves; linear instability theory. Prerequisite: either a course in partial differential equations or permission of instructor. Offered: jointly with ATM S 505/OCEAN 511; A, odd years.

AMATH 507 Calculus of Variations

(5) Necessary and sufficient conditions for a weak and strong extremum. Legendre transformation, Hamiltonian systems. Constraints and Lagrange multipliers. Space-time problems with examples from elasticity, electromagnetics, and fluid mechanics. Sturm-Liouville problems. Approximate methods. Prerequisite: either AMATH 351 or MATH 307; MATH 324; MATH 327. Offered: W, odd years.

AMATH 514 Networks and Combinatorial

Optimization (3) Mathematical foundations of combinatorial and network optimization with an emphasis on structure and algorithms with proofs. Topics include combinatorial and geometric methods for optimization of network flows, matching, traveling salesmen problem, cuts, and stable sets on graphs. Special emphasis on connections to linear and integer programming, duality theory, total unimodularity, and matroids. Prerequisite: either MATH 308 or AMATH 352 any additional 400-level mathematics course. Offered: jointly with MATH 514.

AMATH 515 Optimization: Fundamentals and Applications

(5) Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches.

Prerequisite: Proficiency in linear algebra and advanced calculus/analysis; recommended: Strongly recommended: probability and statistics. Desirable: optimization, e.g. Math 408, and scientific programming experience in Matlab, Julia or Python. Offered: jointly with IND E 515/MATH 515.

AMATH 516 Numerical Optimization (3) Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Offered: jointly with MATH 516.

AMATH 518 Theory of Optimal Control (3) Trajectories from ordinary differential equations with control variables. Controllability, optimality, maximum principle. Relaxation and existence of solutions. Techniques of nonsmooth analysis. Prerequisite: real analysis on the level of MATH 426; background in optimization corresponding to MATH 515. Offered: jointly with MATH 518.

AMATH 521 Special Topics in Mathematical Biology (5, max. 15) Special topics in mathematical biology. Prerequisite: permission of instructor. Offered: Sp.

AMATH 522 Computational Modeling of Biological Systems (5) Examines fundamental models that arise in biology and their analysis through modern scientific computing. Covers discrete and continuous-time dynamics, in deterministic and stochastic settings, with application from molecular biology to neuroscience to population dynamics; statistical analysis of experimental data; and MATLAB programming from scratch. Prerequisite: either a course in differential equations or permission of instructor. Offered: A.

AMATH 523 Mathematical Analysis in Biology and Medicine (5) Focuses on developing and analyzing mechanistic, dynamic models of biological systems and processes, to better understand their behavior and function. Applications drawn from many branches of biology and medicine. Provides experiences in applying differential equations, difference equations, and dynamical systems theory to biological problems. Prerequisite: either courses in differential equations and statistics and probability, or permission of instructor. Offered: W.

AMATH 524 Mathematical Biology: Spatiotemporal Models (5) Examines partial differential equations for biological dynamics in space and time. Draws examples from molecular and cell biology, ecology, epidemiology, and neurobiology. Topics include reaction-diffusion equations for biochemical reactions, calcium wave propagation in excitable medium, and models for invading biological populations. Prerequisite: either a course in partial differential equations or permission of instructor. Offered: Sp.

AMATH 531 Mathematical Theory Of Cellular Dynamics (3) Develops a coherent mathematical theory for processes inside living cells. Focuses on analyzing dynamics leading to functions of cellular components (gene regulation, signaling biochemistry, metabolic networks, cytoskeletal biomechanics, and epigenetic inheritance) using deterministic and stochastic models. Prerequisite: either courses in dynamical systems, partial differential equations, and probability, or permission of instructor.

AMATH 532 Mathematics of Genome Analysis and Molecular Modeling (5) Covers genome analysis, including bioinformatics and molecular modeling in terms of molecular dynamics. Prerequisite: either AMATH 506 or permission of instructor. Offered: A.

AMATH 533 Neural Control of Movement: A Computational Perspective (3) Systematic overview of sensorimotor function on multiple levels of analysis, with emphasis on the phenomenology amenable to computational modeling. Topics include musculoskeletal mechanics, neural networks, optimal control and Bayesian inference, learning and adaptation, internal models, and neural coding and decoding. Prerequisite: vector calculus, linear algebra, MATLAB, or permission of instructor. Offered: jointly with CSE 529.

AMATH 534 Dynamics of Neurons and Networks (5) Covers mathematical analysis and simulation of neural systems - singles cells, networks, and populations - via tools of dynamical systems, stochastic processes, and signal processing. Topics include single-neuron excitability and oscillations; network structure and synchrony; and stochastic and statistical dynamics of large cell populations. Prerequisite: either familiarity with dynamical systems and probability, or permission of instructor.

AMATH 535 Mathematical Ecology (5) Considers models, methods, and issues in population ecology. Topics include the effects of density dependence, delays, demographic stochasticity, and age structure on population growth; population interactions (predation, competition, and mutualism) ; and application of optimal control theory to the management of renewable resources. Prerequisite: either a course in differential equations or permission of instructor. Offered: Sp.

AMATH 536 Mathematical Modeling of Cancer (5) Introduces stochastic and deterministic methods for mathematical modeling of cancer evolution. Particular emphasis on branching process models of cancer initiation, progression and response to therapy, and their relationship to clinical, epidemiological and sequencing data. The course introduces both analytic and computational approaches for modeling cancer, and gets students acquainted with the current research in the field. Prerequisite: Previous experience with calculus, probability, ODEs and programming or permission of instructor. Offered: Sp.

AMATH 561 Introduction to Probability and Random Processes (5) This course, aimed at scientists and engineers without background in measure theory, introduces concepts in probability and stochastic dynamics needed for mathematical modeling. It includes, in addition to the basics of probability, Markov chain, Q-process, Chapman-Kolmogorov equations, and discrete-time martingales. Emphasis is on presenting theories with examples and variety of computational methods. Exposure to graduate level PDEs expected. Prerequisite: either undergraduate course in probability and statistics, or permission of instructor. Offered: A.

AMATH 562 Advanced Stochastic Processes (5) Second course in stochastic dynamical systems aimed at students in science, engineering, and applied math. Introduces basic concepts in continuous stochastic processes including Brownian motion, stochastic differential equations, Levy processes, Kolmogorov forward and backward equations, and Hamilton-Jacobi-Bellman PDEs. Course presents theories with applications from physics, biology, and finance. Exposure to graduate level linear PDEs expected. Prerequisite: AMATH 561 or instructor permission; recommended:

undergraduate course in probability and stat
Offered: W.

AMATH 563 Inferring Structure of Complex Systems (5) Introduces fundamental concepts of network science and graph theory for complex dynamical systems. Merges concepts from model selection, information theory, statistical inference, neural networks, deep learning, and machine learning for building reduced order models of dynamical systems using sparse sampling of high-dimensional data. Prerequisite: AMATH 561 and AMATH 562, or instructor permission Offered: Sp.

AMATH 567 Applied Complex Analysis (5) Complex variable and associated topics. Branch cuts, series and product expansions. Contour integration, numerical implications. Harmonic functions. Complex potential (and singularities) in physical problems. Conformal mapping; applications and examples. Fourier and Laplace transforms and applications. Prerequisite: either AMATH 401 or equivalent, or permission of instructor . Offered: A.

AMATH 568 Advanced Methods for Ordinary Differential Equations (5) Regular and singular points of differential equations. Asymptotic expansions for solutions of linear ordinary equations. Regular and singular perturbations. Asymptotic evaluation of integrals. Boundary layers and the WKB method. The method of multiple scales. Prerequisite: either a course in differential equations or permission of instructor. Offered: W.

AMATH 569 Advanced Methods for Partial Differential Equations (5) Analytical solution techniques for linear partial differential equations. Discussion of how these arise in science and engineering. Transform and Green's function methods. Classification of second-order equations, characteristics. Conservation laws, shocks. Prerequisite: either a course in partial differential equations or permission of instructor. Offered: Sp.

AMATH 570 Approximation Theory and Spectral Methods (5) Introduction to interpolation and approximation of data and functions by polynomials, piecewise polynomials, and trigonometric series. Covers aspects of implementation including FFTs and the chebfun software. Spectral methods for solving differential equations serve as main motivating application, along with other approximation

problems. Prerequisite: AMATH 584; MATH 585; AMATH 586; programming experience in either Matlab or Python; or permission of instructor. Offered: A.

AMATH 571 Intelligent Control through Learning and Optimization (3) Design or near-optimal controllers for complex dynamical systems, using analytical techniques, machine learning, and optimization. Topics from deterministic and stochastic optimal control, reinforcement learning and dynamic programming, numerical optimization in the context of control, and robotics. Prerequisite: vector calculus; linear algebra; MATLAB. Offered: jointly with CSE 579.

AMATH 573 Coherent Structures, Pattern Formation and Solitons (5) Methods for nonlinear partial differential equations (PDEs) leading to coherent structures and patterns. Includes symmetries, conservation laws, stability Hamiltonian and variation methods of PDEs; interactions of structures such as waves or solitons; Lax pairs and inverse scattering; and Painleve analysis. Prerequisite: either a course in partial differential equations or permission of instructor. Offered: A, odd years.

AMATH 574 Conservation Laws and Finite Volume Methods (5) Theory of linear and nonlinear hyperbolic conservation laws modeling wave propagation in gases, fluids, and solids. Shock and rarefaction waves. Finite volume methods for numerical approximation of solutions; Godunov's method and high-resolution TVD methods. Stability, convergence, and entropy conditions. Prerequisite: either AMATH 586 or permission of instructor. Offered: W.

AMATH 575 Dynamical Systems (5) Overview of ways in which complex dynamics arise in nonlinear dynamical systems. Topics include bifurcation theory, universality, Poincare maps, routes to chaos, horseshoe maps, Hamiltonian chaos, fractal dimensions, Liapunov exponents, and the analysis of time series. Examples from biology, mechanics, and other fields. Prerequisite: either AMATH 502 or permission of instructor. Offered: Sp, odd years.

AMATH 581 Scientific Computing (5) Project-oriented computational approach to solving problems arising in the physical/engineering sciences, finance/economics, medical, social, and

biological sciences. Problems requiring use of advanced MATLAB routines and toolboxes. Covers graphical techniques for data presentation and communication of scientific results. Prerequisite: either a course in numerical analysis or permission of instructor.

AMATH 582 Computational Methods for Data Analysis (5) Exploratory and objective data analysis methods applied to the physical, engineering, and biological sciences. Brief review of statistical methods and their computational implementation for studying time series analysis, spectral analysis, filtering methods, principal component analysis, orthogonal mode decomposition, and image processing and compression. Prerequisite: either MATLAB and linear algebra or permission of instructor. Offered: W.

AMATH 583 High-Performance Scientific Computing (5) Introduction to hardware, software, and programming for large-scale scientific computing. Overview of multicore, cluster, and supercomputer architectures; procedure and object oriented languages; parallel computing paradigms and languages; graphics and visualization of large data sets; validation and verification; and scientific software development. Prerequisite: AMATH 581, or permission of instructor. Offered: Sp.

AMATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5) Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Prerequisite: either a course in linear algebra or permission of instructor. Offered: jointly with MATH 584; A.

AMATH 585 Numerical Analysis of Boundary Value Problems (5) Numerical methods for steady-state differential equations. Two-point boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: either AMATH 581, AMATH 584/MATH 584, or permission of instructor. Offered: jointly with MATH 585; W.

AMATH 586 Numerical Analysis of Time Dependent Problems (5) Numerical methods for time-

dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence theory. Spectral and pseudospectral methods. Prerequisite: either AMATH 581, AMATH 584/MATH 584, AMATH 585/MATH 585, or permission of instructor. Offered: jointly with ATM S 581/MATH 586; Sp.

AMATH 590 Special Topics (1-5, max. 30) Topics of current interest in applied mathematics. Offered: AWPSS.

AMATH 600 Independent Research or Study (*-) Credit/no-credit only.

AMATH 601 Internship (1-10, max. 30)

AMATH 700 Master's Thesis (*-) Credit/no-credit only.

AMATH 800 Doctoral Dissertation (*-) Credit/no-credit only.

COMPUTATIONAL FINANCE AND RISK MANAGEMENT

CFRM 405 Mathematical Methods for Quantitative Finance (3) NW, QSR Covers selected mathematical methods needed to begin a master's program in quantitative finance. Topics include applications of calculus, linear algebra, and constrained optimization methods to fixed income, portfolio optimization, futures, options, and risk management. Prerequisite: either AMATH 352, MATH 136, or MATH 308.

CFRM 410 Probability and Statistics for Computational Finance (3) Covers basic concepts and methods of probability and statistical analysis and modeling for computational and quantitative finance. Coverage is carefully aligned with leading problems concerning prices and returns of individual assets and portfolios of assets. Key applications include financial risk management and portfolio performance analysis. Prerequisite: CFRM 405.

CFRM 415 Introduction to Financial Markets (3) Introduction to fundamentals of investment science and financial derivatives. Topics include basics of interest rates and present value calculations, fixed

income securities, term structure of interest rates, the concept of financial arbitrage, pricing of futures, forwards, and call/put options, binomial lattice model, portfolio theory, and capital asset pricing model. Prerequisite: CFRM 405 and CFRM 410, may be taken concurrently.

CFRM 420 Introduction to Computational Finance and Financial Econometrics (3) Covers probability models, data analysis, quantitative, and statistical methods using applications in finance, and introduction to and use of the R programming system for data analysis and statistical modeling. Prerequisite: CFRM 405, CFRM 410, or instructor permission.

CFRM 421 Machine Learning for Finance (4) Fundamentals of machine learning techniques with applications to finance. Assessing, organizing, and analyzing financial data, and learning the analytical tools and numerical schemes in machine learning to perform statistical analysis on financial data. Develops practical financial tools such as trading rules and risk indicators. Prerequisite: CFRM 405 and CFRM 410.

CFRM 422 Introduction to Trading Systems (4) Introduces electronic trading systems. Uses the R programming language to develop, evaluate, and optimize quantitative trading strategies. Students apply trading strategies through a live paper-trading account with an online broker using real time market data. Prerequisite: CFRM 420 and CFRM 425.

CFRM 425 R Programming for Quantitative Finance (3) Introduction to R programming language for applications in quantitative finance. Covers R syntax, data structures & manipulation, data analysis and statistics. Working with time series and computing asset returns with R will be covered, as will be the R package system and contributed packages. Recommended: The course does not require prior R programming experience, but programming experience in another language is acceptable.

CFRM 430 Fixed Income Analytics (4) NW Covers fixed income markets and securities, data sources, analytics and portfolio management methods, in particular the valuation, risks, and risk management of fixed income securities. Uses a hands-on data-oriented and computational focus. Prerequisite: CFRM 405; CFRM 410; and CFRM 415.

CFRM 442 Credit Risk Management (4) NW Theory, applications and computational methods for credit risk measurement and management. Statistical and mathematical modeling of credit risk, emphasizing numerical methods and R programming. Methods include logistic regression, Monte Carlo simulation, and portfolio cash flow modeling. Covers default risk regression, analytics, and portfolio models of credit risk. Prerequisite: CFRM 405 and CFRM 410.

CFRM 500 Special Studies in Computational Finance and Risk Management (1-6, max. 18) Lecture and discussions of topics of current interest in computational finance and risk management. Prerequisite: permission of instructor.

CFRM 501 Investment Science (4) Introduction to the mathematical, statistical and financial foundations of investment science. Topics include: utility functions, mean-variance portfolio theory, tail risk measures, factor model types for portfolio construction, classical and robust methods of fitting factor models, and covariance and correlation estimation. Prerequisite: CFRM 425. Offered: A.

CFRM 502 Financial Data Science (4) Covers applications of statistical techniques for analyzing financial data, as well as modeling and computational methods in key areas in quantitative finance. Includes factor modeling, financial time series, and portfolio analytics. Focuses on advanced topics in statistical finance, finance theory, and financial applications. Prerequisite: CFRM 501.

CFRM 503 Asset Allocation and Portfolio Management (4) Covers long-only and long-short portfolio optimization with real-world constraints and costs using industrial strength optimization software; classical mean-variance and modern mean-versus downside risk optimization for dealing with fat-tailed skewed asset returns; optimization and risk analysis with factor models; and equity, mixed asset class, and fund-of-hedge portfolios. Prerequisite: either CFRM 501 and CFRM 502, or permission of instructor. Offered: S.

CFRM 504 Options and Other Derivatives (4) Covers financial instrument options and derivatives. Explores how to price options and other derivatives and use them to hedge investment risk. Involves theory, statistical modeling, numerical methods, and computation using the R programming language.

Prerequisite: co-requisite: CFRM 501 or permission of instructor. Offered: A.

CFRM 505 Monte Carlo Methods in Finance (4) Monte Carlo simulations in quantitative finance for portfolio assembly and financial risk management. Students learn theory and methods of tracking the behavior of underlying securities in an option or portfolio and determine the derivative's value by taking the expected value of the discounted payoffs at maturity. Offered: A.

CFRM 506 Financial Data Access and Analysis with SQL, VBA, and Excel (4) Provides skills in retrieving and manipulating financial data and in creating computational solutions to quantitative finance problems using SQL, VBA, and Excel. Also teaches skills in leveraging the powerful financial data modeling and analysis capabilities of R in conjunction with SQL, VBA, and Excel. Prerequisite: either CFRM 501 or equivalent, or permission of instructor. Offered: A.

CFRM 507 Optimization Methods in Finance (4) Covers theory and efficient solution methods for optimization problems in finance. Includes financial solution methodologies using linear, non-linear, quadratic, and integer formulations; and dynamic and stochastic programming. Prerequisite: Linear algebra and matrix notation; statistics and probability; and experience with R language and MS Excel. Offered: A.

CFRM 509 Ethics in the Finance Profession (2) Addresses ethical theory to recognize and demonstrate an applied understanding of ethical conduct in financial markets, financial management and financial services. Explore assessments of, and responses to, ethical challenges in finance. Includes financial law and regulation.

CFRM 520 Financial Software Development and Integration with C++ (4) Practical introduction to C++ programming for financial applications. Focuses on developing basic object oriented programming skills in C++ to implement computational finance solutions. Also includes integrating C++ applications with R, MATLAB, SQL, and VBA.

CFRM 521 Machine Learning for Finance (4) Introduces the fundamentals of machine learning techniques with applications to finance. Focuses on

assessing, organizing, and analyzing financial data, and learning the analytical tools and numerical schemes in machine learning to perform statistical analysis on financial data. Develop practical financial tools such as trading rules and risk indicators. Prerequisite: CFRM 502 or equivalent, which may be taken concurrently; programming skills in R or MATLAB.

CFRM 522 Introduction to Trading Systems (4)

Introduces electronic trading systems. Uses the R programming language to develop, evaluate, and optimize quantitative trading strategies. Students apply trading strategies through a live paper-trading account with an online broker using real time market data.

CFRM 523 Advanced Trading Systems (4) Provides a detailed research process and tools for replicating, assessing, conceptualizing, and developing systematic trading strategies. Students apply their knowledge in projects to replicate and evaluate existing research and to create and evaluate a new strategy model. Prerequisite: CFRM 522.

CFRM 524 Advanced C++ for Finance (4) Builds on CFRM 520 and covers modern algorithms, techniques, and libraries in C++ that enhance both computational performance and reliability in the implementation of quantitative financial models. Prerequisite: CFRM 520 or equivalent, or instructor permission.

CFRM 525 FinTech, Blockchains, and Cryptocurrencies (4) Covers financial technology (FinTech) innovations and development, and the associated computational finance and risk management methods and perspectives. Includes real-world applications, including robo-advising, AI and Machine Learning for trading, etc. Also covers blockchain technology with focus on its applications to finance, especially cryptocurrencies. Prerequisite: CFRM 501; and CFRM 506 or CFRM 507, or equivalent, or instructor permission; recommended: Ability to program and compile in R and/or Python.

CFRM 530 Fixed Income Analytics (4) Covers fixed income markets and securities, data sources, analytics and portfolio management methods, in particular the valuation, risks, and risk management of fixed income securities. Uses a hands-on data-oriented and computational focus. Offered: A.

CFRM 531 Portfolio Performance Analysis and Benchmarking (4) Covers fundamental principles and commonly used methods in performance measurement, analysis, and benchmarking of portfolio evaluation. Prerequisite: CFRM 501, MBA level investments course, or equivalent. Offered: A.

CFRM 532 Endowment and Institutional Investment Management (2) Focuses on the endowment management process and specific challenges facing institutional fund managers. Includes evaluating the role of an endowment, portfolio construction, risk management, manager selection, and alternative asset class investing. Utilizes concepts from finance and investments, macroeconomics, and mathematical optimization. Prerequisite: CFRM 501. Offered: S.

CFRM 540 Risk in Financial Institutions (4) Introduces the concepts and methodologies of financial risk management. Uses derivatives for hedging risk, emphasizing fixed income and exchange rate derivatives. Includes models, credit derivatives, mortgage backed securities, and asset backed securities. First in a sequence of three on financial risk management. Prerequisite: either CFRM 501 or permission of instructor. Offered: W.

CFRM 541 Quantitative Risk Management (4) Provides a comprehensive treatment of the theoretical concepts and modeling techniques of quantitative risk management focusing on practical tools to solve real-work problems. Covers methods for market, credit, and operational risk modeling.

CFRM 542 Credit Risk Management (4) Theory, applications & computational methods for credit risk measurement & management. Statistical and mathematical modeling of credit risk, emphasizing numerical methods & R programming. Methods include logistic regression, Monte Carlo simulation, & portfolio cash flow modeling. Covers default risk regression, analytics, & portfolio models of credit risk. Offered: A.

CFRM 550 Stochastic Calculus for Quantitative Finance (4) Provides a systematic examination of financial derivatives pricing using stochastic calculus. Examines popular stochastic differential equation models such as Geometric Brownian motion, Vasicek, Hull-White, Cox-Ingersoll-Ross, Black-Karasinski, Heath-Jarrow-Morton, and Brace-

Gatarek-Musiela, as well as Poisson and Levy processes. Applications include equity, fixed-income, and credit derivatives. Offered: S.

CFRM 580 Energy Markets Analytics and Derivatives

(4) Practices of valuation and risk management applied to energy portfolios. Covers valuation and risk methodologies applied to power, gas, and oil portfolios and discusses different market and credit risk metrics most relevant to energy market portfolios.

CFRM 586 Financial Time Series Forecasting

Methods (4) Covers financial time series forecasting methods and their use in making investment decisions for asset management purposes. Asset-class specific forecasting methods. Uses the R statistical modeling and data analysis system for implementing and evaluating such forecasting methods. Prerequisite: CFRM 501 or permissions of instructor. Offered: W.

CFRM 590 Special Topics (1-5, max. 15) Topics of current interest in computational finance not covered by other graduate courses.

CFRM 600 Independent Research or Study (1-6, max. 18)

CFRM 601 Internship (1-6, max. 30)

CFRM 700 Master's Thesis (1-6, max. 18)

ARCTIC STUDIES

ARCTIC 101 Elementary Inuktitut: Inuit Language (3)

S. MALLON Fundamentals of oral and written modern Inuktitut, the Inuit language, including an introduction to the elements of Inuit culture. Offered: AS.

ARCTIC 102 Elementary Inuktitut (Inuit Language)

(3) *S. MALLON* Continues the process of laying the groundwork for communicative work in Inuktitut, begun in ARCTIC 101. Offered: W.

ARCTIC 103 Elementary Inuktitut (Inuit Language)

(3) *S. Mallon* Continues the process of laying the groundwork for communicative work in Inuktitut, begun in ARCTIC 101 and ARCTIC 102 Prerequisite: ARCTIC 102 Offered: Sp.

ARCTIC 200 Indigenous Diplomacies and International Relations in the Arctic (3) I&S *Fabbi*

Provides an overview of current issues and geopolitics in the Arctic including those of the eight Arctic nation-states, six Permanent Participants (indigenous organizations) on the Arctic Council, and other non-Arctic nation-state interests. Offered: A.

ARCTIC 201 Intermediate Inuktitut (Inuit Language)

(3) VLPA *S. Mallon* First course in the second-year Inuktitut language sequence. Prerequisite: ARCTIC 103 Offered: A.

ARCTIC 202 Intermediate Inuktitut (Inuit Language)

(3) VLPA *S. Mallon* Second course in the second-year Inuktitut language sequence. Prerequisite: ARCTIC 201 Offered: W.

ARCTIC 203 Intermediate Inuktitut (Inuit Language)

(3) VLPA *S. Mallon* Third course in the second-year Inuktitut language sequence. Prerequisite: ARCTIC 202 Offered: Sp.

ARCTIC 220 At the Top of the World: Arctic

Histories (5) I&S *Elena Campbell* History of human understanding of and relationship to the Arctic by tracing the social, economic, political, and environmental transformations of the Earth's northernmost region, from earliest settlements to the end of the twentieth century (the creation of the Arctic Council in 1996), as well as shifts in ideas that accompanied these changes. Offered: jointly with HSTCMP 220.

ARCTIC 301 Advanced Inuktitut (Inuit Language) (3)

VLPA *S. Mallon* First course in the third-year Inuktitut language sequence. Prerequisite: ARCTIC 203 Offered: A.

ARCTIC 302 Advanced Inuktitut (Inuit Language) (3)

VLPA *S. Mallon* Second course in the third-year Inuktitut language sequence. Prerequisite: ARCTIC 301 Offered: W.

ARCTIC 303 Advanced Inuktitut (Inuit Language) (3)

VLPA *S. Mallon* Third course in the third-year Inuktitut language sequence. Prerequisite: ARCTIC 302 Offered: Sp.

ARCTIC 387 Study Abroad: Arctic Studies (1-5, max. 15)

Relates Arctic geopolitics, indigenous

internationalism, the arts, and/or natural sciences to the regions and peoples of the circumpolar world. Equivalency for upper division Arctic minor of Jackson School course work taken on UW study abroad or direct exchange. Specific content varies and is evaluated on an individual basis.

ARCTIC 391 Climate Change - An International Perspective: Science, Art, and Activism (5)

I&S/VLPA R. PAVIA Explores climate change science in the context of geographic, social, and political constraints, considering the role of art, activism, and Arctic indigenous peoples in communicating impacts and mitigation. Students gain knowledge in key atmospheric and ocean science principles along with the role of science in society Offered: jointly with JSIS B 391; Sp.

ARCTIC 400 Integrating Policy and Science in Arctic Studies (3) I&S/NW Gallucci, Hellmann

Introduces Arctic resources and access from physical, biological, and political perspectives, focusing on the latter. Emphasizes political alliances among nation states as well as initiatives by indigenous peoples that involve mutual needs for access to Arctic resources for mining, transport, and food. Offered: Sp.

ARCTIC 401 Current Issues Concerning the Arctic Region (3, max. 9) I&S

Addresses current issues impacting the Arctic region from the perspective of visiting scientists, social scientists, practitioners, and Arctic indigenous leaders. Credit/no-credit only. Offered: Sp.

ARCTIC 498 Special Topics in Arctic Studies (1-5, max. 10) Content varies by instructor.

ART, ART HISTORY, AND DESIGN ART

ART

ART 101 Visual Art and Creative Thinking (5) VLPA

Explores how we observe/interpret our visual world. Introduces art and design terminology, techniques and analysis. Class sessions include short drawing, writing, critical thinking exercises, as well as lectures by visiting arts professionals and group activities. Ideal class for students exploring majors in Art, Art history or Design.

ART 102 Advanced Placement (AP) Studio Art: Drawing (5) VLPA Course awarded based on

Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

ART 103 Advanced Placement (AP) Studio Art: 2D Design (5) VLPA Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

ART 104 Advanced Placement (AP) Studio Art: 3D Design (5) VLPA Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

ART 105 International Baccalaureate (IB) Visual Art (5) VLPA Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

ART 131 Alternative Approaches to Art and Design (5, max. 20) VLPA

Presentation of process through which artists discover and translate ideas, feelings, and concerns into images or objects. Use of a wide variety of methods and approaches, from traditional to technological, to promote visual expression. Discussion and critiques leading toward better understanding the creative process.

ART 140 Basic Photography (5) VLPA

Introduces theory, techniques, and processes of still photography in an artistic context. Emphasizes photography's creative potential.

ART 190 Introduction to Drawing (5) VLPA

Builds basic drawing skills, develops understanding of primary concepts which relate to drawing and develops an understanding of the grammar or syntax of two-dimensional language. Students move beyond their current knowledge and abilities and link new skills, concepts, and understandings to creative expressing.

ART 191 Color Studies Studio (5) VLPA Lin

Examination of color as a distinct visual phenomenon with investigations of its practical, theoretical, and illusionary aspects. Employs various media and materials in exercises and compositions that demonstrate properties of color structure, symbolism, and perception and the potential application to art and design.

ART 200 Artist Mindset (5) VLPA Where do ideas come from? How does the practice of art connect across disciplines? Promotes critical curiosity. Students gain experience evaluating images and developing ideas. Demystifies each individual's capacity to be an imaginative thinker, and dispels myths about what it means to be an artist today.

ART 233 Introduction to 3D4M: Glass (5, max. 10) VLPA This introductory studio course investigates the material glass and its applications in the fine arts. Examines historical, technical, and contemporary practices. Prepares students for further exploration with the material at the intermediate and advanced levels.

ART 240 Intermediate Photomedia I (5) VLPA Includes studio projects examining the expressive and conceptual uses of alternative photographic materials and techniques. May include and introduction to photography, large format, and studio lighting. Prerequisite: ART 140.

ART 241 Intermediate Photomedia II (5) VLPA Introduces the creative use of photographic digital workflow in the processing, cataloging, and printing of camera generated digital imaging. Examines a variety of manipulations and transformation of both photographic and non-photographic imagery, involving multiple programs, procedures, and hardware (Macintosh platform) . Prerequisite: ART 240.

ART 242 Intermediate Photomedia III (5) VLPA Covers topics in digital imaging, including specialized output, interactive presentations, the moving image, and web-based works. Emphasizes creative exploration of both software and hardware tools and the possibilities of integration with other art media. Prerequisite: ART 140.

ART 245 Concepts in Printmaking (5) VLPA Introduction to contemporary printing methods such as monotype, monoprint, stencil, and photocopy. Survey of historical and current approaches to the art of printmaking.

ART 246 Works on Paper/Monotype (5) VLPA Introduces contemporary imaging methods, expands traditional drawing methods, and encourages relationship of content to structure. Introduces

relationship of printmaking and painting to drawing through monotype methods.

ART 253 Introduction to 3D4M: Ceramics (5, max. 10) VLPA Introduces ceramic hand-building and wheel throwing techniques. Explores functional and conceptual considerations with clay in a contemporary context and art practice. Offered: AWSp.

ART 260 Introduction to Contemporary Art for Interdisciplinary Practice (5) VLPA Introduction to recurring themes and practices in the visual arts. Moves beyond medium-based categories, surveying a diverse range of issues that motivate artists and create content in contemporary art. Examines the importance and influence of the visual arts in the larger context of contemporary culture and society.

ART 272 Introduction to 3D4M: Sculpture (5) VLPA Introduces three dimensional concepts in the production of art and a critical, formal vocabulary in the pursuit of individual expression. Offers an overview of materials and technical processes.

ART 280 Media, Time, and Technology Arts (5) VLPA Develops a "new genre" attitude toward exploration and research in contemporary visual arts, based on computer/ human interface and electronic technology. Includes performance art, environmental art, sound art, light art, video art, interactive installation, kinetic art, conceptual art.

ART 281 Art Makerspaces: Woodworking (2) VLPA The ideation process and creation of art and design require a strong knowledge of materials and equipment. Covers the knowledge and skill building in the medium of wood needed to turn concepts into reality. Recommended: No previous experience needed Credit/no-credit only.

ART 285 Introduction to New Genres (5) VLPA Develops abilities to generate ideas and translate concepts. Emphasis on questioning preconceived notions of the role of art in culture. History and practice of conceptually-based art, including installation, video, performance, and sound; challenges students to identify the appropriate form or medium to express ideas and content.

ART 290 Beginning Drawing: The Figure (5) VLPA Introduction to the human figure as historically

traditional subject matter as well as an important component in self expression. Covers proportion, foreshortening, and composition. Prerequisite: ART 190.

ART 292 Beginning Painting (5, max. 10) VLPA

Beginning oil painting. Prerequisite: ART 290.

ART 300 Photography and Extended Practice (5)

VLPA Concepts and techniques of contemporary lens-based practices considered through discussions, image surveys, field trips, screenings, readings and critiques. Prerequisite: ART 240.

ART 301 Moving Images (5) VLPA

Development and articulation of an individual, experimental, and critical approach to artistic studio practice using the moving image. Prerequisite: ART 240.

ART 302 Research and Exhibition Practice (5) VLPA

Students expand their practice through experimentation with a variety of materials and presentation strategies. Completed work exhibited in spaces across the UW. One-on-one and group feedback. Prerequisite: ART 240.

ART 303 Art Systems: Installation, Performance, and the Structures of Presentation (5) VLPA

Utilizing photo, video, critique, and exhibition skills, students learn the importance of art-making in today's culture. Introduction to installation and performance art. Investigates comprehensive systems and contexts in which art is produced and presented. Prerequisite: ART 240.

ART 333 New Materials and Processes in Glass (5, max. 15) VLPA

Explores the process through which artists discover and translate ideas, feelings, and concerns into images or objects. Investigations include various glass forming methodologies and material properties. Topics rotate and may include mold-making, kiln casting, photo processes, mixed medial, cold fabrication, enamels, cold-working, hot glass practices, and sculptural applications. Prerequisite: ART 233.

ART 339 Photography (5, max. 15) VLPA Introduces a range of theories, ideas, techniques, and processes of still photography in a fine art context. Emphasizes photography's creative potential.

ART 340 Advanced Photomedia (5, max. 15) VLPA

Explores the concepts and techniques of contemporary photographic practice, including non-traditional approaches to photography and related media. Explores 3-dimensional installation practices, collaborative projects, and the moving image. Examines the use and role of photography and related media in contemporary culture. Introduces how an artist's work responds to these contemporary issues. Prerequisite: ART 242. Offered: AWSp.

ART 345 Intermediate Printmaking (5, max. 25)

VLPA Development of mature and personal statement within context of the print form through studio practice and group discussion and critique. Processes and media emphasis varies on a revolving basis.

ART 350 Printmaking Special Projects (5, max. 15)

VLPA In depth study of a printmaking method such as sequential printing, multi-block printing, white-ground aquatint, or sugar-lift aquatint.

ART 351 Furniture Design and Making (5, max. 10)

VLPA Introduction to furniture design and making. Covers history of furniture from 1850 to present and includes hands-on learning resulting in design and fabrication of three unique tables. No previous experience required.

ART 352 Furniture Design and Production (5, max. 10) VLPA

Hands-on woodworking and furniture production. Includes development of technique and collaboration with fabrication shops and design professionals. Uses design drawing, model building, and full-scale construction prototypes as tools of communication. End-of-term exhibit places work on public view.

ART 353 Intermediate Ceramic Art (5, max. 20)

VLPA Explores a variety of ceramic processes and conceptual development including: press and slip molds, glaze formulation, multiples and installation, tiles and bricks, intermediate wheel, time, space, and scale. Prerequisite: ART 253.

ART 355 Materials in Context for Interdisciplinary Practice (5) VLPA

Focuses on exploring the meanings, uses, and visual/sculptural potentials of both traditional and innovative new materials, both natural and man-made.

ART 360 Topics in Studio Art and Practice (5, max. 25) VLPA Examines a variety of cutting edge, emerging, and interdisciplinary approaches in studio art and practice. Topics vary.

ART 361 Critical Issues in Contemporary Art (5, max. 15) VLPA Surveys critical ideas in contemporary art practice. Includes lectures by nationally recognized artists to introduce a wide range of artistic positions and practices. Engages students with the major issues informing contemporary art and new modes of practice.

ART 365 Social Practice (5) VLPA Introduces overlapping territories of art and social practice, the practice of Socially Engaged Art. Focuses on environmentalism, consumerism, economies, society and culture, activism, and the place for creative practice in our contemporary life.

ART 372 Intermediate Approaches to Sculpture (5, max. 15) VLPA Explores a variety of processes and conceptual thinking used in the context of making sculpture. Topics rotate and may include work in wood, metal, found object, and other materials to create objects, installations, experiences, and fabrications. Prerequisite: ART 272 Offered: AWSp.

ART 390 Intermediate Drawing (5, max. 10) VLPA Prerequisite: ART 290.

ART 392 Intermediate Painting (5, max. 10) VLPA Prerequisite: ART 290 and ART 292

ART 393 Intermediate Painting Topics (5) VLPA Revolving topics in the study of painting at the intermediate level. Prerequisite: ART 392.

ART 395 The Creative Process: Strategies and Outcomes (5) VLPA Explores the nature of the creative process in the visual arts. Focuses on experiential learning through projects of ideation, experimentation, problem solving, editing, and creating narrative meanings.

ART 400 Interdisciplinary Visual Arts Senior Studio (5, max. 15) VLPA *Labitzke* Focuses on the development of exhibition quality artwork, culminating in a group show. Covers curatorial issues, installation, and presentation. Assignments are designed to strengthen oral presentation skills,

artist's written statement, critiquing abilities, and ability to place work within a larger art historical framework.

ART 421 Video Art (5, max. 15) VLPA

ART 440 Senior Thesis in Photomedia (5, max. 20) VLPA Development of a coherent artistic theme or topic evolved over three consecutive quarters resulting in a finished thesis portfolio. Prerequisite: ART 340.

ART 450 Individual Projects in Printmaking (5, max. 15) VLPA Individual media study within the context of group discussion and critique.

ART 453 3D4M Senior Studio (5, max. 20) Includes individual studio work, seminars, source presentations, field trips, professional practices, and culminates with the BA thesis exhibition.

ART 457 Artist Handmade Books (5) VLPA The creative and structural development of an artist's book. Focuses on issues of sequential imagery, conceptual development, and the relationship between work and image.

ART 458 Alternative Approaches to Drawing (5) VLPA Advanced works-on-paper class. Focuses on drawing issues such as formal process, working methods, conceptual development, and practical working applications.

ART 480 Cross-Disciplinary Honors in Art (5, max. 10) VLPA Designed for Senior Honors students in the Division of Art and is a graduation requirement of the "BA in Art with Honors" degree. Taught on a rotating cycle by Division of Art faculty from all of the four options: Interdisciplinary Visual Arts, Photomedia, Painting & Drawing and Three-Dimensional Forum. Includes critiques, studio visits, discussion, readings, and interactions with visiting artists. Prerequisite: Art Honors students only.

ART 485 Alternative Contexts: Site Responsive Interventions (5) VLPA Focuses on experimental and conceptual approaches; examines the historical lineage of art interventions as a means of developing contemporary forms. Examines the ways sites are constructed spatially, socially, and historically.

Students produce projects designed to interact with existing structures and situations.

ART 490 Advanced Drawing (5, max. 15) VLPA Study at an advanced level involving history, practice, and theory of drawing as an art form. Prerequisite: ART 390.

ART 492 Advanced Painting: The Figure (5, max. 10) VLPA Drawing and painting from the model. Prerequisite: ART 390; ART 393.

ART 494 Senior Seminar in Painting and Drawing (5, max. 15) VLPA Development of individuality in painting through creative exercises. Prerequisite: ART 393

ART 496 Art Internship (1-5, max. 10) Internships in conjunction with Art faculty and partners in the large visual arts community. Credit/no-credit only.

ART 497 Study Abroad-Studio Individual Projects (3-10, max. 20) VLPA

ART 498 Individual Projects - Art (2-5, max. 15) Independent projects in studio art.

ART 499 Independent Study in Glass (2-5) Independent projects in the Glass studios.

ART 501 Graduate Student Teaching Mentorship (2-5, max. 15) Independent study for graduate students to work under the direction of a faculty member as they prepare for and teach an undergraduate class. Credit/no-credit only.

ART 512 Graduate Seminar (3, max. 9)

ART 515 Graduate Studio Photomedia (2-15, max. 60) Photomedia graduate studio and seminar, including readings, discussions, and studio critiques.

ART 550 Printmaking (3-15, max. 60)

ART 553 3D4M Grad Studio (2-15, max. 60)

ART 561 Critical Issues in Contemporary Art Practice (5, max. 10) Surveys critical ideas in contemporary art practice. Includes lectures by nationally recognized artists to introduce a wide range of artistic positions and practices. Engages students

with the major issues informing contemporary art and new modes of practice. Prerequisite: Grads in Art, Art History or Design only. Offered: AWSp.

ART 590 Interdisciplinary Graduate Seminar in Contemporary Practices (5, max. 25) Constructive forum for developing dialogue and critique in practicum-based setting. Professional development highlights the student's experience.

ART 591 Graduate Studio: Drawing (5, max. 15) Supervised studio for advanced-level students from various media-based disciplines designed to develop an interest in and familiarity with aspects of drawing. Utilization of various media. Discussion of historical and contemporary issues concerning drawing.

ART 592 Graduate Studio: Painting (2-10, max. 60) Offered: AWSp.

ART 594 Graduate Seminar in Painting and Drawing (2-15, max. 15) Designed as a forum for the presentation and criticism of student work as well as for discussion of contemporary directions in visual art. Credit/no-credit only.

ART 595 Master of Fine Arts Research Project (2-5, max. 10) An independent research project related to and informed by the MFA student's studio work. Final project form may be a lecture, slide presentation, or paper.

ART 600 Independent Study or Research (*-)

ART 700 Master's Thesis (*-)

ART HISTORY

ART H 200 Art in the Modern Imagination: Athena to Lady Gaga (5) VLPA Informs ability to see art as a tool to examine history, ideology, beauty, and ultimately the image-saturated present. Also to distinguish between historical context and modern projection on artworks. Further, to discover how art transcends its context and still speaks in a language in which people can become literate.

ART H 201 Survey of Western Art-Ancient (5) VLPA Major achievements in painting, sculpture, architecture, and the decorative arts in Europe, the

Near East, and North Africa, from prehistoric times to the beginnings of Christianity.

ART H 202 Survey of Western Art-Medieval and Renaissance (5) VLPA Emphasizes the arts of the Byzantine Empire and Western Christendom from Late Antiquity to the High Renaissance.

ART H 203 Survey of Western Art-Modern (5) VLPA Western art from 1520 to the present.

ART H 204 Art History and Visual Culture (5, max. 15) VLPA/I&S Study of art and visual culture as instruments of knowledge and methods of human expression that operate in many arenas of history, tradition, and the contemporary environment.

ART H 206 Survey of Native-North American Art (5) VLPA/I&S Survey of the indigenous arts of North America north of Mexico from ancient through contemporary times. Focuses on the historical and cultural contexts of the arts and the stylistic differences between tribal and individual artists' styles.

ART H 209 Themes and Topics in Art History (5, max. 15) VLPA Introduces students to new ideas, developing themes, and current research in art history and visual culture.

ART H 211 Fashion Systems: Europe-Asia (5) VLPA/I&S *R. Silberstein* Introduces the historical development of fashion systems in early modern and modern Europe and Asia. Explores topics including: Fashioning the Body; Gender and Fashion; Fashion as Conspicuous Consumption; Fashion as Urban Spectacle; the Politics of Fashion. Offered: jointly with JSIS A 211.

ART H 212 Chinese Art and Visual Culture (5) VLPA/I&S Surveys the highlights of Chinese visual arts from the Neolithic to the present. Studies jade, bronze, lacquer, silk, Buddhist sculpture, ceramics, calligraphy, painting, architecture, film, and installation art forms at a moment in Chinese history when work in those media was especially innovative and important.

ART H 214 Art of India: Mohenjo-Daro to the Mughals (5) VLPA/I&S Surveys the material culture and artistic production of South Asia, which includes

the present-day nation states of India, Pakistan, Bangladesh, Nepal, and Sri Lanka, from antiquity until the early modern period.

ART H 220 Survey of American Art (5) I&S/VLPA Broad survey of key issues and achievements in the history of the visual arts, including painting, sculpture, architecture, photography and prints, among other media, made in the United States or by American artists living abroad from the colonial era to the present.

ART H 233 Survey of Native Art of the Pacific Northwest Coast (5) VLPA/I&S Surveys indigenous art of the Pacific Northwest Coast from the Columbia River in the south to Southeast Alaska in the north and from ancient through contemporary times. Focuses on the historical and cultural contexts of the art and the stylistic differences between tribal and individual artists' styles.

ART H 250 Rome (5) VLPA/I&S Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with HSTEU 250/ITAL 250; W.

ART H 260 Fashion, Nation, and Culture (5) VLPA/I&S *Gaylard* Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with ITAL 260/JSIS A 260; W.

ART H 261 Italian Cities (5) VLPA Introduces Italian culture by focusing on the past and present of five of the nation's most important cities: Rome, Florence, Venice, Milan, and Naples. Taught in English. Offered: jointly with ITAL 261.

ART H 270 Art/Identity Politics: Issues of Representations in Contemporary Art (5) VLPA Introduces participants to various ways contemporary artists and art movements have explored the intersection of visual representation, identity formation, and politics, one of the most persistent themes in art since the 1960s.

ART H 272 French Impressionism and Post Impressionism (5) I&S/VLPA Examines the lives and works of the French Impressionists and Post Impressionists within the cultural, social, and economic context of their time. Overarching themes include the examination of subject matter, gender issues, contemporary influences in the art world, and modernity.

ART H 273 History and Theory of Photography (5) I&S/VLPA Survey of photography from its beginnings in the early 19th century to the digital imaging of today. Study photography as an artistic medium, a social text, a technological adventure, and a cultural practice. Key photographers, cultural movements and recurring themes will be explored with close attention to the social and cultural contexts in which photographs were produced, circulated and consumed.

ART H 290 History of Architecture (5) VLPA/I&S Introduction to the history of architecture across a broad range of cultural contexts.

ART H 309 Topics in Art History (5, max. 25) VLPA Topics vary.

ART H 310 Chinese Art and Archaeology Neolithic to Han Dynasty (5) VLPA/I&S Introduces Chinese art and archaeology from the Neolithic to the Han Dynasty. Focuses on the history of developing technology and the archaeological basis for understanding the development of art and visual culture in early China.

ART H 311 Arts of Imperial China (5) VLPA/I&S Introduces the role of painting in the history of Imperial China from the fourth to the seventeenth century. Topics for reading and discussion include political forces, regional geography, social structure, gender, traditional philosophies, and religious and spiritual influences.

ART H 312 Art and Empire in India, 1750-1900 (5) VLPA Surveys the transformation in the visual arts between the Mughal and British empires in India. Topics of learning and discussion include changes and new developments in artistic production, patronage, viewing publics and protocols, technology, roles of art institutions, and exchanges between media.

ART H 314 Modern and Contemporary Art in India (5) VLPA Surveys the visual arts of India from the late colonial through the postcolonial period. Topics include impact of colonialism, anti-colonial nationalist claims for art, shifting status of oil paintings, emergence of a national style, new art movements in urban centers, and art in the service of forge postcolonial identities and alliances.

ART H 333 Indigenous Body Adornment (5) VLPA/I&S, DIV Selected examples of body adornment in indigenous cultures, focusing on Oceania and North America, including tattooing, jewelry, clothing, and hairstyles. Topics include adornment's capacity to express individual, clan, or national identity in ceremonial and quotidian contexts and ethics of such expressions and their use or misuse by the dominant society. Recommended: Art H 233 or previous experience in any 100 or 200 level art history class

ART H 340 Pre-Classical Art and Archaeology (3) VLPA K. Topper Survey of the art and the other material remains of the civilizations in the Aegean from the Neolithic Age to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece, illustrated by slides. The history, techniques, and results of significant excavations are examined. Offered: jointly with CL AR 340.

ART H 341 Greek Art and Archaeology (3) VLPA S. Levin-Richardson, K. Topper Survey of the material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the geometric to the Hellenistic periods, illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with CL AR 341.

ART H 342 Roman Art and Archaeology (3) VLPA Kathryn R. Topper Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with CL AR 342.

ART H 343 Hellenistic Art and Archaeology (3) VLPA K. Topper Survey of the art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor

arts examined in lectures illustrated with slides.
Offered: jointly with CL AR 343.

ART H 347 Pompeii: A Time Capsule of Ancient Life (5) VLPA/I&S, DIV S. Levin-Richardson Explores the power differential between men and women, slaves and masters, and citizens and foreigners in the cultural melting pot of ancient Pompeii, which was preserved by a volcanic eruption in 79 CE. Graffiti, skeletal remains, everyday objects, humble and world-class art and monuments will be analyzed.
Offered: jointly with CL AR 347; AWSp.

ART H 354 Medieval Art (5) VLPA Survey of art, architecture, and material culture of Western Christendom circa 700-1500.

ART H 361 Italian Renaissance Art (5) VLPA Sculpture, painting, and architecture from 1300 to 1600.

ART H 366 Northern Renaissance Art (5) VLPA An overview of Netherlandish, French, and German art in the context of cultural developments circa 1400-1570.

ART H 373 Southern Baroque Art (5) VLPA Art of Italy and Spain, circa 1590 to circa 1710.

ART H 374 Northern Baroque Art (5) VLPA The art of northern Europe, circa 1590 to circa 1710.

ART H 380 Nineteenth- and Twentieth-Century Art (5) VLPA Arts and architecture of Europe and America from Romanticism to the present.

ART H 381 Art Since World War II (5) VLPA/I&S Art of Europe and the United States in the decades since World War II: painting, sculpture, and architecture, multiplication of new forms (video, performance pieces, land and installation pieces), changing context of patronage, publicity, and marketing.

ART H 384 American Art (5) VLPA/I&S Achievements and issues in painting, architecture, sculpture, and other arts in the United States from the colonial era to the present.

ART H 390 American Architecture through an Ecological Lens (5) I&S/VLPA Introduction to the history of American architecture and urbanism as

seen from an ecological perspective, from the time of indigenous inhabitants to the present.

ART H 391 Paris Architecture (5) VLPA/I&S The architecture of Paris from its pre-Roman origins to the present.

ART H 400 ART History and Criticism (2-5, max. 15) VLPA Courses on special topics, frequently by visiting faculty, which cannot be offered on a continuing basis. Consult art history office for subjects offered.

ART H 412 Art History and the Study of Chinese Bronzes (5) VLPA/I&S An investigation of Chinese Bronzes to illuminate some general ideas about the discipline and practice of art history. Focuses on a case study examining the work of a twentieth-century practitioner of art history and comparing it with that of a famous scholar from a neighboring discipline.

ART H 413 Selected Topics in Chinese Art (5, max. 15) VLPA Specific theme or area of Chinese art, such as the art of Bronze Age China or Chinese painting under Communist rule.

ART H 414 Topics in South Asian Art (5, max. 15) VLPA/I&S Explores topics on the art and visual culture of South Asia with a particular focus on India.

ART H 419 Japanese Architecture (3) VLPA Survey of Japanese architecture from its origins to modern times. Although Shinto architecture, tea houses, gardens, and modern developments are discussed, the primary focus is on the development of Japanese Buddhist architecture. Offered: jointly with ARCH 453.

ART H 435 Thematic Studies in Native-American Art (5, max. 15) I&S/VLPA Wright Approach to Native-American art through themes and issues. Focus varies from year to year (e.g. Shamanism in Native-American art, gender identity in Native-American art, social and political aspects of Native-American art, issues in contemporary Native-American art).

ART H 442 Greek Painting (3) VLPA K. Topper Study of painted decoration on Greek vases, with emphasis on stylistic developments and cultural and historical influences. Painting on other media also examined as evidence allows. Offered: jointly with CL AR 442.

ART H 443 Roman Painting (3) VLPA *S. Levin-Richardson, K. Topper* Study of surviving painting from the Roman world, with emphasis on wall paintings from Pompeii and Herculaneum. Principal topics for discussion: the four styles of Pompeian painting the dependence of Roman painters on Greek prototypes, and the significance of various kinds of painting as domestic decoration. Offered: jointly with CL AR 443.

ART H 444 Greek and Roman Sculpture (3) VLPA *K. Topper* History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with CL AR 444.

ART H 446 Greek Architecture (3) VLPA *K. Topper* Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with CL AR 446.

ART H 447 The Archaeology of Early Italy (3) VLPA *S. Levin-Richardson, K. Topper* Study of the principal archaeological sites of early Italy, including Etruria, Sicily, southern Italy, and archaic Rome up to the Republican period. Attention given to the material remains and their relationship to the Etruscan, ancient Sicilian, and early Roman civilizations. Offered: jointly with CL AR 447.

ART H 448 The Archaeology of Italy (3) VLPA *S. Levin-Richardson, K. Topper* Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with CL AR 448.

ART H 452 Art, Religion, and Politics in the Early Christian Period, 300-700 AD (3) VLPA/I&S *Kartsonis* Evolution of the art of the early Christian period (300-700 AD) in the context of contemporary religious, political, and cultural developments. Offered: jointly with RELIG 452.

ART H 453 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) VLPA/I&S *Kartsonis* Evolution of the art of Byzantium (700-1453 AD) in the context of

contemporary religious, political, and cultural developments. Offered: jointly with JSIS D 453.

ART H 454 Topics in Byzantine and Medieval Art (5, max. 15) VLPA Topics in Byzantine and Medieval Art.

ART H 461 Gender and Sexuality in Classical Art and Archeology (3/5) I&S/VLPA, DIV *S. Levin-Richardson, K. Topper* Examines gender and sexuality in the visual and archaeological records of Greece and Rome, with a focus on topics such as the body, clothing, the gaze, homoeroticism, sexual labor, gendered spaces, and transgressive genders and sexualities. Recommended: previous coursework in Greek and/or Roman art at the 200- or 300-level is encouraged. Offered: jointly with CL AR 461; AWSp.

ART H 471 Rome in the Seventeenth Century (5) VLPA Painting, sculpture, and architecture; concentration on Caravaggio, Bernini, Poussin, and Borromini.

ART H 473 Topics in Baroque Art (5, max. 15) VLPA Approaches to the study of Baroque art through particular themes, genres, contexts, new research, and emerging issues. Focus varies from year to year.

ART H 480 Art Museums: History, Theory, Practice (5) VLPA Explores the history of art museums in America and Europe from the nineteenth century to the present. Topics include connoisseurship and conservation, theories of design and display, architectural challenges, auction houses, dealers, curators, directors, impact of education departments, museums' changing relationship to public audiences, visual arts, and the law.

ART H 483 Post-Impressionism to 1918 (5) VLPA Post-Impressionism and the great revolution of early twentieth-century art, with emphasis on painting. From the first revisions of Impressionism around 1880 to Fauvism, Cubism, Futurism, the Blaue Reiter, and Dadaism.

ART H 484 Topics in Modern Art (5, max. 15) VLPA Approach to art of the nineteenth and twentieth centuries through particular themes, genres, contexts, or other issues. Focus varies from year to year.

ART H 486 Abstract Expressionism: History and Myth (5) VLPA Thematic and chronological survey of abstract expressionism, including major genres of critical interpretation, revisionist scholarship, and the relationship of artistic production to a larger context of visual production.

ART H 488 American Architecture (3) American architecture from indigenous Native American traditions to the present. Offered: jointly with ARCH 455.

ART H 491 Twentieth-Century Architecture (3) VLPA Architecture in the twentieth century, mainly in Europe and the United States. Traces roots of Modernism in Europe in the 1920s, its demise (largely in the United States) in the 1960s, and recent trends such as Post-Modernism and Deconstructivism. Offered: jointly with ARCH 457.

ART H 492 Alternative Art Forms Since 1960 (5) VLPA Survey of "post-studio" art forms developed in the 1960s by artists who did not equate artmaking with painting, sculpture, or other traditional forms. Topics include: happenings, Fluxus, land projects, artists' video, artists, books, performance, site works, and art made for distribution on CD-ROM and on the web.

ART H 493 Architecture Since 1945 (3) VLPA Theories and forms in architecture from the end of World War II to present. Includes new wave Japanese architects, recent Native American developments, and non-Western as well as Western trends. Offered: jointly with ARCH 459.

ART H 494 Paris: Architecture and Urbanism (3/5) VLPA/I&S Spans the architectural history of Paris, from its Gallic, pre-Roman origins in the second century BCE through the work of twenty-first century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with ARCH 458/JSIS A 433.

ART H 495 Italian Fascism: Architecture and Power (5) VLPA/I&S Fascism in Italy as studied within the broader European context of nationalism, imperialism, and modernization, with particular emphasis on the arts - literature, film, architecture, and urbanism. Offered: jointly with ITAL 475.

ART H 498 Individual Projects, Undergraduate Practicum (2-5, max. 10) Fieldwork or internships in art-related areas in the community. Practical experience in areas such as arts administration, gallery and museum operations, collection cataloguing, curatorial responsibilities, and art education. Credit/no-credit only.

ART H 499 Individual Projects (2-5, max. 10)

ART H 500 Methods of Art History (5) Introduction to the specialized bibliography of art historical research and to the wide variety of approaches to art historical problems of all periods and regions.

ART H 501 Seminar in the General Field of Art (5, max. 15)

ART H 504 Methods of Art History: Faculty Research (2) Discussion and analysis of methodological issues posed in faculty research. Credit/no-credit only. Offered: W.

ART H 509 Seminar in Special Topics in Art History (5, max. 15) Specific focus changes from quarter to quarter.

ART H 511 Seminar in Chinese Art (5, max. 15) Critical appraisal of the principal research methods, theories, and types of literature dealing with the art of China.

ART H 514 Seminar in South Asian Art (5, max. 30) VLPA/I&S Critical appraisal of the principle research methods, theories, and types of literature dealing with the art of South Asia.

ART H 521 Topics in Asian Art (5, max. 20) Investigates a series of topics in Asian art.

ART H 522 Topics in Ancient, Classical, and Medieval Art (5, max. 20) Investigates a series of variable topics in ancient, classical, and medieval art.

ART H 523 Topics in Italian and Northern Renaissance Art (5, max. 20) Investigates a series of variable topics in Italian and Northern Renaissance art.

ART H 524 Topics in Baroque and Eighteenth Century Western Art (5, max. 20) Investigates a

series of variable topics in baroque and eighteenth century Western art.

ART H 525 Topics in Modern and Contemporary Art and Architecture (5, max. 20) Investigates a series of variable topics in modern and contemporary art and architecture.

ART H 533 Seminar in North American Native Art (5, max. 15) Problems in North American Indian visual arts. Content varies.

ART H 541 Seminar in Greek and Roman Art (5) S. *Levin-Richardson, K. Topper* In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with CL AR 541.

ART H 551 Seminar in Early Christian, Byzantine, and/or Medieval Art and Architecture (5, max. 15) Problems in early Christian, Byzantine, and medieval art and architecture. Content varies. Prerequisite: permission of instructor.

ART H 561 Seminar in Italian Renaissance Art (5, max. 15) Problems and in-depth study of selected topics of the art of the Italian Renaissance.

ART H 577 Seminar in Baroque Art (5, max. 15) Iconographic and stylistic problems of the art of the Baroque period, with emphasis on the principal research methods, theories, and types of literature dealing with the art of the seventeenth and eighteenth centuries in Europe.

ART H 581 Seminar in Modern Art (5, max. 15) Art historical problems of the nineteenth and twentieth centuries.

ART H 590 Seminar in Criticism of Contemporary Art (5, max. 15) Contemporary art and appropriate critical methodology.

ART H 591 Seminar in Twentieth-Century Architecture (3/5) Specific focus changes from quarter to quarter. Prerequisite: graduate standing with background in art history, architecture, architectural history, or permission of instructor. Offered: jointly with ARCH 558.

ART H 597 Graduate Internship (2-5, max. 5) Internship in the field of art history with a museum,

gallery, or other faculty-approved art or architectural institution that can offer the student substantial research or curatorial experience. Credit/no-credit only.

ART H 598 Master's Practicum (*, max. 15) Credit/no-credit only.

ART H 599 Reading and Writing Projects (2) Art historical issues, methods, and materials. Required of all graduate majors registered in 400-level art history courses. Open also to graduate nonmajors.

ART H 600 Independent Study or Research (*-)

ART H 700 Master's Thesis (*-) Credit/no-credit only.

ART H 800 Doctoral Dissertation (*-) Credit/no-credit only.

DESIGN

DESIGN 150 What is Design: Practices, Principles, and Perspectives (3) VLPA Explores design activities and perspectives that affect the relationship between people, technology, and the world. Areas of research and practice, approaches, and principles provide an overview of how Design is represented in the field.

DESIGN 165 Introduction to Industrial Design (5) VLPA Provides a general introduction to industrial design. Develops students' knowledge through lectures, readings, and studio projects that focus on the history of the discipline and the processes of brainstorming, ideation, skill building, problem solving, and professional presentation used in the creation of design. Includes participation by guest designers.

DESIGN 166 Design Foundations (5) VLPA Examines the rudiments of visual structure and problem solving in two and three-dimensional design. Emphasizes design methodology and design processes with emphasis on the formal principles of composition and organization.

DESIGN 206 Design Methods (5) VLPA Explores fundamental methods and design process in industrial design, interaction design, and visual communication design, including contextual

research, participatory design, problem finding, ideation, conceptual design, design variations, design selection, detail design, and design communication.

DESIGN 207 Design Drawing (5) VLPA Concentrates on developing skills used to communicate ideas that exist in the imagination. Focuses on study of design drawing history and development of basic skills necessary for ideation, exploration, communication, explanation. Prepares students to visualize and discuss ideas rapidly and professionally. For design majors only. Prerequisite: DESIGN 166

DESIGN 208 Survey of Design History (5) VLPA Surveys the ideas, events, and individuals that determined the design of information, objects, culture, and commerce across societies. Examines the social, political, economic, and cultural contexts that shape design and the ideologies and relationships of similar movements in art and architecture. Includes late nineteenth century through contemporary issues.

DESIGN 209 Fundamentals of Typography (5) VLPA Develops understanding of and sensibility to typographic details used to create effective communication. Focus moves from understanding letter forms that make up words to the complexities of developing phrases, sentences, and short paragraphs with multiple levels of hierarchical meaning. Prerequisite: DESIGN 207.

DESIGN 210 Collaboration and Improvisation (5) VLPA Introduces key factors in the theory and practice of creating and participating in collaborative projects. Focuses on creating and participating in effective teams, understanding strengths and roles within teams, working through team issues, developing techniques for interdisciplinary problem solving. Prerequisite: DESIGN 166.

DESIGN 211 3-D Foundation (5) VLPA Introduction to aesthetic fundamentals of 3-dimensional form. Explores the articulation of form and space in both abstract and applied scenarios. Prepares design students for subsequent work in interaction design, design studies, industrial design, and visual communication design.

DESIGN 213 Prototyping for Designers (5) VLPA Teaches skills related to the use of physical

prototyping for ideation, testing, and presentation of designs.

DESIGN 214 Marks and Symbols (5) VLPA Investigates the formal and conceptual problems associated with mark and symbol design. Students work individually and collaboratively (in small groups) to research and develop a series of marks and symbols for specific communication goals/purposes. Prerequisite: DESIGN 209.

DESIGN 215 Visual Storytelling (5) VLPA Introduces students to visual storytelling - a powerful technique used in design to engage audiences, convey meaning, and communicate design intent. Develops this skill using print publication, web design, experience prototypes, and concept videos. Prerequisite: DESIGN 209

DESIGN 250 Visualizing Ideas (3) VLPA *Annabelle Gould* Principles inherent in the discipline of visual communication design, including fundamentals of composition, typography, semiotics, color theory, storytelling, and image-making. Students engage in creative thinking, seeing, and making to create more professional work, including resumes, posters, and digital presentations. Offered: W.

DESIGN 265 Topics in Design (5, max. 20) VLPA Revolving topics class that addresses the thinking, skills, and creative motivations that drive the practice of design.

DESIGN 266 Design Concepts and Practice (5, max. 20) VLPA Revolving topics class that addresses foundational issues and contemporary practice in the field of design.

DESIGN 300 Design and Thinking (5, max. 10) VLPA *Ozubko* Develops an approach to conceptual problem solving while exploring their fundamental principles of visual communication. Cultivate critical, analytical, and verbal skills through liberal learning experiences and design methodologies. Offered: S.

DESIGN 301 Current Issues in Design (2/5, max. 10) VLPA Current project and research in Visual Communication Design, Industrial Design, and/or Interaction Design. Thematic topics and credits vary.

DESIGN 316 Introduction to Industrial Design (5)

VLPA Introduces the fundamentals of 3-D design with emphasis on analytical and intuitive approaches to problem solving, technical skills, and form development. Prerequisite: DESIGN 207; DESIGN 211.

DESIGN 317 Intermediate ID Studio 1 (5) VLPA

Introduces theories, methods, and design development focused on design principles involving form, function, usability, and product development. Prerequisite: DESIGN 316.

DESIGN 318 Intermediate ID Studio 2 (5) VLPA

Includes studio experiences that expand upon and combine intellectual and manual skills for the practice of industrial design. Emphasizes the ideation process with form development. Prerequisite: DESIGN 317.

DESIGN 319 Advanced Design Drawing (5) VLPA

Advanced visualization and drawing using traditional and computer-aided approaches. Prerequisite: DESIGN 207 AND 211.

DESIGN 320 Industrial Design Special Projects (5, max. 15) VLPA

Progressive industrial design methodology and criticism introduced through independent or group work on projects to expand students' visual research, drawing, model making, presentation, and literacy skills. Includes contemporary manufacturing and information technologies.

DESIGN 322 Presentation for Industrial Design I (5)

VLPA Introduction to presentation skills, from quick sketching of design concepts to refined representation of the finished design in a two-dimensional format. Emphasis on accuracy and development of an individual style. Prerequisite: DESIGN 316 and DESIGN 319.

DESIGN 323 Presentation for Industrial Design (5) VLPA**DESIGN 324 Materials and Manufacturing (3) VLPA**

Two primary strategic directions: First, through lecture, explores the various materials and manufacturing processes available to designers. Second, through field visits to factories, sees how these materials and processes are used in real world production.

DESIGN 325 Physical Computing (5) VLPA

Explores non-screen interactions (tangible interactions, or physical computing) . Surveys the state of the art in the field, and teaches students techniques for devising their own physically mediated interactions. Pairs of students create working prototypes of furniture which senses and responds to human interaction.

DESIGN 326 Digital Fabrication (5) VLPA

Covers topics pertaining to the use of digital prototyping (3D printing, CNC) coupled with virtual modeling tools techniques like computer aided design (CAD) .

DESIGN 365 Developing Solutions in Design (5, max. 20) VLPA

Revolving topics class that concentrates on learning in specific areas where design can be used to resolve contemporary issues.

DESIGN 366 Editorial Visualizations (5) VLPA

Expands focus on design process through a broad variety of image production techniques. Emphasizes concept development and the power of the image for storytelling. Design of stand-alone compositions is expanded into the development of a series of themed works. Prerequisite: DESIGN 209; DESIGN 210.

DESIGN 367 Design for Mobile Experiences (5) VLPA

Investigation of strategies and graphic interpretations to develop a critical perspective on design for mobile interaction. Emphasizes development of core methodologies, vocabulary, case studies, best practices, application prototypes. Prerequisite: DESIGN 366; DESIGN 376.

DESIGN 368 Case Studies in Corporate Identity (5)

VLPA Research and analysis of visual identity systems for complex institutional and corporate entities. Focuses on issues that concern how design programs function across diverse application and media and how they engage various audiences. Prerequisite: DESIGN 376.

DESIGN 369 Visual Systems (5)

Investigates organizational strategies and graphic interpretations using typography, images and diverse applications of design, with the objective of creating a related network of dynamic solutions.

DESIGN 370 Introduction to Motion Design (5) VLPA

Introductions to the theories and fundamentals of

motion design and planning. Explores narrative, storyboarding, composition, time and sound. Includes lectures, case studies, and demonstrations of the techniques and applications of motion graphics in broadcast media.

DESIGN 371 Interface Design 1 (5) VLPA Introduces students to the fundamental building blocks of interface design including mental models, dynamic information displays, affordances, feedback, user flows, control systems, and interactive narratives. Students use these principles to design visual interfaces and prototypes that are both inventive and functional.

DESIGN 372 Interface Design 2 (5) VLPA Introduces students to advanced topics in interface design, including complex information architectures, dynamic information design, multimodal interaction, cross-platform interface design, and tangible interface design. Takes on a hand-on approach to designing, prototyping, and evaluating interfaces across a range of devices and applications, including news services, lifestyle applications, medical devices, and games.

DESIGN 373 Case Studies in Design (5) Explores techniques which allow designers to make type, teapots, and telephones to improve the design of services and organizations. Students use mapping techniques to understand human-object systems and identify examples of useful patterns of organization of behavior in existing organizations.

DESIGN 374 Interactive Media Design (5) VLPA Introduces students to computer programming, with special emphasis on interactive data visualization - the art of creating responsive, visual representations that inform and engage. Students learn fundamental interactive media design principles, and gain practical experience creating interactive visualizations with Processing, a programming language developed specifically for artists and designers.

DESIGN 376 Typography (5) VLPA Explores how meaning, hierarchy, and legibility are affected by typographic contrast, organization, and composition. Prepares students to create dynamic compositions with type, understand how type is used as an image/conceptual visualization, understand the nuances/techniques involved in a professional

typesetting, and develop vocabulary. Prerequisite: DESIGN 209.

DESIGN 377 Marks and Symbols (5) VLPA

Investigates formal and conceptual problems associated with mark and symbol design. Students individually/collaboratively research and develop a series of marks and symbols for specific organizations. Helps develop the ability to recognize effective marks/symbols that identify/communicate an identity or idea, identify specific types of marks and symbols, and determine the most suitable types for a specific communication problem. Prerequisite: DESIGN 366, DESIGN 376.

DESIGN 378 Information Architecture and Web Design (5) VLPA

Fundamental issues in web design, including site planning, information architecture, navigation, visual hierarchy, and interactivity. Emphasis on understanding the unique functional limitations of designing for the web while building an awareness of contemporary design practice. Design a simple site and produce a working a prototype.

DESIGN 381 Design Case Studies: Interaction Design Technology and Production (5) VLPA

History, theory, and practice of ways design functions in society and culture. Emphasis on developing broad understanding of design production while working collaboratively and individually on a quarter-long research project concerned with producing a comprehensive conceptual map of the design discipline. Prerequisite: DESIGN 211; DESIGN 212.

DESIGN 383 Foundations of Interaction Design (5)

VLPA Focus on human-to-product interaction and ways we perceive, understand, and experience the world in regard to objects, environments, or on-screen controls/information. Prerequisite: DESIGN 215.

DESIGN 384 Information Visualization for

Interaction Designers (5) VLPA Surveys information visualization approaches, techniques, and concepts for the design of interaction information systems, interactive instructions, and animated information graphics.

DESIGN 385 Design Innovation and Society (5) VLPA

Surveys the role of interaction design and impact of new information technologies and interactive product/systems of everyday life, expert domains,

the formation of values and knowledge, and the production of adaptation to innovations.

DESIGN 386 Visual Storytelling (5) VLPA Investigates the form and role of visual narratives from design development in the interaction design process. Introduces planning and production of storyboards, photography, video, editing for storytelling, character development, and design concept visualization as they apply to design presentation, communication, and evaluation of interactive design sequences. Prerequisite: DESIGN 384; DESIGN 385.

DESIGN 387 Physical Interaction Design (5) VLPA Surveys approaches, concepts, and techniques for the design of interaction systems that are situated in physical environments. Prerequisite: DESIGN 384; DESIGN 385.

DESIGN 400 Design Entrepreneurship (5) VLPA Focuses on the design of products, services, and new business models as a simultaneous exercise. Bridges the skills of design and business planning by combining proven fundamentals of product design with a newly emerging paradigm for business planning and development.

DESIGN 443 Materials and Manufacture in Industrial Engineering (5) VLPA Analyzes materials used in mass-produced products, focusing on how these materials impact product design and on finishing quality of products. Emphasizes materials research and manufacturing processes. Team-based research with multi-media report-out at end of quarter. Prerequisite: DESIGN 211; DESIGN 212.

DESIGN 444 Prototype Project Development (5) VLPA Learn to apply traditional hand tools and digital prototyping machines to the creative process of industrial design.

DESIGN 445 Advanced Industrial Design (5) VLPA Emphasizes solving problems through the manipulation of design theory, application of human factors, appropriate combination of materials and manufacturing techniques, and presentation of concepts. Prerequisite: DESIGN 318.

DESIGN 446 Advanced Industrial Design: Professional Practice (5) VLPA Collaboration project with the professional design industry. Students learn how industrial designers brainstorm, develop, and

refine initial design concepts to final product solutions. Prerequisite: DESIGN 445.

DESIGN 447 Senior Projects in Industrial Design (5) VLPA Industrial design project of the student's own choosing, with consent of instructor, to refine problem solving and design ability in preparation for graduate exhibition. Prerequisite: DESIGN 446.

DESIGN 466 Publication Design (5) VLPA Stresses the research, development, organization, design, and presentation of a complex printed document, such as a journal, annual report, or large publication. Addresses all aspects of design, content, image creation, and production through a quarter-long project. Prerequisite: DESIGN 368; DESIGN 378.

DESIGN 467 Exhibition and Installation Design (5) VLPA Explores how to communicate powerful messages and stories in three-dimensional space, bringing together typography, imagery, and innovative use of materials and structures. Emphasizes sustainable processes and materials.

DESIGN 477 Type Design (3-5) VLPA Exploration of contemporary type design.

DESIGN 478 Information Design (5) VLPA Exploration of strategies for enhancing and visually presenting complex statistics and data. Various information subjects are selected and formed into charts, diagrams, graphs, tables, directories and maps. Identify, through personal investigations, the principles which provide the most successful means for presentation of information. Prerequisite: DESIGN 466.

DESIGN 479 Interaction Design (5) VLPA Exploration of design issues unique to user-centered interaction in digital media. Explore a range of formal and conceptual issues including user interface, organization, narrative, motion, time, and sound. Prerequisite: DESIGN 478.

DESIGN 480 Senior Projects in Visual Communication Design (5) VLPA Presents an opportunity for advanced, individualized design research and study. Complete a unique capstone project based on individual design interests and prior experiences in the VCD program. Public exhibition of this project is required in the BFA Graduation Exhibition.

DESIGN 481 Field Studies: Design Research Techniques (5) VLPA Students develop an understanding of significant theoretical models related to design through a series of readings, lectures, discussions, and assignments. Prerequisite: DESIGN 383.

DESIGN 483 Advanced Interaction Design (5) VLPA Explores the role of visual interface design and interaction flows in technology-driven work settings. Introduces techniques for knowledge elicitation and design of interactive systems in expert domains or special use contexts to develop interface that are useful, understandable, and usable. Prerequisite: DESIGN 383.

DESIGN 484 Senior Projects in Interaction Design (5) VLPA Explores the design of interactive products and user experience in everyday settings. Students apply interaction design and research techniques in a multi-disciplinary studio for a quarter-long interaction design project requiring collaboration between students from a variety of backgrounds including design, engineering, and computer science. Prerequisite: DESIGN 383; DESIGN 483.

DESIGN 485 Design Capstone (5) VLPA For all senior undergraduate design majors. Offered spring of senior year, ID, VCD, and IxD majors frame and develop a project based on broad themes chosen by faculty. Projects may be individual or collaborative. Cross-disciplinary projects are strongly encouraged.

DESIGN 486 Design Exhibition (1-3) Offered every spring, seniors work collaboratively to create a public exhibition, representing the culmination of their work in the program. ID, VCD and IxD seniors work in teams to develop a graphic identity, promotional materials, website, and juried exhibition. Credit/no-credit only.

DESIGN 488 Professional Practices (3) VLPA Focuses on developing the tools to create a successful transition between academia and professional practice as a working designer. Credit/no-credit only.

DESIGN 495 Design Internship (1-5, max. 10) Internships for undergraduates in conjunction with design faculty and business partners in the design community. Credit/no-credit only.

DESIGN 496 Directed Research in Interaction Design (2, max. 12) VLPA *Axel Roesler, Audrey Desjardins* Working in teams under supervision of faculty members, students review relevant literature, pose research questions, design and conduct studies, and present the results in papers prepared either for submission to a professional journal or for presentation at a professional conference. Offered: AWSp.

DESIGN 499 Individual Projects-Design (2-5, max. 15) Independent projects in design.

DESIGN 501 Graduate Student Teaching Mentorship (2-5, max. 15) Independent study for graduate students to work under the direction of a faculty member as they prepare for and teach an undergraduate class. Credit/no-credit only.

DESIGN 581 Graduate Seminar in Design (5, max. 30) Addresses critical issues in design through research, writing, presentations, and discussion.

DESIGN 582 Design Graduate Studio (5, max. 40) Explores a range of ideas and influences in the context of applied design.

DESIGN 590 Current Issues in Design (2/5, max. 10) Current trends and professional issues in the field of design for graduate students. Prerequisite: graduate standing in Design, or other graduate students by permission of instructor.

DESIGN 596 Directed Research in Interaction Design (2, max. 12) *Audrey Desjardins, Axel Roesler* Working in teams under supervision of faculty members, students review and critically assess relevant literature; articulate research questions; design, detail, and conduct studies; and present the results in papers prepared either for submission to a professional journal or for presentation at a professional conference. Offered: AWSp.

DESIGN 600 Independent Study or Research (*)

DESIGN 700 Master's Thesis (*)

ASIAN LANGUAGES AND LITERATURE

ASIAN LANGUAGES AND LITERATURE

ASIAN 200 Introduction to Asian Languages and Literature (5) VLPA Introduces approaches to the study of Asian languages and literature. Topics include theoretical, applied, historical, and comparative linguistics; literary and cultural study; philosophy; languages, and writing systems of Asia; and indigenous Asian approaches to the study of language and literature. Offered: Sp.

ASIAN 201 Literature and Culture of China: Ancient and Classical (5) VLPA/I&S Introduction to ancient and classical Chinese literature in its cultural context. Texts in English translation.

ASIAN 202 Literature and Culture of Japan: Traditional Japan (5) VLPA/I&S Introduction to traditional Japanese literature in its cultural context. Texts in English translation.

ASIAN 203 Literature and Culture of Ancient and Classical India (5) VLPA/I&S Introduction to ancient and classical Indian literature in its cultural context. Texts in English translation.

ASIAN 204 Literature and Culture of China from Tradition to Modernity (5) VLPA/I&S Introduction to modern Chinese literature in its cultural context. Texts in English translation.

ASIAN 205 Literature and Culture of Japan from Tradition to Modernity (5) VLPA/I&S Introduction to Japanese literature of the nineteenth and twentieth centuries in its cultural context. May also include some Korean literature. Texts in English translation.

ASIAN 206 Literature and Culture of South Asia from Tradition to Modernity (5) VLPA/I&S *Heidi R Pauwels* Introduction to medieval and modern South Asian literature in its cultural context. Texts in English translation.

ASIAN 207 Special Topics in Literature and Culture of Asia (5, max. 10) VLPA/I&S Introduction to the literature of one or more Asian traditions considered in its cultural context. Content varies depending on the specialization and interest of instructor. Texts in English translation.

ASIAN 211 Languages and Cultures of China (5) VLPA/I&S Provides a general survey of the languages and language-families in China, emphasizing the rich linguistic diversity found there today. Languages compared with English, from linguistic and cultural perspectives, to demonstrate not only characteristics but also mutual dependence throughout their development.

ASIAN 223 Buddhist Literature (5) VLPA/I&S Introduction to Buddhist literature in India, China, and Japan including biographies, poetry, narratives, ritual manuals, doctrinal treatises, and historical accounts. Attention also given to issues of textual composition, transmission, authorship, audience, context, and function. Taught in English. Offered: W.

ASIAN 225 Indian Philosophical Literature (5) VLPA/I&S *Prem Pahlajrai* Introduction to various topics pertaining to the vast philosophical literature of India, such as its origins and contexts, dharma; karma and free will; logic and argument. A variety of systems from Hindu, Buddhist, Jain, theistic, and non-theistic schools are covered. Taught in English. Offered: WS.

ASIAN 263 Great Works of Asian Literature (5) VLPA Selected major works of Asian literature. Taught on a rotational basis with the literary traditions of China, Japan, India covered in successive years. Content varies depending on specialization and interest of instructor. Primary emphasis on literary values of works and their tradition; attention also given to historical and social contexts and the thought and value systems of the culture involved.

ASIAN 301 Songs of the Saints of India (5) VLPA/I&S India's wisdom through popular songs of its saints of the devotional tradition. Texts as significant in contemporary religion and politics, whether protesting existing hierarchies of caste and gender, or confirming the status quo. Readings in English translation.

ASIAN 401 Introduction to Asian Linguistics (5) VLPA *Zev Handel, Kaoru Ohta* Linguistic analysis, with emphasis on languages of East, Southeast, South, and Central Asia. Includes phonetics, phonemics, morphology, syntax, historical reconstruction, linguistic typology, comparative grammar. Survey of major languages and language families of Asia. Diverse Asian languages as subjects

of linguistic analysis. Prior knowledge of linguistics not required.

ASIAN 404 Writing Systems (5) VLPA *William G. Boltz, Zev Handel* Comprehensive theoretical and historical overview of written language worldwide. Includes origins and early development of writing in the Near East, Asia, and the Americas; relationships between spoken and written languages; types and characteristic of writing systems (logographics, syllabic, and alphabetic) ; and methods used for decipherment of ancient languages. Offered: W.

ASIAN 405 Advanced Problems in Asian Linguistics (3) VLPA Advanced problems in the analysis of the languages of East, Southeast, South, and Central Asia. Includes phonology, morphology, syntax, lexicography, historical reconstruction, linguistic typology, and comparative grammar. Prerequisite: ASIAN 401. Instructors: Handel, K. Ohta, Shapiro

ASIAN 491 Internship in Teaching Asian Languages and Cultures (1-2, max. 5) Teaching internship in a language course (undergrad or grad students are eligible) or a disciplinary course (graduate students only) , as arranged with the supervising instructor. Faculty permission required. 3 hr/week internship earns 1 credit, 6 hr/week internship earns 2 credits. Credit/no-credit only. Offered: AWSpS.

ASIAN 494 Ramayana in Comparative Perspective (5) VLPA, DIV *Pauwels* Examines and compares different versions (mainly South Asian) of the Ramayana, including the widely popular television version. Focuses on some famous and controversial passages, with special attention to gender issues. Incorporates background readings from the most recent research. Offered: jointly with JSIS A 461.

ASIAN 498 Special Topics (1-5, max. 15) VLPA Offered occasionally by permanent or visiting faculty members. Topics vary. Offered: AWSpS.

ASIAN 503 Seminar in Asian Linguistics (1-5, max. 15) Topics vary. Prerequisite: permission of instructor. Instructors: Handel, A. Ohta, K. Ohta Offered: AWSp.

ASIAN 510 Teaching Asian Languages (5) A. OHTA Methodology for teaching modern foreign languages, focusing on languages taught by teaching assistants in the department. Eclectic and practical

overview for current and potential TAs. Consideration of broader issues involved in language program management. Strong hands-on component, including observation, teaching, materials development, and portfolio development for job seekers. Prerequisite: proficiency in an Asian language Credit/no-credit only. Offered: A.

ASIAN 541 Seminar in Asian Textual and Digital Cultures (5) Topics may differ with each offering but will include aspects of textual and digital production in Asian cultures.

ASIAN 580 Seminar in Hinduism Studies (5) Pauwels Introduction to the academic study of Hinduism for graduate students. Examines major problems currently addressed in the academic study of Hinduism and the methods used. Provides a historical perspective on past scholarship. Offered: jointly with RELIG 580.

ASIAN 585 Seminar in Buddhism (2/5) Systems and history of Buddhist thought. Original and secondary sources are used. Combines the methods of specialists in south, central, and east Asian Buddhism with those of historians of religion and philosophy. Prerequisite: permission of instructor. Instructors: Cox Offered: AWSp.

ASIAN 590 Seminar in Translation Studies (5, max. 15) H. CHO Seminar study of topics in translation studies and Asian literatures/cultures.

ASIAN 600 Independent Study or Research (*-) Offered: AWSpS.

ASIAN 700 Master's Thesis (*-) Offered: AWSpS.

ASIAN 800 Doctoral Dissertation (*-) Offered: AWSpS.

BENGALI

BENG 101 Elementary Bengali (5) Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary-level texts. First in a sequence of three. Offered: A.

BENG 102 Elementary Bengali (5) Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary-level texts. Second in a sequence of three. Prerequisite: BENG 101. Offered: W.

BENG 103 Elementary Bengali (5) Offers a balance of all four skills: speaking, reading, listening, and writing. Consists of lectures on grammar, drill sections, oral and written exercises, aural comprehension exercises, and readings in elementary-level texts. Third in a sequence of three. Prerequisite: BENG 102. Offered: Sp.

BENG 200 Introduction to modern Bengali language, literature and culture (5) VLPA Evolution of modern Bengali language, literature, and culture from the fifteen hundreds to the present. Topics may include the Bengali "renaissance"; the works of the Nobel Laureate Rabindranath Tagore, Nazrul Islam, and other writers; films of Satyajit Ray and other film-makers; or the emergence of Bangladesh. Texts in English.

BENG 201 Intermediate Bengali (5) VLPA Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. First in a sequence of three. Prerequisite: BENG 103. Offered: A.

BENG 202 Intermediate Bengali (5) VLPA Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation and role-play. Second in a sequence of three. Prerequisite: BENG 201. Offered: W.

BENG 203 Intermediate Bengali (5) VLPA Develops proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an intermediate level. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural

comprehension exercises, and topic-based conversation and role-play. Third in a sequence of three. Prerequisite: BENG 202. Offered: Sp.

BENG 301 Advanced Bengali (5) VLPA Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. First in a sequence of three. Prerequisite: BENG 203. Offered: A.

BENG 302 Advanced Bengali (5) VLPA Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Second in a sequence of three. Prerequisite: BENG 301. Offered: W.

BENG 303 Advanced Bengali (5) VLPA Further development of proficiency in reading, writing, listening, and speaking standard colloquial Bengali at an advanced level with the aim of preparing students to do research. Readings in fiction and non-fiction literature, vocabulary and grammar exercises, writing of essays and creative pieces, aural comprehension exercises, and topic-based conversation. Third in a sequence of three. Prerequisite: BENG 302. Offered: Sp.

BENG 499 Independent Study (3-5, max. 15)
Offered: AWSpS.

CHINESE

CHIN 101 First-Year Chinese for Non-Heritage Learners (5) Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. First in a sequence of three. Offered: A.

CHIN 102 First-Year Chinese for Non-Heritage Learners (5) Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 101. Offered: W.

CHIN 103 First-Year Chinese for Non-Heritage Learners (5) Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 134. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 102. Offered: Sp.

CHIN 111 First-Year Chinese for Heritage Learners (5) Intended for students who have some formal or home training in listening to and speaking Mandarin. Focuses on reading comprehension and writing characters in context. First in a sequence of three. Offered: A.

CHIN 112 First-Year Chinese for Heritage Learners (5) Intended for students who have some formal or home training in listening to and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 111. Offered: W.

CHIN 113 First-Year Chinese for Heritage Learners (5) VLPA Intended for students who have some formal or home training in listening to and speaking Mandarin. Focuses on reading comprehension and writing characters in context. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 112. Offered: Sp.

CHIN 130 International Baccalaureate (IB) Beginning Chinese (5/10) Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

CHIN 131 International Baccalaureate (IB) Intermediate-Beginning Chinese (5) Course awarded based on International Baccalaureate (IB) score.

Consult the Admissions Exams for Credit website for more information.

CHIN 133 Advanced Placement (AP) Chinese Language (5) Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

CHIN 134 First-Year Intensive Chinese for Non-Heritage Learners (15) Introduction to the standard language. Emphasis on learning correct pronunciation and basic structure. Drill in oral use of the language. Open only to students who do not have any previous training in Chinese. Cannot be taken for credit in combination with CHIN 101, CHIN 102, or CHIN 103. Offered: S.

CHIN 138 First-Year Intensive Chinese for Heritage Learners (15) Intended for students who have some formal or home training in listening to and speaking Chinese. Focuses on reading, comprehension, and writing characters in context. Cannot be taken for credit in combination with CHIN 111, CHIN 112, or CHIN 113. Offered: S.

CHIN 145 Foreign Study: First-Year Chinese (1-15, max. 20) Modern 100-level Chinese language studied abroad. Evaluation by department/faculty required.

CHIN 201 Second-Year Chinese for Non-Heritage Learners (5) VLPA Advanced grammar and vocabulary expansion stressed. Aural and oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. First in a sequence of three. Prerequisite: minimum grade of 2.0 in either CHIN 103 or CHIN 134. Offered: A.

CHIN 202 Second-Year Chinese for Non-Heritage Learners (5) VLPA Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 201. Offered: W.

CHIN 203 Second-Year Chinese for Non-Heritage Learners (5) VLPA Advanced grammar and vocabulary expansion stressed. Oral practice and structural drills continued. Cannot be taken for credit in combination with CHIN 234. Third in a

sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 202. Offered: Sp.

CHIN 211 Second-Year Chinese for Heritage Learners (5) VLPA Stresses advanced grammar and vocabulary expansion. Emphasizes writing. Continues aural and oral practice. Cannot be taken for credit in combination with CHIN 234. First in a sequence of three. Prerequisite: minimum grade of 2.0 in either CHIN 113 or CHIN 138. Offered: A.

CHIN 212 Second-Year Chinese for Heritage Learners (5) VLPA Stresses advanced grammar and vocabulary expansion. Cannot be taken for credit in combination with CHIN 234. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 211. Offered: W.

CHIN 213 Second-Year Chinese for Heritage Learners (5) VLPA Stresses advanced grammar and vocabulary expansion. Emphasizes reading and writing. Continues aural and oral practice. Cannot be taken for credit in combination with CHIN 234. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 212. Offered: Sp.

CHIN 230 International Baccalaureate (IB) Advanced-Beginning Chinese (5-15) VLPA Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

CHIN 231 Advanced Placement (AP) Chinese Language (5) VLPA Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

CHIN 232 Advanced Placement (AP) Chinese Language (5) VLPA Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

CHIN 234 Second-Year Intensive Chinese for Non-Heritage Learners (15) VLPA Continuation of first-year non-heritage Chinese. Stresses advanced grammar and vocabulary expansion. Continues aural and oral practice and structural drills. Cannot be taken for credit in combination with CHIN 201, CHIN 202, or CHIN 203. Prerequisite: minimum grade of 2.0 in either CHIN 103 or CHIN 134. Offered: S.

CHIN 245 Foreign Study: Second-Year Chinese (1-15, max. 20) VLPA Modern 200-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

CHIN 301 Third-Year Chinese for Non-Heritage Learners (5) VLPA Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. First in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 203. Offered: A.

CHIN 302 Third-Year Chinese for Non-Heritage Learners (5) VLPA Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 301. Offered: W.

CHIN 303 Third-Year Chinese for Non-Heritage Learners (5) VLPA Focuses on oral and aural proficiency. Covers general topics, reading ability of simple unedited text, as well as writing skill in short essay form. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 302. Offered: Sp.

CHIN 330 International Baccalaureate (IB) Intermediate Chinese (5-15) VLPA Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

CHIN 331 Chinese Extensive Reading (3/5, max. 10) VLPA Combines extensive reading and text-based discussion to promote both language and literacy skills in Modern Standard Chinese. Prerequisite: CHIN 113 or CHIN 203.

CHIN 342 The Chinese Language (5) VLPA *Zev Handel, Chan Lu* Nature and structure of the Chinese language, covering structural characteristics, genetic and typological affiliation, standard Mandarin and Chinese dialects, Chinese writing system, history of the Chinese language, and cultural aspects. Prerequisite: either CHIN 103, CHIN 113, CHIN 134, or CHIN 138.

CHIN 345 Foreign Study: Third-Year Chinese (1-15, max. 20) VLPA Modern 300-level Chinese language

studied abroad in approved programs. Evaluation by department/faculty required.

CHIN 373 Chinese Poetry (5) VLPA Introduction to Chinese poetry. A study of its origins, forms, major themes, and relevant conventions. All readings in English. No knowledge of Chinese required.

CHIN 374 Chinese Prose (5) VLPA *Knechtges* Survey of great works of Chinese prose, including philosophical writings, historical works, short narratives, essays, and rhyme-prose. All readings in English. No knowledge of Chinese required.

CHIN 385 Popular Culture in Twentieth-Century China (5) VLPA/I&S Introduction to Chinese popular culture from the turn-of-the-century to the present. Topics include cinema, popular music, and popular fiction; emphasis varies from year to year.

CHIN 395 Foreign Study: Intermediate Chinese Literature or Linguistics (1-15, max. 15) VLPA Intermediate Chinese literature or linguistics studied abroad in approved programs. Evaluation by department/faculty required.

CHIN 411 Fourth-Year Chinese (5) VLPA Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. First in a sequence of three. Prerequisite: minimum grade of 2.0 in either CHIN 213 or CHIN 303. Offered: A.

CHIN 412 Fourth-Year Chinese (5) VLPA Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 411. Offered: W.

CHIN 413 Fourth-Year Chinese (5) VLPA Reading of unedited texts including newspaper articles, literary selections, and academic essays. Oral discussion, listening comprehension, and composition. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 412. Offered: Sp.

CHIN 431 Chinese Extensive Reading (3/5, max. 10) VLPA Combines extensive reading and text-based discussion in order to promote both language and literacy skills in Modern Standard Chinese. Prerequisite: CHIN 113 or CHIN 203.

CHIN 442 The Chinese Language (5) VLPA Covers the same topics as CHIN 342 (students attend CHIN 342 lectures), with additional readings and assignments. Provides necessary background for 500-level courses in Chinese linguistics and textual study. Intended for graduate students or advanced undergraduates. Required: Reading ability in Chinese.

CHIN 443 Structure of Chinese (5) VLPA Outline of the major grammatical structures of Chinese. Focus on learning and teaching problems. Prerequisite: CHIN 413

CHIN 445 Foreign Study: Fourth-Year Chinese (1-15, max. 20) VLPA Modern 400-level Chinese language studied abroad in approved programs. Evaluation by department/faculty required.

CHIN 451 Introduction to Classical Chinese (5) VLPA Structure and history of Classical Chinese; its cultural and linguistic place in the history of the literary language. Prerequisite: either CHIN 113, CHIN 203, or CHIN 234.

CHIN 452 First-Year Classical Chinese (5) Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 451. Instructors: Boltz Offered: W.

CHIN 453 First-Year Classical Chinese (5) Exercises and selected readings in pre-Han texts. Focus on grammar, systematic sentence analysis, and distinctive functions of grammatical particles. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in CHIN 452. Instructors: Boltz Offered: Sp.

CHIN 461 History of Chinese Literature (5) VLPA
Chinese literature from earliest times to the end of the Six Dynasties. Offered: A.

CHIN 462 History of Chinese Literature (5) VLPA
Chinese literature from the Tang to the end of the Song. Prerequisite: CHIN 461 Offered: W.

CHIN 463 History of Chinese Literature (5) VLPA
Chinese literature from the Yuan to recent times. Offered: WSp.

CHIN 470 Advanced Readings in Modern Chinese (5) VLPA
Reading and translation of scholarly articles and selections in the humanities and social sciences. Prerequisite: minimum grade of 2.5 in either CHIN 213 or CHIN 303.

CHIN 473 Seminar in Early Medieval China (5) VLPA
History and culture of Early Medieval China and the intellectual-philosophical writings that transformed Chinese culture. Prerequisite: CHIN 213 or CHIN 303.

CHIN 482 Advanced Readings in Modern Chinese (5) VLPA
Modern texts in the original, mainly works published since the beginning of the twentieth century. Focus on literature, primarily short story and essay. Prerequisite: minimum grade of 2.5 in either CHIN 213 or CHIN 303

CHIN 495 Foreign Study: Advanced Chinese Literature or Linguistics (1-5, max. 15) VLPA
Advanced Chinese literature or linguistics studied abroad in approved programs. Evaluation by department/faculty required.

CHIN 496 Special Studies in Chinese (5, max. 15) VLPA
Topics vary.

CHIN 499 Undergraduate Research (3-5, max. 15)
For Chinese language and literature majors. Offered: AWSpS.

CHIN 531 Introduction to Historical Phonology (5)
Sources and methods in the study of phonology. Prerequisite: CHIN 442 or permission of instructor.

CHIN 540 Seminar in Linguistics (2/5, max. 15) Z. Handel
Advanced topics in Chinese linguistics. Subject emphasis varies from year to year.

CHIN 545 Seminar in Applied Linguistics (5, max. 15) C. Lu
Selected topics in applied linguistics. Prerequisite: Permission of instructor. Offered: AWSp.

CHIN 551 First-Year Classical Chinese (5)
Exercises and selected readings in pre-Han texts. Grammar, systematic sentence analysis, and distinctive functions of grammatical particles. First in a sequence of three. Prerequisite: either CHIN 113, CHIN 203, or CHIN 234, or equivalent.

CHIN 552 First-Year Classical Chinese (5)
Exercises and selected readings in pre-Han texts. Grammar, systematic sentence analysis, and distinctive functions of grammatical particles. Second in a sequence of three. Prerequisite: either a minimum grade of 2.0 in CHIN 551 or equivalent.

CHIN 553 First-Year Classical Chinese (5)
Exercises and selected readings in pre-Han texts. Grammar, systematic sentence analysis, and distinctive functions of grammatical particles. Third in a sequence of three. Prerequisite: either a minimum grade of 2.0 in CHIN 552 or equivalent.

CHIN 559 Introduction to Methods and Materials in Sinology (2/5)
Introduction to the basic reference works and methods of research in Chinese language and literature. Includes a history of Sinology, survey of basic bibliographies, dictionaries, atlases, catalogs, journals, literary collections, concordances, and other sources. Prerequisite: CHIN 551, CHIN 552. Offered: AWSp.

CHIN 561 History of Chinese Literature (2/5)
Part of a three-quarter series of graduate-level courses on the history of Chinese literature. Focuses on major writers and works from earliest times to the Tang dynasty.

CHIN 562 History of Chinese Literature (2/5)
Part of a three-quarter series of graduate-level courses on the history of Chinese literature. Focuses on major writers and works from the Tang and Song dynasties.

VIET 113 Elementary Vietnamese (5) Introduction to modern Vietnamese conversation. Emphasis on correct pronunciation, spelling, and sentence structure. Designed for students with no previous exposure to Vietnamese. Third in a sequence of three. Prerequisite: VIET 112. Offered: Sp.

VIET 121 First-Year Heritage Vietnamese (5) For heritage students already exposed to informal, spoken Vietnamese at home or in the community.

VIET 122 First-Year Heritage Vietnamese (5) For heritage students already exposed to informal, spoken Vietnamese language at home or in the community. Prerequisite: either VIET 101, VIET 111, or VIET 121.

VIET 123 First-Year Heritage Vietnamese (5) For heritage students already exposed to informal, spoken Vietnamese language at home or in the community. Prerequisite: either VIET 102, VIET 112, or VIET 122.

VIET 145 Foreign Study: Elementary Vietnamese (1-15, max. 20) For participants in study abroad programs who complete elementary language courses in approved programs in Vietnam. Evaluation by department faculty required.

VIET 211 Intermediate Vietnamese (5) VLPA Development of conversation skills, reading for comprehension, and writing short compositions. First in a sequence of three. Prerequisite: VIET 113. Offered: A.

VIET 212 Intermediate Vietnamese (5) VLPA Development of conversation skills, reading for comprehension, and writing short compositions. Second in a sequence of three. Prerequisite: VIET 211. Offered: W.

VIET 213 Intermediate Vietnamese (5) VLPA Development of conversation skills, reading for comprehension, and writing short compositions. Third in a sequence of three. Prerequisite: VIET 212. Offered: Sp.

VIET 214 Accelerated Heritage Vietnamese (5) VLPA VIET 214 is primarily offered to heritage Vietnamese students who regularly speak the language at home or in the community. This course includes an introduction of diverse Vietnamese regional dialects, further develops reading and writing skills, and discussions about contemporary Vietnamese topics. Offered: AWSpS.

VIET 245 Foreign Study: Intermediate Vietnamese (1-15, max. 20) VLPA For participants in study

abroad programs who complete intermediate language courses in approved programs in Vietnam. Evaluation by department faculty required.

VIET 249 Urban Vietnam: Work and Culture (3/5) VLPA/I&S Explains vibrant changes and static phenomena in Vietnamese society and culture during the last half a century, since the country gained independence from foreign intervention. Examines interdependence among the state, society, and individuals, and how this impacts individual people's lives since the country joined the global economy in the 1990s. Offered: AWSpS.

VIET 311 Advanced Vietnamese (5) VLPA Develops proficiency in reading, writing, listening, and speaking standard colloquial Vietnamese at an advanced level to prepare students to do research. Includes readings in fiction and nonfiction literature, vocabulary and grammar, writing comprehensive exercises, and topic-based conversations. First in a series of three. Prerequisite: VIET 213.

VIET 312 Advanced Vietnamese (5) VLPA Develops proficiency in reading, writing, listening, and speaking standard colloquial Vietnamese at an advanced level to prepare students to do research. Includes readings in fiction and nonfiction literature, vocabulary and grammar, writing comprehensive exercises, and topic-based conversations. Second in a series of three. Prerequisite: VIET 311.

VIET 313 Advanced Vietnamese (5) VLPA Develops proficiency in reading, writing, listening, and speaking standard colloquial Vietnamese at an advanced level to prepare students to do research. Includes readings in fiction and nonfiction literature, vocabulary and grammar, writing comprehensive exercises, and topic-based conversations. Third in a series of three. Prerequisite: VIET 312.

VIET 345 Foreign Study: Advanced Vietnamese (1-15, max. 20) VLPA For participants in study abroad programs who complete 300-level language courses in approved programs in Vietnam. Evaluation by department faculty required.

VIET 361 Postwar Vietnam in Literature, Media, and Film (5) I&S/VLPA Explores how social and political changes in Vietnam since 1975 have made profound impacts upon the lives of Vietnamese people at home and abroad. Via literary and visual genres,

students learn to realize the critical relationship between utopian dreams and everyday realities while Vietnam rebuilt itself and re-integrated with the world.

VIET 496 Special Studies in Vietnamese (3-5, max. 15) VLPA Topics vary. Emphasizes improving language skills for research. Offered: AWSp.

VIET 499 Undergraduate Research (3-5, max. 15) Undergraduate research/independent study in Vietnamese language and literature. Offered: AWSp.

ASTROBIOLOGY

ASTBIO 115 Astrobiology: Life in the Universe (5) NW *David C. Catling, Roger Buick, Victoria S Meadows, Woodruff T Sullivan* Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTR 115/BIOL 114/ESS 115/OCEAN 115.

ASTBIO 501 Astrobiology Disciplines (4) R. *BUICK, D. CATLING, V. MEADOWS* Review of research and subject matter relevant to astrobiology from within the disciplines of biology, astronomy, oceanography, atmospheric science, chemistry, planetary science, and geology. Offered: A, even years.

ASTBIO 502 Astrobiology Topics (4) R. *BUICK, D. CATLING, V. MEADOWS* Investigation in detail of research topics of current interest. Offered: A, odd years.

ASTBIO 550 Professional Development for Astrobiology (2) Seminar in preparation for the academic job market; writing and reviewing grant proposals; building and managing interdisciplinary research teams; understanding the multiple career paths available in astrobiology; interdisciplinary teaching; and professional ethics. Credit/no-credit only. Offered: W, odd years.

ASTBIO 575 Seminar in Astrobiology (1, max. 10) Discussion of recent research in astrobiology. Credit/no-credit only. Offered: W, even years.

ASTBIO 576 Astrobiology Colloquium (1, max. 15) Current research topics in astrobiology. Credit/no-credit only. Offered: ASp.

ASTBIO 600 Independent Study or Research (*) Study or research under the supervision of individual faculty members.

ASTRONOMY

ASTR 101 Astronomy (5) NW, QSR Introduction to the universe, with emphasis on conceptual, as contrasted with mathematical, comprehension. Modern theories, observations; ideas concerning nature, evolution of galaxies; quasars, stars, black holes, planets, solar system. Not open for credit to students who have taken ASTR 102 or ASTR 301; not open to upper-division students majoring in physical sciences or engineering. Offered: AWSpS.

ASTR 102 Introduction to Astronomy (5) NW, QSR Emphasis on mathematical and physical comprehension of nature, the sun, stars, galaxies, and cosmology. Designed for students who have had algebra and trigonometry and high school or introductory-level college physics. Cannot be taken for credit in combination with ASTR 101 or ASTR 301. Offered: A.

ASTR 105 Exploring the Moon (5) NW *Smith* Examines the questions why did we go to the moon, what did we learn, and why do we want to go back. Offered: W.

ASTR 109 Measuring the Universe (3) I&S/NW M. *McQuinn* How did we measure the distance to the Sun, the mass of the Earth, the age of the Universe? How do we know that everyday matter is composed of atoms? Provides a mostly descriptive, historical introduction to the methods different societies have devised to solve such quandaries, in the process constraining nature's laws and shaping the physical sciences into their modern form.

ASTR 115 Astrobiology: Life in the Universe (5) NW *David C. Catling, Roger Buick, Victoria S Meadows, Woodruff T Sullivan* Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts

majors. Offered: jointly with ASTBIO 115/BIOL 114/ESS 115/OCEAN 115.

ASTR 150 The Planets (5) NW, QSR For liberal arts and beginning science students. Survey of the planets of the solar system, with emphases on recent space exploration of the planets and on the comparative evolution of the Earth and the other planets. Offered: AWSpS.

ASTR 160 Introduction to Exoplanets (3/5) NW Introduction to exoplanets. Explores how studies of extrasolar planets have changed our views of how planets and planetary systems form and evolve. Examines the science behind the search for Earth-like planets and life beyond our Solar System. May not earn credit if credit earned in ASTR 419.

ASTR 190 Modern Topics in Astronomy for Non-Science Majors (3/5, max. 10) NW Topics of current interest, such as origin of chemical elements, novae and supernovae, white dwarfs, neutron stars, black holes, active galaxies, quasars, or interstellar medium and astrochemistry. Choice of topics depends on instructor and class interest. Prerequisite: either one 100- or one 200-level ASTR course.

ASTR 192 Pre-Major in Astronomy Research Seminar (3-5) NW Introduction to astronomical computing and research methods for students interested in astronomy and in the premajor-in-astronomy program. Co-requisite: ASTR 102. Offered: A.

ASTR 201 The Universe and the Origin of Life (5) NW, QSR Sequel to 101 or 102, emphasizing modern views of the atomic and molecular evolution of the universe from the initial "big bang" through the formation of the solar system and the emergence of biological forms on the earth. The latter part of the course considers questions about the existence of, and communication with, extraterrestrial intelligent life, and finally the ultimate fate of the cosmos.

ASTR 210 Distance and Time: Size and Age in the Universe (5) NW, QSR Space and time as basic concepts in physical science. How we define and measure them, how the concepts have developed over the centuries, and how modern measurements allow us to determine the size and age of the universe.

ASTR 211 The Universe and Change (5) NW, QSR Gravity as central to the form and evolution of the universe. Conceptual formulation of gravity from the Renaissance to Einstein. Its consequences from the falling of an apple to the slowing of the expansion of the universe. Offered: W.

ASTR 216 The Impact Threat to Earth (3) NW *Chris Laws, Toby R. Smith* Earth has been hit by large rocks in the past, and will be hit by such rocks in the future. Explores the history and future of impacts on Earth. Investigates why and how often we are hit, how big is the material that hits us. What can we do about it? Recommended: ASTR 101 or ASTR 150. Offered: Sp.

ASTR 270 Public Outreach in Astronomy (3) VLPA/NW Emphasis on giving effective scientific presentations, developing and giving educational programs to school-age groups, and communicating knowledge of astronomy to others. Give talks at the Jacobsen Observatory on campus and presentations in the Astronomy Department's planetarium. Learn to operate a telescope and the planetarium equipment. Prerequisite: one astronomy course at either the 100-, 200-, or 300-level. Offered: Sp.

ASTR 300 Introduction to Programming for Astronomical Applications (3) QSR Introduction to programming needed for astronomical applications: Linux operating systems, PERL, IDL. Recommended for astronomy majors planning to take 400-level astronomy courses, to pursue individual research projects, or to apply for research experience for undergraduate appointments. Prerequisite: either ASTR 321, ASTR 322, or ASTR 323, any of which may be taken concurrently. Offered: AW.

ASTR 301 Astronomy for Scientists and Engineers (3) NW Introduction to astronomy for students in the physical sciences or engineering. Topics similar to ASTR 101, but the approach uses more mathematics and physics. Prerequisite: PHYS 123.

ASTR 302 Python for Astronomy (3) NW, QSR Teaches how to effectively use Python for research and astronomical data analysis. Introduction to key tools and libraries used in astronomy and how to use these to analyze data, visualize datasets, automate analyses, and apply this knowledge to reproducing results of some key astronomy papers. Prerequisite: ASTR 300; recommended: knowledge of Python and

related astronomy libraries at the ASTR 300 level highly recommended.

ASTR 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with HSTCMP 313.

ASTR 321 The Solar System (3) NW Solar system; planetary atmospheres, surfaces and interiors, the moon, comets. The solar wind and interplanetary medium. Formation of the solar system. Prerequisite: PHYS 224 which may be taken concurrently. Offered: Sp.

ASTR 322 The Contents of Our Galaxy (3) NW Introduction to astronomy. Basic properties of stars, stellar systems, interstellar dust and gas, and the structure of our galaxy. Prerequisite: PHYS 224 which may be taken concurrently. Offered: A.

ASTR 323 Extragalactic Astronomy and Cosmology (3) NW Galaxies, optical and radio morphology and properties. Clusters of galaxies, radio sources, and quasars. Observational cosmology. Prerequisite: ASTR 322 which may be taken concurrently. Offered: W.

ASTR 324 Introduction to Astrostatistics and Machine Learning in Astronomy (3) QSR *Mario Juric* Introduces students to data science tools and techniques commonly used in data driven astronomy and astrophysics. Combines introductory theoretical background with hands-on work on examples of data analysis with modern astronomical datasets. Prerequisite: MATH 124 or MATH 134; MATH 125 or MATH 135; MATH 126; and ASTR 300 or ASTR 302; recommended: basic understanding of scientific measurement and statistics at the level of a first-year undergraduate lab. Offered: Sp.

ASTR 400 Undergraduate Research Seminar (1) NW Introduces research topics conducted by astronomy faculty. Each week a faculty member describes her/his current research and the opportunities available for interested majors to participate in the research. Credit/no-credit only. Offered: A.

ASTR 419 Exoplanets (3) NW Exoplanet properties, discovery, and habitability. Examines the science involved in the search for Earth-like planets and life beyond our Solar System. Topics include: exoplanet environments, modelling exoplanet planetary systems, planetary habitability, detection, and properties of exoplanets. May not earn credit if credit earned in ASTR 160. Prerequisite: ASTR 321.

ASTR 421 Stellar Observations and Theory (3) NW Observations and theory of the atmospheres, chemical composition, internal structure, energy sources, and evolutionary history of stars. Prerequisite: ASTR 322. Offered: W.

ASTR 423 High-Energy Astrophysics (3) NW High-energy phenomena in the universe. Includes supernova, pulsars, neutron stars, x-ray and gamma-ray sources, black holes, cosmic rays, quasi stellar objects, active galactic nuclei, diffuse background radiations. Radiative emission, absorption processes, and models derived from observational data. Prerequisite: PHYS 224; PHYS 225.

ASTR 425 Cosmology (3) QSR Studies the universe as a whole. Overview of fundamental observations of cosmology and an introduction to general relativity. Examines theories of the past and future history of the universe, the nature of dark matter and dark energy, and the origin of ordinary matter on the large-scale structure. Prerequisite: PHYS 224; PHYS 225. Instructors: Agol, Connolly, Quinn

ASTR 427 Methods of Computational Astrophysics (3) NW *Quinn* Provides hands-on experiences in writing computer programs to solve astrophysics problems. Topics include: interpolation and extrapolation, integration, ordinary, differential equations, root finding, optimization, linear algebra, Monte-Carlo partial differential equations, and parallel techniques.

ASTR 480 Introduction to Astronomical Data Analysis (5) NW Hands-on experience with electronic imaging devices (CCDs) and software for image reduction and analysis. Introduction to operating systems, reduction software, and statistical analysis with applications to CCD photometry. Prerequisite: ASTR 300; ASTR 323, which may be taken concurrently. Offered: Sp.

ASTR 481 Introduction to Astronomical Observation

(5) NW Theory and practice of obtaining optical data at a telescope. Preparation, obtaining data with a CCD on a telescope, and subsequent data analysis for completion of a research project. Prerequisite: ASTR 480. Offered: S.

ASTR 482 Writing Scientific Papers (2)

Principles of organizing, developing, and writing resumes, scientific research papers for journals, and astronomy articles for general public interest. Prerequisite: ASTR 481, ASTR 499, PHYS 494, PHYS 495, or PHYS 496, any of which may be taken concurrently. Instructors: Szkody Offered: A.

ASTR 497 Topics in Current Astronomy (1-3, max. 9)

NW Recent developments in one field of astronomy or astrophysics.

ASTR 498 Independent Study (1-3, max. 15) NW

Astronomy-related projects supervised by a faculty member. Projects may be hardware, software, or library work in preparation for conducting astronomical research. Credit/no-credit only.

ASTR 499 Undergraduate Research (*, max. 15)

Special astronomical problems and observational projects, by arrangement with instructor.

ASTR 500 Practical Methods for Teaching

Astronomy (1-3, max. 5) Seminar in the preparation of lecture and workshop materials with emphasis on demonstration, visual aids, and the evaluation of students' progress. Credit/no-credit only.

ASTR 507 Physical Foundations of Astrophysics I (3)

Thermodynamics from an astronomer's point of view: black body radiation, basic radiative transfer, equation of state, degenerate gases, crystallization at high density.

ASTR 508 Physical Foundations of Astrophysics II (3)

Introduction to astronomical hydrodynamics and magnetohydrodynamics, basic theorems and application to stellar and interstellar magnetic fields. Introduction to plasma physics and waves in a plasma.

ASTR 509 Physical Foundations of Astrophysics III

(3) Potential theory as applied to astrophysical systems. Orbits. Integrals of motion. Equilibrium and

stability of stellar systems. Encounters of stellar systems. Kinetic theory of collisional systems. Applications of stellar dynamics to star clusters, galaxies, and large-scale structure.

ASTR 510 Nuclear Astrophysics (3)

Big bang nucleosynthesis; nuclear reactions in stars; solar neutrinos and neutrino oscillations; core-collapse supernovae; nucleosynthesis in stars, novae, and supernovae; neutron stars; composition and sources of cosmic rays; gamma ray bursts; atmospheric neutrinos. Offered: jointly with PHYS 554; A.

ASTR 511 Galactic Structure (3)

Kinematics, dynamics, and contents of the galaxy. Spiral structure. Structure and evolution of galaxies.

ASTR 512 Extragalactic Astronomy (3)

Types of galaxies. Integrated properties, content, and dynamics. Extragalactic distance scale, groups and clusters. Radio sources. Observational cosmology.

ASTR 513 Cosmology and Particle Astrophysics (3)

Big bang cosmology; relativistic world models and classical tests; background radiation; cosmological implications of nucleosynthesis; baryogenesis; inflation; galaxy and large-scale structure formation; quasars; intergalactic medium; dark matter.

ASTR 519 Radiative Processes in Astrophysics (3)

Theory and applications of astrophysical radiation processes: transfer theory; thermal radiation; theory of radiation fields and radiation from moving charges; bremsstrahlung; synchrotron; Compton scattering; plasma effects.

ASTR 521 Stellar Atmospheres (3)

Theory of continuous radiation and spectral line formation. Applications to the sun and stars. Prerequisite: PHYS 421 or equivalent.

ASTR 531 Stellar Interiors (4)

Physical laws governing the temperature, pressure, and mass distribution in stars. Equation of state, opacity, nuclear energy generation, computational methods. Models of main sequence stars and star formation. Prerequisite: PHYS 421 or equivalent.

ASTR 532 Stellar Evolution (3)

Theoretical and observational approaches to stellar evolution.

Structure of red giants, supernovae, and white dwarfs. Observations of star clusters and the chemical composition of stars as they relate to the theory of stellar structure. Prerequisite: ASTR 531.

ASTR 541 Interstellar Matter (3) Physical conditions and motions of neutral and ionized gas in interstellar space. Interstellar dust, magnetic fields, formation of grains, clouds, and stars. Prerequisite: modern physics or permission of instructor.

ASTR 555 Planetary Atmospheres (3) Problems of origin, evolution, and structure of planetary atmospheres, emphasizing elements common to all; roles of radiation, chemistry, and dynamical processes; new results on the atmospheres of Venus, Mars, Jupiter, and other solar system objects in the context of comparative planetology. Offered: jointly with ATM S 555/ESS 581.

ASTR 557 Origin of the Solar System (3) Nebular and nonnebular theories of the solar system origin; collapse from the interstellar medium, grain growth in the solar nebula, formation of planetesimals and planets, early evolution of the planets and other possible planetary systems; physical and chemical evidence upon which the ideas concerning the origin of the solar system are based. Offered: jointly with ESS 583.

ASTR 558 Exoplanets (3) Modern theory and observations of extrasolar planets, including detection and characterization techniques, orbital dynamics, atmospheric structure and dynamics, and planet formation. Prerequisite: either ASTR 507, ASTR 508, ASTR 519, or permission of instructor. Offered: W.

ASTR 561 High Energy Astrophysics (3) Observed properties of supernovae, x-ray stars, radio sources, quasars. Theories explaining such objects. Origin of cosmic rays.

ASTR 575 Seminar in Astronomy (1-2, max. 20) Discussion of recent research in astronomy and astrophysics. Prerequisite: permission of department. Credit/no-credit only.

ASTR 576 Astronomy Colloquium (1, max. 20) Current research topics in astronomy and astrophysics. Prerequisite: permission of department. Credit/no-credit only.

ASTR 581 Techniques in Optical Astronomy (5)

Theory and practice of obtaining optical data. Astronomical photoelectric photometers, spectrographs, interferometers, CCDs, and infrared equipment. Data-reduction techniques with emphasis on statistical analysis using digital computers. Observations with MRO thirty-inch telescope.

ASTR 597 Topics in Observational Astrophysics (1-5, max. 20)

ASTR 598 Topics in Theoretical Astrophysics (1-5, max. 20)

ASTR 599 Advanced Astronomy Seminar (1-3, max. 6) Practical exercises in astrophysics. Emphasis on methods and techniques of simulation, acquisition, evaluation, and analysis of observational data and its interpretation using models of astrophysical systems. Prerequisite: permission of instructor.

ASTR 600 Independent Study or Research (*-)

ASTR 700 Master's Thesis (*-)

ASTR 800 Doctoral Dissertation (*-)

BIOLOGY

BIOL 100 Introductory Biology (5) NW Develops an awareness of science by studying basic biological principles and their application to problems of humans and society in the contexts of special topics or themes, which vary quarter to quarter. For non-science majors only.

BIOL 103 Sex, Death, and Evolution (2) NW *Jon Herron* Evolution is the conceptual foundation for all the life sciences. Overview of theoretical and empirical evolutionary biology using examples that involve sex and/or death. Designed for non-majors.

BIOL 105 Drug Dilemmas: The Biology of Cannabinoids and Opioids (2) NW Covers the biology of two - the drug group related to heroin and the drug group related to cannabis. Studies the biology of these drugs to make predictions about human responses and impacts. Investigates social and legal factors interacting with drug biology.

BIOL 106 Introductory Biology Seminar (1/3, max. 6) NW Focuses on current topics in biology. Topics vary from quarter to quarter. Designed to enhance learning skills of students who intend to take BIOL 180/BIOL 200/BIOL 220 and major in one of the biological sciences.

BIOL 107 Biology of Vaccines (3) NW Vaccines and other immunotherapies, biological interactions with our immune system, impacts on society. Why certain immunization schedules are used for infants and how pathogens and cancers are removed by our immune system. Offered: W.

BIOL 108 Evolution and Human Behavior (5) I&S/NW Introduction to evolution by natural selection, examining the light it can throw on human biology and behavior in such areas as the nature of sex differences, sexual conflict, and conflict between parents and children. Offered: jointly with BIO A 100.

BIOL 110 Freshman Discovery Seminar in Biology (5) NW Introduces incoming freshman to research basics and scholarly inquiry skills used in the study of biology.

BIOL 114 Astrobiology: Life in the Universe (5) NW *David C. Catling, Roger Buick, Victoria S Meadows, Woodruff T Sullivan* Introduction to the new science of astrobiology, study of the origin and evolution of life on Earth, and the search for microbial and intelligent life elsewhere in the Universe. Designed for non-science, liberal arts majors. Offered: jointly with ASTBIO 115/ASTR 115/ESS 115/OCEAN 115.

BIOL 118 Survey of Physiology (5) NW Human physiology, for nonmajors and health sciences students. Offered: AWSpS.

BIOL 119 Elementary Physiology Laboratory (1) NW Prerequisite: BIOL 118 which may be taken concurrently. Offered: AWSpS.

BIOL 120 Current Controversies in Biology (2-5, max. 6) NW Explores a current controversial topic in biology, stressing information needed by the general public to make informed personal, political, and ethical decisions relating to this topic.

BIOL 130 Introduction to Neuroscience (4) NW *Horacio O. De La Iglesia, Bingni W Brunton, William J Moody* Provides a broad introduction to the study of brain function in humans and other animals. Emphasizes how circuits within the brain process sensory information and generate complex movements. No credit if NBIO 301, NBIO 302, or BIOL 461 already taken. Offered: Sp.

BIOL 161 Advanced Placement (AP) in General Biology 1 (5-) NW Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information. Credit/no-credit only.

BIOL 162 Advanced Placement (AP) in General Biology 2 (-5) NW Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information. Credit/no-credit only.

BIOL 180 Introductory Biology (5) NW Mendelian genetics, evolution, biodiversity of life forms, ecology, and conservation biology. Open to all students interested in biology whether intending to major in the biological sciences, enroll in preprofessional programs, or fulfill a Natural World requirement. First course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220) . Offered: AWSpS.

BIOL 200 Introductory Biology (5) NW For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Metabolism and energetics, structure and function of biomolecules, cell structure and function, animal development. Second course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220) . Prerequisite: minimum grade of 1.7 in either BIOL 180, B BIO 180, T BIOL 120, or TESC 120; either CHEM 143, CHEM 145, CHEM 223, CHEM 237, or OCEAN 295, or concurrently taking either CHEM 220, CHEM 152, CHEM 153, or CHEM 155. Offered: AWSpS.

BIOL 220 Introductory Biology (5) NW For students intending to take advanced courses in the biological sciences or enroll in preprofessional programs. Animal physiology, plant development and physiology. Final course in a three-quarter series (BIOL 180, BIOL 200, BIOL 220) . Prerequisite: minimum grade of 2.0 in either BIOL 200, B BIO 200, or T BIOL 130. Offered: AWSpS.

BIOL 240 Intensive Introductory Biology: Human Health Emphasis (15) NW *J. Doherty, S. Freeman, A. Schivell* Comprehensive introduction to biology from the standpoint of interactions between biology, human health, society, and the larger ecosystem. Covers Mendelian genetics, evolution, biodiversity of life forms, ecology, conservation biology, metabolism and energetics, structure and function of biomolecules, cell structure and function, animal physiology, and plant physiology. Offered: S.

BIOL 250 Marine Biology (3/5) I&S/NW Lecture-laboratory course in marine biology focusing on physical, biological, and social aspects of the marine environment. Topics include oceanography, ecology, physiology, behavior, conservation, fisheries, exploration, and activism. Weekend field trip. Honors section research project. Offered: jointly with FISH 250/OCEAN 250; AS.

BIOL 270 Data Reasoning in a Digital World (4) I&S *Jevin West, Carl T Bergstrom* Our world is rife with misinformation. This is a course about "calling b***s*** on" - spotting, dissecting, and publicly refuting - false claims and inferences based on quantitative, statistical, and computational analysis of data. Spotting misinformation; causal fallacies; statistical traps; data visualization; big data; interpreting scientific claims; fake news and social media; refutation techniques. Prior math/stat background unnecessary. Offered: A.

BIOL 280 The History of Life (4) NW *P. WARD* Follows the history of life from its first formation including the origin of life and life's diversification from single cells through multi-cellularity. Examines fossils and DNA evidence from understanding the sequence of events and evolutionary history of life.

BIOL 293 Study Abroad - Biology (1-10, max. 10) NW For participants in UW Study Abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval.

BIOL 302 Laboratory Techniques in Cell and Molecular Biology (4) NW *T. Imaizumi, L. Martin-Morris* Explores the use of various cell and molecular laboratory techniques, such as PCR, cloning, gel electrophoresis, and bacterial transformation through hands-on experiments. Students produce a portfolio of techniques they have learned.

Prerequisite: either BIOL 355 or a minimum grade of 2.5 in either BIOL 200, BIOL 240, B BIO 200, or T BIOL 130.

BIOL 305 Science Communication: Video Storytelling in Biology (3) NW/VLPA *P. Boersma* Students make a short film on a biological story, concept, or theory. Includes developing a storyline, getting the shots to make compelling viewing, editing, and producing a short video. Prerequisite: either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120. Offered: Sp.

BIOL 310 Survey of Human Anatomy (5) NW *C. Self* Covers the major systems of the human body (integumentary, skeletomuscular, lymphatic, respiratory, digestive, nervous, endocrine, cardiovascular and reproductive) and the interactions of cells and tissues that help humans live, grow and change. Focus on anatomy (not physiology) to offer students a greater understanding of the structures, development, and evolution of the of human body. Offered: ASP.

BIOL 311 Biology of Fishes (3/5) NW Covers morphological, physiological, behavioral, and ecological diversity of fishes of the world; designed to provide a basic foundation for advanced courses in all areas of aquatic sciences. 3-credit option does not include laboratory. Offered: jointly with FISH 311; W.

BIOL 313 Civilizational Biology (4) I&S/NW *Ben Wiggins* Explores fundamental biology needed to build and maintain human society (both historically and after a future apocalyptic event) . Focuses on engineering and innovating necessary biology tools from raw materials (bread, soap, preservatives, textiles, salt, etc.) and in biological/cultural practices (birth, death, medical care, conservation, etc) . Prerequisite: BIOL 220 or BIOL 240.

BIOL 315 Biological Impacts of Climate Change (3) NW Covers the biological impacts of climate change, including changes in species distributions and interactions, altered phenology, and ecosystem dynamics. Discusses implications of these biological impacts for society (e.g., food security, public health, and resource management) . Prerequisite: either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120.

BIOL 317 Plant Classification and Identification (5) NW R. *Olmstead* Classification and diversity of seed plants; concepts and principles of classification, lab and field study of common plant families in Washington, and skill development for identification of species. One weekend field trip. Offered: SpS.

BIOL 331 Landscape Plant Recognition (3) NW Field recognition of important groups of woody landscape plants, emphasizing diversity at the genus and family levels. Cultivated plant nomenclature. Plant descriptive characters evident in the field with eye and hand lens. Hardiness and landscape applications. Offered: jointly with ESRM 331; Sp.

BIOL 340 Genetics and Molecular Ecology (5) NW Application of molecular markers to ecology, evolution, and the management of living resources. Emphasis on understanding the strengths and weaknesses of the approach based on case studies. Prerequisite: BIOL 200. Offered: jointly with FISH 340; A.

BIOL 350 Foundations in Physiology (3) NW Physiology core course for biological sciences majors. Analysis of basic principles of animal and plant physiology, with emphasis on cellular processes that mediate organismic processes. Serves as gateway to upper-division courses in physiology. Prerequisite: minimum grade of 2.0 in either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140. Offered: AWSpS.

BIOL 354 Foundations in Evolution and Systematics (3) NW Evolution and systematics core course for biological sciences majors. Emphasizes patterns, processes, and consequences of evolutionary change. Serves as gateway to 400-level courses and seminars in evolution, population genetics, sociobiology, conservation biology, phylogenetics, and systematics. Prerequisite: either BIOL 180, BIOL 240, B BIO 180, T BIOL 120, or BIO A 201. Offered: ASp.

BIOL 355 Foundations in Molecular Cell Biology (3) NW Cell biology core course for biological sciences majors. Emphasis on molecular approaches to understand cell structure, function, and regulation, and the analysis of experimental design and data interpretation. Serves as a prerequisite to advanced 400-level cell, molecular, and developmental biology courses and seminars. Prerequisite: minimum grade

of 2.0 in either BIOL 200, BIOL 240, B BIO 200, T BIOL 130. Offered: AWSpS.

BIOL 356 Foundations in Ecology (3) NW Ecology core course for biological sciences majors. Emphasizes understanding species interactions in biological communities and relationships of communities to environment. Serves as a prerequisite to 400-level courses and senior seminars in ecology, population, and conservation biology. Prerequisite: either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120. Offered: AW.

BIOL 359 Foundations in Quantitative Biology (3) NW, QSR Quantitative skills used in biology, with a focus on applying those skills to current biological issues. Topics include data analysis, probabilities, statistics, algorithms, and numerical simulations. No math or statistics background required. Prerequisite: BIOL 220 or BIOL 240.

BIOL 360 Cellular Anatomy (4) NW L. *Zeman* Recognition of cellular and tissue structures in plants and animals with correlations to normal physiology and disease states. Prerequisite: minimum grade of 2.0 in either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140; may not be taken for credit if credit earned in BIOL 403.

BIOL 380 Biomedical Advances and Society (3) I&S A. *Schivell* Recent biological advances studied in the context of our society, designed to foster critical thinking, public awareness, and policy impact. Topics may include human reproductive technologies, genetic engineering, embryonic stem cell research, and medical scanning improvements. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL140.

BIOL 381 Introduction to Athletic Training (Lower Extremity) ([1-3]-, max. 3) Jaqulyn Carrell, Jenn Stueckle, Kimberly Harmon, Chelsea Larsen Topics and principles of athletic training, with internship hours in the Husky Athletic Training Room assisting with the 21 Husky varsity sports. Exposes students to the work of an athletic trainer within the sports medicine team. Focuses on lower extremities. Prerequisite: BIOL 220. Offered: A.

BIOL 382 Introduction to Athletic Training (Upper Extremity) (-[1-3]-, max. 3) Jenn Stueckle, Kimberly Harmon, Chelsea Larsen, Jaqulyn Carrell Topics and principles of athletic training, with internship hours

in the Husky Athletic Training Room assisting with the 21 Husky varsity sports. Exposes students to the work of an athletic trainer within the sports medicine team. Focuses on upper extremities. Prerequisite: BIOL 381. Offered: W.

BIOL 383 Introduction to Athletic Training (Core) (-[1-3], max. 3) *Kimberly Harmon, Chelsea Larsen, Jenn Stueckle, Jaquelyn Carrell* Topics and principles of athletic training, with internship hours in the Husky Athletic Training Room assisting with the 21 Husky varsity sports. Exposes students to the work of an athletic trainer within the sports medicine team. Focuses on trunk and spine. Prerequisite: BIOL 382. Offered: Sp.

BIOL 385 Evolutionary Medicine and Public Health (3) NW Explores evolutionary causes of health and disease. Considers how natural selection and the legacies of our human, primate, mammalian and bacterial ancestries have shaped our biology. Topics include mental disorders, aging, cancer, diet, obesity, diabetes, infectious diseases, racism, and health differences between human groups. Prerequisite: either BIO A 201 or BIOL 180. Offered: jointly with BIO A 355.

BIOL 394 Practical Introduction to Beekeeping (4-6) NW *E. SUGDEN* Introduction to bee biology, pollination, and basic beekeeping theory. Students make their own hive, rear a queen bee, and prepare a publishable scientific paper and learn basic beekeeping technique. Credit/no-credit only. Offered: S.

BIOL 396 Peer Facilitation - Teaching in Biology (1-4, max. 8) NW For undergraduates working in biology courses as peer facilitators. Peer facilitators assist with labs, lectures, and course administration and gain direct classroom experience. No independent teaching or grading. Opportunities vary by quarter and instructor. Prerequisite: either BIOL 350, BIOL 354, BIOL 355, or BIOL 356. Credit/no-credit only.

BIOL 397 Preparing Specimens for Ornithological Collections and Research (5, max. 10) NW *J. Klicka* Focuses on the physiology and preparation of birds for use in scientific collections, including hands-on methods for sustainable and accurate display. Prerequisite: BIOL 220 or BIOL 240 Offered: W.

BIOL 399 Biology Internship Program (2-12, max. 15) NW *B. WIGGINS* Coordinated internship in a biology-related field. Allows a structured, real world biology work experiences off-campus. All internships must be approved by instructor. Credit/no-credit only. Offered: AWSpS.

BIOL 400 Experiments in Molecular Biology (4) NW *A. Crowe, A. Schivell* Integrated reading, writing, and experimentation in molecular biology. Design and implementation of experiments using modern molecular biology techniques to address current questions in biology. Emphasizes reading and evaluating primary research literature. Includes practice in different scientific writing styles. Prerequisite: minimum grade of 2.0 in BIOL 355.

BIOL 401 Advanced Cell Biology (3) NW Selected topics in molecular cell biology. Strong emphasis on reading and interpreting primary research literature. Writing intensive course. Prerequisite: BIOL 355.

BIOL 402 Functional Genomics (4) NW *A. Paredes* Students perform initial characterization of novel genes through epitope tagging and localization. Skills covered include: preparation of solutions, Genomic Database queries, PCR, electrophoresis, DNA purification, cloning, transformation, and immunofluorescence microscopy. Prerequisite: minimum grade of 2.0 in BIOL 355.

BIOL 404 Animal Physiology: Cellular Aspects (3) NW *Horacio O. De La Iglesia* Examines the physiology of membrane transport, nervous signaling, sensory systems, behavioral modulation, muscle, neuronal and endocrine integration, and circadian rhythms. Emphasis on the cellular and tissue level. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140; either CHEM 224 or CHEM 239. Offered: A.

BIOL 405 Cellular and Molecular Biology of Human Disease (3) NW Emphasizes the understanding of disease mechanisms through studies of genetic and cellular basis human disease and disease models. Based on analyses of primary research articles. This course does not cover infectious diseases. Prerequisite: minimum grade of 2.0 in BIOL 355; either GENOME 361 or GENOME 371; either BIOC 405, BIOC 440, BIOL 401.

BIOL 407 Molecular Cell Biology of Neural Stem Cells (4) NW C. Cabernard Examines the basic mechanisms used by stem cells to form differentiated cells. Students analyze the localization and function of Myosin family genes/proteins in the context of asymmetrically dividing neural stem cells using *Drosophilla* genetics, molecular biology and cell biology techniques. Offers opportunities for follow-up experiments based on initial observations. Prerequisite: BIOL 355.

BIOL 408 Neuroethology (4) NW Comparative exploration of the neural, hormonal, and genetic mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, spatial orientation, homing and migration, and biological rhythms. Students are expected to understand fundamental concepts of neuroscience from any of the following prerequisite courses. Prerequisite: either PSYCH 333 OR BIOL 220. Offered: jointly with PSYCH 408.

BIOL 410 Current Topics in Molecular and Cellular Biology Research (2) NW R. Gardner Focuses on current research in primary literature in molecular and cellular biology. Covers three topics in depth that change to match immediately active topic areas. Prerequisite: BIOL 340, BIOL 350, BIOL 354, BIOL 355, BIOL 356, BIOL 360, or BIOL 380. Offered: Sp.

BIOL 411 Developmental Biology (4) NW Embryology and subsequent development of vertebrate and invertebrate animals, including *Xenopus*, mammals, chicks, *Drosophila*, echinoderms. Morphological changes in developing animals; experimental analysis of developing systems; underlying genetic and biochemical regulation of development. Prerequisite: BIOL 355 Offered: AW.

BIOL 413 Molecular Genetics of Development (4) NW J. Parrish Uses molecular biology, cell biology, and genetic approaches to investigate how nutrient signals influence neuron growth. Prerequisite: BIOL 355.

BIOL 414 Molecular Evolution (5) NW Survey of empirical approaches to the study of molecular evolution and ecology, drawing on examples from a variety of taxa and the recent literature. Topics include DNA sequencing and systematics,

fingerprinting approaches in behavioral ecology, and adaptive evolution at the molecular level. Prerequisite: BIOL 354. Offered: jointly with GENOME 414.

BIOL 415 Evolution and Development (3) NW D. Parichy Analysis of intertwined developmental and evolutionary processes studied through evolution of developmental genes, proteins, and expression patterns in different organisms. Includes reading and analyzing implications for ecology evolution, and human disease. Prerequisite: either a minimum grade of 3.0 in BIOL 200, BIOL 240, B BIO 200, or T BIOL 130, or a minimum grade of 2.0 in either BIOL 354 or BIOL 355.

BIOL 416 Molecular Genetics of Plant Development (3) Plant growth and development examined in molecular-genetic terms. Covers mutation, dominance, redundancy, epistasis, and key technologies for discovery of gene function as well as embryogenesis, meristem formation, flower development, and other problems in plant development. Prerequisite: BIOL 355 and either GENOME 361, or GENOME 371.

BIOL 417 Comparative Reproductive Physiology of Vertebrates (4) NW Compares the reproductive physiology of fishes, amphibians, reptiles, birds, and mammals. Prerequisite: either BIOL 350 or BIOL 355.

BIOL 418 Biological Clocks and Rhythms (4) NW H. DE LA IGLESIA Examines circadian rhythms and other forms of biological rhythmicity, including annual and tidal rhythms. Includes theoretical background as well as aspects that range from the molecular and cellular basis to the ecological and evolutionary implications of biological rhythms. Prerequisite: BIOL 350 or BIOL 355.

BIOL 419 Data Science for Biologists (4) QSR B. BRUNTON Explores, analyzes, and visualizes biological data sets using scientific computing software. Focuses on the foundations of data wrangling, data analysis, and statistics, particularly the development of automated techniques that are reproducible and scalable to large data sets. Offered: W.

BIOL 420 Game Theory in Biology (4) NW, QSR C. Bergstrom Game theory is a tool for modeling and understanding biological interactions ranging from

parental care to mate choice to animal contests to symbiosis. Studies conceptual foundations and basic methods and applies game theory in an evolutionary context to better understand the games that organisms play. Prerequisite: Either BIOL 180 or BIOL 240; and either Q SCI 291 or MATH 124

BIOL 421 Ecological and Evolutionary Physiology of Animals (4) NW *L. Buckley* Explores the role of physiology in the ecology and evolution of animals. Special emphasis on how physiology influences responses to environmental change. Prerequisite: either BIOL 350, BIOL 354, BIOL 356, or a minimum grade of 3.6 in BIOL 180 or BIOL 240.

BIOL 422 Physiology of Plant Behavior (3) NW *Elizabeth Van Volkenburgh* Focuses on plant sensory mechanisms, transport and integration of information, and behavior in response to a variety of environmental stimuli. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140.

BIOL 423 Marine Ecological Processes (3) NW *Emily Carrington* Studies the ecology of the oceans and coastal regions, emphasizing benthic communities common to the Pacific Northwest. Prerequisite: either BIOL 180 and BIOL 356, or BIOL 180 and FISH 250/BIOL 250/OCEAN 250, or a minimum grade of 3.4 in either BIOL 180 or BIOL 240.

BIOL 424 Plant Ecophysiology (5) NW *S. Kim* Explores physiological mechanisms that underlie ecological observations, including how above- and below-ground microclimates develop and affect plant physiological processes. Discusses acclimation to environmental change along with species differences in physiological processes and plant's occupation of heterogeneous environments. Laboratories emphasize field measurement techniques. Prerequisite: either BIOL 180, B BIO 180, TESC 120, T BIOL 120, ESRM 201, ESRM 162, or FISH 162. Offered: jointly with ESRM 478; W.

BIOL 425 Plant Physiology and Development (5) NW Expanded coverage of plant growth, nutrition, metabolism, and development. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140. Offered: W.

BIOL 426 Comparative Immunology (3) NW Function and evolution of immune sensing across kingdoms. Basic bioinformatic and structural biology

skills. Prerequisite: either BIOL 354, BIOL 355, GENOME 361, or GENOME 371. Offered: W.

BIOL 427 Biomechanics (5) NW *T. Daniel* Physical biology emphasizing a mechanical approach to ecological, evolutionary, and physiological questions. Basic principles underlying fluid and solid mechanics to explore responses of animals to flows, loads, and motions. Prerequisite: either BIOL 220, B BIO 220, or T BIOL 140; either MATH 125 or Q SCI 292; either PHYS 114 or PHYS 121.

BIOL 428 Sensory Neurophysiology and Ecology Lab (5) NW *J. Riffell* Examines behavioral and physiological processes within an environmental framework. Uses a synthetic approach emphasizing applications to cell biology, physiology and behavior, and biomechanics. Prerequisite: either BIOL 350 or BIOL 355.

BIOL 430 Marine Zoology (5) NW Survey of groups of invertebrate animals represented in the San Juan Archipelago; natural history, functional morphology, ecology, distribution, habitat, adaptation, trophic interrelationships, and evolution. Prerequisite: BIOL 445, which must be taken concurrently; permission of Friday Harbor director. Offered: jointly with FHL 430.

BIOL 431 Biology of Cannabinoids (1) NW Focuses on the plant biochemistry of and human biology interaction with cannabinoid compounds such as those found in the genus *Cannabis*. Prerequisite: Any one of BIOL 313, BIOL 350, BIOL 354, BIOL 355, BIOL 356, BIOL 360, or BIOL 380. Offered: A.

BIOL 432 Marine Invertebrate Zoology (9) NW Comparative morphology and biology of marine invertebrates with emphasis on field and laboratory studies. Representatives of all major and most minor phyla are collected, observed live, and studied in detail. Taken at Friday Harbor Laboratories. Not open for credit to students who have taken BIOL 434. Offered: jointly with FHL 432; S.

BIOL 433 Marine Ecology (5) NW *Jennifer Ruesink* Study of marine ecological processes such as recruitment, disturbance, competition, and predation, and their effects on the structure and diversity of marine communities. Weekend field trips to local intertidal habitats required. Prerequisite: either BIOL 356, BIOL 472, or a minimum grade of

3.4 in either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120. Offered: jointly with MARBIO 433; Sp, odd years.

BIOL 434 Invertebrate Zoology (5) NW Comparative biology and morphology of invertebrates. Laboratory work emphasizes structures and functions. Emphasizes annelids and related worms, mollusks, and arthropods. Not open to students who have taken BIOL 430 or BIOL 432. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140.

BIOL 435 Research Apprenticeship in Marine Science (15) NW Immersive quarter in research in close collaboration with one-three faculty mentors on a specific topic that varies with the apprenticeship. Students engage in laboratory or field research in marine science, involving gathering, analyzing, and communicating results as part of a research team. Offered: jointly with FHL 435/MARBIO 435; ASpS.

BIOL 437 Herpetology (5) NW Amphibian and reptile biology, with emphasis on evolutionary relationships, ecology, behavior, morphology, physiology, and taxonomy. Lectures emphasize major trends and mechanisms maintaining diversity in form and function. Labs cover morphology and taxonomy with emphasis on the local fauna. Weekend, camping field trips required. Prerequisite: minimum grade of 2.5 in BIOL 354.

BIOL 438 Analytical Paleobiology (5) NW Introduction to the principles and analytical methods in the study of paleobiology, morphology, and systematics. Topics include paleobiogeography, morphology-based phylogenetics, evolutionary rates, biodiversity curves, functional morphology, morphometrics, and paleoecology. Emphasis on application of methods using fossil and modern specimens. Prerequisite: either BIOL 280, BIOL 354, or ESS 213. Offered: jointly with ESS 448; A.

BIOL 439 Functional Morphology (5) NW *S. Santana Mata* Uses mammals as a model system to investigate functional morphology. Focus on discussing primary literature, modern methodological tools used in functional morphology, and group research projects. Research-intensive format allows students to conduct research projects using resources and specimens in the Biology Department and Burke mammalogy collection.

Prerequisite: BIOL 443, BIOL 448, BIOL 452, BIOL 453, or 3.0 in BIOL 350, or permission of instructor. Offered: A.

BIOL 440 General Mycology (5) NW *J. Ammirati* General survey of the fungi with emphasis on life cycles, structure, physiology, economic importance. Prerequisite: either BIOL 354 or BIOL 356

BIOL 441 Trends in Land Plant Evolution (5) NW Covers key innovations and trends during the evolution of land plants. Uses an evolution of development (evo-devo) approach that compares morphological, anatomical, developmental, and molecular traits across main evolutionary lineages of plants. Prerequisite: either BIOL 220, B BIO 220, or T BIOL 140; and either BIOL 317, BIOL 350, BIOL 354, BIOL 355, or BIOL 356. Offered: A.

BIOL 442 Mushrooms and Related Fungi (5) NW *J. AMMIRATI* General biology, ecology, and classification of mushrooms, polypores, puffballs, and other related basidiomycetes. Emphasis on Pacific Northwest species. Prerequisite: BIOL 440.

BIOL 443 Evolution of Mammals and their Ancestors (5) NW Highlights the evolutionary history and systematics of mammals and their ancestors. Examines fossil and modern mammal specimens from the Burke Museum collections. Required field trip. Prerequisite: either BIOL 354, BIOL 453, or ESS 100. Offered: Sp.

BIOL 444 Ornithology (5) NW Field, lecture, and laboratory study of birds from an evolutionary perspective. Emphasizes taxonomy, breeding systems, brood parasitism, appearance, molt, migration, orientation, social behavior, song, and flight. Includes Saturday and weekend field trips for which students are required to share a portion of transportation costs. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140.

BIOL 445 Marine Botany (5) NW Survey of plants represented in marine environments; natural history; ecology, distribution, habitat, adaptation, and trophic interrelationships. Taken at Friday Harbor laboratories. Prerequisite: either BIOL 220, B BIO 220, or TESC 140; BIOL 430, which must be taken concurrently. Offered: jointly with FHL 440.

BIOL 447 The Greening of the Earth: Influence of Plants on the Evolution of Terrestrial Ecosystems (5) NW *Caroline A Stromberg* Examines the evolution of terrestrial ecosystems focusing on how abiotic factors such as climate change have shaped the evolution of vegetation on earth, and how the evolution of vegetation has influenced the evolution of animals. Introduces paleoecological techniques using Burke Museum plant fossils. Prerequisite: either BIOL 354 or ESS 213. Offered: A.

BIOL 448 Mammalogy (5) NW *S. SANTANA MATA* Studies evolutionary patterns, ecology, behavior, physiology, and taxonomy of mammals. Relies on a comparative, systems approach to understand the major trends and mechanisms maintaining the diversity in form and function in mammals. Prerequisite: either BIOL 350, BIOL 354, or BIOL 356.

BIOL 449 Applied Phylogenetics (3) NW *A. LEACHE* Emphasizes the estimation of species trees - multilocus estimates of species or population relationships as opposed to genealogies of alleles. Provides students with the computation and bioinformatics skills needed to apply new phylogenetic techniques that can accommodate larger, more complex data sets. Prerequisite: minimum grade of 2.0 in BIOL 354.

BIOL 450 Vertebrate Paleontology (5) NW *C. SIDOR* Examines fossil vertebrate life, focusing on systematics and morphology of major lineages (fish, reptiles, bird, and early mammal relatives) . Examines fossil and modern vertebrates from the Burke Museum collection in the lab. Weekend field trip. Prerequisite: either BIOL 354, BIOL 452, BIOL 453 or ESS 100. Offered: jointly with ESS 452.

BIOL 451 Invertebrate Paleontology (5) NW Important larger invertebrate groups; morphology, classification, stratigraphic distribution, evolution, paleoecology. Offered: jointly with ESS 451.

BIOL 452 Vertebrate Biology (5) NW The biology of vertebrate animals, emphasizing their diversity, adaptations, and evolutionary history. Introduces aspects of behavior, physiology, morphology, and ecology that emerge from the comparative study of vertebrates. Laboratory includes local field trips, films, and introduction to regional vertebrate fauna. Prerequisite: either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120. Offered: SpS.

BIOL 453 Comparative Anatomy of Vertebrates (5) NW Comparison of the structure of vertebrate organ systems: integument, skeletal, muscle, digestive, respiratory, cardiovascular, urinary, and reproductive, with an emphasis on evolutionary trends. Prerequisite: either BIOL 350, BIOL 355, BIOL 452, or BIOL 467. Offered: W.

BIOL 454 Entomology (5) NW Covers the biology of terrestrial arthropods, with emphasis on insects. Includes structure, classification, physiology, and ecology of insects. Interrelationships of insects and man. Requires at least one weekend field trip. Prerequisite: either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120.

BIOL 455 Human Immunology and pathology of infectious diseases: the continuing battle (4) NW Focuses on the immune system as the co-evolutionary center of a struggle between animals and pathogens in regards to human life within a germ-infested world. Deep discussion of the immune system, vaccines, pathogens (focusing on viruses) and how the battle between good and evil needs a healthy balance. Focuses on the biological aspects of cellular and system-wide defense against pathogens. Prerequisite: BIOL 350, 355, or 356. Offered: Asp.

BIOL 457 Chemical Communication (3) NW *J. Riffell* Exploration of how chemical signals are produced, transported, and influence behavior of microbes, plants, and animals. Synthetic approach, with emphasis on applications to cell biology, neurobiology, and ecology. Prerequisite: either a minimum grade of 2.5 in either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140, or a minimum grade of 2.0 in BIOL 350.

BIOL 458 Behavioral Genetics (4) NW Role of genetics in determining variation in human and animal behavior and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects, and gene expression. Prerequisite: either minimum 3.5 grade in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 180. Offered: jointly with PSYCH 458.

BIOL 459 Developmental Neurobiology (3) NW *M. Bosma* Invertebrate and vertebrate examples illustrate the mechanisms used in constructing nervous systems. Focus on the cellular and molecular mechanisms that underlie questions

about the basis of neuronal diversity, axonal pathfinding and target recognition, synaptogenesis, and activity-dependent plasticity. Prerequisite: minimum grade of 2.0 in either BIOL 350 or BIOL 355. Offered: Sp.

BIOL 460 Mammalian Physiology (3) NW Principles of mammalian physiology with special emphasis on the cardiac, respiratory, renal systems taught at the organ and organ systems level. Prerequisite: a minimum grade of 2.5 either BIOL 350 or NBIO 301.

BIOL 461 Neurobiology (3) NW Examination of neuronal function with a focus on sensory systems, research techniques, neurological disease and potential therapeutics. Discussion of primary literature highlights new data related to neurological disease. Prerequisite: minimum grade of 2.0 in BIOL 350; either PHYS 115 or PHYS 122. Offered: W.

BIOL 462 Advanced Animal Physiology (3) NW Physiology at levels of organisms and behavior, organ systems, and cells - an evolutionary and integrative perspective. Organismal physiology: metabolism, temperature, locomotion, osmoregulation, respiration, circulation, digestion. Prerequisite: minimum grade of 2.0 in either BIOL 350 or NBIO 301.

BIOL 463 Advanced Animal Physiology Lab (3) NW Experimental design and techniques, data analysis, written reports. Original project labs and experiments in physiology. Prerequisite: BIOL 462, which may be taken concurrently.

BIOL 464 Molecular Mechanisms of Cancer Seminar (2) NW *Alison J Crowe* Molecular mechanisms of cancer and therapeutic strategies designed to treat cancer. Additional focus on intersection of medicine and society, including racial health disparities, patient ethics, and informed consent. Prerequisite: either BIOL 350 or BIOL 355. Credit/no-credit only. Offered: A.

BIOL 465 Comparative Endocrinology (3) NW Hormonal integration of living processes at all levels in animals: molecules, cells, organs, organisms, populations. Prerequisite: BIOL 220 or BIOL 240

BIOL 466 Pathobiology of Emerging Diseases (3) NW *L. ZEMAN* Examination of the causes, alterations in cellular function, and remediation of emerging

diseases in plants and animals from a global perspective. Includes weekly scientific papers. Prerequisite: either BIOL 350, BIOL 355, BIOL 356, or BIOL 380.

BIOL 467 Comparative Animal Physiology (3) NW Studies organismal function in an evolutionary context. Uses a variety of animals to highlight transitions in metabolism, muscle function, respiration, circulation, digestion, excretion, and ion regulation. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140.

BIOL 468 Medical Physiology (3) D. *Weigle* Students deepen their understanding of human physiology and pathophysiology by performing in-depth analyses of actual medical cases. Cases are chosen to illustrate the mechanisms of frequently encountered diseases and the clinical presentation of affected patients. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140; BIOL 350.

BIOL 469 Evolution and Medicine (3) NW C. *Bergstrom* Responds to new applications of evolutionary biology in medicine, now being discovered at an accelerating rate. Emphasizes medically relevant aspects of evolutionary biology. Prerequisite: minimum grade of 2.0 in either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120.

BIOL 470 Biogeography (4) NW Analysis of historical and ecological determinants of current and past distributions of organisms. Integrates techniques developed by taxonomists, paleontologists, geologists, evolutionists, ecologists, and biogeographers to elucidate relationships between geographical distributions and continental drift, ecological interactions, climate, and dispersal abilities of organisms. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140.

BIOL 471 Comparative Anatomy and Physiology of Marine Organisms (5) NW *Adam P. Summers* Challenges and opportunities presented by the marine environment. Relationship between organismal form and physiological function in marine animals and plants. Field trips for collection of live local organisms. Physiology experiments and CT scanning. Offered at Friday Harbor Laboratories. Prerequisite: either BIOL 220, BIOL 240, or FISH 270/MARBIO 270/OCEAN 270; recommended: Q SCI 381 or equivalent. Offered: jointly with FHL 471; A.

BIOL 472 Community Ecology (5) NW *Janneke Hille Ris Lambers* Covers the forces that structure ecological communities (e.g. speciation / migration, the environment, species interactions) as well as anthropogenic impacts on ecological communities. Course time includes the reading of primary literature, discussions, lectures, data collection (in the field and lab) and data analysis. Includes mandatory field trips to local field sites. Prerequisite: BIOL 356.

BIOL 473 Limnology (3) NW Ecology, conservation, and management of inland aquatic ecosystems. Explores interactions among biological, chemical, and physical features of lakes and other aquatic habitats. Prerequisite: BIOL 180. Offered: jointly with FISH 473; A.

BIOL 474 Limnology Laboratory (2) NW Examination of biota of fresh waters, survey of limnological methods, analysis of data, and writing of scientific papers. Prerequisite: BIOL 473/FISH 473/CEE 462, which may be taken concurrently. Offered: jointly with CEE 463/FISH 474; A.

BIOL 475 Paleobiology Field Methods and Research (3-5) NW Introduces field methods and research in various areas of biology, e.g., paleontology, ecology, climate change, and mycology. Includes two or more weeks away from campus at field site. Offered: jointly with ESS 449; S.

BIOL 476 Conservation Biology (5) NW Explores biological, managerial, economic, and ethical concepts affecting survival of species. Applications of ecology, biogeography, population genetics, and social sciences for the preservation of species in the face of widespread global habitat modification, destruction, and other human activities. Prerequisite: either BIOL 356, or a minimum grade of 2.5 in either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120.

BIOL 477 Seminar in Marine Biology (3) NW Reviews current research in marine biology. Emphasizes critical readings and discussion of primary literature. Prerequisite: FISH 250, OCEAN 250, or BIOL 250; Q SCI 381, STAT 220, or STAT 311. Offered: jointly with FISH 477/OCEAN 477; W.

BIOL 478 Topics in Sustainable Fisheries (3, max. 9) I&S/NW Seminar series featuring local, national, and

internationally known speakers in fisheries management and conservation.

Conservation/restoration in practice. Pre-seminar discussion section focusing on select readings. Topics may include harvest management, whaling, by-catch, salmon, marine protected areas, introduced species, citizen action, co-management, and marine ethics. Offered: jointly with ENVIR 478/FISH 478.

BIOL 479 Research in Marine Biology (1-15, max. 15) Individual research on topics in marine biology. Research projects supervised by an individual faculty member. Projects may include laboratory work, fieldwork, and literature surveys. Prerequisite: BIOL 250/FISH 250/OCEAN 250; Q SCI 381. Offered: jointly with FISH 479/MARBIO 479/OCEAN 479; AWSpS.

BIOL 480 Field Ecology (4) NW *P. Boersma* Field projects examining ecological and behavioral topics such as foraging and social behavior, species interactions, and structure of terrestrial and aquatic communities. Two weekend fieldtrips required. Prerequisite: either BIOL 356 or a minimum grade of 3.0 in either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120. Offered: Sp.

BIOL 481 Experimental Evolutionary Ecology (5) NW *B. Kerr* Explores experimentally approachable questions in ecology and evolution through lectures, laboratory, and field experiments. Topics may include evolution of bacterial antibiotic resistance, the evolution of virulence, seed predation, plant biodiversity, and others. Prerequisite: either BIOL 180, BIOL 240, B BIO 180, or T BIOL 120. Offered: A.

BIOL 482 Advanced Experimental Evolutionary Ecology (2-5, max. 15) NW *B. KERR* Working in pairs or independently, students pursue supervised original field or laboratory research projects. Projects span three academic quarters, with project development beginning in autumn, research continuing in winter, and culminating in spring with production of a scientific paper. Prerequisite: BIOL 180, which must be taken concurrently. Offered: WSpS.

BIOL 483 Senior Seminar in Paleobiology (1, max. 6) Supervised readings and group discussion. Prerequisite: either BIOL 443, BIOL 447, BIOL 450/ESS 452, BIOL 451/ESS 452, ESS 450, BIO A 388, or ARCHY 470.

BIOL 484 Senior Seminar in Evolution and Systematics (1-3, max. 9) NW Supervised readings and group discussion. Prerequisite: BIOL 354.

BIOL 485 Senior Seminar in Cellular, Molecular and Developmental Biology (1-3, max. 9) NW Supervised readings and group discussion. Prerequisite: minimum grade of 2.0 in either BIOL 350, BIOL 354, BIOL 355, BIOL 356, BIOC 405, BIOC 406, BIOC 440, BIOC 441, or BIOC 442.

BIOL 486 Senior Seminar in Ecology (1-3, max. 9) NW Supervised readings and group discussion. Prerequisite: BIOL 356.

BIOL 487 Senior Seminar in Conservation Biology (1-3, max. 9) NW Supervised readings and group discussion. Prerequisite: BIOL 356.

BIOL 488 Senior Seminar in Physiology (1-3, max. 9) NW Supervised readings and group discussion. Prerequisite: BIOL 350.

BIOL 489 Senior Seminar in Plant Biology (1-3, max. 9) NW Supervised readings and group discussion. Prerequisite: BIOL 220 or BIOL 240.

BIOL 490 Undergraduate Seminar (1-3, max. 6) NW Supervised readings and group discussion of selected topics of broad biological significance. Prerequisite: either BIOL 220, BIOL 240, B BIO 220, or T BIOL 140.

BIOL 492 Teaching Biology Inclusively to Diverse Audiences (3) I&S, DIV *Linda E Martin-Morris* Designed to help biology students gain skills in disseminating science information to students at any level, patients, and the public. Pays special attention to making STEM education accessible to underrepresented populations. Includes hands-on practice in variety of learning strategies and teaching practices. Prerequisite: either BIOL 350, BIOL 354, BIOL 355, BIOL 356, or NBIO 301.

BIOL 493 Study Abroad - Advanced Biology (1-15, max. 15) NW For participants in UW Study Abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements without approval.

BIOL 494 Controversies in Biology and Society (4) NW/I&S *B. Buchwitz* Explorations of controversies in

biology and society that benefit from a biological perspective. Topics vary from quarter to quarter, but include cases from biological research, communication, education, and policy. Prerequisite: Either BIOL 350, BIOL 354, BIOL 355, or BIOL 356
Offered: W.

BIOL 495 Biology of Fermentation (3) NW *Alexander R. Paredes, Justin M Kollman* Practical application of biology and chemistry in beer and winemaking. Students learn to culture yeast, ferment foods, brew beer from malted grains, and perform chemical analysis of wine must. Prerequisite: either BIOL 310, BIOL 313, BIOL 340, BIOL 350, BIOL 354, BIOL 355, BIOL 356, BIOL 360, BIOL 380, BIOC 405, BIOC 426, BIOC 440, or BIOC 450. Offered: jointly with BIOC 495; W.

BIOL 496 Special Topics in Field Biology (1-5, max. 10)

BIOL 497 Special Topics in Biology (1-5, max. 10) NW

BIOL 498 Library Research (1-5, max. 10)

BIOL 499 Undergraduate Research (1-20, max. 20)

BIOL 500 Topics in Biology (1-3, max. 16)

BIOL 501 Topics in Biological Instruction (1-2, max. 10) Focused discussion of on-going research in instructional methods for life science courses. Credit/no-credit only.

BIOL 502 Grant Writing (2-4, max. 8) *B. KERR, J. NEMHAUSER* Introduces the steps of compiling a successful grant proposal, using the NSF graduate fellowship as a template. Offered: AWSp.

BIOL 504 Mentored Scientific Reading and Analysis (2/4, max. 16) Introduce graduate students to theory, methods, and current research in a biological discipline, and provides structured opportunity for students to practice scientific discourse. Graduate status required, or permission of instructor for undergraduates. Topics vary.

BIOL 505 Evidence-Based Teaching in Biology (1-3, max. 10) Designed to help biology students gain skills in disseminating science information to

students at any level, patients, and the public. Pays special attention to making STEM education accessible to underrepresented populations. Includes hands-on practice in variety of learning strategies and teaching practices.

BIOL 506 Scientific Manuscript Writing (4)

Introduces the writing of scientific articles. Students write a scientific manuscript, cover letter, and identify a journal for submission. Offered: W.

BIOL 511 Topics in Mathematical Biology (1-3, max. 15)

Discussion of current topics in mathematical biology. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 517 Plant Identification and Classification (5)

R. OLMSTEAD Explores the classification and diversity of seed plants; concepts and principles of phylogeny and classification; lab and field study of common plant families in Washington; and skill development for identification of species. Paper relying on original literature to demonstrate depth of understanding of one taxonomic group. One field trip. Offered: Sp.

BIOL 519 Data Science for Biologists (4) B.

BRUNTON Explores, analyzes, and visualizes biological data sets using scientific computing software. Focuses on the foundations of data wrangling, data analysis, and statistics, particularly the development of automated techniques that are reproducible and scalable to large data sets. Offered: W.

BIOL 520 Departmental Seminar (1, max. 18)

Credit/no-credit only. Offered: AWSp.

BIOL 533 Advanced Organismal Biology (9)

Advanced study and research in organismal biology. Emphasizes marine organisms and habitats of the San Juan Archipelago. Includes individual research projects. Prerequisite: permission of Director of Friday Harbor Laboratories. Offered: S.

BIOL 536 Comparative Invertebrate Embryology (9)

Studies diversity in developmental patterns in major marine taxa. Analyzes evolutionary changes in development, with emphasis on observation of live embryos and larvae. Offered: jointly with FHL 536; S.

BIOL 540 Seminar in Molecular, Cellular, and Developmental Biology (1-3, max. 15)

Weekly discussions of past and current scientific literature in cell, molecular, and/or developmental biology, review of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics.

BIOL 541 Topics in Molecular, Cellular, and Developmental Biology (1-3, max. 15)

Focused discussion of on-going cell, molecular, or developmental biology research occurring in the instructor's laboratory. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 542 Analysis of Development (1-3, max. 15)

Analysis of structural, physiological, and molecular levels of developmental processes, including gametogenesis, fertilization, cell and tissue movements, induction, and cytodifferentiation. Graduate standing or permission of instructor.

BIOL 543 Biology of Drosophila Seminar (1, max. 12)

Weekly presentation by participants of classical literature, current literature, and research in the molecular biology, developmental biology, neurobiology, and genetics of *Drosophila*. Prerequisite: permission of instructor. Offered: AWSp.

BIOL 544 Evolution of Photosynthesis (3) R.

CATTOLICO Focuses on the evolution of photosynthetic eukaryotic cells. Interactive discussions target the morphological, genetic, and biochemical consequences of progenitor cell specialization within extant taxa.

BIOL 545 MCD-Biology Professional Skills Seminar (1, max. 6) D.

PARICHY Presentations of past or planned research in molecular, cellular, or developmental biology. Participants give presentations in either professional-meeting or chalk-talk formats. Uses written and oral evaluations by audience to focus on scientific content as well as presentation skills. Credit/no-credit only. Offered: AWSp.

BIOL 550 Seminar in Evolution and Systematics (1-3, max. 15)

Weekly discussions of past and current scientific literature in evolution and/or systematics, reviews of the state of the field, and presentation of

research results. Discussions may cover the full breadth of the discipline or focus on selected topics.

BIOL 551 Topics in Evolution and Systematics (1-3, max. 24) Focused discussion of on-going research in evolution and/or systematics occurring in the instructor's laboratory. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 552 Advanced Evolution ([2-5]-, max. 10) Successful analytical approaches to understanding evolutionary patterns and the processes that generate them, examined by using a wide array of empirical and theoretical tools. Survey of how theory, modeling, and statistics can be applied to observations and experiments in evolutionary biology.

BIOL 553 Applied Phylogenetics (3) A. LEACHE Survey of methods for estimating phylogenetic trees. Covers theory and use of phylogeny in comparative biology. Computer labs focus on analyzing real data to answer relevant biological questions. Strong computer skills necessary. Includes weekly discussions of scientific papers and an individual research project. Prerequisite: minimum grade of 2.5 in BIOL 354.

BIOL 555 Introduction to Graduate Research in Paleobiology (1) Introduction to paleobiology techniques and resources. Credit/no-credit only. Offered: jointly with ESS 558; A.

BIOL 557 Vertebrate Paleontology (5) Examines the biology of vertebrate animals, emphasizing their diversity, adaptations, and evolutionary history. Introduces aspects of behavior, physiology, morphology, and ecology that emerge from the comparative study of vertebrates. Laboratory includes local field trips and introduction to regional vertebrate fauna. Offered: jointly with ESS 557.

BIOL 560 Seminar in Ecology (1-3, max. 15) Weekly discussions of past and current scientific literature in ecology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics.

BIOL 561 Topics in Ecology (1-3, max. 15) Focused discussion of on-going research in ecology occurring

in the instructor's laboratory. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 563 Experimental Evolutionary Ecology (5) B. KERR Explores experimentally approachable questions in ecology and evolution through lectures, lab, and field experiments. Topics may include evolution of bacterial antibiotic resistance, the evolution of virulence, seed predation, plant biodiversity, and others. Corequisite: BIOL 481. Offered: A.

BIOL 564 Advanced Experimental Evolutionary Ecology (2-5, max. 15) B. KERR Working independently or paired with an undergraduate in BIOL 482, students pursue supervised original field or laboratory research projects. Projects span three academic quarters, with project development beginning in autumn, research continuing in winter, and culminating in spring with production of a scientific paper. Prerequisite: BIOL 563, which may be taken concurrently. Offered: AWSp.

BIOL 565 Community Ecology (5) J. HILLE RIS LAMBERS Covers the complexity of biological communities as influenced by biotic and abiotic factors, as well as the impact of human activities, like global warming, on communities.

BIOL 567 Topics in Advanced Ecology (3, max. 6) Discusses literature on active research areas or controversies in different branches of ecology. Offered: jointly with FISH 567/SEFS 567; W.

BIOL 570 Seminar in Conservation Biology (1-3, max. 15) Weekly discussions of past and current scientific literature in conservation biology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics.

BIOL 571 Topics in Conservation Biology (1-3, max. 15) Focused discussion of on-going research in conservation biology occurring in the instructor's laboratory. Graduate status required, or permission of instructor for undergraduates. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 580 Seminar in Physiology (1-3, max. 15) Weekly discussions of past and current scientific

literature in physiology, reviews of the state of the field, and presentation of research results.

Discussions may cover the full breadth of the discipline or focus on selected topics.

BIOL 581 Topics in Physiology (1-3, max. 15)

Focused discussion of on-going research in physiology occurring in the instructor's laboratory. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 583 Physiological Mechanisms of Histology (5)

L. ZEMAN Develops recognition of cellular structures with correlations to normal physiology and disease states. Lab projects cover harvesting, sectioning, staining, and mounting tissue. Includes weekly scientific papers.

BIOL 590 Seminar in Organismal Biology (1-3, max. 15)

Weekly discussions of past and current scientific literature in organismal biology, reviews of the state of the field, and presentation of research results. Discussions may cover the full breadth of the discipline or focus on selected topics.

BIOL 591 Topics in Organismal Biology (1-3, max. 15)

Focused discussion of on-going research in organismal biology occurring in the the instructor's laboratory. This is a lab meeting, so registration is limited to students already affiliated with this research laboratory.

BIOL 600 Independent Study or Research ([1-10]-)

Credit/no-credit only.

BIOL 700 Master's Thesis (*-) Credit/no-credit only.

Offered: AWSpS.

BIOL 800 Doctoral Dissertation (*-) Credit/no-credit only.

Offered: AWSpS.

CENTER FOR STATISTICS AND THE SOCIAL SCIENCES

CS&SS 221 Statistical Concepts and Methods for the Social Sciences (5) NW, QSR

Develops statistical literacy. Examines objectives & pitfalls of statistical studies; study designs, data analysis, inference; graphical & numerical summaries of numerical

&categorical data; correlation and regression; estimation, confidence intervals, & significance tests. Emphasizes social science examples and cases. May only receive credit for one of STAT 220, STAT 221/CS&SS 221/SOC 221, or STAT 290. Offered: jointly with SOC 221/STAT 221; AWSp.

CS&SS 320 Evaluating Social Science Evidence (5) I&S, QSR

A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with SOC 320/STAT 320.

CS&SS 321 Data Science and Statistics for Social Sciences I (5) I&S, QSR

Introduction to applied data analysis for social scientists. Focuses on using programming to prepare, explore, analyze, and present data that arise in social science research. Data science topics include loading, cleaning, and exploring data, basic visualization, reproducible research practices. Statistical topics include measurement, probability, modeling, assessment of statistical evidence. Lectures intermixed with programming and lab sessions. Offered: jointly with SOC 321/STAT 321; W.

CS&SS 322 Case-Based Social Statistics II (5) I&S, QSR

Continuation of CS&SS 321/SOC 321/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory. Prerequisite: CS&SS 321/SOC 321/STAT 321, or permission of instructor. Offered: jointly with SOC 322/STAT 322.

CS&SS 501 Advanced Political Research Design and Analysis (5)

Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor. Offered: jointly with POL S 501.

CS&SS 503 Advanced Quantitative Political Methodology (5)

Theory and practice of likelihood inference. Includes probability modeling, maximum likelihood estimation, models for binary responses,

count models, sample selection, and basis time series analysis. Offered: jointly with POL S 503.

CS&SS 504 Applied Regression (4) Least squares estimation. Hypothesis testing. Interpretation of regression coefficients. Categorical independent variables. Interactions. Assumption violations: outliers, residuals, robust regression; nonlinearity, transformations, ACE, CART; nonconstant variance. Variable selection and model averaging. Prerequisite: either STAT 342, STAT 390/MATH 390, STAT 421, STAT 481/ECON 481, STAT 509/CS&SS 509/ECON 580, or SOC 425. Offered: jointly with STAT 504.

CS&SS 505 Review of Mathematics for Social Scientists (1) Reviews basic mathematical skills needed for a meaningful understanding of elementary statistics, data analysis, and social science methodology. Overview of core knowledge required for graduate courses in quantitative methods in social sciences. Topics include discrete mathematics, differential and integral calculus, review of matrix algebra, and basic probabilistic and statistical concepts. Credit/no-credit only. Offered: jointly with SOC 512.

CS&SS 506 Computer Environments for the Social Sciences (1) Familiarizes graduate students in the social sciences with modern environments for statistical computing. Provides an overview of available resources and a description of fundamental tools used in quantitative courses and doctoral research. Topics include interfaces to web-based resources, UNIX-based computing, and major statistical packages (R, SPLUS, and SAS) .

CS&SS 507 Methodology: Quantitative Techniques in Sociology (3) Applied regression analysis with emphasis on interactive computer graphics techniques and interpretation. Application to typical sociological problems. Offered: jointly with SOC 506.

CS&SS 508 Introduction to R for Social Scientists (1) Familiarizes students with the R environment for statistical computing (<http://www.r-project.org>) . R is a freely available, multi-platform, and powerful program for analysis and graphics similar to S-PLUS. Covers the basics of organizing, managing, and manipulating social science data; basic applications; introduction to programming; links to other major statistical packages. Credit/no-credit only.

CS&SS 509 Econometrics I: Introduction to Mathematical Statistics (4) Examines methods, tools, and theory of mathematical statistics. Covers, probability densities, transformations, moment generating functions, conditional expectation. Bayesian analysis with conjugate priors, hypothesis tests, the Neyman-Pearson Lemma. Likelihood ratio tests, confidence intervals, maximum likelihood estimation, Central limit theorem, Slutsky Theorems, and the delta-method. Prerequisite: STAT 311/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. (Credit allowed for only one of STAT 390, STAT 481, and ECON 580.) Offered: jointly with ECON 580/STAT 509.

CS&SS 510 Maximum Likelihood Methods for the Social Sciences (5) *C. ADOLPH* Introduces maximum likelihood, a more general method for modeling social phenomena than linear regression. Topics include discrete, time series, and spatial data, model interpretation, and fitting. Prerequisite: POL S 501/CS&SS 501; POL S 503/CS&SS 503. Offered: jointly with POL S 510.

CS&SS 512 Time Series and Panel Data for the Social Sciences (5) *C. Adolph* Extends the linear model to account for temporal dynamics and cross-sectional variation. Focuses on model selection and real-world interpretation of model results. Topics include autoregressive processes, trends, seasonality, stationarity, lagged dependent variables, ARIMA models, fixed effects, random effects, cointegration and error correction models, panel heteroskedasticity, missing data in panel models, causal inference with panel data. Recommended: Graduate level coursework in linear regression and social science research design. Basic familiarity with or willingness to learn the R statistical language. Offered: jointly with POL S 512.

CS&SS 523 Social Networks and Health: Biocultural Perspectives (5) Examines the many ways that social interactions positively and negatively influence our health, and vice versa. Considers why such influences are important to understand, how one measures them, what recent research has shown, and explores how they relate to other health determinants, both biological and cultural Offered: jointly with BIO A 523.

CS&SS 526 Structural Equation Models for the Social Sciences (3) Structural equation models for

the social sciences, including specification, estimation, and testing. Topics include path analysis, confirmatory factor analysis, linear models with latent variables, MIMIC models, non-recursive models, models for nested data. Emphasizes applications to substantive problems in the social sciences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with SOC 529.

CS&SS 527 Survey Research Methods (4) A.

MOKDAD Provides students with skills in questionnaire development and survey methods. Students develop a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511/HSERV 513; BOST 517/BOST 518; or EPI 512/EPI 513, which may be taken concurrently, or permission of instructor. Students should have a survey project in mind. Offered: jointly with G H 533/HSERV 527.

CS&SS 529 Sample Survey Techniques (3) Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BOST 511, or BOST 517, or equivalent; or permission of instructor. Offered: jointly with BOST 529/STAT 529.

CS&SS 533 Research Methods in Demography (3)

Basic measures and models used in demographic research. Sources and quality of demographic data. Rate construction, standardization, the life table, stable population models, migration models, population estimation and projection, measures of concentration and dispersion, measures of family formation and dissolution. Offered: jointly with CSDE 533/SOC 533.

CS&SS 536 Analysis of Categorical and Count Data

(3) Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with SOC 536/STAT 536.

CS&SS 544 Event History Analysis for the Social Sciences (5) Examines life course research using event-history analysis with applications to the substantive areas of household dynamics, family formation and dissolution, marriage, cohabitation, and divorce, migration histories, residential mobility, and housing careers. Examines continuous- and discrete-time longitudinal models during practical laboratory sessions.

CS&SS 554 Statistical Methods for Spatial Data (3)

Motivates the need for, and describes methods for, the analysis of spatial data. Topics: Clustering, cluster detection, spatial regression, modeling neighborhood effects, geographical information systems. Point and aggregated data considered and data from complex surveys. Offered: jointly with SOC 534/STAT 554; W.

CS&SS 560 Hierarchical Modeling for the Social

Sciences (4) Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with SOC 560/STAT 560.

CS&SS 563 Statistical Demography (4) A. Raftery

Statistical methods and models for estimating and forecasting population quantities. Topic: Demographic rates; Population projection; Leslie matrix; modeling age-specific patterns; probabilistic population projections and Bayesian hierarchical models; estimating past and present fertility, mortality, migration and population; big data in demography. Prerequisite: Either STAT 509/CS&SS 509/ECON 509, STAT 513, or permission from the instructor. Offered: jointly with SOC 563/STAT 563; Sp.

CS&SS 564 Bayesian Statistics for the Social

Sciences (4) Statistical methods based on the idea of probability as a measure of uncertainty. Topics covered include subjective notion of probability, Bayes' Theorem, prior and posterior distributions, and data analysis techniques for statistical models. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with STAT 564.

CS&SS 565 Inequality: Current Trends and Explanations (3) Discussion of recent growth in economic inequality in the United States and competing explanations for these new trends through examination of labor market demographics, industrial composition and restructuring, and the broader political context that impacts policies like minimum wage, strength of unions, and foreign trade. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with SOC 565.

CS&SS 566 Causal Modeling (4) Construction of causal hypotheses. Theories of causation, counterfactuals, intervention vs. passive observation. Contexts for causal inference: randomized experiments; sequential randomization; partial compliance; natural experiments, passive observation. Path diagrams, conditional independence, and d-separation. Model equivalence and causal under-determination. Prerequisite: course in statistics, SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with STAT 566.

CS&SS 567 Statistical Analysis of Social Networks (4) Statistical and mathematical descriptions of social networks. Topics include graphical and matrix representations of social networks, sampling methods, statistical analysis of network data, and applications. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with STAT 567.

CS&SS 568 Game Theory for Social Scientists (5) Studies non-cooperative game-theory and provides tools to derive appropriate statistical models from game-theoretic models of behavior. Equilibrium concepts, learning, repeated games and experimental game theory. Prerequisite: MATH 112, MATH 124, or MATH 134; STAT 311/ECON 311 or equivalent. Offered: jointly with ECON 568.

CS&SS 569 Visualizing Data (4) Explores techniques for visualizing social science data to complement graduate training methods. Emphasis on principles and perception of visualization, novel exploration and presentation of data and statistical models, and implementation of recommended techniques in statistics packages. Prerequisite: SOC 504, SOC 505, and SOC 506.

CS&SS 589 Multivariate Data Analysis for the Social Sciences (4, max. 8) *E. EROSHEVA* Multivariate analysis aims to summarize and describe patterns

among multiple observed characteristics. Explores theoretical introduction and practical skills to carry out multivariate analysis methods such as cluster analysis, principal components, factor analysis, and latent class analysis. Prerequisite: SOC 504, SOC 505, or SOC 506. Offered: jointly with SOC WL 589; A.

CS&SS 590 CSSS Seminar (1, max. 20) Credit/no-credit only.

CS&SS 592 Applied Longitudinal Data Analysis For Social Sciences (4) *E. Erosheva* Addresses statistical methodology for using longitudinal data to answer research questions about changes over time including exploratory analysis tools, and random coefficient, growth curve, multilevel and hierarchical models, and their extensions. Prerequisite: Successful completion of SOC 504, SOC 505, and SOC 506; and a solid knowledge of linear regression. Offered: jointly with SOC WL 592; A, odd years.

CS&SS 594 Special Topics in Social Science and Statistics (1-5, max. 30) Topics vary. Prerequisite: permission of instructor. Offered: AWSp.

CENTER FOR STUDIES IN DEMOGRAPHY AND ECOLOGY

CSDE 501 Population Studies Seminar Series (1, max. 18) CSDE affiliates and visitors present current research projects. Credit/no-credit only. Offered: AWSp.

CSDE 502 Population Studies Proseminar (1/2, max. 15) Professional training in demography and populations studies. Includes ethics in population research, human subjects review, proposal application and writing. CSDE faculty research specialization, and research preparation and presentation. Credit/no-credit only. Offered: ASp.

CSDE 513 Demography and Ecology (3) Theories and research on human fertility, mortality, mobility, migration, and urbanization in social/economic context. Comparative and historical materials on Europe, the United States, and the Third World. Offered: jointly with SOC 513.

CSDE 533 Research Methods in Demography (3) Basic measures and models used in demographic

research. Sources and quality of demographic data. Rate construction, standardization, the life table, stable population models, migration models, population estimation and projection, measures of concentration and dispersion, measures of family formation and dissolution. Offered: jointly with CS&SS 533/SOC 533.

CSDE 555 Population Metrics in Global Health (4)

Presents a conceptual framework in which to understand and assess the health of populations. Appropriate methodological tools and techniques from demography, epidemiology, and related disciplines are presented together in this broader context. Offered: Sp.

CSDE 595 Special Topics in Population Studies (1-5, max. 10)

Examination of current substantive and methodological topics in demography. Content varies according to recent developments in the field and interest of the instructor.

CENTER FOR THE HUMANITIES

HUM 101 Humanities First: Foundations (3) VLPA

Topics change yearly, but course is anchored in four themes at the foundation of the humanistic endeavor: language, objects, space, and time. Focuses on what Humanists do, how they do it, various techniques and use of evidence, primary goals, and public-facing results. Offered: A.

HUM 102 Humanities First: Campus Connections (2)

I&S A "laboratory seminar" that combines a core text with visits to campus partners to explore the work of humanists in the world. Students work on e-portfolio and the practice of public humanities communications. Recommended: HUM 101. Credit/no-credit only. Offered: W.

HUM 103 Humanities First: Community

Connections (2) I&S A "laboratory seminar" that combines a core text with visits to community partners in Seattle and beyond to explore the work of humanists in the world. Students work on e-portfolio and the practice of public humanities communications. Recommended: HUM 101 and HUM 102. Credit/no-credit only. Offered: Sp.

HUM 201 Introduction to Studies in the Humanities

(5) VLPA Introduction to fundamental concepts and

approaches to the study of the humanities. Topics covered drawn from literature, language, history, culture, civilization, and other central areas of the humanities.

HUM 205 Religion, Violence, and Peace: Patterns

Across Time and Tradition (5) I&S Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with NEAR E 285/RELIG 205; W.

HUM 498 Special Topics in the Humanities (1-6,

max. 15) VLPA/I&S Intensive research opportunity, for work on project of independent and/or original design in the cultural disciplines. Mentored by UW and visiting faculty in the arts, humanities, and qualitative social sciences, by arrangement only. Offered: S.

HUM 523 Seminar in Hypertext and Textual Studies

(5) Several views of hypertext conceptually explored as a basis for research and evaluation of selected hypertext works. Includes initiating the construction of a World Wide Web hypertext of resources for the study of oral, graphical, hand-written, and printed texts. Included in curriculum of Textual Studies program.

HUM 596 Humanities Research Seminar (1-5, max.

15) Explorations of current research in the humanities, most frequently with interdisciplinary emphasis. Offered by selected UW faculty and scholars-in-residence.

HUM 597 Special Topics in the Humanities (1-2,

max. 10) Credit/no-credit only.

HUM 600 Independent Study or Research (1-5, max.

10) Develops research ideas, practices, and their implication for applications in particular contexts not covered in standard course offerings. Supports students' specific educational goals. May be undertaken individually or in small investigative teams. Offered: AWSpS.

HUM 601 Internship (2-6, max. 12)

Internship with a local organization, agency, or company that provides a field-based, applied learning opportunity; aligns

with student's professional and scholarly development goals; benefits the organizations; and has academic merit. Engages with and reflects on cultural dimensions of work experience. Offered: AWSpS.

CHEMISTRY

CHEM 110 Preparation for General Chemistry (3/5)

NW Introduction to general chemistry with an emphasis on developing problem solving skills. Covers basic concepts of chemistry along with the mathematics required for quantitative problem solving. For students without high school chemistry or with limited mathematics background. Successful completion of CHEM 110 prepares students to enroll in CHEM 142. Prerequisite: assessment of skills by taking the General Chemistry Placement Exam. Offered: AWS.

CHEM 120 Principles of Chemistry I (5) NW, QSR

First course in a three-quarter overview of general chemistry, organic chemistry, and biochemistry. Not for students majoring in biochemistry, chemistry, or engineering. Includes matter and energy, chemical nomenclature, chemical reactions, stoichiometry, modern atomic theory, chemical bonding. Laboratory. Only 5 credits can be counted toward graduation from the following: CHEM 120, CHEM 142, CHEM 145. Prerequisite: Assessment of skills by taking General Chemistry Placement Exam Offered: AS.

CHEM 142 General Chemistry (5) NW, QSR For science and engineering majors. Atomic nature of matter, quantum mechanics, ionic and covalent bonding, molecular geometry, stoichiometry, solution stoichiometry, kinetics, and gas laws. Includes laboratory. Cannot be taken for credit if credit received for CHEM 120. Prerequisite: either a minimum grade of 1.7 in CHEM 110, a passing score in the General Chemistry Placement exam, or a score of 1 or higher on Chemistry AP test. Offered: AWSpS.

CHEM 143 Accelerated General Chemistry (6) QSR

Chem 143 and Chem 153 cover the equivalent of one year of general Chemistry in 2 quarters. For science and engineering majors. Stoichiometry, gas laws, atomic structure, quantum mechanics, general bonding, kinetics, gas-phase equilibria, acid-base equilibria, applications of aqueous equilibria. No

more than 6 credits from the following may count toward graduation requirements: CHEM 142, CHEM 143, CHEM 145. Prerequisite: Either CHEM 110, or a passing score on the General Chemistry Placement Exam, or a score of 1 or higher on Chemistry AP exam. Offered: A.

CHEM 145 Honors General Chemistry (5) NW, QSR

CHEM 145 and CHEM 155 cover material in CHEM 142, CHEM 152, and CHEM 162. Includes laboratory. No more than the number of credits indicated can be counted toward graduation from the following course groups: CHEM 142, CHEM145 (5 credits) ; CHEM 145, CHEM 155, CHEM 162 (10 credits) . Prerequisite: either MATH 124 or MATH 134, either of which may be taken concurrently; score of 66% on HCHEMC placement test, score of 3, 4 or 5 on AP Chemistry exam, or IB score of 5, 6, or 7 on high level chemistry exam. Offered: A.

CHEM 152 General Chemistry (5) NW, QSR

Gas phase and aqueous equilibria, thermochemistry, thermodynamics, and electrochemistry. Includes laboratory. No more than 5 credits can be counted toward graduation from the following course group: CHEM 152, CHEM 155. Prerequisite: minimum grade of 1.7 in either CHEM 142, CHEM 143 or CHEM 145. Offered: AWSpS.

CHEM 153 Accelerated General Chemistry (6) NW

For science and engineering majors. Thermodynamics, electrochemistry, bonding, liquids, solid and solutions, transition metals. Prerequisite: 2.0 in CHEM 143. Offered: W.

CHEM 155 Honors General Chemistry (5) NW, QSR

Continuation of CHEM 145. Includes laboratory. Together CHEM 145 and CHEM 155 cover material in CHEM 142, CHEM 152, and CHEM 162. No more than the number of credits indicated can be counted toward graduation from the following course groups: CHEM 152 or CHEM 155 (5 credits) ; CHEM 145, CHEM 155, CHEM 162 (10 credits) . Prerequisite: minimum grade of 2.2 in CHEM 145. Offered: W.

CHEM 162 General Chemistry (5) NW, QSR

Molecular bonding theories, liquids, solids, solutions, and introduction to organic and transition metal chemistry. Includes laboratory. No more than 5 credits can be counted toward graduate from the following course group: CHEM 162, CHEM 165.

Prerequisite: minimum grade of 1.7 in CHEM 152.
Offered: AWSpS.

CHEM 165 Honors General Chemistry (5) NW, QSR

Introduction to systematic inorganic chemistry: representative elements, metals, and nonmetals. Includes coordination complexes, geochemistry, and metallurgy. Additional material on environmental applications of basic chemistry presented. Includes laboratory. No more than the number of credits indicated can be counted toward graduation from the following course groups: CHEM 162, CHEM 165 (5 credits) ; CHEM 165, CHEM 312 (5 credits) . Prerequisite: minimum grade of 2.2 in CHEM 155. Offered: Sp.

CHEM 190 Freshman Discovery Seminar in Chemistry (5) NW Introduces incoming freshman to research basics and scholarly inquiry skills used in the study of chemistry.

CHEM 192 Chemistry Achievement Workshop (2) Small learning community of students taking the same large lecture course. Explores effective study skills, learn to practice metacognition, and enhancing higher order problem solving in order to achieve a high level of success in CHEM 142. Co-requisite: CHEM 142. Credit/no-credit only. Offered: AWSp.

CHEM 196 Chemistry Frontiers (1) Alexandra Velian Exposes freshmen and new transfer undergraduate students to current topics of U.W. research in chemistry. Students interface with research groups. Includes a "big picture" description of the scientific goals and main questions of the highlighted group along with a discussion of experimental methods. Credit/no-credit only. Offered: AWSp.

CHEM 197 Science Outreach Training (1-2, max. 2) Training as a peer mentor for General Chemistry or for participation in science-related outreach activities to the community. Not applicable toward chemistry degree requirements. Credit/no-credit only.

CHEM 198 Tutorial Study (2, max. 6) Credit/no-credit only.

CHEM 199 Special Problems (1-6, max. 6) Research in chemistry. Credit/no-credit only. Offered: AWSpS.

CHEM 220 Principles of Chemistry II (5) NW Second course in a three-quarter overview of general chemistry, organic chemistry, and biochemistry. Not for students majoring in biochemistry, chemistry, or engineering. Introduction to organic chemistry including organic compounds, functional groups, aromaticity, and stereochemistry. No more than 5 credits can be counted toward graduation from the following course group: CHEM 220, CHEM 223, CHEM 237, CHEM 335. Prerequisite: a minimum grade of 1.7 in either CHEM 120 or CHEM 142. Offered: W.

CHEM 221 Principles of Chemistry III (5) NW Third course in a three-quarter overview of general chemistry, organic chemistry, and biochemistry. Not for students majoring in biochemistry, chemistry, or engineering. Introduction to biochemistry including biomolecular structure, proteins, nucleic acids, biochemical cycles, and cellular energetics. No more than 5 credits can be counted toward graduation from the following course group: CHEM 221, CHEM 224, CHEM 239, CHEM 337. Prerequisite: a minimum grade of 1.7 in CHEM 220. Offered: Sp.

CHEM 223 Organic Chemistry - Short Program (4) NW First of a two-quarter lecture series in organic chemistry, for those who elect not to complete the CHEM 237, CHEM 238, CHEM 239 sequence. Introduction to structure, nomenclature, properties, and reactions of the main functional families of organic compounds. Stereochemistry and spectroscopy. No more than 5 credits can be counted toward graduation from the following course group: CHEM 220, CHEM 223, CHEM 237, CHEM 335. Prerequisite: a minimum grade of 1.7 in either CHEM 152, CHEM 153, or CHEM 155. Offered: AS.

CHEM 224 Organic Chemistry - Short Program (4) NW Continuation of CHEM 223. Structure, nomenclature, properties, and reactions of aldehydes, ketones, carboxylic acid derivatives, amines, carbohydrates, lipids, amino acids, peptides, proteins, and nucleic acids. No laboratory accompanies this course, but CHEM 241 laboratory may be taken concurrently. No more than 5 credits can be counted toward graduation from the following course group: CHEM 221, CHEM 224, CHEM 239, CHEM 337. Prerequisite: a minimum grade of 1.7 in CHEM 223. Offered: WS.

CHEM 237 Organic Chemistry (4) NW First course for students planning to take three quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of the main types of organic compounds. No organic laboratory accompanies this course. No more than 5 credits can be counted toward graduation from the following course group: CHEM 220, CHEM 223, CHEM 237, CHEM 335. Prerequisite: a minimum grade of 1.7 in either CHEM 153, CHEM 155, or CHEM 162. Offered: AWPSP.

CHEM 238 Organic Chemistry (4) NW Second course for students planning to take three quarters of organic chemistry. Further discussion of physical properties and transformations of organic molecules, especially aromatic and carbonyl compounds. No more than the number of credits indicated can be counted toward graduation from the following course groups: CHEM 238, CHEM 336 (4 credits) . Prerequisite: either 1.7 in CHEM 237, 1.7 in CHEM 335, or 1.7 in B CHEM 237. Offered: AWPSP.

CHEM 239 Organic Chemistry (4) NW Third course for students planning to take three quarters of organic chemistry. Polyfunctional compounds and natural products, lipids, carbohydrates, amino acids, proteins, and nucleic acids. Includes introduction to membranes, enzyme mechanisms, prosthetic groups, macromolecular conformations and supramolecular architecture. No more than 5 credits can be counted toward graduation from the following: CHEM 221, CHEM 224, CHEM 239, CHEM 337. Prerequisite: a minimum grade of 1.7 in either CHEM 238, CHEM 335, or B CHEM 238. Offered: AWPSP.

CHEM 241 Organic Chemistry Laboratory (3) NW Introduction to organic laboratory techniques. Preparation of representative compounds. Designed to be taken with CHEM 224 or CHEM 238. No more than the number of credits indicated can be counted toward graduation from the following course group: CHEM 241, CHEM 346 (3 credits) . Prerequisite: minimum 1.7 grade in CHEM 223, CHEM 237, CHEM 335 or B CHEM 237; minimum grade of 1.7 in either CHEM 224, CHEM 238, CHEM 336, or B CHEM 238, any of which may be taken concurrently. Offered: AWPSP.

CHEM 242 Organic Chemistry Laboratory (3) NW Preparations and qualitative organic analysis. Designed to be taken with 239. No more than the

number of credits indicated can be counted toward graduation from the following course group: CHEM 242, CHEM 347 (3 credits) . Prerequisite: minimum 1.7 grade in either CHEM 241, CHEM 346, or B CHEM 241; minimum grade of 1.7 in either CHEM 224, CHEM 238, CHEM 336, or B CHEM 238; minimum grade of 1.7 in CHEM 224, or minimum grade of 1.7 in CHEM 239 , CHEM 337, or B CHEM 239 which may be taken concurrently. Offered: AWPSP.

CHEM 291 Study Abroad - Chemistry (1-15, max. 15) NW For student in the UW study abroad program. Content varies and is individually evaluated. Credit does not apply to major degree requirements without departmental approval.

CHEM 297 Science Outreach Participation (1/2, max. 6) Serve as an experienced peer mentor for general Chemistry or as an experienced outreach volunteer. Not applicable toward chemistry degree requirements. Prerequisite: CHEM 197 Credit/no-credit only.

CHEM 299 Special Problems and Report Writing (1-6, max. 6) Research in chemistry and/or study in the chemical literature. Requires writing a scientific report. Credit/no-credit only. Offered: AWPSP.

CHEM 312 Inorganic Chemistry (3) NW The periodic table: chemistry of representative and transition elements. Aqueous chemistry, solid state chemistry, and everyday aspects of inorganic chemistry emphasized. Not intended for students who have completed CHEM 165. No more than the number of credits indicated can be counted toward graduation from the following course group: CHEM 165, CHEM 312 (5 credits) . Prerequisite: either CHEM 153, CHEM 155 or CHEM 162; and either CHEM 224, CHEM 238, CHEM 336, or B CHEM 238. Offered: AWS.

CHEM 317 Inorganic Chemistry Laboratory (4) NW Experimental exploration of the periodic table. Techniques of preparation and characterization of inorganic compounds. Handling of air-sensitive materials and gases. Prerequisite: either CHEM 165 or CHEM 312; and either CHEM 242, CHEM 347, or B CHEM 242. Offered: WSP.

CHEM 321 Quantitative Analysis (5) NW Introduction to chemical analysis, including gravimetric, volumetric, spectrophotometric, and

potentiometric analyses. Laboratory computer use included. Prerequisite: either CHEM 153, CHEM 155, or CHEM 162. Offered: AWSpS.

CHEM 335 Honors Organic Chemistry (4) NW For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. No organic laboratory accompanies this course. No more than 5 credits can be counted toward graduation from the following course group: CHEM 220, CHEM 223, CHEM 237, CHEM 335. Prerequisite: either CHEM 155 or CHEM 162. Offered: A.

CHEM 336 Honors Organic Chemistry (4) NW For chemistry majors and otherwise qualified students planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Studies of biomolecules. No more than 4 credits can be counted toward graduation from the following course groups: CHEM 238, CHEM 336. Prerequisite: minimum grade of 2.2 in CHEM 335. Offered: W.

CHEM 337 Honors Organic Chemistry (4) NW Chem majors and others planning three or more quarters of organic chemistry. Structure, nomenclature, reactions, and synthesis of organic compounds. Theory and mechanism of organic reactions. Biomolecules. Introduction to membranes, enzyme mechanisms, prosthetic groups, macromolecular conformations, and supramolecular architecture. No more than 5 credits can be counted toward graduation from the following: CHEM 221, CHEM 224, CHEM 239, CHEM 337. Prerequisite: a minimum grade of 2.2 in CHEM 336. Offered: Sp.

CHEM 346 Organic Chemistry Honors Laboratory (3) NW To accompany CHEM 336. No more than the number of credits indicated can be counted toward graduation from the following course group: CHEM 241, CHEM 346 (3 credits) . Prerequisite: 1.7 in CHEM 335; minimum 1.7 grade in CHEM 336, which may be taken concurrently. Offered: W.

CHEM 347 Organic and Qualitative Organic Honors Laboratory (3) NW Continuation of CHEM 346. To accompany CHEM 337. No more than the number of

credits indicated can be counted toward graduation from the following course group: CHEM 242, CHEM 347 (3 credits) . Prerequisite: minimum 1.7 grade in CHEM 336; minimum 2.2 grade in CHEM 346; minimum 1.7 grade in CHEM 337, which may be taken concurrently. Offered: Sp.

CHEM 397 Science Outreach Mentors (1-2, max. 6) Credit/no-credit only.

CHEM 399 Undergraduate Research (*, max. 12) Research in chemistry. Credit/no-credit only. Offered: AWSpS.

CHEM 410 Radiochemistry Laboratory (2) NW Introductory general service course for students planning further work in nuclear or tracer applications. Safety procedures, detection and measurement of nuclear radiation, radiochemical and tracer techniques. Prerequisite: CHEM 418, which may be taken concurrently.

CHEM 416 Transition Metals (3) NW Survey of selected key topics in the chemistry of the transition metals, including emphasis on the structure, bonding, and reactivity of major classes of compounds. Prerequisite: either CHEM 165 or CHEM 312; either CHEM 453, CHEM 455, or CHEM 475, which may be taken concurrently. Offered: A.

CHEM 417 Organometallic Chemistry (3) NW Chemistry of the metal-carbon bond for both main group and transition metals. Structure and reactivity with applications to organic synthesis and catalysis. Prerequisite: either CHEM 224, CHEM 239, CHEM 337, or B CHEM 239; and CHEM 312. Offered: W.

CHEM 418 Nuclear Chemistry (3) NW Natural radioactivity, nuclear systematics and reactions, radioactive decay processes, stellar nucleosynthesis, applications of radioactivity. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475.

CHEM 419 Bioinorganic Chemistry (3) NW Description of transition metal-containing systems found in biology. Structural and electronic properties and reactivity of metalloproteins, metalloenzymes, and metal cofactors. Methods used to probe and model metal sites by spectroscopic and synthetic techniques. Prerequisite: either CHEM 224, CHEM 239, CHEM 337, or B CHEM 239; and CHEM 416. Offered: Sp, even years.

CHEM 422 Analytical Spectroscopy (3) NW

Qualitative and quantitative analysis of molecular species, using various optical spectroscopy techniques including absorption, fluorescence, Raman, and advanced nonlinear optical spectroscopy. Prerequisite: CHEM 321. Offered: W.

CHEM 425 Meso and Microfluidics in Chemical Analysis (3) NW Fluid dynamics and mass transport in meso and microfluidics. Prerequisite: CHEM 321 Offered: Sp.

CHEM 426 Instrumental Analysis (3) NW

Introduction to modern instrumental methods of chemical analysis, including chromatography, optical and mass spectroscopy, electrochemistry and flow injection analysis. Basic concepts of transducers, spectrometers, mass analysis, separation sciences, and computerized data acquisition and reduction. Includes laboratory. Prerequisite: CHEM 321. Offered: W.

CHEM 428 Biomolecular Analysis (3) NW Principles of identifying and quantifying biological molecules, including metabolites, proteins, and nucleic acids, using modern analysis techniques, including analytical spectroscopy, molecular recognition, mass spectrometry, and separations. Emphasis on bioinformatics as well as the role of chemical measurements in medical diagnostics and biomedical research. Includes laboratory. Prerequisite: either BIOC 405, BIOC 440, or CHEM 321 Offered: A.

CHEM 429 Chemical Separation Techniques (3) NW Introduction to modern separation techniques such as gas chromatography, high-performance liquid chromatography, electrophoresis, and field flow fractionation. Prerequisite: either CHEM 224, CHEM 239, CHEM 337, or B CHEM 239; and either CHEM 241, CHEM 321, CHEM 346, or B CHEM 241. Offered: A.

CHEM 430 Advanced Physical Organic Chemistry (3) NW Fundamental aspects of organic structures and transformations. Structure and basicity of carbanions, substitution reactions, elimination reactions, nucleophilic addition and addition/elimination reactions, condensation reactions, structure and rearrangements of carbocation's, electrophilic addition, electrophilic substitutions, and neighboring group efforts.

Prerequisite: either CHEM 239, CHEM 337, or B CHEM 239. Offered: A.

CHEM 431 Advanced Synthetic Organic Chemistry (3) NW

Synthetic organic chemistry. Discussion of practical methods for the synthesis of complex organic molecules with an emphasis on strategy and the control of stereochemistry. Prerequisite: CHEM 430. Offered: W.

CHEM 432 Advanced Bio-Organic Chemistry (3) NW

Chemical biology. Application of chemical methods to the study of biological processes that occur in cells. Prerequisite: CHEM 239, CHEM 337, or B CHEM 239; CHEM 242 or CHEM 347. Offered: Sp.

CHEM 434 Polymer Chemistry (3) Focuses on fundamental and applied aspects of polymer synthesis including classic methods and mechanisms for macromolecular synthesis and contemporary breakthroughs in the field. Prerequisite: CHEM 239, CHEM 337, or B CHEM 239. Offered: A.

CHEM 436 Chemical Biology (3) NW Mechanistic enzymology and chemical biology. Topics include protein structure and function, how enzymes work as catalysts, kinetic methods, functional assays, and applications to current research. Prerequisite: either CHEM 224, CHEM 239, CHEM 337, or B CHEM 239; recommended: either BIOC 405 or BIOC 440

CHEM 441 Data Science and Materials Informatics (3)

Introduction to data science approaches and their applications to materials science research. Basic skills in data mining, data processing, and machine learning for materials research topics using Python taught through case studies and other methodologies. Prerequisite: CSE 160 or CSE 163; recommended: proficiency in Python, achieved through coursework or independent study. Offered: jointly with MSE 477.

CHEM 442 Materials and Device Modeling (3)

Implementation of computational and data science methods in materials science discovery and device modeling to gain physical and statistical insights of materials design. First-principles methods, multiscale simulations, and continuum modeling will be introduced within the framework of active machine learning with application of both computational and data science methods to materials study.

Prerequisite: MSE 477/CHEM 441. Offered: jointly with MSE 478.

CHEM 443 Big Data for Materials Science (3)

Introduces the challenges and opportunities of the big data era for materials science and chemistry research. Students will gain basic knowledge and skills of data management using high performance computing, including automated data processing, batch processing, and cloud based computational tools that are suitable for materials science research. Prerequisite: MSE 477/CHEM 441. Offered: jointly with MSE 479.

CHEM 452 Physical Chemistry for Biochemists I (3)

NW Chemical thermodynamics emphasizing biochemical applications. No more than 3 credits can be counted toward graduation from the following: CHEM 452, CHEM 456. Prerequisite: CHEM 153, CHEM 155, or CHEM 162; MATH 126 or MATH 136; and PHYS 115 or PHYS 122. Offered: AWS.

CHEM 453 Physical Chemistry for Biochemists II (3)

NW Continuation of CHEM 452. Includes transport properties, enzyme kinetics, introduction to quantum mechanics, spectroscopy, and classical statistical mechanics. Prerequisite: either CHEM 452 or CHEM 456; either MATH 126 or MATH 135; either PHYS 116 or PHYS 123. Offered: WSp.

CHEM 454 Introduction to Biomolecular

Spectroscopy (3) NW Introduction to biomolecular spectroscopy. Covers optical and magnetic resonance time-domain spectroscopies, single-molecule methods, etc., with applications to the structure and dynamics of proteins, nucleic acids, biomembranes, and biomaterials. Prerequisite: CHEM 452 or CHEM 456; either CHEM 453 or CHEM 455 Offered: Sp.

CHEM 455 Physical Chemistry (3) NW Introduction to quantum chemistry and spectroscopy. Theory of quantum mechanics presented at an elementary level and applied to the electronic structure of atoms and molecules and to molecular spectra. Prerequisite: either CHEM 153, CHEM 155, or CHEM 162; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123. Offered: ASp.

CHEM 456 Physical Chemistry (3) NW Chemical thermodynamics. Laws of thermodynamics presented with applications to phase equilibria,

chemical equilibria, and solutions. No more than the number of credits indicated can be counted toward graduation from the following course group: CHEM 452, CHEM 456 (3 credits) . Prerequisite: either CHEM 155 or CHEM 162; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123. Offered: WS.

CHEM 457 Physical Chemistry (3) NW Introduction to statistical mechanics, kinetic theory, and chemical kinetics. Prerequisite: either CHEM 455 or CHEM 475; either CHEM 456 or CHEM E 326. Offered: Sp.

CHEM 458 Air Pollution Chemistry (4) NW Global atmosphere as a chemical system emphasizing physical factors and chemical processes that give rise to elevated surface ozone, particulate matter, and air toxics; international issues of air pollution transport and changing tropospheric background composition; and regulatory control strategies and challenges. Aimed at science and engineering majors. Offered: jointly with ATM S 458; A.

CHEM 460 Spectroscopic Molecular Identification

(3) NW Basic theory of spectral techniques - infrared and ultraviolet/visible spectroscopy, NMR, and mass spectrometry - with emphasis on spectral interpretation skills needed for the elucidation of structure, conformation, and dynamics in organic and biological chemistry. Prerequisite: either CHEM 224, CHEM 239, CHEM 337, or B CHEM 239. Offered: A.

CHEM 461 Physical Chemistry Laboratory (3) NW

Physical measurements in chemistry. Vacuum techniques, calorimetry, spectroscopic methods, electrical measurements. Prerequisite: either CHEM 453, or both CHEM 455 and CHEM 456, or both CHEM 456 and CHEM 475. Offered: ASpS.

CHEM 462 Techniques of Synthetic Organic

Chemistry (2-3) NW Laboratory techniques of synthetic organic chemistry. Vacuum distillation, multistep synthesis, air sensitive reagents, photochemistry, chromatography, and separation techniques. Prerequisite: either CHEM 242, CHEM 347, or B CHEM 242; CHEM 460 which may be taken concurrently. Offered: A.

CHEM 463 Spectroscopic Techniques for Structural

Identification (2) NW Laboratory techniques of spectroscopic analysis for structural determination

using UV, IR, NMR, mass spectroscopy. Prerequisite: CHEM 460. Offered: W.

CHEM 464 Computers in Data Acquisition and Analysis (3) NW Introduction to use of the computer in the chemistry laboratory. Principles of microcomputers and their use for such problems as data acquisition, noise reduction, and instrument control. Prerequisite: either CHEM 453, CHEM 455, or CHEM 475; MATH 136, or both MATH 307 and MATH 308. Offered: A.

CHEM 465 Computational Chemistry (3) NW Basics of molecular quantum chemistry (Hartree-Fock and density functional theory) ; numerical implementation using computers, including basics of programming and scientific computing; applications to problems in chemistry. Prerequisite: either CHEM 455 or CHEM 475 Offered: W.

CHEM 466 Energy Materials, Devices, and Systems (3) David S. Ginger Provides project based training for synthesis & characterization of new energy materials, for generation and storage, and the integration of renewables into energy systems using instruments at the Clean Energy Research Training Testbed. Topics include nanoparticle synthesis, solar cells, impedance analysis, characterization with solar simulator, coin cell battery assembly & testing, photochemistry, semiconductor w/ 2D materials, grid simulation Prerequisite: either PHYS 431, E E 421, MSE 311, MSE 312, MSE 313, MSE 351, MSE 352, CHEM E 456, CHEM 455, or CHEM 475, any of which may be taken concurrently. Offered: jointly with CHEM E 440/MSE 466; A.

CHEM 475 Honors Physical Chemistry (3) NW Introduction to quantum chemistry, spectroscopy. Theory of quantum mechanics applied more rigorously than in CHEM 455. Application of quantum mechanics to electronic structure of atoms and molecules. Computer software used to solve problems. Prerequisite: either CHEM 153, CHEM 155 or CHEM 162; either MATH 126 or MATH 136; either PHYS 116 or PHYS 123. Offered: A.

CHEM 484 Electronic and Optoelectronic Polymers (3) NW Covers the chemistry, physics, materials science, and applications of semiconducting and metallic conjugated polymers. Examines the structural origins of the diverse electronic and optoelectronic properties of conjugated polymers.

Exemplifies applications by light-emitting diodes, lasers, solar cells, thin film transistors, electrochromic devices, biosensors, and batteries. Prerequisite: either CHEM 453 or CHEM 455. Offered: jointly with MSE 484; ASp.

CHEM 485 Electronic Structure and Application of Materials (3) NW Introduction to electronic structure theory of solids from a chemical perspective, including band theory and the free electron model, with an emphasis in the second half of the quarter on modern trends in research in inorganic materials in the bulk and on the nanometer scale. Prerequisite: CHEM 455. Offered: W.

CHEM 486 Electronic Dynamics in Organic and Inorganic Materials (3) NW Energy and charge transfer; exciton migration and charge transport; photophysical dynamics in optoelectronic and kinetic processes in electrochemical energy conversion. Prerequisite: CHEM 455. Offered: Sp.

CHEM 491 Study Abroad - Advanced Chemistry (1-15, max. 15) NW For students in the UW study abroad program. Content varies and is individually evaluated. Credit does not apply to major degree requirements without departmental approval.

CHEM 499 Undergraduate Research and Report Writing (*, max. 12) Research in chemistry and/or study in the chemical literature. Credit/no-credit only. Offered: AWSpS.

CHEM 500 Grant Proposal and Scientific Writing (1) Introduces steps in compiling a successful grant proposal and writing scientific articles, personal statements, research summaries, and procuring recommendation letters, using the NSF graduate fellowship as a guide. Students gain experience in peer review processes as assessment of current scientific literature. Credit/no-credit only. Offered: A.

CHEM 501 Readings in Chemistry (1, max. 9) Individual meetings with faculty to discuss readings (journal articles, book chapters, proceedings) in the chemical sciences. Credit/no-credit only. Offered: AWSpS.

CHEM 508 Advanced Inorganic Chemistry (3, max. 9) Discussion of selected applications of physical techniques to the study of inorganic molecules.

Topics include group theory, magnetic resonance spectroscopy (NMR and ESR), vibrational spectroscopy (IR and Raman), electronic spectroscopy, magnetism, and electrochemistry. Offered: A.

CHEM 510 Current Problems in Inorganic Chemistry (3, max. 9) Primarily for doctoral candidates in inorganic chemistry. Current topics (e.g., bioinorganic, advanced organometallic, materials and solid state, advanced inorganic spectroscopy). See department for instructor and topics during any particular quarter. Offered: Sp.

CHEM 516 Transition Metals (3) Survey of selected key topics in the chemistry of the transition metals, including emphasis on the structure, bonding, and reactivity of major classes of compounds. Recommended: working knowledge of general chemistry and introductory inorganic concepts including Lewis structures, metal-ligand coordination, and oxidation state assignments. Offered: A.

CHEM 517 Organometallics (3) Chemistry of the metal-carbon bond for both main group and transition metals. Structure and reactivity with applications to organic synthesis and catalysis. Prerequisite: either CHEM 224, CHEM 239, or CHEM 337; CHEM 416 or equivalent background. Offered: W.

CHEM 520 Current Problems in Analytical Chemistry (3, max. 9) Primarily for doctoral candidates in analytical chemistry. Current topics (e.g., flow injection analysis, mass spectrometry, and advanced radiochemistry). See department for instructor and topics during any particular quarter. Offered: AWSp.

CHEM 521 Analytical Electrochemistry (3) Theory and practice of modern electrochemistry with emphasis on instrumentation and applications in chemical analysis.

CHEM 522 Atomic and Molecular Analytical Spectroscopy (3) Quantitative analysis of atomic and molecular species, using all forms of electromagnetic radiation, electrons, and gaseous ions.

CHEM 523 Geochemical Cycles (4) Descriptive, quantitative aspects of earth as biogeochemical system. Study of equilibria, transport processes,

chemical kinetics, biological processes; their application to carbon, sulfur, nitrogen, phosphorus, other elemental cycles. Stability of biogeochemical systems; nature of human perturbations of their dynamics. Prerequisite: permission of instructor. Offered: jointly with ATM S 508/OCEAN 523.

CHEM 524 Analytical Mass Spectrometry (3) Theory and practice of mass spectrometry with emphasis on ionization methods, mass analyzers, gas-phase ion chemistry, and spectra interpretation. Recommended: basic knowledge of organic and physical chemistry, including thermodynamics and kinetics.

CHEM 525 Meso and Microfluidics in Chemical Analysis (3) Fluid dynamics and mass transport in meso and microfluidics. Offered: Sp.

CHEM 526 Instrumental Analysis (3) Introduction to both fundamental theory and instrument design of various analytical instruments. Focuses on four major categories of instrumental analysis methods: optical spectroscopy, chromatography, flow injection analysis, and electroanalytical chemistry. Beyond learning basic analytical principles and instrument design, students receive extensive laboratory training in all major analytical methods. Offered: W.

CHEM 528 Biomolecular Analysis (3) Principles of quantifying and identifying biological molecules, including metabolites, proteins, and nucleic acids, using modern analysis techniques, including analytical spectroscopy, molecular recognition, mass spectrometry, and separations. Emphasis on bioinformatics, the role of chemical measurements in medical diagnostics and biomedical research, and the primary literature. Includes laboratory. Offered: A.

CHEM 529 Chemical Separation Techniques (3) Introduction to modern separation techniques such as gas chromatography, high-performance liquid chromatography, electrophoresis, and field flow fractionation. Offered: A.

CHEM 530 Advanced Physical Organic Chemistry (3) Fundamental aspects of organic structures and transformations. Structure and basicity of carbanions, substitution reactions, elimination reactions, nucleophilic addition and addition/elimination reactions, condensation

reactions, structure and rearrangements of carbocation's, electrophilic addition, electrophilic substitutions, and neighboring group efforts. Prerequisite: either CHEM 239 or CHEM 337. Offered: A.

CHEM 531 Advanced Synthetic Organic Chemistry (3) Synthetic organic chemistry. Discussion of practical methods for the synthesis of complex organic molecules with an emphasis on strategy and the control of stereochemistry. Prerequisite: CHEM 530. Offered: W.

CHEM 532 Advanced Bio-Organic Chemistry (3) Chemical biology. Application of chemical methods to the study of biological processes that occur in cells. Prerequisite: CHEM 530 and CHEM 531. Offered: Sp.

CHEM 534 Polymer Chemistry (3) Focuses on fundamental and applied aspects of polymer synthesis including classic methods and mechanisms for macromolecular synthesis and contemporary breakthroughs in the field.

CHEM 536 Chemical Biology (3) Mechanistic enzymology and chemical biology. Topics include protein structure and function, how enzymes work as catalysts, kinetic methods, functional assays, and applications to current research. Prerequisite: either CHEM 224, CHEM 239, or CHEM 335; recommended: either BIOC 405 or BIOC 44 Offered: W.

CHEM 540 Current Problems in Organic Chemistry (1-3, max. 12)

CHEM 541 Data Science and Materials Informatics (3) Introduction to data science approaches and their applications to materials science research. Basic skills in data mining, data processing, and machine learning for materials research topics using Python taught through case studies and other methodologies. Prerequisite: either CHEM E 545/CHEM 545/MSE 545 (or equivalent) , CHEM E 546/CHEM 546/MSE 546 (or equivalent) , or proof of proficiency in Python. Offered: jointly with MSE 542.

CHEM 542 Materials and Device Modeling (3) Implementation of computational and data science methods in materials science discovery and device modeling to gain physical and statistical insights of materials design. First-principles methods, multiscale

simulations, and continuum modeling will be introduced within the framework of active machine learning with application of both computational and data science methods to materials study. Prerequisite: either MSE 477/CHEM 441, MSE 542/CHEM 541, CHEM E 545/CHEM 545/MSE 545, or CHEM E 546/CHEM 546/MSE 546 (or equivalents) . Offered: jointly with MSE 543.

CHEM 543 Big Data for Materials Science (3) Introduces the challenges and opportunities of the big data era for materials science and chemistry research. Students will gain basic knowledge and skills of data management using high performance computing, including automated data processing, batch processing, and cloud based computational tools that are suitable for materials science research. Prerequisite: either MSE 477/CHEM 441 or MSE 542/CHEM 541. Offered: jointly with MSE 544.

CHEM 545 Data Science Methods for Clean Energy Research (3) *Jim Pfaendtner* Survey of modern data science methods taught in the context of materials for clean energy (e.g., batteries and solar energy) . Covers data visualization, statistics, machine learning and data management. Instruction, homework and term project are implemented using Python. Offered: jointly with CHEM E 545/MSE 545; W.

CHEM 546 Software Engineering for Molecular Data Scientists (3) *Jim Pfaendtner* Introduces basic principles of scientific software development in the Python in the context of Molecular Data Science. The course covers command line tools, Python from the perspective of molecular data science methods, software development and collaboration principles, e.g. version control. Grades are based on homework and group projects. Offered: jointly with CHEM E 546/MSE 546; W.

CHEM 547 Data Science Capstone Project (3) *David A. C. Beck* Involves teams of graduate students from molecular, materials or clean energy focused disciplines working on Data Science oriented research and engineering projects solicited from internal and external partners. Employ modern team-based software engineering principles and cutting edge Data Science methods, including but not limited to machine learning, statistics, visualization and data management. Prerequisite: CHEM E 545 and CHEM E 546; recommended: prior exposure to data science fundamentals and software

development. Offered: jointly with CHEM E 547/MSE 547; Sp.

CHEM 550 Introduction to Quantum Chemistry (3)
Origins and basic postulates of quantum mechanics, solutions to single-particle problems, angular momentum and hydrogenic wave functions, matrix methods, perturbation theory, variational methods. Prerequisite: CHEM 455. Offered: A.

CHEM 551 Introduction to Quantum Chemistry (3)
Electronic structure of many-electron atoms and molecules, vibration and rotation levels of molecules, effects of particle exchange, angular momentum and group theory, spectroscopic selection rules. Prerequisite: CHEM 550. Offered: W.

CHEM 552 Statistical Mechanics (3) General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisite: CHEM 455 and CHEM 456 (concurrent registration permitted) or equivalent. Offered: W.

CHEM 553 Statistical Mechanics (3) General theorems of statistical mechanics, relation of the equilibrium theory to classical thermodynamics, quantum statistics, theory of imperfect gases, lattice statistics and simple cooperative phenomena, lattice dynamics and theory of solids, liquids, solutions, and polymers, time-dependent phenomena and mechanisms of interaction. Prerequisite: CHEM 552. Offered: Sp.

CHEM 554 Introduction to Biomolecular Spectroscopy (3) Introduction to biomolecular spectroscopy. Covers optical and magnetic resonance time-domain spectroscopies, single-molecule methods, etc., with applications to the structure and dynamics of proteins, nucleic acids, biomembranes and biomaterials. Offered: Sp.

CHEM 560 Current Problems in Physical Chemistry (1-3, max. 12) Primarily for doctoral candidates in physical chemistry. A discussion of topics selected from active research fields. See department for instructor and the topic during any particular quarter.

CHEM 564 Organic Electronic and Photonic Materials/Polymers (3) Physical and material concepts determining properties of organic electronic and photonic materials. Discusses electronic structure, physico-chemical characterization, and device application. Includes introduction of electronic band structure of polymers, electrically conducting polymers; organic nonlinear optical electroluminescent materials; polymer optical fibers; low-photon absorption materials for 3-D microfabrication. Offered: jointly with MOLENG 530/MSE 560; W.

CHEM 565 Computational Chemistry (3) Basics of molecular quantum chemistry (Hartree-Fock and density functional theory); numerical implementation using computers, including basics of programming and scientific computing; applications to problems in chemistry. Offered: W.

CHEM 566 Energy Materials, Devices, and Systems (3) *D. Ginger Jr* Provides project based training for synthesis & characterization of new energy materials, for generation and storage, and the integration of renewables into energy systems using instruments at the Clean Energy Research Training Testbed. Topics include nanoparticle synthesis, solar cells, impedance analysis, characterization with solar simulator, coin cell battery assembly & testing, photochemistry, semiconductor w/ 2D materials, grid simulation Offered: jointly with CHEM E 540/MSE 566; A.

CHEM 567 Computers in Data Acquisition and Analysis (3) Interface computers to a variety of laboratory equipment such as Geiger Counter, pH titration, spectrophotometer, PID controlled magnetic induction device, or an acoustic tube. Students will individually interface the computer to the equipment, write the code to drive the experiment, and analyze or model the data. Utilizes LabView, Matlab, Octave Offered: A.

CHEM 571 Current Research Topics in Inorganic Chemistry (1, max. 18) Focused discussion of ongoing research occurring across the department in the area of Inorganic Chemistry Credit/no-credit only.

CHEM 573 Current Research Topics in Organic and Biological Chemistry (1, max. 18) Discussion of

ongoing research occurring in organic chemistry and chemical biology. Offered: AWSp.

CHEM 574 Current Research Topics in Spectroscopy (1) Ongoing research in the area of spectroscopy. Offered: AWSp.

CHEM 575 Current Research Topics in Theoretical and Computational Chemistry (1, max. 18) Focused discussion of ongoing research occurring across the department in the area of theoretical and computational chemistry. Offered: AWSp.

CHEM 578 Current Research Topics in Materials Chemistry (1, max. 18) Focused ongoing research in Materials Chemistry. Credit/no-credit only. Offered: AWSp.

CHEM 581 Preparation for Second-Year Exam (3-, max. 9) Preparation for examination. Open only to students accepted for doctoral work in chemistry, in their second year of study. Credit/no-credit only. Offered: AWSp.

CHEM 584 Electronic and Optoelectronic Polymers (3) Covers the chemistry, physics, materials science, and applications of semiconducting and metallic conjugated polymers. Examines the structural origins of the diverse electronic and optoelectronic properties of conjugated polymers. Exemplifies applications by light-emitting diodes, lasers, solar cells, thin film transistors, electrochromic devices, biosensors, and batteries. Prerequisite: either CHEM 453, CHEM 455, or equivalent background.

CHEM 585 Electronic Structure and Application of Materials (3) NW Introduction to electronic structure theory of solids from a chemical perspective, including band theory and the free electron model, with an emphasis in the second half of the quarter on modern trends in research in inorganic materials in the bulk and on the nanometer scale. Offered: W.

CHEM 586 Electronic Dynamics in Organic and Inorganic Materials (3) NW Energy and charge transfer; exciton migration and charge transport; photophysical dynamics in optoelectronic and kinetic processes in electrochemical energy conversion. . Recommended: Working knowledge of electromagnetism, calculus, differential equations, and linear algebra.

CHEM 587 Nanomaterials Chemistry and Engineering (3) V. Holmberg Rigorous overview of fundamental chemical and physical concepts important to nanomaterials science and engineering. Focus on luminescent, plasmonic, magnetic nanomaterials. Students will learn basic concepts prevalent in the nanomaterials literature, and develop rigorous mathematical understanding of fundamental principles that govern many of the advanced materials that are currently under development in the field. Prerequisite: CHEM 455, MATH 307, CHEM E 326; recommended: Classical physics, quantum mechanics, thermodynamics, and ordinary and partial differential equations Offered: jointly with CHEM E 535; Sp.

CHEM 590 Seminar in General Chemistry (1, max. 18) For chemistry graduate students only. Credit/no-credit only. Offered: AWSp.

CHEM 591 Seminar in Inorganic Chemistry (1, max. 18) For chemistry graduate students only. Credit/no-credit only. Offered: AWSp.

CHEM 592 Seminar in Analytical Chemistry (1, max. 18) For chemistry graduate students only. Credit/no-credit only. Offered: AWSp.

CHEM 593 Seminar in Organic Chemistry (1, max. 18) For chemistry graduate students only. Credit/no-credit only. Offered: AWSp.

CHEM 595 Seminar in Physical Chemistry (1, max. 18) Credit/no-credit only.

CHEM 597 Seminar in Molecular Engineering (1, max. 30) Weekly seminars on current topics in molecular Engineering. Credit/no-credit only. Offered: jointly with MOLENG 520; AWSp.

CHEM 600 Independent Study or Research (*-) Prerequisite: permission of coordinator. Offered: AWSpS.

CHEM 700 Master's Thesis (*-) Prerequisite: permission of coordinator. Offered: AWSpS.

CHEM 800 Doctoral Dissertation (*-) Prerequisite: permission of coordinator. Offered: AWSpS.

CINEMA AND MEDIA STUDIES

CINEMA AND MEDIA STUDIES

CMS 240 Writing in Cinema and Media Studies (5, max. 15) C A critical approach to film and/or media texts and a workshop on writing papers in English. Topics vary. Offered: AWSpS.

CMS 270 Perspectives on Film: Introduction (5) VLPA Introduction to film form, style, and techniques. Examples from silent film and from contemporary film.

CMS 271 Perspectives on Film: Great Directors (5) VLPA Introduction to authorship in the cinema. The work of a major director or directors.

CMS 272 Perspectives on Film: Genre (5) VLPA Introduction to study of film and/or television genre. Literary, mythic, and historic aspects of film and/or television genre.

CMS 273 Perspectives on Television: Analysis (5) VLPA Provides an introduction to television styles and aesthetics, with particular attention to camerawork, narrative, acting, and sound.

CMS 274 Perspectives on Media: Critical Concepts (5) VLPA *S. Groening, J. Vallier* Provides an introduction to media studies, with particular attention to critical concepts including, but not limited to, audience studies, formal analysis, and ideological critique. Specific media analyzed varies.

CMS 275 Perspectives on Visual Culture: Sex, Race and Power (5) I&S/VLPA, DIV An introduction to the study of visual texts such as film, television, comics, or digital media. Focus on the representation of cultural differences including, but not limited to, sexuality, gender, ability, and race. Topics vary.

CMS 295 Study Abroad (1-5, max. 20) VLPA Equivalency for 200-level CMS courses taken on UW Study Abroad programs or direct exchanges.

CMS 297 Special Topics in Cinema and Media Studies (5, max. 10) VLPA Varied topics related to film and/or media. Offered: AWSpS.

CMS 301 Film and Media Studies: Analysis (5) VLPA Introduction to the analysis of film. Covers major aspects of cinematic form: mise en scene, framing and camera movement, editing, and sound and color. Considers how these elements are organized in traditional cinematic narrative and in alternative approaches.

CMS 302 Media Arts and Cultures (5) VLPA *Sudhir Mahadevan, Stephen F Groening, John Vallier* Examines cultural expressions and aesthetic formations across media forms, with an emphasis on electronic and digital media. Media arts analyzed vary, including but not limited to comics, cell-phones, mash-ups, games, electronic literature, video installations, photography, and soundscapes.

CMS 303 Genre Studies (5) VLPA Introduction to the history and significance of genre in film and/or television. May examine one or a selection of several genres, drawn from a list including, but not limited to, the western, melodrama, musical, thriller, sitcom, film noir, and documentary. Topics include form, ideology, authority, history, innovation, and parody.

CMS 304 Television Studies (5) VLPA Provides an overview of key issues in the study of television. Explores what television is, what television does, and how television shapes our fundamental assumptions about space, time, image, and sound.

CMS 310 History of Film: 1895-1929 (5) VLPA Film history from its beginnings in the 1890s through the golden era of silent film in the 1920s. Topics include the invention of major film techniques, the creation of Hollywood and the studios, and movements such as expressionism, constructivism, and surrealism.

CMS 311 History of Film: 1930-1959 (5) VLPA Film history from the introduction of sound through the late 1950s. Focuses mostly on the golden age of the Hollywood studios and on alternative developments after World War II in Italy (Neo-Realism), France (the New Wave), and Japan.

CMS 312 History of Film: 1960 - 1988 (5) VLPA Covers the vast changes in filmmaking since 1960. Topics include the continuing influence of the French New Wave, the New German Cinema of the 70s and the "New Hollywood" of the 70s, American independent film of the 80s, and the resurgence of Chinese filmmaking since 1980.

CMS 313 History of Film: 1989-Present (5) VLPA

Addresses the latest trends in international filmmaking typically with an emphasis on world cinema and issues of globalization and diaspora. Sometimes taught in conjunction with the Seattle International Film Festival.

CMS 314 History of Television (5) VLPA S.

GROENING Covers issues, problems, and themes in the history of television. Topic may include changes in television styles and representational forms, television's historical relationship with other media, transitions from broadcast to satellite through cable and digital distribution, and television's changing audiences.

CMS 315 History of New Media (5) VLPA S.

GROENING Study of new media histories and methodologies for research, with particular emphasis on new and emergent technologies such as the Internet and other digital forms. Specific media to be analyzed vary.

CMS 320 Cinema and Nation (3-5, max. 15) VLPA

Examines the cinema of a particular national, ethnic or cultural group, with films typically shown in the original language with subtitles. Topics reflect themes and trends in the national cinema being studied.

CMS 321 Oppositional Cinema/Media (5) VLPA, DIV

Approaches film and related media as socially and politically engaged practice, with focus on screen media produced or received in "opposition" to dominant cultural and entertainment industry norms. Topics vary.

CMS 322 Race, Representation, and Television (5)

VLPA, DIV *Stephen F Groening* Historical view of race and representation on television in the U.S. by examining a range of television programs across genres from the 1950s to the present day. Recommended: CMS 273 or CMS 274. Offered: W.

CMS 370 Basic Screenwriting (5) VLPA S. WONG

Students develop collaborative critical and creative skills; studying screenwriting manuals and techniques; adapt stories for screenplays; and/or write synopses, treatments, and first acts of their own screenplays.

CMS 395 Study Abroad (1-5, max. 20) VLPA

Equivalency for 300-level CMS courses taken on UW Study Abroad programs or direct exchanges.

CMS 397 Special Topics in Cinema and Media Studies (3-5, max. 10) VLPA/I&S

Varying topics relating to film in social contexts. Offered by resident or visiting faculty.

CMS 423 East European Film (5, max. 15)

VLPA *Crnkovic* Studies major East European film makers who left their countries at some point in their careers. Compares East European and Western production of those directors who worked partially in the West. Offered: jointly with SLAVIC 423.

CMS 470 Advanced Screenwriting (5) VLPA S.

WONG Students hone their understanding of screenwriting techniques; enhance their editing/critiquing skills; and develop their own screenplays, synopses; and treatments of various genres, including but not limited to silent, poetic, dramatic, and news-based scripts.

CMS 480 Senior Capstone (5) VLPA Capstone course in cinema and media studies. Topics vary.

CMS 490 Directed Study or Research (1-5, max. 10)

Individual study of topics in cinema and media studies by arrangement with the instructor and the Comparative Literature, Cinema, and Media Department advising office.

CMS 491 Internship (1-5, max. 12) Supervised experience in local businesses and other agencies. Open to upper-division cinema and media studies majors with approval of departmental internship supervisor.

CMS 497 Special Topics in Cinema and Media Studies (3-5, max. 10) VLPA Varying topics in cinema studies. Offered by resident or visiting faculty.

CMS 520 Methods and Issues in Cinema and Media Studies (5) Provides a basic grounding in the theory, history, and criticism of film and media studies, and introduces central debates, topics, and methods in the field.

CMS 525 Cinema and Media Studies Pedagogy (5, max. 10) Pedagogical approaches to cinema and

media studies. Introduces teaching tools, technologies and modes of practice. Offered: AWSp.

CMS 570 Media Lab (5, max. 30) Practical approaches to cinema and media studies. May include archival research, production of videographic or audiographic criticism, film programming, public scholarship, or hands-on work with media devices and technologies. Offered: AWSp.

CMS 571 National Frameworks (5, max. 30) Approaches to national, transnational, global, diasporic, and/or regional cinemas and media. Content varies.

CMS 572 Historiography (5, max. 30) Assessment of processes through which film and/or media histories are constructed. Incorporates methodologies for retrieving and analyzing primary materials relevant to course subject matter. Content varies. Offered: AWSp.

CMS 573 Aesthetics (5, max. 30) Inquiry into such areas as the sensory perception, cultural valuation, or close analysis of cinema and media. Formal, theoretical, and philosophical approaches. Content varies. Offered: AWSp.

CMS 590 Master of Arts Essay (5/10, max. 10) Research and writing project under the supervision of a faculty member. Offered: jointly with C LIT 590; AWSpS.

CMS 597 Special Topics in Cinema and Media Studies (3-5, max. 15) Varying topics in cinema and media studies. Offered by resident or visiting faculty.

CMS 599 Special Seminar or Conference (1-9, max. 30) Group seminars or individual conferences scheduled to meet special needs. Prerequisite: permission of graduate program adviser. Offered: jointly with C LIT 599.

CMS 600 Independent Study or Research (*-) Offered: jointly with C LIT 600.

CMS 800 Doctoral Dissertation (*-) Offered: jointly with C LIT 800.

COMPARATIVE LITERATURE

C LIT 200 Introduction to Literature (3/5) VLPA Reading, understanding, and enjoying literature from various countries, in different forms of expression (e.g., dramatic, lyric, narrative, rhetorical) and of representative periods. Emphasis on the comparative study of themes and motifs common to many literatures of the world.

C LIT 210 Literature and Science (5, max. 15) VLPA Introduces the rich and complex relationship between science and literature from the seventeenth century to the present day. Students examine selected literary, scientific, and philosophical texts, considering ways in which literature and science can be viewed as forms of imaginative activity.

C LIT 230 Introduction to Folklore Studies (5) VLPA/I&S *G. Smidchens* Folkloristics combines the methods and ideas of Literature Studies and Anthropology. Folktales (fairy tales), legends, jokes, songs, proverbs, customs and other forms of traditional culture are studied together with the living people and communities who perform and adapt them. Students learn the folklorist's methods of fieldwork (participant observation), ethnography, comparative analysis, and interpretation. Offered: jointly with SCAND 230; AWSpS.

C LIT 240 Writing in Comparative Literature (5, max. 15) C Comparative approach to literature and a workshop in writing comparative papers in English. Emphasis on cross-cultural comparison of literary works. Readings in English with an option to read selected texts in the original languages Offered: AWSp.

C LIT 250 Introduction to Comparative Literature: Literature and Culture (5, max. 15) VLPA/I&S Study of literature in its relation to culture. Focuses on literature as a cultural institution, directly related to the construction of individual identity and the dissemination and critique of values.

C LIT 251 Introduction to Comparative Literature: Themes (5) VLPA Reading and analyzing literature based upon rotating themes such as love, sex, and murder, haunted houses, and dreams and memory.

Selections drawn from European, English, and American literature, not limited to period and genre.

C LIT 252 Introduction to Comparative Literature: Genres (5) VLPA Reading and analyzing literature based upon rotating genres such as sci-fi, detective fiction, romance, love, poetry, and comedy. Draws from world literature.

C LIT 295 Comparative Literature Study Abroad (1-5) Equivalency for 200-level C LIT courses taken on UW Study Abroad programs or direct exchanges.

C LIT 300 Introduction to Comparative Literature: Forms, Genres, History (5) VLPA Provides an introduction to comparative literary study which examines how literary forms and genres shape our reading of texts; how these forms and genres change over time; and how literary forms and genres manifest themselves in different cultural traditions. Includes theoretical readings and substantial writing.

C LIT 318 Literature and the Holocaust (5) VLPA, DIV Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe. May not be taken for credit if credit earned in NEAR E 441. Offered: jointly with NEAR E 318.

C LIT 320 Studies in European Literature (5, max. 15) VLPA Examination of the development of European literature in a variety of genres and periods. Possible areas of study include literature from romantic fiction of early nineteenth century through great realist classics of second half of the century or from symbolism to expressionism and existentialism.

C LIT 321 Studies in Literature of the Americas (5, max. 15) VLPA Emphasizes connections between twentieth century literature of the United States and Canada and current literature of Latin America. Emphasizes that, despite obvious differences, much is shared in terms of culture and national sensibility across the two continents.

C LIT 322 Studies in Asian and Western Literatures (5, max. 15) VLPA Topics designated by individual instructors.

C LIT 323 Studies in the Literature of Emerging Nations (5, max. 15) VLPA, DIV Novels and short stories, from Africa, the Middle East, and South Asia. Discusses relationship of Western literary genres to an oral literary tradition, as well as issues like colonialism, gender relations, narrative technique, native and non-native languages.

C LIT 330 The European Fairy Tale (5) VLPA An introduction to folktales and literary tales from various traditions and periods. A discussion of their origin, special characteristics, dissemination, and relevance to the contemporary reader.

C LIT 331 Folk Narrative (5) VLPA Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieux. Theory and history of folk narrative study, taxonomy, genre classification, and interpretative approaches. Offered: jointly with SCAND 331.

C LIT 334 Immigrant and Ethnic Folklore (5) VLPA/I&S Survey of verbal, customary, and material folk traditions in ethnic context. Theories of ethnic folklore research applied to the traditions of American communities of Scandinavian, Baltic, or other European ancestry. Offered: jointly with SCAND 334.

C LIT 350 Themes in World Literature: Parents and Children (5) VLPA World literature, from the Renaissance to modern times, based upon the theme of "parents and children." Selections drawn from European, English, and American literature, not limited to period and genre. Focus upon the motive of generational conflict.

C LIT 352 Themes in World Literature: Death and Transfiguration (5) VLPA Theme of death, transfiguration, and new life in world literature. Selections from Tolstoy, D. H. Lawrence, Celine, E. M. Forster, and other major writers.

C LIT 357 Literature and Film (3-5, max. 10) VLPA The film as an art form, with particular reference to the literary dimension of film and to the interaction of literature with the other artistic media employed

in the form. Films are shown as an integral part of the course. Content varies.

C LIT 360 Topics in Ancient and Medieval Literature (5) VLPA Explores topics in literature and cultures of the ancient and medieval worlds across national and regional cultures, such as particular movements, authors, genres, themes, or problems.

C LIT 361 Topics in Early Modern Literature (5) VLPA Explores topics in literature and cultures of the early modern world (approximately 1400-1800) across national and regional cultures, such as particular movements, authors, genres, themes, or problems.

C LIT 362 Topics in Modern Literature (5) VLPA Explores topics in literature and cultures of the modern world (approximately 1800-present) across national and regional cultures, such as particular movements, authors, genres, themes, or problems.

C LIT 371 Literature and the Visual Arts (5) VLPA Focuses on specific theoretical problems. Examines the relationship between text and image in a variety of art forms including poetry, novels, paintings, photography, essays, comic strips, film, and advertisement. Readings, in English, from a wide variety of national literatures.

C LIT 375 Images of Women in Literature (5, max. 15) VLPA, DIV Comparative study of the ways women's image, social role, and psychology have been portrayed by writers of various nationalities and literary periods. Selection of theme varies from quarter to quarter. Works are read in English translation.

C LIT 395 Comparative Literature Study Abroad (1-5) Equivalency for 300-level C LIT courses taken on UW Study Abroad programs or direct exchanges.

C LIT 396 Special Studies in Comparative Literature (3-5, max. 10) VLPA Offered by visitors or resident faculty. Content varies.

C LIT 400 Introduction to Theory and Criticism (5) VLPA A selection of major theoretical statements in the history of literary theory and criticism, with texts drawn from such fields as literary studies, aesthetic theory, film studies, philosophy, and cultural studies.

C LIT 410 Studies in Literary History (5, max. 15) VLPA Introduction to a major figure or movement associated with the development of literary history. Through the study of one aspect of literary history students gain a thorough understanding of a particular point of view, while exploring the breadth of contemporary approaches to literature.

C LIT 421 Studies in Connections: Literature and Other Disciplines (5, max. 15) VLPA Examines the links between literature and other disciplines or art forms. Literature and history, literature and philosophy, literature and music, literature and the visual arts are all appropriate topics. Selection of focus depends on instructor.

C LIT 422 Studies in Genre (5, max. 15) VLPA Major genres of world literature: poetry, fiction, drama. Readings in English from a wide selection of national literatures.

C LIT 424 The Epic Tradition (5) VLPA *Clauss, Levaniouk* Ancient and medieval epic and heroic poetry of Europe in English: the Iliad, Odyssey, and Aeneid; the Roland or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies according to instructor's preference. Offered: jointly with CLAS 424.

C LIT 430 Readings in Folklore (5) VLPA Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Offered: jointly with SCAND 430.

C LIT 431 The Northern European Ballad (5) VLPA Integrative study of the Northern European Ballad, with an emphasis on texts, performance, context, history, theory, genre classification, and interpretive approaches. Offered: jointly with SCAND 431.

C LIT 432 Technology and Culture in the Making of Contemporary Empires (5) I&S *Benitez, Rodriguez-Silva* Explores the struggles that shaped organization of the U.S. empire at the turn of the twentieth century, focusing on how empire's material, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance

such as public health, citizenship and territory; and popular culture. Offered: jointly with JSIS D 432.

C LIT 441 Literature and the Holocaust (5) VLPA

C LIT 474 Scandinavian Auteurs (5, max. 10) VLPA *Nestingen* Studies the body of work of Scandinavia's auteur filmmakers. Introduces the theory and history of auteur cinema, with special attention to Scandinavian filmmakers' contribution. Offered: jointly with SCAND 470; AWSp.

C LIT 490 Directed Study or Research (1-5, max. 10) Individual study of topics in comparative literature by arrangement with the instructor and the Comparative Literature office.

C LIT 491 Internship (1-5, max. 5) Supervised experience in local businesses and other agencies. Open to upper-division comparative literature and cinema studies majors.

C LIT 493 Comparative Literature Honors Seminar (5, max. 15) VLPA Special topics in comparative literature. Required of Honors students in comparative literature.

C LIT 495 Honors Thesis (5) VLPA Preparation of an Honors thesis under the direction and supervision of a faculty member.

C LIT 496 Special Studies in Comparative Literature (3-5, max. 15) VLPA Offered occasionally by visitors or resident faculty. Content varies.

C LIT 500 The Theory of Literature I: The Literary Text (5, max. 15) An investigation into the nature of literature in contrast to other forms of writing and into essential features of literature such as genres, imagery, modes of communication, and structure.

C LIT 501 The Theory of Literature II: History of Literature (5, max. 15) An exploration of topics of literary history such as periods, traditions, the writing of literary history, and literary history in contrast to other histories.

C LIT 502 The Theory of Literature III: Special Topics (5, max. 15) Offerings vary to cover topics such as individual theorists, theoretical movements, or the intersection of literary theory with other disciplines

or arts (psychoanalysis, structuralism, ethics, aesthetics) .

C LIT 507 History of Literary Criticism and Theory I (5, max. 15) A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with ENGL 507.

C LIT 508 History of Literary Criticism and Theory II (5, max. 15) Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with ENGL 508.

C LIT 509 History of Literary Criticism and Theory III (5, max. 15) Literary criticism and theory from Kant's Critique of Judgment to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with ENGL 509.

C LIT 510 History of Literary Criticism and Theory IV (5, max. 15) A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with ENGL 510.

C LIT 511 Literary Translation (5, max. 15) Lectures on principles of translating literary works into readable English. Students present and comment on translations made by them and write seminar papers on problems of translation in theory and practice.

C LIT 516 Colloquium in Criticism (5, max. 15) Recent trends in literary criticism, taught by representatives from various literature departments, covering critical trends such as structuralism, poststructuralism, hermeneutics, reception theory, and sociological approaches to literature.

C LIT 530 Cultural Criticism and Ideology Critique I (5, max. 15) A study of the main attempts to come to an understanding of the humanities and the nature of historical interpretation in a cultural context.

C LIT 535 Cultural Criticism and Ideology Critique II (5, max. 15) Offerings vary to cover individual theorists and particular manifestations of cultural criticism and ideology critique.

C LIT 545 Medieval Studies (3/5, max. 15) Literature, intellectual history, and sociology of the Middle Ages, 500-1200. Topics may include "renaissance" of the twelfth century; the educational ideal; rise of universities; philosophical concepts.

C LIT 546 Studies in Renaissance and Baroque (3-5, max. 10) Aspects of Western European literature during the Renaissance and Baroque period. Course content varies.

C LIT 547 Studies in Eighteenth-Century Literature (3-5, max. 10) Examination of various trends in eighteenth-century literature including the Enlightenment, Rationalism, Pre-Romanticism, and Neo-Classicism. Course content varies with instructor.

C LIT 548 Studies in Nineteenth-Century Literature (3-5, max. 10) Examination of various trends in nineteenth century literature including Romanticism, Realism, Naturalism, and Symbolism.

C LIT 549 Twentieth-Century Literature (3-5, max. 10) Selected movements, schools, and trends of significance in twentieth-century literature of Europe and Americas. Symbolism, surrealism, dada, expressionism, neorealism, existentialism, nouveau roman, and absurd may be considered. Texts in English, French, and German figure most prominently, but Spanish, Italian, Russian, and other materials may be examined. Content and emphasis vary.

C LIT 551 Textual Theory (5) Provides an introduction to the intellectual foundations of textual studies; historical background in disciplines of philology and textual criticism, theories of textuality from formalism and New Criticism to poststructuralism, and media-specific analysis; current and emerging concerns in the history of the book, media studies, globally comparative philologies, and digital humanities. Offered: jointly with ENGL 501.

C LIT 552 Manuscript Studies (5) An examination of the theoretical and methodological issues attending the study of written texts including literacy, circulation, production, and reception in Premodern genetics, and archival research methods. Offered: jointly with ENGL 502.

C LIT 553 Studies in Print Culture and Publication (5) An examination of the theoretical and methodological issues attending the study of printed texts; training in bibliography and the history of the book from Gutenberg's hand press to the machine and periodical presses of the nineteenth and twentieth centuries; and contemporary book art. Offered: jointly with ENGL 503.

C LIT 554 Digital Literary and Textual Studies (5) An examination of digital textuality from the rise and fall of "hypertext" to contemporary convergence and transmediation in hybrid visual-verbal genres; computer games, digital video, and e-poetry. Coverage of practical issues surrounding digital scholarship and the digital humanities. Offered: jointly with ENGL 504.

C LIT 555 Capstone in Textual and Digital Studies (1) Capstone in Textual and Digital Studies. Prerequisite: ENGL 501/C LIT 551; recommended: Must have completed a sequence of three courses, beginning with an Introduction to Textual Theory course (ENG 501/C LIT 551) and followed by one core elective and one open elective related to Textual and Digital Studies. Credit/no-credit only. Offered: jointly with ENGL 558.

C LIT 570 The Novel: Theory and Practice (3-5, max. 15) Study of the novel as a genre, examining two or more novels of varying national literatures. Course content varies.

C LIT 571 The Lyric: Theory and Practice (3-5, max. 15) Examination of central questions in the study of the lyric genre as approached from an international point of view. Course content varies.

C LIT 573 The Drama: Theory and Practice (3-5, max. 15) Examination of various aspects of the drama as a major literary genre, as approached from international and multilingual points of view. Course content varies.

C LIT 574 Scandinavian Auteurs (5, max. 10) VLPA *Nestingen* Seminar on auteur filmmakers in Scandinavian cinema, studying specific auteurs' bodies of work, theories of auteur cinema, and the history of auteurism in Scandinavian cinema. Offered: jointly with SCAND 570; AWSp.

C LIT 576 Seminar in East-West Literary Relations (3-5, max. 15) Comparative investigation of literary topics requiring the study of both Eastern and Western documents. Explores parallels and contradictions between the two, in concepts, ideas, and specific topics. A comparative paper on a chosen topic with qualified conclusions is required. Emphasis varies. Prerequisite: at least one East Asian language.

C LIT 590 Master of Arts Essay (5/10, max. 10) Research and writing project under the supervision of a faculty member. Offered: jointly with CMS 590; AWSpS.

C LIT 596 Special Studies in Comparative Literature (3-5, max. 15) Offered occasionally by visiting or resident faculty. Course content varies.

C LIT 599 Special Seminar or Conference (1-9, max. 30) Group seminars or individual conferences scheduled to meet special needs. Prerequisite: permission of graduate program adviser. Offered: jointly with CMS 599.

C LIT 600 Independent Study or Research (*-) Offered: jointly with CMS 600.

C LIT 700 Master's Thesis (*-)

C LIT 800 Doctoral Dissertation (*-) Offered: jointly with CMS 800.

CLASSICS

CLASSICAL ARCHAEOLOGY

CL AR 340 Pre-Classical Art and Archaeology (3) VLPA K. Topper Survey of the art and the other material remains of the civilizations in the Aegean from the Neolithic Age to the end of the Bronze Age, with special emphasis on Minoan Crete and the Mycenaean kingdoms of mainland Greece, illustrated by slides. The history, techniques, and results of significant excavations are examined. Offered: jointly with ART H 340.

CL AR 341 Greek Art and Archaeology (3) VLPA S. Levin-Richardson, K. Topper Survey of the material remains and the developing styles in sculpture, vase painting, architecture, and the minor arts from the

geometric to the Hellenistic periods, illustrated by slides. Principal sites and monuments, as well as techniques and methods of excavation, are examined in an attempt to reconstruct the material culture of antiquity. Offered: jointly with ART H 341.

CL AR 342 Roman Art and Archaeology (3) VLPA Kathryn R. Topper Roman architecture and art, with emphasis on the innovations of the Romans; illustrated by slides. Offered: jointly with ART H 342.

CL AR 343 Hellenistic Art and Archaeology (3) VLPA K. Topper Survey of the art of Greece and the eastern Mediterranean from the time of Alexander the Great to the Roman conquest. Principal sites with their sculpture, painting, mosaics, and minor arts examined in lectures illustrated with slides. Offered: jointly with ART H 343.

CL AR 347 Pompeii: A Time Capsule of Ancient Life (5) VLPA/I&S, DIV S. Levin-Richardson Explores the power differential between men and women, slaves and masters, and citizens and foreigners in the cultural melting pot of ancient Pompeii, which was preserved by a volcanic eruption in 79 CE. Graffiti, skeletal remains, everyday objects, humble and world-class art and monuments will be analyzed. Offered: jointly with ART H 347; AWSp.

CL AR 442 Greek Painting (3) VLPA K. Topper Study of painted decoration on Greek vases, with emphasis on stylistic developments and cultural and historical influences. Painting on other media also examined as evidence allows. Offered: jointly with ART H 442.

CL AR 443 Roman Painting (3) VLPA S. Levin-Richardson, K. Topper Study of surviving painting from the Roman world, with emphasis on wall paintings from Pompeii and Herculaneum. Principal topics for discussion: the four styles of Pompeian painting the dependence of Roman painters on Greek prototypes, and the significance of various kinds of painting as domestic decoration. Offered: jointly with ART H 443.

CL AR 444 Greek and Roman Sculpture (3) VLPA K. Topper History and development of Greek sculpture and sculptors, their Roman copyists, and Roman portraits and sarcophagi. Emphasis on Greek sculpture of the fifth century BC. Offered: jointly with ART H 444.

CL AR 446 Greek Architecture (3) VLPA K. Topper
Detailed study of Greek architecture from its beginnings, with special emphasis on the Periclean building program in fifth-century Athens. Offered: jointly with ART H 446.

CL AR 447 The Archaeology of Early Italy (3) VLPA S. Levin-Richardson, K. Topper
Study of the principal archaeological sites of early Italy, including Etruria, Sicily, southern Italy, and archaic Rome up to the Republican period. Attention given to the material remains and their relationship to the Etruscan, ancient Sicilian, and early Roman civilizations. Offered: jointly with ART H 447.

CL AR 448 The Archaeology of Italy (3) VLPA S. Levin-Richardson, K. Topper
Study of the principal archaeological sites in Italy with special emphasis on ancient Rome. Sites include the Alban hills, Ostia, Pompeii, Herculaneum, Tarquinia, Paestum, Tivoli, and Praeneste. Attention given to the relationship between material remains and their purpose in ancient life. Illustrated by slides. Offered: jointly with ART H 448.

CL AR 461 Gender and Sexuality in Classical Art and Archeology (3/5) I&S/VLPA, DIV S. Levin-Richardson, K. Topper
Examines gender and sexuality in the visual and archaeological records of Greece and Rome, with a focus on topics such as the body, clothing, the gaze, homoeroticism, sexual labor, gendered spaces, and transgressive genders and sexualities. Recommended: previous coursework in Greek and/or Roman art at the 200- or 300-level is encouraged. Offered: jointly with ART H 461; AWSp.

CL AR 513 Athenian Topography (5) K. TOPPER
Detailed consideration of the topography and monuments of ancient Athens from the beginning through the Roman period.

CL AR 541 Seminar in Greek and Roman Art (5) S. Levin-Richardson, K. Topper
In-depth study of selected topics and problems of the art of ancient Greece and Rome. Offered: jointly with ART H 541.

CLASSICAL LINGUISTICS

CL LI 501 Comparative Phonology of Greek and Latin (5) O. LEVANIIOUK
Phonological developments

of Greek and Latin from Indo-European to the classical periods of both languages.

CL LI 503 History of the Greek Language (5) O. LEVANIIOUK
Morphological and syntactical development of the Greek language from Homer through the New Testament; the development of prose and poetic style.

CL LI 505 History of the Latin Language (5) O. LEVANIIOUK
Morphological and syntactical development of the Latin language; the development of Latin as a literary language.

CL LI 506 Italic Dialects (5) O. LEVANIIOUK
Principal remains of the non-Latin languages and dialects of ancient Italy.

CL LI 508 Greek Dialects (5) O. LEVANIIOUK
The non-Attic dialects of ancient Greek, based on a study of inscriptions and the literary remains.

CLASSICS

CLAS 101 Latin and Greek in Current Use (2) VLPA
Designed to improve and increase English vocabulary through a study of the Latin and Greek elements in English, with emphasis on words in current literary and scientific use. No auditors. Knowledge of Latin or Greek is not required. Offered: AWSpS.

CLAS 102 Grammar and Syntax through Latin (3) VLPA
Improve familiarity with basic grammar, syntax, logic through study of mechanics of the Latin language. For Educational Opportunity Program students only. No auditors. Knowledge of Latin or Greek not required.

CLAS 122 Gateway to the Ancient Greco-Roman World (5) VLPA/I&S, DIV Catherine M Connors
Introduction to Greek and Roman ways of understanding and shaping the world. Art, architecture, literature, science, and religion are used to examine ancient ideas about the relationships between man and woman, free person and slave, native and foreigner, civilization and the natural world, mortal and divine. Offered: AWSpS.

CLAS 205 Bioscientific Vocabulary Building From Latin and Greek (3) VLPA
Designed to help the student master the scientific vocabulary of his or her

particular field by a study of the Latin and Greek roots that are used to create the majority of scientific terms. No auditors. Knowledge of Latin or Greek is not required. Offered: AWSpS.

CLAS 210 Greek and Roman Classics in English (5) VLPA *Blondell, Clauss, Connors, Gowing, Hinds, Hollmann, Kamen, Levaniouk, Levin-Richardson, Stroup, Topper* Introduction to classical literature through a study of the major Greek and Latin authors in modern translation. Offered: AWSp.

CLAS 231 Race, Identity, and the Ancient Mediterranean World (5) I&S, DIV *M. Green, K. Topper* Explores ancient authors' perceptions of others (foreigners, "barbarians," people on the margins of their known-worlds, slaves, etc.) alongside current scholarship on ancient perceptions of race and identity. Also examines how different groups/nations in nineteenth/twenty-first centuries used their views of Greek and Roman societies to make modern claims about race, white privileges, and power. Offered: jointly with HSTAM 231.

CLAS 239 Greece: From Ancient to Modern (5) VLPA/I&S *A. HOLLMANN, N. KLAPAKI* How are Ancient and Modern Greece connected to each other? Learn about great moments in Ancient Greek culture (tyranny and democracy, tragedy and comedy, athletics and art) and the complex ways Modern Greece has drawn on this heritage by exploring ancient and modern texts and images. Offered: jointly with JSIS A 239.

CLAS 314 Science, Technology, Engineering, and Mathematics in the Ancient World (5) I&S/VLPA *J. Clauss, S. Stroup* Examines science, technology, engineering, mathematics, and medicine in the cultures of Greece and Rome, from the late Bronze Age to early Roman Empire.

CLAS 320 Society and Status in Greece and Rome (5) VLPA/I&S, DIV *D. KAMEN* Examines the societies of ancient Greece and Rome, with a special focus on status, class, and gender. The diversity of human experience is explored through the study of men, women, children, the elderly, slaves, housing, dress, food, sexuality, medicine, death, religion, theater, politics, law, economics, travel, warfare, art, and athletics. Offered: A.

CLAS 324 Greek and Roman Athletics (5) I&S, DIV Surveys Greek athletics and Roman gladiatorial events; the place of athletic and violent spectacle in ancient politics, economy, art, and literature; the role of marginalized populations (especially women, slaves, POWs, and ethnic minorities) in these events, with focus on the ongoing marginalization and disposability of female athletes and athletes of Color on campus and in the community.

CLAS 326 Women in Antiquity (5) VLPA/I&S, DIV *Connors, Levaniouk* A broad survey of primary sources in medicine, law, philosophy, religious ritual, myth, history, and ethnography, informed by perspectives from literature, art, and archaeology. Provides students the tools to analyze the social roles of women in ancient Greece and Rome.

CLAS 328 Sex, Gender, and Representation in Greek and Roman Literature (3) VLPA/I&S, DIV *Hinds, Levin-Richardson, Stroup* Affirmation and inversion of gender roles in Greek and Roman literature, myths of male and female heroism; marginalization of female consciousness; interaction of gender, status, and sexual preference in love poetry. Readings from epic, drama, historiography, romance, and lyric.

CLAS 329 Greek and Roman Slavery (5) I&S/VLPA, DIV Examines slavery in ancient Greece and Rome, investigating chattel slavery and serfdom, the slave supply and slave numbers, the economic role of slavery, the legal status and treatment of slaves, the resistance of slaves, the freeing of slaves, and ideologies of and attitudes toward slavery. Offered: AWSp.

CLAS 330 The Age of Augustus (5) VLPA/I&S *Gowing* Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14) . Includes readings in Augustan authors such as Vergil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with HSTAM 330.

CLAS 335 The Age of Nero (5) VLPA/I&S *C. Connors, A. Gowing, S. Levin-Richardson, S. Stroup* Detailed study of the history and culture of the reign of the Roman Emperor Nero (AD 54-68) . Includes readings in the historian Tacitus' account of Nero, as well as in authors such as Petronius, Lucan, and Seneca, and consideration of the artistic and architectural

achievements of the period. Recommended: HSTAM 111, HSTAM 302, HSTAM 312, or HSTAM 313; CLAS 122, CLAS 320, CLAS 329, or CLAS 330 Offered: jointly with HSTAM 335; AWSpS.

CLAS 345 Modern Ways To Write About The Ancient World (5) VLPA C. *Connors* Development of expertise in expository and persuasive writing through study of Ancient Greek and Roman literature and culture. Recommended: a strong interest in ancient Greece and Rome is recommended. Offered: Sp.

CLAS 360 Jews, Greeks, and Romans in the Ancient World (5) VLPA *Stroup* Examines the interactions between populations of Jews, Greeks, and Romans in the ancient Mediterranean from the late Bronze Age through the early Talmudic period, informed by perspectives from literature (religious and secular), art, and archaeology. Offered: jointly with JEW ST 360.

CLAS 399 Study Abroad: Classics (3-15, max. 20) VLPA For participants in Classics overseas study programs. Specific course content determined by assigned faculty member. Credit not applicable to majors in the Classics Department without approval.

CLAS 405 Undergraduate Seminar in Classics (5, max. 15) Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

CLAS 410 The Classical Tradition (3-5) VLPA C. *Connors, S. Hinds* Study of the Classical Tradition, including the reception of ancient Greek and Roman texts, objects, and ideas within the history of Western literature, art, thought, and scholarly disciplines. Exploration of its interrelationship with the ethos of the various ages in which significant developments occurred. Offered: AWSp.

CLAS 420 Freedom in Ancient Rome and the Modern World (3/5) VLPA/I&S, DIV A. *Gowing* Examination of the concept of 'freedom' in Ancient Rome, from its founding in the eighth century BC to the fourth century AD. Special attention to comparing the Roman perspective with some

modern views of 'freedom', including (but not limited to) the United States from its founding to the present day. Recommended: HSTAM 111, 302, 312, or 313; CLAS 122, 320, or 329 Offered: jointly with HSTAM 420; AWSpS.

CLAS 422 Intellectual History of Classical Greece (5) VLPA/I&S *Blondell* Uses Plato's Republic as a core text to explore a range of issues of ancient and contemporary interest, such as justice, political theory, education, gender, and the nature of the soul. Besides the Republic and other works of Plato, readings are taken from Homer, Hesiod, the dramatists, and other authors. Taught in English.

CLAS 423 Gender and Heroism in Ancient Greek Thought (5) I&S/VLPA, DIV R. *Blondell* Examines gender and heroism as mutually constitutive categories in Greek thought, and ways in which they work to uphold or subvert power structures among men and women in their various statuses under patriarchy. Topics will include the multiple conceptions of male and female heroism (mythic, epic, tragic, comic, philosophical, religious) and the ways they are endorsed or critiqued in a variety of literary and philosophical texts. Recommended: Previous coursework in Classics at the 200- or 300-level Offered: AWSp.

CLAS 424 The Epic Tradition (5) VLPA *Clauss, Levaniouk* Ancient and medieval epic and heroic poetry of Europe in English: the Iliad, Odyssey, and Aeneid; the Roland or a comparable work from the medieval oral tradition; pre-Greek forerunners, other Greco-Roman literary epics, and later medieval and Renaissance developments and adaptations of the genre. Choice of reading material varies according to instructor's preference. Offered: jointly with C LIT 424.

CLAS 427 Greek and Roman Tragedy in English (5) VLPA *Stroup* Study of the development of Greek and Roman tragedy, with extensive readings in representative plays of Aeschylus, Sophocles, Euripides, and Seneca.

CLAS 428 Greek and Roman Comedy in English (5) VLPA *Stroup* Readings from the comedies of Aristophanes, Plautus, and Terence.

CLAS 430 Greek and Roman Mythology (3/5) VLPA
Principal myths found in classical and later literature.
Offered: AWSp.

CLAS 432 Classical Mythology in Film (3/5)
VLPA *Clauss* Comparison and discussion of classical myths and modern films inspired by them. Promotes access to the reading of classical mythology. Analyzes significant differences between ancient literary and modern cinematographic representations of the myth.

CLAS 435 The Ancient Novel (3) VLPA *Connors*
Reading and discussion of the principal Greek and Roman novels, the earliest European prose fiction, with attention to earlier literature and to imperial culture.

CLAS 445 Greek and Roman Religion (5)
VLPA/I&S *Hollmann, Levaniouk* Religion in the social life of the Greeks and Romans, with emphasis placed on their public rituals and festivals. Attention is given to the priesthoods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Many lectures illustrated by slides. Offered: jointly with RELIG 445.

CLAS 490 Supervised Study (1-6, max. 18) Individual study in classical topics by arrangement.

CLAS 495 Senior Essay (1-3, max. 4) VLPA Usually written in conjunction with another course in the final year of study in the major.

CLAS 496 Special Topics (2-5, max. 15) VLPA Offered occasionally by visitors or resident faculty.

CLAS 510 Interdisciplinary Seminar in Classics (3-5, max. 25) Advanced work on Greek and Latin studies in English translation. Offered: AWSpS.

CLAS 520 Seminar (5, max. 45) Advanced comparative work on Greek and Latin materials studied in both original languages.

CLAS 525 Proseminar (5) Introduces graduate students to the chief subfields, together with their various methodologies and resources, of the broad discipline of classical studies.

CLAS 540 Topics in Greek and Latin Literary History (5, max. 25) Reading of a range of Greek and Latin texts by various authors.

CLAS 700 Master's Thesis (*-)

CLAS 800 Doctoral Dissertation (*-)

GREEK

GREEK 101 Introductory Greek (5) VLPA An intensive study of grammar, with reading and writing of simple Attic prose. First in a sequence of three. Offered: A.

GREEK 102 Introductory Greek (5) VLPA An intensive study of grammar, with reading and writing of simple Attic prose. Second in a sequence of three. Prerequisite: GREEK 101. Offered: W.

GREEK 103 Introductory Greek (5) VLPA Reading of selections from classical Greek literature. Third in a sequence of three. Prerequisite: GREEK 102 or GREEK 300. Offered: Sp.

GREEK 300 Introductory Greek, Accelerated (5) VLPA Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if GREEK 101 already taken. Offered: WS.

GREEK 301 Greek Language, Accelerated (5) VLPA Intensive introduction to Attic Greek. Not accepted as upper-division credit toward a major in Greek or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if GREEK 101 already taken. Prerequisite: GREEK 300. Offered: SpS.

GREEK 304 Introductory Readings in Greek Literature (5, max. 15) VLPA Introduction to reading Greek literature in prose and poetry from various Greek authors; grammar review. Recommended: either GREEK 103 or GREEK 301. Intended to be taken prior to GREEK 305 or more advanced classes. Offered: S.

GREEK 305 Attic Prose (5) VLPA Translation of selections from Attic prose; elementary exercises in Attic prose composition. Intended as first in a

sequence of three. Recommended: one year of college-level Ancient Greek or equivalent. Offered: A.

GREEK 306 Attic Prose (5) VLPA Translation of selections from Attic prose; elementary exercises in Attic prose composition. Intended as second in a sequence of three. Recommended: one year of college-level Ancient Greek or equivalent. Offered: W.

GREEK 307 Homer (5) VLPA Translation of selections from the Iliad or the Odyssey; Attic prose composition, metrics. Recommended: one year of college level Ancient Greek or equivalent. Offered: Sp.

GREEK 308 Introduction to Koine Greek Texts (3) VLPA Williams Reading and discussion of selected religious and philosophical texts from Koine Greek.

GREEK 404 Advanced Readings in Greek Literature (5, max. 15) VLPA Advanced readings in Greek literature in prose and poetry from various Greek authors; grammar review. Recommended: either GREEK 103, GREEK 301, or GREEK 307. Intended to be taken prior to more advanced classes. Offered: S.

GREEK 405 Undergraduate Seminar in Classics (5, max. 15) Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

GREEK 413 The Pre-Socratic Philosophers (3) VLPA Blondell

GREEK 414 Plato (3) VLPA Blondell

GREEK 415 Aristotle (3) VLPA Blondell

GREEK 422 Herodotus and the Persian Wars (3) VLPA Hollmann, Kamen, Levaniouk, Topper

GREEK 424 Thucydides and the Peloponnesian War (3) VLPA Gowing, Kamen

GREEK 426 Attic Orators (3) VLPA Kamen

GREEK 428 Imperial Greek Literature (3-5, max. 15) VLPA Clauss, Gowing, Hollmann Readings in imperial Greek prose and poetry from the first century CE onward, including Dio Chrysostom, Appian, Plutarch, Aelius Aristides, Lucian, Athenaeus, and New Testament Koine.

GREEK 442 Greek Drama (3) VLPA Blondell, Levaniouk

GREEK 443 Greek Drama (3) VLPA Blondell, Levaniouk

GREEK 444 Greek Drama (3) VLPA Blondell, Levaniouk

GREEK 449 Greek Epic (3) VLPA Levaniouk

GREEK 451 Lyric Poetry (3) VLPA Blondell, Levaniouk

GREEK 453 Pindar: The Epinician Odes (3) VLPA Levaniouk

GREEK 461 Early Greek Literature (3-5, max. 15) VLPA Readings and discussion of selected authors of the early Greek period.

GREEK 462 Literature of Classical Athens (3-5, max. 15) VLPA Readings and discussion of selected authors of classical Athens.

GREEK 463 Hellenistic Greek Literature (3-5, max. 15) VLPA Clauss Readings and discussion of selected authors of the Hellenistic Age.

GREEK 490 Supervised Study (*, max. 18) Special work in literary and philosophical texts for graduates and undergraduates.

GREEK 500 Grammar and Composition (5) Hollmann Translation of passages from English to Greek for the purpose of acquiring advanced knowledge of the grammar and the style of the classical tongue.

GREEK 501 Homer (5) Levaniouk Readings from the Iliad or the Odyssey.

GREEK 503 Aristophanes (5) Kamen Select comedies.

GREEK 504 Plato (5) *Blondell* The Republic or other dialogues.

GREEK 506 Aristotle (5) *Blondell* Politics or Ethics.

GREEK 508 Lysias and Demosthenes (5) *Kamen*
Select speeches, oratorical theory, historical questions.

GREEK 510 Greek Historians (5, max. 10) *Hollmann, Kamen*
Selections from Herodotus, Thucydides, or Xenophon.

GREEK 512 Greek Tragedy (5, max. 10) *Blondell, Levaniouk*
Aeschylus, Sophocles, and/or Euripides.

GREEK 515 Greek Epigraphy (5) *Kamen*
Selected inscriptions from various Greek states and sanctuaries and evidence they provide for religious and social practices, literature, and political history. Classification and editing of inscriptions, and epigraphical techniques.

GREEK 520 Seminar (5, max. 45)

GREEK 540 Topics in Greek Literary History (5, max. 25)
Reading of a range of Greek texts by various authors.

GREEK 590 Supervised Study (*, max. 18)
Prerequisite: permission of Graduate Program Coordinator.

GREEK 600 Independent Study or Research (*-)

LATIN

LATIN 101 Introductory Latin (5) VLPA
An intensive study of grammar, with reading and writing of simple Latin prose. First in a sequence of three. Offered: A.

LATIN 102 Introductory Latin (5) VLPA
An intensive study of grammar, with reading and writing of simple Latin prose. Second in a sequence of three. Prerequisite: LATIN 101. Offered: W.

LATIN 103 Introductory Latin (5) VLPA
Reading of selections from classical Latin literature. Third in a

sequence of three. Prerequisite: LATIN 102 or LATIN 300. Offered: Sp.

LATIN 300 Introductory Latin, Accelerated (5) VLPA
Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if LATIN 101 already taken. Offered: WS.

LATIN 301 Introductory Latin, Accelerated (5) VLPA
Intensive introduction to classical Latin. Not accepted as upper-division credit toward a major in Latin or classics. Does not satisfy foreign language proficiency requirement. Cannot be taken for credit if LATIN 101 already taken. Prerequisite: LATIN 300. Offered: SpS.

LATIN 304 Introductory Readings in Latin Literature (5, max. 15) VLPA
Introduction to reading Latin literature in prose and poetry from various Latin authors; grammar review. Recommended: either LATIN 103 or LATIN 301. Intended to be taken prior to LATIN 305 or more advanced classes. Offered: S.

LATIN 305 Introduction to Latin Literature (5) VLPA
Readings in prose and poetry from various Latin authors; elementary exercises in Latin prose composition. Intended as first in a sequence of three. Recommended: one year of college-level Latin or equivalent. Offered: A.

LATIN 306 Cicero and Ovid (5) VLPA
Readings from the orations of Cicero and the poetry of Ovid; elementary exercises in Latin prose composition. Intended as second in a sequence of three. Recommended: one year of college-level Latin or equivalent. Offered: W.

LATIN 307 Vergil (5) VLPA
Selections from the first six books of the Aeneid; elementary exercises in Latin prose composition or metrics. Recommended: one year of college level Latin or equivalent. Offered: Sp.

LATIN 401 Medieval Latin Literature to 1200 (3) VLPA *Hinds*
Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or Renaissance Latin texts in their research.

LATIN 402 Later Medieval and Renaissance Latin Literature (3) VLPA *Hinds* Texts read in Latin; cultural and historical contexts discussed. Presupposes year and a half of Latin or equivalent. Informal individual guidance available to members of class handling medieval or Renaissance Latin texts in their research.

LATIN 404 Advanced Readings in Latin Literature (5, max. 15) VLPA Advanced readings in Latin literature in prose and poetry from various Latin authors; grammar review. Recommended: either LATIN 103 or LATIN 301. Intended to be taken prior to more advanced classes at the 400 level. Offered: S.

LATIN 405 Undergraduate Seminar in Classics (5, max. 15) Seminar on a broadly defined topic in classics. Includes reading in Latin or Greek as appropriate for individual students. Additional readings of works in English translation and works of scholarship chosen to give undergraduate majors familiarity with research methods and perspective on the discipline.

LATIN 412 Lucretius (3) VLPA *Blondell, Clauss*

LATIN 414 Seneca (3) VLPA *Blondell, Gowing, Stroup*

LATIN 422 Livy (3) VLPA *Clauss, Gowing, Stroup*

LATIN 423 Cicero and Sallust (3) VLPA *Clauss, Gowing, Stroup*

LATIN 424 Tacitus (3) VLPA *Clauss, Gowing, Stroup*

LATIN 447 Roman Lyric (3) VLPA *Clauss, Connors, Hinds*

LATIN 449 Roman Elegy (3) VLPA *Connors, Hinds*

LATIN 451 Roman Satire (3) VLPA *Connors, Gowing, Stroup*

LATIN 457 Roman Drama (3) VLPA *Connors*

LATIN 458 Roman Epic (3) VLPA *Clauss, Connors, Hinds*

LATIN 461 Latin Literature of the Republic (3-5, max. 15) VLPA Readings and discussion of selected authors from the era of the Roman Republic.

LATIN 462 Latin Literature of the Augustan Age (3-5, max. 15) VLPA Readings and discussion of selected authors from the Augustan era.

LATIN 463 Latin Literature of the Empire (3-5, max. 15) VLPA Readings and discussion of selected authors from the Roman Empire.

LATIN 465 Roman Topography and Monuments (5, max. 10) VLPA *Clauss, Gowing, Levin-Richardson, Stroup, Topper* Study of the material remains of ancient Rome from the archaic period through the imperial age. Reading of source materials and inscriptions in Latin. Conducted in Rome. Offered: Sp.

LATIN 475 Improvement of Teaching: Latin (5) VLPA Offered: jointly with EDC&I 438.

LATIN 490 Supervised Study (*, max. 18) Special work in literary and philosophical texts for graduates and undergraduates.

LATIN 500 Grammar and Composition (5) *Clauss, Gowing, Hinds, Stroup* Translation of passages from English to Latin for the purpose of acquiring advanced knowledge of the grammar and style of the classical tongue.

LATIN 501 Vergil (5) *Clauss, Hinds* The Aeneid.

LATIN 502 Horace (5) *Clauss* Odes or Epistles.

LATIN 503 Plautus and Terence: Early Republican Literature (5) *Connors, Stroup* Plautus and Terence.

LATIN 504 Philosophy at Rome (5) *Blondell, Stroup* Selected philosophical works of Cicero and other sources for Hellenistic and Roman philosophy.

LATIN 506 Cicero (5) *Gowing, Stroup* Select speeches, with attention to rhetorical theory and/or letters.

LATIN 508 Silver Latin Literature (5) *Connors, Hinds* Selections from Martial, Lucan, and Petronius.

LATIN 510 Roman Historians (5, max. 10) *Clauss, Gowing* Caesar, Livy, and Tacitus.

LATIN 512 Augustan Poetry (5, max. 15) *Clauss, Connors, Hinds.*

LATIN 520 Seminar (5, max. 45)

LATIN 540 Topics in Latin Literary History (5, max. 25) Reading of a range of Latin texts by various authors. Offered: AWPSP.

LATIN 565 Seminar in Rome (5, max. 10) *Clauss, Gowing, Levin-Richardson, Stroup, Topper* Study of selected topics and authors in Latin literature. Conducted in Rome.

LATIN 590 Supervised Study (*, max. 18)
Prerequisite: permission of Graduate Program Coordinator.

LATIN 600 Independent Study or Research (*-)

COMMUNICATION

COMMUNICATION

COM 200 Introduction to Communication (5)
VLPA/I&S Introduces theories and research in communication. Explores the myriad ways scholars approach fundamental issues of contemporary human communication. Focuses on theories and research of communication (e.g. relational, group, political, cultural, and international) . Acts as a gateway to knowledge about the communication discipline.

COM 202 Introduction to Communication II (5)
VLPA/I&S Introduces students to four core principles that undergird the study and practice of communication - communication literacy, research inquiry, theories and concepts, and community engagement. Principles discussed and developed in the context of social interaction, rhetoric and critical studies, and communication and culture.

COM 210 Introductory Communication Topics (5, max. 10) Introduction to a specified area of communication scholarship.

COM 220 Introduction to Public Speaking (5)
I&S/VLPA Designed to increase competence in public speaking and the critique of public speaking.

Emphasizes choice and organization of material, sound reasoning, audience analysis, and delivery.

COM 231 Introduction to Rhetoric (5) VLPA/I&S

Introduces students to the over two thousand year old discipline of rhetoric. Through contemporary examples of texts and images from politics and popular culture, students will explore concepts such as: the public, identity, persuasion, difference, and ethics.

COM 233 Introduction to Language and Society (5)

VLPA, DIV *Evans, Wassink* Introduces the study of sociolects, the varieties of language that arise from differences in cultural and societal groups, often reflective of power inequalities. Raises awareness of the role that society and the individual play in shaping sociolects via the systematic observation and critical discussion of linguistic phenomena. Offered: jointly with ANTH 233/LING 233; A.

COM 234 Public Debate (5) VLPA/I&S Examines public debate in a democracy by developing a rhetorical perspective of public argument and skills to evaluate debates critically. Develops an understanding of rhetoric, values, audiences, tests of reasoning, and sources of information. Sharpens critical skills and applies them to contemporary controversies in the public sphere.

COM 238 Rhetoric and Popular Culture (5) VLPA

Explores the rhetorical dimensions of popular culture (e.g., film, television, music, advertising, and video games) and their important, albeit often tacit, political and social implications. Themes include the ways popular culture shapes civic life, the influence of popular culture on identity, and the relationship between commerce and culture.

COM 270 Interpersonal Communication (5)

VLPA/I&S Emphasizes analyzing and understanding communication variables affecting human relationships, such as person perception, feedback, idea development, nonverbal cues. Focus on informal communication settings.

COM 289 Communication Power and Difference (5)

I&S, DIV Explores how communication - from face-to-face to mass media messages - reinforces or challenges conceptions of power, privilege, and difference along racial, ethnic, gender, sexual, class, ability, religion, and other important lines. Examines

how communication practices, particularly media, shape inequality as well as our understanding of ourselves and the world.

COM 292 Study Abroad: Communication I (1-10, max. 15) Communication courses taken through a UW approved study abroad program. Content varies and must be individually evaluated. Recommended: COM 200.

COM 294 Multimedia Skills Workshop (1-3, max. 5) Hands-on workshops addressing specific multimedia and/or journalism applications and skills. Topics vary. Credit/no-credit only.

COM 300 Basic Concepts of New Media (5)
VLPA/I&S Provides a comprehensive examination of the effects of new, digital media on interpersonal communication, media industries, and media culture. Emphasis on economic, social, political, and aesthetic implications. Provides limited experience with computer-based media. No prior technical computer experience assumed.

COM 301 Navigating Information Networks for Mass Media (5) I&S Builds familiarity with computer-mediated information networks. Introduces and compares network search engines, agents, browsing/viewing tools and retrieval/transfer software for use by reporters and other media workers. Instruction and practice with searching/acquiring information, its analysis and interpretation, illustration, and write-up. No prior computer or network experience assumed.

COM 302 The Cultural Impact of Information Technology (5) VLPA/I&S Utilizing approaches from the history of technology, cultural studies, and literary theory, seeks to analyze the cultural and social impact of information technology. Considers how information technologies impact our relationships with others, our concept(s) of self, and the structure of the communities to which we belong. Offered: jointly with CHID 370.

COM 303 Social Effects of Technology and Social Media (5) I&S Examines the impact of information/communication technology and social media on individuals and society. Adopts a variety of theoretical, empirical, and popular understandings to assess how technology may bring about social change. Recommended: COM 300.

COM 304 The Press and Politics in the United States (5) I&S Journalists' role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Extensive off-campus experience included. Offered: jointly with POL S 304.

COM 305 The Politics of Mass Communication in America (5) I&S Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics. Offered: jointly with POL S 305.

COM 306 Media, Society, and Political Identity (5) I&S Explores how society and culture are both represented in and shaped by communication technologies and media content. Media include film, advertising, news, entertainment television, talk shows, and the Internet. Explores how media represent and affect individual identity, values, and political engagement. Offered: jointly with POL S 306.

COM 318 The Creative Advantage (5) I&S *Nancy K. Rivenburgh* Draws on research related to cognition, communication, and creativity to train students in the design and application of problem-solving approaches to complex community and organizational challenges. Emphasizes the benefits of diversity and collaboration in the design of innovative solutions.

COM 320 Advanced Public Speaking (5) VLPA/I&S Practice in preparation and presentation of a variety of types of public speeches based on study of their structure and form; emphasis on organization and delivery. Prerequisite: COM 220.

COM 321 Communications in International Relations (5) I&S Looks at communications in relations between international groups and states. Examines the range of functions and roles communication media play in international affairs, global issues, and intergroup relations. Also examines the strategic use of communications by various groups. Offered: jointly with POL S 330.

COM 322 Global Communication (5) I&S

Introduction to the history, purpose, channels, content, technologies, policy, and regulation of international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications. Offered: jointly with POL S 329.

COM 325 Communication, Cities, and Sustainability (5) I&S *Nancy K. Rivenburgh*

Explores the varied ways in which communication and creativity can improve the sustainability and livability of cities. Students employ an array of fieldwork techniques to observe and analyze the complex, urban communication environment in which they live.

COM 329 Rhetoric of Social and Political

Movements (5) VLPA/I&S Inquiry into the rhetoric of social and political movements; emphasis on investigation of persuasive discourse; examination of the nonverbal symbols of persuasion.

COM 330 Rhetoric of Science (5)

VLPA/I&S *Ceccarelli* Examines how scientists use rhetoric to communicate with each other and with various publics, and how nonscientists use rhetoric to argue about science and its effects in the public sphere.

COM 332 Classical Rhetorical Theory (5) VLPA

Investigates how rhetoric has been theorized and taught since antiquity. Focuses on key thinkers and texts in the rhetorical tradition. Students learn to describe rhetorical theories of key thinkers, explain how rhetoric was understood and practiced in different historical societies, and explain how beliefs about rhetoric have changed over time.

COM 333 Contemporary Rhetorical Theory (5) VLPA

Introduces major Western theories about the relationship between humans and their symbol systems. Emphasizes themes that have preoccupied 20th and 21st Century thinkers on the subject of rhetoric: the public, identity, ethics, difference, the "masses", and persuasion.

COM 334 Essentials of Argument (5) I&S/VLPA

Argument as a technique in the investigation of social problems; evidence, proof, refutation, persuasion; training in argumentative speaking.

COM 336 Speech Consulting (1, max. 5) Matt

McGarrity Practicum for UW Speaking center. Enrolled students consult three hours a week in the Center. Credit/no-credit only.

COM 339 The Business of Media in the Digital Age

(5) I&S Examines the production of media within changing social, technological, and economic contexts. Emphasizes how new technologies can change the market for media goods and media experiences and the ways in which mediated production pervades contemporary economic life.

COM 340 History of Mass Communication (5) I&S

History and development of communication from prehistoric times; rise of mass media; political and economic context of newspapers, radio, film, and television.

COM 343 Effects of Mass Communication (5) I&S

Effects of mass communication on individuals and society. Relevant theories applied to research evidence, addressing such topics as effects of stereotypes, violent and sexual imagery, and persuasive messages on our knowledge, attitudes, and behaviors.

COM 351 Interviewing Principles and Practices (5)

VLPA/I&S Interviewing principles and practices, with emphasis on information gathering, selection, and persuasive interviews. Purposes and types of interviews, structure of interviews, and influence of communication patterns on interview outcomes.

COM 359 Writing for Mass Media (5) I&S

Training in gathering information through interviews and observation and from written record and other public sources. Practice in organizing and writing this information for presentation in a mass medium such as a newspaper, newsletter, or magazine.

COM 360 Foundations of Journalism and Public

Interest Communication (5) I&S Introduction to multimedia content-creation for journalists and public-interest communicators serving the public, nonprofits and other community entities.

COM 361 Advanced Journalism and Public Interest

Communication (4) I&S Advanced multimedia content-creation for journalists and public-interest communicators serving the public, nonprofits and other community entities Prerequisite: COM 360.

COM 362 Community Journalism and Public Interest Communication: News Lab (5) I&S Content creation for community clients and partners. Prerequisite: COM 361.

COM 364 Media Responsibility in a Diverse Society (5) Examines important cultural roles of journalists and media makers in a society rooted in systems of privilege. Students examine their own values and identities, interrogate media conventions, and develop a deeper understanding of how organizational decisions and social systems affect media representations. Prerequisite: COM 361.

COM 370 Family Communication (5) I&S Survey of current theories and research on family communication. Questions about what it means to be a "family." Major theories that guide family communication. Looks at the course of family life, family structures, types, and processes. Recommended: COM 270.

COM 373 Communication in Small Groups (5) VLPA/I&S Discussion as an everyday community activity, with emphasis on the informal cooperative decision-making methods of committee, conference, and roundtable groups.

COM 374 Perspectives on Language (5) VLPA/I&S Study of language and meaning, and survey of several influential modern approaches, including the semantic, general semantic, behavioral, and analytic philosophical. Relates theories of language and meaning to the study of speech communication.

COM 375 Communication Ethics (5) VLPA/I&S Ethical problems in interpersonal and public speech communication. Alternative ways of evaluating and responding to moral problems in a variety of communication situations.

COM 376 Nonverbal Communication (5) VLPA/I&S Reviews the nature of nonverbal communication as part of the human message system. Discusses research on the types of cues that are part of the nonverbal system, reviews some communicative functions allowed by nonverbal cues (e.g., emotional expressions, relational messages, deception, coordination, or interaction) , and ties nonverbal communication to language.

COM 377 Organizational Communication (5) VLPA/I&S *K. Foot* Surveys organizational communication theories, models, and processes. Students learn to apply these in organizational communication exercises, analyze cases, and practice communication and leadership strategies for effective organizing.

COM 378 Social Approaches to Interpersonal Communication (5) I&S *V. Manusov* Investigates interpersonal and relational concepts through a social lens. As students talk about important concepts/processes in the study of personal interaction, they will be looking at them as products and enactments of values and beliefs. They look at the challenges in interpersonal relating and interacting as well as at ways in which these challenges can be negotiated more successfully. Prerequisite: COM 270

COM 381 Content Analysis (5) Introduces content analysis, a research method used in the discipline of communication. Students work in groups to design and execute a content analysis.

COM 382 Social Scientific Approaches to Communication Research (5) I&S Comprehensive introduction to research methods employed in basic and applied communication research, including sample surveys, content analysis, experimentation, and elementary statistics.

COM 383 Qualitative Communication Research Methods (5) I&S Introduces students to a range of qualitative research methods for analyzing communication. Students design and execute a qualitative communication research project.

COM 389 Race, Gender, and Sexuality in the Media (5) I&S, DIV Introduction to media representations of gender, race, and sexuality. Offered: jointly with AES 389/GWSS 389.

COM 392 Study Abroad: Communication II (1-10, max. 15) Communication courses taken through a UW approved study abroad program. Content varies and must be individually evaluated. Recommended: COM 200.

COM 395 Communication Internship (1/2, max. 5) Faculty-supervised study of communication principles in internship contexts. Readings to aid

students in observations of communication concepts combined with individualized reading structured around topics of interest for each student. Credit/no-credit only.

COM 403 Dark Sides of Digital Media (5) I&S

Addresses the "dark sides" of digital media - and ways to mitigate them - in these realms: intrapersonal, interpersonal/relational, work/organizational, economic, political/military, environmental, and health. Students produce and analyze texts and images critiquing digital media, and policies and practices aimed at mitigating detrimental uses/outcomes.

COM 407 Communication Technology and Politics

(5) I&S Employs some core concepts of political communication and theories of democracy to examine the emerging role of information and communication technologies in candidate and issue campaigning; online voting; protest and advocacy movements; law-making and electronic governance in the United States and internationally. Offered: jointly with POL S 451.

COM 411 Political Communication Seminar (5, max. 10) I&S Contemporary topics studying how communication affects citizen engagement with public life. Offered: jointly with POL S 454.

COM 414 Mass Media and Public Opinion (5) I&S

Examines the foundations of the idea of public opinion in a democratic environment and the role of mass communication in the organization, implementation, and control of that opinion. Considers these relationships from the perspectives of societal elites, media, and citizens. Offered: jointly with POL S 452.

COM 418 Communication and the Environment (5)

I&S Examines how communication about the environment influences beliefs, values, and treatment of the natural world. Topics include new coverage of the environment; media strategies and rhetoric used by activists, government agencies, and industry to address environmental issues; representations of the environment in popular culture; and/or political argumentation about environmental policy. Offered: jointly with ENVIR 418.

COM 420 Comparative Media Systems (5) I&S

Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with JSIS B 419/POL S 468.

COM 423 Communication and Social Change (5) I&S

Examines both theory and application involved in using communications media as a tool for addressing political, social, and economic development issues. Utilizes a case study approach to look at localized applications of traditional and new communications tools in the pursuit of sustainable development.

COM 426 International Media Images (5) I&S

Ways in which media construct images of international peoples and events. Develops a set of critical tools for assessing media portrayals of international affairs and cultures.

COM 428 The Media and Peace (5) I&S

Investigates the complex relationships among the media, journalistic practice, and our understanding and pursuit of peace. Offered: jointly with JSIS B 428.

COM 431 Rhetorical Criticism (5) VLPA/I&S

Study of approaches to rhetorical inquiry that aid in the description, analysis, interpretation, and evaluation of discourse. Applies various critical models to a chosen artifact.

COM 434 Argumentation Theory (5) I&S/VLPA

COM 435 Historic American Public Address (5)

VLPA/I&S Rhetorical criticism of historical public speeches, essays, and declarations. Includes readings of public texts in their historical and political context to increase understanding of those texts, their rhetorical construction, and the culture from which they arose. Covers the beginnings of the nation to the middle of the twentieth century.

COM 436 Contemporary American Public Address

(5) VLPA/I&S Rhetorical criticism of contemporary public messages. Includes reading of public texts in their context to increase understanding of those texts, their rhetorical construction, and the culture from which they arose. Covers mid-twentieth century to the present.

COM 440 Mass Media Law (5) I&S Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system. Offered: jointly with POL S 461.

COM 442 History of Media Technology and Regulation (5) I&S Impact of pre-1980s media technologies - printing, telecommunications, broadcasting, photography, and more - on individuals and institutions, especially government, business, and the mass media. How laws and policies have changed to govern new media forms.

COM 443 Indigenous Films, Sovereign Visions (5) VLPA/I&S, DIV *D. HART, L. ROSS* Explores fiction, documentary, experimental film, and digital media by indigenous artists from around the world. Focuses on personal, political, and cultural expression. Issues include media and sovereignty movements, political economy, language revitalization, the politics of decolonization, and indigenous aesthetics. Offered: jointly with AIS 443.

COM 444 Public Relations and Society (5) I&S Overview of issues, strategies, and role of public relations professionals in various areas of American society, including media relations, government relations, community affairs, and consumer relations.

COM 445 Journalism and Literature (5) VLPA/I&S Explores the relationship between journalism and fiction writing in the United States. Examines writers who began their careers as journalists and forged a fiction-writing philosophy related to what they learned in journalism. Readings in fiction and journalism.

COM 452 Crisis Communications (5) I&S Study of the functions of communications professionals during crises. Covers public relations professionals as advocates for organizations and companies in crisis and the news media as advocates of the mass public. Discussion of cases.

COM 456 Networked Journalism (5) I&S *Adrienne Marie Russell* Transformation from mass-mediated journalism to networked journalism, with emphasis

on experiments in new-style news and the changing relationship between journalists and public.

COM 457 Journalism Portfolio (1) I&S Students assemble an online portfolio of academic, professional, and creative work. The portfolio project serves as vehicle for students to engage in self-assessment about their professional and academic growth and to assist them in career planning. May not be repeated if a grade of 0.7 earned. Prerequisite: COM 362.

COM 458 Reporting Global Issues (5, max. 10) I&S, DIV Practicum in the journalism that examines or localizes international trends or international developments in one or more of the following subject areas: health, medicine, science, politics, environment, culture, demographics, or business. Focus of course varies by term. Prerequisite: COM 360.

COM 459 Narrative Journalism (5) VLPA/I&S Introduces the rigorous reporting and literary writing techniques of narrative journalism. Concentrates on producing nonfiction narrative articles for publication. Offered: jointly with CHID 459.

COM 460 Special Reporting Topics (4, max. 8) I&S Topics vary. Prerequisite: COM 360.

COM 461 Data Reporting (5) I&S Introduction to reporting with data. Includes locating data, requesting data sets, analyzing data and telling visual written stories from data. Students examine ethical and technical challenges these tools present to media and society. Prerequisite: COM 360.

COM 463 Copy Editing for Media (5) I&S Focus on editing copy in a variety of media contexts, covering grammar, style, headlines, use of photos and captions, social media, online and mobile presentation, and editing relationships in a team. Prerequisite: COM 360.

COM 464 Writing with Voice (5) VLPA Focuses on point-of-view writing that challenges assumptions of the omniscient voice and pushes traditional journalist boundaries. Students are encouraged to experiment with transparency and authenticity in their tone and - through a series of written assignments - explore points of intersection between

their own experiences and larger issues.
Prerequisite: COM 360.

COM 465 State Government Communication (12) I&S Participation in the state legislative session winter quarter. Students work as reporters for news outlets or are embedded in communication teams in state agencies. Students receive a stipend and live in Olympia. Application required. Offered: W.

COM 468 Media Ethics (5) I&S Explores ethical issues and ethical decision-making as they pertain to journalistic and media practices.

COM 470 Discourse: Analyzing Talk and Texts (5) VLPA/I&S, DIV A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediated texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with LING 470.

COM 471 Persuasion (5) VLPA/I&S Analysis of the ways in which beliefs, values, attitudes, and behavior are deliberately influenced through communication.

COM 472 Empirical Approaches to Interpersonal Communication (5) I&S Examination of theories and research on the development and deterioration of interpersonal relationships. Emphasis on the nature of interpersonal interaction, the role of language and nonverbal communication in relationships, functional and dysfunctional interaction patterns, and the dynamics of interpersonal networks.

COM 474 Communication, Conflict, and Cooperation (5) VLPA/I&S Role of communication in resolving informal conflicts and in facilitating interpersonal and intergroup cooperation. Review of empirical literature. In-class simulations and exercises.

COM 478 Intercultural Communication (5) I&S Investigates intercultural communication theory and its application for varying levels of human interaction: interpersonal, intergroup, and international.

COM 482 Interpersonal Media (5) I&S Examines the relationships and groups formed through digital social media. Focuses on how people manage interactions and identities, develop interpersonal relationships, engage in collaboration and conflict, and develop communities in online environments. Involves both the study and use of network-based computer-mediated systems.

COM 483 Communication Approaches to the Study of War (5) I&S/VLPA

COM 484 Cultural Codes in Communication (5) VLPA/I&S Social and cultural codes in interpersonal communication, with special reference to contemporary American subcultural groups and their communication patterns.

COM 485 Fieldwork in Communication Studies (5) VLPA/I&S Theory and practice of participant observation, intensive interviewing, and discourse analysis in the study of communicative practices. Prerequisite: COM 484.

COM 486 Communication and Culture in Rome: Study Abroad (12) VLPA/I&S Explores the historical and contemporary connections between Rome culture and communication. Through intensive fieldwork abroad, students acquire skills of observation and understanding that can be applied to navigate intercultural experiences and reflect on their influence on various interactions.

COM 487 Representing Latinidad: Chicanxs and Latinxs in the Media (5) DIV *Carmen Gonzalez, Andrea Otanez* Class focuses on a critical analysis of dominant/indie media texts to understand how Chicanxs, specifically, and Latinxs, generally, have been represented and represent themselves in mass media through time. As we examine representations, we will ask what representations have stayed the same, changed and why it matters to cultural critics and media scholars.

COM 488 Race, Gender, and Power in Asian American Media (5) I&S, DIV Examines the cultural, political, and social facets of Asian American media since 1915 within such key issues as racial and sexist stereotypes, white privilege and hegemony, identity, and agency and empowerment. Informed by critical theories of race and ethnicity.

COM 489 Black Cultural Studies (5) I&S Examines how images of blackness have been (re) constructed through identity formation and entrenched inequality. Topics include black women's bodies, black men's bodies, blackface minstrelsy, black queer studies, black power, and black hybridities. Offered: jointly with AES 489/GWSS 489.

COM 490 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S, DIV Joeseeph Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with AES 490/GWSS 486.

COM 492 Study Abroad: Communication III (1-10, max. 15) Communication courses taken through a UW approved study abroad program. Content varies and must be individually evaluated. Recommended: COM 200.

COM 494 Careers in Communication (1) Helps students prepare for careers in communication. Focuses on identification of key skills, creating an effective resume, articulating interests and experience, doing informational interviews, and creating a professional-style web profile and website. Credit/no-credit only.

COM 495 Special Topics in Communication (2-5, max. 15) Lecture, seminar, and/or team study. Topics vary.

COM 496 Honors Seminar (5) VLPA/I&S Preparation for researching and writing senior honors thesis.

COM 497 Honors Thesis (1-15, max. 15) VLPA/I&S Researching and writing honors thesis.

COM 498 Independent Research (1-5, max. 10) Work on research projects designed and conducted by undergraduate students.

COM 499 Directed Research (1-5, max. 10) Work on research projects designed by faculty members.

COM 500 Communication Theory Development (5) Covers the philosophy behind theory development, discusses the basic components of theories, and

reviews significant theoretical contributions in communication from social scientific and humanistic traditions. Introduces students to the process of conceptualization and theory design through reading and discussion of relevant bodies of communication scholarship.

COM 501 Methods of Inquiry (5) Overviews some of the most important methods of inquiry used to investigate communication phenomena. Includes textual criticism, content analysis, ethnography, experimentation, survey research, and historical approaches. Explores the utility of different methods for investigating research topics, defining and measuring concepts, reading texts, and investigating theories.

COM 502 Communication Scholarship and Public Life (5) Examines potential connections between communication scholarship and government, markets, civil society, and the general public.

COM 511 Content Analysis (5) Content analysis as a technique for making inferences from texts. Includes quantitative, qualitative, and computer-assisted approaches to analysis.

COM 512 Critical, Social, and Practice-Based Approaches (5) Explores approaches to communication research developed from understandings of human communication as inherently social, grounded in tool-mediated action, and interwoven with power relations. Covers a range of theories that are associated with these approaches, and the implications of these theories for methods of data collection and analysis.

COM 513 Fieldwork Research Methods (5-, max. 10) Methods of fieldwork research in communication studies, with emphasis on participant observation, ethnography, and discourse analysis.

COM 514 Critical Discourse Analysis (5) VLPA Introduction to systematic analysis of linguistic and visual discourse in face-to-face and mediated talk and texts; critical examination of the reproduction of power, control, and ideology through linguistic and related semiotic practices of everyday life.

COM 515 Rhetorical Criticism (5) History and method of rhetorical criticism. Application of critical standards to various rhetorical artifacts.

COM 517 Survey Research (5) Faculty-directed project in survey research in which basic principles of survey design, including sampling, observation, measurement, data analysis, and data interpretation, are all applied. Prerequisite: elementary statistics or permission of instructor.

COM 518 Cultural Studies Methods (5) Explores the history and methods of cultural studies. Introduces major debates in the field. Applies cultural studies methods to various artifacts.

COM 519 Visual Cultural Studies Methods (5) Explores the history and methods of visual culture. Introduces major debates in the field. Applies visual cultural studies methods to various artifacts.

COM 520 Statistical Methods in Communication (5) Reviews the steps taken in social scientific research on communication, with emphasis on the conceptualization, operationalization, and analysis of quantifiable variables. Highlights understanding of computer application of univariate and bivariate statistics, focusing on both parametric and nonparametric tests.

COM 521 Advanced Statistical Methods in Communication (4) Discusses complexities in quantitative research on communication. Focus on multivariate data design and analysis, including multiple and logistic regression, ANOVA and MANOVA, and factor analysis. Prerequisite: COM 520.

COM 527 Global Communication Research Methods (5) Methodological issues particular to the design or analysis of research that deals with data from different countries, cultures, or sub-cultures. Prerequisite: COM 501 or equivalent.

COM 528 Designing Internet Research (5) Focuses on designing Internet research, assessing the adaptation of proven methods to Internet tools and environments, and developing new methods in view of particular capacities and characteristics of Internet applications. Legal and ethical aspects of Internet research receive ongoing consideration.

COM 529 Research Strategy and Business Practice (5) Empowers students to resolve business debates with empirical findings. Students learn to match research method to question, design valid

instruments of data collection, use software to test significance of differences, construct graphs following principles of infosthetics, and ensure persuasiveness of data by defending against common research criticisms.

COM 530 Philosophical Issues in Rhetorical and Communication Theory (5) Survey of selected philosophical controversies among speech communication theorists, and analysis of one philosopher's approach to communication. Topics include paradigm descriptions of communication, rhetoric and knowledge, linguistic analysis and communication, hermeneutics and dialogue.

COM 531 Rhetoric in Society (5) Selected works of major rhetorical theorists such as Aristotle, Cicero, Augustine, Campbell, Whately, Perelman, and Burke. Examines how rhetorical themes are responsive to and symptomatic of societal conditions and values.

COM 532 Classical Rhetoric (5) Development of the classical tradition in rhetorical theory, criticism, and pedagogy from the sophists to Augustine; analysis of the contributions of major figures and works to that tradition.

COM 534 Studies in Contemporary Rhetoric (5) Critical analysis of theories of twentieth-century rhetoric.

COM 538 Theories of Communication Technologies (5) *B. Hill, K. Pearce* Provides a theoretical foundation for study in the area of communication technology by examining different theories of the social, political, and cultural implications of technological change. Takes a broad view of theories of communication innovations, tools, and technologies. Offered: A.

COM 539 Theories of Technology and Society (5) Provides an theoretical foundation for study in the area of communication technology and society by examining different contemporary theories of the social, political, and cultural implications of technological change. Takes a broad view of theories of communication innovations, tools, and technologies - including historical, critical, and comparative approaches.

COM 540 The Rhetoric of Science (5) Examines selected topics in the rhetoric of science,

underscoring the interplay of language, situation, culture, and prior tradition in the quest for exact knowledge of the natural world. Scrutinizes scientific communication in intradisciplinary, interdisciplinary, and extradisciplinary contexts.

COM 548 Economics of Digital Communication (5)

Critically examines the impact of the Internet and digital technologies on the economy. Focus includes third world countries as well as the United States and other industrialized countries.

COM 551 Political Communication (5)

Surveys classic works and new directions in political communication, including functionalist, structuralist, constructivist, network, and comparative approaches, reflecting a range of methods. Examines political organizing, electoral and legislative processes, civic (dis) engagement, media and politics, public deliberation and opinion formation, political identity and discourse. Offered: jointly with POL S 551.

COM 552 Social Construction of News (5)

Examines social, political, economic, technological, and cultural influences on the news. Identifies constraints on journalists and explores how those constraints shape the news and information that journalists and media organizations produce.

COM 553 Public Opinion and Communication (5)

Conceptual and methodological approaches to public opinion and communication as historical and behavioral phenomena. United States and international perspectives.

COM 562 International Communication Systems (5)

International communications and contemporary issues that affect the functioning of global communication systems. Interdisciplinary focus.

COM 563 Black Cultural Studies (5)

Takes a critical approach to studying media representations of blackness. Drawing upon traditions in African studies and cultural studies, students engage through theory and practice by presenting on academic works, historicizing events, and unpacking cultural texts.

COM 564 Media, Myth, and Ritual (5)

Examines the way media operate in a secular society with many of the characteristics that traditionally have been imputed to spirituality and religion. Analyzes media's

mythological and ritualistic function in society by taking an interdisciplinary approach informed by religious studies, cultural studies, journalism, and communication theory.

COM 565 Mass Media Structure (5)

Research on the structural aspects of mass communication.

COM 567 Gender, Race, and Communication (5)

Analysis of the role of media in the construction of reality, production processes, and their influence on media representation of women and people of color. Offered: jointly with GWSS 589.

COM 568 Mobile Communication and Digital Media (5)

Explores impact of mobile technology on social, political, civic, and business spheres. Strategizes how to make "mobile" an integrated part of a broader media strategy.

COM 569 Communication Strategies in Virtual Worlds and Games (5)

Analyzes potential configurations made possible by interactivity and simulation in virtual worlds and games. Explores applications of this communication medium to education, literacy, and business.

COM 570 Organizational Communication (5)

Examination of social scientific theory and research on communication in organizations. Topics include quantitative and qualitative approaches to process of organizational communication, function and structure of macro networks, superior-subordinate relationships, and the role of communication in organizational change, development, and effectiveness.

COM 571 Theories of Technology and Society (5)

Provides a theoretical foundation for study in the area of communication technology and society by examining different contemporary theories of the social, political, and cultural implications of technological change. Takes a broad view of theories of communication innovations, tools, and technologies - including historical, critical, and comparative approaches.

COM 576 Interpersonal Communication (5)

Social scientific research and theory on the role of communication in developing and maintaining interpersonal relationships. Nature of interpersonal communication, relationship change processes,

interpersonal control through communication, and personal communication networks.

COM 577 Communication in Small Groups (5)

Reviews major small group communication theories and the history of research on small groups. Topics include structuration, democratic decision making, symbolic convergence, and the influence of personality, gender, and ethnicity on group communication. Involves students in original research projects on communication in small group settings.

COM 578 Intercultural Communications (5)

Manusov, Rivenburgh Focuses on the nature of communication between different cultures, including the processes as they occur on sojourns, immigration, negotiations, and conversations across national boundaries. Specific topics include identity formation and expression, intercultural relationships, stereotyping, prejudice, and group affiliation.

COM 580 Nonverbal Communication (5) Reviews primary theories and research on nonverbal communication. Focus on developmental and social aspects of nonverbal cues, including review of communicative functions served by nonverbal channels. Topics include paralinguistic systems, relational messages, deception, acquisition of cue use, and emotional expression. Emphasizes research methods and influences of culture and context.

COM 581 Social Production and Distribution of Digital Content (5) Explores theoretical and applied analysis of "user-generated" digital and distribution, as well as their economic cultural impact. Examines specific issues related to monetization and messaging, particularly in storytelling, advertising, campaigning, advocacy, and entertainment.

COM 583 Multimedia Storytelling (5, max. 15) Uses videos, photos, audio, and text to communicate through narratives that can be accessed by a worldwide audience via social media distribution.

COM 584 Ways of Speaking (5) Theory and literature of the ethnography of communication, with special emphasis on the descriptive-comparative approach to culturally patterned styles of communicative conduct. Offered: jointly with ANTH 584.

COM 587 Business Fundamentals in Digital Communications (5) Focuses on business fundamentals within digital communications. Covers marketing and sales; finance and accounting (including ROI) ; and implementation. Students apply what they learn by building a business plan to gain understanding of the underlying issues facing business to develop relevant strategies and tactics in order to leverage the opportunities and challenges that digital media presents.

COM 589 Ethics and Policy Positions for Communicating Across Local and Global Networks (5) Examines the legal, social, political, and policy environments of digital media laws, policies, and ethics around the world. Offers a comparative perspective, which prepares digital media managers to expand into other markets outside their home bases.

COM 590 Selected Readings (1-5, max. 10) Selected readings assigned by faculty.

COM 591 Independent Research (1-5, max. 10) Research projects designed and led by students with faculty supervision.

COM 592 Directed Research (1-5, max. 10) Student participation in faculty-directed research projects.

COM 593 Communication Internship (1-5, max. 15) Provides students an opportunity to connect their scholarship with communities outside academia by engaging in a project that uses communication theory to inform practical work.

COM 594 Professional Proseminar (1, max. 6) Helps students develop a range of professional competencies. Focuses on a particular topic such as computer-assisted research, technology in the classroom, obtaining funding for research, writing for academic publication, career choices after graduate school, and ethics in research and teaching.

COM 596 Communication Pedagogy (1, max. 3) Development of effective teaching and professional skills. Emphasizes interactive teaching, leading discussions, lecturing, planning courses, evaluating resource materials, grading and evaluation, teaching philosophies, and effective classroom management and communications. Required of all graduate

students who accept teaching assistantships.
Credit/no-credit only.

COM 597 Special Topics in Communication (3-5, max. 35)

COM 600 Independent Study or Research Project (*-) Prerequisite: permission of Supervisory Committee chairperson. Credit/no-credit only.

COM 700 Master's Thesis (*-)

COM 800 Doctoral Dissertation (*-)

COMMUNICATION LEADERSHIP

COMMLD 501 Leadership and Communities (2) Considers leadership scholarship, models of communication, and connecting to communities and networks in new forms of outreach and meaningful engagement. Credit/no-credit only. Offered: A.

COMMLD 502 Narratives and Networks (3) Key discussions on communication and organizational narratives facilitated by digital media and emerging technologies. Explores methods of creating powerful communication networked tools for organizations. Students create their own communication projects. Credit/no-credit only. Offered: Sp.

COMMLD 503 Communication and Leadership Practicum (1-5, max. 10) Students apply theoretical knowledge acquired in the communication leadership program to solve the challenges of real-life organizations. Students also engage with and understand the uses of course concepts in contemporary professional practice. Recommended: COMMLD 501. Offered: Sp.

COMMLD 510 Topics in Content Strategy and User Experience (1-5, max. 15) Focuses on a variety of topics in content strategy and UX. Specific topics vary. Offered: AWSpS.

COMMLD 511 Introduction to User Centered Design (5) Focuses on applied user-centered design methodologies, with the center of the course user research. Students analyze existing interfaces across desktop and mobile platforms and review tools and theories that guide user experience designers in their practice.

COMMLD 512 User Research and UX Strategies (5) Design, implementation, and evaluation of user interfaces from a usability perspective. Students will have portfolio-ready and end-to-end work examples to demonstrate they can understand basic principles of user interface design, implementation, and evaluation and design and conduct usability studies.

COMMLD 513 Content Marketing (5) Approach and implementation of marketing programs that create impactful campaigns and adaptable content for a variety of channels and platforms. Focus on building brand storytelling, effective messaging, and models for optimizing and measuring digital marketing. Offered: WSp.

COMMLD 514 Multi-Platform Content Strategy (5) Examines the framework of social media applications. Introduces terminology, history, and evolution of website development and content management systems; elements of effective website design; and project management techniques needed to organize digital assets, allocate resources, and meet deadlines. Students gain a solid understanding of legacy and emerging technologies.

COMMLD 515 Advanced User Design (5) Focuses on the advanced design, implementation, and evaluation of user interfaces from a usability perspective. Includes user-design research strategies and various methods for evaluating user interfaces. Practices skills with broader application to address the solve usability issues through user research and applying human computer interface conventions.

COMMLD 516 Advanced Content Strategy: Creation, Curation, and Optimization (5) Covers writing for the web and search engine optimization techniques. Explores the integration of social hooks, APIs, and introductory web programming. Students work to produce or redesign a website, complete with content plan, audience analysis and assumptions, and promotion plan.

COMMLD 517 The Psychology of User Experience (5) Psychological constrictions of attention, perception, memory, disposition, motivation, and social influence that determine whether customers are receptive to their digital innovations. Includes psychological theory, digital innovations, understanding the human context of digital ventures, and ethical differences between alignment

and meeting needs vs. exploitation and unsustainable design approaches. Offered: AWSpS.

COMMLD 520 Topics in Marketing (1-5, max. 15)

Focuses on a variety of topics that explores professional marketing practices. Specific topics vary. Offered: AWSpS.

COMMLD 521 Digital Media Branding and Marketing (5)

B. Marr Critically examines the role of advertising, marketing, and other promotional efforts in establishing the branding of digital media companies. By using communication theory to analyze successful cases of established and start-up digital media companies, participants identify practicable and effective strategies for brand building and enhancement. Offered: W.

COMMLD 522 The Future of Marketing (5)

Robert Salkowitz Technologies shaping marketing, advertising, media, public relations, and communications in the two-to-10 year horizon. Examines marketing through consumer brand marketing (B2C), business to business marketing (B2B), non-profit or non-governmental organization marketing/PR, and small business. Offered: A.

COMMLD 523 Foundations of Branding (5) Brings brand squarely into focus with particular emphasis on its role in creating and engaging communities, triggering passionate evangelism, and driving loyalty across key audiences. Delves into the evolving role of brand as traditional marketing techniques fall by the wayside in the era of savvy consumers and constant communications.

COMMLD 524 Copywriting Fundamentals for Marketing (3)

Carol Schiller Effective and well-tested methods used by professional storytellers to outsell and outrun the constantly changing market. Using a combination of readings, case studies and practical writing assignments students learn the art and science of creating top-performing marketing text.

COMMLD 525 Brand Values and Creativity (5)

Introduces corporate brand values in marketing communications. Includes considering deeply how emotion, story, and marketing message function in a project that resonates with the consumer while also reinforcing a company's belief system. Offered: AWSpS.

COMMLD 526 Analytics for Brands: Measuring Marketing Effectiveness (5)

Fundamentals of digital marketing analytics and analytics tools. Focuses on managed channel (Facebook, Twitter, YouTube, etc.) success metrics and KPI tracking, conversation themes, influencer identification, data insights, and listening and monitoring topics. Offered: AWSpS.

COMMLD 528 Programming and Data Science for Communicators (5)

Basic programming and data science tools give students skills to find, access, and synthesize data into information that can be analyzed and acted on. Introduces software to collect and process data to produce numbers, hypothesis tests, tables, and graphical visualizations that answer real questions.

COMMLD 530 Topics in Storytelling (1-5, max. 15)

Focuses on a variety of topics that explores storytelling. Specific topics vary. Offered: AWSpS.

COMMLD 531 Foundations of Video Storytelling (5)

Introduces capture and editing skills to create and distribute video stories. Students study point of view, audience targeting, success criteria, methodology, voice, and production standards.

COMMLD 532 Advanced Video Storytelling (5)

Enables students to create high-value video work with a human-driven focus. Students conceive of, shoot, and edit a short, character-driven film in partnership with a client, consider deeply how story functions, and navigate relational challenges such as building trust with subjects, managing clients, and crafting a compelling narrative from real-life material. Recommended: basic knowledge of technical aspects of video production and editing; previous foundational COMMLD storytelling class or equivalent technical experience. Offered: W.

COMMLD 533 Storytelling for Emergent Platforms (5)

Introduces tools necessary to create immersive (Virtual Reality/Augmented Reality) experiences and web stories. Emerging models paired with the study of technical aspects of story creation and implementation of media production tools and platforms.

COMMLD 534 Visual Storytelling (5)

Robert Salkowitz Provides a solid understanding of the medium of sequential art and visual narrative (aka "comics"), and the practical ability to incorporate

visual storytelling into traditional, digital, and transmedia projects in a variety of entertainment, business, education, social, and journalistic scenarios. Offered: Sp.

COMMLD 535 Foundations of Audio Storytelling (5)

J. Partnow Emphasizes the potential audio storytelling has for broad reach, powerful impact, and building mindset-shifting community around content. Traces its evolution from terrestrial radio to podcasts that educate, entertain, and inspire action. Consideration given to core characteristics of strong storytelling, observed through an auditory filter. Students experiment with designing their own short audio pieces. Offered: W.

COMMLD 536 Intensive Video Storytelling (3) How online media affects storytelling, with emphasis on video. Includes hands-on practice in producing online video stories. Offered: AWSpS.

COMMLD 537 Principles of Storytelling for Organizations, Business, and Movements (5) L.

Kessler Focuses on the art and craft of nonfiction storytelling to communicate ideas and emotion, build relationships and community, promote change, and inspire action. Explores, investigates, and discusses the elements of narrative and looks at examples of nonfiction storytelling across media. Students learn to "think story," to pinpoint, pitch, and gather material for the production of original, compelling, and persuasive content. Offered: W.

COMMLD 540 Topics in Organizational and Professional Communication (1-5, max. 15) Focuses on a variety of topics on organizational and professional communication. Specific topics vary. Offered: AWSpS.

COMMLD 541 Crisis Communication (5) Addresses how the tools of communication influence crisis communication strategies. Identifies key communication issues that must be addressed during an organizational crisis. Examines implementation strategies to engage traditional and social media; digital networks; federal, state, and local lawmakers; external and internal stakeholders; and consumers or constituents. Offered: WS.

COMMLD 542 Distributed and Diverse Teams (5) Students build leadership and communication

effectiveness by working in distributed teams at the global, national, or local levels. Offered: Sp.

COMMLD 543 Leadership Approaches to Equity Initiatives in Organizations (5) Builds skills for learning across difference as organizational change-makers for diversity, equity, and inclusion. Students learn collaboratively to explore interconnections among dimensions of intersectional identities. They also practice self-awareness and expand understanding of the roles of individuals, groups, organizations, and societal structures in making real system change. Offered: WS.

COMMLD 550 Topics in Ethics and Law (1-5, max. 15) Focuses on a variety of topics on law and ethics. Specific topics vary. Offered: AWSpS.

COMMLD 551 The Law and Ethics of Community Building (5) Considers and juxtaposes the legal and ethical realities of community building through a cross-sector approach. Understanding how law and ethics impact how organizations communicate to clients, customers, and constituencies.

COMMLD 558 Law and Policy (5) Examines the existing frameworks that govern how organizations and end users approach free expression, intellectual property, privacy, security, and advertising. Provides students with practical guidance for applying these frameworks to news, entertainment, social media, and digital media environments.

COMMLD 559 Law, Data, and Privacy (5) Explores issues associated with data usage, data collection, sharing user information, and licensing. Focuses on privacy laws, how regulators are approaching advertisers' use of personal information, how organizations attempt to keep data secure, and how intellectual property rights protect data and databases.

COMMLD 560 Topics in Communication and Culture (1-5, max. 15) Focuses on a variety of topics on communication and culture. Specific topics vary. Offered: AWSpS.

COMMLD 561 Qualitative Research in Communities and Organizations (5) *Gerry F Philipsen, Lisa Coutu* Discerning the unique cultural foundations of organizations and communities, based on member interaction and motivation. Students study cultural

values, rules, and symbols as vital resources for promoting successful collaboration within and across groups. Offered: W.

COMMLD 562 Communication for Advocacy (5) B. *Tausch Lapora* Focused on "integrated advocacy," a strategy of communicating advocacy efforts through multiple channels, students will develop an integrated advocacy campaign working for a client. Real-life challenges and needs of clients allow students to apply the integrated advocacy model, build stories around goals and solutions, come up with tactics, and create a campaign to ignite change. Offered: W.

COMMLD 570 Topics in Community and Leadership (1-5, max. 15) Focuses on a variety of topics on community and leadership. Specific topics vary. Offered: AWSpS.

COMMLD 571 Communicating Ideas (5) *Ekin Yasin* How ideas produced by thought leaders in different fields are structured, and what makes these ideas resonate - or not resonate - with audiences. Types of communication techniques thought leaders develop that result in the impact of their ideas in public discussion. Offered: A.

COMMLD 572 Innovation Communities (5) *Benjamin Mako Hill* Techniques firms use to harness the surge of innovation by introducing a "democratized" or "user-centric" innovation paradigm, including how user communities bolster their ability to innovate through specific technological tools and innovative social routines. Examples of how to use communities effectively, both as sources of inspiration and as collaborators.

COMMLD 573 Listening and Leadership (1-5, max. 5) Key listening behaviors as a core leadership attribute. Includes texts related to leadership, overview of eight styles of listening, and interview audio programs. Offered: AWSpS.

COMMLD 580 Topics in Emergent Technologies (1-5, max. 15) Focuses on a variety of topics on emergent technologies. Specific topics vary. Offered: AWSpS.

COMMLD 591 Independent Research (1-5, max. 10) Research projects designed and led by students with

faculty supervision. Credit/no-credit only. Offered: AWSpS.

COMMLD 593 Communication Internship (1-5, max. 15) Provides students an opportunity to connect their scholarship with communities outside academia by engaging in a project that uses communication theory to inform practical work. Credit/no-credit only. Offered: AWSpS.

COMMLD 600 Independent Study or Research (1-10) Intensive independent research project exploring a specific topic in communication leadership. Requires a committee, formal proposal, and public presentation of results. Prerequisite: Completion of a minimum of 50% of degree course work. Credit/no-credit only.

COMPARATIVE HISTORY OF IDEAS

CHID 101 Introduction to the Comparative History of Ideas (2) Provides a methodological, curricular, and intellectual introduction to comparative history of ideas. Teaches the importance of interdisciplinary inquiry in research and provides models for how to formulate, undertake, and present interdisciplinary research projects. Offered: AWSp.

CHID 110 The Question of Human Nature (5) **VLPA/I&S** Considers the relationship between the individual and his/her culture. Traces the evolution of the notion of human nature in Europe and the United States and compares this tradition with representations of the human being from other cultural traditions.

CHID 120 Yoga: Past and Present (5) **VLPA/I&S, DIV** Studies yoga and its history, practice, literature, and politics. From the ancient past to modern yoga, studies essential texts and ideas, as well as the effects of class, religion, gender, nationalism, development, Marxism, colonialism, and physical culture on yoga. Offered: jointly with RELIG 120; A.

CHID 205 Method, Imagination, and Inquiry (5) **VLPA** Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with ENGL 205.

CHID 206 Violence and Contemporary Thought (5) I&S, DIV Nicolaas P. Barr Modern and contemporary ideas about violence and their emergence as intellectual responses to historical events. Topics may include histories of physical violence, such as slavery, colonialism, or the Holocaust, as well as structural forms of violence. Offered: jointly with JEW ST 206; A.

CHID 207 Introduction to Intellectual History (5) I&S Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community," from Plato to Freud. Offered: jointly with HSTCMP 207.

CHID 210 The Idea of the University: Ways of Learning, Exploring, and Knowing (5) I&S Considers different ways of learning, exploring, and knowing in the context of the historical development, social context, and impact of universities in general and of the University of Washington in particular. Includes reflective workshops on choosing areas of study (majors) in collaboration with Undergraduate Advising.

CHID 222 BioFutures (5) I&S/NW Explores key legal, ethical, cultural, scientific, and commercial aspects of the rapidly changing world of biotechnology and bioinformatics. Specifically asks how new discoveries in biology encourage us to rethink issues of ownership, communication, geography, identity, and artistic practice.

CHID 230 Introduction to Disability Studies (5) I&S, DIV J. WOIAK Introduces the field of disability studies. Focuses on the theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in the framing of disability. Offered: jointly with DIS ST 230/LSJ 230.

CHID 235 Representations of Disability in Popular Culture (5) I&S, DIV Social construction of 'disability' reflected in and shaped by popular culture. Examples from sports coverage, film, television, fashion, and art both by and about disabled people. Ways in which disability representations in the media reify, problematize, and/or challenge marginalization of this social status. Offered: jointly with DIS ST 235/SOC 235.

CHID 250 Special Topics: Introduction to the History of Ideas (5, max. 15) I&S Examines a different subject or problem from a comparative framework. Satisfies the Gateways major/minor requirement. Offered: AWSp.

CHID 260 Re-Thinking Diversity (5) I&S, DIV Bushnell Considers the notion of diversity from many scholarly perspectives and from personal engagements. Critically engages historical thinking about diversity and examines contemporary issues such as racism, sexism, and the cultural politics of difference.

CHID 270 Special Topics (5, max. 15) I&S Each special topics course examines a different subject or problem from a comparative framework.

CHID 280 Indigenous Encounters: Politics, Culture, and Representation in Latin America (5) I&S, DIV Garcia Explores the contemporary cultural and political transformations advanced by indigenous groups and their advocates in Latin America. Examines the concept of indigeneity, the cultural politics of indigenous mobilization, and the effects of international development policies on indigenous communities. Offered: jointly with JSIS A 280.

CHID 298 Pre-Departure Seminars (2) I&S Prepares students to participate in CHID international programs. Prerequisite: students must be accepted to an international program prior to registration. Credit/no-credit only. Offered: AWSpS.

CHID 309 Marx and the Marxian Tradition in Western Thought: The Foundations of Modern Cultural Criticism I (5) I&S Critically examines the formation of modern Western culture, politics, and society through an historical analysis of the work of Karl Marx and the thinkers, artists, and activists who assimilated and transformed Marxian concepts from the late nineteenth century to the present. Offered: jointly with HSTCMP 309.

CHID 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S Genesis and evolution of Freudian theory in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis in British, French, and especially

American cultural traditions. Offered: jointly with HSTCMP 314.

CHID 319 Nietzsche and the Nietzschean Legacy in Western Thought: Foundations of Modern Cultural Critique II (5) I&S Critically examines the formation of modern Western politics, society, and cultures through a historical analysis of the thought of Friedrich Nietzsche and the thinkers, artists, and activists who assimilated and transformed the Nietzschean perspective during the twentieth century. Offered: jointly with HSTCMP 319.

CHID 332 Disability and Society (5, max. 15) I&S Concentrates on contemporary issues in disability studies, focusing on the thematic frameworks of rights, identities, values, and science/medicine. Offered: jointly with DIS ST 332/LSJ 332.

CHID 335 Sex, Gender, and Disability (5) I&S, DIV Examines ways that disability, sex, and gender are connected as socially constructed categories. Topics include the ways in which the sexuality of people with disabilities is experienced and represented, the intersection of disability and gender inequality, and how the field of disability studies relates to and can transform other theoretical approaches to gender and sex. Offered: jointly with DIS ST 335/GWSS 335.

CHID 337 Social Construction of Madness and Mental Health in the United States (5) I&S The construct of "mental health" and mental "un-health" from a sociological perspective. How categories such as mental illness, intellectual and developmental disability, cognitive impairment, and Mad Studies developed in the United States. Offered: jointly with DIS ST 337/SOC 337.

CHID 350 Women in Law and Literature (5) I&S/VLPA, DIV Representations of women in American law and literature. Considers how women's political status and social roles have influenced legal and literary accounts of their behavior. Examines how legal cases and issues involving women are represented in literary texts and also how law can influence literary expression. Offered: jointly with GWSS 350.

CHID 370 The Cultural Impact of Information Technology (5) VLPA/I&S Utilizing approaches from the history of technology, cultural studies, and literary theory, seeks to analyze the cultural and

social impact of information technology. Considers how information technologies impact our relationships with others, our concept(s) of self, and the structure of the communities to which we belong. Offered: jointly with COM 302.

CHID 380 Theories In the Study of Religion (5) I&S C. *NOVETZKE, J. WELLMAN* Provides a variety of approaches to the study of religion centered on examining the relationship between religion and modernity in the tradition of post-enlightenment, Euro-American scholarship. Examines theories of religion across disciplines: history, anthropology, sociology, Marxism, feminism, postmodernism, political theology, and Freudian psycho-analytical theory. Offered: jointly with RELIG 380.

CHID 390 Colloquium in the History of Ideas (5) I&S *Phillip S Thurtle* Investigates the theoretical and practical problems of interpretation and knowledge production in a topic chosen by the instructor. Primarily for majors. Prerequisite: CHID 101.

CHID 395 Interdisciplinary Praxis Lab (5) Phillip S Thurtle, MariaElena Garcia, Caroline C Simpson As preparation for senior thesis work, introduces the importance of reflection combined with research methods in the form of a research praxis. Prerequisite: CHID 390. Offered: ASP.

CHID 399 Internship (5, max. 10) Off-campus engagement with a local, national, or international organization, in an apprenticeship or internship capacity. Supervised by on-site field supervisor and Comparative History of Ideas faculty member.

CHID 417 Enter the Dragon: Seminar on World Cultures through the Asian Martial Arts (5) I&S *Novetzke* Examines how the martial arts have preserved religious, cultural, and philosophical aspects of the world areas of their origin, as well as the new cultures and international communities that have adopted and reinvented their practices and philosophies, including India, China, Japan, Korea, Brazil, and Euro-America. Offered: jointly with JSIS B 417.

CHID 419 Disability in the Arts (5) I&S/VLPA, DIV Examines how the expressive capacities of the arts capture, complicate, and transform the experience of disability. Recommended: DIS ST 230, LSJ 230, or CHID 230. Offered: jointly with DIS ST 419.

CHID 430 Topics in Disability Studies (1-5, max. 15)

I&S Theoretical, critical, analytical, or comparative examination of an issue or issues in Disability Studies. Topics vary. Prerequisite: either DIS ST/CHID/LSJ 230, DIS ST 332, DIS ST 433, or DIS ST 434. Offered: jointly with DIS ST 430/LSJ 430.

CHID 433 Disability Law, Policy, and the Community

(5) I&S, DIV Addresses the history of legal rights of disabled people, U. S. disability policy, and the role of community activism and other forces in policy development and systems change. Introduces the existing social service system that affects disabled people. Offered: jointly with DIS ST 433/LSJ 433.

CHID 434 Civil and Human Rights Law for Disabled

People (5) I&S, DIV *Brown* Expands knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Offered: jointly with DIS ST 434/LSJ 434; A.

CHID 437 Crime, Law, and Mental Illness (5) I&S,

DIV Explores experiences of those with mental illness in the criminal justice system and involuntary civil commitment system. Emphasis on societal responses including the emergence of therapeutic courts and specialized police training. Examines how courts, legislature, and communities balance public safety and civil liberties. Offered: jointly with DIS ST 437/LSJ 437.

CHID 442 Roma Eterna (5) VLPA/I&S Explores the historical layers of meaning in the artifacts and monuments of Rome to reflect on its transformation over time as a symbol of the human aspiration for both temporal order and spiritual and aesthetic transcendence. Specific periods considered for reading and daily site visits include Ancient Rome; Imperial Rome; Medieval Rome, Renaissance Rome; Baroque Rome; Romanticism, The Grand Tour and the Risorgimento; and Fascist Rome.

CHID 444 Eye and Mind (5) VLPA/I&S/NW P.

THURTL Investigates life as an emergent phenomenon across the disciplines of biophilosophy, art, art history, literary criticism, and information studies with an emphasis on interdisciplinary methods. Addresses key issues in phenomenology,

social theory, contemporary bioart, and complexity studies.

CHID 459 Narrative Journalism (5) VLPA/I&S

Introduces the rigorous reporting and literary writing techniques of narrative journalism. Concentrates on producing nonfiction narrative articles for publication. Offered: jointly with COM 459.

CHID 461 Democracy and Development in Central and Eastern Europe: Study Abroad (5) I&S

Smith Examines the relationship between democratization, economic development, and social transformation in Central and Eastern Europe. Offered on CHID study abroad programs in Central and Eastern Europe. Offered: ASpS.

CHID 470 CHID Study Abroad (1-5, max. 15) I&S

For participants in study-abroad program. Specific course content varies.

CHID 471 Europe Study Abroad (5, max. 15) I&S

For participants in study-abroad program. Specific course content varies.

CHID 472 Latin America Study Abroad (5, max. 15)

I&S For participants in study-abroad program. Specific course content varies.

CHID 473 Africa Study Abroad (5, max. 15) I&S

For participants in study-abroad program. Specific course content varies.

CHID 474 Asia Study Abroad (5, max. 15) I&S

For participants in study-abroad program. Specific course content varies.

CHID 475 East Asia Study Abroad (5, max. 15) I&S

For participants in study-abroad program. Specific course content varies.

CHID 476 South Pacific Study Abroad (5, max. 15)

I&S For participants in study-abroad program. Specific course content varies.

CHID 477 Middle East Study Abroad (5, max. 15) I&S

For participants in study-abroad program. Specific course content varies.

CHID 480 Special Topics: Advanced Study of the History of Ideas (5, max. 15) I&S

Examines a

different subject or problem from a comparative framework with an interdisciplinary perspective. Satisfies the Gateways major/minor requirement. Offered: AWP.

CHID 484 Colonial Encounters (5) I&S History of European colonialism from the 1750s to the present, with an emphasis on British and French colonial encounters. Offered: jointly with HSTCMP 484.

CHID 485 Comparative Colonialism (5) I&S, DIV *Vicente L. Rafael* Explores the historic roots and practices of colonialism throughout the world, focusing on the roles of nationalism, cosmopolitanism, and imperial domination. Treats colonialism as a world event whose effects continue to be felt and whose power needs to be addressed. Offered: jointly with HSTCMP 485.

CHID 487 Culture, Politics, and Violence in Latin America (5) I&S, DIV *Garcia* Examines notions of "otherness" and the power to label as central to understanding inequality, human rights, and social struggle. Uses academic texts, films, documentaries, historical fiction, plays, and testimonials to interrogate the complexities of violence and social justice in Latin America, one of the most unequal regions in the world. Offered: jointly with JSIS A 485.

CHID 488 Encountering Animals: Ethics, Culture, and Politics (5) I&S, DIV *Garcia* Explores some ethical, political, and cultural questions regarding non-human animals and invites student to engage in debates about companion animals, the industrial food complex, zoos, and links between race, class, gender, sexuality, and species.

CHID 490 Research Seminar (5) VLPA/I&S Intensive readings in specific topic. Students complete individual research projects. Satisfies the CHID senior thesis requirement for students who declared the CHID major prior to Summer 2014. Prerequisite: CHID 390.

CHID 491 Senior Thesis (5-) I&S Critical and methodological issues. Required of candidates for an Honors degree. Prerequisite: CHID 390.

CHID 492 Senior Thesis (-5-) I&S Critical and methodological issues. Required of candidates for an Honors degree.

CHID 493 Senior Thesis (-5) I&S Research and writing of thesis under supervision of a faculty member. Required of candidates for an Honors degree.

CHID 495 Close Readings in Theory (1-5, max. 15) I&S Close readings of a specific work, author, artist, or body of work.

CHID 496 Focus Groups (1-2, max. 4) Credit/no-credit only.

CHID 497 Peer Facilitators (5, max. 20)

CHID 498 Special Colloquia (1-5, max. 20) I&S Each colloquium examines a different subject or problem from a comparative framework.

CHID 499 Undergraduate Independent Study or Research (1-5, max. 10) Supervised independent study for students who wish to pursue topics not available in regular course offerings.

DANCE

DANCE 100 Understanding Dance (5) VLPA Introduces the aesthetics and creative processes in dance and choreography. Pays attention to how dance is practiced in social arenas, popular entertainment, and concert settings. Includes independent field trips to local dance settings. Offered: AWP.

DANCE 101 Dance and the American Experience (5) VLPA Investigates shared, conflicting, and shifting notions of the "American experience" as expressed in 20/21st century American dance. Investigates real, imagined, and idealized portrayals of the American experience as enacted on the concert stage, in film, and on television. Engages students in critical discourse on issues of identity in American society. Offered: AWP.

DANCE 102 Introduction to Contemporary Modern Dance (2-3, max. 6) VLPA Introduces contemporary approaches to Western modern concert dance. Primarily studio-based course. Includes attendance at outside events. Offered: AWP.

DANCE 103 Introduction to Ballet (2-5, max. 10) VLPA Introduces ballet as a movement art form.

Studio course focusing on movement skill acquisition. Includes attendance at outside events.

DANCE 104 Beginning Contemporary Modern Technique (2/3, max. 20) VLPA Beginning-level technique. Development of basic contemporary modern dance movement. Prerequisite: DANCE 102. Offered: A.

DANCE 105 Beginning Contemporary Modern Technique (2/3, max. 20) VLPA Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: either DANCE 102, DANCE 104, or DANCE 106. Offered: W.

DANCE 106 Beginning Contemporary Modern Technique (2/3, max. 20) VLPA Beginning-level technique. Development of basic modern dance movement and terminology. Prerequisite: either DANCE 102, DANCE 104, or DANCE 105. Offered: Sp.

DANCE 107 Beginning Ballet (2/3, max. 20) VLPA Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: DANCE 103. Offered: A.

DANCE 108 Beginning Ballet (2/3, max. 20) VLPA Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: either DANCE 103, DANCE 107, or DANCE 109. Offered: W.

DANCE 109 Beginning Ballet (2/3, max. 20) VLPA Beginning-level technique. Development of basic ballet technique and terminology. Prerequisite: DANCE 108. Offered: Sp.

DANCE 110 Jazz Technique I (1-4, max. 8) VLPA Introduction to jazz technique.

DANCE 111 Jazz Technique I (1-4, max. 8) VLPA Introduction to jazz technique. Prerequisite: one of DANCE 103, DANCE 110, or DANCE 112. Offered: W.

DANCE 112 Jazz Technique I (1-4, max. 8) VLPA Introduction to jazz technique. Prerequisite: one of DANCE 103, DANCE 110, or DANCE 111. Offered: Sp.

DANCE 125 Beginning Tap (2-3, max. 12) VLPA Introduction to tap technique. Prerequisite: DANCE 110, or DANCE 111, or DANCE 112. Offered: AWSp.

DANCE 156 Introduction to Dance (4, max. 8) VLPA Introductory studio experience in several dance forms. May include (alphabetical order) ballet, composition, contemporary ballet, improvisation, modern, street and club dance styles, as well as other forms. Offered: S.

DANCE 166 Dance Composition I (5) VLPA Introduction to the principles of dance composition through improvisation.

DANCE 201 Intermediate Contemporary Ballet Technique (2/3, max. 20) VLPA Intermediate level. Expansion of ballet vocabulary. Refinement of movement skills and musicality. Prerequisite: DANCE 109. Offered: A.

DANCE 202 Intermediate Contemporary Ballet (2/3, max. 20) VLPA Intermediate level. Expansion of ballet vocabulary. Refinement of movement skills and musicality. Prerequisite: DANCE 201. Offered: W.

DANCE 203 Intermediate Contemporary Ballet (2/3, max. 20) VLPA Intermediate level. Expansion of ballet vocabulary. Refinement of movement skills and musicality. Prerequisite: DANCE 202. Offered: Sp.

DANCE 204 Intermediate Contemporary Modern Technique (2/3, max. 20) VLPA Intermediate level technique. Continued development of all beginning areas and expansion of movement vocabulary and dynamic range. Prerequisite: either DANCE 104, DANCE 105, DANCE 106, DANCE 205, or DANCE 206. Offered: A.

DANCE 205 Intermediate Contemporary Modern Technique (2/3, max. 20) VLPA Intermediate level technique. Continued development of all beginning areas and expansion of movement vocabulary and dynamic range. Prerequisite: either DANCE 104, DANCE 105, DANCE 106, DANCE 204, or DANCE 206. Offered: W.

DANCE 206 Intermediate Contemporary Modern Technique (2/3, max. 20) VLPA Intermediate level technique. Continued development of all beginning areas and expansion of movement vocabulary and dynamic range. Prerequisite: either DANCE 104, DANCE 105, DANCE 106, DANCE 204 or DANCE 205. Offered: Sp.

DANCE 210 Jazz Technique II (1-4, max. 8) VLPA
Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Prerequisite: DANCE 112, DANCE 210, DANCE 211, or DANCE 212. Offered: A.

DANCE 211 Jazz Technique II (1-4, max. 8) VLPA
Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Prerequisite: DANCE 210, DANCE 211, or DANCE 212. Offered: W.

DANCE 212 Jazz Technique II (1-4, max. 8) VLPA
Intermediate-level jazz technique. Continued development of beginning areas. Expansion of movement vocabulary. Prerequisite: DANCE 210, DANCE 211, or DANCE 212. Offered: Sp.

DANCE 225 Tap Technique II (2-3, max. 12) VLPA
Intermediate-level tap technique. Continued development of beginning areas. Expansion of movement vocabulary. Prerequisite: DANCE 125. Offered: AWSp.

DANCE 230 Alternative Movement Studies (1-3, max. 9) VLPA Introduction to an alternative approach to movement study. Topics vary and may include pilates, yoga, Feldenkrais, or other somatic practices.

DANCE 231 Folk-Social Dance Forms (1-3, max. 12) VLPA Studio course in folk dance and social dance forms. Topics vary, and may include salsa, ballroom, or swing. Prerequisite: one year of previous dance experience.

DANCE 232 Intermediate Alternative Movement Studies (1-3, max. 9) VLPA Study of an alternative approach to movement at the intermediate level. Topics vary and may include pilates, yoga, Feldenkrais, or other somatic practices.

DANCE 233 Advanced Alternative Movement Studies (1-3, max. 9) VLPA Study of an alternative approach to movement at the advanced level. Topics vary and may include pilates, yoga, Feldenkrais, or other somatic practices.

DANCE 234 World Dance and Culture (3/5, max. 11) VLPA/I&S Presents selected dance idioms as they relate to ethnicity in their performance, aesthetics,

and history. Topics vary. May have studio component.

DANCE 235 Integrated Dance: Training and Composition (1-3, max. 9) VLPA/I&S Investigates and explores ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses composition and movement technique utilized by integrated dance. May culminate in performance in faculty dance concert.

DANCE 236 Salsa and Latin Dance (2-3, max. 12) VLPA Juliet McMains Offers instruction in salsa and other Latin dances, including meringue, bachata, and cha cha cha. Students learn both solo (shine) steps and partnered turns. Primarily focuses on studio practice. Includes some reading and writing assignments and an outing to a salsa club.

DANCE 237 Ballroom Dance (2-3, max. 12) VLPA J. MCMAINS Provides instruction in ballroom dances (e.g. waltz, foxtrot, rumba, quickstep, samba, cha cha) . Focuses on American style social dancing with particular attention to techniques for leading and following. Primarily focuses on studio practice. Includes reading and writing assignments, historical/cultural significance of ballroom dance, and an outing to social ballroom dance.

DANCE 238 Swing Dance (2-3, max. 12) VLPA J. MCMAINS Provides instruction in swing dancing. Includes: East Coast Swing, Charleston, Lindy Hop, Balboa, and West Coast Swing. Primarily focuses on studio practice. Uses reading, writing, and other assignments to contextualize the history and social significance of the dances.

DANCE 239 Tango (2-3, max. 12) VLPA J. MCMAINS Provides instruction in tango dancing. Focuses on milogeuero and salon style Argentine tango. Introduces tango Nuevo, tango vals, and milonga. Primarily focuses on studio practice. Includes some reading and writing assignments, introduction to tango dance and music history, and an outing for social dancing.

DANCE 240 Street and Club Dances (2-3, max. 6) I&S/VLPA Studio and lecture/discussion about dances that originated and continue to evolve from Hip Hop culture. Addresses the aesthetic, social, and cultural differences between styles rooted in

clubbing/battling/cyphering/sessioning. Exposes students to legacy of the forms. Offered: A.

DANCE 241 Intermediate Folk and Social Dance Forms (2/3, max. 12) VLPA Studio course in folk dance and social dance forms at the intermediate level of instruction. Topics include salsa and Latin dance, ballroom, tango, or swing dance. Prerequisite: either DANCE 231, DANCE 236, DANCE 237, DANCE 238, or DANCE 239.

DANCE 242 Music in Relation to Dance (3) VLPA Moore Provides students with music skills necessary to the areas of dance pedagogy, performance, choreography, dance analysis/criticism, and production. Includes an introduction to music theory, compositional and rhythmic analysis, music for dance class, and training on music/sound editing equipment. Offered: W.

DANCE 245 Dance Improvisation (2-3, max. 12) VLPA Introduction to Dance Improvisation as a movement practice, a performance technique, and a tool for making choreography. Primary focus on attention and presence as essential components for the improvising artist. Offered: AWSp.

DANCE 250 Cross-Cultural Dance Studies (1-5, max. 8) VLPA/I&S, DIV J. MCMAINS Offers a cross-cultural examination of theatrical, social, and sacred dance forms from different Afro-diasporic, Latin, Asian, American, and European cultures. Students compare how racial, ethnic, national, and gender identity are expressed and contested through specific dance practices. Offered: AW.

DANCE 251 The Creative Process (5) VLPA Salk Explores the creative process of some of the major artists of the last century, with a particular emphasis on dance. Hones critical thinking, analytical skills, and research-based writing. Studio exploration, lectures, and discussions covering approaches to artistic creation, critical thinking, and research. Offered: Sp.

DANCE 266 Dance Composition II (3-5, max. 10) VLPA Dance composition in relation to music. Emphasis on solos and small groups. Prerequisite: DANCE 166. Offered: W.

DANCE 270 Dance Performance Activities (1-3, max. 12) VLPA Bracilano May include performance or

choreography in Dance-program produced concerts under faculty supervision. Credit/no-credit only.

DANCE 271 Dance Production Crew (1-3, max. 12) VLPA Supervised dance crew experience in dance program produced concerts. Credit/no-credit only.

DANCE 275 Diaspora Negra: Afro-Latinx Dance Traditions (3/5, max. 10) I&S/VLPA, DIV Explores dance traditions among various Afro-Latinx cultures, the history, politics and the role of performance in imagining, constructing and projecting identities. Through dance practice, readings and discussions students will investigate participatory vs. presentational performance and dance as a tool for activism within the larger social, political, and cultural contexts in which these traditions emerged, are practiced and continue to evolve. Recommended: at least one quarter of dance technique, or three months of community-based dance classes.

DANCE 280 African Dance Techniques (2-3, max. 18) VLPA Studio instruction in traditional and contemporary dance techniques of Africa and the African diaspora.

DANCE 285 African Dance and Culture (3-5, max. 10) I&S/VLPA, DIV Integrated studio and academic study in specific African dance techniques including the sociohistorical context of their development, dissemination, and current practice.

DANCE 286 Special Topics in Street and Club Dances (2-3, max. 18) VLPA Street Styles, is an umbrella term that is currently used to describe dance forms such as Breaking, Popping, Strutting, Flexin', Tutting, and Locking. Club dance styles are Hip Hop party dances, House, Vogue, and Waacking. Instructors for this course bring one or more dance styles to you in this movement-based technique class. Recommended: One quarter of dance or equivalent dance experience. Offered: AWSpS.

DANCE 287 Capoeira (2-3, max. 9) VLPA Practice-based instruction in the Afro-Brazilian art of capoeira, including movement, music, culture, history.

DANCE 290 Forces and Figures in American Jazz Dance (3) VLPA/I&S Addresses multi-cultural influences that American vernacular dance and

music contributed to the development and presentation of musical theatre, dance, film and stage traditions in American popular entertainment. Examines how the trajectories of the African Diaspora impacted developments in these distinct arenas of the American entertainment industry.

DANCE 295 Creativity as Research: Experimentation and Play (5) VLPA Examines creative research in the arts and the natural overlap with research in other fields. Individual and collaborative projects explore research through the lens of digital art, dance, science, and theater. Offered: jointly with DRAMA 285/DXARTS 295; A.

DANCE 301 Advanced Contemporary Ballet (2/3, max. 20) VLPA Advanced level. Performative skills; alignment and mechanics; phrasing and expressivity. Prerequisite: DANCE 203. Offered: A.

DANCE 302 Advanced Contemporary Ballet (2/3, max. 20) VLPA Advanced level. Performative skills; alignment and mechanics; phrasing and expressivity. Prerequisite: DANCE 301. Offered: W.

DANCE 303 Advanced Contemporary Ballet (2/3, max. 20) VLPA Advanced level. Performative skills; alignment and mechanics; phrasing and expressivity. Prerequisite: DANCE 302. Offered: Sp.

DANCE 304 Advanced Contemporary Modern Technique (2/3, max. 20) VLPA Advanced level technique. Expansion of movement vocabulary and performance skills. Prerequisite: either DANCE 204, DANCE 205, DANCE 206, DANCE 305, or DANCE 306. Offered: A.

DANCE 305 Advanced Contemporary Modern Technique (2/3, max. 20) VLPA Advanced level technique. Expansion of movement vocabulary and performance skills. Prerequisite: either DANCE 204, DANCE 205, DANCE 206, DANCE 304, or DANCE 306. Offered: W.

DANCE 306 Advanced Contemporary Modern Technique (2/3, max. 20) VLPA Advanced level technique. Expansion of movement vocabulary and performance skills. Prerequisite: either DANCE 204, DANCE 205, DANCE 206, DANCE 304, or DANCE 305. Offered: Sp.

DANCE 310 Jazz Technique III (2-3, max. 9) VLPA Advanced-level jazz technique. Styles vary. Prerequisite: DANCE 212. Offered: A.

DANCE 311 Jazz Technique III (2-3, max. 9) VLPA Advanced-level jazz technique. Investigation of jazz styles such as Afro-Caribbean, Luigi, and musical theatre. Prerequisite: DANCE 310. Offered: W.

DANCE 312 Jazz Technique III (2-3, max. 9) VLPA Advanced-level jazz technique. Investigation of jazz styles such as Afro-Caribbean, Luigi, and musical theatre. Prerequisite: either DANCE 310 or DANCE 311. Offered: Sp.

DANCE 324 Partnering Techniques (1-2, max. 6) VLPA Studio course in partnering techniques used in social dance and contemporary dance practices, or classical dance. Prerequisite: intermediate level technique.

DANCE 335 Integrated Dance: History, Methodology, and Praxis (3, max. 9) I&S/VLPA Investigates and practices ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses the history, background, and varying practices of integrated dance.

DANCE 336 Salsa and Latin Dance Techniques II (2-3, max. 9) VLPA *Juliet McMains* Studio course focusing on increasing salsa dance technique and vocabulary for students at the advanced beginning/intermediate level. Students also study history, music, and culture of Afro-Caribbean dance. Prerequisite: DANCE 236; recommended: DANCE 236 or at least 30 hours of salsa instruction and practice.

DANCE 339 Tango II (2-3, max. 12) VLPA *Juliet McMains* Studio instruction in Argentine tango at the advanced-beginning and intermediate levels. Focuses on refining technical skills in leading and following as well as mastering intermediate vocabulary, including giros, sacadas, ganchos, and boleos. Education in tango music and history may also be included. Prerequisite: DANCE 239. Offered: W.

DANCE 344 Topics in Dance History (3-5, max. 10) VLPA/I&S Covers topics in Western theatre dance history from Renaissance court dance through the

twentieth century. Examines developments and stylistic trends in ballet and modern dance in cultural/historical/political context. Includes assigned readings and primary source materials. In-depth analysis of dances on video guides a discussion of form, content, interpretation, and critical reception.

DANCE 345 Contemporary Dance History (3-5) VLPA/I&S J. *SALK* Examines the development of social and performance-based dance from the beginning of the 20th century to the present with particular emphasis on major international stylistic trends, cultural influences, and principal artists and their work.

DANCE 350 Dance/Performance Ethnography (3) VLPA/I&S J. *MCMAINS* Explores theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses primarily on dance. Also discusses methods and theories applicable to other physical practices such as music, theatre, sports, and performance arts. Offered: jointly with ANTH 349.

DANCE 354 Laban Movement Analysis (5) VLPA Introduction to the movement theories of Rudolph Laban and his proteges. Coursework includes effort/shape, space harmony, and an introduction to Labanotation. May include collaboration with other disciplines. Prerequisite: DANCE 166.

DANCE 366 Dance Composition III (3-5, max. 10) VLPA Dance composition in relation to production, including elements of technology. Emphasis on larger group works. Prerequisite: DANCE 166. Offered: Sp.

DANCE 371 Choreographic Workshop (2-5, max. 12) VLPA Performing experience for students in pieces choreographed by faculty members and guest choreographers.

DANCE 380 Intermediate African Dance Techniques (2/3, max. 12) VLPA Studio instruction in traditional and contemporary dance techniques of Africa and the African diaspora. Prerequisite: DANCE 280 or DANCE 285; recommended: at least 3 months of regular African dance classes/practice.

DANCE 410 Chamber Dance Production (3, max. 18) VLPA H. *WILEY* Focuses on the restaging, rehearsal, and performance of significant choreography from the modern dance canon. Readings, viewings, and oral history provide context for works being staged. Culminates in a professional public performance. Credit/no-credit only. Offered: S.

DANCE 414 Dance Research Symposium (1) VLPA J. *MCMAINS* Introduces students to contemporary dance research through lecture series featuring invited guest speakers. Credit/no-credit only.

DANCE 415 Research Methods I (3) VLPA J. *MCMAINS* Surveys theoretical modes of inquiry in current dance scholarship. Offered: Sp.

DANCE 416 Research Methods II (3) VLPA Focuses on designing an original research project, conducting research, and writing a scholarly paper suitable for presentation at an undergraduate research conference. Practice in conference presentation. Prerequisite: DANCE 415. Offered: A.

DANCE 417 Dance Honors Thesis (*, max. 12) VLPA Involves supervised independent research on a specific topic related to a student honors project involving research, writing, performing and/or creative work. Students work with a faculty mentor to design their specific honors thesis work through this course on their way to completing a significant research project in Dance. Offered: AWSp.

DANCE 420 Dance Aesthetics (3) VLPA/I&S *Woody* Philosophical investigation of the expressive elements of dance. Reading and discussion of the concepts of beauty, style, and aesthetic theory.

DANCE 450 Dance Internship (1-6, max. 6) VLPA Supervised internship experiences at pre-approved off-site location in the performing arts/non-for profit arts sectors. Credit/no-credit only. Offered: AWSpS.

DANCE 480 Career Explorations for Dance Majors (3) VLPA H. *Wiley* Dance majors will explore their strengths and interests in real world career options. Includes guest professionals, cover letter and resume development, grant writing and job shadowing. Offered: W.

DANCE 490 Special Studies in Dance (1-5, max. 12)
VLPA Special studies designed to address contemporary and historical concerns in the field of dance.

DANCE 493 Anatomy for Dance (3-5) VLPA/NW H.
WILEY Anatomy of the musculoskeletal system and its applications in dance movement. Offered: A.

DANCE 494 Dance Teaching Methodologies (3-5)
VLPA Jennifer Salk Introduction to dance pedagogy, including educational theory, motor learning, and biomechanical principles and music as it relates to the teaching of dance. Prerequisite: DANCE 242; and DANCE 493, which may be taken concurrently. Offered: W.

DANCE 499 Undergraduate Independent Study (*, max. 10)

DANCE 510 Chamber Dance Production (4, max. 18)
H. Wiley Focuses on the restaging, rehearsal, and performance of significant choreography from the modern dance canon. Readings, viewings, and oral history provide context for works being staged. Culminates in a professional public performance. Credit/no-credit only. Offered: S.

DANCE 514 Dance Research Symposium (1)
McMains Introduces students to contemporary dance research through lecture series featuring invited guest speaker. Credit/no-credit only.

DANCE 515 Dance Research Methods (3) McMains
 Survey of theoretical modes of inquiry in current dance scholarship. Offered: Sp.

DANCE 516 Research Methods II (3) McMains
 Focuses on designing an original research project, conducting research, and writing a scholarly paper suitable for publication in a juried journal or conference presentation. Practice in conference presentation. Offered: S.

DANCE 519 Influential Learning Theories in Dance Practice (2) Readings, discussion, observation, and writing relating to influential learning theories as they pertain to dance.

DANCE 520 Dance in Higher Education (3) Wiley
 Discussion, writing, and observation of dance in higher education. Offered: A.

DANCE 521 Dance Administration (3) Cooper
 Readings and discussion relating to dance administration in college and professional settings. Topics include: curricular development, university governance, development of curriculum vitae and teaching portfolio, preparation for tenure and promotion, and current issues related to dance as a performing art within the university structure.

DANCE 530 Graduate Dance Composition (2, max. 6) Addresses creative process, directing, and critical analysis in dance composition. Alternate years: focus on interdisciplinary collaborative projects. Offered: A.

DANCE 531 MFA Concert Production (3, max. 9)
 Public performance of MFA choreography. On alternate years this is a collaborative concert between MFA choreographers and artists working in another discipline. Offered: Sp.

DANCE 536 Integrated Dance: History, Methodology, and Praxis (3, max. 9) VLPA/I&S Koch
 Investigates and practices ways of teaching and creating dance suitable for diverse participants with a broad range of physical and conceptual abilities. Addresses the history, background and varying practices of integrated dance.

DANCE 544 Topics in Dance History (3-5, max. 10)
Cooper Covers topics in Western theatre dance history from Renaissance court dance through the twentieth century. Examines developments and stylistic trends in ballet and modern dance in cultural/historical/political context. Includes assigned readings and primary source materials. In-depth analysis of dances guides a discussion of form, content, interpretation, and critical reception.

DANCE 545 Contemporary Dance History (3-5) Salk
 Examines the development of social and performance-based dance from the beginning of the twentieth century to the present with particular emphasis on major international stylistic trends, cultural influences, and principal artists and their work.

DANCE 550 Dance Performance Ethnography (3)

McMains Theoretical and practical experience in dance and performance ethnography, ethnology, and oral history. Introduces theories and methods of ethnographic fieldwork, ethnographic writing, and ethnologic analysis. Focuses on dance methods and theories. Also discusses methods and theories applicable to other physical practices such as music, theatre, sports, and performance art. Offered: jointly with ANTH 549; W.

DANCE 570 Dance Production Seminar (3)

Surveys the process of dance production from audition to performance. Managing design, technology, and personnel to support the creative process from conceptual stages to production. Offered: S.

DANCE 580 Dance Teaching and Mentorship (1, max. 2)

Mentorship and guidance for pre-doctoral lecturers. Prepares students for a permanent university faculty position. Offered: S.

DANCE 590 Dance Teaching Methodologies (3-5)

Salk Introduction to dance pedagogy with an emphasis on motor learning skills and biomechanics. Practical teaching experience. Offered: W.

DANCE 595 Master's Project (3) Project in area of interest developed in consultation with faculty adviser and supported by elective courses. Full faculty approval of proposed project by end of first year. Formal presentation, appropriate to project's content, presented to full faculty during second year. Project culminates in the teaching of an undergraduate dance course.

DANCE 600 Independent Study or Research (*-)

DIGITAL ARTS AND EXPERIMENTAL MEDIA

DXARTS 198 Digital Arts Seminar (1-5, max. 10)

VLPA Topics vary and are announced during the preceding quarter. Taught by UW faculty and visiting artists, engineers, scientists, and humanities scholars.

DXARTS 200 Digital Art and New Media: History, Theory, and Practice (5) VLPA

Afroditi Psarra Investigates and illuminates Digital Art and New

Media from a creative, theoretical, and historical perspective. Towards an exploration and discovery of the future of art, examines the paradigm shifts implicit in the inception and expansion of media art, as well as the dynamic core ideas that underscore digital art practices in the early twenty-first century. Offered: AWSpS.

DXARTS 295 Creativity as Research:

Experimentation and Play (5) VLPA Examines creative research in the arts and the natural overlap with research in other fields. Individual and collaborative projects explore research through the lens of digital art, dance, science, and theater. Offered: jointly with DANCE 295/DRAMA 285; A.

DXARTS 430 Algorithmic Processes in the Arts (5)

VLPA Basics of computer programming and algorithmic thinking in digital arts. Emphasis on experimental art forms where building of custom software is integral to realizing an artistic vision.

DXARTS 450 Digital Video Foundations (5) VLPA

An introduction to experimental video art. Provides a theoretical and practical foundation for creating video for installation, performance, or screen. Students attend lectures and complete assignments to create original video works. Workshops include hands-on introductions to digital video production: cameras, lenses, sound, lighting, motion control, and non-linear editing.

DXARTS 451 Experiments in Video Art I (5) VLPA

Introduces real-time video software for the creation of immersive installations, multimedia performance, and video art. Workshops demonstrate advanced compositing, multi-channel video, time delay, and live-image processing. Students explore the intersections of experimental video and contemporary art through individual projects, discussions, and critiques.

DXARTS 452 Experiments in Video Art II (5) VLPA

Students work on individual projects while exploring such research topics as robotic camera motion, computer vision, interactivity, and video integration with physical I/O systems. Prerequisite: DXARTS 451. Offered: W.

DXARTS 460 Digital Sound (5) VLPA

Foundations of digital sound for digital arts applications. Project-based course focused on creating experimental

sound compositions. Overview of the history of electronic music and analysis of important works from its canon. Acoustics, psychoacoustics and digital sound theory. Digital signal processing and recording techniques. Multi-track, recording, editing, mixing, and mastering using Digital Audio Workstations (DAW) . Offered: Sp.

DXARTS 461 Digital Sound Synthesis (5) VLPA

Introduction to software sound synthesis techniques. Project-based course focused on creating experimental sound compositions framed by context of the Western Art Music Tradition. Includes acoustics and psychoacoustics; virtual synthesizers; wavetable synthesis; additive synthesis; ring, amplitude, and frequency modulation synthesis; granular synthesis; and noise and subtractive synthesis. Offered: jointly with MUSIC 401; A.

DXARTS 462 Digital Sound Processing (5) VLPA

Introduction to digital sound processing techniques. Project-based course focused on creating experimental sound compositions framed by context of the Western Art Music Tradition. Includes digital effects; delay lines; introduction to digital filtering; FIR and IIR filters; reverberation; virtual-room acoustics and sound location; time-domain transformation of sound; and granulation and time stretching. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with MUSIC 402; W.

DXARTS 463 Advanced Digital Sound Synthesis and Processing (5) VLPA

Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with MUSIC 403; Sp.

DXARTS 470 Sensing and Control Systems for Digital Arts (5) VLPA

Covers basic electronics for integrating sensors and actuators into art installations and performance. Includes real-time systems programming and design using simple software tools for controlling video and audio as well as hardware tools for data I/O to control electromechanical and sensing devices.

DXARTS 471 Mechatronic Art, Design, and Fabrication I (5) VLPA

Part one of three-quarter

studio sequence exploring mechatronic art systems. Includes mechanics, electronics, software, advanced fabrication methods and real-time audio/video processing. Offered: A.

DXARTS 472 Mechatronic Art, Design, and Fabrication II (5) VLPA

Part two of three-quarter studio sequence exploring mechatronic art systems. Includes mechanics, electronics, software, advanced fabrication methods and real-time audio/video processing. Prerequisite: DXARTS 471. Offered: W.

DXARTS 490 Special Topics in Digital Arts and Experimental Media (3-5, max. 15)

Taught by UW faculty and visiting artists, engineers, scientists, and humanities scholars.

DXARTS 491 Senior Thesis I (5-) VLPA

Introductory course of the senior thesis sequence. Includes weekly seminars, selection of a thesis topic, and contract with an appropriate faculty adviser. Majors and senior standing only. Offered: A.

DXARTS 492 Senior Thesis II (-5-) VLPA

Second course of the senior thesis sequence. Majors and senior standing only. Prerequisite: DXARTS 491. Offered: W.

DXARTS 495 DXARTS Production Studio (3-15, max. 30) VLPA

Intensive, large-scale, collaborative, experimental media-based art projects. Examples include major interactive art installations, cinematic works, live computer music performances, and mechatronic or telematic collaborations. Topic vary.

DXARTS 499 Undergraduate Research (1-5, max. 12)

Supervised independent work on projects and research. Offered: AWSpS.

DXARTS 500 Research Studio (3, max. 30)

Covers recent advances and current trends in digital arts and experimental media research. Students discuss and demonstrate their own ongoing research and creative projects. In-depth examination of new artwork and research by pioneering figures in the field. Prerequisite: DXARTS graduate student.

DXARTS 505 Research Techniques in Digital Arts (3)

Digital arts research resources; structuring and strategizing research as part of artistic development; standards for writing and publishing; ethics and

approach to technology transfer, and issues such as patenting. Prerequisite: DXARTS doctoral student.

DXARTS 517 Psychology of Audio and Visual Perception in the Arts (5) Processes behind sound and image perception, with emphasis on cognition and practical applications for artists. Includes cross-modal theory and synaesthesia. Prerequisite: DXARTS graduate student.

DXARTS 528 Real-Time Digital Image Processing (5) Theory, aesthetics, and practice of real-time video manipulation/performance systems. Theory and high-level programming of image synthesis and processing.

DXARTS 552 Advanced Topics in Digital Video (5) Covers recent advances and current trends in digital video research. May include in-depth examination of new artwork and research by faculty, students, and visiting professionals. Prerequisite: DXARTS 450; and either DXARTS 451 or DXARTS 452.

DXARTS 565 Spectral Modeling of Sound (5) Theory and practice of sound modeling in the spectral domain. Custom-designed software for spectral modeling and re-synthesis. Implementation of software tools for spectral analysis, transformation, and synthesis. Emphasizes the development of new software tools and the production of experimental sound compositions. Prerequisite: DXARTS 463.

DXARTS 567 Sound in Space (5) Theory and practice of spatial sound. Spatial hearing mechanisms. Stereo microphone techniques. 3D sound field capture and reconstruction using first and high order ambisonics. VBAP, WFS, and other advanced sound spatialization techniques. Introduction to aural architecture and spatial audio composition with emphasis on the production of experimental sound pieces and installations. Prerequisite: DXARTS 463.

DXARTS 569 Real-time Digital Sound Processing (5) Introduction to real-time digital sound processing techniques. Includes: foundation of real-time systems; integration; reactive environments in performance and installation work; interfaces; communication protocols (MIDI, TCP); feature detection; pitch tracking; transient detection; time-domain processing techniques; frequency-domain processing techniques; algorithmic processes. Prerequisite: DXARTS 463.

DXARTS 571 Telematic Art I (5) Focuses on the production of artworks that make use of real-time information networks. Topics include Internet art, database-driven art, and telematic installation art. Prerequisite: either DXARTS 470, DXARTS 473, or permission of instructor.

DXARTS 598 Advanced Topics in Digital Arts and Experimental Media (3-5, max. 21) Covers recent advances and current trends in digital arts and experimental media research. Various topics may include in-depth examination of new art work and research by faculty, students, and visiting professors.

DXARTS 600 Independent Study or Research ([1-9]-) Credit/no-credit only.

DXARTS 800 Doctoral Dissertation (*-) At least 27 hours of dissertation credit is required for the award of a Ph.D. in Digital Arts and Experimental Media. No more than 10 credits may be taken in any quarter, except summer. Credit/no-credit only.

DISABILITY STUDIES

DIS ST 230 Introduction to Disability Studies (5) I&S, DIV J. WOIAK Introduces the field of disability studies. Focuses on the theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in the framing of disability. Offered: jointly with CHID 230/LSJ 230.

DIS ST 235 Representations of Disability in Popular Culture (5) I&S, DIV Social construction of 'disability' reflected in and shaped by popular culture. Examples from sports coverage, film, television, fashion, and art both by and about disabled people. Ways in which disability representations in the media reify, problematize, and/or challenge marginalization of this social status. Offered: jointly with CHID 235/SOC 235.

DIS ST 332 Disability and Society (5, max. 15) I&S Concentrates on contemporary issues in disability studies, focusing on the thematic frameworks of rights, identities, values, and science/medicine. Offered: jointly with CHID 332/LSJ 332.

DIS ST 335 Sex, Gender, and Disability (5) I&S, DIV Examines ways that disability, sex, and gender are connected as socially constructed categories. Topics include the ways in which the sexuality of people with disabilities is experienced and represented, the intersection of disability and gender inequality, and how the field of disability studies relates to and can transform other theoretical approaches to gender and sex. Offered: jointly with CHID 335/GWSS 335.

DIS ST 337 Social Construction of Madness and Mental Health in the United States (5) I&S The construct of "mental health" and mental "un-health" from a sociological perspective. How categories such as mental illness, intellectual and developmental disability, cognitive impairment, and Mad Studies developed in the United States. Offered: jointly with CHID 337/SOC 337.

DIS ST 346 Disability in Global and Comparative Perspective (5) I&S, DIV Examines the meaning, politics, and experience of disability globally and locally in order to understand what is universal and what is particular to the disability experience in a diverse world. Human rights, inclusive development, and social movements approaches addressing the marginalization of disabled persons explored throughout. Offered: jointly with JSIS B 346/LSJ 346.

DIS ST 419 Disability in the Arts (5) I&S/VLPA, DIV Examines how the expressive capacities of the arts capture, complicate, and transform the experience of disability. Recommended: DIS ST 230, LSJ 230, or CHID 230. Offered: jointly with CHID 419.

DIS ST 421 History of Eugenics (5) I&S *Woia* Examines the history of ideas, policies, and practices associated with eugenics and human genetics from the late nineteenth century to the present in American society and other national contexts. Offered: jointly with B H 421.

DIS ST 430 Topics in Disability Studies (1-5, max. 15) I&S Theoretical, critical, analytical, or comparative examination of an issue or issues in Disability Studies. Topics vary. Prerequisite: either DIS ST/CHID/LSJ 230, DIS ST 332, DIS ST 433, or DIS ST 434. Offered: jointly with CHID 430/LSJ 430.

DIS ST 433 Disability Law, Policy, and the Community (5) I&S, DIV Addresses the history of legal rights of disabled people, U. S. disability policy,

and the role of community activism and other forces in policy development and systems change. Introduces the existing social service system that affects disabled people. Offered: jointly with CHID 433/LSJ 433.

DIS ST 434 Civil and Human Rights Law for Disabled People (5) I&S, DIV *Brown* Expands knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Offered: jointly with CHID 434/LSJ 434; A.

DIS ST 435 Advanced Seminar in Disability Studies (5, max. 10) I&S Provides an opportunity to review foundational principles and do independent research on a topic in the field of disability studies.

DIS ST 437 Crime, Law, and Mental Illness (5) I&S, DIV Explores experiences of those with mental illness in the criminal justice system and involuntary civil commitment system. Emphasis on societal responses including the emergence of therapeutic courts and specialized police training. Examines how courts, legislature, and communities balance public safety and civil liberties. Offered: jointly with CHID 437/LSJ 437.

DIS ST 499 Independent Study (1-5, max. 15) Supervised independent study in disability studies. Recommended: completion of two courses related to disability studies.

DIS ST 503 Seminar on Writing Disability Studies (1/2, max. 10) Skills and strategies for writing and publishing in disability studies. Includes writing, revision, and presentation of students' work; also, evaluation of other students' writing. Analyzes academic communication in the range of methods, perspectives, and content of interdisciplinary disability studies.

DIS ST 535 Graduate Seminar in Disability Studies (1-5, max. 15) Study of topics in disability studies at the advanced level. Specific topics vary.

DIS ST 600 Independent Study or Research (1-5, max. 15) Independent study or research in disability studies with faculty supervision.

DRAMA

DRAMA 101 Introduction to the Theatre (5) VLPA

The theatre as an art form with emphasis on the play in production. The role of the various theatre artists: actors, directors, designers, and playwrights. Required attendance at one or more performances. Lecture and discussion groups. For nonmajors. Offered: AWSp.

DRAMA 103 Theatre Appreciation (5) VLPA Covers the art of live theatrical performance. Discussion of how theatre is assembled, who the artists are, what they do, how theatre differs from other media, and how the various genres and styles of performance function, to create a deeper understanding of live performance. Offered: AWSp.

DRAMA 111 Backstage Pass: Technical Marvels in Popular Culture (5) VLPA Explores popular culture events such as concerts, award shows, sports events, and half-time shows. Offers a behind-the-scenes look at how the entertainment industry conceives, plans, and executes state-of-the-art technical challenges and solutions in making these large-scale events come to life.

DRAMA 171 The Broadway Musical (5) VLPA, DIV Historical and cultural study of the Broadway Musical and how this uniquely American art form was predominantly created by outcasts from mainstream society; surveys its evolution including the mid-twentieth Century "Golden Age" and its current twenty-first Century resurgence. Explores how musicals have both reflected and shaped American culture - especially in regard to issues of race, gender, sexual orientation, social justice, and equality.

DRAMA 180 Collaboration and Inclusion: Ways of Working Together (5) VLPA *Geoff Korf* Different styles of working with people and shaping an effective environment for communication and collaboration in pursuit of creation, problem solving and discovery. Introduces tools and methodologies used to promote participation from groups of any size. Experiential exercises, discussion, and collaborative projects. Develops a formal process of critiquing the work of peers. For students of all backgrounds.

DRAMA 200 The Art of Story (5) VLPA Survey of narrative tradition and structure as they pertain to arts, culture, history, and society. Examines the origins and uses of narrative on a global scale, and presents the various forms of storytelling that inform our daily lives, in particular the dramatic arts. Offered: S.

DRAMA 201 Plays and Styles (5) VLPA Introduces theatre practitioners to the principles of play construction, to the process of reading and conceiving plays for production, and to the basic vocabulary of artistic styles through which plays are produced. Offered: AWSp.

DRAMA 202 Creative Leadership: A Course in Courage (5) VLPA *Valerie Curtis-Newton* Courage as the ability to move through fear rather than becoming paralyzed by it. Examines sources of fear and obstacles that keep us from becoming our fullest, most human, most successful selves. Aimed at developing, demonstrating, and exercising both courage and leadership's other critical skills: connecting and communicating.

DRAMA 210 Theatre Technical Practice (4) VLPA Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Technical procedures.

DRAMA 211 Theatre Technical Practice (4) VLPA *Trout* Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Costumes.

DRAMA 212 Theatre Technical Practice (4) VLPA Intensive lecture-laboratory in basic theories, techniques, and equipment of the stage. Stage lighting.

DRAMA 213 Introduction to Sound Design for Theatre (4) VLPA Explores the how and why of sound and music for theatre. Includes different uses for audio in plays; choosing sounds and pieces of music; basic editing of music, environments, and effects; designing a cohesive world of sound.

DRAMA 215 Visual Thinking in Theatrical Design (5) VLPA *Skip Mercier* From the perspective of theatrical design, develops visual literacy as a foundational skill relevant to all students and to a wide range of professional pathways from the sciences to the arts.

Examines "seeing" and understanding how images are constructed to work with, and against, the way we see. Focuses on expanding creativity. Offered: Sp.

DRAMA 221 Visual Narrative in Performance (5)

VLPA Narrative critically structures many forms of visual design that go into creating performance events. Includes ritual and guided tours. Uses change over time as an essential lens for developing effective sets, lighting, costumes, and other design elements. Includes class exercises, weekly assignments, and a final project.

DRAMA 222 Tools of Composition and Design for Performance and Events (5) VLPA

Elements and tools used in theatrical design in scenery, costumes, lighting, sound, and projections. In-class and at-home projects tailored to manipulating those aspects for greater understanding of their impact in performance and events. How these elements shape our understanding of events placed on stage.

DRAMA 250 Acting Skills for Everyday Life (4) VLPA

DRAMA 251 Acting (5) VLPA Explores theory and practice of fundamentals of American "method," based on principles of Stanislavsky and their American evolution. Development of basic acting skills through monologue work. Offered: AW.

DRAMA 252 Acting (5) VLPA Explores theory and practice of fundamentals of American "method," based on principles of Stanislavsky and their American evolution. Preparation of audition material and scene work within the context of entire play. Prerequisite: DRAMA 251. Offered: WSp.

DRAMA 254 Intro to acting skills (1-5, max. 15)

VLPA Z. JONES Introduces specific skills to the beginning actor and non-actor. No previous experience required. Topics vary Recommended: None needed. Offered: S.

DRAMA 259 Performance Practicum (2-6, max. 12)

VLPA Special work in various aspects of performance technique.

DRAMA 270 Survey of Great Theatre for Social Change (5) VLPA

Surveys a sampling of the more influential plays ever written and performed, and how they advocated for social and political change.

Considers plays that have directly engaged social and political problems, plays that began revolutions, and plays that quietly, persistently pushed the world toward a greater equity.

DRAMA 285 Creativity as Research:

Experimentation and Play (5) VLPA Examines creative research in the arts and the natural overlap with research in other fields. Individual and collaborative projects explore research through the lens of digital art, dance, science, and theater. Offered: jointly with DANCE 295/DXARTS 295; A.

DRAMA 290 Theatre Technical Practices Laboratory

(1-3, max. 3) VLPA Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

DRAMA 291 Theatre Technical Practices Laboratory

(1-3, max. 3) VLPA Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

DRAMA 292 Theatre Technical Practices Laboratory

(1-3, max. 3) VLPA Laboratory course involving specific production assignment, either in-shop or in-theatre or both. Offered: AWSp.

DRAMA 298 Theatre Production (1-2, max. 9) VLPA

Laboratory course for students participating in School of Drama minor productions and projects. Credit/no-credit only. Offered: AWSp.

DRAMA 302 Critical Analysis of Theatre (5) VLPA

Analyses of plays, based on leading critical traditions. Illustrates variety of approaches to a play, criteria for choosing best approach for a given play, and ways in which criticism aids in understanding dramatic effect, for both reader and practitioner. Prerequisite: DRAMA 201. Instructors: Mihaylova

DRAMA 303 The Structure of Dramatic Narrative (5)

VLPA Examines the nature and structures of storytelling and the dramatic arts through seminal works on the topic and through examples of narrative from different parts of the world. Combines reading and lectures with student presentation skills. No previous performance experience necessary.

DRAMA 316 Theatrical Makeup (2) VLPA Basic principles, with intensive practice in application of makeup for use on proscenium and arena stages.

DRAMA 317 Introduction to Costume Construction (2-5, max. 10) VLPA Introduction to clothing construction techniques applicable to theatrical costumes, fashion design, and textile arts. Includes lectures, demonstrations, and practice lab.

DRAMA 319 Projection Design in Performance (4) VLPA *N. Kwame Braun* Attributes, uses, and technology of projections in contemporary theater, dance, live music, sports events, public spectacle, and installation art. Students design and construct their own projections using basic computer programs to explore the three theatrical modes of projections: as lighting; as set; and as overt content. Recommended: introduction to theater or dance; visual communications; basic computer editing or design.

DRAMA 351 Intermediate Acting-Scene Study (4) VLPA Actor-training methodologies of Stanislavsky, Meyerhold, Michael Chekov, and other physically-based approaches. Increases understanding of psychological motivation, concentration, focus of attention, clarity of physical expressiveness. Perform three scenes. Prerequisite: DRAMA 251.

DRAMA 352 Intermediate Acting-Verse (4) VLPA Addresses character motivation within classical verse of Shakespeare, Moliere, Racine, etc. Sonnets, monologues, scenes in iambic pentameter and rhyming couplet, exploring rhythm, music, and how these relate to character psychology, motivation. Prerequisite: DRAMA 251.

DRAMA 353 Intermediate Acting - Physical Acting (3-4) VLPA *Jeffrey Frace* Movement based approaches to the acting process. Suzuki, Viewpoints or other systems that focus on actor's body, space and time, and the creation of effective drama through physicality. Prerequisite: DRAMA 251.

DRAMA 354 Psychophysical Foundations of Acting (4) VLPA *Bridget Connors* Explores various psychophysical exercises and techniques that awaken and synthesize the breath, body, voice, intellect, emotion and imagination in character transformation for the actor. Substantial focus on the foundational work of Michael Chekhov.

Prerequisite: either DRAMA 351, DRAMA 352, or DRAMA 353.

DRAMA 365 Diverse Voices in Performance (5, max. 15) I&S/VLPA, DIV *Valerie Curtis-Newton, Tim Bond* Topics vary. Examines how theatre and performance celebrate, grapple with, and bear witness to the experiences and representation on stage of historically underrepresented or marginalized communities.

DRAMA 367 African Theatre and Performance (5) VLPA, DIV *Catherine M. Cole* Theater, dance, and other types of performance, focusing on West Africa and South Africa. Considers plays by writers such as Wole Soyinka, Ama Ata Aidoo, and Athol Fugard, as well as contemporary dance works by choreographers such as Mamela Nyamza and Gregory Maqoma. Topics include slavery, colonialism, and apartheid, all of which have had a profound impact on African history and cultures.

DRAMA 371 Theatre History I (5) VLPA/I&S Explores the history of European theatre and theatre culture from ancient Greece and Rome, through the High Middle Ages, to the emergence of the first professional theatres in Elizabethan England and Spain in the Golden Age. Prerequisite: DRAMA 201.

DRAMA 372 Theatre History II (5) VLPA Covers Western European theatre from Italian Renaissance to the late eighteenth century. Beginning with humanism, examines Renaissance beginnings in Italy and its influence, unique practices in England and France, and then theatre of the English Restoration, the European Enlightenment, and revolutions in France and America. Prerequisite: DRAMA 201.

DRAMA 373 Theatre History III (5) VLPA Focuses on major works, forms, and styles of drama in Western European theatre from the mid-nineteenth century to the present. Explores modern and contemporary theatre from the rise of realism to modernist innovations with reference to cultural contexts, interpretive problems, and dramatic criticism. Prerequisite: DRAMA 201.

DRAMA 391 Beginning Technical Practices (1-3, max. 9) VLPA Laboratory course involving specific production assignments, either in-shop or in-theatre, or both.

DRAMA 396 Study Abroad (12, max. 24) VLPA
Current global trends in theatrical practice with emphasis on viewing and critiquing international work. Reception theory, various conventions of drama and performance and theories related to tourism and global culture as they relate to performance. Offered: S.

DRAMA 401 Majors Seminar (1, max. 2) VLPA
A professional seminar featuring guest artists and career development specialists. Credit/no-credit only. Offered: W.

DRAMA 405 Computer Graphics Systems (3) VLPA
Introduction to CAD applications in theatre design and technology. Focus on learning to use general purpose graphics software for CAD. Discussion of available hardware and software.

DRAMA 406 Digital Cinema Production (3-5) VLPA
Nathan A Braun Set up, operations and delivery of digital media equipment and content based on professional standards of film and TV production. Focuses on narrative film grammar and structures of cinematic storytelling. Covers cinema camera operations, production sound recording, basic cinema lighting. In rotation, students work as assistant director, director of photography, camera operator, sound operator, lighting and grip technician and script supervisor.

DRAMA 407 Documentary in Performance (5) VLPA
N. Kwame Braun Video production for documentary, focus on performers and performance. Covers a range of conceptual and technical skills, including pre-visualizing and planning; use of cameras, sound recording equipment and lights; editing. Use of this technology to research and document some aspect of people crafting a performance to present to an audience.

DRAMA 410 Advanced Theatre Technical Practices (2-4, max. 20) VLPA
Production-related apprenticeship, in the areas of scene construction, scene painting, costume, or lighting. Offered: AWSp.

DRAMA 414 Scene Design (3, max. 6) VLPA
Theory, practice, and rendering of scene designs. Repeat of course involves intermediate designs and models. Prerequisite: DRAMA 210.

DRAMA 415 Stage Costume Design (3, max. 6) VLPA
Trout Theory, practice, and rendering of costume designs for the theatre. Repeat of course involves intermediate designs.

DRAMA 416 History of Style - Dress, Architecture and Functional Decor (5) VLPA
Surveys the history of western design and visual culture from Ancient Greece through today. Covers a range of artistic fields, including clothing, the decorative arts, and architecture and pays particular attention to the sociological, religious, political and economic climates that shape the way we dress and decorate the world around us. Historic representations of the functional arts in film, television and theatre will also be analyzed. Offered: A.

DRAMA 417 Stage Costume Patterning and Construction (3, max. 6) VLPA
Techniques of costume construction, including study of fabrics; emphasis on creating patterns by draping.

DRAMA 418 Scene Painting (3, max. 6) VLPA
Lecture-laboratory with focus on techniques and principles of scene painting. Uses of various media and types of equipment as applicable to varied scenic pieces.

DRAMA 419 Lighting Design (3, max. 9) VLPA
Basic steps to generate a lighting plot and hook-up for a stage production. Includes instruction in the technical knowledge of instrumentation, electricity, drafting and photometrics. Helps students to "see" light better, and to develop a process to "visualize" lighting in for the stage. Recommended: Drama 212

DRAMA 420 Design and Technical Drafting (2, max. 4) VLPA
Laboratory and project critique covering stage design graphics and technical drawing; specifically: designer's elevations, ground plans, sections, detail drawing, transposition of design drawing information to technical drawings.

DRAMA 421 Drawing and Rendering Techniques for the Theatre (2, max. 10) VLPA
Weekly figure-drawing laboratories with live model and weekly field trips for laboratories in drawing natural phenomena and architectural detail. Studies in historical drawing styles. Practice in use of several media and techniques of expression.

DRAMA 441 Beginning Playwriting (1-6, max. 12) VLPA Writing exercises and drafts of a one-act play provide first experience in writing for performance. Readings of representative one-act plays introduce genres and writing styles.

DRAMA 451 Advanced Acting - Production Workshop (4) VLPA Improvisation skills. Methodology employed develops one five-minute solo work, using either original or adaptations of non-dramatic texts. Culminates in public showings of the five-minute one-person works.

DRAMA 452 Advanced Acting - Scene Study (4) VLPA Invites actor to create a role. Script reading for action and consequence. Use and employment of five senses to express a character's life, presenting a coherent and alive person to the stage. Culminates in public performance. Prerequisite: DRAMA 351.

DRAMA 453 Advanced Acting - Physical Training (3-4) VLPA *J. FRACE* Study of physical training methods of Tadashi Suzuki, Kenji Suzuki, and the relationship of their methodologies to Constantin Stanislavsky. Contemporary monologues analyzed for psychological motivation, while exploring the physical analog of "action" as expressed and accessed by the new physical training.

DRAMA 454 Projects in Acting (3, max. 9) VLPA Rehearsal and classroom performance of dramatic literature of various periods and styles. Prerequisite: DRAMA 251.

DRAMA 455 Alexander Technique (1-3) VLPA *C. MADDEN* A practical and theoretical introduction to the Alexander Technique, a psychophysical re-education process developed by F. M. Alexander (1869-1955). Studio application of this work improves physical/vocal coordination, enhances creativity, and clarifies thinking.

DRAMA 456 Topics in Theatre for Youth (3-5, max. 10) VLPA Topics in rehearsal and performance of theatre for young audiences; basic principles and techniques for using drama in the classroom; and creating original work for young audiences.

DRAMA 457 Creating Drama (3-5) VLPA *Jeffrey Frace* Covers learning and application of creative methodologies for the theatre artist. Students study established systems of creative development, the

use non-dramatic source texts as a foundation for adaptation into dramatic theatre pieces. Emphasizes artistic entrepreneurship, group collaboration, and applied narrative theories.

DRAMA 460 Introduction to Directing (4) VLPA *Curtis-Newton* Student is introduced to the art of the stage director.

DRAMA 461 Elementary Directing (4) VLPA *Curtis-Newton* Elementary study of the art of the stage director.

DRAMA 462 Elementary Directing (4) VLPA Elementary study of the art of the stage director.

DRAMA 466 Stage Management (2-5, max. 15) VLPA *Stewart* Study and practice of stage management.

DRAMA 490 Special Studies in Acting-Directing (1-6, max. 12) VLPA

DRAMA 491 Special Studies in Design-Technical (1-6, max. 12) VLPA

DRAMA 493 Drama Internship (1-6, max. 6) Supervised experiences in an off-campus venue.

DRAMA 494 Special Studies in Theatre and Drama (5, max. 20) VLPA Topics in drama, history, and criticism. See Time Schedule for specific topic.

DRAMA 495 Practicum in Design and Technical Theatre (2-6, max. 15) VLPA Emphasis on developing design and technology problem-solving skills through laboratory and project evaluation.

DRAMA 496 Stage Costume Problems (2, max. 8) VLPA Specific research problems of stage costume design and execution: accessories, masks, wigs, fabric modification, millinery, or construction analysis for specialized costumes. Topics vary.

DRAMA 498 Theatre Production (1-2, max. 9) VLPA Laboratory course for students participating in School of Drama major productions. Credit/no-credit only. Offered: AWSp.

DRAMA 499 Undergraduate Research (1-5, max. 15)

DRAMA 502 Designer-Director Analysis (4) Methods of examining plays to make the collaboration of director and designer productive. Attempts to create a structural whole from visual and verbal approaches to analysis.

DRAMA 506 Visual Communication for Theatrical Designers (3, max. 6) *Skip Mercier* Expands visual communication skills. Explores individual approaches of working professional designers; increases essential design skills (storyboard, modeling, sketching, costume rendering, drafting) and understanding of unique design voice within framework of standard practice. Steps of typical theatrical design process, from first reading to collaborations necessary, that lead to opening are explored and associated skills for each step. Offered: AW.

DRAMA 508 Advanced Stage Lighting Design-Plotmaking (1-3) Development of a working process consistent with current professional practice. Includes drafting, worksheets, color selection, organization systems and other processes related to creating a professional stage lighting plot. Students also read dramatic texts and develop analytical skills. Credit/no-credit only. Offered: A.

DRAMA 509 Advanced Stage Lighting Design-Unique Challenges (3) Continued development of lighting design process consistent with current professional practice. Students will be challenged to design lighting plots for unique directorial and scenic conceptual projects. Prerequisite: DRAMA 508 Credit/no-credit only. Offered: W.

DRAMA 510 Design Studio (1-5, max. 40) *Skip Mercier, Deborah L Trout, Thomas Lynch, Geoff Korf* Design for live performance focused primarily on scenery and costumes. Includes comprehensive investigation of space, form, light, texture, and color in theatre design, interpretation of literary and musical text, understanding of dramatic action, and collaborative communication. Projects include a variety of theatrical and musical genres.

DRAMA 512 Advanced Lighting (1-4, max. 28) Intensive training in lighting design for performance. Includes intermediate and advanced paper projects as well as advanced practical projects. Spans a variety of performance genres and environments.

DRAMA 514 Design and Technical Theatre Colloquium (2, max. 18) *Korf, Lynch, Trout* Discussion of work in progress or completed in production, centering on the conceptual work of the designer/director on the production and the methods of execution in the shops and on stage. Offered: AWSp.

DRAMA 518 History of Style - Dress, Architecture and Functional Decor (5) Surveys the history of western design and visual culture from Ancient Greece through today. Covers a range of artistic fields, including clothing, the decorative arts, and architecture and pays particular attention to the sociological, religious, political and economic climates that shape the way we dress and decorate the world around us. Historic representations of the functional arts in film, television and theatre will also be analyzed. Offered: A.

DRAMA 519 Projection Design in Performance (3) *N. Kwame Braun* Attributes, uses, and technology of projections in contemporary theater, dance, live music, sports events, public spectacle, and installation art. Students design and construct their own projections using basic computer programs to explore the three theatrical modes of projections: as lighting; as set; and as overt content.

DRAMA 520 Advanced Theatre Practicum (1-5, max. 15) Professional student internship with professional theatres: scenery, lighting, scene painting, costume, acting, directing, stage management, theatre management. Prerequisite: permission of instructor.

DRAMA 523 Digital Rendering (3) Covers the basics of digital rendering with an emphasis and application on theatre renderings and sketches. Includes methods of collecting visual research, basic concepts, and the practical use of software applications.

DRAMA 530 Advanced Stage Lighting Practice-Light Lab (1-3, max. 9) Laboratory practice of stage lighting design. Students will encounter a new hands-on, practical lighting challenge each week. Includes hanging, coloring, and cueing lighting rigs in the Drama light lab. Credit/no-credit only. Offered: Sp.

DRAMA 551 Teaching of Acting (1-3, max. 3) Seminar discussion on problems in teaching acting to

undergraduate students in DRAMA 251, DRAMA 252, and DRAMA 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

DRAMA 552 Teaching of Acting (1-3, max. 3)

Seminar discussion on problems in teaching acting to undergraduate students in DRAMA 251, DRAMA 252, and DRAMA 253. Prerequisite: permission of instructor and being a teaching assistant in acting.

DRAMA 555 Studies in Acting (2-6, max. 18)

Individual or group work on special skills for the actor. Topics vary. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

DRAMA 557 Studio I (12, max. 36) *Scott Hafso, Jeffrey Frace, L. Zane Jones, Valerie Curtis-Newton, Catherine Madden, Bridget Connors* Skill development in acting, voice, speech, and movement necessary for professional training in acting. Prerequisite: admission to the Professional Actor Training Program. Offered: AWSp.

DRAMA 558 Studio II (12, max. 36) *L. Zane Jones, Bridget Connors, Valerie Curtis-Newton, Scott Hafso, Jeffrey Frace, Catherine Madden* Continuation of DRAMA 557. Prerequisite: DRAMA 557 and completion of the first year of the Professional Actor Training program. Offered: AWSp.

DRAMA 559 Studio III (6, max. 18) *Valerie Curtis-Newton, Jeffrey Frace, Catherine Madden, Bridget Connors, L. Zane Jones, Scott Hafso* Specialized and individualized work relating to the main curriculum of the third year of the Professional Actor Training Program. Prerequisite: DRAMA 558 and completion of the second year of the Professional Actor Training Program. Offered: AWSp.

DRAMA 560 Managing the Rehearsal and Production Process (2) Introduction to graduate-level directing. Play analysis, research, performance theory, and concept development as it relates to process-acting and rehearsal, design, staging techniques, and production management. Reading and writing assignments augmented by faculty and professional guests in performance, design, production, and dramaturgy.

DRAMA 561 Directing Projects (2-3, max. 12)

Rehearsal techniques and staging skills in a variety of spatial configurations. One-act and full-length plays

which follow a prescribed sequence. Prerequisite: graduate standing in the directing program.

DRAMA 562 Performance Studio (1-3, max. 12)

Performance techniques in specialized areas of importance to the professional director, including stage combat, speech and dialect, mask, physical comedy, improvisation, and puppetry.

DRAMA 563 Seminar in Directing (2, max. 18)

Seminar discussion of current productions; focused readings and discussion in specific areas of dramatic literature and problems related to stage direction. Prerequisite: permission of instructor.

DRAMA 564 Theatre Studies: History, Theory, Criticism (3, max. 15) Special topics in history, theory, and criticism.

DRAMA 565 Verse Workshop (4) Techniques necessary to direct and perform plays of Shakespeare, Moliere, and other verse playwrights: scansion and imagery; period and style using verse text; crowd scenes, transformations of time and space, and other staging exercises; direction of scenes or acts from verse plays.

DRAMA 566 Directing for Cinema, Television, and Digital Media I (3) Covers the applied methodologies of classic narrative film grammar. Includes the role of the director, in standard production structures, script development and analysis, the language of traditional cinematic storytelling, directing the screen actor, editing, post production, and an examination of new digital media technologies.

DRAMA 567 Acting Process (1-3, max. 30)

Development of acting skills necessary for the professional director. Emphasis on physical training, playing action, strong internal technique, imagination and clarity of expression.

DRAMA 568 Writing for the Stage (3, max. 6) Focus on adaptation for the stage of non-dramatic sources, such as literature, poetry, history, and contemporary events. Emphasis on structure, dialogue, dramatic action, rhythm, characterization. Writing exercises using fictive and non-fictive sources, biographical sources, and found objects. For MFA Directing students only.

DRAMA 569 Directing/Teaching Apprenticeship (3, max. 6) Assisting faculty or professional guest director in production for the entire rehearsal period, or assisting faculty in performance training.

DRAMA 571 Problems in Theatre History Research (5, max. 10) *Odai Johnson, Scott Magelssen* Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

DRAMA 572 Problems in Theatre History Research (5, max. 10) *Scott Magelssen, Odai Johnson* Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

DRAMA 573 Problems in Theatre History Research (5, max. 10) *Odai Johnson, Scott Magelssen* Methods and techniques of research, interpretation, and writing in theatre history. Relationship of theatre arts to culture in diverse periods and places.

DRAMA 575 Seminar in Theatre History (5, max. 10) *Johnson* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

DRAMA 576 Seminar in Theatre History (5, max. 10) *Johnson* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

DRAMA 577 Seminar in Theatre History (5, max. 10) *Johnson* Specific topics in theatre history, examining the drama of various national, linguistic, and/or religious culture in detail.

DRAMA 581 Analysis of Dramatic Texts (5, max. 10) *S. MIHAYLOVA* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

DRAMA 582 Analysis of Dramatic Texts (5, max. 10) *S. MIHAYLOVA* Analytic approaches to dramatic materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

DRAMA 583 Analysis of Dramatic Texts (5, max. 10) *S. MIHAYLOVA* Analytic approaches to dramatic

materials, concentrating on semiotics, Marxism, feminism, or a related critical theory.

DRAMA 585 Seminar in Dramatic Theory (5, max. 10) *Stefka Mihaylova* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

DRAMA 586 Seminar in Dramatic Theory (5, max. 10) *S. MIHAYLOVA* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

DRAMA 587 Seminar in Dramatic Theory (5, max. 10) *S. MIHAYLOVA* Major problems in dramatic theory, such as aesthetics, mimesis, and the nature of theatre.

DRAMA 599 Advanced Studies in Theatre Arts (1-5, max. 20) Independent projects or group study of specialized aspects of theatre arts. Prerequisite: permission of instructor.

DRAMA 600 Independent Study or Research (*-)

DRAMA 700 Master's Thesis (*-)

DRAMA 800 Doctoral Dissertation (*-)

ECONOMICS

ECON 190 Advanced Placement (AP) Economics: Micro (5) I&S Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

ECON 191 Advanced Placement (AP) Economics: Macro (5) I&S Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

ECON 200 Introduction to Microeconomics (5) I&S, QSR Analysis of markets: consumer demand, production, exchange, the price system, resource allocation, government intervention. Offered: AWSpS.

ECON 201 Introduction to Macroeconomics (5) I&S, QSR Analysis of the aggregate economy: national income, inflation, business fluctuations,

unemployment, monetary system, federal budget, international trade and finance. Prerequisite: ECON 200. Offered: AWSpS.

ECON 230 Economics of Fisheries and Oceans (5) I&S/NW, QSR *C. ANDERSON* Examines how and why people and businesses make choices that lead to over-fishing, hypoxic zones, and oil spills in aquatic environments. Applies economic principles to understand how alternative policies might change these decisions, and how distributional effects influence politically feasible solutions. Offered: jointly with FISH 230; Sp.

ECON 235 Introduction to Environmental Economics (5) I&S/NW *S. RABOTYAGOV* Introduces environmental and natural resource economics. Discusses fundamental economic concepts, including markets and private property. Includes basic tools used in the economic assessment of environmental problems and applies these methods to key environmental issues. Offered: jointly with ENVIR 235/ESRM 235; SpS.

ECON 282 Using Econometrics: A Practical Approach (5) NW Concerned with estimating economic relationships, confronting economic theory with facts, and testing hypotheses involving economic behavior. Specific topics include mathematical statistics, single and multiple variable regression analysis, the Gauss-Markov Theorem, hypothesis testing, model specification, multicollinearity, dummy variable, heteroskedasticity, and serial correlation.

ECON 299 Study Abroad: Economics (1-5, max. 10) Lower-division economics courses taken for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

ECON 300 Intermediate Microeconomics (5) I&S Analysis of decisions by individuals and by firms and of outcomes in factor and product markets. Policy issues and applications. Prerequisite: ECON 200; either MATH 112, MATH 124, MATH 127, MATH 134, or MATH 145. Offered: AWSpS.

ECON 301 Intermediate Macroeconomics (5) I&S Analysis of the determinants of the aggregate level of employment, output, prices, and income of an economy. Policy issues and applications with special

reference to current monetary and fiscal policy. Prerequisite: minimum grade of 2.0 in ECON 201; 2.0 in ECON 300. Offered: AWSpS.

ECON 315 Study Abroad: Economics (3-5, max. 10) I&S Upper-division economics courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

ECON 345 Global Health Economics (5) I&S *C. Levin* Introduces the application of health economics and the tools economists use to inform global health solutions in low and middle-income countries. Examines relationship between global health and development, survey of health economic evaluation concepts with focus on diseases and conditions in low and middle-income countries. Recommended: ECON 200 strongly recommended, G H 101 recommended Offered: jointly with G H 345; A.

ECON 346 Using Economics to Solve Today's Healthcare Problems (4) I&S Health economics is a growing field and an important aspect of public policy. Introduces health economics and the tools economists use to analyze current issues in health care. Furthers the understanding of economics and how it is used in current debates. Prerequisite: ECON 200. Offered: jointly with HSERV 346; A.

ECON 382 Introduction to Econometrics (5) NW Applies statistical methods to economic data: estimating economic relationships using regression analysis and testing hypotheses involving economic behavior. Uses econometric software. Open to economics majors only. Cannot be taken for credit if ECON 482 taken previously or concurrently. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 396 Honors Research Seminar (2) I&S Different members of the Economics faculty present and discuss their research work. Exposes students to ideas about potential topics for their thesis. For Honors students only. Does not satisfy graduation requirement for the major. Prerequisite: ECON 301 Offered: Sp.

ECON 399 Economics Internship (1-6, max. 12) Academic work completed in conjunction with an economics-related internship. Faculty supervision required. Does not apply toward major. Credit/no-credit only.

ECON 400 Advanced Microeconomics (5) NW

Explores the rigorous development of mathematical models used by economists to explain the behavior of consumers, firms, and markets. Topics include comparative statics for consumption theory, duality in production, and decision-making under uncertainty. Prerequisite: minimum grade of 2.0 in ECON 300; MATH 126.

ECON 401 Advanced Macroeconomics (5) NW

Application of mathematics to macroeconomics. Possible topics include economic dynamics and growth, rational expectations, real business cycle models, and New Keynesian approach. Prerequisite: minimum grade of 2.0 in ECON 301; either MATH 126, MATH 129, or MATH 136.

ECON 402 Microeconomics: Methods and Applications (5) I&S

Generalizations and extensions of the course models of competition and monopoly taught in ECON 300. Topics may include: factor markets and effects of monopoly power; game theory and oligopoly theory; decision making over time; uncertainty and under asymmetric information; contracts and incentives. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 403 The Economics of Property Rights (5) I&S

Property rights as an economic concept. Delineation of rights as a subject of optimization. Formation of contracts to maximize the value of personal property. Formation of organizations to induce efficient use of resources and minimize losses to public domain. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 404 Industrial Organization and Price Analysis (5) I&S

Analysis of firm behavior in imperfectly competitive markets. Topics include monopoly, oligopoly, product differentiation, entry deterrence, and the role of asymmetric information. Game theoretic tools and empirical evidence used to analyze topics. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 405 Analytical Framework for Policy and Decisions (5) NW

Explores how insights from economics and finance can be used to design policies and formulate strategies to solve important real-life problems. Covers a variety of analytics and computational techniques, particularly those directed toward dynamics, uncertainty, and

interactive decision problems. Prerequisite: MATH 307; ECON 301; either ECON 400 or ECON 401; either ECON 382, ECON 424, ECON 482, or ECON 483.

ECON 406 Undergraduate Seminar in Economics (5, max. 10) I&S Provides the undergraduate student an opportunity to apply the tools of economic analysis in a critical examination of theoretical and empirical work. A list of topics is available in the departmental office. Prerequisite: minimum grade of 2.0 in ECON 300

ECON 408 Economic Analysis of the Law (5) Includes contracts, property, torts, securities regulation, antitrust, and intellectual property. Provides students a well-rounded view of both current examples and applications within the practice of law, as well as the underlying economic theory embedded in these areas of law. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 409 Undergraduate Seminar in Political Economy (5, max. 10) I&S Seminar in political economy with focus on Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Offered: jointly with POL S 409.

ECON 410 Economics of Networks (5) I&S

Developing and using mathematical and other tools to describe and analyze networks in economic contexts. Applies tools to topics such as social learning, the effects of peers, and networked markets, as well as theoretical analysis of network formation and games on networks. Prerequisite: a minimum grade of 2.0 in ECON 300; recommended: ECON 400 and ECON 485.

ECON 411 Behavioral Economics (5) I&S

Incorporates insights from psychology into economic models. Examines evidence suggesting individuals systematically depart from traditional economic assumptions, and modifies these assumptions to construct models that generate sharp and testable predictions. Students learn how psychology and economics can be used together to understand human behavior. Prerequisite: a minimum grade of 2.0 in ECON 300.

ECON 412 Macroeconomics and Inequality (5) I&S

Examines the determinants of income and wealth distribution and how these distributions interact with the macroeconomy. Topics include the relationship between inequality and growth, the interaction between inequality and business cycles, and the effects of policies designed to reduce inequality. Prerequisite: a minimum grade of 2.0 in ECON 301.

ECON 415 Study Abroad: Economics (3-5, max. 10) I&S

Upper-division economics courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

ECON 421 Money, Credit, and the Economy (5) I&S

Role of money and the banking system in the United States economy. Relation of money to inflation, interest rates, and business fluctuations. Monetary policy and Federal Reserve System. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 422 Investment, Capital, and Finance (5) I&S

Intertemporal optimization: consumption and portfolio allocation decisions of households, investment and financing decisions of firms. Introduction to financial decisions under uncertainty. Portfolio theory, asset pricing, options, and futures. Financial market institutions and efficiency. Prerequisite: minimum grade of 2.0 in ECON 300; either ECON 311, STAT 311, MATH 390, STAT 390, or Q SCI 381.

ECON 423 Topics in Financial Economics (5) I&S

Topics of current interest such as regulation of securities markets and valuation of stocks. Allows students to apply tools of economics to real world problems in finance. Prerequisite: minimum grade of 2.0 in ECON 301; and ACCTG 215 or ACCTG 219,

ECON 424 Computational Finance and Financial Econometrics (5) NW

Covers probability models, data analysis, quantitative, and statistical methods using applications in finance. Prerequisite: minimum grade of 2.0 in ECON 300; either ECON 311/STAT 311, STAT 341, MATH 390/STAT 390, or Q SCI 381.

ECON 425 Topics in Monetary Economics (5) I&S

Topics include monetary policy and financial markets, two transmission mechanisms, dynamics of monetary policy, targeting interest rates versus

targeting the quantity of money, monetary policy under fixed versus flexible exchange rates, inflation targeting, and practices of central banks, i.e., Fed, ECB, BOJ and PBOC. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 426 Advanced Financial Economics (5) I&S

Provides an introduction to financial derivatives and structured financial products, with emphasis on futures, options, credit derivatives, swaps, economic theory, valuation methods, trading strategies, hedging, and securitization. Emphasizes real world applications and developments in the financial market. Prerequisite: ECON 422; MATH 124.

ECON 427 Central Banking (5) I&S

Role of central banks and monetary policy in the global economy. History of central banks, mechanics of monetary policy implementation, economic stabilization, lender of last resort, and liquidity provision to financial markets. Prerequisite: minimum grade of 2.0 in ECON 301

ECON 431 Government and Business (5) I&S

Economic effects of various governmental regulatory agencies and policies. Antitrust legislation as a means of promoting desired market performance. Observed economic effects of policies intended to regulate business practices, control prices, conserve resources, or promote competition. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 435 Natural Resource Economics (5) I&S

Survey of the economics of renewable and nonrenewable resources including fisheries, forest, minerals, and fuels. Optimal trade-offs between benefits and costs of resource use, including trade-offs between current and future use. Effects of property rights on resource use. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 436 Economics of the Environment (5) I&S

Microeconomic analysis of environmental regulation. The problem of social cost, policy instrument choice, enforcement of regulations, methods for damage assessment, and estimating benefits of environmental improvement. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 437 Economics of Biological Resources (5) I&S

Application of economic concepts to biology and biological concepts to economics. Examination of

theory of species maximization, parallels in behavior between humans and other biota, animal choices among alternative food sources, games animals play, evidence of risk aversion in animals. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 438 Economics of Energy (5) I&S Topics include the optimal extraction of depletable resources, the history and economic organization of the energy industries, and trade in energy commodities. Covers energy policies aimed at increasing national security or economic efficiency and those aimed at reducing the environmental effects of energy demand and supply. Prerequisite: 2.0 in ECON 300.

ECON 442 Economics of Human Resource Management (5) Analyzes the relationship between personnel practices and organizational performance. Economic analysis of compensation policy emphasized. Topics include hiring and retention strategies; incentive pay; relative performance evaluation; teams; promotions; seniority; and organization design. Examines human capital accumulation and labor legislation. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 443 Labor Market Analysis (5) I&S Determinants of employment and incomes in the United States: analysis of individual and firm decisions and of equilibrium in the labor market. Topics include decisions to work and retire, education and occupation choices, compensation, discrimination, poverty, unemployment, and unions. Examination of policy issues affecting the labor market. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 444 Topics in Labor Market Analysis (5) I&S In-depth analysis of special topics in the operation of labor markets and public policies affecting incomes and employment. Course content varies by instructor. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 446 Economics of Education (5) I&S Examines formal education as an investment industry, the economics of human capital investment, and competition among government-owned schools and the non-profit sector. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 447 Economics of Gender (5) I&S, DIV Microeconomic analysis of the sources of gender differences in earnings, labor force participation, occupational choice, education, and consumption. Economic theories of discrimination, human capital, fertility, and intrahousehold resource allocation. Economics of the family in developed and developing countries. Prerequisite: minimum grade of 2.0 in ECON 300. Offered: jointly with GWSS 447.

ECON 448 Population and Development (5) I&S, DIV International economic development, with a focus on population issues. Demography, poverty and income inequality, fertility choice and sex selection, household production models and intra-household inequality, parental investments in child health and education, including discrimination against girls, and migration and urbanization. Evidence-based policy and differential impacts on diverse communities within developing societies. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 450 Public Finance: Expenditure Policy (5) I&S Application of normative microeconomic theory to analysis of government expenditures. Rationale for government economic activity, collective choice, public goods, and externalities, income redistribution, public sector pricing, and specific expenditure programs. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 451 Public Finance: Tax Policy (5) I&S Microeconomics of taxation: efficiency, incidence, effect on distribution of income, personal and corporate income taxes, sales and consumption taxes, taxation of property and estates. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 452 Economic Theory as Applied to the Political System (5) I&S Explanation and evaluation of the political system, using elementary economics theory. Topics include alternative voting rules, the political effectiveness of various types of groups, causes and consequences of logrolling, and bureaucratic organizations. Prerequisite: ECON 300. Offered: jointly with POL S 416.

ECON 454 Cost-Benefit Analysis (5) I&S Theory and practice of cost-benefit analysis of public sector projects and policies. Welfare criteria, investment criteria, shadow prices, social discount rate, marginal-willingness-to-pay for non-market goods,

social risk, and special topics. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 455 Microeconomics of Public Policy (5) I&S

Topics include general equilibrium analysis of efficiency and equity, income and substitution effects, analysis of alternative welfare programs, intergovernmental grants, price discrimination, price controls, rationing, industry regulation, and public goods. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 464 Financial Crisis (5) I&S Causes, effects, and cures for financial crisis traced through history from the Tulip Bubble, to the Great Depression, to the East Asian Crisis of 1997, and beyond. Explores the original work of Fisher, Keynes, Friedman, and Krugman, among others. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 471 International Trade (5) I&S Theory of comparative advantage and different models of international trade. Trade and welfare. Factor mobility and trade flows. Economic integration. Theory and practice of commercial policy. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 472 International Macroeconomics (5) I&S International monetary theory and open economy macroeconomics. Balance of payments and foreign exchange markets. Different exchange rate arrangements and their adjustment mechanisms. Money and international capital movements. Policy issues. The international monetary system. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 473 Topics in International Trade (5) I&S Advanced theory of trade and analysis of government trade policies. International trade and factor mobility. Theory of commercial policy. Prerequisite: minimum grade of 2.0 in ECON 301; ECON 471.

ECON 475 Economics of the European Union (5) I&S Analysis of economic issues relating to the European union. Explores the institutional aspects, the attempt to coordinate social and economic policies - welfare, employment, commercial, fiscal, and monetary - and the economic linkages between the European Union and the rest of the world. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 476 Trade, Foreign Direct Investment, and Labor Migration (5) I&S Covers the economic theory of foreign trade, foreign direct investment and international labor migration. Focuses on the phenomena of investment and migration, exploring their relations with trade and discussing relevant government policies. Real world examples and experience will be presented and explained in class. Prerequisite: 2.0 in ECON 301

ECON 482 Econometric Theory and Practice (5) NW Applies statistical modeling to empirical work in economics. Focuses on regression analysis; derivations of regression estimators and their properties; and applied computer work in estimating multiple regression models. Prerequisite: minimum grade of 2.0 in ECON 300; either ECON 311/STAT 311, MATH 390/STAT 390, or Q SCI 381.

ECON 483 Econometric Applications (5) NW Provides opportunity to learn econometric model building for a particular problem while applying the theory learned in various courses to specific economic cases. Estimate, test, and forecast economic models. Extensive use of the computer and econometric programs. Prerequisite: minimum grade of 2.0 in ECON 301; either ECON 311/STAT 311, STAT 341, MATH 390/STAT 390, or Q SCI 381.

ECON 484 Econometrics and Data Science (5) NW Advanced continuation of ECON 482 and ECON 483. Traditional topics: structural modeling, non-linear and logistic regression, the LASSO, and non-traditional topics: regression and classification trees, bagging, boosting, and random forests. Computer based, uses the R language, emphasizing interpretation, not formal proofs. Prerequisite: ECON 482; MATH 126.

ECON 485 Game Theory with Applications to Economics (5) NW Introduction to the main concepts of game theory: strategy, solution concepts for games, strategic behavior, commitment, cooperation, and incentives. Application to economics oligopoly theory, bargaining theory, and contract theory. Prerequisite: minimum grade of 2.0 in ECON 300.

ECON 486 Economics of Information (5) I&S Basic models of decision making and strategic interaction in the presence of imperfect and incomplete information. Information issues in market exchange

and in hierarchical settings. Includes adverse selection, moral hazard, signaling, and screening. Prerequisite: minimum grade of 2.0 in ECON 300; may not be taken for credit if credit received for ECON 402.

ECON 487 Data Science for Strategic Pricing (5) NW

Focuses on applying data science techniques using economic principles. Applies the theory of optimal pricing to real-world datasets using the statistical program R. Data science and machine learning for policy evaluation also covered. Prerequisite: minimum grade of 2.0 in ECON 300; minimum grade of 2.0 in either ECON 382 or ECON 482 (ECON 482 recommended) .

ECON 488 Causal Inference (5) NW Statistical methods for inference about counterfactuals. Focuses on uncovering causal relationships, whereby the researcher is interested in quantifying the effect of a cause on one or more outcome variables of interest. Program evaluation with data from randomized control trials, matching, instrumental variables and LATE, difference-in-difference, synthetic controls, and regression discontinuity design (sharp and fuzzy) . Prerequisite: ECON 482; recommended: MATH 126

ECON 490 Comparative Economic Systems (5) I&S Study of resource allocation, growth, and income distribution in capitalist, market socialist, and centrally planned economies. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 491 Issues in Economic Development (5) I&S Examines factors contributing to the economic problems of developing countries and possible solutions. Theory and applications in economic development and international trade. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 492 Macroeconomics of Emerging Markets (5) I&S Examines how the standard macroeconomic models that are used in industrial countries can be modified to help understand the macroeconomic issues facing emerging and developing countries. Covers topics including fiscal policy, inflation targeting, financial market stability, natural resource dependence, and institutional reforms. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 493 Economy of Modern China (5) I&S

Prerequisite: minimum 2.0 in ECON 301.

ECON 494 Economy of Japan (5) I&S Analysis of the economic growth of Japan since about 1850 to the present. The reasons for rapid industrialization, various effects of sustained economic growth, and significant contemporary issues are investigated.

Prerequisite: ECON 201.

ECON 495 Economies in Transition (5) I&S Analysis of the interaction between institutional change and economic performance in the transforming socialist economies. Resources allocation in command economies. Market institutions. Primary focus on empirical comparison of growth, productivity, and social institutions in former socialist economies in Asia, Europe, and Central Asia. Prerequisite: minimum grade of 2.0 in ECON 301.

ECON 496 Honors Seminar (5) I&S Honors and other students in high standing have the opportunity to develop research techniques, to pursue topics in breadth and depth, and to apply tools of economic analysis to selected topics in economic theory and current issues of national and international economic policy.

ECON 497 Honors Directed Study (5) Students write their honors thesis on the topic chosen in the Honors Seminar working under the previously arranged supervision of a faculty adviser. Prerequisite: ECON 496

ECON 498 Senior Seminar (5) I&S Advanced undergraduate research in economics. Students formulate some underlying economic issue, organize its study, gather necessary information, and analyze results. Does not satisfy graduation requirement for the major. Prerequisite: ECON 301; one 400-level ECON course.

ECON 499 Undergraduate Research (1-5, max. 10) May not be applied toward an advanced degree.

ECON 500 Microeconomic Analysis I (4) Duality and comparative statics analysis. Consumer and firm behavior. Uncertainty. Prerequisite: permission of instructor.

ECON 501 Microeconomic Analysis II (4) General equilibrium and welfare economics. Introduction to game theory. Prerequisite: ECON 500.

ECON 502 Macroeconomic Analysis I (4) Topics include theories of business cycles, dynamics of price adjustments, consumption theory, dynamic programming, introduction to numerical techniques, and open economy macroeconomics. Prerequisite: permission of instructor.

ECON 503 Macroeconomic Analysis II (4) Rational expectations in macroeconomic models. Dynamic optimizing models under uncertainty. Empirical examination of consumption, asset-pricing, and real business cycles. Prerequisite: ECON 502.

ECON 508 Microeconomic Analysis III (4) Information economics. Prerequisite: ECON 500; ECON 501.

ECON 509 Macroeconomic Analysis III (4) Modern macroeconomic dynamics, presenting a range of approaches based on intertemporal optimization. Representative agent models with special emphasis on the analysis of government policy. More advanced discussion of economic growth. Prerequisite: ECON 502; ECON 503, or equivalent.

ECON 511 Advanced Microeconomic Theory: Selected Topics (3, max. 12) Seminar in advanced microtheory. Selected topics of special interest and significance. Prerequisite: ECON 500; ECON 501.

ECON 512 Advanced Macroeconomic Theory: Selected Topics (3, max. 12) Seminar in advanced macrotheory. Selected topics of special interest and significance.

ECON 515 Special Topics in Mathematical Economics (3, max. 12)

ECON 516 Noncooperative Game Theory (3) Study of both pure game theory and its applications to such problems as oligopoly pricing, non-cooperative bargaining, entry deterrence, reputation phenomena. Focus on game theory as a modeling tool as opposed to a body of known results. Prerequisite: ECON 508.

ECON 517 Foundations of Economic Analysis (3)

ECON 518 Contract Theory (3) Basic contract theory models, including hidden action and hidden information models. Current developments in contract theory. Prerequisite: ECON 508 or permission of instructor.

ECON 519 Economics of Contracts and Organizations: Empirics (3) Critically reviews empirical literature on contracts and organization. Topics include multi-tasking; incentives and risk sharing; relative and subjective performance evaluation; team production; tournament and promotion; efficiency wage; career concern; relational contracts; asset specificity and asset ownership; complexity, uncertainty, asset ownership; adverse selection. Prerequisite: ECON 518; ECON 582, or permission of instructor. Instructors: Shi

ECON 520 The Economics of Property Rights (3) Application of standard economic theory to analyze various forms of property rights as constraints of competition; the costs associated with delineation and enforcement of rights; the costs of negotiating and enforcing contracts for right transfers; resource allocation and income distribution implied by different property right and transaction cost constraints. Prerequisite: ECON 500; ECON 501, or permission of instructor.

ECON 523 Emergence of the State (3) Using tools of property rights, industrial organization, and game theory, explores the emergence of the state. Specifies conditions conducive to constitutional rule. Analyzes circumstances amenable to state-promoted exchange as opposed to self-enforced agreements. Prerequisite: ECON 500; ECON 501, or permission of instructor.

ECON 525 Computational Economics (3) Develops a basic understanding of computational techniques used in the economic literature. Demonstrates, with economic examples, when and how these techniques are used and why and how they work. Prerequisite: ECON 580; ECON 581; ECON 582.

ECON 527 Empirics and Theory in Macroeconomics (3) Explores the integration of empirical and theoretical methods central to macroeconomic research. Exposes students to frontier areas of research to help them learn substantive material and transition to conducting their own independent

research. Prerequisite: ECON 502; ECON 503; ECON 509; ECON 581; ECON 582.

ECON 528 Micro Heterogeneity in Macroeconomics

(3) Discusses the role of heterogeneity in impulse and propagation of shocks to output, consumption, and asset prices. Covers empirical methods and theoretical models to further our understanding of these topics.

ECON 534 Empirical Industrial Organization (3)

Exposes students to the research frontier in empirical industrial organization. Topics include identification in linear models, models of product differentiation, estimation in data-rich environments, static games of imperfect competition, dynamic games of imperfect competition, and computational approaches to large-scale games.

ECON 535 Natural Resource Economics (3) Half of integrated two-course sequence in environmental and natural resource economics. Dynamic optimization. Nonrenewable resource extraction and exploration, including effects of market structure, uncertainty, and taxation. Renewable resources, including fisheries and forests. Prerequisite: ECON 500; ECON 501, or permission of instructor.

ECON 536 Environmental Economics (3) Half of integrated two-course sequence in environmental and natural resource economics. Theory of externalities. Normative and positive analysis of policy instruments for environmental management. Theory and methods of measuring environmental and resource values. Prerequisite: ECON 500; ECON 501, or permission of instructor.

ECON 537 Economic Aspects of Marine Policy (3)

Development of pertinent economic concepts and their application to selected topics in marine policy decision making, including maritime policy, OCS oil and gas development, and wetlands management. Prerequisite: SMEA 500 or permission of instructor. Offered: jointly with SMEA 537; W.

ECON 538 Economics of Living Marine Resources (3)

Develops pertinent economic concepts and applications for conservation, regulation, and restoration of fisheries and other living resources. Gives special attention to fishery management, including harvest regulation and enforcement,

recreational fisheries evaluation, property rights regimes, contemporary issues, and marine protected area management. Offered: jointly with SMEA 538; Sp.

ECON 539 Economics of Natural Resources Seminar III (3)

ECON 541 Labor Economics (3) Theoretical and empirical analysis of the labor market, focusing on the time allocation and labor supply decisions of individuals and households and the determinants of wages and wage differentials.

ECON 542 Labor Economics (3) Theoretical and empirical analysis of the labor market. The determinants of labor supply and demand, human capital investment, the pattern of compensation, employment contracts and incentives, unemployment and labor market dynamics.

ECON 543 Population Economics (3) Analysis of population issues from an economic perspective. Focuses on the study of household behavior in both developed and developing countries. Studies areas including fertility decisions, health and mortality, investment in education, the intra-household allocation of resources, and household structure and marriage. Prerequisite: ECON 501.

ECON 547 Health Policy Economics (3) Applies economic theory to selected topics in healthcare, including information, risk and insurance, industry organization, government regulation, and public health issues. Emphasizes policy implications of these applications. Offered: jointly with HSERV 587.

ECON 550 Public Finance: Expenditure Policy (3)

Theory of public finance with emphasis on public expenditures. Social welfare maximization, public goods and externalities, decreasing cost industries, theory of collective choice, second-best analysis. Prerequisite: ECON 500; ECON 501, or permission of instructor.

ECON 551 Public Finance: Tax Policy (3)

Theory of public finance with emphasis on taxation. Second-best analysis, optimal taxation, general equilibrium incidence analysis, issues in personal income taxation and corporate income taxation. Prerequisite: ECON 500; ECON 501, or permission of instructor.

ECON 554 Cost-Benefit Analysis (3) Covers the theoretical foundations of cost-benefit analysis using graduate microeconomics. Stresses both the conceptual and practical problems encountered in the subject. Emphasis on problem solving and term project. Prerequisite: ECON 500; ECON 501.

ECON 568 Game Theory for Social Scientists (5) Studies non-cooperative game-theory and provides tools to derive appropriate statistical models from game-theoretic models of behavior. Equilibrium concepts, learning, repeated games and experimental game theory. Prerequisite: MATH 112, MATH 124, or MATH 134; STAT 311/ECON 311 or equivalent. Offered: jointly with CS&SS 568.

ECON 571 International Trade Theory (3) Comparative advantage, resource allocation, income distribution, and foreign trade. Different theories of trade, with or without perfect competition and constant returns. International factor mobility. Prerequisite: ECON 500; ECON 501.

ECON 572 International Financial and Monetary Economics (3) Analysis of open economy macro models with emphasis on exchange rates and balance of payments determination. Prerequisite: ECON 502; ECON 503.

ECON 573 International Commercial Policy (3) Analysis of welfare aspects of international trade and factor mobility. Costs and benefits of protection; implications of different government policies. Import competition and response. Prerequisite: ECON 500; ECON 502.

ECON 574 International Macroeconomics (3) Surveys recent developments in international macroeconomics, placing particular emphasis on the dynamic aspects. One sector, multisector, and two-country international models discussed. Fiscal issues treated in depth. Stochastic aspects introduced and related to the literature on international real business cycles. Prerequisite: ECON 509 or equivalent.

ECON 575 International Trade and Macroeconomics (3) Studies how international macroeconomic models with trade microfoundations can shed light on questions in international macroeconomics. Theories are confronted with evidence, and special attention is paid to the roles of produces entry and

exit into markets, and of firm heterogeneity, in shaping aggregate fluctuations and economic policy outcomes.

ECON 580 Econometrics I: Introduction to Mathematical Statistics (4) Examines methods, tools, and theory of mathematical statistics. Covers, probability densities, transformations, moment generating functions, conditional expectation. Bayesian analysis with conjugate priors, hypothesis tests, the Neyman-Pearson Lemma. Likelihood ratio tests, confidence intervals, maximum likelihood estimation, Central limit theorem, Slutsky Theorems, and the delta-method. Prerequisite: STAT 311/ECON 311; either MATH 136 or MATH 126 with either MATH 308 or MATH 309. (Credit allowed for only one of STAT 390, STAT 481, and ECON 580.) Offered: jointly with CS&SS 509/STAT 509.

ECON 581 Econometrics II (4) Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: either ECON 580, CS&SS 509, or STAT 509.

ECON 582 Econometrics III (4) Methods, tools, and theory of econometrics as the basis for empirical investigation in economics. Specification, testing, and use of econometric models with reference to examples in the literature. Prerequisite: ECON 581.

ECON 583 Econometric Theory I (3) Estimation and testing in linear and nonlinear regression models. Asymptotic theory, bootstrapping. Theoretical developments are reinforced with a variety of empirical examples and applications. Prerequisite: ECON 580, ECON 581, ECON 582 or equivalent.

ECON 584 Econometric Theory II (3) Continuation of ECON 583. Analysis of stationary and nonstationary, univariate, and multivariate time series models. Emphasis on empirical applications. Prerequisite: ECON 583.

ECON 585 Econometric Theory III (3) Econometric issues that arise in applied microeconomic research. Topics range from standard methods to recent developments. Focus varies yearly to reflect interests of instructors and students. Prerequisite: ECON 582 or equivalent.

ECON 586 Advanced Applied Time Series Analysis

(3) Time series and empirical macroeconomics with focus on applications of time series analysis to various topics in macroeconomics and finance. Topics include: state-space models and Kalman filter; Markov-switching models and their extensions; Bayesian Gibbs sampling; randomization; and measurement of volatility.

ECON 587 Applied Microeconometrics (3)

Application of microeconomics methods. Topics include treatment effects, instrumental variables, natural experiments, measurement error, panel data, difference-in-differences, sibling data, regression discontinuity, randomization, and quantile regression. Prerequisite: ECON 582.

ECON 588 Bayesian Econometrics (3)

Introduces the Bayesian approach to econometrics, and examines how estimation problems can be recast in a Bayesian light. Emphasizes practical technique. Examines Bayesian methods, standard econometric models, and computational issues.

ECON 589 Financial Econometrics (4)

Focuses on statistical modeling of financial time series with an emphasis on modeling volatility and correlation. Topics include statistical properties of asset returns, volatility and correlation modeling, statistical analysis of ultra high frequency time series, and estimation of continuous time models for asset returns. Prerequisite: ECON 583; either ECON 584 or STAT 519.

ECON 590 Analysis of Economies in Transition (3)

Theoretical and empirical analysis of major issues in development economics, with a focus on testing theory and applied research methodology. Topics include randomization, program evaluation, structural vs. reduced-form analysis, and issues in social economics. Prerequisite: micro- and macroeconomic theory or permission of instructor.

ECON 591 Microeconomics of Development (3)

Theoretical and empirical analysis of the microeconomics of development. Focuses on the study of household behavior in developing countries and how households respond to missing/imperfect markets. Topics include land access, nutrition and productivity, responses to risks and shocks, credit markets, micro-finance, and program evaluation. Prerequisite: ECON 501.

ECON 592 Development Policy (3) Theoretical and empirical analysis of macroeconomic policies pursued by developing countries. Topics include the determination of exchange rates and relative prices in small economies; the examination of government spending, taxation, banking, trade, and labor market policies; and the evaluation of market-oriented economic reform programs. Prerequisite: ECON 503.

ECON 593 Topics in Microeconomics of

Development (3) Builds on ECON 591, studying a variety of special topics in development economics, including health, education, political economy, behavioral development economics, and environmental economics in developing countries.

ECON 594 Economic Growth (3)

Studies various theoretical approaches to the question of why some countries are richer than others using generalizations and extensions of contemporary macroeconomic theory. Discusses the implications of various macroeconomic policies for economic growth. Prerequisite: ECON 502; ECON 503; ECON 509.

ECON 595 Growth and Inequality (3)

Introduces the modern tools of macroeconomic analysis, in the context of several research topics in the areas of growth and inequality. Helps prepare students to undertake research of their own.

ECON 596 Research Issues in Microeconomics (3)

Provides opportunity to practice research and presentation skills in applied and theoretical microeconomics. Students develop and refine thesis topics under faculty supervision. Maximum of 6 credits allowed in 596, 597, and 598 combined. Credit/no-credit only.

ECON 599 Research Issues in Econometrics (3)

For second-year students or above who plan to do research in micro-econometrics or nonparametric and semi-parametric econometrics. Provides a forum for state-of-the-art research and an opportunity for students to practice research and presentation skills in applied and theoretical econometrics. Credit/no-credit only.

ECON 600 Independent Study or Research (*-)

Credit/no-credit only.

ECON 601 Internship (1-9, max. 9) Credit/no-credit only.

ECON 602 Teaching Introductory Economics (1)
Examines problems encountered in preparing and presenting courses in introductory economics. Credit/no-credit only.

ECON 800 Doctoral Dissertation (*-) Credit/no-credit only.

ENGLISH

ENGL 101 Writing from Sources I (5) Academic reading and graphics from different genres to provide opportunities for noticing lexis and grammar of genre and specific topic. Students discuss topic, receiving feedback on use of structures and lexis, and write short responses to the type of questions that might be asked on exams related to the readings. Sentence-level issues related to sentence structure and lexis. Limited to student admitted to UW with English language requirement. Offered: AWSp.

ENGL 102 Essentials of College Reading & Writing (5) Develop and practice the reading, writing and critical thinking strategies needed for analyzing and responding to academic texts. Strengthen grammar, organization and vocabulary to improve accuracy and fluency in writing. Prerequisite: either ENGL 101 or placement by test score.

ENGL 103 Writing from Sources (5) Developmental and practice of reading, writing, and critical thinking strategies needed to create organized and correctly documented papers using academic sources. Practices critical reading of academic texts, developing research questions, making claims, determining credibility of sources, and appropriately citing sources in writing. Prerequisite: either ENGL 102 or placement by test score. Offered: AWSpS.

ENGL 104 Essentials of College Communication (5) Discover how to take effective notes, give clear presentations and oral reports, and participate in important class discussions. Practice asking engaging questions, sharing opinions, and arguing your point persuasively in the classroom. Offered: AWSp.

ENGL 105 English for International Teaching Assistants (5) Develops language production skills, lesson planning and presentation skills, and TA-student interaction skills related to classroom teaching for international teaching assistants. Requires speak exam.

ENGL 106 Advanced Placement (AP) English Preparation for University Study in English (5, max. 10) Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

ENGL 107 International Baccalaureate (IB) English Preparation for University Study in English (5) Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

ENGL 108 Writing Ready: Preparing for College Writing (5) Builds writing confidence through frequent informal writing, and introductions to key learning strategies. Includes user-friendly orientation to library and research documents, revision skills, and peer review work central to 100- and 200-level college writing assignments. Offered: A.

ENGL 109 Introductory Composition (5-)

ENGL 110 Introductory Composition (-5) C Development of writing skills: sentence strategies and paragraph structures. Expository, critical, and persuasive essay techniques based on analysis of selected readings. For Educational Opportunity Program students only, upon recommendation by the Office of Minority Affairs.

ENGL 111 Composition: Literature (5) C Study and practice of good writing; topics derived from reading and discussing stories, poems, essays, and plays. Cannot be taken if student has already received a grade of 2.0 or higher in either ENGL 111, ENGL 121, or ENGL 131.

ENGL 115 Writing Studio (2) Supports multilingual students concurrently enrolled in a composition course. Builds academic reading skills in order to analyze complex texts, review, and analyze grammar structures to produce different writing effects. Also assists students to develop critical reflective skills to become better familiarized with the writing and revision process. Credit/no-credit only.

ENGL 121 Composition: Social Issues (5) C Focuses on the study and practice of good writing: topics derived from a variety of personal, academic, and public subjects. Includes a service-learning component allowing students to engage with and write about social issues in applied ways.. Cannot be taken if student has already received a grade of 2.0 or higher in either ENGL 111, ENGL 121, or ENGL 131.

ENGL 131 Composition: Exposition (5) C Study and practice of good writing: topics derived from a variety of personal, academic, and public subjects. Cannot be taken if student has already received a grade of 2.0 or higher in either ENGL 111, ENGL 121, or ENGL 131.

ENGL 141 The Research Paper (5) C Includes study of library resources, the analysis of reading materials, and writing preparatory papers as basic to writing a reference or research paper. Prerequisite: Either ENGL 111, ENGL 121, or ENGL 131.

ENGL 182 Composition: Multimodal (5) C Study and practice of strategies/skills for effective writing/argument in various situations, disciplines, genres; explicit focus on how multimodal elements of writing--words, images, sound, design, etc.-- work together to produce meaning. Cannot be taken if student already received a 2.0 or higher in ENGL 111, 121, or 131.

ENGL 195 STUDY ABROAD (1-5, max. 15)
Equivalency for 100-level English courses taken on UW study abroad programs or direct exchanges. General elective credit only; may not apply to major requirements.

ENGL 197 Interdisciplinary Writing/Humanities (5, max. 15) C Expository writing based on material presented in a specified humanities lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

ENGL 198 Interdisciplinary Writing/Social Science (5, max. 15) C Expository writing based on material presented in a specified social science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces

of analytic prose. Concurrent registration in specified course required.

ENGL 199 Interdisciplinary Writing/Natural Science (5, max. 15) C Expository writing based on material presented in a specific natural science lecture course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required.

ENGL 200 Reading Literary Forms (5) VLPA Covers techniques and practice in reading and enjoying literature in its various forms: poetry, drama, prose fiction, and film. Examines such features of literary meanings as imagery, characterization, narration, and patterning in sound and sense. Offered: AWSp.

ENGL 201 Introduction to English Within the Humanities (5) VLPA Concepts in the study of language, literature, history, culture, and civilization. Offers substantive encounters with a range of humanities and methods of study. Offered: AWSp.

ENGL 202 Introduction to the Study of English Language and Literature (5) VLPA Gateway course designed for English pre-majors and majors. Introduces critical, historical, and theoretical frameworks important to studying the literature, language, and cultures of English. Cannot be taken for credit if student has taken ENGL 301.

ENGL 204 Popular Fiction and Media (5) VLPA Introduces students to the study of popular culture, possibly including print or visual media, understood as sites of critical reflection. Particular attention to dynamics of production and reception, aesthetics and technique, and cultural politics. Topics may foreground genres (science fiction; romance) or forms (comics; graffiti) . Offered: S.

ENGL 205 Method, Imagination, and Inquiry (5) VLPA Examines ideas of method and imagination in a variety of texts, in literature, philosophy, and science. Particularly concerned with intellectual backgrounds and methods of inquiry that have shaped modern Western literature. Offered: jointly with CHID 205.

ENGL 206 Rhetoric in Everyday Life (5) VLPA Introductory rhetoric course that examines the strategic use of and situated means through which

images, texts, objects, and symbols inform, persuade, and shape social practices in various contexts. Topics focus on education, public policy, politics, law, journalism, media, digital cultural, globalization, popular culture, and the arts.

ENGL 207 Introduction to Cultural Studies (5) I&S/VLPA *Kimberlee Gillis-Bridges* Introduces cultural studies as an interdisciplinary field and practice. Explores multiple histories of the field with an emphasis on current issues and developments. Focuses on culture as a site of political and social debate and struggle. Offered: S.

ENGL 210 Medieval and Early Modern Literature, 400 to 1600 (5) VLPA Introduces literature from the Middle Ages and the Age of Shakespeare, focusing on major works that have shaped the development of literary and intellectual traditions of these periods. Offered: AWSp.

ENGL 211 Literature, 1500-1800 (5) VLPA *Coldewey, Remley, Shields, Streitberger* Introduces literature from the Age of Shakespeare to the American and French Revolutions, focusing on major works that have shaped the development of literary and intellectual traditions in these centuries. Topics include: The Renaissance, religious and political reforms, exploration and colonialism, vernacular cultures, and scientific thought. Offered: AWSpS.

ENGL 212 Literature, 1700-1900 (5) VLPA Introduces eighteenth- and nineteenth-century literature, focusing on representative works that illustrate literary and intellectual developments of the period. Topics include: exploration, empire, colonialism, slavery, revolution, and nation-building. Offered: AWSp.

ENGL 213 Modern and Postmodern Literature (5) VLPA Introduces twentieth-century literature and contemporary literature, focusing on representative works that illustrate literary and intellectual developments since 1900.

ENGL 225 Shakespeare (5) VLPA Introduces Shakespeare's career as dramatist, with study of representative comedies, tragedies, romances, and history plays.

ENGL 242 Reading Prose Fiction (5) VLPA Critical interpretation and meaning in works of prose fiction, representing a variety of types and periods.

ENGL 243 Reading Poetry (5) VLPA Critical interpretation and meaning in poems, representing a variety of types and periods.

ENGL 244 Reading Drama (5) VLPA Critical interpretation and meaning in plays, representing a variety of types and periods.

ENGL 250 American Literature (5) VLPA Introduces American culture through a careful reading of a variety of representative texts in their historical contexts.

ENGL 251 Literature and American Political Culture (5) VLPA/I&S Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with POL S 281.

ENGL 256 Introduction to Queer Cultural Studies (5) I&S, DIV Examines the cultural practices in literature, film, and art that articulate and give meaning to bodies, sexualities, and desires. Teaches critical thinking about identity, power, inequalities, and marginality. Offered: jointly with GWSS 264.

ENGL 257 Asian-American Literature (5) VLPA, DIV Examines the emergence of Asian American literature as a response to anti-Asian legislation, cultural images, and American racial formation. Encourages thinking critically about identity, power, inequalities, and experiences of marginality.

ENGL 258 Introduction African American Literature (5) VLPA, DIV Introduction to various genres of African American literature from its beginnings to the present. Emphasizes the cultural and historical context of African American literary expression and its aesthetics criteria. Explores key issues and debates, such as race and racism, inequality, literary form, and canonical acceptance. Offered: jointly with AFRAM 214.

ENGL 259 Literature and Social Difference (5) VLPA, DIV Literary texts are important evidence for social

difference (gender, race, class, ethnicity, language, citizenship status, sexuality, ability) in contemporary and historical contexts. Examines texts that encourage and provoke us to ask larger questions about identity, power, privilege, society, and the role of culture in present-day or historical settings.

ENGL 265 Introduction to Environmental Humanities (5) I&S/VLPA, DIV Introduces the study of the environment through literature, culture, and history. Topics include changing ideas about nature, wilderness, ecology, pollution, climate, and human/animal relations, with particular emphasis on environmental justice and the unequal distribution of environmental crises, both globally and along class, race and gender lines.

ENGL 266 Literature and Technology (5) VLPA J. Knight Provides an introduction to manuscript, print, and digital media cultures with a focus on the production and dissemination of literature in English. Topics include the history of the book, reading and reception, orality and literacy, editing and publishing, early computing, and the future of literary writing in a digital era.

ENGL 270 The Uses of the English Language (5) VLPA Surveys the assumptions, methodologies, and major issues of English in its cultural settings. Connects English language study with the study of literature, orality and literacy, education, ethnicity, gender, and public policy.

ENGL 277 Introduction to Children's and Young Adult Literature (5) VLPA Introduction to creative works written for children and young adults, with emphasis on historical, cultural, institutional, and industrial contexts of production and reception. Also examines changing assumptions about the social and educational function of children's and young adult literature.

ENGL 281 Intermediate Expository Writing (5) C Writing papers communicating information and opinion to develop accurate, competent, and effective expression.

ENGL 282 Intermediate Multimodal Composition (5) C Strategies for composing effective multimodal texts for print, digital physical delivery, with focus on affordances of various modes--words, images, sound, design, and gesture--and genres to address

specific rhetorical situations both within and beyond the academy. Although the course has no prerequisites, instructors assume knowledge of academic writing.

ENGL 283 Beginning Verse Writing (5) VLPA Intensive study of the ways and means of making a poem.

ENGL 284 Beginning Short Story Writing (5) VLPA Introduction to the theory and practice of writing the short story.

ENGL 285 Writers on Writing (5) VLPA *Bosworth, Kenney, Shields, Sonenberg* Experiencing literature from the inside. Members of the creative writing faculty and other practicing writers discuss their poetry, fiction, and literary nonfiction, literary inspiration, artistic practice, and the writer's life.

ENGL 288 Introduction to Professional and Technical Writing (5) C Engages in professional genres and communication practices in light of emerging technologies. Students produce texts that prepare them to enter professional spaces. Offered: AWSp.

ENGL 295 Study Abroad (1-5, max. 30) VLPA Equivalency for 200-level English courses taken on UW study abroad programs or direct exchanges. May not apply to major requirements.

ENGL 296 Critical Literacy in the Natural Sciences (5) C *Megan Callow* Develops critical literacy in the diffuse but interlocking disciplines of the natural sciences. Through analysis and composition of various texts, students become authoritative participants in scientific discourse while also becoming familiar with ways that Western values are embedded and centered (often invisibly) in the sciences and its related institutions. Offered: AWSp.

ENGL 297 Intermediate Interdisciplinary Writing - Humanities (5, max. 15) C Expository writing based on materials presented in a specified humanities course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required. Offered: AWSpS.

ENGL 298 Intermediate Interdisciplinary Writing - Social Sciences (5, max. 15) C Expository writing based on materials presented in a specified social science course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required. Offered: AWSpS.

ENGL 299 Intermediate Interdisciplinary Writing - Natural Sciences (5, max. 15) C Expository writing based on materials presented in a specified natural science course. Assignments include drafts of papers to be submitted in the specified course, and other pieces of analytical prose. Concurrent registration in the specified course required. Offered: AWSpS.

ENGL 300 Reading Major Texts (5) VLPA Intensive examination of one or a few major works of literature. Classroom work to develop skills of careful and critical reading. Book selection varies, but reading consists of major works by important authors and of selected supplementary materials.

ENGL 302 Critical Practice (5) VLPA Intensive study of, and exercise in, applying important or influential interpretive practices for studying language, literature, and culture, along with consideration of their powers/limits. Focuses on developing critical writing abilities. Topics vary and may include critical and interpretive practice from scripture and myth to more contemporary approaches, including newer interdisciplinary practices. Prerequisite: minimum 2.0 in ENGL 202.

ENGL 303 History of Literary Criticism and Theory I (5) VLPA Literary criticism and theory from its beginnings in Plato through the early twentieth century. Philosophical and theoretical grounds for critical practice put forward by philosophers and critics.

ENGL 304 History of Literary Criticism and Theory II (5) VLPA Provides an introduction to contemporary literary, cultural, and critical theory and modern antecedents. Explores frameworks used in study of literature and culture by scholars today.

ENGL 305 Theories of Imagination (5) VLPA/I&S Survey of theories of imagination since the seventeenth century. Focuses on the uses of the concept in literature, criticism, science, and society.

ENGL 306 Introduction to Rhetoric (5) VLPA Introduces rhetorical theory from the classical period to the present, including an overview of core issues, vocabulary, and concepts in rhetorical theory; a discussion of methods for studying rhetoric, and a consideration of the social importance of studying rhetoric in the contemporary moment.

ENGL 307 Cultural Studies (5) VLPA Overview of cultural studies with a focus on reading texts or objects using cultural studies methods and writing analytic essays using cultural studies methods. Focuses on culture as a site of political and social debate and struggle.

ENGL 308 Marxism and Literary Theory (5) VLPA Introduces Marxist theory and methodology. Explores how and why Marx's writings, Marxist theory, and materialist methods became central to the study of literature and culture over the course of the twentieth century.

ENGL 309 Theories of Reading (5) VLPA Investigates what it means to be a reader. Centers on authorial and reading challenges, shifting cultural and theoretical norms, and changes in the public's reading standards.

ENGL 310 The Bible as Literature (5) VLPA Introduction to the development of the religious ideas and institutions of ancient Israel, with selected readings from the Old Testament and New Testament. Emphasis on reading The Bible with literary and historical understanding.

ENGL 311 Modern Jewish Literature in Translation (5) VLPA Survey of Jewish experience and its literary expression since 1880. Includes such Yiddish writers as Sholom Aleichem, Peretz, and I. B. Singer; such Israeli writers as Agnon, Hazaz, and Appelfeld; and such writers in non-Jewish languages as Primo Levi and Kafka.

ENGL 312 Jewish Literature: Biblical to Modern (5) VLPA/I&S, DIV A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism. Various critical approaches;

geographic and historic contexts. Offered: jointly with JEW ST 312.

ENGL 313 Modern European Literature in Translation (5) VLPA Covers selected fiction, poetry, drama, and nonfiction (diaries, manifestos, etc.) in translation by European writers from the mid-19th century to the present. Considers questions of aesthetics, history, and form. Writers may include Bachmann, Baudelaire, Brecht, Celan, Chekhov, Dostoevsky, Ferrante, Flaubert, Ibsen, Jelinek, Kafka, Perec, Proust, Rilke, Tsvetaeva, and Undset.

ENGL 314 Transatlantic Literature and Culture (5) VLPA Explores literatures and cultures produced in the Atlantic world. Emphasizes historical lines of communication and exchange among Atlantic cultures and their literature.

ENGL 315 Literary Modernism (5) VLPA Introduces the genealogy, character, and consequences, of modernism/modernity. Topics may include: preoccupations with novelty/the new; narratives of historical development; temporality; constructions of high and low culture; intersections between aesthetics and politics; transnationalism; and philosophical influences upon literary modernism.

ENGL 316 Postcolonial Literature and Culture (5, max. 10) VLPA, DIV Readings of major texts and writers in postcolonial literature and culture. Surveys some of the most important questions and debates in postcolonial literature, including issues of identity, globalization, language, and nationalism. Cultural focus may vary; see professor for specific details.

ENGL 317 Literature of the Americas (5) VLPA, DIV Examines writings by and about people of the Americas, with a focus on intersections of gender, colonialism, race, sexuality, and ethnicity.

ENGL 318 Black Literary Genres (5) VLPA, DIV Considers how generic forms and conventions have been discussed and distributed in the larger context of African American, or other African diasporic literary studies. Links the relationship between generic forms to questions of power within social, cultural, and historical contexts. Offered: jointly with AFRAM 318; AWSp.

ENGL 319 African Literatures (5) VLPA, DIV *Chrisman* Introduces and explores African

literatures from a range of regions. Pays particular attention to writings connected with the historical experiences of colonialism, anti-colonial resistance, and decolonization. Considers the operations of race, gender, nationhood, neocolonialism, and globalization within and across these writings. Offered: AWSp.

ENGL 320 English Literature: The Middle Ages (5) VLPA Literary culture of Middle Ages in England, as seen in selected works from earlier and later periods, ages of Beowulf and of Geoffrey Chaucer. Read in translation, except for a few later works, which are read in Middle English.

ENGL 321 Chaucer (5) VLPA Chaucer's Canterbury Tales and other poetry, with attention to Chaucer's social, historical, and intellectual milieu.

ENGL 322 English Literature: The Elizabethan Age (5) VLPA Covers literature and culture of the English Renaissance through the age of Shakespeare. May include poetry by the first English laureates, the drama of the first public theaters and prose by the first English essayists.

ENGL 323 Shakespeare to 1603 (5) VLPA Explores Shakespeare's early drama and poetry. May include the sonnets, narrative poems, and selected comedies, histories, or tragedies.

ENGL 324 Shakespeare after 1603 (5) VLPA Explores Shakespeare's later works. Focuses on the mature tragedies and late-career romances, by may include selected comedies and histories.

ENGL 325 English Literature: The Late Renaissance (5) VLPA Covers literature and culture of the late Renaissance in England, from the age of Shakespeare to the English Revolution. May include verse by the metaphysical poets, drama by Jacobean playwrights and rivals to Shakespeare, and selected prose.

ENGL 326 Milton (5) VLPA Milton's early poems and the prose; *Paradise Lost*, *Paradise Regained*, and *Samson Agonistes*, with attention to the religious, intellectual, and literary contexts.

ENGL 327 English Literature: Restoration and Early Eighteenth Century (5) VLPA Examines the impact of historical changes including urban growth and

imperial expansion on print culture through selections of poetry, prose, and drama from authors such as Aphra Behn, John Dryden, Alexander Pope, Joseph Addison, and Jonathan Swift.

ENGL 328 English Literature: Later Eighteenth Century (5) VLPA Explores an era of tension between reason and felling; antiquity and modernity; and conservatism and revolution. Readings may include gothic novels by Ann Radcliffe and Matthew Lewis, poetry by Oliver Goldsmith and Robert Burns; and nonfiction prose by Samuel Johnson and Thomas Paine.

ENGL 329 Rise of the English Novel (5) VLPA Traces the development of a major and popular modern literary genre - the novel. Readings survey forms of fiction including the picaresque, the gothic, the epistolary novel, and the romance. Authors range from Daniel Defoe to Jane Austen and beyond.

ENGL 330 English Literature: The Romantic Age (5) VLPA Literary, intellectual, and historical ferment of the period from the French Revolution to the 1830s. Readings from major authors in different literary forms; discussions of critical and philosophical issues in a time of change.

ENGL 331 Romantic Poetry I (5) VLPA Blake, Wordsworth, Coleridge, and their contemporaries.

ENGL 332 Romantic Poetry II (5) VLPA Byron, Shelley, Keats, and their contemporaries.

ENGL 333 English Novel: Early and Middle Nineteenth Century (5) VLPA Explores the romantic and early-Victorian phases of the English novel. May include gothic, historical, or realist works. Possible authors include: Scott, Austen, the Brontes, and Dickens.

ENGL 334 English Novel: Later Nineteenth Century (5) VLPA Examines the high water mark of the realist novel, as well as its fragmentation into popular genres like science and detective fiction and the emergence of literary modernism. Possible authors include: George Eliot, Thomas Hardy, Robert Louis Stevenson, Marie Corelli, Olive Schreiner, H.G. Wells, and Joseph Conrad.

ENGL 335 English Literature: The Age of Victoria (5) VLPA Examines literary works from Victorian Britain and its empire (1837-1901), paired with contemporary social, scientific, and historical developments such as industrialization; urbanization; child labor; imperial expansion; scientific ideas of evolution and geologic time; changing ideas of gender/sexuality; mass education and mass literacy; and the popularization of print media.

ENGL 336 English Literature: Early Twentieth Century (5) VLPA Explores fiction, poetry, and drama in English from the period of 1900-1945. Considers the literature in socio-historical context. Modernism, realism, imperialism, and questions of nationality may be foregrounded.

ENGL 337 The Modern Novel (5) VLPA Explores the novel in English from the first half of the twentieth century. May include such writers as Virginia Woolf, D.H. Lawrence, Gertrude Stein, E.M. Forster, Claude McKay, Elizabeth Bowen, Raja Rao, William Faulkner, Jean Rhys, and Edith Wharton. Includes history and changing aesthetics of the novel as form, alongside the sociohistorical context.

ENGL 338 Modern Poetry (5) VLPA Covers poetry from the 1890s through the 1940s, focusing on modernism and the avant-garde. This period, with the birth of free verse, is one of formal and social tumult. Likely topics include Imagism and Dada; the Harlem Renaissance; World War I and the Great Depression; urbanization; and the New Woman. Authors may include Eliot, H.D., Hughes, Loy, Moore, Pound, Stein, Stevens, Williams, and Yeats.

ENGL 339 English Literature: Contemporary England (5) VLPA Engages literary-historical approaches to the post-1945 period in England, Scotland, Wales, and Ireland. Emphasizes the history and aesthetics of form, alongside issues of contemporary society. Social realism, literary experimentation, dialect, the fate of the bildungsroman, and questions of nationality may be foregrounded. Possible authors range from Orwell to Zadie Smith.

ENGL 340 Anglo-Irish Literature (5) VLPA Principal writers in English of the modern Irish literary movement - Yeats, Joyce, Synge, Gregory, and O'Casey among them - with attention to traditions of Irish culture and history.

ENGL 341 Studies in the Novel (5) VLPA Explores the workings and evolution of the novel. Introduces the distinct styles and purposes of the novel, such as the romance, the roman-a-clef, realism, naturalism, modernism, and postmodernism.

ENGL 342 Contemporary Novel (5) VLPA Study of recent fiction by diverse writers with attention to contemporary ideas in all kinds of forms.

ENGL 343 Studies in Poetry (5) VLPA Explores the workings and development of poetry and poetic theory. Possible topics may include theories and practices of individual genres (e.g. lyric, epic, romance, verse drama) or subgenres (e.g. the ode, the sonnet, the sestina) and verse forms (regular meter vs. free verse) .

ENGL 344 Studies in Drama (5) VLPA Explores the workings and historical development of theatrical practices, including performance and spectatorship more broadly. Possible topics include genres of drama (tragedy, mystery play, melodrama, agitprop) ; histories of drama (Elizabethan theater, Theater of the Absurd, the Mbari Mbayo club, In-Your-Face Theater; and theorists of performance and dramaturgy.

ENGL 345 Studies in Film (5) VLPA Types, techniques, and issues explored by filmmakers. Emphasis on narrative, image, and point of view.

ENGL 346 Studies in Short Fiction (5) VLPA The American and English short story, with attention to the influence of writers of other cultures. Aspects of the short story that distinguish it, in style and purpose, from longer fiction.

ENGL 347 Studies in Non-Fiction Prose (5) VLPA Explores the workings and evolution of non-fiction prose, Introduces the distinct styles and purposes on non-fiction prose such as autobiography, biography, personal essay, reflective and meditative writing, social and scientific inquiry, and persuasive writing.

ENGL 348 Studies in Popular Culture (5) VLPA Explores one or more popular genres (fantasy, romance, mystery) or media (comics, television, videogames) , with attention to historical development, distinctive formal features, and reading protocols. May include study of audience, reception histories, or fan cultures.

ENGL 349 Science Fiction and Fantasy (5) VLPA The study of the development of and specific debates in the related genres of fantasy and science fiction literatures

ENGL 350 American Fiction (5) VLPA Study of novels and shorter fiction by diverse writers, ranging from the earliest narratives to the present. Considers the history and aesthetics of genres of fiction as embedded in their social and cultural context.

ENGL 351 American Literature: The Colonial Period (5) VLPA Examines writings from the earliest explorations of America, encounters with, and responses from, indigenous peoples, and colorization, through the early period of the United States. Readings may include a variety of genres from histories, captivity narratives, autobiographies, to the first novels and poetry of the republic.

ENGL 352 American Literature: The Early Nation (5) VLPA Explores American fiction, poetry, and prose from the early nineteenth century through the Civil War. May include such representative authors of the period as Emerson, Melville, Hawthorne, Douglass and Fuller, along with supplementary study of the broader cultural and political milieu.

ENGL 353 American Literature: Later Nineteenth Century (5) VLPA Explores American fiction, poetry, and prose during the latter half of the nineteenth century. May include such representative authors of the period as Twain, Dickinson, DuBois, Crane, Wharton and Chopin, along with supplementary study of the broader cultural and political milieu.

ENGL 354 American Literature: Early Twentieth Century (5) VLPA Investigates the period of American literary modernism (1900 to WW II) . Topics include nationalism, migration, race, gender, and the impact of the visual arts on literary modernism, as well as the relation between modernity/modernization (social, economic, and technological transformation) and modernism (revolution in literary style) .

ENGL 355 American Literature: Contemporary America (5) VLPA Examines recent American literature and its historical and cultural contexts.

ENGL 356 American Poetry (5) VLPA Examines American poetry in its historical and cultural

contexts. Possible authors include Dickinson, Whitman, Eliot, Frost, Hughes, Brooks, Ginsberg, and Plath.

ENGL 357 Jewish American Literature and Culture (5) VLPA, DIV *Butwin* Examines the literary and cultural production of American Jews from the colonial period to the present time. Considers ways in which American Jews assimilate and resist assimilation while Jewish writers, filmmakers, playwrights, and graphic novelists imitate and alter American life and literature. Offered: jointly with JEW ST 357; AWSp.

ENGL 358 African American Literature (5) VLPA, DIV Selected writings, novels, short stories, plays, and poems by African American and African-descended writers in or from the United States. Study of the historical, cultural, and intellectual context for the development of literary work by such writers, including attention to identity, power, and inequality. Offered: jointly with AFRAM 358.

ENGL 359 Contemporary American Indian Literature (5) VLPA, DIV Creative writings (novels, short stories, poems) of contemporary Indian authors; the traditions out of which these works evolved. Differences between Indian writers and writers of the dominant European/American mainstream. Offered: jointly with AIS 377.

ENGL 360 American Literature and Culture (5) VLPA/I&S American literature and culture in its political and cultural context. Emphasizes an interdisciplinary approach to American literature and culture, including history, politics, anthropology, and mass media.

ENGL 361 American Political Culture: After 1865 (5) VLPA/I&S, DIV American literature in its political and cultural context from the Civil War to the present. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Includes attention to thinking critically about differences of power and inequality stemming from sociocultural, political, and economic difference.

ENGL 362 Latino Literary Genres (5) VLPA, DIV Considers how conventions of genre have been distributed in U.S Latino literature and beyond in networks of Latino transnationalism and trans-

border exchanges. Links the relationship between generic forms to questions of power within social, cultural, and historical contexts.

ENGL 363 Literature and the Other Arts and Disciplines (5, max. 10) VLPA Examines the relationships between literature and other arts: for example, painting, photography, architecture, and music; or between literature and other disciplines, such as sciences (e.g. biology, physics, and math) and social sciences (e.g. sociology, psychology, fashion, and environmental studies).

ENGL 364 Literature and Medicine (5) VLPA/I&S How changing concepts of doctor-patient relationship and of body depicted in literary texts affect decisions throughout the human life cycle. Medicine and disease as metaphors for personal experience and social analysis.

ENGL 365 Literature and Discourse on the Environment (5) VLPA *Blake, Handwerk Pays* attention to verbal expression; forms and genres; and historical, cultural, and conceptual contexts of the natural environment. Focuses on sites, nations, and historical periods. Forms and genres include: nature writing, environmentalist discourses, the pastoral, the sublime, discourses of the city, fiction, poetry, nonfiction prose, dramatic forms, and religious texts. Offered: AWSpS.

ENGL 366 Literature and Law (5) VLPA Introduces and explores topics in law and literature, with a focus on the relationship between legal materials and literary or cultural imaginaries. Surveys debates in the field of law and literature or focuses on a specific problem, genre, or historical period.

ENGL 367 Gender Studies in Literature (5, max. 15) VLPA, DIV The study of contemporary approaches to analyzing the gender politics of literature and culture. Examines special topics in the history and development of the major theoretical trends, including the relationship of certain theories of gender to relevant works of literature.

ENGL 368 Women Writers (5, max. 15) VLPA, DIV Investigates how perceptions of "woman writer" shape understandings of women's literary works and the forms in which they compose. Examines texts by women writers with attention to sociocultural, economic, and political context. Considers gender as

a form of social difference as well as power relationships structured around gender inequality.

ENGL 369 Research Methods in Language and Rhetoric (5) VLPA Introduces research theories and methodological approaches in language and rhetoric. Methods and content focus vary by instructor and may include ethnography, corpus analysis, case study, discourse analysis, rhetorical criticism, and various other qualitative and quantitative research methods.

ENGL 370 English Language Study (5) VLPA Wide-ranging introduction to the study of written and spoken English. Includes the nature of language; ways of describing language; the use of language study as an approach to English literature and the teaching of English.

ENGL 371 English Syntax (5) VLPA Description of sentence, phrase, and word structures in present-day English.

ENGL 372 World Englishes (5) VLPA, DIV Examines historical, linguistic, economic, and sociopolitical forces involved in the diversification of Global/New Englishes. Attention to changing power relations, language hierarchies, and inequalities associated with the teaching, learning, and use of English. Explores current debates on linguistic imperialism and resistance, concepts of 'mother tongue', nativeness, comprehensibility/intelligibility judgments, and language ownership.

ENGL 373 History of the English Language (5) VLPA Explores evolution of English sounds, forms, structures, and word meanings from Anglo-Saxon times to the present. Topics include the history of standardizing practices, colonial/post-colonial English, the evolution of English words, and textual history.

ENGL 374 The Language of Literature (5) VLPA Examines the ways that literary texts structure and use language. Topics may include sound, meter, style, sentence and discourse structure, conversation strategies, narrative orientation, and/or dialect/variation in literature.

ENGL 375 Rhetorical Genre Theory and Practice (5) Explores the workings and evolution of rhetorical genres as they emerge from and shape recurring

social situations. Focuses on the relationship between form and content, and how the typified rhetorical features and linguistic styles of genres are related to specific purposes, activities, relations, and identities.

ENGL 376 Introduction to Middle English Language (5) VLPA *Moore* Explores the language and culture of the Middle English period in England (1100-1500). Examines Middle English texts, the cultural importance of written material, the shifting roles of literacy in early England, the relationship to French and Latin, the regional dialects of English in the period, and manuscript culture. Offered: AWP.

ENGL 378 Special Topics in Theories/Methods (5, max. 15) Introduces and explores a specific area of theory or method as it has influence the production, practice, or study of literature, language, and culture in English.

ENGL 379 Special Topics in Forms/Genres/Media (5, max. 15) Introduces and explores a specific area of form, genre, or media as it has influenced the production, practice, or study of literature, language, and culture in English.

ENGL 380 Special Topics in Histories (5, max. 15) Introduces and explores a specific area of history as it has influenced the production, practice, or study of literature, language, and culture in English.

ENGL 381 Advanced Expository Writing (5) C Concentration on the development of prose style for experienced writers.

ENGL 382 Special Topics in Multimodal Composition (5, max. 10) C Focuses on emerging questions, debates, genres, and methods of multimodal analysis and production. Topics vary but might include transmedia storytelling, digital humanities, audiovisual essays, new media journalism, and performance. Although course has no prerequisites, instructors, assume knowledge of academic argumentation strategies.

ENGL 383 The Craft of Verse (5) VLPA Intensive study of various aspects of the craft verse. Readings in contemporary verse and writing using emulation and imitation. Prerequisite: ENGL 283; ENGL 284.

ENGL 384 The Craft of Prose (5) VLPA Intensive study of various aspects of the craft of fiction or creative nonfiction. Readings in contemporary prose and writing using emulation and imitation. Prerequisite: ENGL 283; ENGL 284.

ENGL 385 Modernism/Modernity (5) Introduces and explores the genealogy, character, and consequences of the modern for textual production and reception. Addresses competing conceptions of modernism and periodizations of modernity, including: preoccupations with novelty/the new; narratives of historical development; temporality; constructions of high and low culture; intersections between aesthetics and politics; and transnationalism.

ENGL 386 Asian-American Literature (5) I&S/VLPA, DIV Examines different forms of Asian American expression as a response to racial formations in local and global contexts. Teaches critical thinking about identity, power, inequalities, and marginality.

ENGL 387 Screenwriting (5) VLPA *Shawn H. Wong* Students read screenwriting manuals and screenplays, analyze exemplary films, and write synopses, treatments, and first acts of their own screenplays.

ENGL 388 Professional and Technical Writing (5) C Prepares students to become conscious and conscientious communicators in various modes, platforms, and professions. Recommended: ENGL 288. Offered: AWSp.

ENGL 395 Study Abroad (1-5, max. 30) VLPA Relates major works of literature, literary theory and criticism, or creative writing to the landscape and activities of their settings for students in UW English Department study abroad programs. Equivalency for upper-division English coursework taken on a UW study abroad program or direct exchange.

ENGL 407 Special Topics in Cultural Studies (5) VLPA Advanced work in cultural studies.

ENGL 411 Introduction to the Folktale Among Literate Peoples (3) VLPA Techniques of classification, geographic-historical distribution, theories of origin and interpretations, and related areas of investigation of the oral prose folk narrative of literate peoples.

ENGL 422 Arthurian Legends (5) VLPA Medieval romance in its cultural and historical setting, with concentration on the evolution of Arthurian romance.

ENGL 430 British Writers: Studies in Major Authors (5, max. 15) VLPA Concentration on one writer or a special group of British writers.

ENGL 431 Topics in British Literature (5, max. 15) VLPA Themes and topics of special meaning to British literature.

ENGL 440 Special Studies in Literature (3/5, max. 10) VLPA Themes and topics offering special approaches to literature.

ENGL 442 The Novel: Special Studies (5, max. 10) VLPA Readings may be English or American and drawn from different periods, or they may concentrate on different types - gothic, experimental, novel of consciousness, realistic novel. Special attention to the novel as a distinct literary form. Specific topic varies from quarter to quarter.

ENGL 443 Poetry: Special Studies (5, max. 10) VLPA A poetic tradition or group of poems connected by subject matter or poetic technique. Specific topics vary, but might include poetry as a geography of mind, the development of the love lyric, the comic poem.

ENGL 444 Dramatic Literature: Special Studies (5, max. 10) VLPA Study of a particular dramatic tradition (such as expressionism or the absurd theatre) or character (the clown) or technique (play-within-a-play, the neoclassical three unities). Topics vary.

ENGL 451 American Writers: Studies in Major Authors (5, max. 15) VLPA Concentration on one writer or a special group of American writers.

ENGL 452 Topics in American Literature (5, max. 15) VLPA Exploration of a theme or special topic in American literary expression.

ENGL 453 Introduction to American Folklore (5) VLPA Study of different kinds of folklore inherited from America's past and to be found in America today.

ENGL 457 Pacific Northwest Literature (5) VLPA
Concentrates in alternate years on either prose or poetry of the Pacific Northwest. Prose works examine early exploration, conflicts of native and settlement cultures, various social and economic conflicts. Pacific Northwest poetry includes consideration of its sources, formative influences, and emergence into national prominence.

ENGL 466 Queer and LGBT Studies (5) VLPA/I&S, DIV
Special topics in queer theory and lesbian/gay/bisexual/transgender (LGBT) studies. Examination of ways lesbian, bisexual, transgender and queer histories and cultures are represented in criticism, literature, film, performance, and popular culture.

ENGL 470 Theory and Practice of Teaching Literature (5, max. 10) VLPA
Reviews the institutional history of English as an academic discipline and the core debates and politics that have shaped the content, teaching, and study of literature and literacy theory. Introduces some theoretical and methodological approaches that inform the teaching of literature.

ENGL 471 Theory and Practice of Teaching Writing (5) VLPA
Reviews the research, core debates, and politics that have shaped the practice, teaching and study of writing. Introduces theoretical and methodological approaches that inform the teaching and learning of writing.

ENGL 472 Language Learning (5) VLPA
Consideration of how an individual achieves psychological and esthetic grasp of reality through language; relates language development to reading skills, literary interpretation, grammar acquisition, oral fluency, discursive and imaginative writing.

ENGL 473 Current Developments in English Studies: Conference (5) VLPA

ENGL 474 Special Topics in English for Teachers (1-10, max. 10) VLPA

ENGL 475 Colloquium in English for Teachers (1-5, max. 10) VLPA

ENGL 476 Puget Sound Writing Program Institute (10) VLPA
Focus on the writing process and the

teaching of writing, accomplished through research, writing, reflection, and demonstration of writing instruction. Affiliated with the National Writing Project.

ENGL 477 Children's Literature (5) VLPA
An examination of books that form a part of the imaginative experience of children, as well as a part of a larger literary heritage, viewed in the light of their social, psychological, political, and moral implications.

ENGL 478 Language and Social Policy (5) VLPA/I&S, DIV
Examines the relationship between language policy and social organization; the impact of language policy on immigration, education, and access to resources and political institutions; language policy and revolutionary change; language rights.

ENGL 479 Language Variation and Language Policy in North America (5) VLPA/I&S, DIV
Surveys basic issues of language variation: phonological, syntactic, semantic, and narrative/discourse differences among speech communities of North American English; examines how language policy can affect access to education, the labor force, and political institutions.

ENGL 481 Special Studies in Expository Writing (5) VLPA
Individual projects in various types of nonfictional prose, such as biographical sketches, informational reports, literary reviews, and essays.

ENGL 483 Advanced Verse Workshop (5, max. 10) VLPA
Intensive verse workshop. Emphasis on the production and discussion of student poetry. Prerequisite: ENGL 383; ENGL 384.

ENGL 484 Advanced Prose Workshop (5, max. 10) VLPA
Intensive prose workshop. Emphasis on the production and discussion of student fiction and/or creative nonfiction. Prerequisite: ENGL 383; ENGL 384.

ENGL 485 Novel Writing (5, max. 15) VLPA
Experience in planning, writing, and revising a work of long fiction, whether from the outset, in progress, or in already completed draft. Prerequisite: ENGL 384.

ENGL 486 Playwriting (5, max. 10) VLPA Experience in planning, writing, and revising a play, whether from the outset, in progress, or in already completed draft.

ENGL 490 Looking Forward: Professionalization and Public Life (5) *Kimberlee Gillis-Bridges* Offers methods for students to identify transferrable skills gleaned while completing the English major. Connections between specific skills of literary/theoretical and critical reading and writing, and the demands of contemporary workplaces and civic life offer students the opportunity to consider their post-college goals. Students will develop an e-portfolio to help present their skills to potential employers. Offered: AWSp.

ENGL 491 Internship (1-6, max. 12) Supervised experience in local businesses and other agencies. Open only to upper-division English majors. Credit/no-credit only.

ENGL 492 Advanced Expository Writing Conference (1-5, max. 10) Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken.

ENGL 493 Advanced Creative Writing Conference (1-5, max. 10) Tutorial arranged by prior mutual agreement between individual student and instructor. Revision of manuscripts is emphasized, but new work may also be undertaken.

ENGL 494 Honors Seminar (5, max. 10) VLPA Survey of current issues confronting literary critics today, based on revolving themes and topics. Focuses on debates and developments affecting English language and literatures, including questions about: the relationship of culture and history; the effect of emergent technologies on literary study; the rise of interdisciplinary approaches in the humanities.

ENGL 495 Major Conference for Honors in Creative Writing (5) Special projects available to Honors students in creative writing. Required of, and limited to, Honors students in creative writing.

ENGL 496 Major Conference for Honors (5) Individual study (reading, papers) by arrangement with the instructor. Required of, and limited to, Honors seniors in English.

ENGL 497 Honors Senior Seminar (5) VLPA Seminar study of special topics in language and literary study. Limited to Honors students majoring in English.

ENGL 498 Senior Seminar (5) VLPA Seminar study of special topics in language and literary study. Limited to seniors majoring in English.

ENGL 499 Independent Study (1-5, max. 10) Individual study by arrangement with instructor.

ENGL 501 Textual Theory (5) Provides an introduction to the intellectual foundations of textual studies; historical background in disciplines of philology and textual criticism, theories of textuality from formalism and New Criticism to poststructuralism, and media-specific analysis; current and emerging concerns in the history of the book, media studies, globally comparative philologies, and digital humanities. Offered: jointly with C LIT 551.

ENGL 502 Manuscript Studies (5) An examination of the theoretical and methodological issues attending the study of written texts including literacy, circulation, production, and reception in Premodern genetics, and archival research methods. Offered: jointly with C LIT 552.

ENGL 503 Studies in Print Culture and Publication (5) An examination of the theoretical and methodological issues attending the study of printed texts; training in bibliography and the history of the book from Gutenberg's hand press to the machine and periodical presses of the nineteenth and twentieth centuries; and contemporary book art. Offered: jointly with C LIT 553.

ENGL 504 Digital Literary and Textual Studies (5) An examination of digital textuality from the rise and fall of "hypertext" to contemporary convergence and transmediation in hybrid visual-verbal genres; computer games, digital video, and e-poetry. Coverage of practical issues surrounding digital scholarship and the digital humanities. Offered: jointly with C LIT 554.

ENGL 505 Theories of American Literature (5) Examination of selected texts in American Literature, concentrating on the specific problems of interpretation and scholarship characteristic of the study of works in this field.

ENGL 506 Modern and Contemporary Critical Theory (5) Engages ongoing critical conversations that inform English studies, including: language, textual production, disciplinarity, the university, capital, nation formation, postcolonialism, the environment, race, gender, class, and sexuality. The historical focus is contemporary, with attention to foundational modern theorists.

ENGL 507 History of Literary Criticism and Theory I (5, max. 15) A general introduction to the major issues in the history of criticism followed by the study of the classical theorists, including Plato, Aristotle, Longinus, and the major medieval critics. Offered: jointly with C LIT 507.

ENGL 508 History of Literary Criticism and Theory II (5, max. 15) Literary criticism and theory from the Middle Ages and the Renaissance through the eighteenth century to, but not including, Kant. Offered: jointly with C LIT 508.

ENGL 509 History of Literary Criticism and Theory III (5, max. 15) Literary criticism and theory from Kant's Critique of Judgment to the mid-twentieth century and the work of Northrop Frye. Offered: jointly with C LIT 509.

ENGL 510 History of Literary Criticism and Theory IV (5, max. 15) A study of the major issues in literary criticism and theory since about 1965. Offered: jointly with C LIT 510.

ENGL 512 Introductory Reading in Old English (5)

ENGL 513 Old English Language and Literature (5, max. 15)

ENGL 514 Middle English (5, max. 15)

ENGL 515 Chaucer (5, max. 15)

ENGL 516 Topics in Medieval English Literature (5, max. 15)

ENGL 517 Sixteenth-Century Literature (5, max. 15)

ENGL 518 Shakespeare (5, max. 15)

ENGL 520 Seventeenth-Century Literature (5, max. 15)

ENGL 522 Topics in the English Renaissance, 1485-1660 (5, max. 15)

ENGL 555 Feminist Theories (5, max. 15)

ENGL 556 Cultural Studies (5, max. 15)

ENGL 558 Capstone in Textual and Digital Studies

(1) Capstone in Textual and Digital Studies.

Prerequisite: ENGL 501/C LIT 551; recommended: Must have completed a sequence of three courses, beginning with an Introduction to Textual Theory course (ENG 501/C LIT 551) and followed by one core elective and one open elective related to Textual and Digital Studies . Credit/no-credit only. Offered: jointly with C LIT 555.

ENGL 559 Literature and Other Disciplines (5, max. 15)**ENGL 560 The Nature of Language: History and Theory (5)****ENGL 561 Stylistics (5)****ENGL 562 Discourse Analysis (5)**

ENGL 563 Research Methods in Language and Rhetoric (5, max. 15) Introduces research theories and methodological approaches in language and rhetoric. Methods and content focus include ethnography, corpus analysis, case study, discourse analysis, rhetorical criticism, and various other qualitative and quantitative research methods.

ENGL 564 Current Rhetorical Theory (5, max. 15)

Prerequisite: teaching experience.

ENGL 567 Approaches to Teaching Composition (1-5, max. 10)

Readings in composition theory and discussion of practical classroom applications. Prerequisite: previous experience or concurrent assignment in teaching writing.

ENGL 568 Topics in Composition Studies (5, max. 15)

Covers various issues in composition studies including: the history of composition study, contemporary composition theory, basic writing, service-learning pedagogy, engaged scholarship, new media and digital studies, writing assessment, writing across the curriculum, and writing program administration.

ENGL 569 Topics in Language and Rhetoric (5, max. 15)

ENGL 570 Practicum in Teaching English as a Second Language (5, max. 10) Discussion and practice of

second-language teaching techniques. Three hours per week teaching required in addition to regular class meetings. Prerequisite: ENGL 571 or permission of instructor. Credit/no-credit only.

ENGL 571 Theory and Practice on Teaching English to Speakers of Other Languages (5, max. 10) Topics include second language reading, aural/oral skills, critical pedagogy, program administration, and language policy.

ENGL 572 Methods and Materials for Teaching English as a Second Language (5) Prerequisite: LING 445 or permission of instructor.

ENGL 574 Research Methods in Second-Language Acquisition (5) Prerequisite: ENGL 572, LING 449, or permission of instructor.

ENGL 575 Pedagogy and Grammar in Teaching English as a Second Language (5)

ENGL 576 Testing and Evaluation in English as a Second Language (5) Evaluation and testing of English language proficiency, including testing theory, types of tests, and teacher-prepared classroom tests. Prerequisite: ENGL 571 and ENGL 572 or permission of instructor.

ENGL 578 Colloquium in Teaching English to Speakers of Other Languages (5, max. 10) Overview of major issues in second-language acquisition, teaching methodology, and classroom practice with special emphasis on links between theories of language learning and practical aspects of teaching English to speakers of other languages.

ENGL 581 The Creative Writer as Critical Reader (5, max. 15)

ENGL 584 Advanced Fiction Workshop (5, max. 20) Prerequisite: graduate standing.

ENGL 585 Advanced Poetry Workshop (5, max. 20) Prerequisite: graduate standing.

ENGL 586 Graduate Writing Conference (5)

ENGL 587 Topics in the Teaching of Creative Writing (3/5)

ENGL 590 Master of Arts Essay (5/10, max. 10)

Research and writing project under the close supervision of a faculty member expert and with the consultation of a second faculty reader. The field of study is chosen by the student. Work is independent and varies. The model is an article in a scholarly journal. Prerequisite: graduate standing in English.

ENGL 591 Master of Arts for Teachers Essay (5)

Research and writing project under the close supervision of a faculty member expert in the field of study chosen by the student within the MAT degree orientation toward the teaching of English, and with the consultation of a second faculty reader. The model is an article in a scholarly journal.

ENGL 592 Graduate English Studies (1-5, max. 10)**ENGL 595 Topics in Teaching Literature (5, max. 15)**

ENGL 597 Directed Readings (*, max. 18) Intensive reading in literature or criticism, directed by members of doctoral supervisory committee. Credit/no-credit only.

ENGL 598 Colloquium in English (1-5, max. 10)

Lectures and seminars presented by visiting scholars or a range of local scholars relevant to English graduate studies.

ENGL 599 Special Studies in English (5, max. 15)**ENGL 600 Independent Study or Research (*-)**

ENGL 601 Internship (3-10, max. 10) Credit/no-credit only.

FRENCH 101 Elementary French (5) Development of speaking, listening, reading, and writing skills to a basic level of proficiency. Teaches students to communicate in French and understand the cultural context of the language. Methods and objectives are primarily oral-aural. Oral practice in the language

laboratory is required. First in a sequence of three. Prerequisite: FL placement test score of 0-14 only needed if French is the language of admission or if previous credit for French appears on transcript. If you have never taken French you do not need to take the placement exam.

FRENCH 102 Elementary French (5) Development of speaking, listening, reading, and writing skills to a basic level of proficiency. Teaches students to communicate in French and understand the cultural context of the language. Methods and objectives are primarily oral-aural. Oral practice in the language laboratory is required. Second in a sequence of three. Prerequisite: either FRENCH 101 or score of 15-30 on FR TL placement test.

FRENCH 103 Elementary French (5) Development of speaking, listening, reading, and writing skills to a basic level of proficiency. Teaches students to communicate in French and understand the cultural context of the language. Methods and objectives are primarily oral-aural. Oral practice in the language laboratory is required. Third in a sequence of three. Prerequisite: either FRENCH 102, FRENCH 110, or score of 31-56 on FR TL placement test.

FRENCH 134 First-year Intensive French (15)

Equivalent of FRENCH 101, FRENCH 102, FRENCH 103. No more than 15 credits allowed for any combination of FRENCH 101, FRENCH 102, FRENCH 103, and FRENCH 134. Offered: S.

FRENCH 199 Foreign Study - Elementary (4-16, max. 16)

Elementary level instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through FRENCH 103.

FRENCH 201 Intermediate French (5) VLPA Designed to bring students to an intermediate level of proficiency. Emphasis on experiencing the language in context through a multi-media approach. First in a sequence of three. Prerequisite: either FRENCH 103, FRENCH 134, or score of 57-100 on FR TL placement test.

FRENCH 202 Intermediate French (5) VLPA Designed to bring students to an intermediate level of proficiency. Emphasis on experiencing the language

in context through a multi-media approach. Second in a sequence of three. Prerequisite: FRENCH 201.

FRENCH 203 Intermediate French (5) VLPA Designed to bring students to an intermediate level of proficiency. Emphasis on experiencing the language in context through a multi-media approach. Third in a sequence of three. Prerequisite: FRENCH 202.

FRENCH 210 Paris (5) VLPA/I&S Taught in English. Provides an introduction to the art, architecture, politics, and literature of the City of Light.

FRENCH 211 Renaissance, Enlightenment, Revolution: Major Works in English (5) VLPA/I&S Introduction to major figures of French culture from the Middle Ages to the eighteenth century, their contributions to the intellectual life of the Western world. Readings include Montaigne, Descartes, Rousseau, Voltaire, and Moliere. In English. Offered: jointly with JSIS D 217.

FRENCH 212 French Masterworks: Modern in English (5) VLPA Introduction to major figures of French culture from the nineteenth and twentieth centuries. Readings include Balzac, Flaubert, Proust, Sartre, and Celine. In English.

FRENCH 214 The French Fairy Tale Tradition in English (5) VLPA *Delcourt* French fairy tales as a major trend in French literature and a continuing influence on modern fictions and films. Particular attention given to the numerous French women writers of fairy tales at the time of Charles Perrault (seventeenth century) and after. In English.

FRENCH 224 Culture and Media Forms (5) VLPA/I&S Explores French, Francophone, and European culture in history through a focus on varied and evolving media forms: manuscripts, printed books, digital media, visual forms, etc. Taught in English. Offered: jointly with JSIS A 224.

FRENCH 225 Dealing with Death in Francophone Literature and Media (5) VLPA Considers a broad range of French/Francophone cultural media from the Middle Ages to the late twentieth century whose primary concern is death. Investigates how authors and their characters understand, approach, rationalize, engage with, and are emotionally involved with death. Taught in ENGLISH.

FRENCH 226 The Idea of Europe in French Film (5) I&S/VLPA Demonstrates how the European ideal today emerged from a context of extreme conflict. Asks how traces of these conflicts might still haunt modern Europe. Students think critically about the ideals and problem spots of perceived European identity, particularly in relation to non-European cultures.

FRENCH 227 Intermediate Conversational French (2, max. 8) VLPA Practice of intermediate-level French conversational skills through class discussion and oral presentations. Topics oriented toward French culture and current events. Prerequisite: FRENCH 103

FRENCH 228 The Water Crisis in Literature and Film (5) VLPA/I&S *Watts* Interprets a variety of texts (literary, cinematic, etc.) that address the water crisis to understand how water's meaning has changed as people become more conscious of risks in supply (pollution and natural/man-made scarcity) and as access to it is increasingly mediated in light of things like privatization and commodification. Offered: jointly with LIT 228.

FRENCH 229 A Comparative Look at Immigrant Cultural Production in English (5) VLPA, DIV Explores cultural production of contemporary immigrant populations, primarily in France and the United States. Uses an interdisciplinary approach from fields of sociolinguistics, migrant/identity/cultural studies. Considers broad range of examples from interactions between immigrant groups and host countries. Informs students of the processes of identity (re) construction migrants undergo in new environments.

FRENCH 234 Second-year Intensive French (15) VLPA Taught through a task-based approach. This methodology entails exclusive use of French in class and focuses on communicative skills, fostering a highly interactive class in which the language is contextualized and emphasis is placed on meaning as well as forms. No more than 15 credits are allowed for any combination of FRENCH 201, FRENCH 202, FRENCH 203, and FRENCH 234. Prerequisite: either FRENCH 103, FRENCH 134, or score of 57-100 on FR TL placement test. Offered: S.

FRENCH 237 Foreign Study Conversational French (2-8, max. 8) VLPA For participants in foreign study programs.

FRENCH 240 Introduction to French and Italian Studies (5) VLPA Introduction to cultures, histories, and ideas from French and Italian-speaking countries. Attention given to connections with current and global issues. Readings and instruction in English. Offered: jointly with ITAL 240; S.

FRENCH 250 History of French Cinema in English (5) VLPA History of cinema in France from the birth of film, the seventh art, to the present. Socio-historical context of French cinema explored. In English.

FRENCH 297 Foreign Study - French Civilization (3/6, max. 6) VLPA For participants in the Study Abroad Program. Literary tradition, social and cultural values as reflected in literature. Paper (in English) and higher degree of participation required to earn 6 credits. In English.

FRENCH 299 Foreign Study - Intermediate (4-16, max. 16) VLPA Intermediate instruction in approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

FRENCH 301 Advanced French (5) VLPA Designed to bring students to an advanced level of proficiency in grammar and composition. Emphasis on experiencing the language in context through a multi-media approach. FRENCH 303 prepares students for literature classes. First in a sequence of three. Prerequisite: either FRENCH 203 or FRENCH 234.

FRENCH 302 Advanced French (5) VLPA Designed to bring students to an advanced level of proficiency in grammar and composition. Emphasis on experiencing the language in context through a multi-media approach. FRENCH 303 prepares students for literature classes. Second in a sequence of three. Prerequisite: FRENCH 301.

FRENCH 303 Advanced French (5) VLPA Designed to bring students to an advanced level of proficiency in grammar and composition. Emphasis on experiencing the language in context through a multi-media approach. Prerequisite: FRENCH 302.

FRENCH 304 Issues and Perspectives in French and Francophone Studies (5) VLPA For students majoring or minoring in French. Introduces objects study (literature, cinema, popular culture, etc.) and forms of knowledge, methods of analysis, and types of skills to be acquired. Taught in French. Prerequisite: FRENCH 302. Offered: ASp.

FRENCH 305 Texts and Traditions I (5) VLPA Provides broad historical introduction to texts and traditions from the Middle Ages to 1700 that have shaped French and Francophone literatures, art, cultures, political discourses, and histories. Texts surveyed are not a static corpus of "great works" but representative of cultural references with which most French speakers are familiar. Prerequisite: FRENCH 302. Offered: W.

FRENCH 306 Texts and Traditions II (5) VLPA Key texts in modern (French Revolution to the present) literature, cinema, and other forms of cultural production from France and the francophone world read in their cultural, political, and historical contexts. Taught in French. Prerequisite: FRENCH 302. Offered: ASp.

FRENCH 307 Survey of Francophone Literatures and Cultures (5) VLPA Survey of contemporary Francophone (post) colonial literatures and cultures. Prerequisite: FRENCH 302.

FRENCH 308 Foreign Study Composition (3-5, max. 10) VLPA For participants in foreign study programs. Compositions on topical subjects of intermediate difficulty relating to the civilization of the French-speaking countries of Europe. Grammar review as needed. Prerequisite: FRENCH 203.

FRENCH 313 Business Communication in French (5) VLPA Offers students the opportunity to develop French language skills (reading, writing, speaking, and listening) within the context of the French-speaking business world. Business-specific culture emphasized. Prerequisite: FRENCH 302.

FRENCH 314 French Language in Media and Politics (5) I&S/VLPA Develops and applies students' advanced French language skills (reading, writing, speaking, and listening) within the context of media, politics, and current events in the French-speaking world. Conducted in French. Prerequisite: FRENCH 302 Offered: Sp, even years.

FRENCH 315 Everything But Writing; Advanced Oral Skills Development (5) VLPA Focuses entirely on the development of oral production skills, listening comprehension skills and vocabulary expansion, through the use of audio-visual documents as well as texts. Using a task-based approach, achieves a high level of interaction among students while working on group projects and individual presentations. Also focuses on phonetics and pronunciation. Prerequisite: FRENCH 203 Offered: S.

FRENCH 320 French Language and Cultural Identity (5) VLPA/I&S Explores the French language as social practice. Students learn of the social aspect of the evolution of the French language, the dynamic relationship between language and identity, and the linguistic and cultural diversity in the Francophone world. Texts in English. Prerequisite: either FRENCH 103 or FRENCH 134.

FRENCH 327 Advanced Conversation (2, max. 8) VLPA Not open to students whose native language is French. Prerequisite: FRENCH 203.

FRENCH 337 Foreign Study Conversational French (2-8, max. 8) VLPA For participants in foreign study programs. Prerequisite: FRENCH 203.

FRENCH 373 Introduction to Localization and Project Management (5) Covers basic concepts of translation, localization, and internationalization. Explores rationales for localizing products; history and future of the industry; workflows, professional roles, and localization tools. Includes the application of central concepts of localization to real-life situations; and introduction to the basics of localization project management. Offered: jointly with LING 373.

FRENCH 374 Localization: Technology and Tools (5) Covers basic concepts of localization and internationalization. Examines how technology and tools are applied to solving translation and localization scenarios in the real world. Includes daily tasks and basic steps; machine translation; community localization; and experience with actual localization tools. Offered: jointly with LING 374.

FRENCH 376 Culture, Politics, and Society in France from the Religious Wars to Revolutions (5) VLPA/I&S Studies the development of intellectual, literary, and artistic cultures in the context of the

profound political and social evolutions of the Renaissance through the early nineteenth century in France. Taught in English.

FRENCH 378 The Making of Contemporary France (5) VLPA/I&S Study of the historical origins and subsequent development of contemporary problems and characteristics of French government and politics, economy, and society. Taught in English.

FRENCH 379 French and Francophone Cultural and Literary History through Digital Archives and Tools (5) VLPA/I&S Digital archives and tools offer new resources for studying French and Francophone culture, literature, and history, and have transformed the way to learn about these materials. Takes advantage of new resources, as well as to understand them better: how are these technologies reshaping the ways we undertake research?

FRENCH 390 Supervised Study (2-6, max. 20)

FRENCH 397 Foreign Study French Civilization (3/6, max. 6) VLPA For participants in the foreign study program. Literary tradition, social and cultural values as reflected in literature. Paper (in French) and higher degree of participation required to earn 6 credits. In French. Prerequisite: FRENCH 203.

FRENCH 404 Old French (5) VLPA

FRENCH 406 Advanced French Composition (5) VLPA Extensive guidance in advanced French composition, emphasizing stylistics and grammar. Prerequisite: FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 411 Topics in the Middle Ages (5) VLPA Sixteenth-century literature with emphasis on poetry and the general artistic ambiance. Prerequisite: FRENCH 304, FRENCH 305 or FRENCH 306.

FRENCH 412 Topics in Sixteenth Century French Literature (5) VLPA An introduction to major French literature and culture of the sixteenth century, usually with a guiding theme such as travel and the court. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 413 Topics in Seventeenth Century Literature (5) VLPA Seventeenth-century literature,

with emphasis on the development of classicism. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 414 French Literature of the Eighteenth Century: Enlightenment (5) VLPA Eighteenth-century literature, with emphasis on the development of the Enlightenment ideology. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 415 French Literature of the Eighteenth Century: Post-Enlightenment (5) VLPA Eighteenth-century literature, with emphasis on the "dark side of the Enlightenment" and nascent romanticism. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 416 French Literature of the Nineteenth Century: Romanticism (5) VLPA Nineteenth-century literature, with emphasis on romanticism and the early manifestations of realism. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 418 French Literature of the Early Twentieth Century (5) VLPA Twentieth-century literature, with emphasis on the period 1900-1939. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 419 French Literature Since World War II (5) VLPA Twentieth-century literature, with emphasis on the period 1939 to the present. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 420 Interdisciplinary Approaches to Literature (5) VLPA Interdisciplinary studies in French literature and culture, focusing on the complex interactions of literature and other disciplines, i.e. philosophy, psychoanalysis, anthropology, architecture. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 421 Psychoanalysis and Literature (5) VLPA Readings from Freud and French critical writers regarding the relationship between psychoanalysis and literature. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 427 Fiction: Twentieth Century (5) VLPA Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 431 Critical Approaches to French Poetry (5) VLPA Interdisciplinary approaches to French poetry focusing on the intersection of fine art, cultural movements, and the production of literature in the Second Empire and the Third Republic. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 432 Critical Approaches to French Fiction (5) VLPA Addresses theory and practice of fiction within the context of a given century or movement. Content varies. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 435 Topics in Non-Fiction (5) VLPA Content varies. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 441 Quebecois Literature (5) VLPA Readings of novels, plays, and occasionally, poetry. Special attention paid to how Quebecois authors represent in their works the complex socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306. Offered: jointly with JSIS A 441.

FRENCH 445 Women Writers (5) VLPA Focuses on French women writers and writing about women. Chronological and geographic range varies. Gender issues addressed in critical fashion, considering the different historical and ideological contexts in which each of the works was produced. Prerequisite: either FRENCH 304, FRENCH 305, FRENCH 306.

FRENCH 448 Cultures of Franco-America (5) VLPA/I&S, DIV Considers a broad range of literary and cultural texts emerging from the long history of the French in North America and Americans in France. Traces processes of racialization; paying particular attention to intersections between race and class, gender, and sexuality. Texts in French and English. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 450 Themes in French Literature and Culture (5) VLPA Interdisciplinary studies in French

literature and culture, focusing on the construction and representation of gender roles in the French novel from the early eighteenth century.

Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 451 History and Literature of the French Religious Wars (5) VLPA/I&S Major political, social, and religious movements and events of, and related to, the French religious wars of 1560 to the end of the century, along with the treatment of these in the prose, poetry, and drama of the period. For students receiving French credit, readings must be done in French. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 455 One Author in French Literature/Culture (5, max. 15) VLPA In-depth focus on the works of one author in French literature or culture. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 457 One Decade in French Literature and Culture (5, max. 15) VLPA Content varies. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 458 French Art and Literature: Period Studies (5) VLPA Comparative studies of theme and technique in art and literature to illustrate major concerns of a particular period as expressed in these two media. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 461 Seventeenth-Century Drama (5) VLPA Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 463 Nineteenth-Century Drama (5) VLPA Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 465 Twentieth-Century Drama (5) VLPA Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 470 Cinema (5) VLPA Major films and figures of French cinema from the beginnings to the present. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306.

FRENCH 472 Translation Theory and Practice (5) VLPA This course develops advanced translation skills through work on a variety of genres (literary, commercial, journalistic, etc.) and in a variety of modes (interpreting, subtitling, etc.) . It also engages translation theory by considering the problem of cultural difference embedded in language and broader issues of originality in and the "ownership" of the translated text. Conducted in French and English. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306. Offered: W, even years.

FRENCH 490 Honors Seminar (2-5, max. 10) VLPA Special studies in French literature. Required of candidates for Honors in French. Prerequisite: FRENCH 303; either FRENCH 304, FRENCH 305, FRENCH 306, or FRENCH 307.

FRENCH 499 Special Topics (1-5, max. 10) Topics to meet specific needs.

FRENCH 510 Methodology of French Language Teaching (3) Theoretical and practical foundation of teaching French. Major topics include modern theories of language and language acquisition which underlie modern methods of foreign language teaching, teaching techniques, testing, and classroom relations with emphasis on the multiple-approach direct method. Required for beginning French teaching assistants. Credit/no-credit only.

FRENCH 515 French Literature of the High Middle Ages (5, max. 10) Old French literature, from the beginning to 1315. Prerequisite: permission of instructor.

FRENCH 516 Middle French Literature (5, max. 10) French literature from 1315 to 1500. Prerequisite: permission of instructor.

FRENCH 541 History of the French Language (5) Survey of the phonological, morphological, and syntactical development of the French language from its origins to the present.

FRENCH 550 Methods in Literary and Humanistic Scholarship (5) Review of basic tools, techniques, and paradigms for scholarly research and writing in literary studies and the humanities. Offered: jointly with ITAL 550.

FRENCH 551 Theories of the Text from Medieval Manuscripts to Digital Media (5) Overview of textual theory and literary criticism. Foundations in philology and literary history. Bibliography and textual criticism. Formalist and poststructuralist critiques. Sociology and materiality of the text. History of the book. Texts in the digital age. Offered: jointly with ITAL 551.

FRENCH 552 Manuscript Cultures (5) Techniques, terminology, and bibliography of manuscript scholarship. The production of manuscripts from Antiquity through the Renaissance; the evolution of scripts; the rise of literacy; and the development of libraries in Italy and France. Topics and methods include material philology, textual criticism, relations between text/image, and the digitalization of manuscripts. Offered: jointly with ITAL 552.

FRENCH 553 Topics in Print Culture (5) Key readings, theoretical questions, and critical approaches in book history, focusing on printed texts from Gutenberg to today. The impacts of evolving technologies, material forms, and circulation within French, Italian, and other literary traditions. Methods and tools for evaluating an interpreting these impacts (bibliography, *histoire du livre*, and textual scholarship). Offered: jointly with ITAL 553.

FRENCH 565 Studies in French Drama (5, max. 10) Studies in French drama, sixteenth to twentieth centuries.

FRENCH 570 Seminar in Cinema (5, max. 10)
Prerequisite: permission of instructor.

FRENCH 577 Modern Critical Methods (5) Modern critical methodology and theory.

FRENCH 590 Special Seminar and Conference (1-10, max. 30) Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite: permission of the Graduate Program Coordinator.

FRENCH 591 Literary Problems: Middle Ages (5, max. 10)

FRENCH 592 Literary Problems: Renaissance (5, max. 10)

FRENCH 593 Literary Problems: Seventeenth Century (5, max. 10)

FRENCH 594 Literary Problems: Eighteenth Century (5, max. 10)

FRENCH 595 Literary Problems: Nineteenth Century (5, max. 10)

FRENCH 596 Literary Problems: Twentieth Century (5, max. 10)

FRENCH 600 Independent Study or Research (*-)

FRENCH 700 Master's Thesis (*-) Credit/no-credit only.

FRENCH 800 Doctoral Dissertation (*-) Credit/no-credit only.

ITALIAN

ITAL 101 Elementary Italian (5) Methods and objectives are primarily oral-aural. Use of audio material required. First in a sequence of three. Offered: A.

ITAL 102 Elementary Italian (5) Methods and objectives are primarily oral-aural. Use of audio material required. Second in a sequence of three. Prerequisite: either ITAL 101 or score of 15-30 on IT TL placement test. Offered: W.

ITAL 103 Elementary Italian (5) Methods and objectives are primarily oral-aural. Use of audio material required. Third in a sequence of three. Prerequisite: either ITAL 102, ITAL 111, or score of 31-56 on IT TL placement test. Offered: Sp.

ITAL 111 Accelerated First-Year Italian (10) Intensive version of ITAL 101 and ITAL 102 designed for highly motivated students.

ITAL 127 Beginning Conversational Italian (2, max. 6) Development of beginning-level Italian conversational skills through class discussions and oral presentations. Topics vary. Not open to native speakers.

ITAL 134 Intensive First-Year Italian (15) An intensive language course equivalent to ITAL 101, ITAL 102, ITAL 103, designed for highly motivated students. Not open for credit to students who have taken ITAL 102 and ITAL 103. Offered: S.

ITAL 199 Foreign Study - Elementary (4-16, max. 16) Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through ITAL 103.

ITAL 201 Intermediate Italian (5) VLPA Intensive speaking, reading, and writing. Functional review of grammar. First in a sequence of three. Prerequisite: either ITAL 103, ITAL 113, ITAL 134, or score of 57-100 on IT TL placement test.

ITAL 202 Intermediate Italian (5) VLPA Intensive speaking, reading, and writing. Functional review of grammar. Second in a sequence of three. Prerequisite: ITAL 201.

ITAL 203 Intermediate Italian (5) VLPA Intensive speaking, reading, and writing. Functional review of grammar. Third in a sequence of three. Prerequisite: ITAL 202.

ITAL 227 Intermediate Conversational Italian (2, max. 6) VLPA Development of intermediate-level Italian conversational skills through class discussions and oral presentations. Topics vary. Not open to native speakers. Prerequisite: ITAL 103.

ITAL 234 Intensive Second-Year Italian (15) VLPA Intensive language course designed for highly motivated students. Equivalent to ITAL 201, ITAL 202, ITAL 203. Prerequisite: either ITAL 103, ITAL 113, ITAL 134, or score of 57-100 on IT TL placement test. Offered: S.

ITAL 240 Introduction to French and Italian Studies (5) VLPA Introduction to cultures, histories, and ideas from French and Italian-speaking countries. Attention given to connections with current and global issues. Readings and instruction in English. Offered: jointly with FRENCH 240; S.

ITAL 250 Rome (5) VLPA/I&S Focuses on Rome as an historical, intellectual, and artistic world center.

Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ART H 250/HSTEU 250; W.

ITAL 260 Fashion, Nation, and Culture (5) VLPA/I&S *Gaylard* Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with ART H 260/JSIS A 260; W.

ITAL 261 Italian Cities (5) VLPA Introduces Italian culture by focusing on the past and present of five of the nation's most important cities: Rome, Florence, Venice, Milan, and Naples. Taught in English. Offered: jointly with ART H 261.

ITAL 262 Dante's Divine Comedy (5) VLPA Introduces Dante Alighieri's *Divine Comedy*. Covers Dante's journey through the afterlife. Explores questions about the nature of evil, the possibility for spiritual improvement, and the experience of true happiness. Identifies parallels with the modern day. Taught in English.

ITAL 299 Foreign Study - Intermediate (4-16, max. 16) VLPA Intermediate instruction in approved foreign study program. Evaluation by departmental adviser required to establish proficiency. Further study at 200-level subject to departmental evaluation.

ITAL 301 Advanced Italian Language through Contemporary Culture (5) VLPA Advanced Italian language study through authentic cultural documents. Prerequisite: either ITAL 203 or ITAL 234. Offered: A.

ITAL 302 Italian Cultural Traditions (5) VLPA Modern culture through literary, journalistic, cinematic, and other texts. Prerequisite: ITAL 301. Offered: W.

ITAL 303 Italian Stylistics (5) VLPA Functional grammar review; creative written and oral composition and reading, with special attention to problems of style. Prerequisite: ITAL 302.

ITAL 304 Issues and Perspectives in Italian Studies

(5) VLPA For students majoring or minoring in Italian. Introduces objects of study (literature, cinema, popular culture, etc.) and forms of knowledge, methods of analysis, and types of skills to be acquired. Taught in Italian. Offered: A.

ITAL 305 Texts and Traditions I (5) VLPA Provides broad historical introduction to texts and traditions from the Middle Ages to 1700 that have shaped Italian literature, art, culture, political discourse, and history. Texts surveyed are not a static corpus of "great works" but representative of cultural references with which most Italian speakers are familiar. Offered: W.

ITAL 306 Texts and Traditions II (5) VLPA Key texts in modern Italian literature, cinema, and other media read in their cultural, political, and historical contexts. Texts surveyed are not a static corpus of "great works" but representative of cultural references with which most Italian speakers are familiar. Taught in Italian. Prerequisite: ITAL 303.

ITAL 313 Made in Italy - Italian for Business (5- I&S G. Tassone) Prepares students to experience and actively engage in the dynamic world of Italian business, fosters cultural competency, hones practical communications skills, and cultivates linguistic expertise necessary for making connections in one of the world's most important economy. Provides students practical and transferable skills and empowers them in the global job market. Prerequisite: ITAL 202 or ITAL 234

ITAL 318 Italian Literature in English (5) VLPA

ITAL 327 Advanced Conversation (2, max. 8) VLPA Not open to students whose native language is Italian. Prerequisite: either ITAL 203 or ITAL 234.

ITAL 334 Intensive Third-Year Italian (15) VLPA Intensive advanced Italian language equivalent to ITAL 301, ITAL 302, and ITAL 303. Prerequisite: Either ITAL 203 or ITAL 234. Offered: S.

ITAL 341 Italian and American Poetry in Translation (5) VLPA Introduction to basic concepts and skills required for Italian-to-English translation. Examines the main aspects of contrastive grammar and stylistics used in translation, providing practical opportunities to incorporate and apply the material.

Exposure to a variety of types of translation. Prerequisite: either ITAL 203 or ITAL 234.

ITAL 342 Advanced Italian Composition and Essay Writing (5) VLPA

Addresses issues of syntax and grammar, register and style, and advanced vocabulary for academic writing. Teaches students to write a cogent, well-structured essay for upper-level literature classes in Italian. Writing intensive. Conducted in Italian (some material in English) . Prerequisite: either ITAL 203 or ITAL 234.

ITAL 343 Stylistics and Rhetoric (5) VLPA Introduces rhetorical devices and figures of speech through analysis of texts within Italian literary tradition. Particular attention given to poetic texts. Prerequisite: either ITAL 203 or ITAL 234.

ITAL 351 Contemporary Italian Culture (5) I&S Italian culture from the 1980s to the present, with discussion of major events of the period and readings from fiction, political manifestos, song lyrics, etc. Emphasis on recent linguistic developments, changed role of women, meaning of multiculturalism in Italy, and the spread of global culture. Conducted in Italian. Prerequisite: either ITAL 203 or ITAL 234.

ITAL 352 Italian Cultural History (5) VLPA/I&S Italian history and culture from the thirteenth to the twentieth century, with discussion of major historical and cultural events. Readings from selected bibliography and historical documents, literature, etc. Emphasis on the historical context of the most significant aspects of Italian culture through the centuries. Conducted in Italian.

ITAL 353 Language and Cultural Identity (5) VLPA/I&S Investigates the connection between Italian language and cultural identity, from Dante's linguistic theories in the early fourteenth century to nineteenth-century nationalist myths and today's transformations in Italian society. Taught in Italian. Prerequisite: ITAL 302.

ITAL 354 Travels, Migrations, and Exile (5) VLPA, DIV Literature of travel and exploration from medieval times to the twenty-first century as a means of evaluating historical societies, as well as recording responses to encountering real or imagined new places/people. Topics include epic

adventures, short stories, travel journals, the 'gran tour', quests of introspection. In English.

ITAL 355 Culture, Politics, and Media in Italy (5) VLPA/I&S *Beatrice Arduini* Role of media in shaping Italian history, culture, and politics: from medieval scriptoria, to Venice as Renaissance capital of printing, to Berlusconi's media empire. Topics include propaganda and political conflict; heresy and censorship; rising literacy, mass publics, and Americanization of Italian media. Taught in English. Offered: WSp.

ITAL 356 Italian Society in Film and Literature (5, max. 15) VLPA/I&S Studies the evolution of Italian postwar society through the analysis of film and literature as well as critical, historical, and sociological readings.

ITAL 357 Race in Italy: Inventing Others in the Early Modern World (5) VLPA, DIV Shifting Italian and European definitions of race and otherness in literary and visual representations from 1300-1700, ranging from medieval stories about Jews to 17th-century paintings. Topics include religion as race; language and nationalism; travel literature, costume history, and ethnography; and the presence of "black" Africans across Renaissance Europe. Taught in English.

ITAL 380 Italian Culture Seminar (1, max. 7) VLPA Focuses on culture topics (eg. cinema, the media, race and immigration) . Must be taken in conjunction with an ITAL 350-level course. Taught in Italian. Prerequisite: ITAL 203 or ITAL 234. Credit/no-credit only. Offered: AWP.

ITAL 390 Supervised Study (2-6, max. 20)

ITAL 399 Foreign Study: Advanced (4-16, max. 16) VLPA Advanced instruction in approved foreign study program.

ITAL 401 Medieval Italian Readings (5) VLPA Exploration of medieval Italian cultural history through a broad variety of literary and other textual traditions. Prerequisite: ITAL 302.

ITAL 402 Early Modern Italian Readings I (5) VLPA Readings in Italian Quattro/Cinquecento, covering

the period of the Renaissance. Prerequisite: ITAL 302.

ITAL 403 Early Modern Italian Readings II (5) VLPA Readings in Italian Sei/Settecento, covering the periods of Baroque and Enlightenment literature. Prerequisite: ITAL 302.

ITAL 404 Modern Italian Readings I (5) VLPA Readings in Italian Ottocento, covering the period of Romanticism. Prerequisite: ITAL 302.

ITAL 405 Modern Italian Readings II (5) VLPA Readings in Italian Novecento, covering the work of major Italian twentieth-century authors. Prerequisite: ITAL 302.

ITAL 431 Italian Theater (5) VLPA The development of Italian theater from the Renaissance to the twentieth century. Prerequisite: ITAL 302.

ITAL 465 Contemporary Italian Narrative (5, max. 15) VLPA Critical reading of selected modern exponents of the short story and novel. Prerequisite: ITAL 302.

ITAL 466 Italian Society in Cinema and Literature in Italian (5, max. 15) VLPA/I&S Studies the evolution of Italian postwar society through the analysis of film and literature as well as critical, historical, and sociological readings. Offered in Italian. Prerequisite: ITAL 302.

ITAL 470 Dante (5) VLPA Introduction to Dante's *Commedia* and minor works, conducted in Italian. Prerequisite: ITAL 302.

ITAL 475 Italian Fascism: Architecture and Power (5) VLPA/I&S Fascism in Italy as studied within the broader European context of nationalism, imperialism, and modernization, with particular emphasis on the arts - literature, film, architecture, and urbanism. Offered: jointly with ART H 495.

ITAL 480 Dante's Comedy in English (5) VLPA Introduction to Dante's *Comedy*. Considers formal, structural, linguistic, literary, historical, cultural, philosophical, and theological issues raised by the text. Discusses the main currents of twentieth-century Dante criticism.

ITAL 481 Dante's Comedy in English (5) VLPA

Second half of a two-quarter series. Close study of Dante's Purgatory and Paradiso and retrospective reading of Inferno. Explores Dante's concept of art, both human and divine, as it is developed in and defines the poem. Prerequisite: ITAL 480.

ITAL 482 The Decameron in English (5) VLPA An integral reading of the Decameron, with some consideration of its place in world literature and as an expression of the culture of its time.

ITAL 490 Proseminar in Italian Literature (3-5) VLPA

Intended to help students achieve a mature critical mastery of Italian literature.

ITAL 499 Special Topics (1-5, max. 10) Topics to meet specific needs. Prerequisite: either ITAL 302 or ITAL 334.

ITAL 501 Medieval Italian Readings (5) Exploration of medieval Italian cultural history through a broad variety of literary and other textual traditions.

ITAL 502 Early Modern Italian Readings I (5)

Readings in Italian Quattro/Cinquecento over the period of the Renaissance. Covers major intellectual, literary, and cultural movements and figures of the period, including humanistic rediscovery of Graeco-Roman models, chivalric poems, comic theater.

ITAL 503 Early Modern Italian Readings II (5)

Readings in Italian Sei/Settecento, covering the periods of Baroque and Enlightenment literature.

ITAL 504 Modern Italian Readings I (5)

Readings in Italian Ottocento, covering the period of Romanticism.

ITAL 505 Modern Italian Readings 2 (5)

Readings in Italian Novecento, covering the work of the major Italian twentieth-century authors.

ITAL 514 Dante (5, max. 10)

ITAL 531 Italian Theater (5) The development of Italian theater from the Renaissance to the twentieth century. Individual conferences with lecturing professor. Prerequisite: graduate students only.

ITAL 550 Methods in Literary and Humanistic Scholarship (5)

Review of basic tools, techniques, and paradigms for scholarly research and writing in literary studies and the humanities. Offered: jointly with FRENCH 550.

ITAL 551 Theories of the Text from Medieval Manuscripts to Digital Media (5)

Overview of textual theory and literary criticism. Foundations in philology and literary history. Bibliography and textual criticism. Formalist and poststructuralist critiques. Sociology and materiality of the text. History of the book. Texts in the digital age. Offered: jointly with FRENCH 551.

ITAL 552 Manuscript Cultures (5)

Techniques, terminology, and bibliography of manuscript scholarship. The production of manuscripts from Antiquity through the Renaissance; the evolution of scripts; the rise of literacy; and the development of libraries in Italy and France. Topics and methods include material philology, textual criticism, relations between text/image, and the digitalization of manuscripts. Offered: jointly with FRENCH 552.

ITAL 553 Topics in Print Culture (5)

Key readings, theoretical questions, and critical approaches in book history, focusing on printed texts from Gutenberg to today. The impacts of evolving technologies, material forms, and circulation within French, Italian, and other literary traditions. Methods and tools for evaluating an interpreting these impacts (bibliography, *histoire du livre*, and textual scholarship). Offered: jointly with FRENCH 553.

ITAL 560 Reading Fashion (5)

Examines the emergence and problematizing of the notion of "fashion" in early modern Europe, focusing on Italy, France, and England. Analyzes late medieval and early modern literary and visual reflections of "fashion" in relation to today's critical discourses on fashion. Taught in English.

ITAL 570 Seminar in Cinema (5)

Studies in various areas of Italian cinema, concentrating on major directors, critics, and movements. Prerequisite: permission of instructor.

ITAL 590 Special Seminar and Conference (1-10,

max. 30) Group seminars, or individual conferences,

are scheduled under this number to meet specific needs. Prerequisite: permission of instructor.

ITAL 591 Literary Problems: Middle Ages and Fourteenth Century (5, max. 10)

ITAL 592 Literary Problems: Renaissance (5, max. 10)

ITAL 593 Literary Problems: Early Modern (5, max. 10)

ITAL 594 Literary Problems: Eighteenth Century (5, max. 10)

ITAL 595 Literary Problems: Nineteenth Century (5, max. 10)

ITAL 596 Literary Problems: Twentieth Century (5, max. 10)

ITAL 600 Independent Study or Research (*-)

GENDER, WOMEN, AND SEXUALITY STUDIES

GWSS 200 Introduction to Women Studies (5) I&S, DIV Feminist analysis of the construction and enforcement of gender differences and gender inequalities in various contexts. Emphasis on the intersection of race, class, sexuality, and nationality in the lives of women. Topics include feminist theory, motherhood, popular culture, sexual autonomy, racism, and activism in the United States, Asia, Latin America. Offered: AWSpS.

GWSS 206 Philosophy of Feminism (5) I&S, DIV Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with PHIL 206/POL S 212.

GWSS 235 Global Feminist Art (5) VLPA/I&S Introduces feminism as a way of thinking about visual art practice in terms of social hierarchy, aesthetic form, and ideology. Explores how feminist artists working in diverse locations and cultural

traditions challenge, at the local and global level, artistic conventions and representations of gender, sexuality, race, class, and nationality. Offered: jointly with ANTH 235.

GWSS 241 Hip Hop and Indie Rock (5)

VLPA/I&S Habell-Pallan Introduction to pop music studies. Examines how archives, oral histories, and new media transform stories about music. Traces rhythms, tempos, and genres including blues, gospel, estilo bravo, punk, son jarocho, and disco that influence hip hop and indie rock, contextualizing their relation to gender, race/ethnicity, class, locality, and nation. Offered: Sp.

GWSS 244 Indigenous Feminisms (5) I&S, DIV

Ross Reconceptualizes and examines the formation of feminisms within a transnational indigenous framework. Topics include indigenous knowledge production, sovereignty, analyses of genders and sexualities, violence, poverty, the politics of reproduction, cultural identities, media, and environmental and social justice.

GWSS 251 Introduction to Gender and Popular Culture (5) I&S/VLPA

Habell-Pallan Introduction to critical examination of gender, race/ethnicity, and sexuality in music, film, television, and the internet. Explores cultural meanings and social uses of popular culture by various communities in local and global contexts. Analysis of commercial and independent pop culture. Examination of popular culture forms varies depending on instructor.

GWSS 255 Masculinities: Contestation, Circulation, and Transformation (5) I&S, DIV

Looks at different ways that masculinity is understood and represented historically and contemporarily. While primarily U.S. based, also attends to how different styles of masculinity travel via immigration and media. Explores the relationship between men, masculinity, and other social movements (e.g. anti-violence, gay rights).

GWSS 256 Feminist Exploration Series (2-5, max. 6)

I&S Explores special topics developed and presented by an upper division Gender, Women, and Sexuality Studies major under the supervision of a faculty member. Prerequisite: GWSS 200. Credit/no-credit only.

GWSS 257 Psychology of Gender (5) I&S, DIV *Kenney* Major psychological theories of gender-role development; biological and environmental influences that determine and maintain gender differences in behavior; roles in children and adults; topics include aggression, cognitive abilities, achievement motivation, affiliation. Offered: jointly with PSYCH 257.

GWSS 262 Gender and Sport (5) I&S, DIV Considers the relationship between sports and society. Focuses on how sports shape cultural ideas of masculinity and femininity. Examines how assumptions about professional and amateur athletes reflect and challenge social norms about gender, sexuality, race, and class. Other topics include student athletes, the business of sport, and non-normative athletic bodies. Offered: ASp.

GWSS 264 Introduction to Queer Cultural Studies (5) I&S, DIV Examines the cultural practices in literature, film, and art that articulate and give meaning to bodies, sexualities, and desires. Teaches critical thinking about identity, power, inequalities, and marginality. Offered: jointly with ENGL 256.

GWSS 272 Introduction to Gender and Fandom (5) I&S/VLPA, DIV *R. LEE* Examines gender, race, and sexuality in transformation of cultural products by online fandoms, in both domestic and transnational contexts, across a wide variety of media.

GWSS 283 Introduction to Women's History (5) I&S Includes units on American, European, and Third World women that examine centers of women's activities, women's place in male-dominated spheres (politics), women's impact on culture (health, arts), and the effect of larger changes on women's lives (technology, colonization). Offered: jointly with HSTCMP 283; A.

GWSS 290 Special Topics in Women Studies (2-5, max. 15) I&S Exploration of specific problems and issues relevant to the study of women. Offered by visiting or resident faculty members.

GWSS 299 Women Studies Colloquium (2) I&S Introduces the discipline of Gender, Women, and Sexuality Studies to new and potential majors and minors. Credit/no-credit only.

GWSS 300 Gender, Race, and Class in Social Stratification (5) I&S, DIV The intersection of race, class, and gender in the lives of women of color in the United States from historical and contemporary perspectives. Topics include racism, classism, sexism, activism, sexuality, and inter-racial dynamics between women of color groups. Prerequisite: GWSS 200. Offered: jointly with AES 322.

GWSS 302 Feminist Theories and Methods (5) I&S Explores tools for conducting research, using feminist, anti-racist, and anti-imperialist frameworks. Focus on qualitative research methods includes ethnographic interviews, discourse and visual analyses, radical archival research. Students craft viable research questions; identify and access relevant resources; and plan, organize, and write complex and nuanced research proposals. Prerequisite: either GWSS 200 or GWSS 206.

GWSS 305 Feminism in an International Context (5) I&S Women and feminism from global theoretical perspectives. Critical theoretical ways of thinking about feminism. How women are differently situated throughout the world. How they are represented affects women's agency. Focus on how race and gender affect one another. Representations of and by women throughout the world.

GWSS 310 Women and the Law (5) I&S, DIV Examines how law addresses women, how the courts have made attempts to address women of color, poor women, lesbians, and women with disabilities. Topics include constitutional construction of equality, employment discrimination, reproductive rights, regulation of sexuality, families and motherhood, sexual harassment, violence against women, and international women and human rights.

GWSS 313 Women in Politics (5) I&S, DIV Theoretical, historical, and empirical studies of women's participation in political and social movements. Women's diverse efforts to improve their political, social, and economic status. Policy issues of particular concern to women. Women's political experiences in household, local, regional, national, and international arenas. Offered: jointly with POL S 313.

GWSS 315 Gender, Race, Sexuality, and Medicine: From the Plantation to the Clinic (5) I&S,

DIV Bettina A Judd Interdisciplinary humanities-based approach toward the intersection of gender, race, and medicine. Scientific constructions of race, gender, and sexuality. Examines the role medicine has played in social orientations to race, gender, and sexuality. Legacy of slavery, and medical institutions. Recommended: courses and topics related to American Ethnic Studies, Gender, Women & Sexuality Studies, Pre-Med, Public Health, Anthropology, Sociology, and Nutrition.

GWSS 321 History of African American Women and the Feminist Movement (5) I&S, DIV "Feminist Movement" from early nineteenth century to present. Treats relationship between black and white women in their struggle for independence, at times together and at times apart. Discusses the reasons, process, and results of collaboration as well as opposition. Examines recent and contemporary attempts at cooperation. Offered: jointly with AFRAM 321.

GWSS 328 Gender and Sexuality in China (5) I&S, DIV Explores gender and sexuality in China's process of modernization, from the late Qing dynasty through the building of the Republic, Communist revolution, and post-Mao economic reform. Examines, through historical, anthropological, and cultural studies scholarship, the centrality of these social constructs in terms of family, state, labor, body, and ethnicity. Offered: jointly with ANTH 328/JSIS A 328.

GWSS 332 Black Feminist Geographies (5) I&S, DIV Kemi Adeyemi Stereotypes about blackness, gender, and sexuality are enmeshed with how we think, feel, and move about the landscapes we move through - and black people are often seen threatening presences that "need" to be policed, contained, and completely erased. This course considers how black feminist approaches to geographic space reveal ways that these restrictive understandings of blackness, gender, and sexuality are refused and redefined. Offered: jointly with GEOG 332.

GWSS 333 Gender and Globalization: Theory and Process (5) I&S, DIV Ramamurthy Theoretical, historical, and empirical analysis of how current processes of globalization are transforming the actual conditions of women's lives, labor, gender ideologies, and politics in complex and contradictory

ways. Topics include feminist exploration of colonialism, capitalism, economic restructuring policies, resistance in consumer and environmental movements. Offered: jointly with JSIS B 333.

GWSS 334 Gender, Sex, and Religion (5) I&S, DIV M. AHUVIA The Bible and its interpreters invented the gender categories and hierarchies that readers take for granted. Employs academic approaches that illuminate the construction of those categories and explores the debates within Judaism and Christianity as well as within academia today about gender, sex, sexuality, and religion. Offered: jointly with RELIG 334; Sp.

GWSS 335 Sex, Gender, and Disability (5) I&S, DIV Examines ways that disability, sex, and gender are connected as socially constructed categories. Topics include the ways in which the sexuality of people with disabilities is experienced and represented, the intersection of disability and gender inequality, and how the field of disability studies relates to and can transform other theoretical approaches to gender and sex. Offered: jointly with CHID 335/DIS ST 335.

GWSS 339 Social Movements in Contemporary India (5) I&S, DIV P. RAMAMURTHY Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with ANTH 339/JSIS A 339.

GWSS 341 Native Women in the Americas (5) I&S Historiography, sociology, biography, autobiography, and fiction about native women in the United States and Canada. Offered: jointly with AIS 341.

GWSS 345 Women and International Economic Development (5) I&S, DIV P. RAMAMURTHY Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Introduces theoretical perspectives and methods to interrogate gender and development policies. Assesses current processes of globalization and potential for changing gender and economic inequalities. Offered: jointly with ANTH 345/JSIS B 345.

GWSS 350 Women in Law and Literature (5) I&S/VLPA, DIV Representations of women in American law and literature. Considers how women's political status and social roles have influenced legal and literary accounts of their behavior. Examines how legal cases and issues involving women are represented in literary texts and also how law can influence literary expression. Offered: jointly with CHID 350.

GWSS 351 Women of Color as Cross-Cultural Artists (5) VLPA/I&S, DIV *Habell-Pallan* Provides a historical context for artistic forms produced by racialized women. Examines the cultural production of Chicanas and Latinas in relation to that of Native American, African American, East and South Asian American, and Arab American women as well as those women of mixed heritage in the U.S.

GWSS 353 Feminist Anthropology (5) I&S, DIV Explores the history and contemporary practice of feminist ethnography at the interdisciplinary intersection of anthropology and gender studies. Examines how the inclusion of women, as subjects and researchers, has influenced anthropological knowledge production, and how the cross-cultural imperative of anthropology has influenced understandings of gender, sexuality, and race. Offered: jointly with ANTH 353; W.

GWSS 355 Men and Masculinity (5) I&S Critical study of systematic responses of men to feminist movements, including conservative, pro-feminist, men's rights, mythopoetic, and religious responses. How men of color and gay men view these various men's movements and their issues. Special attention given to philosophical problems such as nature of oppression, human nature, justice, and masculinity.

GWSS 357 Psychobiology of Women (5) NW, DIV *Kenney* Physiological and psychological aspects of women's lives; determinants of biological sex; physiological and psychological events of puberty; menopause; sexuality; contraception, pregnancy, childbirth, and lactation; role of culture in determining psychological response to physiological events. Offered: jointly with PSYCH 357.

GWSS 374 Introduction to Transgender Studies (5) I&S, DIV *A. SWARR* What does it mean to look beyond a simplistic binary of "man" and "woman"? With definitions of sex and gender as a starting

point, we blur these contested categories, complicating them with sexuality, race, class, ability, history, and location.

GWSS 383 Social History of American Women to 1890 (5) I&S, DIV *Yee* A multi-racial, multicultural study of women in the United States from the seventeenth century to 1890 emphasizing women's unpaid work, participation in the paid labor force, charitable and reform activities, and nineteenth century social movements. Uses primary materials such as diaries, letters, speeches, and artifacts. Offered: jointly with HSTAA 373; W.

GWSS 384 Social History of American Women in the Twentieth Century (5) I&S Analyzes major themes in the history of women in North America from 1890 through the 1990s. Themes include family and community formation, social activism, education, paid and unpaid labor patterns, war, migration, and changing conceptions of womanhood and femininity in the twentieth century. Offered: jointly with HSTAA 374.

GWSS 385 Women and Activism in the U.S., 1820-1990s (5) I&S Analyzes how U.S. social reform movements between the 1820s and the 1990s shaped discourses of gender, race, class, nation, and citizenship. Social movements include temperance, anti-prostitution, prison reform, dress reform, reproductive rights, eugenics, suffrage/anti-suffrage, abolitionism, labor, the "mothers' movement," civil rights, QBLTQ movement and dis/abilities, and evangelicalism.

GWSS 389 Race, Gender, and Sexuality in the Media (5) I&S, DIV Introduction to media representations of gender, race, and sexuality. Offered: jointly with AES 389/COM 389.

GWSS 390 Intermediate Topics in Gender, Women, and Sexuality Studies (5, max. 15) I&S Exploration of various topics and issues relevant to the study of gender, women, and sexuality.

GWSS 391 Collaborations in Feminism and Technology (5) I&S, DIV *Christine Keating* Examines feminist theories of technology and social change, ways that activists have used technology to build coalitions across diverse contexts, and links between the "do it yourself" approach to social movement and open-source ethics in technology cultures.

Course topics include: identity and subjectivity; technological activism; gender, race and sexualities; place; labor; ethics; and the transformative potentials of new technologies.

GWSS 392 Asian American and Pacific Islander Women (5) I&S, DIV Explores the intersection of race, ethnicity, gender, class, and sexuality in the lives of Asian American and Pacific Islander women. Examines how forces such as immigration, colonialism, sovereignty, labor, family, gender roles and relations, community, war, homeland politics, transnationalism, and social movements shaped and were shaped by these women. Offered: jointly with AAS 392.

GWSS 405 Comparative Women's Movements and Activism (5) I&S Comparative cultural, national, and historical study of women's movements and activism. Critically analyzes multiple arenas of women's movements and resistance. Topics include feminist anti-racism, pre-nationalism and nationalism, economics, electoral politics, women's and human rights, and international/transnational feminisms. Prerequisite: either GWSS 305, or SOC 364.

GWSS 409 Queer Health (5) I&S, DIV Examines the relationship between Western biomedicine and Queer theory. Critically analyzes the modes of thinking, caring, being, and expressing that emerge as a result of the "merger" of these two fields with contradicting views of gender, sex, health, wellbeing, and sexuality. Offered: jointly with ANTH 409.

GWSS 417 The Politics of Talent Development (5) I&S Investigation of the psychological, cultural, socioeconomic, and political factors that enhance or inhibit the development of exceptional ability, focusing principally, but not exclusively, on women and girls. Pays special attention to issues of race, class, gender, geography, and an individual's orientation to the mainstream of her culture.

GWSS 427 Women and Violence (5) I&S, DIV *Ginorio* Multi-disciplinary explorations of the continuum of violence which affects women's lives, ranging from experience in personal settings (family violence) to cultural or state policies (prisons, wars). Violence against women explored in the context of societal, political, and state violence.

GWSS 428 Feminist Understanding of Victims (5) I&S, DIV Explores the meanings of the term "victim" within popular, religious, psycho-social, and feminist discourses and the implications these have for victims, people and institutions that serve victims, and scholars who are concerned with these questions. Examines the tensions between activist and academic understandings of the impact of "backlash". Prerequisite: GWSS 200. Instructors: Ginorio

GWSS 429 Scandinavian Women Writers in English Translation (5) VLPA, DIV Selected works by major Scandinavian women writers from mid-nineteenth-century bourgeois realism to the present with focus on feminist issues in literary criticism. Offered: jointly with SCAND 427.

GWSS 435 Gender and Spirituality (5) I&S Exploration of ways in which gender informs spiritual teachings and practices of different groups in ancient and contemporary times, with particular attention to the relationship between spiritual beliefs and the construction of social, psychological, and political realities.

GWSS 438 Jewish Women in Contemporary America (5) I&S, DIV *Friedman* Examines how Jewish women's identities are socially constructed and transformed in contemporary America, using social histories, memoirs, and ethnographies to analyze scholars' approaches to Jewish women's lives. Topics include the role of social class, religion, migration, the Holocaust, and race relations in Jewish women's lives. Offered: jointly with JEW ST 438.

GWSS 440 Reading Native American Women's Lives (5, max. 10) I&S, DIV Seminar based on social science writings, autobiographies, biographies, and fiction written by, with, or about indigenous women of the United States and Canada. Offered: jointly with AIS 440.

GWSS 442 Images of Natives in the Cinema and Popular Cultures (5) VLPA/I&S, DIV *D. HART, L. ROSS* Cultural examination of images of Native people in cinema and popular culture based on social science writings and films by or about Natives in the United States and Canada. Offered: jointly with AIS 442.

GWSS 444 Criminality and "Deviance" in Native Communities (5) L. ROSS Seminar based on social

science writings and biographies written by and about incarcerated Natives and "deviance" in Native communities in the United States and Canada. Offered: jointly with AIS 444.

GWSS 445 Feminist science (Fiction) Studies (5) I&S/VLPA *Regina Y Lee* This course addresses science fictional narratives to trouble and transform the human, the inhumane, the scientific apparatus, and the natural world. Students examine gender, race, sexuality, and ability, alongside relevant scientific documents and feminist theory, to better understand both science and fiction through feminist lenses. Recommended: Recommended: GWSS 200 or equivalent

GWSS 446 Global Asia (5) I&S, DIV Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 442/JSIS A 452; W.

GWSS 447 Economics of Gender (5) I&S, DIV Microeconomic analysis of the sources of gender differences in earnings, labor force participation, occupational choice, education, and consumption. Economic theories of discrimination, human capital, fertility, and intrahousehold resource allocation. Economics of the family in developed and developing countries. Prerequisite: minimum grade of 2.0 in ECON 300. Offered: jointly with ECON 447.

GWSS 450 Language and Gender (5) VLPA/I&S, DIV Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203. Offered: jointly with ANTH 450/LING 458.

GWSS 451 Latina Cultural Production (5) VLPA/I&S Explores the expressive culture of Chicana/Mexican American/Latina women in the United States. Cultural and artistic practices in home and in literary, music, film, spoken word, performing and visual arts. Focuses on how Chicana/Latina writers and artists re-envision traditional iconography.

GWSS 453 Lesbian Lives and Culture (5) I&S An exploration and overview of lesbianism in historical, social, cultural, and interpersonal contexts. Prerequisite: either GWSS 200 or GWSS 206.

GWSS 454 Women, Words, Music, and Change (5) VLPA/I&S, DIV Comparative analysis of use of myths, tales, music, and other forms of expressive culture to account for, reinforce, and change women's status and roles. Offered: jointly with ANTH 454.

GWSS 455 Contemporary Feminist Theory (5) I&S, DIV Raises the question of how political contexts condition the way some ideas become theory. Emphasizes the present crises in thinking about a transnational feminism. Prerequisite: GWSS 200.

GWSS 456 Feminism, Racism, and Anti-Racism (5) I&S, DIV Examines meaning of racism and feminism in women's lives in an international context. Building upon an analysis of racial hierarchies and institutionalized racism, explores strategies used by women engaged in feminist and anti-racist activism. Prerequisite: GWSS 200.

GWSS 457 Women in China to 1800 (5) I&S, DIV Gender in Chinese culture, women's situations in the patrilineal family system, and the ways women's situations changed as other dimensions of China's political system, economy, and culture changed from early times through the nineteenth century. Offered: jointly with HSTAS 457.

GWSS 458 Ideologies and Technologies of Motherhood (5) I&S, DIV Examines how motherhood is culturally constituted, regulated, and managed within various ideological and technological milieus. Uses ethnographies from anthropology and case studies from feminist legal theory. Topics include slave mothers, surrogate mothers, lesbian mothers, transracial mothers, co-mothers, teen mothers. Prerequisite: GWSS 200. Offered: jointly with ANTH 484.

GWSS 459 Gender Histories of Modern China, Eighteenth to Twentieth Centuries (5) I&S Emergence of modernist social, political, intellectual gender formations in social activism, revolutionary writing, scientific ideologies, economic globalization. Stresses gender difference in colonial modernity, revolutionary movement, communism, post-socialist market society. Relates modern Chinese women to

global flows, new division of labor, local and regional experience. Offered: jointly with HSTAS 459.

GWSS 462 Isak Dinesen and Karen Blixen (5) VLPA

The fiction of Isak Dinesen (pseudonym for Karen Blixen) reevaluated in light of current issues in literary criticism, particularly feminist criticism. Close readings of selected tales, essays, and criticism. Offered: jointly with SCAND 462.

GWSS 464 Queer Desires (5) I&S, DIV Swarr

Explores desire and the politics of sexuality as gendered, raced, classed, and transnational processes. Intimacies and globalization, normality and abnormality, and power and relationships are sites of inquiry into the constitution of "queerness." Students interrogate queer and sexuality studies, using varied media - films, activist writings, and scholarly articles.

GWSS 466 Gender and Architecture (3) I&S/VLPA

Examines gender in the experience, practice, and theory of architecture and urban space with a focus on modern typologies: skyscraper, home, convent, bachelor pad, street, and closet. Draws from architectural and art history, social studies, design practice and theory, comparative literature, film studies, and queer theory. Offered: jointly with ARCH 466.

GWSS 468 Latin American Women (5) VLPA/I&S,

DIV J. ROBLES RIVERA The elaboration of discourses of identity in relation to gender, ethnicity, social class, and nationality, by women writers from South America, Mexico, Central America, and the Caribbean. Testimonial literature, literature and resistance, women's experimental fiction. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321. Offered: jointly with SPAN 468.

GWSS 474 Trans/Gender Queries (5) I&S, DIV Swarr

Writings by and about people who fall outside common conceptions of "women" and "men." Looks beyond this dualism in contemporary and historical global concepts, locating the emerging field of transgender studies in feminist studies and asking what the category "transgender" enables and obscures.

GWSS 476 Women and the City (5) I&S, DIV

Explores the reciprocal relations between gender relations, the layout of cities, and the activities of

urban residents. Topics include: feminist theory and geography (women, gender, and the organization of space); women and urban poverty, housing and homelessness; gender roles and labor patterns; geographies of childcare; and women and urban politics. Offered: jointly with GEOG 476.

GWSS 483 Topics in U.S. Women's History (5, max.

10) I&S Selected topics in United States women's history from the nineteenth and twentieth centuries. Prerequisite: either GWSS 200, GWSS 283, or GWSS 383. Instructors: Yee

GWSS 485 Issues for Ethnic Minorities and Women In Science and Engineering (3/5) I&S

Addresses issues faced by women and ethnic minorities in physical sciences and engineering. Focuses on participation, barriers to participation, and solutions to those issues for women and ethnic minorities in physical sciences and engineering. Offered: jointly with PHYS 451.

GWSS 486 Representing Beyond the Binaries: Mixing Race, Gender, and Sexuality in the Media (5) I&S, DIV Joeseeph

Cultural studies approach to examining the mixed formations that race, sexuality, and gender take in the contemporary United States media. Draws upon multi-disciplinary scholarship in examination of the media. Offered: jointly with AES 490/COM 490.

GWSS 487 Advanced Psychobiology of Women (5) I&S/NW

Intensive reading on current issues relevant to women's psychology and physiology. Prerequisite: minimum 2.0 grade in PSYCH 357/ GWSS 357. Instructors: Kenney Offered: jointly with PSYCH 487; W.

GWSS 488 Women and/in Science (5) I&S,

DIV Ginorio Explores science as a method of inquiry and as a profession while also expanding knowledge about women through the use of biographies of women scientists, discipline-based and feminist critiques, and the psycho-social concept of socially defined identities.

GWSS 489 Black Cultural Studies (5) I&S

Examines how images of blackness have been (re) constructed through identity formation and entrenched inequality. Topics include black women's bodies, black men's bodies, blackface minstrelsy, black

queer studies, black power, and black hybridities. Offered: jointly with AES 489/COM 489.

GWSS 490 Special Topics in Women Studies (2-5, max. 15) I&S Exploration of specific problems and issues relevant to the study of women. Offered by visiting or resident faculty members. Primarily for upper-division and graduate students.

GWSS 493 Senior Thesis (2-5, max. 15) I&S Students conceptualize a topic, conduct primary and secondary research, and write a major paper or project that engages methodologies and theories in interdisciplinary women's studies. Students work independently with a faculty member.

GWSS 494 Women Studies Capstone (5) I&S Provides graduating seniors with the opportunity to demonstrate facility with writing, critical thinking, documentation of scholarly work, research/gathering of information, and the ability to disseminate ideas to intended audiences via the creation of a capstone project. Prerequisite: GWSS 200; GWSS 300; minimum grade of 2.0 in one additional graded 300-level GWSS course; minimum grade of 2.0 in one additional graded 400-level GWSS course. Offered: AWSpS.

GWSS 495 Tutoring Women Studies (5) Students train to serve as tutors in designated courses. Facilitate weekly group discussions, assist with writing assignments, explain course materials. Prerequisite: GWSS 200; GWSS 300. Credit/no-credit only.

GWSS 496 Global Feminisms: International and Indigenous Communities (5-12, max. 24) I&S Participation in academic study abroad programs related to Gender, Women, and Sexuality Studies, emphasizing globalization and study in international contexts or indigenous communities within the United States. Prerequisite: GWSS 200; GWSS 300.

GWSS 497 Fieldwork in Women Studies (1-15, max. 15) Internship in local feminist-oriented agencies or projects. Includes a seminar component linking internship to scholarly literature and small group discussion. Supports in-depth exploration of social issues and skill development. Prerequisite: GWSS 200; GWSS 300. Credit/no-credit only. Offered: AWSpS.

GWSS 499 Undergraduate Research (1-5, max. 10) Independent study and research supervised by a faculty member with appropriate academic interest. Prerequisite: GWSS 200; GWSS 300. Offered: AWSpS.

GWSS 501 History of Feminism (5) Study of feminism from the eighteenth through the twentieth centuries in the national, international, and intranational world system, with a focus on imperialism, colonialism, nationalism, and modernity. Surveys the literature in a global context, supplemented by critical essays and historiographic reviews.

GWSS 502 Cross Disciplinary Feminist Theory (5) Raises questions about how feminism becomes theory and what the relation of feminist theory is to conventional disciplines. Readings exemplify current crises in feminism (e.g., the emergence of neo-materialism; critical race theory; citizenship; identity; transnational and migrancy and questions of post-colonialism) to consider disciplinization.

GWSS 503 Feminist Research and Methods of Inquiry (5) Explores appropriate research methodologies for interdisciplinary work. Asks how scholarship is related to feminism as a social movement and to the institutions in which we work. Focuses on how similar objects of study are constituted in different disciplines for feminist scholars. Offered: Sp.

GWSS 504 Philosophies and Techniques of Teaching (5) Acquaints students with professional and educational issues of college teaching. Students design a course, including a daily outline, reading materials, evaluation instruments, course activities, assessment plans. Includes weekly teaching exercises as well as videotaping an actual class. Prerequisite: experience as a TA or equivalent. Priority given to Women Studies graduate students.

GWSS 505 Feminist Publishing (5) Seminar on feminist academic publishing. Students revise a scholarly paper in preparation for submission to an academic journal and provide critical commentary on other students' scholarly work. Also addresses general and specific issues related to the profession of academic publishing.

GWSS 510 Documentary Film/Video Research Methods in Native Communities (5) D. HART, L.

ROSS Seminar exploring theoretical, methodological, and aesthetic issues when researching documentary film and video projects in Native American communities. Utilizes readings, screening, discussions, and a major research project to explore issues of documentary representation, ethics, and historiography. First part of a two-quarter documentary production sequence. Offered: jointly with AIS 501.

GWSS 526 The Study of Lives in Feminist Research: Narrative and Visual Approaches (5) Examines the study of others' lives by feminist researchers using ethnography, oral history, biography, photography, and documentary film. Explores the craft, goals, and ethics involved in these forms of representation. Includes workshop critique of research project in development.

GWSS 528 Gender and Sexuality in China (5) Explores gender and sexuality in China's process of modernization, from the late Qing dynasty through the building of the Republic, Communist revolution, and post-Mao economic reform. Examines, through historical, anthropological, and cultural studies scholarship, the centrality of these social constructs in terms of family, state, labor, body, and ethnicity. Offered: jointly with ANTH 528/JSIS A 528.

GWSS 534 Gender, Sex, and Religion (5) *M. AHUVIA* Delves more deeply into foundational texts of the Bible, Judaism, and Christianity, while paying closer attention to historiographic trends in the field of gender and feminist studies of religion. With JSIS C 334/GWSS 334. Offered: jointly with RELIG 534; Sp.

GWSS 539 Social Movements in Contemporary India (5) *P. RAMAMURTHY* Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with ANTH 539/JSIS A 531.

GWSS 541 Research Seminar: Feminist Geographies (5) Explores major research themes in feminist geographies. Particular attention to the concept that gendered identities and spaces are discursively (re) produced. Emphasizes recent feminist scholarship that emphasizes difference, as well as the

intersections between gender, "race," ethnicity, sexuality, age, nationality, class, and other social identities and divisions. Offered: jointly with GEOG 541.

GWSS 542 Gender, Music, Nation (5) *Habell-Pallan* Music criticism and music studies as a site of feminist intellectual practice. Explores the ways gender and race/ethnicity shape musical discourse as well as narrative constructions of nation in regional and transnational contexts. Considers the influence of feminist theory, queer studies, performance studies, and cultural studies on music scholarship.

GWSS 545 Transnational Sexualities (5) *Swarr* Focuses on transnational processes such as colonialism and globalization, imperialism, and consumerism. Analyzes attempts to both codify and undermine universal queer subjects. Participants theorize sexual practices, discourses, and histories through explorations of tourism, HIV/AIDS, immigration, and other interstices of transnational intimacies.

GWSS 555 Feminist International Political Economy (5) *Ramamurthy* Provides overview of feminist engagements with international political economy. Topics include: feminist critiques of classical political economists; inter-war internationalisms, anti-colonial nationalisms and feminisms; feminist development studies; post colonial; 'third world' and transnational feminisms; feminist critiques of globalization, governmentality, and neoliberalism.

GWSS 564 Queer Desires (5) *Swarr* Explores desire and the politics of sexuality as gendered, raced, classed, and transnational processes. Intimacies and globalization, normality and abnormality, and power and relationships as sites of inquiry into the constitution of "queerness." Students interrogate queer and sexuality studies using varied media - films, activist writing, scholarly articles.

GWSS 572 Transnational Chicana Feminist Theory (5) Examination of the body of knowledge and scholarship produced under the rubric "Transnational Chicana feminist theory." Analyzes the ways Chicana feminist theory dynamically engages intellectual, poetic, and aesthetic traditions. Considers how Chicana feminist theory functions within and between disciplinary frameworks.

Explores transnational roots and routes of Chicana feminist theory.

GWSS 575 Feminist New Media Studies (5) *R. Lee*

Examines the raced and gendered stakes in the construction of online lives as disembodied, and provides feminist frameworks for intersectional and transnational analyses of online engagement. Explores methodological variations and ethical stakes of critical theory, autoethnography, and creative academic work to clarify knowledge claims made by these analytical forms. Prerequisite: Graduate standing; otherwise, permission of the instructor

GWSS 577 Women of Color in Academia (5) *Ginorio*

Through scholarship and identifications, "women of color" in academia are often positioned to question and redefine academia, education, and the established boundaries between academia and other communities. Discussion focuses on understanding institutional sites and forms of knowledge production and validation in academia in the United States.

GWSS 581 Queer and Trans History (5) *L. MARHOEFER*

Studies development of queer and trans history as subfields and interdisciplinary thought that has shaped them (critical race theory, queer theory, trans studies). Surveys foundational works of theory that have influenced historians (and other scholars) as well as important books and articles in the two interrelated historical subfields. Examines the role of intersectional analysis in the subfields as well as generative debates among historians. Offered: jointly with HSTCMP 581.

GWSS 589 Gender, Race, and Communication (5)

Analysis of the role of media in the construction of reality, production processes, and their influence on media representation of women and people of color. Offered: jointly with COM 567.

GWSS 590 Special Topics (1-5, max. 15) Offered by visitors or resident faculty as a one-time in-depth study of special interest.

GWSS 593 Feminist Doctoral Research Workshop (5) *Swarr*

Designed to meet the needs of graduate students writing dissertation prospectuses on feminist subjects within any discipline. Students start with a drafted prospectus and revise their work

together. Topics addressed include IRB applications, CV preparation, and dissertation funding. Credit/no-credit only.

GWSS 595 Graduate Student Colloquium (2, max. 12)

Forum for graduate students to share their research ideas and progress, general examination preparation issues, and teaching concerns. Prerequisite: Gender, Women, and Sexuality Studies graduate students only. Credit/no-credit only. Offered: AWSp.

GWSS 596 Preceptorial for Women Studies Graduate Students (5, max. 15)

Graduate student and faculty member work collaboratively in developing or revising course content and pedagogical approach on a specialized area.

GWSS 597 Fieldwork in Women Studies (2-5, max. 15)

Supervised ethnographic and other on-site research by Gender, Women, and Sexuality Studies graduate students. Gender, Women, and Sexuality Studies graduate students only.

GWSS 598 Directed Readings in Women Studies (*, max. 35)

Selected topics for individualized or small group study.

GWSS 599 Graduate Research Colloquium (2, max. 6) *Kenney*

A colloquium in which Gender, Women, and Sexuality Studies graduate students and faculty present and discuss their research at various points in its development. Credit/no-credit only. Offered: AWSpS.

GWSS 600 Independent Study or Research (*-)

Offered: AWSpS.

GWSS 700 Master's Thesis (*-) Credit/no-credit only.

Offered: AWSpS.

GWSS 701 Master's Practicum ([1-10]-, max. 10)

Offered: AWSpS.

GWSS 800 Doctoral Dissertation (*-)

GENERAL STUDIES

GENERAL STUDIES

GEN ST 101 University Learning Skills (1-3, max. 3)

Introduction to university culture. Practice in skills necessary for academic success, including note-taking, test-taking, writing, active learning, and time and stress management. Academic planning. Introduction to university resources.

GEN ST 105 Introduction to Liberal Studies (1-10, max. 10)

Designed to increase the academic proficiencies of new freshmen entering the University. Includes coursework in the liberal arts and sciences and related work in writing, speaking, and mathematics. Introduces students to computing and campus culture. Credit/no-credit only.

GEN ST 160 Discovery Seminar in the Humanities (5)

VLPA Small intensive seminar focusing on the visual, literary, and performing arts taught during Early Fall Start led by faculty representing a wide spectrum of academic disciplines and interests. Offered: A.

GEN ST 161 Discovery Seminar in Individuals and Society (5) I&S

Small intensive seminar focusing on individuals and society taught during Early Fall Start led by faculty representing a wide spectrum of academic disciplines and interests. Offered: A.

GEN ST 162 Discovery Seminar in the Natural World (5) NW

Small intensive seminar focusing on the natural world taught during Early Fall Start led by faculty representing a wide spectrum of academic disciplines and interests. Offered: A.

GEN ST 197 Freshman Seminar (1-3, max. 3)

Small-group discussion with faculty representing a wide spectrum of academic disciplines. Topics and approaches vary. Instructor may introduce research techniques or findings, concentrate on readings in his/her area of interest, or illustrate problems and alternatives related to the study of a particular academic discipline. Credit/no-credit only. Offered: AWSp.

GEN ST 199 The University Community (1-2, max. 2)

Introduces students to various aspects of the University of Washington community. Includes exploration of university resources and

opportunities, and academically related skill development. Credit/no-credit only. Offered: A.

GEN ST 297 Undergraduate Seminar (1-3, max. 3)

Small-group discussion with faculty representing a wide spectrum of academic disciplines. Topics include faculty's research techniques or findings, concentrated reading in his/her area of interest, or illustrated problems and alternative related to the study of a particular academic discipline. Class structure varies based on instructor. Credit/no-credit only. Offered: AWSp.

GEN ST 300 Colloquium on Education, Learning, and Society (1, max. 3) I&S

Creates a learning community among Education minor students and their instructors. Students learn from researchers and practicing educators about current pedagogical projects and theories. Fosters self-reflexive projects to build understanding of learning pathways.

GEN ST 301 Learning Leadership in Theory and Practice (2-4)

Explores leadership techniques and principle using readings, case, lectures, and large group discussions designed to increase knowledge of leadership theory and practice as well as develop leadership potential. Uses small group sessions incorporating experiential exercises, self-reflection, and leadership conversations. Credit/no-credit only. Offered: jointly with B A 391.

GEN ST 340 Community Fieldwork: Law (1-5, max. 5)

Credit/no-credit only.

GEN ST 341 Community Fieldwork: Law (1-5, max. 5)

Credit/no-credit only.

GEN ST 342 Community Fieldwork: Health (1-5, max. 5)

Credit/no-credit only.

GEN ST 343 Community Fieldwork: Health (1-5, max. 5)

Credit/no-credit only.

GEN ST 344 Community Fieldwork: Social Services (1-5, max. 5)

Credit/no-credit only.

GEN ST 345 Community Fieldwork: Social Services (1-5, max. 5)

Credit/no-credit only.

GEN ST 346 Community Fieldwork: Education (1-5, max. 5)

Credit/no-credit only.

GEN ST 347 Community Fieldwork: Education (1-5, max. 5) Credit/no-credit only.

GEN ST 348 Community Fieldwork: Special Topics (1-5, max. 5) Credit/no-credit only.

GEN ST 349 Community Fieldwork: Special Topics (1-5, max. 5) Credit/no-credit only.

GEN ST 350 Independent Fieldwork (1-6, max. 18)
Rachel L. Vaughn, Briana K Randall Independent fieldwork in community agencies, apprenticeships, internships, as approved for College of Arts and Sciences credit. Student can complete work under the guidance of a faculty sponsor and internship site supervisor, or under the guidance of an internship site supervisor with concurrent enrollment in an on-line section. Credit/no-credit only. Offered: AWSpS.

GEN ST 391 Supervised Study in Selected Fields (*, max. 15) Special supervised study in a field represented in the College of Arts and Sciences. Faculty supervisor required. Offered: AWSpS.

GEN ST 470 Undergraduate Peer Instructor Practicum (1-3, max. 12) Provides instruction in group leadership and promotion of values and methods of learning within a university setting. For Peer Instructors in the First-year Interest Group (FIG) program. Credit/no-credit only. Offered: AWSpS.

INDIVIDUALIZED STUDIES

INDIV 493 Senior Study (5) For Individualized Studies majors only. Faculty supervisor required. Offered: AWSpS.

GEOGRAPHY

GEOG 123 Introduction to Globalization (5) I&S, DIV Provides an introduction to the debates over globalization. Focuses on the growth and intensification of global ties. Addresses the resulting inequalities and tensions, as well as the new opportunities for cultural and political exchange. Topics include the impacts on government, finance, labor, culture, the environment, health, and activism. Offered: jointly with JSIS 123.

GEOG 180 Introduction to Global Health: Disparities, Determinants, Policies, and Outcomes (5) I&S *Todd Faubion, Stephen Gloyd* Provides an introduction to global health, including: the burden and distribution of disease and mortality; the determinants of global health disparities; the making of global health policies; and the outcomes of global health interventions. Offered: jointly with G H 101/JSIS B 180; Sp.

GEOG 195 Special Topics in Geography (1-5, max. 10) I&S

GEOG 203 Introduction to Migration (5) I&S, DIV Introduces contemporary issues in international migration. Covers the relationship between contemporary human mobility and changes in the global economy; gendered migration; transnationalism; refugee and asylum issues; and immigrant integration. Offered: A.

GEOG 205 Our Global Environment: Physical and Human Dimensions (5) NW Explores environmental systems using a geographic perspective that emphasizes spatial patterns of phenomena, relationships between different places, and interconnections between people and environment. Evaluates causes, consequences, and solutions to environmental problems. Topics include climate, atmosphere, water, ecosystems, and soils.

GEOG 207 Economic Geography (5) I&S The changing locations and spatial patterns of economic activity, including: production in agriculture, manufacturing, and services; spatial economic principles of trade, transportation, communications, and corporate organization; regional economic development, and the diffusion of technological innovation. Offered: A.

GEOG 208 Geography of the World Economy: Regional Fortunes and the Rise of Global Markets (5) I&S Examines the relationship between the globalization of economic activity and regional development. Topics include international trade, colonialism, industrial capitalism, advanced capitalism, and the globalization of labor markets.

GEOG 230 Geographies of Global Inequality (5) I&S, DIV Addresses increasing global inequalities by focusing on shifting spatial division of labor and the role of the international development industry in

shaping economic and social inequality. Examines relationships between economic globalization, development industry, and rising global inequality: reviews the history and record of the international development project, and asks what it means to say that Western, advanced economies are not the norm.

GEOG 236 Development and Challenge in Greater China (5) I&S Studies the geography of development processes, patterns, and problems in "Greater China": mainland China, Taiwan, and Hong Kong. Covers physical geography, history, and economic and political systems, with major focus on geographical issues in China's development: agriculture, population, industry and trade, and relations with Hong Kong and Taiwan. Offered: jointly with JSIS A 236.

GEOG 245 Geodemographics: Population, Diversity, and Place (5) I&S, DIV, QSR Explores the geodemographic underpinnings of societal dynamics and the spatial diversity of United States populations. Topics include immigration policy, the concept of 'race' in the census, fertility and mortality differences, political redistricting, segregation, and internal migration of populations. Examines regional and local scales of variation using geodemographic techniques and GIS. Offered: A.

GEOG 258 Digital Geographies (5) I&S Explores the use and societal impacts of contemporary digital spatial technologies. Focuses on internet mapping, handheld geographic technologies, location-based services, spatial applications of social media, the geoweb, and traditional GIS. Develops hands-on experience using online digital spatial tools for geovisual representation, and skills for evaluation/critique of digital data and maps. Offered: W.

GEOG 270 Geographies of International Development and Environmental Change (5) I&S Explores how concepts, theories and ideologies of international development and environmental issues interrelate. Approaches development and environment through several interconnected topics: population, consumption, carbon, land and water. Examines how these issues connect our lives to the lives of people living in the Third World. Offered: W.

GEOG 271 Geography of Food and Eating (5) I&S, DIV Examines development of world food economy, current responses to instabilities and crises, and issues relating to obesity, hunger, and inequality in relation to food systems. Explores political, social, and economic dimensions of food and eating in particular spaces, places, environments, contexts, and regions. Uses the theme of food and eating to examine key concepts from human geography and thereby provides an introduction to the discipline.

GEOG 272 Geographies of Environmental Justice (5) I&S, DIV Draws on political ecology and cultural geography frameworks to think through social constructions of nature: where we live, where we play, and where we work. Looks at the role of markers of difference (gender, race, nationality) in debates around equity and justice. Offered: Sp.

GEOG 276 Introduction to Political Geography (5) I&S Examines both the geography of politics and the politics of geography at a variety of spatial scales and in different global locations. Typical topics include: geographies of the state and state power; geopolitics and globalization; national and local politics, and other politics of culture, health, nature, and the body.

GEOG 277 Geography of Cities (5) I&S, DIV Explores economic, cultural, social and political dynamics of cities - their location, functions, and internal structure, including economic activities, housing, and social geography. Topics include economic restructuring; suburbanization and urban sprawl; urban planning; inner-city gentrification; and how issues of class, race, and gender are embedded in the geographies of cities.

GEOG 280 Introduction to the Geography of Health and Healthcare (5) I&S Concepts of health from a geographical viewpoint, including human-environment relations, development, geographical patterns of disease, and health systems in developed and developing countries.

GEOG 295 Special Topics in Geography (1-5, max. 10) I&S

GEOG 298 Study Abroad: Geography (1-5, max. 10) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements

but may, depending on course content, count toward various major requirements. Offered: AWSpS.

GEOG 301 Cultural Geography (5) I&S Analysis of cultural processes in the formation of landscape, environment, region, and place in their relationship to individual and group identities and activities

GEOG 302 The Pacific Northwest (3) I&S Settlement pattern in the Pacific Northwest, emphasizing economic and historical factors, including the location of resource-oriented industries, policies regarding the use of public lands, and bases of the development of major urban areas in the region. Offered: W.

GEOG 303 Contemporary European Migration (5) I&S Provides a theoretical and empirical understanding of contemporary migration processes and patterns in Europe. Introduces the different migration regimes and integration practices of selected European states. Analyzes the impact of globalization, the ever-changing role of the European Union, and the importance of international, national, and urban policy on immigrant lives. Offered: jointly with JSIS A 304; W.

GEOG 310 Immigrant America: Trends and Policies from a Geographic Perspective (5) I&S, DIV U.S. immigration trends and policies from a geographic perspective. Topics include where immigrants come from, where they settle in the United States (and why they settle in those particular places), these locations, immigrant employment enclaves, effects of U.S. immigration policy on immigrant settlement and employment patterns, unauthorized immigration, citizenship, and barriers to immigrant social and economic mobility in the United States.

GEOG 315 Explanation and Understanding in Geography (5) I&S Covers the beginning steps in the research process. Introduces the discipline of geography, the department, and current faculty through the research aims of explanation and understanding that frame social scientific inquiry. Students develop basic library and writing skills as preparation for future research methods classes and independent research.

GEOG 317 Geographic Information and Spatial Analysis (5) I&S, QSR Integrates geographic

information systems and spatial data analysis, emphasizing the appropriate selection of methods, procedures for research design, and interpretation of findings. Topics include descriptive and inferential methods, spatial patterns and statistics, and correlation and spatial autocorrelation. Applications use SPSS and ArcMap software.

GEOG 323 Globalization and You (5) I&S Offers an evidence-based analysis of globalization that addresses how individuals are affected personally as well as economically amidst the market-led processes of global integration. Offered: jointly with JSIS D 323; A.

GEOG 326 Quantitative Methods in Geography (5) I&S, QSR Introduction to quantitative methods in geography, with a primary focus on statistical techniques. Examines the basic concepts, reasoning, and procedures geographers use in developing, analyzing, applying, and presenting quantitative methods. Topics include: generating and describing data; elementary probability, hypothesis testing, comparative tests; finding relationships; and using and misusing statistics.

GEOG 330 Latin America: Landscapes of Change (5) I&S Examines operation of economic, social, and political processes across countries of Latin America - on international, national, and local scales - to understand common issues facing the region and different impacts in particular countries. Topics include internationalization of Latin American economies; agrarian and urban change; popular movements.

GEOG 331 Global Poverty and Care (5) I&S, DIV Explores the causes and patterns of global poverty, and the urgent need for studies of care in both academic work and public policy. Considers the possibilities and challenges of caring across distance, and ways to respectfully engage with people in different places.

GEOG 332 Black Feminist Geographies (5) I&S, DIV *Kemi Adeyemi* Stereotypes about blackness, gender, and sexuality are enmeshed with how we think, feel, and move about the landscapes we move through - and black people are often seen threatening presences that "need" to be policed, contained, and completely erased. This course considers how black feminist approaches to

geographic space reveal ways that these restrictive understandings of blackness, gender, and sexuality are refused and redefined. Offered: jointly with GWSS 332.

GEOG 335 Geography of the Developing World (5) I&S Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Offered: jointly with JSIS B 335.

GEOG 336 Development and Challenge in China (5) I&S Examines the geography of China's development since 1949. Introduces China's physical geography, history, and economic and political system. Emphasizes China's uneven development in agriculture, population, industry, and trade. Also examines problems China faces in meeting its internal food demand, as well as the external processes of globalization.

GEOG 337 Migration and Development in China (5) I&S Examines patterns of China's internal migration in different periods in relation to economic development. Explores how the state-created dual structure and the household registration system enables China to have a huge class of super-exploitable migrant labor and become the world's premier low-end manufacturing center. Offered: A.

GEOG 342 Geography of Inequality (5) I&S, DIV Geographies of social, political, and economic inequality. Focus is usually on North American cities. Examines the theoretical underpinning of inequality. Explores topics such as the spatial distribution of wealth and poverty, the geographies of exclusion, and discrimination in paid employment and housing.

GEOG 343 Comparative Geographies of Youth (5) I&S Examines how three key global processes - rising levels of formal education, changing health regimes, and environmental transformation - are shaping youth in the US and South Asia. Examines ways young people rework broader structures, paying particular attention to their economic livelihoods, cultural practices, and political engagements. Offered: jointly with JSIS B 347; A.

GEOG 344 Migration in the Global Economy (5) I&S Analyzes the relationship between human mobility in the late twentieth century and changes in the global economy. Allows students to gain familiarity with scholarly research on international migration from a diversity of approaches and methods. Offered: jointly with JSIS B 344.

GEOG 349 Geography of International Trade (5) I&S Introduces the theories and practice of international trade and foreign direct investment. Topics include: trade theory and policy; economic integration; currency markets and foreign exchange; trade operations and logistics; the international regulatory environment; and marketing, location and entry, and finance, accounting, and taxation.

GEOG 360 GIS and Mapping (5) I&S, QSR Introduction to mapping and geographic information systems. Topics include: Representation of spatial objects, their attributes, and relationships in desktop and online GIS; common spatial operations and geoprocessing in GIS; principles of cartographic visualization, communication, and critique; narrative mapping and spatial humanities; ethics, society and GIS. Offered: ASpS.

GEOG 362 GIS Presentation, Analysis, and Problem-Solving (3) Introduces students to the systems, science, and study of geographic information systems (GIS), including what gives GIS its enduring importance, its core principles, its applications, its unique analysis methods, and the practices and dilemmas that often accompany the use and communication of geographic information. Not available for credit to students who have completed GEOG 360. Credit/no-credit only.

GEOG 370 Environmental Conservation: Geographic Perspectives (5) I&S Explores how environmental conservation is shaped by scientific, political, cultural, and economic forces acting across both space and time. Specific topics include environmental history, wilderness preservation, national parks, forest management, community-based conservation, global political ecology, and environmental justice.

GEOG 371 World Hunger and Agricultural Development (5) I&S Addresses world hunger and poverty in relation to agricultural development, food security policy, the globalization of food and

agriculture and social movements. Explores the problem and historical persistence of hunger across geographic scale and examines the debates about how hunger can be eradicated.

GEOG 373 Food and Community: Cultural Practices in the Hispanic World (5) I&S *Ana M. Gomez-Bravo*
Intersections of food and community in Hispanic cultures. Past and present practices. Food and material culture, urban design, foodways and gender roles, food and race, diet and hygiene, religious, and civic celebrations, and food preparation techniques. Offered: jointly with JEW ST 362/SPAN 362; S.

GEOG 375 Geopolitics (5) I&S, DIV An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with JSIS B 375.

GEOG 377 Urban Political Geography (5) I&S
Examines how the spatial structure of cities and towns affects and is affected by political processes. Considers both traditional and newer forms of politics, as global and local issues. Special attention paid to where politics takes place within local contexts across state, civil society, home, and the body.

GEOG 378 Policing the City (5) I&S *S. HERBERT*
Investigates how and why formal and informal order is established in urban areas, how this order produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with LSJ 378; A.

GEOG 380 Geographical Patterns of Health and Disease (5) I&S Geography of infectious and chronic diseases at local, national, and international scales; environmental, cultural, and social explanations of those variations; comparative aspects of health systems.

GEOG 381 Maps and Health (5) I&S Combines the study of maps, GIS and other geovisualization

technologies with research on the geography of health. Provides an introduction to key geovisualization tools, while also offering an opportunity to reflect intellectually on health maps through the lens of critical social theories about power and knowledge.

GEOG 395 Special Topics in Geography (1-5, max. 10) I&S

GEOG 403 Transnational Latinx Migrations (5) I&S, DIV Explores the role of gender, racial formation, and language in transnational Latin American migrations. Outlines key concepts related to power relations in nation-states, geographies of security, border enforcement, and the production of Latinidades, or multiple Latinx identities. Recommended: LSJ 329, GEOG 310, or POL S 359

GEOG 425 Qualitative Methodology in Geography (5) I&S Historical and philosophical overview of qualitative methodology and techniques such as interviewing, ethnography, archival research, participatory action research, and focus groups. Exploration of forms of interpretation and analysis such as textual interpretation, critical discourse analysis, and content analysis. Addresses questions of ethics, power relations, field notes, and research presentation.

GEOG 426 Advanced Quantitative Methods (5) I&S, QSR Introduces elementary spatial statistics and advanced statistical techniques in quantitative human geography. Methods reviewed include geographic applications of multiple regression analysis, spatial statistics and spatial autocorrelation, geographically weighted regression, factor analysis, discriminant analysis, and logistic regression. Prioritizes the interpretation and application of methods. Prerequisite: a minimum grade of 2.0 in GEOG 326; and a minimum grade of 2.0 in GEOG 360.

GEOG 430 Contemporary Development Issues in Latin America (5) I&S Contemporary development issues in Latin America, seen from a spatial perspective. Concept of development; competing theories as related to various Latin American states. Economic structural transformation, migration, urbanization, regional inequality, and related policies.

GEOG 431 Geography and Gender (5) I&S Examines theories and case studies across international, national, and regional scales in order to illustrate the impacts of social and economic processes upon the construction of gender in particular places.

GEOG 432 Geographies and Politics of Poverty and Privilege (5) I&S Examines theories and case studies across the Americas to understand geographies and politics of poverty and inequality. Outlines key concepts related to the reproduction of inequality/poverty, particularly theories of class, gender, and race and examines the mechanisms through which knowledge and action on poverty and inequality are (re) produced. Offered: Sp.

GEOG 435 Industrialization and Urbanization in China (5) I&S Examines the impacts of industrialization strategies adopted by the People's Republic of China on urbanization and rural-urban relations. Topics include: economic development strategies, industrial geography, rural industrialization, urban development patterns, migration, and urbanization policies. Offered: Sp.

GEOG 436 Social and Political Geographies of South Asia (5) I&S Introduces the social and political geographies of South Asia through reference to agrarian change in India. Outlines key concepts related to the reproduction of inequality in the region, particularly theories of caste, class, gender, and religious communalism, and examines the mechanisms through which these inequalities are reproduced in South Asia. Offered: jointly with JSIS A 438.

GEOG 439 Gender, Race, and the Geography of Employment (5) I&S Focuses on the geography of employment for men and women of different racial and ethnic backgrounds in American cities. Presents evidence on labor market inequality for different groups and explanations of these differences. Emphasizes the importance of a spatial perspective in understanding employment outcomes for women and minorities.

GEOG 442 Social Geography (5) I&S Review of concepts and methods of postwar social geography: historical roots and present orientations. Study of social spatial systems, their structures and functioning.

GEOG 445 Geography of Housing (5) I&S, DIV Focuses on the geography of housing, especially in the United States. Topics include: the American dream of home ownership; housing affordability and differential access to home ownership; homelessness; the history of public housing; housing demography; residential mobility and neighborhood change, and discrimination in the housing market.

GEOG 448 Geography of Transportation (5) I&S

GEOG 451 Cultural Geography of Latin America (5) I&S Interdisciplinary senior seminar examining how physical and social geographies are culturally constructed and interconnected with subjectivities and power in Latin America. Topics include identity formation grounded in particular territories and the social constitution of space via an interplay of material and cultural forces. Offered: jointly with JSIS D 451.

GEOG 455 Genealogical Geographies (5) I&S Research seminar in geospatial genealogy. Focuses on family genealogy and geographical analysis, rather than particular regions or eras. Explores historical and population geographies as well as disciplinary relationship with genealogy and family history. Relates individual family tree data with broader economic, political, and cultural phenomena in time and space. Prerequisite: GEOG 315.

GEOG 458 Advanced Digital Geographies (5) I&S, QSR How are emerging digital approaches changing GIS and geography generally? Students learn skills needed to critically and creatively engage with coding, collaboration, shifting geospatial webs, and interactive maps and essays. Prerequisite: GEOG 360. Offered: Sp.

GEOG 461 Urban Geographic Information Systems (5) I&S Use of geographic information systems to investigate urban/regional issues; focus on transportation, land-use and environmental issues; all urban change problems considered. GIS data processing strategies. Problem definition for GIS processing. Data collection, geocoding issues. Data structuring strategies. Prerequisite: a minimum grade of 2.0 in GEOG 360; and a minimum grade of 2.0 in either GEOG 230, GEOG 236/JSIS A 236, GEOG 245, GEOG 277, GEOG 310, GEOG 342, GEOG 377, GEOG 435, GEOG 445, GEOG 476/GWSS 476, GEOG 477, GEOG 478, GEOG 479, GEOG 490. Offered: W.

GEOG 462 Coastal Geographic Information Systems (5) I&S, QSR Combines lectures about fundamental concepts in geographic information systems with hands-on computer laboratory assignments about coastal environment-society issues. Coastal issues feature data measurement, characterization, and movement related to the land-water and environment society dynamic. Prerequisite: GEOG 360.

GEOG 464 GIS and Decision Support (5) I&S Combines lectures about geographic information systems and decision methods with hands-on computer assignments about regional and urban issues associated with such complex decision processes as planning, improvement programming, and capital project implementation. Emphasizes land, transportation, and water resources decision problems. Prerequisite: GEOG 360.

GEOG 465 GIS Database and Programming (5) I&S Explores GIS database models, database development, and database management systems used in GIS. Uses programming languages most applicable to GIS database work, particularly related to extending current commercial GIS such as ArcGIS. Prerequisite: minimum grade of 2.0 in GEOG 360.

GEOG 467 Law, Justice, and the Environment (5) I&S S. HERBERT Examines the role law plays in shaping environmental policy. Challenges student to understand how environmental concerns are translated into legal discourse, and covers several typical issues that emerge in environmental law. Centers on active discussions. Offered: jointly with LSJ 467.

GEOG 469 Geographic Information Systems Workshop (5) Practices experience applying geographic information system (GIS) tools to analyze spatial data. Workshop format involves team-based work on GIS application project in various subfields of geography for community or university partners; encourages diverse backgrounds in various subfields of geography. Prerequisite: minimum grade of 2.0 in either GEOG 458, GEOG 461, GEOG 462, GEOG 464, GEOG 465, or GEOG 482. Offered: Sp.

GEOG 470 The Cultural Politics of Food (5) I&S Explores ways our understanding of the concepts of "food" and "eating" are culturally and spatially constructed by societal structures, power relations,

and media representations. Drawing from research in cultural geography and critical food studies, examines the connections between food, culture, the media, politics, and economics. Prerequisite: GEOG 271.

GEOG 471 Methods of Resource Analysis (5) I&S Economic and noneconomic criteria for resource analysis. Theory and methods of linear models of natural resource analysis. Includes materials-balance modeling, residuals management, constrained system optimization approaches to water quality analysis, land-use patterns and interregional energy use, and multiple objective planning techniques applied to natural resource problems.

GEOG 472 Race, Nature, and Power (5) I&S, DIV Explores the role that racial formation and power relations play in the cultural, political and spatial production of nature. Draws on geographies of nature-society relations, political ecology and environmental justice literatures to interrogate the link between nature imaginaries and conservation practices. Offered: AWSp.

GEOG 473 Geographies of Energy and Sustainability (5) I&S Examines how, where, and why energy resources are made and used and with what political, economic, and ecological implications. Investigates role of fossil fuels (coal, oil, natural gas) in neoliberal capitalism and geopolitics. Addresses multiple meanings of sustainability and explores conflicting visions of sustainable. Low-carbon futures. Recommended: either GEOG 205, GEOG 270, or GEOG 370. Offered: Sp.

GEOG 474 Geography and the Law (5) I&S S. HERBERT Examines the relationship between geography, law, and socio-legal analysis; reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with LSJ 474.

GEOG 476 Women and the City (5) I&S, DIV Explores the reciprocal relations between gender relations, the layout of cities, and the activities of urban residents. Topics include: feminist theory and geography (women, gender, and the organization of space) ; women and urban poverty, housing and homelessness; gender roles and labor patterns;

geographies of childcare; and women and urban politics. Offered: jointly with GWSS 476.

GEOG 477 Advanced Urban Geography (5) I&S

Geographic patterns and social processes within metropolitan areas. Canvases current research topics, methods, and theoretical debates in urban geography. Issues covered range across urban economic, political, and cultural geography.

GEOG 478 Social Justice and the City (5) I&S, DIV

Provides a link between general theories of urban inequality and their specific manifestation in the United States. Explores a series of themes related to contemporary urbanization processes including the recent mortgage crisis, segregation, gentrification, enclaves, fortification, redevelopment, homelessness, and the loss of public space.

GEOG 479 Diversity and Segregation in Cities (5) I&S

Explores segregation and diversity within cities in the United States and elsewhere. Topics include the history of segregation; the measurement and dynamics of segregation and diversity; explanations for change in segregation and diversity in neighborhoods; and the effects of neighborhood segregation and diversity on social and economic outcomes for residents.

GEOG 480 Environmental Geography, Climate, and Health (5) I&S

Demonstrates and investigates how human-environment relations are expressed in the context of health and disease. Local and global examples emphasize the ways medical geography is situated at the intersection of the social, physical, and biological sciences. Examines interactions between individual health, public health, and social, biological, and physical phenomena. Prerequisite: either GEOG 280, GEOG 380, or GEOG 426.

GEOG 482 GIS Data Management (5) I&S

Examines the principles and application of geospatial database management software, including personal and enterprise geodatabase management solutions. Considers enterprise architectures for GIS relative to organizational size. Addresses collaborative uses of Internet, Intranet, and Extranet architectures. Offers case studies in database management, with a variety of dataset types and sizes. Prerequisite: GEOG 360.

GEOG 490 Field Research: The Seattle Region (5)

I&S Field methods for contemporary urban research.

Survey designs used in the analysis of transportation, land use, location of employment, shopping and housing, political fragmentation, and environmental degradation. Field report required, based on field work in the Seattle region.

GEOG 491 Professional Development for

Geographers (1-3, max. 3) Prepares students for the post-graduation job market or for an internship.

From skills assessment to resume building to interviewing, prepares students for success in the job market. Recommended: Significant coursework in Geography. Course is intended for advanced students. Offered: W.

GEOG 494 Senior Essay (3) I&S

Supervised individual research and writing of major paper during senior year. Offered: AWSp.

GEOG 495 Special Topics (*, max. 15) I&S

Topics vary and are announced in the preceding quarter. Offered: AWSpS.

GEOG 496 Internship in Geography (3/5, max. 12)

Internship in the public or private sector, supervised by a faculty member. Credit/no-credit only. Offered: AWSpS.

GEOG 497 Tutorial in Geography (1-5, max. 15) I&S

Intensive directed study and tutoring. Literature reviews, formulations of project outlines and research designs, orientation in contemporary geographic thought and trends. Directed writing. Required for Honors students. Offered: AWSp.

GEOG 498 Study Abroad: Geography (1-5, max. 10)

I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements but may, depending on course content, count toward various major requirements. Offered: AWSpS.

GEOG 499 Special Studies (*, max. 15)

Supervised reading programs, undergraduate and graduate library and field research; special projects for undergraduate Honors students. Offered: AWSpS.

GEOG 500 Geographic Thought (5)

Familiarizes entering graduate students with the research interests and publications of the geography faculty.

Through readings, weekly essays, and discussions with faculty, students develop and deepen their individual research interests within the context of the intellectual life of the department. Offered: A.

GEOG 502 Professional Writing in Geography (*, max. 6)

GEOG 505 Spatial Dimensions of Chinese Development (5, max. 10) Addresses several major spatial topics critical to present-day China's development, including: population and land relationship, the spatial structures of economic activities and governments; rural-urban relations and transition; central-local relations; the hukou system; population mobility at different spatial scales and urban centers.

GEOG 511 Contemporary Research Design in Geography (5) Reviews the key steps in designing and executing high-caliber independent research in geography. Students generate a research proposal that can further their own thesis or dissertation research.

GEOG 513 Research Grant Workshop (5, max. 10) Writing research proposals. Participants learn to identify and approach sponsors; practice the peer-review process; develop a competitive research proposal. Prerequisite: GEOG 512 or GEOG 515 or equivalent; training and experience with quantitative, qualitative, or cartographic analysis; an already-formulated research project.

GEOG 514 GIS Problem Solving (5) Introduces geospatial information technologies including geographic information systems, global positioning systems, remote sensing, and spatial decision support systems for addressing complex geospatial problems. Students gain an understanding of integrated data processing strategies including problem definition, database design, data collection, data structuring, data analysis, and information presentation. Offered: S.

GEOG 517 Geospatial Data Analysis (5) Provides a practical introduction to spatial data analysis and geographic information systems. Topics include overlay, buffer and distance fundamentals, descriptive and inferential spatial statistics, spatial pattern analysis and spatial autocorrelations, global and local spatial measures, regression analysis and

geographically weighed regression. Emphasizes comprehension and application.

GEOG 520 Research Seminar: Geographic Information Representation (5) Current issues in geographic information representation for geographic information systems (GIS) . Includes representation for visualization, databases, and analyses. Prerequisite: one course in GIS.

GEOG 521 Research Seminar: Critical GIS (5) Examines theoretical and methodological foundations and practices of critical GIS research; considers philosophical and practical considerations in mixed methods research that incorporates GIS and other spatial technologies.

GEOG 522 Research Seminar: Space, Technology, and Society (5) Examines social scientific and humanistic theorizations of space, technologies, and their interrelationships; uses these theorizations to assess social/ cultural, political, and disciplinary implications of GIS, the geoweb, and emergent online mapping technologies. Offered: W.

GEOG 525 Advanced Qualitative Methods in Geography (5) Examines why and how qualitative methods can be used to pursue research in geography. Includes consideration of theoretical, ethical, and political issues that arise with qualitative methods. Offers considerable practice in such methods as ethnography, focus groups, interviewing, discourse and content analyses, narrative analysis, and archival analysis.

GEOG 526 Advanced Quantitative Methods in Geography (5) Introduces elementary spatial statistics and advanced statistical techniques in quantitative human geography. Methods reviewed include geographic applications of multiple regression analysis, spatial statistics and spatial autocorrelation, geographically weighted regression, factor analysis, discriminant analysis, and logistic regression. Prioritizes the interpretation and application of methods. Prerequisite: GEOG 326 or equivalent.

GEOG 531 Latin American Development Seminar (5, max. 10) Evolution of development theory in Latin America from a spatial perspective. Theories and development issues, using case studies from Latin America. How geographers have conceptualized

development problems and solutions. Prerequisite: GEOG 430.

GEOG 532 Research Seminar: Advanced Topics in Agriculture and Food (5, max. 10) Examines classic and contemporary research and writing on agricultural development and food and hunger drawing from political economy, political ecology, poststructural theory, cultural studies, and feminist theory.

GEOG 541 Research Seminar: Feminist Geographies (5) Explores major research themes in feminist geographies. Particular attention to the concept that gendered identities and spaces are discursively (re) produced. Emphasizes recent feminist scholarship that emphasizes difference, as well as the intersections between gender, "race," ethnicity, sexuality, age, nationality, class, and other social identities and divisions. Offered: jointly with GWSS 541.

GEOG 542 Research Seminar: Social and Population Geography (5, max. 10) Classic and contemporary theoretical and empirical research in social and population geography. Specific focus changes annually.

GEOG 543 Research Seminar: Topics in Immigration, Ethnicity, and Race (5, max. 10) Theoretical and empirical research issues in the geographies of immigration, ethnicity, and race. Specific focus changes annually.

GEOG 553 Advanced Topics in Cultural Geography (5, max. 10) Focuses on important contemporary topics in geography and cultural studies, especially race and racism. Includes critical questions surrounding issues of representation, recognition, and redistribution. Offered: Sp.

GEOG 554 Research Seminar: Nature-Society Relations (5) Addresses key concepts and theoretical debates in nature-society relations. Provides resources for theorizing how power works on and through the natural environment. Explores geographic scholarship on scientific knowledge production, the politics of conservation, biotechnology and the environment, and the post-human and post-natural. Offered: Sp.

GEOG 555 Research Seminar: Culture, Place, and Politics (5) Explores theoretical and empirical connections between culture, place, and politics. Emphasizes contemporary critical perspectives and approaches to understanding power and meaning-making as spatial processes. Perspectives and approaches include cultural-political economy and critical place studies. Offered: W.

GEOG 560 Principles of GIS Mapping (5) Origins, development, and methods of cartographic mapping. Principles of data representation and map design for thematic mapping and spatial analysis. Introduction of principles of geographic information systems (GIS) .

GEOG 561 Urban Geographic Information Systems (5) Uses geographic information systems to investigate urban/regional issues, including transportation, land use, environment, emergency response, and public health. Spatial data acquisition, structuring, management, and analysis in a GIS environment - for urban planning, government, and research applications. Prerequisite: minimum grade of 2.0 in GEOG 560 or permission of instructor. Offered: W.

GEOG 562 Coastal Geographic Information Systems (5) Combines lectures about fundamental concepts in geographic information systems with methods in hands-on computer lab assignments about coastal environment-society issues. Includes coastal-feature data measurement, characterization, and movement related to the land-water and environment-society dynamic. Prerequisite: GEOG 560 or equivalent.

GEOG 564 GIS and Decision Support (5) Combines lectures about geographic information systems and decision methods with hands-on computer assignments about regional and urban issues associated with such complex decision processes as planning, improvement programming, and capital project implementation. Emphasis on land, transportation, and water resource decision problems. Prerequisite: GEOG 560 or equivalent.

GEOG 565 Geographic Information Systems Programming (5) Covers GIS data structures and algorithms, plus map data systems used in GIS. Examines programming languages most applicable to GIS data management, analysis, and display work; particularly related to extending current commercial

GIS methods using scripting environments as in ArcGIS.

GEOG 567 Research Seminar: Geography and Economic Development (5, max. 10) Explores ways in which economic and social changes affect the well-being and development of subnational, regional economies. Explanatory roles of such factors as labor and labor institutions, governments, technical change, corporations, capital markets, information costs, and international trade in the process of global restructuring. Specific focus changes annually.

GEOG 568 International Case Studies of GIS for Sustainability Management (5) Uses GIS and resilience thinking to explore sustainable development projects in a variety of cultural settings. Examines international, national, and regional perspectives in order to understand how different organizations view sustainability as undertaken through GIS projects. Offered: Sp.

GEOG 569 Geographic Information Systems Workshop (5) Practical experience applying geographic information system (GIS) tools to analyze spatial data. Workshop format involves team-based work on GIS application project for community or university partners; diverse background encouraged. Prerequisite: either 2.0 in GEOG 561 or 2.0 in GEOG 562. Offered: Sp.

GEOG 571 Research Seminar: Critical and Normative Ecologies (5)

GEOG 572 Research Seminar: Queer Geographies (5) Explores the relationship between queer theory and critical human geography. Covers classic themes and debates, as well as new and emerging topics. Asks how geographic thought can be queered, as well as how queer studies can be augmented or critiqued with a geographical imagination.

GEOG 573 Urban Political Geography: Research Seminar (5) Covers both classic and contemporary theoretical debates and research on the relation between power, place, and the local scale. Considers both conventional sites (e.g., the local state) as well as new forms and locations of city politics (e.g., sexuality and the body).

GEOG 574 Research Seminar: Geography, Law, and Social Control (5) Explores relationship between the

construction and enforcement of law and the landscape of lived experience; reviews major approaches in socio-legal analysis and seeks to augment these with insights from contemporary human geography research; explores various ways in which geographical variance shapes legal behavior.

GEOG 575 Advanced Political Geography (5, max. 10) Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with JSIS B 575.

GEOG 576 Research Seminar: Geographies of Racial Formations and Postcolonialism (5) Overview of key insights from ethnic and Native studies, postcolonial, and critical race theories. Focuses on how geographers can build from this literature to deepen our understanding of the relationship between race, state formations, and power relations. Offered: W.

GEOG 578 Research Seminar: Theorizing the City (5) Considers classic and contemporary writings in urban theory in the twentieth century, including social ecology (Chicago School), political economy, and contemporary theoretical debates in poststructuralism, deconstructionism, and culture as they relate to cities and space.

GEOG 580 Medical Geography (3) Geography of disease, consideration in health systems planning. Analysis of distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services; distribution of health professionals; cultural variations in health behavior. Prerequisite: familiarity with social science research; health-related issues. Offered: jointly with HSERV 586.

GEOG 581 Seminar in Medical Geography (5, max. 10) Intensive research seminar dealing with new and promising research themes in medical geography and public health. Offered: jointly with HSERV 585.

GEOG 582 GIS Data Management (5) Examines the principles and application of geospatial database management software, including personal and enterprise geodatabase management solutions.

Considers enterprise architectures for GIS relative to organizational size. Addresses collaborative uses of Internet, Intranet, and Extranet architectures. Offers case studies in database management, with a variety of dataset types and sizes.

GEOG 595 Special Topics in Geography (3-5, max. 10) Topics vary and are announced in the preceding quarter. Offered: AWSp.

GEOG 598 Geography Colloquium (1, max. 6) Participation in, and critique of, student thesis and dissertation research, faculty research, and visitor contributions. Offered: AWSp.

GEOG 600 Independent Study or Research (*-) Offered: AWSpS.

GEOG 700 Master's Thesis (*-) Offered: AWSpS.

GEOG 800 Doctoral Dissertation (*-) Offered: AWSpS.

GERMAN STUDIES

GERMAN 100 Intensive First-Year German (15) Accelerated first-year German. Speaking and listening. Secondary objectives are reading and writing. Offered: S.

GERMAN 101 First-Year German (5) VLPA The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. (Cannot be taken for credit if German is language of admission). First in a sequence of three. Prerequisite: score of 0-11 on GER TL placement test if German is language of admission. Offered: AW.

GERMAN 102 First-Year German (5) VLPA The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and writing. Second in a sequence of three. Prerequisite: either GERMAN 101 or score of 12-35 on German placement test. Offered: WSp.

GERMAN 103 First-Year German (5) VLPA The methods and objectives are primarily communicative, with emphasis on speaking and listening. Secondary objectives are reading and

writing. Third in a sequence of three. Prerequisite: either GERMAN 102, GERMAN 111, or score of 36-56 on German placement test. Offered: AWSpS.

GERMAN 104 Individualized First-Year German (1-15, max. 15) Individualized approach to elementary German instruction. Students progress at their own pace. Number of credits vary. Depending upon amount of material mastered, any number of credits up to 15 may be earned per quarter. (Note: If German is the student's language of admission, only 10 credits count towards graduation.) Credit/no-credit only.

GERMAN 111 Basic German Review (5) Includes the curriculum of GERMAN 102, preceded by a review of GERMAN 101. Designed for students with a background in German. Cannot be taken for credit if student has already taken GERMAN 102, GERMAN 103, or more advanced courses. Offered: A.

GERMAN 121 First-Year Reading German (5) Special beginning course devoted exclusively to the reading objective. Offered: S.

GERMAN 122 First-Year Reading German (5) Special beginning course devoted exclusively to the reading objective; GERMAN 122 continuation of GERMAN 121. Offered: S.

GERMAN 150 Conversational German through Films (2, max. 6) Conversational practice in small groups based on films. Because series progresses through the year, beginners may enroll only Autumn Quarter. May be taken concurrently with other Germanics courses. Cannot be taken for credit if GERMAN 250 previously taken. Offered: AWSp.

GERMAN 195 Popular Film and the Holocaust (5) VLPA, DIV Introduces films about the Holocaust with particular emphasis on popular films. Develops the requisite tools for analyzing films, a historical perspective of the Holocaust, and the problems involved in trying to represent a historical event whose tragic dimensions exceed the limits of the imagination. Offered: jointly with JEW ST 175.

GERMAN 199 Supervised Study (1-10, max. 10) Study in German language and culture.

GERMAN 200 Intensive Second-Year German (15)

VLPA Accelerated second-year German. Systematic review of German grammar. Intensive practice in conversation, reading and writing.

GERMAN 201 Second-Year German (5) VLPA

Systematic review of German grammar. Intensive practice in conversation, reading, and writing. First in a sequence of three. Offered: AWSpS.

GERMAN 202 Second-Year German (5) VLPA

Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Second in a sequence of three. Offered: AWSp.

GERMAN 203 Second-Year German (5) VLPA

Systematic review of German grammar. Intensive practice in conversation, reading, and writing. Third in a sequence of three. Offered: AWSp.

GERMAN 210 Classics of German Literature and Thought (5) VLPA

Introduction to major figures of German culture from the Reformation to the present, their contribution to the intellectual life of the Western world. Luther, Kant, Goethe, Schopenhauer, Marx, Freud, Nietzsche, Kafka, Brecht, and Mann. In English.

GERMAN 220 Origins of the Germanic Languages (5)

VLPA Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English relationship. Overview of phonology, morphology, syntax, and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and Gothic. Taught in English. Offered: jointly with LING 220.

GERMAN 221 The German Express: Second Year (10) VLPA

Combines in one quarter the contents of GERMAN 201 and GERMAN 202, with special emphasis on reading and speaking skills. Limited to students who have demonstrated exceptional skills in first-year German. Offered: A.

GERMAN 243 Fairy Tale and Fantasy (5) VLPA

Studies of the Grimm brothers' fairy tales, their reception in different cultural frameworks, and their influence on fantasy literature from the nineteenth century to the present, including discussions of their

sociological, psychological, and psychoanalytical implications and gender issues. In English.

GERMAN 250 Advanced Conversational German through Films (2, max. 6) VLPA

Conversational practice in small groups based on films. May be taken concurrently with other Germanics courses. Offered: WSp.

GERMAN 275 Crime Scenes: Investigating the

Cinema and Its Cultures (5) VLPA Teaches how to analyze film by closely studying crime scenes from historical and contemporary German and Scandinavian cinema. Directors studied include Fritz Lang, Carl Th. Dreyer, Billy Wilder, and Lars von Trier. Offered: jointly with SCAND 275.

GERMAN 285 Representation and Diversity (5) I&S,

DIV E. WIGGINS Studies of culture and ethics with aesthetic, literary, and philosophical tools of analysis, with special attention to issues of identity, diversity, civil rights, environmental justice, and multiculturalism. Readings and discussions in English.

GERMAN 293 Introduction to Contemporary German Culture (5) VLPA/I&S

DIV Introduction to culture of today's German-speaking world through readings from various media and discussion of diverse manifestations of both high and popular culture, its underlying beliefs and values, and its institutions and historical background. Readings and discussions in English.

GERMAN 295 The Contributions of German Jews to German Culture (5) VLPA/I&S, DIV

Contribution, assimilation, and alienation of German-speaking Jews - such as Karl Marx, Sigmund Freud, and Franz Kafka - emphasizing the multi-cultural nature of that which is understood as "German culture." Offered: jointly with JEW ST 295.

GERMAN 298 Topics in Literature and Culture (5, max. 10) VLPA

Introduces literary works and cultural artifacts from a variety of different traditions, cultures, and periods. Helps students to acquire basic tools for analyzing literature and culture.

GERMAN 299 Supervised Study (1-5, max. 10)

GERMAN 300 Studies in Germanics (5, max. 15)

VLPA Topics or figures of German literature or language.

GERMAN 301 Conversation and Writing Skills (3-5)

VLPA Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Offered: AW.

GERMAN 302 Conversation and Writing Skills (3-5)

VLPA Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Offered: WSp.

GERMAN 303 Conversation and Writing Skills (3-5)

VLPA Language skill development (speaking, writing) using materials selected to broaden understanding of German-speaking countries. Offered: Sp.

GERMAN 304 Contemporary German Play (5, max. 15)

VLPA Reading, analysis, and performance of one play by a contemporary German author. Taught in German. Performance scheduled for last week of quarter. Prerequisite: GERMAN 203. Offered: Sp.

GERMAN 307 Third-Year Composition (3-5) VLPA

GERMAN 311 Introduction to German Literary Studies (5) VLPA Introduction to major critical concepts and basic methodological issues of literary studies. Diverse reading strategies plus special emphasis on analytical writing about literature. Readings from eighteenth- to twentieth-century literature.

GERMAN 312 Historical Approaches to German Literature (5) VLPA

German literature from the Middle Ages to the present: Medieval Courtly period, Baroque, Enlightenment, Sturm und Drang, Classicism, Romanticism, Realism, Neoromanticism, Expressionism.

GERMAN 349 Goethe in English (5) VLPA Selected major works (especially Faust) of Goethe, whose literary, philosophical, and scientific achievements are examined as integral parts of his quest for meaning, wholeness, and universality, and whose impact on Western thinking is traced up to Thomas Mann and C. G. Jung.

GERMAN 350 The German Drama in English (5)

VLPA German drama from the eighteenth to the twentieth centuries. German history and culture as reflected in the plays. Discussion of major themes.

GERMAN 351 Vienna 1900 in English (5) VLPA/I&S

Interdisciplinary study of Vienna at the turn of the century. Discussion of literary texts with emphasis on other intellectual and cultural trends of this very rich and complex period.

GERMAN 352 Literature and Society in Weimar and National Socialist Germany in English (5) VLPA/I&S

Literature, theater, and film, with adjunct consideration of art and architecture, in relation to the German social and cultural situation circa 1918 to circa 1947.

GERMAN 353 Postwar Germany (5) VLPA/I&S Study of culture, society, and politics in Germany since 1945. Readings include literary and nonliterary texts devoted to culture and everyday life. In English.

GERMAN 355 German Literature and Film in English (5) VLPA Relationship between literature and film in the German tradition. Content varies; focus may be on a particular time period, director, or theme. Special attention paid to developing critical and analytical skills.

GERMAN 360 Women in German Literature in English (5) VLPA/I&S Investigates the changing social roles of women in German society on the example of various literary texts from different periods.

GERMAN 370 History of German Cinema (5) VLPA/I&S History of German cinema emphasizing the cultural and political contexts. Films by Lang, Murnau, Riefenstahl, and Fassbinder, among others. Readings and discussions in English.

GERMAN 371 Special Topics: German Cinema (5, max. 10) VLPA Covers one or more German film directors, a specific genre, or a chosen theme. Topics vary. Readings and discussions in English.

GERMAN 385 Rhetoric and Social Justice (5) I&S, DIV E. WIGGINS Analyzes the rhetoric of social justice, with special attention to the advancement of civil rights, tolerance, diversity, and environmental justice, and multiculturalism. Readings and discussions in English.

GERMAN 390 Germanic Studies in English (5, max. 15) VLPA Topics or figures of German literature or language.

GERMAN 395 Proctoring of First-Year German Film Course (2, max. 6) VLPA Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in GERMAN 150. Leaders may

participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in 3 quarters. Credit/no-credit only. Offered: AWSp.

GERMAN 396 Proctoring of Second-Year German Film Course (2, max. 6) VLPA Restricted to upper-division students of German who have demonstrated sufficient proficiency in speaking German to lead discussion groups in GERMAN 250. Leaders may participate one or two hours per week and receive 1 credit for each hour in class with 6 credits allowed in three quarters. Credit/no-credit only. Offered: WSp.

GERMAN 397 Foreign Studies in German Literature (1-6, max. 15) VLPA

GERMAN 398 Foreign Studies in German Language (1-6, max. 15) VLPA

GERMAN 399 Foreign Studies in German Culture (1-6, max. 15) VLPA/I&S

GERMAN 401 Advanced Writing and Conversation (3-5) VLPA Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. First in a sequence of three. Offered: A.

GERMAN 402 Advanced Writing and Conversation (3-5) VLPA Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Second in a sequence of three.

GERMAN 403 Advanced Writing and Conversation (3-5) VLPA Texts and exercises, both grammatical and stylistic, to develop vocabulary, stylistic awareness, and the practical application of grammatical rules in written German. Third in a sequence of three.

GERMAN 411 Studies in Medieval Literature and Culture (5) VLPA Rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems.

GERMAN 421 Studies in Eighteenth-Century Literature and Culture (5) VLPA Rotating special

topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems. Offered: A.

GERMAN 422 Studies in Nineteenth-Century Literature and Culture (5) VLPA Rotating special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems. Offered: W.

GERMAN 423 Studies in Twentieth-Century Literature and Culture: (5) VLPA Rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems. Offered: Sp.

GERMAN 430 Advanced Conversational German (3-5, max. 10) VLPA For participants in special summer programs only. Cannot be taken for credit by those who have already taken GERMAN 401, GERMAN 402, or GERMAN 403.

GERMAN 444 Undergraduate Thesis in Germanics (5) VLPA Supervised research leading to the writing of a research thesis.

GERMAN 446 Internships and Service Learning (2-5, max. 10) Prerequisite: 6 credits of upper-level German language courses. Credit/no-credit only.

GERMAN 447 Undergraduate Research (1-5, max. 15) Supervised research with faculty member.

GERMAN 451 Linguistic Analysis of German (5) VLPA Offered: A.

GERMAN 452 History of the German Language (5) VLPA Traces the history of the German language from early Germanic to the present. Offered: jointly with LING 415; W.

GERMAN 479 Special Topics in the Teaching of Foreign Languages (3, max. 9) VLPA Intensive workshop for in-service and pre-service teachers of all foreign languages on some aspect of foreign-language teaching methodology.

GERMAN 490 Contemporary German Literature (5) VLPA Interpretation of selected works by contemporary German authors.

GERMAN 493 Special Topics in German Culture (5) VLPA/I&S

GERMAN 494 Studies in German Poetry (5) VLPA Introduction to various methods of analysis and interpretation.

GERMAN 495 Proseminar in German Literature (5, max. 15) VLPA Special topics, the subject matter and depth of which are not included in other literature courses, arranged through consultation among students and faculty members.

GERMAN 496 History of Germanic Philology (5) VLPA Introduction to the works of outstanding scholars in the field of Germanics.

GERMAN 497 Studies in German Literature (1-6, max. 15)

GERMAN 498 Studies in the German Language (1-6, max. 15)

GERMAN 499 Studies in German Culture (1-6, max. 15)

GERMAN 500 Literary Theory, Methodology, and Bibliography (5) Historical survey and analysis of criticism (Methodengeschichte) and modern trends in contemporary theory. Methods of research and bibliography, as well as theoretical aspects of practical interpretation.

GERMAN 501 Proseminar in Methods and Writing (5) Introduction to research methods, presentation of research, scholarly writing, and general poetological issues. Each year a different special topic is chosen as a focus for students' research in the course.

GERMAN 503 Contemporary German Literature (5, max. 15) Seminar analyzing the esthetic movements and thought of contemporary German literature, the social and political problems dealt with in the works of representative authors, and major experimental concepts. Some previous exposure to German literature and civilization after 1945 is expected.

GERMAN 504 Special Studies in Literary Criticism and Theory (5, max. 15) Literary criticism and theory, focusing on special topics proposed by the

instructor. Taught in English. Prerequisite: GERMAN 500 or equivalent.

GERMAN 510 Studies in Medieval Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the Middle Ages, such as particular movements, authors, genres, themes, or problems.

GERMAN 511 Studies in Renaissance and Baroque Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the Renaissance and Baroque, such as particular movements, authors, genres, themes, or problems.

GERMAN 512 Studies in Eighteenth-Century Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the eighteenth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 514 Studies in Nineteenth-Century Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the nineteenth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 516 Studies in Twentieth-Century Literature and Culture (5, max. 15) Seminar on rotating special topics in literature and culture of the twentieth century, such as particular movements, authors, genres, themes, or problems.

GERMAN 518 Foreign Language Teaching Methodology (2) *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with SCAND 518/SLAVIC 518; A.

GERMAN 525 Seminar in Romanticism (5, max. 15)

GERMAN 526 Seminar in Nineteenth-Century Drama (5, max. 15)

GERMAN 527 Seminar in Nineteenth-Century Prose (5, max. 15)

GERMAN 528 Nineteenth-Century Poetry (5, max. 15) Representative selections from Holderlin, the late Goethe, and from prevalent trends in nineteenth-century poetry, such as romanticism, "Young Germany," poetic realism, and the experimental poetry of naturalism.

GERMAN 529 Studies in Literature 1870-1920 (5, max. 15) Seminar on rotating special topics drawn from the period 1870-1920, such as particular movements, authors, genres, themes, or problems.

Poems of the period from Kurenberger through Walther are analyzed with stress on grammatical, formal, stylistic, and ideological interpretation. Prerequisite: adequate knowledge of Middle High German.

GERMAN 568 Seminar in Heroic Epic (5) Literary and historic problems of the German heroic epic, with special emphasis on the Nibelungenlied and the Dietrichsepik.

GERMAN 575 Teaching of German Literature and Civilization (5) Teaching of German language and literature on the advanced level in secondary schools and colleges. Credit/no-credit only.

GERMAN 576 Modern Methods and Materials in Teaching German (3)

Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials. Credit/no-credit only. Offered: A.

GERMAN 577 Principles of Second Language Learning (2)

GERMAN 580 Seminar in German Literature (5, max. 15) Open topics seminar with varying content.

GERMAN 581 Seminar in Poetry (5, max. 15) Open topics seminar with varying content.

GERMAN 582 Seminar in Drama (5, max. 15) Open topics seminar with varying content.

GERMAN 583 Seminar in Prose (5, max. 15) Open topics seminar with varying content.

GERMAN 590 Philosophical Issues in German Culture (5, max. 15) Seminar on rotating special topics dealing with the impact of particular thinkers, movements, or philosophical problems in German culture.

GERMAN 591 Studies in German Intellectual History (5, max. 15) Seminar on rotating special topics dealing with interactions of history, literature, and culture in the German tradition.

GERMAN 592 Cultural Studies (5, max. 15) Seminar on rotating special topics dealing with periods, themes, or particular problems in German life and culture.

GERMAN 600 Independent Study or Research (*-)**GERMAN 700 Master's Thesis (*-)****GERMAN 800 Doctoral Dissertation (*-)****HISTORY****HISTORY ANCIENT AND MEDIEVAL HISTORY**

HSTAM 111 The Ancient World (5) I&S Origins of Western civilization to the fall of Rome.

HSTAM 112 The Medieval World (5) I&S Political, economic, social, and intellectual history of the Middle Ages. Cannot be taken for credit toward a history major if HSTAM 331 or 332 or 333 previously taken.

HSTAM 203 Introduction to the Middle Ages: Medieval People (5) I&S Introduction to the Western Middle Ages through a study of social roles and statuses as seen through documents and imaginative literature. The groups studied are rulers, aristocracy, peasants, townspeople, clergy, outcasts, and outsiders.

HSTAM 205 Military History of the Ancient World (5) I&S Military history from prehistoric times to the fall of the Roman Empire, with special emphasis on the Greco-Roman period and the campaigns of Alexander the Great, Hannibal, Scipio Africanus, and Julius Caesar.

HSTAM 215 Tudor England (5) I&S Covers the political, social, and cultural history of England from Wars of the Roses to reign of Elizabeth I; themes include social order, economy and society; imposition of order after a change of dynasty; political propaganda; English Reformation and Renaissance; literature and culture; witch beliefs and witch trials; and political rebellion.

HSTAM 231 Race, Identity, and the Ancient Mediterranean World (5) I&S, DIV M. *Green, K. Topper* Explores ancient authors' perceptions of others (foreigners, "barbarians," people on the margins of their known-worlds, slaves, etc.) alongside current scholarship on ancient perceptions of race and identity. Also examines how different groups/nations in nineteenth/twenty-first centuries used their views of Greek and Roman societies to make modern claims about race, white privileges, and power. Offered: jointly with CLAS 231.

HSTAM 235 Myths and Mysteries of the Middle Ages (5) I&S Introduces the basics of the historian's craft by focusing on some enduring mysteries of the European middle ages, including bog bodies, druids, King Arthur, Robin Hood, the Templars, the Holy Grail, the Shroud of Turin, and Joan of Arc.

HSTAM 250 The Mongols: Empire and Resistance in Medieval Eurasia (5) I&S *M. Mosca, J. Walker* Under the leadership of Genghis Khan (d. 1227), Mongol

armies established the largest land-based empire in world history. Traces the history of the Mongol Empire, with attention to the geography and cultures of the regions it conquered. Examines how diverse communities across Eurasia responded to the rise of Mongol power, and listens carefully to voices of those who fought, fled, or collaborated with Mongol forces.

HSTAM 276 Celtic Civilizations of the European Middle Ages (5) VLPA/I&S *R. Stacey* Introduction to the history and pseudo-history of medieval Ireland, Wales, Scotland, and Gaul. Topics include "Celtic" religion, mythology, social institutions, nationalism, and the relationship between history and myth. Particular attention to how historians "do" history in the absence of straightforward historical sources.

HSTAM 290 Topics in Ancient/Medieval History (5, max. 10) I&S Examines special topics in ancient/medieval history.

HSTAM 302 Ancient Roman History (5) I&S *Mira Green* Political, social, economic, and cultural development of Rome from the beginnings in the eighth century BC to the beginning of the Middle Ages. Offered: S.

HSTAM 312 The Roman Republic (5) I&S Political, social, economic, and cultural history, with emphasis on the development of the constitution and territorial expansions.

HSTAM 313 The Roman Empire (5) I&S Political, social, and cultural history, with special emphasis on the period of Cicero and Caesar.

HSTAM 314 The World of Late Antiquity (5) I&S Examines the transformation of the ancient world from the third-century crisis of the Roman Empire to the rise of Islamic civilization. Explores the manifold political, cultural, and social changes that transformed Europe, the Mediterranean, and the Near East between the third and the eighth centuries CE.

HSTAM 315 The Byzantine Empire (5) I&S Political, social, economic, and cultural history of the eastern Roman Empire from the fourth to fifteenth centuries.

HSTAM 320 Reacting to the Past: Religion and Politics in the European Middle Ages (5) I&S Role-playing-based class focusing on religion and politics in the Middle Ages. Students take on identities and pursue game-structured strategies centered on key historical moments such as the struggle between church and state and the mission and trial of Joan of Arc.

HSTAM 325 Empires in Ancient Iran (5) I&S Explores the history of ancient and early medieval Iran, from the teachings of the prophet Zoroaster to the Islamic conquest of the Sasanian Empire. Focuses on the two dominant imperial phases of pre-Islamic Iranian history: the Achaemenid Empire created by Kings Cyrus and Darius, and the Sasanian Empire.

HSTAM 330 The Age of Augustus (5) VLPA/I&S *Gowing* Detailed study of the history and culture of the reign of Augustus, the first Roman emperor (31 BC-AD 14). Includes readings in Augustan authors such as Vergil, Ovid, and Horace as well as the study of Augustan art and architecture. Offered: jointly with CLAS 330.

HSTAM 331 Early Middle Ages (5) I&S The Dark Ages, feudalism, emergence of the medieval order of civilization, and the development of Romanesque culture.

HSTAM 332 Central Middle Ages (5) I&S Europe in the central Middle Ages: culture of cathedrals and universities, formation of national states, development of urban society.

HSTAM 333 Late Middle Ages (5) I&S Disintegration of the medieval order under the impact of the national state, the secularization of society, and the decline of the church. Movements of reform and revolution. The culture of late gothic Europe.

HSTAM 335 The Age of Nero (5) VLPA/I&S *C. Connors, A. Gowing, S. Levin-Richardson, S. Stroup* Detailed study of the history and culture of the reign of the Roman Emperor Nero (AD 54-68). Includes readings in the historian Tacitus' account of Nero, as well as in authors such as Petronius, Lucan, and Seneca, and consideration of the artistic and architectural achievements of the period. Recommended: HSTAM 111, HSTAM 302, HSTAM 312, or HSTAM 313; CLAS 122, CLAS 320, CLAS 329, or CLAS 330 Offered: jointly with CLAS 335; AWSpS.

HSTAM 340 Medieval Women (5) I&S, DIV The experiences of women in medieval society: public and private power, changing concepts of family and the domestic sphere, ideal and reality in courtly love, women in religious life, women in the workplace, the *querelle des femmes* and the beginnings of "feminist" thought.

HSTAM 360 Medieval Christianity (5) I&S Development of Christianity in the medieval west circa 400 to 1500. Emphasis on the forms of religious life: monasticism, the papacy, friars, hermits, mystics, and reformers; and on the emergence of new modes of piety, both lay and clerical.

HSTAM 365 Medieval England, 1042-1485 (5) I&S Upper level survey of English history from the Norman conquest until 1485. Emphasis on political, social, and economic history, with special attention to the peculiarities of English development as these had emerged by 1485.

HSTAM 367 Medieval Jewish History (5) I&S Social and intellectual history of the Jews in western Europe to the fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with JEW ST 367.

HSTAM 370 The Vikings (5) VLPA/I&S Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in archaeological finds and in historical and literary sources. Offered: jointly with SCAND 370.

HSTAM 401 Early Greece (5) I&S Bronze and Dark Age Greece: realities of the heroic age of ancient Greece.

HSTAM 402 Classical Greece (5) I&S The classical civilization of ancient Greece, with special emphasis on the legacy of Greece to Western civilization.

HSTAM 403 Alexander the Great and the Hellenistic Age (5) I&S Rise of Macedonia, conquest of Near East by Alexander, and division into lesser kingdoms after Alexander's death. Special emphasis on fusion of cultures and change from city-state to world-state.

HSTAM 420 Freedom in Ancient Rome and the Modern World (3/5) VLPA/I&S, DIV A. *Gowing*

Examination of the concept of 'freedom' in Ancient Rome, from its founding in the eighth century BC to the fourth century AD. Special attention to comparing the Roman perspective with some modern views of 'freedom', including (but not limited to) the United States from its founding to the present day. Recommended: HSTAM 111, 302, 312, or 313; CLAS 122, 320, or 329 Offered: jointly with CLAS 420; AWSpS.

HSTAM 443 Medieval Russia: 850-1700 (5) I&S

Development of Russia from earliest times to the reign of Peter the Great. Offered: jointly with JSIS A 443.

HSTAM 490 Topics in Ancient/Medieval History (5, max. 10) I&S Examines special topics in ancient/medieval history.

HSTAM 501 Greek History Field Course (3-6, max. 6)

Examines various topics and themes in Greek history. Content varies.

HSTAM 505 Ancient Greece and Rome: Writings and Interpretations (3-6, max. 6) Study of historians, development of historical study as a distinct pursuit, focus of attention in historical scholarship in the ancient world and comparison with modern interpretation of antiquity.

HSTAM 506 Medieval Europe: Writings and Interpretations (3-6, max. 6) Study of historians, schools of history, and interpretations of medieval European history.

HSTAM 511 Roman History Field Course (3-6, max. 6) Examines various topics and themes in Roman history. Content varies.

HSTAM 512 Seminar in Ancient History ([3-6]-, max. 12) Detailed study of special topics in ancient history.

HSTAM 513 Seminar in Ancient History (-[3-6], max. 12) Detailed study of special topics in ancient history.

HSTAM 518 Topics in Late Antiquity (3-6, max. 18) Examines various topics in the transformation of the

ancient world from the third-century crisis of the Roman Empire to the rise of Islamic civilization. Serves as the field course for masters and Ph.D. students.

HSTAM 530 Early Middle Ages (3-6, max. 6) Field course. Survey of early European history through the times of tribal migrations and invasions from Asia. Problems and methods of research.

HSTAM 531 Medieval European History (3-6, max. 6)

HSTAM 532 Medieval European Seminar (3-6, max. 12) Prerequisite: reading knowledge of Latin.

HSTAM 533 Medieval European Seminar (3-6, max. 12) Prerequisite: reading knowledge of Latin.

HSTAM 534 Medieval European Seminar (3-6, max. 12) Prerequisite: reading knowledge of Latin.

HSTAM 535 Later Medieval Europe (3-6, max. 6) Field course. Surveys European history from ca. 1250 to 1500, with particular attention to historiography.

HSTAM 536 Topics in Early Medieval History (3-6, max. 12) Graduate level study of specific topics in early medieval history. Topics vary from quarter to quarter; for information, please see instructor.

HSTAM 590 Topics in Ancient and Medieval History (5, max. 15) Seminar on selected topics in ancient and medieval history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

HSTAM 591 Advanced Medieval and Renaissance Seminar (3-6, max. 12)

HSTAM 592 Advanced Medieval and Renaissance Seminar (3-6, max. 12)

HSTAM 593 Advanced Medieval and Renaissance Seminar (3-6, max. 12)

COMPARATIVE AND TRANSREGIONAL HISTORY

HSTCMP 200 Ten Events That Shook the World (5)

I&S Offers introduction to history by examining ten events of great importance for both past and present. The ten events, which vary from quarter to quarter, come from diverse times and places, thereby encouraging a sweeping view of world history. (See department advisor for the current quarterly list of the ten events.)

HSTCMP 202 World Wars I and II (5) I&S *Laurie*

Marhoefer The First and Second World Wars, human-made catastrophes that engulfed the globe, killed upwards of eighty million people, including tens of millions of civilians. Each war remade the world. Their aftershocks reverberate today, still shaping politics around the world. History of the wars, focusing on military technology, ethics, racism, gender and sexuality, and social history. Offered: A.

HSTCMP 204 Europe and America in the Era of the World Wars (5) I&S

Declining role of Europe in the world and rise of the United States from 1914 to 1945.

HSTCMP 205 Filipino Histories (5) I&S, DIV *Vicente L.*

Rafael Introduction to histories, cultures and politics of Filipinos and the Philippines. Examines pre-colonial societies, Spanish colonial rule, nationalism and Revolution, Filipino-American war, U.S colonial rule, Japanese occupation, postcolonial period to Martial Law, continuing rebellions, and the Filipino diaspora. Offered: jointly with JSIS A 205.

HSTCMP 207 Introduction to Intellectual History (5)

I&S Ideas in historical context. Comparative and developmental analysis of Western conceptions of "community," from Plato to Freud. Offered: jointly with CHID 207.

HSTCMP 209 History of Christianity (5) I&S

Twenty centuries of the history, thought, and culture of Christianity.

HSTCMP 210 Catholic Classics in Historical Context (5) I&S *James R Felak*

Examines some of the most significant works in the two thousand-year Catholic tradition, paying special attention to the historical context in which the work was produced, the life of

the author, and the content of the writing. The featured authors include major theologians such as Saints Thomas Aquinas and John Henry Newman, spiritual writers such as Saints. Benedict and Catherine of Siena, and literary figures such as G. K. Chesterton.

HSTCMP 211 Introduction to the History of Science (5) I&S

Introduction to major themes in the history of science. Investigation of historical and scientific methods through the study of particular historical cases.

HSTCMP 212 Indigenous Leaders and Activists (5)

I&S, DIV J. *REID* By focusing on historic indigenous leaders and activists globally, students will examine issues of power, sovereignty, identity, and the role of the individual in shaping history. Additionally, students will examine contemporary, global issues that indigenous communities face and collaboratively contribute to a wiki of indigenous leaders and activist movements. Offered: jointly with AIS 212.

HSTCMP 215 The History of the Atomic Bomb (5)

I&S History of the atomic bomb from the beginning of nuclear physics to the security hearing of J. Robert Oppenheimer. Includes a study of the scientific achievements that made the bomb possible, the decision to deploy the bomb, the moral misgivings of the scientists involved.

HSTCMP 217 The Space Age (5) I&S

Explores the history of ideas, events, and practices associated with the Space Age from the late nineteenth century through the twentieth. Emphasizes intellectual, cultural, and political/military history in the development of rockets and space technology in the United States, Germany, and the Soviet Union.

HSTCMP 220 At the Top of the World: Arctic

Histories (5) I&S *Elena Campbell* History of human understanding of and relationship to the Arctic by tracing the social, economic, political, and environmental transformations of the Earth's northernmost region, from earliest settlements to the end of the twentieth century (the creation of the Arctic Council in 1996) , as well as shifts in ideas that accompanied these changes. Offered: jointly with ARCTIC 220.

HSTCMP 221 Global Environmental History, Feast and Famine (5) I&S, DIV *Purnima Dhavan* Examines how consumption in societies such as China, India, Japan, Africa, Europe, and the Americas developed from 1500 to the present. Broad patterns of global history and how they fit into debates about environmental history. Offered: Sp.

HSTCMP 225 The Silk Road (5) I&S *Waugh* History of cultural and economic exchange across Eurasia from the early Common Era to modern times. Spread of religions such as Islam and Buddhism, overland trade in rare commodities, interaction between nomadic and sedentary cultures, role of empires, culture of daily life, and the arts.

HSTCMP 245 Exploration and Empire: The Art and Science of Global Power, 1300-1800 (5) I&S, DIV *B. Schmidt* Explores key moments in the history of exploration and empire, 1300-1800. Taking an interdisciplinary approach, focuses on scientific and artistic aspects of exploration, their implications for imperialism, and legacies in the post-colonial world.

HSTCMP 247 Global Health Histories: Colonial Medicine, Public Health, and International Health in the Global South (5) I&S, DIV *Adam W Warren* Traces the roots of the modern global health movement by examining the history of overseas interventions in medicine and public health from the fifteenth century to the present. Focuses primarily on Latin America while including case studies on Africa, Asia, Australia, and the Pacific. Offered: A.

HSTCMP 248 The AIDS Epidemic: A Global History (5) I&S, DIV *Lynn M Thomas, Laurie Marhoefer* Examines global AIDS epidemic as key episode in twentieth-century. Begins with first AIDS patients in 1980s, moves back in time, considering histories of illness and inequality enabling epidemic to have devastating and uneven effects. Explores how politics of sexuality, class, citizenship and race shaped responses to epidemic by governments and communities, and, how HIV/AIDS gave rise to new forms of activism, research, and philanthropy.

HSTCMP 249 Introduction to Labor Studies (5) I&S Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of

labor in the modern world. Offered: jointly with POL S 249/SOC 266.

HSTCMP 250 Introduction to Jewish Cultural History (5) I&S Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with JEW ST 250.

HSTCMP 258 Slavery and Slave Trading in the 21st Century (5) I&S, DIV Examines the forms that slavery and slave trading have taken in contemporary times.

HSTCMP 259 Race and Slavery Across the Americas (5) I&S, DIV *S. SMALLWOOD* Surveys development of racial slavery across North and South America and the Caribbean from 1500-1880s. Comparative examination of slavery exploring how slavery supported colonization making European settlement across Americas viable; how ideas about racial difference developed, operated differently; how enslaved peoples' resistance to bondage helped abolish slavery in Americas by late 1880s.

HSTCMP 260 Slavery in History: A Comparative Study (5) I&S Slavery as a universal historical phenomenon lending itself to a comparative analysis is studied in terms of its philosophical justifications, economic importance, and local practices. The following historical periods are surveyed: the ancient Near East, Greece, Rome, Islam, Africa, Latin America, and North America.

HSTCMP 265 Modern Revolutions Around the World (5) I&S Introduces the causes, processes, and legacies of modern revolutions. Cases included the American, French, Mexican, Russian, and Chinese Revolutions. Special attention given to how these and other revolutions have shaped the modern world.

HSTCMP 269 The Holocaust: History and Memory (5) I&S, DIV Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with JEW ST 269.

HSTCMP 270 From the Mediterranean to America: Jewish, Christian, and Muslim Migrations in Global Context (5) I&S, DIV *Devin E Naar* Migration of "Middle Easterners" - Jews, Christians, and Muslims - from the Ottoman Empire to the United States in the twentieth century. How their experiences shaped, and were shaped by, the development of racial categories, definitions of citizenship and national belonging, and broader political, religious, and cultural dynamics linking the Mediterranean world to the Americas. Offered: jointly with JEW ST 270.

HSTCMP 281 Queer and Trans History (5) I&S, DIV *Laurie Marhoefer* Histories of queer, gay, lesbian, bisexual, transgender, genderqueer, intersex, and a host of other identities. Explores these identities, focusing on Europe and the United States in the nineteenth and twentieth centuries; on German and African American history; and on analyzing race, class, and gender.

HSTCMP 283 Introduction to Women's History (5) I&S Includes units on American, European, and Third World women that examine centers of women's activities, women's place in male-dominated spheres (politics), women's impact on culture (health, arts), and the effect of larger changes on women's lives (technology, colonization). Offered: jointly with GWSS 283; A.

HSTCMP 284 History of Sex (5) I&S *Laurie Marhoefer* Examines how sex changed dramatically from the nineteenth century to the late twentieth century in Europe and its colonies. Attention to related transformations in how people thought about religion, race, class, and gender.

HSTCMP 290 Topics in Comparative/Global History (5, max. 10) I&S Examines special topics in history.

HSTCMP 292 Exploring History through New Media and Technologies (5) I&S Practice history through hands-on work with new media technologies: web, podcast, video, online maps. Students work together to build project site, focusing on specific historical theme chosen by instructor. Students exercise common historical skills - source-based research, analysis, and narrative presentation - while also developing and demonstrating new technical competencies. No prior technical expertise required.

HSTCMP 309 Marx and the Marxian Tradition in Western Thought: The Foundations of Modern Cultural Criticism I (5) I&S Critically examines the formation of modern Western culture, politics, and society through an historical analysis of the work of Karl Marx and the thinkers, artists, and activists who assimilated and transformed Marxian concepts from the late nineteenth century to the present. Offered: jointly with CHID 309.

HSTCMP 310 Science and Religion in Historical Perspective (5) I&S Scientific and religious ideas have been two of the major forces shaping our modern view of the world. Often regarded as being in conflict, they can equally well be seen as complementary and interdependent. Study of the relationship between scientific and religious ideas with focus on particular episodes of history from ancient to modern times.

HSTCMP 311 Science in Civilization: Antiquity to 1600 (5) I&S From pre-classical antiquity to the end of the Middle Ages, stressing the growth of scientific ideas, the cultural context in which they take shape, and their relationship to other movements of thought in the history of civilization.

HSTCMP 312 Science in Civilization: Science in Modern Society (5) I&S Growth of modern science since the Renaissance, emphasizing the scientific revolution of the seventeenth century, the development of methodology, and the emergence of new fields of interest and new modes of thought.

HSTCMP 313 Science in Civilization: Physics and Astrophysics Since 1850 (5) I&S/NW Organization and pursuit of the physical and astrophysical sciences, focusing on the major unifying principles of physics and astronomy and the social and cultural settings in which they were created. Offered: jointly with ASTR 313.

HSTCMP 314 The Psychoanalytic Revolution in Historical Perspective (5) I&S Genesis and evolution of Freudian theory in context of the crisis of liberal-bourgeois culture in central Europe and parallel developments in philosophy, literature, and social theory. Emergence and division of the psychoanalytic movement. Transformation of psychoanalysis in British, French, and especially American cultural traditions. Offered: jointly with CHID 314.

HSTCMP 315 History of Technology to 1940 (5) I&S

Technology since the Middle Ages, in its social and historical contexts. From the medieval foundations of metal working, its social consequences and the establishment of a class of engineering practitioners, to the transformation of American rural life, domestic technology, and industry before World War II.

HSTCMP 319 Nietzsche and the Nietzschean Legacy in Western Thought: Foundations of Modern Cultural Critique II (5) I&S

Critically examines the formation of modern Western politics, society, and cultures through a historical analysis of the thought of Friedrich Nietzsche and the thinkers, artists, and activists who assimilated and transformed the Nietzschean perspective during the twentieth century. Offered: jointly with CHID 319.

HSTCMP 320 Greek History: 7000 BC to Present (5) I&S

History of Greece from its Neolithic village origins to the present. Examines the different forms of one of the most resilient cultures in the human story. Offered: jointly with JSIS A 320.

HSTCMP 340 The Cold War: Realities, Myths, Legacies (5) I&S

Provides an interdisciplinary introduction to the Cold War (1947-1991), a global conflict, with political, cultural, and military tensions, between the two post-World War II superpowers: the USA and its "Western" allies, and the USSR and its "Eastern" allies. Attention given to diplomatic, military, and cultural ramifications. Offered: jointly with JSIS B 340.

HSTCMP 345 War and Society (5) I&S

Analysis of the techniques of war from the Renaissance to the present with consideration of the social, political, and economic consequences of war in the Western world.

HSTCMP 346 Images of War in History, Literature, and Media (5) I&S/VLPA

Explores images of war generated by historians, writers, artists, filmmakers, television producers, and journalists, analyzing the perspectives on 19th and 20th century wars adopted by various observers to see what motivates their representations. Focuses on ways in which various media shape images of war and the effect of this shaping on human consciousness.

HSTCMP 367 Southeast Asian Activism and Social Engagement (5) I&S

Rafael Investigates how Southeast Asian activism is tied to the histories of political struggle within Southeast Asia and to questions of diasporic Asian American identity. Engages in group research projects exploring the meaning of social activism within local communities. Offered: jointly with JSIS A 367.

HSTCMP 368 Jewish Thought (5) I&S

N. PIANKO Explores the historical context of major shifts in modern Jewish thought. Topics include the impact of the Enlightenment, Emancipation, the Holocaust, and the founding of the State of Israel on conceptions of Jewish theology, identity, and religious practice. Offered: jointly with JEW ST 358; Sp.

HSTCMP 369 The Jewish Twentieth Century in Film (5) I&S/VLPA, DIV

Stein Surveys twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with JEW ST 369.

HSTCMP 406 Issues in World History to 1500 (5) I&S

Explores important questions about development of civilizations. Topics include the spread of peoples and languages; the significance of technologies such as agriculture, writing, and the stirrup; links between trade and the spread of religions and diseases; and primary and secondary state formation.

HSTCMP 407 The Making of the Modern World: World History Since 1500 (5) I&S

A. Yang Focus on how world historians approach the past, particularly how they conceptualize, research and teach modern world history. Emphasis on understanding and (de) constructing historical narratives about modern world and on examining intellectual assumptions and theoretical and methodological frameworks of world history. Provides basic understanding of scope and methods of modern world history, scholarly and pedagogical concerns and interests.

HSTCMP 408 Topics in the History of Capitalism (5, max. 10) I&S

Mark Metzler Selected topics in the history of capitalism in a global, multi-century perspective. Recommended: either JSIS 200, or

equivalent courses in global history. Offered: jointly with JSIS B 408.

HSTCMP 410 Medicine, History, and Society (5) I&S

Investigates the origins of aspects of contemporary life from vitamins, to giving birth in a hospital, bringing a historical perspective to topics including the politics of pharmaceuticals, the emergence of genetic determinism, and bioethics.

HSTCMP 412 Science and the Enlightenment (5) I&S

The role of science in relation to intellectual, social, economic, and religious forces in the eighteenth century, and growth of the international community in science during the same period.

HSTCMP 425 History of the British Empire and Commonwealth Since 1783 (5) I&S

Britain in the Caribbean, Africa, India, Southeast Asia, and the Pacific; and the settlement, economic development, and political evolution of Canada, Australia, New Zealand, and South Africa.

HSTCMP 440 The Communist Experience Around the World (5) I&S

Young Communism from its origins in Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Offered: jointly with JSIS B 440.

HSTCMP 446 History, Memory, and Justice (5) I&S

Giebel Focuses on the complex interactions between history and historical representation, remembrance and commemoration, memory and identity, and notions of justice and reconciliation. Addresses these issues on methodological, theoretical, and practical grounds, drawing on examples from various genres, periods, and world regions. Offered: jointly with JSIS B 446.

HSTCMP 449 Issues in Comparative Labor History (5) I&S

Role of labor in the modern world. Emphasis on the centrality of workers' struggles in the evolution of national societies on the conceptual, research, and expository strategies of contemporary students of the labor movement and on differences and relationships between labor in developed and underdeveloped countries.

HSTCMP 457 Topics in Labor Research (5, max. 10) I&S

Analysis of the post-World War II decline of

national labor movements and strategies employed to reverse this trend. Requires a major research project on organizing, bargaining, or another question in labor studies. Prerequisite: either POL S 249, HIST 249, or SOC 266. Offered: jointly with POL S 457.

HSTCMP 466 Sport and the British Empire in Asia, Africa, and the Middle East (5) I&S

Examines British imperialism in Asia, Africa, and the Middle East through the prism of sport. Explores the rise of sport in Victorian England, its use to discipline and control colonized peoples, and its role in the rise of nationalism throughout the British Empire.

HSTCMP 467 Nations and States in the Modern World (5) I&S

Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by new nationalism, spreading into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with JSIS B 467.

HSTCMP 468 Theatre as a Site of History and Memory (5) VLPA/I&S

Sears Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects. Offered: jointly with JSIS B 468.

HSTCMP 469 The Sephardic Diaspora: 1492-Present (5) I&S, DIV

Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with JEW ST 466.

HSTCMP 483 Technology and Culture in the Making of Contemporary Empires (5) I&S

Benitez, Rodriguez-Sliva Explores struggles shaping organization of US empire in the early twentieth century, focusing on sites where empire's material, cultural, and ideological boundaries were drawn and contested. Includes race, gender and class as colonial formation; technologies of imperial governance such as public health, citizenship, and territory. Offered: jointly with JSIS A 483.

HSTCMP 484 Colonial Encounters (5) I&S History of European colonialism from the 1750s to the present, with an emphasis on British and French colonial encounters. Offered: jointly with CHID 484.

HSTCMP 485 Comparative Colonialism (5) I&S, DIV *Vicente L. Rafael* Explores the historic roots and practices of colonialism throughout the world, focusing on the roles of nationalism, cosmopolitanism, and imperial domination. Treats colonialism as a world event whose effects continue to be felt and whose power needs to be addressed. Offered: jointly with CHID 485.

HSTCMP 490 Advanced Topics in Comparative/Global History (5, max. 10) I&S Examines special topics in history.

HSTCMP 504 Comparative Ethnicity and Nationalism (5) Theoretical approaches to, and historical case studies of, the phenomena of ethnicity, nationalism, and ethnic conflict in the modern world. Emphasis on Europe and Asia.

HSTCMP 506 Issues in World History to 1500 (5) Explores important questions about development of civilizations. Topics include the spread of peoples and languages; the significance of technologies such as agriculture, writing, and the stirrup; links between trade and the spread of religions and diseases; and primary and secondary state formation.

HSTCMP 507 The Making of the Modern World: World History since 1500 (5) Focuses on how world historians approach the past, particularly how they conceptualize, research, and teach modern world history. Emphasizes as much on understanding and (de) constructing historical narratives about the modern world as on examining the intellectual assumptions and theoretical and methodological frameworks of world history.

HSTCMP 508 Topics in the History of Capitalism (5, max. 10) *Mark Metzler* Selected topics in the history of capitalism in a global, multi-century perspective. Offered: jointly with JSIS B 508.

HSTCMP 509 Foucault and History (5) *V. Rafael* Addresses the usefulness of Foucault for thinking about history and thinking historically. Discusses questions of method, politics and ethics of critique, and overview relationships among power,

knowledge, and subjectivity in context of modernity that undergirds Foucault's writings. Focuses on a set of Foucault's lectures on war, race, security, biopolitics, and on ethics of truth-telling in lectures he gave at the College de France. Offered: A.

HSTCMP 511 History of Science (3-6, max. 6)

HSTCMP 512 Seminar in the History of Science ([3-6]-, max. 12)

HSTCMP 513 Seminar in the History of Science (-[3-6]-, max. 12)

HSTCMP 514 Seminar in the History of Science (-[3-6], max. 12)

HSTCMP 515 Field Course in the History of Technology (5) Introduces students to the literature, methodology, and problems of the history of technology, and prepares them for independent study in the field.

HSTCMP 520 Britons and Others (5) Provides an overview of major themes and recent scholarship in modern British and imperial history. Emphasizes the ways in which ideas about class, gender, and race have influenced Britain's relationship to the wider world.

HSTCMP 530 Comparative Colonialisms: Methodological and Conceptual Approaches (5) Introduces students to the historiography of modern European/American colonialisms, focusing on Africa, Asia, and/or the Americas. Addresses methodological and conceptual issues by examining relationship between capitalism and colonialism; violence and routinization of colonial power; colonial categories of race, ethnicity, class, and gender; and resistance movements and nationalist politics.

HSTCMP 566 Sport and the British Empire in Asia, Africa, and the Middle East (5) Examines British imperialism in Asia, Africa, and the Middle East through the prism of sport. Explores the rise of sport in Victorian England, its use to discipline and control colonized peoples, and its role in the rise of nationalism throughout the British Empire.

HSTCMP 568 Jewish Thought (5) *N. PIANKO* Explores the historical context of major shifts in modern

Jewish thought. Topics include the impact of the Enlightenment, Emancipation, the Holocaust, and the founding of the State of Israel on conceptions of Jewish theology, identity, and religious practice. Offered: jointly with JEW ST 558; Sp.

HSTCMP 569 The Sephardic Diaspora: 1492-Present (5) *Devin E Naar* Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with JEW ST 569.

HSTCMP 580 Gender and History (5) Introduction to gender as category of historical analysis, examining the impact of feminist theory within the discipline of history. Course traces historiographical debates in women's and gender history and explores, through cross-cultural comparisons, how scholars have conceived the relationship between gender and categories such as class, race, ethnicity, and sexuality.

HSTCMP 581 Queer and Trans History (5) *L. MARHOEFER* Studies development of queer and trans history as subfields and interdisciplinary thought that has shaped them (critical race theory, queer theory, trans studies) . Surveys foundational works of theory that have influenced historians (and other scholars) as well as important books and articles in the two interrelated historical subfields. Examines the role of intersectional analysis in the subfields as well as generative debates among historians. Offered: jointly with GWSS 581.

HSTCMP 586 Seminar in Comparative Colonial History ([3-6]-, max. 12)

HSTCMP 587 Seminar in Comparative Colonial History (-[3-6], max. 12)

HSTCMP 590 Topics in History (5, max. 15) Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

HISTORY OF AFRICA AND THE MIDDLE EAST

HSTAFM 151 Africa in the Era of the Atlantic Slave Trade (5) I&S, DIV S. *SMALLWOOD* Explores the African past from c. 1400 through the end of the nineteenth century. Uses the emerging evidence of historical, linguistic, and archaeological analysis to think critically about lingering notions that Africa and its peoples are static and unchanging, primitive and simple, and best understood in terms of racial difference.

HSTAFM 152 Introduction to African History, c. 1880 - Present (5) I&S, DIV Examines Africa's pasts from approximately 1880 to the present. Through the theme of the politics of wealth, explores the history of European colonization, African social and cultural life under colonial rule, anti-colonial movements and decolonization, and the changes and challenges of the post-colonial present.

HSTAFM 161 Survey of the Muslim Near East (5) I&S The Middle East (the Arab countries, Israel, Turkey, Iran, and Afghanistan) from the emergence of Islam in AD 622 to the present: culture, economics, politics.

HSTAFM 163 The Modern Middle East (5) I&S, DIV Provides an introduction the politics, society, and culture of the Middle East since the 19th century and through the present. Aims to foster an understanding of imperial power and anti-imperialism, ethnicity and sectarianism, religious and secular sociopolitical movements, authoritarianism, and the transformations wrought by modernity and economic development.

HSTAFM 261 The Crusades: Middle Eastern Perspectives (5) I&S Examines the impact of European Christians on the Middle East, from the establishment of the County of Edessa (1097) to the fall of Acon (1291) . Explores how Muslims understood, reacted, and adapted to the crusades and how the close encounter with the "Franks" transformed medieval Middle Eastern societies.

HSTAFM 263 Identity and Politics in the Modern Middle East (5) I&S, DIV *Arbella Bet-Shlimon* Explores how people in the modern Middle East think about nation, religion, ethnicity, and the role of identity in politics. Examines topics in the social and

political history of the modern Middle East, including Islamism, Zionism, anticolonialism, pan-Arab nationalism, Middle Eastern encounters with the West, resistance to authoritarianism, and oil modernity.

HSTAFM 268 Wars in the Modern Middle East (5)

I&S Examines the political, social, and cultural impact of war on Middle Eastern societies. Focuses on how the preparation for, conduct of, and aftermath of wars have affected the region. Examines the 1948 Arab-Israeli War, the Algerian War of Independence, the Lebanese Civil War, and the First Gulf War (1991).

HSTAFM 278 Modern North Africa (5) I&S, DIV

History of Morocco, Algeria, Tunisia, and Libya since the seventeenth century. Includes imperialism and local responses, development of national identities, the evolving role of Islam in politics and society, experiences of religious and ethnic minorities, impact of and on French culture, North African diaspora communities, and connections with the rest of Africa and the Middle East.

HSTAFM 288 Introduction to the Horn of Africa (5)

I&S, DIV *Joel T Walker, Hamza M. Zafer* Explores history, culture, and peoples of the Horn of Africa. By placing Ethiopia, Eritrea, and Somalia at the center of inquiry, invites reconsideration of standard narratives of world history that all too often ignore or marginalize the region. Includes a broad range of assignments examining art, literature, and societies of the Horn, including vibrant Diaspora communities in America. Offered: jointly with NEAR E 288; A.

HSTAFM 314 History of Modern Israel/Palestine (5)

I&S, DIV Cultural, social, and political histories of Palestine, the Land of Israel, and the State of Israel; Zionist and Palestinian nationalist movements, in their larger regional, transnational, and global contexts. Offered: jointly with JSIS A 314.

HSTAFM 361 Middle Eastern History, 1453-1800 (5)

I&S *Schwarz* Introduction to the early modern period in the Middle East, including an exploration of the political, economic, and cultural dominance of the Ottoman Empire and Safavid Iran. Explores the political and social dynamics and economic transformations of the two empires.

HSTAFM 451 Eastern and Central Africa Since 1500

(5) I&S Explores the history of Eastern and Central Africa from the period prior to the slave trade through European colonialism to the post-colonial present. Focuses on political, economic, and social change and continuity. Emphasis on understanding how various historical actors and historians have interpreted these processes.

HSTAFM 452 Southern Africa Since 1500 (5) I&S,

DIV Explores the history of Southern Africa from pre-colonial social institutions through European colonialism and industrialization to the post-apartheid present. Focuses on the interplay between race, class, ethnicity, and gender in the structuring of political relations. Emphasis on understanding how various historical actors and historians have interpreted these processes.

HSTAFM 453 Health and Illness in Africa (5) I&S

Explores health and illness in Africa from the nineteenth century to the present. Focuses on the influence of colonial and post colonial history on patterns of health and health care in sub-Saharan Africa. Analyzes Western representations of health and illness in Africa.

HSTAFM 459 History of Jewish-Muslim Relations (5)

I&S, DIV Topics include Jews' and Muslims' linked encounters with empire, westernization, and nationalism; Jewish culture and identity in Islamic contexts migration and diasporic identities; the impact of Zionism, European Jewish settlement in Palestine, and the State of Israel on Jewish-Muslim relations in the Middle East and beyond; Islamophobia and antisemitism. Offered: jointly with JEW ST 459.

HSTAFM 461 History of the Middle East: 622-1300

(5) I&S Political and economic analysis of the period circa AD 600, preliminary to rise of Islam, to arrival of the Turks. Muhammad's teaching and impact; Islamization and Arabization.

HSTAFM 462 History of the Middle East: 1258-1798

(5) I&S Conquests by successors of Ghengis Khan; creation in Egypt, Syria, and Iran of cavalry-based states; domination of political, social, and economic history by Ottoman and Safavid empires. The Napoleonic invasion.

HSTAFM 463 Modern Persian Gulf (5) I&S, DIV A. *Bet-Shlimon* Introduction to the histories of Arabian Peninsula states, Iraq, Iran, and their linkages since the eighteenth century. Topics to be covered include imperialism and its legacies, political economy of oil, governmental structures and political transitions, identify formation, political ideologies, urbanization, and relations with the broader Middle East and Indian Ocean.

HSTAFM 465 Iran, Afghanistan and Central Asia, 1750-2001 (5) I&S Introduction to the modern history of the Islamic republics of Iran and Afghanistan and the secular republics of Central Asia from 1750 to 2001. Includes discussion of colonialism, the role of the U.S., and diaspora and exile in these predominantly Muslim societies.

HSTAFM 490 Topics in African and Middle Eastern History (5) I&S Examines special topics in African and Middle Eastern history.

HSTAFM 552 Field Course in African History (5) Methodological and conceptual issues in African historiography, focusing on 1500 to the present. Examines topics including pre-colonial politics and economics, slavery and the slave trades, European conquest and colonization, resistance movements and nationalist politics, and post-colonial debates and dilemmas. Special attention to issues of gender, race, ethnicity, and class.

HSTAFM 559 History of Jewish-Muslim Relations (5) Topics include Jews' and Muslims' linked encounters with empire, westernization, and nationalism; Jewish culture and identity in Islamic contexts migration and diasporic identities; the impact of Zionism, European Jewish settlement in Palestine, and the State of Israel on Jewish-Muslim relations in the Middle East and beyond; Islamophobia and antisemitism. Offered: jointly with JEW ST 559.

HSTAFM 561 Islamic History (3-6, max. 6) Field course. Introduction to advanced study in the major periods and problems of Islam. Bibliographical guidance is stressed.

HSTAFM 562 Ottoman History (3-6, max. 6) Field course. Introduction to the major periods and problems of Ottoman history, 1300-1914, by acquainting the student with the major works in at least two languages. An attempt is made to teach

some use of Ottoman materials. A minor problem is investigated in detail by every student. Prerequisite: knowledge of at least one major language besides English (French, German, Russian, or other) .

HSTAFM 563 Modern Near East (3-6, max. 6) Field course introducing the student to the major periods and problems of Near Eastern history, 1798 to the present.

HSTAFM 570 Readings in Israel/Palestine Studies (5) Survey of significant scholarly texts on Israel and Palestine during the 19th-21st centuries. Topics may include: Jewish and Middle East context; medical and environmental history; economic history; intellectual history of Zionism and Palestinian nationalism; cultural history. Offered: jointly with JSIS A 570.

HSTAFM 590 Seminar on Special Topics and Middle Eastern and African History (5, max. 15) Seminar on selected topics in the history of the Middle East and Africa.

HISTORY OF ASIA

HSTAS 108 International Baccalaureate (IB) History of Asia (5) I&S Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

HSTAS 201 Introduction to South Asian History, pre-history to 1500 (5) I&S Religions, literature, philosophy, politics, arts, and history of India from earliest times to the Mughal empire.

HSTAS 202 Introduction to South Asian History, 1500 - present (5) I&S The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history. Offered: jointly with JSIS A 202.

HSTAS 211 History of Chinese Civilization (5) I&S Intensive survey of Chinese civilization from earliest times to today. Introduces all students, including East Asian history majors, to the general sweep of Chinese history. Social, cultural, and intellectual developments.

HSTAS 212 History of Korean Civilization (5) I&S

From earliest times to the present. Development of Korean society and culture in terms of government organization, social and economic change, literature, and art. Offered: jointly with JSIS A 212.

HSTAS 214 Modern Korean History through Film (5) I&S

Analyzes South and North Korean films as well as films produced when Korea was a Japanese colony (1910-1945) as historical documents on Korean history, society, and culture during the twentieth century. Through films and other cultural products, it examines processes of nation-building in Korea, paying special attention to formations of gender, class, and national identities.

HSTAS 221 History of Southeast Asia (5) I&S, DIV

Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements; emergence of Southeast Asia as a region in the modern world. Offered: jointly with JSIS A 221.

HSTAS 235 History of Modern Taiwan (5) I&S

Social, cultural, political, and economic history of modern Taiwan from approximately 1600 to the present. Places Taiwan within global historical changes and explores Taiwan-centric issues in depth. Covers migration, colonialism, race and identity, urban and rural development, the Cold War, capitalism and industrialization, science, religion, labor, and gender. Offered: jointly with JSIS A 235.

HSTAS 241 Japanese Civilization (5) I&S

Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions, in relation to the development of Japan as a society and nation. Cannot be taken for credit if SISEA 341 previously taken. Offered: jointly with JSIS A 241.

HSTAS 242 Christianity in Asia (5) I&S *Hajin Jun*

Christianity in East Asia, sixteenth century to present. Shared experiences that transcended national boundaries. Also traces divergent paths Christianity took in China, Korea, and Japan. What propelled missionary expansion? Why did people convert? What are lasting legacies of Christianity? Attention to shifting meanings of faith, identity, and

religious community across the region. Offered: jointly with RELIG 242.

HSTAS 244 Imperialism and Anti-Colonialism in Asia (5) I&S, DIV

Introduction to Western imperialism expansion, conquest, and colonial rule in Asia; the anti-colonial, nationalist resistances they engendered; and the resultant cultural, political, economic, and intellectual transformations in Asian societies. Covers post-1800 violence, racial hierarchies, human rights abuses, post-colonial memories, persistent strategies of domination, and structural inequities. Offered: jointly with JSIS A 244.

HSTAS 245 Human Rights in Asia (5) I&S, DIV

Callahan, Giebel Introduction to recent and ongoing human rights issues in South, Southeast, and East Asia. Focuses on how human rights politics have played out in domestic political arenas. Provides exposure to views/insights into the historical context in which human rights claims, abuses, and debates arise. Offered: jointly with JSIS A 245.

HSTAS 254 Modern China: Three Revolutions (5) I&S

Y. Dong Surveys Chinese history from the late nineteenth century to the end of the twentieth century. Examines how "modern China" took shape by focusing on the transformations and changes in the political system, economic structure, social organization, and intellectual trends. In particular, examines the three revolutions of modern China -- the Republican, Nationalist, and Communist revolutions. Offered: jointly with JSIS A 254.

HSTAS 264 Violence, Race, and Memory (5) VLPA/I&S, DIV

Explores how images and ideas of power, race, violence, and global modernity circulate in memories and discourses about US relations with Vietnam, the Philippines, and Indonesia. Topics include foundations myths, colonial and postcolonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with JSIS B 264; Sp.

HSTAS 265 The Viet Nam Wars (5) I&S *Giebel*

Recent Vietnamese history and struggles for independence and national unification vis-a-vis French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and motivations of participants, and the

enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with JSIS A 265.

HSTAS 290 Topics in Asian History (5, max. 10) I&S
Examines special topics in Asian history.

HSTAS 303 Divided Lands/Divided Lives: An Environmental History of South Asia (5) Focuses on the mobilization of South Asian tribal, peasant, and ethnic communities around ecological issues to secure social equity in the colonial and post-colonial period. Examines how the complex interactions of states and peoples have changed the ways in which nature itself is conceptualized. Offered: jointly with JSIS A 303.

HSTAS 317 History by Bollywood: Colonial India through Film (5) I&S, DIV *Anand A Yang* Through popular cinema, specifically Hindi-language films produced by Bombay-based film industry for mass market, explores colonial history of South Asia beginning with British takeover of Indian subcontinent in late eighteenth century to emergence of independence and partition in 1947. Focuses specifically on Bollywood films that have shaped popular (mis) understandings of key episodes and developments in history of modern India. Offered: jointly with JSIS A 317.

HSTAS 327 China and the West in Historical Perspective, 1500-1976 (5) I&S *M. MOSCA* Examines relations between China and the West in historical perspective. Covers the period from 1500 to 1976, including political interactions as well as intellectual, religious, and cultural contact. Investigates how and why these relations changed over time, and how this historical legacy is relevant today. Offered: jointly with JSIS A 327.

HSTAS 348 Alternative Routes to Modernity (5) I&S
Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the context of European history and of development theory. Emphasizes primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with JSIS A 346.

HSTAS 354 Modern China: From Empire to Republics (5) *Dong* Surveys the major historical events and discourses of twentieth century China

and lays a foundation for understanding contemporary China. Themes include reforms; revolutions; colonialism and imperialism; state and society; and social and cultural changes. Offered: jointly with JSIS D 354.

HSTAS 401 History of Ancient India (5) I&S India in ancient times; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

HSTAS 402 History of Medieval and Mughal India (5) I&S Medieval India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

HSTAS 403 History of Modern India to 1900 (5) I&S
Modern India; emphasis on forms of political organizations and economic life, social organizations, and cultural developments.

HSTAS 404 History of Twentieth-Century India (5) I&S *A. Yang* Analysis of the problems in the fields of social life, international and domestic politics, education, economics, and other areas that confront India today. Offered: jointly with JSIS A 409; A.

HSTAS 408 Fabulous Gurus and Fake Fakirs: Religious Reform in Colonial India (5) I&S Focuses on efforts by Hindu, Muslim, and Sikh reformers in British India to transform many aspects of religious practice and identity. Investigates the impacts such social movements had on politics, nationalism, family structure, education, and the role of women in society then and now.

HSTAS 421 History of Pre-Modern Japan (5) I&S
Introduces the early years of Japan's political, socioeconomic, and cultural history, culminating in the emergence of the early modern state around 1600.

HSTAS 423 Origins of Modern Japan (5) I&S *Mark Metzler* Course surveys Japan's early modern age, from the end of the warring-states period in the late 1500s through the Meiji revolution and creation of a modern state in the late 1800s. Japan's history since the early 20th century is continued in a second class, JSIS A 424/HSTAS 424. Offered: jointly with JSIS A 423.

HSTAS 424 The Emergence of Postwar Japan (5)

I&S Pyle The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Offered: jointly with JSIS A 424.

HSTAS 440 Japanese History in Ecological

Perspective (5) I&S M. Metzler Survey of Japanese history in ecological perspective, from early times to the present. Topics include ancient Japanese lifeways; climate and history; agriculture, population, and resources; Buddhist and animist views of outer and inner nature; urbanization from ancient capitals to megacity Tokyo; industrialization and energy; and future visions. Readings include influential scholarly works and Japanese sources in English translation. Offered: jointly with JSIS A 440; W.

HSTAS 441 Economic and Social History of Japan to

1900 (5) I&S Lecture-seminar on Japanese economic and social history from 700 to 1900. Analyses of the rise and decline of the shoen system, the rise of commerce, social change, changes in the living standard, demographic changes, and the early phases of industrialization. Political and cultural developments as related to economic and social change.

HSTAS 451 Chinese History: Earliest Times to 221 BC (5) I&S

Pre-imperial China.

HSTAS 452 Chinese History from Earliest Times to

1276 (5) I&S Traces the development of Chinese civilization from earliest times through the Song dynasty. Examines social, cultural, political, and economic history.

HSTAS 453 Chinese History from 1276-1895 (5) I&S

Political, social, economic, and intellectual history from the time of the Mongol conquest of China to the Sino-Japanese war. Focus on the evolution of the late imperial Chinese state and the "early modern" era in China.

HSTAS 454 History of Modern China (5) I&S

Offered: jointly with JSIS A 454.

HSTAS 456 Topics in Chinese Social History (5) I&S

Surveys major issues and approaches to the study of the role of the Chinese people in China's historical

development. Historical focus of course varies with instructor. Offered: jointly with JSIS A 456.

HSTAS 457 Women in China to 1800 (5) I&S, DIV

Gender in Chinese culture, women's situations in the patrilineal family system, and the ways women's situations changed as other dimensions of China's political system, economy, and culture changed from early times through the nineteenth century. Offered: jointly with GWSS 457.

HSTAS 458 Youth in Modern China (5)

I&S Madeleine Y. Dong Emergence of youth in Modern China as a social category; a distinctive stage of life; from most dominated group in society to driving force of history. Explores how young people experienced history of modern China as individuals, members of family, and society. Youth as shaped in post-socialist consumer culture, new nationalism, cosmopolitanism. Offered: jointly with JSIS A 451.

HSTAS 459 Gender Histories of Modern China, Eighteenth to Twentieth Centuries (5) I&S

Emergence of modernist social, political, intellectual gender formations in social activism, revolutionary writing, scientific ideologies, economic globalization. Stresses gender difference in colonial modernity, revolutionary movement, communism, post-socialist market society. Relates modern Chinese women to global flows, new division of labor, local and regional experience. Offered: jointly with GWSS 459.

HSTAS 460 Cities in China: Past and Present (5)

I&S Dong Economic, political, social, and cultural functions of the city in modern Chinese history. Changes in China's urban system. The city as cultural center and focus of literary and cinematic representation. Attention to architecture, commerce, urbanization, the role of capital cities in the power of the state. Offered: jointly with JSIS A 460.

HSTAS 462 Southeast Asian History to 1800 (5) I&S

Absorption and modification of cultures (Indian and Chinese), religions (Islam, Buddhism, Catholicism), and peoples (northern European) by island- and mainland-Southeast Asians. Main themes are cultural contact and the growth of states and peoples.

HSTAS 463 Southeast Asian History from 1800 to the Present (5) I&S Post-eighteenth-century history of the present countries of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Singapore, Brunei, Indonesia, and the Philippines. Deals with colonial rule, emerging nationalism, and political independence. Investigates broad themes of social, economic, and cultural history.

HSTAS 466 Islam, Mysticism, Politics and Performance in Indonesian Culture (5) VLPA/I&S Examines how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influences from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with JSIS A 462.

HSTAS 481 History of Pre-Modern Korea (5) I&S Examines political, socioeconomic, intellectual, and cultural development of Korea from the earliest times through the nineteenth century.

HSTAS 482 Modern Korean History (5) I&S *Hajin Jun* Traces complex social, cultural, and political developments that transformed Korea during the late nineteenth and twentieth centuries. Topics include late Choson reforms, changing gender norms, national identity, colonial state and society, territorial division, and democratization. Attention to diversity of Korean experiences, as well as the interplay of local dynamics and global forces in the peninsula. Offered: jointly with JSIS A 446.

HSTAS 484 Korea in the Japanese Empire (5) I&S, DIV Korean colonial history in the context of Japanese imperial expansion from the 1870s to 1945. Analyzes the Korean quest for modernization and nation-building, colonial industrialization and colonial modernity, assimilation and resistance, wartime mobilization and collaboration, Manchurian experiences, social movements, and cultural developments. Offered: jointly with JSIS A 484.

HSTAS 490 Topics in Asian History (5, max. 10) I&S

HSTAS 501 Indian History (3-6, max. 6) Prerequisite: permission of instructor.

HSTAS 502 Seminar: History of India (3-6, max. 12) Seminar on selected topics and problems in the

history of medieval and modern India. Prerequisite: HSTAS 501 and permission of instructor.

HSTAS 503 Seminar: History of India (3-6, max. 12) Seminar on selected topics and problems in the history of medieval and modern India. Prerequisite: HSTAS 501 and permission of instructor.

HSTAS 520 Premodern Japanese History (5) Field course; Japanese history prior to 1868. Prerequisite: HSTAS 421 and HSTAS 422, or SISEA 441 and SISEA 541, or permission of instructor.

HSTAS 521 Modern Japanese History (3-6, max. 6) Field course. Prerequisite: HSTAS 422, HSTAS 423, or permission of instructor.

HSTAS 523 Seminar in Modern Japanese History (3-6, max. 12)

HSTAS 524 Seminar in Modern Japanese History (3-6, max. 12)

HSTAS 530 Field Course in Southeast Asian History (5) Introduces major English-language works on Southeast Asian history and to the major historiographical issues of the era. Offered: jointly with JSIS A 580.

HSTAS 532 Seminar in Southeast Asian History (5) Selected topics in Southeast Asian history and historiography. Includes preparation for theses and doctoral dissertations on Southeast Asian History. Offered: jointly with JSIS A 582.

HSTAS 534 Indonesian Histories, Oral Traditions, and Archives (5) Explores the inscription of Indonesian histories and stories. Focuses on oral traditions, oral testimonies, and archives. Investigates how oral and written testimonies enter historical archives. Explores theoretical work on literary and performance traditions as they relate to nationalism and Islam in Indonesia. Offered: jointly with JSIS A 534.

HSTAS 540 Japanese History in Ecological Perspective (5) *M. Metzler* Survey of Japanese history in ecological perspective, from early times to the present. Topics include ancient Japanese lifeways; climate and history; agriculture, population, and resources; Buddhist and animist

views of outer and inner nature; urbanization from ancient capitals to megacity Tokyo; industrialization and energy; and future visions. Readings include influential scholarly works and Japanese sources in English translation. Offered: jointly with JSIS A 539; W.

HSTAS 541 Economic and Social History of Japan to 1900 (5) Analyses of landholding systems, the rise of commerce, demographic changes, urbanization, early industrialization, and social change. Prerequisite: previous course work in Japanese history or economic history, or permission of instructor. Not open to students who have taken HSTAS 441.

HSTAS 551 Field Course in Chinese History: Pre-Sung Period (3-6, max. 6) *Ebrey* Introduction to the English-language literature on Chinese history through the Song dynasty.

HSTAS 552 Seminar in Chinese History: Earliest Times to 1276 ([3-6]-, max. 12) Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Instructors: Ebrey

HSTAS 553 Seminar in Chinese History: Earliest Times to 1276 (-[3-6]-, max. 12) Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Instructors: Ebrey

HSTAS 554 Seminar in Chinese History: Earliest Times to 1276 (-[3-6], max. 12) Methods and materials for research in early imperial Chinese history. Prerequisite: reading knowledge of classical Chinese. Instructors: Ebrey

HSTAS 555 Core Research Seminar in Chinese History (5-, max. 10) I&S An introduction to research practices in Chinese history and exemplary recent works.

HSTAS 556 Core Research Seminar in Chinese History (-5, max. 10) I&S An introduction to research practices in Chinese history and exemplary recent works.

HSTAS 560 Field Course in Chinese History: 1276-1895 ([3-6]-, max. 6) *Guy* Introduction to the English-

language literature on the Yuan, Min, and Qing dynasties.

HSTAS 561 Field Course in Chinese History: 1276-1895 (-[3-6], max. 6) *Guy* Introduction to the English-language literature on the Yuan, Ming, and Qing dynasties.

HSTAS 562 Seminar in Chinese History: 1268-1895 ([3-6]-, max. 12) Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Instructors: Guy

HSTAS 563 Seminar in Chinese History: 1268-1895 (-[3-6]-, max. 12) Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Instructors: Guy

HSTAS 564 Seminar in Chinese History: 1268-1895 (-[3-6], max. 12) Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Instructors: Guy

HSTAS 566 Islam, Mysticism, Politics, and Performance in Indonesia (5) Examines how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influence from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with JSIS A 586.

HSTAS 572 Seminar in Twentieth Century Chinese History (-[3-6], max. 12) Materials and methods for research in imperial Chinese history. Prerequisite: reading knowledge of Chinese. Instructors: Dong

HSTAS 573 Seminar in Twentieth Century Chinese History ([3-6]-, max. 12) Materials and methods for research in twentieth-century Chinese history. Prerequisite: knowledge of Chinese and permission of instructor. Instructors: Dong

HSTAS 574 Seminar in Twentieth Century Chinese History (-[3-6]-, max. 12) Materials and methods for research in twentieth-century Chinese history. Prerequisite: knowledge of Chinese and permission of instructor. Instructors: Dong

HSTAS 575 Seminar in Chinese History: Modern Period (-[3-6], max. 12) Research seminar in modern

Chinese history. Training in the materials and methods of research, and preparation of extended research papers. Prerequisite: HSTAS 571-572 or permission of instructor and reading knowledge of Chinese.

HSTAS 579 Modern Chinese History (5) Introduction to the major English-language literature on modern Chinese history and to the major historiographical issues of the period. Prerequisite: HSTAS 454 or equivalent, and permission of instructor. Offered: jointly with JSIS A 576.

HSTAS 581 Modern Korean History (5) *Hajin Jun* Traces complex social, cultural, and political developments that transformed Korea during the late nineteenth and twentieth centuries. Topics include late Choson reforms, changing gender norms, national identity, colonial state and society, territorial division, and democratization. Attention to diversity of Korean experiences, as well as the interplay of local dynamics and global forces in the peninsula. Prerequisite: permission of instructor. Offered: jointly with JSIS A 583.

HSTAS 582 Seminar in Korean History ([3-6]-, max. 12) Selected topics in Korean history and historiography.

HSTAS 583 Seminar in Korean History (-[3-6]-, max. 12) Selected topics in Korean history and historiography.

HSTAS 584 Seminar in Korean History (-[3-6], max. 12) Selected topics in Korean history and historiography.

HSTAS 590 Topics in History (5, max. 15) Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

HISTORY OF LATIN AMERICA AND THE CARIBBEAN

HSTLAC 185 Race, Gender, and Class in Latin America and the Caribbean (5) I&S, DIV Explores the power struggles generated by imperial expansion, colonialism, and processes of nation-formation (1400 to the present) in the forging of Latin America

and the Caribbean. Examines how gender, race, sex, and class became crucial means to sustain, navigate, and challenge domination as well as to imagine alternative futures.

HSTLAC 280 Drug Wars in Latin America (5) I&S, DIV *Ileana M. Rodriguez-Silva* Analyses "War on Drugs" in Latin America as political, economic, and socio-cultural construct. Investigates local, regional and global dynamics rendering some mood-altering substances as legal while subjecting others to prohibitionist policies at different historical times. Explores racial, class and gender logics shaping these processes. Examines how informal economies are well entrenched within longstanding, transnational institutions.

HSTLAC 282 History of Mexico: Culture, Identity, and the Politics of Rule from the Aztecs to the Present (5) I&S Overview of Mexican history from late Aztec times until the twenty-first century. Emphasizes how women, campesinos, indigenous populations, free and enslaved Afro-Mexicans, and the urban poor experienced the past, challenged colonial and post-colonial rule, and shaped modern Mexican society and culture.

HSTLAC 285 Latin American History through Film (5) VLPA/I&S Critical analysis of Latin American films as historical documents. Subjects include Iberian conquest and colonialism, the struggle for independence in the nineteenth century, social revolutions of the twentieth century, and problems of contemporary development. Readings and lectures place each film in the context of the historiography of the subject matter.

HSTLAC 289 Cuban Revolution (5) I&S, DIV *Ileana M. Rodriguez-Silva* The Cuban Revolution as a site of convergence and contestation of different projects and visions on how to build a more equitable future. Course covers conventional issues (U.S. interventions, charismatic political leadership, Soviet influences, the state apparatus) but will privilege the making of the revolution from the ground up.

HSTLAC 325 Modern Mexico: Culture, Politics and Society (5) I&S *V. Freije* Provides an historical survey of Mexican politics, culture, and society. Explores debates about the role of violence and foreign intervention in Mexico's political development. Topics include revolution, U.S.-Mexico relations, race

and gender politics, student movements, cultural production, neoliberalism, and the war on drugs. Offered: jointly with JSIS A 325.

HSTLAC 384 Latin America: Inter-American and Intra-Continental Relations (5) I&S Inter-American relations, focusing on the United States' diplomatic and military responses to the problems of Latin America since 1776. Intra-Latin American relations and regional organizations (e.g., the Organization of American States) .

HSTLAC 385 Colonial Society and the Negotiation of Rule in Latin America and the Caribbean (5) I&S, DIV Examines the transition to Spanish and Portuguese rule in Latin America and the establishment, and eventual demise, of colonial systems linking Latin America to Europe and Africa. Asks how "colonized" groups mediated forms of colonial oppression and contributed to the development of colonial political culture.

HSTLAC 386 The Challenges of Post-Coloniality in Latin America and the Caribbean (5) I&S, DIV Explores the legacies of, and ruptures from, colonialism and the new challenges Latin American and Caribbean peoples faced throughout the years after their struggles for independence from direct European rule. Emphasis on analysis of the negotiations and challenges entailed in the dynamic processes of national state formation in comparative perspective.

HSTLAC 481 History of Peru and the Andean Region (5) I&S Traces the history of Peru specifically and the Andean highlands generally, from Inca times to the present, examining the shifting relationship between peasants, indigenous peoples, and the state. Analyzes historically why modern forms of peasant and indigenous political power differs radically between Peru, Bolivia, and Ecuador.

HSTLAC 482 The History of Brazil: Colonial Period to the Present (5) I&S Colonial foundations; the first and second empires; the old and new republics; current problems; prospects for the future.

HSTLAC 488 History of the Caribbean and Central America (5) I&S Political, social, and economic history of principal countries in the Caribbean and Central America from their discovery to the present.

HSTLAC 490 Topics in Latin American and Caribbean History (2-5, max. 15) I&S Topics in Latin American and Caribbean history.

HSTLAC 581 Latin American History: Colonial Period (3-6, max. 6)

HSTLAC 582 Latin American History: National Period (3-6, max. 6)

HSTLAC 583 Seminar in Latin American History ([3-6]-, max. 12) Problems of historical research in the history of Latin America from colonial beginnings to the present.

HSTLAC 584 Seminar in Latin American History (-[3-6]-, max. 12) Problems of historical research in the history of Latin America from colonial beginnings to the present.

HSTLAC 585 Seminar in Latin American History (-[3-6], max. 12) Problems of historical research in the history of Latin America from colonial beginnings to the present.

HISTORY OF MODERN EUROPE

HSTEU 100 Advanced Placement (AP) European History (5) I&S Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

HSTEU 108 International Baccalaureate (IB) History of Europe (5) I&S Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

HSTEU 113 Europe and the Modern World (5) I&S Political, economic, social, and intellectual history of modern Europe. Cannot be taken for credit toward a history major if HSTEU 302 or 303 previously taken.

HSTEU 140 Russia from the Tenth Century to the Present (5) I&S Russian political, social, and economic history from the tenth century to the present. Offered: jointly with JSIS D 140.

HSTEU 210 Paris (5) VLPA/I&S

HSTEU 211 France: A Portrait (5) I&S Thematic approach to the history of France. Abandons the conventional chronological format in favor of a constellation of topics and themes - architecture, science, sex, cities, barricades, etc. - that, taken together and in historical perspective, make up a portrait of France.

HSTEU 219 Science and the Arts in Early Modern Europe (5) I&S Explores the role of artisanal craft practice and knowledge in the Scientific Revolution. Examines the artisanal world and its traditions of craft knowledge and follows the transmission of artisanal practice into the scholarly world of natural philosophy in the seventeenth century. Assesses the consequences for scientists and artisans.

HSTEU 220 Introduction to East European Studies (5) I&S *Felak* Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with JSIS A 220.

HSTEU 234 History of Nazi Germany and the Holocaust (5) I&S, DIV L. *Marhoefer* History of Nazi Germany and Holocaust from Weimar Republic through rise of Nazis and creation of Nazi state and society to war and genocide. Focuses on social, political, and gender history. Includes transnational examination of Holocaust (especially Eastern Europe); memory and history after 1945; perspectives of outsiders in Nazi Germany, including Jews, Afro-Germans, gay men, communists; examination of debates in historiography of Holocaust.

HSTEU 240 From Rurik to Putin: Russian History through Biography (5) I&S/VLPA Introduces Russian history from ninth century to present through biographies, paintings, films, and music on Russian historical figures such as Catherine the Great and Josef Stalin. Placed in historical context, these life stories allow exploration of major themes in Russian history such as autocracy, serfdom, religion, modernization, reform, revolution. Offered: W.

HSTEU 245 St. Petersburg/Leningrad: City as History (5) I&S Introduction of political, social, and cultural history of St. Petersburg from 1703-1991. Uses St. Petersburg as a window to explore major themes in

Imperial Russian and Soviet history, including westernization and questioning of Russia's national identity, urbanization, industrialization, revolution, multinational empire, World War II, Stalinism, and socialistic reformism.

HSTEU 250 Rome (5) VLPA/I&S Focuses on Rome as an historical, intellectual, and artistic world center. Literary and historic documents, visual arts, architecture, film, and opera used to explore the changing paradigms of the Eternal City. In English. Offered: jointly with ART H 250/ITAL 250; W.

HSTEU 251 Events That Shook Modern Europe: From the French Revolution to the EU (5) I&S *J. Felak* Examines major events that shaped Europe, from French Revolution in 1789 to the foundation of the European Union in 1993. Wars, revolutions, social transformations, toxic ideologies, and liberation movements as milestones in the course of developments in Europe over the past two centuries. Lectures and analysis of documents from these time periods. Offered: jointly with JSIS A 251; Sp.

HSTEU 252 The Bloodlands: East Central Europe under Hitler and Stalin (5) I&S *J. Felak* From 1933-1945, 14 million people were killed, in cold blood, by Nazi Germany and Soviet Union regimes between central Poland and western Russia, including those starved in the Soviet Ukraine famine, victims of Stalin's Great Terror and Hitler's Holocaust, Soviet citizens starved by Nazis during World War II & Poles murdered under joint Nazi-Soviet occupation. Course investigates these fateful events through study of history, literature & film. Offered: jointly with JSIS A 252.

HSTEU 273 Women and Gender in Modern Europe (5) I&S Examines European women's changing social role and competing views of femininity from the Enlightenment to the end of the cold war. Special focus on the relationship of gender and politics and on the female body in bourgeois society, industrialization, imperialism, the welfare state, fascism, and the cold war.

HSTEU 274 European History and Film from the 1890's to the Present (5) VLPA/I&S Introduces the histories of world war, the rise and fall of fascism and communism, postwar migrations, the Cold War and decolonization, and the making of the European Community through film. Historical content unified

by methodological focus on the social and political function of film.

HSTEU 275 Life in England (5) I&S Social history of England from the Norman conquest to the present, seen through letters, autobiographies, novels, and plays of the time. Life of the ordinary inhabitant-in the village and the manor house.

HSTEU 276 Postwar: European History and Film after 1945 (5) VLPA/I&S, DIV Explores efforts to reconstruct Europe and European identity after 1945. Assesses the successes and failures of these efforts. Addresses themes of poverty and affluence, postwar justice, Americanization, expansion and collapse of communism, decolonization, migration, and ongoing ethnic tensions that threatened new forms of warfare. Explores the history uses of film.

HSTEU 290 Topics in European History (5, max. 10) I&S Examines special topics in European history.

HSTEU 301 Early Modern European History: 1450-1648 (5) I&S Political, social, economic, and cultural history from the late Renaissance to the Peace of Westphalia.

HSTEU 302 17th - 18th Century Europe: Enlightenment and Revolution (5) I&S M. O'Neil Political, social, economic, and cultural history from the Peace of Westphalia to the fall of Napoleon.

HSTEU 303 Contemporary European History Since 1815 (5) I&S Political, social, economic, and cultural history from the fall of Napoleon to the present.

HSTEU 304 Cultural History of Renaissance Europe (5) VLPA/I&S Examination of Medicean Florence, late sixteenth-century France, Elizabethan England, and the baroque courts of the early seventeenth century as cultural centers. Includes analysis of painters such as Botticelli and Rubens; poets such as Ronsard and Donne; philosophers such as Pico and Montaigne; and playwrights such as Marlowe, Shakespeare and Lope de Vega.

HSTEU 305 European Witch Trials (5) I&S Witchcraft and magical beliefs in Europe considered as a problem in intellectual, social, and legal history. Medieval background, systematization of witchcraft theory in fifteenth century; comparison of learned

and popular beliefs; mechanisms of witch trials and inquisitorial procedure; the Faust legend; growth of skepticism and decline of witchcraft in seventeenth century.

HSTEU 323 France Since 1814 (5) I&S Political, economic, and social history since the Congress of Vienna. Special emphasis upon the continuity of the revolutionary tradition.

HSTEU 334 Germany 1871-1989 (5) I&S Society and politics from Germany's first unification to its reunification; domestic and foreign policy; political, economic, social, and cultural developments; high emphasis on German society's self-perception and on the variety of interpretations of this period's history

HSTEU 361 Spain and Its Golden Age, 1469-1700 (5) I&S History and culture of Spain and its empire from the late Middle Ages through the seventeenth century.

HSTEU 364 Modern Greece: 1821 to the Present (5) I&S Politics and society of Greece from War of Independence to the present. Emergence and development of the Greek state; Greece in the world wars; civil war and post-war politics; military dictatorship; transition to democracy; recent developments. No prior study of Greece assumed. Offered: jointly with JSIS A 364.

HSTEU 368 Modern European Jewish History (5) I&S, DIV Surveys European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with JEW ST 368.

HSTEU 370 J.R.R. Tolkien: A Mythology for England (5) VLPA/I&S Explores J.R.R. Tolkien in historical context. Influence of the nineteenth-century philosophy and folklore, World War I, Germanic mythology, Oxford Christianity, and the Inklings. Primary themes include language as a source of myth, fate and free will, religion, technology and nature, heroism and war, race and evil.

HSTEU 376 Modern Irish History (5) I&S, DIV Political and social history from 1800 to the present;

the Irish Question after the Act of Union; development of Irish nationalism in the Home Rule and Sinn Fein periods; the Irish Free State and Northern Ireland since 1921; current problems in Northern Ireland.

HSTEU 378 The Making of Contemporary France (5) I&S Historical origins and subsequent development of nine contemporary problems and characteristics of French government and politics, economy, and society.

HSTEU 380 History of Scandinavia to 1720 (5) I&S Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with SCAND 380.

HSTEU 381 History of Scandinavia Since 1720 (5) I&S Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with SCAND 381.

HSTEU 401 The Italian Renaissance: (5) I&S Conditions of Renaissance culture: Italian republics and despots, humanism, the classical ideal of the arts, Machiavelli and the foundations of modern political thought; the end of an era.

HSTEU 402 The Reformation (5) I&S Origins of the disunity of Europe in the crisis of the sixteenth century with emphasis on the relations between religion and politics.

HSTEU 405 European Intellectual History: Eighteenth Century (5) I&S/VLPA Development of the social sciences, moral theory, political theory, and religious thought in eighteenth-century Europe. Rationalism, empiricism, utilitarianism, and the sources of idealism.

HSTEU 406 European Intellectual History: Nineteenth Century (5) VLPA/I&S Selected topics in intellectual history up to 1890. The philosophical consequences of the French Revolution, the development of idealism, conservatism, romanticism, and early socialist theory; positivism,

the problems of historicism, new forms of Christian apologetics, utilitarianism in decline, liberalism as philosophy, the early Marx.

The aftermath of Darwinism, the problems of methodology in modern social science, historicism and moral relativism, irrationalism in philosophy and social theory, revisionism in secular and orthodox religions.

HSTEU 409 The Catholic Church in Europe, 1914-present (5) I&S Examines the Catholic Church in the context of European history since World War I. Explores politics and diplomacy as well as Catholic thought and culture in Europe. Major themes include challenges presented to the Church by Nazism, Communism, secularization, and Islam.

HSTEU 411 Europe: 1814-70 (5) I&S Development of Europe during the age of Metternich, the revolutions of 1848, and the emergence of new national states.

HSTEU 412 Europe in the Age of the Masses: 1870-1914 (5) I&S Impact of population increase and technological change on European society; stresses and strains in European life and outlook.

HSTEU 413 Europe: 1914-45 (5) I&S Politics and society of Europe in the age of the concentration camp.

HSTEU 414 Europe Since 1945 (5) I&S Political, economic, and military developments in Europe under the impact of the Cold War.

HSTEU 415 The Second World War (5) I&S, DIV Our world was created by the Second World War. It emerged from the nexus of mass mobilization, industrialized warfare, and racialized extremism. Its end ushered in the atomic age, the Cold War, and the United Nations. This course explores why the Second World War happened, how it unfolded, how it was experienced on battlefield and home-front; how it affected minorities (like Jews, gay men, Japanese-Americans); and how it has shaped our own time.

HSTEU 422 The French Revolution and Napoleon: 1789-1815 (5) I&S Transformation of France under the Revolution of 1789; the Reign of Terror and Napoleon; the impact of the revolution and Napoleon upon Europe.

HSTEU 432 Germany: 1914-1945 (5) I&S Politics and society from the collapse of the Bismarckian empire to the collapse of Hitler's empire.

HSTEU 435 World War I (5) I&S European society on the eve of the war. War experience of the Europeans. Long term consequences of the war on European social, political, and economic institutions. Impact of the war on non-European world. The war in European literature.

HSTEU 444 Imperial Russia: 1700-1900 (5) I&S Development of Russia from Peter the Great to Nicholas II. Offered: jointly with JSIS A 444.

HSTEU 445 The Rise and Fall of the Soviet Union (5) I&S Russia and the USSR from Nicholas II to the present. Offered: jointly with JSIS A 445.

HSTEU 451 East-Central Europe Since 1342 (5) I&S Explores the history of the lands and peoples of East Central Europe (Poles, Czechs, Slovaks, and Hungarians) .

HSTEU 452 Eastern Europe Since 1918 (5) I&S Explores the history of Poland, the Czech Republic, Hungary, and Slovakia from the end of World War I to the present.

HSTEU 453 History of the Balkans, 1400 to the Present (5) I&S Centuries of Ottoman rule that produced a new basis for the reemergence of independent states in the nineteenth and twentieth centuries; history of these new states until the present.

HSTEU 454 Baltic History (5) I&S Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia. Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical role and present situation of non-Baltic peoples, particularly Russians. Offered: jointly with SCAND 454.

HSTEU 464 The Jews in Spanish History (5) I&S Sephardic Jews in Spanish politics, economy, and culture, emphasizing the medieval Golden Age and the Inquisition. Offered: jointly with JEW ST 468.

HSTEU 465 The Jews of Eastern Europe (5) I&S Jewish society in Poland, Russia, the Hapsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with JEW ST 465.

HSTEU 470 The Jacobethan Age: England 1580-1630 (5) I&S Emphasizes arts and society instead of traditional kings, battles, and politics; the way people at all levels of society lived, in towns and in the countryside, within the bounds of the royal court or outside in the political wilderness. Poetry, drama, music, architecture, painting, interior decoration, some of the minor arts. Demography and some of the traditional historical subjects. Not open for credit to students who have taken 471 or 472.

HSTEU 471 England in the Sixteenth Century (5) I&S Political, administrative, and social history from Henry VII to Elizabeth I, with emphasis on the Reformation and its effects and on conditions of life in Elizabethan England. Not open to students who have taken HSTEU 470.

HSTEU 472 England in the Seventeenth Century (5) I&S Political, administrative, and social history from the accession of James I to the Glorious Revolution. Not open to students who have taken HSTEU 470.

HSTEU 474 Britain at its Imperial Peak (5) I&S G. *Behlmer* Political, social, and cultural transformations in the world's first industrial nation; the rise of parliamentary democracy; "Victorian" sexuality;" utilitarianism and laissez-faire theory; Britain's enormous empire; and the stubborn "Irish Problem."

HSTEU 475 Britain in the Twentieth Century (5) I&S From the Boer War to the present; conservatism, liberalism, and socialism; Britain in two world wars; the decline of British imperialism.

HSTEU 482 Fascism in Europe (5) I&S History of the fascist era in modern Europe from 1919 to 1945. A study of the principal examples of national fascism and fascist-like movements coupled with a general theoretical consideration of the phenomenon.

HSTEU 490 Topics in European History (5, max. 10)

I&S Examines special topics in European history.

HSTEU 501 Renaissance Field Course (3-6, max. 6)

Topics in the cultural, political, and social history of the Renaissance era.

HSTEU 502 Reformation Field Course (3-6, max. 6)

Topics in the religious, political, and social history of the Reformation era.

HSTEU 505 Early Modern European History (3-6,

max. 18) Select topics in early modern European history. Topics vary from quarter to quarter.

Prerequisite: permission of instructor.

HSTEU 506 Modern Europe: Writings and

Interpretations (3-6, max. 6) Study of historians, schools of history, and interpretations of modern European history.

HSTEU 510 Core Seminar in the History of Modern

Europe (5-) An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

HSTEU 511 Core Seminar in the History of Modern

Europe (-5-) An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

HSTEU 512 Core Seminar in the History of Modern

Europe (-5) An introduction to historiographical classics and exemplary new works in the various fields of modern European history. Members of the seminar choose research topics and present the results of their research to the seminar.

HSTEU 513 Europe and the Modern World I (5)

Provides an acquaintance with some of the themes, problems, and events in the history of modern Europe, 1789-1914, including Europe's larger global engagements. Offers foundation for advanced thematic or regional study, a basis for comparative historical study within Europe and beyond, and preparation for teaching entry-level and advanced undergraduate surveys.

HSTEU 515 Modern European Intellectual History

(3-6, max. 6)

HSTEU 516 Seminar: European Intellectual History

([3-6]-, max. 6)

HSTEU 517 Seminar: European Intellectual History (-

[3-6], max. 6)

HSTEU 521 Modern European History: France (3-6,

max. 6)

HSTEU 522 Seminar in French History ([3-6]-, max.

12)

HSTEU 523 Seminar in French History (-[3-6]-, max.

12)

HSTEU 524 Seminar in French History (-[3-6], max.

12)

HSTEU 531 Modern European History: Germany (3-

6, max. 6)

HSTEU 532 Seminar in Modern European History:

Germany ([3-6]-, max. 12)

HSTEU 533 Seminar in Modern European History:

Germany (-[3-6]-, max. 12)

HSTEU 534 Seminar in Modern European History:

Germany (-[3-6], max. 12)

HSTEU 542 Imperial Russia Historiography (5)

Familiarizes students with the historiographical traditions and trends in the field of Imperial Russian history. Focuses on approaches, major issues, and debates in historical writing.

HSTEU 543 Empire and Nationalism in Russian

History (5) Explores cultural diversity in Imperial Russian history. Examines the role of nationality, cultural diversity, and "Russianness" through issues of identity, nationality policies, and ideologies. Pay particular attention to the development of the nationalistic discourse in Imperial Russia.

HSTEU 544 Modern Russian History (3-6, max. 6)

HSTEU 545 Seminar in Modern Russian History ([3-6]-, max. 12) Prerequisite: reading knowledge of Russian and either French or German.

HSTEU 546 Seminar in Modern Russian History (-[3-6]-, max. 12) Prerequisite: reading knowledge of Russian and either French or German.

HSTEU 547 Seminar in Modern Russian History (-[3-6], max. 12) Prerequisite: reading knowledge of Russian and either French or German.

HSTEU 548 Field Course in Soviet History (3-6, max. 6) Specialized course for graduate history students in the scholarly literature of Russian history since 1917. Intended for graduate students preparing for MA or Ph.D. field examination in Russian history of the Soviet period.

HSTEU 551 History of Eastern Europe: 1772-1939 (5) Study of the east-central European region: Poland, Czechoslovakia, Hungary, Romania, and the Balkan countries, from their rebirth to World War II. Prerequisite: reading knowledge of German, French, Russian, or one East European language.

HSTEU 552 History of Eastern Europe: 1939 to the Present (5) Prerequisite: reading knowledge of one major European or one East European language.

HSTEU 553 Seminar in Modern East European History ([3-6]-, max. 6) Study and research involving special methods dealing with the histories of the East European countries in the modern period.

HSTEU 554 Seminar in Modern East European History (-[3-6]-, max. 6) Study and research involving special methods dealing with the histories of the East European countries in the modern period.

HSTEU 555 Seminar in Modern East European History (-[3-6], max. 6) Study and research involving special methods dealing with the histories of the East European countries in the modern period.

HSTEU 571 English History: Tudor and Stuart (3-6, max. 6)

HSTEU 572 English History (3-6, max. 6)

HSTEU 573 Seminar in Modern English History ([3-6]-, max. 6)

HSTEU 574 Seminar in Modern English History (-[3-6], max. 6)

HSTEU 575 Seminar in Tudor-Stuart History ([3-6]-, max. 12) History of England under the Tudors and the Stuarts. Prerequisite: HSTEU 571 or permission of instructor.

HSTEU 576 Seminar in Tudor-Stuart History (-[3-6], max. 12) History of England under the Tudors and the Stuarts. Prerequisite: HSTEU 571 or permission of instructor.

HSTEU 590 Topics in History (5, max. 15) Seminar on selected topics in general history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

HISTORY OF NORTH AMERICA (USA AND CANADA)

HSTAA 100 Advanced Placement (AP) US History (5) I&S Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

HSTAA 101 Survey of the History of the United States (5) I&S Supplies the knowledge of American history that any intelligent and educated American citizen should have. Objective is to make the student aware of his or her heritage of the past and more intelligently conscious of the present.

HSTAA 105 The Peoples of the United States (5) I&S, DIV History of diverse peoples who have come together through conquest and immigration since 1500, including Native Americans, Europeans, Africans, Asians, and Latin Americans. Explores contributions of many peoples with special attention to changing constructions of race and ethnicity and evolving understandings of what it means to be American.

HSTAA 108 International Baccalaureate (IB) History of the Americas (5) I&S Course awarded based on International Baccalaureate (IB) score. Consult the

Admissions Exams for Credit website for more information.

HSTAA 110 History of American Citizenship (5) I&S, DIV Examines how, when, and why different groups of people (e.g., white men, white men without property, peoples of color including one-time slaves, women, immigrants) became eligible for citizenship throughout American history. Explores how and why for many peoples, at many times, citizenship did not confer equal rights to all.

HSTAA 150 Introduction to African American History (5) I&S Introductory survey of topics and problems in African American history with some attention to Africa as well as to America. Basic introductory course for sequence of lecture courses and seminars in African American history. Offered: jointly with AFRAM 150.

HSTAA 202 American Foreign Policy, 1776 -Present (5) I&S Surveys the history of American foreign relations.

HSTAA 203 American Presidents in the Twentieth Century (3/5) I&S

HSTAA 205 Asian American History (5) I&S, DIV Introductory history of Asian Indians, Chinese, Filipinos, Japanese and Koreans in the United States from the 1840s to the 1960s. Major themes include imperialism, labor migration, racism, community formation, and resistance.

HSTAA 208 The City: People, Place, and Environments (5) I&S Surveys the history of cities in North America and around the globe from 1800 to the present. Considers economic and technological change; politics and government; city planning and landscaping design; migration and immigration, race, gender, and class; suburbanization; popular culture; and natural environments and natural disasters.

HSTAA 209 The Unsettling of the Red Continent: American Indian History to 1815 (5) I&S, DIV J. REID Course examines the histories of indigenous peoples of North America through the War of 1812. Topics include the peopling of the Americas; early encounters and exchanges; and strategies American Indians used to confront expanding European, American, and indigenous powers. Offered: jointly with AIS 209.

HSTAA 210 Inconvenient Indians and the "American Problem": American Indian History since 1815 (5) I&S, DIV As part of a two-quarter survey of American Indian history, this course examines the histories of indigenous peoples of North America from the nineteenth century to today. Students will explore a range of topics, including settler colonialism, indigenous power, American Indian - US relations, and Native governance and activism. Offered: jointly with AIS 210.

HSTAA 212 The Military History of the United States From Colonial Times to the Present (5) I&S Development of American military policies, organizational patterns, tactics, and weaponry, from beginnings as a seventeenth-century frontier defense force to the global conflicts and military commitments of the twentieth century. Interaction and tension between need for an effective military force and concept of civilian control of that force.

HSTAA 213 History of the American Presidency (5) I&S M. O'Mara Examines the American presidency and those who have occupied it, from George Washington to the current president.

HSTAA 221 Environmental History of the U.S. (5) I&S Linda Nash Surveys the relationship between nature and human history, including the impact of the non-human environment on American history and the environmental effects of colonization, urbanization, and consumerism; the cultural construction of nature in different eras and its social implications; the sources and limits of modern environmental politics. Offered: jointly with ENVIR 221; A.

HSTAA 225 American Slavery (5) I&S, DIV Explores the making of American slavery from beginnings on the African coast to the plantations of the southern United States. Includes slave life, pro-slavery thought, slave management, representations of slavery then and now, abolitionism, and debates about slavery.

HSTAA 230 Race and Power in America, 1861-1940 (5) I&S, DIV Explores race and the shaping of American society between the Civil War and World War II. Topics include reconstruction, segregation and lynching, immigration and naturalization, imperialism, and movements for social justice.

HSTAA 231 Race and American History (5) I&S, DIV Surveys United States history, by exploring how race has enabled conceptions of the American nation and shaped everyday practices and interactions among different peoples. How have racial concepts, representations, and practices fundamentally defined power dynamics in American culture? From slave revolts to the Black Lives Matter movement, how have organizations and individuals struggled to pursue racial justice?

HSTAA 235 The American People and Their Culture in the Modern Era: A History of the United States Since 1940 (5) I&S Through study of documents, personal testimony, and other source materials, through written reports on historical problems, and through discussions, lectures, films, and audiovisual presentations, students are encouraged to examine evidence and to think "historically" about persons, events, and movements within the memory of their own generation and that immediately preceding theirs. Primarily for first-year students.

HSTAA 270 The Jazz Age (5) I&S, DIV *Walter* Interdisciplinary study of period after World War I to Great Crash. African American and Anglo American currents and impulses that flowed together in the Roaring Twenties. Covers politics of normalcy, economics of margin, literature of indulgence and confusion, transformation of race relations, and cultural influence of jazz. Offered: jointly with AFRAM 270.

HSTAA 273 Women of the American West (5) I&S Women of the Trans-Mississippi West, from the time of European contact to World War II, studied in all their multifarious roles. Explores ethnicity, class, work, family, suffrage, politics, reform, women's groups, arts and entertainment, religion, civilizing and resistance, and gender ideology.

HSTAA 290 Topics in American History (5, max. 10) I&S Examines special topics in American history.

HSTAA 301 Colonial North America (5) I&S Surveys the land and peoples that became the United States from the sixteenth century to 1787. Themes include: interactions between Europeans, Africans, and indigenous peoples, regional and economic growth, the development of racial slavery, religious growth, the War of Independence, and the transition from colonies to nationhood. Offered: A.

HSTAA 302 Everyday Life in Nineteenth-Century America (5) I&S, DIV Explores the history of everyday Americans (women, slaves, working people, farmers) of a variety of races, ethnicities, and citizenships in the context of the major cultural, social, and political changes that dramatically transformed their lives over the course of the nineteenth century.

HSTAA 303 Modern American Civilization From 1877 (5) I&S Emergence of modern America, after the Civil War; interrelationships of economic, social, political, and intellectual developments.

HSTAA 308 American Indians and the Environment (5) I&S, DIV *J. Reid* Examines the historical relationships American Indians have possessed with local environments, with special attention to the ways these peoples have adapted to altered environments and new conditions, including migrations, involvement with markets of exchange, overhunting, dispossession, conservation, and mainstream environmentalism. Offered: jointly with AIS 308/ENVIR 308.

HSTAA 311 The Indigenous History and Environment of the Salish Sea (5) I&S, DIV *Joshua L Reid* Uncovers the indigenous history and environment of the Salish Sea. Examines the "Salish Sea" concept and uncovers the history of the Salish Sea, from an indigenous perspective. Topics include pre-encounter indigenous settlement; early encounters; and contestations over resources, waters, and lands; contemporary issues. Taught at the Friday Harbor Labs. Offered: jointly with AIS 311; Sp.

HSTAA 312 Early History of the North American West (5) I&S *J. Reid* Includes the peopling and settling of North America, arrival and expansion of Europeans; comparative colonial encounters; and initial encroachments of United States people, industry, government, and ideology into the region.

HSTAA 313 African Americans in the American West (5) I&S, DIV Explores pre-1848 Spanish-speaking black settlers, slavery, post-civil war migration, buffalo soldiers. 19th and 20th century black urban settlers, World War II migration, the civil rights movement in the West, the interaction of African Americans with other people of color. Particular focus on Seattle and the Pacific Northwest.

HSTAA 315 Researching Indians' History (5) I&S A.

HARMON Finding and interpreting sources of information about American Indians' history. Offered: jointly with AIS 370.

HSTAA 316 History of American Science (5) I&S

History of science in the United States, including migration of European science, development in colonial America, growth of an American scientific community, and expansion of American science in the twentieth century. Issues of scientific attitudes to the natural world, race, ethnicity, and gender are included.

HSTAA 317 History of the Digital Age (5)

I&S *Margaret O'Mara* Provides concrete historical knowledge about the evolution of the American computer hardware and software industries from the 1940s to the present day, situating today's debates about digital technologies and platforms in a longer political, social, and economic perspective.

HSTAA 321 Becoming Black Americans (5) I&S, DIV

History of Africans in America from slave trade through the Civil War, with emphasis on how gender informed African-American experience. Topics include slave trade, middle passage, life in plantation south, culture, family structure and resistance, and the experience of free blacks, North and South.

HSTAA 322 African-American History, 1865 To The Present (5) I&S, DIV

African-American experience from Reconstruction to the present, emphasizing the variety of African-American political expression. Gender and class differences closely examined, as well as such constructs as "community," "race," and "blackness."

HSTAA 331 American Indian History I to 1840 (5)

I&S, DIV A. *HARMON* History of indigenous peoples and their descendants in the area that now constitutes the United States, from the eve of European discovery of the Americas to 1840. Emphasis on relations between indigenous peoples and immigrants. Offered: jointly with AIS 331.

HSTAA 332 American Indian History II Since 1840 (5)

I&S, DIV A. *HARMON* History of American Indians in the United States from 1840 to the present. Emphasis on relations between Indians and non-Indians, government policies, and Indian strategies of survival. Offered: jointly with AIS 332.

HSTAA 334 Civil Rights and Black Power in the United States (5) VLPA/I&S, DIV

Steptoe Examines the politics and culture of the modern African American freedom struggle, which began after WWII and continued into the 1970s. Interrogates political strategies associated with nonviolent direct action, armed self-reliance, and black nationalism, as well as the cultural expression that reflect these political currents. Offered: jointly with AFRAM 334.

HSTAA 336 American Jewish History Since 1885 (5)

I&S Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with JEW ST 336.

HSTAA 337 The Holocaust and American Life (5)

I&S, DIV In most accounts, "the Holocaust" is told as a European story, but it was also transatlantic. Incorporates film, literature, journalism, social scientific writing, diaries, court cases, and other primary sources to examine how events in Europe affected and were affected by developments in United States history. Offered: jointly with JEW ST 337.

HSTAA 338 The United States and Vietnam (5) I&S

American involvement in Vietnam, including: the complex of negotiations; strategies and objectives of both sides; military, political, and economic operations of the United States; efforts at pacification; impact of Vietnam on American affairs.

HSTAA 345 US Political and Economic History, 1920

- present (5) I&S M. *O'Mara* Places modern America in historical perspective, using primary and secondary historical sources to examine key people and events who made this history from the 1920s to the present. Themes include: changing role of government; electoral and partisan change; populism and grassroots activism; markets and corporations; labor force trends; and the social and political impact of technology. Cannot be taken for credit if credit received for HSTAA 235.

HSTAA 351 American Constitutional History: From

Colonial Times to the Present (5) I&S European origins; the constitution-making of the American

Revolution; the growth of government; Civil War and Reconstruction as constitutional crises; reform and the new federalism; the Supreme Court and civil rights; Congress, the presidency, and modern American constitutionalism.

HSTAA 353 Class, Labor, and American Capitalism (5) I&S, DIV The history of workers and class formation from early industrialization to the present. Emphasizes the interaction of class with race, ethnicity, gender, and political culture within the context of American economic development. Explores the role of unions, labor politics, and radical movements.

HSTAA 365 Culture, Politics, and Film in Twentieth Century America (5) VLP/A/I&S, DIV Explores relationship between film and twentieth century U.S. cultural, social, and political history. Examines the ways that films responded to, participated in, and helped shape understandings of modernity, national identity, political power, race and ethnic relations, gender, and crises such as economic depression and war.

HSTAA 371 Consumption and Consumerism in the Modern U.S. (5) I&S Surveys the rise of consumer society in the late-nineteenth-and twentieth-century United States including theories of consumption, the experience of consumer culture by different social groups, the role of the state in fostering consumption, the material impacts of consumer society in the U.S. and beyond, and critiques of consumerism.

HSTAA 373 Social History of American Women to 1890 (5) I&S, DIV Yee A multi-racial, multicultural study of women in the United States from the seventeenth century to 1890 emphasizing women's unpaid work, participation in the paid labor force, charitable and reform activities, and nineteenth century social movements. Uses primary materials such as diaries, letters, speeches, and artifacts. Offered: jointly with GWSS 383; W.

HSTAA 374 Social History of American Women in the Twentieth Century (5) I&S Analyzes major themes in the history of women in North America from 1890 through the 1990s. Themes include family and community formation, social activism, education, paid and unpaid labor patterns, war, migration, and changing conceptions of womanhood

and femininity in the twentieth century. Offered: jointly with GWSS 384.

HSTAA 377 History of Canada (5) I&S General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West. Offered: jointly with JSIS A 375.

HSTAA 401 American Revolution and Confederation (5) I&S Causes of separation of the United States from the British empire; political theory of the Revolution; its military history; diplomacy of the Revolution; the Revolution as a social movement; intellectual aspects; readjustment after independence; the formation of the American union; the Constitution.

HSTAA 402 Witchcraft in Colonial New England (5) I&S Provides an in-depth look at the Salem witchcraft crisis of 1692 as part of a larger examination of seventeenth century New England history. Themes include: settlement, the intellectual and religious foundations of New England society, the role of politics, economics, and Indian wars, witchcraft trials, and why most of the accused were women.

HSTAA 404 New England: From the Foundings to the Civil War (5) I&S New England from colonial beginnings to the region's emergence to national leadership in the mid-nineteenth century. Emphasis on Puritanism, the New England town, adjustment to empire, revolution and constitution making, the growth of party, abolitionism, the flowering of a regional culture, and the personalities who embodied these key themes and periods.

HSTAA 406 Asian American Activism (5) I&S, DIV Explores the multiple political traditions forged by Asian Americans, from the earliest challenges to racist laws and unequal wages to the latest debates over affirmative action and racial profiling. Examines Asian American communities organized to oppose and to perpetuate social inequalities. Offered: jointly with AAS 406.

HSTAA 407 Andrew Jackson's United States (5) I&S In-depth examination of the U.S. from 1820 to 1850,

including changes which affected American politics, society, and culture.

HSTAA 409 American Social History: The Early Years

(5) I&S Survey of American society and institutions from the colonial era through the Civil War, with special attention to reform, labor, immigration, education, law enforcement and the city.

HSTAA 410 American Social History: The Modern Era

(5) I&S, DIV Survey of American society and institutions from Reconstruction to the present with special attention to reform, poverty, social mobility, immigrant and ethnic groups, the city and law enforcement.

HSTAA 411 The United States During the Era of Civil War and Reconstruction

(5) I&S Conflicting interests, ideologies, and ways of life in the United States from the 1840s to the 1870s.

HSTAA 412 The Westward Movement, 1700-1850

(5) I&S Anglo-American advance into interior continental United States culminating in Far West occupation. Rivalry with New France and Spain in colonial period; role of federal government in westward expansion; land policy and distribution; migration, settlement, and pioneering; federal Indian policies and implementation; political evolution, urbanization, and economic development of trans-Appalachian West; shaping national character and institutions.

HSTAA 413 The American West in History and Film

(5) I&S, DIV J. Findlay Examines emergence of American West since 1840 by looking at colonization processes; Native-white relations; economic and demographic changes; environmental issues; urbanization; western politics and the role of the state. Historians' evolving interpretations of the western past are considered alongside those in film in order to appreciate why the West has loomed so large in 20th-century American culture and identity.

HSTAA 414 The Canadian West, 1670-1990

(5) I&S Examines the history of colonization and settlement of Canada's four westernmost provinces with emphasis on their economic, social, and Native history.

HSTAA 415 History of Indian-White Relations in Anglo-America

(5) I&S Explores the wide variety of

interactions in North America, ranging from close alliances to outright warfare, between Native Americans and Europeans and their descendants from contact through the removal of most of the remaining eastern Indians to land west of the Mississippi River during the 1830s.

HSTAA 417 Indians in Western Washington History

(5) I&S, DIV A. HARMON Relations of Indians and non-Indians in the Puget Sound region, from the 1790s to the present, with emphasis on evolving ideas about Indian identity. Offered: jointly with AIS 425.

HSTAA 426 American Urban History Since 1870

(3/5) I&S Development of American cities for the past century. Topics include physical development, immigration, politics, and changes in society and culture.

HSTAA 431 American Politics and Society Since 1920

(5) I&S Political, social, economic, and intellectual developments in the United States from 1920 to the present.

HSTAA 432 History of Washington and the Pacific Northwest

(5) I&S Exploration and settlement; economic development; growth of government and social institutions; statehood.

HSTAA 433 A Documentary History of Pacific Northwest Identity

(5) I&S Findlay Considers cultural construction of Pacific Northwest region through more than two centuries of narratives, including Native American stories; travel literature from early explorers to modern tourists; accounts by newcomers from pioneer to modern era; aggressive regionalism of 1890-1945; Northwest literature of the post-war period. Offered: S.

HSTAA 446 American Indian Economic History

(5) I&S Harmon Surveys and analyzes the history of American Indians' economic challenges and strategies. Topics include the economic cultures of indigenous North American societies, the impacts of European colonization and U.S. government policies, and tribal strategies aimed at improving Indians' economic circumstances. Offered: jointly with AIS 446.

HSTAA 454 The Intellectual History of the United States

(5) VLPA/I&S Lectures and discussions

devoted to the development of the American mind, from historical beginnings to the present.

HSTAA 458 Education in the Forming of American Society (5) I&S *Beadie* Covers the development of American education in cultural context; history of schools and non-school learning from colonial period to the twentieth-century; apprenticeship and learning societies; community and market-based schooling; liberal learning and the rise of the university; and schools as agencies of economic and political integration and mediators of culture and social status. Offered: jointly with EDLPS 458.

HSTAA 459 History of American Education Since 1865 (3) I&S Development of American education in cultural context: progressive education, recent criticism, continuing issues and trends. Offered: jointly with EDLPS 459.

HSTAA 461 Diplomatic History of the United States, 1776-1901 (5) I&S Foreign policy of the United States government prior to the twentieth century. Emphasis on international wars, territorial expansion, and the peculiarities of the American position in world politics.

HSTAA 462 Diplomatic History of the United States, 1901-Present (5) I&S Foreign policy of the United States government during the twentieth century. International wars and the other major episodes in diplomacy are emphasized.

HSTAA 465 The Sixties in America: Kennedy to the Counterculture (5) I&S Examines American politics, society, and culture during the 1960s. Also touches on 1945-1959 and 1970-1975. Topics include the Cold War; Vietnam; JFK, LBJ, and their critics; MLK, Malcolm X, race, gender, and social movements; mass culture, pop culture, and the counterculture.

HSTAA 473 Homefront: American Cultures and Society in the 1940s (5) I&S An exploration of the impact of WWII on American culture and social thought. Topics include the effects of war on civil liberties and civil rights, the uses of nationalism, patriotism, and racial ideology, the internment of Japanese-Americans, responses to the Holocaust, and the effects of war on social life.

HSTAA 490 Topics in American History (5, max. 10) I&S Examines special topics in American history.

HSTAA 501 American History: Early (3-6, max. 6)

HSTAA 503 Seminar in American History, Early ([3-6]-, max. 12) Research seminar in early American History, 1600-1875.

HSTAA 504 Seminar in American History, Early (-[3-6], max. 12) Research seminar in early American History, 1600-1875.

HSTAA 506 Slavery in the Americas (5) Explores the rise of American slavery beginning with the development of the Atlantic slave trade between southern European powers and coastal African traders. Topics include cultures of slavery in the Americas, comparative racial formations, cultural change, and the role of gender in slave societies.

HSTAA 508 American Urban History (5) Covers major themes and scholarly literature in American urban history.

HSTAA 512 American History: Western (3-6, max. 6)

HSTAA 513 Seminar in American History: Western ([3-6]-, max. 12)

HSTAA 514 Seminar in American History: Western (-[3-6], max. 12)

HSTAA 516 Hispanics of the United States (3-6, max. 6)

HSTAA 517 Field Course in American Indian History (5) Field-reading course. Survey of major problems and literature concerning indigenous peoples of North America and their descendents.

HSTAA 519 Asian American History (5) Introduces students to the field of Asian American history, with an emphasis on historiographical shifts and debates. Includes a broad range of topics and methodologies that often cross disciplinary boundaries.

HSTAA 521 American History: Writings and Interpretations, 1770-1870 (4-6)

HSTAA 522 American History: Writings and Interpretations Since 1870 (4-6)

HSTAA 524 American Social History Before 1860 (3-6, max. 6) Field course. Survey of major problems and literature in American social history before 1860.

HSTAA 525 American Social History after 1860 (3-6, max. 6) Field course. Survey of major problems and literature in American social history after 1860.

HSTAA 531 American History: Twentieth Century (3-6, max. 6)

HSTAA 532 Seminar in American History: Recent Period ([3-6]-, max. 12)

HSTAA 533 Seminar in American History: Recent Period (-[3-6]-, max. 12)

HSTAA 534 Seminar in American History: Recent Period (-[3-6], max. 12)

HSTAA 540 African American Urban History: 1700-2000 (5) Examines the growth and evolution of African-American urban communities from the colonial era to the present, with particular emphasis on cities of the West.

HSTAA 549 Culture, Politics, and Power in Nineteenth-Century Black America (5) Canonical issues, problems, and topics in nineteenth-century black social history. Traces major developments during the period; engages historiographical debates; and explores methodological questions such as the intersection of social and cultural history, and the challenges and possibilities of writing the history of a people with few written records.

HSTAA 550 African-American History to Reconstruction (5) Comprehensive introduction to the major topics and writings in African-American history from the colonial era to 1900, including the inception of slavery, free Blacks, slave revolts, Black abolition, Blacks in the Civil War and Reconstruction, and the Black female role in the struggle for freedom.

HSTAA 551 African-American History Since Reconstruction (5) Comprehensive introduction to the major topics and writings in African-American history in the twentieth century, including Jim Crow era, Black Women's Movement, Harlem

Renaissance, legal origins of Civil Rights Revolution, Second Reconstruction, and Politics of Cultural Pluralism.

HSTAA 552 Graduate Seminar in African-American History (5-) Research experiences and opportunities in African-American history. Provides students with skills and methodology to pursue advanced research in the field.

HSTAA 553 Graduate Seminar in African-American History (-5) Research experiences and opportunities in African-American history. Provides students with skills and methodology to pursue advanced research in the field.

HSTAA 554 American History: Intellectual (3-6, max. 6)

HSTAA 555 Seminar: American Intellectual History ([3-6]-, max. 12) Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

HSTAA 556 Seminar: American Intellectual History (-[3-6], max. 12) Develops research and writing competence in American intellectual history. Prerequisite: permission of instructor or graduate program coordinator.

HSTAA 561 History of American Foreign Policy (3-6, max. 6)

HSTAA 562 Seminar in American Diplomatic History ([3-6]-, max. 12)

HSTAA 563 Seminar in American Diplomatic History (-[3-6], max. 12)

HSTAA 570 American Environmental History (5) Readings in environmental history emphasizing theory, methodology, and principal themes in the field. Readings emphasize the environmental history of North America and the United States.

HSTAA 590 Topics in American History (5, max. 15) Seminar on selected topics in American history, with special emphasis on preparation for field examinations. Topics vary according to interests of students and instructor.

HISTORY SEMINARS AND INDEPENDENT STUDIES

HSTRY 100 Advanced Placement (AP) History (5) I&S Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

HSTRY 108 International Baccalaureate (IB) History (5) I&S Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

HSTRY 199 Foreign Study (3-5, max. 10) I&S Lower-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

HSTRY 201 History Lecture Series Colloquium (2, max. 8) Students attend weekly lectures through the History Lecture Series, then discuss themes generated from the lectures. Students write reflective papers comparing, contrasting, and expanding upon themes presented. Credit/no-credit only. Offered: W.

HSTRY 288 Seminar: Topics in History (5, max. 15) I&S Introduction to the discipline of history. Emphasizes the basic skills of reading, analysis, and communication (both verbal and written) in history. Each seminar discusses a different subject or problem.

HSTRY 388 Colloquium: Introduction to History (5, max. 10) I&S Introduction to the discipline of history for new or prospective majors. Emphasizes the basic skills of reading, analysis, and communication (both verbal and written) that are central to the historian's craft. Each seminar discusses a different subject or problem.

HSTRY 390 Colloquium in History and Science (5) I&S Study in the history of science to bridge the gap between the natural sciences and the humanities. Students should have a strong background both in history and in a natural science.

HSTRY 395 Modern Historical Writing, Honors Seminar (5) I&S New types of problems examined by historians and new techniques that have evolved for

solution. Brief historiographical introduction, reaching back to the "scientific" historians of the mid-nineteenth century; continues by examining the impact on historians of new disciplines such as psychology, sociology, and economics, and of new techniques such as statistics and prosopography. Readings in the theorists and in those who followed their lead.

HSTRY 399 Advanced Foreign Study (3-5, max. 15) I&S Upper-division history courses, for which there are no direct University of Washington equivalents, taken through the University of Washington Foreign Study Program.

HSTRY 489 Digital History (5) I&S *Raymond Jonas* Offers a grounding in some key technologies relevant to research and teaching in the humanities and humanistic social sciences. Introduces an array of relevant technologies, including close and distant readings of texts, mapping and visualization, digital storytelling, content management and migration, and social media.

HSTRY 491 Honors Historical Method (5-) I&S The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students.

HSTRY 492 Honors Historical Method (-5) I&S The purposes, materials, and techniques of historical scholarship. Theory, practice, and criticism. For honors students.

HSTRY 493 Senior Thesis in the History of Science (5, max. 10) I&S Preparation of the senior thesis for the History and Science emphasis.

HSTRY 494 Colloquium in Historiography (5, max. 15) I&S Advanced seminar examining central issues in historiography. Emphasizes reading, discussion, and writing.

HSTRY 495 History Internship (1-5, max. 10) Off-campus independent fieldwork with a community agency in an apprenticeship or internship situation. Work to be jointly supervised by a member of the History Department and an on-site field supervisor.

HSTRY 498 Colloquium in History (5, max. 15) I&S Each seminar examines a different subject or

problem. A quarterly list of the seminars and their instructors is available in the Department of History undergraduate advising office.

HSTRY 499 Undergraduate Research (1-5, max. 15)

HSTRY 500 Perspectives on History (5)

HSTRY 570 Topics in Teaching History (3) Topics include active learning, teaching writing, assessment, and course design. Designed for history graduate students working or planning to work as TAs or instructors. Students produce a teaching portfolio and conduct peer observations. Credit/no-credit only.

HSTRY 571 History as a Profession (3) Prepares history graduate students for both non-academic and academic careers. Course required for second year graduate students in the department of history. Credit/no-credit only. Offered: W.

HSTRY 572 Dissertation Prospectus Workshop (3)

Students will craft their dissertation prospectuses with their respective PhD chairs and committees, that must approve the prospectus before it is presented to the History Department. In addition to fulfilling a departmental requirement, students can use the prospectus as a component for future funding and employment applications. Credit/no-credit only.

HSTRY 595 Historical Practices (5) Emphasizes the interrelatedness of theoretical issues and historical research. Students read works that encourage the rethinking of sources and their historical meaning and experiment with sources, methods, and questions in a set of practical assignments.

HSTRY 596 History Research Seminar (5-, max. 10)

Advanced historical research seminar. First in a series of two.

HSTRY 597 History Research Seminar (-5, max. 10)

Advanced historical research seminar. Second in a series of two.

HSTRY 598 Methods of Historical Research (5)

Exploration of new historical and scholarly techniques employed in historical research. Use of social science methodology and literary theory in the

evaluation and interpretation of historical sources. Use of feminist theory, deconstruction, critical theory, and orality/literacy studies. Student research paper is based upon a chosen theoretical approach.

HSTRY 600 Independent Study or Research (*-)

HSTRY 800 Doctoral Dissertation (*-)

HISTORY AND PHILOSOPHY OF SCIENCE

HPS 400 Colloquium in the History and Philosophy of Science (5) I&S/NW *L. HANKINSON NELSON, B. HEVLY, A. WOODY*

Examines issues from the perspectives of both history and philosophy. Prerequisite: either HSTCMP 311, HSTCMP 312, HSTCMP 313, HSTCMP 314, HSTCMP 315, HSTCMP 317, HSTCMP 318, or HSTCMP 412; either PHIL 350, PHIL 360, PHIL 450, PHIL 460, PHIL 464, PHIL 466, PHIL 473, PHIL 481, PHIL 482, or PHIL 483.

INTEGRATED SCIENCE

INTSCI 197 Special Topics in Integrated Sciences (1-5, max. 15) NW Selected topics in integrated sciences.

INTSCI 200 Controversies in Science and Society (3) NW/I&S

Exploration of controversies in science and society that benefit from an integrated sciences perspective. Topics vary from quarter to quarter, but may include cases from science communication, science education, science policy, and science research.

INTSCI 301 Integrated Sciences Careers Seminar (1, max. 3)

Introduces students to scientists and science educators who are actively engaged in careers that require an integrative science perspective. Classroom guests vary from quarter to quarter, but may include individuals working in formal and informal science education, science organizations, science writing, and science policy.

INTSCI 401 Integrated Sciences Practicum (2-4, max. 6) I&S

Exploration of professions in formal or informal science education, science writing, science policy, and other areas that require an integrated science perspective. Examples include weekly visits to a science classroom, organization, or museum.

Analysis of practicum experiences through discussion of scientific communication, human learning, and classroom engagement and equity.

INTSCI 402 Nature of Science (5) NW Case study examination of scientific methods and elements of scientific practice including observation, data, statistics, interpretations, hypothesis, theory, and law. Asks how does science change; how does data support theories; and how are theories verified, falsified, or modified?

INTSCI 403 Science in Context (5) I&S/NW Case study examination of how science operates within broad social, political, and ethical contexts. Considers the growth of multidisciplinary and interdisciplinary research, societal impacts, ethical responsibilities, censorship, complex mechanisms of funding, and the power inherent in claims to knowledge.

INTSCI 491 Introduction to Research (2) NW Preparation for intensive "hands-on" science experience. Discussion of what constitutes scientific research; development of a research proposition; meeting with potential research supervisors; signed agreement with supervisor and capstone instructor on scope and details of research

INTSCI 492 Reflections on Research (2, max. 6) NW Reflections on an on-going science research experience through discussion, short papers, and oral presentations, with emphasis on the challenges and dilemmas that arise in data collection and analysis. Offered: AWSp.

INTSCI 493 Communicating Research (3) NW Preparation of oral and written presentations of research, under guidance of the capstone instructor. Presentation on research in class and in another venue, such as a scientific meeting or an on-campus symposium. Prerequisite: minimum of four credits of INTSCI 492. Offered: AWSp.

INTSCI 498 Independent Study (1-5, max. 10) Faculty-supervised independent study on a topic related to integrated sciences.

INTEGRATED SOCIAL SCIENCES

ISS 301 Social Science Theory in Context (5) I&S Provides an introduction to the concepts of social theory, interdisciplinarity, and the thematic areas of the integrated social sciences major. Explores how social sciences study what people do, how people understand their world, and how that understanding shapes social practice. Offered: ASp.

ISS 302 Survey of Social Science Methods (5) I&S Provides an inclusive survey of methods used across the social sciences. Introduces statistics, survey research, and data visualization techniques. Also covers qualitative research methods ranging from participant observation to archival textual analysis. Students develop skills in both quantitative and qualitative reasoning using real-world evidence. Offered: A.

ISS 350 Introduction to Integrated Social Sciences Portfolio (2) I&S Begins the process of online learning portfolio development to define learning goals, refresh research skills, explore academic interests, and build a collection of work in the social sciences. Offered: ASp.

ISS 355 Integrated Social Sciences Portfolio Studio (3) I&S Continues the integrative and reflective work begun in ISS 350, developing online learning portfolio content and interdisciplinary knowledge in the social sciences in preparation for the capstone. Prerequisite: ISS 350. Offered: AWSp.

ISS 381 Advanced Research Writing in the Social Sciences (5) C M. CARNEY, P. MYERS Concentration on the development of advanced research-based writing skills in the social sciences. Recommended: 100-level English course.

ISS 401 Integrated Social Sciences Portfolio Capstone (5) I&S Focuses on the transformation of the online learning portfolio into a showcase portfolio suitable for an external audience identified by the student. Builds on the reflective and integrative work done over the past quarters. Prerequisite: ISS 355. Offered: AWSpS.

JACKSON SCHOOL OF INTERNATIONAL STUDIES

COMPARATIVE RELIGION

RELIG 101 A Life Worth Living: Meaning, Morals and Money (5) I&S *J. Wellman* Investigates how to create meaning in religious and humanistic traditions, how to develop ethical traditions that enable trust and a thriving social order, and the relationship between money and meaning. Students ask what makes life worth living and discover sources of meaning and ethical maxims, as well as tools to navigate decision-making and fashion a flourishing life.

RELIG 104 International Baccalaureate (IB) World Religions (5) I&S Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

RELIG 120 Yoga: Past and Present (5) VLPA/I&S, DIV Studies yoga and its history, practice, literature, and politics. From the ancient past to modern yoga, studies essential texts and ideas, as well as the effects of class, religion, gender, nationalism, development, Marxism, colonialism, and physical culture on yoga. Offered: jointly with CHID 120; A.

RELIG 145 Introduction to Judaism (5) I&S Explores Judaism's sacred texts, holidays, and beliefs. Addresses Judaism's impact on society, culture, and politics. Through the lens of the Jewish experience, grapples with fundamental questions about the role of individuals and members of larger communities in an increasingly multicultural, religious, and interconnected world. Offered: jointly with JEW ST 145.

RELIG 155 Heroes, Heretics, and Radicals: The Origins of Judaism and Christianity (5) I&S Investigates the heroes, heretics, and radical pioneers of religious movements around the beginning of the Common Era (150 BCE-150 CE). Students learn to analyze primary sources, engage critically with secondary sources, and author their own historical narrative. Offered: W.

RELIG 199 Study Abroad: Comparative Religion (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do

not automatically apply to major/minor requirements.

RELIG 201 Introduction to World Religions: Western Traditions (5) I&S *Wellman* History of religions, concentrating on religious traditions that have developed west of the Indus. Primary attention to the Semitic religions (Judaism, Christianity, Islam) and to their ancient world background with emphasis on basic conceptual and symbolic structures.

RELIG 202 Introduction to World Religions: Eastern Traditions (5) I&S *Novetzke, Pauwels* History of religions, concentrating on religions that have developed in South Asia and East Asia. Primary attention to Hinduism and Buddhism; other important Asian religions are discussed in relation to them, with emphasis on basic conceptual and symbolic structures.

RELIG 205 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM 205/NEAR E 285; W.

RELIG 211 Introduction to Muslim Beliefs and Practices (5) VLPA/I&S Examines the origins and development of central beliefs in various Muslim traditions; such as monotheism, prophecy, divine judgment, and predestination. Looks at ritual and socio-cultural practices in Muslim societies in Asia, Africa, and Europe. Offered: jointly with NEAR E 230.

RELIG 212 Introduction to the Quran (5) VLPA/I&S A literary, historical, and theological introduction to the Quran. Looks at the historical circumstances of the text's compilation; its collection and redaction; its narrative structure; its rhetorical strategies; its major themes; its connections to and departures from the Hebrew Bible and the New Testament; commentary and exegesis; translation; and its impact on political and religious thought. Offered: jointly with NEAR E 231.

RELIG 220 Introduction to the New Testament (5) VLPA/I&S Introduction to the writings in the New

Testament, their nature and origins as explored in modern scholarly research, and the first decades of the Christian religion.

RELIG 240 Introduction to the Hebrew Bible: Old Testament (5) VLPA/I&S Examines the Hebrew Bible (Old Testament) in translation and its relationship with literatures of ancient Near East. Comparisons drawn between Biblical text and literary works of Canaan, Egypt, Greece, Mesopotamia. Emphasis on the sophisticated literary techniques employed by Biblical writers. Cannot be taken for credit if credit earned in NEAR E 240. Offered: jointly with NEAR E 202.

RELIG 242 Christianity in Asia (5) I&S *Hajin Jun* Christianity in East Asia, sixteenth century to present. Shared experiences that transcended national boundaries. Also traces divergent paths Christianity took in China, Korea, and Japan. What propelled missionary expansion? Why did people convert? What are lasting legacies of Christianity? Attention to shifting meanings of faith, identity, and religious community across the region. Offered: jointly with HSTAS 242.

RELIG 254 American Religions (5) I&S, DIV *Wellman* Seeks to understand religious diversity in the American context and the varieties of religions in the American historical horizon including religious minorities, American Protestants, public religious expressions, and new American religions.

RELIG 264 Sacred Music in the European Tradition (5) VLPA Surveys European and American sacred music from the twelfth to twentieth centuries, examining the important role of music in religious worship. Considers the means composers used to make musical works sound the way they do to convey the messages of the texts through music. Offered: jointly with MUSIC 264.

RELIG 305 Religious Thought Since the Middle Ages (5) I&S Development of religious thought in the West from the Middle Ages to the twentieth century. History of focal ideas: God, man, knowledge, and authority during this period and the relation of changes in these ideas to the ways in which basic issues in religious thought have been conceived.

RELIG 306 The History of Biblical Interpretation (3) VLPA/I&S Traces Biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class. Offered: jointly with NEAR E 306.

RELIG 307 Religion and World Politics (5) I&S *A. GILL* Explores the intersection of religion and politics in various regions of the world, including the United States, Europe, Middle East, Latin America, and other regions. Presents an historical perspective on religion alongside contemporary issues in religion, politics, and church-state relations. Offered: jointly with POL S 307.

RELIG 315 The Biblical Prophets (3) VLPA/I&S Explores the Biblical prophets (in translation) within their Near Eastern contexts. Historicity, literary and rhetorical sophistication, and ideological agendas. Seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible required. Offered: jointly with NEAR E 305.

RELIG 320 Comparative Study of Death (5) I&S Death analyzed from a cross-cultural perspective. Topics include funerary practices, concepts of the soul and afterlife, cultural variations in grief, cemeteries as folk art, and medical and ethical issues in comparative context. American death practices compared to those of other cultures. Offered: jointly with ANTH 322.

RELIG 321 Comparative Religion (3/5) I&S Anthropological approaches to religious experience and belief with emphasis on conceptual issues such as ritual, symbolism, identity, ecstatic experience, and revitalization movements in the context of globalization. Also addresses the diversity of religious expression in American culture and how that compares with other societies. Offered: jointly with ANTH 321.

RELIG 322 The Gospels and Jesus of Nazareth (5) I&S Modern scholarly approaches to gospels included within and outside the Christian Bible. Surveys issues and methods in modern 'historical Jesus' research.

RELIG 329 Religion, Identity, and Cultural Pluralism

(5) I&S, DIV The role of religion in shaping personal and communal identity in a pluralistic society. Themes include current dimensions of American pluralism, effects of ethnicity, immigration, and electronic communication on building religious communities, and issues of conflict, violence, and reconciliation. Offered: jointly with ANTH 330.

RELIG 334 Gender, Sex, and Religion (5) I&S, DIV M.

AHUVIA The Bible and its interpreters invented the gender categories and hierarchies that readers take for granted. Employs academic approaches that illuminate the construction of those categories and explores the debates within Judaism and Christianity as well as within academia today about gender, sex, sexuality, and religion. Offered: jointly with GWSS 334; Sp.

RELIG 352 Hinduism (5) I&S Novetzke, Pauwels

Varieties of Hindu religious practice; the diverse patterns of religious thought and action among contemporary Hindus. Includes ritual behavior, village Hinduism, tantrism, sadhus, yoga, sects, the major gods and their mythologies, religious art, and the adjustments of Hinduism to modernity.

RELIG 354 Buddhism (5) I&S Cox, Tokuno

Buddhism as a religious way and as a way of thinking; the forms of Buddhism known in South Asia (India, Sri Lanka) and those introduced from there to Tibet and other parts of Central Asia. Includes the "Three Jewels" (i.e., the Buddha or Awakened Person, the Teaching [Dharma], and Community [Sangha]) around which Buddhism is traditionally articulated.

RELIG 356 Buddhism and Society: The Theravada Buddhist Tradition in South and Southeast Asia (5)

I&S Religious tradition of Theravada Buddhism (as practiced in Sri Lanka, Burma, Thailand, Laos, and Cambodia). Variations in ethical orientations developed through Theravada Buddhist ideas. Offered: jointly with ANTH 352.

RELIG 380 Theories In the Study of Religion (5)

I&S C. NOVETZKE, J. WELLMAN Provides a variety of approaches to the study of religion centered on examining the relationship between religion and modernity in the tradition of post-enlightenment, Euro-American scholarship. Examines theories of religion across disciplines: history, anthropology, sociology, Marxism, feminism, postmodernism,

political theology, and Freudian psycho-analytical theory. Offered: jointly with CHID 380.

RELIG 399 Study Abroad - Comparative Religion (1-5, max. 15) I&S

For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

RELIG 408 Emerging Christian Religion (5) I&S

Focus on the formative period of what would become the 'Christian religion', 100-300 CE. Exploration of diversity in doctrines and practices including those viewed as 'orthodox' and those viewed as 'heretical'

RELIG 409 The Age of St. Augustine (5) I&S

Christian church in the fourth and fifth centuries as a major institution in the Roman Empire. Great figures of patristic theology, such as Athanasius, Gregory Nazianzus, Gregory of Nyssa, and Augustine.

RELIG 412 Creation Myths and Early Christianity (5)

I&S Study of alternative views, from early centuries of the Christian religion, regarding the origin of the cosmos and its implications for human behavior and ultimate values. Examination of documents often classified as 'gnostic' and their significance for the development of Christianity.

RELIG 413 Modern Christian Theology (5) I&S

Modern Protestant and Catholic thought since the nineteenth century: Kierkegaard, Barth, Bultmann, Rahner, Lonergan, and other major figures.

RELIG 430 Muslim Scripture, Historiography, and

Exegesis (3) VLP/I&S Examines the origins and development of early and classical Muslim thought. Provides an in-depth survey of the three key genres of early and classical Muslim writing: scripture (Quran), historiography (Maghazi, Sira, and Tabaqat), and exegesis (Tafsir and Ta'wil). Offered: jointly with NEAR E 430.

RELIG 440 Angels: From the Bible to American

Spirituality (5) I&S M. Ahuvia Surveys conceptions of angels in foundational texts from the Bible through the Quran and explores the significance of angels in contemporary American spirituality. Though often neglected in the study of religion, angels are integral to the faith and practice of Jews, Christians, and Muslims, transcending religious boundaries in their popularity.

RELIG 445 Greek and Roman Religion (5)

VLPA/I&S *Hollmann, Levaniouk* Religion in the social life of the Greeks and Romans, with emphasis placed on their public rituals and festivals. Attention is given to the priesthoods, personal piety, rituals of purification and healing, and the conflict of religions in the early Roman Empire. Many lectures illustrated by slides. Offered: jointly with CLAS 445.

RELIG 452 Art, Religion, and Politics in the Early Christian Period, 300-700 AD (3) VLPA/I&S *Kartsonis*

Evolution of the art of the early Christian period (300-700 AD) in the context of contemporary religious, political, and cultural developments. Offered: jointly with ART H 452.

RELIG 454 Seminar: Topics and Issues in Buddhism (5) *K. TOKUNO* Topics vary.**RELIG 455 Seminar on East Asian Religions (5) I&S** *K.*

Tokuno Examines dynamic new religious movements in PRC, Taiwan, Korea, and Japan that combine or adapt ancient Asian faiths (such as Buddhism, Confucianism, Daoism, and Shinto) .

RELIG 456 Perceptions of the Feminine Divine in Hinduism (5) VLPA, DIV *Pauwels*

Explores implications of the perception of a feminine divine for gender issues in South Asia. Includes historical overview of goddess worship in South Asia, mythologies, philosophical systems, cults, and rituals associated with the major goddesses, the phenomena of suttee, goddess possession, and women's goddess rituals at the village level.

RELIG 459 Topics in the Buddhism of Tibet (3) I&S

Topics in the development of Buddhism of Tibet. Includes the relationship between reasoning and religious thought; the concept of a person; the formation of the different schools of Tibetan Buddhism; the notion of lineage; the master-disciple relationship in the tantric tradition.

RELIG 472 Seminar: Topics in Early Christianity (5) I&S *Williams* Topics vary.**RELIG 490 Special Topics in Comparative Religion (1-5, max. 15) I&S** Topics vary with each offering.**RELIG 491 Seminar: Topics and Issues in Judaism (5) I&S** Topics vary.

RELIG 493 Honors Thesis (5) I&S Required course for Comparative Religion honors students.

RELIG 497 Field Archaeology (1-10, max. 20)

Professionally-guided archaeological fieldwork at a recognized archeological dig in the United States or abroad. Offered: S.

RELIG 501 Religion Theorized: Approaches to the Study of Religion (5)

Covers the major approaches to modern scholarship in the study of religion, which includes multiple approaches from history, phenomenology, anthropology, sociology, psychology, gender and sexuality studies, Marxism, and political theory. Class discusses which theories are most helpful in describing, understanding and explaining religion, enabling students to prepare their own research. Prerequisite: admission to the comparative religion MAIS program or permission of instructor. Offered: A.

RELIG 502 Religion in Comparative Perspective (5, max. 15)

Analysis of selected theme or symbols in relation to several different religious traditions. Topics vary. Prerequisite: admission to the comparative religion MAIS program or permission of instructor. Offered: W.

RELIG 504 Religion and Culture (5)

Study of the relations between religion and culture, with attention to the role of religion in defining conceptions of order and grounding socio-political and artistic traditions.

RELIG 520 Seminar On Early Christianity (5) *Williams*

Problems in the history and literature of early Christianity.

RELIG 528 Christian Theology (5)

Study of exemplary figures in the history of Christian religious thought.

Prerequisite: JSIS B 413.

RELIG 534 Gender, Sex, and Religion (5) *M. AHUVIA*

Delves more deeply into foundational texts of the Bible, Judaism, and Christianity, while paying closer attention to historiographic trends in the field of gender and feminist studies of religion. With JSIS C 334/GWSS 334. Offered: jointly with GWSS 534; Sp.

RELIG 554 Seminar: Topics and Issues in Buddhism (5, max. 10) *K. TOKUNO* Topics vary.

RELIG 555 Seminar on East Asian Religions (5) K.

Tokuno Examines dynamic new religious movements in PRC, Taiwan, Korea, and Japan that combine or adapt ancient Asian faiths (such as Buddhism, Confucianism, Daoism, and Shinto) .

RELIG 580 Seminar in Hinduism Studies (5) Pauwels

Introduction to the academic study of Hinduism for graduate students. Examines major problems currently addressed in the academic study of Hinduism and the methods used. Provides a historical perspective on past scholarship. Offered: jointly with ASIAN 580.

RELIG 590 Special Topics (2-5, max. 15) Offered occasionally by visitors or resident faculty. Course content varies.

RELIG 598 Colloquium in Comparative Religion (1, max. 6) Required colloquium for graduate students in comparative religion program. Introduction to faculty research and to major methods and disciplines in the study of religion. Credit/no-credit only.

CORE AND GATEWAY COURSES

JSIS 100 The Indigenous Pacific Northwest (5) I&S, DIV *Dian Million, Charlotte Cote* Introduction to the cultures and governing structures of indigenous peoples of American Indian and First Nations tribal communities in the North, coastal British Columbia, and Pacific Northwest region as self-determining political actors in a contemporary multicultural and global region. Offered: jointly with AIS 103; W.

JSIS 123 Introduction to Globalization (5) I&S, DIV Provides an introduction to the debates over globalization. Focuses on the growth and intensification of global ties. Addresses the resulting inequalities and tensions, as well as the new opportunities for cultural and political exchange. Topics include the impacts on government, finance, labor, culture, the environment, health, and activism. Offered: jointly with GEOG 123.

JSIS 187 Study Abroad: Global (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 188 Study Abroad: Canadian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 189 Study Abroad: African Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 190 Study Abroad: Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 191 Study Abroad: East Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 192 Study Abroad: South Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 193 Study Abroad: Southeast Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 194 Study Abroad: European Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 196 Study Abroad: Latin American and Caribbean Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 197 Study Abroad: Middle Eastern Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 200 States and Capitalism: The Origins of the Modern Global System (5) I&S *Kasaba, Migdal, Yang*

Origins of the modern world system in the sixteenth century and its history until World War I. Interacting forces of politics and economics around the globe, with particular attention to key periods of expansion and crisis. Offered: A.

JSIS 201 The Making of the 21st Century (5)

I&S *Bachman, Callahan, Migdal, Radnitz* Provides a historical understanding of the twentieth century and major global issues today. Focuses on interdisciplinary social science theories, methods, and information relating to global processes and on developing analytical and writing skills to engage complex questions of causation and effects of global events and forces. Offered: WSp.

JSIS 202 Cultural Interactions in an Interdependent World (5) I&S

Introduces a critical approach to governance, violence, and development. Students will learn key concepts of cultural theory to understand how the world is socially constructed. Learning how to use interpretive methods, students will acquire new understandings of the varied approaches through which social scientists confront global challenges. Offered: Sp.

JSIS 203 Rise of Asia (5) I&S *Anchordoguy, Bachman, Giebel, Sorensen* Key themes in the study of Asia, with focus on the present. Topics include: the notion of "Asia;" cultural and religious similarities and differences; comparison of colonial experiences under Western and Asian powers; World War II and liberation; postwar patterns of economic and political development; social patterns and issues. Offered: A.

JSIS 222 Global Markets, Local Economies (5) I&S J.

BEGUN Introduces basic economic concepts and tools to analyze the growing economic impact of economic globalization on local economies around the world, in areas such as local and foreign investment, supply chains, international trade, financial markets, and economic growth.

JSIS 278 Global Connections: From Global

Challenges to Creative Solutions (5) I&S Focuses on the identification and understanding of current global challenges from a variety of analytical perspectives. Students from the U.S and from abroad explore creative ways to address these challenges and to effect positive change based on international collaboration.

JSIS 300 Claims and Evidence in International Studies Research (5) I&S Covers the methodology of international and global studies social science research. Introduces different methods of research including quantitative, qualitative, historical, and ethnographic. Offered: AWSp.

JSIS 310 Data Ethnography and Qualitative Methods (5) I&S

Adapts ethnographic approaches to address problems of replicability, transparency, equity, bias, and ethics in work involving the generation, analysis, and use of big data. Students build skills to interrogate the social context of big data through qualitative methods and techniques, such as participant observation, focus groups, interviewing, case studies, discourse analysis, document analysis, process tracing, and fieldwork.

JSIS 384 Special Topics in East Asian Studies (5) I&S

JSIS 385 Junior Honors Seminar (5) I&S *Porter* Designed to facilitate writing of honors thesis through methodological and bibliographical research. Required of honors candidates.

JSIS 387 Study Abroad - International Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 388 Study Abroad: Canadian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 389 Study Abroad: African Studies (1-5, max. 15) I&S For participants in study abroad program. Specific content varies. Courses do not automatically apply to major/minor requirements.

JSIS 390 Study Abroad: Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 391 Study Abroad: East Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 392 Study Abroad: South Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 393 Study Abroad: Southeast Asian Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 394 Study Abroad: European Studies (1-5, max. 15) I&S For participants in Study Abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 396 Study Abroad: Latin American Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 397 Study Abroad: Middle Eastern Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JSIS 478 Special Topics in International and Global Studies (1-5, max. 15) I&S Content varies from quarter to quarter.

JSIS 480 Special Topics in Latin American Studies (1-5, max. 15) I&S Content varies.

JSIS 481 Special Topics in African Studies (1-5, max. 15) I&S

JSIS 482 Special Topics in Canadian Studies (1-5, max. 15) I&S Content varies.

JSIS 483 Special Topics in Asian Studies (1-5, max. 15) I&S Content varies.

JSIS 484 Special Topics in East Asian Studies (1-5, max. 15) I&S Course content varies.

JSIS 485 Special Topics in South Asian Studies (1-5, max. 15) I&S Topics vary.

JSIS 486 Special Topics in Southeast Asian Studies (1-5, max. 15) I&S Content varies.

JSIS 487 Special Topics in Middle Eastern Studies (1-5, max. 15) I&S Content varies.

JSIS 488 Special Topics in European Studies (1-5, max. 15) I&S

JSIS 489 Special Topics in Russia, Eastern Europe, and Central Asian Studies (1-5, max. 15) I&S Topics vary.

JSIS 491 Senior Honors Seminar (5-) I&S *Porter* Study of issues related to students' thesis topics. Develops thesis-writing skills. Open only to Jackson School honors students.

JSIS 492 Senior Honors Seminar (-5) I&S Students write a senior thesis working with their individual writing advisers.

JSIS 493 Senior Research (2) Independent research and writing under supervision of a faculty member. Open only to International Studies majors.

JSIS 494 Journal Workshop for Editors (1/2) Prepares students to be peer reviewers and editors for academic journals. Introduces the format and management processes of scholarly, peer-reviewed publications, as well as training in practical editing skills. Includes opportunities to work for the Jackson School Journal of International Studies. Credit/no-credit only. Offered: W.

JSIS 495 Task Force (5) I&S Small-group seminars address current problems in international affairs, each focusing on one specific policy question and producing a joint task force report. Restricted to senior majors in International Studies. Prerequisite: JSIS 200; JSIS 201; JSIS 202.

JSIS 497 Internship (1-5, max. 15) Credit for the completion of an approved internship in international studies. Credit/no-credit only.

JSIS 498 Readings in International Studies (5) I&S Reading and discussion of selected works of major importance in interdisciplinary international studies. Restricted to majors in International Studies.

JSIS 499 Undergraduate Research (1-5, max. 15)

JSIS 500 Origins of the Modern World (5) *Kasaba, Migdal* Explores the development of global interdependence from the fifteenth century to World War II; the interrelationship of politics and economics; and international political economy from contextual, institutional, and historical perspectives. Offered: A.

JSIS 501 Seminar: Comparative International Studies (5) Focuses on comparison across geographical areas including comparative political economy, comparative cultures, and comparative institutions. Provides familiarity with the comparative method of inquiry, an understanding of the interplay between area studies and cross-regional theories, and skills in conducting comparative research and writing. Prerequisite: ECON 200; ECON 201. Instructors: Bachman, Kasaba, Poznanski Offered: W.

JSIS 511 Research Design and Methods for International Studies (5) *Chiro, Curran* Review of the approaches to posing and answering research questions in the disciplines affiliated with international studies. Explores epistemological approaches and associated methodologies to prepare students to effectively read across the literature of international studies, develop their own research design based on a research question, and write a research proposal. Offered: Sp.

JSIS 512 Qualitative Data Analysis (5) Provides training in data analysis for students who have selected qualitative methodological approaches for their research. Students develop skills for systematic analyses, including memo writing, coding, logging evidence, sampling, case development, vignette composition, thematic analyses, and writing of methods sections and research results.

JSIS 513 Teaching International Studies (2, max. 4) *Migdal* For current and prospective teaching assistants. Includes teaching writing, leading effective discussions, the art of evaluation, and teaching critical reading skills; videotaping of actual teaching sessions of participants in class. Credit/no-credit only.

JSIS 530 Foundations of the World Order (5) Covers the economic, political, military, social, and cultural

forces that have shaped the foundations of the contemporary world order. Selective examination of major historical events and contemporary issues explains the role of both state and non-state actors in determining the trajectory of the international system.

JSIS 531 Asia in the Contemporary World (5) *T. Mallory* Examines regional dynamics within Asia as well as Asia's role in the global context. It looks at the evolution of longstanding issues on the Asian agenda, including the Taiwan question, the division of the Korean peninsula, the military role of Japan, the Kashmir dispute, and regionalism and regionalization.

JSIS 532 Global Challenges (5) Frames the world through a multi-disciplinary lens, exposing students to the growing community of stakeholders within the modern international affairs arena. Examines how government, business, philanthropy, and civil society engage, individually and collectively, in tackling critical global challenges.

JSIS 533 Frameworks for Health Development (5) Examines the history and economic and development determinants and impacts of global health problems. Health problems and unequal access to affordable health services contribute to global poverty and inequality. Explores the important relationships between global trade, access to essential medicines, nutrition, the environment, and health.

JSIS 534 Legal Foundations of World Order (5) Examines the legal foundations for the use of military force in a time of dynamic change in international relations, to include just-war theory and international humanitarian law. Topics include humanitarian intervention, the UN "responsibility to protect", terrorism, suicide bombers, "unprivileged belligerents", targeted killing, and robotic warfare.

JSIS 535 Technology, Society, and the Future (5) Provides understanding of how technology is changing society. Enables students to articulate the risks and opportunities associated with rapid technological change. Students formulate and evaluate the motivations, agendas, and stakeholders shaping technological change, including corporations, civil liberties groups, advocacy groups, NGOs, donors, and government leaders.

JSIS 536 Global Economic Trends (5) Examines the global economic system, including trade trends and movement of international financial markets, with emphasis on Asia and Europe through survey of transformative processes associated with the development of global capitalism; presents challenges to world order and economic development.

JSIS 537 Trends in International Migration (5) Explores the causes, mechanisms, and consequences of contemporary global population movements, with a focus on migration to the United States and Europe from the top sending world regions. Topics include the relationship of persecution, conflict, and poor economic prospects to migration; the extent to which state policies can control migration.

JSIS 538 Governance, Transparency, and Anti-Corruption (5) Examines the structural components of responsible governance in public and private arenas and the causes of implications of corruption on institutions and society. Covers legal frameworks governing corrupt practices, private sector ethics and anti-corruption measures, corruption in development aid, and international transparency initiatives. Offered: W.

JSIS 539 U.S. Foreign Policy and Diplomatic Engagement (5) Explores how the U.S. Executive Branch develops and implements foreign and security policy. Examines the actual conduct of foreign affairs, from defining national interest to day-to-day foreign engagement, based on case studies on how the U.S. advances its policy agenda using military, diplomatic and other means. Students refine analytical and presentation skills with short briefings on current topics and concise policy memos.

JSIS 540 Economics and Politics of International Development (5) *J. BEGUN* Examines the political economy of development in less-developed nations in particular, post-World War II development in Africa and East Asia. Covers basic economic theory and surveys the roles and tools of domestic and foreign governments, international organizations, aid agencies, and businesses in affecting development outcomes.

JSIS 541 Religion and Conflict in International Politics (5) *J. WELLMAN* Covers global issues of

religion, politics and international conflicts as they relate to question of fundamentalism, nationalism and terror. Investigates fundamentalism as a response to globalization and modernization. Reviews connections between religious violence and international relations, human security and global security.

JSIS 542 Dimensions of Security (5) Examines the evolution of global security agendas in response to security challenges that are increasingly non-military and longer term in nature. Through a Middle East lens, students examine traditional security issues, and the emergence of non-conventional challenges and threats, such as environmental degradation and resource scarcity.

JSIS 544 Applied Research Client Project - Part I (5) MAAIS capstone experience. Students work in teams to tackle an international affairs challenge presented by an external client. Students arrange a client briefing, define the scope of the challenge, analyze the underlying issues, and begin to flesh out actionable policy and programmatic recommendations. Credit/no-credit only.

JSIS 545 Applied Research Client Project - Part II (4) MAAIS capstone experience. Students work in teams to tackle an international affairs challenge presented by an external client. Students finalize their written client report and present their findings and recommendations in a formal client briefing.

JSIS 546 Modernity after Empire: View from the Global South (5) *S. Kale, J. Lucero* Interrogates the making of the modern world from the perspective of the global South. Thinking about global post-imperialism political and economic and economic projects in Africa, Latin America, Asia, and the Middle East, provides a critical introduction to debates over nation, development, and globalization.

JSIS 547 Changing Nature of States and Societies (5) Explores global stability and instability, focusing in on four principal domains of transformation in contemporary nation states: poverty, religion, migration, and energy.

JSIS 548 Geopolitical Issues and Challenges (5) Examines interconnected challenges affecting global geopolitics, using South Asia as a frame of reference

and drawing linkages to the boarder global context. Issues covered include international security decision-making, civil-military relations, state-federal relations, and regional-global dynamics.

JSIS 549 Crisis Negotiation (4) Guides students in applying their knowledge to realistic analyses of current problems in international studies through an intensive simulation experience that emphasizes leadership, negotiation, and real-time crisis management and decision-making.

JSIS 578 Special Topics (2-5, max. 15) Course content varies. Offered occasionally by visiting or resident faculty.

JSIS 582 Special Topics (2-5, max. 10) Course content varies. Offered occasionally by visitors or resident faculty.

JSIS 583 Special Topics (1-5, max. 15) Special topics in Asian Studies. Course content varies by instructor.

JSIS 584 Special Topics (2-5, max. 15) Course content varies. Offered occasionally by visiting or resident faculty.

JSIS 585 Special Topics (2-5, max. 15) Course content varies. Offered occasionally by visitors or resident faculty.

JSIS 586 Special Topics (1-5, max. 15) *Sears* Course content varies.

JSIS 587 Special Topics (3-5, max. 15) Course content varies.

JSIS 589 Special Topics (2-5, max. 15) Course content varies. Offered occasionally by visitors or resident faculty.

JSIS 591 Colloquium in International Studies (1-, max. 2) *Migdal, Kasaba* Required colloquium for first-year Master in International Studies (MAIS) students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no-credit only.

JSIS 592 Colloquium in International Studies (-1-, max. 2) *Migdal, Kasaba* Required colloquium for first-year Master in International Studies (MAIS)

students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no-credit only.

JSIS 593 Colloquium in International Studies (-1-, max. 2) *Migdal, Kasaba* Required colloquium for first-year Master in International Studies (MAIS) students. Informal introduction to the faculty and major avenues of research in international studies. Credit/no-credit only.

JSIS 594 International and Area Studies (2) *Hamilton, Kasaba, S. Pekkanen* Exposes students to the four-fold thematic intellectual rubric of the school, and to the wide range of teaching and research agendas represented in the Jackson School. Required common course for all first-year graduate and doctoral students. Credit/no-credit only. Offered: A.

JSIS 595 Research Tutorial ([1-15]-, max. 15) Introduces students to social science research methods that may be applicable to their research agenda. Focuses on reading, discussion, commentary, writing, and especially rewriting under close and targeted supervision by the professor. Offered: jointly with LAW B 554.

JSIS 596 Field Seminar in Religions, Cultures, and Civilizations (5) *Robinson, Wellman* Exposes students to the diversity of cultural and religious life through world area studies; histories; cultural and political movements; and religious institutions and practices. Topics include religions, cultures, power, colonialism, empire, communities, nations, states, identities, alterities, civilizations, social movements, resistance, development, and security.

JSIS 597 Field Seminar in States, Markets, and Societies (5) Exposes students to theoretical and empirical debates about engagement of states with their societies and with transnational actors in their historical, political, and social settings. Topics include state formation, social change, development, state-market relations, globalization, identities, ethnicities, gender, revolutions, democratization, corruption, clientalism, civil societies, NGOs, and social movements. Offered: jointly with SOC 597.

JSIS 598 Field Seminar in Peace, Violence, and Security (5) *Chirof, S. Pekkanen* Exposes students to theoretical and foreign policy debates about global

security challenges, conflicts, and violence, and issues of their prevention. Topics include balance of power, nationalism, ethnic conflict, genocide, offense-defense balance, weaponry, intelligence, invasions, interventions, peacekeeping, arms control, and national security.

JSIS 599 Field Seminar in Law, Rights, and Governance (3-5) *Saadia M. Pekkanen, Angelina Snodgrass Godoy, Kathie Friedman* Exposes students to theoretical and policy debates about the causes and consequences of legal evolution, rule of law, and a broad range of world governance concerns. Topics include human rights, markets, commerce, climate, environment, migration, institutions, justice, order, and rule of law. Offered: jointly with LAW B 568.

JSIS 600 Independent Study or Research (*-)

JSIS 602 International Studies Practicum (2-3, max. 6) Professional practicum for student in International Studies graduate programs. Credit/no-credit only.

JSIS 700 Master's Thesis (*)

JSIS 800 Doctoral Dissertation (*)

AREA STUDIES

JSIS A 110 Introduction to Russian Culture and Civilization (5) VLPA/I&S Introduction to Russian culture and history from pre-Christian times to the present, as seen through literary texts, music, film, visual art, and historical works. All lectures and written materials in English. No prior knowledge of Russian necessary. Offered: jointly with RUSS 110; A.

JSIS A 121 Introduction to Human Rights in Latin America (5) I&S, DIV *Godoy* Overview of human rights issues and how they have evolved in recent Latin American history, from the military dictatorships of the authoritarian period to contemporary challenges faced in the region's democracies.

JSIS A 130 Introduction to Slavic Culture and Civilization (5) VLPA Examines the culture of the Slavs, an ethno-linguistic group of peoples living primarily in Central/Eastern Europe. Among nations investigated: the Czech Republic, Russia, Poland, and Ukraine. Students gain a fundamental grasp of major

issues and historical events of this region, expressed through culture. Offered: jointly with SLAVIC 130.

JSIS A 154 Estonian Literary and Cultural History (5) VLPA *G. Smidchens* Surveys Estonian literary and cultural history from the prehistoric period to the present. Authors, musicians, artists, and filmmakers include Kaplinski, Koidula, Kreutzwald, Vilde, Part, Tormis, Meri, Parn, Pollu, and others. Offered: jointly with SCAND 154; AWSpS.

JSIS A 202 Introduction to South Asian History, 1500 - present (5) I&S The Islamic impact, British conquest, and contemporary India. Emphasis on the rise of nationalism, social organization, and contemporary life and history. Offered: jointly with HSTAS 202.

JSIS A 205 Filipino Histories (5) I&S, DIV *Vicente L. Rafael* Introduction to histories, cultures and politics of Filipinos and the Philippines. Examines pre-colonial societies, Spanish colonial rule, nationalism and Revolution, Filipino-American war, U.S colonial rule, Japanese occupation, postcolonial period to Martial Law, continuing rebellions, and the Filipino diaspora. Offered: jointly with HSTCMP 205.

JSIS A 206 Contemporary India and Pakistan (5) I&S *Dhavan, Kale* Interdisciplinary introduction to the field of South Asian Studies. Overview of the topographic, social, and linguistic geography and history of India, Pakistan, Bangladesh, Sri Lanka, and Nepal. Examines politics, economy, social structure, religion, cultural production and the arts, popular culture, and transnationalism.

JSIS A 207 Asian Civilizations: Traditions (5) VLPA/I&S *Porter* Interdisciplinary introduction to the civilizations of Asia, particularly those of India, China, Japan, and Korea. Explores the religion, philosophy, literature, art, and social and political thought of these civilizations from ancient times to the 17th century.

JSIS A 210 Introduction to Islamic Civilization (5) VLPA/I&S Covers major developments in the formative, classical, and modern periods of Islamic civilization from seventh century Arabia to the contemporary Muslim world. Looks at the development of Islamic religious thought and legal practice as well as the Muslim polities, cultures, and intellectual traditions of Asia, Africa, Europe, and

America. May not be taken for credit if credit earned in NEAR E 210. Offered: jointly with NEAR E 229.

JSIS A 211 Fashion Systems: Europe-Asia (5) VLPA/I&S *R. Silberstein* Introduces the historical development of fashion systems in early modern and modern Europe and Asia. Explores topics including: Fashioning the Body; Gender and Fashion; Fashion as Conspicuous Consumption; Fashion as Urban Spectacle; the Politics of Fashion. Offered: jointly with ART H 211.

JSIS A 212 History of Korean Civilization (5) I&S From earliest times to the present. Development of Korean society and culture in terms of government organization, social and economic change, literature, and art. Offered: jointly with HSTAS 212.

JSIS A 213 The Korean Peninsula and World Politics (5) I&S *Ha* Introduces Korean politics, economics, society, and international relations. Overviews the development in politics, economy, and society since the late nineteenth century. Addresses the evolution of Korea in the international society by comparing Korea experience with that of China and Japan. Offered: jointly with POL S 213.

JSIS A 215 Introduction to the Modern Middle East (5) I&S Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with NEAR E 232.

JSIS A 220 Introduction to East European Studies (5) I&S *Felak* Introduction to the history of post-1945 Eastern Europe focusing on political, economic, social, cultural, and diplomatic issues. Countries surveyed include Albania, Bulgaria, Czechoslovakia, Hungary, Poland, Romania, and Yugoslavia. Offered: jointly with HSTEU 220.

JSIS A 221 History of Southeast Asia (5) I&S, DIV Surveys Southeast Asian civilizations at the outset of Western colonial rule; the colonial impact on the traditional societies of Burma, Thailand, Cambodia, Laos, Vietnam, Malaysia, Indonesia, and the Philippines; nineteenth- and twentieth-century nationalist and revolutionary movements;

emergence of Southeast Asia as a region in the modern world. Offered: jointly with HSTAS 221.

JSIS A 224 Culture and Media Forms (5) VLPA/I&S Explores French, Francophone, and European culture in history through a focus on varied and evolving media forms: manuscripts, printed books, digital media, visual forms, etc. Taught in English. Offered: jointly with FRENCH 224.

JSIS A 235 History of Modern Taiwan (5) I&S Social, cultural, political, and economic history of modern Taiwan from approximately 1600 to the present. Places Taiwan within global historical changes and explores Taiwan-centric issues in depth. Covers migration, colonialism, race and identity, urban and rural development, the Cold War, capitalism and industrialization, science, religion, labor, and gender. Offered: jointly with HSTAS 235.

JSIS A 236 Development and Challenge in Greater China (5) I&S Studies the geography of development processes, patterns, and problems in "Greater China": mainland China, Taiwan, and Hong Kong. Covers physical geography, history, and economic and political systems, with major focus on geographical issues in China's development: agriculture, population, industry and trade, and relations with Hong Kong and Taiwan. Offered: jointly with GEOG 236.

JSIS A 239 Greece: From Ancient to Modern (5) VLPA/I&S *A. HOLLMANN, N. KLAPAKI* How are Ancient and Modern Greece connected to each other? Learn about great moments in Ancient Greek culture (tyranny and democracy, tragedy and comedy, athletics and art) and the complex ways Modern Greece has drawn on this heritage by exploring ancient and modern texts and images. Offered: jointly with CLAS 239.

JSIS A 240 Greece Today: The Mediterranean, Europe, and the World (5) I&S *N. KLAPAKI* Introduction to current political, social, economic and cultural issues in Greece, including Greece's relations with the European Union and its Mediterranean neighbors.

JSIS A 241 Japanese Civilization (5) I&S Japan's civilization, including its origins, government, literature, economic institutions, material culture, social organization, and religions, in relation to the

development of Japan as a society and nation. Cannot be taken for credit if SISEA 341 previously taken. Offered: jointly with HSTAS 241.

JSIS A 242 Introduction to Contemporary Japan (5) I&S *R. Pekkanen* Interdisciplinary social science introduction to various aspects of contemporary Japan, such as its politics, economics, and society. Designed to be taken either as a first course on Japan for majors or as a single-course introduction to Japan., suitable for non-majors. No prior background on Japan is necessary.

JSIS A 244 Imperialism and Anti-Colonialism in Asia (5) I&S, DIV Introduction to Western imperialism expansion, conquest, and colonial rule in Asia; the anti-colonial, nationalist resistances they engendered; and the resultant cultural, political, economic, and intellectual transformations in Asian societies. Covers post-1800 violence, racial hierarchies, human rights abuses, post-colonial memories, persistent strategies of domination, and structural inequities. Offered: jointly with HSTAS 244.

JSIS A 245 Human Rights in Asia (5) I&S, DIV *Callahan, Giebel* Introduction to recent and ongoing human rights issues in South, Southeast, and East Asia. Focuses on how human rights politics have played out in domestic political arenas. Provides exposure to views/insights into the historical context in which human rights claims, abuses, and debates arise. Offered: jointly with HSTAS 245.

JSIS A 251 Events That Shook Modern Europe: From the French Revolution to the EU (5) I&S *J. Felak* Examines major events that shaped Europe, from French Revolution in 1789 to the foundation of the European Union in 1993. Wars, revolutions, social transformations, toxic ideologies, and liberation movements as milestones in the course of developments in Europe over the past two centuries. Lectures and analysis of documents from these time periods. Offered: jointly with HSTEU 251; Sp.

JSIS A 252 The Bloodlands: East Central Europe under Hitler and Stalin (5) I&S *J. Felak* From 1933-1945, 14 million people were killed, in cold blood, by Nazi Germany and Soviet Union regimes between central Poland and western Russia, including those starved in the Soviet Ukraine famine, victims of

Stalin's Great Terror and Hitler's Holocaust, Soviet citizens starved by Nazis during World War II & Poles murdered under joint Nazi-Soviet occupation. Course investigates these fateful events through study of history, literature & film. Offered: jointly with HSTEU 252.

JSIS A 254 Modern China: Three Revolutions (5) I&S *Y. Dong* Surveys Chinese history from the late nineteenth century to the end of the twentieth century. Examines how "modern China" took shape by focusing on the transformations and changes in the political system, economic structure, social organization, and intellectual trends. In particular, examines the three revolutions of modern China -- the Republican, Nationalist, and Communist revolutions. Offered: jointly with HSTAS 254.

JSIS A 260 Fashion, Nation, and Culture (5) VLPA/I&S *Gaylard* Introduction to Italian culture focusing on fashion and manners from the late Middle Ages to today. Explores common assumptions about nation, gender, clothes, make-up, and manners, through literary and visual analysis. In English. Offered: jointly with ART H 260/ITAL 260; W.

JSIS A 261 Turkic Peoples of Central Asia (3) I&S History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with NEAR E 261.

JSIS A 265 The Viet Nam Wars (5) I&S *Giebel* Recent Vietnamese history and struggles for independence and national unification vis-a-vis French colonialism, Japanese occupation, American intervention, and internal divisions. Covers historical roots and contemporary contexts of revolution and war, objectives and motivations of participants, and the enormous human costs. Emphasizes socio-cultural changes and wars' legacies. Offered: jointly with HSTAS 265.

JSIS A 268 Introduction to the Silk Road (5) I&S Introduces students to the Silk Road as a site of cultural exchange between peoples, and of political, economic, and intellectual exchange between regions and continents. Themes include ecology,

empire, ethnicity, language, religion, and the arts. Considers the Silk Road as a forerunner and symbol of modern globalization. Offered: jointly with NEAR E 268.

JSIS A 270 Native Peoples of the Northwest Coast (5) I&S, DIV *Dian Million, Charlotte Cote* Examines indigenous societies on the Pacific Northwest's western slope, from southeast Alaska to California, including social structures and relations, subsistence strategies, belief systems, and changes over time, both before and after non-Natives' arrival. Offered: jointly with AIS 270.

JSIS A 280 Indigenous Encounters: Politics, Culture, and Representation in Latin America (5) I&S, DIV *Garcia* Explores the contemporary cultural and political transformations advanced by indigenous groups and their advocates in Latin America. Examines the concept of indigeneity, the cultural politics of indigenous mobilization, and the effects of international development policies on indigenous communities. Offered: jointly with CHID 280.

JSIS A 301 Europe Today (5) I&S *Ingebritsen, Lang* A multi-disciplinary approach to contemporary Europe focusing on social, political, cultural, and economic change, with special reference to developments in the countries of the European Union, Scandinavia, and those in Eastern Europe in the post-Soviet era. Offered: A.

JSIS A 302 The Politics and Cultures of Europe (5) I&S Builds upon themes and topics introduced in JSIS A 301. Provides rigorous and specialized investigation of European political institutions, societies, and cultures in the modern era.

JSIS A 303 Divided Lands/Divided Lives: An Environmental History of South Asia (5) Focuses on the mobilization of South Asian tribal, peasant, and ethnic communities around ecological issues to secure social equity in the colonial and post-colonial period. Examines how the complex interactions of states and peoples have changed the ways in which nature itself is conceptualized. Offered: jointly with HSTAS 303.

JSIS A 304 Contemporary European Migration (5) I&S Provides a theoretical and empirical understanding of contemporary migration processes and patterns in Europe. Introduces the different

migration regimes and integration practices of selected European states. Analyzes the impact of globalization, the ever-changing role of the European Union, and the importance of international, national, and urban policy on immigrant lives. Offered: jointly with GEOG 303; W.

JSIS A 305 Changing Generations in Japan and East Asia (5) I&S Investigates the relation between economic changes and social changes by focusing on the conditions confronting young people in East Asia. Focuses on the issue of generational change regionally and globally through an anthropological lens, using ethnographic methods centering on Japan and other East Asian countries.

JSIS A 314 History of Modern Israel/Palestine (5) I&S, DIV Cultural, social, and political histories of Palestine, the Land of Israel, and the State of Israel; Zionist and Palestinian nationalist movements, in their larger regional, transnational, and global contexts. Offered: jointly with HSTAFM 314.

JSIS A 315 Southeast Asian Civilization: Buddhist and Vietnamese (5) I&S, DIV Civilizations of Theravada Buddhist societies in Burma, Thailand, Cambodia, and Laos and in Vietnamese societies of Southeast Asia. Culture of tribal peoples who live on peripheries of these societies. Cultural transformations consequent upon the war in Indochina and resettlement of Indochinese refugees in United States. Offered: jointly with ANTH 315.

JSIS A 316 Modern South Asia (5) I&S Twentieth-century history and society of Indian subcontinent. Topics include nationalism, rural and urban life, popular culture, gender, and environmental politics. Offered: jointly with ANTH 316.

JSIS A 317 History by Bollywood: Colonial India through Film (5) I&S, DIV *Anand A Yang* Through popular cinema, specifically Hindi-language films produced by Bombay-based film industry for mass market, explores colonial history of South Asia beginning with British takeover of Indian subcontinent in late eighteenth century to emergence of independence and partition in 1947. Focuses specifically on Bollywood films that have shaped popular (mis) understandings of key episodes and developments in history of modern India. Offered: jointly with HSTAS 317.

JSIS A 320 Greek History: 7000 BC to Present (5) I&S

History of Greece from its Neolithic village origins to the present. Examines the different forms of one of the most resilient cultures in the human story. Offered: jointly with HSTCMP 320.

JSIS A 321 Government and Politics of Canada (5)

I&S Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with POL S 341.

JSIS A 322 International Political Economy of Latin America (5) I&S

V. MENALDO Exploration of politics underlying Latin America's economic development. Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. Offered: jointly with POL S 322.

JSIS A 323 United States-Latin American Relations (5) I&S

Surveys the political, economic, and social dimensions and consequences of United States relations with Latin America during the twentieth century. Topics include empire, immigration, cultural production, covert operations, revolution and counter-insurgency, student movements, human rights, and the war on drugs.

JSIS A 324 Human Rights in Latin America (5) I&S,

DIV A. *Godoy* Overview of human rights issues and their recent evolution in Latin American history; military dictatorships; contemporary challenges in the region's democracies. Human rights concerns in relation to broader sociopolitical context. Offered: jointly with LSJ 322.

JSIS A 325 Modern Mexico: Culture, Politics and Society (5) I&S

V. Freije Provides an historical survey of Mexican politics, culture, and society. Explores debates about the role of violence and foreign intervention in Mexico's political development. Topics include revolution, U.S.-Mexico relations, race and gender politics, student movements, cultural production, neoliberalism, and the war on drugs. Offered: jointly with HSTLAC 325.

JSIS A 327 China and the West in Historical Perspective, 1500-1976 (5) I&S

M. MOSCA Examines relations between China and the West in historical perspective. Covers the period from 1500 to 1976,

including political interactions as well as intellectual, religious, and cultural contact. Investigates how and why these relations changed over time, and how this historical legacy is relevant today. Offered: jointly with HSTAS 327.

JSIS A 328 Gender and Sexuality in China (5) I&S, DIV Explores gender and sexuality in China's process of modernization, from the late Qing dynasty through the building of the Republic, Communist revolution, and post-Mao economic reform.

Examines, through historical, anthropological, and cultural studies scholarship, the centrality of these social constructs in terms of family, state, labor, body, and ethnicity. Offered: jointly with ANTH 328/GWSS 328.

JSIS A 339 Social Movements in Contemporary India (5) I&S, DIV

P. RAMAMURTHY Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with ANTH 339/GWSS 339.

JSIS A 340 Politics of India, Pakistan, and South Asia (5) I&S

Course promotes a deeper understanding of politics in South Asia. Topics include political regimes, civil conflict, religion and politics, and economic development. Students also sharpen skills in reading social science articles, including picking out arguments, evidence, and logics of presentation. Offered: jointly with POL S 340.

JSIS A 341 Political Violence and the Post-Colonial State in South Asia (5) I&S, DIV

Examines theoretical approaches to the analysis of collective, state, and anti-state violence in post-colonial South Asia through the study of specific cases of political violence in modern India, Pakistan, Sri Lanka, and Nepal. Offered: jointly with ANTH 341.

JSIS A 342 Government and Politics of Latin America (5) I&S

Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change. Offered: jointly with POL S 342.

JSIS A 343 Politics and Change in Southeast Asia (5)

I&S Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with POL S 343.

JSIS A 344 The Baltic States and Scandinavia (5) I&S

Survey of the cultures and history of Estonia, Latvia, and Lithuania from the Viking Age to the present, with particular attention to Baltic-Scandinavian contacts. Offered: jointly with SCAND 344.

JSIS A 345 Baltic Cultures (5) VLPA/I&S

Cultures and peoples of Estonia, Latvia, and Lithuania. Baltic literature, music, art, and film in social and historical context. Traditional contacts with Scandinavia and Central and East Europe. Offered: jointly with SCAND 345.

JSIS A 346 Alternative Routes to Modernity (5) I&S

Routes to modernity followed by non-Western societies between 1600 and 1900. Historical experiences of non-Western societies seen in the context of European history and of development theory. Emphasizes primary sources and techniques for posing theoretical questions of historical data. Offered: jointly with HSTAS 348.

JSIS A 348 European Union as Global Actor (5) I&S

Surveys the European Union's evolution as a global actor and emergence as a potential superpower with increasingly unified foreign and defense policies. Covers institutions and interests that have driven this process; specific examples of European Union global engagement; and the potential implications for U.S. foreign policy. Offered: jointly with POL S 348.

JSIS A 349 Migration and Multiculturalism in the Mediterranean (5) I&S

Examines multiculturalism and migration in the Mediterranean. Focuses on immigrant communities of Greek diaspora in multicultural cities of Smyrna in nineteenth century Ottoman Empire, and of Alexandria in twentieth century Egypt. Considers how immigration to contemporary Greece transformed an ethnically homogeneous, mono-cultural Greek society into an increasingly multicultural one.

JSIS A 350 United States - Europe Relations (5)

I&S *D. Bessner* Examines history of the United States-Europe relationship from the eighteenth

century to the present, focusing on political, economic, and cultural connections, as well as the foreign policies that have undergirded this relationship from its inception. Offered: Sp.

JSIS A 351 Scandinavia, the European Union, and Global Climate Change (5) I&S

Reviews the history of climate change, the role of Swedish scientist Svante Arrhenius in defining greenhouse effects, Scandinavian policy response, and the role of the European Union in global climate change. Offered: jointly with SCAND 351; WSp.

JSIS A 355 Social Change in Latin America (5) I&S

Explores cultures, identities, political economy, and popular mobilization in Latin America. Examines relations of power and production between social classes and ethnic groups, as well as ideologies and intellectual movements. Offered: jointly with SOC 355.

JSIS A 356 Canadian Society (5) I&S

Origins to the present in its North American setting; political development, cultural evolution, and emergence of multinationalism; economic base; arts and literature; problems of the environment; Canadian foreign relations.

JSIS A 357 Peoples and Cultures of Central and Inner Asia (5) I&S

Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 357/NEAR E 357.

JSIS A 360 Contemporary Spain (5) VLPA/I&S

Social, political, and cultural developments in Spain since the end of the Franco dictatorship in 1975. Extensive use of Spanish Web sites. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, SPAN 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Raneda Offered: jointly with SPAN 360.

JSIS A 362 The Political Economy of Africa (5) I&S,

DIV Focuses on the political economy of governance, development, and conflict in sub-Saharan African countries since independence. Explores the political and economic choices made by Africa's colonial and

post-colonial regimes and connects them to current events in sub-Saharan Africa.

JSIS A 364 Modern Greece: 1821 to the Present (5)

I&S Politics and society of Greece from War of Independence to the present. Emergence and development of the Greek state; Greece in the world wars; civil war and post-war politics; military dictatorship; transition to democracy; recent developments. No prior study of Greece assumed. Offered: jointly with HSTEU 364.

JSIS A 365 Mapping Luso-Brazilian Cultures (5)

I&S/VLPA Explores cultures of Brazil, Portuguese-speaking Africa, Asia, and Europe within the framework of cultural studies theory. Follows an interdisciplinary approach, drawing from readings, audio files (radio), films and documentaries in history, literature, arts and performances, anthropology, among others. Focuses on selected cultural aspects and countries. Taught in ENGLISH. Offered: jointly with PORT 365; Sp.

JSIS A 367 Southeast Asian Activism and Social Engagement (5) I&S

Rafael Investigates how Southeast Asian activism is tied to the histories of political struggle within Southeast Asia and to questions of diasporic Asian American identity. Engages in group research projects exploring the meaning of social activism within local communities. Offered: jointly with HSTCMP 367.

JSIS A 370 Han Chinese Society and Culture (5) I&S

Themes in the society and culture of the Han Chinese people. Concepts of self; personal interaction; family, gender, and marriage; communities and the state; religion and ritual; class, social categories, and social mobility; culturalism, nationalism, and patriotism. Offered: jointly with ANTH 370.

JSIS A 375 History of Canada (5) I&S

General survey and analysis of political, economic, social, and cultural aspects of Canadian history from the foundation of New France to present; Canadian-American relations, the rise of Quebec nationalism, and the development of the Canadian West. Offered: jointly with HSTAA 377.

JSIS A 401 Asia and the World (5) I&S Overview of major issues and developments in the interactions of Northeast and Southeast Asia and the world. Topics

include economic development and integration, sources of instability, and historical patterns of relations. Particular focus on major current issues related to the region. Prerequisite: JSIS 201, JSIS 202. Instructors: Bachman

JSIS A 402 The Middle East in the Modern World (5)

I&S *Kasaba* Economic, political, and cultural ties between the Middle East and the modern world between the eighteenth century and the present. Particular attention to the transformation of societies, formation of modern states, the relationship between Islam and democracy, and gender and society in the Middle East.

JSIS A 403 Politics of Representation in Modern

China (5) I&S, DIV A. *ANAGNOST* Focuses on issues of representation and power in twentieth century China. Combines substantive information on modern Chinese society and culture with recent debates in social theory and the politics of representation. Major themes include Chinese nationalism, body politics, popular culture, and everyday practice. Offered: jointly with ANTH 444.

JSIS A 404 Religion in China (5) I&S

Tokuno Covers major doctrinal and practical themes and patterns and their historical developments in Confucianism, Daoism, Buddhism, and popular religion; their mutual interactions and influences as well as the relationship between the state and religion.

JSIS A 405 Social Transformation of Modern East

Asia (5) I&S *Sorensen* Comparative study of social change in China, Japan, Korea, and Vietnam since 1945. Concentration on small-scale social units in rural and urban areas under both communist and capitalist political systems. Offered: jointly with ANTH 449.

JSIS A 406 China's Environment (5) I&S

Analysis of contemporary environmental problems in China, including population, food, water supply, pollution, biodiversity, and environmental activism. Combines natural science and social science perspectives. Prerequisite: either ANTH 210, ENVIR 201, JSIS 200, JSIS 201, or JSIS 202. Offered: jointly with ANTH 406.

JSIS A 407 Global Futures in East Asia (5) I&S

Explores interlinked modernity projects in China, Japan, Korea, and Taiwan and how the education of youth figures in projects of national development

and international economic competition. Offered: jointly with ANTH 407; AWSpS.

JSIS A 408 Government and Politics of China (5) I&S. *WHITING* Post-1949 government and politics, with emphasis on problems of political change in modern China. Offered: jointly with POL S 442.

JSIS A 409 History of Twentieth-Century India (5) I&S. *Yang* Analysis of the problems in the fields of social life, international and domestic politics, education, economics, and other areas that confront India today. Offered: jointly with HSTAS 404; A.

JSIS A 412 South Asian Social Structure (5) I&S, DIV Examines caste, class, and community in modern India. Transitions from colonial typology to analysis of social change, diversity, stability, and caste hierarchy in rural society. Current debates on class and community in Indian society, rural and urban, explored through themes of identity, structure, and mobility. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 412.

JSIS A 413 African Studies Seminar (5, max. 15) I&S Interdisciplinary seminar focusing upon one particular aspect of the African continent. Emphasis may be humanistic, social scientific, or historical. African Studies faculty and visiting scholars lecture on areas of their own expertise.

JSIS A 415 National Security of Japan (5) I&S Changing landscape of Japan's national security concerns: actors, institutions, and circumstances that have brought issues of defense and rivalry to the center stage of Japanese politics. Topics include nationalism, militarization, pacifism, United States-Japan security alliance, Sino-Japanese competition, constitutional revision, collective defense, and spy satellites. Offered: jointly with POL S 423.

JSIS A 416 North Atlantic Treaty Organization (5) I&S Explores the history of NATO since 1949. Case studies include German unification; evolving security relationship between NATO, the USSR, and its successor states; process of NATO enlargement; emergence of human rights as a priority in NATO's security interactions with non-member states; and NATO's role in ethno-nationalist-religious conflicts in the Balkans.

JSIS A 417 Political Economy of India (5) I&S Analysis of relationships among processes of economic change, political institutions, and structures of political power in contemporary India. Includes contrasting approaches to Indian economic development, land reform, radical and agrarian political movements, and role of foreign aid. Offered: jointly with POL S 417.

JSIS A 418 Eastern Europe: the Political Economy of the Region (5) I&S *Poznanski* Focus on the classical command-type economy and the most recent economic and political transition in Eastern Europe. Analysis of current institutional reform, privatization, and trade relations.

JSIS A 419 Southeast Asian Knowledge and the Politics of Information (5) I&S *Henchy* Overview of information resources in and about Southeast Asia, including evaluation of those sources within various theoretical articulations (scholastic, cultural, and political) . Pedagogical implications of the life cycle of information; critique of these implications from various theoretical and cultural viewpoints.

JSIS A 420 Post-Soviet Security (5) I&S *Radnitz* Examines security issues in Eurasia, emphasizing human over international security. Focuses on problems stemming from the collapse of the Soviet Union, covering topics such as weak states, civil wars, nationalism, corruption, and authoritarianism. Includes Russia's relations with former Soviet republics and U.S.-Russian relations.

JSIS A 422 First Nations Filmmaking in Canada (5) VLPA *Cote* Examines First Nations video production in Canada; how film is utilized as a medium for addressing issues significant to First Nations. First Nations filmmakers "decolonize" the screen by providing real and positive images of First Nations people that correspond to their cultural and social experiences. Offered: jointly with AIS 465.

JSIS A 423 Origins of Modern Japan (5) I&S *Mark Metzler* Course surveys Japan's early modern age, from the end of the warring-states period in the late 1500s through the Meiji revolution and creation of a modern state in the late 1800s. Japan's history since the early 20th century is continued in a second class, JSIS A 424/HSTAS 424. Offered: jointly with HSTAS 423.

JSIS A 424 The Emergence of Postwar Japan (5)
I&S Pyle The making of modern Japan; World War II and surrender; American occupation; postoccupation rebuilding; emergence as an industrial power. Offered: jointly with HSTAS 424.

JSIS A 426 First Nations Government and Politics in Canada (5) **I&S, DIV Cote** Focuses on First Nations government and politics in Canada. Examines development of First Nations political governing structures with an introduction to the values, perspectives, concepts, and principles in Native political cultures. Explores federal Indian policy in context of First Nations strategies to become self-governing. Offered: jointly with AIS 461.

JSIS A 427 Anthropology of the Post-Soviet States (5) **I&S L. BILANIUK** Analysis of Soviet and post-Soviet culture and identity. Historical transformations in Soviet approaches to ethnicity and nationality; contemporary processes of nation building and interethnic conflict. Examination of culture through the intersection of social ritual, government policies, language, economic practices, and daily life. Regional focus varies. Offered: jointly with ANTH 425.

JSIS A 429 Eco-Capitalism (5) **I&S Ingebriksen** Explores the idea of environmentalism and sustainability across societies. Compares and contrasts how prominent authors in the field assess the risks and opportunities of human effects on climate and ecology. Questions explored include: will ecological solutions be critical to the revival of the global economy? Why do place such as Europe adapt more readily to environmental challenges? Offered: jointly with SCAND 479.

JSIS A 430 The Soviet Empire: Creation, Consolidation, and Collapse (5) **I&S Jones** Surveys history of Soviet military and Soviet empire from 1917 to 1985, breakup of the USSR during 1985 to 1991, and the emergence of new security issues among those Eurasian states that formally constituted the national components of the USSR and its communist military allies.

JSIS A 431 Demographic Issues in Asia (3-5)
I&S Hirschman, Lavelly Contemporary Asian countries face a number of issues with demographic components, including environmental and resource issues, ethnic rivalries, international migration, and

public health. Addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with SOC 434.

JSIS A 433 Paris: Architecture and Urbanism (3/5)
VLPA/I&S Spans the architectural history of Paris, from its Gallic, pre-Roman origins in the second century BCE through the work of twenty-first century architects. Focuses on changing patterns of the physical fabric of the city and its buildings, as seen within the context of the broader political, social, economic, and cultural history. Offered: jointly with ARCH 458/ART H 494.

JSIS A 434 International Relations of South Asia (5)
I&S Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with POL S 434.

JSIS A 435 Japanese Government and Politics (5)
I&S Government and politics of Japan with emphasis on the period since 1945. Offered: jointly with POL S 435.

JSIS A 436 Political Parties in Japan and East Asia (5)
I&S R. Pekkanen Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Offered: jointly with POL S 429.

JSIS A 437 International Relations of Japan (5) **I&S S. Pekkanen** Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Offered: jointly with POL S 424.

JSIS A 438 Social and Political Geographies of South Asia (5) **I&S** Introduces the social and political geographies of South Asia through reference to agrarian change in India. Outlines key concepts related to the reproduction of inequality in the region, particularly theories of caste, class, gender, and religious communalism, and examines the mechanisms through which these inequalities are reproduced in South Asia. Offered: jointly with GEOG 436.

JSIS A 439 Politics of Divided Korea (5) I&S

Governments, politics, and economy of South and North Korea, the inter-Korea relations, and the two Koreas' relationship with the major powers - especially the United States - with emphasis on the post-cold war period. Offered: jointly with POL S 439.

JSIS A 440 Japanese History in Ecological

Perspective (5) I&S *M. Metzler* Survey of Japanese history in ecological perspective, from early times to the present. Topics include ancient Japanese lifeways; climate and history; agriculture, population, and resources; Buddhist and animist views of outer and inner nature; urbanization from ancient capitals to megacity Tokyo; industrialization and energy; and future visions. Readings include influential scholarly works and Japanese sources in English translation. Offered: jointly with HSTAS 440; W.

JSIS A 441 Quebecois Literature (5) VLPA Readings of novels, plays, and occasionally, poetry. Special attention paid to how Quebecois authors represent in their works the complex socio-political reality of their culture. Conducted in French. French majors required to read and write in French; all others may read and write in English. Prerequisite: either FRENCH 304, FRENCH 305, or FRENCH 306. Offered: jointly with FRENCH 441.

JSIS A 442 War and Occupation in Northern Europe: History, Fiction, and Memoir (5) VLPA/I&S, DIV The study of literary representations (fiction, memoirs, and personal narratives) dealing with World War II and the occupation of the Nordic and Baltic countries. Offered: jointly with SCAND 445.

JSIS A 443 Medieval Russia: 850-1700 (5) I&S

Development of Russia from earliest times to the reign of Peter the Great. Offered: jointly with HSTAM 443.

JSIS A 444 Imperial Russia: 1700-1900 (5) I&S

Development of Russia from Peter the Great to Nicholas II. Offered: jointly with HSTEU 444.

JSIS A 445 The Rise and Fall of the Soviet Union (5)

I&S Russia and the USSR from Nicholas II to the present. Offered: jointly with HSTEU 445.

JSIS A 446 Modern Korean History (5) I&S *Hajin Jun*

Traces complex social, cultural, and political developments that transformed Korea during the late nineteenth and twentieth centuries. Topics include late Choson reforms, changing gender norms, national identity, colonial state and society, territorial division, and democratization. Attention to diversity of Korean experiences, as well as the interplay of local dynamics and global forces in the peninsula. Offered: jointly with HSTAS 482.

JSIS A 447 Literature and Society in Southeast Asia (5, max. 10) VLPA/I&S

Focus on either Vietnam or Thailand. Provides students with opportunity to explore how those living in Southeast Asia have reflected on the radical social changes their societies have undergone through novels, short stories, and poetry. Prerequisite: either one 200-level ANTH course or LING 203. Offered: jointly with ANTH 445.

JSIS A 448 Modern Korean Society (5) I&S *Sorensen*

Social organization and values of twentieth-century Korea. Changes in family and kinship, gender relations, rural society, urban life, education, and industrial organization since 1900. Differences between North and South Korea since 1945. Offered: jointly with ANTH 448.

JSIS A 449 Anthropology of Modern Japan (5) I&S

Examines the problem of modernity in Japan since the late nineteenth century, with emphasis on contemporary Japan. Critically addresses previous anthropological work concerning patterns of Japanese "culture." Particular focus on the influence of modern forms of power, media, and exchange in the construction of present-day Japan. Offered: jointly with ANTH 443.

JSIS A 451 Youth in Modern China (5) I&S *Madeleine*

Y. Dong Emergence of youth in Modern China as a social category; a distinctive stage of life; from most dominated group in society to driving force of history. Explores how young people experienced history of modern China as individuals, members of family, and society. Youth as shaped in post-socialist consumer culture, new nationalism, cosmopolitanism. Offered: jointly with HSTAS 458.

JSIS A 452 Global Asia (5) I&S, DIV

Explores how Asia has been constructed through transnational interactions such as imperialism, anti-colonialism, tourism, diaspora, and global capitalism. Topics

include the cultural construction of similarity and difference, politics of representation, and political economy of global circulations of people and things. Prerequisite: one 200-level ANTH course. Offered: jointly with ANTH 442/GWSS 446; W.

JSIS A 454 History of Modern China (5) I&S Offered: jointly with HSTAS 454.

JSIS A 455 Baltic Politics and Society Today (5) I&S *G. Smidchens* Intensive interdisciplinary survey of current social, political, and economic developments in Estonia, Latvia, and Lithuania. Offered: jointly with SCAND 455; AWSp.

JSIS A 456 Topics in Chinese Social History (5) I&S Surveys major issues and approaches to the study of the role of the Chinese people in China's historical development. Historical focus of course varies with instructor. Offered: jointly with HSTAS 456.

JSIS A 457 Current Issues in the Arab Media (5, max. 15) VLPA/I&S *Hamd* Critical discussions on the dominant issues confronting the Arab world today. Examines Arab societies as they face the challenges of contemporary globalism. Emphasizes language proficiency and cultural competence. Taught in Arabic. Offered: AWSp.

JSIS A 458 Israel: Politics and Society (5) I&S, DIV Examines how parts of the mosaic of Israel's ethnic groups and religions have interacted over time to create today's society. Focus on politics, especially interaction of the state with the mosaic society. The religious divide; the Jewish ethnic divide; Palestinians in Israel; war and its effect on Israel; the long road to peace.

JSIS A 459 United States-China Relations (5) I&S *Bachman* Surveys the history of United States-China relations and examines the evolution of bilateral relations, particularly since 1949. Focus on the period since 1972 and the major issues as they have evolved since that time, including trade, human rights, security, and Taiwan. Offered: jointly with POL S 419.

JSIS A 460 Cities in China: Past and Present (5) I&S *Dong* Economic, political, social, and cultural functions of the city in modern Chinese history. Changes in China's urban system. The city as cultural center and focus of literary and cinematic

representation. Attention to architecture, commerce, urbanization, the role of capital cities in the power of the state. Offered: jointly with HSTAS 460.

JSIS A 461 Ramayana in Comparative Perspective (5) VLPA, DIV *Pauwels* Examines and compares different versions (mainly South Asian) of the Ramayana, including the widely popular television version. Focuses on some famous and controversial passages, with special attention to gender issues. Incorporates background readings from the most recent research. Offered: jointly with ASIAN 494.

JSIS A 462 Islam, Mysticism, Politics and Performance in Indonesian Culture (5) VLPA/I&S Examines how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influences from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with HSTAS 466.

JSIS A 463 Topics in Southeast Asian History and Society (5) I&S Introduces major issues within the history and culture of one country of Southeast Asia. Content varies. Topics may include religion, economics, colonialism, perspectives on gender, labor history, literatures, popular culture, and performing arts. Focuses on a different Southeast Asian country each time offered.

JSIS A 464 Contemporary Society in the People's Republic of China (5) I&S *Lavelly* Separate development of rural and urban social institutions in the People's Republic of China since 1949 from a sociological perspective. Family and marriage, social control, educational institutions. Dilemmas of contemporary China and reasons for institutional change. Offered: jointly with SOC 464.

JSIS A 465 International Humanitarian Law (5) I&S *Lorenz* Investigates International Humanitarian Law (sometimes called the Law of Armed Conflict), the field concerned with rules developed by civilized nations to protect the victims of armed conflict, including the Geneva Conventions. Case studies include the conflict between Israel and the Palestinians, as well as developments in Afghanistan and Iraq.

JSIS A 466 Comparative Politics and Korea Studies (5) I&S *Ha* Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with POL S 480.

JSIS A 467 China's Rise and Its Global Implications (5) I&S Examines the consequences of China's dramatic rise - three decades of very high rates of economic growth - on China and on the World. Fundamental concerns are how China's rise is changing the institutions and practices of the world order, and whether China is increasingly socialized into global norms. Prerequisite: JSIS 202. Instructors: Bachman

JSIS A 468 Russia and the International System (5) I&S *C. JONES* Introduces the history of the Russian Federation's policy toward Europe, East Asia, South Asia, the Middle East, and the United States. Covers nuclear weapons, energy issues, and regional integration. Offered: Sp.

JSIS A 469 North Korean Society (5) I&S *C. SORENSEN* Description of the institutions and culture of North Korea with attention to the daily life of ordinary people. Uses North Korean media materials in addition to primary and secondary sources. Offered: W.

JSIS A 470 Minority Peoples of China (5) I&S Interaction between China and the peoples of its periphery, including inner Asia, Tibet, northern mainland Southeast Asia, and aboriginal peoples of Taiwan. Emphasis on ethnicity, ethnic group consciousness, and role of the Chinese state. Prerequisite: one 200-level ANTH course; LING 203; either ANTH 370/JSIS A 370 or HSTAS 454. Offered: jointly with ANTH 470.

JSIS A 471 New Orders in East Asia (5) I&S *Pyle* Rise and fall of successive international systems in East Asia over the past 150 years: Sino-centric, imperialist, Washington Treaty system, Japan's East Asian order, Yalta system, cold-war system. Post-cold-war search for a new order. Special attention to triangular relations among the United States, China, and Japan.

JSIS A 472 Science, Technology, and Innovation in East Asia: Japan, South Korea, Taiwan, and China (5) I&S *Marie C Anchordoguy* Role of state and technological change in economic development. Analyzes state and corporate policies historically. Technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores conditions for its successful continuation. Offered: jointly with I BUS 461.

JSIS A 473 Political Economy of Postwar Japan (5) I&S *Anchordoguy* Political and economic problems of Japan since 1945. Utility of competing theoretical approaches to analysis of government and economy of Japan. Policy-making processes and effects of policies adopted. Some knowledge of postwar Japan desirable.

JSIS A 474 Civil Society in Japan and East Asia (5) I&S *R. Pekkanen* Examines a wide range of nongovernmental organizations (NGOs) nonprofits, and voluntary groups under the unifying rubric of civil society. Theoretical introduction to civil society and ideas of social capital. Investigates general aspects of civil society, focusing on its specific characteristics in Japan and other parts of Asia.

JSIS A 475 Japanese Society (5) I&S Discusses rapidly changing Japanese society and history of its unique aspects. Readings and lectures in sociology, anthropology, economics, and politics; emphasis on Japanese search for cultural identity and prevalent interpretations of Japanese society and behavior.

JSIS A 476 Energy Security in East Asia (5) Explores the current state of energy security in East Asia, defined in terms of demand, supply, resources, and geopolitics, and how it impacts global energy-related issues, including climate change.

JSIS A 477 Readings on Political Economy of Japan and Northeast Asia (5) *Anchordoguy* Analyzes major Political Economy issues in Japan, Korea, and China, such as the state's role in industrial development, trade and investment in Asia, trade and security relations with the United States, and Asian models of capitalism.

JSIS A 478 Japanese Business and Technology (5) I&S *Anchordoguy* Examination of Japan's postwar enterprise system in its historical context. Topics

include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with I BUS 462.

JSIS A 479 Contemporary Central Asian Politics (5) I&S Radnitz Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with POL S 479.

JSIS A 480 Kierkegaard and Decadence in European Literature (5) VLPA Reading and discussion of core texts by Soren Kierkegaard, as well as a consideration of the relationship between Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: jointly with SCAND 480.

JSIS A 481 August Strindberg and European Cultural History (5) VLPA/I&S Examines the work of Swedish dramatist, novelist, and painter August Strindberg, in the context of European literary movements and history of ideas from 1880 to 1912, and Strindberg's influence on twentieth-century drama and film. Offered: jointly with SCAND 481.

JSIS A 482 Knut Hamsun and Early European Modernism (5) VLPA Reading and discussion of significant novels by Knut Hamsun, whose oeuvre is considered in the context of works by other European modernist writers. Offered: jointly with SCAND 482.

JSIS A 483 Technology and Culture in the Making of Contemporary Empires (5) I&S Benitez, Rodriguez-Sliva Explores struggles shaping organization of US empire in the early twentieth century, focusing on sites where empire's material, cultural, and ideological boundaries were drawn and contested. Includes race, gender and class as colonial formation; technologies of imperial governance such as public health, citizenship, and territory. Offered: jointly with HSTCMP 483.

JSIS A 484 Korea in the Japanese Empire (5) I&S, DIV Korean colonial history in the context of Japanese imperial expansion from the 1870s to 1945. Analyzes

the Korean quest for modernization and nation-building, colonial industrialization and colonial modernity, assimilation and resistance, wartime mobilization and collaboration, Manchurian experiences, social movements, and cultural developments. Offered: jointly with HSTAS 484.

JSIS A 485 Culture, Politics, and Violence in Latin America (5) I&S, DIV Garcia Examines notions of "otherness" and the power to label as central to understanding inequality, human rights, and social struggle. Uses academic texts, films, documentaries, historical fiction, plays, and testimonials to interrogate the complexities of violence and social justice in Latin America, one of the most unequal regions in the world. Offered: jointly with CHID 487.

JSIS A 486 Photography and Cultural Studies in Latin America (5) VLPA/I&S Interdisciplinary exploration of the connections between visual anthropology (ethnography through photography and film), documentary and art photography, and colonial and post-colonial discourse in Latin America during the twentieth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 322. Instructors: Steele Offered: jointly with SPAN 486.

JSIS A 487 Japanese Trade Politics (5) I&S R. Pekkanen Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Offered: jointly with POL S 418.

JSIS A 489 The Mexico-U.S. Border in Literature and Film (5) VLPA/I&S, DIV Analysis of the Mexico-U.S. Border region in literature and film of the 1990s and early 2000s. Includes migration, tourism, NGOs, globalization, transnational commerce, multiculturalism, and politics of gender, sexuality, and race. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321. Instructors: Steele Offered: jointly with SPAN 489.

JSIS A 490 Politics and Society in Eastern Europe (5) I&S Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all

communist states of Eastern Europe and their successors. Offered: jointly with POL S 445.

JSIS A 491 Methodologies in Near Eastern Studies

(5) Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, imperial and nationalist social systems, and ideological frameworks, such as Orientalism. Offered: jointly with NEAR E 486.

JSIS A 492 Latin American Studies Seminar (5, max. 15) I&S

JSIS A 493 Water and Security in the Middle East (5) I&S As the available fresh water in the world decreases in quality and quantity, protection of this critical resource becomes a matter of international security. By studying three major river basins in the Middle East, students explore the historic, geographic, political, environmental and legal factors that lead to conflict or cooperation in the region. Offered: A.

JSIS A 494 Senior Seminar (5) I&S Introduction to research into European topics and to the analysis of problems.

JSIS A 495 European Studies Senior Thesis (5) I&S Independent study under faculty supervision to complete senior Thesis in the European Studies major

JSIS A 496 Development and Democracy in South Korea (5) I&S *H. NAM* Examines the nation-building history of South Korea in the larger geopolitical context of the era, focusing in particular on the period under Park Chung Hee's rule (1961-1979) and the relationship between development and democracy.

JSIS A 498 Seminar: Canadian Problems (5) I&S Major issues pertaining to Canadian society, government, and economic development.

JSIS A 504 Survey of Eurasia (5) Provides a basic intellectual foundation for interdisciplinary graduate-level study of Russia, East Europe, and Central Asia, taught by rotating faculty from the

major scholarly disciplines. Students read important texts and are introduced to major debates on the history, politics, and culture of the region.

JSIS A 506 Study of Southeast Asia (5) Lowe Focuses on questioning what it means to create knowledge about the region.

JSIS A 508 Interdisciplinary Study of South Asia I (5) Examines key themes and debates about the development of South Asian cultural and political formations. Examines how different scholarly disciplines, particularly those in the humanities, have approved and analyzed the past in South Asia.

JSIS A 509 Interdisciplinary Study of South Asia II (5) Kale Examination of key themes and debates about the development of South Asian cultural and political formations. Examines how different scholarly disciplines, particularly those in the social sciences, analyze political transitions, social change, and cultural transformations in South Asia through the twentieth century. Offered: W.

JSIS A 510 South Asian Studies Research Design Seminar (5) Interdisciplinary seminar for graduate students in which research and writing on individual research topics are critically developed. Designed to provide each student with an opportunity to synthesize his or her studies on South Asia. Prerequisite: JSIS A 508; JSIS A 509 or permission of graduate program coordinator. Instructors: Robinson

JSIS A 512 Russian, East European and Central Asian Studies Certificate Capstone (1) Includes the preparation and presentation of the student portfolio required for the Russian, Eastern European, and Central Asian Studies certificate. Credit/no-credit only. Offered: AWSp.

JSIS A 513 Capstone Portfolio (1) Includes the preparation and presentation of the student portfolio required for the South Asia Certificate.

JSIS A 514 Thesis Seminar I (2) Mikkelsen Review of research techniques: preparation for drafting master's thesis. Required of all first-year MAIS students. Offered: Sp.

JSIS A 515 Thesis Seminar II (2) Mikkelsen Seminar to complete draft of master's thesis. Some use of

relevant language required. Required of all second-year MAIS students. Offered: W.

JSIS A 516 North Atlantic Treaty Organization (5)

Explores the history of NATO since 1949. Case studies include German unification; evolving security relationship between NATO, the USSR, and its successor states; process of NATO enlargement; emergence of human rights as a priority in NATO's security interactions with non-member states; and NATO's role in ethno-nationalist-religious conflicts in the Balkans.

JSIS A 519 Southeast Asian Knowledge and the Politics of Information (5) VLPA/I&S Henchy

Reviews information resources in and about Southeast Asia, including evaluating those sources within various theoretical articulations (scholastic, cultural, and political). Covers the pedagogical implications of the life cycle of information; and critique of these implications from various theoretical and cultural viewpoints.

JSIS A 520 Post-Soviet Security (5) Radnitz

Examines security issues in Eurasia, emphasizing human over international security. Focuses on problems stemming from the collapse of the Soviet Union, covering topics such as weak states, civil wars, nationalism, corruption, and authoritarianism. Includes Russia's relations with former Soviet republics and U.S.-Russian relations.

JSIS A 521 Seminar: Introduction to the Interdisciplinary Study of China (5-) Bachman, Dong, Guy

JSIS A 522 Seminar: Introduction to the Interdisciplinary Study of China (-5) Bachman, Dong, Guy

JSIS A 525 Japanese Government and Politics (5)

Government and politics of Japan with emphasis on the period since 1945.

JSIS A 526 The Security of China (5) Bachman

Examines how the Chinese state conceptualizes its national security interests and how it pursues strategies designed to achieve those interests. Topics include use of force, military modernization, civil-military relations, and defense industrialization. Offered: jointly with POL S 526.

JSIS A 528 Gender and Sexuality in China (5)

Explores gender and sexuality in China's process of modernization, from the late Qing dynasty through the building of the Republic, Communist revolution, and post-Mao economic reform. Examines, through historical, anthropological, and cultural studies scholarship, the centrality of these social constructs in terms of family, state, labor, body, and ethnicity. Offered: jointly with ANTH 528/GWSS 528.

JSIS A 529 Eco-Capitalism (5) Ingebritsen

Explores the idea of environmentalism and sustainability across societies. Compares and contrasts how prominent authors in the field assess the risks and opportunities of human effects on climate and ecology. Questions explored include: will ecological solutions be critical to the revival of the global economy? Why do places such as Europe adapt more readily to environmental challenges? Offered: jointly with SCAND 579.

JSIS A 531 Social Movements in Contemporary India (5) P. RAMAMURTHY

Covers issues of social change, economic development, and identity politics in contemporary India studied through environmental and women's movements. Includes critiques of development and conflicts over forests, dams, women's rights, religious community, ethnicity, and citizenship. Offered: jointly with ANTH 539/GWSS 539.

JSIS A 532 The Chinese Political System (5) S.

WHITING Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Offered: jointly with POL S 532.

JSIS A 534 Indonesian Histories, Oral Traditions, and Archives (5)

Explores the inscription of Indonesian histories and stories. Focuses on oral traditions, oral testimonies, and archives. Investigates how oral and written testimonies enter historical archives. Explores theoretical work on literary and performance traditions as they relate to nationalism and Islam in Indonesia. Offered: jointly with HSTAS 534.

JSIS A 535 International Relations of Modern China (5)

Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a

course on contemporary Chinese politics or history, or permission of instructor. Offered: jointly with POL S 535.

JSIS A 536 Political Parties in Japan and East Asia (5)

R. Pekkanen Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties.

JSIS A 537 International Relations in Japan (5)

S. Pekkanen Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Not open to students who have taken JSIS A 437.

JSIS A 539 Japanese History in Ecological

Perspective (5) *M. Metzler* Survey of Japanese history in ecological perspective, from early times to the present. Topics include ancient Japanese lifeways; climate and history; agriculture, population, and resources; Buddhist and animist views of outer and inner nature; urbanization from ancient capitals to megacity Tokyo; industrialization and energy; and future visions. Readings include influential scholarly works and Japanese sources in English translation. Offered: jointly with HSTAS 540; W.

JSIS A 540 Japanese Law (3-4) Basic institutions and processes of the Japanese legal system. Historical development and traditional role of law, reception of Western law, and cultural and structural factors that influence the function of law and legal institutions. Offered: jointly with LAW B 540.

JSIS A 541 Chinese Law (4) Introduction to the institutions and processes of the Chinese legal system. Focuses on the contemporary system and its role in relation to political, economic, and social developments. Examines legal aspects governing foreign trade and investment in China. Offered: jointly with LAW B 541.

JSIS A 543 Japan, the United States, and New Orders in Asia (5) Seeks historical understanding of establishment of new order in contemporary East Asia. Analyzes the imperialist, Washington

conference, and cold war systems and explores the present post-cold war search for a new order. Prerequisite: one course in modern Japanese history, political economy, or political science. Instructors: Pyle

JSIS A 544 Reading Seminar on Middle East Studies

(2) Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no-credit only.

JSIS A 545 Reading Seminar on Middle East Studies

(2) Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no-credit only.

JSIS A 546 Reading Seminar on Middle East Studies

(2) Middle Eastern historiography, Islamic law, Islamic theology, relations between the Middle East and the world economy, political structures, social movements in the Middle East. Credit/no-credit only.

JSIS A 548 National Security of Japan (5)

S. Pekkanen Focuses on the changing landscape of Japan's national security concerns—the actors, institutions, and circumstances that have brought issues of defense and rivalry to the center stage of Japanese politics. Topics include nationalism, militarization, pacifism, United States-Japan security alliance, Sino-Japanese competition, constitutional revision, collective defense, and spy satellites.

JSIS A 551 International Relations of Northeast Asia

(5) Comprehensive survey of contemporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. Multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. Connections between defense and economics are examined. Prerequisite: permission of instructor. Instructors: Hellmann Offered: jointly with POL S 539.

JSIS A 552 Industrialization and International Relations (5) *Ha* Examines internal-external linkage with a focus on industrialization and international

relations. Comparative perspective on the question of how industrialization shapes distinctive international perspectives in terms of perception, strategies, and foreign policy behaviors. Countries covered: South Korea, Japan, Prussia, the Soviet Union, and China. Offered: jointly with POL S 560.

JSIS A 553 Asian Financial Systems (5) *Hamilton* Examines the transformation of Asian economies that has occurred in the past half century, with particular emphasis on the three-way relationship between key business groups, banks, and financial markets. Emphasizes differences as well as similarities among a group of Asian economies, including China, Japan, South Korea, and Taiwan.

JSIS A 555 Introduction to Japanese Studies (3-6, max. 6) *Anchordoguy* Interdisciplinary introduction to the study of Japan, with emphasis on historical development. Required seminar for first-year graduate students.

JSIS A 560 Seminar in Turkish Studies (2, max. 12) Recent research and writings focused on the Ottoman Empire and modern Turkey. Credit /no credit only. Credit/no-credit only.

JSIS A 563 Approaches to East European Politics (3-5) Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with POL S 537.

JSIS A 566 Comparative Politics and Korea Studies (5) *Ha* Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with POL S 580.

JSIS A 568 Russia and the International System (5) *C. JONES* Introduces the history of the Russian Federation's policy toward Europe, East Asia, South Asia, the Middle East, and the United States. Covers nuclear weapons, energy issues, and regional integration. Offered: Sp.

JSIS A 569 North Korean Society (5) *C. SORENSEN* Description of the institutions and culture of North

Korea with attention to the daily life of ordinary people. Uses North Korean media materials in addition to primary and secondary sources. Offered: W.

JSIS A 570 Readings in Israel/Palestine Studies (5) Survey of significant scholarly texts on Israel and Palestine during the 19th-21st centuries. Topics may include: Jewish and Middle East context; medical and environmental history; economic history; intellectual history of Zionism and Palestinian nationalism; cultural history. Offered: jointly with HSTAFM 570.

JSIS A 573 Political Economy of Post War Japan (5) *Anchordoguy* Political and economic problems of Japan since 1945. Utility of competing theoretical approaches to analysis of government and economy of Japan. Policy-making processes and effects of policies adopted.

JSIS A 574 Civil Society in Japan and East Asia (5) *R. Pekkanen* Examines a wide range of nongovernmental organizations (NGOs), nonprofits, and voluntary groups under the unifying rubric of civil society. Theoretical introduction to civil society and ideas of social capital. Investigates general aspects of civil society, focusing on its specific characteristics in Japan and other parts of Asia. Not open to students who have taken JSIS A 474.

JSIS A 575 Seminar on Japanese Society (5) Interdisciplinary seminar with class-led discussions on readings from anthropology, history, sociology, and nondiscipline-specific articles on Japanese society. Prerequisite: background on Japan. Not open to students who have taken JSIS A 475.

JSIS A 576 Modern Chinese History (5) Introduction to the major English-language literature on modern Chinese history and to the major historiographical issues of the period. Prerequisite: HSTAS 454 or equivalent, and permission of instructor. Offered: jointly with HSTAS 579.

JSIS A 577 Readings on Political Economy of Japan and Northeast Asia (5) *Anchordoguy* Analysis of major issues in Japan and also in Korea and China, such as the state's role in industrial development, trade and investment in Asia, trade and security relations with the U.S., and Asian models of capitalism.

JSIS A 578 Japanese Business and Technology (5)

Anchordoguy Examination of Japan's postwar enterprise system in its historical context. Topics include corporate and financial structure, production and distribution, trade and investment policies, government-business relations, system of innovation, technological developments, prospects for the future. Offered: jointly with I BUS 562.

JSIS A 579 Contemporary Central Asian Politics (5)

Radnitz Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with POL S 579.

JSIS A 580 Field Course in Southeast Asian History (5)

Introduces major English-language works on Southeast Asian history and to the major historiographical issues of the era. Offered: jointly with HSTAS 530.

JSIS A 581 Science, Technology, and Innovation in East Asia: Japan, South Korea, Taiwan, and China (5)

Role of state and technological change in economic development. Analyzes state and corporate policies historically. Technology concepts, institutions, and policies in Japan, South Korea, Taiwan, and China. Examines sources of Asia's rise in world of technology and explores conditions for its successful continuation. Offered: jointly with I BUS 561.

JSIS A 582 Seminar in Southeast Asian History (5)

Selected topics in Southeast Asian history and historiography. Includes preparation for theses and doctoral dissertations on Southeast Asian History. Offered: jointly with HSTAS 532.

JSIS A 583 Modern Korean History (5) *Hajin Jun*

Traces complex social, cultural, and political developments that transformed Korea during the late nineteenth and twentieth centuries. Topics include late Choson reforms, changing gender norms, national identity, colonial state and society, territorial division, and democratization. Attention to diversity of Korean experiences, as well as the interplay of local dynamics and global forces in the peninsula. Prerequisite: permission of instructor. Offered: jointly with HSTAS 581.

JSIS A 584 Survey of Korean Society (5) *Sorensen*

Introduction to the social and political institutions of North and South Korea with an opportunity to master the most important literature on modern Korea. Focuses on the twentieth century with the major emphasis on the post-1945 period. Offered: A.

JSIS A 585 Research Seminar: Modern Korea (6)

Advanced instruction in problems and methods of research in Korean history. Foreign language not required. Prerequisite: permission of instructor. Instructors: Ha

JSIS A 586 Islam, Mysticism, Politics, and Performance in Indonesia (5)

Examines how Indonesia, the world's fourth most-populous country, with the largest Islamic population, weaves together local practices and influence from India and Persia. Offers ways of understanding modern Indonesian performing arts, religion, and politics. Offered: jointly with HSTAS 566.

JSIS A 587 Japanese Trade Politics (5) *S. Pekkanen*

Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Not open to students who have taken JSIS A 487.

JSIS A 588 Making Modern Taiwan (5) *J. Lin*

Explores modern Taiwanese history and contemporary Taiwanese society. Contextualizes Taiwan within larger historical trends and covers key issues of politics, society, and culture, identity, democracy, Taiwan's colonial legacy, geography, and cross-Strait relations with the People's Republic of China.

JSIS A 590 Politics and Society in Eastern Europe (5)

Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors.

JSIS A 593 Water and Security in the Middle East (5)

As the available fresh water in the world decreases in quality and quantity, protection of this critical resource becomes a matter of international security. By studying three major river basins in the Middle

East, students explore the historic, geographic, political, environmental and legal factors that lead to conflict or cooperation in the region.

JSIS A 596 Development and Democracy in South Korea (5) H. NAM Examines the nation-building history of South Korea in the larger geopolitical context of the era, focusing in particular on the period under Park Chung Hee's rule (1961-1979) and the relationship between development and democracy.

GLOBAL AND THEMATIC COURSES

JSIS B 100 Issues in International Studies (5, max. 15) I&S *Bachman, Curran, Yang* Offers an introduction to some contemporary salient issues in international and global affairs, focusing on one or two major developments or questions.

JSIS B 103 Society and the Oceans (5) I&S/NW Explores the social and policy dimensions of the ocean environment and ocean management policy. Pays attention to how human values, institutions, culture, and history shape environmental issues and policy responses. Examines case studies and influential frameworks, such as the ocean as "tragedy of the commons." Offered: jointly with ENVIR 103/SMEA 103.

JSIS B 120 Perspectives on Contemporary Public Policy Issues (3) I&S Lecture series on contemporary domestic and international public policy issues. Credit/no-credit only. Offered: jointly with POL S 120.

JSIS B 180 Introduction to Global Health: Disparities, Determinants, Policies, and Outcomes (5) I&S *Todd Faubion, Stephen Gloyd* Provides an introduction to global health, including: the burden and distribution of disease and mortality; the determinants of global health disparities; the making of global health policies; and the outcomes of global health interventions. Offered: jointly with G H 101/GEOG 180; Sp.

JSIS B 216 Science and Society (5) I&S/NW *Chaloupka* Investigation of the relationship between science, technology, and society. Nuclear physics and molecular biology serve as concrete

examples of fields with significant impact on society. Offered: jointly with PHYS 216; Sp.

JSIS B 264 Violence, Race, and Memory (5) VLPA/I&S, DIV Explores how images and ideas of power, race, violence, and global modernity circulate in memories and discourses about US relations with Vietnam, the Philippines, and Indonesia. Topics include foundations myths, colonial and postcolonial encounters, historiography and narrative, and nationalist and ethnic identity formations. Offered: jointly with HSTAS 264; Sp.

JSIS B 301 War (5) I&S Origins and conduct of war; readings from anthropology, political science, economics, and history, as well as novels and some recent works on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered: jointly with SOC 306.

JSIS B 307 Digital Storytelling and Global Citizenship (5) I&S T. LAGOS Teaches students the meaning of global citizenship while developing their skills to effectively communicate, through digital storytelling, the power of social change. Working in teams students use their knowledge and experiences to produce a short video highlighting efforts or strategies to address a specific global issue.

JSIS B 310 State-Society Relations in Third World Countries (5) I&S, DIV *Bachman, Callahan* Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with POL S 320.

JSIS B 311 Myth of War (5) I&S *Poznanski* Explores war as a concept in international political economy. Examines interpretations of war as put forth by proponents of the key theoretical constructs of mercantilism, liberalism, and Marxism. Explores contemporary challenges to the prevailing, dominant theories of war.

JSIS B 312 Money, Love and Marriage in Europe and America (5) I&S N. KLAPAKI Provides a cross-cultural and interdisciplinary discussion of romantic and economic issues related to marriage by drawing on seminal texts in the fields of history,

anthropology, feminist literary criticism and cultural studies.

JSIS B 315 Law, State, and Society (5) I&S

Examination of both state law and non-state law (rules and ways of ordering behavior such as customary law, religious law, and social conventions) . Focuses on the ways non-state law interacts with and affects state law and is affected by state law.

JSIS B 320 Yoga: History, Health and Practice (5) I&S/VLPA

C. NOVETZKE Examines history, practice, literature, and health effects of yoga from ancient to modern. Explores essential texts and ideas, issues of health and wellness, and contemporary legal debates about yoga.

JSIS B 321 United States National Security (5) I&S

Examines the history of United States national security policies from the eighteenth century to the present, focusing on ideas, relationships, and events that impacted the decision makers who created these policies.

JSIS B 324 Immigration (5) I&S, DIV

Friedman Introduces key theoretical debates in international migration. Examines immigrants' political, economic, religious, and social integration into host societies, and continued ties to homelands. Experiences of voluntary and involuntary immigrants, of the second generation, and of incorporation into America and Europe. Designed around interdisciplinary texts and fieldwork in Seattle.

JSIS B 330 International Political Economy (5) I&S

Establishment, maintenance, and decay of the post-1945 international economic order. Political economy of international trade, monetary relations, inflation, and North-South relations. Prerequisite: JSIS 201 which may be taken concurrently; either ECON 201, GEOG 123 or JSIS 123 any of which may be taken concurrently. Instructors: Hamilton, Ingebritsen, Latsch

JSIS B 331 Political Economy of Development (5) I&S

Growth, income distribution, and economic development in less-developed countries today. Policies concerning trade, industrialization, the agricultural sector, human resources, and financing of development. Prerequisite: either ECON 201, GEOG 123 or JSIS 123, any of which may be taken concurrently. Instructors: Latsch, Poznanski

JSIS B 332 Political Economy of International Trade and Finance (5) I&S

Poznanski Theoretical and historical analysis to explore the causes and effects of the rise and decline of four major international trade and monetary regimes. Foundations and emerging features of the new international trade and monetary regime and its implications for the world economy.

JSIS B 333 Gender and Globalization: Theory and Process (5) I&S, DIV

Ramamurthy Theoretical, historical, and empirical analysis of how current processes of globalization are transforming the actual conditions of women's lives, labor, gender ideologies, and politics in complex and contradictory ways. Topics include feminist exploration of colonialism, capitalism, economic restructuring policies, resistance in consumer and environmental movements. Offered: jointly with GWSS 333.

JSIS B 335 Geography of the Developing World (5) I&S

Characteristics and causes, external and internal, of Third World development and obstacles to that development. Special attention to demographic and agricultural patterns, resource development, industrialization and urbanization, drawing on specific case studies from Asia, Africa, and Latin America. Offered: jointly with GEOG 335.

JSIS B 336 Political Violence (5) I&S

Examines the causes and consequences of the use of violence in the context of armed conflict and contentious politics, with a focus on the targeting of civilians. Investigates the dynamics influencing both state and non-state armed actors in their resort to various forms of violence across a range of conflicts. Offered: jointly with POL S 336.

JSIS B 337 Collective Violence and the State (5) I&S, DIV

Comparative study of how and why genocides have occurred in modern times. Examines how ethnic, religious, and nationalist conflicts have sometimes led to violent conflict, and how political leaders and governments have mitigated or exacerbated them, sometimes engaging in state sponsored mass killing. Offered: jointly with POL S 337.

JSIS B 338 Biosecurity (5) I&S

Lowe Examines relations between life and safety as a new focus of study in the human sciences. Pays attention to the reframing of international health, food security,

environmental change, migration, etc., in security terms. Focuses on both present practical issues of biosecurity and the concept of "security" itself.

JSIS B 340 The Cold War: Realities, Myths, Legacies (5) I&S Provides an interdisciplinary introduction to the Cold War (1947-1991), a global conflict, with political, cultural, and military tensions, between the two post-World War II superpowers: the USA and its "Western" allies, and the USSR and its "Eastern" allies. Attention given to diplomatic, military, and cultural ramifications. Offered: jointly with HSTCMP 340.

JSIS B 344 Migration in the Global Economy (5) I&S Analyzes the relationship between human mobility in the late twentieth century and changes in the global economy. Allows students to gain familiarity with scholarly research on international migration from a diversity of approaches and methods. Offered: jointly with GEOG 344.

JSIS B 345 Women and International Economic Development (5) I&S, DIV P. RAMAMURTHY Questions how women are affected by economic development in Third World and celebrates redefinitions of what development means. Introduces theoretical perspectives and methods to interrogate gender and development policies. Assesses current processes of globalization and potential for changing gender and economic inequalities. Offered: jointly with ANTH 345/GWSS 345.

JSIS B 346 Disability in Global and Comparative Perspective (5) I&S, DIV Examines the meaning, politics, and experience of disability globally and locally in order to understand what is universal and what is particular to the disability experience in a diverse world. Human rights, inclusive development, and social movements approaches addressing the marginalization of disabled persons explored throughout. Offered: jointly with DIS ST 346/LSJ 346.

JSIS B 347 Comparative Geographies of Youth (5) I&S Examines how three key global processes - rising levels of formal education, changing health regimes, and environmental transformation - are shaping youth in the US and South Asia. Examines ways young people rework broader structures, paying particular attention to their economic livelihoods,

cultural practices, and political engagements. Offered: jointly with GEOG 343; A.

JSIS B 350 Environmental Norms in International Politics (5) I&S Ingebritsen Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with ENVIR 360/SCAND 350.

JSIS B 351 The Global Environment (5) I&S Explores the environment in international perspective emphasizing the social implications of living in an economically globalized and environmentally interconnected world. Examines these implications through examples of toxics and the human body, biodiversity conservation, climate change, disease, and environmental problems.

JSIS B 352 Sustainability and Global Business: Leading in a Changing World (5) I&S J. Leinaweaver Course explores the relationships between business, sustainability and social responsibility, asking three core questions: Why should business care about sustainability and social responsibility? What can businesses do to help address these problems? How do we re-invent the traditional consumer-based business model of "make things, sell things, buy things"?

JSIS B 355 Cybersecurity and International Studies (5) I&S J. Beyer Addresses the major international agreements, organizations, and infrastructures shaping cybersecurity. Covers basic technical terminology and legal frameworks related to cybersecurity.

JSIS B 357 The Geopolitics of Energy (5) I&S Provides an Introduction to energy studies focusing on geopolitics. Topics explored include global energy resources, trends, and technologies; energy supply, demand, and consumption; economic issues; the changing role of OPEC; concepts of energy sustainability; energy and climate change.

JSIS B 360 The United States in the World (5) I&S Examines the history of the United States' relations with the world over the twentieth century.

Combines and overview of broad trends in the projection and contestation of United States power abroad with specific case studies grounded in particular geographic regions of the globe. Offered: Sp.

JSIS B 361 The Rise of a Global Language (5) I&S

Explores the reality and status of English as a global language, implications for international relations, relationship to globalization, and effects in areas of national identity, modernization, science and technology, and the future of human communication.

JSIS B 365 World Cities (5) I&S *Kasaba, Sparke*

Factors that have propelled New York, London, and Tokyo into key positions in the organization of the late twentieth century international system. Asks historical and comparative questions and discusses the reasons behind the diminished position of cities such as Venice, Vienna, and Istanbul in that system.

JSIS B 366 Comparative Law and Legal Cultures (5) I&S *G. Barzilai*

Explores global issues of comparative law, societies, politics, courts, and cultures. Introduces theories and methods of comparing legal settings internationally and understating diverse responses to law. Covers what is comparative law; families of law; history of comparative law; judicial review; legal cultures; rights consciousness; and regulation. Can not be taken for credit if student has already taken LSJ/POL S 367. Offered: jointly with LSJ 366.

JSIS B 370 Privacy (5) I&S *S. Pekkanen* Explores how individuals, corporations, and governments respond to privacy challenges in the digital age. Examines evolution of the idea of privacy using case studies of actual privacy policies, legal cases, and real-world situations. Covers legal, political, and social facets of this fundamental human issue. Offered: jointly with LSJ 370/POL S 370; Sp.

JSIS B 371 Global Crime and Corruption (5) I&S *J. Long Iv*

We examine sources & outcomes of illicit behavior within firms, governments, and organizations at local, national, & international levels; investigating the psychological, cultural, political, and economic sources of crime/corruption; and explore these dynamics within businesses, bureaucracies, gangs, mafias, cults, and pirates. Case studies include India, US-Mexico drug trade, piracy,

doomsday cults, Sicilian mafias, Nazi drug abuse, & Dark Web. Recommended: POL S 203, POL S 204, or POL S 270; or JSIS 123, JSIS 200, JSIS 201, or JSIS 222; or equivalent. Offered: jointly with POL S 371.

JSIS B 375 Geopolitics (5) I&S, DIV An introduction to both political geography and geopolitics, addressing the fundamental links between power and space. Topics covered include: theories of power, space, and modernity; the formation of modern states; international geopolitics in the aftermath of the Cold War; the post-colonial nation-state; and the geopolitics of resistance. Offered: jointly with GEOG 375.

JSIS B 380 Immigration and Cultural Memory in the Pacific Northwest: The Role of Film and Cinema (5) I&S *T. LAGOS*

Explores immigration and culture through the development of the film industry in relation to the immigrant flows into Seattle at the turn of the 20th century. The rise of cinema helped immigrants to assimilate into mainstream society. In turn, immigrants turned films into a major American industry.

JSIS B 385 Industry and the State (5) I&S Builds on states and markets approach of 200 and 201 through specific examination of effects of industry and industrial structure on political outcomes and roles of state. Emphasis on late-developing and newly developing economies. Prerequisite: JSIS 200; JSIS 201. Instructors: Hamilton, Whiting

JSIS B 386 Law and Politics of International Trade (5) I&S *S. Pekkanen*

Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

JSIS B 388 Political Economy of Industrialized Nations (5) I&S

Theoretical bases of various political economic systems of industrialized nations. Several major issues these political economies currently face; usefulness and limits of economic analyses within broader perspective of political economy. Prerequisite: either ECON 201, GEOG 123 or JSIS 123 any of which may be taken concurrently.

JSIS B 391 Climate Change - An International Perspective: Science, Art, and Activism (5)

I&S/VLPA R. PAVIA Explores climate change science in the context of geographic, social, and political constraints, considering the role of art, activism, and Arctic indigenous peoples in communicating impacts and mitigation. Students gain knowledge in key atmospheric and ocean science principles along with the role of science in society Offered: jointly with ARCTIC 391; Sp.

JSIS B 393 LGBTI Rights in International Affairs (5)

I&S, DIV E. CARLSON-RAINER Introduction to LGBTI and human rights issues impact in contemporary international relations.; NGOs and civil society advocacy that leads to foreign policy reform; Difference strategies uses by LGBTI activists in Europe, Scandinavia, and the U.S.; Debates in the UN on global rights; LGBTI rights diplomacy; conditioning international aid according to LGBT rights; Human rights issues in the context of broader global sociopolitical relations.

JSIS B 406 Political Islam and Islamic

Fundamentalism (5) I&S Robinson Study of resurgence, since mid-1970s, of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with POL S 432.

JSIS B 407 Political Islam and Contemporary Islamist Movements (5) I&S

Examines Islamist movements (which seek to reform Muslim society through the capture and the modern state and the establishment of Islamic law) to understand how they impact regional politic and global political Islam.

Prerequisite: either HIST 161, NEAR E 211, NEAR E 212, JSIS C 211, JSIS C 212, JSIS B 406/POL S 432, JSIS A 215, or JSIS A 402, any of which may be taken concurrently. Instructors: Robinson Offered: Sp.

JSIS B 408 Topics in the History of Capitalism (5,

max. 10) I&S Mark Metzler Selected topics in the history of capitalism in a global, multi-century perspective. Recommended: either JSIS 200, or equivalent courses in global history. Offered: jointly with HSTCMP 408.

JSIS B 410 Readings in U.S. in the World (5) I&S D.

Bessner Explores how numerous factors - political, economic, social, racial, intellectual, technological, and others - shaped the ways in which the United States has interacted with the world since the late-nineteenth century.

JSIS B 416 Putting the World on the Couch: Psychoanalysis and International Studies (5)

I&S Deborah Porter Explores the relation of trauma to memory and cultural production, focusing on historical, literary, and filmic treatments of hysteria and repression, shell shock, and the effects of war, terrorism, and psychic trauma. Uses psychoanalytical theory to analyze the commentary on international issues that lies in texts, films, and other cultural phenomena.

JSIS B 417 Enter the Dragon: Seminar on World Cultures through the Asian Martial Arts (5)

I&S Novetzke Examines how the martial arts have preserved religious, cultural, and philosophical aspects of the world areas of their origin, as well as the new cultures and international communities that have adopted and reinvented their practices and philosophies, including India, China, Japan, Korea, Brazil, and Euro-America. Offered: jointly with CHID 417.

JSIS B 419 Comparative Media Systems (5) I&S

Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/POL S 468.

JSIS B 420 Failed States (5) I&S Radnitz

Critically examines the causes and consequences of state failure. Analyzes theories about the rise of the modern state and the precondition for "successful" states to form and endure, then examines theories and case studies of modern failed state.

JSIS B 422 International Trade and Security (5) I&S

Examines international trade's potential threat to national security. Covers basic elements and limitations of export controls used to protect national security and international stability. Focuses on export controls to prevent proliferation of weapons of mass destruction, and to limit other

governments' ability to develop capabilities that jeopardize regional or international stability.

JSIS B 423 Practicing American Foreign Policy (5)

I&S Develops familiarity with tools available to promote international objectives of the United States. International case studies selected to illustrate the diverse considerations inherent in the policy process and evaluate the strengths and weaknesses of the national institutions involved. Prerequisite: JSIS 201.

JSIS B 424 The Politics of International Nuclear Security: Weapons, Energy and Environment (5)

I&S C. JONES Nation state choices and military alliance choices in Eurasia on nuclear weapons arsenals, nuclear energy, arms control treaties plus survey of global and regional Eurasian non-proliferation regimes. Eurasian military-political conflicts; Cold War nuclear arms race; Nuclear Non-Proliferation Treaty; Nuclear Weapons Free Zones. Comparisons of fissile and fossil fuels, climate change, economic development, energy security, and terrorist threats.

JSIS B 425 Crafting and Influencing United States Foreign Policy (5) I&S J. BUTTE-DAHL

Explores the inner-workings of the United States government and the complexity inherent in United States foreign policy decision-making. Includes an overview of foreign affairs agencies and the interagency process, executive-legislative relations, foreign assistance and the budget process, and the impact of external stakeholders on the policy-making system. Offered: Sp.

JSIS B 426 World Politics (5) I&S The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. Offered: jointly with POL S 426.

JSIS B 427 Weapons of Mass Destruction: Development, Deployment, and Detection (5)

I&S Fuller Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

JSIS B 428 The Media and Peace (5) I&S Investigates the complex relationships among the media, journalistic practice, and our understanding and pursuit of peace. Offered: jointly with COM 428.

JSIS B 429 Nuclear Nonproliferation and International Safeguards (5) I&S Examines the technologies of nuclear energy, the institutions that have been deployed to address the security threats related to peaceful uses of nuclear energy, and the issues and challenges confronting those institutions today.

JSIS B 430 Late Industrialization and Social Change (5) I&S

Deals with distinct patterns of social change under late industrialization, such as Japan, South Korea, Germany and the Soviet Union. Analyzes the social and institutional implications of economic policies by looking at the interactions between the state, traditions, and economic actors.

JSIS B 431 International Negotiation Simulation (5)

I&S Research and writing in small groups to prepare policy documents on a current international issue, followed by simulated negotiations with students representing different nations, following instructions from and reporting to national leaders.

JSIS B 433 Environmental Degradation in the Tropics (5) I&S/NW Christie

Considers theories and controversies of environmental degradation in the tropics, ecological and social case studies of Central American rain forests and Southeast Asian coral reefs, and implications of environmental management techniques. Offered: jointly with ENVIR 433/SMEA 433.

JSIS B 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S

Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with POL S 436.

JSIS B 437 Global Diasporas (5) I&S Friedman

Studies the concept, process, and lived practice of diaspora in comparative global perspective. Surveys the theoretical literature. Examines the ramifications of transnational movements for notions of diasporic

identities and citizenship; implications of diaspora for economic development and political movements; and the utility of the concept of diaspora as an analytical tool

JSIS B 440 The Communist Experience Around the World (5) I&S *Young* Communism from its origins in Bolshevik faction of Russian social democracy to the present, treating the development of the ideology, the various communist parties, and the communist states. Offered: jointly with HSTCMP 440.

JSIS B 441 Forced Migrations (5) I&S, DIV *Friedman* Provides an interdisciplinary understanding of the causes, characteristics, and consequences of forced migration experiences across the global system. Explores how international policy makers, humanitarian workers, and scholars have constructed forced migration as a problem for analysis and action, including some of the ethical dilemmas involved.

JSIS B 444 Space Law and Policy (5) I&S *Saadia M. Pekkanen* Law and policy foundations of outer space activities. Essential origins, sources, and role of space law, as well as key institutions, forums, and forces shaping the contemporary governance of space activities. Provides a thorough grounding in U.N. treaties, principles, resolutions, regulations, and private international and national space laws and policies. Offered: jointly with A A 490/ESS 488.

JSIS B 446 History, Memory, and Justice (5) I&S *Giebel* Focuses on the complex interactions between history and historical representation, remembrance and commemoration, memory and identity, and notions of justice and reconciliation. Addresses these issues on methodological, theoretical, and practical grounds, drawing on examples from various genres, periods, and world regions. Offered: jointly with HSTCMP 446.

JSIS B 450 Deeply Divided Societies (5) I&S Ethnic conflict seen from two perspectives: 1. the study of theoretical approaches as a means of understanding deeply divided societies; 2. a focus on one or more specific conflicts.

JSIS B 451 Political Parties in Democratic Systems (5) I&S Examines political parties in three different and interrelated aspects: party organizations; party in the electorate; and the party in government. How

parties aggregate and represent interests. Parties at different points in time and in different states around the world. Offered: jointly with POL S 450; W.

JSIS B 455 International Environmental Policy (5) I&S *J. BEGUN* Examines the economics of international environmental policy from both a theoretical and empirical perspective. Focus is on environmental policy in China, the U.S. and Europe and on the challenges combining economic growth and development with environmental stewardship and responsible resource use.

JSIS B 457 Food, Ethnicity, and Identity in Hispanic Culture (5) I&S/VLPA *Ana M. Gomez-Bravo* Explores food, ethnicity, and identity in the Hispanic World, including Sephardic, Muslim, Native American, Basque, and Catalan groups. Taught in English. Prerequisite: Either SPAN 303 or SPAN 316; SPAN 322. Offered: jointly with SPAN 457; Sp.

JSIS B 467 Nations and States in the Modern World (5) I&S Development of national consciousness in the "old nations" of Europe before the French Revolution. Replacement by new nationalism, spreading into East Central Europe, Russia, Ibero-America, Asia, and Africa. Offered: jointly with HSTCMP 467.

JSIS B 468 Theatre as a Site of History and Memory (5) VLPA/I&S *Sears* Explores Asian theatre traditions as sites of memory, testimony, and archive using ethnographic and historiographical approaches. Includes service-learning components and collaborative performance projects. Offered: jointly with HSTCMP 468.

JSIS B 469 Law and Rights in Authoritarian Regimes (5) I&S *S. WHITING* Explores role of law and courts and nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with LSJ 469/POL S 469.

JSIS B 472 Electoral Systems (5) I&S *R. Pekkanen* Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and

policy. Covers effects and mechanics of the various voting systems. Offered: jointly with POL S 472.

JSIS B 476 Comparative International Political Economy (5) I&S Comparative analysis of four major approaches to international political economy: mercantilism, Marxism, liberalism, and evolutionary approach. Focus on international cooperation, social change, and economic institutions. Theoretical analysis of the four paradigms and applications to historic and current issues in international political economy: hegemonic cycle, post-communist transition, and cross-national income inequality.

JSIS B 480 Fundamentals of Global Cybersecurity (5) I&S *Jessica Beyer* Area and international studies approach to investigating nation-state cybersecurity strategy and regional dynamics. Addresses the cybersecurity strategies of major international actors, regional dynamics, famous cyberattacks, and the state of international cybersecurity. Structured geographically. Involves instruction by guest experts. Offered: A.

JSIS B 508 Topics in the History of Capitalism (5, max. 10) *Mark Metzler* Selected topics in the history of capitalism in a global, multi-century perspective. Offered: jointly with HSTCMP 508.

JSIS B 510 Readings in U.S. in the World (5) D. *Bessner* Explores how numerous factors - political, economic, social, racial, intellectual, technological, and others - shaped the ways in which the United States has interacted with the world since the late-nineteenth century.

JSIS B 520 Failed States (5) *Radnitz* Critically examines the causes and consequences of state failure. Analyzes theories about the rise of the modern state and the precondition for "successful" states to form and endure, then examines theories and case studies of modern failed state.

JSIS B 522 International Trade and Security (5) Examines international trade's potential threat to national security. Covers basic elements and limitations of export controls used to protect national security and international stability. Focuses on export controls to prevent proliferation of weapons of mass destruction, and to limit other governments' ability to develop capabilities that jeopardize regional or international stability.

JSIS B 523 Seminar on Religious and Political Violence (5) *Robinson* Employs ethnographic studies and anthropological theory to examine the relationships between culture and power in the analysis of religious and political violence. Topics include modernity; secularisms and fundamentalisms; ritual, sacrifice, and martyrdom; law, rights, and subject-making. Offered: jointly with ANTH 523.

JSIS B 524 International Law and Arms Control (5) Surveys the political, legal, and technological history of twentieth century arms control agreements with emphasis on the treaties which ended the Cold War. Examines current issues of law, politics, military strategy, and technology in regard to weapons of mass destruction and related topics in international security.

JSIS B 525 Special Topics in Race, Ethnicity, and Nationalism (5, max. 10) Topics vary, but focus on the politics of race, ethnicity, and nationalism viewed from a broad, comparative, interdisciplinary perspective. Emphasizes cross-cultural, and the geographical coverage may be regional or global.

JSIS B 526 Political Islam and Islamic Fundamentalism (3/5) *Robinson* Examines political Islam as a modern phenomenon produced at the intersections between localized and globalized political cultures and between political, religious, and social authority. Focuses on anthropological studies to examine how Islamic publics produce moral judgments about political practices. Offered: jointly with ANTH 526.

JSIS B 527 Weapons of Mass Destruction: Development, Deployment, and Detection (5) *Fuller* Practical understanding of the development of nuclear, biological, and chemical weapons plus missile delivery systems. Proliferation detection technology and its limitations. Case studies of past and current arms control agreements and non-proliferation programs.

JSIS B 529 Nuclear Nonproliferation and International Safeguards (5) Examines the technologies of nuclear energy, the institutions that have been deployed to address the security threats related to peaceful uses of nuclear energy, and the issues and challenges confronting those institutions today.

JSIS B 531 International Negotiation Simulation (5)

Examines international trade's potential threat to national security. Covers basic elements and limitations of export controls used to protect national security and international stability. Focuses on export controls to prevent proliferation of weapons of mass destruction, and to limit other governments' ability to develop capabilities that jeopardize regional or international stability.

JSIS B 536 Analysis, Information, and the Politics Shaping American Foreign Policy (5)

Chirot Explores competing interests and sources of information in the making of American foreign policy. Examines the origins of the national security state after World War II; decision making during the Cold War and Viet Nam War; the crisis of 9/11; and current strategies for analyzing information and handling foreign policy crises.

JSIS B 537 Global Diasporas (5)

Friedman Studies the concept, process, and lived practice of diaspora in comparative global perspective. Surveys the theoretical literature. Examines the ramifications of transnational movements for notions of diasporic identities and citizenship; implications of diaspora for economic development and political movements; and the utility of the concept of diaspora as an analytical tool

JSIS B 541 Forced Migrations (5)

Friedman Provides an interdisciplinary understanding of the causes, characteristics, and consequences of forced migration experiences across the global system. Explores how international policy makers, humanitarian workers, and scholars have constructed forced migrations as a problem for analysis and actions, including some of the ethical dilemmas involved.

JSIS B 542 Seminar: State and Society (5)

Migdal Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with POL S 542.

JSIS B 544 Space Law and Policy (5)

Saadia M. Pekkanen Law and policy foundations of outer space activities. Essential origins, sources, and role of

space law, as well as key institutions, forums, and forces shaping the contemporary governance of space activities. Provides a thorough grounding in U.N. treaties, principles, resolutions, regulations, and private international and national space laws and policies. Offered: jointly with A A 590/ESS 584; Sp.

JSIS B 549 International Investment Law and Practice (4/5)

Examines the rise of international investment law and practice, including topics such as Bilateral Investment Treaties (BITs), standards of treatment, investor-state arbitrations, and social and political controversies related to the governance of foreign direct investment (FDI) in developed and developing countries. Offered: jointly with LAW E 549.

JSIS B 553 Environment and Health in the World Trade Organization (5)

S. Pekkanen Conflicts between global environmental and public health on the one hand and international trade expansion on the other in the World Trade Organization (WTO). Focuses on the state of GAITT/WTO jurisprudence and its interaction with sovereign laws and regulations. Cases include asbestos, reformulated gasoline, beef hormones, shrimp-turtle, and genetically modified organisms.

JSIS B 555 Cybersecurity and International Studies (5)

J. Beyer Addresses the major international agreements, organizations, and infrastructures shaping cybersecurity. Covers basic technical terminology and legal frameworks related to cybersecurity.

JSIS B 556 International Human Rights Clinic ([1-12]-, max. 12)

Interdisciplinary clinical training in international human rights. Includes seminar component on legal issues, practice skills, and reflections on human rights projects. Fieldwork on human rights projects tests, develops, and enhances skills training through real-world human rights practice with cross-campus, U.S., and international partnerships. Credit/no-credit only.

JSIS B 557 The Geopolitics of Energy (5)

Introduction to energy studies focusing on geopolitics. Topics include global energy resources, trends, and technologies; energy supply, demand, and consumption; economic issues; the changing role of OPEC; concepts of energy sustainability; energy and climate change.

JSIS B 569 Law and Rights in Authoritative Regimes (5) Explores role of law and courts and the nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law promotion. Offered: jointly with POL S 569.

JSIS B 572 Electoral Systems (5) *R. Pekkanen* Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with POL S 572.

JSIS B 575 Advanced Political Geography (5, max. 10) Provides resources for theorizing how politics shapes and is shaped by geographical relationships. Examines how politics are situated in complex material and discursive geographies that are partly reproduced through political negotiations. Examines interrelationships of contemporary capitalism with other complex systems of social and political power relations. Offered: jointly with GEOG 575.

JSIS B 581 Fundamentals of Global Cybersecurity (5) *Jessica Beyer* Area and international studies approach to investigating nation-state cybersecurity strategy and regional dynamics. Addresses the cybersecurity strategies of major international actors, regional dynamics, famous cyberattacks, and the state of international cybersecurity. Structured geographically. Involves instruction by guest experts.

JSIS B 586 Law and Politics of International Trade (5) *S. Pekkanen* Survey of global trade politics in the context of the World Trade Organization (WTO), with attention to positive and negative aspects of its governance. Examines the impact of the WTO legal framework on trade relations among developed and developing countries. Covers topics such as dispute settlement, development, safeguards, antidumping, intellectual property, and regionalism.

SCHOOL OF INTERNATIONAL STUDIES D

JSIS D 140 Russia from the Tenth Century to the Present (5) *I&S* Russian political, social, and economic history from the tenth century to the present. Offered: jointly with HSTEU 140.

JSIS D 217 Renaissance, Enlightenment, Revolution: Major Works in English (5) *VLPA/I&S* Introduction to major figures of French culture from the Middle Ages to the eighteenth century, their contributions to the intellectual life of the Western world. Readings include Montaigne, Descartes, Rousseau, Voltaire, and Moliere. In English. Offered: jointly with FRENCH 211.

JSIS D 317 Scandinavian Crime Fiction (5) *VLPA Nestingen* Studies Scandinavian crime-fiction literature and cinema since 1965, approaching crime fiction as a changing cultural artifact. Analyzes major issues and texts in the genre and its public status, while also training students in critical approaches to study of popular literature and culture. Offered: jointly with SCAND 315; Sp.

JSIS D 323 Globalization and You (5) *I&S* Offers an evidence-based analysis of globalization that addresses how individuals are affected personally as well as economically amidst the market-led processes of global integration. Offered: jointly with GEOG 323; A.

JSIS D 354 Modern China: From Empire to Republics (5) *Dong* Surveys the major historical events and discourses of twentieth century China and lays a foundation for understanding contemporary China. Themes include reforms; revolutions; colonialism and imperialism; state and society; and social and cultural changes. Offered: jointly with HSTAS 354.

JSIS D 429 International Population (5) *I&S Lavelly* Demographic situation of the world and of major world regions. The demographic transition. Topics include public health, policies of fertility and mortality control, international migration, relation of population growth to economic development, social change, and resource constraints. Exploration and manipulation of international demographic data.

JSIS D 432 Technology and Culture in the Making of Contemporary Empires (5) *I&S Benitez, Rodriguez-Silva* Explores the struggles that shaped organization of the U.S. empire at the turn of the twentieth century, focusing on how empire's material, cultural, and ideological boundaries were drawn. Topics include race, gender, and class as colonial formations; technologies of imperial governance such as public health, citizenship and territory; and popular culture. Offered: jointly with C LIT 432.

JSIS D 435 Population and Modernization (3)

I&S *Hirschman, Lavelly* Examines role of demographic factors in the process of social modernization and economic growth. The approach is both historical, focusing on populations of developed countries since 1700, and analytic, stressing the attempts made by different disciplines to model demographic relationships, with attention to less-developed regions. Offered: jointly with SOC 432.

JSIS D 443 Class and Culture in East Asia (5) I&S, DIV

Examines the nexus between culture and systems of social stratification/class in East Asia, with an emphasis on Taiwan, Korea, Japan, and China. Topics include class formation, mechanisms of social mobility and reproduction, markers of status and hierarchy, resistance, and the formation of class identity. Offered: jointly with ANTH 446.

JSIS D 450 Political Economy of Women and Family in the Third World (5) I&S

Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with SOC 450.

JSIS D 451 Cultural Geography of Latin America (5)

I&S Interdisciplinary senior seminar examining how physical and social geographies are culturally constructed and interconnected with subjectivities and power in Latin America. Topics include identity formation grounded in particular territories and the social constitution of space via an interplay of material and cultural forces. Offered: jointly with GEOG 451.

JSIS D 453 Art, Religion, and Politics in Byzantium, 700-1453 AD (3) VLPA/I&S

Kartsonis Evolution of the art of Byzantium (700-1453 AD) in the context of contemporary religious, political, and cultural developments. Offered: jointly with ART H 453.

JSIS D 511 Chinese History: Research Methods and Bibliographic Guides (3, max. 6)

Introductory research seminar dealing with the methodological and bibliographical problems concerning all periods and aspects of Chinese history from the earliest times to the nineteenth century. Prerequisite: two years of classical or modern Chinese. Instructors: Guy

JSIS D 517 Foreign Trade and Investment Law of the People's Republic of China ([1-4]-, max. 4)

JSIS D 530 Religion and Literature (5) The relation of religious thought to the study of imaginative literature. Includes both critical theory and practical criticism of exemplary texts.

JSIS D 533 Seminar on Contemporary Chinese Politics (5)

Research on selected problems in contemporary Chinese politics. Prerequisite: POL S 532, or permission of instructor. Offered: jointly with POL S 533.

JSIS D 549 Government Regulation of Business in Japan (3)

Offered: jointly with LAW B 549.

JSIS D 553 Chinese Legal Tradition (3)

Offered: jointly with LAW B 553.

JSIS D 564 Seminar: Problems of Social and Political Development in Eastern Europe (3-6, max. 6)

Research seminar dealing with selected problems of continuity and change in eastern Europe. Prerequisite: some previous course work on eastern Europe.

JSIS D 572 Peoples and Cultures of Central and Inner Asia (5)

Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 522/NEAR E 558.

LANGUAGE COURSES

JSIS E 101 Elementary Khmer (5) L. Yin

Fundamentals of oral and written Khmer. Offered: A.

JSIS E 102 Elementary Khmer (5) L. Yin

Fundamentals of oral and written Khmer. Prerequisite: JSIS E 101. Offered: W.

JSIS E 103 Elementary Khmer (5) L. Yin

Fundamentals of oral and written Khmer. Prerequisite: JSIS E 102. Offered: Sp.

JSIS E 111 Elementary Modern Greek (5)

Fundamentals of oral and written modern Greek.
Offered: A.

JSIS E 112 Elementary Modern Greek (5)

Fundamentals of oral and written modern Greek.
Prerequisite: JSIS E 111. Offered: W.

JSIS E 113 Elementary Modern Greek (5)

Fundamentals of oral and written modern Greek.
Prerequisite: JSIS E 112. Offered: Sp.

JSIS E 121 Elementary Burmese (5) Introduces speaking, listening, reading and writing skills in colloquial Burmese, building a foundation in basic grammar and developing communicative skills.
Offered: A.

JSIS E 122 Elementary Burmese (5) Introduces speaking, listening, reading and writing skills in colloquial Burmese, building a foundation in basic grammar and developing communicative skills.
Prerequisite: JSIS E 121 Offered: W.

JSIS E 123 Elementary Burmese (5) Introduces speaking, listening, reading and writing skills in colloquial Burmese, building a foundation in basic grammar and developing communicative skills.
Prerequisite: JSIS E 122 Offered: Sp.

JSIS E 134 Intensive Elementary Modern Greek (15)
Fundamentals of oral and written modern Greek. No more than 15 credits allowed for any combination of JSIS E 111, JSIS E 112, JSIS E 113, and JSIS E 134.

JSIS E 201 Intermediate Khmer (5) L. YIN Intensive practice in speaking, reading, and writing.
Prerequisite: JSIS E 103. Offered: A.

JSIS E 202 Intermediate Khmer (5) L. YIN Intensive practice in speaking, reading, and writing.
Prerequisite: JSIS E 201. Offered: W.

JSIS E 203 Intermediate Khmer (5) Luoth Yin
Intensive practice in speaking, reading, and writing.
Prerequisite: JSIS E 202. Offered: Sp.

JSIS E 211 Second-Year Modern Greek (5) VLPA
Continuation of JSIS E 111, 112, 113. Intensive practice in speaking, reading, and writing.
Prerequisite: JSIS E 113. Offered: A.

JSIS E 212 Second-Year Modern Greek (5) VLPA

Continuation of JSIS E 111, 112, 113. Intensive practice in speaking, reading, and writing. Offered: W.

JSIS E 213 Second-Year Modern Greek (5) VLPA

Continuation of JSIS E 111, 112, 113. Intensive practice in speaking, reading, and writing. Offered: Sp.

JSIS E 221 Intermediate Burmese (5) VLPA Expands students' ability in speaking, listening, reading and writing skills in colloquial Burmese, based on the foundation in Elementary Burmese. Prerequisite: JSIS E 123 Offered: A.

JSIS E 222 Intermediate Burmese (5) VLPA Expands students' ability in speaking, listening, reading and writing skills in colloquial Burmese, based on the foundation in Elementary Burmese. Prerequisite: JSIS E 221 Offered: W.

JSIS E 223 Intermediate Burmese (5) VLPA Expands students' ability in speaking, listening, reading and writing skills in colloquial Burmese, based on the foundation in Elementary Burmese. Prerequisite: JSIS E 222 Offered: Sp.

JSIS E 301 Advanced Khmer (5) VLPA L. Yin Develops communicative and reading skills in Khmer and enables students to move on to the literary level.
Prerequisite: JSIS E 203 Offered: A.

JSIS E 302 Advanced Khmer (5) VLPA L. Yin Develops communicative and reading skills in Khmer and enables students to move on to the literary level.
Prerequisite: JSIS E 301 Offered: W.

JSIS E 303 Advanced Khmer (5) VLPA L. Yin Develops communicative and reading skills in Khmer and enables students to move on to the literary level.
Prerequisite: JSIS E 301 Offered: Sp.

JSIS E 321 Advanced Burmese (5) VLPA Advanced reading, writing and discussion of various topics beyond everyday situations. The students will also be further developing their grammar as well as introduced to literary Burmese. Prerequisite: JSIS E 223 Offered: A.

JSIS E 322 Advanced Burmese (5) VLPA Advanced reading, writing and discussion of various topics beyond everyday situations. The students will also be further developing their grammar as well as introduced to literary Burmese. Prerequisite: JSIS E 321 Offered: W.

JSIS E 323 Advanced Burmese (5) VLPA Advanced reading, writing and discussion of various topics beyond everyday situations. The students will also be further developing their grammar as well as introduced to literary Burmese. Prerequisite: JSIS E 322 Offered: Sp.

JSIS E 428 Perspectives on East Asia for Teachers (3, max. 6) I&S Substantive concepts, resources, and materials employed in teaching about East Asia. Requirements may vary in relation to the background of participants.

JSIS E 429 East Asia for Educators (6, max. 18) I&S *Bernson* Provides pre-service and in-service elementary, middle, and high school educators with a grounding in China, Japan, or Korea studies and in curricular strategies for bringing the study of the country of focus into the educator's classroom. Offered: S.

JSIS E 478 Readings in the Social Sciences in Japanese (3-5) I&S Introduction to articles and short works in economics, history, political science, and other social sciences. Assignments chosen from major Japanese monthlies and academic works. All readings in Japanese. Prerequisite: JAPAN 313.

JSIS E 547 Readings on Japan in the Social Sciences (5) Seminar discussing articles in Japanese in economics, history, political science, and other social sciences. Assignments from major Japanese monthlies and academic works. Prerequisite: JAPAN 313 or equivalent and permission of instructor.

JEWISH STUDIES

JEW ST 130 Justice, Service, and Activism in the Jewish Tradition (5) I&S, DIV *Pianko* Focuses on thinking critically about justice and social activism by integrating classroom and community learning. Uses the rich textual tradition of Judaism and the experiences of American Jewish social activists as a

prism for considering the possibilities and challenges of pursuing social justice around the globe.

JEW ST 145 Introduction to Judaism (5) I&S Explores Judaism's sacred texts, holidays, and beliefs. Addresses Judaism's impact on society, culture, and politics. Through the lens of the Jewish experience, grapples with fundamental questions about the role of individuals and members of larger communities in an increasingly multicultural, religious, and interconnected world. Offered: jointly with RELIG 145.

JEW ST 175 Popular Film and the Holocaust (5) VLPA, DIV Introduces films about the Holocaust with particular emphasis on popular films. Develops the requisite tools for analyzing films, a historical perspective of the Holocaust, and the problems involved in trying to represent a historical event whose tragic dimensions exceed the limits of the imagination. Offered: jointly with GERMAN 195.

JEW ST 199 Study Abroad: Jewish Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JEW ST 206 Violence and Contemporary Thought (5) I&S, DIV *Nicolaas P. Barr* Modern and contemporary ideas about violence and their emergence as intellectual responses to historical events. Topics may include histories of physical violence, such as slavery, colonialism, or the Holocaust, as well as structural forms of violence. Offered: jointly with CHID 206; A.

JEW ST 210 Funny Jews: Jewish Humor and American Identity (5) VLPA Jewish humor plays an important role in American popular culture. Investigates the modern history of Jewish humor through the writers, comedians, and actors who have shaped American comedy. Discusses the purpose of humor and the role that Jewish humor plays in shaping American and American Jewish identity.

JEW ST 215 Ladino Language and Culture (5) I&S/VLPA Fundamental elements of Modern Ladino, the traditional language of Sephardic Jews of the Balkans and Middle East, including the traditional Hebrew-based alphabet and its Romanization, and basic grammar, syntax and lexicon. Historical stages

in the development of Ladino and the social and cultural life of modern Ladino speakers. No prior knowledge of Spanish or Hebrew required.

JEW ST 250 Introduction to Jewish Cultural History (5) I&S Introductory orientation to the settings in which Jews have marked out for themselves distinctive identities as a people, a culture, and as a religious community. Examines Jewish cultural history as a production of Jewish identity that is always produced in conversation with others in the non-Jewish world. Offered: jointly with HSTCMP 250.

JEW ST 258 Introduction to Rabbinic Literature (5) I&S/VLPA Investigates the origins of Judaism through the works of the rabbis. The Judaism that prevails today arose after the Romans' destruction of the temple in Palestine in 70 CE. Discusses the rabbinic movement, its writings, and its Greco-Roman as well as Babylonian-Persian context. Offered: W.

JEW ST 269 The Holocaust: History and Memory (5) I&S, DIV Explores the Holocaust as crucial event of the twentieth century. Examines the origins of the Holocaust, perpetrators and victims, and efforts to come to terms with this genocide in Europe, Israel, and the United States. Offered: jointly with HSTCMP 269.

JEW ST 270 From the Mediterranean to America: Jewish, Christian, and Muslim Migrations in Global Context (5) I&S, DIV *Devin E Naar* Migration of "Middle Easterners" - Jews, Christians, and Muslims - from the Ottoman Empire to the United States in the twentieth century. How their experiences shaped, and were shaped by, the development of racial categories, definitions of citizenship and national belonging, and broader political, religious, and cultural dynamics linking the Mediterranean world to the Americas. Offered: jointly with HSTCMP 270.

JEW ST 289 Special Topics in Jewish Studies (1-5, max. 15) I&S Topics vary.

JEW ST 295 The Contributions of German Jews to German Culture (5) VLPA/I&S, DIV Contribution, assimilation, and alienation of German-speaking Jews - such as Karl Marx, Sigmund Freud, and Franz Kafka - emphasizing the multi-cultural nature of that which is understood as "German culture." Offered: jointly with GERMAN 295.

JEW ST 312 Jewish Literature: Biblical to Modern (5) VLPA/I&S, DIV A study of Jewish literature from Biblical narrative and rabbinic commentary to modern prose and poetry with intervening texts primarily organized around major themes: martyrdom and suffering, destruction and exile, messianism, Hasidism and Enlightenment, Yiddishism and Zionism. Various critical approaches; geographic and historic contexts. Offered: jointly with ENGL 312.

JEW ST 317 From Israelites to Jews: the First Six Centuries BCE (3) VLPA/I&S Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (first century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible required. Offered: jointly with NEAR E 307.

JEW ST 318 Jewish Life in Literature and Film (5) VLPA/I&S Major themes of Jewish life treated in modern narrative and cinema. Topics include religious tradition and modernity. Jewish immigration to America, responses to the Holocaust and Zionism. Offered: jointly with NEAR E 317.

JEW ST 325 Contemporary Judaism in a Global Context (5) I&S *Pianko* Explores the dynamic interactions between contemporary social, political, and intellectual forces and today's changing religious landscape. Critical analysis of the ways in which religious ideologies and communities transform themselves in relationship to geographical contexts and historical processes. Examines Jews and Judaism as a lens for considering changes to religious life.

JEW ST 330 The Sages: Foundations of Classical Judaism (5) I&S *M. Ahuvia* Investigates the origins and foundation of classical Judaism by the Jewish sages (AKA the rabbis) in the context of the Bible's completion, the Romans' destruction of Jerusalem, and the emergence of Christianity. Discusses the rise of the rabbis, their stories and laws, and their Greco-Roman as well as Babylonian-Persian context. Offered: W.

JEW ST 336 American Jewish History Since 1885 (5) I&S Political, social, economic, religious history of American Jewish community from great eastern European migration to present. Integration of

immigrant community into general American community; rise of nativism; development of American socialism; World War I and II; and reactions of American Jews to these events. Offered: jointly with HSTAA 336.

JEW ST 337 The Holocaust and American Life (5) I&S, DIV In most accounts, "the Holocaust" is told as a European story, but it was also transatlantic. Incorporates film, literature, journalism, social scientific writing, diaries, court cases, and other primary sources to examine how events in Europe affected and were affected by developments in United States history. Offered: jointly with HSTAA 337.

JEW ST 339 Bioethics: Secular and Jewish Perspectives (3) I&S, DIV *Hadar Khazzam-Horovitz* Legal, ethical, scientific, and Jewish religious perspectives on contemporary medical and biomedical research practices. Legal and civil rights of women, people with disabilities, minors and minority or marginalized groups. Key differences between secular and Biblical/Rabbinic approaches in interpretation, analysis and application of bioethics, doctor-patient relationships; reproductive methods; abortion; euthanasia; and stem cell research. Offered: jointly with B H 339/NEAR E 328.

JEW ST 357 Jewish American Literature and Culture (5) VLPA, DIV *Butwin* Examines the literary and cultural production of American Jews from the colonial period to the present time. Considers ways in which American Jews assimilate and resist assimilation while Jewish writers, filmmakers, playwrights, and graphic novelists imitate and alter American life and literature. Offered: jointly with ENGL 357; AWSp.

JEW ST 358 Jewish Thought (5) I&S *N. PIANKO* Explores the historical context of major shifts in modern Jewish thought. Topics include the impact of the Enlightenment, Emancipation, the Holocaust, and the founding of the State of Israel on conceptions of Jewish theology, identity, and religious practice. Offered: jointly with HSTCMP 368; Sp.

JEW ST 360 Jews, Greeks, and Romans in the Ancient World (5) VLPA *Stroup* Examines the interactions between populations of Jews, Greeks, and Romans in the ancient Mediterranean from the

late Bronze Age through the early Talmudic period, informed by perspectives from literature (religious and secular), art, and archaeology. Offered: jointly with CLAS 360.

JEW ST 362 Food and Community: Cultural Practices in the Hispanic World (5) I&S *Ana M. Gomez-Bravo* Intersections of food and community in Hispanic cultures. Past and present practices. Food and material culture, urban design, foodways and gender roles, food and race, diet and hygiene, religious, and civic celebrations, and food preparation techniques. Offered: jointly with GEOG 373/SPAN 362; S.

JEW ST 367 Medieval Jewish History (5) I&S Social and intellectual history of the Jews in western Europe to the fifteenth century. Jews under Islam and Christianity; the church and the Jews; the Crusades and their legacy; intellectual achievements; conflict and cooperation. Offered: jointly with HSTAM 367.

JEW ST 368 Modern European Jewish History (5) I&S, DIV Surveys European Jewish history from the Spanish expulsion (1492) to World War I (1914). Considers diversity of European Jewries and the factors that cohered them. Examines how European Jewries ordered their lives, shaped gender and class norms, and interacted with the societies in which they lived. Offered: jointly with HSTEU 368.

JEW ST 369 The Jewish Twentieth Century in Film (5) I&S/VLPA, DIV *Stein* Surveys twentieth-century Jewish history in its European, American, and Middle Eastern contexts by examining films produced in these settings. Considers central events that shaped modern Jewish culture: the changing geography of Europe and the Middle East, mass migrations, the Holocaust, shifting meanings of race, culture, and religion. Offered: jointly with HSTCMP 369.

JEW ST 377 The American Jewish Community (5) I&S, DIV Examines how American Jews adapt to a changing world. Explores impact of diverse immigration, acculturation, social mobility, social justice movements, and changing relations between Jews and non-Jews. Encompasses concerns that all communities have adapting to change, when they are also agents of change. Offered: jointly with SOC 377.

JEW ST 378 Contemporary Jewish American Identities (5) I&S, DIV Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with SOC 378.

JEW ST 379 Doing Jewish Identity Studies (5) I&S *Friedman* Involves the student in researching the diverse Jewish identities of young people today. Includes background reading on Jewish identities in the United States; interviewing young Jewish adults; transcribing and interpreting interviews; and crafting a qualitative research paper. Covers research skills, as well as sensitivity to Jewish community values and concerns.

JEW ST 399 Study Abroad - Jewish Studies (1-5, max. 15) I&S For participants in study abroad program. Specific course content varies. Courses do not automatically apply to major/minor requirements.

JEW ST 418 Jewish Philosophy (5) I&S M. *ROSENTHAL* Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period - e.g., medieval or modern; or on a topic - e.g., reactions to the Enlightenment or to the Holocaust. Offered: jointly with PHIL 418.

JEW ST 427 Russian Jewish Experience (5) VLPA/I&S, DIV *A. Senderovich* Examines the experience of Russian Jews from the late 19th century to the present through fiction, films, memoirs, graphic novels set during the Bolshevik Revolution, Stalinism, the Holocaust, the Cold War, the post-Soviet era. Explores issues of identity, gender, class, place of Jews as individuals and as a minority within Russian & Soviet society, as well as Jewish-Russian emigration to USA, Israel and elsewhere at the turn of the 21st century. Offered: jointly with RUSS 427; A.

JEW ST 438 Jewish Women in Contemporary America (5) I&S, DIV *Friedman* Examines how Jewish women's identities are socially constructed and transformed in contemporary America, using social

histories, memoirs, and ethnographies to analyze scholars' approaches to Jewish women's lives. Topics include the role of social class, religion, migration, the Holocaust, and race relations in Jewish women's lives. Offered: jointly with GWSS 438.

JEW ST 459 History of Jewish-Muslim Relations (5) I&S, DIV Topics include Jews' and Muslims' linked encounters with empire, westernization, and nationalism; Jewish culture and identity in Islamic contexts migration and diasporic identities; the impact of Zionism, European Jewish settlement in Palestine, and the State of Israel on Jewish-Muslim relations in the Middle East and beyond; Islamophobia and antisemitism. Offered: jointly with HSTAFM 459.

JEW ST 460 Sephardic Culture before 1492 (5) VLPA/I&S *Ana M. Gomez-Bravo* Explores Sephardic art. Music, food, film, literature, citizenship and nationhood, identity, and the origins of Ladino, among other topics. Taught in English. Prerequisite: SPAN 303 or SPAN 316; SPAN 322. Offered: jointly with SPAN 460; W.

JEW ST 462 Anti-Semitism As a Cultural System (5) I&S, DIV Comparative study of various anti-Semitic cultural systems from ancient to modern times. Topics include how anti-Semitism can be defined as a cultural phenomenon; the conditions that explain the circulation of anti-Semitic traditions in a given society; the conditions under which social conflict with Jews becomes anti-Semitism.

JEW ST 463 Enlightenment, Emancipation, Antisemitism: History of the Jews, 1770-1914 (5) I&S, DIV The Jewish experience in the modern world from the European Enlightenment to the First World War. Focus on the debates surrounding Jewish emancipation, the reception of Jews within European society, modern antisemitism, nationalist movements, mass migration, and war.

JEW ST 465 The Jews of Eastern Europe (5) I&S Jewish society in Poland, Russia, the Hapsburg Lands, and Romania from the late Middle Ages to the Holocaust. Offered: jointly with HSTEU 465.

JEW ST 466 The Sephardic Diaspora: 1492-Present (5) I&S, DIV Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the

creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with HSTCMP 469.

JEW ST 468 The Jews in Spanish History (5) I&S
Sephardic Jews in Spanish politics, economy, and culture, emphasizing the medieval Golden Age and the Inquisition. Offered: jointly with HSTEU 464.

JEW ST 490 Advanced Topics in Jewish Studies (1-5, max. 15) I&S Content varies.

JEW ST 491 Seminar: Topics and Issues in Judaism (5) I&S Topics vary.

JEW ST 495 Seminar in Jewish Studies (5) I&S
History of Jewish Studies as an organized field of academic inquiry. Explores the implications for Jewish Studies of its present setting within the context of the humanities and the social sciences.

JEW ST 530 The Sages: Foundations of Classical Judaism (5) M. Ahuvia Investigates the origins and foundation of classical Judaism by the Jewish sages (AKA the rabbis) in the context of the Bible's completion, the Romans' destruction of Jerusalem, and the emergence of Christianity. Discusses the rise of the rabbis, their stories and laws, and their Greco-Roman as well as babylonian-persian context. Offered: W.

JEW ST 539 Bioethics: Secular and Jewish Perspectives (5) H. Khazzam-Horovitz Explores legal, ethical, scientific, and Biblical-Rabbinic & contemporary religious perspectives on contemporary medical and biomedical research practices. Review of key differences between secular and Jewish approaches in interpretation, analysis and application of bioethics. The topics include: doctor-patient relationships; reproductive methods; abortion; euthanasia; and stem cell research. Offered: jointly with B H 539.

JEW ST 558 Jewish Thought (5) N. PIANKO Explores the historical context of major shifts in modern Jewish thought. Topics include the impact of the Enlightenment, Emancipation, the Holocaust, and the founding of the State of Israel on conceptions of Jewish theology, identity, and religious practice. Offered: jointly with HSTCMP 568; Sp.

JEW ST 559 History of Jewish-Muslim Relations (5)
Topics include Jews' and Muslims' linked encounters with empire, westernization, and nationalism; Jewish culture and identity in Islamic contexts migration and diasporic identities; the impact of Zionism, European Jewish settlement in Palestine, and the State of Israel on Jewish-Muslim relations in the Middle East and beyond; Islamophobia and antisemitism. Offered: jointly with HSTAFM 559.

JEW ST 569 The Sephardic Diaspora: 1492-Present (5) Devin E Naar Examines the history and culture of Sephardic Jewry from the expulsion from the Iberian Peninsula in 1492 to the present. Explores the creation of Sephardic communities in the Dutch and Ottoman Empires, Western Europe, the Americas, and Africa, and the history of the conversos and "hidden Jews." Offered: jointly with HSTCMP 569.

LAW, SOCIETIES, AND JUSTICE

LSJ 200 Introduction to Law, Societies, and Justice (5) I&S Steve Herbert, Katherine Beckett Explores the central role of law in social processes; investigates the primary types of legal regimes and compares them across different national and international contexts; contrasts legal with non-legal forms of social ordering; investigates the structure and practice of human rights law.

LSJ 230 Introduction to Disability Studies (5) I&S, DIV J. WOIAK Introduces the field of disability studies. Focuses on the theoretical questions of how society predominantly understands disability and the social justice consequences. Examines biological, social, cultural, political, and economic determinants in the framing of disability. Offered: jointly with CHID 230/DIS ST 230.

LSJ 301 Internship (1-5, max. 5) Participation in an approved internship. Credit/no-credit only.

LSJ 310 Research in Law, Societies, and Justice (1-5, max. 15) I&S Supervised introductory individual and/or seminar-based research on some aspect of society and justice.

LSJ 320 The Politics and Law of International Human Rights (5) I&S, DIV J. Mayerfeld Studies the international human rights movement in its legal and political context. Focuses on institutions which

influence, enable, and constrain the international promotion of human rights. Offered: jointly with POL S 368.

LSJ 321 Human Rights Law in Culture and Practice (5) I&S, DIV Arzoo Osanloo Introduces the complexities of issues surrounding human rights. Examines human rights concerns through critical analyses, taking into account legal, social, economic, and historical variables. Offered: jointly with ANTH 323.

LSJ 322 Human Rights in Latin America (5) I&S, DIV A. Godoy Overview of human rights issues and their recent evolution in Latin American history; military dictatorships; contemporary challenges in the region's democracies. Human rights concerns in relation to broader sociopolitical context. Offered: jointly with JSIS A 324.

LSJ 327 Women's Rights as Human Rights (5) I&S, DIV Rachel A Cichowski Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law. Offered: jointly with POL S 327.

LSJ 329 Immigration, Citizenship, and Rights (5) I&S, DIV C. PINEDO-TURNOVSKY A sociological examination of citizenship. Focus on how immigration law and policies shape diverse meanings, practices, and statuses, of citizenship in varied context. Topics include migration theories, state control, stage of legal status, relationship to race and gender ideology, as well as labor and civil society, in shaping membership and rights.

LSJ 331 The Politics of Race and Ethnicity in the United States (5) I&S, DIV M. FRANCIS Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with POL S 317.

LSJ 332 Disability and Society (5, max. 15) I&S Concentrates on contemporary issues in disability studies, focusing on the thematic frameworks of rights, identities, values, and science/medicine. Offered: jointly with CHID 332/DIS ST 332.

LSJ 346 Disability in Global and Comparative Perspective (5) I&S, DIV Examines the meaning, politics, and experience of disability globally and locally in order to understand what is universal and what is particular to the disability experience in a diverse world. Human rights, inclusive development, and social movements approaches addressing the marginalization of disabled persons explored throughout. Offered: jointly with DIS ST 346/JSIS B 346.

LSJ 347 Politics of International Law (5) I&S G. Wallace Examines the development, design, and consequences of international law. Focuses on how international legal agreements constrain and enable both state and non-state actors across a range of issues, including economic affairs, the environment, human rights, and war. Offered: jointly with POL S 347.

LSJ 360 Introduction to United States Constitutional Law (5) I&S George I Lovell Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with POL S 360.

LSJ 361 United States Courts and Civil Liberty (5) I&S G. Lovell Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with POL S 361.

LSJ 363 Law in Society (5) I&S Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Offered: jointly with POL S 363.

LSJ 366 Comparative Law and Legal Cultures (5) I&S G. Barzilai Explores global issues of comparative law, societies, politics, courts, and cultures. Introduces theories and methods of comparing legal settings internationally and understating diverse responses to law. Covers what is comparative law; families of law; history of comparative law; judicial

review; legal cultures; rights consciousness; and regulation. Can not be taken for credit if student has already taken LSJ/POL S 367. Offered: jointly with JSIS B 366.

LSJ 367 Comparative Law and Courts (5) I&S R. *Cichowski* Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as on the functioning of supranational and international legal entities in the international system. May not be taken for credit if student has taken LSJ/JSIS B 366. Offered: jointly with POL S 367.

LSJ 370 Privacy (5) I&S S. *Pekkanen* Explores how individuals, corporations, and governments respond to privacy challenges in the digital age. Examines evolution of the idea of privacy using case studies of actual privacy policies, legal cases, and real-world situations. Covers legal, political, and social facets of this fundamental human issue. Offered: jointly with JSIS B 370/POL S 370; Sp.

LSJ 375 Crime, Politics, and Justice (5) I&S Examines role of police, courts, and corrections in criminal justice; investigates critical legal and sociological factors and perspectives that shape criminal procedure; considers the relationship between criminal procedure and wider concerns of justice and equality in society. Offered: jointly with SOC 372.

LSJ 376 Drugs and Society (5) I&S Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with SOC 376.

LSJ 377 Punishment: Theory and Practice (5) I&S Examines the philosophical reasoning that underlies punishment practices such as sentencing, imprisonment, or capital punishment. Considers policy issues in these areas in light of theories about morality and human nature. Helps students learn how to analyze punishment policies from ethical and philosophical perspectives.

LSJ 378 Policing the City (5) I&S S. *HERBERT* Investigates how and why formal and informal order is established in urban areas, how this order

produces advantages and disadvantages, and possibilities of alternative visions of order. Topics include formal means of control (zoning, laws, policing, building codes) and informal means of control (gossip, ostracism, peer pressure, local politics). Offered: jointly with GEOG 378; A.

LSJ 380 Contemporary Issues in Comparative Legal Institutions (5, max. 10) I&S Covers theoretical, empirical, and comparative aspects of such topics as socio-legal concepts, justice, legal policies, and the institutions of law.

LSJ 381 Contemporary Issues in Rights (5, max. 10) I&S Studies the theoretical, empirical, and comparative aspects of such topics as human rights, civil rights, and legal change.

LSJ 401 Field Experience in Law, Societies, and Justice (5) S. *HERBERT* Participant observation in a public or private agency relevant to the study of law, justice, human rights, or court systems.

LSJ 420 The Politics of Rights (5) I&S M. *McCann* Examines rights in practical and social interaction, rights as social conventions, relations of rights practices to official state policies, disputing practices, interest formation, and identity construction at individual and group levels. Explores how rights practices figure into the constellation of contested power relations within modern societies.

LSJ 421 Women's Rights and Politics in Islamic Society (5) I&S, DIV A. *OSANLOO* Human rights theory with women's legal rights and practice within context of the Islamic state. Introduction to debates regarding universality of human rights through examination of women's rights in Muslim context. Considers journalistic notions of homogeneity among Muslims, political nature of the Islamic state, and its mobilization of human rights. Offered: jointly with ANTH 498.

LSJ 422 Immigrants, Labor, and Legality (5) I&S, DIV C. *PINEDO-TURNOVSKY* Provides sociological examination of working immigrants in the United States. Focuses on how immigration and labor legislation shape context of working, worker identity, and rights. Topics include federal and state legislation, employee classification, division of labor, skilled/unskilled, flexibility, legal status, organizing,

and relationship to race and gender ideology in shaping contexts of working and rights.

LSJ 425 Domesticating International Human Rights: Perspectives on U.S. Asylum and Refugee Law (5)

I&S, DIV A. OSANLOO Examines the creation, production, and proliferation of law and legal categories relating to the status of refugees and asylum-seekers in the United States. Integrates anthropological perspectives of law's ability to create meaning in the examination of deeper implications of asylum and refugee law in American society. Offered: jointly with ANTH 497.

LSJ 426 Reconciliation: The Politics of Forgiveness in a Global Age (5) I&S, DIV A.

OSANLOO Draws on history of post-World War II conflict. Analyzes international mechanisms for reconciliation alongside philosophical and moral consideration. Combines occidental moral philosophies of secular human rights rooted with local knowledge and value systems. Surveys faith-based epistemologies underlying reconciliation processes. Prerequisite: either LSJ 320/POL S 368, LSJ 321/ANTH 323, LSJ 322/JSIS A 324, or PHIL 338.

LSJ 428 Women's Rights in an Integrated Europe (5)

I&S Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with POL S 415.

LSJ 430 Topics in Disability Studies (1-5, max. 15)

I&S Theoretical, critical, analytical, or comparative examination of an issue or issues in Disability Studies. Topics vary. Prerequisite: either DIS ST/CHID/LSJ 230, DIS ST 332, DIS ST 433, or DIS ST 434. Offered: jointly with CHID 430/DIS ST 430.

LSJ 431 Civil-Military Relations in Democracies (5)

I&S E. Kier Explores issues of civil-military relations in the United States including debates about the garrison state hypothesis; military advice on the use of force; the civil-military "gap"; and issues of race, gender, and sexual orientation in the military. Offered: jointly with POL S 430.

LSJ 433 Disability Law, Policy, and the Community

(5) I&S, DIV Addresses the history of legal rights of disabled people, U. S. disability policy, and the role

of community activism and other forces in policy development and systems change. Introduces the existing social service system that affects disabled people. Offered: jointly with CHID 433/DIS ST 433.

LSJ 434 Civil and Human Rights Law for Disabled People (5) I&S, DIV

Brown Expands knowledge of civil and human rights for disabled people. Examines the American perspective (ADA) as well as various international models including the United Nations' International Human Rights treaties as they relate to disabled people. Offered: jointly with CHID 434/DIS ST 434; A.

LSJ 437 Crime, Law, and Mental Illness (5) I&S, DIV

Explores experiences of those with mental illness in the criminal justice system and involuntary civil commitment system. Emphasis on societal responses including the emergence of therapeutic courts and specialized police training. Examines how courts, legislature, and communities balance public safety and civil liberties. Offered: jointly with CHID 437/DIS ST 437.

LSJ 438 Human Rights and International Development (5) I&S, DIV

S. Meyers Focuses on recent theoretical debates and innovations in the practice of applying human rights principles to international development. Uses case studies of groups historically marginalized in development policies, such as persons with disabilities, indigenous peoples, and older persons to understand the usefulness of course concepts.

LSJ 444 Ethics in Law and Justice (5) I&S

Applies ethical theories, research, and practice to the law and justice system, with the goals of: (1) analyzing the moral dimensions of criminal law; (2) studying ethical issues in law enforcement, adjudications, and corrections; and (3) examining a variety of controversial ethical issues associated with the justice system.

LSJ 456 Institutional Failure (5) I&S R. THORPE

Examines why political institutions fail to achieve their goals or operate in a manner they were originally intended to, and the consequences of these failures. Topics include the national security establishment, the drug war, concentrated poverty, mass incarceration, and inner-city schools. Offered: jointly with POL S 456.

LSJ 467 Law, Justice, and the Environment (5) I&S. *HERBERT* Examines the role law plays in shaping environmental policy. Challenges student to understand how environmental concerns are translated into legal discourse, and covers several typical issues that emerge in environmental law. Centers on active discussions. Offered: jointly with GEOG 467.

LSJ 469 Law and Rights in Authoritarian Regimes (5) I&S. *WHITING* Explores role of law and courts and nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with JSIS B 469/POL S 469.

LSJ 474 Geography and the Law (5) I&S. *HERBERT* Examines the relationship between geography, law, and socio-legal analysis; reviews significant instances where law and geography intersect, such as the regulation of public space, the regulation of borders and mobility, and disputes over property and land use. Offered: jointly with GEOG 474.

LSJ 476 Miscarriages of Justice (5) I&S Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice - wrongful conviction - occurs. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted-and sometimes even executed? Offered: jointly with SOC 476.

LSJ 478 The Experience of Incarceration (5) I&S. *Herbert* The United States incarcerates people at a higher rate than any other country and these individuals' daily lives largely escape any form of public awareness. This course is designed to help illuminate those lives. While prisons vary significantly, there are sufficient commonalities across U.S. prisons to allow meaningful exploration of what it means to be in a contemporary penal institution. We will undertake such an exploration in this class. Offered: A.

LSJ 480 Policing Modern Society (5) I&S Explores institution and practices of police in context of the rise of modern society, and considers the expanding presence of the police in everyday modern life. Topics include: history of policing, changing roles of

police, police reform, and ethical dilemmas intrinsic to the police function.

LSJ 488 Honors in Law, Societies, and Justice (5-) First of a two-course hyphenated sequence. To be completed with LSJ 489.

LSJ 489 Honors in Law, Societies, and Justice (-[1-5], max. 5) I&S Thesis research honors option. Second of a two-course hyphenated sequence. To be completed with LSJ 488.

LSJ 490 Special Topics in Comparative Legal Institutions (1-5, max. 15) I&S Focused, comparative examination of legal institutions.

LSJ 491 Special Topics in Rights (1-5, max. 15) I&S Focused, comparative examination of topics in rights.

LSJ 495 Study Abroad-Law, Societies, and Justice (3-5, max. 15) I&S Comparative studies abroad of legal institutions, rights, and justice as related to national settings. Specific course content determined by faculty member.

LSJ 499 Readings in Law, Societies, and Justice (1-5, max. 10) I&S Individual readings in law, societies, and justice.

LSJ 501 Law, Politics, and Society (5) *Beckett, Herbert, McCann* Provides a broad overview of, and introduction to, the interdisciplinary field of Law and Society Studies, including the historical development of law and society studies and an overview of its main concerns and questions.

LSJ 510 Topics in Law and Society Studies (3-5, max. 20) I&S Current topics in law and society studies.

LINGUISTICS

AMERICAN SIGN LANGUAGE

ASL 101 Elementary American Sign Language I (5) *Lance Forshay, Kristi G Winter* Introduction to American Sign Language using conversational methods. Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. First in a sequence of three. Offered: A.

ASL 102 Elementary American Sign Language II (5)
Kristi G Winter, Lance Forshay Focuses on building mastery of American Sign Language grammar skills, increasing vocabulary, and gaining a deeper knowledge and appreciation of deaf culture. Second in a sequence of three. Prerequisite: ASL 101. Offered: W.

ASL 103 Elementary American Sign Language III (5)
Lance Forshay, Kristi G Winter Focuses on grammatical features such as spatialization, directionality, and non-manual components. Intensive work in vocabulary development and continued study of deaf culture. Third in a series of three. Prerequisite: ASL 102. Offered: Sp.

ASL 134 Intensive First Year ASL (15) *Bateh, Forshay, Winter* Intensive introduction to American Sign Language using conversational methods and covering vocabulary, grammatical usage, and culturally appropriate behavior. Also focused on grammatical features such as spatialization, directionality, and non-manual components. Offered: S.

ASL 201 Intermediate American Sign Language I (5)
VLPA *Lance Forshay* Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. First in a series of three. Prerequisite: either ASL 103 or ASL 134. Offered: A.

ASL 202 Intermediate American Sign Language II (5)
VLPA *Lance Forshay* Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. Second in a series of three. Prerequisite: ASL 201. Offered: W.

ASL 203 Intermediate American Sign Language III (5)
VLPA *Kristi G Winter, Lance Forshay* Covers vocabulary, grammatical usage, and culturally appropriate behavior within the deaf community. Emphasizes receptive/expressive skill development and fluency with attention to correct formation of signs, movement, rhythm, phrasing, and clarity. Third in a series of three. Prerequisite: ASL 202. Offered: Sp.

ASL 234 Intensive Intermediate American Sign Language (15)
VLPA *Lance Forshay* Intensive second year American Sign Language using conversational methods and covering vocabulary, grammatical usage, and culturally appropriate behavior. Also focuses on grammatical features such as spatialization, directionality, and non-manual components. Prerequisite: ASL 103. Offered: S.

ASL 301 Advanced American Sign Language I (5)
VLPA This course is a non-sequential course in advanced study of American Sign Language (ASL) with emphasis on basic concepts of ASL linguistics. This is an application of linguistic theories in ASL in which students will gain an advanced understanding and mastery of ASL grammar, sociolinguistics, language variation in the Deaf community according to region, age, gender, minority groups and Deaf-Blind people. Prerequisite: ASL 203; recommended: ASL 203 Offered: A.

ASL 302 Advanced ASL II (5)
VLPA *L. Forshay* Non-sequential course in advanced study of American Sign Language (ASL) with emphasis on basic concepts of ASL linguistics. An application of linguistic theories in ASL in which students gain an advanced understanding and mastery of ASL grammar, sociolinguistics, language variation in the Deaf community according to region, age, gender, minority groups and Deaf-Blind people. Prerequisite: ASL 203 Offered: W.

ASL 303 Advanced ASL III (5)
VLPA *M. Cooper* Non-sequential course in advanced study of American Sign Language (ASL) with emphasis on basic concepts of ASL linguistics. An application of linguistic theories in ASL in which students will gain an advanced understanding and mastery of ASL grammar, sociolinguistics, language variation in the Deaf community according to region, age, gender, minority groups and Deaf-Blind people. Prerequisite: ASL 203; recommended: ASL 203 Offered: Sp.

ASL 305 Introduction to American Deaf Culture (3)
I&S, DIV *L. FORSHAY* Covers topics in Deaf culture, history, education, sociology, language, legal issues, art and literature, sensory variety and politics, audism, assistive technological devices, Deafhood, Deaf Blind, Deaf identity and intersections of diversity within the Deaf community, and other special topics analyzed from the Deaf culture worldview.

ASL 306 Deaf History (3) I&S Covers all major events impacting Deaf people, in Europe and America.

Topics include: development of sign language, deaf education, politics of deafness, audism, eugenics, hearing technology, leadership in deaf community, deaf revolution movements, international deaf history, and key biographies. Experience with American Sign Language not required.

ASL 334 Intensive Advanced American Sign Language (15) VLPA K. Winter Intensive course in advanced study of American Sign Language (ASL) with emphasis on basic concepts of ASL linguistics, Deaf cultural history and DeafBlind studies. An application of linguistic theories in ASL in which students gain an advanced understanding and mastery of ASL grammar, sociolinguistics, language variation in the Deaf community according to region, age, gender, minority groups and DeafBlind people. Prerequisite: ASL 203 or ASL 234; recommended: Two years of ASL at an institution of higher learning. Offered: S.

ASL 480 Special Topics in American Sign Language (3, max. 12) VLPA L. Forshay Introduction to an area of study in American Sign Language (ASL). Topics may include ASL linguistics, Pro-Tactile, Foreign Signed Languages, Deaf culture or other related topics. Recommended: Some background in American Sign Language. Offered: ASp.

ASL 495 Literature and Poetry (3) VLPA Emphasizes the historical background, story content, analysis of grammatical features, and discourse analysis to include a variety of sign registers and styles. Challenges and redefines the concept of literature with the visual-gestural nature of sign language using films and videos including: the Veditz's 1913 motion films collections; American Sign Language poetry works by Valli and Lentz; folktales; and humor. Prerequisite: ASL 202.

ASL 499 Independent Study or Research (1-3, max. 3) L. FORSHAY, K. WINTER Advanced study or research of a topic related to American Sign Language guided by a faculty member. Prerequisite: ASL 203; ASL 305.

LINGUISTICS

LING 100 Fundamentals of Grammar (5) VLPA Introduction to basic grammatical concepts and terminology. Specifically intended for students planning to take a foreign language or linguistics. Does not count toward the linguistics major or minor.

LING 101 Fundamentals of Pronunciation for Language Learners (5) VLPA Fundamentals of pronunciation for language learners. Introduces students to systematic characteristics of language sounds through examination of specific languages and their differences from English. Includes a laboratory component developing perceptual and productive skills of non-English sounds.

LING 200 Introduction to Linguistics (5) VLPA/I&S, QSR Language as the fundamental characteristic of the human species; diversity and complexity of human languages; phonological and grammatical analysis; dimensions of language use; and language acquisition and historical language change. Not open for credit to students who have completed LING 201 or LING 400.

LING 201 Introduction to Linguistic Theory and Analysis (5) VLPA/I&S, QSR Background and scope of modern linguistics; behaviorist versus rationalist theories of language; universal and cognitive aspects of language structure; interplay of genetic and social factors in language formation; linguistic analysis. Not open for credit to students who have completed LING 200.

LING 203 Introduction to Anthropological Linguistics (5) I&S/VLPA Linguistic methods and theories used within anthropology. Basic structural features of language; human language and animal communication compared; evidence for the innate nature of language. Language and culture: linguistic relativism, ethnography of communication, sociolinguistics. Language and nationalism, language politics in the United States and elsewhere. Offered: jointly with ANTH 203.

LING 210 Language and Thought (5) I&S *Laura W McGarrity* Investigates linguistic relativity, the extent to which language can impact non-linguistic cognitive processes. Evolution of the theory from its

historical origins to current research. Evidence for/against the theory drawn from cross-linguistic case studies. Offered: WSp.

LING 212 Infant Brain and Language Development (5) NW *Naja Ferjan Ramirez* Examines the interplay of biological and environmental factors in shaping language development in early childhood. Investigates how early language and brain growth are linked to children's opportunities to learn, affecting education and societies worldwide. Offered: Sp.

LING 220 Origins of the Germanic Languages (5) VLPA Introduction to basic grammatical concepts, terminology, and linguistics with emphasis on German-English relationship. Overview of phonology, morphology, syntax, and history of Germanic languages and people, both ancient and modern. Languages covered include Old, Middle, and New High German; English, Frisian, Dutch, Old Saxon, and Gothic. Taught in English. Offered: jointly with GERMAN 220.

LING 233 Introduction to Language and Society (5) VLPA, DIV *Evans, Wassink* Introduces the study of sociolects, the varieties of language that arise from differences in cultural and societal groups, often reflective of power inequalities. Raises awareness of the role that society and the individual play in shaping sociolects via the systematic observation and critical discussion of linguistic phenomena. Offered: jointly with ANTH 233/COM 233; A.

LING 234 Language and Diversity (5) I&S, DIV Advances students' knowledge of language and diversity in a global society, focusing on language and identity, multilingualism, language contact, language spread/variation, and language loss. Offered: WSp.

LING 242 Introduction to Meaning (5) VLPA Non-technical introduction to meaning in language and how it functions in communication and thinking. Discussion of how and why meanings of words change through time.

LING 269 Swearing and Taboo Language (5) I&S L. *MCGARRITY* Examines swear words and taboo language, both within and across cultures, investigating their linguistic, pragmatic, neurological, psychological, social, and legal aspects. Offered: ASP.

LING 270 Introduction to Perl Programming for Linguists (5) Bender Fundamental programming techniques, including data types, control flow, regular expressions, file handling, GUI design, and CGI interaction. Content relates to a variety of linguistic concepts including syntax, morphology, phonology, lexicon building and foreign language corpora. No previous programming necessary; however, a background in general linguistic theory is assumed. Offered: W.

LING 333 Linguistics and Society (3) VLPA/I&S Interaction of language, culture, and society, and the relationship of linguistic theory to societal problems. Ethical and political considerations involved in the application of linguistic theory.

LING 372 Language and Translation (5) VLPA *Tarlinskaja* Role of linguistic concepts in the process of translation from one language to another. Attention to both language universals and language particulars.

LING 373 Introduction to Localization and Project Management (5) Covers basic concepts of translation, localization, and internationalization. Explores rationales for localizing products; history and future of the industry; workflows, professional roles, and localization tools. Includes the application of central concepts of localization to real-life situations; and introduction to the basics of localization project management. Offered: jointly with FRENCH 373.

LING 374 Localization: Technology and Tools (5) Covers basic concepts of localization and internationalization. Examines how technology and tools are applied to solving translation and localization scenarios in the real world. Includes daily tasks and basic steps; machine translation; community localization; and experience with actual localization tools. Offered: jointly with FRENCH 374.

LING 390 Foreign Studies in Linguistics (1-15, max. 20) I&S For students who take linguistics courses while participating in a University of Washington study abroad program and for which there is no direct University of Washington equivalent.

LING 400 Survey of Linguistic Method and Theory (5) VLPA/I&S, QSR L. *MCGARRITY* Examines major linguistic theories in phonology, syntax and

semantics; linguistic analysis and argumentation. Not available for credit to students who have completed LING 200.

LING 401 The Linguistic, Philosophical, and Political Thought of Noam Chomsky (3) VLPA/I&S Relation of current work in Chomskyan linguistics to philosophical, psychological, political, and educational thought. Prerequisite: LING 200 or LING 400.

LING 402 Survey of the History of Linguistics (3) I&S/VLPA Main trends in linguistic theory and philosophy of linguistics from ancient times through advent of transformational-generative grammar. Includes nineteenth-century comparative and historical grammar, Prague school grammar, American structuralist grammar, major concerns of linguistics today. Prerequisite: LING 451.

LING 403 Linguistics of Signed Languages (5) VLPA Introduction to the phonological, morphological, and syntactic structure of American Sign Language. Topics include acquisition, sociolinguistics, neurolinguistics, lexicography, history, and culture. Knowledge of American Sign Language is not required. Prerequisite: LING 200, LING 203, or LING 400 Offered: W.

LING 404 Indo-European (3) VLPA Voyles Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

LING 405 Indo-European (3) VLPA Voyles Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

LING 406 Indo-European (3) VLPA Voyles Overview of the Indo-European languages, of comparative method, and of the phonology, morphology, and syntax of reconstructed Indo-European. Grammatical analyses and texts from various attested ancient and modern Indo-European languages, selected according to the interests of the students.

LING 407 Languages of the World (5) VLPA A survey of the world's languages, focusing on their syntactic, phonological, and morphological properties. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

LING 410 Historical Linguistics (5) VLPA Method and theory of historical and comparative linguistics. Problems of phonological, morphological, syntactic, and semantic change and reconstruction. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Instructors: Aldridge, Handel

LING 411 Native Languages and Language Families of Washington State (3) VLPA Survey of linguistic structures of Washington native languages. Language families consist of Salish, Wakashan, Chemakuan, Athabaskan, Chinookan, Sahaptian, Cayuse. Structure and origin of Chinook jargon. Prerequisite: LING 450; either LING 461 or LING 481. Instructors: Hargus

LING 412 Japanese Syntax and Semantics (5) VLPA T. OGIHARA Introduces issues in Japanese syntax and semantics. Emphasizes description generalizations, rather than theoretical proposals. Prerequisite: either LING 200 or LING 400; recommended: LING 461; at least two years of coursework in Japanese. Offered: jointly with JAPAN 442.

LING 415 History of the German Language (5) VLPA Traces the history of the German language from early Germanic to the present. Offered: jointly with GERMAN 452; W.

LING 416 History of the Chinese Language (5) VLPA E. Aldridge, Z. Handel Provides an overview of the phonology, morphology, and grammar of Old and Middle Chinese and the most significant changes that have taken place from Old to Modern Chinese. Prerequisite: either LING 200, ANTH 203/LING 203, CHIN 342, or CHIN 442; recommended: An introductory linguistics course Offered: A.

LING 419 Romance Linguistics Senior Essay (3) VLPA Capstone course for undergraduate Romance Linguistic majors.

LING 421 R for Linguists (5) QSR A. Wassink Introduction to the R programming language and environment for character processing, validation,

summarization, and visualization of linguistic data. Students learn to work with different datatypes (numeric, character strings, geographic information, lists) . Students produce scripts of utility to researchers in different linguistic subfields (including corpus linguistics, phonetics, sociolinguistics, syntax) . Prerequisite: LING 200 or LING 400; recommended: An introductory linguistics course. Offered: Sp.

LING 430 Pidgin and Creole Languages (5) VLPA/I&S

Explores aspects of the linguistic structure, history, and social context of pidgin and creole languages. Creolization as one possible outcome of language contact. Examines theories of creole genesis, similarities and differences between creole and non-creole languages. Prerequisite: either ANTH 203, LING 200, LING 201, LING 203, or LING 400. Instructors: Wassink Offered: jointly with ANTH 439.

LING 432 Sociolinguistics I (5) VLPA/I&S, DIV

Interrelationships between social and linguistic factors influencing variation in speech production and perception, morphology, syntax, lexicon. Considers contribution of ethnic, regional and socioeconomic group memberships to dialect differentiation and progression of language change. Nonstandard language, diglossia, pidgins, creoles, gender differences, bi- and multilingualism, ethnography of speaking, pragmatics, and language attitudes. Prerequisite: either LING 200 or LING 400. Instructors: Evans, Wassink Offered: jointly with ANTH 432.

LING 433 Sociolinguistics II (5) VLPA/I&S Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Instructors: Wassink Offered: jointly with ANTH 433.

LING 441 Language Processing and Development 1 (5) I&S/NW This course explores current research on language processing and development in adult native speakers and children, with a focus on sound and word-level representations. Topics include speech perception, word recognition, acquisition of phonology and word meanings, as well as a variety of methodologies that are used to study these mechanisms. Prerequisite: LING 200 or LING 400. Offered: A.

LING 442 Language Processing and Development 2 (5) I&S Overview of research on language processing and development in adult native speakers and children, with a focus on the sentence-level representations. Topics include processing of syntactic/semantic representations, development of morpho-syntax, semantics and pragmatics, as well as variety of methodologies for studying these mechanisms. Prerequisite: LING 200 or LING 400.

LING 446 English Phonology (3) VLPA Descriptively oriented approach to of English phonology and phonetics; dialect differences. Prerequisite: LING 450. Instructors: Hargus

LING 449 Second-Language Learning (5) VLPA Issues related to the linguistic aspects of second-language learning. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

LING 450 Introduction to Linguistic Phonetics (5)

VLPA/NW *S. HARGUS, A. WASSINK, R. WRIGHT* Introduction to the articulatory and acoustic correlates of phonological features. Issues covered include the mapping of dynamic events to static representations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisite: either LING 200 or LING 400.

LING 451 Phonology I (5) I&S/VLPA *Sharon L Hargus*

Patterning of sounds and gestures in human languages; analysis in generative phonological framework. Prerequisite: LING 450.

LING 452 Phonology II (5) I&S/VLPA *Sharon L Hargus*

Speech sounds, mechanism of their production, and structuring of sounds in languages; generative view of phonology; autosegmental and metrical phonology. Prerequisite: LING 451.

LING 453 Experimental Phonetics (5) VLPA/I&S/NW

Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 450. Instructors: Wright

LING 455 Areal Linguistics (3, max. 6) VLPA/I&S

Issues involved in classification of languages.

Systems of classification based on structure, word order, areal features. Ways in which languages may be classified for different purposes. Processes such as borrowing, vocabulary specialization, lexical change, and language death and revival.

Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 455.

LING 458 Language and Gender (5) VLPA/I&S, DIV

Survey of the theoretical trends, methods, and research findings on the relationship between language and gender. Focus on power relations in gendered language use. Extensive study of research based on conversational analysis. Prerequisite: LING 200; either LING 201, LING 203, or ANTH 203.

Offered: jointly with ANTH 450/GWSS 450.

LING 461 Syntax I (5) I&S/VLPA Barbara Citko

Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: either LING 200 or LING 400.

LING 462 Syntax II (5) VLPA/I&S Barbara Citko

Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 461.

LING 463 Syntax III (4) VLPA/I&S

Study of the structural properties of language; introduction to generative transformational syntax. Prerequisite: LING 462.

LING 464 Language Politics and Cultural Identity (3) VLPA/I&S

Theories and case studies of the power of language and how it is manipulated. Multilingualism, diglossia. Role of language and linguistics in nationalism. Standardization, educational policy, language and ethnicity. World languages, language death and revival. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400. Offered: jointly with ANTH 464.

LING 470 Discourse: Analyzing Talk and Texts (5) VLPA/I&S, DIV

A critical and practical introduction to contemporary theories/methods in discourse analysis: how verbal communication (together with visual communication) is used in conversational talk and mediated texts to construct identities and relationships; and how power and ideology are reproduced through these everyday social interactions. Offered: jointly with COM 470.

LING 471 Computational Methods for Linguists (5) QSR

Overview of methods for working with linguistic data in electronic form: electronic corpora, linguistic software tools, textual data formats, operating system fundamentals, and basic programming.

Prerequisite: either LING 450 or LING 461.

LING 472 Introduction to Computational Linguistics (5) VLPA/NW E. BENDER

Introduction to computational approaches to modeling language, for linguistic research and practical applications, including analyses at different levels of linguistic structure and symbolic as well as statistical approaches. Prerequisite: either LING 200 or LING 400; either LING 461 or CSE 311. Offered: jointly with CSE 472.

LING 473 Basics for Computational Linguistics (3)

Examines computer applications involving automatic processing of natural language speech or text by machines. Intended as preparation for CLMS core courses. Includes concepts from probability and statistics; formal grammars and languages; finite-state automata and transducers; review of algorithms and data structures; and software for using parallel server cluster. Prerequisite: CSE 326; STAT 391; programming in Perl, C, C++, Java, or Python. Offered: S.

LING 476 Philosophy of Language (5) VLPA/I&S

Current theories of meaning, reference, predication, and related concepts. Offered: jointly with PHIL 453.

LING 478 Semantics I (5) VLPA/NW

Introduction to the study of meaning as part of linguistic theory. Relation of semantics to syntax. Emphasis on formal semantics and pragmatics. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: LING 461.

Instructors: Ogihara

LING 479 Semantics II (3) VLPA/I&S/NW T. Ogihara

Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax. Prerequisite: LING 478 Offered: jointly with PHIL 479.

LING 480 Topics in Linguistics (3, max. 12) VLPA

Introduction to an area of linguistic study not covered by the regular departmental course offerings.

LING 481 Introduction to Morphology (5) VLPA S. *HARGUS* Structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: LING 450.

LING 484 Lexical Semantics and the Lexicon (3) VLPA Role of the lexicon in syntax and semantics. Topics include the syntax-lexicon mapping; theories of argument structure; complex predicate formation and lexical subordination; the lexicon and language acquisition; the role of the lexicon in linguistic theory; and the lexicon and sentence processing. Prerequisite: LING 461.

LING 490 Undergraduate Fieldwork (1-5, max. 15) Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Credit/no-credit only. Offered: AWSpS.

LING 499 Undergraduate Research (1-5, max. 10)

LING 501 Field Methods (3) Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

LING 502 Field Methods (3) Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 452, LING 462, or LING 508.

LING 503 Field Methods (3) Guided analysis of a language unfamiliar to all students of the class; construction of a grammar based on material elicited from native informant. Prerequisite: LING 453, LING 462, or permission of instructor.

LING 507 Syntactic Theory I (5) Barbara Citko Introduction to the principles and parameters model of syntactic theory. The lexicon and its relation to syntactic representations. Syntactic modules and principles. Problem solving.

LING 508 Syntactic Theory II (5) Barbara Citko Further explorations in principles and parameters syntax. Topics include logical form, island phenomena, locality restrictions, and licensing.

Prerequisite: LING 507 or permission of instructor. Offered: W.

LING 509 Syntactic Theory III (5) Barbara Citko Focus on primary readings in syntactic theory, from classic papers on constraints and the architecture of grammar to recently published articles. Prerequisite: LING 508 or permission of instructor. Offered: Sp.

LING 510 Introduction to Historical Linguistics (5) E. ALDRIDGE, Z. HANDEL Method and theory of historical linguistics. Covers phonological, syntactic, and semantic change. Also includes comparative reconstruction. Prerequisite: either LING 200, LING 201, ANTH/LING 203, or LING 400.

LING 514 Seminar in Comparative Linguistics (3) Nineteenth- and twentieth-century theories of phonological change. Prerequisite: LING 404 or permission of instructor. Instructors: Kaisse

LING 515 Topics in the History of Germanic Languages (5) Barrack, Voyles Topics in diachronic studies of Germanic languages such as Gothic, Old High German, Old Saxon.

LING 516 History of the Chinese Language (5) E. Aldridge, Z. Handel Provides an overview of the phonology, morphology, and grammar of Old and Middle Chinese and the most significant changes that have taken place from Old to Modern Chinese. Prerequisite: either LING 200, ANTH 203/LING 203, CHIN 342, or CHIN 442; recommended: An introductory linguistics course Offered: A.

LING 519 Mathematical Models of Grammar (3) Study of some mathematical models of language recognition, emphasizing context-free and context-sensitive grammars. Prerequisite: graduate standing in mathematics, linguistics, or psychology, or permission of instructor. Instructors: Ogihara

LING 520 Introduction to Statistics for Linguists (5) Introduction to statistical methods used in linguistics research. Focuses on understanding reports of statistical results and applying statistical methods to data sets. Prerequisite: LING 200 or LING 400; recommended: An introductory linguistics course. Offered: Sp.

LING 521 R for Linguists (5) A. *Wassink* Introduction to the R programming language and environment for character processing, validation, summarization, and visualization of linguistic data. Students learn to work with different datatypes (numeric, character strings, geographic information, lists) . Students produce scripts of utility to researchers in different linguistic subfields (including corpus linguistics, phonetics, sociolinguistics, syntax) . Prerequisite: LING 200 or LING 400; recommended: An introductory linguistics course. Offered: Sp.

LING 524 Seminar in Theoretical Linguistics (4, max. 8) Individual and joint research on selected topics in theoretical linguistics. Topics change each quarter. Typical topics are semantics, generative grammar, phonological theories. Prerequisite: LING 453, LING 463.

LING 525 Seminar in Theoretical Phonology (4, max. 12) Individual and joint research on selected topics in theoretical phonology. Topics vary. Typical offerings include phonology and the lexicon, syntax and phonology, phonological representations. Prerequisite: LING 452.

LING 530 Dialectology (3) The principles of dialect deviation as related to linguistic structure and usage. Prerequisite: LING 452, LING 462, LING 508, or permission of instructor. Offered: jointly with ANTH 530.

LING 531 Problems in Romance Linguistics (2-5, max. 15) Group seminar, or individual conferences are scheduled under this number to meet special needs. Prerequisite: permission of graduate program coordinator.

LING 532 Sociolinguistics I (5) Examines social variation in the phonology, morphology, syntax, and lexicon of languages and dialects. Includes nonstandard language, diglossia, pidgins and creoles, gender differences, bi- and multilingualism, ethnography of speaking, and language attitudes. Prerequisite: either LING 200 or LING 400. Instructors: Evans, Wassink Offered: jointly with ANTH 532; S.

LING 533 Topics and Methods in Sociolinguistic Theory (5) Examines field methods linguists use in socially oriented studies of language variation and change. Includes language attitudes, study of urban

dialects, syntactic variation, sampling and interview design. Discussion of issues related to recording, ethics, and analysis of large bodies of data. Prerequisite: LING 432. Instructors: Wassink

LING 534 Sociolinguistic Applications of Social Network Theory (5) Examines structure and content of social networks from a linguistic perspective. Reviews applications of graph theory and sociometry in sociolinguistics. Examines how language is embedded in personal networks and how the study of linkages between individuals can elucidate the regularity and direction of language change. Prerequisite: LING 400 and LING 432. Instructors: Wassink

LING 535 Advanced Sociolinguistics (5, max. 10) Explores perspective on language change and its mechanisms, understood in relation to the social context of language use in the speech community. Examines language-internal and -external motivations for change; phonological mergers and splits, chain-shifts, and diffusion of change through the lexicon. Prerequisite: LING 432 and LING 533. Instructors: Wassink

LING 541 Language Processing and Development 1 (5) Explores current research on language processing and development in adult native speakers and children, with a focus on sound and word-level representations. Topics include speech perception, word recognition, acquisition of phonology and word meanings, as well as a variety of methodologies that are used to study these mechanisms.

LING 542 Language Processing and Development 2 (5) Explores current research on language processing and development in adult native speakers and children, with a focus on the sentence-level representations. Topics include processing of syntactic/semantic representations, development of morpho-syntax, semantics and pragmatics, as well as a variety of methodologies that are used to study these mechanisms. Prerequisite: LING 200 OR LING 400. Offered: W.

LING 548 Second/Foreign Language Teaching Capstone Project (3-5) Involves a research (original or library) , materials development, or a teaching practicum. Offered: AWSpS.

LING 549 Second Language Learning (5) Issues related to the linguistic aspects of second language learning. Prerequisite: either LING 200, LING 201, LING 203, or LING 400. Offered: AS.

LING 550 Introduction to Linguistic Phonetics (5) Introduction to the articulatory and acoustic correlates of phonological features. Covers mapping of dynamic events to static presentations, phonetic evidence for phonological description, universal constraints on phonological structure, and implications of psychological speech-sound categorization for phonological theory. Prerequisite: either LING 200 or LING 400. Instructors: Wright, Wassink Offered: AWS.

LING 551 Phonology I: Introduction to Phonological Analysis (5) *Sharon L Hargus* Patterning of sounds and gestures in human languages; analysis in generative phonological framework. Prerequisite: LING 550 Offered: WSpS.

LING 552 Phonology II: Advanced Phonology (5) Optimality theory; phonetics-phonology interface. Prerequisite: LING 551. Instructors: Hargus, Kaisse

LING 553 Experimental Phonetics (5) Examines phonetic and phonological aspects of spoken language using experimental methods. Focuses on acoustic phonetics and speech perception. Significant time devoted to experimental design and hands-on data analysis techniques. Prerequisite: LING 550. Instructors: Wright Offered: A.

LING 554 Advanced Linguistic Phonetics (3, max. 9) Individual and joint projects on selected topics in theoretical and experimental phonetics. Topics may include articulatory timing, the phonetics phonology interface, and constraints and constraint interaction. Prerequisite: LING 450 or LING 452. Instructors: Wright, Wassink Offered: Sp.

LING 561 Advanced Syntax (2-3, max. 9) Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

LING 562 Advanced Syntax (2-3, max. 9) Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of

transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

LING 563 Advanced Syntax (2-3, max. 9) Advanced study in modern syntactic theory. Topics change each quarter. Typical topics are history of transformational grammar, anaphora, logical form. Prerequisite: LING 461, LING 462.

LING 565 Contrastive Linguistics (3) The attempt to look across linguistic systems for comparable and contrastive classes and subclasses. Problems of subcategorization and universal grammar. Three conceptually distinct models: structural, transfer grammar, generative. Prerequisite: LING 452, LING 463.

LING 566 Introduction to Syntax for Computational Linguistics (3) *Bender* Introduction to syntactic analysis and concepts with emphasis on the formally precise encoding in linguistic hypotheses and the design of grammars that can be scaled to practical applications. Coursework progressively builds up a consistent grammar for a fragment of English, while also considering data and phenomena from other languages. Offered: A.

LING 567 Knowledge Engineering for Deep Natural Language Processing (3) Techniques and theoretical issues relating to the development of knowledge engineering resources required for deep processing (symbolic or hybrid) , focusing on grammar engineering and semantic representations. Prerequisite: LING 566. Instructors: Bender

LING 570 Shallow Processing Techniques for Natural Language Processing (4) *Fei Xia* Techniques and algorithms for associating relatively surface-level structures and information with natural language corpora, including POS tagging, morphological analysis, preprocessing/segmentation, named-entity recognition, chunk parsing, and word-sense disambiguation. Examines linguistic resources that can be leveraged for these tasks (e.g., WordNet) . Prerequisite: a minimum grade of 2.7 in CSE 373; and either a minimum grade of 2.7 in MATH 394/STAT 394, a minimum grade of 3.0 in LING 473, or a passing grade on the CLMS placement exam. Offered: AW.

LING 571 Deep Processing Techniques for Natural Language Processing (4) *Gina-Anne Levow*

Algorithms for associating deep or elaborated linguistic structures with naturally occurring linguistic data (parsing/semantics/discourse) , and for producing natural language strings from input semantic representations (generation) . Prerequisite: a minimum grade of 2.7 in CSE 373; and either a minimum grade of 2.7 in MATH 394/STAT 394, a minimum grade of 3.0 in LING 473, or a passing grade on the CLMS placement exam. Offered: AW.

LING 572 Advanced Statistical Methods in Natural Language Processing (4) Covers several important machine learning algorithms for natural language processing including decision tree, kNN, Naive Bayes, transformation-based learning, support vector machine, maximum entropy and conditional random field. Students implement many of the algorithms and apply these algorithms to some NLP tasks." Prerequisite: LING 570. Instructors: Xia Offered: W.

LING 573 Natural Language Processing Systems and Applications (4) *G. LEVOW* Examines building coherent systems to handle practical applications. Particular topics vary. Possible topics include information retrieval/extraction, natural language query systems, dialogue systems, augmentative and alternative communications, computer-assisted language learning, language documentation, spell/grammar checking, and software localization. Prerequisite: LING 570, LING 571, LING 572. Offered: Sp.

LING 575 Topics in Computational Linguistics (3, max. 30) *E. BENDER* In-depth study of a particular area of computational linguistics, with hands-on experience. Prerequisite: LING 570 and 571, or permission of instructor. Offered: WSp.

LING 578 Semantic Theory I (5) Introduction to formal semantics and pragmatics. Basic skills for proposing compositional semantic rules for natural language data. Discussion of various semantic phenomena in natural language that are theoretically relevant. Prerequisite: graduate standing in Linguistics or permission of instructor. Instructors: Ogihara

LING 579 Semantic Theory II (5) Advanced introduction to the formal semantics of natural language. Emphasizes the interface between syntax and semantics. Prerequisite: LING 578

LING 580 Problems in Linguistics (2-4, max. 99.9)

Advanced study in current theories of syntax, semantics, phonology, or morphology. Can be repeated for credit.

LING 581 Morphology (5) Explores the structure of words and the processes by which they are formed. Morphological processes in a wide variety of languages. Prerequisite: either LING 450, LING 550, or equivalent.

LING 582 Capturing Brain Dynamics: A Combined Neuroscience and Engineering Approach (4) *A. LEE* Introduces methods for capturing brain dynamics using an emerging neuroimaging technique know as magnetoencephalography (MEG) . Uses techniques to examine perception and cognitive processes and their implications for future brain-computer-interface (BCI) design. Prepare students for interdisciplinary research in neuroscience and engineering. Offered: jointly with SPHSC 594; W.

LING 590 Graduate Fieldwork (1-10, max. 10) Individual consultation with faculty member and supervised practical experience in a broad range of industry, community, clinical settings dealing with linguistic issues. Offered: AWSpS.

LING 599 Linguistics Colloquium (1, max. 6) Seminar attended by faculty and graduate students to discuss research in progress and topics of general interest. Presentation of two seminars required for doctoral students. Prerequisite: permission of instructor.

LING 600 Independent Study or Research (*-)

LING 700 Master's Thesis (*-)

LING 800 Doctoral Dissertation (*-)

MATHEMATICS

MATH 098 Intermediate Algebra (0) Intermediate algebra equivalent to third semester of high school algebra. Includes linear equations and models, linear systems in two variables, quadratic equations, completing the square, graphing parabolas, inequalities, working with roots and radicals, distance formula, functions and graphs, exponential and logarithmic functions. Course awarded as

transfer equivalency only. Consult the Admissions Equivalency Guide website for more information.

MATH 100 Algebra (5) Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Offered: A.

MATH 102 Algebra (5) Similar to the first three terms of high school algebra. Assumes no previous experience in algebra. Open only to students [1] in the Educational Opportunity Program or [2] admitted with an entrance deficiency in mathematics. Prerequisite: minimum grade of 2.0 in MATH 100. Offered: AW.

MATH 103 Introduction to Elementary Functions (5) Continues the study of algebra begun in MATH 100 and MATH 102 with emphasis on functions (polynomial, rational, logarithmic, exponential, and trigonometric). Open only to students who have completed MATH 102. Prerequisite: minimum grade of 2.0 in MATH 102. Offered: WSp.

MATH 108 International Baccalaureate (IB) Mathematical Studies (5) NW Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

MATH 109 International Baccalaureate (IB) Standard Level Mathematics (5) NW Course awarded based on International Baccalaureate (IB) score. Consult the Admissions Exams for Credit website for more information.

MATH 111 Algebra with Applications (5) NW, QSR Use of graphs and algebraic functions as found in business and economics. Algebraic and graphical manipulations to solve problems. Exponential and logarithm functions; various applications to growth of money. Recommended: completion of Department of Mathematics' Guided Self-Placement. Offered: AWS.

MATH 112 Application of Calculus to Business and Economics (5) NW, QSR Rates of change, tangent, derivative, accumulation, area, integrals in specific contexts, particularly economics. Techniques of differentiation and integration. Application to

problem solving. Optimization. Credit does not apply toward a mathematics major. Prerequisite: minimum grade of 2.0 in MATH 111. Offered: WSp.

MATH 115 Study Abroad Mathematics 1 (1-10, max. 15) Mathematics courses taken through a UW approved study abroad program. Content varies and must be individually evaluated.

MATH 120 Precalculus (5) NW, QSR Basic properties of functions, graphs; with emphasis on linear, quadratic, trigonometric, exponential functions and their inverses. Emphasis on multi-step problem solving. Recommended: completion of Department of Mathematics' Guided Self-Placement. Offered: AWSpS.

MATH 124 Calculus with Analytic Geometry I (5) NW, QSR First quarter in calculus of functions of a single variable. Emphasizes differential calculus. Emphasizes applications and problem solving using the tools of calculus. Recommended: completion of Department of Mathematics' Guided Self-Placement. Offered: AWSpS.

MATH 125 Calculus with Analytic Geometry II (5) NW Second quarter in the calculus of functions of a single variable. Emphasizes integral calculus. Emphasizes applications and problem solving using the tools of calculus. Prerequisite: either minimum grade of 2.0 in MATH 124, score of 3 on AB advanced placement test, or score of 3 on BC advanced placement test. Offered: AWSpS.

MATH 126 Calculus with Analytic Geometry III (5) NW Third quarter in calculus sequence. Introduction to Taylor polynomials and Taylor series, vector geometry in three dimensions, introduction to multivariable differential calculus, double integrals in Cartesian and polar coordinates. Prerequisite: either a minimum grade of 2.0 in MATH 125, or a score of 4 on BC advanced placement test. Offered: AWSpS.

MATH 134 Accelerated [Honors] Calculus (5) NW, QSR Covers the material of MATH 124, MATH 125, MATH 126; MATH 307, MATH 308. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for MATH 124 after taking MATH 134. For students with above average preparation, interest, and ability in mathematics. Offered: A.

MATH 135 Accelerated [Honors] Calculus (5) NW
Covers the material of MATH 124, MATH125, MATH 126; MATH 307, MATH 308. First year of a two-year accelerated sequence. May receive advanced placement (AP) credit for MATH 125 after taking MATH 135. For students with above average preparation, interest, and ability in mathematics. Prerequisite: Minimum grade of 2.0 in MATH 134. Offered: W.

MATH 136 Accelerated [Honors] Calculus (5) NW
Covers the material of MATH 124, MATH 125, MATH 126; MATH 307, MATH 308. First year of a two-year accelerated sequence. May not receive credit for both MATH 126 and MATH 136. For students with above average preparation, interest, and ability in mathematics. Prerequisite: minimum grade of 2.0 in MATH 135. Offered: Sp.

MATH 180 Topics in Mathematics for Non-Science Majors (3/5, max. 10) NW Current topics in mathematics. Topics vary.

MATH 197 Problem Solving in Mathematics (2, max. 4) NW Lectures and problem sessions in mathematics with applications. Enrollment restricted to EOP students only. Credit/no-credit only. Offered: AWSp.

MATH 198 Special Topics in Mathematics (1-5, max. 15) Independent reading in math. Does not count as credit toward a math major. Credit/no-credit only. Offered: AWSpS.

MATH 215 Study Abroad Mathematics 2 (1-10, max. 15) Mathematics courses taken through a UW approved study abroad program. Content varies and must be individually evaluated.

MATH 300 Introduction to Mathematical Reasoning (3) NW Mathematical arguments and the writing of proofs in an elementary setting. Elementary set theory, elementary examples of functions and operations on functions, the principle of induction, counting, elementary number theory, elementary combinatorics, recurrence relations. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: AWSpS.

MATH 301 Elementary Number Theory (3) NW Brief introduction to some of the fundamental ideas of elementary number theory. Prerequisite: minimum

grade of 2.0 in MATH 126 and MATH 300, or minimum grade of 2.0 in MATH 136, or minimum grade of 2.0 in MATH 334.

MATH 307 Introduction to Differential Equations (3) NW Introductory course in ordinary differential equations. Includes first- and second-order equations and Laplace transform. Prerequisite: minimum grade of 2.0 in MATH 125. Offered: AWSpS.

MATH 308 Matrix Algebra with Applications (3) NW Systems of linear equations, vector spaces, matrices, subspaces, orthogonality, least squares, eigenvalues, eigenvectors, applications. For students in engineering, mathematics, and the sciences. Prerequisite: minimum grade of 2.0 in MATH 126. Offered: AWSpS.

MATH 309 Linear Analysis (3) NW First order systems of linear differential equations, Fourier series and partial differential equations, and the phase plane. Prerequisite: either a minimum grade of 2.0 in both MATH 307 and MATH 308 or minimum grade of 2.0 in MATH 136. Offered: AWSpS.

MATH 315 Study Abroad Mathematics 3 (1-10, max. 15) Mathematics courses taken through a UW approved study abroad program. Content varies and must be individually evaluated.

MATH 318 Advanced Linear Algebra Tools and Applications (3) Eigenvalues, eigenvectors, and diagonalization of matrices: nonnegative, symmetric, and positive semidefinite matrices. Orthogonality, singular value decomposition, complex matrices, infinite dimensional vector spaces, and vector spaces over finite fields. Applications to spectral graph theory, rankings, error correcting codes, linear regression, Fourier transforms, principal component analysis, and solving univariate polynomial equations. Prerequisite: a minimum grade of 3.0 in MATH 308.

MATH 324 Advanced Multivariable Calculus I (3) NW Topics include double and triple integrals, the chain rule, vector fields, line and surface integrals. Culminates in the theorems of Green and Stokes, along with the Divergence Theorem. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: AWSpS.

MATH 327 Introductory Real Analysis I (3) NW

Covers number systems, fields, order, the least upper bound property, sequences, limits, \liminf and \limsup , series, convergence tests, alternating series, absolute convergence, re-arrangements of series, continuous functions of a real variable, and uniform continuity. Prerequisite: a minimum grade of 2.0 in either MATH 300 or MATH 334. Offered: AWSpS.

MATH 328 Introductory Real Analysis II (3) NW

Limits and continuity of functions, sequences, series tests, absolute convergence, uniform convergence. Power series, improper integrals, uniform continuity, fundamental theorems on continuous functions, theory of the Riemann integral. Prerequisite: minimum grade of 2.0 in MATH 327.

MATH 334 Accelerated [Honors] Advanced Calculus

(5) NW Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 300, MATH 309, MATH 324, MATH 327, MATH 328, and MATH 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: either minimum grade of 2.0 in MATH 136, or minimum grade of 3.0 in all MATH 126 and MATH 307 and MATH 308. Offered: A.

MATH 335 Accelerated [Honors] Advanced Calculus

(5) NW Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 300, MATH 309, MATH 324, MATH 327, MATH 328, and MATH 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses. Prerequisite: minimum grade of 2.0 in MATH 334. Offered: W.

MATH 336 Accelerated [Honors] Advanced Calculus

(5) NW Introduction to proofs and rigor; uniform convergence, Fourier series and partial differential equations, vector calculus, complex variables. Students who complete this sequence are not required to take MATH 300, MATH 309, MATH 324, MATH 327, MATH 328, and MATH 427. Second year of an accelerated two-year sequence; prepares students for senior-level mathematics courses.

Prerequisite: minimum grade of 2.0 in MATH 335.

Offered: Sp.

MATH 340 Abstract Linear Algebra (3) NW

Linear algebra from a theoretical point of view. Abstract vector spaces and linear transformations, bases and linear independence, matrix representations, Jordan canonical form, linear functionals, dual space, bilinear forms and inner product spaces.

Prerequisite: minimum grade of 2.0 in MATH 334 or 2.0 in each of MATH 300 and MATH 308.

MATH 342 Art of Problem Solving (3) NW

Explores the artful side of problem-solving, with examples from various fields across mathematics, including combinatorics, number theory, algebra, geometry, probability, and analysis. Offered: A.

MATH 380 Intermediate Topics in Undergraduate Mathematics (3, max. 12) NW

Covers intermediate topics in undergraduate mathematics.

MATH 381 Discrete Mathematical Modeling (3) NW

Introduction to methods of discrete mathematics, including topics from graph theory, network flows, and combinatorics. Emphasis on these tools to formulate models and solve problems arising in variety of applications, such as computer science, biology, and management science. Prerequisite: minimum grade of 2.0 in either CSE 142, CSE 143, or AMATH 301; minimum grade of 2.0 in either MATH 136 or MATH 308. Offered: AW.

MATH 394 Probability I (3) NW

Axiomatic definitions of probability; random variables; conditional probability and Bayes' theorem; expectations and variance; named distributions: binomial, geometric, Poisson, uniform (discrete and continuous), normal and exponential; normal and Poisson approximations to binomial. Transformations of a single random variable. Markov and Chebyshev's inequality. Weak law of large numbers for finite variance. Prerequisite: either a minimum grade of 2.0 in MATH 126, or a minimum grade of 2.0 in MATH 136. Offered: jointly with STAT 394; AWS.

MATH 395 Probability II (3) NW

Jointly distributed random variables; conditional distributions and densities; conditional expectations and variance; covariance, correlation, and Cauchy-Schwarz inequality; bivariate normal distribution; multivariate transformations; moment generating

functions; sums of independent random variables; Central Limit Theorem; Chernoff's inequality; Jensen's inequality. Prerequisite: either a minimum grade of 2.0 in MATH 394/STAT 394, or a minimum grade of 2.0 in STAT 340. Offered: jointly with STAT 395; WSpS.

MATH 396 Finite Markov Chains and Monte-Carlo Methods (3) NW Finite Markov chains; stationary distributions; time reversals; classification of states; classical Markov chains; convergence in total variation distance and L2; spectral analysis; relaxation time; Monte Carlo techniques: rejection sampling, Metropolis-Hastings, Gibbs sampler, Glauber dynamics, hill climb and simulated annealing; harmonic functions and martingales for Markov chains. Prerequisite: a minimum grade of 2.0 in MATH 308; and either a minimum grade of 2.0 in MATH 394/STAT 394 and STAT 395/MATH 395, or a minimum grade of 2.0 in STAT 340 and STAT 341, or a minimum grade of 2.0 in STAT 340 and STAT 395/MATH 395. Offered: jointly with STAT 396; Sp.

MATH 398 Special Topics in Mathematics (1-5, max. 15) Independent reading in math. Does not count as credit toward a math major. Credit/no-credit only. Offered: AWSpS.

MATH 399 Undergraduate Research (1-5, max. 15) Research opportunity for undergraduates. Offered: AWSp.

MATH 402 Introduction to Modern Algebra (3) NW Elementary theory of groups: Cosets and Lagrange's theorem. Homomorphisms, normal subgroups, quotient groups, and the fundamental isomorphism theorems. Cyclic and symmetric groups. Orders and Cauchy's theorem. Direct products. Automorphisms. Prerequisite: either minimum grade of 2.0 in MATH 300 and MATH 308, or MATH 334. Offered: AS.

MATH 403 Introduction to Modern Algebra (3) NW Elementary theory of rings and fields: polynomial rings. Ideals, homomorphisms, quotients, and fundamental isomorphism theorems. Fields and maximal ideals. Euclidean rings. Field extensions. Algebraic extensions. Vector spaces and degrees of extensions. Adjoining roots of polynomials. Finite fields. Straight edge and compass constructions. Prerequisite: minimum grade of 2.0 in MATH 402. Offered: W.

MATH 404 Introduction to Modern Algebra (3) NW Topics in algebra chosen from Galois theory, theory of modules, geometric group actions, and the theory of rings and fields. Specific content determined by instructor. Prerequisite: minimum grade of 2.0 in MATH 403. Offered: Sp.

MATH 407 Linear Optimization (3) NW Maximization and minimization of linear functions subject to constraints consisting of linear equations and inequalities; linear programming and mathematical modeling. Simplex method, elementary games and duality. Prerequisite: minimum grade of 2.0 in either MATH 136, MATH 308, or AMATH 352. Offered: AW.

MATH 408 Nonlinear Optimization (3) NW Maximization and minimization of nonlinear functions, constrained and unconstrained; nonlinear programming problems and methods. Lagrange multipliers; Kuhn-Tucker conditions, convexity. Quadratic programming. Prerequisite: minimum grade of 2.0 in MATH 407 or MATH 464; minimum grade of 2.0 in either MATH 327 or MATH 334. Offered: W.

MATH 409 Discrete Optimization (3) NW Maximization and minimization problems in graphs and networks (shortest paths, minimum spanning trees, maximum flows, minimum cost flows); transportation and trans-shipment problems, NP-completeness. Prerequisite: minimum grade of 2.0 in MATH 407; and either a minimum grade of 2.0 in MATH 300, or a minimum grade of 2.0 in MATH 334. Offered: Sp.

MATH 411 Introduction to Modern Algebra with Applications I (3) NW Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Cannot be taken for credit if credit received for MATH 402 or MATH 403. Prerequisite: a minimum grade of 2.0 in either MATH 136 or MATH 308. Offered: AS.

MATH 412 Introduction to Modern Algebra with Applications II (3) NW Basic concepts of abstract algebra with an emphasis on problem solving, constructing proofs, and communication of mathematical ideas. Cannot be taken for credit if credit received for MATH 402 or MATH 403.

Prerequisite: a minimum grade of 2.0 in MATH 411.
Offered: WS.

MATH 415 Study Abroad Mathematics 4 (1-10, max. 15) Mathematics courses taken through a UW approved study abroad program. Content varies and must be individually evaluated.

MATH 420 History of Mathematics (3) NW Survey of the development of mathematics from its earliest beginnings through the first half of the twentieth century. Prerequisite: minimum grade of 2.0 in either MATH 126 or MATH 136. Offered: S.

MATH 424 Fundamental Concepts of Analysis (3) NW Focuses on functions of a real variable, including limits of functions, differentiation, Rolle's theorem, mean value theorems, Taylor's theorem, and the intermediate value theorem for derivatives. Riemann-Stieltjes integrals, change of variable, Fundamental Theorem of Calculus, and integration by parts. Sequences and series of functions, uniform convergence, and power series. Prerequisite: either a minimum grade of 2.0 in MATH 327, or a minimum grade of 2.0 in MATH 335. Offered: AWSpS.

MATH 425 Fundamental Concepts of Analysis (3) NW Introduction to metric spaces and multivariable differential calculus: Euclidean spaces, abstract metric spaces, compactness, Bolzano-Weierstrass property, sequences and their limits, Cauchy sequences and completeness, Heine-Borel Theorem, continuity, uniform continuity, connected sets and the intermediate value theorem. Derivatives of functions of several variables, chain rule, mean value theorem, inverse and implicit function theorems. Prerequisite: a minimum grade of 2.0 in either MATH 136 or MATH 308; and a minimum grade of 2.0 in either MATH 335 or MATH 424. Offered: WSp.

MATH 426 Fundamental Concepts of Analysis (3) NW Lebesgue measure on the reals. Construction of the Lebesgue integral and its basic properties. Monotone Convergence Theorem, Fatou's Lemma, and Dominated Convergence Theorem. Integration of series. Continuity and differentiability theorems for functions defined by integrals. Introduction to general measures and integration. Prerequisite: minimum grade of 2.0 in MATH 425. Offered: Sp.

MATH 427 Complex Analysis (3) NW Complex numbers; analytic functions; sequences and series;

complex integration; Cauchy integral formula; Taylor and Laurent series; uniform convergence; residue theory; conformal mapping. Topics chosen from: Fourier series and integrals, Laplace transforms, infinite products, complex dynamics; additional topics chose by instructor. Prerequisite: minimum grade of 2.0 in either MATH 327 or MATH 335. Offered: AS.

MATH 428 Complex Analysis (3) NW Continuation of MATH 427. Prerequisite: either minimum grade of 2.0 in MATH 427 or MATH 336 Offered: W.

MATH 441 Topology (3) NW Metric and topological spaces, convergence, continuity, finite products, connectedness, and compactness. Prerequisite: minimum grade of 2.0 in either MATH 327 or MATH 335. Offered: AS.

MATH 442 Differential Geometry (3) NW Examines curves in the plane and 3-spaces, surfaces in 3-space, tangent planes, first and second fundamental forms, curvature, the Gauss-Bonnet Theorem, and possible other selected topics. Prerequisite: either minimum grade of 2.0 in MATH 335, or a minimum grade of 2.0 in MATH 308 and a minimum grade of 2.0 in MATH 324; and minimum grade of 2.0 in MATH 441. Offered: W.

MATH 443 Differential Geometry (3) NW Further examines curves in the plane and 3-spaces, surfaces in 3-space, tangent planes, first and second fundamental forms, curvature, the Gauss-Bonnet Theorem, and possible other selected topics. Prerequisite: minimum grade of 2.0 in MATH 442. Offered: Sp.

MATH 444 Introduction to Geometries I (3) NW Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Prerequisite: either a minimum grade of 2.0 in MATH 334, or a minimum grade of 2.0 in MATH 300 and MATH 308. Offered: WS.

MATH 445 Introduction to Geometries II (3) NW Concepts of geometry from multiple approaches; discovery, formal and informal reasoning, transformations, coordinates, exploration using

computers and models. Topics selected from Euclidean plane and space geometry, spherical geometry, non-Euclidean geometries, fractal geometry. Prerequisite: a minimum grade of 2.0 in MATH 444. Offered: SpS.

MATH 461 Combinatorial Theory I (3) NW Basic counting techniques and combinatorial objects. Topics may include permutations, sets, multisets, compositions, partitions, graphs, generating functions, the inclusion-exclusion principle, bijective proofs, and recursions. Prerequisite: minimum grade of 2.0 in MATH 334, or minimum grade of 2.0 in MATH 300 and minimum grade of 2.0 in either MATH 136 or MATH 308.

MATH 462 Combinatorial Theory II (3) NW Structural theorems and methods in combinatorics, including those from extremal combinatorics and probabilistic combinatorics. Topics may include graphs, trees, posets, strategic games, polytopes, Ramsey theory, and matroids. Prerequisite: minimum grade of 2.0 in MATH 461 or CSE 421.

MATH 464 Numerical Analysis I (3) NW Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: minimum grade of 2.0 in either MATH 136, MATH 308, or MATH 335 Offered: A.

MATH 465 Numerical Analysis II (3) NW Basic principles of numerical analysis, classical interpolation and approximation formulas, finite differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: minimum grade of 2.0 in MATH 464. Offered: W.

MATH 466 Numerical Analysis III (3) NW Basic principles of numerical analysis, classical interpolation and approximation formulas, finite

differences and difference equations. Numerical methods in algebra, systems of linear equations, matrix inversion, successive approximations, iterative and relaxation methods. Numerical differentiation and integration. Solution of differential equations and systems of such equations. Prerequisite: minimum grade of 2.0 in either MATH 136, both MATH 307 and MATH 308, or MATH 335.

MATH 480 Advanced Topics in Undergraduate Mathematics (3, max. 12) Covers advanced topics in undergraduate mathematics.

MATH 491 Introduction to Stochastic Processes (3) NW Random walks, Markov chains, branching processes, Poisson process, point processes, birth and death processes, queuing theory, stationary processes. Prerequisite: minimum grade of 2.0 in MATH 394/STAT 394 and MATH 395/STAT 395, or minimum grade of 2.0 in STAT 340 and STAT 341 and MATH 396/STAT 396. Offered: jointly with STAT 491; A.

MATH 492 Stochastic Calculus for Option Pricing (3) NW Introductory stochastic calculus mathematical foundation for pricing options and derivatives. Basic stochastic analysis tools, including stochastic integrals, stochastic differential equations, Ito's formula, theorems of Girsanov and Feynman-Kac, Black-Scholes option pricing, American and exotic options, bond options. Prerequisite: minimum grade of 2.0 in either STAT 395/MATH 395, or a minimum grade of 2.0 in STAT 340 and STAT 341. Offered: jointly with STAT 492.

MATH 496 Honors Senior Thesis (1-5) NW Problem seminar for Honors students. Cannot be repeated for credit. Offered: AWSp.

MATH 497 Special Topics in Mathematics for Teachers (2-9, max. 9) NW Study of selected areas of mathematics. Designed for the improvement of teachers of mathematics. Offered: jointly with EDC&I 478.

MATH 498 Special Topics in Mathematics (1-5, max. 15) Reading and lecture course intended for special needs of advanced students. Offered: AWSpS.

MATH 499 Undergraduate Research (8) NW

Summer research opportunity for undergraduates. Credit/no-credit only. Offered: S.

MATH 504 Modern Algebra (5) First quarter of a three-quarter sequence covering group theory; field theory and Galois theory; commutative rings and modules, linear algebra, theory of forms; representation theory, associative rings and modules; commutative algebra and elementary algebraic geometry. Prerequisite: MATH 404 or equivalent.

MATH 505 Modern Algebra (5) Continuation of MATH 504. Prerequisite: MATH 504.

MATH 506 Modern Algebra (5) Continuation of MATH 505. Prerequisite: MATH 505.

MATH 507 Algebraic Structures (3) First quarter of a three-quarter sequence covering homological algebra, advanced commutative algebra, and Lie algebras and representation theory. Specific topics include chain complexes, resolutions and derived functors, dimension theory, Cohen-Macaulay modules, Gorenstein rings, local cohomology, local duality, triangulated and derived categories, group cohomology, and structure and representation. Prerequisite: MATH 506 or equivalent.

MATH 508 Algebraic Structures (3) Second quarter of a three-quarter sequence covering homological algebra, advanced commutative algebra, and Lie algebras and representation theory. Specific topics include chain complexes, resolutions and derived functors, dimension theory, Cohen-Macaulay modules, Gorenstein rings, local cohomology, local duality, triangulated and derived categories, group cohomology, and structure and representation. Prerequisite: MATH 506.

MATH 509 Algebraic Structures (3) Third quarter of a three-quarter sequence covering homological algebra, advanced commutative algebra, and Lie algebras and representation theory. Specific topics include chain complexes, resolutions and derived functors, dimension theory, Cohen-Macaulay modules, Gorenstein rings, local cohomology, local duality, triangulated and derived categories, group cohomology, and structure and representation. Prerequisite: MATH 506.

MATH 510 Seminar in Algebra (2-5, max. 12)

Prerequisite: permission of Graduate Program Coordinator. Credit/no-credit only.

MATH 514 Networks and Combinatorial Optimization (3) Mathematical foundations of combinatorial and network optimization with an emphasis on structure and algorithms with proofs. Topics include combinatorial and geometric methods for optimization of network flows, matching, traveling salesmen problem, cuts, and stable sets on graphs. Special emphasis on connections to linear and integer programming, duality theory, total unimodularity, and matroids. Prerequisite: either MATH 308 or AMATH 352 any additional 400-level mathematics course. Offered: jointly with AMATH 514.

MATH 515 Optimization: Fundamentals and Applications (5) Maximization and minimization of functions of finitely many variables subject to constraints. Basic problem types and examples of applications; linear, convex, smooth, and nonsmooth programming. Optimality conditions. Saddlepoints and dual problems. Penalties, decomposition. Overview of computational approaches. Prerequisite: Proficiency in linear algebra and advanced calculus/analysis; recommended: Strongly recommended: probability and statistics. Desirable: optimization, e.g. Math 408, and scientific programming experience in Matlab, Julia or Python. Offered: jointly with AMATH 515/IND E 515.

MATH 516 Numerical Optimization (3) Methods of solving optimization problems in finitely many variables, with or without constraints. Steepest descent, quasi-Newton methods. Quadratic programming and complementarity. Exact penalty methods, multiplier methods. Sequential quadratic programming. Cutting planes and nonsmooth optimization. Offered: jointly with AMATH 516.

MATH 518 Theory of Optimal Control (3)

Trajectories from ordinary differential equations with control variables. Controllability, optimality, maximum principle. Relaxation and existence of solutions. Techniques of nonsmooth analysis. Prerequisite: real analysis on the level of MATH 426; background in optimization corresponding to MATH 515. Offered: jointly with AMATH 518.

MATH 521 Advanced Probability (3) Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 521; A.

MATH 522 Advanced Probability (3) Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 522; W.

MATH 523 Advanced Probability (3) Measure theory and integration, independence, laws of large numbers. Fourier analysis of distributions, central limit problem and infinitely divisible laws, conditional expectations, martingales. Prerequisite: either MATH 426 or MATH 576. Offered: jointly with STAT 523; Sp.

MATH 524 Real Analysis (5) First quarter of a three-quarter sequence covering the theory of measure and integration, point set topology, Banach spaces, L_p spaces, applications to the theory of functions of one and several real variables. Additional topics to be chosen by instructor. Prerequisite: MATH 426 or equivalent.

MATH 525 Real Analysis (5) Continuation of MATH 524. Prerequisite: MATH 524.

MATH 526 Real Analysis (5) Continuation of MATH 525. Prerequisite: MATH 525.

MATH 527 Functional Analysis (3) First of three-quarter sequence. Review of Banach, Hilbert, and L_p spaces; locally convex spaces (duality and separation theory, distributions, and function spaces); operators on locally convex spaces (adjoints, closed graph/open mapping and Banach-Steinhaus theorems); Banach algebras (spectral theory, elementary applications); spectral theorem for Hilbert space operators. Working knowledge of real variables, general topology, complex variables.

MATH 528 Functional Analysis (3) Continuation of MATH 527. Prerequisite: MATH 527.

MATH 529 Functional Analysis (3) Continuation of MATH 528. Prerequisite: MATH 528.

MATH 530 Seminar in Analysis (2-5, max. 12) Prerequisite: permission of graduate program coordinator. Credit/no-credit only.

MATH 534 Complex Analysis (5) First quarter of a three-quarter sequence covering complex numbers, analytic functions, contour integration, power series, analytic continuation, sequences of analytic functions, conformal mapping of simply connected regions, and related topics. Prerequisite: MATH 426.

MATH 535 Complex Analysis (5) Continuation of MATH 534. Prerequisite: MATH 534.

MATH 536 Complex Analysis (5) Continuation of MATH 535. Prerequisite: MATH 535.

MATH 544 Topology and Geometry of Manifolds (5) First quarter of a three-quarter sequence covering general topology, the fundamental group, covering spaces, topological and differentiable manifolds, vector fields, flows, the Frobenius theorem, Lie groups, homogeneous spaces, tensor fields, differential forms, Stokes's theorem, deRham cohomology. Prerequisite: MATH 404 and MATH 426 or equivalent.

MATH 545 Topology and Geometry of Manifolds (5) Continuation of MATH 544. Prerequisite: MATH 544.

MATH 546 Topology and Geometry of Manifolds (5) Continuation of MATH 545. Prerequisite: MATH 545.

MATH 547 Geometric Structures (3, max. 9) First quarter of a three-quarter sequence covering differential-geometric structures on manifolds, Riemannian metrics, geodesics, covariant differentiation, curvature, Jacobi fields, Gauss-Bonnet theorem. Additional topics to be chosen by the instructor, such as connections in vector bundles and principal bundles, symplectic geometry, Riemannian comparison theorems, symmetric spaces, complex manifolds, Hodge theory. Prerequisite: MATH 546

MATH 548 Geometric Structures (3, max. 9) Continuation of MATH 547. Prerequisite: MATH 547.

MATH 549 Geometric Structures (3, max. 9)

Continuation of MATH 548. Prerequisite: MATH 548.

MATH 550 Seminar in Geometry (2-5, max. 12)

Prerequisite: permission of Graduate Program Coordinator. Credit/no-credit only.

MATH 554 Linear Analysis (5) First quarter of a three-quarter sequence covering advanced linear algebra and matrix analysis, ordinary differential equations (existence and uniqueness theory, linear systems, numerical approximations), Fourier analysis, introductions to functional analysis and partial differential equations, distribution theory. Prerequisite: MATH 426 and familiarity with complex analysis at the level of MATH 427 (the latter may be obtained concurrently).

MATH 555 Linear Analysis (5) Continuation of MATH 554. Prerequisite: MATH 554.

MATH 556 Linear Analysis (5) Continuation of MATH 555. Prerequisite: MATH 555.

MATH 557 Introduction to Partial Differential Equations (3)

First quarter of a three-quarter sequence. Reviews the theory of distribution theory, weak derivatives, and Fourier transform; Laplace, heat, wave, Schrodinger equations; and notion of Euler-Lagrange equation and variational derivative. Prerequisite: either MATH 526 or MATH 556.

MATH 558 Introduction to Partial Differential Equations (3)

Continuation of MATH 557. Covers Sobolev spaces; boundary value problems; additional topics may include: Cauchy-Kowalevski theorem, first order equations, initial value problems, and variational methods. Prerequisite: MATH 557.

MATH 559 Introduction to Partial Differential Equations (3)

Continuation of MATH 558. Covers selected topics such as: introduction to microlocal analysis, Lax parametrix construction, Schauder estimates, Calderon-Zygmund theory, energy methods, and boundary regularity on rough domains. Prerequisite: MATH 558.

MATH 561 Foundations of Combinatorics (3) First quarter of a three-quarter sequence on combinatorics, covering topics selected from among

enumeration, generating functions, ordered structures, graph theory, algebraic combinatorics, geometric combinatorics, and extremal and probabilistic combinatorics. Prerequisite: familiarity with linear algebra, discrete probability, and MATH 504, 505, 506, which may be taken concurrently.

MATH 562 Foundations of Combinatorics (3) Second quarter of a three-quarter sequence on combinatorics, covering topics selected from among enumeration, generating functions, ordered structures, graph theory, algebraic combinatorics, geometric combinatorics, and extremal and probabilistic combinatorics. Prerequisite: MATH 561.

MATH 563 Foundations of Combinatorics (3) Third quarter of a three-quarter sequence on combinatorics, covering topics selected from among enumeration, generating functions, ordered structures, graph theory, algebraic combinatorics, geometric combinatorics, and extremal and probabilistic combinatorics. Prerequisite: MATH 562.

MATH 564 Algebraic Topology (3) First quarter of a three-quarter sequence covering classical and modern approaches; complexes and their homology theory; applications; fixed points, products and Poincare duality; axiomatic approach. Prerequisite: MATH 506 and MATH 544, or equivalent.

MATH 565 Algebraic Topology (3) Continuation of MATH 564. Prerequisite: MATH 564.

MATH 566 Algebraic Topology (3) Continuation of MATH 565. Prerequisite: MATH 565.

MATH 567 Algebraic Geometry (3) First quarter of a three-quarter sequence covering the basic theory of affine and projective varieties, rings of functions, the Hilbert Nullstellensatz, localization, and dimension; the theory of algebraic curves, divisors, cohomology, genus, and the Riemann-Roch theorem; and related topics. Prerequisite: MATH 506.

MATH 568 Algebraic Geometry (3) Continuation of MATH 567. Prerequisite: MATH 567.

MATH 569 Algebraic Geometry (3) Continuation of MATH 568. Prerequisite: MATH 568.

MATH 570 Seminar in Topology (2-5, max. 12)

Prerequisite: permission of graduate program coordinator. Credit/no-credit only.

MATH 574 Fundamental Concepts of Analysis (3)

Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

MATH 575 Fundamental Concepts of Analysis (3)

Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

MATH 576 Fundamental Concepts of Analysis (3)

Sets, real numbers, topology of metric spaces, normed linear spaces, multivariable calculus from an advanced viewpoint. Introduction to Lebesgue measure and integration. Intended for students in biostatistics and related fields; does not fulfill requirements for degrees in mathematics.

MATH 577 Lie Groups and Lie Algebras (3, max. 9)

Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

MATH 578 Lie Groups and Lie Algebras (3, max. 9)

Topics chosen from: root systems and reflection groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

MATH 579 Lie Groups and Lie Algebras (3, max. 9)

Topics chosen from: root systems and reflection

groups; the structure, classification, and representation theory of complex semisimple Lie algebras, compact Lie groups, or semisimple Lie groups; algebraic groups; enveloping algebras; infinite-dimensional representation theory of Lie groups and Lie algebras; harmonic analysis on Lie groups. Prerequisite: MATH 506; MATH 526 or MATH 546.

MATH 580 Current Topics in Mathematics (2, max. 12)

Discussion of current research topics in mathematics, with emphasis on current departmental research projects and interests. Offered: AWSp.

MATH 581 Special Topics in Mathematics (1-5, max. 36)

Advanced topics in various areas of mathematics. Offered: A.

MATH 582 Special Topics in Mathematics (1-5, max. 36)

Advanced topics in various areas of mathematics. Offered: W.

MATH 583 Special Topics in Mathematics (1-5, max. 36)

Advanced topics in various areas of mathematics. Offered: Sp.

MATH 584 Applied Linear Algebra and Introductory Numerical Analysis (5)

Numerical methods for solving linear systems of equations, linear least squares problems, matrix eigen value problems, nonlinear systems of equations, interpolation, quadrature, and initial value ordinary differential equations. Prerequisite: either a course in linear algebra or permission of instructor. Offered: jointly with AMATH 584; A.

MATH 585 Numerical Analysis of Boundary Value Problems (5)

Numerical methods for steady-state differential equations. Two-point boundary value problems and elliptic equations. Iterative methods for sparse symmetric and non-symmetric linear systems: conjugate-gradients, preconditioners. Prerequisite: either AMATH 581, AMATH 584/MATH 584, or permission of instructor. Offered: jointly with AMATH 585; W.

MATH 586 Numerical Analysis of Time Dependent Problems (5)

Numerical methods for time-dependent differential equations, including explicit and implicit methods for hyperbolic and parabolic equations. Stability, accuracy, and convergence

theory. Spectral and pseudospectral methods.
Prerequisite: either AMATH 581, AMATH 584/MATH 584, AMATH 585/MATH 585, or permission of instructor. Offered: jointly with AMATH 586/ATM S 581; Sp.

MATH 590 Seminar in Probability (2-5, max. 12)

Prerequisite: permission of instructor. Credit/no-credit only.

MATH 597 Seminar on Teaching Math (1, max. 3)

Issues in the teaching and learning of college mathematics, such as discovering and working with student background and expectations, increasing student engagement with course material, and evaluating student achievement. For graduate students who are, or soon will be, teaching mathematics courses on their own. Credit/no-credit only.

MATH 600 Independent Study or Research (*-)

MATH 700 Master's Thesis (*-)

MATH 800 Doctoral Dissertation (*-)

MUSIC

MUSIC

MUSIC 113 Pre-Core Ear Training (0-1, max. 1)

VLPA *Bernard, Durand, Hodge* Pre-core course in musicianship. Offered: ASp.

MUSIC 116 Elementary Music Theory (2) VLPA

For nonmusic majors. For people with no hands-on music experience. Rudiments of music; notation of time, small pitch structures (e.g., some scales, chords, rhythmic patterns) , some analysis.

MUSIC 117 Elementary Music Theory (2) VLPA

For nonmusic majors. For students who can read music, having some performance experience. Prerequisite: MUSIC 116.

MUSIC 118 Elementary Music Theory (2) VLPA

For nonmusic majors. For students who read music, have some performance experience, are familiar with scales, chords, intervals. Includes analysis of composition in various styles. Prerequisite: MUSIC 117.

MUSIC 119 Introduction to Music Theory and Musicianship (3) VLPA

Bernard, Durand, Hodge Basic elements of music theory: introduction to acoustics, major and minor scales, triads and seventh chords, keys, four-part writing, functional harmony, modes, simple forms, and jazz notation. Offered: A.

MUSIC 120 Survey of Music (5) VLPA

Studies in listening, with emphasis on the changing components of Western art music. Illustrated lectures, laboratory section meetings, and presentations by guest artists.

MUSIC 121 The Orchestra (2) VLPA

Development of the orchestra and its literature.

MUSIC 122 The Opera (2) VLPA

An introduction to opera through selected masterworks, from Monteverdi to the present. Primarily for nonmajors.

MUSIC 131 History of Jazz (5) VLPA

Extensive overview of important musicians, composers, arrangers, and stylistic periods of jazz history from emergence of the first jazz bands at the turn of the twentieth century through post-modern bebop era of the 1990s.

MUSIC 160 American Folk Music (5) VLPA, DIV

Explores the U.S. as a complex multicultural society through folk music traditions of European Americans, African Americans, Asian Americans, Native Americans, Mexican Americans, and Jewish Americans. How racial, ethnic, and cultural groups have influenced each other and the power dynamics; historical/contemporary inequities in race, ethnicity, class, national origin, and immigration status. Folk music as a means of protesting social injustices.

MUSIC 161 American Musical Theater (5) VLPA

Historical and stylistic study of the development of the American musical theater. European roots in opera and operetta. Contributions from jazz and popular music. Selected musicals studied.

MUSIC 162 American Popular Song (5) VLPA

Historical, social, and stylistic study of popular idioms from the late nineteenth century to the present. Most attention to contemporary idioms (rock, country-western, soul, hip-hop) . Various facets of the industry examined to learn how they influence taste and musical style.

MUSIC 185 The Concert Season (2) VLPA

Performances from the School of Music concert season, supplemented by lecture topics related to concert repertoire. Analysis of applicable musical topics appropriate for enhanced appreciation of historical and cultural contexts of works performed. Attendance at ten concerts required.

MUSIC 191 Composition (3, max. 9) VLPA One-hour private instruction and one-hour laboratory session each week. Intended to develop skill in creative musical expression. For composition majors only.

MUSIC 200 Music, Child, and Family (3)

VLPA Campbell Study of music in childhood as part of socialization and enculturation of the child within family and community. Emphasis given to songs and music listening experiences provided by parents to nurture the child's musical, social, and intellectual development from infancy through middle childhood. For nonmajors.

MUSIC 201 First-Year Theory I (3) VLPA Introduction to tonal harmony and counterpoint; triadic progressions in root position; first and second species counterpoint; analysis of simple works. Prerequisite: minimum grade of 2.0 in MUSIC 119. Instructors: Bernard, Durand, Hodge Offered: W.

MUSIC 202 First-Year Theory II (3) VLPA Continued instruction in tonal harmony and counterpoint; triadic progressions with inversions; third and fourth species counterpoint; further analysis of basic forms. Prerequisite: minimum grade of 2.0 in MUSIC 201. Instructors: Bernard, Durand, Hodge Offered: Sp.

MUSIC 203 First-Year Theory III (3) VLPA Further introduction in tonal harmony and counterpoint; seventh chords; modulations to closely related keys; secondary dominants; introduction to chromaticism; emphasis on analysis and writing of four-part chorales in early eighteenth-century style. Prerequisite: minimum grade of 2.0 in MUSIC 202. Instructors: Bernard, Durand, Hodge Offered: A.

MUSIC 204 First-Year Ear Training I (0-1, max. 1)

VLPA Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in MUSIC 113; corequisite: MUSIC 201. Instructors: Bernard, Durand, Hodge Offered: W.

MUSIC 205 First-Year Ear Training II (0-1, max. 1)

VLPA Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in MUSIC 204; corequisite: MUSIC 202. Instructors: Bernard, Durand, Hodge Offered: Sp.

MUSIC 206 First-Year Ear Training III (0-1, max. 1)

VLPA Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in MUSIC 205; corequisite: MUSIC 203. Instructors: Bernard, Durand, Hodge Offered: AWSp.

MUSIC 216 Introductory Composition (2) VLPA

For students not majoring in composition. Prerequisite: MUSIC 119 and MUSIC 120.

MUSIC 217 Introductory Composition (2) VLPA

For students not majoring in composition. Prerequisite: MUSIC 216.

MUSIC 218 Introductory Composition (2) VLPA

For students not majoring in composition. Prerequisite: MUSIC 217.

MUSIC 240 Reed-Making Techniques (1, max. 6)

VLPA Applies basic reed-making principles and techniques. Individualized instruction allows students of all levels to take the course simultaneously.

MUSIC 250 World Music (3) VLPA/I&S, DIV

Introduction to world musical traditions, including both sound and socio-cultural dimensions of music. Topics include instruments, rhythm, melody, form, composition, improvisation, music in the family and community, politics, economy, religion, and case studies of major world musical traditions. Prerequisite: MUSIC 201; MUSIC 204.

MUSIC 251 Music Cultures of the World: the Americas (5) VLPA/I&S

Music of the Americas.

MUSIC 252 Music Cultures of the World (5)

VLPA/I&S Near East, Central Asia, Far East, South and Southeast Asia, Indonesia, and the Philippines. Content varies.

MUSIC 260 Orchestral Music (5) VLPA Orchestral music from its beginnings in the seventeenth century through recent developments; evolution of the symphony.

MUSIC 261 Mozart (5) VLPA Introduction to Mozart's music and to musical life in Habsburg Austria during the Enlightenment. Mozart's musical personality studied through masterpieces in all genres, with principal emphasis on listening. Ability to read music not required.

MUSIC 262 Introduction to Twentieth-Century Music (3) VLPA Starr Listener's survey of important composers and trends from Debussy through electronic music.

MUSIC 263 Opera (5) VLPA Rumph Contributions of music, text, and staging; study of representative works concentrating on problems of combining these elements into a composite work of art.

MUSIC 264 Sacred Music in the European Tradition (5) VLPA Surveys European and American sacred music from the twelfth to twentieth centuries, examining the important role of music in religious worship. Considers the means composers used to make musical works sound the way they do to convey the messages of the texts through music. Offered: jointly with RELIG 264.

MUSIC 270 World Popular Music (5) VLPA/I&S A global survey of popular music, including Latin America, Africa, Eastern Europe, the Middle East, Asia, and the Pacific. Emphasis on students' ability to recognize styles and to analyze the social and historical processes that have shaped them.

MUSIC 291 Composition (3, max. 9) VLPA One-hour private instruction and one-hour laboratory session per week. Prerequisite: MUSIC 191.

MUSIC 300 Fundamentals of Music Technology (3) VLPA Introduction to the principles of music technology. Exploration of different categories of music software, in terms of their functionality as well as the fundamental basis of these theories. Prerequisite: MUSIC 203; MUSIC 206.

MUSIC 301 Second-Year Theory (3) VLPA Further study of modulation and chromatic harmony; analysis of eighteenth- and nineteenth-century short forms; technical exercises; model composition. Prerequisite: minimum grade of 2.0 in both MUSIC 203 and MUSIC 206. Instructors: Bernard, Durand, Hodge Offered: W.

MUSIC 302 Second-Year Theory (3) VLPA More advanced study in mid- to late nineteenth-century chromaticism and compositional style; analysis of representative works; technical exercises; model composition. Prerequisite: minimum grade of 2.0 in both MUSIC 301 and MUSIC 304; corequisite: MUSIC 305. Instructors: Bernard, Durand, Hodge Offered: Sp.

MUSIC 303 Second-Year Theory (3) VLPA Core theory sequence for majors. Introduction to the theory and analysis of twentieth-century music. Prerequisite: minimum grade of 2.0 in both MUSIC 302 and MUSIC 305; corequisite: MUSIC 306. Instructors: Bernard, Durand, Hodge Offered: A.

MUSIC 304 Second-Year Ear-Training I (0-1, max. 1) VLPA Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in both MUSIC 203 and MUSIC 206. Instructors: Bernard, Durand, Hodge Offered: W.

MUSIC 305 Second-Year Ear-Training II (0-1, max. 1) VLPA Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in both MUSIC 301 and MUSIC 304; corequisite: MUSIC 302. Instructors: Bernard, Durand, Hodge Offered: Sp.

MUSIC 306 Second-Year Ear-Training III (0-1, max. 1) VLPA Core ear-training sequence for majors. Prerequisite: minimum grade of 2.0 in both MUSIC 302 and MUSIC 305; corequisite: MUSIC 303. Instructors: Bernard, Durand, Hodge Offered: A.

MUSIC 307 Diction for Singers (2) VLPA Application of basic rules of diction, enunciation, and articulation in Italian. Materials include texts from the basic vocal repertoire. Primarily for voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

MUSIC 308 Diction for Singers (2) VLPA Application of basic rules of diction, enunciation, and articulation in French. Materials include texts from the basic vocal repertoire. Primarily for voice majors at freshman and sophomore levels; nonmajors on a space-available basis.

MUSIC 309 Diction for Singers (2) VLPA Application of basic rules of diction, enunciation, and articulation in German. Materials include texts from the basic vocal repertoire. Primarily for voice majors at

freshman and sophomore levels; nonmajors on a space-available basis.

MUSIC 318 Music Cultures of the World (5)

VLPA/I&S Folk and popular music in Western and Eastern Europe and the Americas. Content varies.

MUSIC 319 Afro-American Music (5) VLPA/I&S

Centers on Black music in the United States, but also clarifies the relationship of this music to the musics of other Afro-American cultures as well as to their African roots.

MUSIC 325 Music in Cinema (5) VLPA/I&S *Hodge*

Surveys representative film soundtracks from the past one hundred years. Examines the role of music and sound design within cinematic narrative form; explores theories of film music; and lays the groundwork for engaging film as a multimedia.

MUSIC 326 Repertoire (2) VLPA For music majors.

MUSIC 327 Repertoire (2) VLPA For music majors.

MUSIC 328 Repertoire (2) VLPA For music majors.

MUSIC 332 Music in European Society: Antiquity to 1700 (5) VLPA/I&S

Music and its relationship to aspects of European culture and society - philosophy, politics, social conditions, and the visual arts from antiquity to 1700.

MUSIC 333 Music in Western Culture (5) VLPA/I&S

Music in Europe and North America, drawn from classical, popular, jazz, opera, and musical theatre traditions. Emphasis on the relationship between musical works and their social, philosophical, political, and other contexts.

MUSIC 334 Band Arranging (2) VLPA Prerequisite: MUSIC 303.

MUSIC 336 Jazz Arranging (2) VLPA Writing in jazz style for various instrumental combinations. Students should be able to arrange for modern jazz orchestra. Prerequisite: MUSIC 303.

MUSIC 344 Psychology of Music: Cognition (5)

VLPA/I&S Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music

perception, music performance, musical development, musical affect, musical preference, social psychology, and neuroscience.

MUSIC 350 Choral Conducting (1) VLPA

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 302; corequisite: MUSEN 307, MUSEN 350 or MUSEN 351.

MUSIC 351 Choral Conducting (1) VLPA

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 350; corequisite: MUSEN 307, MUSEN 350 or MUSEN 351.

MUSIC 352 Choral Conducting (1) VLPA

Overview of choral conducting patterns. Score, voice warm-up, and intonation. Tempo fluctuation, left hand, diction, discipline. Designed for music and music education majors. Prerequisite: MUSIC 351; corequisite: MUSEN 307, MUSEN 350 or MUSEN 351.

MUSIC 366 Cylinders to Platters: 100 Years of Significant Recorded Music 1880-1980 (5) VLPA *T. COLLIER*

Music as reflected through the influences of the recording industry and the development of related technologies. Examines social and artistic impacts that the recording age has brought to American and European musical cultures.

MUSIC 367 Essential Skills in Jazz Improvisation I (2)

VLPA Addresses acquisition of crucial skills in jazz improvisation. Emphasizing strengthening inner time, control of form, and fundamental harmony while addressing motivic development through rhythmic exercises. Students engage in transcription and analysis of exemplarity solos by jazz legends.

MUSIC 368 Essential Skills in Jazz Improvisation II (2) VLPA

Addresses skills in jazz improvisation at a more complex level. Emphasizing control of complex cross rhythms and ear training. Harmonic knowledge acquired through improvisational techniques and analysis of selections from the American Songbook. Prerequisite: MUSIC 367

MUSIC 369 Essential Skills in Jazz Improvisation III (2) VLPA

Addresses skills in jazz improvisation at a more complex level. Emphasizing advanced

harmonic approaches that address extensions, altered extensions and resolutions, intervallic inventions, polytonality, chromatics, and triadic chromatics. Addresses improvisation in odd meter. Prerequisite: MUSIC 368.

MUSIC 379 Junior Recital (1) VLPA For participants in the Bachelor of Music degree program only.

MUSIC 380 Instrumental Conducting (1) VLPA Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques, and score study. Prerequisite: either MUSIC 212 or MUSIC 302. Instructors: Salzman

MUSIC 381 Instrumental Conducting (1) VLPA Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques, and score study. Prerequisite: MUSIC 380. Instructors: Salzman

MUSIC 382 Instrumental Conducting (1) VLPA Acquaints the beginning conductor with beat patterns and their expressive modifications, basic rehearsal techniques, and score study. Prerequisite: MUSIC 381. Instructors: Salzman

MUSIC 384 Ideas In Music (5) VLPA/I&S Taricani Examines selected sources and compositions of music from the Western tradition (from the tenth through the twentieth centuries), in relation to the intellectual background of the periods and countries that produced them. Musical studies accompanied by assigned readings in philosophical, religious, literary, and artistic texts in addition to the primary readings in musical history.

MUSIC 388 Jazz Pedagogy (2) VLPA Stylistic and esthetic developments in the performance of jazz. Key musical ingredients in the evolution of jazz as an art form and the skills commensurate with teaching these. Designed for music majors.

MUSIC 390 Special Topics in Music (3, max. 9) VLPA *Starr* Topics vary.

MUSIC 391 Composition (3, max. 9) VLPA One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 291.

MUSIC 400 Computer Applications to Music (3, max. 9) VLPA Music workstation applications using microcomputers, music synthesizers, and analog-to-digital converters: music editing and score production, transcription, waveform and spectral analysis, and introduction to programming.

MUSIC 401 Digital Sound Synthesis (5) VLPA Introduction to software sound synthesis techniques. Project-based course focused on creating experimental sound compositions framed by context of the Western Art Music Tradition. Includes acoustics and psychoacoustics; virtual synthesizers; wavetable synthesis; additive synthesis; ring, amplitude, and frequency modulation synthesis; granular synthesis; and noise and subtractive synthesis. Offered: jointly with DXARTS 461; A.

MUSIC 402 Digital Sound Processing (5) VLPA Introduction to digital sound processing techniques. Project-based course focused on creating experimental sound compositions framed by context of the Western Art Music Tradition. Includes digital effects; delay lines; introduction to digital filtering; FIR and IIR filters; reverberation; virtual-room acoustics and sound location; time-domain transformation of sound; and granulation and time stretching. Prerequisite: DXARTS 461/MUSIC 401. Offered: jointly with DXARTS 462; W.

MUSIC 403 Advanced Digital Sound Synthesis and Processing (5) VLPA Advanced sound processing and synthesis techniques. Includes sound time warping; analysis-synthesis techniques; linear predictive coding; the phase vocoder; frequency-domain sound transformations; introduction to physical modeling. Prerequisite: DXARTS 462/MUSIC 402. Offered: jointly with DXARTS 463; Sp.

MUSIC 405 Liturgics and Hymnology: Practical Applications I (3) VLPA Prepares organ majors and other advanced organ students to play hymns in a manner that inspires congregational singing. Includes a study of hymnology from the early church to contemporary hymns of today. Explores several denominational hymns and many styles of improvisation, including baroque, romantic, and contemporary techniques. Prerequisite: MUSIC 302; MUSIC 305; MUHST 212. Instructors: Cleveland Offered: A.

MUSIC 406 Liturgics and Hymnology: Practical Applications II (3) VLPA Surveys small and large choral works including anthems, oratorios, Requiem Masses, and Mass settings of major composers of the sixteenth century to present day. Resources drawn from the performing ensembles library, and from area church libraries, and include a detailed study of choral styles and editions. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 405. Instructors: Cleveland Offered: W.

MUSIC 407 Liturgics and Hymnology: Practical Applications III (3) VLPA Includes a survey of the necessary skills to run a successful music program in a church or synagogue. Provides an overview of traditional and contemporary liturgies, handbells, orchestral instruments and their use in worship and a special emphasis on the directing of children's choirs. Prerequisite: either MUSIC 303, MUSIC 306, MUHST 210, or MUSIC 406. Instructors: Cleveland Offered: Sp.

MUSIC 410 ElectroAcoustic Music: History and Analysis (3) VLPA Examines the music of major electro-acoustic composers. Emphasis on the relationship between technological resources and compositional advances. Addresses issues raised by the diversity of approaches to musical composition; relates particular creative contributions to the historical, cultural, and technological contexts in which they originated. Prerequisite: MUSIC 303; MUSIC 306; MUHST 210. Offered: Sp.

MUSIC 411 Free Improvisation/Modern Jazz Composition I (2) VLPA *Vu* Guides students through the process of experimentation while discovering and developing musical originality and striving for innovations in jazz. Students address conceptual approaches to non-idiomatic group improvisation and original composition that incorporates and fosters improvisation, and explore techniques in generating and developing building blocks of musical material and form. Offered: A.

MUSIC 412 Free Improvisation/Modern Jazz Composition II (2) VLPA Continuation of MUSIC 411, working at a more developed and complex level to experiment and strive for originality and innovation in jazz. Students address conceptual approaches to non-idiomatic group improvisation and original composition that incorporates and fosters improvisation, and explore techniques in generating

and developing building blocks of musical material and form. Prerequisite: MUSIC 411. Instructors: Vu Offered: W.

MUSIC 413 Free Improvisation/Modern Jazz Composition III (2) VLPA Continuation of MUSIC 411, working at a more advanced and complex level to experiment and strive for originality and innovation in jazz. Students address conceptual approaches to non-idiomatic group improvisation and original composition that incorporates and fosters improvisation, and explore techniques in generating and developing building blocks of musical material and form. Prerequisite: MUSIC 412. Instructors: Vu Offered: Sp.

MUSIC 414 Finding an American Voice (3) VLPA Investigation of why certain works have been received as characteristically and representatively "American" in nature, extending the inquiry concerning an "American voice" to arts like poetry and painting, along with music. Examples for study include music by composers such as Gershwin, and Dickenson's poetry, along with composers' settings of it. Instructor: Starr.

MUSIC 415 The American Musical (3) VLPA Advanced course in the American stage and film musical, emphasizing detailed study of representative works as totalities: *Show Boat*, *Porgy and Bess*, shows by Rodgers & Hammerstein and Sondheim, film musical starring Astaire and Rogers, and others. Contributions of composers, lyricists, choreographers, directors, and performers to development of the genre. Instructor: Starr.

MUSIC 416 The Blues (3) VLPA Investigation of the many forms, styles, and genres of music linked with the blues, and of the ways in which the blues has contributed to the shaping and essence of musical culture, from the early twentieth century to the present. Instructor: Starr.

MUSIC 417 Classical Music in America (3) VLPA History of classical music composers, performers, audiences, and institutions in America, with a critical look at the situation of these groups and institutions today, in light of how they arrived at their current status, and a consideration of what the future may hold for them. Instructor: Starr.

MUSIC 418 Baroque Ornamentation and Improvisation (3) VLPA *Terry* The study of ornamentation and improvisation for keyboard, woodwinds, voice, and strings of selected German, Italian, French, and English repertoire from 1600 to 1800.

MUSIC 420 Organ Improvisation and Service Playing I (2) VLPA Prepares students to improvise, especially for the church/synagogue service. Includes a brief study of hymnology, hymn elaboration, altered harmonizations, improvisation based on existing hymn tunes, interludes, chorale preludes, ornamented chorales. Prerequisite: MUSIC 303; MUSIC 306. Offered: A.

MUSIC 421 Organ Improvisation and Service Playing II (2) VLPA Continuation of MUSIC 420. Includes brief review of figured bass and functional harmony, free improvisation in simple antecedent/consequent ABA forms and more complex forms (rondo, theme, and variation), improvising partitas, interludes, improvisations based on plainchant. A survey of important improvisation texts. Prerequisite: MUSIC 420. Offered: W.

MUSIC 422 Organ Improvisation and Service Playing III (2) VLPA Continuation of MUSIC 421. Advanced improvisation: baroque improvisation techniques, fughetas, baroque preeludias and fantasias, canons, toccatas, duos, trios, and simple fugues. Prerequisite: MUSIC 421. Offered: Sp.

MUSIC 426 Advanced Jazz Arranging (2) VLPA Advanced arranging techniques for jazz ensembles of various sizes, exploring methods employed by Duke Ellington, Gil Evans, and others. Assignments include one original arrangement each for small-combo and full-jazz ensemble. Prerequisite: MUSIC 336. Offered: W.

MUSIC 427 Music of Africa (3) VLPA/I&S Music cultures of Africa. Traditional styles and more recent developments. Open to all students with an interest in the area. Prerequisite: MUSIC 317.

MUSIC 428 Music of North India (3) VLPA/I&S Classical music of North India, the Hindustani tradition with emphasis on the Dhrupad and Khyal styles.

MUSIC 429 String Orchestral Repertoire (2, max. 18) VLPA Intended for undergraduate BA/BM and BM music majors. Offered: AWSp.

MUSIC 430 Organology (3) VLPA Systematic study of musical instruments, involving the history, acoustical phenomena, and physical topologies of instruments from around the world, with emphasis on non-Western music.

MUSIC 433 Music of Latin America (3) VLPA/I&S The music of the Spanish-, French-, and Portuguese-speaking New World countries.

MUSIC 434 Pedagogy (2) VLPA Principles of effective studio teaching; survey and evaluation of teaching materials.

MUSIC 435 Pedagogy (2) VLPA Principles of effective studio teaching; survey and evaluation of teaching materials.

MUSIC 436 Pedagogy (2) VLPA Principles of effective studio teaching; survey and evaluation of teaching materials.

MUSIC 437 Studio Class (2, max. 24) VLPA Performance and pedagogical concepts. Topics vary. Offered: AWSp.

MUSIC 438 Problems in Contemporary Music Performance (3, max. 9) VLPA An active course examining and solving problems relevant to the successful performance of twentieth-century music. Preparation for complex rhythms, odd groupings, new notation, and extended performing techniques.

MUSIC 439 Music of Indonesia (3) I&S/VLPA Includes the traditions of Sumatra, Sunda, Java, Bali, Sunda Islands, and the Philippines. Open to students in music and to students with an interest in the area.

MUSIC 440 Music in Asian America (3) VLPA/I&S C. *SUNARDI* Introduces students to Asian American communities through examination of music and issues related to music, including migration, memory, gender, the body, tradition, and generation. Explores how Asian Americans have expressed their experiences and asserted their senses of identity through music, thereby making sense of and claiming Americanness. Offered: AWSp.

MUSIC 442 Comparative Analysis and Musicianship

(3) VLPA Analysis of selected world music genres, with an emphasis on concepts and skills that are required to perform.

MUSIC 443 Music and Community (3) VLPA S.

DUDLEY An introduction to theories and methods of community arts facilitation and community-building, including active engagement with local artists and organizations.

MUSIC 444 Music of the Near East (3) VLPA/I&S

Classical and folk musical traditions of Iran, Turkey, and the Arab world. Prerequisite: MUSIC 316.

MUSIC 445 Selected Topics in Ethnomusicology

(3/5, max. 15) VLPA/I&S Deals with areas not covered by other courses in ethnomusicology. Content varies with different instructors.

MUSIC 446 Music in American Cultures (3)

VLPA/I&S Compares musical history and experience of selected American cultures that have fed into the American musical mainstream or had significant popularity on its periphery. Case studies may include African Americans, Latino/a Americans, Jewish Americans, Asian Americans, or European Americans. Considerations of social identity as well as musical styles. Offered: jointly with AES 446.

MUSIC 447 Music of Southern India (3) VLPA/I&S

Classical music of South India, the Karnatic tradition, with emphasis on the concert repertoire.

MUSIC 448 Music of China (3) VLPA/I&S

Confucian philosophies that relate to music, theory, scale systems, cosmology. Development of instrumental styles, vocal and dramatic regional forms from early historical periods to the present.

MUSIC 449 Advanced Piano Repertoire (2, max. 6)

VLPA/I&S For piano majors who wish an in-depth survey of major areas of the piano repertoire. Prerequisite: MUSIC 328. Instructors: McCabe, Sheppard Offered: AWSp.

MUSIC 450 Percussion Education Institute (2) VLPA

Intensive four-week institute focusing on techniques in percussion, timpani, and mallet performance. Intended for music educators with little or no percussion experience desiring additional training to

enhance their careers as music teachers. Includes private instruction, master classes, and percussion ensemble participation. Prerequisite: MUSAP 217. Instructors: Collier, Crusoe

MUSIC 451 Summer Jazz Institute (1)

VLPA *Brockman, Collier, Seales* Intensive one-week institute designed for the serious jazz student as well as for music educators. Six hours of daily instruction in jazz theory, ear-training, improvisation, arranging, as well as emphasis on rehearsal and performance techniques through sectional workshops and small group "jam sessions."

MUSIC 452 Career Building for Musicians (2)

VLPA *Joel F Durand* Helps students identify the unique skill sets they develop as music majors and learn how to use and market these skills to create achievable and exciting career paths in music. Recommended: Music major status. Credit/no-credit only. Offered: AWSp.

MUSIC 454 Organ Pedagogy (3) VLPA Terry

Pedagogical approaches to organ techniques and performance practice; provides opportunity for practical application by means of student teaching. Offered: Sp, even years.

MUSIC 455 Choral Arranging (3) VLPA

Primarily for choral conductors who need to modify, arrange, or compose material to suit the capabilities of specific choral groups and performance situations.

MUSIC 457 Jazz Laboratory: Theory and Application of Rhythm (1) VLPA

Establishes a fundamental comprehension of the complex and nuanced rhythmic structures inherent in traditional and modern jazz. Through transcription, analysis, dictation, composition and performance. Students develop a personal understanding of, and the ability to execute, the detailed rhythmic language that defines this art form. Offered: A.

MUSIC 458 Organ Repertoire: Middle Ages through Baroque (3) VLPA

Analysis and performance practices of organ literature, Middle Ages through baroque period. Development of the organ as musical instrument. Prerequisite: either MUHST 400, MUHST 401, MUHST 402, MUHST 403, MUHST 406, or MUHST 407. Instructors: Terry Offered: A, even years.

MUSIC 459 Organ Repertoire: Bach to Present (3)

VLPA Analysis and performance practices of organ literature, classical period through the twentieth century. Development of the organ as a musical instrument. Prerequisite: either MUHST 408, MUHST 409, MUHST 410, MUHST 411, MUHST 412, MUHST 413, MUHST 414, MUHST 415, MUHST 417, MUHST 418, MUHST 419, MUHST 423, MUHST 424, or MUHST 426. Instructors: Terry Offered: W, even years.

MUSIC 460 Advanced Vocal Repertoire: Pre-Nineteenth-Century Art Songs (2, max. 6) VLPA

Professional preparation of pre-nineteenth-century songs with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 328.

MUSIC 461 Advanced Vocal Repertoire: Nineteenth-Century Art Songs (2, max. 6) VLPA

Professional preparation of works from the literature of nineteenth-century German lieder, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 460.

MUSIC 462 Advanced Vocal Repertoire: Twentieth-Century Art Songs (2, max. 6) VLPA

Preparation of works from the twentieth-century repertoire of French, German, Italian, Spanish, and English songs, with a view to total artistic-musical realization in performance. Appropriate style, character, balance, phrasing, diction, and projection for vocalists and pianists. Prerequisite: MUSIC 461.

MUSIC 464 Jazz Laboratory (1, max. 9) VLPA Forum for testing new technical skills, improvisational techniques, and jazz compositions and/or arrangements in a formal laboratory setting.

MUSIC 465 Acting for Singers (2, max. 6) VLPA

Workshop designed specifically for the singing actor, focusing on character analysis, movement, and audition department skills.

MUSIC 467 Advanced Jazz Improvisation I (1) VLPA

Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 369. Instructors: Collier, Seales

MUSIC 468 Advanced Jazz Improvisation II (1) VLPA

Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 467. Instructors: Collier, Seales

MUSIC 469 Advanced Jazz Improvisation III (1) VLPA

Performance techniques in jazz improvisation for the advanced student. Prerequisite: MUSIC 468. Instructors: Collier, Seales

MUSIC 470 Analysis of Tonal Music: Introduction to Schenker (3) VLPA

Introduction to the theories of Heinrich Schenker and their subsequent development; analysis of music from the common-practice period (1700-1900), with possible excursions into the twentieth century. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Bernard

MUSIC 471 Introduction to Atonal Theory and Analysis (3) VLPA

Theory of atonal music, including the "classical" twelve-tone repertoire. Analysis of works by Schoenberg, Berg, Webern, and others. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Bernard

MUSIC 472 Analysis of Twentieth Century Music, 1900-1950 (3, max. 6) VLPA

Analytical examination of musical works of the first half of the twentieth century in Europe and the United States, with emphasis on music other than that of the second Viennese school. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Bernard, Durand, Hodge

MUSIC 473 Keyboard Harmony and Transposition (3) VLPA

Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: either both MUSIC 303 and MUHST 212 or both MUSIC 312 and MUHST 215. Instructors: Terry Offered: A, odd years.

MUSIC 474 Keyboard Harmony and Transposition (3) VLPA

Keyboard harmonization from the baroque period to present; transposition of vocal and instrumental pieces to different pitch levels. Prerequisite: MUSIC 473. Instructors: Terry Offered: W, odd years.

MUSIC 475 Figured Bass Realization (3) VLPA

Various styles of continuo realization for keyboardists, emphasizing Bach cantatas, Haydn symphonies, and Mozart operas. Prerequisite: MUSIC 474. Instructors: Terry Offered: Sp, odd years.

MUSIC 476 Advanced Vocal Repertoire: Seventeenth and Eighteenth Centuries (2) VLPA

Opera repertoire, 1600 to the Bel Canto era (Bellini, Rossini, Donizetti) ; style, traditions, embellishments in Italian, French, and German arias. Prerequisite: MUSIC 328.

MUSIC 477 Advanced Vocal Repertoire: Nineteenth Century (2) VLPA

Opera repertoire, the post Bel Canto era through Verdi, Puccini and verismo, and significant German, French, and Slavic repertoire. Prerequisite: MUSIC 476.

MUSIC 478 Advanced Vocal Repertoire: Twentieth Century (2) VLPA

Opera repertoire, twentieth-century opera literature (Barber, Menotti, Bartok, Dvorak) ; understanding of style, character, and overall artistic and musical needs of the present. Prerequisite: MUSIC 477.

MUSIC 479 Senior Recital (1) VLPA**MUSIC 480 The Anthropology of Music (3)**

VLPA/I&S Analysis of aspects of anthropological thought influential in ethnomusicology. Critical evaluation of dominant theoretical schools and modes of explanation, e.g., evolutionist, diffusionist, historical particularist, structuralist, functionalist, symbolist, and semiotic, through detailed examination of seminal texts. Offered: jointly with ANTH 430.

MUSIC 481 Choral Repertoire: Sixteenth and Seventeenth Centuries (3) VLPA

Boers, Wyers Sacred and secular choral literature from the Renaissance through the early baroque, covering Europe and England. Various genres and styles of major composers, including performance practice, rehearsals, and conducting.

MUSIC 482 Choral Repertoire: Eighteenth Century (3) VLPA

Boers, Wyers Sacred and secular choral literature of the baroque, covering mainland Europe and England. Choral works of Bach, his predecessors, and contemporaries. Stylistic analysis and study of performance practice.

MUSIC 483 Choral Repertoire: Nineteenth Century (3) VLPA

Boers, Wyers Sacred and secular choral literature of the nineteenth century, covering mainland Europe and England. Analysis of accompanied and a cappella choral works by major composers with implications for conducting and programming of literature.

MUSIC 484 Choral Repertoire: Twentieth Century (3) VLPA

Boers, Wyers Choral literature of the twentieth century, covering America, England, and mainland Europe. Various genres and styles, including score study and teaching strategies.

MUSIC 485 Topics in the Analysis of American Music (3, max. 9) VLPA

Bernard Includes close analytical study of specific repertoires of American music. Prerequisite: MUHST212 AND MUSIC302, or permission of instructor

MUSIC 487 Tonal Counterpoint (3) VLPA

Introduction to tonal counterpoint through exercises in analysis and composition, focusing on eighteenth-century styles. Study of melody principles of counterpoint in two and three voices, dance forms, inventions, fugue. Prerequisite: either MUSIC 311 or MUSIC 202. Instructors: Bernard, Hodge

MUSIC 489 Special Topics in Music Theory (3/5, max. 15) VLPA

Prerequisite: either both MUSIC 303 and MUHST 210 or both MUSIC 312 and MUHST 314. Instructors: Bernard, Durand, Hodge

MUSIC 491 Composition (3, max. 18) VLPA

One-hour private instruction and one-hour laboratory session each week. Prerequisite: MUSIC 391.

MUSIC 492 Opera Direction and Production (4) VLPA

Practical experience with problems of the theater.

MUSIC 493 Opera Direction and Production (4) VLPA

Practical experience with problems of the theater. Prerequisite: MUSIC 492.

MUSIC 495 Music of Japan (3) VLPA/I&S

Survey of major Japanese musical traditions. Open to students in music and East Asian area studies. Prerequisite: MUSIC 316.

MUSIC 496 Instrumentation (3) VLPA *Durand, Hodge* Survey of the basic characteristics and techniques of instruments of the orchestra and practical experience in scoring for various instrumental combinations. Also covers topics such as transcription of solo works for ensemble and basic arranging in jazz and other styles. Prerequisite: MUSIC 303; MUSIC 306.

MUSIC 497 Orchestration (3) VLPA Study of the instruments of orchestra and practical experience in combining them. Examines questions of timbre, acoustics, psychoacoustics, as well as orchestration analysis of a variety of works. Prerequisite: MUSIC 496.

MUSIC 498 Senior Thesis (3-, max. 9) VLPA Design and completion of an individual research project and writing of a thesis under supervision of a faculty member.

MUSIC 499 Undergraduate Research (*, max. 6)

MUSIC 504 Ethnographic Research in Music (3) *Campbell, Morrison* Seminar in ethnographic research in music, with attention to the nature of participant-observation and informal interviewing suitable to the discovery of the social and cultural life of individual musicians, and communities and institutions of music.

MUSIC 511 Seminar in Field and Laboratory Methods (3) Methodology of field research in ethnomusicology along with practical experience. Prerequisite: graduate student standing in ethnomusicology or permission of instructor.

MUSIC 512 Seminar in Ethnomusicology (3/5, max. 30) Deals with advanced theoretical and methodological problems in ethnomusicology, and with the relationship of ethnomusicology to allied disciplines. Prerequisite: graduate-student standing in ethnomusicology or permission of instructor.

MUSIC 520 Music in Higher Education (3) *Morrison* Philosophical and practical issues surrounding music within the context of higher education. Topics include mission and structure of music programs, development of teaching expertise, teacher/student evaluation, academic freedom, and job opportunities. Appropriate for all graduate music

students and does not require background in teaching or education.

MUSIC 523 Seminar in Music and Socialization (3, max. 9) The socialization process and music, including the interaction whereby music culture is learned. Prerequisite: MUSIC 345 or permission of instructor.

MUSIC 526 History of Theory (3) Ancient, medieval, early Renaissance.

MUSIC 527 History of Theory (3) *Bernard* Renaissance, baroque, early classic.

MUSIC 528 History of Theory (3) *Bernard* Classic, romantic, twentieth century.

MUSIC 530 Seminar in Music Cognition (3, max. 9) Study of research literature in cognition and music cognition, particularly as it relates to nonverbal musical experience. Prerequisite: MUSIC 344, or MUSIC 544, or permission of instructor.

MUSIC 531 Proseminar in Ethnomusicology (3) Theoretical and methodological issues in ethnomusicology based on historical and contemporary major writings. Critical evaluations of works with a broad view toward developing ethnomusicological research. Prerequisite: permission of instructor.

MUSIC 532 Opera Direction and Production (4/6, max. 12) Practical experience with problems of the opera theatre.

MUSIC 533 Preceptorial Readings in Ethnomusicology (5) Significant ethnomusicological literature on the music cultures of Asia. Meets with MUSIC 316. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

MUSIC 534 Preceptorial Readings in Ethnomusicology (5) Significant ethnomusicological literature on the music cultures of Africa, the Americas, and Oceania. Meets with MUSIC 317. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

MUSIC 535 Preceptorial Readings in Ethnomusicology (5) Significant ethnomusicological

literature on the music cultures of Europe and North America. Meets with MUSIC 318. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

MUSIC 536 Transcription and Analysis (3) Study of the methodological principles of transcription and analysis, together with practical exercises in developing transcription skills. Prerequisite: graduate student standing in ethnomusicology and permission of instructor.

MUSIC 540 Music in Asian America (3) *C. SUNARDI* Introduces students to Asian American communities through examination of music and issues related to music, including migration, memory, gender, the body, tradition, and generation. Explores how Asian Americans have expressed their experiences and asserted their senses of identity through music, thereby making sense of and claiming Americanness. Offered: AWSp.

MUSIC 542 Comparative Analysis and Musicianship (3) Analysis of selected world music genres, with an emphasis on concepts and skills that are required to perform.

MUSIC 543 Music and Community (3) *S. DUDLEY* An introduction to theories and methods of community arts facilitation and community-building, including active engagement with local artists and organizations.

MUSIC 544 Psychology of Music: Music Cognition (5) Critical examination of questions, designs, and conclusions of previous research in a variety of areas related to music cognition including music performance, musical creativity, musical affect, musical preference, social psychology, and neuroscience. Discusses the role of theory, method, and typical procedures for psychological research.

MUSIC 551 Practicum in Music Instruction (3, max. 9) Practical application and validation of results of investigation in curriculum, music teaching and learning, performance, and theoretical studies. Prerequisite: teaching experience, or permission of instructor.

MUSIC 553 Advanced Choral Techniques (2, max. 18) *Boers, Wyers* Practical application of technique and pedagogy related to choral music. Surveys major

choral repertoire. Concurrent enrollment in MUSIC 583 required.

MUSIC 559 Master's Recital (3, max. 6) Public performance for students in the Master of Music degree program. Prerequisite: permission of instructor and Master of Music program standing.

MUSIC 570 Seminar in Schenkerian Analysis (3, max. 9) Advanced work in Schenkerian analysis. Prerequisite: MUSIC 470. Instructors: Bernard

MUSIC 571 Seminar in Serialism (3, max. 9) Advanced theoretical and analytical work in serialism and other nontonal systems. Prerequisite: MUSIC 471, or equivalent. Instructors: Bernard

MUSIC 572 Advanced Topics in Computer Music (3) *Karpen* Topics vary. Offered: AWSpS.

MUSIC 573 Seminar in Tonal Analysis (3, max. 9) Modern theoretical and analytical methods appropriate to study of western music of the eighteenth and nineteenth centuries, conceived independently of or in response to the work of Heinrich Schenker. Prerequisite: MUSIC 470 or permission of instructor.

MUSIC 574 Analysis of Twentieth-Century Music: 1950 - Present (3) Analytical examination of major works of second half of twentieth century. Prerequisite: MUSIC 471; MUSIC 472, or permission of instructor. Instructors: Bernard, Durand, Hodge, Karpen

MUSIC 575 Seminar in Theory (3, max. 18) *Bernard* Development and discussion of current student and faculty research in compositional/analytical theory and metatheory.

MUSIC 576 Critical Theory of Music (3, max. 18) Philosophical foundations of the criticism of music, including relevant contemporary thought in the criticism of literature and the other arts.

MUSIC 577 Composers of the Twentieth Century (3, max. 9) Analytical examination of the work of a major composer of the twentieth century. Prerequisite: MUSIC 574, or permission of instructor. Instructors: Bernard, Durand, Hodge, Karpen

MUSIC 580 Advanced Conducting (3, max. 9)*Salzman***MUSIC 581 Advanced Conducting (3, max. 9)***Salzman***MUSIC 582 Advanced Conducting (3, max. 9)***Salzman***MUSIC 583 Advanced Choral Conducting (2, max. 18)** *Boers, Wyers*

MUSIC 590 Keyboard and Doctoral Lecture Recital or Concerto Recital (6, max. 18) Lecture recital or concerto recital for students in the Doctor of Musical Arts in piano performance, in harpsichord performance, and in organ performance degree programs.

MUSIC 591 Graduate Composition (*, max. 30)*Bernard, Durand, Karpen***MUSIC 599 Advanced Selected Topics (1-3, max. 27)**

Selected readings on current issues and problems in music. Prerequisite: permission of a supervising music faculty member.

MUSIC 600 Independent Study or Research (*-)**MUSIC 700 Master's Thesis (*-)****MUSIC 800 Doctoral Dissertation (*-)**

APPLIED MUSIC

MUSAP 133 Basic Keyboard (2) VLPA Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSIC 116.

MUSAP 134 Basic Keyboard (2) VLPA Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 133.

MUSAP 135 Basic Keyboard (2) VLPA Keyboard harmony and simple keyboard pieces. Class instruction. Audition required. Prerequisite: MUSAP 134.

MUSAP 136 Basic Jazz Keyboard (2, max. 6)

VLPA Seales Basics of jazz and pop chord voicings, reading lead sheets, basic accompanying in various jazz and pop styles. Audition required.

MUSAP 137 Class Instruction: Voice (1) VLPA Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required.

MUSAP 138 Class Instruction: Voice (1) VLPA Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 137.

MUSAP 139 Class Instruction: Voice (1) VLPA Basic fundamentals of good singing: breathing, diction, voice focus. Materials include mainly early Italian art songs, some English and French songs. Audition required. Prerequisite: MUSAP 138.

MUSAP 205 String Techniques (2, max. 12) VLPA

Designed to prepare music education students to teach beginning and intermediate strings in the public schools.

MUSAP 210 Wind Techniques (2, max. 12) VLPA

Designed to prepare music education students to teach beginning and intermediate woodwinds and brass in the public schools.

MUSAP 217 Percussion Techniques (2, max. 4)

VLPA Collier The study of basic percussion techniques as they apply to music in the public schools. Acquaints the prospective music education major with percussion performance and teaching techniques.

MUSAP 218 Guitar Techniques (2, max. 4)

VLPA Partington Includes exercises to develop a good basic technique emphasizing correct position and movement of both hands, basic folk song accompaniments including a variety of strums, finger picking patterns, hammering on and bass runs, reading guitar music, classical pieces, special effects, and access to other styles. Offered: W.

MUSAP 233 Secondary Piano (2) VLPA Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 135.

MUSAP 234 Secondary Piano (2) VLPA Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 233.

MUSAP 235 Secondary Piano (2) VLPA Focus is on advanced keyboard skills and piano repertoire. Audition required. Prerequisite: MUSAP 234.

MUSAP 237 Secondary Class Instruction: Voice (2, max. 6) VLPA Continuation of basic fundamentals of good singing: breathing, diction, voice focus, and repertoire. Designed for students not yet prepared for private instruction. Audition required. Prerequisite: MUSAP 139.

MUSAP 239 Secondary Piano (2, max. 8) VLPA Intermediate level keyboard repertory. Private instruction. Audition required. Prerequisite: MUSAP 235.

MUSAP 389 World Music (2, max. 24) VLPA/I&S World music traditions taught by visiting native artists. Consult ethnomusicology staff for current offerings. Intended for undergraduate majors. Audition required. Credit/no-credit only.

MUSAP 442 Jazz and Non-Western Drumming Techniques (2/3, max. 18) VLPA *Collier* Focused study of American jazz drumming and/or hand drumming techniques of various world music cultures to broaden the skills of percussion students, preparing them for new demands of contemporary musical styles. Designed primarily for music undergraduates enrolled in the percussion program. Audition required.

MUSAP 443 Percussion Lab (1, max. 12) *Collier, Crusoe, Poor* Primarily for percussion majors. Includes techniques and topics not normally covered in private lessons. Non-percussion music majors with permission of instructor. Offered: AWSp.

MUSAP 589 World Music Laboratory (2, max. 24) World music traditions taught by visiting artists with emphasis on cultural pedagogy and traditional theory. The particular culture studied changes from year to year. Required of all graduate students in

ethnomusicology. Audition required. Credit/no-credit only.

MUSIC EDUCATION

MUSED 301 Techniques for Teaching Music to Children (2) VLPA Exercises and applied experiences in sight-singing and error detection, keyboard skills, record and instruments of the Orff ensemble relevant to the teaching of music to children. Prerequisite: either MUSIC 212 or MUSIC 302; MUSAP 135. Instructors: Campbell

MUSED 304 Introductory Music Methods I (2, max. 4) VLPA *Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, and problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Must be taken concurrently with MUSED 301; MUSED 340. Offered: A.

MUSED 305 Introductory Music Methods II (2, max. 4) VLPA *Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: W.

MUSED 306 Introductory Music Methods III (2, max. 4) VLPA *Morrison* Comprehensive examination of materials for training beginning vocal and instrumental students. Topics include recruiting, motivation, problems associated with evaluation. Methods of starting beginners and rehearsing ensembles are demonstrated with techniques addressing problems unique to public school ensemble instruction. Offered: Sp.

MUSED 340 Music in Education (3) VLPA An orientation to the broad scope of issues regarding music in the schools (K-12), including curriculum, the development of instructional strategies, and evaluation techniques.

MUSED 401 Tin Pan Alley: Concepts and Teaching Strategies for Music Educators (1) VLPA Overview of Tin Pan Alley phenomenon that dominated the American popular music industry for nearly 70 years. For music educators. Focuses on cooperative learning strategies and performance considerations in the school environment.

MUSED 402 Rock and Roll Roots for Music Educators (1) VLPA Overview of the musical and cultural roots of American Rock and Roll for music educators. Explores teaching strategies and performance possibilities in the school environment.

MUSED 403 Part-Time Student Teaching in Music (6) VLPA *Campbell, Morrison* Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Credit/no-credit only. Offered: AWSp.

MUSED 404 Full-Time Student Teaching in Music (15) VLPA Supervised teaching internship. Directed observations of distinguished teachers in an elementary or secondary music setting. Weekly seminars. Prerequisite: MUSED 403. Instructors: Campbell, Morrison Credit/no-credit only. Offered: AWSp.

MUSED 405 Marching Band Technique (2) VLPA *McDavid, Morrison, Salzman* Basics of marching and maneuvering discussed and used to write drill. Covers selection of music, use of marching procession, and show design. Students complete a drill for their own band or for an instrumentation determined by the instructor.

MUSED 410 Instrumental Rehearsal Techniques (3) VLPA *Salzman* Includes score preparation, rehearsal formats, and error detection.

MUSED 431 Curriculum in Music Education (3) VLPA *Campbell, Morrison* Principles and practices of curriculum design applied to the development of the music curriculum. Individual or group work on elementary and secondary school music curriculum projects.

MUSED 432 Comprehensive Music in the Secondary School (3) VLPA The teaching of music and its literature in music classes other than traditional

ensembles from grade six through adults. Prerequisite: MUSED 340.

MUSED 440 Music for Children (3) VLPA Identification and selection of appropriate objectives, materials, teaching strategies, and evaluation techniques used in teaching music from birth through grade five, with consideration of various approaches (e.g., Delcroze, Kodaly, Orff) for the musical development of children. Prerequisite: MUSED 302; MUSED 340 Instructors: Campbell

MUSED 442 Instrumental Curriculum: Methods and Materials (3) VLPA Study of the organization and administration of school instrumental music; the selection and use of materials and teaching strategies from beginning to advanced levels of instrumental instruction. Prerequisite: MUSED 340. Instructors: Morrison

MUSED 443 Choral Curriculum: Methods and Materials (3) VLPA Study of the organization and administration of school choral music; the selection and use of materials and teaching strategies from beginning to advanced levels of choral instruction. Prerequisite: MUSED 340.

MUSED 452 Ethnomusicology in the Schools (3) VLPA Issues, teaching materials, and techniques involved in incorporating music cultures of United States and related world music repertoires in K-12 classroom instruction. Prerequisite: MUSED 340. Instructors: Campbell

MUSED 453 Approaches to Classroom Instruction: K-12 (3) VLPA Examines such major instructional approaches as MMCP, Orff, Kodaly, and Dalcroze. Included are the philosophy of each and the methods, materials, and instructional skills needed for classroom application. Prerequisite: MUSED 403. Instructors: Campbell

MUSED 465 Classroom Management and Evaluation in Music Education (3) VLPA Provides future teachers with strategies and techniques for classroom management, motivation, assessment, and evaluation for applications to K-12 school music programs. Prerequisite: MUSED 340. Instructors: Morrison

MUSED 475 Teaching the Music of Selected Cultures (1, max. 6) VLPA *Campbell* Music and

culture of a specific world region with particular attention to songs, stories, and instrumental pieces applicable to the teaching of music and the arts in elementary and secondary schools.

MUSED 480 Music Methods for Classroom Teachers (3) VLPA *Campbell* Addresses the basic fundamentals of music and methods for teaching K-6 school children. Topics include repertoire appropriate for different age levels, methods and materials for integrating music into the K-6 curriculum.

MUSED 496 Special Topics in Music Education (1-3, max. 10) VLPA Special studies designed to reflect contemporary emphases and concerns in the music education profession.

MUSED 501 Introduction to Research in Music Education (3) *Campbell, Morrison* Seminar in research design and method with emphasis on identification of problems in music instruction, interpretation of data, and application of findings to classroom settings.

MUSED 502 Quantitative Research in Music Education (3) Seminar in quantitative research utilizing experimental, quasi-experimental, and descriptive design, with emphasis on the pursuit of solutions to pedagogical problems through appropriate research procedures, analysis, and interpretation of findings. Prerequisite: MUSED 501. Instructors: Campbell, Morrison

MUSED 522 Psychology of Music Learning and Teaching (3) *Campbell, Morrison* Examines previous research in areas related to music cognition, including music perception, music performance, musical creativity, musical affect, musical preference, and social psychology. Explores how this research relates to curriculum and practice in music education. Role of theory, method, and procedure for psychological research in music education.

MUSED 523 Tests and Measurement (3) *Campbell, Morrison* Examination of currently published aptitude and achievement tests in music and their uses in music education. Explores the basic methods for constructing classroom tests and their use in evaluation. Selected readings include researching test construction and application of tests and measurement to program evaluation.

MUSED 524 Seminar in Music Education (3) Special problems in the teaching and supervision of music in the elementary grades. Prerequisite: one year of teaching experience. Instructors: Campbell, Morrison

MUSED 525 Seminar in Music Education (3) Special problems in the teaching and administration of music in the secondary school and community college. Prerequisite: one year of teaching experience. Instructors: Campbell, Morrison

MUSED 530 Administration and Supervision in Music Education (3) *Campbell, Morrison* Survey of issues in policy and systems for facilities, student/personnel, technology, school/community relations, and special programs in music education. Focuses on evaluating and improving existing programs. Includes supervision of student teachers.

MUSED 535 Seminar in Musical Development (3) *Campbell, Morrison* Critical review of theories, methods of inquiry, designs, and conclusions of research in musical development from early childhood through adolescence. Emphasis on evaluating theories and methods of studying musical development and exploring their relationship to theories of general intellectual development; adult music cognition research; and curriculum and practice in music education.

MUSED 540 History of American Music Education (3) *Campbell, Morrison* A chronological examination of individual, social, and political events, and educational philosophies, that characterized the development of music instruction in American schools from colonial times to the present.

MUSED 542 Comparative Music Education (3) *Campbell, Morrison* A transcultural examination of philosophy and practice of music instruction.

MUSED 550 Proseminar in Music Education (3) *Campbell, Morrison* Examination of the major literature in the philosophy, history, psychology, and sociology of formal school music instruction.

MUSED 552 World Music Education (3) *Campbell* Seminar on issues of multiculturalism and the world music "movement" as they affect school music curriculum and instruction. Curricular content and cultural context examined in relation to teaching K-

12 students, teachers, and undergraduate students in music education programs. Offered: AWSpS.

MUSED 560 Contemporary Issues in Music Education (1-3, max. 6) Seminar focusing on review of literature on psychological and sociological aspects of music education, including historical and philosophical foundations of music education in the United States. Appropriate for MA students seeking guidance in preparation of topic for examinations. Prerequisite: MUSED 501. Instructors: Campbell, Morrison

MUSED 561 Seminar in Theories of Music Instruction (3, max. 9) Theories of music instruction, with special attention to curriculum, instructional procedures, and assessment of learning. Prerequisite: MUSED 501, or permission of instructor. Instructors: Campbell, Morrison

MUSED 575 Seminar in Music Education Research (1-3, max. 6) *Campbell, Morrison* Examines research and research-based issues relevant to music instruction and learning. Doctoral students should register each quarter until successful completion of general examination. Offered: A.

MUSIC ENSEMBLE

MUSEN 100 University Singers (1, max. 15) VLPA Credit/no-credit only.

MUSEN 110 Beginning Steelband (1, max. 3) VLPA Introduction to basic playing techniques for the steel pan, and teaches a variety of Caribbean music styles with emphasis on rhythmic ensemble. Offered: AWSp.

MUSEN 200 Men's Glee Club (1, max. 15) VLPA Non-auditioned ensemble open to all men in the campus community. Offers a number of performance opportunities throughout the year. Credit/no-credit only. Offered: AWSp.

MUSEN 201 Women's Chorus (1, max. 15) VLPA Non-auditioned ensemble open to all women in the campus community. Offers a number of performance opportunities throughout the year. Credit/no-credit only. Offered: AWSp.

MUSEN 210 Campus Philharmonia Orchestra (1, max. 15) VLPA Orchestral opportunity for non-majors. Meets once weekly, rehearses under the direction of the Masters and Doctoral orchestral conducting students. Serves as a laboratory for the conducting students. Performances are community outreach events which occur once per quarter. Major string, chamber orchestra, and symphonic repertoire rehearsed and performed.

MUSEN 300 University of Washington Symphony Orchestra (1, max. 15) VLPA Top orchestral ensemble, performing symphonic literature six to seven times per year. Includes rehearsals three times per week and collaborative performances with local institutions such as the Seattle Symphony. Open to all students. Auditions held at the beginning of each academic year; seating rotates

MUSEN 301 Wind Ensemble (1, max. 15) VLPA *Salzman*

MUSEN 302 Symphonic Band (1, max. 10) VLPA *Salzman*

MUSEN 303 Marching Band (1-2, max. 10) VLPA *McDavid*

MUSEN 304 Percussion Ensemble (1, max. 12) VLPA *Collier*

MUSEN 305 Brass Ensemble (1, max. 12) VLPA

MUSEN 306 Woodwind Ensemble (1, max. 12) VLPA *Shin*

MUSEN 307 Recital Choir (1, max. 15) VLPA *Boers* Choir presents two recital programs per quarter, surveying a wide variety of repertoire of all styles and periods. Credit/no-credit only.

MUSEN 308 Guitar Ensemble (1, max. 18) VLPA *Partington* Study and performance works for two, three, and four guitars and one guitar with various solo instruments or voice. Designed for guitar performance majors. Other instrumentalists may register with instructor's permission. Offered: AWSp.

MUSEN 309 Concert Band (1, max. 10) VLPA *Salzman* Open for membership without

audition to students from any major field of study as well as faculty and community members. Also a forum for music majors to refine skills on primary or secondary instruments. Offered: AWSpS.

MUSEN 325 Accompanying (2, max. 30) VLPA

MUSEN 340 Vocal Jazz Ensemble (1, max. 6) VLPA
Credit/no-credit only.

MUSEN 345 Jazz Workshop (1, max. 12)
VLPA *Collier, Seales*

MUSEN 346 Studio Jazz Ensemble (1, max. 6) VLPA

MUSEN 347 Opera Chorus (1, max. 12) VLPA

MUSEN 350 University Chorale (1, max. 12)
VLPA *Wyers* Credit/no-credit only.

MUSEN 351 Chamber Singers (1, max. 15)
VLPA *Boers*

MUSEN 361 Piano Ensemble (1, max. 3) VLPA Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability.

MUSEN 368 Harp Ensemble (1, max. 12) VLPA

MUSEN 369 Baroque Chamber Ensemble (1, max. 18) VLPA *Terry*

MUSEN 375 Opera Workshop (1, max. 6) VLPA
Preparation of operatic repertoire. Intended for the mature voice student.

MUSEN 381 Chamber Music (1, max. 18) VLPA

MUSEN 382 Opera Theatre (2, max. 6) VLPA Public performance of roles in opera.

MUSEN 383 Collegium Musicum (1, max. 6) VLPA

MUSEN 384 Modern Music Ensemble (1, max. 6)
VLPA *Durand* Exploration of notation and performance problems in modern music; preparation for public performance.

MUSEN 389 World Music Ensemble (1, max. 12)
VLPA Ensemble performance in a variety of world music traditions, taught by visiting artists. Content varies. Credit/no-credit only. Offered: AWSp.

MUSEN 410 Steelband (1, max. 12) VLPA Performing and arranging techniques for the steelband, and percussion, in a variety of Caribbean and Latin American music styles, including calypso, soca, reggae, and salsa. Credit/no-credit only. Offered: AWSp.

MUSEN 411 Gamelan Ensembles (1, max. 15)
VLPA *Sunardi* Explores gamelan ensembles; percussion ensembles primarily associated with musical cultures on the Indonesian islands of Java, Madura, Bali, and Lombok. Introduces basic playing techniques of selected styles of gamelan. Includes instruction in the instruments in a gamelan through study of compositions. Offered: AWSpS.

MUSEN 446 Advanced Studio Jazz Ensemble (1, max. 9) VLPA Preparation and performance of material appropriate to large jazz ensemble concerts, clinics, and radio and television broadcasts.

MUSEN 500 University of Washington Symphony Orchestra (1, max. 9) Top orchestral ensemble, performing symphonic literature six to seven times per year. Includes rehearsals three times per week and collaborative performances with local institutions such as the Seattle Symphony. Open to all students. Auditions held at the beginning of each academic year; seating rotates.

MUSEN 501 Wind Ensemble (1, max. 9) *Salzman*

MUSEN 502 Symphonic Band (1, max. 6)

MUSEN 503 Marching Band (1-2, max. 10) *McDavid*

MUSEN 504 Percussion Ensemble (1, max. 9) *Collier*

MUSEN 505 Brass Ensemble (1, max. 9)

MUSEN 506 Woodwind Ensemble (1, max. 9) *Shin*

MUSEN 507 Recital Choir (1, max. 9) Choir presents two recital programs per quarter, surveying a wide variety of repertoire of all styles and periods. Credit/no-credit only.

MUSEN 508 Guitar Ensemble (1, max. 9) *Partington*
Study and performance works for two, three, and four guitars and one guitar with various solo instruments or voice. Designed for guitar performance majors. Other instrumentalists may register with instructor's permission. Offered: AWSp.

MUSEN 509 Concert Band (1, max. 6)

MUSEN 511 Gamelan Ensembles (1, max. 15)
Sunardi Explores gamelan ensembles; percussion ensembles primarily associated with musical cultures on the Indonesian islands of Java, Madura, Bali, and Lombok. Introduces basic playing techniques of selected styles of gamelan. Includes instruction in the instruments in a gamelan through study of compositions. Offered: AWSpS.

MUSEN 525 Accompanying (2, max. 18)

MUSEN 540 Vocal Jazz Ensemble (1, max. 9)
Credit/no-credit only.

MUSEN 545 Jazz Workshop (1, max. 9) *Collier, Seale, Vu*

MUSEN 546 Studio Jazz Ensemble (1, max. 9)
Credit/no-credit only.

MUSEN 547 Opera Chorus (1, max. 9)

MUSEN 550 University Chorale (1, max. 9) *Wyers*
Credit/no-credit only.

MUSEN 551 Chamber Singers (1, max. 9) *Boers*

MUSEN 561 Piano Ensemble (1, max. 9) Study and performance of works for four hands at one or two pianos. Designed for upper-level piano majors or students with equivalent ability.

MUSEN 568 Harp Ensemble (1, max. 9)

MUSEN 569 Baroque Chamber Ensemble (1, max. 9)
Terry

MUSEN 575 Opera Workshop (1, max. 9)
Preparation of operatic repertoire. Intended for the mature voice student.

MUSEN 580 Sinfonietta (1, max. 9)

MUSEN 581 Chamber Music (1, max. 9)

MUSEN 582 Opera Theatre (2, max. 18) Public performance of roles in opera.

MUSEN 583 Collegium Musicum (1, max. 9)

MUSEN 584 Modern Music Ensemble (1, max. 9)
Durand Exploration of notation and performance problems in modern music; preparation for public performance. Credit/no-credit only.

MUSEN 589 World Music Ensemble (1, max. 12)
VLPA Ensemble performance in a variety of world music traditions, taught by visiting artists. Content varies. Credit/no-credit only. Offered: AWSp.

MUSIC HISTORY

MUHST 210 Introduction to the History of Western Music I (3) VLPA Introduction to the critical study of Western music history, including representative composers, works, and genres, as well as significant concepts and issues. Origins of Western music. Prerequisite: MUSIC 120; either MUSIC 203 or MUSIC 206, which may be taken concurrently. Instructors: Taricani Offered: A.

MUHST 211 Introduction to the History of Western Music II (3) VLPA Introduction to the critical study of Western music history, including representative composers, works, and genres, as well as significant concepts and issues. Baroque and classical periods. Prerequisite: MUSIC 203, MUSIC 206; either a minimum grade of 3.0 in MUSIC 120 or minimum score of 80% on music history placement test. Instructors: Rumph, Starr, Taricani Offered: W.

MUHST 212 Introduction to the History of Western Music III (3) VLPA Introduction to the critical study of Western music history including representative composers, works, and genres as well as significant concepts and issues - nineteenth and twentieth centuries. Prerequisite: minimum grade of 2.0 in MUHST 211. Instructors: Starr Offered: Sp.

MUHST 301 Music and the American Experience (3) VLPA/I&S Survey of American music from the colonial period to the present day, with emphasis on in-depth examination of representative works from both cultivated and vernacular traditions.

Prerequisite: MUHST 210; MUSIC 303; MUSIC 306.
Instructors: Starr Offered: WSp.

MUHST 310 Perspectives in Music History (3, max. 6) VLPA/I&S Overview of different stylistic periods in music history. Perspectives include music and philosophy, music and gender, and music and text. Students develop an insight into the manner in which similar questions have been approached in diverse cultures and periods. Prerequisite: MUHST 210; MUSIC 303; MUSIC 306. Offered: WSp.

MUHST 311 Beethoven in Western Culture (3) VLPA/I&S Comprehensive study of Beethoven's works and their nineteenth- and twentieth-century reception, with consideration of how Western culture has used Beethoven's music in its constructions of subjectivity, genius, and national and other collective identities. Prerequisite: MUSIC 303; MUSIC 306; MUHST 210. Offered: WSp.

MUHST 400 Medieval Music: To 1400 (3) VLPA *Taricani* Critical readings on issues in medieval music. Works to be studied include repertory from chant, motets, and sacred and secular music of the Middle Ages.

MUHST 401 Early British Music: 1300-1700 (3) VLPA *Taricani* Examines the history of British music from its earliest polyphony through the music of Purcell. Stylistic features of English music studied, including medieval polyphony, Tudor music, Elizabethan music, and seventeenth-century music through Purcell.

MUHST 402 Late Renaissance Secular Music: 1525-1630 (3) VLPA *Taricani* The madrigal in Italy, England, and Germany. The Chanson, Jannequin through Lassus.

MUHST 403 Late Renaissance Sacred and Instrumental Music: 1525-1630 (3) VLPA *Taricani* Latin church music. Willaert through G. Gabrieli; early Reformation church music, Walther through Gibbons; instrumental music, Cabezon, the English virginal school, and Sweelinck.

MUHST 404 Baroque Keyboard Music (3) VLPA Forms and styles: Frescobaldi through J.S. Bach and C.P.E. Bach.

MUHST 405 Orchestral Music: 1620-1760 (3) VLPA Corelli through the Mannheim School. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

MUHST 406 Baroque Choral Music (3) VLPA Monteverdi through Handel. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

MUHST 407 Baroque Opera (3) VLPA Monteverdi through Handel.

MUHST 408 Keyboard Music: 1760-1830 (3) VLPA Haydn through Schubert. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

MUHST 409 Chamber Music: 1760-1830 (3) VLPA Haydn through Schubert. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

MUHST 410 Orchestral Music: 1760-1830 (3) VLPA Haydn through early Berlioz.

MUHST 411 Art Song, 1760-1830 (3) VLPA The art song in European culture during the classical and early Romantic periods. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

MUHST 412 Choral Music: 1750-1830 (3) VLPA Large works for chorus and orchestra, Haydn through Beethoven.

MUHST 413 Opera: 1750-1830 (3) VLPA *Rumph* Gluck through Bellini.

MUHST 414 Keyboard Music: 1830-1915 (3) VLPA Schumann through Debussy. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

MUHST 415 Chamber Music: 1830-1915 (3) VLPA Schumann through Ravel. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

MUHST 416 Orchestral Music: 1830-1915 (3) VLPA Schumann and Mendelssohn through early

Schoenberg and Stravinsky. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, MUSIC 306.

MUHST 417 Art Song: 1830-1915 (3) VLPA The Lieder of Schumann, Brahms, Wolf, Strauss, Mahler, and Schoenberg. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth

MUHST 418 Choral Music: 1830-1915 (3) VLPA *Bozarth* Selected choral masterpieces. Mendelssohn through Schoenberg.

MUHST 419 Opera: 1830-1915 (3) VLPA German, French, and Italian operatic traditions. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Rumph

MUHST 420 Authenticity and Performance (3) VLPA The practical and philosophical issues raised by historically informed performance of early music on period instruments. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

MUHST 421 Music Criticism (3) VLPA Study of the various forms of music criticism, with an emphasis on the writing of valid examples and evaluation of one's own work along with that of others - classmates, journalists, and academic critics. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

MUHST 422 Gender and Music (3) VLPA/I&S, DIV Investigates how gender issues have shaped the creation and perception of music; introduces women composers and their music. Topics include writing women's biography; creation of the music canon; gender issues in opera; intertwining issues of race, class, and gender, blues women; and popular music. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Tsou Offered: W.

MUHST 423 Twentieth-Century Music to 1945 (3) VLPA Intensive study of selected composers and works exemplifying the new vocabularies, grammars, and styles of the early part of the twentieth century. Prerequisite: minimum grade of 2.0 in each of

MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

MUHST 424 Music Since 1945 (3) VLPA Diversity of the contemporary musical scene. Vocabularies appropriate for the description and understanding of the new music, developed through study of representative composers and works, and appropriate readings. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

MUHST 425 Jazz History and Analysis (3) VLPA Major eras and styles of jazz with emphasis on technical aspects of jazz music: composition, arranging, improvisation practices. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Collier

MUHST 426 American Popular Music (3) VLPA An in-depth consideration of American popular music styles and repertory from about 1920 to the present day. Analysis of representative pieces; consideration of critical and aesthetic issues relating to popular music; relationship of popular music to "art" music and to American culture and society. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Starr

MUHST 429 Music, Literature, and the Arts (3) VLPA Literary and visual art works that include musical subject matter and forms; musical genres that incorporate other arts such as opera and ballet. Related philosophical writings. Includes works of a particular time period or investigation of a specific problem in comparative arts. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306.

MUHST 497 Special Topics in Music History (1-5, max. 15) VLPA Topics vary each quarter. Prerequisite: minimum grade of 2.0 in each of MUHST 210, MUSIC 303, and MUSIC 306. Instructors: Bozarth, Rumph, Taricani, Tsou

MUHST 500 Seminar in Methods of Music Research (3) Rumph, Taricani Explores various critical approaches to research in music at the graduate level, examining specialized bibliographical resources, controversial arguments about musical issues, and other matters of musical criticism required to begin advanced study of music.

Prerequisite for all graduate music history courses except MUHST 515.

MUHST 503 Readings in Medieval and Renaissance Music (5) Musical styles, genres, and forms of the Middle Ages and Renaissance. Focuses upon musicological problems and controversy related to music composed circa 1000 - 1600. Prerequisite: permission of instructor. Instructors: Taricani

MUHST 504 Seminar in Medieval Music (3, max. 6)
Prerequisite: MUHST 500. Instructors: Taricani

MUHST 505 Seminar in Renaissance Music (3, max. 6)
Prerequisite: MUHST 500. Instructors: Taricani

MUHST 506 Seminar in Baroque Music (3, max. 6)
Prerequisite: MUHST 500. Instructors: Bozarth

MUHST 508 Seminar in the Viennese Classical Period: 1760-1830 (3, max. 6) Prerequisite: MUHST 500. Instructors: Bozarth

MUHST 509 Seminar in Nineteenth-Century Music: 1830-1890 (3, max. 6) Prerequisite: MUHST 500. Instructors: Bozarth, Rumph

MUHST 510 Seminar in Music Since 1890 (3, max. 6)
Prerequisite: MUHST 500. Instructors: Starr

MUHST 515 Seminar in Medieval and Renaissance Notation (5) *Taricani* Gregorian chant through sixteenth-century prints.

MUHST 519 Seminar in Modern Editorial Procedures (5) *Bozarth* Study of modern procedures for preparing critical editions. Related areas of study may include analysis of musical style and historical and performance problems inherent in works being edited.

MUHST 520 Seminar in American Music (3, max. 6)
Research in the life, works, and times of composers in the United States from colonial days to the present. Prerequisite: MUHST 500. Instructors: Starr

MUHST 537 Seminar on Opera (3, max. 6)
Prerequisite: MUHST 500.

MUSIC PERFORMANCE

MUSICP 300 Private Instruction for Non-Majors: Voice (2, max. 44) VLPA *Harper* Intended for undergraduate non-majors. Audition required.

MUSICP 301 Private Instruction for Non-Majors: Piano (2, max. 44) VLPA *McCabe, Seales, Sheppard* Intended for undergraduate non-majors. Audition required.

MUSICP 302 Private Instruction for Non-Majors: Organ (2, max. 44) VLPA *Terry* Intended for undergraduate non-majors. Audition required.

MUSICP 303 Private Instruction for Non-Majors: Harpsichord (2, max. 44) VLPA *Terry* Intended for undergraduate non-majors. Audition required.

MUSICP 304 Private Instruction for Non-Majors: Violin (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 305 Private Instruction for Non-Majors: Violoncello (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 306 Private Instruction for Non-Majors: Double Bass (2, max. 44) VLPA *Lieberman* Intended for undergraduate non-majors. Audition required.

MUSICP 307 Private Instruction for Non-Majors: Flute (2, max. 44) VLPA *Shin* Intended for undergraduate non-majors. Audition required.

MUSICP 308 Private Instruction for Non-Majors: Oboe (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 309 Private Instruction for Non-Majors: Clarinet (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 310 Private Instruction for Non-Majors: Bassoon (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 311 Private Instruction for Non-Majors: Saxophone (2, max. 44) VLPA *Brockman* Intended for undergraduate non-majors. Audition required.

MUSICP 312 Private Instruction for Non-Majors: Horn (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 313 Private Instruction for Non-Majors: Trumpet (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 314 Private Instruction for Non-Majors: Trombone (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 315 Private Instruction for Non-Majors: Tuba (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 316 Private Instruction for Non-Majors: Harp (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 317 Private Instruction for Non-Majors: Percussion (2, max. 44) VLPA *Collier, Crusoe* Intended for undergraduate non-majors. Audition required.

MUSICP 318 Private Instruction for Non-Majors: Guitar (2, max. 44) VLPA *Partington* Intended for undergraduate non-majors. Audition required.

MUSICP 319 Private Instruction for Non-Majors: Viola da Gamba (2, max. 44) VLPA Intended for undergraduate non-majors. Audition required.

MUSICP 320 Private Instruction: Voice (3, max. 45) VLPA *Thomas Harper* Intended for undergraduate majors. Audition required.

MUSICP 321 Private Instruction: Piano (3, max. 45) VLPA *Craig Sheppard, Marc A Seales, Robin L McCabe* Intended for undergraduate majors. Audition required.

MUSICP 322 Private Instruction: Organ (3, max. 45) VLPA *Carole R Terry* Intended for undergraduate majors. Audition required.

MUSICP 323 Private Instruction: Harpsichord (3, max. 45) VLPA *Carole R Terry* Intended for undergraduate majors. Audition required.

MUSICP 324 Private Instruction: Violin (3, max. 45) VLPA *Ronald G Patterson* Intended for undergraduate majors. Audition required.

MUSICP 325 Private Instruction: Violoncello (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 326 Private Instruction: Double Bass (3, max. 45) VLPA *Barry Lieberman* Intended for undergraduate majors. Audition required.

MUSICP 327 Private Instruction: Flute (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 328 Private Instruction: Oboe (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 329 Private Instruction: Clarinet (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 330 Private Instruction: Bassoon (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 331 Private Instruction: Saxophone (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 332 Private Instruction: Horn (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 333 Private Instruction: Trumpet (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 334 Private Instruction: Trombone (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 335 Private Instruction: Tuba (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 336 Private Instruction: Harp (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 337 Private Instruction: Percussion (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 338 Private Instruction: Guitar (3, max. 45) VLPA *Partington* Intended for undergraduate majors. Audition required.

MUSICP 339 Private Instruction: Viola da Gamba (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 340 Private Instruction: Timpani (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 341 Private Instruction: Mallet Percussion (3, max. 45) VLPA *Collier* Intended for undergraduate majors. Audition required.

MUSICP 342 Private Instruction: Jazz Drum Set (3, max. 45) VLPA Primarily for jazz studies and percussion majors. Audition required for non-majors.

MUSICP 343 Private Instruction for Non-Majors: Viola (2, max. 44) VLPA *Watras* Intended for undergraduate non-majors. Audition required.

MUSICP 363 Private Instruction: Viola (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 420 Private Instruction: Voice (3, max. 45) VLPA *Thomas Harper* Intended for undergraduate majors. Audition required.

MUSICP 421 Private Instruction: Piano (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 422 Private Instruction: Organ (3, max. 45) VLPA *Terry* Intended for undergraduate majors. Audition required.

MUSICP 423 Private Instruction: Harpsichord (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 424 Private Instruction: Violin (3, max. 45) VLPA *Patterson* Intended for undergraduate majors. Audition required.

MUSICP 425 Private Instruction: Violoncello (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 426 Private Instruction: Double Bass (3, max. 45) VLPA *Lieberman* Intended for undergraduate majors. Audition required.

MUSICP 427 Private Instruction: Flute (3, max. 45) VLPA *Shin* Intended for undergraduate majors. Audition required.

MUSICP 428 Private Instruction: Oboe (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 429 Private Instruction: Clarinet (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 430 Private Instruction: Bassoon (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 431 Private Instruction: Saxophone (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 432 Private Instruction: Horn (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 433 Private Instruction: Trumpet (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 434 Private Instruction: Trombone (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 435 Private Instruction: Tuba (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 436 Private Instruction: Harp (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 437 Private Instruction: Percussion (3, max. 45) VLPA *Collier, Crusoe* Intended for undergraduate majors. Audition required.

MUSICP 438 Private Instruction: Guitar (3, max. 45) VLPA *Partington* Intended for undergraduate majors. Audition required.

MUSICP 439 Private Instruction: Viola da Gamba (3, max. 45) VLPA Intended for undergraduate majors. Audition required.

MUSICP 440 Private Instruction: Timpani (3, max. 45) VLPA *Crusoe* Intended for undergraduate majors. Audition required.

MUSICP 441 Private Instruction: Mallet Percussion (3, max. 45) VLPA *Collier* Intended for undergraduate majors. Audition required.

MUSICP 442 Jazz Drum Set (3, max. 45) VLPA
Individual instruction in drum set techniques.
Prerequisite: minimum of 18 credits of MUSICP 342.
Instructors: Poor Offered: AWSp.

MUSICP 463 Private Instruction: Viola (3, max. 45) VLPA *Watras* Intended for undergraduate majors. Audition required.

MUSICP 494 Private Instruction: Jazz (3, max. 45) VLPA *Collier, Seales, Vu* Guides students through the process of historical examination of jazz while discovering and developing musical originality. Addresses jazz methods and approaches, aiming for mastery in jazz performance in a one-on-one environment with instrumentalists chosen from the core jazz instrumentation of trumpet, piano, bass, and drums. Offered: AWSp.

MUSICP 495 Private Instruction: Free Improvisation (3, max. 45) VLPA *Bergman, Hodge, Karpen, Vu* Guides students through the process of discovering and developing musical originality in improvised music. Students aim for mastery of improvised performance in a one-on-one environment with instructor chosen from various School of Music faculty. Primarily for jazz majors. Offered: AWSp.

MUSICP 500 Private instruction for Non-Majors: Voice (2, max. 44) Harper Intended for graduate non-majors. Audition required.

MUSICP 501 Private Instruction for Non-Majors: Piano (2, max. 44) *Robin L McCabe, Marc A Seales, Craig Sheppard* Intended for graduate non-majors. Audition required.

MUSICP 502 Private Instruction for Non-Majors: Organ (2, max. 44) *Carole R Terry* Intended for graduate non-majors. Audition required.

MUSICP 503 Private Instruction for Non-Majors: Harpsichord (2, max. 44) *Carole R Terry* Intended for graduate non-majors. Audition required.

MUSICP 504 Private Instruction for Non-Majors: Violin (2, max. 44) *Patterson* Intended for graduate non-majors. Audition required.

MUSICP 505 Private Instruction for Non-Majors: Violoncello (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 506 Private Instruction for Non-Majors: Double Bass (2, max. 44) *Barry Lieberman* Intended for graduate non-majors. Audition required.

MUSICP 507 Private Instruction for Non-Majors: Flute (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 508 Private Instruction for Non-Majors: Oboe (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 509 Private Instruction for Non-Majors: Clarinet (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 510 Private Instruction for Non-Majors: Bassoon (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 511 Private Instruction for Non-Majors: Saxophone (2, max. 44) *Brockman* Intended for graduate non-majors. Audition required.

MUSICP 512 Private Instruction for Non-Majors: Horn (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 513 Private Instruction for Non-Majors: Trumpet (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 514 Private Instruction for Non-Majors: Trombone (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 515 Private Instruction for Non-Majors: Tuba (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 516 Private Instruction for Non-Majors: Harp (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 517 Private Instruction for Non-Majors: Percussion (2, max. 44) *Thomas W Collier* Intended for graduate non-majors. Audition required.

MUSICP 518 Private Instruction for Non-Majors: Guitar (2, max. 44) *Michael Partington* Intended for graduate non-majors. Audition required.

MUSICP 519 Private Instruction for Non-Majors: Viola da Gamba (2, max. 44) Intended for graduate non-majors. Audition required.

MUSICP 520 Private Instruction: Voice (3, max. 45) *Harper* Intended for graduate majors. Audition required.

MUSICP 521 Private Instruction: Piano (3, max. 45) *McCabe, Sheppard* Intended for graduate majors. Audition required.

MUSICP 522 Private Instruction: Organ (3, max. 45) *Terry* Intended for graduate majors. Audition required.

MUSICP 523 Private Instruction: Harpsichord (3, max. 45) *Terry* Intended for graduate majors. Audition required.

MUSICP 524 Private Instruction: Violin (3, max. 45) *Patterson* Intended for graduate majors. Audition required.

MUSICP 525 Private Instruction: Violoncello (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 526 Private Instruction: Double Bass (3, max. 45) *Lieberman* Intended for graduate majors. Audition required.

MUSICP 527 Private Instruction: Flute (3, max. 45) *Shin* Intended for graduate majors. Audition required.

MUSICP 528 Private Instruction: Oboe (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 529 Private Instruction: Clarinet (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 530 Private Instruction: Bassoon (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 531 Private Instruction: Saxophone (3, max. 45) *Brockman* Intended for graduate majors. Audition required.

MUSICP 532 Private Instruction: Horn (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 533 Private Instruction: Trumpet (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 534 Private Instruction: Trombone (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 535 Private Instruction: Tuba (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 536 Private Instruction: Harp (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 537 Private Instruction: Percussion (3, max. 45) *Collier, Crusoe* Intended for graduate majors. Audition required.

MUSICP 538 Private Instruction: Guitar (3, max. 45) *Partington* Intended for graduate majors. Audition required.

MUSICP 539 Jazz Drum Set (3, max. 45) *Poor* Individual instruction in drum set techniques. Offered: AWSp.

MUSICP 540 Private Instruction: Timpani (3, max. 45) *Crusoe* Intended for graduate majors. Audition required.

MUSICP 541 Private Instruction: Mallet Percussion (3, max. 45) *Collier* Intended for graduate majors. Audition required.

MUSICP 542 Private Instruction: Viola da Gamba (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 543 Private Instruction for Non-Majors: Viola (2, max. 44) *Melia Watras* Intended for graduate non-majors. Audition required. Offered: AWSpS.

MUSICP 563 Private Instruction: Viola (3, max. 45) *Watras* Intended for Master's degree candidates. Audition required. Offered: AWSpS.

MUSICP 570 Private Instruction: Voice (3, max. 45) *Harper* Intended for graduate majors. Audition required.

MUSICP 571 Private Instruction: Piano (3, max. 45) *McCabe, Sheppard* Intended for graduate majors. Audition required.

MUSICP 572 Private Instruction: Organ (3, max. 45) *Terry* Intended for graduate majors. Audition required.

MUSICP 573 Private Instruction: Harpsichord (3, max. 45) *Terry* Intended for graduate majors. Audition required.

MUSICP 574 Private Instruction: Violin (3, max. 45) *Patterson* Intended for graduate majors. Audition required.

MUSICP 575 Private Instruction: Violoncello (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 576 Private Instruction: Double Bass (3, max. 45) *Lieberman* Intended for graduate majors. Audition required.

MUSICP 577 Private Instruction: Flute (3, max. 45) *Shin* Intended for graduate majors. Audition required.

MUSICP 578 Private Instruction: Oboe (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 579 Private Instruction: Clarinet (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 580 Private Instruction: Bassoon (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 581 Private Instruction: Saxophone (3, max. 45) *Brockman* Intended for graduate majors. Audition required.

MUSICP 582 Private Instruction: Horn (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 583 Private Instruction: Trumpet (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 584 Private Instruction: Trombone (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 585 Private Instruction: Tuba (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 586 Private Instruction: Harp (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 587 Private Instruction: Percussion (3, max. 45) *Collier, Crusoe* Intended for graduate majors. Audition required.

MUSICP 588 Private Instruction: Guitar (3, max. 45) *Partington*

MUSICP 590 Private Instruction: Timpani (3, max. 45) *Crusoe* Intended for graduate majors. Audition required.

MUSICP 591 Private Instruction: Mallet Percussion (3, max. 45) *Collier* Intended for graduate majors. Audition required.

MUSICP 592 Private Instruction: Viola da Gamba (3, max. 45) Intended for graduate majors. Audition required.

MUSICP 593 Private Instruction: Viola (3, max. 45) *Watras* Intended for Doctoral degree candidates. Audition required. Offered: AWSpS.

MUSICP 594 Private Instruction: Jazz (3, max. 45) *Collier, Seales, Vu* Guides students through the process of historical examination of jazz while

discovering and developing musical originality. Addresses jazz methods and approaches, aiming for mastery in jazz performance in a one-on-one environment with instrumentalists chosen from the core jazz instrumentation of trumpet, piano, bass, and drums. Offered: AWSp.

MUSICP 595 Private Instruction: Free Improvisation (3, max. 45) *Bergman, Hodge, Karpen, Vu* Guides students through the process of discovering and developing musical originality in improvised music. Students aim for mastery of improvised performance in a one-on-one environment with instructor chosen from various School of Music faculty. Primarily for jazz majors. Offered: AWSp.

NEAR EASTERN LANGUAGES AND CIVILIZATION

ARABIC

ARAB 101 Elementary Arabic (5) Develops the four communicative language skills: listening, speaking, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 105 or ARAB 411 taken for credit. First in a sequence of three.

ARAB 102 Elementary Arabic (5) Develops the four communicative language skills: listening, speaking, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 105 or ARAB 411 taken for credit. Second in a sequence of three. Prerequisite: ARAB 101.

ARAB 103 Elementary Arabic (5) Develops the four communicative language skills: listening, speaking, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 105 or ARAB 411 taken for credit. Third in a sequence of three. Prerequisite: ARAB 102.

ARAB 105 Intensive Elementary Arabic (15)

Develops the four communicative language skills: listening, speaking, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 101-ARAB 103, ARAB 411-ARAB 413 taken for credit. If Arabic is the student's language of admission only 10 credits count towards graduation

ARAB 199 Study Abroad (1-15, max. 15) Credit for elementary or intermediate Arabic in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

ARAB 201 Intermediate Arabic (5) VLPA Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 205 taken for credit. First in a sequence of three. Prerequisite: either ARAB 103 or ARAB 105.

ARAB 202 Intermediate Arabic (5) VLPA Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 205 taken for credit. Second in a sequence of three. Prerequisite: ARAB 201.

ARAB 203 Intermediate Arabic (5) VLPA Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 205 taken for credit. Third in a sequence of three. Prerequisite: ARAB 202.

ARAB 205 Intensive Intermediate Arabic (15) VLPA Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking,

reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 201, ARAB 202, ARAB 203 taken for credit. Prerequisite: either ARAB 103 or ARAB 105.

ARAB 399 Study Abroad (1-15, max. 15) Credit for elementary or intermediate Arabic in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

ARAB 401 Current Issues in Arab Media (5) Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 203 or 205. Offered: S.

ARAB 402 Current Issues in Arab Media (5) Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 401.

ARAB 403 Current Issues in Arab Media (5) Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 402.

ARAB 404 Arabic Short Stories (5) VLPA Introduces student to prominent twentieth-century Arab authors via selected examples of their short stories, read in Arabic. Emphasizes use of literature as a popular technique for teaching basic language skills (i.e. listening, speaking, reading, and writing) and language areas (i.e. vocabulary, grammar, and pronunciation) . Prerequisite: either ARAB 203 or ARAB 205.

ARAB 405 Modern Arabic Poetry (3) VLPA

Neoclassical poetry of the nineteenth and twentieth centuries, and the development of modern verse. Prerequisite: either ARAB 203 or ARAB 205. Instructors: DeYoung

ARAB 406 Development of Modern Arabic Prose (5)

VLPA Modern essays, fiction, and ideological writings. Prerequisite: either ARAB 203 or ARAB 205.

ARAB 407 Grammatical and Lexical Arabic Texts (3)

VLPA Introduction to concepts and terminology of Arabic grammar and lexicography through readings from scholars such as Sibawayh, Ibn Aqil, and Ibn Manzur. Prerequisite: either ARAB 203 or ARAB 205.

ARAB 408 Historical Texts (3) VLPA/I&S

Readings in Arab historians with particular reference to scholars such as Tabari, Ibn al-Jawzi, and Ibn al-Athir. Prerequisite: either ARAB 203 or ARAB 205.

ARAB 409 Quran and Its Interpretation (3) VLPA

Reading of selected passages from the Quran in relation to their interpretation in classical commentaries (tafsir) and in legal texts (ahkam al-Quran) . Focus on the various types of classical scholarship applied to the text of the Quran (ulum al-Quran) . Prerequisite: either ARAB 203 or ARAB 205.

ARAB 410 Islamic Theological and Mystical Literature (3) VLPA

Reading of selected texts representative of Islamic theological and mystical schools. Prerequisite: either ARAB 203 or ARAB 205.

ARAB 411 Arabic through Song (5) VLPA/I&S

Emphasizes history, language, and culture explored, learned, and analyzed via songs. Considers how song reflects and portrays language and its usage; current and past events; and cultural nuances. Prerequisite: either ARAB 203 or ARAB 205.

ARAB 412 Introduction to Classical Arabic (5) VLPA

Reading the Qur'an, Hadith, and poetry in Classical Arabic (CA) . Students study selected texts, listen to Qur'anic recitations, and poetry, mastering many advanced grammatical structures and acquiring a working vocabulary in CA. Prerequisite: ARAB 203 or ARAB 205.

ARAB 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: ARAB 423.

ARAB 496 Special Studies in Arabic (3-5, max. 15) VLPA Topics vary. Offered occasionally by visiting or resident faculty.

ARAB 499 Undergraduate Research (1-6, max. 18)

ARAB 511 Elementary Arabic (5) Develops the four communicative language skills: listening, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 515 or ARAB 411, ARAB 412, ARAB 413 taken for credit. First in a sequence of three.

ARAB 512 Elementary Arabic (5) Develops the four communicative language skills: listening, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 515 or ARAB 411, ARAB 412, ARAB 413 taken for credit. Second in a sequence of three. Prerequisite: ARAB 511.

ARAB 513 Elementary Arabic (5) Develops the four communicative language skills: listening, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 515 or ARAB 411, ARAB 412, ARAB 413 taken for credit. Third in a sequence of three. Prerequisite: ARAB 512.

ARAB 515 Intensive Elementary Arabic (15) Develops the four communicative language skills: listening, reading, and writing. Stresses communication skills and emphasizes the links between language and culture, using mainly Modern Standard Arabic, with exposure to Egyptian Colloquial Arabic. Cannot be taken for credit if ARAB 511, ARAB 512, ARAB 513, or ARAB 411, ARAB 412, ARAB 413 taken for credit. Offered: S.

ARAB 521 Intermediate Arabic (5) Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing.

Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 525 taken for credit. Prerequisite: either ARAB 515 or ARAB 513.

ARAB 522 Intermediate Arabic (5) Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 525 taken for credit. Prerequisite: ARAB 521.

ARAB 523 Intermediate Arabic (5) Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 525 taken for credit. Prerequisite: ARAB 522.

ARAB 525 Intensive Intermediate Arabic (15) Explores aspects of Arab culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing. Students also learn more about Arab society in general and about features of Arab culture that influence the use of the language in daily life. Focuses on developing communication skills. Cannot be taken for credit if ARAB 521, ARAB 522, ARAB 523 taken for credit. Prerequisite: either ARAB 513 or ARAB 515. Offered: S.

ARAB 541 Current Issues in Arab Media (5) Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic.

ARAB 542 Current Issues in Arab Media (5) Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression

through discussions, debates, presentations, and written work. Taught in Arabic.

ARAB 543 Current Issues in Arab Media (5) Studies authentic, unedited Arabic language materials from Arabic media. Topics include politics, economics, business, sports, and women's issues. Emphasis on developing fluency in oral and written expression through discussions, debates, presentations, and written work. Taught in Arabic. Prerequisite: ARAB 542

ARAB 544 Arabic Short Stories (5) VLPA Introduces student to prominent twentieth-century Arab authors via selected examples of their short stories, read in Arabic. Emphasizes use of literature as a popular technique for teaching basic language skills (i.e. listening, speaking, reading, and writing) and language areas (i.e. vocabulary, grammar, and pronunciation) . Prerequisite: either ARAB 203 or 205.

ARAB 546 Development of Modern Arabic Prose (5) VLPA Modern essays, fiction, and ideological writings. Prerequisite: ARAB 523.

ARAB 551 Arabic through Song (5) Emphasizes history, language, and culture explored, learned, and analyzed via songs. Considers how song reflects and portrays language and its usage; current and past events; and cultural nuances. Prerequisite: either ARAB 523 or ARAB 525

ARAB 552 Introduction to Classical Arabic (5) Reading the Qur'an, Hadith, and poetry in Classical Arabic (CA) . Students study selected texts, listen to Qur'anic recitations, and poetry, mastering many advanced grammatical structures and acquiring a working vocabulary in CA. Prerequisite: Completion of ARAB 523 or ARAB 525.

ARAB 596 Special Studies in Arabic (3-5, max. 15) Topics vary. Offered occasionally by visiting or resident faculty.

ARAB 600 Independent Study or Research (*-)

ARAMAIC

ARAMIC 201 Biblical Aramaic (5) VLPA Fundamentals of Aramaic grammar and the

differences that distinguish Aramaic from Hebrew; includes select Aramaic portions of the Bible. Emphasis on grammar and comprehension. Designed for students with some knowledge of Hebrew. Prerequisite: either BIBHEB 103 or BIBHEB 105.

ARAMIC 423 Readings in Syriac (3) VLPA Readings from selected passages in Biblical and Christian literature with emphasis on writings of late antique and medieval Christian communities of Syria, Iraq, and Iran until the Mongol invasions. Prerequisite: ARAMIC 412. Offered: Sp.

ARAMIC 521 Biblical Aramaic (5) Fundamentals of Aramaic grammar and the differences that distinguish Aramaic from Hebrew; includes select Aramaic portions of the Bible. Emphasizes grammar and comprehension. Designed for students with some knowledge of Hebrew. Prerequisite: either BIBHEB 513 or BIBHEB 515.

BIBLICAL HEBREW

BIBHEB 101 Elementary Biblical Hebrew (5) Introduction to biblical (classical) Hebrew beginning with the alphabet. Integrates core vocabulary and basic grammar with reading short selections directly from the Hebrew Bible.

BIBHEB 102 Elementary Biblical Hebrew (5) Continues the introduction to the biblical (classical) Hebrew with additional readings from the Hebrew Bible. Prerequisite: BIBHEB 101.

BIBHEB 103 Biblical Hebrew Prose (5) VLPA Explores select prose sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: BIBHEB 102.

BIBHEB 105 Intensive Elementary Biblical Hebrew (15) VLPA Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken for credit if BIBHEB 101, BIBHEB 102, BIBHEB 103 previously taken.

BIBHEB 199 Study Abroad (1-15, max. 15) Credit for elementary Hebrew in an approved Study Abroad

program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

BIBHEB 201 Biblical Hebrew Poetry (5) VLPA

Explores select poetic sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasis on close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: either BIBHEB 103 or BIBHEB 105.

BIBHEB 202 Inscriptions from Biblical Times (5)

VLPA Surveys Northwest Semitic inscriptions that bear significantly on our understanding of Biblical history and ancient Hebrew including the Moabite stone, Israelite ostraca, Siloam engraving, Gezer calendar, Deir Alla (Gilead) inscriptions, the Asherah texts, Ammonite fragments, and Phoenician monuments. Prerequisite: BIBHEB 201.

BIBHEB 203 Biblical Prophetic Texts (5) VLPA

Examines the language, style, and literary sophistication of biblical prophetic texts within the context of ancient Near Eastern prophecies. Prerequisite: BIBHEB 103.

BIBHEB 204 The Book of Job (5) VLPA Examines the language, style, and literary sophistication of the biblical Book of Job within the context of ancient near Eastern dispute poetry and correlates close readings of the book in the original Hebrew language with various interpretations it has received since antiquity. Prerequisite: BIBHEB 103.

BIBHEB 205 Readings in Medieval Hebrew Poetry

(3) VLPA *Scott B. Noegel* A close examination of Medieval Hebrew poetry. Among the poems we shall study will include works by Yehudah Halevi, Shlomo ibn Gabirol, Moshe ibn Ezra, and Abraham ibn Ezra. Focus will be on the literary sophistication of this poetry. Prerequisite: BIBHEB 103 or MODHEB 103. Offered: WSp.

BIBHEB 206 Magic and the Bible: Tales of Cult and Wonder (5) VLPA

S. Noegel Examines biblical Hebrew texts that raise questions concerning the degree to which ancient Israelites engaged in "magical" practices as found elsewhere in the ancient Near East. Attention is paid also to the texts' language, style, and literary aspects and to

comparative materials. Prerequisite: BIBHEB 103 or permission of instructor. Offered: W.

BIBHEB 207 The Book of Proverbs (5) VLPA

S. Noegel Examines the language, style, and sophistication of the biblical Book of Proverbs within the context of ancient Near Eastern proverb collections and correlates close readings of the book in the original Hebrew language with various interpretations it has received since antiquity. Prerequisite: BIBHEB 103 Offered: Sp.

BIBHEB 399 Study Abroad (1-15, max. 15) Credit for intermediate Hebrew in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

BIBHEB 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: BIBHEB 203.

BIBHEB 496 Special Studies in Biblical Hebrew (3-5, max. 15) VLPA Topics vary.

BIBHEB 499 Undergraduate Research (1-6, max. 18)

BIBHEB 511 Elementary Biblical Hebrew (5)

Introduction to biblical (classical) Hebrew beginning with the alphabet. Integrates core vocabulary and basic grammar with reading short selections directly from the Hebrew Bible.

BIBHEB 512 Elementary Biblical Hebrew (5)

Continues the introduction to the biblical (classical) Hebrew with additional readings from the Hebrew Bible. Prerequisite: BIBHEB 511.

BIBHEB 513 Biblical Hebrew Prose (5) Explores select prose sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasizes close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: BIBHEB 512.

BIBHEB 515 Intensive Elementary Biblical Hebrew

(1) Intensive introduction to biblical (classical) Hebrew beginning with the alphabet. Integrates core vocabulary and basic grammar with reading short selections from the Hebrew Bible. Offered: S.

BIBHEB 521 Biblical Hebrew Poetry (5) Explores select poetic sections of the Hebrew Bible (Old Testament) in conjunction with English translations and commentaries. Emphasizes close readings, the grammatical insights of textual criticism, and the interpretive strategies and agendas of the English translations. Prerequisite: either BIBHEB 513 or BIBHEB 515.

BIBHEB 522 Inscriptions from Biblical Times (5) Surveys Northwest Semitic inscriptions that bear significantly on our own understanding of Biblical history and ancient Hebrew including the Moabite stone, Israelite ostraca, Siloam engraving, Gezer calendar, Deir Alla (Gilead) inscriptions, the Asherah texts, Ammonite fragments, and Phoenician monuments. Prerequisite: BIBHEB 521.

BIBHEB 523 Biblical Prophetic Texts (5) Examines the language, style, and literary sophistication of biblical prophetic texts within the context of ancient Near Eastern prophecies. Prerequisite: either BIBHEB 103 or permission of instructor.

BIBHEB 524 The Book of Job (5) Examines the language, style, and literary sophistication of the biblical Book of Job within the context of ancient near Eastern dispute poetry and correlates close readings of the book in the original Hebrew language with various interpretations it has received since antiquity. Prerequisite: BIBHEB 103 or BIBHEB 513.

BIBHEB 525 Readings in Medieval Hebrew Poetry (3) *S. NOEGEL* A close examination of Medieval Hebrew poetry. Among the poems we shall study will include works by Yehudah Halevi, Shlomo ibn Gabirol, Moshe ibn Ezra, and Abraham ibn Ezra. Focus will be on the literary sophistication of this poetry. Prerequisite: BIBHEB 103/513 or MODHEB 103/513. Offered: WSp.

BIBHEB 526 Magic and the Bible: Tales of Cult and Wonder (5) *Scott B. Noegel* Examines biblical Hebrew texts that raise questions concerning the degree to which ancient Israelites engaged in "magical" practices as found elsewhere in the ancient Near East. Attention is paid also to the texts' language, style, and literary aspects and to comparative materials. Prerequisite: BIBHEB 513 or permission of instructor Offered: W.

BIBHEB 527 The Book of Proverbs (5) *S. Noegel* Examines the language, style, and sophistication of the biblical Book of Proverbs within the context of ancient Near Eastern proverb collections and correlates close readings of the book in the original Hebrew language with various interpretations it has received since antiquity. Prerequisite: BIBHEB 513 or permission of instructor Offered: Sp.

BIBHEB 596 Special Studies in Biblical Hebrew (3-5, max. 15) Topics vary.

BIBHEB 600 Independent Study or Research (*-)

CHAGATAI

CHGTAI 401 Chagatai I (5) VLPA Expansion of reading skills learned in intermediate Turkic languages and introduction of the basic Chagatai Arabic orthographic conventions and linguistic characteristics of textual sources. Develops skills necessary for fluent manuscript reading and comprehending Chagatai primary texts written in Islamic Central Asia from the fifteenth to the early twentieth centuries. Prerequisite: either TKIC 405, TKIC 423, TKIC 429, KAZAKH 205, UYGUR 203, or UZBEK 203.

CHGTAI 402 Chagatai II (5) VLPA Expansion of reading skills learned in intermediate Turkic languages and introduction of the basic Chagatai Arabic orthographic conventions and linguistic characteristics of textual sources. Develops skills necessary for fluent manuscript reading and comprehending Chagatai primary texts written in Islamic Central Asia from the fifteenth to the early twentieth centuries. Prerequisite: CHGTAI 401.

CHGTAI 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: CHGTAI 402.

CHGTAI 496 Special Studies in Chagatai (3-5, max. 15) VLPA Topics Vary.

CHGTAI 499 Undergraduate Research (3-5, max. 15) For Turkic language and literature majors.

CHGTAI 541 Chagatai I (5) Expansion of reading skills learned in intermediate Turkic languages and introduction of the basic Chagatai Arabic

orthographic conventions and linguistic characteristics of textual sources. Develops skills necessary for fluent manuscript reading and comprehending Chagatai primary texts written in Islamic Central Asia from the fifteenth to the early twentieth centuries. Prerequisite: either two years of study of any Turkic language or permission of instructor.

CHGTAI 542 Chagatai II (5) Expansion of reading skills learned in intermediate Turkic languages and introduction of the basic Chagatai Arabic orthographic conventions and linguistic characteristics of textual sources. Develops skills necessary for fluent manuscript reading and comprehending Chagatai primary texts written in Islamic Central Asia from the fifteenth to the early twentieth centuries. Prerequisite: CHGTAI 541.

CHGTAI 596 Special Studies in Chagatai (3-5, max. 15) Topics vary.

CHGTAI 600 Independent Study or Research (*-)

COPTIC

COPTIC 101 Introduction to Sahidic Coptic (5) M. Williams Covers elements of grammar of the Sahidic dialect of the Coptic language. Offered: A.

COPTIC 102 Reading in Coptic (5) M. Williams Readings from ancient Coptic literature. Offered: W.

COPTIC 103 Reading in Coptic (5) M. Williams Readings from ancient Coptic literature. Offered: Sp.

COPTIC 511 Introduction to Sahidic Coptic (5) M. WILLIAMS Covers elements of grammar of the Sahidic dialect of the Coptic language. Offered: A.

COPTIC 512 Reading in Coptic (5) M. WILLIAMS Readings from ancient Coptic literature. Offered: W.

COPTIC 513 Reading in Coptic (5) M. WILLIAMS Readings from ancient Coptic literature. Offered: Sp.

EGYPTIAN

EGYPT 101 Hieroglyphic Egyptian I (5) Provides an introduction to hieroglyphic Egyptian as written

during the Middle Kingdom (circa 2040-1782 BCE) . Students learn to read and write basic hieroglyphics so they can read a complete Egyptian text. No prior knowledge required.

EGYPT 102 Hieroglyphic Egyptian II (5) Provides an introduction to hieroglyphic Egyptian as written during the Middle Kingdom (circa 2040-1782 BCE) . Students learn to read and write basic hieroglyphics so they can read a complete Egyptian text. Prerequisite: EGYPT 101.

EGYPT 103 Hieroglyphic Egyptian III (5) Provides an introduction to hieroglyphic Egyptian as written during the Middle Kingdom (circa 2040-1782 BCE) . Students learn to read and write basic hieroglyphics so they can read a complete Egyptian text. Prerequisite: EGYPT 102.

EGYPT 422 Readings in Coptic (3) VLPA Readings from ancient Coptic Christian literature, with emphasis on the Nag Hammadi texts. Prerequisite: EGYPT 411.

EGYPT 423 Readings in Coptic (3) VLPA Readings from ancient Coptic Christian literature, with emphasis on the Nag Hammadi texts. Prerequisite: EGYPT 411.

EGYPT 511 Hieroglyphic Egyptian I (5) Provides an introduction to hieroglyphic Egyptian as written during the Middle Kingdom (circa 2040-1782 BCE) . Students learn to read and write basic hieroglyphics so they can read a complete Egyptian text. No prior knowledge required.

EGYPT 512 Hieroglyphic Egyptian II (5) Provides an introduction to hieroglyphic Egyptian as written during the Middle Kingdom (circa 2040-1782 BCE) . Students learn to read and write basic hieroglyphics so they can read a complete Egyptian text. Prerequisite: EGYPT 511.

EGYPT 513 Hieroglyphic Egyptian III (5) Provides an introduction to hieroglyphic Egyptian as written during the Middle Kingdom (circa 2040-1782 BCE) . Students learn to read and write basic hieroglyphics so they can read a complete Egyptian text. Prerequisite: EGYPT 512.

GE'EZ

GEEZ 101 Classical Ethiopic (5) One of the most important Semitic languages of the Near East and East Africa, and the classical language of modern day Ethiopia and Eritrea, a region known as the "Horn of Africa". Introduces the basic alphabet and fundamental grammar of classical Ethiopic, or Ge'ez.

GEEZ 511 Classical Ethiopic (5) One of the most important Semitic languages of the Near East and East Africa, and the classical language of modern day Ethiopia and Eritrea, a region known as the "Horn of Africa". Introduces the basic alphabet and fundamental grammar of classical Ethiopic, or Ge'ez.

KAZAKH

KAZAKH 101 Elementary Kazakh (5) Emphasizes on the four basic language skills: listening, speaking, reading, and writing in Kazakh. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kazakh language through the cultural contexts. Cannot be taken for credit if KAZAKH 105 taken. First in a sequence of three.

KAZAKH 102 Elementary Kazakh (5) Emphasizes on the four basic language skills: listening, speaking, reading, and writing in Kazakh. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kazakh language through the cultural contexts. Cannot be taken for credit if KAZAKH 105 taken. Second in a sequence of three. Prerequisite: KAZAKH 101.

KAZAKH 103 Elementary Kazakh (5) Emphasizes on the four basic language skills: listening, speaking, reading, and writing in Kazakh. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kazakh language through the cultural contexts. Cannot be taken for credit if KAZAKH 105 taken. Third in a sequence of three. Prerequisite: KAZAKH 102.

KAZAKH 105 Intensive Elementary Kazakh (15) Intensive study of grammar, with oral and written drill and reading of simple texts in Kazak. Covers

first-year Kazak. Cannot be taken for credit if KAZAKH 101, KAZAKH 102, KAZAKH 103 taken.

KAZAKH 201 Intermediate Kazakh (5) VLPA

Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Kazakh. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kazakh. Prerequisite: either KAZAKH 103 or KAZAKH 105.

KAZAKH 202 Intermediate Kazakh (5) VLPA

Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Kazakh. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kazakh. Prerequisite: KAZAKH 201.

KAZAKH 203 Intermediate Kazakh (5) VLPA

Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Kazakh. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kazakh. Prerequisite: KAZAKH 202.

KAZAKH 205 Intensive Intermediate Kazakh (15)

VLPA Allows students to complete second-year Kazak in one quarter. Reading of selected texts in modern literary Kazak, with emphasis on grammar, syntax, and oral practice. Prerequisite: either KAZAKH 103 or KAZAKH 105.

KAZAKH 401 Kazakh through Culture I (5) VLPA

Designed to increase your functional proficiency in speaking, reading, writing, and comprehending the Kazakh language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Kazakh. Prerequisite: KAZAKH 203.

KAZAKH 402 Kazakh through Culture II (5) VLPA

Designed to increase your functional proficiency in speaking, reading, writing, and comprehending the Kazakh language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and

communicative skills learned in intermediate Kazakh.
Prerequisite: KAZAKH 401.

KAZAKH 403 Kazakh through Culture III (5) VLPA
Designed to increase your functional proficiency in speaking, reading, writing, and comprehending the Kazakh language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Kazakh.
Prerequisite: KAZAKH 402.

KAZAKH 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: either KAZAKH 205 or TKIC 405.

KAZAKH 496 Special Studies in Kazakh (3-5, max. 15) VLPA Topics vary.

KAZAKH 499 Undergraduate Research (3-5, max. 15) For Turkic language and literature majors.

KAZAKH 511 Elementary Kazakh (5) Emphasizes on the four basic language skills: listening speaking, and writing. Covers basic Kazakh grammar and introduces some aspect of Kazakh culture.

KAZAKH 512 Elementary Kazakh (5) Emphasizes on the four basic language skills: listening speaking, and writing. Covers basic Kazakh grammar and introduces some aspect of Kazakh culture.
Prerequisite: KAZAKH 511.

KAZAKH 513 Elementary Kazakh (5) Emphasizes on the four basic language skills: listening speaking, and writing. Covers basic Kazakh grammar and introduces some aspect of Kazakh culture.
Prerequisite: KAZAKH 512.

KAZAKH 521 Intermediate Kazakh (5) Builds on first-year Kazakh. Explores aspects of Kazakh culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing.
Prerequisite: KAZAKH 513.

KAZAKH 522 Intermediate Kazakh (5) Builds on first-year Kazakh. Explores aspects of Kazakh culture and emphasizes all skills of language acquisition:

listening, speaking, reading, and writing.
Prerequisite: KAZAKH 521.

KAZAKH 523 Intermediate Kazakh (5) Builds on first-year Kazakh. Explores aspects of Kazakh culture and emphasizes all skills of language acquisition: listening, speaking, reading, and writing.
Prerequisite: KAZAKH 522.

KAZAKH 541 Kazakh through Culture I (5) Designed to increase functional proficiency in speaking, reading, writing, and comprehending the Kazakh language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Prerequisite: KAZAKH 523.

KAZAKH 542 Kazakh through Culture II (5) Designed to increase functional proficiency in speaking, reading, writing, and comprehending the Kazakh language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Prerequisite: KAZAKH 541.

KAZAKH 543 Kazakh through Culture III (5) Designed to increase functional proficiency in speaking, reading, writing, and comprehending the Kazakh language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Prerequisite: KAZAKH 522.

KAZAKH 596 Special Studies in Kazakh (3-5, max. 15) Topics vary.

KAZAKH 600 Independent Study or Research (*-)

KYRGYZ

KYRGYZ 101 Elementary Kyrgyz (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Kyrgyz. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kyrgyz language through the cultural contexts. First in a sequence of three.

KYRGYZ 102 Elementary Kyrgyz (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Kyrgyz. Focuses on

exchanging real-life information in the context of the native-speaking environment and understanding Kyrgyz language through the cultural contexts. Second in a sequence of three. Prerequisite: KYRGYZ 101.

KYRGYZ 103 Elementary Kyrgyz (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Kyrgyz. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kyrgyz language through the cultural contexts. Third in a sequence of three. Prerequisite: KYRGYZ 102.

KYRGYZ 105 Intensive Elementary Kyrgyz (15) Intensive study of grammar with oral and written drill of selected texts.

KYRGYZ 201 Intermediate Kyrgyz (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading, and writing and to deepen an understanding of the cultural context of Kyrgyz. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kyrgyz. First in a sequence of three. Prerequisite: KYRGYZ 103.

KYRGYZ 202 Intermediate Kyrgyz (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading, and writing and to deepen an understanding of the cultural context of Kyrgyz. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kyrgyz. Second in a sequence of three. Prerequisite: KYRGYZ 201.

KYRGYZ 203 Intermediate Kyrgyz (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading, and writing and to deepen an understanding of the cultural context of Kyrgyz. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kyrgyz. Third in a sequence of three. Prerequisite: KYRGYZ 202.

KYRGYZ 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: either KYRGYZ 105 or TKIC 403.

KYRGYZ 496 Special Studies in Kryrgyz (3-5, max. 15) VLPA Topics vary.

KYRGYZ 499 Undergraduate Research (3-5, max. 15) For Turkic language and literature majors.

KYRGYZ 511 Elementary Kyrgyz (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Kyrgyz. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kyrgyz language through the cultural contexts. First in a sequence of three.

KYRGYZ 512 Elementary Kyrgyz (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Kyrgyz. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kyrgyz language through the cultural contexts. Second in a sequence of three. Prerequisite: KYRGYZ 511.

KYRGYZ 513 Elementary Kyrgyz (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Kyrgyz. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Kyrgyz language through the cultural contexts. Third in a sequence of three. Prerequisite: KYRGYZ 512.

KYRGYZ 521 Intermediate Kyrgyz (5) Designed to strengthen and develop further skills in listening, speaking, reading, and writing and to deepen an understanding of the cultural context of Kyrgyz. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kyrgyz. First in a sequence of three. Prerequisite: KYRGYZ 513.

KYRGYZ 522 Intermediate Kyrgyz (5) Designed to strengthen and develop further skills in listening, speaking, reading, and writing and to deepen an understanding of the cultural context of Kyrgyz. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Kyrgyz. Second in a sequence of three. Prerequisite: KYRGYZ 521.

KYRGYZ 523 Intermediate Kyrgyz (5) Designed to strengthen and develop further skills in listening, speaking, reading, and writing and to deepen an understanding of the cultural context of Kyrgyz. Emphasis on the expansion and refinement of linguistic and communicative skills learned in

elementary Kyrgyz. Third in a sequence of three.
Prerequisite: KYRGYZ 523.

MODERN HEBREW

MODHEB 100 Introduction to Hebrew Language and Culture (2) VLPA/I&S

Introduces modern Hebrew language and culture, focusing on fundamental structures of the language, the revival of Hebrew in modern times, and connections between contemporary usage and Jewish traditions. Topics include: the alphabet, the verb system, the Hebrew calendar, Jewish and Israeli holidays, names, songs, popular sayings, and more. Credit/no-credit only.

MODHEB 101 Elementary Modern Hebrew (5)

Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if MODHEB 105 taken) . First in a sequence of three.

MODHEB 102 Elementary Modern Hebrew (5)

Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if MODHEB 105 taken) . Second in a sequence of three. Prerequisite: MODHEB 101.

MODHEB 103 Elementary Modern Hebrew (5)

Modern Israeli Hebrew. Core vocabulary, grammar, conversational text, and oral and written communication. Excerpts from modern Hebrew prose and poetry. (Cannot be taken for credit if MODHEB 105 taken) . Third in a sequence of three. Prerequisite: MODHEB 102.

MODHEB 105 Intensive Elementary Modern

Hebrew (15) Intensive study of grammar, with oral and written drill and reading of simple texts. (Cannot be taken for credit if MODHEB 101, MODHEB 102, MODHEB 103 taken.)

MODHEB 199 Study Abroad (1-15, max. 15) Credit for elementary Hebrew in an approved Study Abroad

program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

MODHEB 200 Hebrew Conversation (2) VLPA/I&S

Builds upon skills in Modern Hebrew and promotes cultural proficiency as an integrated and essential component of language learning. Enhances communication through the acquisition and use of vocabulary and structure of the Hebrew language in authentic cultural and social contexts. Prerequisite: either MODHEB 103 or MODHEB 105. Credit/no-credit only.

MODHEB 201 Intermediate Modern Hebrew (5)

VLPA Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. First in a sequence of three. Prerequisite: either MODHEB 103 or MODHEB 105.

MODHEB 202 Intermediate Modern Hebrew (5)

VLPA Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Second in a sequence of three. Prerequisite: MODHEB 201.

MODHEB 203 Intermediate Modern Hebrew (5)

VLPA Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Third in a sequence of three. Prerequisite: MODHEB 202.

MODHEB 399 Study Abroad (1-15, max. 15) Credit for intermediate Hebrew in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements.

MODHEB 401 Introduction to Hebrew Literature (3)

VLPA Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts - short poetry, fiction, and essays - with some selections as well from Biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: MODHEB 203.

MODHEB 402 Introduction to Hebrew Literature (5)

VLPA Modern Hebrew literary texts and analysis, with continued emphasis on grammar and composition. Review of language skills and dictionary work to reinforce the students' knowledge

of Hebrew and to foster improved competence in reading, discussion, and writing. Also covers fundamentals of narrative theory as students practice close readings of texts. Prerequisite: MODHEB 203.

MODHEB 403 Introduction to Hebrew Literature (3) VLPA Literary texts and analysis. Grammar, composition, and dictionary skills. Primarily modern texts short poetry, fiction, and essays with some selections as well from Biblical passages, the liturgy, midrash, and medieval poetry. Prerequisite: MODHEB 203.

MODHEB 404 Hebrew Poetry (5) VLPA Selections of poetry by prominent twentieth-century Hebrew poets whose texts comment or elaborate on biblical texts. Original source considered side-by-side with modern poetry, to examine ways recent literature models itself on, draws upon, and revises traditional sources. Prerequisite: MODHEB 203.

MODHEB 405 Hebrew Fiction (5) VLPA Selections of fiction by prominent modern Hebrew writers, including S. Y. Agnon, Aharon Appelfeld, David Shahar, Aharon Megged, and others. Prerequisite: MODHEB 203.

MODHEB 406 Hebrew Poems and Prayers (5) VLPA Introduces students to traditional Jewish prayers and examines Modern Hebrew poems that draw on these classical sources and reframe or reimagine the language of faith. Topics to be converged include: blessings, synagogue prayer services, High holiday prayers, the Sabbath, prayers of mourning, and debate over gender and prayer. Prerequisite: MODHEB 203.

MODHEB 407 Hebrew in Song (5) VLPA Selections of Israeli folksong, pop, rock, children's songs, and musika mizrahit. While building vocabulary and improving dictionary and composition skills, students examine the role of popular song in the construction of modern Hebrew culture and Israeli identity. Prerequisite: MODHEB 203.

MODHEB 408 Modern Hebrew Prose (5) VLPA *Naomi B Sokoloff* Modern Hebrew prose texts, including essays, journalism, social media, and fiction. Emphasis on vocabulary, grammar, and composition skills. Prerequisite: MODHEB 203.

MODHEB 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: MODHEB 203.

MODHEB 496 Special Studies in Modern Hebrew (3-5, max. 15) VLPA Topics vary. Prerequisite: MODHEB 203.

MODHEB 499 Undergraduate Research (1-6, max. 18)

MODHEB 511 Elementary Modern Hebrew (5) Modern Israeli Hebrew. Covers core vocabulary, grammar, conversational text, and oral and written communications.

MODHEB 512 Elementary Modern Hebrew (5) Modern Israeli Hebrew. Covers core vocabulary, grammar, conversational text, and oral and written communications. Prerequisite: MODHEB 511.

MODHEB 513 Elementary Modern Hebrew (5) Modern Israeli Hebrew. Covers core vocabulary, grammar, conversational text, and oral and written communications. Prerequisite: MODHEB 512.

MODHEB 515 Intensive Elementary Modern Hebrew (15) Intensive study of modern Israeli Hebrew. Covers core vocabulary, grammar, conversational text, and oral and written communications. Offered: S.

MODHEB 521 Intermediate Modern Hebrew (5) Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Prerequisite: either MODHEB 511 or MODHEB 515.

MODHEB 522 Intermediate Modern Hebrew (5) Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Prerequisite: MODHEB 521.

MODHEB 523 Intermediate Modern Hebrew (5) Readings of selected texts in modern Hebrew with continuing emphasis on grammar, syntax, composition, and conversation. Prerequisite: MODHEB 522.

MODHEB 542 Introduction to Hebrew Literature (5)

Modern Hebrew literary texts and analysis, with continued emphasis on grammar and composition. Review of language skills and dictionary work to reinforce the students' knowledge of Hebrew and to foster improved competence in reading, discussion, and writing. Also covers fundamentals of narrative theory as students practice close readings of texts.

MODHEB 545 Hebrew Fiction (5) Selections of fiction by prominent modern Hebrew writers, including S. Y. Agnon, Aharon Appelfeld, David Shahar, Aharon Megged, and others. Prerequisite: MODHEB 523

MODHEB 546 Hebrew Poems and Prayers (5)

Introduces students to traditional Jewish prayers and examines Modern Hebrew poems that draw on these classical sources and reframe or reimagine the language of faith. Topics to be converged include: blessings, synagogue prayer services, High holiday prayers, the Sabbath, prayers of mourning, and debate over gender and prayer.

MODHEB 596 Special Studies in Modern Hebrew (3-5, max. 15) Topics vary.

MODHEB 600 Independent Study or Research (*-)

NEAR EASTERN LANGUAGES AND CIVILIZATION

NEAR E 101 Gateway to the Near East (5) VLPA/I&S

Provides general introduction to the peoples, cultures, and languages of the Near East, both past and present. No previous knowledge of the Near East required. Offered: W.

NEAR E 196 Introductory Studies in Near Eastern Languages and Civilizations (1-5, max. 15) I&S

Offered occasionally by visitors or resident faculty. Content varies.

NEAR E 199 Study Abroad (1-15, max. 15) Credit for lower division NEAR E courses in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

NEAR E 201 Introduction to the Ancient Near East (5) VLPA/I&S

Surveys the peoples, places, and

events of the ancient Near East. Examines the cultures of Mesopotamia, Egypt, Canaan, and Israel with an eye to each culture's cultural contributions. Pays special attention to shared cultural elements as well as distinguishing characteristics of the peoples of these regions.

Looks at the development of Islamic religious thought and legal practice as well as the Muslim polities, cultures, and intellectual traditions of Asia, Africa, Europe, and America. May not be taken for credit if credit earned in NEAR E 210. Offered: jointly with JSIS A 210.

NEAR E 230 Introduction to Muslim Beliefs and Practices (5) VLPA/I&S Examines the origins and development of central beliefs in various Muslim traditions; such as monotheism, prophecy, divine judgment, and predestination. Looks at ritual and socio-cultural practices in Muslim societies in Asia, Africa, and Europe. Offered: jointly with RELIG 211.

NEAR E 231 Introduction to the Quran (5) VLPA/I&S A literary, historical, and theological introduction to the Quran. Looks at the historical circumstances of the text's compilation; its collection and redaction; its narrative structure; its rhetorical strategies; its major themes; its connections to and departures from the Hebrew Bible and the New Testament; commentary and exegesis; translation; and its impact on political and religious thought. Offered: jointly with RELIG 212.

NEAR E 232 Introduction to the Modern Middle East (5) I&S Major social and political trends in the Middle East during the 18th, 19th, and 20th centuries. Basic principles of Islam and its diversity, changing balance of power during the early modern period; European colonialism and withdrawal; pan-Arabism, nationalism, feminism and religious resurgence. Offered: jointly with JSIS A 215.

NEAR E 243 Iranian Culture and Civilization (5) VLPA/I&S Explores the culture and civilization of this Middle Eastern society through a multi-disciplinary approach that includes such manifestations as architecture, carpet-weaving, story-telling, and the composition of poetry.

NEAR E 244 Voices of the Iranian Revolution (5) VLPA/I&S Includes critical readings of the 1979

Iranian Revolution as represented in essays, fiction, poetry, memoir, speeches, film, and other arts. Examines the ways that writers, artists, politicians, and intellectuals have depicted the origins and development of the Islamic Republic and the legacy of the revolution in Iranian society and culture today.

NEAR E 257 Introduction to Central Asian Turkic Literature in Translation (5) VLPA Provides an overview of the major periods of Central Asian Turkic literature including: the Pre-Islamic Period (eighth-tenth centuries), the Islamic Period (tenth-twentieth centuries), the Modern Period (1905-1991), and the Post-Colonial period (1991-present). Centers on the Turkic peoples who lived under Russia and Soviet colonial rule.

NEAR E 258 Introduction to Kyrgyz Writer Chingiz Aitmatov (5) VLPA/I&S Introduces the form and content of the work of the Kyrgyz writer, Chingiz Aitmatov, while also examining his life and influence on the people of Central Asia.

NEAR E 259 Introduction to the Writers and Intellectuals of Central Asia under Soviet Colonialism (5) VLPA/I&S, DIV Discusses the lives and works of Kazakh, Kyrgyz Turkmen, and Uzbek poets and writers and intellectuals who lived during the Soviet period from 1917-1991.

NEAR E 261 Turkic Peoples of Central Asia (3) I&S History of the Turkic peoples, AD 552 to present. Emphasis on current status of Turkic peoples in Central Asia. Geographical distribution, demographic data, reactions and adaptations to changes resulting from the 1917 revolution. Turkic viewpoint on past and present developments. Offered: jointly with JSIS A 261.

NEAR E 262 Central Asian Country Profiles: Introduction to Kazakhstan (5) VLPA/I&S Examines developments in Kazakhstan after the country gained independence from the Soviet Union in 1991. Part of a series on Central Asia.

NEAR E 264 Central Asian Country Profiles: Introduction to Uzbekistan (5) VLPA/I&S Survey of the Uzbek people and their history. Examines developments in Uzbekistan after the country gained independence from the Soviet Union in 1991. Part of a series on Central Asia.

NEAR E 265 Introduction to Central Asian Turkic Literature in Translation (3) VLPA Introduces the foundations of modern Uzbek literature; the common Turkic literature of the eighth-century and the more recent Chagatay-Uzbek literature. Focuses on post-Soviet literature since 1991. After independence Uzbek writers were able to express themselves without censorship and prosecution.

NEAR E 266 The Modern Middle East and Central Asia (5) I&S Ethnographic overview of Muslim societies in the middle east and central Asia from various anthropological perspectives. Examines the unity and diversity of Muslim communities and acquaints students with the significant linguistic, cultural, and political diversity of Muslim societies. Helps students develop an understanding of Islam as a lived experience.

NEAR E 267 Folktales Along the Silk Road (3) VLPA/I&S Introduces student to the Silk Road connecting China and Europe through the cities of Samarkand, Bukhara, and Constantinople, now Istanbul. Applies comparative-historical and sociological method in folktale research, i.e. compares Western European stories and motifs with tales from the Silk Road while paying attention to the environment of storytelling.

NEAR E 268 Introduction to the Silk Road (5) I&S Introduces students to the Silk Road as a site of cultural exchange between peoples, and of political, economic, and intellectual exchange between regions and continents. Themes include ecology, empire, ethnicity, language, religion, and the arts. Considers the Silk Road as a forerunner and symbol of modern globalization. Offered: jointly with JSIS A 268.

NEAR E 270 The Turks: A Global Perspective (5) I&S Introduction to the history of the Turks, as a distinctive cultural and linguistic community set against a global backdrop. Examines the rich experiences of Turk history, and their interactions with peoples and cultures across Asia, the Middle East, and Europe.

NEAR E 271 Cultural History of Turkey: From Empire to Nation (5) VLPA/I&S Topics include: social, economic, and political structures of Ottoman and Turkish Anatolia; language, literature, and artistic tradition; social status of women, literacy and

illiteracy, the secular enterprise of Kemal Ataturk; Islamic fundamentalism, educational institutions, Kurdish nationalism.

NEAR E 285 Religion, Violence, and Peace: Patterns Across Time and Tradition (5) I&S Investigates the complex relationship between violence and peace in a variety of religious traditions. Examines case studies from the ancient Near East, medieval East Asia, and the contemporary West from the standpoint of lived experiences and contemporary theories derived from several academic disciplines. Offered: jointly with HUM 205/RELIG 205; W.

NEAR E 286 Themes in Near Eastern Literature (5) VLPA/I&S Significant and interesting aspects of Near Eastern culture and society as represented by literary themes. Aspects of Near Eastern life and art such as women, minority groups, mysticism, and modern literature. Content varies. May not be taken for credit if credit earned in NEAR E 330.

NEAR E 287 The Near East in Song (2, max. 8) VLPA Surveys popular song at it has shaped modern culture and identity in the near East. Topics vary. May be repeated for credit if the student has not previously studies the same topic with the same instructor. All texts in English; no previous knowledge of other languages required. Credit/no-credit only.

NEAR E 288 Introduction to the Horn of Africa (5) I&S, DIV *Joel T Walker, Hamza M. Zafer* Explores history, culture, and peoples of the Horn of the Africa. By placing Ethiopia, Eritrea, and Somalia at the center of inquiry, invites reconsideration of standard narratives of world history that all too often ignore or marginalize the region. Includes a broad range of assignments examining art, literature, and societies of the Horn, including vibrant Diaspora communities in America. Offered: jointly with HSTAFM 288; A.

NEAR E 296 Special Studies in Near Eastern Languages and Civilization (1-5, max. 15) I&S Offered occasionally by visitors or resident faculty.

NEAR E 301 Art of the Ancient Near East (3) VLPA S. *NOEGEL* Examines the artistic remains of ancient Egypt and Mesopotamia (3000 BCE-550 BCE), with some attention to architecture. Topics examined include: art as ritual power, the relationship

between text and image, art and cosmology, visual propaganda, and the legacy of ancient Near Eastern art.

NEAR E 305 The Biblical Prophets (3) VLPA/I&S

Explores the Biblical prophets (in translation) within their Near Eastern contexts. Historicity, literary and rhetorical sophistication, and ideological agendas. Seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible required. Offered: jointly with RELIG 315.

NEAR E 306 The History of Biblical Interpretation (3)

VLPA/I&S Traces Biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a "hands-on" approach to the material and explores various hermeneutics by applying them in class. Offered: jointly with RELIG 306.

NEAR E 307 From Israelites to Jews: the First Six Centuries BCE (3) VLPA/I&S Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (first century CE). Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible required. Offered: jointly with JEW ST 317.

NEAR E 308 Gender and Sexuality in the Ancient Near East (3) I&S/VLPA, DIV Investigates and critically assesses trends and topics in recent studies of gender and sexuality in the ancient Near East, pertaining especially to texts, artifacts, art and images from ancient Mesopotamia, Egypt and the Levant. Explores ancient Near Eastern taxonomies and functions of gender and sexuality, and examines social, political and religious forces that inform and construct gendered categories of gods, humans, and their worlds. Prerequisite: No prerequisites; recommended: NEAR E 201, Introduction to the Ancient Near East Offered: AWSp.

NEAR E 309 Death and Afterlife in the Ancient World (3) VLPA/I&S Explores human yearnings, obsessions, fears, and aspirations associated with death and afterlife by examining major political, military, social, economic, religious, literary, artistic,

and architectural phenomena directly connected to the way ancient cultures, such as Egypt, Mesopotamia, Israel, and the Levant, have conceptualized death.

NEAR E 311 The Archaeology of Biblical Israel (5)

I&S Archaeology of ancient Israel (southern Levant). Covers the known archaeological material and Biblical and other contemporaneous textual sources to explore this topic, covering the archaeological cultures from the Middle Bronze Age to the end of the Babylonian Exile (2000-300 BCE).

NEAR E 312 Looting and Loss: The Recent Destruction of Cultural Heritage Sites in the Middle East (5) I&S

Explores the history and context of recent politicization, looting, and destruction of archaeological and cultural sites in the Middle East, as well as the associated human toll, with primary focus on the current state of modern Syria and Iraq. Covers the politics of archaeology in the Middle East from the First Gulf War to more recent times.

NEAR E 313 Ancient Technologies of the Near East (5) I&S

Introduction to ancient pyrotechnic technologies. Covers the laboratory methods used by modern archaeologists to study ancient ceramics, glass and metals, the methodologies behind the creation of these materials, and the invention of these technologies in the Near East, with brief comparisons with China and the New World. Offered: jointly with ARCHY 313.

NEAR E 314 The Archeology of Early Islam (5) I&S

Introduction to the archaeology of early Islam, from 632 to 1000 CE with the study of the rise (and occasional fall) of Islam in Arabia, Egypt, and Spain/Portugal through a survey of the local architecture and material culture. Students study key archaeological sites and histories of these regions.

NEAR E 316 Israeli Identities (5) VLPA, DIV Examines fiction and film, as well as selected poetry, popular songs, and essays, to explore diverse groups within contemporary Israeli society. Topics include the sabra ideal, holocaust survivors, Sephardic/Mizrahi communities, religious and secular Jews, Israel's Arab minority, and questions of gender.

NEAR E 317 Jewish Life in Literature and Film (5) VLPA/I&S Major themes of Jewish life treated in

modern narrative and cinema. Topics include religious tradition and modernity. Jewish immigration to America, responses to the Holocaust and Zionism. Offered: jointly with JEW ST 318.

NEAR E 318 Literature and the Holocaust (5) VLPA, DIV Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe. May not be taken for credit if credit earned in NEAR E 441. Offered: jointly with C LIT 318.

NEAR E 320 Prayer and Poetry in the Jewish and Islamic Traditions (5) VLPA/I&S Examines elements of traditional Jewish and Muslim prayers and worship with poems that draw on those classical sources. Introduces students to the language and practice of prayer for both Jews and Muslims. Examines poets from Europe, the Americas, Israel, and the Islamic world. Taught in English.

NEAR E 321 Israel in Film (2) VLPA/I&S Presents films that introduce students to important aspects of Israeli culture. Topics include: Zionism, the Holocaust, immigration, religious and secular communities, mizrachim, Russians, army service, war and trauma, LGBT themes, and Israel's Arab minority.

NEAR E 325 Modern Hebrew Literature in English (3) VLPA Major developments in Hebrew literature from the Enlightenment to the current Israeli literature.

NEAR E 328 Bioethics: Secular and Jewish Perspectives (3) I&S, DIV *Hadar Khazzam-Horovitz* Legal, ethical, scientific, and Jewish religious perspectives on contemporary medical and biomedical research practices. Legal and civil rights of women, people with disabilities, minors and minority or marginalized groups. Key differences between secular and Biblical/Rabbinic approaches in interpretation, analysis and application of bioethics, doctor-patient relationships; reproductive methods; abortion; euthanasia; and stem cell research. Offered: jointly with B H 339/JEW ST 339.

NEAR E 329 Classical Arabic Literature in Translation (5) VLPA Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty and the Mongols. Coincided with period when Arabic language and literature were dominant forces in Islamic civilization. Topics include: Pre-Islamic poetry, impact of Islam on the literature, court poetry, and the rise of Arabic prose.

NEAR E 330 Colonialism, Nationalism, and the Modern Arabic Novel (5) VLPA/I&S Examines how representative novels from the modern canon in Arabic have both endorsed and critiqued aspects of nationalism and colonialist ideology.

NEAR E 331 Thousand and One Nights (5) VLPA Examines the major story cycles of the Thousand-and-One-Nights collection in their social and historical contexts.

NEAR E 332 Arab American Writers (5) VLPA/I&S Explores the influences of Arab American writing both in the United States and the Arab world during the nineteenth and twentieth centuries. Discusses issues of emigration to the United States from the Arab world and its impact on the formation of a distinctive Arab American identity.

NEAR E 333 Prophecy in Judaism, Christianity, and Islam (3) I&S Looks at the phenomenon of prophecy in Jewish, Christian, and Muslim thought and writing from antiquity to modernity. Traces the development of prophetic expression in the Hebrew Bible, the New Testament, and the Quran. Surveys major themes and covers various eras, including prophecy in the American context.

NEAR E 334 Culture of the Arab World (5) VLPA/I&S General survey of the linguistic, geographical, historical, social, religious, and cultural aspects of the modern Arab world, including the Arabic language, family, and the Arab experience in the United States. Examines Arab American relations, the role of the past and of social change, and Arab art and music.

NEAR E 335 Language Conflict and Identity in the Middle East and North Africa (5) VLPA/I&S Explores social and linguistic aspects of the languages and cultures of the Middle East and North Africa, focusing on the relationship between language and national/ethnic identity from the perspective of

group conflict. Considers language policies in colonial and post-colonial states, and individual strategies of accommodation and resistance to these policies.

NEAR E 336 Islam in Jewish Contexts, Judaism in Muslim Contexts (5) VLPA/I&S An introduction to the Jewish-Muslim encounter: a look at exchange, symbiosis, liminality, and confrontation between these two kindred religio-cultural systems, from the rise of Islam, to the end of its Classical Age - six centuries wherein the majority of the world's Jews lived among Muslim majorities.

NEAR E 337 Egyptian Cinema: Glamour on the Nile (5) VLPA History and development of Egyptian cinema. Examines a range of topics, including: the transition to sound, the differentiation into film genres, the nationalization of the film industry in the 1960s, the role of the director as auteur, and the recovery of the Egyptian film industry after 2000.

NEAR E 343 Classical Persian Literature in Translation (5) VLPA/I&S Introduces themes, forms, and historical development of Persian literature from the 10th to 19th centuries CE. Topics includes lyric and epic forms, Sufism, premodern poetics, and reception history of English translations. Reading include Rumi, Hafez, Khayyam, Ferdowsi, Sa'di among others. No prior knowledge of Persian language or literature required.

NEAR E 344 Modern Persian Literature in Translation (5) VLPA/I&S Introduces Persian literature from early modernizing projects in the 19th century up to today. Includes poetry, fiction, essays, and film. Examines various ways that Persian writers define modernity in their own works and respond to writers in other languages and traditions. No prior knowledge of Persian language or literature required.

NEAR E 345 Persian Literature in Translation (5) VLPA Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English. Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Persian culture not required.

NEAR E 350 Archaeology of Ancient Near Eastern Warfare and Empire (5) I&S *S. Selover* Surveys the archaeological remnants of war, warfare, and empire in the ancient Near East, from the rise of earliest cities to the Roman period (circa 3000 BCE-30 CE) , with a focus on the cultural consequences of violence and warfare on various ancient Near Eastern cultures.

NEAR E 357 Peoples and Cultures of Central and Inner Asia (5) I&S Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria) , the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan) , and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 357/JSIS A 357.

NEAR E 358 Islam and Muslims in China (5) I&S Introduces the lived experiences of Muslims in contemporary China. Examines Muslims' understanding of their faith; the relationship of Islam to the political, economic, and social lives of Muslims; how Islam shapes people's sense of culture and identity; and unity and diversity of various Chinese Muslim communities.

NEAR E 359 Language and Ethnic Identity in China (5) VLPA/I&S Analysis of the political, social, and linguistic contexts of languages of China's fifty-six nationalities and the ongoing process of Chinese nation-state building efforts from sociolinguistic and ethnographic perspectives. Examines the relationship of linguistic diversity to social and cultural identity and the role of language in the construction of ethnic identities.

NEAR E 360 Oral Literature of the Turkic Peoples of Central Asia I: The Heroic Epos (3) VLPA/I&S Representative heroic poems of Central Asian Turkic peoples now living in the Central Asian Republics and China. Origin of the heroic epos, its relation to the romantic epos and other oral literary genres. Art of the singer and his role in nomadic Turkic society. Emphasis on Manas, the monumental epos of Kirghiz.

NEAR E 371 Love and Empire: Cultural History of the Ottoman Empire through Literature (3-5) VLPA/I&S Approaches Ottoman literature through translations

and scholarly articles in English. Evaluates this particular literary tradition as an imperial production, through an analysis and critical reading of course materials.

NEAR E 372 Modern Turkish Literature in Translation (3) VLPA Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required.

NEAR E 385 Modern Near Eastern Literature in English Translation (3) VLPA Contemporary cultures of the Middle East studied through exposure to a representative sample of their literary work. Texts selected address major issues in Middle Eastern societies, e.g., tradition versus modernity, national identity and the challenge of the West, Arab-Israeli conflict.

NEAR E 386 The Middle East through Cinema (5, max. 12) VLPA Analyzes the function of cinema in shaping communal and individual identities in Middle Eastern cultures. Examines topics including religious transformation, violence, identity, gender, immigration, and exile through film screenings, discussions, and supplementary readings. May not be taken for credit if credit earned in NEAR E 410.

NEAR E 391 Writing Seminar for NELC Majors and Graduate Students (3) VLPA *S. NOEGEL* Seminar offers undergraduate majors and graduate students in the department with a close, systematic, and sustained experience with expository writing. All writing and rewriting will focus on subjects that relate to the Near East. Offered: A.

NEAR E 396 Intermediate Studies in Near Eastern Languages and Civilization (1-5, max. 15) Offered occasionally by visitors or resident faculty.

NEAR E 399 Study Abroad (1-15, max. 15) Credit for NEAR E 200-400-level courses in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

NEAR E 429 Islamic Mystical Literature in English (5) VLPA Readings from the works of principal Sufi writers and poets.

NEAR E 430 Muslim Scripture, Historiography, and Exegesis (3) VLPA/I&S Examines the origins and development of early and classical Muslim thought. Provides an in-depth survey of the three key genres of early and classical Muslim writing: scripture (Quran), historiography (Maghazi, Sira, and Tabaqat), and exegesis (Tafsir and Ta'wil). Offered: jointly with RELIG 430.

NEAR E 431 Arabic Linguistics (5) VLPA/I&S Studies Arabic through modern linguistic analysis. Covers Arabic's phonology, morphology, syntax, and semantics, and discusses the history of Arabic as well as the frequently debated issue of diglossia in Arabic-speaking countries. Equal attention given to the linguistic features of both FuS'Ha Arabic and modern Arabic dialects. Prerequisite: ARAB 102.

NEAR E 432 Arabic Sociolinguistics (5) VLPA/I&S Focuses on how Arabic is used by native speakers in various social contexts. Examines diglossia (co-existence of Modern Standard Arabic with the Arabic vernacular), linguistic variation in the Arab world, and the effect of variables such as education, social status, politics, and gender. Prerequisite: ARAB 101.

NEAR E 441 Literature and the Holocaust (5) VLPA Examines fiction, poetry, memoir, diaries, monuments, film, and pop culture from several languages and cultural milieus, with emphases on English and Hebrew. Topics include survivor testimony, shaping of collective memory, the second generation, Holocaust education and children's literature, gender and the Holocaust, and fantasy and humor as responses to catastrophe.

NEAR E 457 Turkic Linguistics (5) VLPA Survey of the nature and structure of the Turkic languages, focusing on phonology, morphology, syntax, lexicon, writing systems, history and cultural context, subgrouping and diversification, and linguistic theoretical principles for their description and analysis.

NEAR E 485 Digital Media: The Middle East and Central Asia (5) VLPA Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights

management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

NEAR E 486 Methodologies in Near Eastern Studies (5) Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, imperial and nationalist social systems, and ideological frameworks, such as Orientalism. Offered: jointly with JSIS A 491.

NEAR E 490 Supervised Study (1-6, max. 18) Special work in Near Eastern studies for graduates and undergraduates.

NEAR E 491 Senior Seminar in Near Eastern Languages and Civilization (2) Covers issues of methodology as well as linguistic, philosophical, literarily critical, rhetorical critical etc. topics. Focuses on developing academic presentation and communication skills. Includes supervised readings and group discussion. Credit/no-credit only.

NEAR E 496 Advanced Studies in Near Eastern Languages and Civilization (3-5, max. 15) I&S Offered occasionally by visitors or resident faculty. Content varies.

NEAR E 497 Honors Thesis (5) Participants identify a specific thesis topic and conduct individual research under the direction of a thesis adviser, culminating in an Honors thesis. Open only to juniors and seniors in the Departmental Honors Program.

NEAR E 498 Senior Essay (5) VLPA/I&S Supervised individual research and writing of a major paper during the senior year. Offered: AWSp.

NEAR E 499 Undergraduate Research (1-6, max. 18)

NEAR E 501 Art of the Ancient Near East (3) S. NOEGEL Examines the artistic remains of ancient Egypt and Mesopotamia (3000 BCE-550 BCE) , with some attention to architecture. Topics examined include: art as ritual power, the relationship between text and image, art and cosmology, visual propaganda, and the legacy of ancient Near Eastern art.

NEAR E 505 The Biblical Prophets (3) Noegel Explores the Biblical prophets (in translation) within their Near Eastern contexts. Historicity, literary and rhetorical sophistication, and ideological agendas. Seeks to uncover the meaning and distinctiveness of Israelite prophecy within the context of the larger Near East. No knowledge of the Bible required.

NEAR E 506 The History of Biblical Interpretation (3) Noegel Traces Biblical interpretation and translation technique from the earliest translations of the Hebrew Bible (Old Testament) to the various historical literary, deconstructionist, and holistic strategies of more recent times. Adopts a 'hands-on' approach to the material and explores various hermeneutics by applying them in class.

NEAR E 507 From Israelites to Jews: the First Six Centuries BCS (3) Noegel Traces the Israelites, from the Babylonian destruction of the Jerusalemite Temple (586 BCE) to events following the destruction of the second Temple (first century CE) . Focuses on primary historical and literary sources as well as archaeological and artistic evidence. No knowledge of Hebrew or the Bible required.

NEAR E 508 Gender and Sexuality in the Ancient Near East (3) I&S/VLPA, DIV Investigates and critically assesses trends and topics in recent studies of gender and sexuality in the ancient Near East, pertaining especially to texts, artifacts, art and images from ancient Mesopotamia, Egypt and the Levant. Explores ancient Near Eastern taxonomies and functions of gender and sexuality, and examines social, political and religious forces that inform and construct gendered categories of gods, humans, and their worlds. Prerequisite: No prerequisites; recommended: NEAR E 201, Introduction to the Ancient Near East Offered: AWSp.

NEAR E 509 Death and Afterlife in the Ancient World (3) Explores human yearnings, obsessions, fears, and aspirations associated with death and afterlife by examining major political, military, social, economic, religious, literary, artistic, and architectural phenomena directly connected to the way ancient cultures, such as Egypt, Mesopotamia, Israel, and the Levant, have conceptualized death.

NEAR E 511 The Archaeology of Biblical Israel (5) Archaeology of ancient Israel (southern Levant) . Covers the know archaeological material and Biblical

and other contemporaneous textual sources to explore this topic, covering the archaeological cultures from the Middle Bronze Age to the end of the Babylonian Exile (2000-300 BCE) .

NEAR E 513 Ancient Technologies of the Near East (5) Introduction to ancient pyrotechnic technologies. Covers the laboratory methods used by modern archaeologists to study ancient ceramics, glass and metals, the methodologies behind the creation of these materials, and the invention of these technologies in the Near East, with brief comparisons with China and the New World. Offered: jointly with ARCHY 513.

NEAR E 515 Israel: Dynamic Society and Global Flashpoint (5) *Barzilai, Burstein, Migdal, Pianko, Sokoloff* Introduces the people, institutions, and culture of Israel in the context of larger global forces. Examines domestic, regional, and international elements, both historically and in the contemporary period, that have shaped Israel's culture, politics, and special role in world affairs. Topics include nationalism, ethnicity, politics, religion, film, literature, and culture.

NEAR E 520 Prayer and Poetry in the Jewish and Islamic Traditions (5) Examines elements of traditional Jewish and Muslim prayers and worship with poems that draw on those classical sources. Introduces students to the language and practice of prayer for both Jews and Muslims. Examines poets from Europe, the Americas, Israel, and the Islamic world. Taught in English.

NEAR E 529 Classical Arabic Literature in Translation (5) Examines development of Arabic literature from its beginnings through the fall of the Abbasid dynasty and the Mongols. Coincided with period when Arabic language and literature were dominant forces in Islamic civilization. Topics include: Pre-Islamic poetry, impact of Islam on the literature, court poetry, and the rise of Arabic prose.

NEAR E 530 Colonialism, Nationalism, and the Modern Arabic Novel (5) *DeYoung* Examines how representative novels from the modern canon in Arabic have both endorsed and critiqued aspects of nationalism and colonialist ideology.

NEAR E 531 Thousand and One Nights (5) Examines the major story cycles of the Thousand-and-One-

Nights collection in their social and historical contexts.

NEAR E 532 Arab American Writers (5) Explores the influences of Arab American writing both in the United States and the Arab world during the nineteenth and twentieth centuries. Discusses issues of emigration to the United States from the Arab world and its impact on the formation of a distinctive Arab American identity.

NEAR E 533 Prophecy in Judaism, Christianity, and Islam (5) Looks at the phenomenon of prophecy in Jewish, Christian, and Muslim thought and writing from antiquity to modernity. Traces the development of prophetic expression in the Hebrew Bible, the New Testament, and the Quran. Surveys major themes and covers various eras, including prophecy in the American context.

NEAR E 534 Culture of the Arab World (5) General survey of the linguistic, geographical, historical, social, religious, and cultural aspects of the modern Arab world, including the Arabic language, family, and the Arab experience in the United States. Examines Arab American relations, the role of the past and of social change, and Arab art and music.

NEAR E 535 Language Conflict and Identity in the Middle East and North Africa (5) *VLPA/I&S* Explores social and linguistic aspects of the languages and cultures of the Middle East and North Africa, focusing on the relationship between language and national/ethnic identity from the perspective of group conflict. Considers language policies in colonial and post-colonial states, and individual strategies of accommodation and resistance to these policies.

NEAR E 536 Islamic Law (2-5) Selected topics in Islamic law that highlight major aspects of Islamic civilization. Offered: jointly with LAW B 556.

NEAR E 537 Muslim Scripture, Historiography, and Exegesis (5) Examines the origins and development of early and classical Muslim thought. Provides an in-depth survey of the three key genres of early and classical Muslim writing: scripture (Quran) , historiography (Maghazi, Sira, and Tabaqat) , and exegesis (Tafsir and Ta'wil) .

NEAR E 538 Arabic Linguistics (5) VLPA/I&S Studies Arabic through modern linguistic analysis. Covers Arabic's phonology, morphology, syntax, and semantics, and discusses the history of Arabic as well as the frequently debated issue of diglossia in Arabic-speaking countries. Equal attention given to the linguistic features of both FuS'Ha Arabic and modern Arabic dialects. Prerequisite: ARAB 512.

NEAR E 539 Arabic Sociolinguistics (5) Focuses on how Arabic is used by native speakers in various social contexts. Examines diglossia (co-existence of Modern Standard Arabic with the Arabic vernacular), linguistic variation in the Arab world, and the effect of variables such as education, social status, politics, and gender. Prerequisite: NEAR E 534.

NEAR E 540 Islamic Poetry and Poetics (3)

NEAR E 541 Islam in Jewish Contexts, Judaism in Muslim Contexts (3) An introduction to the Jewish-Muslim encounter: a look at exchange, symbiosis, liminality, and confrontation between these two kindred religio-cultural systems, from the rise of Islam, to the end of its Classical Age - six centuries wherein the majority of the world's Jews lived among Muslim majorities.

NEAR E 543 Classical Persian Literature in Translations (5) Introduces themes, forms, and historical development of Persian literature from the 10th to 19th centuries CE. Topics include lyric and epic forms, Sufism, premodern poetics, and reception history of English translations. Reading include Rumi, Hafez, Khayyam, Ferdowsi, Sa'di among others. No prior knowledge of Persian language or literature required.

NEAR E 544 Modern Persian Literature in Translations (5) Introduces Persian literature from early modernizing projects in the 19th century up to today. Includes poetry, fiction, essays, and film. Examines various ways that Persian writers define modernity in their own works and respond to writers in other languages and traditions. No prior knowledge of Persian language or literature required.

NEAR E 545 Persian Literature in Translations (5) Designed to familiarize students with an expanding collection of works translated from Persian literature, both classical and modern, into English.

Focuses on a few representative texts and offers interpretations of the culture through close readings. Prior acquaintance with Persian culture not required.

NEAR E 557 Turkic Linguistics (5) Survey of the nature and structure of the Turkic languages, focusing on phonology, morphology, syntax, lexicon, writing systems, history and cultural context, subgrouping and diversification, and linguistic theoretical principles for their description and analysis.

NEAR E 558 Peoples and Cultures of Central and Inner Asia (5) Introduces Central and Inner Asia with a multidisciplinary, comparative survey of the cultures and societies of contemporary China's Inner Asia (Mongolia, Xinjiang-Eastern Turkestan, Tibet, and Manchuria), the contemporary Muslim Central Asian republics (Kazakhstan, Kyrgyzstan, Tajikistan, Turkmenistan, and Uzbekistan), and the adjacent areas of Afghanistan and Iran. Offered: jointly with ANTH 522/JSIS D 572.

NEAR E 559 Islam and Muslims in China (5) Introduces the lived experiences of Muslims in contemporary China. Examines Muslims' understanding of their faith; the relationship of Islam to the political, economic, and social lives of Muslims; how Islam shapes people's sense of culture and identity; and unity and diversity of various Chinese Muslim communities.

NEAR E 560 Language and Ethnic Identity in China (5) Analysis of the political, social, and linguistic contexts of languages of China's fifty-six nationalities and the ongoing process of Chinese nation-state building efforts from sociolinguistic and ethnographic perspectives. Examines the relationship of linguistic diversity to social and cultural identity and the role of language in the construction of ethnic identities.

NEAR E 571 Love and Empire: Cultural History of the Ottoman Empire through Literature (3) Survey of the nature and structure of the Turkic languages, focusing on phonology, morphology, syntax, lexicon, writing systems, history and cultural context, subgrouping and diversification, and linguistic theoretical principles for their description and analysis.

NEAR E 572 Modern Turkish Literature in Translation (3) Covers major theoretical issues concerning Ottoman court literature and Turkish epic and troubadour poetry. Major writers and works of modern Turkish literature read and analyzed in their social, political, and theoretical contexts. Previous study of Turkish literature not required.

NEAR E 584 Egyptian Cinema: Glamour on the Nile (5) History and development of Egyptian cinema. Examines a range of topics, including: the transition to sound, the differentiation into film genres, the nationalization of the film industry in the 1960s, the role of the director as auteur, and the recovery of the Egyptian film industry after 2000.

NEAR E 585 Digital Media: The Middle East and Central Asia (5) Hands-on, project-based approach to imaging, new media, electronic text, databases, metadata and accessibility, rights management, and other issues central to contemporary humanities research on the Middle East and Central Asia.

NEAR E 586 Middle East through Cinema (5, max. 12) Analyzes the function of cinema in shaping communal and individual identities in Middle Eastern cultures. Examines topics including religious transformation, violence, identity, gender, immigration, and exile through film screenings, discussions, and supplementary readings.

NEAR E 587 Teaching Arabic as a Foreign/Second Language (3) Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials; includes participation at the departmental and university-wide fall orientation; required for beginning teaching assistants of Near Eastern Languages. Credit/no-credit only.

NEAR E 588 Methodologies in Near Eastern Studies (5) Investigates prevalent approaches through a survey of scholarship on Near and Middle Eastern civilizations across time periods, cultures, and communities. Examines discourses developed on polytheistic and monotheistic religions, imperial and nationalist social systems, and ideological frameworks, such as Orientalism.

NEAR E 589 Research Methods (3) Introduction to research in Islamic civilization. Research methods,

primary sources, evidence and documentation, reference works, transliteration systems, scholarly writing style.

NEAR E 590 Seminar on Near Eastern Civilization and Thought (3-5, max. 30) Content varies.

NEAR E 591 Writing Seminar for NELC Majors and Graduate Students (3) VLPA S. NOEGEL Seminar offers undergraduate majors and graduate students in the department with a close, systematic, and sustained experience with expository writing. All writing and rewriting will focus on subjects that relate to the Near East. Offered: A.

NEAR E 596 Special Studies in Near Eastern Languages and Civilization (3-5, max. 15) Offered occasionally by visitors or resident faculty. Content varies.

NEAR E 600 Independent Study or Research (*-)

NEAR E 700 Master's Thesis (*)

PERSIAN

PRSAN 101 Elementary Persian (5) Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. First in a sequence of three.

PRSAN 102 Elementary Persian (5) Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Second in a sequence of three. Prerequisite: PRSAN 101.

PRSAN 103 Elementary Persian (5) Conversation, pronunciation, and graded reading. Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Third in a sequence of three. Prerequisite: PRSAN 102.

PRSAN 105 Intensive Elementary Persian (15) Intensive study of grammar with oral and written drills and reading of simple texts. Cannot be taken

for credit if PRSAN 101, PRSAN 102, PRSAN 103 previously taken.

PRSAN 106 Intensive Elementary Tajik (15) Intensive study of grammar with oral and written drill and reading of selected texts in Tajik, the literary language spoken and written in the Central Asian Republic of Tajikistan.

PRSAN 199 Study Abroad (1-15, max. 15) Credit for elementary Persian in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

PRSAN 201 Intermediate Persian (5) VLPA Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. First in a sequence of three. Prerequisite: either PRSAN 103 or PRSAN 105.

PRSAN 202 Intermediate Persian (5) VLPA Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Second in a sequence of three. Prerequisite: PRSAN 201.

PRSAN 203 Intermediate Persian (5) VLPA Reading of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Third in a sequence of three. Prerequisite: PRSAN 202.

PRSAN 399 Study Abroad (1-15, max. 15) Credit for elementary or intermediate Persian in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

PRSAN 401 Introduction to Persian Literature (5) VLPA Selected texts from modern and classical Persian poetry and prose. Provides insights into Iranian culture and its past and present achievements in literature. Prepares the student for

a more comprehensive and critical study of Persian literature. Prerequisite: PRSAN 203. Offered: S.

PRSAN 402 Classical Persian Literature: A Survey (5) VLPA History of Persian literature from Rudaki to Hafiz. Studies epic, lyric, and mystic traditions placed in historical settings. Covers the most important genres such as the Qasida, the Ghazal, the Ruba' i and the Masnavi. Prerequisite: PRSAN 203. Offered: S.

PRSAN 403 Modern Persian Literature: A Survey (5) VLPA Development of poetry and prose after Iran felt and absorbed the impact of Western cultures. Periods and genres. Works of such authors as Jamalzadeh, Hedayat, Dehkoda, Al-e Ahmad, Nima, Sepehri, and Forugh. Prerequisite: PRSAN 203.

PRSAN 404 Critical Readings in Modern Persian (5) Designed to develop critical reading and writing skills. Heavily focused on literary texts. Prerequisite: PRSAN 203. Offered: S.

PRSAN 405 Media Persian (5) Designed to develop critical readings and writing skills for accessing and interpreting contemporary Persian media, including newspapers, popular press, and broadcast media. Prerequisite: either PRSAN 203 or PRSAN 423.

PRSAN 454 The Epic Tradition in Iran (3) VLPA Focuses on the Shahnameh of Firdawsi: explores the ancient legends that gave rise to it and follows the fortunes of epic poetry after Firdawsi, touching on the rise, development, and decline of romance in classical Persian literature. Prerequisite: PRSAN 423.

PRSAN 455 The Persian Ghazal (3) VLPA The Ghazal as the leading medium for lyrical expression in classical Persian tradition. Follows this genre from conception to culmination in the poetry of Hafiz. Conventions and devices of the Ghazal. Development placed in historical and social context. Prerequisite: PRSAN 433.

PRSAN 456 Sufism: Thought and Expression (3) VLPA/I&S Dynamics of mystical thought and expression as evolved in the writings of the great Sufi masters and reflected in the poetry of Sana' i, Attar, Rumi, and others. The fundamental unity of the mystical vision, with special attention to the peculiarities of individual style and expression. Prerequisite: PRSAN 433.

PRSAN 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: PRSAN 423.

PRSAN 496 Special Studies in Persian (3-5, max. 15)
VLPA Topics vary.

PRSAN 499 Undergraduate Research (1-6, max. 18)

PRSAN 511 Elementary Persian (5) Includes conversation, pronunciation, and graded reading. Covers Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words.

PRSAN 512 Elementary Persian (5) Includes conversation, pronunciation, and graded reading. Covers Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Prerequisite: PRSAN 511.

PRSAN 513 Elementary Persian (5) Includes conversation, pronunciation, and graded reading. Covers Persian alphabet and basic sentence constructions. Offers rudimentary conversational and reading ability with a vocabulary of about two thousand words. Prerequisite: PRSAN 512.

PRSAN 515 Intensive Elementary Persian (15)
Intensive study of grammar with oral and written drills and reading of simple texts. Offered: S.

PRSAN 521 Intermediate Persian (5) Study of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisite: either PRSAN 513 or PRSAN 515.

PRSAN 522 Intermediate Persian (5) Study of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisite: PRSAN 521.

PRSAN 523 Intermediate Persian (5) Study of simple texts with emphasis on reading and writing, conversation skills, grammar, and syntax. Builds a

vocabulary of standard Persian in preparation for advanced reading and comprehension of literary texts. Prerequisite: PRSAN 522.

PRSAN 541 Introduction to Persian Literature (5)
Selected texts from modern to classical Persian poetry and prose. Provides insights into Iranian culture and its past and present achievements in literature. Prepares the student for a more comprehensive and critical study of Persian literature. Prerequisite: PRSAN 523.

PRSAN 542 Classical Persian Literature: A Survey (5)
Advanced Persian language. History of Persian literature from Rudaki to Hafiz. Studies epic, lyric, and mystic traditions placed in historical settings. Covers the most important genres such as the Qasida, the Ghazal, the Ruba'i and the Masnavi. Prerequisite: PRSAN 523.

PRSAN 543 Modern Persian Literature: A Survey (5)
Development of poetry and prose after Iran felt and absorbed the impact of Western cultures. Periods and genres. Works of such authors as Jamalzadeh, Hedayat, Dehkoda, Al-e Ahmad, Nima, Sepehri, and Forugh. Prerequisite: PRSAN 523.

PRSAN 544 Critical Readings in Modern Persian (5)
Advanced-level Persian study designed to develop critical reading and writing skills. Heavily focused on literary texts. Prerequisite: PRSAN 523.

PRSAN 545 Media Persian (5) Advanced Persian language study designed to develop skills for accessing and interpreting contemporary Persian media, including newspapers, popular press, and broadcast media. Prerequisite: PRSAN 523.

PRSAN 596 Special Studies in Persian (3-5, max. 15)
Topics vary.

TURKISH

TKISH 101 Elementary Turkish (5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. First in a sequence of three. Cannot be taken for credit if TKISH 105 taken.

TKISH 102 Elementary Turkish (5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. Second in a sequence of three. Cannot be taken for credit if TKISH 105 taken. Prerequisite: TKISH 101.

TKISH 103 Elementary Turkish (5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded reading. Latin characters used throughout. Third in a sequence of three. Cannot be taken for credit if TKISH 105 taken. Prerequisite: TKISH 102.

TKISH 105 Intensive Elementary Turkish (15) Introduces modern Turkish. Focuses on pronunciation and conversation; grammar and composition; and graded reading. Uses Latin characters throughout. Cannot be taken for credit if

credit earned in TKISH 101, TKISH 102, and TKISH 103.

TKISH 199 Study Abroad (1-15, max. 15) Credit for elementary Turkish in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

TKISH 201 Intermediate Turkish (5) VLPA Introduction to modern Turkish literature. First in a sequence of three. Prerequisite: either TKISH 103 or TKISH 105.

TKISH 202 Intermediate Turkish (5) VLPA Introduction to modern Turkish literature. Second in a sequence of three. Prerequisite: TKISH 201.

TKISH 203 Intermediate Turkish (5) VLPA Introduction to modern Turkish literature. Third in a sequence of three. Prerequisite: TKISH 202.

TKISH 399 Study Abroad (1-15, max. 15) Credit for elementary or intermediate Turkish in an approved Study Abroad program. Requires credit evaluation by department or faculty. Does not automatically apply to major or minor requirements. Offered: AWSpS.

TKISH 401 Readings in Modern Turkish Literary History I: Short Stories and Critical Writings (5) VLPA Selected short stories and critical writing in Turkish. Provides a basic knowledge of modern Turkish literary history focusing on developing speaking, reading, and writing skills in the Turkish language. Prerequisite: TKISH 203.

TKISH 402 Readings in Modern Turkish II: The Modern Turkish Republic through Popular Songs (5) VLPA History of the Turkish republic through popular music and songs with reference to Turkish poetry through selected songs and poems. Develops speaking, reading, and writing skills in the Turkish language. Prerequisite: TKISH 203.

TKISH 403 Istanbul: The City and Literature (5) VLPA Reading selections from social-scientific and literary writing on Istanbul with films about the city. Further develops reading, writing, and presentation skills in the Turkish language. Prerequisite: TKISH 203.

TKISH 404 Islam in the Modern Turkish Republic (5)

VLPA Introduces major discussions and debates in the modern Turkish republic through readings on Islam in Turkey that draw from a selection of journalistic, literary, and scientific writings. Further develops reading, writing, and presentation skills in the Turkish language. Prerequisite: TKISH 203.

TKISH 405 Human Landscapes: Nazim Hikmet and the Modern Turkish Republic (5) VLPA

Nazim Hikmet's work presents a unique view of the Turkish republic. This internationally known author's work is introduced in the original language with a focus on reading, writing, and presentation skills in Turkish. Prerequisite: TKISH 203.

TKISH 406 Early Decades of the Republic's Turkish Language Reforms (5) VLPA

Turkish language and alphabet reforms studied with selections from journalistic, scientific, and literary writings from 1920-1950. Introduces older forms of the language and provides a basic knowledge of the early decades of the Turkish republic. Involves practices on speaking, reading, writing, and presentation skills in the modern Turkish language. Prerequisite: TKISH 203.

TKISH 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: TKISH 423.

TKISH 496 Special Studies in Turkish (3-5, max. 15) VLPA Topics vary.

TKISH 499 Undergraduate Research (1-6, max. 18)

TKISH 511 Elementary Turkish (5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded readings. Latin characters used throughout. First in a sequence of three.

TKISH 512 Elementary Turkish (5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded readings. Latin characters used throughout. Second in a sequence of three. Prerequisite: TKISH 511.

TKISH 513 Elementary Turkish (5) Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded readings. Latin

characters used throughout. Third in a sequence of three. Prerequisite: TKISH 512.

TKISH 515 Intensive Elementary Turkish (15)

Introduction to modern Turkish. Pronunciation and conversation, grammar and composition, graded readings. Latin characters used throughout. Cannot be taken for credit if credit earned in TKISH 511, TKISH 512, and TKISH 513. Offered: S.

TKISH 521 Intermediate Turkish (5) Introduction to modern Turkish literature. First in a sequence of three. Prerequisite: either TKISH 513 or TKISH 515.

TKISH 522 Intermediate Turkish (5) Introduction to modern Turkish literature. First in a sequence of three. Prerequisite: TKISH 521.

TKISH 523 Intermediate Turkish (5) Introduction to modern Turkish literature. First in a sequence of three. Prerequisite: TKISH 522.

TKISH 541 Readings in Modern Turkish I: Short Stories and Critical Writing (5) Selected Turkish short stories and critical writing in Turkish. Provides basic knowledge of modern Turkish literary history with a focus on developing speaking, reading, and writing skills in the Turkish language. Prerequisite: TKISH 523.

TKISH 542 Readings in Modern Turkish II: The Modern Turkish Republic through Popular Songs (5) History of the Turkish republic through popular music and songs with reference to Turkish poetry through selected songs and poems. Develops speaking, reading, and writing skills in the Turkish language. Prerequisite: TKISH 523.

TKISH 543 Istanbul: The City and Literature (5) Reading selections from social-scientific and literary writing on Istanbul with three films about the city. Further develops reading, writing, and presentations skills in the Turkish language. Prerequisite: TKISH 523.

TKISH 544 Islam in the Modern Turkish Republic (5) Introduces major discussions and debates in the modern Turkish republic through readings on Islam in Turkey that draw from a selection of journalistic, literary, and scientific writings. Further develops

reading, writing, and presentation skills in the Turkish language. Prerequisite: TKISH 523.

UGARITIC

UGARIT 201 Ugaritic I (5) VLPA Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, circa fourteenth century BCE) . Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. First in a three course sequence. Prerequisite: either ARAB 103, ARAB 105, MODHEB 103, or MODHEB 105.

UGARIT 202 Ugaritic II (5) VLPA Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, circa fourteenth century BCE) . Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Second in a three course sequence. Prerequisite: UGARIT 201.

UGARIT 203 Ugaritic III (5) VLPA Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, circa fourteenth century BCE) .

Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Third in a three course sequence. Prerequisite: UGARIT 202.

UGARIT 521 Ugaritic I (5) Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, circa fourteenth century BCE) . Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. First in a three course sequence. Prerequisite: either ARAB 513, ARAB 515, MODHEB 513, or MODHEB 515.

UGARIT 522 Ugaritic II (5) Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, circa fourteenth century BCE) . Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Second in a three course sequence. Prerequisite: UGARIT 521.

UGARIT 523 Ugaritic III (5) Introduction to the Ugaritic (Canaanite) language of ancient Ugarit (modern Ras Shamra, circa fourteenth century BCE) . Introduces the cuneiform alphabet and distinctive grammatical features; proceeds to an inductive reading of the Ugaritic tablets. Texts include the Epic of Aqhat, the Baal Epic, and the Epic of Kret. Third in a three course sequence. Prerequisite: UGARIT 522.

UYGUR

UYGUR 101 Elementary Uygur (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uygur. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uygur language through the cultural contexts. Cannot be taken for credit if UYGUR 105 taken. First in a sequence of three.

UYGUR 102 Elementary Uygur (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uygur. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uygur

language through the cultural contexts. Cannot be taken for credit if UYGUR 105 taken. Second in a sequence of three. Prerequisite: UYGUR 101.

UYGUR 103 Elementary Uygur (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uygur. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uygur language through the cultural contexts. Cannot be taken for credit if UYGUR 105 taken. Third in a sequence of three. Prerequisite: UYGUR 102.

UYGUR 105 Intensive Elementary Uygur (15) Covers all four linguistic skills: reading, writing, speaking, and listening. Cannot be taken for credit if UYGUR 101, UYGUR 102, UYGUR 103 taken.

UYGUR 201 Intermediate Uygur (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uygur. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uygur. First in a sequence of three. Prerequisite: either UYGUR 103 or UYGUR 105.

UYGUR 202 Intermediate Uygur (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uygur. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uygur. Second in a sequence of three. Prerequisite: UYGUR 201.

UYGUR 203 Intermediate Uygur (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uygur. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uygur. Third in a sequence of three. Prerequisite: UYGUR 202.

UYGUR 401 Uygur through Culture I (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uygur language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills

learned in intermediate Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 203.

UYGUR 402 Uygur through Culture II (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uygur language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 401.

UYGUR 403 Uygur through Culture III (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uygur language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 402.

UYGUR 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: either UYGUR 203 or TKIC 429.

UYGUR 496 Special Studies in Uygur (3-5, max. 15) VLPA Topics vary.

UYGUR 499 Undergraduate Research (3-5, max. 15) For Turkic language and literature majors.

UYGUR 511 Elementary Uygur (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uygur. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uygur language through the cultural contexts. First in a sequence of three.

UYGUR 512 Elementary Uygur (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uygur. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uygur language through the cultural contexts. Second in a sequence of three. Prerequisite: minimum grade of 2.0 in UYGUR 511.

UYGUR 513 Elementary Uygur (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uygur. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uygur language through the cultural contexts. Third in a sequence of three. Prerequisite: minimum grade of 2.0 in UYGUR 512.

UYGUR 521 Intermediate Uygur (5) Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uygur. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 513.

UYGUR 522 Intermediate Uygur (5) Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uygur. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 521.

UYGUR 523 Intermediate Uygur (5) Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uygur. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 522.

UYGUR 541 Uygur through Culture I (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uygur language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 523.

UYGUR 542 Uygur through Culture II (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uygur language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and

refinement of linguistic and communicative skills learned in intermediate Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 541.

UYGUR 543 Uygur through Culture III (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uygur language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uygur. Prerequisite: minimum grade of 2.0 in UYGUR 542.

UYGUR 596 Special Studies in Uygur (3-5, max. 15)
Topics vary.

UYGUR 600 Independent Study or Research (*-)

UZBEK

UZBEK 101 Elementary Uzbek (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uzbek. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uzbek language through the cultural contexts. First in a sequence of three. Cannot be taken for credit if UZBEK 105 taken.

UZBEK 102 Elementary Uzbek (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uzbek. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uzbek language through the cultural contexts. Second in a sequence of three. Cannot be taken for credit if UZBEK 105 taken. Prerequisite: UZBEK 101.

UZBEK 103 Elementary Uzbek (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uzbek. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uzbek language through the cultural contexts. Third in a sequence of three. Cannot be taken for credit if UZBEK 105 taken. Prerequisite: UZBEK 102.

UZBEK 105 Intensive Elementary Uzbek (15)
Intensive study of grammar, with oral and written drill and reading of simple texts in Uzbek. Covers

first-year Uzbek. Cannot be taken for credit if UZBEK 101, UZBEK 102, UZBEK 103 taken.

UZBEK 201 Intermediate Uzbek (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uzbek. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uzbek. First in a sequence of three. Prerequisite: either UZBEK 103 or UZBEK 105.

UZBEK 202 Intermediate Uzbek (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uzbek. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uzbek. Second in a sequence of three. Prerequisite: UZBEK 201.

UZBEK 203 Intermediate Uzbek (5) VLPA Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uzbek. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uzbek. Third in a sequence of three. Prerequisite: UZBEK 202.

UZBEK 401 Uzbek through Culture I (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uzbek language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 203.

UZBEK 402 Uzbek through Culture II (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uzbek language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 401.

UZBEK 403 Uzbek through Culture III (5) Designed to increase functional proficiency in speaking, reading,

writing and comprehending the Uzbek language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 402.

UZBEK 490 Supervised Study (1-6, max. 18) Special work in literary texts for graduates and undergraduates. Prerequisite: either UZBEK 203 or TKIC 423.

UZBEK 496 Special Studies in Uzbek (3-5, max. 15) VLPA Topics vary.

UZBEK 499 Undergraduate Research (3-5, max. 15) For Turkic language and literature majors.

UZBEK 511 Elementary Uzbek (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uzbek. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uzbek language through the cultural contexts. First in a sequence of three.

UZBEK 512 Elementary Uzbek (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uzbek. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uzbek language through the cultural contexts. Second in a sequence of three. Prerequisite: UZBEK 511.

UZBEK 513 Elementary Uzbek (5) Emphasizes the four basic language skills: listening, speaking, reading, and writing in Uzbek. Focuses on exchanging real-life information in the context of the native-speaking environment and understanding Uzbek language through the cultural contexts. Third in a sequence of three. Prerequisite: UZBEK 512.

UZBEK 521 Intermediate Uzbek (5) Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uzbek. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 513.

UZBEK 522 Intermediate Uzbek (5) Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uzbek. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 521.

UZBEK 523 Intermediate Uzbek (5) Designed to strengthen and develop further skills in listening, speaking, reading and writing and to deepen an understanding of the cultural context of Uzbek. Emphasis on the expansion and refinement of linguistic and communicative skills learned in elementary Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 523.

UZBEK 541 Uzbek through Culture I (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uzbek language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 523.

UZBEK 542 Uzbek through Culture II (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uzbek language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 541.

UZBEK 543 Uzbek through Culture III (5) Designed to increase functional proficiency in speaking, reading, writing and comprehending the Uzbek language through reading and discussion of contemporary sociocultural and sociopolitical topics in a culturally authentic context. Emphasis on the expansion and refinement of linguistic and communicative skills learned in intermediate Uzbek. Prerequisite: minimum grade of 2.0 in UZBEK 542.

UZBEK 596 Special Studies in Uzbek (3-5, max. 15)
Topics vary.

UZBEK 600 Independent Study or Research (*-)

NEUROSCIENCE

NEUSCI 198 The Biology of Human Consciousness (5) NW *William J Moody* An overview of the basic physiology and anatomy of the human nervous system, then explore a series of topics where direct experiments have given us a view of the biological mechanisms that explain high-level brain functions - language, memory, object recognition, the attachment of emotion to people we know and the sensation of time. Recommended: Those with an interest in psychology, neurology, general science or the brain Offered: A.

NEUSCI 301 Introduction to Cellular and Molecular Neuroscience (3/5) NW *William J Moody* Introduces students to the physiological and molecular properties of individual nerve cells and the synaptic connections between them, and to principles of nervous system development. Includes weekly laboratory sessions. Prerequisite: BIOL 220. Offered: W.

NEUSCI 302 Introduction to Systems and Behavioral Neuroscience (3/5) NW *Joseph A. Sisneros, Martha Bosma* Introduces neuroethology, i.e., the mechanisms by which neurons and the synaptic connections among them produce sensory perceptions and complex behavioral outputs. Available with or without weekly laboratory sessions. Prerequisite: NEUSCI 301. Offered: A.

NEUSCI 401 Systems Neuroscience (3) NW Introduces students to the anatomical and physiological organization of the major sensory, motor, and associative systems of the mammalian brain. Behavioral data used to stress functional integration of systems. Includes gross brain anatomy demonstration and computer tutorials. Prerequisite: NEUSCI 301. Offered: Sp.

NEUSCI 402 Diseases of the Nervous System (3) NW Introduces the basic mechanisms of mammalian nervous system function through the study of human neurological diseases that result from specific disruption of neuronal signaling. Prerequisite: NEUSCI 401. Offered: W.

NEUSCI 403 Computational Models for Cognitive Neuroscience (3) NW *Andrea Stocco* Introduces some of the most fundamental concepts of

computational models as applied to Cognitive Neuroscience. These models aim at providing explanations of how complex behavior can arise from simple algorithms that are implemented at the neuronal level. Prerequisite: NEUSCI 401. Offered: W.

NEUSCI 404 Neuropharmacology (3) NW Actions of drugs on the brain at clinical, cellular, and molecular levels. Therapeutic use of drugs in treatment of neurological and psychiatric diseases. Abuse of drugs and the mechanisms of addiction, tolerance, and withdrawal. Prerequisite: NEUSCI 401. Offered: Sp.

NEUSCI 440 Topics in Current Neuroscience Research (2, max. 6) NW Prerequisite: NEUSCI 302. Credit/no-credit only.

NEUSCI 445 Quantitative Methods in Neuroscience (3) NW *Fred Rieke, Adrienne L. Fairhall* Quantitative methods applicable to study of the nervous system. Emphasizes computer exercises/discussion of journal papers. May include linear systems theory, Fourier analysis, ordinary differential equations, stochastic processes, signal detection, and information theory. Prerequisite: AMATH 342. Offered: W.

NEUSCI 450 Current Research Literature in Neuroscience (2, max. 6) NW Weekly journal club in neurobiology. Students read and discuss original research articles in neurobiology, centered around a specific topic each quarter. Prerequisite: BIOL 220. Credit/no-credit only.

NEUSCI 490 Seminar in Computational Neuroscience (1-3, max. 6) NW Supervised readings and group discussions in computational neuroscience. Credit/no-credit only.

NEUSCI 496 Peer Teaching Facilitator in Neuroscience (5, max. 10) *Michael L Kennedy* For undergraduates assisting in Neurobiology courses as facilitators. Peer Facilitators assist with laboratories, attend lectures, and attend weekly course meetings, gaining direct course experience. Does not include independent teaching or grading. Prerequisite: NEUSCI 302. Credit/no-credit only. Offered: AW.

NEUSCI 499 Individual Research in Neuroscience (3-6, max. 18) Students carry out projects in laboratories of program faculty. Prerequisite: NEUSCI 301.

PHILOSOPHY

ETHICS

ETHICS 207 Issues of Global Justice (5) I&S, DIV *Jamie Mayerfeld, Michael I Blake, William J Talbott* Introduces issues of global justice. Topics include: global poverty and aid, immigration, transnational governance, gender in global relations, climate change, and cultural relativism. Offered: jointly with PHIL 207/POL S 217.

ETHICS 291 Ethics in Science (5) VLPA/I&S Provides an introduction to ethics and research ethics issues in the non-medical sciences. Possible topics include: publication and peer review, intellectual property, and the social responsibilities of scientists. Offered: jointly with PHIL 291.

ETHICS 495 Ethics in Practice (2) *Stephen M. Gardiner, Michael I Blake, Sara L. Goering, Carina Fourie* Culmination of the values-in-society minor. Synthesizes training in ethics with primary discipline. Includes a project of positive social engagement (service learning or research project with fieldwork). Limited to undergraduates completing the minor in values and society. Credit/no-credit only.

ETHICS 501 Advanced Topics in Applied Ethics (2-5, max. 10) *Stephen M. Gardiner* Philosophical study of topics in applied ethics at the advanced level. Topics vary.

ETHICS 511 Ethics Matters: An Exploration of Some Moral Qualities (5) *Carina Fourie, Sara L. Goering* Asks what we fundamentally require of ourselves and others if we are to live together in morally acceptable ways by discussing moral qualities as they appear in various arenas. Topics include: autonomy, respect, integrity, and trust.

ETHICS 512 Justice Matters: An Exploration of Justice as a Social Ideal (5) *Stephen M. Gardiner, Michael I Blake* Asks what makes social policies and institutions morally acceptable, primarily through a discussion about justice and injustice. Topics include: relativism, the sources of competing conceptions of justice and equality, cost-benefit analysis, distributive justice, and beneficence.

ETHICS 513 Capstone Workshop (2) *Sara L. Goering, Carina Fourie, Michael I Blake, Stephen M. Gardiner*

Collaborative research workshop. Capstone course for the values-in-society graduate certificate program. Prerequisite: either ETHICS 511, VALUES 511, ETHICS 512, or VALUES 512 Offered: Sp.

ETHICS 591 Ethics Matters in Science: Research Questions as Moral Questions (3) Aims to introduce graduate and professional students from a wide range of primarily non-medical scientific backgrounds to some common moral questions that arise in the course of doing scientific research, and to provide a basic philosophical framework for thinking about related issues that arise within their own disciplines or fields.

PHILOSOPHY

PHIL 100 Introduction to Philosophy (5) I&S C. MARSHALL, M. ROSENTHAL, A. WOODY Major philosophical questions relating to such matters as the existence of God, the foundations of knowledge, the nature of reality, and the nature of morality. Approach may be either historical or topical. Offered: AWSpS.

PHIL 102 Contemporary Moral Problems (5) I&S/VLPA Blake, A. Moore Philosophical consideration of some of the main moral problems of modern society and civilization, such as abortion, euthanasia, war, and capital punishment. Topics vary.

PHIL 110 Introduction to Social and Political Philosophy (5) I&S An introduction to political theories such as conservatism, liberalism, and socialism and their treatment of select social issues.

PHIL 114 Philosophical Issues in the Law (5) I&S R. MOORE Analysis and critical assessment of various philosophical issues in law and legal reasoning. Material drawn from actual law cases, as well as writings by contemporary philosophers of law and lawyers. Topics include criminal responsibility, civil disobedience, abortion, enforcement of morals. Special legal or philosophical training not required.

PHIL 115 Practical Reasoning (5) I&S, QSR C. LEE Introduction to logic emphasizing concepts and methods useful for practical analysis of arguments in everyday contexts; meaning, syllogisms, logical diagrams, inductive and statistical inference,

informal fallacies, argument structure, perhaps some beginning symbolic logic. Offered: AWSpS.

PHIL 118 Persuasion or Manipulation? The Ethics and Psychology of Influence (5) I&S Ian Schnee, Colin Marshall Influence is everywhere, from job interviews to social media. When is influence effective? When is it respectful persuasion vs. immoral deception? Is using psychological insight manipulative or just good people skills? How do biases shape persuasion, and how should we navigate them? Examines the psychology of persuasion through an ethical lens. Assessments focus on real-world applications, helping people improve as persuaders.

PHIL 120 Introduction to Logic (5) I&S/NW, QSR C. MAYO-WILSON, C. WELLER Elementary symbolic logic. The development, application, and theoretical properties of an artificial symbolic language designed to provide a clear representation of the logical structure of deductive arguments. Offered: AWSpS.

PHIL 149 Existentialism and Film (5) VLPA/I&S I. Schnee What makes life worth living? Is morality just a convenient fiction? What is the nature of the human condition? Is God dead, or just playing hard to get? Investigates the works of several existentialist philosophers, including Kierkegaard, Nietzsche, and Beauvoir, and uses their works to interpret and analyze the philosophical content of angst-ridden cinema of the French New Wave and Hollywood film noir. Recommended: None.

PHIL 160 Why Do We Believe in Quarks, Evolution, and Other Crazy Things? Perspectives on Science, Reason, and Reality (5) I&S/NW L. HANKINSON NELSON Study of how scientific theories are justified and why they are accepted, using selected examples from the history of science.

PHIL 200 Topics in Philosophy (3-5, max. 10) I&S A study of philosophical topics at the introductory level. The content of the course is entirely at the discretion of the instructor.

PHIL 205 Philosophy for Children (5) I&S J. LONE Introduction to the methods of "doing" philosophy with young people. Stresses the development of a community of inquiry in which budding philosophers are encouraged to ask their own relevant questions,

develop views and articulate reasons for them, and to listen and learn from one another. Credit/no-credit only.

PHIL 206 Philosophy of Feminism (5) I&S, DIV
Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with GWSS 206/POL S 212.

PHIL 207 Issues of Global Justice (5) I&S, DIV *Jamie Mayerfeld, Michael I Blake, William J Talbott*
Introduces issues of global justice. Topics include: global poverty and aid, immigration, transnational governance, gender in global relations, climate change, and cultural relativism. Offered: jointly with ETHICS 207/POL S 217.

PHIL 240 Introduction to Ethics (5) I&S/VLPA *Stephen M. Gardiner, Jean Roberts, William J Talbott*
Critical introduction to various philosophical views of the basis and presuppositions of morality and moral knowledge. Critical introduction to various types of normative ethical theory, including utilitarian, deontological, and virtue theories.

PHIL 241 Topics in Ethics (5, max. 10) VLPA/I&S
Introduction to ethics through in-depth study of one or more selected topics (e.g., limits of moral community, animal rights, moral education, and freedom) . Topics vary.

PHIL 242 Introduction to Medical Ethics (5) I&S/VLPA *S. Goering*
Introduction to ethics, primarily for first- and second-year students. Emphasizes philosophical thinking and writing through an in-depth study of philosophical issues arising in the practice of medicine. Examines the issues of medical ethics from a patient's point of view.

PHIL 243 Environmental Ethics (5) VLPA/I&S *L. NICHOLS*
Focuses on some of the philosophical questions that arise in connection with environmental studies. Topics to be considered include: the ideological roots of current issues, values and the natural world, public policy and risk assessment, intergenerational justice, and social change. Offered: jointly with ENVIR 243.

PHIL 267 Introduction to Philosophy of Religion (5) I&S
Consideration of the sources of religious ideas and practices, the main kinds of religious views and the problems they raise, and the different forms that spirituality can take. Issues concerning the relations of religion to science and morality also treated.

PHIL 291 Ethics in Science (5) VLPA/I&S
Provides an introduction to ethics and research ethics issues in the non-medical sciences. Possible topics include: publication and peer review, intellectual property, and the social responsibilities of scientists. Offered: jointly with ETHICS 291.

PHIL 301 Intermediate Topics in Philosophy (3-5, max. 10) I&S
Philosophical topics at the intermediate level. Content varies each quarter, depending on instructor.

PHIL 307 Justice Across Disciplinary Boundaries (5) I&S *W. TALBOTT*
What is justice? One of the oldest questions in philosophy and also one of the most current. A multi-disciplinary approach to understanding justice.

PHIL 314 Philosophy of Crime and Punishment (5) I&S *R. MOORE*
Examination of philosophical theories regarding criminal habits and punishment and the philosophical problems connected with specific topics in criminal law. Examines proper subject matter of criminal law (drug use, pornography, euthanasia) ; limits of criminal sanctions; crime and privilege (corporate crime, white-collar crime, blackmail) ; justifications for punishment; mercy; and execution.

PHIL 320 Ancient Philosophy (5) I&S *Jean Roberts, Cass Weller*
Survey of ancient Greek philosophy, beginning with the pre-Socratics and proceeding on through Plato to Aristotle.

PHIL 322 Modern Philosophy (5) I&S *C. MARSHALL, M. ROSENTHAL, C. WELLER*
Examination of metaphysical and epistemological problems from the works of Descartes, Spinoza, Leibniz, Locke, Berkeley, Hume, and Kant.

PHIL 325 Nineteenth-Century Philosophy (5) I&S *C. MARSHALL*

PHIL 330 History of Ancient Political Philosophy (5)

I&S *J. ROBERTS* Political philosophy of fourth- and fifth-century Greece, especially the Sophists, Plato, and Aristotle, stressing the connection between the political philosophy and the underlying philosophical system of each philosopher.

PHIL 332 History of Modern Political Philosophy (5)

I&S *M. BLAKE, W. TALBOTT* Examination of major political philosophies from the sixteenth century to the nineteenth century, with attention to the underlying philosophical methods and foundations.

PHIL 335 Plato's Republic (5) VLPA/I&S

Designed especially for philosophy majors, but open to non-majors. Intensive study of Plato's masterpiece. Prerequisite: one PHIL course.

PHIL 338 Philosophy of Human Rights (5) I&S

W. TALBOTT Theories of human rights and the bearing of these theories on issues of public policy such as legitimacy of war and terrorism, economic justice, and whether future generations have rights.

PHIL 340 History of Ancient Ethics (5) VLPA/I&S

J. ROBERTS, C. WELLER Development of moral thought from Socrates through the Stoics. Particular emphasis on the ethical writings of Plato and Aristotle.

PHIL 342 History of Modern Ethics (5) VLPA/I&S

M. ROSENTHAL, C. WELLER Development of moral thought from Hobbes through Nietzsche, with particular emphasis on the ethical writings of Hume, Kant, and John Stuart Mill.

PHIL 343 Ethics and the Environment (5) I&S

Lauren Hartzell Nichols Advanced introduction to environmental ethics, with an emphasis on nonanthropocentric value theory.

PHIL 344 History of Recent Ethics (5) VLPA/I&S

Study of major ethical writings in the twentieth century, with principal emphasis on the Anglo-American tradition.

PHIL 345 Moral Issues of Life and Death (5)

VLPA/I&S *S. GOERING* Examination of such topics as war and murder, famine relief, capital punishment, high-risk technologies, abortion, suicide, and the rights of future generations.

PHIL 346 Personal Values and Human Good (5)

I&S *S. GOERING* Examination of the idea of a good human life. Emphases differ from year to year. Typical topics include happiness and prudence, rationality and life plans, personal values and the meaning of life, autonomy and false consciousness, self-respect and self-esteem, honesty and self-deception, faith and "vital lies."

PHIL 347 Philosophy in Literature (5) VLPA/I&S

Study of philosophical ideas expressed in works of literature.

PHIL 350 Introduction to Epistemology (5) I&S

C. MAYO-WILSON, W. TALBOTT Nature, definition, and possibility of knowledge.

PHIL 356 Introduction to Metaphysics (5) I&S

Introductory examination of some of the main problems in metaphysics, such as the nature of truth and reality, the metaphysical status of properties, the existence of free will.

PHIL 360 Introductory Topics in Philosophy of Science (5, max. 10) I&S/NW

L. HANKINSON NELSON, A. WOODY Study of one or more current topics in philosophy of science such as scientific realism, explanation, confirmation, causation. Prerequisite: one PHIL course.

PHIL 362 Topics in the Philosophy of Science (5)

I&S/NW *Lynn Hankinson Nelson* Critical study of nature of scientific knowledge, emphasizing the role of evidence in several different sciences. Topics include accounts of scientific methods; the relation of theory to observation; how theories change; and the nature of the confirmation and falsification of hypotheses and theories. Offered: Sp.

PHIL 363 Introduction to the Philosophy of Mind (5)

I&S *C. LEE* Various theories of the nature of mind, the relationship between mind and body, the self, introspection, and knowledge of other minds.

PHIL 373 Introduction to Philosophy of Mathematics (5) I&S

Introduction to some of the main issues in philosophy of mathematics: to what degree are mathematical theorems justified by rational insight, sensory experience, purely symbolic computations; what is the infinite, and how can one reason about infinite sets, spaces, and numbers without becoming entangled in contradictions.

PHIL 398 Philosophy for Children Practicum (2-5, max. 10) *S. Goering, J. Lone* Exploration of various methods for introducing philosophy to K-12 students with a focus on ways in which to establish "communities of philosophical inquiry" in classrooms. Students will develop an understanding of how to inspire philosophical discussions with pre-college students. Emphasis is on learning by doing, with students facilitating philosophy sessions in local public schools. Credit/no-credit only. Offered: WSp.

PHIL 399 Foreign Study (2-5, max. 10) Upper-division philosophy studies with no direct UW equivalents, taken through UW foreign study programs.

PHIL 401 Advanced Topics in Philosophy (3-5, max. 15) I&S A study of philosophical topics at the advanced level. Topics vary.

PHIL 406 Philosophical Topics in Feminism (5) I&S, DIV S. *GOERING, L. HANKINSON NELSON, A. WOODY* Detailed examination of questions raised by recent feminist scholarship in particular areas of philosophy, such as political theory, ethics, epistemology, or philosophy of science. Emphasis varies.

PHIL 407 International Justice (5) M. *BLAKE, S. GARDINER* Examines issues through investigation of the moral foundations of international politics. Issues include: What moral duties constrain the relationships between states? Is international poverty a matter of moral concern? Are we justified in preferring the interest of our fellow nations? Prerequisite: one course in philosophy.

PHIL 408 Philosophy of Diversity (5) I&S, DIV M. *BLAKE* Must a liberal political community respect all claims made on behalf of minority cultural groups? Are there moral limits to the forms of diversity compatible with just governance? Examines modern philosophical writings on these topics. Prerequisite: One philosophy course.

PHIL 409 Philosophy of Disability (5) I&S, DIV S. *GOERING* Rethinks the non-disabled assumption at the heart of much of western moral and political philosophy. Explores concepts of autonomy, opportunity, personhood, and dependence in regard to disability. Issues may include prenatal testing and reproduction, special education, requirements of

accommodation, and social and legal interpretations of disability. Prerequisite: one philosophy course or LSJ 332/CHID 332, LSJ 433/CHID 433, or LSJ 434/CHID 434.

PHIL 410 Social Philosophy (5) I&S W. *TALBOTT* An examination of topics pertaining to social structures and institutions such as liberty, distributive justice, equality and race, and human rights.

PHIL 411 Justice in Health Care (5) VLPA/I&S N. *JECKER* Examination of the ethical problem of allocating scarce medical resources. Emphasizes the fundamental principles of justice that support alternative health policies. Offered: jointly with B H 474.

PHIL 412 Ethical Theory (5) I&S N. *JECKER* Studies the major normative ethical theories, including both teleological and deontological approaches. Emphasizes moral philosophy during the eighteenth and nineteenth centuries, as well as contemporary commentary. Offered: jointly with B H 402.

PHIL 413 Metaethical Theory (5) I&S N. *JECKER* Studies the major metaethical theories, including both cognitivist and noncognitivist approaches. Emphasizes moral philosophy during the twentieth century, as well as contemporary commentary. Offered: jointly with B H 404.

PHIL 414 Philosophy of Law (5) I&S R. *MOORE* Nature and function of law. Relation of law to morality. Legal rights, judicial reasoning.

PHIL 415 Advanced Topics in Animal Welfare (5) I&S L. *NICHOLS* Critical examination of issues in the philosophy of animal welfare and animal rights. Prerequisite: one philosophy course.

PHIL 416 Ethics and Climate Change (5) I&S S. *GARDINER, L. NICHOLS* Critical examination of the ethical issues surrounding climate change. Prerequisite: either one philosophy or one environmental studies course. Offered: jointly with ENVIR 416.

PHIL 417 Advanced Topics in Environmental Philosophy (5) I&S S. *GARDINER* Critical examination of issues in environmental philosophy. Topics vary.

Prerequisite: one philosophy course. Offered: jointly with ENVIR 417.

PHIL 418 Jewish Philosophy (5) I&S M. ROSENTHAL
Introduces the central concepts and themes of Jewish philosophy. Focuses either on debates within a particular historical period - e.g., medieval or modern; or on a topic - e.g., reactions to the Enlightenment or to the Holocaust. Offered: jointly with JEW ST 418.

PHIL 422 Studies in Continental Rationalism (5, max. 15) I&S C. MARSHALL, M. ROSENTHAL Study of one or more of the major continental rationalists: Descartes, Spinoza, Leibniz.

PHIL 426 Twentieth-Century Philosophy (5) I&S C. WELLER A study of development of contemporary analytic philosophy, the revolt against idealism, and the linguistic turn in philosophy.

PHIL 430 Hellenistic Philosophy (3) I&S J. ROBERTS
Survey of the Epicurean, Stoic, and Skeptic philosophy of the Hellenistic period. Emphasis may vary.

PHIL 431 Philosophy of Plato (3, max. 6) I&S J. ROBERTS, C. WELLER Study of selected middle and late dialogues.

PHIL 433 Philosophy of Aristotle (3, max. 6) I&S J. ROBERTS, C. WELLER Study of several major Aristotelian treatises.

PHIL 436 British Empiricism (3) I&S C. WELLER
Examination of the metaphysical and epistemological views of Locke and Berkeley, with perhaps some attention also to Hume. Prerequisite: either PHIL 322 or PHIL 350.

PHIL 437 Philosophy of Hume (3) I&S W. Talbott, C. Weller Hume's analyses of knowledge, the passions, and morals.

PHIL 438 Philosophy of Kant (5) I&S C. MARSHALL, C. WELLER Systematic study of *The Critique of Pure Reason*.

PHIL 440 Ethics (5) I&S J. ROBERTS, W. TALBOTT
Critical examination of the concepts and judgments of value, including an analytical treatment of the

notions of good and bad, right and wrong, and obligation. Emphasis varies from quarter to quarter.

PHIL 441 Public Health Ethics (5) I&S C. FOURIE An in-depth study of the philosophical issues arising in the practice and policy of public health. Material consists mainly of texts from philosophy and ethics, but, due to the course's interdisciplinary nature, also includes papers from epidemiology, newspaper articles, and current public health regulations and campaigns.

PHIL 442 Neuroethics (5) I&S S. GOERING
Neurotechnological advances offer novel ways to address problems of movement, mood, and communication, but also call into question fundamental philosophical assumptions about the kinds of creatures we are. Explores questions of personal identity, moral and legal responsibility, privacy, security, normality, and justice in the context of neurotechnologies.

PHIL 445 Philosophy of Art (5) VLPA/I&S R. MOORE
Critical examination of various accounts of the nature of art, artistic activity, the aesthetic experience. Problems in interpretation and evaluation of works of art.

PHIL 446 Development of Aesthetic Theory (5) VLPA/I&S R. MOORE Historical development of aesthetics, emphasizing such major figures as Plato, Aristotle, Hume, Kant, Hegel, and Goodman.

PHIL 449 Philosophy of Film (5) VLPA/I&S Examines films and film theory from a philosophical perspective. Topics may include the nature of film, whether films have "authors", how films engage our emotions, whether films are vehicles of ideology, whether video games are "interactive" cinema, and whether films and video games themselves can do philosophy.

PHIL 450 Epistemology (5) I&S C. MAYO-WILSON, W. TALBOTT Systematic study of some of the main problems of the theory of knowledge, such as: the definition of "knowledge"; a priori knowledge; perception and knowledge of the external world; and whether knowledge has or requires a foundation. Emphasis varies from quarter to quarter.

PHIL 453 Philosophy of Language (5) VLPA/I&S

Current theories of meaning, reference, predication, and related concepts. Offered: jointly with LING 476.

PHIL 456 Metaphysics (5) I&S Examination of such topics as freedom of the will, the nature of persons and personal identity, the existence of God, time, necessary truth, and universals. The emphases vary from year to year.

PHIL 459 Philosophy of Medicine (5) I&S N. JECKER

Familiarizes students with central issues in the philosophy of medicine. Focuses on the nature of medical knowledge, the connection between theory and observation, the meaning of medical concepts, and the relationship between theories and the world. Offered: jointly with B H 440.

PHIL 460 Philosophy of Science (5) I&S/NW L.

HANKINSON NELSON, A. WOODY Critical study of the nature of scientific knowledge. Topics include the relation of theory to observation, the use of mathematics, how theories change, the requirements for the meaningfulness of a theory, and nature of confirmation.. Prerequisite: one PHIL course.

PHIL 462 Social Structure of Science (5) I&S Carole J

Lee Critical study of how social structure and power in science contribute to its content and practices.

PHIL 463 Philosophy of Mind (5) I&S C. LEE

Examination of current theories of the nature of the mind and mental processes.

PHIL 464 Philosophical Issues in the Cognitive Sciences (5) I&S/NW C. LEE Philosophical problems connected with research in psychology, artificial intelligence, and other cognitive sciences. Topics vary. Readings from both philosophical and scientific literature. Accessible to nonphilosophers with suitable interests and backgrounds.

PHIL 465 Philosophy of History (3) I&S M. WYLIE

Analyses of basic concepts employed in historical interpretation, and study of some of the principal philosophers of history, such as Plato, Saint Augustine, Hegel, Marx, Spengler, Toynbee.

PHIL 466 Philosophy of the Social Sciences (5) I&S L.

HANKINSON NELSON, W. TALBOTT, M. WYLIE

Examination of fundamental issues in the foundations, methodology, and interpretation of the social sciences. Topics include value orientation and objectivity, methodological individualism, functionalism, reductionism, and the status of idealized models, including models involving idealized conceptions of individual rationality. Emphasis varies from quarter to quarter.

PHIL 467 Philosophy of Religion (5) I&S M.

Rosenthal Study of selected topics and problems in the philosophy of religion, such as: arguments for the existence of God; the problem of evil; atheism; faith; religious experience and revelation; the attributes of God; miracles; immortality; and the relation between religion and morality. Readings from historical and contemporary authors.

PHIL 470 Intermediate Logic (5) I&S/NW, QSR

An introduction to the concepts and methods of metatheory and their application to the sentential calculus.

PHIL 471 Advanced Logic (5) I&S/NW

Study of the first-order predicate calculus with identity and function symbols. Consistency, soundness, completeness, compactness. Skolem-Lowenheim theorem. Formalized theories. Prerequisite: PHIL 470.

PHIL 472 Axiomatic Set Theory (5) I&S/NW

Development of axiomatic set theory up to and including the consistency of the Axiom of Choice and Continuum Hypothesis with the Zermelo-Fraenkel Axioms.

PHIL 473 Philosophy of Mathematics (5) I&S/NW

Study of the traditional accounts of the nature of mathematical entities and mathematical truth given by logicism, intuitionism, and formalism, and the impact of Godel's incompleteness theorems on these accounts.

PHIL 474 Modal Logic (5) I&S/NW

Notions of necessity and possibility, using the classical systems T, S4, and S5, and the syntax and the semantics (Kripke models) of these systems.

PHIL 479 Semantics II (3) VLPA/I&S/NW T. Ogihara

Formal characterization of linguistic meaning. Emphasis on nature and purpose of formal semantics and on its relation to formal syntax.

Prerequisite: LING 478 Offered: jointly with LING 479.

PHIL 481 Philosophy of Biology (5) I&S/NW L.
HANKINSON NELSON Study of several current topics in philosophy of biology, which may include the logical structure of evolutionary theory, fitness, taxonomy, the concept of a living thing, reductionism, the concept of a biological species, evolutionary explanations, and philosophical consequences of sociology. Prerequisite: one PHIL course.

PHIL 482 Philosophy of Physical Science (5, max. 10) I&S/NW A. *WOODY* Study of philosophical issues raised by theories in physics or chemistry, such as whether space (time) is a substance, how causation and locality are treated in quantum mechanics, temporal anisotropy and time travel, the nature of a field of force, the reduction of chemistry to physics. Prerequisite: one PHIL course.

PHIL 483 Induction and Probability (5) NW/I&S
Introduction to current accounts of evidence and observation, the confirmation of scientific theories, the logic of inductive reasoning, and the metaphysics and epistemology of chance. High school-level math used. Specific topics vary from year to year. Prerequisite: PHIL 120.

PHIL 484 Reading in Philosophy (1-5, max. 15)
Individual study of selected philosophical works.

PHIL 490 Advanced Topics in Epistemology (5, max. 15) I&S W. *TALBOTT* Intensive study of a particular topic or area in epistemology. Prerequisite: either PHIL 350 or PHIL 450.

PHIL 495 Philosophical Inquiry in Schools (5) I&S *Goering, Lone, Shapiro* Explores methods for introducing philosophy to K-12 students, focusing on ways to establish "communities of philosophical inquiry." Students learn how to inspire philosophical discussions with pre-college students, and work in pairs with the instructor to lead philosophy sessions in the seminar and in local schools. Prerequisite: one PHIL course. Offered: A.

PHIL 498 Undergraduate Internship (1-5, max. 10)
Independent fieldwork under the supervision of a faculty member. Individual experiences vary but could include an off-campus practicum or being

trained as study group leader or tutor. Credit/no-credit only. Offered: AWSp.

PHIL 500 Proseminar in Philosophy (5) Introduces incoming graduate students to topics representative of the field and the faculty's interest. Each class session is devoted to a separate topic taught by a different member of the faculty. In addition to reading and short written assignments, students prepare a term paper on a topic presented. Offered: A.

PHIL 502 Pre-Dissertation Workshop I (5) Introduces cognitive, emotional, and physical labor of writing a dissertation. Topics may include cultivation of productive work habits, identifying a dissertation project, and forming the dissertation committee. Students complete the literature review requirement. Prerequisite: philosophy graduate student standing. Credit/no-credit only.

PHIL 503 Pre-Dissertation Workshop II (5, max. 10)
Doctoral students develop a piece of academic writing (prospectus draft, dissertation chapter, or conference paper), polish their CV, and continue developing the skill of giving and receiving critical feedback. Prerequisite: philosophy graduate student standing; recommended: PHIL 502. Credit/no-credit only.

PHIL 504 Topics in Teaching Philosophy I (1, max. 5)
Ian Schnee Provides first-year graduate students materials and support needed to begin teaching at the college level, with focus on role of teaching assistant. Investigates empirical work and best practices in pedagogy. Topics may include beginning and leading classroom discussions; grading philosophical assignments and time management; fostering and maintaining an inclusive classroom environment. Prerequisite: philosophy graduate student standing. Credit/no-credit only.

PHIL 505 Topics in Teaching Philosophy II (1, max. 5)
Ian Schnee Investigates how to develop and design effective courses in philosophy, and how to lead and teach these courses at the university level. Topics include assignment scaffolding, just-in-time teaching, equity in the classroom, backward course design, active learning, Bloom's taxonomy, time management, and teaching statements. Prerequisite: graduate standing in philosophy; PHIL 504. Credit/no-credit only.

PHIL 510 Seminar in Social Philosophy (5, max. 20)
W. TALBOTT

PHIL 514 Seminar in Legal Philosophy (5, max. 20) *R. MOORE*

PHIL 520 Seminar in Ancient Philosophy (5, max. 20)
J. ROBERTS, C. WELLER

PHIL 522 Seminar in Modern Philosophy (5, max. 20) *C. MARSHALL, M. ROSENTHAL, C. WELLER*

PHIL 526 Seminar in Recent Philosophy (5, max. 20)
C. WELLER

PHIL 538 Philosophy of Human Rights (5, max. 20)
W. TALBOTT

PHIL 540 Seminar in Ethics (5, max. 20) *S. GOERING, J. ROBERTS, W. TALBOTT*

PHIL 545 Seminar in the Philosophy of Art (5, max. 20) *R. MOORE*

PHIL 550 Seminar in Epistemology (5, max. 20) *C. MAYO-WILSON, W. TALBOTT*

PHIL 556 Seminar in Metaphysics (5, max. 20)

PHIL 560 Seminar in the Philosophy of Science (5, max. 20) *L. HANKINSON NELSON, A. WOODY*

PHIL 562 Seminar in the Social Structure of Science (5, max. 20) *Carole J Lee* Critical study of how social structure and power in science contribute to its content and practices.

PHIL 563 Seminar in the Philosophy of Mind (5, max. 20) *C. LEE*

PHIL 564 Seminar in Philosophy of the Cognitive Sciences (5) Examines philosophical questions raised in and by cognitive sciences, including the nature of explanation, the role of models in explanation, and debates about reductionism versus pluralism in the face of diverse research paradigms.

PHIL 565 Seminar in the Philosophy of History (5, max. 20)

PHIL 566 Seminar in Philosophy of the Social Sciences (5, max. 20) *C. LEE, M. WYLIE*

PHIL 570 Seminar in Logic (5, max. 20) Prerequisite: PHIL 470.

PHIL 574 Meta-archaeology: Philosophy and Archaeology (1-5, max. 5) Examines philosophical issues raised in and by archaeology, including theories of explanation and model building, analyses of evidential reasoning and hermeneutic interpretation, debates about ideals of objectivity and about science and values. Offered: jointly with ARCHY 574.

PHIL 584 Reading in Philosophy (1-5, max. 12) Intensive reading in philosophical literature. Prerequisite: permission of Graduate Program Coordinator.

PHIL 587 Contemporary Analytic Philosophy (5, max. 20)

PHIL 595 Philosophical Inquiry in Schools (5) *S. Goering, J. Lone* Explores methods for introducing philosophy to K-12 students, focusing on ways to establish "communities of philosophical inquiry." Students learn how to inspire philosophical discussions with pre-college students, and work in pairs with the instructor to lead philosophy sessions in the seminar and in local schools. Offered: A.

PHIL 600 Independent Study or Research (*-) Prerequisite: permission of Graduate Program Coordinator.

PHIL 800 Doctoral Dissertation (*-)

PHYSICS

PHYS 101 Physical Science By Inquiry I (5-) NW, QSR

PHYS 104 Facilitated Group Inquiry I (2) NW Laboratory-based development of concepts and reasoning skills. Develops problem-solving techniques and scientific method in a large group setting. Co-requisite: PHYS 114. Offered: A.

PHYS 105 Facilitated Group Inquiry II (2) NW Laboratory-based development of concepts and

reasoning skills. Develops problem-solving techniques and scientific method in a large group setting. Co-requisite: PHYS 115. Offered: W.

PHYS 106 Facilitated Group Inquiry III (2) NW

Laboratory-based development of concepts and reasoning skills. Develops problem-solving techniques and scientific method in a large group setting. Co-requisite: PHYS 116. Offered: Sp.

PHYS 107 Physics Concepts for Non-Scientists (5) NW

Wilkes Overview of physical science, from subatomic particles to cosmology. Intended to help students understand the importance of scientific research in society with emphasis on basic ideas about how the universe operates. Readings from popular books by leading scientists for non-science majors. For students without high school physics or with limited mathematics background. Offered: W.

PHYS 110 Liberal Arts Physics (5) NW, QSR

Physics for students in the arts, humanities and social sciences. Students get a flavor of what physics is about, including scientific procedures. We will focus on the theory of Relativity. This revolutionized physics in 1905 and led to amazing predictions, like the existence of black holes and the production of gravitational waves, confirmed in 2016. Only math at high school level is required. Offered: WSp.

PHYS 114 Mechanics (4) NW, QSR Principles of mechanics using algebra-based modeling with an emphasis on applications in life sciences. Maximum 5 credits allowed for any combination of PHYS 114, PHYS 117, PHYS 121, and PHYS 141. Offered: AWSpS.

PHYS 115 Heat, Fluids and Electricity and Magnetism (4) NW

Principles of heat, fluids, and electromagnetism using algebra-based modeling with an emphasis on applications in life sciences. Maximum 5 credits allowed for any combination of PHYS 115, PHYS 118, PHYS 122, and PHYS 142. Prerequisite: either a minimum grade of 1.7 in PHYS 114, PHYS 121, or PHYS 141, a score of 4 or 5 on Physics B advanced placement test, a score of 4 or 5 on AP Physics 1 advanced placement test, or a score of 4 or 5 on Physics C (Mechanics) advanced placement test. Offered: AWSpS.

PHYS 116 Waves, Optics, Atoms and Nuclei (4) NW

Principles of waves, optics, atoms, and nuclei using algebra-based modeling with an emphasis on

applications in life sciences. Maximum 5 credits allowed for any combination of PHYS 116, PHYS 119, PHYS 123, and PHYS 143. Prerequisite: either a minimum grade of 1.7 in PHYS 115, PHYS 122, or PHYS 142, a score of 4 or 5 on Physics 2 advanced placement test, or a score of 4 or 5 on Physics C (Electricity and Magnetism) advanced placement test. Offered: AWSpS.

PHYS 117 General Physics Laboratory (1) NW

Mechanics laboratory. Credit is not given for both PHYS 117 and the PHYS 121 laboratory. Prerequisite: PHYS 114 which may be taken concurrently. Credit/no-credit only. Offered: AWSpS.

PHYS 118 General Physics Laboratory (1) NW

Heat and electromagnetism laboratory. Credit is not given for both PHYS 118 and the PHYS 122 laboratory. Prerequisite: PHYS 115 which may be taken concurrently. Credit/no-credit only. Offered: AWSpS.

PHYS 119 General Physics Laboratory (1) NW

Sound, light, and modern physics laboratory. Credit is not given for both PHYS 119 and the PHYS 123 laboratory. Prerequisite: PHYS 116 which may be taken concurrently. Credit/no-credit only. Offered: AWSpS.

PHYS 121 Mechanics (5) NW, QSR

Basic principles of mechanics and experiments in mechanics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Maximum 5 credits allowed for any combination of PHYS 114, PHYS 117, PHYS 121, and PHYS 141. Prerequisite: either MATH 124 or MATH 134, which may be taken concurrently. Offered: AWSpS.

PHYS 122 Electromagnetism (5) NW

Covers the basic principles of electromagnetism and experiments in these topics for physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Maximum 5 credits allowed for any combination of PHYS 115, PHYS 118, PHYS 122, and PHYS 142. Prerequisite: either PHYS 121 or PHYS 141; and either MATH 125 or MATH 134, which may be taken concurrently. Offered: AWSpS.

PHYS 123 Waves (5) NW

Explores electromagnetic waves, the mechanics of oscillatory motion, optics, waves in matter, and experiments in these topics for

physical science and engineering majors. Lecture tutorial and lab components must all be taken to receive credit. Maximum 5 credits allowed for any combination of PHYS 116, PHYS 119, PHYS 123 and PHYS 143. Prerequisite: either PHYS 122 or PHYS 142; and either MATH 126 or MATH 134, which may be taken concurrently. Offered: AWSpS.

PHYS 141 Honors Mechanics (5) NW Addresses same material as PHYS 121 in more depth and with additional topics such as current research and cross-disciplinary applications. For students with strong calculus preparation. Maximum 5 credits allowed for any combination of PHYS 114, PHYS 117, PHYS 121, and PHYS 141. Prerequisite: either a minimum grade of 2.5 in MATH 124, or MATH 134, which may be taken concurrently. ; recommended: high school-level physics course. Offered: A.

PHYS 142 Honors Electromagnetism (5) NW Addresses same material as PHYS 122 in more depth and with additional topics such as current research and cross-disciplinary applications. For students with strong calculus preparation. Maximum 5 credits allowed for any combination of PHYS 115, PHYS 118, PHYS 122, and PHYS 142. Prerequisite: a minimum grade of 2.5 in PHYS 141; and MATH 125 or MATH 134, either of which may be taken concurrently. ; recommended: high-school-level physics course. Offered: W.

PHYS 143 Honors Waves, Light and Heat (5) NW Addresses same material as PHYS 123 in more depth and with additional topics such as current research and cross-disciplinary applications. For students with strong calculus preparation. Maximum 5 credits allowed for any combination of PHYS 116, PHYS 119, PHYS 123, and PHYS 143. Prerequisite: a minimum grade of 2.5 in PHYS 142; and MATH 126 or MATH 135, either of which may be taken concurrently. ; recommended: high school-level physics course. Offered: Sp.

PHYS 207 The Physics of Music (3) NW The nature of sound; vibrations; traveling and standing waves; response of the ear to sound; production of musical sounds.

PHYS 210 Physics by Inquiry I (5) NW Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a

process of inquiry. Prerequisite: minimum 2.0 in either PHYS 116 or PHYS 123. Offered: A.

PHYS 211 Physics by Inquiry I (5) NW Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: minimum 2.0 in either PHYS 116 or PHYS 123; recommended: PHYS 210. Offered: W.

PHYS 212 Physics by Inquiry I (5) NW Selected topics in physics with emphasis on depth of understanding and development of skills essential to the scientific process. Develops perspective of science as a process of inquiry. Prerequisite: minimum 2.0 in either PHYS 116 or PHYS 123; recommended: PHYS 211. Offered: Sp.

PHYS 214 Light and Color (5) NW, QSR Compares past explanation of certain familiar natural phenomena with present understandings. Lamps and lighting, outdoor light, optical devices, color vision, perspective, paints, and pigments. Quantitative comparison critical to the course, but college-level mathematics background not required. Intended for non-science students.

PHYS 216 Science and Society (5) I&S/NW *Chaloupka* Investigation of the relationship between science, technology, and society. Nuclear physics and molecular biology serve as concrete examples of fields with significant impact on society. Offered: jointly with JSIS B 216; Sp.

PHYS 217 Energy Future: The Technical and Social Barriers to Large-Scale Sustainable Energy (5) I&S/NW *Seidler* Surveys the scientific, technological, and social barriers to large-scale renewable energy implementation. Includes discussion of solar, wind, nuclear, and other sustainable modalities; energy efficiency; large-scale energy storage; the greenhouse effect; and numerous domestic and international case studies of sustainable energy efforts. Offered: A.

PHYS 224 Thermal Physics (3) NW Introduces heat, thermodynamics, elementary kinetic theory, and statistical physics. Prerequisite: Either MATH 126 or MATH 136; PHYS 123 Offered: ASpS.

PHYS 225 Introduction to Quantum Mechanics (3)

NW Emphasizes two-state systems. Introduces spin and applications in nuclear magnetic resonance. Prerequisite: either a minimum grade of 2.0 in PHYS 227; or a minimum grade of 2.0 in PHYS 123 and MATH 136; or a minimum grade of 2.0 in PHYS 123, and minimum grade of 2.0 in either MATH 307 or AMATH 351, and minimum grade of 2.0 in either MATH 308 or AMATH 352. Offered: WS.

PHYS 226 Particles and Symmetries (3) NW

Introduction to the fundamental constituents of matter and the symmetries which characterize their interactions. Topics include special relativity; strong, weak, and electromagnetic interactions; quarks and leptons; baryons and mesons; and neutrinos and nuclei. Prerequisite: minimum grade of 2.0 in PHYS 225 and PHYS 227 Offered: Sp.

PHYS 227 Elementary Mathematical Physics (4) NW

Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: a minimum grade of 2.0 in PHYS 121; a minimum grade of 2.0 in PHYS 122; a minimum grade of 2.0 in PHYS 123; and a minimum grade of 2.0 in MATH 126. Offered: ASp.

PHYS 228 Elementary Mathematical Physics (4) NW

Applications of mathematics in physics with emphasis on the mechanics of particles and continuous systems. Develops and applies computational methods, both analytic and numerical. Prerequisite: minimum 2.0 grade in PHYS 227. Offered: WS.

PHYS 231 Introductory Experimental Physics (3) NW

Introduction to data acquisition and analysis using experiments which measure fundamental constants or properties of nature (Planck's constant, Boltzmann's constant, speed of light, charge of electron) . Prerequisite: minimum 2.0 grade in PHYS 123. Offered: A.

PHYS 232 Introduction to Computational Physics (3)

NW Computational techniques applied to physics and data analysis in laboratory setting. Emphasis on numerical solutions of differential equations, least square data fitting, Monte Carlo methods, and Fourier Analysis. A high-level language taught and

used; no previous computing experience required. Prerequisite: PHYS 227.

PHYS 248 Introductory Selected Topics (1-5, max. 15) NW**PHYS 294 Introduction to Research: Frontiers of**

Physics (1) NW Provides a survey of contemporary research in experimental and theoretical physics, with an emphasis on subfields seeing revolutionary changes in understanding. Credit/no-credit only. Offered: W.

PHYS 321 Electromagnetism (4) NW

First of a three-quarter sequence. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: minimum grade of 2.0 in PHYS 227; two of PHYS 228, MATH 307 or AMATH 351, MATH 308 or AMATH 352, MATH 309 or AMATH 353, MATH 324, MATH 326, or AMATH 401. Offered: ASp.

PHYS 322 Electromagnetism (4) NW

Continuation of PHYS 321. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: minimum 2.0 in PHYS 321. Offered: WS.

PHYS 323 Electromagnetism (4) NW

Continuation of PHYS 322. Charges at rest and in motion; dielectric and magnetic media; electromagnetic waves; relativity and electromagnetism; physical optics. Prerequisite: minimum 2.0 in PHYS 322. Offered: Sp.

PHYS 324 Quantum Mechanics (4) NW

First part of a two-quarter sequence. Introduction to nonrelativistic quantum mechanics: need for quantum theory, Schrodinger equation, operators, angular momentum, the hydrogen atom, identical particles, and the periodic table. Prerequisite: 2.0 in PHYS 225, PHYS 228. Offered: AS.

PHYS 325 Quantum Mechanics (4) NW

Continuation of PHYS 324. Introduction to nonrelativistic quantum mechanics: perturbation theory, the variational principle, radiation; application of quantum mechanics to atomic physics, magnetic resonance, scattering, and various special topics. Prerequisite: either PHYS 324 or B PHYS 324. Offered: W.

PHYS 328 Statistical Physics (3) NW Elements of statistical mechanics and their applications. Prerequisite: a minimum grade of 2.0 in PHYS 224; and a minimum grade of 2.0 in PHYS 225. Offered: A.

PHYS 329 Mathematical Methods and Classical Mechanics (3) NW Mathematical methods applied to classical mechanics, including Lagrangian mechanics. Prerequisite: minimum grade of 2.0 in PHYS 228. Offered: Sp.

PHYS 331 Optics Laboratory (3) NW Measurements of interference and diffraction, optical properties of matter, image processing, interferometry, holography. Prerequisite: a minimum grade of 2.0 in PHYS 227; and PHYS 321, which may be taken concurrently. Offered: A.

PHYS 334 Electric Circuits Laboratory (3) NW Basic elements of DC, AC, and transient circuits; electronic devices; electrical measurements. Prerequisite: minimum 2.0 grade in PHYS 123. Offered: WS.

PHYS 335 Electric Circuits Laboratory (3) NW Electrical measurements, data management, digital electronics of microprocessor systems. Building a microprocessor application. Prerequisite: minimum 2.0 in PHYS 334. Offered: Sp.

PHYS 401 Special Problems (*, max. 30) Supervised individual study. Offered: AWSpS.

PHYS 402 Special Problems (*, max. 30) Supervised individual study. Offered: AWSpS.

PHYS 403 Special Problems (*, max. 30) Supervised individual study. Offered: AWSpS.

PHYS 405 Physical Science by Inquiry II (5-) NW Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides background for teaching physical science as a process of inquiry and develops scientific literacy. Prerequisite: 2.0 in either PHYS 116 or PHYS 123. Offered: A.

PHYS 406 Physical Science by Inquiry II (-5) NW Emphasis on depth of understanding and development of reasoning and representational skills essential to the scientific process. Provides

background for teaching physical science as a process of inquiry and develops scientific literacy. Prerequisite: 2.0 in either PHYS 116 or PHYS 123. Offered: W.

PHYS 407 Physics by Inquiry II (5) NW Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: minimum grade of 2.0 in PHYS 121, PHYS 122, PHYS 123. Offered: A.

PHYS 408 Physics by Inquiry II (5) NW Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 407. Offered: W.

PHYS 409 Physics by Inquiry II (5) NW Selected topics in physics, with emphasis on depth of understanding and development of skills essential to the scientific process. Background for teaching physics at secondary school and introductory college levels. Some mathematical proficiency required. Prerequisite: PHYS 408. Offered: Sp.

PHYS 410 Physics by Inquiry for In-Service Teachers (1-2, max. 30) NW A "hands-on" inquiry-oriented approach designed to train in-service teachers in the use of the physical science content for any of several science programs selected by a school or school district. Credit/no-credit only.

PHYS 411 Physics by Inquiry for Lead Teachers (1-4, max. 4) NW Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Credit/no-credit only. Offered: A.

PHYS 412 Physics by Inquiry for Lead Teachers (1-4, max. 4) NW Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS

407, PHYS 408, or PHYS 409. Credit/no-credit only. Offered: A.

PHYS 413 Physics by Inquiry for Lead Teachers (1-4, max. 4) NW Extends the content covered in previous courses and helps prepare lead teachers to train colleagues to use any of several science programs selected by schools or districts. Prerequisite: two courses selected from PHYS 405, PHYS 406, PHYS 407, PHYS 408, or PHYS 409. Credit/no-credit only. Offered: A.

PHYS 421 Contemporary Atomic Physics (3) NW Survey of the principal phenomena of atomic and molecular physics. Prerequisite: PHYS 322; PHYS 325. Offered: Sp.

PHYS 422 Contemporary Nuclear and Particle Physics (3) NW Survey of the principal phenomena of nuclear and elementary-particle physics. Prerequisite: PHYS 226; PHYS 322; PHYS 325. Offered: A.

PHYS 423 Contemporary Condensed Matter Physics (3) NW Survey of the principal phenomena of solid-state physics. Prerequisite: a minimum 2.0 grade in either PHYS 324 or B PHYS 324. Offered: W.

PHYS 427 Applications of Physics (1-3, max. 12) NW Current applications of physics to problems in the sciences and technology.

PHYS 428 Selected Topics in Physics (1-5, max. 12) NW

PHYS 429 Biophysics (3) Application of the concepts and methods of physics to biological systems. Prerequisite: PHYS 224; PHYS 225. Offered: W.

PHYS 431 Modern Physics Laboratory (3) NW Measurement in modern atomic, molecular, and solid-state physics. Prerequisite: PHYS 225; PHYS 334. Offered: WS.

PHYS 432 Modern Physics Laboratory (3) NW Measurement in modern atomic, molecular, and solid-state physics. Prerequisite: PHYS 225; PHYS 334. Offered: Sp.

PHYS 433 Modern Physics Laboratory (3) NW Techniques in nuclear and elementary-particle

research. Prerequisite: PHYS 225; PHYS 334. Offered: A.

PHYS 434 Application of Computers to Physical Measurement (3) NW Laboratory giving specific instruction and experience in interfacing laboratory equipment to computers. Prerequisite: PHYS 334; and a minimum grade of 2.0 in either AMATH 301 or ASTR 300. Offered: A.

PHYS 436 Nonlinear Dynamics and Chaos (4) NW Variational Principle, Lagrangian and Hamiltonian Mechanics, phase space, nonlinear dynamics, approach to chaos, Lyapunov exponents, applications to physical systems. Numerical exercises to illustrate phenomena. Prerequisite: MATH 309.

PHYS 441 Quantum Physics (4) NW Introduction to concepts and methods of quantum physics: wave mechanics (de Broglie wavelength, uncertainty principle, Schrodinger equation), one-dimensional examples (tunneling, harmonic oscillator), formalism of quantum physics, angular momentum and the hydrogen atom. Offered: A.

PHYS 451 Issues for Ethnic Minorities and Women In Science and Engineering (3/5) I&S Addresses issues faced by women and ethnic minorities in physical sciences and engineering. Focuses on participation, barriers to participation, and solutions to those issues for women and ethnic minorities in physical sciences and engineering. Offered: jointly with GWSS 485.

PHYS 485 Senior Honors Seminar (1, max. 3) NW Prerequisite: Honors standing; 12 credits of physics. Offered: A.

PHYS 486 Senior Honors Seminar (1, max. 3) NW Prerequisite: Honors standing; 12 credits of physics. Offered: W.

PHYS 487 Senior Honors Seminar (1, max. 3) NW Prerequisite: Honors standing; 12 credits of physics. Offered: Sp.

PHYS 494 Seminar on Current Problems in Physics (1, max. 3) NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentations

summarizing work accomplished are required.
Offered: A.

PHYS 495 Seminar on Current Problems in Physics (1, max. 3) NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentations summarizing work accomplished are required.
Offered: W.

PHYS 496 Seminar on Current Problems in Physics (1, max. 3) NW Supervised, independent study of topics (chosen by faculty in charge) of current interest in physics. Written and oral presentations summarizing work accomplished are required.
Offered: Sp.

PHYS 498 Directed Reading in Physics (2, max. 6) NW Pairs advanced undergraduate students with graduate students to explore a topic in physics through critical engagement with current academic literature and development of skills to communicate scientific material. Prerequisite: PHYS 123; recommended: PHYS 224; PHYS 225; and PHYS 227. Credit/no-credit only. Offered: AWSp.

PHYS 499 Undergraduate Research (1-6, max. 18) Research in physics and study of physics literature. Credit/no-credit only. Offered: AWSpS.

PHYS 501 Tutorials in Teaching Physics (1, max. 2) Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no-credit only. Offered: A.

PHYS 502 Tutorials in Teaching Physics (1, max. 2) Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials are used with undergraduates. Credit/no-credit only. Offered: W.

PHYS 503 Tutorials in Teaching Physics (1, max. 2) Preparation for teaching introductory physics; use and critical analysis of instructional materials in a collaborative learning environment; supervised teaching practicum in which instructional materials

are used with undergraduates. Credit/no-credit only. Offered: Sp.

PHYS 505 Mechanics (3) Lagrangian and Hamiltonian dynamics, with applications to various topics such as coupled oscillators, parametric resonance, anharmonic oscillations, chaos. Offered: W.

PHYS 506 Numerical Methods (3) Integration, solution of differential equations, Monte Carlo methods, function minimization, data analysis, modern computing techniques, computation in experimental physics. Offered: WSp.

PHYS 507 Physical Applications of Group Theory (3) Applications of finite and continuous groups, representation theory, symmetry, and conservation laws to physical systems. Offered: Sp.

PHYS 511 Topics in Contemporary Physics (3, max. 9) Topics of current experimental, theoretical, or technological interest in modern physics. Offered: Sp.

PHYS 513 Electromagnetism and Relativity (3) First of a three-part sequence. Principles of electrostatics, complex variable techniques, boundary value problems and their associated mathematical techniques, Green's functions. Offered: A.

PHYS 514 Electromagnetism and Relativity (4) Continuation of PHYS 513. Electric and magnetic fields in free space and material media, wave guides and cavity resonators. Offered: W.

PHYS 515 Electromagnetism and Relativity (4) Continuation of PHYS 514. Special relativity, electromagnetic radiation from accelerated charges, synchrotron radiation, Cerenkov radiation, radiation reaction. Offered: Sp.

PHYS 517 Quantum Mechanics (4) First of a three-part sequence. Modern non-relativistic quantum mechanics developed, beginning with its basic principles. Dirac and abstract operator notation introduced, starting with simple examples. Offered: A.

PHYS 518 Quantum Mechanics (4) Continuation of PHYS 517. Modern non-relativistic quantum mechanics. The character of the theory illustrated

both with physical examples and with conceptual problems. Topics include: atomic structure, scattering processes, density operator description of mixed states, and measurement theory. Abstract operator methods emphasized in the exposition of angular momentum, scattering, and perturbation theory. Offered: W.

PHYS 519 Quantum Mechanics (4) Continuation of PHYS 518. Modern non-relativistic quantum mechanics. Physical examples and conceptual problems. Topics include: atomic structure, scattering processes, density operator description of mixed states, and measurement theory. Abstract operator methods emphasized in the exposition of angular momentum, scattering, and perturbation theory. Offered: Sp.

PHYS 520 Advanced Quantum Mechanics - Introduction to Quantum Field Theory (4) Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: A.

PHYS 521 Advanced Quantum Mechanics - Introduction to Quantum Field Theory (3) Multi-particle systems, second quantization, diagrammatic perturbation theory, radiation, correlation functions and multi-particle scattering, relativistic theories, renormalizability, basic quantum electrodynamics, and other applications. Offered: W.

PHYS 522 Advanced Quantum Mechanics: Introduction to Modern Quantum Field Theory (3) Functional integrals, symmetry breaking, critical phenomena and continuum limits, and non-perturbative methods. Credit/no-credit only. Offered: Sp.

PHYS 524 Thermodynamics and Statistical Mechanics (4) Statistical mechanical basis of the fundamental thermodynamical laws and concepts; classical and quantum statistical distribution functions; applications to selected thermodynamic processes and examples of Bose and Fermi statistics. Offered: A.

PHYS 525 Statistical Mechanics (3) Introduction to equilibrium and non-equilibrium aspects of many-body systems; scale invariance and universality at

phase transitions and critical phenomena; exactly soluble models; Markov processes, master equations and Langevin equation in non-equilibrium stochastic processes. Prerequisite: PHYS 524. Offered: Sp.

PHYS 527 Current Problems in Physics (1) Introduction to current research topics for beginning graduate students. Credit/no-credit only. Offered: A.

PHYS 528 Current Problems in Physics (1) Introduction to current research topics for beginning graduate students. Credit/no-credit only. Offered: A.

PHYS 530 Laser Physics (4) Physics underlying laser design and operation in the context of common laboratory systems. Topics may include continuous and pulsed lasers; solid, liquid, and gas gain media; Q-switching, mode-locking, resonator theory, nonlinear optics, and others. Prerequisite: basic quantum mechanics, electromagnetism, and optics.

PHYS 531 Contemporary Atomic Physics (4) Survey of the principal phenomena of atomic and molecular physics. Prerequisite: PHYS 441, PHYS 543, or permission of instructor. ; recommended: courses in calculus; modern physics; electromagnetism; and quantum mechanics. Offered: Sp.

PHYS 532 Liquid Crystal Devices (4) Physics of liquid crystals and applications to practical display devices. Phases, phase transitions, optical and dielectric properties, molecular and device "engineering," future prospects.

PHYS 536 Introduction to Acoustics and Digital Signal Processing (4) Introduces mathematical and physics principles of acoustics in digital signal processing applications. Complex analysis and Fourier methods, physics of vibrations and waves, solutions of the wave equation, digital convolution and correlation methods, and Maximum Length Sequence method in signal analysis and spread-spectrum applications. Prerequisite: PHYS 123; MATH 120. Instructors: Chaloupka

PHYS 541 Applications of Quantum Physics (4) Techniques of quantum mechanics applied to lasers, quantum electronics, solids, and surfaces. Emphasis on approximation methods and interaction of electromagnetic radiation with matter. Prerequisite: PHYS 421 or PHYS 441 or equivalent. Offered: Sp.

PHYS 542 Numerical Methods in Physics (4)

Numerical methods for analysis and computation in physics. Topics may include integration, differential equations, partial differential equations, optimization, data handling, and Monte Carlo techniques. Emphasis is applications in physics. Prerequisite: 30 credits in physical sciences, computer science, or engineering.

PHYS 543 Electromagnetic Theory (4) Principal concepts of electromagnetism. Static electric and magnetic fields. Boundary-value problems. Electric and magnetic properties of materials. Electromagnetic waves and radiation. Prerequisite: 30 credits in physical sciences, computer science, or engineering. Offered: W.

PHYS 544 Applications of Electromagnetic Theory (4) Emphasis may vary from year to year. Topics may include electromagnetic waves, radiation, scattering, wave guides, plasma physics, quantum electronics, and accelerator physics. Prerequisite: PHYS 543 or equivalent.

PHYS 545 Contemporary Optics (4) Coordinated lecture and laboratory treatment of topics in contemporary optics. Subjects include Fourier optics, lens systems, interferometry, laser optics, holography, polarization, crystal optics, birefringence, laser and conventional light sources, optical detectors. Prerequisite: PHYS 543 or equivalent.

PHYS 546 Condensed-Matter Physics (4) Introduction to the theory of solids: crystal structure in real space and reciprocal space, phonons, free electrons, band theory, semiconductor devices. Prerequisite: PHYS 441 or equivalent.

PHYS 547 Electronics for Physics Research (4) Electronic techniques as applied in physics research. Topics include noise, control-system analysis, operational amplifiers, lock-in amplifiers, precision power supplies and metering, data transmission, microprocessors. Several integrated measurement systems are examined in the context of specific research problems. Prerequisite: elementary electronics.

PHYS 549 Low-Temperature Physics and Cryogenics (4) Condensed-matter physics at low and ultralow temperatures. Production of low temperatures;

liquefaction of gases, dilution refrigeration, magnetic and compressional cooling. Macroscopic quantum effects: superconductivity, superfluidity. Applications of superconductors. The ultralow temperature frontier.

PHYS 550 Atomic Physics (3) Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: PHYS 519.

PHYS 551 Atomic Physics (3) Theory of atomic structure and spectra; atomic and molecular beams; resonance techniques; atomic collisions; topics of current interest. Prerequisite: PHYS 519.

PHYS 552 Introduction to Cosmic Ray Physics (3) The nature and cosmological significance of cosmic ray photons and particles. The motion and confinement of particles in the geophysical, interplanetary, and interstellar medium. Theories of the processes involved in the high-energy interaction of cosmic rays, including shower theory. Methods of measurement and current problems. Prerequisite: introductory quantum mechanics. Credit/no-credit only.

PHYS 554 Nuclear Astrophysics (3) Big bang nucleosynthesis; nuclear reactions in stars; solar neutrinos and neutrino oscillations; core-collapse supernovae; nucleosynthesis in stars, novae, and supernovae; neutron stars; composition and sources of cosmic rays; gamma ray bursts; atmospheric neutrinos. Offered: jointly with ASTR 510; A.

PHYS 555 Cosmology and Particle Astrophysics (3) Big bang cosmology; relativistic world models and classical tests; background radiation; cosmological implications of nucleosynthesis; baryogenesis; inflation; galaxy and large-scale structure formation; quasars; intergalactic medium; dark matter.

PHYS 557 High Energy Physics (3) First quarter of a three-quarter series. Emphasis on the experimental foundations of particle physics. Prerequisite: PHYS 519. Offered: A.

PHYS 558 High Energy Physics (3) Second quarter of a three-quarter series. Phenomenology of the standard model of strong and electro-weak

interactions, including an introduction to Feynman diagrams. Prerequisite: PHYS 519. Offered: W.

PHYS 559 High Energy Physics (3) Third quarter of a three-quarter series. Topics of current interest in high-energy particle physics. Prerequisite: PHYS 519. Offered: Sp.

PHYS 560 Theoretical Nuclear Physics (3) First of a two-part sequence. Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: PHYS 519. Offered: A.

PHYS 561 Theoretical Nuclear Physics (3) Continuation of PHYS 560. Nuclear structure, scattering, reactions, and decays in terms of elementary properties of nucleons and current theoretical models. Prerequisite: PHYS 519. Offered: W.

PHYS 564 General Relativity (3) First of a two-part sequence. General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: PHYS 515.

PHYS 565 General Relativity (3) Continuation of PHYS 564. General covariance and tensor analysis, the relativistic theory of gravitation as given by Einstein's field equations, experimental tests and their significance, and applications of general relativity, particularly in the areas of astrophysics and cosmology. Prerequisite: PHYS 515.

PHYS 567 Theory of Solids (3) First quarter of a course on modern solid state and condensed matter physics, aimed at bringing student's knowledge up to the level of current literature. Topics include structural, electronic, and vibrational properties; optical response functions and dynamics; transport theory; and cooperative phenomena. Prerequisite: PHYS 519, PHYS 524. Offered: AW.

PHYS 568 Theory of Solids (3) Second quarter of a course on modern solid state and condensed matter physics, aimed at bringing the student's knowledge up to the level of current literature. Additional topics (see PHYS 567) include magnetism, quantum Hall effect, superconductivity. Offered: WSp.

PHYS 570 Quantum Field Theory (3) Emphasizes either relativistic quantum field theory or the many-body problem. Normally offered credit/no-credit only. Prerequisite: PHYS 522.

PHYS 571 Quantum Field Theory (3) Emphasizes either relativistic quantum field theory or the many-body problem. Normally offered credit/no-credit only. Prerequisite: PHYS 522.

PHYS 572 Modern Quantum Field Theory (3) Advanced topics in quantum field theory. Prerequisite: PHYS 570, PHYS 571. Credit/no-credit only.

PHYS 575 Selected Topics in Applications of Physics (*, max. 30)

PHYS 576 Selected Topics in Experimental Physics (*, max. 30)

PHYS 578 Selected Topics in Theoretical Physics (*, max. 30) Credit/no-credit only.

PHYS 580 Physics Colloquium (*, max. 30) Credit/no-credit only. Offered: AWSp.

PHYS 581 Seminar in High-Energy Physics (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 582 Seminar in Particle Theory (1-2, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 583 Seminar in Relativistic Astrophysics (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 584 Seminar in Recent Developments in Atomic Physics (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 585 Seminar in Experimental Nuclear Physics (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 586 Seminar in Condensed Matter Physics (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 587 Seminar in Nuclear Theory (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 588 Particle Astrophysics Seminar (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 589 Seminar in Problems of Physics Education (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 590 Seminar in Statistical Physics (1-3, max. 20) Credit/no-credit only. Offered: AWSp.

PHYS 600 Independent Study or Research (*-) Study or research under the supervision of individual faculty members. Prerequisite: permission of supervisor. Credit/no-credit only. Offered: AWSpS.

PHYS 800 Doctoral Dissertation (*-) Prerequisite: permission of Supervisory Committee chairperson. Credit/no-credit only. Offered: AWSpS.

POLITICAL SCIENCE

POL S 101 Introduction to Politics (5) I&S Political problems that affect our lives and shape the world around us.

POL S 110 Political Argumentation (3) VLPA/I&S Skills- and practice-based approach to political argumentation. Suitable for non-majors.

POL S 120 Perspectives on Contemporary Public Policy Issues (3) I&S Lecture series on contemporary domestic and international public policy issues. Credit/no-credit only. Offered: jointly with JSIS B 120.

POL S 195 Study Abroad: Political Science (1-10, max. 15) I&S Lower-division political science courses taken through a UW approved study abroad program. Specific content varies and must be individually evaluated. Credit does not apply to major requirements.

POL S 201 Introduction to Political Theory (5) I&S Philosophical bases of politics and political activity. Provides an introduction to the study of politics by the reading of books in political philosophy. Organized around several key political concepts, such as liberty, equality, justice, authority, rights, and citizenship. Offered: AWSpS.

POL S 202 Introduction to American Politics (5) I&S Institutions and politics in the American political system. Ways of thinking about how significant problems, crises, and conflicts of American society are resolved politically. Offered: AWSpS.

POL S 203 Introduction to International Relations (5) I&S The world community, its politics, and government. Offered: AWSpS.

POL S 204 Introduction to Comparative Politics (5) I&S Political systems in a comparative framework. Traditional and contemporary approaches to the study of governments and societies in different countries. Offered: AWSpS.

POL S 212 Philosophy of Feminism (5) I&S, DIV Philosophical analysis of the concepts and assumptions central to feminism. Theoretical positions within the feminist movement; view of the ideal society, goals and strategies of the movement, intersections of the sex-gender system with other systems of oppression. Offered: jointly with GWSS 206/PHIL 206.

POL S 213 The Korean Peninsula and World Politics (5) I&S *Ha* Introduces Korean politics, economics, society, and international relations. Overviews the development in politics, economy, and society since the late nineteenth century. Addresses the evolution of Korea in the international society by comparing Korea experience with that of China and Japan. Offered: jointly with JSIS A 213.

POL S 217 Issues of Global Justice (5) I&S, DIV *Jamie Mayerfeld, Michael I Blake, William J Talbott* Introduces issues of global justice. Topics include: global poverty and aid, immigration, transnational governance, gender in global relations, climate change, and cultural relativism. Offered: jointly with ETHICS 207/PHIL 207.

POL S 246 African American Politics (5) I&S, DIV *C. PARKER* Survey of African Americans within the U.S. socio-political processes. Situates African Americans within a post-civil rights context where there is debate about race's centrality to an African American politics. Offered: jointly with AFRAM 246.

POL S 249 Introduction to Labor Studies (5) I&S Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with HSTCMP 249/SOC 266.

POL S 270 Introduction to Political Economy (5)

I&S A. Gill Political economy as a tool for understanding and evaluating the political world. Combines theory, methods, and insights derived from economics and political science and applies them to a range of substantive issues.

POL S 273 The Concept of Political Power (5) I&S

How to understand and explain relationships of power. Readings from Marxism, Weberian sociology, anarchism, classical political philosophy, and contemporary political science. May also include works of fiction.

POL S 281 Literature and American Political Culture

(5) VLPA/I&S Introduction to the methods and theories used in the analysis of American culture. Emphasizes an interdisciplinary approach to American literature, including history, politics, anthropology, and mass media. Offered: jointly with ENGL 251.

POL S 285 Political Science as a Social Science (5)

I&S, QSR Methodological perspectives of social science disciplines: commonalities and differences in assumptions, values, and paradigms. Current issues from the multiple perspective of social sciences; limits of the social sciences in resolving key social issues.

POL S 295 Study Abroad: Political Science (1-10, max. 15) I&S Political science courses taken through a UW approved study abroad program. Specific content varies and must be individually evaluated.

POL S 299 Special Topics in Political Science (2-5,

max. 10) I&S Examines a different subject or problem of current interest within the discipline.

POL S 301 Topics in Political Theory (5, max. 10) I&S

Study of topics in political theory.

POL S 302 Free Will, Nature, and Nurture in Politics and Society (5) I&S M. SMITH

Examines beliefs and actions in politics and other domains from the standpoint of free will, nature, and nurture. Compares political science to other disciplines in explaining why people think and act as they do.

POL S 303 Public Policy Formation in the United States (5) I&S

Policy decision making with emphasis

on: how issues arise, the way they become part of the policy agenda of the executive and the legislature, how these institutions organize to handle policy issues, and the roles of the legislature, the executive, and the bureaucracy. Public policy literature and familiarization with key aspects of policy decision making at the national, state, and local levels.

POL S 304 The Press and Politics in the United States (5) I&S

Journalists' role in elections and public policy. Relationship between news coverage and political campaigns. Study and analysis of local political newswriting, reporting, and response by local and state political figures. Extensive off-campus experience included. Offered: jointly with COM 304.

POL S 305 The Politics of Mass Communication in America (5) I&S

Role of mass audiences in politics from the standpoint of the communication strategies used to shape their political involvement. Topics include: social structure and political participation, political propaganda and persuasion, the political uses of public opinion, and the mass media and politics. Offered: jointly with COM 305.

POL S 306 Media, Society, and Political Identity (5)

I&S Explores how society and culture are both represented in and shaped by communication technologies and media content. Media include film, advertising, news, entertainment television, talk shows, and the Internet. Explores how media represent and affect individual identity, values, and political engagement. Offered: jointly with COM 306.

POL S 307 Religion and World Politics (5) I&S A. GILL

Explores the intersection of religion and politics in various regions of the world, including the United States, Europe, Middle East, Latin America, and other regions. Presents an historical perspective on religion alongside contemporary issues in religion, politics, and church-state relations. Offered: jointly with RELIG 307.

POL S 308 The Western Tradition of Political Thought, Ancient and Medieval (5) I&S

Origin and evolution of major political concepts from ancient Greece to the medieval period.

POL S 309 The Western Tradition of Political Thought, Pre-Modern (5) I&S

Continuation of POL S

308, treating materials from the fifteenth through eighteenth centuries.

POL S 310 The Western Tradition of Political Thought, Modern (5) I&S Continuation of POL S 308 and POL S 309, focusing on material from the eighteenth through twentieth centuries.

POL S 311 Individual and the State (5) I&S Individualism and communitarian critics. Political and ethical implications of both. Nature of the state, liberty, responsibility, cooperation. Important individualist and collectivist literature, dealing with market institutions and citizen politics, critically assessed.

POL S 312 Survey of American Political Thought (5) I&S Survey of American political thought from colonial times to the 1980s. Topics include the idea of the self-made man; the intellectual contexts of the Declaration of Independence and the Constitution; slavery, abolition, and the Civil War; progressivism; Cold War liberalism; the Civil Rights Movement and its critics; and modern conservatism. Prerequisite: cannot be taken for credit if POL S 318 or POL S 319 already taken.

POL S 313 Women in Politics (5) I&S, DIV Theoretical, historical, and empirical studies of women's participation in political and social movements. Women's diverse efforts to improve their political, social, and economic status. Policy issues of particular concern to women. Women's political experiences in household, local, regional, national, and international arenas. Offered: jointly with GWSS 313.

POL S 315 Black Identities and Political Power (5) I&S Relates the deployment of political power within institutions to shifting racial identities. Shows how racial identities both reflect and inflect relations of domination and resistance within and between cultures in the black diaspora. Prerequisite: either AES 150, AFRAM 150, AFRAM 201, or POL S 201. Instructors: Rivers Offered: jointly with AFRAM 315.

POL S 316 African-American Political and Social Thought (5) I&S, DIV C. PARKER Race relations in U.S. politics as defined by the struggle of African Americans for economic, political, and social equality. Studies of African-American political and social thought; expands and clarifies our

understanding of the strengths and weaknesses of American democratic ideals.

POL S 317 The Politics of Race and Ethnicity in the United States (5) I&S, DIV M. FRANCIS Introduction to the history and development of racial hierarchy, focusing on how race and ethnicity shape political institutions (e.g., the Constitution, political parties, voting systems). Examination of political relationships between Whites, African Americans, Latinos, and Asian Americans. Case studies of minority representation and the politics of welfare, crime, immigration, and terrorism. Offered: jointly with LSJ 331.

POL S 318 American Political Thought from the Colonial Era to the Civil War (5) I&S, DIV J. Turner *lil* Major thinkers in American political thought from Franklin to Madison to Douglass to Jacobs to Lincoln. Emphasis on tensions between freedom, slavery, equality, violence, and "the power of the people." Prerequisite: cannot be taken for credit if POL S 312 already taken.

POL S 319 American Political Thought from Reconstruction to the Present (5) I&S, DIV J. Turner *lii* Major thinkers in American political thought from Lincoln to Whitman to Du Bois to Martin Luther King, Jr. to Malcolm X to Audre Lorde to Ronald Reagan. Emphasis on the legacies of slavery in American life and the tension between citizen and corporate power. Prerequisite: cannot be taken for credit if POL S 312 already taken.

POL S 320 State-Society Relations in Third World Countries (5) I&S, DIV Bachman, Callahan Relationships among political, social, and economic changes in Asia, Africa, and Latin America. Problems of economic and political development, revolution and reform, state-society relations, imperialism and dependency. Offered: jointly with JSIS B 310.

POL S 321 American Foreign Policy (5) I&S Constitutional framework; major factors in formulation and execution of policy; policies as modified by recent developments; the principal policymakers - president, Congress, political parties, pressure groups, and public opinion.

POL S 322 International Political Economy of Latin America (5) I&S V. MENALDO Exploration of politics underlying Latin America's economic development.

Topics covered include import-substituting industrialization, mercantilism, the debt crisis, neoliberalism, market integration, and poverty. Review of major theoretical perspectives such as modernization theory, dependency, and the new political economy. Offered: jointly with JSIS A 322.

POL S 324 Europe in World Politics (5) I&S

Independent and coordinated efforts of Britain, France, and West Germany to adapt to the post-World War II global system. Creation and development of the Atlantic Alliance. Relations with postcommunist states. Decolonization and the evolution of relations with the Third World. The movement for European integration.

POL S 325 The Arab-Israeli Conflict (5) I&S The politics of conflicting ideologies: Zionism and Arab nationalism; formation of the state of Israel; development of Palestinian nationalism; Arab-Israeli wars. Re-emergence of Palestinian activism; domestic sources of foreign policy.

POL S 326 Scandinavia in World Affairs (5) I&S C.

INGEBRITSEN Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Includes a survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressures of interdependence. Offered: jointly with SCAND 326.

POL S 327 Women's Rights as Human Rights (5) I&S,

DIV Rachel A Cichowski Women's rights in comparative perspective, focusing on varying settings that alter the meaning and practical application. Domestic level: areas including abortion politics to trafficking in women. International level: areas including equality claims before European supranational judicial bodies, rape as war crime in international law. Offered: jointly with LSJ 327.

POL S 328 International Organizations (5) I&S

Explores historical, theoretical, and empirical aspects of the United Nations, its specialized agencies, and other international organizations, both governmental and nongovernmental.

POL S 329 Global Communication (5) I&S

Introduction to the history, purpose, channels, content, technologies, policy, and regulation of

international communications systems. Issues covered include disparities in media development between post-industrial and developing nations, imbalances in international news and information flow, and the emergence of global communications. Offered: jointly with COM 322.

POL S 330 Communications in International

Relations (5) I&S Looks at communications in relations between international groups and states. Examines the range of functions and roles communication media play in international affairs, global issues, and intergroup relations. Also examines the strategic use of communications by various groups. Offered: jointly with COM 321.

POL S 331 Government and Politics in the Middle

East and North Africa (5) I&S Breakdown of traditional society and the problems of building modern political systems.

POL S 332 Topics in Comparative Politics (5, max. 10)

POL S 333 Topics in International Relations (5, max. 10)

POL S 334 Topics in American Politics (5, max. 10)

POL S 335 Topics in Political Economy (5, max. 10)

POL S 336 Political Violence (5) I&S Examines the causes and consequences of the use of violence in the context of armed conflict and contentious politics, with a focus on the targeting of civilians. Investigates the dynamics influencing both state and non-state armed actors in their resort to various forms of violence across a range of conflicts. Offered: jointly with JSIS B 336.

POL S 337 Collective Violence and the State (5) I&S,

DIV Comparative study of how and why genocides have occurred in modern times. Examines how ethnic, religious, and nationalist conflicts have sometimes led to violent conflict, and how political leaders and governments have mitigated or exacerbated them, sometimes engaging in state sponsored mass killing. Offered: jointly with JSIS B 337.

POL S 338 Topics in Public Policy (5, max. 10)

POL S 340 Politics of India, Pakistan, and South Asia

(5) I&S Course promotes a deeper understanding of politics in South Asia. Topics include political regimes, civil conflict, religion and politics, and economic development. Students also sharpen skills in reading social science articles, including picking out arguments, evidence, and logics of presentation. Offered: jointly with JSIS A 340.

POL S 341 Government and Politics of Canada (5)

I&S Critical analysis of parliamentary institutions, political parties, and the federal system in Canada. Offered: jointly with JSIS A 321.

POL S 342 Government and Politics of Latin America

(5) I&S Analysis of the political dynamics of change in Latin America comparing various national approaches to the political problems of modernization, economic development, and social change. Offered: jointly with JSIS A 342.

POL S 343 Politics and Change in Southeast Asia (5)

I&S Government and politics in the countries of Southeast Asia, with attention given to the nature of the social and economic environments that condition them. Offered: jointly with JSIS A 343.

POL S 346 Governments of Western Europe (5) I&S

Modern government and politics of Great Britain, France, Germany, and Italy.

POL S 347 Politics of International Law (5) I&S

G. Wallace Examines the development, design, and consequences of international law. Focuses on how international legal agreements constrain and enable both state and non-state actors across a range of issues, including economic affairs, the environment, human rights, and war. Offered: jointly with LSJ 347.

POL S 348 European Union as Global Actor (5) I&S

Surveys the European Union's evolution as a global actor and emergence as a potential superpower with increasingly unified foreign and defense policies. Covers institutions and interests that have driven this process; specific examples of European Union global engagement; and the potential implications for U.S. foreign policy. Offered: jointly with JSIS A 348.

POL S 349 Strategy and War (5) I&S

Jonathan L Mercer Deterrence theory; decision-making and rationality; strategy and psychology; material and

ideational structures; insurgencies and counter-insurgencies; ethics; nuclear strategy; terrorism; economic sanctions; chemical, biological, and cyber weapons; non-lethal weapons. Recommended: POL S 203.

POL S 350 Government and Interest Groups in the

United States (5) I&S Agrarian, labor, professional, business, and ethnic interest in politics; impact on representative institutions and governmental processes.

POL S 351 The American Democracy (5) I&S

Democratic theory; constitutional theory; the presidency; Congress; the Supreme Court; civil rights and civil liberties.

POL S 352 American Political Parties (5) I&S

Theories of American parties, campaigns, and voting behavior; party leadership; political socialization and participation.

POL S 353 United States Congress (5) I&S

J. Wilkerson Organization and procedure of Congress, state legislative politics, lobbying, legislative roles, theory and practice of representative government.

POL S 354 Elections and Voting in the United States

(5) I&S Electoral institutions and processes of the United States: the idea and practice of elections, the electoral system, individual voting behavior, collective voting behavior, and the impact of elections on policy.

POL S 355 The American Presidency (5) I&S

R. Thorpe The American presidency; its evolution, its occupants, and its place within the American system. Topics include presidential character, war, elections, impeachment, the economy, and the Constitution.

POL S 356 Society and Politics (5) I&S

Causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with SOC 356.

POL S 357 Minority Representation and the Voting

Rights Act (5) I&S, DIV Explores whether and how African-Americans and Latinos are able to organize effectively and press their demands on the political

system. Focuses on minority political behavior, the effect of these groups at the polls, the responsiveness of elected officials, and legal or constitutional obstacles affecting these phenomena.

POL S 358 American Political Culture (5) Examines the origins and content of Americans' political values and beliefs. Topics include American exceptionalism, the culture war, freedom, civic engagement, the American dream, individualism, and political ideology.

POL S 359 U.S. Latino Politics (5) I&S, DIV *Sophia J Wallace* Examines historical and current political incorporation of Latinos in the United States. Topics include Latino voting and voter mobilization, office seeking and representation, Latino public opinion, and public policy formation on "Latino issues." Offered: jointly with CHSTU 359.

POL S 360 Introduction to United States Constitutional Law (5) I&S *George I Lovell* Growth and development of the United States Constitution as reflected in decisions of the Supreme Court; political, social, and economic effects. Offered: jointly with LSJ 360.

POL S 361 United States Courts and Civil Liberty (5) I&S *G. Lovell* Cases and literature bearing on protection of constitutionally guaranteed private rights, with particular reference to the period since 1937. Offered: jointly with LSJ 361.

POL S 363 Law in Society (5) I&S Inquiry into how law matters in social practice. Examines general theories of law, the workings of legal institutions, and the character of legally constituted practices and relationships in diverse terrains of social life. Offered: jointly with LSJ 363.

POL S 365 Lawyers in American Politics (5) I&S Influence of lawyers on American politics. Official and unofficial political roles, lawyers as lobbyists, as legislators, in the bureaucracy, politics of the American Bar Association. Includes study of legal education, professional values, and avenues of political access.

POL S 367 Comparative Law and Courts (5) I&S *R. Cichowski* Introduction to comparative judicial politics, focusing on the relationship between law and politics in cross-national perspective, as well as

on the functioning of supranational and international legal entities in the international system. May not be taken for credit if student has taken LSJ/JSIS B 366. Offered: jointly with LSJ 367.

POL S 368 The Politics and Law of International Human Rights (5) I&S, DIV J. *Mayerfeld* Studies the international human rights movement in its legal and political context. Focuses on institutions which influence, enable, and constrain the international promotion of human rights. Offered: jointly with LSJ 320.

POL S 370 Privacy (5) I&S *S. Pekkanen* Explores how individuals, corporations, and governments respond to privacy challenges in the digital age. Examines evolution of the idea of privacy using case studies of actual privacy policies, legal cases, and real-world situations. Covers legal, political, and social facets of this fundamental human issue. Offered: jointly with JSIS B 370/LSJ 370; Sp.

POL S 371 Global Crime and Corruption (5) I&S *J. Long Iv* We examine sources & outcomes of illicit behavior within firms, governments, and organizations at local, national, & international levels; investigating the psychological, cultural, political, and economic sources of crime/corruption; and explore these dynamics within businesses, bureaucracies, gangs, mafias, cults, and pirates. Case studies include India, US-Mexico drug trade, piracy, doomsday cults, Sicilian mafias, Nazi drug abuse, & Dark Web. Recommended: POL S 203, POL S 204, or POL S 270; or JSIS 123, JSIS 200, JSIS 201, or JSIS 222; or equivalent. Offered: jointly with JSIS B 371.

POL S 381 Urban Politics and Policy in the United States (5) I&S *Fraga* Introduces actors, institutions, processes, and policies of substate governments in the United States. Provides and intensive comparative examination of historical and contemporary politics and policy-making. Promotes understanding of city government and its role within the larger context of state and national governments.

POL S 382 State Government (5) I&S *J. Wilkerson* Focus on the structures, processes, and policy outputs of state governments in the United States.

POL S 383 Environmental Politics and Policy in the United States (5) I&S Interrelation between

technological and environmental change and policy formation. Consideration of political behavior related to these phenomena and the capacity of urban public organizations to predict change and to formulate policies that can take future states into account.

POL S 384 Global Environmental Politics (5) I&S K. LITFIN Examines the globalization of environmental problems, including climate change, ozone depletion, and loss of biodiversity, as well as the globalization of political responses to these problems within the framework of globalization as set of interlinked economic, technological, cultural, and political processes. Offered: jointly with ENVIR 384.

POL S 385 Political Ecology of the World Food System (5) I&S/NW Karen T Litfin Investigates the intersection of globalization and food politics, the pivotal role of petroleum in the world food system, and the commodity chains for some foods. Includes an optional service learning component. Offered: jointly with ENVIR 385.

POL S 395 Study Abroad: Political Science (1-10, max. 15) I&S Political science courses taken through a UW approved study abroad program. Specific content varies and must be individually evaluated.

POL S 401 Advanced Seminar in Political Theory (5, max. 10) I&S Topics can include, but are not limited to, analytical theory pertaining to justice, exploitation, and freedom; revolution and social changes; collective choice and action; sexuality and politics; critical theory; Marxist theory; post-structuralism. Content varies.

POL S 402 Advanced Seminar in Human Rights (5, max. 10) I&S J. MAYERFELD Examines selected human rights topics including questions relating to the meaning, justification, promotion, implementation, suppression, or denial of human rights.

POL S 403 Advanced Seminar in International Relations (5, max. 10) I&S Examination of contemporary developments in the field of international relations. Content varies according to the nature of developments and research interests of the instructor.

POL S 404 Topics in Public Policy (3-5, max. 6) I&S Examines selected issues of importance in all areas of public policy. Focus on in-depth analysis of vital public policy issues and the integration of economic, political, and administrative perspectives on them. Offered: jointly with PUBPOL 499.

POL S 405 Advanced Seminar in American Politics (5, max. 10) I&S Intensive reading and research in selected problems or fields of political analysis.

POL S 406 Marxian Political Economy (5) I&S Explores the relationship between social classes, the state, and political power in advanced capitalist societies. Investigates this relationship primarily by means of the tools of Marxian political economy and, in the process, evaluates these tools. Emphasis on theoretical perspectives, although the reading list has a few empirical applications as well.

POL S 407 International Conflict (5) I&S E. KIER, J. MERCER Examines different theoretical explanations for the causes of war, including the role of international, state, organizational, and individual factors; additional topics vary with instructor. May include the development of warfare, deterring weapons of mass destruction, terrorism, intelligence, and the ethics of warfare.

POL S 409 Undergraduate Seminar in Political Economy (5, max. 10) I&S Seminar in political economy with focus on Marxian and public choice approaches to political economy. Explores the questions raised by each approach, the assumption(s) and testability of hypotheses, and applies these approaches to a number of problems in political economy. Offered: jointly with ECON 409.

POL S 410 Technology, Politics, and the State (5) I&S Relationships between politics and technological change. Considers whether the relations between political and economic systems of industrial societies have been fundamentally altered by the increased importance and interdependence of government, experts, and new technological possibilities for intervention in social life.

POL S 411 Theories of the State (5) I&S Topics may include origins and development of the state; arguments about the necessity, desirability, and proper role of the state; the nature and operation of

modern states and the international state system; the legitimacy of modern state power.

POL S 412 Democratic Theory (5) I&S Explores the concept of democracy and theoretical models purporting to describe its central features: majority rule, participation, and deliberation. Themes also include: representative vs. direct democracy; the rights of minorities; the relationship between democracy and other political theories such as liberalism, socialism, and conservatism.

POL S 413 Contemporary Political Theory (5, max. 10) I&S Analysis of political theorists, exploring contemporary theories of humanity and society that form the basis for differing political ideas.

POL S 414 Politics and Culture (5) I&S How people interpret and shape the political world around them through the use of such cultural resources as language, symbolism, myth, and ritual. The various uses of these cultural elements establish the place of the individual in society, influence the perception of political events, and create opportunities for individual and mass political responses.

POL S 415 Women's Rights in an Integrated Europe (5) I&S Examines the transformation in women's rights policy within the European community from the late 1950s through the present. Focuses on the legal rules and bodies that govern not only these policy domains, but also their evolution and impacts. Offered: jointly with LSJ 428.

POL S 416 Economic Theory as Applied to the Political System (5) I&S Explanation and evaluation of the political system, using elementary economics theory. Topics include alternative voting rules, the political effectiveness of various types of groups, causes and consequences of logrolling, and bureaucratic organizations. Prerequisite: ECON 300. Offered: jointly with ECON 452.

POL S 417 Political Economy of India (5) I&S Analysis of relationships among processes of economic change, political institutions, and structures of political power in contemporary India. Includes contrasting approaches to Indian economic development, land reform, radical and agrarian political movements, and role of foreign aid. Offered: jointly with JSIS A 417.

POL S 418 Japanese Trade Politics (5) I&S R. *Pekkanen* Survey of Japan's foreign trade diplomacy. Examines evolution of Japan's trade patterns in exports and foreign direct investment with key partners. Covers institutional and legal frameworks of Japan's trade relations, such as bilateral fora, regional options including free trade agreements, and multilateral venues such as the WTO. Offered: jointly with JSIS A 487.

POL S 419 United States-China Relations (5) I&S *Bachman* Surveys the history of United States-China relations and examines the evolution of bilateral relations, particularly since 1949. Focus on the period since 1972 and the major issues as they have evolved since that time, including trade, human rights, security, and Taiwan. Offered: jointly with JSIS A 459.

POL S 420 Soviet and Russian Foreign Policy (5) I&S Ideological, historical, and strategic components of Soviet foreign policy; Gorbachev's "new thinking" and the collapse of the USSR; redefining post-Soviet "Russia"; Russian military and security policy; Russia and the West; Russian relations with the newly independent states.

POL S 421 Relations Among Communist and Post-Communist States (5) I&S Major disputes and types of relationships among different communist states; international effects of the communist collapse; comparative dynamics of state-building, market reform, and democratic transition; international integration and domestic politics in the former Soviet bloc; ethnic conflict and the problem of state boundaries; redefining security in the post-communist milieu.

POL S 422 International Environmental Politics Seminar (5) I&S Study of the practical and theoretical challenges associated with global ecological interdependence. Examination of international treaties and institutions, state, and nonstate actors with an emphasis on the emerging concept of sustainability.

POL S 423 National Security of Japan (5) I&S Changing landscape of Japan's national security concerns: actors, institutions, and circumstances that have brought issues of defense and rivalry to the center stage of Japanese politics. Topics include nationalism, militarization, pacifism, United States-

Japan security alliance, Sino-Japanese competition, constitutional revision, collective defense, and spy satellites. Offered: jointly with JSIS A 415.

POL S 424 International Relations of Japan (5) I&S. *Pekkanen* Comprehensive examination of Japan's international relations. Covers issues such as trade, security, environment, aid, and human rights. Investigates Japan's participation in international organizations, including the UN, World Bank, IMF, and WTO. Examines Japan's relations with the United States, the European Union, Asia, Latin America, Africa, and other regions. Offered: jointly with JSIS A 437.

POL S 425 Political Psychology and War (5) I&S. *J. MERCER* Explores how political scientists use psychology to address questions of war and peace.

POL S 426 World Politics (5) I&S The nation-state system and its alternatives, world distributions of preferences and power, structure of international authority, historical world societies and their politics. Offered: jointly with JSIS B 426.

POL S 427 International Political Economy (5) I&S Examines major theoretical problems, substantive issues, and schools of thought in international political economy (IPE), including issues of trade, production, and finance. Preparation for critical analysis of dilemmas entailed in establishing and maintaining an instrumentally effective and ethically acceptable IPE system.

POL S 428 Military Intervention (5) I&S Historical and theoretical analysis of military intervention in the post-World War II era. Considers how and why interventions occur and evaluates intervention as a foreign-policy response.

POL S 429 Political Parties in Japan and East Asia (5) I&S. *R. Pekkanen* Focus on political parties in Japan. Combines theoretical readings on political parties with intensive study of Japanese political parties. Offered: jointly with JSIS A 436.

POL S 430 Civil-Military Relations in Democracies (5) I&S. *E. Kier* Explores issues of civil-military relations in the United States including debates about the garrison state hypothesis; military advice on the use of force; the civil-military "gap"; and

issues of race, gender, and sexual orientation in the military. Offered: jointly with LSJ 431.

POL S 431 International Relations in the Middle East (5) I&S Study of domestic sources of foreign policy in the Middle East; politics of oil; the East-West rivalry in the arena; and conflict and collaboration among the local powers.

POL S 432 Political Islam and Islamic Fundamentalism (5) I&S. *Robinson* Study of resurgence, since mid-1970s, of political Islam and what has come to be called Islamic fundamentalism, especially in the Middle East. Topics include the nature and variety of political Islam today, causes and implications of the current resurgence, and comparison with previous resurgences. Offered: jointly with JSIS B 406.

POL S 433 International Relations in Southeast Asia (5) I&S Analysis of the problems affecting relations among the countries of Southeast Asia.

POL S 434 International Relations of South Asia (5) I&S Interrelationships of domestic, interstate, and extraregional forces and their effects upon the resolution or expansion of interstate conflicts in South Asia. Offered: jointly with JSIS A 434.

POL S 435 Japanese Government and Politics (5) I&S Government and politics of Japan with emphasis on the period since 1945. Offered: jointly with JSIS A 435.

POL S 436 Ethnic Politics and Nationalism in Multi-Ethnic Societies (5) I&S Provides a broad theoretical base, both descriptive and analytical, for the comparative study of ethnicity and nationalism. Examples drawn from ethnic movements in different societies. Some previous exposure either to introductory courses in political science or to courses in ethnicity in other departments is desirable. Offered: jointly with JSIS B 436.

POL S 437 Politics in Scandinavia (5) I&S. *C. INGEBRITSEN* Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of polities, problems of mature welfare states, process of leadership and representation in

multipart systems, decline of political parties.
Offered: jointly with SCAND 437.

POL S 438 Politics in France (5) I&S Study of contemporary France. Structures of government in the Fifth Republic; nature of French voting behavior and evolution of the bipolarized political party system; behavior of political interest groups; training of France's administrative elite and functioning of the state bureaucracy; dynamics of policy-making.

POL S 439 Politics of Divided Korea (5) I&S Governments, politics, and economy of South and North Korea, the inter-Korea relations, and the two Koreas' relationship with the major powers - especially the United States - with emphasis on the post-cold war period. Offered: jointly with JSIS A 439.

POL S 440 European Fascism (5) I&S Analysis of fascism as revolutionary movement and type of political system in post-World War I Europe: Hitler's Third Reich, Mussolini's Italy, and Vichy France. Consideration of dynamics of resistance, policies that produced Holocaust, and questions raised at trials of fascist leaders in Nuremberg and elsewhere.

POL S 441 Government and Politics of Russia (5) I&S Ideological and historical bases of Soviet politics; Leninism; Stalinism; Gorbachev's perestroika and the collapse of the USSR; the role of Yeltsin; problems of Russian state-building, market reform, and democratic transition; political parties and civil society; the relationship between the center and the regions; the problem of Russian national identity.

POL S 442 Government and Politics of China (5) I&S *S. WHITING* Post-1949 government and politics, with emphasis on problems of political change in modern China. Offered: jointly with JSIS A 408.

POL S 443 Comparative Political Societies (5) I&S Analyses of modern and premodern types of stable political society; special attention to contemporary representative democracy.

POL S 444 Revolutionary Regimes (5) I&S Analysis of the several types of political regimes concerned with effecting fundamental social change; emphasis on the twentieth century.

POL S 445 Politics and Society in Eastern Europe (5) I&S Political and social issues in lands east of the Elbe, treating some historical problems but focusing particularly on developments since 1945. Includes all communist states of Eastern Europe and their successors. Offered: jointly with JSIS A 490.

POL S 447 Advanced Seminar in Comparative Politics (5, max. 10) I&S Selected comparative political problems, political institutions, processes, and issues in comparative perspective. Strongly

POL S 448 Politics of the European Union (5) I&S Examines the origins, structures, and political dynamics of the European Union. Attention given to theories of integration, to relations between the European Union and member states, and to the role of the European Union in world politics.

POL S 449 Politics of Developing Areas (5) I&S Comparative study of problems of national integration and political development in the new states of Asia and Africa.

POL S 450 Political Parties in Democratic Systems (5) I&S Examines political parties in three different and interrelated aspects: party organizations; party in the electorate; and the party in government. How parties aggregate and represent interests. Parties at different points in time and in different states around the world. Offered: jointly with JSIS B 451; W.

POL S 451 Communication Technology and Politics (5) I&S Employs some core concepts of political communication and theories of democracy to examine the emerging role of information and communication technologies in candidate and issue campaigning; online voting; protest and advocacy movements; law-making and electronic governance in the United States and internationally. Offered: jointly with COM 407.

POL S 452 Mass Media and Public Opinion (5) I&S Examines the foundations of the idea of public opinion in a democratic environment and the role of mass communication in the organization, implementation, and control of that opinion. Considers these relationships from the perspectives of societal elites, media, and citizens. Offered: jointly with COM 414.

POL S 453 The State Legislature (5) I&S Study of American state legislatures, with special reference to Washington State legislature. Student must spend several Fridays in Olympia when the legislature is in session. Those desiring a more extensive involvement with the legislature should enroll in the political internship.

POL S 454 Political Communication Seminar (5, max. 10) I&S Contemporary topics studying how communication affects citizen engagement with public life. Offered: jointly with COM 411.

POL S 456 Institutional Failure (5) I&S R. THORPE Examines why political institutions fail to achieve their goals or operate in a manner they were originally intended to, and the consequences of these failures. Topics include the national security establishment, the drug war, concentrated poverty, mass incarceration, and inner-city schools. Offered: jointly with LSJ 456.

POL S 457 Topics in Labor Research (5, max. 10) I&S Analysis of the post-World War II decline of national labor movements and strategies employed to reverse this trend. Requires a major research project on organizing, bargaining, or another question in labor studies. Prerequisite: either POL S 249, HIST 249, or SOC 266. Offered: jointly with HSTCMP 457.

POL S 460 Political Economy of the European Union (5) I&S J. CAPORASO Historical foundation of the European Economic Community; major phases of its development; theoretical explanations for European integration.

POL S 461 Mass Media Law (5) I&S Survey of laws and regulations that affect the print and broadcast media. Includes material on First Amendment, libel, invasion of privacy, freedom of information, copyright, obscenity, advertising and broadcast regulation, and matters relating to press coverage of the judicial system. Offered: jointly with COM 440.

POL S 462 The Supreme Court in American Politics (5) I&S Explores the US Supreme Court as a political institution. Topics include processes that bring issues before the court, influences on judicial decision making, the impact of the court on democratic processes, the role of the court in constitutional development, and the court's interactions with other branches.

POL S 464 The Politics of American Criminal Justice (5) I&S Political forces and value choices associated with the enforcement of criminal law. Distribution of resources among participants in the criminal justice system (e.g., police, attorneys, defendants, and judges). Understanding and evaluation of the interaction of criminal justice processes with the political system.

POL S 465 Law and Public Policy in the United States (5) I&S Relationship between law and public policy, with particular attention to problems of social, economic, and political change. Considers legal and constitutional processes as they relate to such problems of public policy as race relations, the environment, and the economy.

POL S 467 Comparative Law in Society (5) I&S Legal systems around the world as they actually work in their respective political, social, and economic contexts. Emergence and development of European legal systems, legal customs at variance with those of Europe, problems of legal processes in the modern state.

POL S 468 Comparative Media Systems (5) I&S Provides students an understanding of policies that shape national communication processes and systems. Uses comparative analysis to identify both similarities and differences among media structures of nations at different levels of development. Primary emphasis on broadcast media. Offered: jointly with COM 420/JSIS B 419.

POL S 469 Law and Rights in Authoritarian Regimes (5) I&S S. WHITING Explores role of law and courts and nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law" promotion. Offered: jointly with JSIS B 469/LSJ 469.

POL S 470 Public Bureaucracies in the American Political Order (5) I&S Growth, power, and roles of governmental bureaucracies in America: conflict and conformity with American political thought, other political institutions, and the public.

POL S 471 Politics of Risk (5) I&S May Examines risks that occur infrequently but have catastrophic impacts, including health and environmental harms,

terrorism, and natural disasters. Considers social science theorizing about risks, how risks enter the policy agenda, and political and policy responses to different risks within the United States.

POL S 472 Electoral Systems (5) I&S *R. Pekkanen*

Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with JSIS B 472.

POL S 473 Decision-Making in Politics (5) I&S

Process of decision-making in politics at elite and mass levels, comparison of approaches based on the comprehensive rationality of decision makers with approaches based on limitations on the cognitive capacities of decision makers. Applications to real decision-making situations.

POL S 474 Government and the Economy (5) I&S

Interaction between politics and the economy. Impact of policy makers on economic performance. Models of partisan and political business cycles. Concepts of economic voting. Marxist theories of modern capitalist economics.

POL S 475 Public Choice (5) I&S *A. GILL*

Problems and prospects for collective action in a political democracy. Designing rules and institutions for effective central authority and effective constraints on governmental power. Social choice theory and game theory.

POL S 476 Strategy in Politics (5) I&S Explores the problem of finding fair methods for making social decisions, and examines alternative methods of social choice. Emphasis on the importance of agenda control for outcomes, and the implications of theories of social choice for common interpretations of concepts such as democracy and the general will.

POL S 477 African Political Development (5) I&S

Topics in contemporary African politics related to development of the African state in comparative perspective, including state formation; nationalism and the struggle for independence; civil wars, genocide, and under-development; democratic transition, elections, and voting; economic growth; film and literature; gender and ethnicity; and corruption and terrorism. Prerequisite: POL S 204.

POL S 479 Contemporary Central Asian Politics (5) I&S *Radnitz*

Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with JSIS A 479.

POL S 480 Comparative Politics and Korea Studies (5) I&S *Ha*

Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with JSIS A 466.

POL S 481 Big City Politics (5) I&S

Contemporary big city politics, focusing on Seattle and the largest 25 cities. Social, economic, and political trends that have shaped characteristics of large American cities. Distribution and use of economic and political power among parties and groups. Future of large cities and politics of change.

POL S 487 Political Science Honors Seminar (5) I&S

Intensive and advanced studies in various aspects of political science. Open only to participants in the Political Science Honors program. Offered: Sp.

POL S 488 Honors Thesis Design (5-) I&S

Instruction in Honors Thesis research design and methods. Required for Political Science Honors. Offered: A.

POL S 489 Honors Thesis Writing (-5)

Research and writing of thesis under supervision of a faculty member. Required for Political Science Honors. Prerequisite: minimum grade of 3.3 in POL S 488. Offered: W.

POL S 495 Study Abroad: Political Science (1-10, max. 20) I&S

Political science courses taken through a UW approved study abroad program for which there are no direct UW equivalents. Specific content varies and must be individually evaluated.

POL S 496 Undergraduate Internship (2-5, max. 15)

Students serving in approved internships. Credit/no-credit only.

POL S 497 Political Internship in State Government (5, max. 20) Students serving in approved internship program with state government agencies.

POL S 498 The Washington Center Internship (15) Full-time academic internship with the Washington Center in Washington, DC. Includes internship activities, academic seminar, assemblies, and related activities. Credit/no-credit only.

POL S 499 Undergraduate Readings and Research (1-5, max. 20) Intensive study with faculty supervision.

POL S 500 Political Research Design and Analysis (5) Major quantitative methods of empirical research in political science. Primary emphasis on research design, data collection, data analysis, and use of computers.

POL S 501 Advanced Political Research Design and Analysis (5) Testing theories with empirical evidence. Examines current topics in research methods and statistical analysis in political science. Content varies according to recent developments in the field and with interests of instructor. Offered: jointly with CS&SS 501.

POL S 502 Qualitative Research Methods (5) Introduction to qualitative methods in political science, emphasizing practical experience with techniques. Readings and exercises cover research design, multiple methods, varieties of qualitative data, measurement and validation, participant observation, interviewing, and content analysis. Research decision-making issues include analytical strategies, presentation of data, ethics, epistemology, and theory-building.

POL S 503 Advanced Quantitative Political Methodology (5) Theory and practice of likelihood inference. Includes probability modeling, maximum likelihood estimation, models for binary responses, count models, sample selection, and basis time series analysis. Offered: jointly with CS&SS 503.

POL S 504 Multi-Method Field Research (5) *J. Long Iv* Provides training in how to design and implement multi-method field research in American, comparative, and international politics, covering qualitative/ethnographic approaches; survey design, implementation, and analysis; and the design and

implementation of field experiments and randomized impact evaluation. Prerequisite: POL S 510/CS&SS 510

POL S 505 Comparative Politics Core (5) Modern theories, approaches, and methods in the study of comparative politics.

POL S 509 Political Theory Core (5, max. 10) Central themes in political theory and the works of major political theorists, past and present.

POL S 510 Maximum Likelihood Methods for the Social Sciences (5) *C. ADOLPH* Introduces maximum likelihood, a more general method for modeling social phenomena than linear regression. Topics include discrete, time series, and spatial data, model interpretation, and fitting. Prerequisite: POL S 501/CS&SS 501; POL S 503/CS&SS 503. Offered: jointly with CS&SS 510.

POL S 511 Seminar in Ethical and Political Theory (5) Ethical writings of major political philosophers. Coherent themes arising from these works and assessment of their impact on concepts of politics.

POL S 512 Time Series and Panel Data for the Social Sciences (5) *C. Adolph* Extends the linear model to account for temporal dynamics and cross-sectional variation. Focuses on model selection and real-world interpretation of model results. Topics include autoregressive processes, trends, seasonality, stationarity, lagged dependent variables, ARIMA models, fixed effects, random effects, cointegration and error correction models, panel heteroskedasticity, missing data in panel models, causal inference with panel data. Recommended: Graduate level coursework in linear regression and social science research design. Basic familiarity with or willingness to learn the R statistical language. Offered: jointly with CS&SS 512.

POL S 513 Issues in Feminist Theory (5, max. 10) Contemporary issues in feminist theory as they affect studies of women, politics, and society. Content varies according to recent developments in the field and the research interests of the instructor.

POL S 514 Selected Topics in Political Theory (5, max. 15) Selected topics, historical and conceptual, national, regional, and universal. Prerequisite: permission of instructor.

POL S 515 Political Theory Research Seminar (5)

Survey of paradigmatic research approaches in political theory through the exploration of a theme (canonical text, theoretical concept, and specific topic). Methods covered may include rational choice, psychoanalytic, Straussian, Marxian, and feminist approaches. Students carry out substantive theoretical research.

POL S 516 Special Topics in American Political Thought (5, max. 15) Special topics or themes in the development of American political culture.

POL S 517 Marxism and Critical Theory (5) Works of Marx and Engels as well as selected works of twentieth-century Marxist and critical theorists. Themes such as Marx's method, twentieth-century interpretations of Marx, and relationship of twentieth-century theorists to their eighteenth- and nineteenth-century forebears.

POL S 519 Modern Scandinavian Politics (5) Analyzes the political, economic, and historical development of Sweden, Norway, Denmark, Iceland, and Finland from World War II to the present. Readings focus on domestic and foreign policies that distinguish these countries from other advanced industrial societies. Offered: jointly with SCAND 519.

POL S 520 Seminar on Russian Foreign Policy (3) Selected topics in the development and objectives of the foreign policy of the Russian Federation.

POL S 521 International Relations Core (5) Key theories, concepts, and debates in the study of world politics and international relations. Provides an overview of the field and prepares students for the IR comprehensive exam.

POL S 522 International Political Economy (5) Theories of international political economy. Focuses on the emergence and development of the modern world system, the transition from feudalism to capitalism, and the institution of the nation-state system. Examines the political economy of trade, investment, and the international division of labor from a variety of theoretical perspectives. Prerequisite: POL S 521.

POL S 524 International Security (5) E. KIER Introduces some of the major debates concerning the use of force in international politics. Covers

traditional issues in international security such as alliances and the causes of war, as well as some of the new and important questions, such as explaining war outcomes and war termination.

POL S 525 International Law and Institutions (5) K. LITFIN Inputs of international law into the decisional process in foreign policy. Effect of policy on law. Relevant roles of individuals and institutions in routine and crisis situations.

POL S 526 The Security of China (5) Bachman Examines how the Chinese state conceptualizes its national security interests and how it pursues strategies designed to achieve those interests. Topics include use of force, military modernization, civil-military relations, and defense industrialization. Offered: jointly with JSIS A 526.

POL S 527 Special Topics in International Relations Research (5, max. 25) Examination of current topics in the theory and practice of world politics. Content varies according to recent developments in the field and research interests of the instructor.

POL S 530 Transatlantic Relations: The United States and Europe in World Politics (3) Fulfills required component of "American Module" of Transatlantic Studies program. Addresses political dynamics of relations between United States and Europe from American republic's founding to post-Cold War era. Limited to students in Transatlantic Studies program.

POL S 532 The Chinese Political System (5) S. WHITING Examination of key approaches, interpretations, and secondary literature in the study of contemporary Chinese politics. Offered: jointly with JSIS A 532.

POL S 533 Seminar on Contemporary Chinese Politics (5) Research on selected problems in contemporary Chinese politics. Prerequisite: POL S 532, or permission of instructor. Offered: jointly with JSIS D 533.

POL S 535 International Relations of Modern China (5) Foreign policy of the People's Republic of China: historical antecedents; domestic and international systemic determinants; and Chinese policies toward major states, regions, and issues. Prerequisite: a course on contemporary Chinese politics or history,

or permission of instructor. Offered: jointly with JSIS A 535.

POL S 537 Approaches to East European Politics (3-5) Selected concepts and methodologies useful for the analysis of politics and social structure in the socialist countries of east-central and southeastern Europe. Prerequisite: permission of instructor. Offered: jointly with JSIS A 563.

POL S 538 Government and Politics in the Middle East and North Africa (5) Political change in the area within the context of comparative politics; breakdown of traditional political systems; new range of choice expressed in competing ideologies; governmental and nongovernmental instrumentation of change; and problems of international relations and regional conflict and integration.

POL S 539 International Relations of Northeast Asia (5) Comprehensive survey of contemporary international relations of Northeast Asia with emphasis on Russia, Japan, China, and the United States. Multidisciplinary approach placing contemporary problems in historical context, drawing on modern social science theories. Connections between defense and economics are examined. Prerequisite: permission of instructor. Instructors: Hellmann Offered: jointly with JSIS A 551.

POL S 540 Problems in South Asian Politics (3) Research problems in contemporary Indian politics.

POL S 541 Institutions and Institutional Change in the Soviet Union, Russia, and the Newly Independent States (5) Critical appraisal of the principal theories and research methods dealing with the development of the Soviet state from 1917-1991 and the formation of the newly independent states after the Soviet collapse.

POL S 542 Seminar: State and Society (5) Migdal Examines the mutually conditioning relationship between states and the societies they seek to govern. Studies states as large, complex organizations and their interactions with society on different levels. Shows that interactions on any level affect the nature of the state on other levels as well. Offered: jointly with JSIS B 542.

POL S 543 Latin American Politics (5) Theories of authoritarianism, corporatism, democratization, and revolution in Latin America. Explores role of international and domestic economic factors shaping politics and the effect of politics on economic development. Examines elite behavior and grassroots social movements.

POL S 544 Problems in Comparative Government (5, max. 15) Selected problems in the comparative analysis of political institutions, organizations, and systems.

POL S 547 Politics of Reform (5) Examines cases of reform in democratic political systems, e.g., Roosevelt's New Deal, Allende's Chilean "revolution," Mitterand's socialist experiment in France, and the Thatcher government in Britain.

POL S 548 Comparative Political Parties (5) Role of political parties in the modern state. Similarities and differences in origins and development of political parties and functions they perform, both in established democracies and in developing countries.

POL S 549 Problems of Political Development (5) Concepts of development and modernization, with particular attention to their political dimensions and their application to various historical and contemporary cases.

POL S 550 American Politics Core (5) Systematic survey of the American government and politics literature; focuses on national politics.

POL S 551 Political Communication (5) Surveys classic works and new directions in political communication, including functionalist, structuralist, constructivist, network, and comparative approaches, reflecting a range of methods. Examines political organizing, electoral and legislative processes, civic (dis) engagement, media and politics, public deliberation and opinion formation, political identity and discourse. Offered: jointly with COM 551.

POL S 552 Special Topics in Political Communication (5, max. 10) Examination of current topics in the theory and practice of political communication.

POL S 553 Public Opinion (5) *C. PARKER* Selected problems in opinion formation, characteristics, and role of public opinion in policy-making process.

POL S 554 Legislative Politics (5) Selected problems in legislative processes and leadership, state and national.

POL S 555 American Politics Topics (5, max. 10) Examination of current topics in the theory and practice of American politics. Content varies according to recent developments in the field and research interests of the instructor.

POL S 556 American Political Development (5) Examination of leading works in, and theories of, American political development. Topics include the development approach itself; critical junctures in U.S. political history; key changes in institutions, the American state, the representation of interests and party politics; and the relevance of development studies to current politics.

POL S 557 United States Party System (5) Examines the institutional and behavioral foundations of party politics in the United States, emphasizing key historical patterns of party system development and the major scholarly approaches to the study of the American parties and party politics.

POL S 559 Special Topics in Political Methodology (5, max. 10) Examination of current topics on the theory and practice of political methodology. Course content varies according to recent developments in the field and the research interests of the instructor.

POL S 560 Industrialization and International Relations (5) *Ha* Examines internal-external linkage with a focus on industrialization and international relations. Comparative perspective on the question of how industrialization shapes distinctive international perspectives in terms of perception, strategies, and foreign policy behaviors. Countries covered: South Korea, Japan, Prussia, the Soviet Union, and China. Offered: jointly with JSIS A 552.

POL S 561 Law and Politics (5) *McCann, Lovell.* Points and levels at which law and politics intersect. What is distinctive about legal forms; how these legal forms influence, and are influenced by, politics. Conceptions of law, courts and public policy, law and

bureaucracy, civil and criminal justice, and the legal profession.

POL S 562 Law, Politics, and Social Control (5) Explores works of social scientists and lawyers regarding these competing conceptions of social control: as the seamy side of law - reinforcing equitable patterns of domination and disciplining deviants; as law embodying society's basic values, articulating minimum rules for harmonious social interaction.

POL S 563 Supreme Court in American Politics (5) Explores the tendency in the United States to turn to the Supreme Court to provide constitutional solutions for some of our biggest social, economic, and political problems. Focuses on the controversies concerning the legitimacy and capacity of the Supreme Court to intervene in American politics and public policy.

POL S 564 Law and the Politics of Social Change (5) Explores the many ways that law figures into the politics of social struggle and reform activity. Analyzes law in terms of particular state institutions (courts, agencies), professional elites (lawyers, judges), and especially cultural norms ("rights" discourses) that are routinely mobilized by reform-movement activists.

POL S 565 Special Topics in Public Law (5, max. 10) Examination of current topics on the theory and practice of public law. Content varies according to recent developments in the field and the research interests of the instructor.

POL S 566 Comparative Law and Politics (5) *R. CICHOWSKI* Study of the interaction between law and politics, at both the macro and micro levels of politics, and discussion of research drawing from a wide array of geographical settings. Examination in comparative context of whether macro-structures are autonomous from underlying social structures of power and interest in the micro-level.

POL S 569 Law and Rights in Authoritative Regimes (5) Explores role of law and courts and the nature of rights in authoritarian regimes. Questions addressed include why authoritarian regimes promote "rule-of-law", who is empowered by law, and the political consequences of "rule-of-law promotion. Offered: jointly with JSIS B 569.

POL S 570 The American Racial State (5) Explores the mutually constitutive relationship between race and American political institutions, beginning with theories of race and racial constructions, race-making and nation-making, racial triangulation, and intersectionality. Examines various institutions and public policies as manifestations of the American racial state, focusing on the epistemological challenges of identifying race, racism, and racialization.

POL S 571 American National Institutions (5) Answers the question, "Do institutions matter?" Surveys American national institutions from theoretical perspectives, focusing on how they affect the manner in which decisions are made. Employs cross-institutional perspective of American institutions.

POL S 572 Electoral Systems (5) *R. Pekkanen* Explores a fundamental link between citizens and political representation: how electoral systems shape party systems, what kinds of people become candidates, how parties work, representation, and policy. Covers effects and mechanics of the various voting systems. Offered: jointly with JSIS B 572.

POL S 573 Topics in Public Policy (5, max. 10) Specialized research topics with a policy process or related theoretical content.

POL S 574 Environmental Regulation Policy (5) Scholarly and practical aspects of environmental regulation. Examines literature concerning regulatory policy design, policy instruments, federalism, compliance, and enforcement. Studies selected federal, state, and other nations' environmental policies. Participants are expected to have a good understanding of American policy processes.

POL S 575 Public Policy Processes (5) Covers political science research about policy processes. Research seminar addressing frameworks and perspectives on policy processes as they concern issue emergence, agenda dynamics, policy subsystems, policy learning, and implementation.

POL S 577 The Politics of Social Movements (5) Theoretical inquiry directed to questions of collective action and political tactics by social movement groups. Case studies include labor, civil

rights, women's, environmental, and other movements in twentieth-century United States.

POL S 578 Health Politics and Policy (5) Introduces central themes of health-policy research: health is not healthcare and politics has much to do with why our healthcare system works as it does. Investigates how social science helps us understand health issues.

POL S 579 Contemporary Central Asian Politics (5) *Radnitz* Examines the politics of contemporary post-Soviet Central Asia. Analyzes issues relevant to the region in comparative perspective, including democratization, religion, terrorism, civil society, economic reform, ethnic identity, and international influences. Uses theory to shed light on current policy debates. Offered: jointly with JSIS A 579.

POL S 580 Comparative Politics and Korea Studies (5) *Ha* Approaches Korean politics, political economy, and society from a comparative perspective. Examples of major comparative questions based on Korean case include democratization, strong state dynamics, civil society, and impact of globalization. Offered: jointly with JSIS A 566.

POL S 582 Institutional Analysis (3/5) Social change and property rights theory. Exploration of long-term secular change through works whose approaches derive from neoclassical economics and analytical Marxism. Evolution and transformation of property rights over land, labor, and capital and the consequences of the property rights structure for political and economic institutions.

POL S 583 Economic Theories of Politics (5) Problems of public goods provision and collective action. Collective action theories and applications as well as critical review of the concept of rationality.

POL S 584 Comparative Political Economy (5) Overview of current developments in comparative political economy. Topics may include globalization, the welfare state, partisan models of economic policymaking, economic development, and trade.

POL S 586 Topics in International Political Economy (5, max. 10) Examination of current topics in the theory and practice of international political economy. Content varies according to recent

developments in the field and research interests of the instructor.

POL S 587 Politics of Urban Reform (5)

Interpretations of urban reformers at turn of this century and during 1960s and 1970s. Historical and political science literature on the subject.
Prerequisite: permission of instructor.

POL S 588 Special Topics in Comparative Political Economy (5, max. 10) Examination of current topics in the theory and practice of comparative political economy. Content varies according to recent developments in the field and research interests of the instructor.

POL S 589 Special Topics in Political Economy (3-5, max. 10) Evaluating research in political economy as well as developing research problems. Topics vary with instructor and with current problems in the literature.

POL S 590 Seminar in Political Behavior (5, max. 10) Analysis of behavioral research in selected fields of political science.

POL S 593 Theories of Decision Making (5) Explanation of political decisions using models of such theoretical processes as preference formation, learning, heuristics, noncooperative games, collective action, agenda manipulation, and coalition formation. Examination of competing notions of political rationality and irrationality and criteria for their evaluation. Strategies for design of decision research.

POL S 595 College Teaching of Political Science (1)

POL S 597 Directed Readings (1-10, max. 10) Intensive reading in the literatures of political science, directed by the chair of the doctoral Supervisory Committee. Credit/no-credit only.

POL S 598 Independent Writing I (1-5, max. 5) Supervised research and writing for graduate students completing the MA essay of distinction.

POL S 600 Independent Study or Research (*-)

POL S 800 Doctoral Dissertation (*-)

PSYCHOLOGY

APPLIED CHILD AND ADOLESCENT PSYCHOLOGY

PSYCAP 510 Conceptual Foundations of Developmental Psychopathology: Risk and Protective Factors (3) *L. Katz* Introduces developmental psychopathology focusing on risk factors and vulnerabilities. Uses a developmental psychopathology perspective and bioecological model to consider the child within the context of its environment. At the individual level, examines temperament/personality, emotion, and stress response. At the contextual level, examines various risk and protective factors. Offered: AWPpS.

PSYCAP 512 Social and Emotional Development (3) *L. Katz* Provides a comprehensive understanding of key aspects of social and emotional development during childhood and adolescence. Topics include temperament, attachment, emotional processes, the self, gender, identity and prosocial behavior. Reviews the influence of social contexts such as family and peers. Offered: AWPpS.

PSYCAP 514 Child and Adolescent Psychopathology: Assessment and Diagnosis (3) *L. Katz* Introduces various forms of child and adolescent psychopathology and addresses methods of assessment and diagnosis of psychopathology in children and adolescents. Focuses on major DSM-V diagnostic categories, including disorders of behavior and emotion, disorders of cognition, developmental disorders, and problems related to physical and mental health. Offered: AWPpS.

PSYCAP 516 Approaches to Child and Adolescent Treatment (3) *L. KATZ* Introduces various forms of treatment for child and adolescent psychopathology. Provides students comprehensive information and practical tools related to empirically supported treatment practices for children and adolescents experiencing a range of emotional and/or behavioral problems. Offered: AWPpS.

PSYCAP 518 Ethics and Law in Clinical Settings: Children, Adolescents and Families (1-3) *G. Sedlar* Ethical and legal dilemmas for mental health professionals in their everyday work with children, adolescents, and their families. Ethical issues

considered with respect to clinical caseloads. Case consultation provided. Offered: AWSpS.

PSYCAP 520 Critical Thinking about Research and Ethics (3) *L. Katz* Focuses on key concepts in experimental design and ethical conduct of research with children and ethics. Students learn how to evaluate research and how to design experimental and quasi-experimental studies. Offered: AWSpS.

PSYCAP 522 Evidence Based Practices: Extreme and Complex Cases (3) *Lynn Fainsilber Katz* In-depth review of the range of evidenced-based treatments (EBTs) appropriate for complex cases - e.g., older children and adolescents with behavioral and psychiatric disorders who are involved with multiple service systems (e.g., juvenile justice, chemical dependency, etc.) . Offered: AWSpS.

PSYCAP 524 Evidence Based Practices: CBT for Anxiety and Mood Disorders (3) *Lynn Fainsilber Katz* In-depth, hands-on introduction to evidence based, cognitive behavioral treatments for children and adolescents with anxiety-related disorders. Specific training provided in Trauma-Focused Cognitive Behavior Therapy. Includes didactics, skills demonstration and practice, and assessment. Offered: AWSpS.

PSYCAP 526 Evidence Based Practice: Parenting Interventions (3) *Lynn Fainsilber Katz* Provides a solid foundation for implementing a specific evidence-based parent training approach, "Helping the Noncompliant Child." Includes didactics (readings, lecture and in-class discussion) , skills demonstration and practice (modeling, role-playing, and out-of-class rehearsal) , and assessment (skills check-out, presentation, written assignments) . Offered: AWSpS.

PSYCAP 528 Multicultural Issues in Counseling Settings: Children, Adolescents and Families (1) This course will cover key principles, theories and applications of multiculturalism and will examine several aspects of various cultural experiences as they impact the client, therapist/counselor and the therapist/counselor-client relationship. Offered: AWSpS.

PSYCAP 530 Evidence-Based Practices in Counseling Settings: Trauma-Focused CBT (3) *Lynn Fainsilber Katz* In-depth, hands-on introduction to evidence-

based treatment for children and adolescents who have experienced trauma. Evidence-based approaches for treating trauma. Offered: AWSpS.

PSYCAP 532 Principles of Assessment and Behavior Change (3) Key conceptual principles of behavior change. Covers the "nuts and bolts" that underlie most evidence-based therapeutic interventions for children and adolescents, such as positive and negative reinforcement, response cost, and exposure. Offered: AWSpS.

PSYCAP 534 Counseling Skills with Individuals and Families (3) *G. Sedlar* Basic counseling skills. Conducting an intake and learning the verbal and nonverbal skills that develop rapport and contribute to the formation of a therapeutic alliance, including sensitivity to individual differences, attending skills, reflective listening skills, and basic motivational interviewing skills. Offered: AWSpS.

PSYCAP 536 Evidence-Based Practices in Counseling Settings: Cultural Humility and Treatments for Trauma Disorders (3) Assessing and treating trauma in a group-based setting. Training on Cognitive Behavioral Interventions for Trauma in Schools (CBITS) . Enhancing Cultural Humility of providers delivering Evidence-Based Programs (EBP) . Students adapt treatment to match client presentation, ethnicity, culture, socioeconomic status, and treatment setting. Offered: AWSpS.

PSYCAP 560 Practicum Course in Applied Child and Adolescent Psychology: Prevention and Treatment (1-7, max. 28) *Lynn Fainsilber Katz* Students integrate didactic and theoretical training with applied clinical experience in a real-world clinical setting. Provides students opportunities to discuss ethical, practical, and professional topics related to their practicum placements and clinical work in general. Offered: AWSpS.

CLINICAL PSYCHOLOGY

PSYCLN 501 Issues in Clinical Psychology (1, max. 3) Personal and professional issues in clinical psychology. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical psychology. Instructors: Smith Credit/no-credit only. Offered: AW.

PSYCLN 502 Child Clinical Psychology (4) Issues and content of child clinical psychology, promotion of student's beginning work in research. Prerequisite: graduate major or minor standing in child-clinical psychology.

PSYCLN 510 Research Methods in Clinical and Community Psychology (4) *Lengua* Addresses issues concerning the design and implementation of research in clinical and community psychology. Topics include validity; reliability; experimental, quasi-, and non-experimental designs; causal inference; interpretation of data; and research ethics. Provides students with tools to evaluate research, develop hypotheses, and design rigorous empirical studies. Offered: A.

PSYCLN 511 Single Subject Design and Research (3) Single subject designs (reversal, multiple baseline, changing criterion) and their application to clinical cases. Prerequisite: graduate major standing in clinical psychology, or permission of instructor. Instructors: Kohlenberg Offered: W.

PSYCLN 513 Research Strategies in Clinical Psychology (1-2, max. 50) Group discussions of problems and continuing strategies for ongoing and future research projects. Prerequisite: Graduate standing in Psychology, or by permission of instructor. Credit/no-credit only. Offered: AWSpS.

PSYCLN 520 Psychological Assessment (3) Provides a foundation in the theory underlying adult assessment as well as training in specific adult assessment techniques. Focuses on behavioral and cognitive assessment. Prerequisite: permission of instructor.

PSYCLN 521 Assessment of Intelligence (5) Current theory and research on intelligence and intelligence testing; training in administration, scoring, and interpretation of major intelligence tests; ethical issues in assessment. Prerequisite: graduate major standing in child-clinical or clinical psychology, or graduate minor standing in child-clinical psychology. Instructors: King, Lengua Offered: Sp.

PSYCLN 522 Psychological Assessment of Children (5) Assessment techniques appropriate to children, including those for infants, special problems of preschool and school-age children; projective tests, family interviews, and target observational

assessment; training in administration of selected techniques. Prerequisite: PSYCLN 521 and permission of instructor.

PSYCLN 523 Approaches to Psychological Assessment (4) Problem-solving approach to psychological assessment; review of psychological tests and procedures and presentation of approaches to their clinical interpretation and use. Prerequisite: graduate major standing in clinical psychology. Offered: Sp.

PSYCLN 524 Clinical Personality Assessment (3) Use of objective personality inventories in the description of normal and abnormal personality and use of such information in case conceptualization and treatment planning. Minnesota Multiphasic Personality Inventory, Millon Clinical Multiaxial Inventory. Prerequisite: clinical psychology graduate standing. Instructors: Smith Credit/no-credit only.

PSYCLN 525 Practicum in Psychological Assessment (2) Demonstration and practice of selected psychological test procedures and interviewing skills. Concurrent registration in PSYCH 576 or PSYCH 578 required. Required for all first-year graduate students majoring in clinical and child-clinical psychology. Prerequisite: graduate major standing in clinical or child-clinical psychology and permission of instructor.

PSYCLN 530 Behavior Disorders (5) Major types of behavior disorders, with emphasis on clinical manifestations, relevant research, and theoretical perspectives. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Zoellner Offered: W.

PSYCLN 531 Developmental Psychopathology (4) Broad survey of major categories of child and adolescent disorders. Emphasis on scientific, empirical approach to description, classification, and research literature on these disorders. Required for all graduate students majoring in child clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Offered: AWSpS.

PSYCLN 532 Anxiety Disorders (3) *Zoellner* General topics related to primary anxiety disorders (panic, OCD, GAD, posttraumatic stress disorder, and

specific phobias) , including diagnosis, theory, and treatment.

PSYCLN 540 Systems of Psychotherapy (3) Theory and research of major systems of psychotherapy, including the psychodynamic, behavioral, cognitive, and family systems approaches as an introduction to subsequent practica in clinical psychology. Required for all graduate students majoring in clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: George Offered: A.

PSYCLN 541 Approaches to Child Treatment (4) Major approaches to child psychotherapy, including specific applications, issues in treatment, and research. Prerequisite: graduate major standing in child-clinical psychology, or permission of instructor. Offered: Sp.

PSYCLN 542 Behavior Change (5) Behavioral theory and behavioral approaches to treatment. Prerequisite: PSYCH 518 and permission of instructor. Instructors: Kohlenberg Offered: Sp.

PSYCLN 543 Evidence-based Treatments for Depression (3) *C. Fagan* Provides an introductory overview of two or more evidence-based treatments for depression (e.g., cognitive-behavioral therapy, behavioral activation, and/or Mindfulness-based Cognitive Therapy) . Prerequisite: Graduate standing in Psychology, or by permission of instructor. Credit/no-credit only. Offered: AWSpS.

PSYCLN 544 Behavioral Methods: Clinical Interventions (3) *M. Linehan* Provides students with basic skills required for competent practice of cognitive and behavioral therapies. Topics include behavioral skills training, cognitive restructuring, contingency management, and exposure-based procedures. Prerequisite: minimum second year graduate clinical psychology student.

PSYCLN 545 Introduction to Dialectical Behavioral Therapy (3) *Linehan* Introduces dialectical behavioral therapy, an empirically supported treatment approach for high risk clinical populations. Topics include mindfulness, dialectics, validation, behavioral therapy, and case conceptualization. Credit/no-credit only. Offered: A.

PSYCLN 546 Dialectical Behavior Therapy Skills Group Training (3) *Linehan* In-depth learning of skills training component of dialectical behavior therapy, an empirically supported treatment approach for high risk clinical populations. Topics include skills in mindfulness, emotion regulation, interpersonal effectiveness and distress tolerance. Credit/no-credit only. Offered: A.

PSYCLN 547 Methods in Suicide and Crisis Intervention (3) *Linehan* Provides a foundation for risk assessment and crisis intervention with suicidal individuals. Addresses risk factors for suicide across the age range, and methods for both behavioral interventions and crisis management with suicidal individuals. Also covers ethical issues. Offered: Sp.

PSYCLN 560 Minority Mental Health (3) Surveys topics on mental health and treatment of racial and ethnic minorities. Theory emphases include: models addressing ethnic identity, cross-cultural differences, models of culturally sensitive intervention. Practice emphases include unique psychotherapy strategies for: African-, Asian-, and Latino-Americans, and American Indians. Prerequisite: graduate clinical major standing in psychology, or permission of instructor. Instructors: George, Simoni

PSYCLN 561 Community Psychology (4) Overview of key issues and concepts in the field of community psychology. History of field and overview of different models used to conceptualize system-level mental health issues and delivery systems. Emphasizes theory and research rather than intervention. Prerequisite: psychology graduate student, or permission of instructor.

PSYCLN 562 Cross-Cultural Competency I (2) Focuses on development of multicultural competence in the provision of psychological services to meet APA guidelines for ethnic, linguistic, and culturally diverse populations. Students address personal development, increase their knowledge of diverse groups, and study effective models of intervention in working with clients of diverse backgrounds. Prerequisite: PSYCH 580. Instructors: George

PSYCLN 563 Cross-Cultural Competency II (2) Third in the graduate multicultural-competence sequence. Focuses on American ethnic minorities, multiracial children and families, social action, and

organizational development. Prerequisite: PSYCH 581. Instructors: George

PSYCLN 570 Advances in Clinical Psychology (3-5, max. 30) Intensive readings from the current literature on an emerging topic or theoretical perspective in clinical psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: George, Kohlenberg, Linehan, Smith, Zoellner

PSYCLN 571 Advances in Child Clinical Psychology (3-5, max. 30) Intensive readings from the current literature on an emerging topic or theoretical perspective in child clinical psychology. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: King, Lengua

PSYCLN 572 Seminar in Clinical Psychology (1-2, max. 30) Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission instructor. Instructors: George, Kohlenberg, Linehan, Simoni, Smith, Zoellner

PSYCLN 573 Seminar in Child Clinical Psychology (1-2, max. 30) Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: King, Lengua

PSYCLN 574 Independent Study in Affective Science (5) Designed to provide a broad overview of the field of affective science. The goal is to increase knowledge base and to facilitate the integration of concepts, methods, and scientific findings in affective science into scientific and clinical activities. Offered: AWSpS.

PSYCLN 575 Independent Study in Behavioral Neurosciences (5) Provide students with a broad overview of the field of behavioral neurosciences. Satisfies the requirement of the APA for graduate level training in biological aspects of behavior. Increases knowledge base and facilitates the integration of concepts, methods and scientific findings in behavioral neurosciences into scientific and clinical activities. Offered: AWSpS.

PSYCLN 576 Independent Study in Cognitive Science (5) Provides students with a broad overview of the

field of cognitive science. Designed to increase student knowledge base and to facilitate the integration of concepts, methods, and scientific findings in cognitive science into their scientific and clinical activities. Offered: AWSpS.

PSYCLN 577 Independent Study in Lifespan Development (5) Designed to provide students with a broad overview of developmental aspects of behavior, with a focus on lifespan development. The goal is to increase student knowledge base and to facilitate the integration of concepts, methods, and scientific findings in lifespan development into their scientific and clinical activities. Offered: AWSpS.

PSYCLN 580 Clinical Practica and Colloquium (1-3) C. *Fagan* Required of all clinical psychology graduate students seeing clients in the clinic. Clinical colloquium required of all second-year students, optional for others. Credit/no-credit only. Offered: AWS.

PSYCLN 581 Clinical Methods: Interviewing (2) *Fagan* Provides the foundation for developing good clinical skills. Enables students to conduct an initial clinical interview and generate a diagnostic formulation, problem list, and treatment plan after taking a complete history. Limited to and required of all second-year clinical psychology graduate students. Credit/no-credit only. Offered: A.

PSYCLN 582 Clinical Methods: Ethics (3) *Fagan* Enables students to acquire a thorough working knowledge of the American Psychological Association's Ethical Standards for Psychologists; an awareness of Washington state law as it affects psychologists and a knowledge of how to identify and solve ethical dilemmas. Limited to and required of all second-year clinical psychology graduate students. Credit/no-credit only. Offered: W.

PSYCLN 583 Clinical Supervision (4, max. 100) Supervised psychotherapy involving several individual clients. Separate consultations with instructor for intensive supervision of each case. Occasional meetings in small groups of instructors and students to discuss case material. Assigned readings appropriate to each case with opportunities to discuss these with instructor. Prerequisite: clinical psychology graduate standing and permission of instructor. Instructors: George, King, Kohlenberg,

Lengua, Linehan, Simoni, Smith, Zoellner Credit/no-credit only. Offered: AWSpS.

PSYCLN 585 Fieldwork in Clinical Psychology (1-5, max. 36) Prerequisite: second-year graduate major standing and permission of departmental faculty. Instructors: George, King, Kohlenberg, Lengua, Linehan, Simoni, Smith, Zoellner

PSYCLN 586 Dialectical Behavior Therapy Practicum (1-5, max. 60) This practicum class is a weekly DBT therapist consultation team meeting. Students are required to deliver individual and group DBT to high risk clients and to discuss cases and receive and provide feedback during team meetings. This class is one component of a larger 2-year practicum in which students are required to complete DBT Intensive Training and take a series of six graduate seminars to learn about DBT and its behavioral foundations. Credit/no-credit only. Offered: AWSpS.

PSYCLN 588 Anxiety and Traumatic-stressor Related Disorders Practicum (1-3, max. 30) *M. Bedard-Gilligan, L. Zoellner* Practicum offers supervised experience for advanced clinical psychology graduate students in standardized assessment and empirically-supported treatment for anxiety and traumatic stressor-related disorders. Recommended: This is one of our advanced specialty practica that follows the 2nd year sequence. It is preferred that PSYCLN 532 is taken before this class but not mandatory. Credit/no-credit only. Offered: AWSpS.

PSYCLN 589 LEARN Clinic Practicum (1-3, max. 20) *J. Quamma* Provides students training and practical experience in the evaluation of learning disabilities and Attention Deficit Hyperactivity Disorder (ADHD) in children, adolescents, and adults. Prerequisite: 3rd year clinical psychology graduate students and above who have completed graduate-level courses in assessment (including assessment of intelligence) and/or have significant experience in administration of cognitive tests (e.g., tests of intelligence such as the WISC or WAIS) . Credit/no-credit only. Offered: AWSpS.

PSYCLN 590 Parent-Child Practicum (1-3, max. 30) Students deliver Behavioral Parent Training and other evidence based treatments. Includes didactics, live observation of instructor, group and individual supervision. Students use a sliding scale fee structure to increase socioeconomic diversity among

clients served, and receive supervision on how to individualize treatment for each client, given his/her clinical presentation. Prerequisite: 3rd year clinical psychology graduate students and above who have completed graduate-level courses Credit/no-credit only. Offered: AWSpS.

PSYCLN 591 Consultation and Supervision (2) C. *Fagan* Introduces students to the competencies essential to providing consultation and supervision. Prepares students to take on roles of both consultants and supervisors-in-training as a step toward developing the necessary competence to eventually consult or supervise effectively as licensed psychologists. Prerequisite: 3rd year clinical grad and above students who have completed the Clinical Methods sequence. Credit/no-credit only. Offered: AWSpS.

PSYCLN 596 Advanced Clinical Practicum (1-6, max. 55) Advanced supervised training in specific empirically supported treatment approaches. Each practicum provides intensive training in a specific treatment, such as dialectical behavior therapy, functional analytic psychotherapy, acceptance and commitment therapy, mindfulness-based relapse prevention, and exposure treatment for anxiety disorders. Prerequisite: graduate standing in clinical psychology; PSYCH 593; permission of instructor. Instructors: Kohlenberg, Linehan, Smith, Zoellner Credit/no-credit only. Offered: AWSpS.

PSYCHOLOGY

PSYCH 101 Introduction to Psychology (5) I&S *Ann Culligan, Lauren Graham, Tabitha Kirkland* Surveys major areas of psychological science. Core topics include human social behavior, personality, psychological disorders and treatment, learning, memory, human development, biological influences, and research methods. Related topics may include sensation, perception, states of consciousness, thinking, intelligence, language, motivation, emotion, stress and health, cross-cultural psychology, and applied psychology. Offered: AWSpS.

PSYCH 200 Comparative Animal Behavior (3-5) NW Research methods and findings of comparative animal behavior, their importance to an understanding of human behavior; rationale for study of behavioral differences/similarities between

animal species, behavior viewed as part of adaptation of each species to its natural habitat. Not open for credit to students who have taken PSYCH 300.

PSYCH 201 Psychology of Performance

Enhancement (4) I&S Applications of psychological theories, research, and intervention strategies to performance enhancement in variety of life settings. Self-regulation models and techniques; stress and emotional control; attention control and concentration; mental rehearsal; time management; goal-setting; memory enhancement; communication and interpersonal conflict resolution. Participation in various psychological training procedures. Prerequisite: PSYCH 101.

PSYCH 202 Biopsychology (5) NW *Ann Culligan, Lauren Graham, Jeansok J Kim* Examines the biological basis of behavior, the nervous system, how it works to control behavior and sense the world, and what happens when it malfunctions. Topics include learning and memory, development, sex, drugs, sleep, the senses, emotions, and mental disorders. Prerequisite: PSYCH 101. Offered: AWSpS.

PSYCH 203 Introduction to Personality and Individual Differences (4) I&S *Jonathon D Brown* Overview of the major theories, research findings, and applications in the scientific study of personality. Covers research methods and approaches to measuring personality variables. Not open for credit to students who have taken PSYCH 303. Prerequisite: PSYCH 101.

PSYCH 205 Behavior Disorders (5) I&S Examines the bio-psycho-social origins of behavioral disorders. Topics include theories of etiology, developmental perspectives of behavior disorders, and assessment and diagnosis of the most common behavioral disorders. Note: not open for credit for students who have taken PSYCH 305. Prerequisite: minimum 2.0 grade in PSYCH 101.

PSYCH 206 Human Development (5) I&S Theoretical perspectives and research methods in child development with an overview of historical and current works. Includes prenatal and biological development, the development of cognitive, linguistic, and social and emotional abilities. Not open for credit to students who have taken PSYCH 306. Prerequisite: PSYCH 101.

PSYCH 208 Happiness (5) I&S *T. Turowski* How can lives be fulfilling, joyful, and meaningful? Through reading, discussion, and hands-on activities, explores the theme that happiness stems from social connections and contribution to something larger than oneself. Also explores practical strategies for nurturing personal happiness by improving social and emotional health. Prerequisite: PSYCH 101; recommended: PSYCH 209 Offered: AWSpS.

PSYCH 209 Fundamentals of Psychological Research

(5) *Laura Little, Michael W Passer, Ann Culligan, Tabitha Kirkland, Lauren Graham* Psychological research methodology and techniques. Topics include the logic of hypothesis testing, experimental design, research strategies and techniques, fundamentals of scientific writing, search and evaluation of research literature in psychology, and ethical issues in psychological research. Required for all psychology majors. Prerequisite: minimum 2.0 grade in PSYCH 101. Offered: AWSpS.

PSYCH 210 The Diversity of Human Sexuality (5) I&S, DIV *Nicole K McNichols* Considers biological, psychological, and socio-cultural determinants of human sexuality and sexual behavior, and how their interaction leads to diverse expressions of sexuality, sexual bonding, gender orientation, reproductive strategies, and physical and psychological sexual development. Topics include cultural appraisal of sexuality, sexual health and reproduction (pregnancy, contraception, abortion), and sexual abuse and assault.

PSYCH 222 Current Topics in Psychology (3-5, max. 10) I&S Topics of current interest, such as the psychology of happiness, psychology of friendship, technology and relationships, and developments in brain and behavior science. Choice of topics depends on instructor and class interest. Prerequisite: PSYCH 101 Offered: AWSpS.

PSYCH 245 Introduction to Social Psychology (5)

I&S *Tabitha Kirkland, Jonathon D Brown* Overview of major findings of social psychology, emphasizing the relevance for understanding the social behaviors of individuals and groups of individuals and their relationship to social context. Not open for credit to students who have taken PSYCH 345. Prerequisite: PSYCH 101.

PSYCH 250 Racism and Minority Groups (5) I&S, DIV

Overview of the causes, contexts, and consequences of racism and its effects upon minority groups and society. Emphasis on cultural history, political and socioeconomic structures that contribute to racism. Examination of current issues in race relations and cultural pluralism in the United States and selected international topics.

PSYCH 257 Psychology of Gender (5) I&S,

DIV Kenney Major psychological theories of gender-role development; biological and environmental influences that determine and maintain gender differences in behavior; roles in children and adults; topics include aggression, cognitive abilities, achievement motivation, affiliation. Offered: jointly with GWSS 257.

PSYCH 291 Principles of Applied Animal Behavior

(3-5) NW Further explores the basic principles of animal behavior, and related disciplines, with particular emphasis on application to human-animal interaction and issues. Introduces the primary literature in applied animal behavior.

PSYCH 292 Applied Animal Behavior in Practice (3-

5) NW Integrates animal behavior theory with real-world practice to resolve practical problem in human-animal interactions, including companion animals, captive animals, and livestock. Introduces the primary clinical literature in applied animal behavior.

PSYCH 298 Graduate School Exploration for

Psychology Majors (2) Provides an overview of graduate school options available in psychology, counseling, and research. Topics include researching programs, writing statements of purpose and resumes, standardized testing, letters of recommendation, and interviewing techniques. Credit/no-credit only.

PSYCH 299 Psychology Transfer Academic

Community (2) Provides opportunity for transfer students new to or contemplating the psychology major to experience an in- depth orientation to the department, curriculum, and resources available to undergraduates. Students meet weekly to explore ways to effectively engage in the major and expand their understanding of the academic discipline. Credit/no-credit only.

PSYCH 300 Animal Behavior (5) NW

Joseph A. Sisneros Introduces important concepts and empirical findings in animal behavior. Emphasizes evolutionary and mechanistic approaches to understanding diversity and complexity of behavior. Topics include communication, mating, migration, and sociality. Prerequisite: either BIOL 118, BIOL 161, or BIOL 180.

PSYCH 302 Neuroscience of the Mind (5) NW

S. Mizumori Capacity for flexible neural processing changes across the lifespan, and may go awry in disorders of mental health and behavioral control. Provides a fundamental understanding of the dynamic, often reciprocal, relationship between brain neuroplasticity and a variety of complex behaviors (e.g. learning, memory, decision, language) , including their modulation by social factors, development, aging, disease, and brain injury. Prerequisite: PSYCH 101; PSYCH 202; PSYCH 209 Offered: AWSps.

PSYCH 303 Personality (5) I&S

Overview of major perspectives, scientific issues, applications, and research findings in the area of personality. Direct exposure to scientific literature, writing assignments, and research-based class experiences prepare students for advanced work in personality, social, abnormal, and developmental psychology. Prerequisite: minimum 2.0 grade in each of PSYCH 101; PSYCH 202; and PSYCH 209. Instructors: Brown

PSYCH 305 Abnormal Psychology (5) I&S

An overview of major categories of psychopathology, including description and classification, theoretical models, and recent research on etiology and treatment. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

PSYCH 306 Developmental Psychology (5) I&S

Betty Repacholi Overview of past and present theoretical and research-based approaches to biological, cognitive, and social development from the prenatal period to early adolescence. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

PSYCH 315 Understanding Statistics in Psychology

(5) QSR *Geoffrey M Boynton, Laura Little, Brian P Flaherty, Dana C Nelson* Statistics for psychological research. Elementary probability theory, hypothesis testing, and estimation. Satisfies the statistics requirement for majors registered in the psychology

Bachelor of Arts degree program. Prerequisite: minimum 2.0 grade in PSYCH 209; 2.0 in either MATH 111, MATH 112, MATH 120, MATH 124, or MATH 144. Offered: AWSpS.

PSYCH 317 Introduction to Probability and Statistics for Psychology (5) QSR *Laura Little* Probability theory as a model for scientific inference.

Probabilistic variables and experimental outcomes, conditional probability, binomial and related distributions, experiments as samples, statistics and sampling distributions, the normal distribution, confidence intervals, problems of estimation from experiments. Prerequisite: minimum 2.5 grade in PSYCH 209; 2.0 in either MATH 124, MATH 134, or MATH 144. Offered: AW.

PSYCH 318 Statistical Inference in Psychological Research (5) QSR *Laura Little* Hypothesis testing:

probabilistic and statistical basis. Development and application of statistical inference techniques employed in psychological research: confidence intervals, t-test, ANOVA, and correlation and regression. Nature and control of experimental and inferential error in research. Required for majors for psychology BS degree. Prerequisite: minimum 2.0 grade in PSYCH 317. Offered: WSp.

PSYCH 322 Introduction to Drugs and Behavior (3) NW

Basic concepts of drug action emphasizing the behavioral consequences of the intake of a variety of drugs. Prerequisite: PSYCH 202.

PSYCH 330 Laboratory in Animal Behavior (5) NW

Experience with a variety of animal species and experimental procedures and instrumentation. Prerequisite: either minimum 2.0 grade in PSYCH 315, or 2.0 in PSYCH 317; 2.0 in PSYCH 209. Instructors: Brenowitz

PSYCH 331 Laboratory in Human Cognition (5) I&S

Selected aspects of human cognition, perception, and performance. Prerequisite: minimum 2.0 grade in PSYCH 209; either 2.0 in PSYCH 315, or 2.0 in PSYCH 317. Instructors: Joslyn

PSYCH 332 Neurobehavioral Lab (5) NW *David*

Henry Gire Explores the neural mechanisms of behavior via neuropharmacological and neuroanatomical approaches. Includes the ethics and regulation of animal experimentation.

Prerequisite: either minimum 2.0 grade in PSYCH 315, or 2.0 in PSYCH 317.

PSYCH 333 Sensory and Perceptual Processes (5)

NW *Geoffrey M Boynton, Ellen Covey, Ione Fine* An overview of each of the major senses with emphasis on the structure and function of sensory systems and the relation of the underlying biology to perceptual processes and behavior. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

PSYCH 334 Laboratory in Social Psychology (5) I&S

Methodology of laboratory and field research on social behavior; data analysis and report writing; research projects. Prerequisite: minimum 2.0 grade in PSYCH 209; minimum 2.0 grade in either PSYCH 315 or PSYCH 317; minimum 2.0 grade in either PSYCH 245 or PSYCH 345. Instructors: Cheryan

PSYCH 345 Social Psychology (5) I&S *Nicole K*

McNichols, Tabitha Kirkland, Jonathon D Brown, Cheryl Kaiser The scientific study of how people's thoughts, feelings, and actions influence, and are influenced by, other people. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209. Instructors: Brown, Kaiser

PSYCH 350 Honors Research Seminar in Psychology

(2-, max. 4) *Chantel Prat* Presentations by professors and advanced students concerning the rationale, methodology, and progress of their research projects; assistance with research projects; preparation of junior paper. Four credits of PSYCH 350 required for all junior Honors candidates in conjunction with PSYCH 498 and PSYCH 499. Offered: AWSp.

PSYCH 355 Cognitive Psychology (5) I&S *Susan L*

JOSLYN Current theory and research in perception, attention, memory and learning, attitudes, thinking and decision making, and language. For the student who wishes a survey or who intends additional work in any of the above content areas. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

PSYCH 357 Psychobiology of Women (5) NW,

DIV *Kenney* Physiological and psychological aspects of women's lives; determinants of biological sex; physiological and psychological events of puberty; menopause; sexuality; contraception, pregnancy, childbirth, and lactation; role of culture in

determining psychological response to physiological events. Offered: jointly with GWSS 357.

PSYCH 399 Foreign Study (3-5, max. 10) Upper division psychology courses for which there are no direct University of Washington equivalents taken through the UW Study Abroad program.

PSYCH 400 Learning (5) I&S/NW Experimental research and basic theories primarily in animal learning. Prerequisite: minimum 2.0 grade in PSYCH 202.

PSYCH 402 Infant Behavior and Development (3/5) I&S Psychological development in the first two years of life. Basic and advanced techniques for assessing psychological development in infancy. Classic theories of human infancy and examination of a wide range of new experiments about infant behavior and development. Prerequisite: minimum 2.0 grade in either PSYCH 206, PSYCH 306 or PSYCH 414. Instructors: Meltzoff

PSYCH 403 Motivation (5) I&S/NW Theory and research on reinforcement, punishment, frustration, preference, instinctual mechanisms, and other factors controlling animal behavior. Prerequisite: minimum 2.0 grade in PSYCH 202.

PSYCH 407 History of Psychology (5) I&S Historical and theoretical background of the basic assumptions and research methodologies of modern psychology and the scientists who developed them. Prerequisite: minimum 2.0 grade in PSYCH 209.

PSYCH 408 Neuroethology (4) NW Comparative exploration of the neural, hormonal, and genetic mechanisms that control behaviors necessary for survival and reproduction in animals. Model systems discussed include animal communication, mate choice, escape behavior, spatial orientation, homing and migration, and biological rhythms. Students are expected to understand fundamental concepts of neuroscience from any of the following prerequisite courses. Prerequisite: either PSYCH 333 OR BIOL 220. Offered: jointly with BIOL 408.

PSYCH 410 Child and Adolescent Behavior Disorders (5) I&S Introduction to psychopathology in children and adolescents, and an overview of principal modes of intervention. Particularly for students interested in advanced work in clinical psychology, social work,

or special education. Prerequisite: minimum 2.0 grade in PSYCH 305; either 2.0 in PSYCH 306 or 2.0 in PSYCH 202, 2.0 in PSYCH 206, and 2.0 in PSYCH 209.

PSYCH 413 Adolescent Development (5) I&S Provides an overview of physical, cognitive, psychosocial, and emotional development of adolescents with an emphasis on understanding the context in which young people grow up. Explores cultural, environmental, and social influences on development. Prerequisite: minimum 2.0 grade in PSYCH 209; 2.0 in either PSYCH 206 or PSYCH 306.

PSYCH 414 Cognitive Development (5) I&S Key theoretical and research approaches to cognitive development from infancy through adolescence. Sensorimotor development, language development, imitation, number concepts, logical reasoning, memory, cognition in adolescents, intelligence, and the role of biology, environment, and experience. Prerequisite: either minimum 2.0 grade in PSYCH 306, or 2.0 in both PSYCH 206 and PSYCH 209.

PSYCH 415 Personality Development of the Child (5) I&S Socialization theory and research, infant attachment and social relationships, development of aggressive and altruistic behaviors, sex-role development, moral development, parent and adult influences. Applied issues in social development and policy. Prerequisite: minimum 2.0 grade in either PSYCH 206 or PSYCH 306. Instructors: Repacholi

PSYCH 416 Animal Communication (4) NW *Eliot A. Brenowitz, Joseph A. Sisneros* Evolution and mechanisms of animal communication and related processes of perception, thinking, and social behavior. Prerequisite: either minimum 2.0 grade in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300.

PSYCH 417 Stress, Aging, and the Brain (4) *Jeansok J Kim* How the brain and, consequently, behavior change in response to stress and with aging. Primary focus on animal models of stress and age-related phenomena, but humans also an integral part of discussions. Prerequisite: PSYCH 101 and PSYCH 202. Offered: AWPSP.

PSYCH 418 Primate Social Behavior (5) NW Social behavior, ecology, and group structure of monkeys and apes from an evolutionary, sociobiological, and anthropological perspective. Prerequisite: either

minimum 3.5 grade in PSYCH 200, 2.0 in PSYCH 300, 2.0 in BIO A 201, or 2.0 in BIOL 180.

PSYCH 419 Behavioral Studies of Zoo Animals (5, max. 10) NW Observational studies of behavior of zoo animals to expand basic knowledge of animal behavior, conservation of endangered species, and research methodology with discussions and tours focusing on zoo philosophy and operations. Offered in cooperation with Woodland Park Zoo. Prerequisite: either minimum 2.0 grade in BIOL 180, 3.5 in PSYCH 200, or 2.0 in PSYCH 300.

PSYCH 420 Drugs and Behavior (3) NW Animal and clinical research on the behavioral consequences of drug intake. Prerequisite: PSYCH 322.

PSYCH 421 Neural Basis of Behavior (5) NW Anatomical and physiological principles and resultant behavior involved in the integrative action of the nervous system. Prerequisite: minimum 2.0 grade in PSYCH 202.

PSYCH 423 Programming For Psychology and Neuroscience (4) NW *Ione Fine* Programming techniques relevant to researchers in behavioral sciences. Gives researchers with no or little experience in programming the tools needed to design and program their own experiment, do basic analyses, and plot results. Addresses experimental design, stimulus presentation, curve fitting, randomization techniques, basic statistics, data plotting, debugging, and code optimization. Offered: AWSpS, even years.

PSYCH 426 Neurobiology of Learning and Memory (4) NW *Sheri J. Y. Mizumori* Theory and research on how animals learn and remember, including basic concepts of brain plasticity, how brain areas and neurons adapt to changes in experiences throughout the lifespan, and cellular and structural substrates of a "memory." Prerequisite: a minimum grade of 2.0 in either PSYCH 202, PSYCH 302, PSYCH 322, PSYCH 333, PSYCH 421, PSYCH 422, or PSYCH 423.

PSYCH 430 Development of Brain Connections (4) NW Analysis of innate and environmental factors that play a role in the development of brain connections. Critical review of current literature on the various strategies used by neurons to find their appropriate targets. Prerequisite: minimum 2.0

grade in either PSYCH 202, PSYCH 333, PSYCH 421, PSYCH 422, or PSYCH 423.

PSYCH 431 Ecopsychology (5) I&S *P. KAHN* Explores psychology of the human relationship with nature. Critically examines how ecopsychology can impact urban sustainability, human health, environmental education, and the design of new technologies. Specific topics include evolutionary psychology; human-animal interaction; biophilia; children and nature; indigenous cultures; and ecotherapy. Offered: jointly with ENVIR 431/ESRM 431; W.

PSYCH 432 Visual Neuroscience (4) I&S/NW Surveys current facts/theories about how our brains interpret the images formed by our eyes to create a presentation of the visual environment. Topics include retinal processing, 3-D vision; color, form, motion, and object perception; and visual illusions. Prerequisite: minimum 2.0 grade in either PSYCH 333 or PSYCH 355.

PSYCH 435 Human Color Vision (5) NW/I&S Discusses how color does not exist in the physical environment but is instead a creation of our brains. Explores perceptual, physiological, developmental, evolutionary, genetic, and cultural aspects of human color vision, including its role in language, culture, and art. Prerequisite: PSYCH 202; PSYCH 209.

PSYCH 436 Developmental Aspects of Sport Competition (4) I&S Biophysical and psychosocial influences of sport participation on growth and development of children and youth. Competition readiness, injuries, stress, aggression, roles and responsibilities of parents and coaches. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Smoll

PSYCH 437 Motor Development (4) NW Analysis of motor development from prenatal origins through adolescence with emphasis on relations between biophysical and psychosocial development of children and youth. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Smoll

PSYCH 439 Psychology of Health Disparities (4) I&S, DIV In the United States, race and ethnicity, socioeconomic status, and other identities and experiences affect risk for a range of health outcomes. Reviews psychological research on the sources of these disparities and potential solutions to address them. Covers topics such as the role of

discrimination, interactions with healthcare providers, and how to change the social context to improve health. Prerequisite: PSYCH 209. Offered: AWSpS.

PSYCH 440 Psychology of Emotion (5) I&S T.

Turowski Overview of psychological research and theory on emotion, including biological, developmental, cognitive, social, and cultural perspectives. Topics include: why we have emotions; how emotions influence thoughts, actions, and interactions; facial expressions; controlling emotions; morality; gender differences; and the function of specific emotions such as joy, anger, and sadness. Prerequisite: PSYCH 209 Offered: A.

PSYCH 441 Perceptual Processes (5) I&S/NW Theory and findings in perception with a focus on visual perception in humans. Discrimination and constancy for simple judgments, segregation and identification of visual objects, and specific areas of investigation such as reading and computer vision. Prerequisite: minimum 2.0 grade in PSYCH 333.

PSYCH 443 Motivational Theories in Social Psychology (5) I&S Theories of motivation in social psychology. Emphasis on how motivation and cognition mutually influence each other to produce behavior. Explores such topics as persuasion, goal pursuit, self-regulation, achievement, and social comparison. Prerequisite: minimum 2.0 grade in PSYCH 345.

PSYCH 445 Theories of Social Psychology (5) I&S Evaluation of the major theories of human social behavior supported by the empirical literature; theories of social cognition and thought; major theories of social interaction, group processes, and social learning. Prerequisite: PSYCH 345. Instructors: Brown

PSYCH 447 Psychology of Language (4) VLPA/I&S Introduction to the study of language, including language structure, speech perception, language acquisition, psychological processes underlying comprehension and production of language, the relation between brain and language, and the question of the species-specificity of human language. Prerequisite: either minimum 2.0 grade in PSYCH 209, minimum 2.0 grade in LING 200, or LING 201.

PSYCH 448 Selected Topics in Psychological Science (1-15, max. 15) Selected research topics of contemporary interest. Quarterly listings of specific offerings are available at departmental advising office.

PSYCH 449 Organizational and Industrial Psychology (5) I&S Examines research on human behavior in industrial and organizational environments. Topics include research methods, job analysis, the prediction of workplace performance, personnel selection and training, performance appraisal, group influences, job satisfaction, job motivation, leadership, and human factors. Prerequisite: PSYCH 101; PSYCH 209.

PSYCH 450 Honors Research Seminar in Psychology (2-, max. 4) Senior thesis research; preparation of senior thesis; oral presentation of research. Four credits of PSYCH 450 required for all senior Honors candidates in conjunction with PSYCH 498 and PSYCH 499. Offered: AWSp.

PSYCH 451 Health Psychology (5) I&S/NW Overview of the psychological and behavioral factors in health and disease. Includes research on both psychological causes and treatments. Topics include stress, risky behaviors, patient-provider interactions, pain, behavioral/medical treatments, and lifestyle interventions. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209; 2.0 in either PSYCH 303, or PSYCH 345.

PSYCH 452 Psychology of the Self-Concept (4) I&S Examines psychological theory and research on the role of the self-concept in regulating behavior. Topics include the development of the self-concept; self-awareness; and self-esteem maintenance. Prerequisite: minimum 2.0 grade in either PSYCH 245 or PSYCH 345. Instructors: Brown

PSYCH 456 Social and Moral Development (5) I&S Theoretical approaches toward explaining children's social and moral development, including those that are nativistic, sociobiological, behavioristic, psychoanalytic, and constructivist. Use of theory to investigate applied problems related to parenting, education, peer relationships, authority, sexuality, culture, ecology, and technology. Prerequisite: either PSYCH 206 or PSYCH 306. Instructors: Kahn

PSYCH 457 Language Development (5) VLPA/I&S

First-language acquisition and use by children. Emphasis on theoretical issues and research techniques. Prerequisite: minimum 2.0 grade in either PSYCH 206, PSYCH 306, LING 200, or LING 400.

PSYCH 458 Behavioral Genetics (4) NW Role of genetics in determining variation in human and animal behavior and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects, and gene expression. Prerequisite: either minimum 3.5 grade in PSYCH 200, 2.0 in PSYCH 300, or 2.0 in BIOL 180. Offered: jointly with BIOL 458.

PSYCH 459 Evolutionary Psychology (4) I&S/NW Explores human behavior from the perspective of biological evolution. Covers core issues such as cooperation, communication, aggression, mating, reproduction, and parental and family interactions, as well as specialized applications within psychology such as psychopathology. Encourages a critical, skeptical examination of this new field. Prerequisite: either minimum 3.5 grade in PSYCH 200 or minimum 2.0 grade in PSYCH 300.

PSYCH 460 Cognitive Neuroscience (4) NW Discussion of neural systems underlying cognitive behavior with particular focus on breakdown of cognition following brain damage. Topics include object and space perception, language, voluntary movement, attention, and memory. Examination of contributions from related areas of neuroimaging, visual perception, linguistics, physiology, and neuroscience. Prerequisite: minimum 2.0 grade in either PSYCH 333, PSYCH 355, or PSYCH 421. Instructors: Murray, Osterhout

PSYCH 462 Human Memory (5) I&S Research and theory in key areas of memory. Issues covered include information processing theory, the link between memory processes and their biological underpinnings, autobiographical memory, implicit memory, and the effect of emotion on memory. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Joslyn

PSYCH 463 Implicit and Unconscious Cognition (3) I&S/NW Overview of method, theory, and findings concerning cognitive processes operating outside attentional focus or without introspective awareness. Considers relevance to basic phenomena

of social, cognitive, and clinical psychology. Prerequisite: minimum 2.0 grade in either PSYCH 315 or PSYCH 317; minimum 2.0 grade in either PSYCH 303, PSYCH 305, PSYCH 333, PSYCH 345, or PSYCH 355. Instructors: Greenwald

PSYCH 470 Psychology and Music (5) VLPA/I&S *Ellen Covey* Introduction to the scientific study of musical behavior. An overview of current topics in the psychology of music from the areas of musical perception and cognition, musical development, music therapy, musical performance, and composition. Includes psychoacoustical and neuropsychological foundations, research methods, and some basic material in music theory. Prerequisite: a minimum grade of 2.0 in either PSYCH 202 or NEUSCI 302 .

PSYCH 471 Cognition In the Real World (4-5, max. 10) I&S Examines cognitive issues in applied settings, such as the workplace and education. Topics include such issues as attention, expertise, problem solving, decision-making, human error, automation, navigation, and individual differences. Prerequisite: minimum 2.0 grade in PSYCH 209. Instructors: Joslyn

PSYCH 478 Cultural Psychology (4) I&S Surveys cultural influences on cognitive, emotion, morality, self-concept, and mental health, from a multicultural perspective. Prerequisite: minimum 2.0 grade in PSYCH 202; minimum 2.0 grade in PSYCH 209. Offered: A.

PSYCH 479 Advanced Human Sexuality (5) I&S Intensive reading on current issues relevant to the physiological, psychological, cultural aspects of human sexuality. Prerequisite: minimum 2.0 grade in PSYCH 210.

PSYCH 481 Seminar in Advanced Quantitative Methods (3) Examines the role of statistical methods in psychological research. Issues and controversies surrounding null hypothesis significance testing. Review of selected alternative statistical methods in psychology. Prerequisite: minimum 2.0 grade in either PSYCH 315 or PSYCH 318. Instructors: Little

PSYCH 482 Advanced Research Methods for Behavioral Psychology (4) QSR *Yuichi Shoda* Develops skills of collecting and analyzing behavioral research data, communicating the results orally and in writing, and expressing perspectives on issues of

scientific method and practice. Prerequisite: either PSYCH 315 or PSYCH 317; either PSYCH 330, PSYCH 331, PSYCH 332, or PSYCH 350. Offered: Sp.

PSYCH 483 Writing in Psychology (5) Helps students refine scientific writing skills. Students practice conducting focused literature searches and writing literature reviews, preparing empirical data for presentations, organizing and writing research reports, and writing about psychology for a lay audience. Prerequisite: minimum 2.0 grade in PSYCH 202; minimum 2.0 grade in PSYCH 209; minimum 2.0 grade in either PSYCH 300, PSYCH 303, PSYCH 305, PSYCH 306, PSYCH 333, PSYCH 345, or PSYCH 355. Instructors: Covey, Joslyn

PSYCH 485 Primate Conservation Biology and Behavior (5) NW Examines the principles and concepts of conservation biology as they apply to the nonhuman primates with special attention to theoretical advances, conservation strategies, and management practices central to primate conservation. Prerequisite: either minimum 3.5 grade in PSYCH 200 or 2.0 in PSYCH 300 or 2.0 in BIO A 201. Instructors: Kyes

PSYCH 486 Animal Mind (4) NW Explores the cognitive capacities of animals. Focuses on the classical question, first clearly posed by Darwin, of how similar are the cognitive processes underlying behavior in humans and animals. Encourages a critical, skeptical examination of this new field. Prerequisite: minimum 3.5 grade in PSYCH 200 or 2.0 in PSYCH 300.

PSYCH 487 Advanced Psychobiology of Women (5) I&S/NW Intensive reading on current issues relevant to women's psychology and physiology. Prerequisite: minimum 2.0 grade in PSYCH 357/ GWSS 357. Instructors: Kenney Offered: jointly with GWSS 487; W.

PSYCH 488 Stress and Coping (4) I&S/NW Reviews theories and research concerning stress and its roles in behavior, personality, development, health, and interpersonal relationships. Coping analyzed as a factor in the way people respond to stressful circumstances. Prerequisite: minimum 2.0 grade in PSYCH 202; 2.0 in PSYCH 209.

PSYCH 489 Clinical Psychology (3) I&S Basic issues, methods, and research: professional issues,

psychological assessment, and approaches to psychotherapy and behavioral change. Prerequisite: minimum 2.0 grade in PSYCH 305.

PSYCH 490 Stress Management (3) I&S/NW Nature of stress. Physiological responses to stress and relaxation. Techniques of stress management with training in relaxation, biofeedback, meditation, cognitive restructuring, exercise, nutrition, interpersonal communication skills, and time management. Prerequisite: PSYCH 101.

PSYCH 491 Special Topics in Child Development, Learning, and Mental Health (1-5, max. 30) I&S Selected topics of contemporary interest in child development, learning, and mental health.

PSYCH 494 Field Study in Animal Behavior (2-3, max. 9) Kyes Field experience in areas relating to animal behavior through participation in seminar discussion and field exercises and training at foreign and domestic field study sites.

PSYCH 496 Undergraduate Teaching Experience in Psychology (2-3, max. 6) Students are trained as assistants in quiz sections or as supplemental tutors for undergraduate psychology courses. Designed especially for students planning graduate work or education certification. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree. Credit/no-credit only.

PSYCH 497 Undergraduate Fieldwork (1-5, max. 10) Dana C Nelson Individual consultation with faculty member and supervised practicum experience in a broad range of community settings and agencies dealing with psychological problems. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree. Credit/no-credit only. Offered: AWSpS.

PSYCH 498 Directed Reading in Psychology (1-3, max. 18) Readings in special interest areas under supervision of departmental faculty. Discussion of reading in conference with the instructor. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree.

PSYCH 499 Undergraduate Research (1-3, max. 18)

Design and completion of individual research projects. An overall maximum of 18 credits in PSYCH 496, PSYCH 497, PSYCH 498, and PSYCH 499 may apply toward a baccalaureate degree.

PSYCH 500 Proseminar in Psychology (1, max. 10)

Presentations on professionally and practically useful topics by guest faculty presenters designed for first-year and second-year graduate students.

Prerequisite: graduate standing in psychology, or permission of instructor. Credit/no-credit only.

PSYCH 502 Core Concepts in Animal Behavior (3)

Joseph A. Sisneros Reading, reports, and discussion on animal behavior, with a focus on topics that lie at the interface of animal behavior, evolutionary science, neurobiology, and psychology. Includes social organization, mating systems, foraging, learning, communication, and agonistic behavior. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 503 Core Concepts in Behavior Genetics (4)

Overview of current approaches to genetic analysis in psychology. Role of genetics in behavioral variation, and in regulating behavioral development. Techniques for quantifying genetic variation, behavioral effects of genes, and patterns of gene expression. Genetic effects on major behavioral differences. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Shoda

PSYCH 504 Core Concepts in Behavioral Neuroscience (3) *Ellen Covey, Jeansok J Kim, Sheri J. Y. Mizumori*

Historical and contemporary perspectives in behavioral neuroscience. Current methodologies and research strategies. May include sensory processing, genetics, behavioral neuroendocrinology, developmental neural plasticity, neurobiology of learning and memory, lifespan perspectives on behavioral neurobiology, and psychopharmacology. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 505 Core Concepts in Neuroethology (3)

Sisneros Reviews the current topics and approaches to the study of the neurobiological basis of natural behaviors or "neuroethology." Explores core concepts in the field of neuroethology and examines the role of the nervous system and the underlying neural

circuits adapted for species-typical behaviors. Offered: AWSp.

PSYCH 506 Core Concepts in Cognitive Neuroscience (3)

Combines psychological models of information processing with research techniques in the biomedical sciences. Topics in vision, attention, memory, motor behavior, and language illustrate this integrative approach. Research methods include behavioral, single unit, lesion, and neuro-imaging techniques. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Murray, Osterhout

PSYCH 507 Core Concepts in Cognitive Psychology (3)

Survey of the major topics in human cognition. Discussion of memory, concepts and categories, language, decision-making, and problem solving. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 508 Core Concepts in Perception (3)

Current topics in perception, psychophysics, sensory memory, pattern recognition, letter and word perception, and visual masking. Prerequisite: graduate standing in psychology, or permission of instructor. Offered: Sp.

PSYCH 509 Core Concepts in Computational Cognitive and Neural Modeling (5)

Introduction to the basics of computational modeling techniques for psychologists and neuroscientists. Covers two common modeling approaches (production system models and neural network models) and describes the principles of their application to semantic memory, working memory, perception, reinforcement learning, skill acquisition, and transfer.

PSYCH 510 Core Concepts in Social Psychology (4)

An overview of contemporary theories and research in social psychology, focusing on introducing graduate students to the field as practitioners of social psychological research. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Cheryan, Kaiser, Shoda

PSYCH 511 Core Concepts in Personality (3) *Yuichi Shoda*

Review of personality research. Roles of cognitive, affective, motivational, and psychodynamic processes. Critical evaluation of current personality, its antecedents, and its

influences over behavior. Attention to role of personality variables in social relationships. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 512 Development of Prejudice (3) *Sapna Cheryan* Explores how prejudice emerges and develops across the lifespan. Each week focuses a big question (e.g., "What are the earliest signs of prejudice? Can the disadvantaged be prejudiced?") with supporting readings from the developmental, social, cultural, and evolutionary psychology literatures.

PSYCH 513 Core Concepts in Biological Basis of Development (4) Embryological, genetic, physiological, and evolutionary perspectives of human development; biological development in infancy; sensory development and its influence on the development of perception; primate models for human development. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 514 Core Concepts in Early Cognitive and Linguistic Development (4) *Andrew N Meltzoff* Origins and early development of thought and language. Piagetian theory and modern-day revisions. In-depth examination of historical and philosophical bases for current empirical research. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 515 Core Concepts in Personality and Social Development (4) Theories and empirical literature in personality and social development throughout infancy, childhood. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 516 Core Concepts: Early Social Cognition in Typical Development and Autism (3) Describes current theoretical and empirical approaches to understand social cognitive processes underlying infants' ability and motivation to attend to, interpret, and act on social information. Research findings from typical infants and those at elevated risk for autism identify the implications of divergent developmental trajectories.

PSYCH 520 Core Concepts in Affective Science (3) Provides an overview of the major theories, research findings, and applications in the scientific study of emotion. Topics include the function of emotion;

physiological and behavioral expression of emotion; emotion regulation; emotions and health; and how emotions influence intimate relationships.

PSYCH 521 Core Concepts in Decision Making (3) *S. Joslyn* Overview of theories and behavioral research on the cognitive processes involved in individual human decision-making including bounded rationality, prospect theory, dual systems, adaptive strategies and the nature of expertise. Offered: AWSpS.

PSYCH 522 Laboratory in Statistical Computation I (2) Techniques of computation using statistical software on personal computers. Organization of data files, transformations of variables, graphical representations of data, descriptive statistics, elementary inferential statistical analyses. Prerequisite: concurrent enrollment in PSYCH 524, or permission of instructor. Offered: A.

PSYCH 523 Laboratory in Statistical Computation II (2) Techniques of statistical computation using statistical software on personal computers and mainframe computers. Multiple regression, analysis of variance and covariance. Planned and post hoc comparisons and confidence intervals. Data analytic diagnostics for violations of regression assumptions. Prerequisite: PSYCH 522 and PSYCH 524, concurrent enrollment in PSYCH 525, or permission of instructor. Offered: W.

PSYCH 524 Introduction to Statistics and Data Analysis (4) Basic concepts of statistical theory and methods of data analysis. Emphasis on the integration of statistical theory, statistical computation, and psychological research methods. Required of all first-year graduate students in psychology. Prerequisite: concurrent enrollment in PSYCH 522, or permission of instructor. Offered: A.

PSYCH 525 Linear Models and Data Analysis (4) Analysis of data in the behavioral sciences. Required of all first-year graduate majors. Prerequisite: PSYCH 522, PSYCH 524; concurrent registration in PSYCH 523, or permission of instructor. Offered: W.

PSYCH 526 Multivariate Statistics (4) An introduction to statistical modeling; interactive data analyses; use of regression, ANOVA, logistic regression, and log-linear models in explanatory studies. Prerequisite: PSYCH 525.

PSYCH 527 Core Concepts in Cognitive Approach to Human Memory (3) *S. Joslyn* Topics in human memory focusing primarily on long-term memory. Begins with an overview of the cognitive perspective. Specific topics may include implicit and explicit memory, autobiographical memory, emotion and memory, memory for mental events, mechanisms for forgetting, source monitoring and factors that enhance memory. Offered: AWSpS.

PSYCH 528 Practical Methods for Behavioral Research (4, max. 8) *Yuichi Shoda* Examination of methodological, practical, and communication problems associated with research on human behavior. Topics include: selecting research problems, use of theory, types of validity, common sense about statistics, when to replicate, dealing with unpredicted results, strategies for presentation and publication. Offered: Sp.

PSYCH 529 Advanced Research Methods (5) Surveys advanced clinical research methods not covered in the required statistics sequence. Examples include structural equation modeling, hierarchical linear modeling, growth curve modeling, and taxometric analyses. Hands-on experience gained through weekly assignments using each method. Prerequisite: PSYCH 525.

PSYCH 530 Introduction to Manifest Path, Confirmatory Factor, and Latent Variable Path Analysis for Psychology (5) *B. Flaherty* Introduces broad class of path analysis models for Psychology research, including manifest (observed) variable models, confirmatory factor analysis, and latent variable path models. Students will conduct and write-up analyses of multiple data sets, including their own. Course focuses on testing complex scientific hypotheses, effects of measurement error, fit assessment and model selection, interpretation and presentation, and ethical use. Prerequisite: PSYCH 525, or permission of instructor. ; recommended: basic regression course. Offered: A, even years.

PSYCH 531 Practical Issues in Data Analysis and Presentation (4) Computational data "wrangling" and analysis as first steps researchers should take after collecting data. Teaches essential skills (including data analysis, data modeling, dimensionality reduction of "big data") that promote data visualization and effective presentation of data.

Prerequisite: PSYCH 524 and PSYCH 525; recommended: First two quarters of PSYCH grad statistics Offered: AWSpS.

PSYCH 535 Scientific Writing in Psychology (5, max. 10) Addresses issues in scientific writing and publishing; laboratories assist with writing, and provide feedback on drafts of articles throughout the writing process. Students write a journal article to submit for publication. Other writing projects are also possible with instructor's permission. Credit/no-credit only.

PSYCH 536 Grant Preparation in Psychology (3, max. 6) Prepare and submit an application for a major national fellowship. Joint registration in PSYCH 598 with faculty adviser is required. Prerequisite: graduate standing in psychology and permission of instructor. Instructors: Mizumori Credit/no-credit only.

PSYCH 537 Teaching of Psychology (3) Examines issues concerning the teaching of psychology, including educational goals, course development, instructional methods, TA-student and TA-faculty relations, grading, student diversity, and problem situations. Assignments designed to enhance students' organizational, presentational, and problem-solving skills. Prerequisite: graduate standing in the Department of Psychology. Instructors: Passer Credit/no-credit only.

PSYCH 538 Programming for Psychology and Neuroscience (4) *Geoffrey M Boynton, Ione Fine* Introduction to programming skills with the goal of teaching how to design, program, and analyze experiments. Topics include principles of programming, the programming environment, presentation software, and data collection, management, and analysis. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 540 Advances in Psychology (3-5, max. 30) Intensive readings from the current literature on an emerging topic or theoretical perspective in psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 541 Advances in Animal Behavior (3-5, max. 30) *Eliot A. Brenowitz, Randall C KYES, Joseph A. Sisneros* Intensive readings from the current

literature on an emerging topic or theoretical perspective in animal behavior. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 542 Advances in Behavioral Neuroscience (3-5, max. 30) *Ellen Covey, Jeansok J Kim, Sheri J. Y. Mizumori* Intensive readings from the current literature on an emerging topic or theoretical perspective in behavioral neuroscience. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 543 Advances in Working Memory (3) S. *Joslyn* Provides an overview of theories in working memory, roughly synonymous with consciousness. Introduces the Baddeley model as well as alternative models and focus on recent research on a variety of topics including verbal and spatial memory, executive control, individual differences and training working memory. Offered: AWSpS.

PSYCH 545 Advances in Cognition/Perception (3-5, max. 30) Intensive readings from the current literature on an emerging topic or theoretical perspective in cognition/perception. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 546 Advances in Developmental Psychology (1-5, max. 30) *Peter Kahn, Andrew N Meltzoff, Betty Repacholi, Frank L Smoll* Intensive readings from the current literature on an emerging topic or theoretical perspective in developmental psychology. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 547 Advances in Social/Personality (3-5, max. 30) *Sapna Cheryan, Cheryl Kaiser, Yuichi Shoda* Intensive readings from the current literature on an emerging topic or theoretical perspective in social psychology/personality. Student presentations and discussion. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 548 Advances in Quantitative Psychology (3-5, max. 30) Intensive readings from the current literature on an emerging topic or theoretical perspective in quantitative psychology. Student presentations and discussion. Prerequisite: graduate

standing in psychology, or permission of instructor. Instructors: Flaherty

PSYCH 549 Seminar in Physiological Psychology (2)
Prerequisite: permission of instructor.

PSYCH 550 Seminar in Psychology (1-2, max. 30)
Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 551 Seminar in Animal Behavior (1-2, max. 30) *Eliot A. Brenowitz, Joseph A. Sisneros* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 552 Seminar in Behavioral Neuroscience (1-2, max. 30) *Ellen Covey, Jeansok J Kim, Sheri J. Y. Mizumori* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 555 Seminar in Cognition/Perception (1-2, max. 30) *Geoffrey M Boynton, Ione Fine, Scott O. Murray, Andrea Stocco, Chantel Prat* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 556 Seminar in Developmental Psychology (1-2, max. 30) Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor. Instructors: Meltzoff, Repacholi, Smoll

PSYCH 557 Seminar in Social/Personality (1-2, max. 30) *Jonathon D Brown, Sapna Cheryan, Cheryl Kaiser, Yuichi Shoda* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 558 Seminar in Quantitative Psychology (1-2, max. 30) *Brian P Flaherty, Laura Little* Weekly meetings for discussion of current topics. Prerequisite: graduate standing in psychology, or permission of instructor.

PSYCH 560 Research Strategies (1-2, max. 30) Group discussions of problems and continuing strategies for ongoing and future research projects. Prerequisite:

graduate standing in psychology; others by permission of department.

PSYCH 561 Current Trends in Psychology (*, max. 30) Prerequisite: permission of instructor. Offered: AWSpS.

PSYCH 562 Evolutionary Psychology of Gender, Mating, and Reproduction (3) *Joseph A. Sisneros* Reviews evidence for biological factors influencing human mating and reproductive behavior, through application of concepts and theory from animal behavior, behavioral genetics, and evolutionary biology. Offered: W.

PSYCH 563 Developmental Psychology and the Human Relationship with Nature (4) *Kahn* Theories of development used to investigate the ontogenesis of the human relationship with nature. An emphasis on social cognition, children's environmental moral reasoning, the effects of technology in children's lives, and evolutionary theory. Offered: W.

PSYCH 564 Advanced Attitude Theory (5) Theoretical, methodological, and empirical work on the concept of attitude and its practical applications. Topics include: definition of attitude, measurement of attitudes, information-processing theories, functional theories, cognitive structure theories, the self as attitude object, unconscious attitudinal processes. Prerequisite: PSYCH 445; PSYCH 525 or equivalent; or permission of instructor.

PSYCH 565 Quantifying Brain Analysis (3) Covers concepts and applications of statistically unbiased methods for quantifying brain structure. Hands-on learning and application of concepts, sampling strategies and calculations for unbiased stereological measure of the size and number of various brain components.

PSYCH 566 Neural Correlates of Perceptual Cognition (3) Contribution of sensory systems to perceptual capabilities. Critical review of literature on the neural correlates of abilities such as sensory discrimination, subjective perception, attention, imagery, object and face recognition, and spatial behavior. Some sensory disabilities reviewed. Offered: W.

PSYCH 567 Higher Order Cognition (3) Survey of research on higher-order cognition with an emphasis

on theoretical accounts of knowledge representation. Topics include problem solving, inductive and deductive reasoning, hypothesis testing, causal inferences, similarity judgments, and categorization.

PSYCH 568 Cognitive Approaches to Human Memory (3) Examination of current topics in human memory from the perspective of cognitive psychology. Offered: Sp.

PSYCH 596 Advanced Teaching Practicum (2, max. 6) Supervised participation in graduate teaching. Prerequisite: graduate student in psychology and permission of instructor. Offered: AWSpS.

PSYCH 598 Directed Reading in Psychology (*, max. 30) Selected topics. Prerequisite: permission of a supervising psychology faculty member.

PSYCH 599 Directed Research in Psychology (1-3, max. 24) Supervised participation in research. Prerequisite: permission of a supervising psychology faculty member.

PSYCH 600 Independent Study or Research (*-) Offered: AWSpS.

PSYCH 700 Master's Thesis (*-) Offered: AWSpS.

PSYCH 800 Doctoral Dissertation (*-) Offered: AWSpS.

SCANDINAVIAN STUDIES

DANISH

DANISH 101 First Year Danish 1 (5) VLPA Fundamentals of oral and written Danish. First in a sequence of three.

DANISH 102 First Year Danish 2 (5) VLPA Fundamentals of oral and written Danish, including introductory study of literature, film, and other authentic texts. Second in a sequence of three. Prerequisite: DANISH 101. Offered: W.

DANISH 103 First Year Danish 3 (5) VLPA Fundamentals of oral and written Danish, including introductory study of literature, film, and other

authentic texts. Third in a sequence of three.

Prerequisite: DANISH 102. Offered: Sp.

DANISH 199 Foreign Study: Elementary Danish (1-15, max. 15) Fundamentals of oral and written Danish.

DANISH 201 Second-Year Danish (5) VLPA Intensive practice in speaking, reading, and writing. Review of grammar. Introduction of modern literary texts. Discussion of culture and current events in Denmark. First in a sequence of three.

DANISH 202 Second-Year Danish (5) VLPA Intensive practice in speaking, reading, and writing. Review of grammar. Introduction of modern literary texts. Discussion of culture and current events in Denmark. Second in a sequence of three. Prerequisite: DANISH 201.

DANISH 203 Second-Year Danish (5) VLPA Intensive practice in speaking, reading, and writing. Review of grammar. Introduction of modern literary texts. Discussion of culture and current events in Denmark. Third in a sequence of three. Prerequisite: DANISH 202.

DANISH 299 Foreign Study: Intermediate Danish (1-15, max. 15) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Denmark.

DANISH 310 Topics in Danish Short Prose (5, max. 15) VLPA Focuses on the fairy tale and story, with selections by Bicher, H.C. Andersen, Bang, Blixen, and others.

DANISH 311 Topics in Danish Literature and Culture (5, max. 15) VLPA Selected topics in modern Danish literature and culture, such as women's literature, Danish identity and the European Union, contemporary drama and film, or children's literature.

DANISH 312 Topics in the Danish Novel (5, max. 15) VLPA Focuses on selected novels from the nineteenth and twentieth centuries by figures such as J.P. Jacobsen, Herman Bang, J.V. Jensen, Hans Kirk, Scherfig and Ditlevsen.

DANISH 395 Foreign Study: Danish Area Studies (1-5, max. 10) I&S Courses in Danish history, society, and/or politics.

DANISH 399 Foreign Study: Topics in Danish Literature and Culture (1-5, max. 15) VLPA Topics in Danish literature, life, and civilization.

DANISH 411 Danish for Professionals (3) VLPA Combines intensive beginning Danish language for professionals with a substantive introduction to Danish culture and society. This course is geared to upper-division undergraduates and graduate students preparing to hold internships in professional offices in Denmark or study at Danish universities via UW study Abroad. Does not meet foreign language requirement. Offered: Sp.

DANISH 490 Supervised Reading (1-5, max. 10) Readings in a selected area of Danish language, literature, or related fields.

ESTONIAN

ESTO 101 First Year Estonian 1 (5) VLPA Fundamentals of oral and written Estonian, including introductory study of literature, film, and other authentic texts. First in a sequence of three. Offered: A.

ESTO 102 First Year Estonian 2 (5) VLPA Fundamentals of oral and written Estonian, including introductory study of literature, film, and other authentic texts. Second in a sequence of three. Prerequisite: ESTO 101. Offered: W.

ESTO 103 First Year Estonian 3 (5) VLPA Fundamentals of oral and written Estonian, including introductory study of literature, film, and other authentic texts. Third in a sequence of three. Prerequisite: ESTO 102. Offered: Sp.

ESTO 111 Basic Estonian (3) L. ROOS, G. SMIDCHENS Fundamentals of Estonian language to develop reading and comprehension proficiency. Completion of all three quarters does not meet the foreign language requirement. Offered: A.

ESTO 112 Basic Estonian (3) L. ROOS, G. SMIDCHENS Fundamentals of Estonian language to develop

reading and comprehension Prerequisite: ESTO 111
Offered: W.

ESTO 113 Basic Estonian (3) *L. ROOS, G. SMIDCHENS*

Fundamentals of Estonian language to develop reading comprehension Prerequisite: ESTO 112
Offered: Sp.

ESTO 150 Intensive Estonian (15) Fundamentals of oral and written Estonian. Intensive practice in speaking, reading, and writing Estonian. Interactive classroom, computer-assisted learning, language, and reading laboratories. Emphasis on contemporary Estonian culture and society. If Estonian is the student's language of admission, only 10 credits count towards graduation.

ESTO 201 Second-Year Estonian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. First in a sequence of three. Prerequisite: either ESTO 103 or ESTO 150.

ESTO 202 Second-Year Estonian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Second in a sequence of three. Prerequisite: ESTO 201.

ESTO 203 Second-Year Estonian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Third in a sequence of three. Prerequisite: ESTO 202.

ESTO 250 Intensive Intermediate Estonian (15) VLPA Accelerated second-year Estonian. Systematic review of Estonian grammar. Intensive practice in conversation, reading, and writing. Prerequisite: either ESTO 103 or ESTO 150. Offered: S.

ESTO 490 Supervised Reading (1-5, max. 10)
Readings in a selected area of Estonian language, culture, or society.

FINNISH

FINN 101 First Year Finnish 1 (5) VLPA Fundamentals of oral and written Finnish, including introductory study of literature, film, and other authentic texts. First in a sequence of three. Offered: A.

FINN 102 First Year Finnish 2 (5) VLPA Fundamentals of oral and written Finnish, including introductory

study of literature, film, and other authentic texts. Second in a sequence of three. Prerequisite: FINN 101. Offered: W.

FINN 103 First Year Finnish 3 (5) VLPA Fundamentals of oral and written Finnish, including introductory study of literature, film, and other authentic texts. Third in a sequence of three. Prerequisite: FINN 102. Offered: Sp.

FINN 150 Intensive First-Year Finnish (15)
Fundamentals of oral and written Finnish. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, and language and reading laboratories. Emphasis on contemporary Finnish culture and society. If Finnish is the student's language of admission, only 10 credits count towards graduation.

FINN 199 Foreign Study: Elementary Finnish (1-15, max. 15) Fundamentals of oral and written Finnish.

FINN 201 Second-Year Finnish (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. First in a sequence of three. Prerequisite: either FINN 103 or FINN 150.

FINN 202 Second-Year Finnish (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Second in a sequence of three. Prerequisite: FINN 201.

FINN 203 Second-Year Finnish (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Third in a sequence of three. Prerequisite: FINN 202.

FINN 250 Intensive Second-Year Finnish (15) VLPA
Intensive study of second-year Finnish. Prerequisite: either FINN 103 or FINN 150.

FINN 299 Foreign Study: Intermediate Finnish (1-15, max. 15) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Finland.

FINN 310 Topics in Finnish Language and Culture (5, max. 15) VLPA Topics related to Finnish literature, life, and civilization.

FINN 395 Foreign Study: Finnish Area Studies (1-5, max. 10) I&S Courses in Finnish history, society, and/or politics.

FINN 399 Foreign Study: Topics in Finnish Literature and Culture (1-5, max. 15) VLPA Topics in Finnish literature, life, and civilization.

FINN 490 Supervised Reading (1-5, max. 10) Readings in a selected area of Finnish language, culture, or society.

LATVIAN

LATV 101 First Year Latvian 1 (5) VLPA
Fundamentals of oral and written Latvian, including introductory study of literature, film, and other authentic texts. First in a sequence of three. Offered: A.

LATV 102 First Year Latvian 2 (5) VLPA
Fundamentals of oral and written Latvian, including introductory study of literature, film, and other authentic texts. Second in a sequence of three. Prerequisite: LATV 101. Offered: W.

LATV 103 First Year Latvian 3 (5) VLPA
Fundamentals of oral and written Latvian, including introductory study of literature, film, and other authentic texts. Third in a sequence of three. Prerequisite: LATV 102. Offered: Sp.

LATV 111 Basic Latvian (3) I. GRINBERGA
Fundamentals of Latvian language in order to develop reading and comprehension proficiency. Completion of all three quarters does not meet the foreign language requirement. Offered: A.

LATV 112 Basic Latvian (3) I. GRINBERGA
Fundamentals of Latvian language in order to develop reading and comprehension proficiency. Completion of all three quarters does not meet the foreign language requirement. Prerequisite: LATV 111. Offered: W.

LATV 113 Basic Latvian (3) I. GRINBERGA
Fundamentals of Latvian language in order to develop reading and comprehension proficiency. Completion of all three quarters does not meet the foreign language requirement. Prerequisite: LATV 112. Offered: Sp.

LATV 150 Intensive Latvian (15) Fundamentals of oral and written Latvian. Intensive practice in speaking, reading, and writing Latvian. Interactive classroom, computer-assisted learning, language, and reading laboratories. Emphasis on contemporary Latvian culture and society. If Latvian is the student's language of admission, only 10 credits count towards graduation.

LATV 201 Second-Year Latvian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. First in a sequence of three. Prerequisite: either LATV 103 or LATV 150.

LATV 202 Second-Year Latvian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Second in a sequence of three. Prerequisite: LATV 201.

LATV 203 Second-Year Latvian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Third in a sequence of three. Prerequisite: LATV 202.

LATV 250 Intensive Intermediate Latvian (15) VLPA
Accelerated second-year Latvian. Systematic review of Latvian grammar. Intensive practice in conversation, reading, and writing. Prerequisite: either LATV 103 or LATV 150. Offered: S.

LATV 310 Topics in Latvian Literature (5, max. 15) VLPA Topics in Latvian literature, life, and civilization.

LATV 490 Supervised Reading (1-5, max. 10) VLPA Readings in a selected area of Latvian language, culture, or society.

LITHUANIAN

LITH 101 First Year Lithuanian 1 (5) VLPA
Fundamentals of oral and written Lithuanian, including introductory study of literature, film, and other authentic texts. First in a sequence of three. Offered: A.

LITH 102 First Year Lithuanian 2 (5) VLPA
Fundamentals of oral and written Lithuanian, including introductory study of literature, film, and other authentic texts. Second in a sequence of three. Prerequisite: LITH 101. Offered: W.

LITH 103 First Year Lithuanian 3 (5) VLPA

Fundamentals of oral and written Lithuanian, including introductory study of literature, film, and other authentic texts. Third in a sequence of three. Prerequisite: LITH 102. Offered: Sp.

LITH 111 Basic Lithuanian (3) Covers the fundamentals of conversational Lithuanian language. Completion of all three quarters does not meet the foreign language requirement.

LITH 112 Basic Lithuanian (3) Covers the fundamentals of conversational Lithuanian language. Completion of all three quarters does not meet the foreign language requirement. Prerequisite: LITH 111.

LITH 113 Basic Lithuanian (3) Covers the fundamentals of conversational Lithuanian language. Completion of all three quarters does not meet the foreign language requirement. Prerequisite: LITH 112.

LITH 150 Intensive Lithuanian (15) Fundamentals of oral and written Lithuanian. Intensive practice in speaking, reading, and writing Lithuanian. Interactive classroom, computer-assisted learning, language, and reading laboratories. Emphasis on contemporary Lithuanian culture and society. If Lithuanian is the student's language of admission, only 10 credits count towards graduation.

LITH 201 Second-Year Lithuanian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. First in a sequence of three. Prerequisite: either LITH 103 or LITH 150.

LITH 202 Second-Year Lithuanian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Second in a sequence of three. Prerequisite: LITH 201.

LITH 203 Second-Year Lithuanian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Third in a sequence of three. Prerequisite: LITH 202.

LITH 250 Intensive Intermediate Lithuanian (15) VLPA Accelerated second-year Lithuanian. Systematic review of Lithuanian grammar. Intensive

practice in conversation, reading, and writing. Prerequisite: either LITH 103 or LITH 150. Offered: S.

LITH 310 Topics in Lithuanian Literature and Culture (5, max. 15) VLPA Explores topics in Lithuanian literature, life, civilization. Recommended: LITH 203 Offered: AWSp.

LITH 490 Supervised Reading (1-5, max. 10) Readings in a selected area of Lithuanian language, culture, or society.

NORWEGIAN

NORW 101 First Year Norwegian 1 (5) VLPA Fundamentals of oral and written Norwegian, including introductory study of literature, film, and other authentic texts. First in a sequence of three. Offered: A.

NORW 102 First Year Norwegian 2 (5) VLPA Fundamentals of oral and written Norwegian, including introductory study of literature, film, and other authentic texts. Second in a sequence of three. Offered: W.

NORW 103 First Year Norwegian 3 (5) VLPA Fundamentals of oral and written Norwegian, including introductory study of literature, film, and other authentic texts. Third in a sequence of three. Offered: Sp.

NORW 150 Intensive First-Year Norwegian (15) Fundamentals of oral and written Norwegian. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, language and reading laboratories. Emphasis on contemporary Norwegian culture and society. If Norwegian is the student's language of admission, only 10 credits count towards graduation.

NORW 199 Foreign Study: Elementary Norwegian (1-15, max. 15) Fundamentals of oral and written Norwegian.

NORW 201 Second-Year Norwegian (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. First in a sequence of three.

NORW 202 Second-Year Norwegian (5) VLPA

Intensive practice in speaking, reading, and writing. Functional review of grammar. Second in a sequence of three.

NORW 203 Second-Year Norwegian (5) VLPA

Intensive practice in speaking, reading, and writing. Functional review of grammar. Third in a sequence of three.

NORW 299 Foreign Study: Intermediate Norwegian (1-15, max. 15) VLPA

Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Norway.

NORW 310 The Norwegian Short Story (5) VLPA

Generic study of the Norwegian short story.

NORW 311 Drama after Ibsen (5) VLPA**NORW 312 Topics in Norwegian Literature and Culture (5, max. 15) VLPA**

Topics related to Norwegian literature, life, and civilization.

NORW 321 The Plays of Henrik Ibsen (5) VLPA

Study of selected plays of Ibsen.

NORW 395 Foreign Study: Norwegian Area Studies (1-5, max. 10) I&S

Courses in Norwegian history, society, and/or politics.

NORW 399 Foreign Study: Topics in Norwegian Literature and Culture VLPA (1-5, max. 15) VLPA

Topics in Norwegian literature, life, and civilization.

NORW 490 Supervised Reading (1-5, max. 10)

Readings in a selected area of Norwegian language, literature, or related fields.

SCANDINAVIAN

SCAND 100 Introduction to Scandinavian Culture (5) VLPA/I&S

The Scandinavian experience from the Viking Age to the present day; the background for contemporary Scandinavian democracy, with major emphasis on the cultural, political, and religious development of the Scandinavian countries.

SCAND 150 Norwegian Literary and Cultural History (5) VLPA

A survey of Norwegian literary and cultural

history from the Vikings to the present. Authors read include Bjornson, Ibsen, Hamsun, and Roolvaag.

SCAND 151 Finnish Literary and Cultural History (5) VLPA

A survey of Finnish literature and cultural history during the nineteenth and twentieth centuries. Authors studied include Lonrot, Snellmann, Kivi, Sodergran, Linna, Haavikko, and Kaurismaki.

SCAND 152 Latvian Literary and Cultural History (5) VLPA

Grinberga Survey of Latvian literary and cultural history from the nineteenth century to the present. Authors include Pumpurs, Rainis, Aspazija, Blaumanis, Nesaule, Bels, and Zalite.

SCAND 153 Introduction to Lithuanian Literary and Cultural History (5) VLPA

Valanciauskiene Surveys Lithuanian literary and cultural history from the Medieval period to the present. Authors include Dauksa, Maironis, Biliunas, Ciurlainis, Boruta, Granauskas, Aputis, Vilimaite, Milosz, and others.

SCAND 154 Estonian Literary and Cultural History (5) VLPA

G. Smidchens Surveys Estonian literary and cultural history from the prehistoric period to the present. Authors, musicians, artists, and filmmakers include Kaplinski, Koidula, Kreutzwald, Vilde, Part, Tormis, Meri, Parn, Pollu, and others. Offered: jointly with JSIS A 154; AWSpS.

SCAND 155 Danish Literary and Cultural History (5) VLPA

Hansen Introduces the literary and cultural history of Denmark. Focuses on several major literary works and cultural moments from the Viking Age, the Enlightenment, nineteenth-century Romanticism, twentieth-century Modernism, and current Danish literature, journalism, and film.

SCAND 156 Introduction to Swedish Literary and Cultural History (5) VLPA

I. DUBOIS, A. GAVEL ADAMS Introduction to modern Swedish literature, culture, and contemporary discourses on race, multiculturalism, gender equality, and LGBTI. Offered: WSp.

SCAND 200 Scandinavia Today (5) VLPA/I&S

C. INGEBRITSEN Examines the distinctive policies, institutions, and social norms, and cultures of contemporary Scandinavian societies. Topics include: the development of a "middle way" between capitalism and socialism, the welfare state,

social policy, Scandinavia in the international system, and contemporary debates about market deregulation and immigration. Course uses examples from policy debate and culture as objects of study.

SCAND 230 Introduction to Folklore Studies (5)

VLPA/I&S *G. Smidchens* Folkloristics combines the methods and ideas of Literature Studies and Anthropology. Folktales (fairy tales), legends, jokes, songs, proverbs, customs and other forms of traditional culture are studied together with the living people and communities who perform and adapt them. Students learn the folklorist's methods of fieldwork (participant observation), ethnography, comparative analysis, and interpretation. Offered: jointly with C LIT 230; AWSpS.

SCAND 232 Hans Christian Andersen and the Fairy Tale Tradition (5) VLPA

Influence of Hans Christian Andersen and the fairy tale on modern Scandinavian tales and stories. Investigates the significance of the fairy tale in the modern world, with attention to writers such as Isak Dinesen, Knut Hamsun, Villy Sorensen, William Heinesen.

SCAND 251 Holberg and His Comedies in English (2)

VLPA Holberg and his major dramas, with attention to the comic tradition in the Scandinavian theatre.

SCAND 270 Sagas of the Vikings (5) VLPA

Icelandic sagas and poetry about Vikings in the context of thirteenth-century society.

SCAND 271 Film Analysis: Northern Perspectives (5)

VLPA *Andrew Nestingen* Tools and perspectives for exploring cinema, focusing on films from the circumpolar region. Objectives: (1) learning a set of key terms for the study of film and television; (2) gaining an understanding of film and television as cultural productions; (3) doing a sequence analysis. Recommended: first-year composition. Offered: W, even years.

SCAND 275 Crime Scenes: Investigating the Cinema and Its Cultures (5) VLPA

Teaches how to analyze film by closely studying crime scenes from historical and contemporary German and Scandinavian cinema. Directors studied include Fritz Lang, Carl Th. Dreyer, Billy Wilder, and Lars von Trier. Offered: jointly with GERMAN 275.

SCAND 280 Ibsen and His Major Plays in English (5)

VLPA Reading and discussion of Ibsen's major plays.

SCAND 312 Masterpieces of Scandinavian Literature (5) VLPA

Major works of Scandinavian literature by selected authors.

SCAND 315 Scandinavian Crime Fiction (5)

VLPA *Nestingen* Studies Scandinavian crime-fiction literature and cinema since 1965, approaching crime fiction as a changing cultural artifact. Analyzes major issues and texts in the genre and its public status, while also training students in critical approaches to study of popular literature and culture. Offered: jointly with JSIS D 317; Sp.

SCAND 316 Child and School in Scandinavia (5)

VLPA/I&S *A. NESTINGEN* The child and school in Scandinavia as constructed and represented in film and literature. Approaches child and school through key cultural examples and scholarly studies of these topics. Focal areas include changing historical notions of childhood and youth, schooling, the welfare state, and Finnish schools. Offered: Sp.

SCAND 326 Scandinavia in World Affairs (5) I&S

C. INGEBRITSEN Introduction to the foreign relations of Scandinavia with a focus on Nordic security, international economic pressures, and global conflict resolution. Includes a survey of the national settings for international involvements and highlights the dilemmas for industrial societies exposed to the pressures of interdependence. Offered: jointly with POL S 326.

SCAND 327 Women in Scandinavian Society (5)

VLPA/I&S Examines the changing position of women in Norway, Denmark, Finland, and Sweden from the 1880s to the contemporary period. Readings in literature and political science.

SCAND 330 Scandinavian Mythology (5) VLPA

Integrative study of religious life in the pre-Christian North. Emphasis on source materials, including the Prose Edda and Poetic Edda. Discussion of historical, archeological, and folkloric evidence. Offered: AWSpS.

SCAND 331 Folk Narrative (5) VLPA

Survey of various genres of folk narratives studied in performance contexts to reveal their socio-cultural functions in a variety of milieux. Theory and history

of folk narrative study, taxonomy, genre classification, and interpretative approaches. Offered: jointly with C LIT 331.

SCAND 334 Immigrant and Ethnic Folklore (5) VLPA/I&S Survey of verbal, customary, and material folk traditions in ethnic context. Theories of ethnic folklore research applied to the traditions of American communities of Scandinavian, Baltic, or other European ancestry. Offered: jointly with C LIT 334.

SCAND 335 Scandinavian Children's Literature (5) VLPA The history, forms, and themes of Scandinavian children's literature from H. C. Andersen to the present. Exploration of the dominant concerns of authors, adult and non-adult audiences, and the uses to which juvenile and adolescent literature are put. Film adaptations and Scandinavian-American materials included.

SCAND 340 Kalevala and the Epic Tradition (5) VLPA An interdisciplinary approach to the Finnish national epic Kalevala, Estonian Kalevipoeg, and Saami Peivebarnen suongah jehtanasan maajisn. Discussion of traditional worldview, cultural revitalization, and emergent nationalism in nineteenth- and twentieth-century Finland, Estonia, and Saamiland.

SCAND 341 Sami Culture and History (5) I&S/VLPA, DIV An interdisciplinary look at the culture of the indigenous Sami people in Scandinavia from the earliest archeological and textual evidence to the present day. Focus on indigenous modes of expression and worldview, as well as contemporary cultural and political activism. The course pays special attention to the history of institutional racism, which has impacted the Sami people since the 18th century. Offered: Sp.

SCAND 344 The Baltic States and Scandinavia (5) I&S Survey of the cultures and history of Estonia, Latvia, and Lithuania from the Viking Age to the present, with particular attention to Baltic-Scandinavian contacts. Offered: jointly with JSIS A 344.

SCAND 345 Baltic Cultures (5) VLPA/I&S Cultures and peoples of Estonia, Latvia, and Lithuania. Baltic literature, music, art, and film in social and historical context. Traditional contacts with Scandinavia and

Central and East Europe. Offered: jointly with JSIS A 345.

SCAND 350 Environmental Norms in International Politics (5) I&S *Ingebritsen* Surveys development of international environmental consciousness from 1960s to present. Models of "green development"; ways in which norms for resource use have entered global politics. Patterns of state compliance with international environmental agreements, and why states fall short of meeting their international obligations. Offered: jointly with ENVIR 360/JSIS B 350.

SCAND 351 Scandinavia, the European Union, and Global Climate Change (5) I&S Reviews the history of climate change, the role of Swedish scientist Svante Arrhenius in defining greenhouse effects, Scandinavian policy response, and the role of the European Union in global climate change. Offered: jointly with JSIS A 351; WSp.

SCAND 352 Innovation in Scandinavia (5) I&S C. *Ingebritsen* Innovation, the introduction of something new, an idea, a method, a device or product, is underexplored in the Humanities and Social Science literature. Reviews the major writers in the innovation literature. Innovation crosses disciplines, and creates wealth and employment from Scandinavian to North American neo-liberal capitalism, where ideas seek investment capital in a competitive, Darwinian environment. Offered: W.

SCAND 360 Scandinavian Cinema (5) VLPA A. *Doxtater, A. Nestingen* Major Scandinavian films and film directors from the 1920s to the present.

SCAND 361 Danish Cinema (5) VLPA Studies Danish Cinema from its first major director Carl Th. Dreyer to contemporary directors, such as Lars von Trier and Susanne Bier, as well as trends and forms, such as Art House, Popular Cinema, and TV-Series. Offered: AWSp.

SCAND 365 Finnish Popular Culture (5) VLPA *Ilona Harmavaara* Intensive exploration of Finnish culture. Popular culture is a window to the multilayeredness of a society: tradition and innovations, international and national, high and low cultures, mainstream and underground, majorities and minorities, and different media and genres. Recommended: SCAND 151; FINN 101; and FINN 102. Offered: Sp, odd years.

SCAND 367 Sexuality in Scandinavia: Myth and Reality (5) VLPA/I&S Examines selected Scandinavian literary and socio-political texts, films, and art to manifest the reality behind the myths of sexual freedom in Scandinavia.

SCAND 370 The Vikings (5) VLPA/I&S Vikings at home in Scandinavia and abroad, with particular emphasis on their activities as revealed in archaeological finds and in historical and literary sources. Offered: jointly with HSTAM 370.

SCAND 375 Vikings in Popular Culture (5) VLPA *Lauren Poyer* Explores media representations of "the Vikings" in popular culture over the past 200 years in Europe and the United States, including advertising, comics, film, literature, music, poetry, propaganda, television series, and video games. Compares these modern artistic productions with their medieval counterparts, and examines how the Vikings have functioned as vessels for a variety of cultural fantasies about gender, class, race, and religion.

SCAND 380 History of Scandinavia to 1720 (5) I&S Scandinavian history from the Viking Age to 1720, with an emphasis on the political, social, and economic development of Denmark, Norway, Sweden, Finland, and Iceland from the Middle Ages to the Enlightenment. Offered: jointly with HSTEU 380.

SCAND 381 History of Scandinavia Since 1720 (5) I&S Scandinavian history from the Enlightenment to the Welfare State with emphasis on the political, social, and economic development of the modern Scandinavian nations of Denmark, Norway, Sweden, Finland, and Iceland. Offered: jointly with HSTEU 381.

SCAND 399 Foreign Study in Scandinavia (1-5, max. 20) Pan-Scandinavian coursework in Scandinavia, including courses in English.

SCAND 402 International Political Economy and Scandinavia (5) I&S Overview of the most prominent theoretical approaches to the study of international political economy. Evaluates competing theories and applies these to explain contemporary problems in international political economy. Readings include examples from Scandinavia's experience.

SCAND 427 Scandinavian Women Writers in English Translation (5) VLPA, DIV Selected works by major Scandinavian women writers from mid-nineteenth-century bourgeois realism to the present with focus on feminist issues in literary criticism. Offered: jointly with GWSS 429.

SCAND 430 Readings in Folklore (5) VLPA Exploration of theoretical and methodological issues in folklore studies through independent reading of journal articles published during the last five years. Offered: jointly with C LIT 430.

SCAND 431 The Northern European Ballad (5) VLPA Integrative study of the Northern European Ballad, with an emphasis on texts, performance, context, history, theory, genre classification, and interpretive approaches. Offered: jointly with C LIT 431.

SCAND 437 Politics in Scandinavia (5) I&S C. *INGEBRITSEN* Twentieth-century politics in Scandinavia. How Scandinavian countries have been governed. Costs and consequences of their governmental style and its uncertain future. Optimal size of polities, problems of mature welfare states, process of leadership and representation in multiparty systems, decline of political parties. Offered: jointly with POL S 437.

SCAND 445 War and Occupation in Northern Europe: History, Fiction, and Memoir (5) VLPA/I&S, DIV The study of literary representations (fiction, memoirs, and personal narratives) dealing with World War II and the occupation of the Nordic and Baltic countries. Offered: jointly with JSIS A 442.

SCAND 450 Scandinavian Literary History (3) VLPA Survey of Scandinavian literary history.

SCAND 454 Baltic History (5) I&S Overview of the history of the area occupied by the Baltic countries of Latvia, Lithuania, and Estonia. Emphasizes their emergence as modern European nation-states. Era from World War I to present treated in depth, including the historical role and present situation of non-Baltic peoples, particularly Russians. Offered: jointly with HSTEU 454.

SCAND 455 Baltic Politics and Society Today (5) I&S *G. Smidchens* Intensive interdisciplinary survey of current social, political, and economic

developments in Estonia, Latvia, and Lithuania.
Offered: jointly with JSIS A 455; AWSp.

SCAND 460 History of the Scandinavian Languages

(5) VLPA Development of languages from common Scandinavian to contemporary Danish, Norwegian, Swedish, Faroese, and Icelandic.

SCAND 462 Isak Dinesen and Karen Blixen (5) VLPA

The fiction of Isak Dinesen (pseudonym for Karen Blixen) reevaluated in light of current issues in literary criticism, particularly feminist criticism. Close readings of selected tales, essays, and criticism. Offered: jointly with GWSS 462.

SCAND 465 Translation Workshop in Nordic and Baltic Languages (5) VLPA

Examines translation theories and good practices within the field of translation. Introduces the most common translation tasks within pragmatic text translation and literary translation. Provides students opportunities to strengthen their professional skill set and get feedback from professional translators. Language of instruction and target language for translations is English.

SCAND 470 Scandinavian Auteurs (5, max. 10)

VLPA *Nestingen* Studies the body of work of Scandinavia's auteur filmmakers. Introduces the theory and history of auteur cinema, with special attention to Scandinavian filmmakers' contribution. Offered: jointly with C LIT 474; AWSp.

SCAND 479 Eco-Capitalism (5) I&S *Ingebritsen*

Explores the idea of environmentalism and sustainability across societies. Compares and contrasts how prominent authors in the field assess the risks and opportunities of human effects on climate and ecology. Questions explored include: will ecological solutions be critical to the revival of the global economy? Why do place such as Europe adapt more readily to environmental challenges? Offered: jointly with JSIS A 429.

SCAND 480 Kierkegaard and Decadence in European Literature (5) VLPA

Reading and discussion of core texts by Soren Kierkegaard, as well as a consideration of the relationship between Kierkegaardian thought and the literary practice of various writers of Scandinavian and European decadence. Offered: jointly with JSIS A 480.

SCAND 481 August Strindberg and European Cultural History (5) VLPA/I&S

Examines the work of Swedish dramatist, novelist, and painter August Strindberg, in the context of European literary movements and history of ideas from 1880 to 1912, and Strindberg's influence on twentieth-century drama and film. Offered: jointly with JSIS A 481.

SCAND 482 Knut Hamsun and Early European Modernism (5) VLPA

Reading and discussion of significant novels by Knut Hamsun, whose oeuvre is considered in the context of works by other European modernist writers. Offered: jointly with JSIS A 482.

SCAND 490 Special Topics (1-5, max. 15) Special topics in Scandinavian art, literature, culture, and history. Course offerings based on instructor's specialty and student demand.

SCAND 495 Foreign Study: Research Project (1-5, max. 10) Research on approved topic.

SCAND 498 Senior Capstone Project (3/5)

Undergraduate research and the preparation of a capstone project in Scandinavian area studies. Recommended: Completion of majority of major requirements. Typically taken winter or spring quarter of senior year. Offered: AWSpS.

SCAND 499 Independent Study or Research (1-5, max. 10) Independent study or research in Scandinavian area studies. May be done in a Scandinavian language or in English.

SCAND 500 Introductory Readings in Old Icelandic (5)

Systematic study of the grammatical structure of Old Icelandic and the reading of several short prose works.

SCAND 501 Old Icelandic Language and Literature (5)

Reading of a major work in Old Icelandic literature as a vehicle for discussions about literary history and genre, narrative, and rhetorical strategies.

SCAND 503 Methods of Scandinavian Studies (5)

Introduction to Scandinavian studies on the graduate level with emphasis on Scandinavian literature, folklore, history, and politics.

SCAND 504 Contemporary Literary Theory (5)

Contemporary literary theory and its application to Scandinavian texts. Prerequisite: graduate student standing or permission of instructor.

SCAND 505 Topics in Scandinavian Drama and Film (5, max. 15)

Seminar on a selected topic in Scandinavian drama or film, such as an author (Holberg, Ibsen, Strindberg, Bergman), a period, a genre, or a movement.

SCAND 508 Topics in Scandinavian Prose (5, max. 15)

Seminar on various topics in Scandinavian prose, including shorter prose texts, as well as a selection of the significant novels of the nineteenth and twentieth centuries.

SCAND 510 Archives in Scandinavian Studies (5, max. 10)

Guntis Smidchens, Andrew Nestingen, Marianne Stecher, Amanda Doxtater, Olivia N Gunn Investigates either actual archives (in buildings or online) in or related to the Nordic and Baltic regions; or, practices and methods of archival research; or, the archive as a theoretical concept. This concept refers to preservation, history, and memory, and also evokes law, authority, and social order. Offered: AWSp.

SCAND 511 Books in Scandinavian Studies (5, max. 10)

Olivia N Gunn, Andrew Nestingen, Amanda Doxtater, Guntis Smidchens, Marianne Stecher Literary texts, genres, movements, themes, authorships, and/or the material culture of texts significant to the field which challenge categorizations of literary scholarship. Topics drawn from Nordic and Baltic literature. Offered: AWSp.

SCAND 512 Institutions in Scandinavian Studies (5, max. 10)

Andrew Nestingen, Amanda Doxtater, Christine Ingebritsen, Marianne Stecher, Olivia N Gunn Cultural, educational, governmental, or social institutions significant to the Nordic and Baltic region; or, practices and methods of research on institutions; or, representation of the institution in literature and film. Role of cultural institutions and the arts in shaping public discourse. Offered: AWSp.

SCAND 513 Methods in Scandinavian Studies (5, max. 10)

Amanda Doxtater, Christine Ingebritsen, Olivia N Gunn, Marianne Stecher, Andrew Nestingen Emphasis on cultural-studies approaches to cinema, folklore, language, literature, politics, and society.

Investigates methods of Scandinavian Studies by exploring the critical theory of various sub-disciplines and examples of current scholarship. Offered: AWSp.

SCAND 514 Media in Scandinavian Studies (5, max. 10)

Amanda Doxtater, Olivia N Gunn, Andrew Nestingen Cinematic texts, genres, movements, themes, authorships, and technologies significant to the field. Theories of film authorship. Applying theoretical understanding to the study of Scandinavian film, television, and online media. Topics drawn from Nordic and Baltic media. Offered: AWSp.

SCAND 515 Translation in Scandinavian Studies (5, max. 10)

Amanda Doxtater, Andrew Nestingen, Olivia N Gunn, Guntis Smidchens, Marianne Stecher Literary and technical translation from Scandinavian, Finno-Ugric, and Baltic languages into English. Key translation theories and their applications. Exercises language skills by practicing and making use of different translation techniques. Offered: AWSp.

SCAND 518 Foreign Language Teaching

Methodology (2) *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with GERMAN 518/SLAVIC 518; A.

SCAND 519 Modern Scandinavian Politics (5)

Analyzes the political, economic, and historical development of Sweden, Norway, Denmark, Iceland, and Finland from World War II to the present. Readings focus on domestic and foreign policies that distinguish these countries from other advanced industrial societies. Offered: jointly with POL S 519.

SCAND 520 Topics in Scandinavian Poetry (5, max. 15)

Seminar on selected periods of Scandinavian poetry: romanticism, symbolism, modernism, and contemporary poetry. Poetry examined in relation to the literary canon of each country and to Scandinavian literature as a whole. International influences also discussed.

SCAND 525 Topics in Scandinavian History (5, max. 15)

Seminar on selected topics in Scandinavian history.

SCAND 530 Old Norse Literature (3) Studies in the poetry and prose tradition of medieval Iceland and Norway.

SCAND 533 Interdisciplinary Approaches to Community in Scandinavia (5) Humanistic examination of community creation, maintenance, and change in the Nordic region. Examples drawn from folklore, literature, activism, popular culture, history. Focus on issues of gender, belief, and art in relation to community. Coursework includes both individual and collaborative assignments.

SCAND 543 Folk Literature (5) *G. Smidchens* This course surveys theories and methods for interpreting folk literature (folk tales and legends) in a variety of contexts, from oral performance through modern literary and film adaptations.

SCAND 565 Translation Workshop in Nordic and Baltic Languages (5) Examines translation theories and good practices within the field of translation. Introduces the most common translation tasks within pragmatic text translation and literary translation. Provides students opportunities to strengthen their professional skill set and get feedback from professional translators. Language of instruction and target language for translations is English.

SCAND 570 Scandinavian Auteurs (5, max. 10) *VLPA Nestingen* Seminar on auteur filmmakers in Scandinavian cinema, studying specific auteurs' bodies of work, theories of auteur cinema, and the history of auteurism in Scandinavian cinema. Offered: jointly with C LIT 574; AWSp.

SCAND 579 Eco-Capitalism (5) *Ingebritsen* Explores the idea of environmentalism and sustainability across societies. Compares and contrasts how prominent authors in the field assess the risks and opportunities of human effects on climate and ecology. Questions explored include: will ecological solutions be critical to the revival of the global economy? Why do place such as Europe adapt more readily to environmental challenges? Offered: jointly with JSIS A 529.

SCAND 580 Kierkegaard and Decadence in European Literature (5) *Sjavik* Examines Kierkegaardian thought and the literary practice of

various writers of Scandinavian and European decadence. Offered: Sp.

SCAND 581 August Strindberg and European Cultural History (5) *Adams* Seminar on Swedish dramatist, novelist, scientist, and painter August Strindberg (1849-1912), one of Europe's most influential artists, and one of the most important innovators of modern drama. Offered: Sp.

SCAND 582 Knut Hamsun and Early European Modernism (5) *Sjavik* Examines Knut Hamsun's early works and their relationship to early European modernist literature. Offered: W.

SCAND 590 Special Topics in Scandinavian Literature (1-5, max. 15)

SCAND 594 Modern Methods and Materials in Teaching Scandinavian and Baltic Languages (3) Theory and practice of communicative language teaching; current developments in foreign-language teaching; evaluation of teaching materials; includes attendance at the departmental and university-wide fall orientation; required for beginning teaching assistants of Scandinavian and the Baltic languages. May not be taken for credit if GRDSCH 615 already taken. Prerequisite: SCAND 518. Credit/no-credit only.

SCAND 595 Teaching Assistant Workshop (1) Focuses on topics in language pedagogy. Required for continuing teaching assistants in Scandinavian studies. Includes participation in the departmental and University-wide fall orientation teaching workshops. Prerequisite: SCAND 518; SCAND 594. Instructors: Brandl Credit/no-credit only. Offered: A.

SCAND 600 Independent Study or Research (*-) Prerequisite: permission of instructor.

SCAND 700 Master's Thesis (*-)

SCAND 800 Doctoral Dissertation (*-)

SWEDISH

SWED 101 First Year Swedish 1 (5) VLPA Fundamentals of oral and written Swedish, including introductory study of literature, film, and other

authentic texts. First in a sequence of three. Offered: A.

SWED 102 First Year Swedish 2 (5) VLPA

Fundamentals of oral and written Swedish, including introductory study of literature, film, and other authentic texts. Second in a sequence of three. Prerequisite: SWED 101 Offered: W.

SWED 103 First Year Swedish 3 (5) VLPA

Fundamentals of oral and written Swedish, including introductory study of literature, film, and other authentic texts. Third in a sequence of three. Prerequisite: SWED 102 Offered: Sp.

SWED 150 Intensive First-year Swedish (15)

Fundamentals of oral and written Swedish. Intensive practice in speaking, reading, and writing. Interactive classroom, computer-assisted learning, language and reading laboratories. Emphasis on contemporary Swedish culture and society. If Swedish is the student's language of admission, only 10 credits count towards graduation.

SWED 199 Foreign Study: Elementary Swedish (1-15, max. 15) Fundamentals of oral and written Swedish.

SWED 201 Second-year Swedish (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. First in a sequence of three.

SWED 202 Second-year Swedish (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Second in a sequence of three.

SWED 203 Second-year Swedish (5) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Third in a sequence of three.

SWED 299 Foreign Study: Intermediate Swedish (1-15, max. 15) VLPA Intensive practice in speaking, reading, and writing. Functional review of grammar. Discussion of culture and current events in Sweden.

SWED 300 Swedish Women Writers (5) VLPA Readings from works by Swedish women writers.

SWED 301 Topics in Swedish Literature and Culture (5, max. 15) VLPA Topics in Swedish literature, life, and civilization.

SWED 302 The Swedish Novel (5) VLPA Selected works by novelists of the nineteenth and twentieth centuries.

SWED 352 Strindberg and His Works (5) VLPA Representative short stories, dramas, autobiographical works, poems, and one novel.

SWED 395 Foreign Study: Swedish Area Studies (1-5, max. 10) I&S Courses in Swedish history, society, and/or politics.

SWED 399 Foreign Study: Topics in Swedish Literature and Culture (1-5, max. 15) VLPA Topics in Swedish literature, life, and civilization.

SWED 490 Supervised Reading (1-5, max. 10) Readings in a selected area of Swedish language, literature, or related fields.

SWED 510 Graduate Level Proficiency in Swedish (2-5, max. 15) Advanced training in graduate level proficiency in Swedish. Prerequisite: 15 credits of 300-400 level SWED courses. Instructors: Adams, Dubois Offered: AWSpS.

SLAVIC LANGUAGES AND LITERATURES

BOSNIAN/CROATIAN/MONTENEGRIN/SERBIAN

BCMS 401 First Year Bosnian/Croatian/Montenegrin/Serbian (5) Comprehensive introduction to spoken and written literary Bosnian, Croatian, Montenegrin, and Serbian. First in a sequence of three. Offered: A.

BCMS 402 First Year Bosnian/Croatian/Montenegrin/Serbian (5) Comprehensive introduction to spoken and written literary Bosnian, Croatian, Montenegrin, and Serbian. Second in a sequence of three. Prerequisite: BCMS 401, which may be taken concurrently during summer quarter. Offered: W.

BCMS 403 First Year Bosnian/Croatian/Montenegrin/Serbian (5) Comprehensive introduction to spoken and written literary Bosnian, Croatian, Montenegrin, and Serbian. Third in a sequence of three. Prerequisite: BCMS 402 Offered: Sp.

BCMS 404 Second-Year**Bosnian/Croatian/Montenegrin/Serbian (5) VLPA**

Continuation of BCMS 401, BCMS 402, BCMS 403; reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns through the reading of contemporary short stories in Bosnian, Croatian, Montenegrin, and Serbian. First in a sequence of three. Prerequisite: minimum grade of 2.0 in BCMS 403. Offered: A.

RUSS 523 Russian Literature of the Twentieth Century (5) Survey of twentieth-century Russian poetry and prose. Pre-revolutionary, Soviet, and emigre authors, trends, and genres. Includes survey of twentieth-century literary criticism as well, in particular Russian formalists and Mikhail Bakhtin.

RUSS 526 Modern Russian Literary, Cultural, and Film Studies (5, max. 15) Modern literature and film. Topics include post-colonialism, gender, reflections

of social upheavals, artistic experimentation, issues of commercialism in art, search for new cultural expressions and identity. Readings in both Russian and English. Offered: Sp.

RUSS 542 Seminar in Russian Poetry (5, max. 20) One specific problem or theme in Russian poetry, seen in its widest possible dimensions. Students read, in Russian, the literary works involved and become familiar with the social, historical, and philosophical backgrounds that inspire them.

RUSS 543 Seminar in Contemporary Russian Prose (5, max. 20) Analysis of Russian prose fiction. Selected authors and topics.

RUSS 554 History of the Russian Literary Language (5) Russian literary language from the eleventh through the twentieth centuries, with special attention to syntax and lexicon and to the development of notions of literary styles. Offered in Russian. Prerequisite: SLAV 565, or permission of instructor.

RUSS 570 Research Seminar in Russian Literature (5, max. 40) Working in consultation with a faculty adviser, students formulate a topic and prepare a 30-minute oral presentation to be delivered at the seminar and submit a written paper to be read and critiqued by all participants.

RUSS 577 Russian Folk Literature (5) Examines the artistic forms, varieties, and themes of the Russian folktale, its roots in pre-Christian Slavic religion, connections with myth and legend, adaptation for Soviet and modern Russian literature, film, and music.

RUSS 600 Independent Study or Research (*-)

SLAVIC LANGUAGES AND LITERATURES

SLAVIC 101 Slavic Lands and Peoples (5) I&S Introduces students to basic concepts regarding the whole body of present-day Slavs as well as the area inhabited by or under the influence of present-day Slavs. Uses latest achievements in technology and in social media advancements to retrieve relevant information from present-day Slavs themselves. Taught in English.

SLAVIC 110 The Slavic Languages (5) VLPA

Introduces the basic concepts of Slavic linguistics. Addresses the origin of the Slavs and major stages of their linguistic history. Considers Slavic languages and their peculiarities in detail. Taught in English.

SLAVIC 130 Introduction to Slavic Culture and Civilization (5) VLPA

Examines the culture of the Slavs, an ethno-linguistic group of peoples living primarily in Central/Eastern Europe. Among nations investigated: the Czech Republic, Russia, Poland, and Ukraine. Students gain a fundamental grasp of major issues and historical events of this region, expressed through culture. Offered: jointly with JSIS A 130.

SLAVIC 175 The Slavic Text and Its Context (2/3,

max. 10) VLPA A contextual study of a significant work or intellectual movement from a Slavic culture. Study includes literature, film, music, or art. Credit/no-credit only.

SLAVIC 200 Introduction to Slavic Literature (5)

VLPA *Gordana P Crnkovic* Introduces major Slavic literary works of different types (stories, novels, poetry), mostly from the 20th and 21st century, focusing on the intense "close reading" of these texts that identifies their main literary features. Excellent beginning training for the informed reading of any kind of literature. Taught in English.

SLAVIC 210 Introduction to Bilingualism (5)

VLPA/I&S K. DZIWIWIREK A multidisciplinary examination of bilingualism as a societal and individual phenomenon. Considers language versus dialect, diglossia, state language policies, language rights, indigenous languages, and linguistic minorities. Explores bilingualism and biculturalism as human experience and as indexes of identity and diversity. Includes a fieldwork project focused on linguistic diversity in the Pacific Northwest. Offered: W.

SLAVIC 223 East European Cinema (5, max. 20)

VLPA Emphasizes international cultural, artistic, and historical diversity by introducing select contemporary Eastern European film directors. Focuses on a single filmmaker and studies his/her opus in depth, both in his/her Eastern European country of origin and abroad. Special attention paid to Eastern European filmmakers in Hollywood.

SLAVIC 320 The Other Europe: Post-World War II East European Fiction (5) VLPA

Crnkovic Introduces post-WWII Eastern European fiction created during and after the communist era, both in Eastern European countries and in exile. Includes works by Polish, Czech, Yugoslav, post-Yugoslav, Hungarian, and Baltic writers. Taught in English.

SLAVIC 323 Masterpieces of East European Cinema (5) VLPA

Crnkovic Studies aesthetically most interesting films from Eastern Europe from the 1950s to present. Includes select films by Polish film icon Andrzej Wajda, the Czech 1960s New Wave, the Zagreb School of Animated Film, works by Eastern European women directors, as well as more recent internationally awarded and acclaimed films.

SLAVIC 351 Introduction to the History of Slavic Languages (5) VLPA

History of Slavic languages from Indo-European to present time, including development of writing systems and national languages. Principles of historical linguistics: sound change, analogy, semantic change, as well as relevance of historical linguistics to our knowledge of human development, ancestral culture, etc. Prerequisite: either SLAVIC 110, LING 200, or LING 400. Offered: Sp.

SLAVIC 370 What is in a Language Name? The Case of Bosnian, Croatian, Montenegrin, and Serbian (5)

VLPA Examines diverse phenomena related to the language known as Serbo-Croatian, and to the Bosnian, Croatian, Montenegrin, and Serbian languages. Explores concepts such as language death, birth, politics, standardization, and codification. The relation between dialect and language is observed in an ecology exhibiting ethnic and religious diversity.

SLAVIC 401 Research Methods and Writing (2)

Introduces writing and research in Slavic studies. Students review secondary literature in their chosen fields, rewrite and revise their own work to bring it up to discipline standard, and work collaboratively to evaluate their own work and that of their peers.

SLAVIC 423 East European Film (5, max. 15)

VLPA *Crnkovic* Studies major East European film makers who left their countries at some point in their careers. Compares East European and Western production of those directors who worked partially in the West. Offered: jointly with CMS 423.

SLAVIC 425 Ways of Meaning: Universal and Culture Specific Aspects of Language (5) VLPA/I&S, DIV K.

Dziwirek Focuses on the diversity of human experience and the social and cultural conditioning of language use. Language as a mirror of culture and national character. Universal and culture/language specific components in linguistic expression of emotions, courtesy/politeness and rudeness, prejudice and (in) sensitivities, linguistic expression of gender differences in different cultures. Offered: Sp.

SLAVIC 426 Ways of Feeling: Expressions of Emotions Across Languages and Cultures (5) I&S/VLPA K.

DZIWIWIREK Investigate the diversity of human experience by focusing on culture specific aspects of linguistic expression of emotion. Examination of the meaning and form of emotion words in different languages, facial expressions, cultural attitudes to emotion and emotional behavior, and gender-specific emotional expressions.

SLAVIC 470 Special Topics in Slavic Linguistics (3-5, max. 15) VLPA *Augerot, Belic, Dziwirek* Special topics in Slavic linguistics. Course offerings based on instructor's specialty and student demand. Offered: AWSp.

SLAVIC 481 East European Language in Eastern Europe (1-5, max. 45) VLPA Daily work in phonetic, grammar, conversation, translation, analytical reading, stylistics, newspaper analysis, and advanced syntax. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

SLAVIC 482 Research Project in Eastern Europe (3, max. 15) VLPA Supervised research in student's selected area of concentration, combined with language instruction tailored to the student's field. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

SLAVIC 483 East European Literature in Eastern Europe (3, max. 15) VLPA Selection of courses on specialized topics in East European literature; specific authors or periods. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

SLAVIC 486 East European Culture in Eastern Europe (3, max. 15) VLPA Lectures on various

aspects of Eastern European culture, complemented by visits to places of cultural historical interest. Provides an opportunity to earn credits while studying in Eastern Europe. Offered: AWSpS.

SLAVIC 490 Studies in Slavic Literatures (3-5, max. 15) VLPA Topics vary.

SLAVIC 498 Senior Honors Thesis ([3-9]-, max. 9) VLPA Directed research on a topic approved by department for a thesis presented in partial fulfillment of requirement for degrees "With College Honors" or "With Distinction." Offered: AWSpS.

SLAVIC 499 Directed Study or Research (1-5, max. 15) Individual study of topics to meet specific needs. By arrangement with the instructor and the Department of Slavic Languages and Literatures office. Prerequisite: permission of instructor and undergraduate adviser. Offered: AWSpS.

SLAVIC 501 Using Slavic Resources (2) Introduction to graduate studies in Slavic languages, literatures, and cultures. Discusses field of study and research materials and techniques employed.

SLAVIC 518 Foreign Language Teaching Methodology (2) *Brandl* Current foreign language teaching methods and approaches. Learning and teaching strategies and techniques for the four skills (reading, writing, speaking, listening) including cultural notions. Current and future trends in pedagogy and technology. Offered: jointly with GERMAN 518/SCAND 518; A.

SLAVIC 519 Slavic Language Pedagogy (3, max. 6) *Augerot, Belic* Introduction to current issues of foreign language pedagogy. Concentrates on the practical classroom application of methodological theory through lectures and micro-teaching presentation. Topics discussed and practiced include testing, proficiency teaching, teaching listening and reading skills, writing, teaching grammar, and computers. Offered: A.

SLAVIC 520 New Trends in Literary Theory (5) *Crnkovic* Explores recent theoretical trends which no longer search for a unified theoretical meta-narrative (i.e., post-structuralism or new historicism), but instead explore various literary genres (such as diary or fictional book reviews) and texts as the

primary terrain of theory. Bakhtin, Lem, Bruns, Corradi-Fiumara, Crnkovic, and others.

SLAVIC 550 Synchronic Slavic Linguistics (5)

Linguistic analysis of the phonology, morphology, and syntax of Russian and other Slavic languages. Investigation of current theoretical work in these areas.

SLAVIC 551 Introduction to the History of Slavic Languages (5)

History of Slavic languages from Indo-European to present time, including development of writing systems and national languages. Principles of historical linguistics: sound change, analogy, semantic change, as well as relevance of historical linguistics to our knowledge of human development, ancestral culture, etc. Prerequisite: either SLAVIC 110, LING 200, or LING 400. Offered: Sp.

SLAVIC 561 History of the East Slavic Languages (5)

Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of the Ukrainian and Byelorussian literary languages.

SLAVIC 562 History of the West Slavic Languages (5)

Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of literary Polish, Czech, Slovak, and Upper and Lower Sorbian languages.

SLAVIC 563 History of the South Slavic Languages (5)

Designed to acquaint majors in Slavic linguistics with the details of the historical development of the phonological and morphological structure of the South Slavic languages.

SLAVIC 565 Old Church Slavic (5) Rise and development of earliest Slavic literary language and a descriptive study of its orthography, phonology, morphology, and syntax. Readings from normalized texts.

SLAVIC 566 Readings in Old Church Slavic (4)

Reading and grammatical interpretation of a selected group of canonical texts, as well as some examples of the various later recensions of Old Church Slavonic. Prerequisite: SLAVIC 565.

SLAVIC 570 Special Topics in Slavic Linguistics (3-5, max. 15) Investigation and discussion of special topics in Slavic linguistics.

SLAVIC 600 Independent Study or Research (*-)

SLAVIC 700 Master's Thesis (1-10, max. 30) Limited to premaster graduate students. Prerequisite: permission of Supervisory Committee or graduate program adviser. Credit/no-credit only.

SLAVIC 800 Doctoral Dissertation (*-)

SLOVENIAN

SLVN 401 Introductory Slovene Language (3/5)

Introduction to spoken and written Slovene language. First in a two course sequence. Prerequisite: either BCS 403, BULGR 403, CZECH 403, GERMAN 103, ITAL 103, POLISH 403, ROMN 403, RUSS 103, RUSS 150, UKR 403, or status as a heritage speaker of Slovene. Instructors: Biggins

SLVN 402 Introductory Slovene Language (3/5)

Introduction to spoken and written Slovene language. Second in a two course sequence. Prerequisite: SLVN 401. Instructors: Biggins

SLVN 404 Second-Year Slovene Language (3/5)

Reinforces and expands foundational knowledge of Slovene language through grammatical topics and exercises, reading of authentic texts, composition, listening, oral presentations, and conversation. Prerequisite: SLVN 402. Instructors: Biggins

SLVN 406 Second-Year Slovene Language II (3-5)

VLPA Consolidates knowledge of Slovene language through advanced grammatical topics, exercises, reading, composition, listening, and conversation. Prerequisite: SLVN 404. Instructors: Biggins

SLVN 499 Directed Study in Slovene (1-5, max. 15)

Biggins Individual study of topics in Slovene culture, linguistics, or current affairs to meet specific needs, based primarily on readings of undapated Slovene texts. Offered: AWSp.

UKRAINIAN

UKR 320 Introduction to Ukrainian Literature and Culture (5) VLPA Provides an overview of Ukrainian culture: literature, film, music, theatre, art, and architecture, as well as an introduction to Ukrainian cultural life. Taught in English.

UKR 401 First-Year Ukrainian (5) Introduction to spoken and written Ukrainian. First in a sequence of three.

UKR 402 First-Year Ukrainian (5) Introduction to spoken and written Ukrainian. Second in a sequence of three. Prerequisite: UKR 401, which may be taken concurrently.

UKR 403 First-Year Ukrainian (5) Introduction to spoken and written Ukrainian. Third in a sequence of three. Prerequisite: UKR 402, which may be taken concurrently.

UKR 404 Second-Year-Ukrainian (5) VLPA
Continuation of UKR 401, UKR 402, UKR 403. Reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns. Prerequisite: Minimum grade of 2.0 in UKR 403
Offered: A.

UKR 405 Second-Year-Ukrainian (5) VLPA
Continuation of UKR 404. Reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns. Prerequisite: minimum grade of 2.0 in UKR 404
Offered: W.

UKR 406 Second-Year-Ukrainian (5) VLPA
Continuation of UKR 405. Reinforces basic grasp of language and enlarges both vocabulary and command of grammatical patterns. Prerequisite: minimum grade of 2.0 in UKR 405
Offered: Sp.

UKR 420 Literature, Film, and Culture of Ukraine (5) VLPA Representative prose works by leading Ukrainian authors. Shows originality of Ukrainian literature through acquaintance with the peculiar historical and political situation of Ukraine. Offered in English.

SOCIOLOGY

SOC 110 Survey of Sociology (5) I&S Human interaction, social institutions, social stratification, socialization, deviance, social control, social and cultural change. Course content may vary, depending upon instructor.

SOC 111 American Society (5) I&S Explores the power of social structures using examples drawn primarily from the American culture. The impact of social institutions, the emergence of concrete patterns of social relations which organize and regulate social life and the inequality inherent in most social structures.

SOC 195 Study Abroad: Sociology (2-5, max. 10) I&S Lower-division sociology courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

SOC 201 Special Topics in Sociology (3-5, max. 10) I&S Topics of contemporary interest taught at an introductory level. Topics will vary.

SOC 211 Stability and Change in American Society (5) I&S Examines two views of American life that dominate public discourse: one, that the United States is the best country in the world, the other that it is in decline. Addresses questions like: what is the United States really like; what values do Americans share; how do their values affect success and hope for a better society?

SOC 212 Evolution and Revolution: An Introduction to the Study of Comparative Social Change (5) I&S, DIV Examines the major aspects of human societies, including political and economic systems, family structure, social stratification, and demographic patterns as influenced by environmental conditions, technology, cultural traditions, and legacies of prior history and relationships to other societies.

SOC 215 Introduction to Urban Sociology (5) I&S Introduces the field of urban sociology. Focuses primarily on urban dynamics in the United States with attention to the global context in which they operate.

SOC 218 War, Peace, and the Sociology of Survival (5) I&S Explores war, peace, and how people live in situations of war. Focuses on conversations at the macro-level, addressing politics and security, and the micro-level, how civilians survive in the context of war.

SOC 220 Introduction to Sociological Methods (5) I&S, QSR Familiarizes students with the logic of analysis in social sciences. Students learn to recognize good research design, understand and interpret main arguments employing different methods, and evaluate whether research findings support stated conclusions.

SOC 221 Statistical Concepts and Methods for the Social Sciences (5) NW, QSR Develops statistical literacy. Examines objectives & pitfalls of statistical studies; study designs, data analysis, inference; graphical & numerical summaries of numerical & categorical data; correlation and regression; estimation, confidence intervals, & significance tests. Emphasizes social science examples and cases. May only receive credit for one of STAT 220, STAT 221/CS&SS 221/SOC 221, or STAT 290. Offered: jointly with CS&SS 221/STAT 221; AWSp.

SOC 222 Sociology of Sport (5) I&S *Weis* Introduction to the sociological analysis of sport. Issues discussed include the history, definition, and functions of sport; role of sport in the socialization of children; the relationship between sport and values; athletics within the social organization of education; deviance, crime, and violence in sport; the business and economics of sport.

SOC 223 Sociology of Rock and Roll (5) I&S Sociological analysis of a very influential and popular musical art form, from its origins in the first half of the twentieth century to more contemporary social contexts. Examines the roles of race relations, social class, gender, inequalities, region, genre, commercial exploitation, and technology in the evolution of rock and roll.

SOC 225 Data and Society (3/5) I&S Social implications of the digital revolution, including ethical issues associated with algorithmic design and privacy. Discusses data science as a new occupation that uses data to understand or influence people's behavior. Students will use a sociological lens to

explore how our increasingly digital lifestyle changes institutions and social relations.

SOC 230 Introduction to Racial and Ethnic Health Disparities in the United States (5) I&S, DIV Examines health status and healthcare disparities among racial/ethnic minority groups in the United States. Utilize sociological, demographic, (social) epidemiological, and (social) psychological concepts to introduce students to racial/ethnic health disparities research.

SOC 235 Representations of Disability in Popular Culture (5) I&S, DIV Social construction of 'disability' reflected in and shaped by popular culture. Examples from sports coverage, film, television, fashion, and art both by and about disabled people. Ways in which disability representations in the media reify, problematize, and/or challenge marginalization of this social status. Offered: jointly with CHID 235/DIS ST 235.

SOC 240 Introduction to Social Psychology (5) I&S Introduction to social psychology with an emphasis on sociological perspectives and problems.

SOC 247 Contemporary Social Movements (5) I&S Introduction to theory and research on national-level collective mobilizations organized for political change. Emphasis on how political, organizational, and cultural factors shape social movement emergence and development, and individual participation.

SOC 250 Media and Society (5) I&S Explores how modern media impacts society. A significant portion of the course will be dedicated to the emerging effects of new media, such as online reporting and social networking applications, on the current political and social landscape.

SOC 260 African American Family (5) I&S, DIV Explores the structures and functioning of various types of black families. Single-parent families, two-parent families, extended families, and consensual families are explored. Their consequences for male/female relationships are linked and critiqued. Offered: jointly with AFRAM 260.

SOC 261 The African American Experience through Literature (5) VLPA/I&S Instructs students in hermeneutical and sociological methods of analyses.

Analyzes selected novels, essays, poems, short stories, and plays with the purpose of understanding the structures and functions of both society and personality. Offered: jointly with AFRAM 261.

SOC 266 Introduction to Labor Studies (5) I&S Conceptual and theoretical issues in the study of labor and work. Role of labor in national and international politics. Formation of labor movements. Historical and contemporary role of labor in the modern world. Offered: jointly with HSTCMP 249/POL S 249.

SOC 270 Social Problems (5) I&S, DIV Processes of social and personal disorganization and reorganization in relation to poverty, crime, suicide, family disorganization, mental disorders, and similar social problems.

SOC 271 Introduction to the Sociology of Deviance and Social Control (5) I&S Examination of deviance, deviant behavior, and social control. Deviance as a social process; types of deviant behavior (e.g., suicide, mental illness, drug use, crime, "sexual deviance," delinquency); theories of deviance and deviant behavior; nature and social organization of societal reactions; and social and legal policy issues.

SOC 275 Murder (5) I&S Introduces topics related to the crime of murder, including: laws of homicide; research on the characteristics of victims, killers, and murders; theories of murder and related violence; investigation strategies; and crime and control policies.

SOC 287 Introduction of the Sociology of Sexuality (5) I&S, DIV Investigates sexuality on the basis of social construction of norms and values, within the context of gender, race, class, and sub-cultures and in the social control of sexuality and why it is so highly regulated. Looks for social rather than biological or personal explanations for why human sexuality is conceptualized or practiced in a certain way.

SOC 292 Who Gets Ahead? Public Schooling in America (5) I&S, DIV Addresses fundamental questions about the relationship between education and society. Examines why some students learn more and advance further than others; what factors shape how schools are run/organized and which materials are taught; how race/class/gender affect

students within schools; how schools maintain our economic system and can become more effective.

SOC 299 Sociology Interest Group (2) I&S Provides opportunity for students new to the major, or contemplating the major, to meet twice weekly in a small group to discuss issues relating to two designated five-credit sociology courses. Concurrent enrollment in the two five-credit designated courses required. See department adviser.

SOC 300 Foundations of Social Inquiry (5) I&S Covers what makes social science a science, the components of good research design, and what counts as valid evidence for sociological claims. Pays special attention to links between theory, research questions, and data. Offered: AWWSpS.

SOC 301 Special Topics in Sociology (3-5, max. 10) I&S Topics of contemporary interest taught at an intermediate level. Topics will vary.

SOC 306 War (5) I&S Origins and conduct of war; readings from anthropology, political science, economics, and history, as well as novels and some recent works on the arms-control controversy. Modern forms of warfare, including guerrilla war, world war, and nuclear war. Offered: jointly with JSIS B 301.

SOC 316 Introduction to Sociological Theory (5) I&S Introduction to sociological theory. Includes classical theorists Adam Smith, Karl Marx, Emile Durkheim, and Max Weber and their influence on contemporary theoretical debate.

SOC 320 Evaluating Social Science Evidence (5) I&S, QSR A critical introduction to the methods used to collect data in social science: surveys, archival research, experiments, and participant observation. Evaluates "facts and findings" by understanding the strengths and weaknesses of the methods that produce them. Case based. Offered: jointly with CS&SS 320/STAT 320.

SOC 321 Data Science and Statistics for Social Sciences I (5) I&S, QSR Introduction to applied data analysis for social scientists. Focuses on using programming to prepare, explore, analyze, and present data that arise in social science research. Data science topics include loading, cleaning, and exploring data, basic visualization, reproducible

research practices. Statistical topics include measurement, probability, modeling, assessment of statistical evidence. Lectures intermixed with programming and lab sessions. Offered: jointly with CS&SS 321/STAT 321; W.

SOC 322 Case-Based Social Statistics II (5) I&S, QSR Continuation of CS&SS 321/SOC 321/STAT 321. Progresses to questions of assessing the weight of evidence and more sophisticated models including regression-based methods. Built around cases investigating the nature and content of statistical principles and practice. Hands-on approach: weekly data analysis laboratory. Prerequisite: CS&SS 321/SOC 321/STAT 321, or permission of instructor. Offered: jointly with CS&SS 322/STAT 322.

SOC 328 Methodology of Sociological Research (5-) I&S, QSR Logic of formulating, testing, and modifying hypotheses. Methods of producing social data (survey research, evaluation research, field observation) and utilizing stored data (census tapes, historical materials). Methods of quantitative data analysis techniques commonly used in contemporary sociological analysis. Not open for credit to students who have taken SOC 320.

SOC 329 Methodology of Sociological Research (-5) I&S, QSR Logic of formulating, testing, and modifying hypotheses. Methods of producing social data (survey research, evaluation research, field observation) and utilizing stored data (census tapes, historical materials). Methods of quantitative data analysis techniques commonly used in contemporary sociological analysis. Not open for credit to students who have taken SOC 320 or SOC 323.

SOC 330 Human Ecology (5) I&S Factors and forces that determine the distribution of people and institutions.

SOC 331 Population and Society (5) I&S Population growth and distribution, population composition, population theory, urbanization. Determinants and consequences of fertility and mortality trends and migration in economically developed and underdeveloped areas.

SOC 337 Social Construction of Madness and Mental Health in the United States (5) I&S The construct of "mental health" and mental "un-health" from a sociological perspective. How categories such

as mental illness, intellectual and developmental disability, cognitive impairment, and Mad Studies developed in the United States. Offered: jointly with CHID 337/DIS ST 337.

SOC 340 Symbolic Interaction (5) I&S Examines the role of language, culture, and the symbolic environment in shaping interpersonal processes.

SOC 341 Tutoring Sociology (2-4, max. 4) Trains students to serve as tutors in designated courses. Teaches how to assist with writing assignments, explain course material, and lead group discussions. Credit/no-credit only.

SOC 344 Cognitive Social Psychology (5) I&S Cognitive structures and processes and their antecedents and consequences, both societal and individual. Reciprocal influences of social roles, social institutions, and social cognition.

SOC 345 Sects and Violence: Cults, Religious Innovation, and Social Conflict (5) I&S Examines controversial religious groups often called cults. Uses sociological lenses to examine cults' occasionally catastrophic conflicts with government authorities, established religious organizations, and anti-cult movements.

SOC 346 Group Processes (5) I&S Systematic analysis of social processes in small groups, including conformity, deviance, cooperation, competition, coalition formation, status and role differentiation, inequity, communication, and authority and power. A variety of methods of research are considered: field studies, field experiments, laboratory studies, and the simulation of social processes.

SOC 347 National Social Movements: Current Trends and Explanations (5) I&S Introduction to theory and research on a specific form of social movement: national-level collective mobilizations organized for political change. Emphasizes how political, organizational, and cultural factors shape social movement emergence and development. Focuses on American activism, New Left, women's movements, the abortion conflict, gay/lesbian activism, and Central American Peace movement.

SOC 351 Intimate Relationships (5) I&S Explores the nature of love, desire, and commitment between heterosexual and homosexual couples, as well as

parenting as a dyadic act. Evaluates political and social pressures and preferences on these topics within our society in a comparative context.

SOC 352 The Family (5) I&S The family as a social institution. Historical changes and societal variation in family patterns. Changes over the life cycle. Alternative family forms.

SOC 353 The Family in Cross-Cultural Perspective (5) I&S Form, content, and functions of families through case studies of different countries. Family organization, including family structure, inheritance, sexual division of labor, and socialization with attention given to life-cycle stages.

SOC 355 Social Change in Latin America (5) I&S Explores cultures, identities, political economy, and popular mobilization in Latin America. Examines relations of power and production between social classes and ethnic groups, as well as ideologies and intellectual movements. Offered: jointly with JSIS A 355.

SOC 356 Society and Politics (5) I&S Causes of political change in democratic countries, including public opinion, social movements, interest group activity, and party organization. Offered: jointly with POL S 356.

SOC 357 Sociology of Religion (5) I&S The relations between religion, polity, economy, and social structure; in particular, the political, economic, and social impact of religious beliefs and organizations, as well as the social determination of these beliefs and organizations; the rise of secularism, the rationalization of modern life, and the emergence of political quasi-religions.

SOC 360 Introduction to Social Stratification (5) I&S, DIV Social class and social inequality in American society. Status, power, authority, and unequal opportunity are examined in depth, using material from other societies to provide a comparative and historical perspective. Sociological origins of recurrent conflicts involving race, sex, poverty, and political ideology.

SOC 362 Race Relations (5) I&S, DIV Reviews social science perspectives on race and ethnicity. Explores sociological definitions and understandings associated with race and ethnicity and the

construction of identities. Examines different issues that impact individuals' and groups' life chances.

SOC 363 Ethnicity, Business, Unions, and Society (5) I&S Interrelationships of ethnicity, business, unions, and the larger society. Examines financial and sociological structure of business and manufacturing sector, how this sector performs, and consequences of performance for selected ethnic groups in United States. Offered: jointly with AES 361.

SOC 364 Women in the Social Structure (5) I&S Gender and social institutions; the family, politics, education, medicine, law, the labor force. Intersection of gender with other minority statuses such as race, age, socioeconomic status, and sexual orientation. Structural, ideological, and historical determinants of gender relations.

SOC 365 Urban Community (5) I&S Comparative and analytic study of organization and activities of urban groups.

SOC 366 Sociology of Organizations (5) I&S Introduction to the sociological study of organizations including what organizations are, where they come from, and how they relate to individuals, other organizations, and other institutions of society.

SOC 368 Sociology of Black Americans (5) I&S Socio-cultural context of the Black person's environment and consequences of interaction with that environment.

SOC 371 Criminology (5) I&S Survey of legal definitions, types of criminal behavior, trends and patterns, recidivism, characteristics of offenders, environmental influences, diagnostic methods, prediction, theories of crime and delinquency prevention, social policy.

SOC 372 Crime, Politics, and Justice (5) I&S Examines role of police, courts, and corrections in criminal justice; investigates critical legal and sociological factors and perspectives that shape criminal procedure; considers the relationship between criminal procedure and wider concerns of justice and equality in society. Offered: jointly with LSJ 375.

SOC 374 Law and Society (5) I&S Introduces major issues of the sociological foundations and implications of legal institutions; examines social life within legal institutions, the individual and collective justice, the malleability of precedent, and truth and the effects of inequality on legal outcomes. Encompasses legal practice and social science.

SOC 375 Sociology of Juvenile Justice (5) I&S Harris Overviews the United States juvenile justice system and related societal issues, including racial and ethnic disproportionality, the criminalization of delinquent offenders, and the future of the juvenile justice system.

SOC 376 Drugs and Society (5) I&S Explores the questions of drug use and abuse, social and political factors that shape response to their use, and the social conditions under which drug use is likely to have adverse consequences. Also covers U.S. drug control policy, the political economy of legal and illegal drugs, and political aspects of drug use. Offered: jointly with LSJ 376.

SOC 377 The American Jewish Community (5) I&S, DIV Examines how American Jews adapt to a changing world. Explores impact of diverse immigration, acculturation, social mobility, social justice movements, and changing relations between Jews and non-Jews. Encompasses concerns that all communities have adapting to change, when they are also agents of change. Offered: jointly with JEW ST 377.

SOC 378 Contemporary Jewish American Identities (5) I&S, DIV Introduction to the debates about post-Holocaust Jewish identities in multicultural America. Explores whether a distinctive Jewish community is headed toward assimilation, experiencing revival, or merely transforming the multiple ways Jewish experience is lived. Topics include new Jewish immigrants, the new Orthodox, Black Jews, Jewish feminism, children of Holocaust survivors. Offered: jointly with JEW ST 378.

SOC 379 Environmental Sociology (5) I&S/NW S. ASAH Social processes by which environmental conditions are transformed into environmental problems; scientific claims, popularization of science, issue-framing, problem-amplification, economic opportunism, and institutional sponsorship. Examination of social constructs such as ecosystem,

community, and free-market economy. Use of human ecology to assess whether the current framing of environmental problems promotes ecological adaptability. Offered: jointly with ENVIR 379/ESRM 371; A.

SOC 395 Study Abroad: Sociology (2-5, max. 15) I&S Upper-division sociology courses for which there are no direct University of Washington equivalents, taken through a University of Washington study abroad program.

SOC 399 Undergraduate Internship (2-5, max. 10) Students serve in approved internships. Credit/no-credit only.

SOC 401 Special Topics in Sociology (5, max. 15) I&S Selected topics taught at an advanced level. Topics vary and may be substantive, theoretical, or methodological. Designed for Sociology majors and others with permission.

SOC 402 Sociology in Practice: Education Service Program (5) I&S Combines an experience in tutoring with critical reflection on practical and theoretical issues in education. Gives practical classroom experience as well as insight into the complexity of public schools and issues in education policy. Students may receive a maximum of 10 credits from SOC 402, SOC 403, SOC 404, and SOC 494.

SOC 403 Sociology in Practice: Applied Community Research Program (5) I&S Participation in a project-based research group for a real-world client, addressing complex and enduring problems of urban life. Students may receive a maximum of 10 credits from SOC 402, SOC 403, SOC 404, and SOC 494.

SOC 404 Sociology in Practice: Community/Civic Internship Program (5) I&S Combines real-world benefits of internships with critical reflections provided in a seminar. Students intern as local agencies and organizations, and may either come with their own internship or apply for specialized internships through the Sociology Department. Students may receive a maximum of 10 credits from SOC 402, SOC 403, SOC 404, and SOC 494.

SOC 410 History of Sociological Thought (5) I&S Contributions of individual theorists (from Comte to the present) ; emphasis on cumulative development

of concepts and principles, emergence of sociology as a science, probable future developments.

SOC 415 The City and Neighborhood Dynamics (5)

I&S Focuses on a diverse set of topics including the changing social meaning of community, the effects of the urban setting on social interactions and attitudes, urban poverty, residential segregation, and the neighborhood dynamics of crime. Students have the opportunity to contribute directly to research- and policy-related projects.

SOC 416 Sociological Theory (5) I&S Theories of individual action, social order, and institutional change. Cumulative development of solutions rather than on works of given theorists. Theories of social order. How sociological treatments of these issues compare with those offered by economists and other social scientists.

SOC 420 Sociology of Food (5) I&S Provides a historical and comparative overview of what people eat and how this relates to other types of social differentiation.

SOC 430 Social Determinants of Health and Health Disparities (5) I&S, DIV Examines the social conditions related to the health of populations. How patterns of health vary by social class, race/ethnicity, and gender and some mechanisms that produce and maintain these differences.

SOC 432 Population and Modernization (3)
I&S *Hirschman, Lavelly* Examines role of demographic factors in the process of social modernization and economic growth. The approach is both historical, focusing on populations of developed countries since 1700, and analytic, stressing the attempts made by different disciplines to model demographic relationships, with attention to less-developed regions. Offered: jointly with JSIS D 435.

SOC 434 Demographic Issues in Asia (3-5)
I&S *Hirschman, Lavelly* Contemporary Asian countries face a number of issues with demographic components, including environmental and resource issues, ethnic rivalries, international migration, and public health. Addresses a set of these issues by focusing on the demography of one or more countries in Asia. Offered: jointly with JSIS A 431.

SOC 440 Comparative Social Problems (5) I&S

Examines a variety of social problems from a comparative perspective. Issues such as epidemics, slavery, and genocide within and beyond U.S. borders analyzed with historical and contemporary examples.

SOC 445 Religious Movements: The Sociology of Cults and Sects (5) I&S

Investigates the organizational dynamics of new religious movements. Seeks to understand why 'cults' emerge and how they proliferate or decay. Examines conflicts within established churches, counter-movements, and the state.

SOC 447 Social Movements (5) I&S Social movements as collective attempts to change society: why people join; characteristics of successful and unsuccessful movements; consequences of social movement activities.

SOC 450 Political Economy of Women and Family in the Third World (5) I&S

Theoretical and empirical aspects of the political economy of women and the family in the Third World during the process of development, with a focus on labor. Main theoretical approaches examined and applied to case studies from Asia and Latin America. Offered: jointly with JSIS D 450.

SOC 451 Theory and Process of Social Change (5)

I&S Basic trends in economic and social development; comparative and historical analysis of social and economic changes; the rise of capitalist societies.

SOC 456 Political Sociology (5) I&S

Relationships between social change and political change. Focus on selected issues, including social bases of democracy, political organization, elections, and consequences of public policy.

SOC 459 The New Inequality (5) I&S, DIV

Examines "who gets what" in contemporary societies. Students will learn not only how income, wealth, housing, and health are unequally distributed, but how individuals or groups differ in access to "public goods" or the protection of legal rights and liberties. Examines some of the leading explanations for these inequalities, and applies these theories to specific social problems in the U.S. and around the world.

SOC 460 Social Differentiation (5) I&S Analysis of societal organization based on sex, age, residence, occupation, community, class, caste, and race.

SOC 461 Comparative Ethnic Race Relations in the Americas (5) I&S Sketches the ethn racial systems operating in American society. Studies these systems as systems and examines their institutional and interpersonal dynamics. Compares ethn racial systems in order to arrive at empirical generalizations about race/ethn relations in the Americas. Offered: jointly with AES 461.

SOC 462 Comparative Race and Ethnic Relations (5) I&S, DIV Race and ethnicity as factors of social differentiation in a number of Western and non-Western societies in Europe, Africa, Asia, and the Americas. Offered: jointly with AES 462.

SOC 463 African-American Political Thought (5) I&S Examines the historical and sociological experiences of African-Americans from slavery, emancipation, mobilization, and organization, to present socioeconomic situation. Reviews the political philosophy of black leaders from the early black conventions to today, the black experience in the American education system, and origins and evolution of the black middle class.

SOC 464 Contemporary Society in the People's Republic of China (5) I&S *Lavelly* Separate development of rural and urban social institutions in the People's Republic of China since 1949 from a sociological perspective. Family and marriage, social control, educational institutions. Dilemmas of contemporary China and reasons for institutional change. Offered: jointly with JSIS A 464.

SOC 465 Complex Organizations (5) I&S Examination of the structure of complex organizations. Attention to developing generalizations applicable to industrial organizations, businesses, hospitals, prisons, labor unions, governments, universities, armies, and similar formally instituted organizations. The major focus is on empirical research, with some attention to methodological problems in studying such organizations.

SOC 466 Economic Sociology (5) I&S Changing focus of field; cultural variation, work, and the worker; technology, society, and the evolution of industrial forms; types and forms of industrial organizations;

industrial organizations as social and technical systems; issues of control, process, and change; the individual in social and technical systems.

SOC 467 Immigration and Ethnicity (5) I&S, DIV Focus on contemporary American diversity - the multiethnic, multicultural society created by recent immigrants from Latin America, Asia, and by people of European, African, and American Indian origins; its issues and debates, including ethnic conflict, integration, multiculturalism, and assimilation, as viewed through comparisons with the past and with other societies.

SOC 468 Sociology of Occupations and Professions (5) I&S Frameworks for study of occupations and professions; occupational structure and mobility in American society in relation to adult socialization and career development; occupational and professional associations and society.

SOC 469 Balkan Societies (5) I&S Examination of the roots of Balkan social problems (economic backwardness, minority-group conflicts, peasant problem) , the failure of pre-1945 attempts to solve these problems, the post-1945 communist failures, the causes of the upheavals of 1989, and the prospects for success in the 1990s.

SOC 470 Contemporary Southeast Asia (5) I&S Sociological survey of Southeast Asia, including development, demographic changes, family structure, and ethnic relations.

SOC 472 Juvenile Delinquency (5) I&S Factors in delinquency, juvenile courts. Programs of treatment and prevention.

SOC 476 Miscarriages of Justice (5) I&S Examines legal and social factors that shape criminal case outcomes, analyzing how one type of miscarriage of justice - wrongful conviction - occurs. How can cases of wrongful conviction be explained? Why are some people, against whom there is only weak evidence, convicted-and sometimes even executed? Offered: jointly with LSJ 476.

SOC 481 Issues in Analytic Sociology (5, max. 15) I&S Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

SOC 482 Issues in Analytic Sociology (3, max. 9) I&S Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

SOC 483 Issues in Analytic Sociology (1-3, max. 9) I&S Examination of current issues in sociological analysis. Specific content of the course varies according to recent developments in sociology and the interests of the instructor.

SOC 487 Sociology of Gender and Sexuality (5) I&S Addresses the intersection of gender and sexuality in U.S. society, social institutions and movements, families, and the individual. Topics include the history of sexuality as practiced and politicized since colonial times, major theoretical approaches to sexuality, and how gender and other social status characteristics influence the meanings of sexuality.

SOC 490 The Urban Underclass (5) I&S Examines underlying issues which have led to the emergence and perpetuation of an underclass within an affluent society. Explores some of the consequences for these people and for this society. Considers policies that might be used to address problems of the urban underclass.

SOC 491 Sociology of Science (5) I&S

SOC 492 Sociology of Education (5) I&S Emphasizes the ways in which schools and colleges reproduce, reinforce, and challenge prevailing social, economic, and political relationships. Examines the structures, practices, content, and outcomes of schooling and its relationship to the wider society as well as the rise and dynamics of the modern education system.

SOC 494 Practicum (5, max. 10) I&S Exploration of selected sociological concepts or problems through advanced practical experience in research, internships, or other applications. Topics vary.

SOC 496 Honors Seminar ([3/5]-) I&S Exploration of selected sociological problems with emphasis on research experience and the interpretation of data. For sociology majors only, primarily for Honors students. Offered: A.

SOC 497 Honors Seminar (-[3/5]-) I&S Exploration of selected sociological problems with emphasis on research experience and the interpretation of data. For sociology majors only, primarily for Honors students. Offered: W.

SOC 498 Honors Thesis (1-5, max. 5) I&S Preparation of Honors thesis. Sociology majors only. Credit/no-credit only.

SOC 499 Undergraduate Independent Study or Research (2-5, max. 10) Credit/no-credit only.

SOC 500 Teaching Sociology as a Teaching Assistant (1) Techniques of quiz section administration, advising of students, and student evaluation important to successful teaching as a Teaching Assistant. Students develop presentations and classroom materials and develop and grade student examinations. Prerequisite: admission to graduate program in sociology. Credit/no-credit only.

SOC 501 Proseminar (1-3, max. 3) Introduction for first-year graduate students to substantive areas of sociology, research and information resources, and issues in graduate education and professional socialization. Credit/no-credit only. Offered: AWSp.

SOC 502 Seminar on Teaching Sociology (3) Techniques of lecturing, leading discussion, evaluating student performance, and other pedagogical skills ancillary to successful teaching. Students develop a course and obtain videotaped feedback of presentations.

SOC 503 Seminar on Writing Social Science (3) Techniques, skills, and strategies helpful for publishing in the social sciences. Includes writing and revision of own work and evaluation of the writing of other students. Also includes social scientific analysis of writing and other forms of academic communication. Prerequisite: completion of MA.

SOC 504 Applied Social Statistics (3-) Applications of statistics in sociology and related social sciences. Emphasis on problems of analysis with imperfect data. Probability in statistical inference. Analysis of variance; contingency table analysis, nonparametric procedures; regression analysis in social research.

SOC 505 Applied Social Statistics (-3) Applications of statistics in sociology and related social sciences. Emphasis on problems of analysis with imperfect data. Probability in statistical inference. Analysis of variance; contingency table analysis, nonparametric procedures; regression analysis in social research.

SOC 506 Methodology: Quantitative Techniques in Sociology (3) Applied regression analysis with emphasis on interactive computer graphics techniques and interpretation. Application to typical sociological problems. Offered: jointly with CS&SS 507.

SOC 507 Statistical Classification and Measurement (3) Application of statistical principles and methods to problems of classification and measurement in social research.

SOC 508 Logic of Social Inquiry (3) Study design from problem formulation to the analysis and interpretation of data.

SOC 509 Practicum in Data Analysis (3) Introduction to selected programs for data analysis and practice in their application. Practice in coordination of research problem, data, and mode of analysis into a coherent, interrelated set. Interpretation of results. Offered: A.

SOC 510 Seminar in Sociological Theory (3) Macrosociological theories; functionalism and neoevolutionism; conflict and consensus approach; comparative strategies; models and long-range theories; ideology and sociology. From Marx and de Tocqueville to contemporary literature.

SOC 511 Classical Social Theory (3) Study of classical masters of social theory: Marx, Durkheim, and Weber, their precursors, and their immediate successors.

SOC 512 Review of Mathematics for Social Scientists (1) Reviews basic mathematical skills needed for a meaningful understanding of elementary statistics, data analysis, and social science methodology. Overview of core knowledge required for graduate courses in quantitative methods in social sciences. Topics include discrete mathematics, differential and integral calculus, review of matrix algebra, and basic probabilistic and

statistical concepts. Credit/no-credit only. Offered: jointly with CS&SS 505.

SOC 513 Demography and Ecology (3) Theories and research on human fertility, mortality, mobility, migration, and urbanization in social/economic context. Comparative and historical materials on Europe, the United States, and the Third World. Offered: jointly with CSDE 513.

SOC 514 Current Theories in Social Psychology (3) Broad graduate-level introduction to the theories in the field of social psychology.

SOC 515 Current Research in Social Psychology (3) *Howard* Broad graduate-level introduction to the research in the field of social psychology.

SOC 516 Organizations (3) Broad graduate-level introduction to the theory and research on complex organizations.

SOC 517 Deviance and Social Control (3) Survey of current research on deviant behavior and mechanisms of social control; definitions and forms of deviant behavior, causal analysis, and legal or other methods of social control.

SOC 518 Social Stratification (3) Intensive preparation in theoretical, methodological, and substantive topics in social stratification.

SOC 519 Fieldwork: Observation and Interviewing (3-) Perspective, logic, and techniques of qualitative social research and analysis. Nature and uses of intensive interviewing, participant observation, and analytic ethnography. Application of field research principles. Research project required in addition to reading and analysis of classic studies.

SOC 520 Fieldwork: Observation and Interviewing (-3) Logic and techniques of qualitative social research and analysis. Intensive interviewing, participant observation, qualitative data analysis (including applications of data base technology, problem reformulation, and techniques of visual documentation) . Results of student work reported and discussed in class.

SOC 524 Master's Thesis Research Seminar (1, max. 3) Facilitates the development of a thesis and its

execution. Forum for refining research questions, presenting work in progress, and receiving feedback from instructor and other students on ideas and written work. Credit/no-credit only.

SOC 526 Causal Approach to Theory Building and Data Analysis (3) Theory construction and testing from a causal models perspective. Path analysis, standardized versus unstandardized measures, feedback models, identification problems, estimation in overidentified models, difference equations, differential equations, stability conditions. Multiplicative models as alternatives to additive ones. Causal approach to measurement error.

SOC 527 Measurement of Basic Sociological Concepts (3) Conceptualization and measurement problems in sociology, using major concepts as illustrations of basic issues. Causal approach to measurement to deal with problems of indirect measurement, cross-level measurement problems, aggregation and disaggregation. Consequences of crude measurement for data analyses. Prerequisite: SOC 504.

SOC 528 Seminar on Selected Statistical Problems in Social Research (3) Prerequisite: SOC 506.
Instructors: Raftery

SOC 529 Structural Equation Models for the Social Sciences (3) Structural equation models for the social sciences, including specification, estimation, and testing. Topics include path analysis, confirmatory factor analysis, linear models with latent variables, MIMIC models, non-recursive models, models for nested data. Emphasizes applications to substantive problems in the social sciences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with CS&SS 526.

SOC 530 Urbanism and Urbanization (3) I&S Human population distribution and migration patterns. Causes and consequences of world urbanization. Spatial and social patterns in the metropolis. Aggregate population movements and selectivity of migrants.

SOC 531 Fertility and Mortality (3) I&S Theories of fertility and mortality, demographic transitions, individual variations. Specific analytic approaches.

Familiarity with basic fertility and mortality measures, and with the life table, is assumed.

SOC 533 Research Methods in Demography (3) Basic measures and models used in demographic research. Sources and quality of demographic data. Rate construction, standardization, the life table, stable population models, migration models, population estimation and projection, measures of concentration and dispersion, measures of family formation and dissolution. Offered: jointly with CS&SS 533/CSDE 533.

SOC 534 Statistical Methods for Spatial Data (3) Motivates the need for, and describes methods for, the analysis of spatial data. Topics: Clustering, cluster detection, spatial regression, modeling neighborhood effects, geographical information systems. Point and aggregated data considered and data from complex surveys. Offered: jointly with CS&SS 554/STAT 554; W.

SOC 535 Foundations of Population Health and Health Disparities (3) Provides an overview of the nature and social determinants of the health of human populations, investigates disparities in health within and between populations, and examines the ways in which population health may be improved by the translation of scientific knowledge into interventions and public policy.

SOC 536 Analysis of Categorical and Count Data (3) Analysis of categorical data in the social sciences. Binary, ordered, and multinomial outcomes, event counts, and contingency tables. Focuses on maximum likelihood estimations and interpretations of results. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 536/STAT 536.

SOC 537 Modeling Emergence: Social Simulation (3) Seminar and practicum in computational modeling of social processes with emphasis on using agent-based simulation models to investigate and refine theory.

SOC 538 Data Science and Population Processes (3) Today's large and complex data sets ("big data") allow social scientists to address core social questions in new ways. Examines how traditional social science and demographic methods can be used to make sense of new data sources, and how

these new data sources may require new approaches and research design.

SOC 539 Selected Topics in Demography and Ecology (3, max. 9) Specialized problems in demography or ecology are covered; for example, migration, fertility, mortality, language, race and ethnic relations, metropolitan community. See quarterly announcement for specific problem to be covered.

SOC 542 Selected Topics in Group Processes (3) Theories, methodology, and studies in the area of small-group research. Prerequisite: permission of instructor for nonmajors.

SOC 543 Seminar on Group Solidarity (3) Interdisciplinary perspectives on solidarity, focusing on member commitment, group structure, and contributions to collective goals.

SOC 547 Social Cognition and Attribution (3) Theories and research on social cognition and attribution. Theoretical and methodological debates on cognition. Sociological aspects of attribution. Prerequisite: SOC 514 or equivalent.

SOC 551 Family and Gender Relations (3) Overview of major research findings on marriage, the family, and gender, including demographic trends, the place of children in society, courtship, the internal management of intimate relationships, divorce, and social policy.

SOC 553 Seminar on Gender and Sexuality (3) Research seminar considering theoretical and empirical approaches to sexuality, with particular attention to the importance of gender. Examines the social control of sexuality by the state and by families, as well as social meanings of sexuality within social movements related to various aspects of sexuality.

SOC 554 Seminar in the Sociology of Religion (3) Survey of significant and active areas of theory and research in contemporary social scientific studies of religion.

SOC 555 Methods in Macro, Comparative, and Historical Sociology (3) Systems of conducting

research with qualitative methods brought to bear on broad questions.

SOC 559 Seminar on Gender Roles (3) Broad graduate-level introduction to theoretical issues concerning gender and society. Current state of empirical knowledge on the sociology of gender and strategies for research. Cross-cultural variations in conception of gender roles and how gender intersects with social institutions and social interactions.

SOC 560 Hierarchical Modeling for the Social Sciences (4) Explores ways in which data are hierarchically organized, such as voters nested within electoral districts that are in turn nested within states. Provides a basic theoretical understanding and practical knowledge of models for clustered data and a set of tools to help make accurate inferences. Prerequisite: SOC 504, SOC 505, SOC 506 or equivalent. Offered: jointly with CS&SS 560/STAT 560.

SOC 562 Seminar in Comparative Race Relations (3) Cross-cultural approach to race and ethnic relations, including case studies from Africa and Latin America. Prerequisite: graduate standing in social sciences.

SOC 563 Statistical Demography (4) A. Raftery Statistical methods and models for estimating and forecasting population quantities. Topic: Demographic rates; Population projection; Leslie matrix; modeling age-specific patterns; probabilistic population projections and Bayesian hierarchical models; estimating past and present fertility, mortality, migration and population; big data in demography. Prerequisite: Either STAT 509/CS&SS 509/ECON 509, STAT 513, or permission from the instructor. Offered: jointly with CS&SS 563/STAT 563; Sp.

SOC 565 Inequality: Current Trends and Explanations (3) Discussion of recent growth in economic inequality in the United States and competing explanations for these new trends through examination of labor market demographics, industrial composition and restructuring, and the broader political context that impacts policies like minimum wage, strength of unions, and foreign trade. Prerequisite: SOC 504, SOC 505, SOC 506, or equivalent. Offered: jointly with CS&SS 565.

SOC 566 Seminar in Complex Organizations (3)

Special topic seminars in the field of complex organizations or industrial sociology.

SOC 567 Seminar in Complex Organizations (3)

Special topic seminars in the field of complex organizations or industrial sociology.

SOC 568 Social Mobility (3) Description and measurement of social mobility. Determinants of mobility and cross-national comparisons. Consequences of mobility for social behaviors. Emphasizes movement from the socioeconomic position of family of origin to adult position. Prerequisite: SOC 518.

SOC 569 Demographic Studies of Stratification (3)

Overview of development of models of socioeconomic achievement ("status attainment" paradigm) in the field of stratification. Begins with work of Blau and Duncan. Covers elaboration of basic models to include race and ethnicity, social psychological variables, class, school and labor market effects, and other structural variables. Prerequisite: SOC 513, SOC 518.

SOC 570 Seminar in Environmental Sociology (3)

Offered: jointly with SEFS 570.

SOC 574 Seminar in Methods of Criminological Research (3)

Provides training in the technical analysis of published research in criminology; designs and processes studies in parole prediction, prediction of prison adjustment, and prediction of treatment effect.

SOC 575 Social Movements: Politics and Organization (3)

Theoretical perspectives and research on the dynamics of national social movements from a macrosociological perspective. Introduces dominant models that stress organizational and political processes, with some examination of approaches that consider the intersection of politics, organization, and culture. Emphasis on the United States.

SOC 581 Special Topics in Theory and the History of Sociological Thought (3, max. 9)

Examination of current topics in theory and the history of sociological thought. Content varies according to recent developments in the field and the interests of the instructor.

SOC 582 Special Topics in Research Methods and Statistical Analysis in Sociology (3, max. 9)

Examination of current topics in research methods and statistical analysis in sociology. Content varies according to recent developments in the field and the interests of the instructor.

SOC 583 Special Topics in Demography and Ecology (3, max. 9)

Examination of current topics in demography and ecology. Content varies according to recent developments in the field and the interests of the instructor.

SOC 584 Special Topics in Social Psychology (3, max. 9)

Examination of current substantive topics in social psychology. Content varies according to recent developments in the field and the interests of the instructor.

SOC 585 Special Topics in Marriage and Family (3, max. 9)

Examination of current substantive topics in marriage and the family. Content varies according to recent developments in the field and the interests of the instructor.

SOC 586 Special Topics in Organization and Industrial Sociology (3, max. 9)

Examination of current substantive topics in organizational and industrial sociology. Content varies according to recent developments in the field and the interests of the instructor.

SOC 587 Special Topics in Deviance and Social Control (1-3, max. 9)

Examination of current substantive topics in deviance and social control. Content varies according to recent developments in the field and the interests of the instructor.

SOC 588 Special Topics in Stratification and Race Relations (3, max. 9)

Examination of current substantive topics in stratification and race relations. Content varies according to recent developments in the field and the interests of the instructor.

SOC 589 Special Topics in Macrosociology (3, max. 9)

Examination of current substantive topics in macrosociology. Content varies according to recent developments in the field and the interests of the instructor.

SOC 590 Special Topics in Sociology (1-3, max. 21)

Examination of current substantive topics in sociology. Content varies according to recent developments in the field and the interests of the instructor. Topics covered in courses with this number lie outside those covered by other special topics courses numbered SOC 581 through SOC 589.

SOC 591 Political Sociology (3) Introduction to political sociology, considering the rise of the modern state, power, political organization, social movements, and other related topics.

SOC 597 Field Seminar in States, Markets, and Societies (5) Exposes students to theoretical and empirical debates about engagement of states with their societies and with transnational actors in their historical, political, and social settings. Topics include state formation, social change, development, state-market relations, globalization, identities, ethnicities, gender, revolutions, democratization, corruption, clientalism, civil societies, NGOs, and social movements. Offered: jointly with JSIS 597.

SOC 600 Independent Study or Research (*-)

Credit/no-credit only.

SOC 700 Master's Thesis (*-) Credit/no-credit only.

SOC 800 Doctoral Dissertation (*-) Credit/no-credit only.

SPANISH AND PORTUGUESE STUDIES

PORTUGUESE

PORT 103 Elementary Portuguese (5) Methods and objectives are primarily oral-aural. Covers all major elements of Portuguese grammar. Third in a sequence of three. Prerequisite: PORT 102.

PORT 105 Intensive Portuguese for Spanish Speakers (6) VLPA Covers the verbal system and major grammatical points. Does not satisfy foreign language requirement. Prerequisite: either SPAN 203 or SPAN 216, or either SPAN 301, SPAN 302, SPAN 303, SPAN 314, SPAN 315, or SPAN 316 any of which may be taken concurrently.

PORT 110 Accelerated Elementary Portuguese (5) Covers the equivalent of PORT 101 and PORT 102 to

prepare for PORT 103. May not be taken in addition to PORT 101 or PORT 102.

PORT 199 Foreign Study: Elementary (2-16, max. 16) Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through PORT 103.

PORT 201 Intermediate Portuguese (5) VLPA Modern texts, compositions, conversation, and a systematic review of grammar. First in a sequence of three. Prerequisite: either PORT 103 or PORT 105.

PORT 202 Intermediate Portuguese (5) VLPA Modern texts, compositions, conversation, and a systematic review of grammar. Second in a sequence of three. Prerequisite: PORT 201.

PORT 203 Intermediate Portuguese (5) VLPA Modern texts, compositions, conversation, and a systematic review of grammar. Third in a sequence of three. Prerequisite: PORT 202.

PORT 299 Foreign Study: Intermediate (2-16, max. 16) VLPA Intermediate instruction in approved foreign study program. Further study at 200-level subject to department evaluation.

PORT 301 Advanced Portuguese (5) VLPA Emphasizes oral skills while continuing to refine reading comprehension and written expression. Aims to develop abilities to successfully deal with comprehension and production of oral texts of an academic and professional nature. Not a conversation course. Prerequisite: PORT 203.

PORT 310 Introduction to Lusophone Literature (3) VLPA Introduction to the studies of Lusophone literature and culture.

PORT 335 Twentieth Century Brazilian Fiction in English (5, max. 10) VLPA Reading texts in connection with cultural and theoretical issues.

PORT 365 Mapping Luso-Brazilian Cultures (5) I&S/VLPA Explores cultures of Brazil, Portuguese-speaking Africa, Asia, and Europe within the framework of cultural studies theory. Follows an interdisciplinary approach, drawing from readings,

audio files (radio) , films and documentaries in history, literature, arts and performances, anthropology, among others. Focuses on selected cultural aspects and countries. Taught in ENGLISH. Offered: jointly with JSIS A 365; Sp.

PORT 366 Port-Language Track for Mapping Luso-Brazilian Cultures (2) Language track option in Portuguese for intermediate or higher level students, in conjunction with PORT 365/JSIS A 365. Must be registered in PORT 365/JSIS A 365, to take this class. Explores readings and films/documentaries in the cultures of Brazil and the Portuguese-speaking world. Prerequisite: PORT 201 or permission of instructor. Offered: Sp.

SPANISH

SPAN 101 Elementary Spanish (5) Methods and objectives are primarily oral-aural. Language laboratory is required. First in a sequence of three. Prerequisite: score of 0-15 on SP100A placement test if Spanish is language of admission. No credit if Spanish is the language of admission. Cannot be taken for credit if SPAN 121 already taken.

SPAN 102 Elementary Spanish (5) Methods and objectives are primarily oral-aural. Second in a sequence of three. Prerequisite: either SPAN 101, or score of 16-44 on SP100A placement test. Cannot be taken for credit if SPAN 122 already taken.

SPAN 103 Elementary Spanish (5) Methods and objectives are primarily oral-aural. Third in a sequence of three. Prerequisite: either SPAN 102, SPAN 110 or score of 45-69 on SP100A placement test. Cannot be taken for credit if SPAN 123 already taken.

SPAN 110 Basic Spanish Review (5) Covers the equivalent of SPAN 101 and SPAN 102 to prepare for SPAN 103. May not be taken in addition to SPAN 101 or SPAN 102. Prerequisite: score of 10-44 on SP100A placement test. Offered: AWSp.

SPAN 121 Spanish Immersion (5) Covers the equivalent of elementary Spanish (SPAN 101) . Uses an alternative "planned immersion" method with video as the central medium of presentation. First in a sequence of three. Prerequisite: no previous Spanish study, or score of 0-15 on SP100A placement

test if Spanish is language of admission. Cannot be taken for credit if SPAN 101 already taken.

SPAN 122 Spanish Immersion (5) Covers the equivalent of elementary Spanish (SPAN 102) . Uses an alternative "planned immersion" method with video as the central medium of presentation. Second in a sequence of three. Prerequisite: SPAN 121. Cannot be taken for credit if SPAN 102 already taken.

SPAN 123 Spanish Immersion (5) Covers the equivalent of elementary Spanish (SPAN 103) . Uses an alternative "planned immersion" method with video as the central medium of presentation. Third in a sequence of three. Prerequisite: SPAN 122. Cannot be taken for credit if SPAN 103 already taken.

SPAN 134 Intensive First-Year Spanish (15) Intensive course. Covers the equivalent of SPAN 101, SPAN 102 and SPAN 103, the three courses of the first-year Spanish Language Program. Total credit will be reduced for students who have taken SPAN 101, SPAN 102, SPAN 103, SPAN 110, SPAN 121, SPAN 122, or SPAN 123. No prerequisites. Offered: S.

SPAN 199 Foreign Study - Elementary (1-16, max. 16) Elementary instruction in approved foreign study program. Students who wish to satisfy foreign language proficiency requirement must see the departmental adviser and may be required to take additional courses through SPAN 103.

SPAN 201 Intermediate Spanish (5) VLPA Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. First in a sequence of three. Prerequisite: either SPAN 103, SPAN 123, SPAN 134, score of 70-80 on SP100A placement test, or score of 0-75 on SP200A placement test.

SPAN 202 Intermediate Spanish (5) VLPA Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and cultural readings. Second in a sequence of three. Prerequisite: either SPAN 201 or score of 76-145 on SP200A placement test.

SPAN 203 Intermediate Spanish (5) VLPA Intensive practice in speaking, reading, and writing. Review of Spanish grammar. Oral practice based on literary and

cultural readings. Third in a sequence of three.
Prerequisite: either SPAN 202, SPAN 210, or score of 146-165 on SP200A placement test.

SPAN 206 Arts and Culture of Oaxaca (3) VLPA/I&S

Introduction to the contemporary culture of Oaxaca, Mexico, particularly painting, folk arts, and Days of the Dead, in the context of recent Mexican politics and society. Prerequisite: SPAN 103, which may be taken concurrently. Instructors: Gonzalez

SPAN 207 Culture and Civilization in Spain (5)

I&S/VLPA M. RANEDA CUARTERO Multi-disciplinary course that explores and examines particular aspects of the history, literature, art, society, and geography of Spain through a series of original readings and content-based activities that are specifically designed to encourage critical thinking and enhance linguistic proficiency in Spanish. Prerequisite: SPAN 203, may be taken simultaneously. Offered: W.

SPAN 216 Spanish for Heritage Learners (5) VLPA

First of a four-course sequence designed for Heritage Spanish Speakers. Develops competence in students' reading and writing skills. Helps heritage speakers master grammar points, improve presentational skills, and take into account the experience and influences of bilingual and bicultural upbringing.

SPAN 224 Spanish for Health Professionals I (3)

Exposes students to a variety of medical terminology, providing opportunities for practicing medical-focused communication, and reading and analyzing written texts, as they would in a clinical setting. Not equivalent to any other Spanish language course. Prerequisite: either SPAN 201, or score of 76-145 on SP200A test.

SPAN 225 Spanish for Health Professionals II (3)

Understand and use more complex structures of Spanish; with precision and fluency in the healthcare field. Starts with review of conducting a simple physical exam and follow-up on tests. Includes concepts such as learning to create a medical history, and discussing hospitalization/discharge of patients. Prerequisite: SPAN 224.

SPAN 226 Spanish for Health Professionals III (3)

Helps students understand and use more complex structures of Spanish, with precision and fluency in the healthcare field. Includes independent research

into topics of professional relevance and personal interest to students and topics of importance to Spanish-speaking populations in the United States and the Puget Sound region. Prerequisite: SPAN 225.

SPAN 227 Intermediate Conversation (2, max. 6)

VLPA Focuses on developing intermediate conversation skills - listening and speaking - and increasing vocabulary in varying situations. Discussions are based on contemporary Spanish films, current articles, fiction, and essays. Not open to students whose native language is Spanish. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

SPAN 237 Foreign Study - Intermediate

Conversation (2-6, max. 6) VLPA For participants in approved foreign study programs. Prerequisite: either SPAN 103, SPAN 123, or SPAN 134.

SPAN 292 Experiential Learning in Spanish -

Intermediate (1-3, max. 3) I&S An experiential learning project in an NGO or non-profit organization in the Spanish-speaking community that engages students in ways that supplement their formal in-class trainings. Prerequisite: SPAN 103.

SPAN 294 Special Topics in Spanish

Literary/Cultural Studies (5, max. 10) VLPA Focuses on a special topic related to Spanish literary or cultural studies. Taught in English.

SPAN 298 Advanced Placement (AP) Spanish

Literature (5-15, max. 15) VLPA Course awarded based on Advanced Placement (AP) score. Consult the Admissions Exams for Credit website for more information.

SPAN 299 Foreign Study - Intermediate (1-16, max.

16) VLPA Intermediate instruction in approved foreign study program. Further study at 200 level subject to placement test score.

SPAN 301 Advanced Spanish (5) VLPA

Emphasizes oral skills while continuing to refine reading comprehension and written expression. It aims to develop the abilities to successfully deal with comprehension and production of oral texts of an academic and professional nature. Not a conversation course. Prerequisite: either SPAN 203 or score of 166-175 on SP200A placement test.

SPAN 302 Advanced Spanish (5) VLPA Develops writing techniques and strategies for the production of Spanish texts of an academic and professional nature. Prerequisite: SPAN 301 or SPAN 310, either of which may be taken concurrently.

SPAN 303 Advanced Spanish (5) VLPA Develops writing techniques and strategies for the creation of essays on literary criticism and cultural analysis. Prepares students to deal successfully with academic writing in Hispanic literature and culture courses. Prerequisite: either SPAN 302 or SPAN 310.

SPAN 304 Survey of Spanish Literature: 1140-1498 (3) VLPA Masterpieces of Spanish literature from origins to 1498. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

SPAN 305 Survey of Spanish Literature: 1498-1681 (3/5) VLPA Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Gilbert

SPAN 306 Survey of Spanish Literature: 1681 to the Present (3/5) VLPA Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330. Instructors: Mercer

SPAN 307 Introduction to Latin American Literature: Colonial Era through Early Independence (3/5) VLPA *J. ROBLES RIVERA* Study of selected works from the sixteenth through the nineteenth century, with special emphasis on their historical and cultural relevance. Development of reading and writing skills. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

SPAN 308 Introduction to Latin American Literature: Independence to the Present (3/5) VLPA Study of selected works of twentieth-century Latin American literature and their sociohistorical context. Development of reading and writing skills. Prerequisite: either SPAN 301, SPAN 302, SPAN 303, 310, SPAN 314, SPAN 315, SPAN 316, or SPAN 330.

SPAN 482 Eighteenth- through Twentieth-Century Spanish Literature (5) VLPA Survey of Spanish literature since 1700, and its historical context. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321. Instructors: Mercer

SPAN 483 Latin American Literature: Origins to Independence (5) VLPA *J. ROBLES RIVERA* The elaboration of discourses of legitimization by the Spanish conquistadores, and of resistance and accommodation by native and mestizo peoples; the development of a New World Baroque aesthetic; literatures of independence from Spain and of nation-building. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321.

SPAN 484 Latin American Literature: Modernismo to the Present (5) VLPA Principal literary movements of Latin America, late nineteenth century to the present, with particular emphasis on poetry and narrative: modernismo, postmodernismo, the vanguard, nueva and novísima narrativa. Includes essays and autobiographical writings to help place

the literary works in socio-historical perspective. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321. Instructors: O' Hara

SPAN 485 Desmadre patria: Latin American Myth in Film and Literature (5) VLPA *S. JAFFEE* Reviews films from Mexico, Cuba, Peru, Colombia, Argentina, and Brazil (1960's to the 2000's), and literary, theoretical, historical, and critical readings on ongoing preoccupations in national consciousness. Topics of study include: civilization and barbarism; religion and revolution; urban migration; the idea of a shared identity as patria; and racial fetish and stereotype. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321.

SPAN 486 Photography and Cultural Studies in Latin America (5) VLPA/I&S Interdisciplinary exploration of the connections between visual anthropology (ethnography through photography and film), documentary and art photography, and colonial and post-colonial discourse in Latin America during the twentieth century. Prerequisite: either SPAN 303 or SPAN 316; SPAN 322. Instructors: Steele Offered: jointly with JSIS A 486.

SPAN 487 Mexican Cinema (5) VLPA/I&S Analysis of representative films about post-revolutionary Mexico by directors from both the Golden Age of Mexican Cinema (1940-1960) and the Mexican New Film movement (1975-the present). Revolutionary nationalism, modernization and its discontents; construction of gender, class, and ethnicity; migration and globalization. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321. Instructors: Steele

SPAN 488 The Fantastic in Latin American Literature (5) VLPA Introduction to the Fantastic in literature, in contrast to realism, and how the concept has been adapted by Latin American authors. May focus on a particular writer: Augusto Monterroso (Guatemala) or Julio Cortázar (Argentina), or survey various authors. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321. Instructors: O' Hara

SPAN 489 The Mexico-U.S. Border in Literature and Film (5) VLPA/I&S, DIV Analysis of the Mexico-U.S. Border region in literature and film of the 1990s and early 2000s. Includes migration, tourism, NGOs, globalization, transnational commerce, multiculturalism, and politics of gender, sexuality, and race. Prerequisite: either SPAN 303 or SPAN 316;

SPAN 321. Instructors: Steele Offered: jointly with JSIS A 489.

SPAN 490 Honors Seminar (2-5, max. 10) VLPA
Special studies in Spanish literature. Required of candidates for Honors and Distinction in Spanish.

SPAN 491 Individual Authors and Special Topics in Spanish Literature (5, max. 10) VLPA Focus on an individual Spanish author or a special problem in Spanish literature. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321.

SPAN 492 Individual Authors and Special Topics in Latin American Literature (5, max. 10) VLPA Focuses on an individual Latin American author or a special problem in Latin American literature. Prerequisite: either SPAN 303 or SPAN 316; SPAN 321.

SPAN 493 Foreign Study (2-10, max. 20) VLPA
Advanced study in Spanish speaking country outside the standard Spanish curriculum of the University of Washington. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, SPAN 394, or SPAN 395.

SPAN 495 Study in Spain (2-10, max. 20) VLPA
Advanced study in Spain in approved foreign study programs. Prerequisite: either SPAN 303, SPAN 316, or SPAN 330; SPAN 321; SPAN 322; either SPAN 304, SPAN 305, SPAN 306, SPAN 307, SPAN 308, SPAN 319, SPAN 339, SPAN 340, SPAN 350, SPAN 351, SPAN 352, SPAN 394, or SPAN 395.

SPAN 498 Special Topics in Spanish Linguistics (5, max. 10) VLPA Focuses on a special topic related to Spanish linguistic studies. May be repeated once. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400.

SPAN 499 Special Topics (1-5, max. 10) Topics to meet special needs.

SPAN 510 Methodology of Spanish Language Teaching (5) Fernandez Dobao Theoretical and practical foundations of current trends in second/foreign language teaching. Emphasis on communicative and task-based approaches to

Spanish language teaching. Required for beginning Spanish teaching assistants. Credit/no-credit only.

SPAN 521 The Renaissance in Spain (5, max. 20) Gilbert Literary creation and the cultural, social, historical context of Spanish literature from La Celestina through the sixteenth century. Extensive study of secondary materials, intensive analysis of representative literary texts.

SPAN 522 The Renaissance in Spain (5, max. 20) Gilbert Literary creation and the cultural, social, historical context of Spanish literature from La Celestina through the sixteenth century. Extensive study of secondary materials, intensive analysis of representative literary texts.

SPAN 541 Topics in Spanish Applied Linguistics (5, max. 20) Ana Fernandez Dobao Selected topics in Applied Linguistics. Discusses current theoretical approaches to the study of Applied Linguistics problems, with a special focus on Spanish. Examines empirical research from these different approaches and their main contributions to the field. Introduces Applied Linguistics research methods.

SPAN 542 Topics in Spanish Second Language Acquisition (5, max. 20) Ana Fernandez Dobao Selected topics in Second language Acquisition. Discusses current theoretical approaches to the study of Second Language Acquisition problems, with special emphasis on Spanish Second Language Acquisition. Examines empirical research from these different approaches and their main contributions to the field. Introduces Second Language Acquisition research methods.

SPAN 543 Heritage Language Learning and Teaching (5, max. 20) Ana Fernandez Dobao Topics in heritage language research. Current theoretical approaches to the study of heritage languages and their speakers. Examines empirical research on heritage language learning and heritage language pedagogy. Introduces students to the methodology and design of heritage language research.

SPAN 561 Spanish-American Novel From 1940 to the Present (5, max. 20)

SPAN 571 The Modern Essay in Spanish America (5, max. 20)

SPAN 572 Twentieth-Century Spanish Poetry (5, max. 20)

SPAN 573 Twentieth-Century Spanish-American Poetry (5, max. 20)

SPAN 575 Literary Criticism (5)

SPAN 577 Contemporary Literary Theory (5) D. *GILBERT* Introduction to various structuralist and poststructuralist theories of literary analysis, including those developed by Hispanic theorists, and their application to the study of texts from the Spanish and Latin American traditions.

SPAN 590 Special Seminar and Conference (1-10, max. 30) Group seminars, or individual conferences, are scheduled under this number to meet special needs. Prerequisite: permission of the Graduate Program Coordinator.

SPAN 591 Literary Problems: Middle Ages (5, max. 20) *Gomez-Bravo, Petersen*

SPAN 592 Literary Problems: Renaissance (5, max. 20) *Gomez-Bravo*

SPAN 593 Literary Problems: Golden Age (5, max. 20) *D. GILBERT*

SPAN 594 Literary Problems: Eighteenth Century (5, max. 20)

SPAN 595 Literary Problems: Nineteenth Century (5, max. 20)

SPAN 596 Literary Problems: Twentieth Century (5, max. 20)

SPAN 597 Literary Problems: Spanish-American Colonial Literature (5, max. 20) *J. ROBLES RIVERA*

SPAN 598 Literary Problems: Latin America (5, max. 20) *E. O'HARA*

SPAN 600 Independent Study or Research (*-)

SPAN 610 Reading Credit for Graduate Exams (1-10, max. 70) Reading preparation for MA and PhD exams. Credit/no-credit only.

SPAN 700 Master's Thesis (*-) Credit/no-credit only.

SPAN 800 Doctoral Dissertation (*-) Credit/no-credit only.

SPANISH LINGUISTICS

SPLING 400 The Syntactic Structure of Spanish (5)

VLPA Scientific study of the syntax of Spanish: structure of phrases, transformationally derived structures, grammatical relations, principles of interpretation. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 400.

SPLING 401 The Morphological Structure of Spanish (5)

VLPA Principles of word formation, including derivational and inflectional morphology. Relationship between inflectional morphology and other components of grammar. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 401.

SPLING 402 The Phonological Structure of Spanish (5)

VLPA Phonological component of the generative grammar of Spanish; representations of syllabic and segmental units, phonological rules, distinctive features and their articulatory correlates. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 402.

SPLING 403 The Evolution of the Spanish Language (5)

VLPA Historical survey of Spanish phonology, morphology, and syntax, from Latin origins to the modern language. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 403.

SPLING 404 Dialects of World Spanish (5) VLPA A.

FERNANDEZ DOBAO Introduction to dialectal variants of Spanish. Considers standardization and the real academia; variation and change; pragmatics and politeness; Spanish in contact; sound, word formation, and grammar variation. Taught in Spanish. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 404.

SPLING 405 Hispanic Sociolinguistics (5) VLPA/I&S, DIV Theoretical and methodological foundations of

Hispanic Sociolinguistics, and main advances in recent years. Examines the correlations between language and social factors such as gender, age, and socioeconomic status. Addresses issues like attitudes toward language, bilingualism in the United States, Spanish as a heritage language, and Spanish in contact with other languages. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 405.

SPLING 406 Advanced Spanish Grammar (5) VLPA Problems of Spanish grammar. Differences from English grammar. Techniques for the effective teaching of Spanish. Prerequisite: either SPAN 303 or SPAN 316; either SPAN 323, LING 200, or LING 400. Instructors: Fernandez-Mallat Offered: jointly with SPAN 406; A.

SPLING 407 Bilinguismo: Made in USA (5) I&S/VLPA, DIV Ana Fernandez Dobao Introduces students to the study of bilingualism, focusing on Spanish/English bilingualism in the United States. Examines bilingualism as both an individual and social phenomenon, and aims to raise students' awareness of the intersection between language and the social constructs of race, ethnicity, and social class. Taught in Spanish. Prerequisite: either SPAN 303 or SPAN 316; and either SPAN 323, LING 200, or LING 400. Offered: jointly with SPAN 407.

SPEECH AND HEARING SCIENCES

SPHSC 100 Voice and Articulation Improvement (3) VLPA For native speakers of English only. Voice production and the sound system of standard American speech. Speech standards, regional and social dialects, voice quality and basic language-oriented characteristics. Practice for improving speech style. May not be repeated. Offered: AWSpS.

SPHSC 111 The American English Sound System (2, max. 4) For non-native speakers of English only. Speech sounds of American English. Practice in listening and using American speech sounds and intonation patterns. Credit/no-credit only. Offered: AWSpS.

SPHSC 250 Introduction to Speech and Hearing Sciences (3) I&S/NW Introduction to the field of speech and hearing sciences and its associated professions. Provides broad overview of normal and

impaired speech, language, swallowing, hearing, and balance disorders, and clinical practice settings. Discusses impact of social-cultural, ethical, and technological factors in diagnosis, treatment, and research. Required for majors; open to nonmajors. Offered: AS.

SPHSC 261 The Nature of Sound (3) NW A. BROWN Fundamental principles of sound and vibration with emphasis on examples relevant to the speech and hearing systems. Required for majors; open to nonmajors. Offered: A.

SPHSC 302 Phonetics: Theory and Transcription (4) VLPA M. Kapsner-Smith Introduction to phonetics for speech and hearing sciences. Topics include broad and narrow transcription of spoken English using the International Phonetic Alphabet, articulatory classification of the consonants and vowels of English, non-native accented speech, dialectal variations, developmental speech patterns, speech disorders, and clinical applications of phonetics in speech and hearing sciences. Required for majors; open to nonmajors. Prerequisite: SPHSC 250; and either LING 200 or LING 400 Offered: W.

SPHSC 303 Language Science (3) VLPA J. Thorne Introduction to techniques of linguistic analysis (morphology, syntax, semantics, pragmatics, etc.) used in clinical application to understand communication capacities in individuals. Required for majors; open to nonmajors. Prerequisite: SPHSC 250; and either LING 200 or LING 400 Offered: SpS.

SPHSC 304 Speech and Language Acquisition (5) I&S A. Pace Introduction to the study of speech and language from a developmental perspective. Overview of typical communicative development patterns and milestones in English speaking children. Application to broader issues in communication science and development. Required for majors; open to nonmajors. Prerequisite: SPHSC 250 and SPHSC 303 Offered: A.

SPHSC 305 Developmental Communication and Swallowing Disorders (3) NW S. Kover Etiology and nature of developmental communication and swallowing disorders. Behavioral characteristics and common treatment approaches for language delay and disorders, developmental apraxia of speech, phonological disorders, fluency, craniofacial anomalies, cognitive-communication disorders, and

feeding/swallowing disorders. Required for majors; open to nonmajors. Prerequisite: SPHSC 250; SPHSC 304; and SPHSC 320 Offered: W.

SPHSC 306 Acquired Communication and Swallowing Disorders (3) NW C. Baylor Etiology and nature of acquired speech, language, cognitive-communication and swallowing disorders in adult and geriatric populations. Behavioral characteristics and common treatment approaches related to neurological and other conditions such as stroke, traumatic brain injury, dementia, degenerative diseases, and head and neck cancer. Prerequisite: SPHSC 250; SPHSC 302; SPHSC 303; SPHSC 304; and SPHSC 320 Offered: W.

SPHSC 308 Social-Cultural Aspects of Communication (3) I&S P. DOWDEN Introduction to human communication in context. Exploration of ways communication is influenced by context, including situational, social/interpersonal, and cultural variables. Studies systems and cultural practices as they influence communication. Required for majors; open to nonmajors. Offered: WS.

SPHSC 320 Anatomy and Physiology of Speech (5) NW M. Burns Anatomy and physiology of the speech and swallowing mechanism, including the respiratory, phonatory, and resonatory systems and their neural control. Examples and laboratory work are directed toward clinical issues in speech-language pathology. Required for majors; open to nonmajors. Prerequisite: SPHSC 250 Offered: A.

SPHSC 371 Hearing Disorders (4) I&S/NW S. Anderson, K. Tremblay Introduction to abnormal hearing and pathologies of the ear. Audiometric assessment and correlates of hearing function, including standard pure-tone audiometry, speech audiometry, and basic impedance audiometry. Communicative and social consequences of hearing loss. Overview of management and treatment of children and adults. Required for majors; open to nonmajors. Prerequisite: SPHSC 250 Offered: WS.

SPHSC 391 Practicum in Audiology (1-4, max. 10) Illich Guided experiences in audiological assessment and aural rehabilitation of children and adults. Credit/no-credit only.

SPHSC 405 Clinical Decision Making in Speech-Language Pathology (4) NW C. Baylor Introduction

to principles and practices of assessment and treatment for speech-language pathologists. Includes foundation in skills and issues common in assessment and treatment across communication and swallowing disorders. Prerequisite: SPHSC 250; SPHSC 305; and SPHSC 306 Offered: Sp.

SPHSC 406 Treatment of Speech and Language Disorders (4) NW C. BAYLOR Principles and procedures for planning, implementing, and evaluating treatment for speech and language disorders. Required for majors. Prerequisite: SPHSC 405. Offered: SpS.

SPHSC 425 Speech, Language, Hearing, and the Brain (5) I&S/NW J. Yeatman Addresses the neural bases of topics in speech, language, and hearing with an emphasis on the normal aspects of central nervous system anatomy, physiology, and function. Gives attention to issues relevant to understanding disordered systems and to points of contemporary debate among neuroscientists. Majors only. Prerequisite: SPHSC 250; SPHSC 305; SPHSC 306; and SPHSC 371 Offered: Sp.

SPHSC 445 Models of Speech Processing (3) NW Examines models and basic issues concerning how spoken language is processed. Presents current issues, theories, and research relative to the levels of processing entailed in producing and comprehending speech. Required for majors; open to nonmajors.

SPHSC 449 Special Studies in Speech Pathology and Audiology (*, max. 30) M. BURNS Selected special problems in speech pathology and audiology. Offered: S.

SPHSC 461 Hearing Science (5) NW M. Winn Basic aspects of the ear, hearing, and auditory nervous system. How the auditory system constructs an image of the acoustic environment. How attention and memory influence hearing. Effects of damage to the auditory system. Required for majors; open to non-majors. Prerequisite: SPHSC 250; SPHSC 261; and SPHSC 371 Offered: Sp.

SPHSC 462 Hearing Development (3) NW L. WERNER Description of the changes that occur in human hearing during development. Consideration of the possible explanations for early immaturity. Prerequisite: SPHSC 461; may not be repeated. Offered: A, odd years.

SPHSC 471 Basic Audiometry (4) NW R. FOLSOM Theory and practice of the assessment of hearing function, including standard pure-tone audiometry, speech audiometry, and basic impedance audiometry. Required for majors. Prerequisite: SPHSC 371; SPHSC 461; may not be repeated. Offered: A.

SPHSC 481 Management of Hearing Loss (3) NW Introduction to methods of communicative rehabilitation of people with hearing loss. Remediation principles of auditory and visual perception, amplification, communication strategies, and information counseling. Required for majors; open to non-majors Prerequisite: SPHSC 250; SPHSC 261; SPHSC 371 Offered: W.

SPHSC 491 Audiology Practicum in Schools (2) R. FOLSOM Special projects in clinical audiology practicum, offered only in the school setting. Provides an opportunity for students to extend audiology practicum experiences into the school environment. Prerequisite: SPHSC 371. Credit/no-credit only. Offered: AS.

SPHSC 495 Guided Observations in Speech and Hearing Sciences (1, max. 6) Julie Ann Dalessio, Michael I Burns Faculty guided clinical observations of speech-language pathology and audiology diagnostic and treatment services. Clinical populations across culturally and linguistically diverse backgrounds and the lifespan. Includes various types and severities of communication and/or related disorders, differences, and disabilities. Credit/no-credit only. Offered: AWSpS.

SPHSC 498 Undergraduate Honors Research ([1-5]-, max. 15) Faculty supervised, undergraduate Honors research project. Includes design and implementation, culminating in written thesis and oral presentation. SPHSC Honors Program students only. Offered: AWSpS.

SPHSC 499 Undergraduate Research ([1-5]-, max. 15) Offered: AWSpS.

SPHSC 500 Clinical Methodology for Documenting Change (3) Carolyn Baylor Introduction to clinical methodology for conducting efficacious assessment and treatment of individuals with communication disorders. Emphasis on methodological approaches to collecting and analyzing data for informed clinical

decision-making in a framework of holistic, patient-centered care. Offered: A.

SPHSC 501 Neural Bases of Speech, Language, and Hearing (3) Michael I Burns Neuroanatomical and neurophysiological bases of language, hearing, sensory, and motor function. Special emphasis given to brain behavior correlates and behavioral consequences to speech, language, and hearing as a result of neurologic injury or disease. Offered: A.

SPHSC 503 Current Issues in Speech and Hearing Sciences (3) Application of experimental methods to research in speech and hearing sciences. Offered: S.

SPHSC 504 Research Methods in Speech and Hearing Sciences (3) S. KOVER Introduction to empirical methods in the speech and hearing sciences. Offered: W.

SPHSC 506 Research Methods in Speech and Hearing Sciences (3) Sara T Kover Examines empirical methods in speech, language, and hearing sciences, with an emphasis on understanding, evaluating, and generating/applying research designs and methods. Prerequisite: introductory, undergraduate-level statistics course that is computational in nature. Offered: W.

SPHSC 507 Evidence Based Practice (3) P. DOWDEN Prepares students to conduct evaluation and treatment in speech-language pathology according to Evidence-Based Practice (EBP) principles. Examines integration of "internal" and "external" evidence in the context of clinical practice. Prerequisite: graduate status in SPHSC or permission of instructor. Offered: Sp.

SPHSC 509 Advanced Hearing Science (3) Consideration of physiological acoustics and psychoacoustics, the pertinent literature, and the experimental techniques related to study in these areas. Offered: A.

SPHSC 510 Physiological Acoustics (3) Study of pertinent literature and experimental techniques incident to the physiology of the normal and abnormal auditory system. Prerequisite: SPHSC 461 or permission of instructor.

SPHSC 511 Psychoacoustics (3) Review of significant literature and theory pertinent to normal auditory sensitivity, pitch, loudness, and other attributes of auditory sensation. Prerequisite: SPHSC 461; permission of instructor.

SPHSC 514 Speech Physiology (3) Study of the physiological parameters of acoustic speech production. Prerequisite: SPHSC 560.

SPHSC 518 Seminar in Speech and Hearing Sciences (1, max. 50) *L. MAX* Reviews selected research area and methods in the speech and hearing sciences. Discusses topics related to developing a career in research or academics. Credit/no-credit only. Offered: AWSp.

SPHSC 519 Seminar in Speech Science (2, max. 50)

SPHSC 520 Advanced Instrumentation for Speech and Hearing Sciences (3) Design and use of electronic and electroacoustic devices in the speech and hearing sciences. Four hours of laboratory required each week.

SPHSC 521 Instrumentation for Audiology (4) Introduction to basic instrumentation used in audiology and hearing science; detailed instruction in audiometer calibration including a review of current national and international standards pertinent to audiology; emphasis on use rather than theory. Prerequisite: permission of instructor. Offered: A.

SPHSC 522 Hearing Instrument Modification/Repair (1) *Martha L. Harney* Minor repair and modification of hearing aids, earmolds and associated accessories. Includes operation of hand tools and small power tools used in repair and earmold modification. Familiarity with different materials used to make or repair hearing aids/accessories. Troubleshooting damaged, malfunctioning, or inoperative instruments. Interpreting acoustic and electroacoustic test results to aid in troubleshooting or repair. Credit/no-credit only. Offered: W.

SPHSC 523 Special Topics in Audiology (3, max. 12) *K. TREMBLAY* Applied and theoretical issues related to audiology. Weekly seminar includes guest speakers discussing current and future trends in science that relate to hearing and the practice of audiology. Offered: W, even years.

SPHSC 525 Speech Signal Processing (3) Theory, evaluation, and use of speech signal processing algorithms such as sampling, filtering, spectral analysis, autocorrelation, and speech synthesis. Laboratory assignments develop skills in using signal analysis and synthesis software applied to normal and pathological speech.

SPHSC 526 Assessment and Treatment of Literacy Disorders (3) *L. SNOW* Examines the principles and procedures used in the assessment and treatment of literacy disorders with an emphasis on childhood literacy disorders as well as the relationship between verbal language impairment and literacy skills. Prerequisite: SPHSC 536. Offered: S.

SPHSC 529 Assessment and Treatment of Birth-to-5 Communication Disorders (3) *Amy E Pace* Examination of assessment and intervention approaches to developmental language disorders in children from the pre-linguistic level through the developing language stage (birth to age 5) . Prerequisite: SPHSC 539. Offered: W.

SPHSC 531 Neurogenic Motor Speech Disorders (4) *Kristie Spencer* Examines the nature, assessment, and management of the dysarthrias, acquired apraxia or speech, and childhood apraxia of speech. Prerequisite: SPHSC 501 or permission of instructor. Offered: Sp.

SPHSC 532 Assessment and Treatment of Neurogenic Language and Cognitive-Communication Disorders (4) *Diane L. Kendall* Provides an overview of the nature, evaluation, and management of acquired language and cognitive-communication disorders in adults. Addresses aphasia, alexia, agraphia, right brain injury, dementia, and traumatic brain injury. Examines the systems that support language (e.g. attention, verbal working memory) and focuses on the underlying neuropathologies and evidence-based approaches to assessment and management of these disorders. Prerequisite: SPHSC 501 or permission of instructor. Offered: W.

SPHSC 533 Medical Speech Pathology (3) Nature of speech pathology practiced in medical settings. Prerequisite: SPHSC 501, SPHSC 531, and SPHSC 532, or permission of instructor. Offered: S.

SPHSC 534 Assessment and Treatment of Dysphagia

(4) Anatomophysiologic bases of function and dysfunction associated with speech-language disorders. Mastication and swallowing problems, their causes, assessments, and management. Prerequisite: SPHSC 501 or permission of instructor. Offered: Sp.

SPHSC 535 Assessment and Treatment of Voice Disorders (2)

Martin Nevdahl Examines the nature, assessment and management of voice production and voice disorders. Introduces perceptual and instrumental methods of measuring voice that are used to help identify voice disorders. Introduces various approaches to treating voice disorders and reviews the evidentiary basis for these treatments. Prerequisite: SPHSC 501. Offered: W.

SPHSC 536 Assessment and Treatment of School-Age Communication Disorders (4)

Sara T Kover Examines the principles and procedures used in the assessment and treatment of school-aged speech-and-language disorders. Offered: Sp.

SPHSC 537 Fluency Disorders (4)

L. MAX Characteristics of fluent speech and the nature and treatment of stuttering in children and adults are studied in relation to normal speech production processes, human learning, principal explanations of stuttering, and treatment systems. Offered: A.

SPHSC 538 Assessment and Treatment of Cognitive-Communication Disorders (3)

K. SPENCER Studies right brain injury, dementia, and traumatic brain injury for understanding of the underlying neuropathologies, techniques for assessment, and evidence-based interventions. Offered: A.

SPHSC 539 Assessment and Treatment of Speech Sound Disorders (3)

Julie A Dunlap Examines the nature, assessment, and treatment of articulation and phonological disorders across the lifespan. Addresses normal and disordered patterns of speech sounds and phonological development, including characteristics of special populations. Offered: A.

SPHSC 540 Augmentative and Alternative Communication Foundations (4)

Patricia A. Dowden Overview of evaluation and intervention for children and adults with severe congenital speech and language impairments, with primary emphasis on individuals with congenital impairments. Overview

of the features of multi-modal strategies, including output, selection set, access, and rate enhancement. Prerequisite: graduate SPHSC, REHAB, or EDSPE students, or permission of instructor. Offered: S.

SPHSC 541 Augmentative and Alternative Communication in the Medical Setting (2)

P. DOWDEN Evaluation and intervention for severe acquired speech/language impairments. Covers decision-making and treatment for individuals who sustained a CVI, traumatic brain injury, or have degenerative diseases. Solutions include multi-modal strategies, from books to voice output systems. Prerequisite: SPHSC 540 or permission of instructor. Offered: Sp.

SPHSC 542 Counseling and Interactive Skills for Speech-Language Pathologists and Audiologists (3)

Lisa Illich Introduction to counseling theory and practice in speech-language pathology, audiology, and related fields. Provides opportunities for learning and practicing counseling skills. Addresses key counseling issues, including professional boundaries, intense emotions, and counselor's feelings and reactions. Prerequisite: graduate standing in SPHSC or permission of instructor. Offered: S.

SPHSC 543 Assessment and Treatment of Pediatric Dysphagia (2)

J. DUNLAP Examines principles and procedure used in the assessment and treatment of pediatric swallowing and feeding disorders. Covers clinical and instrumental assessment techniques and evidenced-based intervention strategies applicable to the infant/child across different pediatric practice settings. Prerequisite: SPHSC 501; SPHSC 534; or permission of instructor. Offered: W.

SPHSC 545 Assessment and Treatment of Voice Disorders in Medical Settings (2)

T. EADIE, M. NEVDAHL Examines the principles and procedures used in assessment and treatment of voice disorders typically seen in medical settings, with a focus on instrumentation such as use of interpretation of laryngeal imaging, acoustics, and perceptual measures. Prerequisite: SPHSC 535. Offered: A.

SPHSC 546 Advanced Neurological Language Disorders (2) *D. KENDALL* Advanced study in the nature, assessment, and treatment of acquired language and cognitive-communication disorders.

Prerequisite: SPHSC 501; SPSHC 532; or permission of instructor. Offered: W.

SPHSC 548 Traumatic Brain Injury Seminar (2) K. *SPENCER* Advanced study in the nature, assessment, and management of individuals with traumatic brain injury across the lifespan. Prerequisite: SPHSC 501; SPHSC 538, or permission of instructor. Offered: Sp.

SPHSC 549 Clinical Forum in Speech-Language Pathology (2, max. 50) Study and application of pertinent clinical issues and trends related to the practice of speech-language pathology. Prerequisite: successful completion of all required didactic and clinical practica coursework in the first two years of the medical speech-language pathology graduate program. Credit/no-credit only. Offered: Sp.

SPHSC 550 Public School Speech-Language Pathology and Audiology (3) *Kate Krings* Explores administrative, legal, ethical, and clinical issues encountered in implementing programs to remediate communication disorders in the school-aged population in the public school setting. Open to non-matriculated students with permission of instructor. Prerequisite: graduate student status in speech and hearing sciences or permission of instructor. Offered: W.

SPHSC 551 Advanced Practicum in Speech Pathology Evaluation (1-10, max. 50) Laboratory experience in the evaluation of speech and language disorders. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

SPHSC 552 Advanced Practicum in Speech Pathology Management (1-10, max. 50) Laboratory experience in the management of speech and language disorders. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

SPHSC 553 Practicum in Speech-Language Pathology (2-4, max. 50) Practicum experience in speech-language pathology, including areas such as speech sound production, voice and resonance, fluency and fluency disorders, receptive and expressive language, social aspects of communication, cognitive aspects of communication, augmentative and alternative communication modalities, swallowing/feeding, and hearing. Offered: AWSpS.

SPHSC 554 Advanced Practicum in Speech-Language Pathology (2-12, max. 50) *Kelsey A Leighton, Kate Krings* Advanced practicum experience in speech-language pathology, occurring at both University of Washington and community-based settings. Includes areas such as speech sound production, voice and resonance, fluency and fluency disorders, receptive and expressive language, social aspects of communication, cognitive aspects of communication, augmentative and alternative communication modalities, swallowing/feeding, and hearing. Prerequisite: SPHSC 553. Credit/no-credit only. Offered: AWSpS.

SPHSC 555 Pre-Internship in Speech and Hearing Sciences (1-10, max. 50) Practicum in speech pathology or audiology designed to teach the clinical regimen of a participating professional center prior to assuming a full internship assignment. Credit/no-credit only. Offered: AWSpS.

SPHSC 556 Advanced Aural Rehabilitation (4, max. 8) *K. TREMBLAY* Advanced study of auditory rehabilitation and training, including psychosocial issues of individuals with hearing loss. Merges research theories with clinical practice and provides experience with applied auditory training in a community setting. Credit/no-credit only. Offered: A.

SPHSC 559 Special Topics in Speech, Language, and Hearing (1-5, max. 30) Guided opportunity for study and advanced discussions in specific areas of speech, language, and hearing science research, theory, and clinical practice. Offered: AWSpS.

SPHSC 560 Studies in Speech Science and Disorders (3) Examines contemporary models and research paradigms in speech science and disorders. Topics include respiratory physiology, laryngeal physiology, aerodynamics of speech production, articulatory dynamics, speech acoustics, and speech perception. Offered: W, odd years.

SPHSC 561 Studies in Hearing Sciences and Disorders (3) Examines contemporary models and research paradigms in the area of hearing science and disorders. Topics include psychoacoustics; amplification; electrophysiological evaluation; physiological acoustics; and perceptual consequences of hearing loss. Offered: A, even years.

SPHSC 562 Studies in Language Science and Disorders (3) Examines research in the area of language science and disorders including word recognition and production; storage of retrieval of word form and meaning; comprehension and production of sentences and discourse; and language in social context. Topics examined relative to development, language impairments, and normal language processing. Offered: Sp, odd years.

SPHSC 563 Instructional Development Forum (1, max. 50) Emphasizes instructional techniques and issues as they relate to teaching in the discipline of communication sciences and its disorders. Topics include course development, grading, student-faculty relations, teaching methods, and diversity. Prerequisite: graduate standing in Speech and Hearing Sciences. Credit/no-credit only. Offered: AW.

SPHSC 564 Teaching Practicum (1-5, max. 50) Provides experience in preparing and giving lectures, leading discussions, preparing and grading assignments and tests, and working directly with undergraduate and graduate students. Prerequisite: doctoral student standing in SPHSC and permission of instructor. Credit/no-credit only. Offered: AWSpS.

SPHSC 565 Speech-Language Pathology Professional Seminar (1-3, max. 50) *Kelsey A Leighton, Michael I Burns* Contemporary professional issues including scope of practice, work settings, standards of ethical conduct, certification, licensure and other related credentialing, policy and regulatory considerations. Credit/no-credit only. Offered: AWSpS.

SPHSC 567 Research Seminar in Speech and Hearing Sciences (1, max. 50) A platform for the presentation and exchange of scientific information (research data, new hardware and hardware development, scientific papers) resulting from ongoing research projects by graduate students and faculty within the Speech and Hearing Sciences Department. Credit/no-credit only. Offered: AWSpS.

SPHSC 568 Grant Writing in Hearing, Language, and Speech Science (3) *L. WERNER* Design and writing of grant proposals in speech, language, and hearing sciences and disorders. Explanation of the funding process at various agencies, particularly the National Institutes of Health. Students prepare a proposal and review the proposals of their peers. Prerequisite:

Enrollment in PhD degree program and permission of instructor. Credit/no-credit only. Offered: W.

SPHSC 570 Assessment of Auditory Dysfunction I (4-) Strategies and procedures in the auditory evaluation of hearing-impaired adults. Use of diagnostic tests in the evaluation of auditory pathologies. Laboratory required. Prerequisite: SPHSC 471 or equivalent. Offered: A.

SPHSC 571 Assessment of Auditory Dysfunction II (-4) Strategies and procedures in the auditory evaluation of hearing-impaired adults. Use of diagnostic tests in the evaluation of auditory pathologies. Laboratory required. Prerequisite: SPHSC 570. Offered: W.

SPHSC 572 Pediatric Audiology (4) *L. MANCL* Assessment of auditory disorders in infants and young children. Emphasis on behavioral and electrophysiologic techniques and on the role of the audiologist in the clinical management of the young hearing-impaired child. Prerequisite: SPHSC 570 or equivalent. Offered: W.

SPHSC 574 Assessment of Balance Function (4) Examines normal anatomy and physiology of the peripheral and central vestibular system. Reviews peripheral and central vestibular disorders and treatment protocols. Major focus of assessment on electronystagmography with associated lab. Provides overview of rotational and posturography measures of balance function. Prerequisite: SPHSC 571 or permission of instructor. Offered: S.

SPHSC 575 Medical Backgrounds in Audiology (3) Diseases and injuries of the ear resulting in reduced audition. Prerequisite: SPHSC 571 or permission of instructor. Offered: S.
