OB GYN 687 P-Introduction to Obstetrics and Gynecology - Fairbanks (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Fairbanks, AK. Includes experience in several private physicians' offices. (Six weeks. Limit: one student) . Prerequisite: HUBIO 565.

OB GYN 689 P-Introduction to Obstetrics and Gynecology - Havre (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Havre, MT. Includes experience in several private physicians' offices. (Six weeks. Limit: one student) . Prerequisite: HUBIO 565.

OB GYN 690 P-Introduction to Obstetrics and Gynecology - Sandpoint (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Sandpoint, ID. Includes experience in several private physicians' offices. (Six weeks. Limit: one student) . Prerequisite: HUBIO 565.

OB GYN 691 P-Introduction to Obstetrics and Gynecology - Tacoma (*, max. 12) Clerkship equivalent to OB GYN 665 offered in Tacoma. Includes experience in several private physicians' offices. (Six weeks. Limit: one student) . Prerequisite: HUBIO 565.

OB GYN 692 P-Introduction to Obstetrics and Gynecology - Bozeman, MT - Bozeman OB/GYN (*, max. 12) Clerkship equivalent to OB GYN 665 offered Bozeman, MT. Includes experience in several private physician offices. (Six weeks. Limit: one student) . Prerequisite: HUBIO 565.

OB GYN 693 P-Introduction to Obstetrics and Gynecology - Valley Medical Center (*, max. 12) Clerkship equivalent to OB GYN 665 offered at Valley Medical Center. Includes experience in several private physicians' offices. (Six weeks. Limit one student) . Prerequisite: HUBIO 565.

OB GYN 695 P-Introduction to Obstetrics and Gynecology - Tri Cities (*, max. 12) Clerkship equivalent to OB GYN 665 offered in the Tri Cities. Includes experience in several private physicians' offices. (Six weeks. Limit one student) . Prerequisite: HUBIO 565.

OB GYN 697 P-Obstetrics and Gynecology Special Electives (*, max. 24) By arrangement, for qualified students, special clerkship or research opportunities are sometimes made available at other institutions. Prospective students obtain special assignment form one month before preregistration. Department evaluates student performance. Prerequisite: permission of department.

OB GYN 699 P-WWAMI Obstetrics and Gynecology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located inside the WWAMI region. A special assignment form must be obtained one month in advance of preregistration. Prerequisite: permission of department.

OPHTHALMOLOGY

OPHTH 498 Undergraduate Thesis (*, max. 25)
Francis Thesis-based research in vision and ophthalmology. Elective. Offered: AWSpS.

OPHTH 499 Undergraduate Research (*, max. 25)
Francis Laboratory or clinical research in morphology, biochemistry, immunology, experimental pathology, or clinical studies of the eye and visual system. Offered: AWSpS.

OPHTH 501 P-Ophthalmology Preceptorship (1, max. 12) Individualized experiences with one or more of the full-time faculty members of the department covering research, teaching, and patient care. Student observes activities in the clinic, hospital ward, operating room, and research laboratories. Prerequisite: first- and second-year medical student standing and permission of instructor. Instructors: Francis Offered: AWSpS.

OPHTH 600 Independent Study or Research (*)
Prerequisite: Permission of instructor.

OPHTH 681 P-Ophthalmology Clerkship - HMC/Eye Institute (4/8, max. 12) Students gain experience in the diagnosis and treatment of common ocular disorders. Basic examination techniques, including tonometry, ophthalmoscopy, and biomicroscopy. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 683 P-Pediatric Ophthalmology Clerkship - Seattle Children's (4) Student examines and observes treatment of children with ocular diseases and learns to differentiate trivial from potentially blinding disorders. Furnishes programmed text in general ophthalmology. Prerequisite: completion of an ophthalmology clerkship. Offered: AWSpS.

OPHTH 685 P-Ophthalmology Clerkship - VAPSHCS (4) Participation in diagnosis and treatment of medical and surgical ocular disease. Outpatient examinations, inpatient surgery, as well as neuro-ophthalmologic, retinal, and glaucoma consultations. Basic techniques involved in tonometry, ophthalmoscopy, and biomicroscopy of eye. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 686 P-Ophthalmology Clerkship - Kaiser Permanente (4) Diagnosis and treatment of ocular disease in outpatients. Weekly assignments to Kaiser Permanente ophthalmologist responsible for the care of walk-in and urgent patients, demonstrating findings pertinent to the future practice of primary-care physicians. Examination techniques, including tonometry, ophthalmoscopy, and biomicroscopy of eye. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 688 P-Ophthalmology Clerkship - Anchorage (4-8) Two or four week externship at Alaska Native Medical Center in Anchorage. Opportunity to learn and practice common eye examination techniques, including slit-lamp biomicroscopy, tonometry, and funduscopy. Patients seen three days a week; two days spent in the operating room. Prerequisite: completion of human biology series, MED 665, and SURG 665; fourth-year medical students only. Offered: AWSpS.

OPHTH 689 P-Ophthalmology Clerkship - Spokane (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, glaucoma, contact lenses, and strabismus.

Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 690 P-Ophthalmology Clerkship - Missoula (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, glaucoma, contact lenses, and strabismus. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 691 P-Ophthalmology Clerkship - Nampa (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, neuro-ophthalmology, glaucoma, contact lenses, and strabismus. Prerequisite: completion of human biology series. Offered: AWSpS.

OPHTH 692 P - Ophthalmology Clerkship - Bozeman (4) Diagnosis and management of commonly seen eye diseases. Subspecialty clinics include cornea, retina, glaucoma, contact lenses, and strabismus. Offered: AWSpS.

OPHTH 695 P-Ophthalmology Advanced Clerkship - HMC (4) Students gain advanced experience in the diagnosis, evaluation, and treatment of inpatient and emergency department ophthalmology consults, including emergency surgeries. Prerequisite: completion of human biology series; prior ophthalmology clerkship. Offered: AWSpS.

OPHTH 697 P-Ophthalmology Special Electives (*, max. 24) By specific arrangement, for qualified students, special clerkship, externship, or research opportunities are at times made available at institutions or clinics other than the UW. Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor. Instructors: Francis Offered: AWSpS.

OPHTH 699 P-WWAMI Ophthalmology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department. Offered: AWSpS.

ORTHOPEDICS

ORTHP 498 Undergraduate Thesis (*, max. 30) *Eyre* Student works directly with a preceptor in selecting a suitable area for laboratory or clinical research in the area of orthopaedics, and develops a thesis for recognition. Offered: AWSpS.

ORTHP 499 Undergraduate Research (*, max. 90) *Eyre* Investigation of pertinent musculoskeletal problems in the orthopaedic laboratories as part of the research group. Offered: AWSpS.

ORTHP 505 P-Preceptorship in Orthopaedic Surgery (1, max. 12) Opportunity for first- and second-year medical students to gain experience with clinical faculty members in the community. Students observe general aspects of private practice from a longitudinal perspective. Prerequisite: permission of department. Offered: AWSpS.

ORTHP 585 P-Sports Medicine (2) Lectures, patient problem presentations, and seminar discussions to explore impact of exercise and sport participation on various body systems. Includes nutritional concerns, biomechanics of certain sports injuries, and cardiovascular, pulmonary, and musculoskeletal concerns. Prerequisite: second-year medical student standing. Instructors: O' Kane Offered: Sp.

ORTHP 643 P-General Orthopedic Clerkship - Cody, WY (8) Provides a basic education in the fundamentals of musculoskeletal system. Heavy emphasis placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: HUBIO series; third- and fourth-year medical students.

ORTHP 644 P-General Orthopaedic Clerkship - Jackson (*, max. 8) Provides a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three a year. Instructors: Khoury Offered: AWSpS.

ORTHP 650 P-General Orthopaedic Clerkship - Billings (*, max. 8) Provides a basic education in the fundamentals of the musculoskeletal system. Emphasizes reconstructive alternatives in the

treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three a year. Instructors: Shenton Offered: AWSpS.

ORTHP 655 P-General Orthopaedic Clerkship - Boise (*, max. 8) Provides a basic education in the fundamentals of the musculoskeletal system. Emphasizes reconstructive alternative in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Instructors: Scheffel

ORTHP 662 P-General Orthopaedic Surgery-Casper, WY (8) Provides a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: Third or fourth year medical student.

ORTHP 668 P-Pediatric Orthopaedics - Spokane (*, max. 8) Acquaints students with all aspects of musculoskeletal problems in childhood. Includes didactic conferences and seminars, and opportunities for active participation in both inpatient and outpatient care at Shriners Hospital for Children in Spokane. (Four weeks, full-time) . Prerequisite: SURG 665 or HUBIO 553. Instructors: Caskey Offered: AWSpS.

ORTHP 669 P-General Orthopaedic Clerkship - Spokane (*, max. 8) Provides a basic education in the fundamentals of musculoskeletal system. Heavy emphasis placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: HUBIO series; third- and fourth-year medical students. Instructors: Scott Offered: AWSpS.

ORTHP 675 P-Preceptorship in Orthopaedics (*, max. 4) Student spends full time with the preceptor during all his or her working day in order to gain a better understanding of the diagnosis and the management of problems of the musculoskeletal system as seen in the private orthopaedic practice. (Two weeks, full-time) . Prerequisite: SURG 665 or HUBIO 553 and permission of department. Offered: AWSpS.

ORTHP 676 P-Pediatric Orthopaedics - Seattle Children's (*, max. 8) Acquaints students with all aspects of musculoskeletal problems in childhood. Didactic conferences and seminars, and

opportunities for active participation in both inpatient and outpatient care at Seattle Children's Hospital, and correlative anatomy and pathology. (Four weeks, full-time) . Prerequisite: SURG 665 or HUBIO 553. Instructors: Burton, Dales, Jinguji, Krengel, Lindberg, Mosca, Schmale, Steinman, White Offered: AWSpS.

ORTHP 677 P-Musculoskeletal Trauma (*, max. 8) Harborview Medical Center. Emergency room, wards, operating room, and outpatient clinics. Instruction in general and special clinics, including hand, hip, foot, and fracture, with emphasis placed on physical examination of the patient. Students take correlative anatomy and pathology. (Four weeks, full-time) . Prerequisite: SURG 665, HUBIO 553. Instructors: Barei, Beingessner, Bellabarba, Bransford, Dunbar, Firoozabadi, Henley, Kleweno, Nork, Taitsman Offered: AWSpS.

ORTHP 678 P-Musculoskeletal Oncology (8/12) In-depth experience on musculoskeletal oncology service with primary involvement in initial evaluation, staging, treatment, and postoperative follow-up of patients with various musculoskeletal malignancies. Elective involves experience in surgical, oncologic, radiologic, and pathologic principles of managing sarcomas. Prerequisite: basic orthopaedic elective or permission of instructor. Instructors: Conrad, Davidson Offered: AWSpS.

ORTHP 680 P-General Orthopaedic Clerkship - VAMC (*, max. 8) Veterans' Administration Hospital: structured to provide a basic education in the fundamentals of the musculoskeletal system. Heavy emphasis is placed on the reconstructive alternatives in the treatment of degenerative joint diseases. Prerequisite: completion of HUBIO series; third- and fourth-year students. Enrollment limited to three. Instructors: Chansky Offered: AWSpS.

ORTHP 681 P- Sports Medicine Orthopaedic Clerkship (8) Orthopaedic subspecialty clerkship at University of Washington Medical Center. Preceptor-based outpatient, inpatient, emergency, or operative orthopaedic care. Students work primarily in one subspecialty area and in one general orthopaedic clinic. For students who plan careers in orthopaedic surgery. Prerequisite: completion of HUBIO series, third- and fourth-year medical students. Instructors: Green, Larson, O' Kane, Twaddle Offered: AWSpS.

ORTHP 682 P-Outpatient Orthopaedics (8)

Outpatient orthopaedic experience at University of Washington Medical Center. Emphasis on physical exam, diagnosis, radiographic evaluation, and non-operative treatment. Rotation through general orthopaedics as well as all subspecialty areas. For students who plan careers in primary care. Prerequisite: completion of HUBIO series. Instructors: Conrad, Davidson, Manner, Matsen, Wagner, Warne Offered: AWSpS.

ORTHP 684 P-Disorders of the Spine (8) Evaluation and assessment strategies of spinal disorders for patients of all ages and wide variety of clinical conditions including trauma, deformity, degenerative disorders, metabolic, and inflammatory diagnoses. Outpatient, surgical, and conference-based teaching sessions aimed at all experience levels and individualized for practitioners with interest in medical specialties, emergent care, radiology, physiatry, intervention pain management. Offered: AWSpS.

ORTHP 685 P-Adult Reconstruction: Total Joint Service (8) *Manner* Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Students work with faculty in the Total Joint Service which specializes in lower extremity adult reconstructive surgery, including: complex primary hip/knee arthroplasty; less invasive approaches to hip/knee arthroplasty; revision hip/knee arthroplasty; periacetabular and proximal femoral osteotomy; osteotomy about the knee; and hip arthroscopy. Offered: AWSpS.

ORTHP 686 Orthopaedics: Lower Extremity/Foot and Ankle - Boise, ID (1-8, max. 8) *Gregory A Schmale* Orthopaedic clinical clerkship in Boise, ID. Preceptor-based outpatient, inpatient, emergency, or operative orthopaedic care focused on the treatment and rehabilitation of foot and ankle injuries. Students work primarily in one subspecialty area (foot and ankle) and in one general orthopaedic clinic. For students who plan careers in orthopaedic surgery. Prerequisite: completion of HUBIO series, third- and fourth-year medical students. Offered: AWSpS.

ORTHP 687 P-Shoulder and Elbow (8) *Matsen, Warne* Preceptor-based outpatient, inpatient, emergency, and operative orthopaedic care. Work with the faculty in the Shoulder and Elbow Service,

which provides comprehensive evaluation and management for a wide range of shoulder and elbow problems, including: arthritis, dislocation or instability, fractures, rotator cuff/tendon tears, joint stiffness, and unsuccessful previous surgery. Offered: AWSpS.

ORTHP 688 P-Sports Medicine- Spokane, WA (8)

Orthopedic clinical clerkship in sports medicine. Students participate in care of patients with sports-related injuries. Emphasis on physical examination and determining appropriate operative interventions and rehabilitation. Offered: AWSpS.

ORTHP 697 P-Orthopaedic External Elective (*, max. 24)

Special arrangements can be made for students desiring to take orthopaedic electives at other institutions. Programs generally approved include orthopaedic clerkships at other universities or at large orthopaedic institutes. Prerequisite: HUBIO 553 and permission of department. Offered: AWSpS.

ORTHP 699 P-WWAMI Orthopedics Special Electives (*, max. 24)

By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

OTOLARYNGOLOGY — HEAD AND NECK SURGERY

OTOHN 498 Undergraduate Thesis (*, max. 35)

Student works directly with department faculty in selecting a suitable area for laboratory or clinical research in the area of otolaryngology, and develops a thesis for recognition. Offered: AWSpS.

OTOHN 499 Undergraduate Research (*, max. 35)

Research opportunities offered under direction in the area of otolaryngology. (Twelve weeks.) Offered: AWSpS.

OTOHN 501 P-Preceptorship in Otolaryngology - Head and Neck Surgery (1, max. 12)

One morning a week for a total of 30 hours per quarter spent observing patient care in either inpatient or outpatient settings at the University of Washington Medical Center; associated readings. Prerequisite: first- or second-year medical student standing. Coordinator: OTOHNS office. Offered: AWSpS.

OTOHN 600 Independent Study or Research (1-3, max. 24)

Independent study or research in otolaryngology conducted under the direction of one or more instructors. Prerequisite: permission of department and sponsoring faculty member. Offered: AWSpS.

OTOHN 670 Otolaryngology - Head and Neck Surgery - Subinternship (*, max. 16)

Provides medical students exposure to an immersive educational experience in otolaryngology. Sub-interns function as members of the surgical team, participating in outpatient clinics, inpatient care, emergency procedures, and the operating room. Prerequisite: clinical rotations in General Surgery and Internal Medicine.

OTOHN 675 P-Otolaryngology Clerkship Bozeman, MT (4-8, max. 8)

Surgical subspecialty of otolaryngology-head and neck surgery is structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: third or fourth year medical student; recommended: patient-care courses in internal medicine or surgery. Offered: AWSpS.

OTOHN 676 P-Otolaryngology Clerkship Jackson Hole WY (4-8, max. 8)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: Completion of Internal Medicine or Surgery required third year clerkship is strongly recommended, third or fourth year medical student standing. Offered: AWSpS.

OTOHN 677 P-Otolaryngology Clerkship Harborview (4, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: Completion of Internal Medicine or Surgery required third year clerkship is strongly recommended, third or fourth year medical student standing. Offered: AWSpS.

OTOHN 679 P-Otolaryngology - Head and Neck Surgery Clerkship - Missoula (4/8, max. 24) M. Whipple

Introduction to surgical subspecialty of

otolaryngology-head and neck surgery. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 680 P-Otolaryngology - Head and Neck Surgery Clerkship - UWMC (4/8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Rotation at UWMC. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 681 APC -Otolaryngology Clerkship - Harborview (8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: Internal Medicine or Surgery required third year clerkship is strongly recommended, third or fourth year medical student standing. Offered: AWSpS.

OTOHN 682 P-Otolaryngology - Head and Neck Surgery Clerkship - VA (4/8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 683 P-Otolaryngology - Head and Neck Surgery Clerkship - Madigan (*, max. 8)

Individual externship training at an outpatient clinic, where visits average twelve hundred per month, supplemented by inpatient assignments. Students may reside at the hospital during externship, using facilities of bachelor officer quarters and hospital mess. (Two or four weeks, full-time) . Prerequisite: completion of human biology series. Instructors: (Madigan Army Medical Center) Offered: AWSpS.

OTOHN 684 P-Otolaryngology - Head and Neck Surgery Clerkship - Seattle Children's (4/8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds,

and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 685 P-Otolaryngology - Head and Neck Surgery Clerkship - Boise (4/8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 686 P-Otolaryngology - Head and Neck Surgery Clerkship - Greater Seattle Private Practice (4)

Provides exposure to all aspects of patient care through a private practice setting. The student is exposed to the outpatient clinic and operating room procedures with daily directed contact with one attending faculty member. Contact administrator to arrange rotation. Prerequisite: permission of course director. Offered: AWSpS.

OTOHN 687 P-Otolaryngology - Head and Neck Surgery Clerkship - Spokane (4/8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 688 P-Otolaryngology - Head and Neck Surgery Clerkship - Anchorage (4/8, max. 24)

Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, and have an opportunity to go to the operating room. Prerequisite: human biology series. Offered: AWSpS.

OTOHN 689 P-Otolaryngology - Head and Neck Surgery Clerkship - Laramie (4/8, max. 24) P.

Johnson Introduction to surgical subspecialty of otolaryngology-head and neck surgery. Structured to allow broad introduction to breadth of specialty. Students see patients in clinic, join inpatient rounds, have an opportunity to go to operating room. Prerequisite: Human biology series. Offered: AWSpS.

OTOHN 697 P-Otolaryngology - Head and Neck Surgery - Away Externship (*, max. 8) By specific arrangement. Special clerkship, externship, or research opportunities are at times made available at institutions other than the University of Washington. Prospective students obtain a special assignment form from the dean's office at least one month before preregistration. Prerequisite: permission of clerkship director. Instructors: Fultran
Offered: AWSpS.

OTOHN 699 P-Otolaryngology - Head and Neck Surgery Clerkship - WWAMI (4/8, max. 8) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department. Offered: AWSpS.

PEDIATRICS

PEDS 498 Undergraduate Thesis (*, max. 35) For medical students. Offered: AWSpS.

PEDS 499 Undergraduate Research (*, max. 35) Participation in various clinical or basic research programs in progress, specifically: child development, developmental biology, human embryology and teratology, medical genetics, infectious diseases, neonatology, neuroembryology, cardiology, endocrinology and metabolism, immunology, respiratory disease. Offered: AWSpS.

PEDS 505 P-Preceptorship in Pediatrics (1, max. 12) To provide opportunity for first- and second-year medical students to gain personal experience with medical practice situations for pediatricians by being stationed with carefully selected clinical faculty members in their offices. Enrollment limited. Coordinator: Department of Pediatrics. Credit/no-credit only. Offered: AWSpS.

PEDS 513 Scientific Investigation in Pediatric Medicine (1) Faculty Investigators in the Department of Pediatrics will lecture on the general biology of their research area and its relevance to understanding pediatric disease and developing therapies. Given the varied nature of research represented in the Department of Pediatrics, the course will be wide-ranging and include basic science and clinical/translational approaches. Each

participating investigator will give one 1-hour presentation. Offered: AWSpS.

PEDS 530 P-Homeless Youth and Their Medical Care (1) Seminar and interview practice; students learn how to deal with special health problems and other related problems of "street kids" through interviews and observations. Credit/no-credit only. Offered: W.

PEDS 562 Ethical Issues in Pediatrics (3) *Nancy S. Jecker, Douglas S. Diekema* Provides a survey of contemporary ethical issues that arise in the clinical and research environment when children are involved, including the role of children and adolescents in decision-making, the limits of parental decision-making authority, and issues related to genetic testing, transplantation, research, and public health. Offered: jointly with B H 562; A.

PEDS 598 P-Pediatrics Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Pediatrics Clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission
Offered: AWSpS.

PEDS 600 Independent Study or Research (*) Facilitates and promotes mentored independent study/scholarship related to the care of children. Students participate in projects that promote individual, self-directed and creative scholarly activity with appropriate supervision, oversight, and mentorship with an emphasis on the process of scholarship.

PEDS 609 Indian Healthcare Clerkship (8, max. 16) Examines the health disparities, health systems, and cultural/community strengths associated with American Indian/Alaska Native or other indigenous peoples. Prerequisite: either UCONJ 530, Indian Health Pathway declaration, or permission of course coordinator. Offered: AWSpS.

PEDS 610 Traditional Indian Medicine (8, max. 24) Students experience how Western physicians collaborate with traditional Indian healers (and vice versa) to best care for American Indian and Alaska Native patients. Prerequisite: UCONJ 530; Indian Health Pathway declaration; and advanced

permission from Indian Health Pathway Program Manager. Offered: AWSpS.

PEDS 611 P-Country Doctor Free Teen Clinic (1, max. 2) Participation in a free clinic for out-of-home youth, either Monday or Tuesday evenings. Clinical services include general medical care, with a focus on reproductive health, STD evaluations/treatment, and the impact of a homeless lifestyle on general health. (Limit per rotation: one student.) Offered: AWSpS.

PEDS 612 Pediatric Intensive Care - HMC (8) Elective in Pediatric Intensive Care at Harborview Medical Center. Open to Explore and Focus medical students who have completed their Core Pediatrics Rotation. Students will be expected to manage patients with the supervision of the Pediatric Critical Care attending or fellow. Students will have the opportunity to manage patients with complex multisystem disease and learn key elements of acute resuscitation in the intensive care setting. Prerequisite: Explore and Focus standing, completion of Core Pediatrics Rotation. Offered: AWSpS.

PEDS 613 Pediatric Gastroenterology (8) Fourth-year medical students will see clinical pediatric gastrointestinal problems under close faculty supervision. They will participate in inpatient gastroenterology consultations, outpatient clinic evaluations for new and follow-up patients, and (observe) endoscopic and therapeutic gastrointestinal procedures. Prerequisite: Completion of Peds, IM and Surgery required clerkships Offered: AWSpS.

PEDS 620 Pediatric Sub-Specialty Clinics-Billings (4, max. 8) The student will choose 2 weeks of specialty clinics based on student interest and availability of faculty preceptors at the time of the rotation. Available clinics include: Pediatric Cardiology, Pulmonary, Gastroenterology and Neurology. The maximum time spent with one specialty is 2 weeks; the minimum is one week. Students will evaluate both patients seen in consultation and patients returning for on going care for existing problems. Prerequisite: completion of Pediatrics Clinical Clerkship. Offered: AWSpS.

PEDS 623 Pediatrics Child Abuse - Spokane, WA (4, max. 8) Exposes future clinicians to the most common issues relating to child abuse and neglect.

(Limit: one student) . Prerequisite: fourth-year medical students who have completed their core pediatrics rotation; permission of department. Offered: AWSpS.

PEDS 624 Pediatric Emergency Medicine - Spokane (8) Students manage patients with the supervision of a Pediatric Emergency Medicine attending or fellow. Includes the opportunity to manage patients with a wide spectrum of disease processes as well as learn key emergency medicine procedural skills. Prerequisite: PEDS core clerkship; by departmental permission. Offered: AWSpS.

PEDS 625 Pediatric Emergency Medicine (8) Elective in Pediatric Emergency Department at Seattle Children's Hospital. Students manage patients with the supervision of a Pediatric Emergency Medicine attending or fellow. Includes the opportunity to manage patients with a wide spectrum of disease processes as well as learn key emergency medicine procedural skills. Prerequisite: fourth- year medical students. Offered: AWSpS.

PEDS 628 P-Pediatric Allergy and Immunology - Missoula (*, max. 24) The clinic involves seeing patients with allergy asthma and immunology disorders, such as seasonal allergies, allergic rashes, asthma, chronic cough, chronic sinusitis, contact dermatitis, bee sting allergy, food allergies and more. Focus on obtaining a detailed history, physical exam and formulating a personalized management plan for patients. Training and interpretation of major procedures - allergen skin, patch and pulmonary function testing. Prerequisite: PEDS core clerkship; departmental permission Offered: AWSpS.

PEDS 629 Neonatal Pediatrics- Missoula, MT (4, max. 24) Participation in the activities in the newborn and premature divisions; ward rounds, seminars, conferences, and familiarization with certain laboratory techniques, particularly those relating to acid-base balance. Offered: AWSpS.

PEDS 630 P-WRITE Pediatrics Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: PEDS 665 , inpatient only; acceptance in the WRITE program.

PEDS 631 LIC Pediatrics Clinical Clerkship (12) Basic clinical clerkship for students enrolled in the LIC program. Prerequisite: acceptance into LIC program.

PEDS 635 Pediatric Cardiology - Boise, ID (4/8, max. 24) *Michael S. Womack* Emphasis on physical examination skills. Application of fundamental anatomy and physiology to analyze a variety of cardiovascular situations, normal and abnormal, applicable to any medical field, including congenital heart disease. Independent reading and analysis of relevant anatomy and physiology for one-on-one discussion. Clinic and catheterization laboratory each week. (Two or four week rotation. Limit: one student) . Prerequisite: permission of department. Offered: AWSpS.

PEDS 636 Pediatric Cardiology - Spokane (4, max. 24) Elective rotation with an emphasis on physical diagnosis, electrocardiography, clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 637 Pediatric Cardiology - Anchorage (4, max. 24) Elective rotation with an emphasis on physical diagnosis, electrocardiography, clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 638 Pediatric Cardiology - Missoula (4, max. 24) Elective rotation with an emphasis on physical diagnosis, electrocardiography, clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 640 Pediatric Gastroenterology - Boise (4, max. 24) Elective rotation where students see clinical pediatric gastrointestinal problems, participate in inpatient gastroenterology consultations, outpatient clinic evaluations for new and follow-up patients, and (observe) endoscopic

and therapeutic gastrointestinal procedures. (Limit: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 642 Pediatric Clinical Clerkship - Sheridan, WY (12) Offers a comprehensive overview of the approach for providing care to children and their families. Explores the range of reasons children seek medical care, from well-child visits to acute medical problems. Students gain experience in inpatient and outpatient settings and the ongoing management of chronic illnesses. Offered: AWSpS.

PEDS 643 Pediatric General Clerkship - Spokane Kaiser (1-24, max. 25) The core pediatric clerkship is designed to provide a comprehensive overview of the approach to the care of children and their families. In addition, explores the range of reasons children seek medical care, from well child visits to acute medical problems in both inpatient and outpatient settings and the ongoing management of chronic illnesses. Offered: AWSpS.

PEDS 644 Pediatric General Clerkship - Wasilla, AK (1-24, max. 25) General introductory pediatric clerkship. Student will split time in hospital setting, outpatient department, clinic, or private office. Open to all third- and fourth year students. (Six weeks, full-time. Limit per rotation: one student) . Offered: AWSpS.

PEDS 645 Pediatric General Clerkship - Kalispell (1-24, max. 25) General introductory pediatric clerkship. One half in hospital setting; one half in outpatient department, clinic, or private office. Open to all third and fourth year student. Offered: AWSpS.

PEDS 647 Pediatric General Clerkship- Lewiston, ID (1-24, max. 25) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time) Offered: AWSpS.

PEDS 648 Pediatric General Clerkship - Everett, WA (1-24, max. 25) General introductory pediatric clerkship. One half in hospital setting; one half in outpatient department, clinic, or private office. Open to all third- and fourth year students. (Six weeks, full-time. Limit per rotation: one student) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 650 Pediatric General Clerkship - Moses Lake, WA (1-24, max. 25) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 651 Pediatric General Clerkship - Bozeman, MT (1-24, max. 25) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 652 Pediatric General Clerkship - Idaho Falls, ID (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 653 Pediatric General Clerkship - Helena, MT (*, max. 24) General introductory inpatient and outpatient pediatric clerkship. Provides exposure to diverse settings where children receive health services. The six-week experience takes place in Helena, MT.

PEDS 655 Pediatric General Clerkship - Jackson, WY (*, max. 24) General introductory inpatient and outpatient pediatric clerkship. Takes place primarily in an active pediatric group practice with appropriate outpatient and inpatient opportunities, including access to a community hospital with nursery, pediatric beds, and physician-staffed emergency room. (Six weeks, full time. Limit per rotation: one student) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 656 Pediatric General Clerkship - Wenatchee (*, max. 24) General introductory inpatient and outpatient pediatric clerkship. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: one student) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 657 P-Pediatric General Clerkship - Missoula (*, max. 24) General introductory inpatient and outpatient pediatric clerkship. Provides exposure to

diverse settings where children receive health services. The six-week experience takes place in three active pediatric practices with appropriate outpatient and inpatient opportunities and at Community Medical Center. (Six weeks, full time. Limit per rotation: one or two students.) Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 658 Pediatric General Clerkship - Boise (*, max. 24) General introductory inpatient and outpatient pediatric clerkship. Provides exposure to diverse settings where children receive health services. The six-week experience takes place in three active pediatric practices with appropriate outpatient and inpatient opportunities and at St. Luke's Medical Center. (Six weeks, full time. Limit per rotation: one or two students) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 659 Pediatric General Clerkship - Billings, MT (*, max. 24) General introductory inpatient and outpatient pediatric clerkship. Exposes students to diverse settings where children receive health services. The six-week experience takes place primarily in two active pediatric group practices with appropriate outpatient and inpatient opportunities. (Six weeks, full time. Limit: per rotation: one student.) Offered: AWPpS.

PEDS 660 Pediatric General Clerkship - Cheyenne, WY (*, max. 24) Introductory inpatient and outpatient pediatric clerkship that exposes students to environments in settings where children receive medical and health services. The six-week experience takes place primarily in an active pediatric group practice with appropriate outpatient and inpatient opportunities. (Six weeks, full time. Limit per rotation: one student) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 661 Pediatric General Clerkship - Anchorage (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: three students) . Prerequisite: HUBIO 563. Offered: AWPpS.

PEDS 663 P-Pediatric General Clerkship - Mary Bridge (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office.

Location preferences are considered. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: three or four students) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 664 P-Pediatric General Clerkship - Pocatello, ID (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: one student) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 665 P-Pediatric General Clerkship - Seattle (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department or clinic. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: ten students) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 666 P-Pediatric General Clerkship - Great Falls, MT (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 667 Pediatric General Clerkship - Madigan (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two students) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 668 P-Pediatric General Clerkship - Spokane (*, max. 24) General introductory pediatric clerkship. One-half in hospital setting; one-half in outpatient department, clinic, or private office. Open to all third- and fourth-year medical students. (Six weeks, full time. Limit per rotation: two or three students) . Prerequisite: HUBIO 563. Offered: AWSpS.

PEDS 669 P-Neonatal Pediatrics - Clerkship (*, max. 24) Participation in the activities in the newborn and premature divisions; ward rounds, seminars, conferences, and familiarization with certain laboratory techniques, particularly those relating to acid-base balance. (Limit per rotation: one or two

students) . Prerequisite: PEDS and OB GYN core clerkships. Offered: AWSpS.

PEDS 670 P-Pediatric Infectious Diseases (*, max. 24) Students see and work up clinic consultations and present in detail to attending physician. Daily rounds include problem-solving discussions and didactic presentations in broad category of infectious diseases. Opportunity for experience in clinical research and laboratory techniques. (Limit per rotation: one student) . Prerequisite: PEDS and MED core clerkships; fourth-year medical student standing. Offered: AWSpS.

PEDS 671 Pediatric Endocrinology (*, max. 24) Focuses on the evaluation of the normal progression of hormone mediated processes in children and the recognition, diagnosis, and management of a variety of endocrine problems. Includes participation in clinics, impatient endocrine rounds, and a variety of conferences at Seattle Children's Hospital. (Limit per rotation: one student.) Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 672 P-Office Practice - Spokane (*, max. 12) Opportunity to observe and function in the private office settings of a number of clinical pediatric faculty and to accompany pediatricians as they pursue their daily activities in the community. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 673 P-Office Practice (*, max. 12) Opportunity to observe and function in the private office settings of a number of clinical pediatric faculty and to accompany pediatricians as they pursue their daily activities in the community. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 674 P-Pediatric Genetics - Spokane (*, max. 24) Clinical focus on evaluation and management of children with genetic disorders. Exposure to genetic counseling, the evaluation of children with hereditary structural defects, and diagnosis and management of children with inborn errors of metabolism. Emphasis on genetic mechanisms that cause human disease. (Two or four weeks. Limit per rotation: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 675 P-Clinical Complementary and Integrative Medicine (4/8, max. 8) Clinical rotation for students interested in Complementary and Integrative Medicine (CIM) . Students arrange clinical placements with selected CIM providers in the community: naturopathic physician, chiropractor, acupuncturist, and massage therapist. Students arrange their own schedules and must do so at least four weeks in advance of the rotation. (Limit per rotation: one or two students) . Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 677 P-Pediatric Intensive Care (8) Students manage patients with the supervision of the Pediatric Critical Care attending or fellow at Seattle Children's Hospital. Includes the opportunity to manage patients with complex multisystem disease and learn key elements of acute resuscitation in the intensive-care setting. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 678 P-Pediatric Infectious Diseases - Boise (*, max. 24) Students see and work up clinic consultations and present in detail to attending physician. Daily rounds include problem-solving discussions and didactic presentations in broad category of infectious diseases. Opportunity for experience in clinical research and laboratory techniques. (Limit per rotation: one student) . Prerequisite: PEDS and MED core clerkships; third- or fourth-year medical student standing; departmental permission. Offered: AWSpS.

PEDS 679 P-Clinical Problems in Developmental Disabilities (*, max. 12) Experience in multidisciplinary evaluation and management of the handicapped child. Student performs pediatric evaluations, obtains appropriate consultations, observes additional professional assessments (e.g., psychological testing) , and plans rehabilitation program. Opportunity to provide parent counseling. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 681 P-Medical Genetics (*, max. 24) Clinical focus on evaluation and management of children with genetic disorders. Exposure to genetic counseling, the evaluation of children with hereditary structural defects, and diagnosis and management of children with inborn errors of metabolism. Emphasis on genetic mechanisms that

cause human disease. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 683 P-Pediatric Nephrology (8) Four-week elective clerkship at Seattle Children's Hospital. Students participate in nephrology and transplant rounds, consult with renal fellows and attendings, and work up patients in renal clinics. Participation in seminars; special course in fluid balance. (Limit per rotation: one student) . Prerequisite: third- or fourth-year medical student; PEDS and MED core clerkships; departmental permission. Offered: AWSpS.

PEDS 684 P-Pediatric Pulmonary Medicine (8) Respiratory disorders, diagnostic techniques, and treatments unique to children in the inpatient, intensive care, and outpatient settings. Application of principles of pulmonary physiology to clinical problems. Students conduct consultations under the supervision of the attending and present a topic of choice. Inpatient rounds and clinics. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship, fourth-year medical student standing. Offered: AWSpS.

PEDS 685 P-Pediatric Hematology and Oncology (*, max. 24) One-on-one teaching plus four weekly didactic sessions. Specific training in techniques and interpretation of bone marrow aspirations, intravenous chemotherapy, transfusions, and laboratory techniques of hematologic evaluation. Self-learning programs available. (Two or four weeks, full-time. Limit per rotation: one student) . Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 686 P-Pediatric Cardiology (*, max. 24) Emphasis on physical diagnosis and electrocardiography and on clinical knowledge of diagnostic techniques and surgical possibilities for inpatients and outpatients with cardiovascular problems. Opportunity to observe catheterizations and cardiovascular operations. Weekly clinics and twice-daily inpatient rounds. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 687 Neonatal Pediatric Clerkship (4) Offered: AWSpS.

PEDS 688 Pediatric Rheumatology (8) Exposes students to a wide range of pediatric rheumatologic diseases and provides them with the opportunity to evaluate new patients, help work up and manage inpatients with complex multisystem disease, and learn key elements of evaluation and treatment of childhood rheumatic diseases. Open to 4th year medical students. Prerequisite: completion of core pediatrics rotation; interest in rheumatology.

PEDS 689 P-Advanced Rural Pediatrics - Ft. Washakie, WY (8) Student functions at the sub-intern level to care for patients with acute pediatric illness, provide well child care, and provide follow up care to patients seen in the newborn nursery, Level II Neonatal ICU, hospitalizations, and previous clinic visits. Students interested should make arrangements well in advance of registration. Prerequisite: required clerkship in Pediatrics, Obstetrics and Gynecology, Internal Medicine, and Surgery.

PEDS 690 Advanced Pediatric Clerkship - Boise (*, max. 24) Inpatient and/or outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care at St. Lukes Hospital. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 691 P-Advanced Pediatric Clerkship - Seattle (*, max. 24) Inpatient and/or outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care as Seattle Children's. (Limit per rotation: three students) . Prerequisite: PEDS core clerkship. Offered: AWSpS.

PEDS 692 P-Advanced Pediatric Clerkship - Spokane (*, max. 24) Inpatient and outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care at Sacred Heart Children's Hospital. (Limit per rotation: one student) . Prerequisite: PEDS core clerkship; departmental permission. Offered: AWSpS.

PEDS 693 Advanced Pediatric Subinternship - Mary Bridge (*, max. 24) Inpatient and outpatient experience with responsibilities comparable to intern for patient workup, diagnosis, and care. (Limit per rotation: one student) . Prerequisite: Core Clerkship in PEDS, OB/GYN, I-Med, Surgery; departmental permission.

PEDS 694 P-Pediatric Adolescent Medicine (8) Elective in Adolescent Medicine at Seattle Children's Hospital. Open to 4th year medical students who have completed their Core pediatrics Rotation. Students will be expected to manage patients with the supervision of attending physicians. Students will have the opportunity to manage adolescent patients in the outpatient setting and learn key elements of subspecialty care of adolescents.

PEDS 695 Pediatric Hematology and Oncology (4) Offered: AWSpS.

PEDS 696 Pediatric Endocrinology (4) Offered: AWSpS.

PEDS 697 P-Pediatric Special Electives (*, max. 24) By specific arrangement, for qualified students, special clerkship externship or research opportunities at institutions other than University of Washington. The faculty can advise of possible opportunities. Obtain special assignment form from the Department of Pediatrics at least one month before preregistration. Prerequisite: permission of department and the away site. Offered: AWSpS.

PEDS 698 Pediatric Boot Camp (4) Focuses on what is needed on day one of internship to care for children through hands-on experience, simulation, group problem solving, role-playing, didactics, and supplemental reading material. Emphasizes the acquisition and practice of core skills. Themes include communication, procedural competency, and medical decision making pertinent to both inpatient and outpatient pediatrics. (Two weeks.) Prerequisite: Prerequisite: fourth-year standing; departmental approval. Offered: Sp.

PEDS 699 P-WWAMI Pediatrics Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be within the WWAMI region. Prerequisite: permission of department and the away site. Offered: AWSpS.

PHARMACOLOGY

PHCOL 401 General Pharmacology I (2-4, max. 4) *Wang* Principles governing drug-receptor interactions, dose-response relationships, desensitization, and tolerance. Drug toxicity, allergy, mutagenesis, and carcinogenesis. Pharmacogenomics

and DNA/RNA therapies. General pharmacology of drugs acting on the endocrine and vascular systems. For pharmacy students and other undergraduates. Offered: A.

PHCOL 402 General Pharmacology II (3/4) General pharmacology of drugs acting on the autonomic, cardiovascular, and central nervous systems. For Pharmacy students and other undergraduates. Prerequisite: PHCOL 401. Instructors: Storm Offered: W.

PHCOL 434 General Pharmacology (2) *Grubbs* Lectures concerning the action of drugs on physiological and pathological processes with special emphasis on agents of special importance in the practice of dentistry. For dental students. Offered: A.

PHCOL 435 General Pharmacology (2) *Grubbs* Lectures concerning the action of drugs on physiological and pathological processes with special emphasis on agents of special importance in the practice of dentistry. For dental students. Offered: W.

PHCOL 498 Undergraduate Thesis (*, max. 35) Offered: A.

PHCOL 499 Undergraduate Research (*, max. 35) Participation in departmental research projects. Offered: AWSpS.

PHCOL 501 Drug Discovery and Emerging Therapeutics (2) *Ning Zheng* Consideration of the general principles and current approaches involved in modern drug discovery and development, with an emphasis on basic concepts in drug action, delivery, and metabolism. Discussion of novel drug discovery techniques and emerging non-standard therapeutics. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Offered: A.

PHCOL 502 Signal Transduction from the Cell Membrane to the Nucleus (2) *John D. Scott, Shao-En Ong, Rich Gardner* Intracellular signaling pathways leading from cell membrane receptors to nucleus. Pathways activated by seven transmembrane receptors and G-proteins, insulin/PI3 kinase, nitric oxide and WNTs and mechanisms of signal termination. Cytokine/Jak/Stat signaling and role of subcellular localization in signal transduction.

Prerequisite: basic knowledge of biochemistry. Offered: jointly with CONJ 532; A.

PHCOL 503 Autonomic/Cardiovascular Pharmacology (2) *Neil M Nathanson* Consideration of the pharmacology of the cardiovascular and autonomic nervous systems. Emphasizes the mechanisms of neurotransmitter, hormone, drug action at autonomic synapses, and the molecular basis for physiology and pathophysiology of the cardiovascular system. Lectures, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Offered: W.

PHCOL 504 Neuropharmacology (2) *Sandra Bajjalieh* Consideration of the neurobiological basis of drug action on the central nervous system, including mechanism of action and therapeutic use in psychiatric disorders; neurodegeneration/neuroinflammation; control of neuronal excitability and pain; and drug abuse and addiction. Lecture, group discussion, and analysis of recent research. Offered: W.

PHCOL 505 Endocrine Pharmacology (2) *Stanley McKnight* Consideration of the pharmacology of endocrine systems including the hypothalamic/pituitary regulatory peptides, glycoprotein hormones/growth factors, peptide and steroid hormones. Lecture, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Offered: Sp.

PHCOL 506 Immunopharmacology and Chemotherapeutics (2) *Stanley McKnight* Basic principles of immunology as applied to immunopharmacology. Current overview of cancer chemotherapy and antimicrobial chemotherapy. Lectures, group discussions, student presentations, and analysis of recent research. Prerequisite: coursework in biochemistry and physiology. Offered: Sp.

PHCOL 507 Pharmacology Seminar (1, max. 30) Presentation of comprehensive reports on recent medical and scientific literature in fields of current importance. Research progress reports, and reports on results of completed research. Prerequisite: permission of instructor. Offered: AWSp.

PHCOL 513 Endocrine Pharmacology and Chemotherapeutics (2) Consideration of the pharmacology of endocrine systems including the hypothalamic/pituitary regulatory peptides, glycoprotein hormones/growth factors, peptide and steroid hormones. Basic principles of chemotherapy of endocrine and other cancers, as well as viral and microbial diseases. Lecture, group discussion, and analysis of recent research. Prerequisite: organic chemistry, biochemistry, and introductory anatomy and physiology. Instructors: McKnight Offered: Sp.

PHCOL 514 Current Topics in Pharmacology (1, max. 30) Current research related to the mechanisms of drug action presented in a seminar format. Presentations include relevant background material as well as detailed experimental results taken from current research articles. Prerequisite: permission of instructor. Instructors: Gardner Offered: AWSp.

PHCOL 515 General Pharmacology Laboratory (*, max. 9) Laboratory course for professional and graduate students who wish to do independent laboratory research under the direction of a specific faculty member. Prerequisite: permission of instructor. Offered: AWSp.

PHCOL 519 Introduction to Laboratory Research in Pharmacology (4, max. 20) *Storm* On a rotation basis students carry out individual research projects in the laboratories of different faculty members. At the end of each quarter students make formal presentations of their work. For first-year graduate students in pharmacology. Offered: AWSpS.

PHCOL 527 Drug Metabolism (4) *A. RETTIE, K. THUMMEL* Considerations of the biochemical mechanisms for the biotransformation of drugs and foreign compounds. Includes reaction mechanisms, ultrastructural considerations, induction mechanisms, methodology, kinetics of inhibition and activation, steroid and amine metabolism. Offered: jointly with MEDCH 527; W, odd years.

PHCOL 529 Ion Channel Pharmacology (2) Current topics in ion channel structure, function, genetics, and pharmacology, including consideration of role in electrical signaling in cell membranes and information transfer and processing in nervous system, inherited diseases of ion channels, and sites and mechanisms of action of drugs and toxins. Prerequisite: CONJ 532 and CONJ 536 or permission

of instructor. Instructors: Catterall, Tempel Offered: A, odd years.

PHCOL 530 Neuronal Signaling Pathways (2) Advanced consideration of the molecular events between drug or hormone binding to receptors and the resulting responses. Emphasizes roles played by signal transduction pathways in regulation of synaptic plasticity, memory formation, neuronal apoptosis, and developmental neurobiology. Prerequisite: UCONJ 532 or permission of instructor. Instructors: Beavo, Hague, Storm, Xia Offered: W, even years.

PHCOL 531 Genetic Analysis of Signaling Systems (3) *Rich Gardner, Stanley McKnight* Introduction to classic model organisms including plants, yeast, slime mold, flies, worms, fish, mice, and humans and a discussion of their use in current signal transduction research. A major focus will also be on developing a research grant proposal culminating in a mock study section in which student proposals are evaluated by their peers. Prerequisite: permission of instructor; recommended: molecular and cellular biology; and genetics. Offered: Sp, odd years.

PHCOL 534 Molecular Basis of Addictive Drug Action (2) Advanced consideration and discussion of current literature addressing the basis of opiate, psychostimulant, and cannabinoid effects on signal transduction events, electrical activity of neurons, and drip-motivated behaviors in animal models of human drug abuse. Prerequisite: PHCOL 512 or permission of instructor. Instructors: Chavkin, Phillips, Stella Offered: A, even years.

PHCOL 535 Transcriptional Control in Human Disease (3) Advanced consideration and discussion of the mechanisms regulating transcription/gene expression and of aberrant transcription factors which disrupt this process found in cancer and other human diseases. Prerequisite: PHCOL 512 or permission of instructor. Instructors: Bomsztyk, Wang Offered: Sp, even years.

PHCOL 550 An Overview of Faculty Research (1) Reviews research topics currently being studied in pharmacology. Student reads articles published on each topic. Prerequisite: first-year student standing in pharmacology. Instructors: Wang Credit/no-credit only. Offered: A.

PHCOL 560 Regulation of Cell Function by Cyclic Nucleotide Phosphodiesterases (1) Discussion of research strategies, methodologies, and literature relating to regulation of cyclic nucleotide levels in the cell. Emphasis on practical problem solving, data analysis, and presentation of methods important to understanding published data and designing new experiments in this area of research. Prerequisite: permission of instructor. Instructors: Beavo Credit/no-credit only. Offered: AWSpS.

PHCOL 561 Molecular Properties of Ion Channels (1) Discussion of research strategies, methodologies, and literature concerning the structure, function, and regulation of sodium and calcium channels and the mechanism of action of drugs on them. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Catterall Credit/no-credit only. Offered: AWSpS.

PHCOL 562 Molecular Basis for Motivated Behavior (1) Discussion of research strategies and methodologies involved in the regulation of motivated behavior by understanding signal transduction and synaptic physiology. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Prerequisite: permission of instructor. Instructors: Chavkin Credit/no-credit only. Offered: AWSpS.

PHCOL 563 Signal Transduction Mechanisms in Neuroplasticity and Neuron Growth (1) Discussion of research strategies, methodologies, and literature relating to signal transduction mechanisms important for neuroplasticity and regulation of neuron growth in the central nervous system. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Prerequisite: permission of instructor. Instructors: Storm Credit/no-credit only. Offered: AWSpS.

PHCOL 564 Cellular Regulation by Protein Kinases (1) Analysis of research problems, techniques, and emerging concepts in the study of the function of protein kinases. Emphasis on critical evaluation of research and development of presentation skills. Prerequisite: permission of instructor. Instructors: McKnight Credit/no-credit only. Offered: AWSpS.

PHCOL 565 Intercellular Signaling in Development (1) Molecular genetic approaches to dissecting the roles and mechanisms of intracellular signaling during development. Emphasis on vertebrate genes related to *Drosophila* segment polarity genes. Prerequisite: permission of instructor. Instructors: Moon Credit/no-credit only. Offered: AWSpS.

PHCOL 566 Molecular Pharmacology of Neurotransmitter and Neurokine Receptors (1) Discussion of research strategies and methodologies in the areas of molecular neurobiology and signal transduction of muscarinic receptors, G-proteins, and neurokine receptors. Emphasis on practical problem solving, data analysis, and presentation methods important to modern scientific work. Prerequisite: permission of instructor. Instructors: Nathanson Credit/no-credit only. Offered: AWSpS.

PHCOL 569 Molecular Genetics of Potassium Channel Function (1) Discussion of research strategies, methodologies, and literature concerning the structure, function, and regulation of potassium channel genes and their role in behavior as studied in mutant mice. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Tempel Credit/no-credit only. Offered: AWSpS.

PHCOL 571 Molecular Mechanisms of Neurosecretion (1) Discussion of research strategies, methodologies, and literature relating to regulation of cyclic nucleotide levels in the cell. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Bajjalieh Credit/no-credit only.

PHCOL 572 Transcriptional Regulation of Growth Control Genes (1) Discussion of research strategies, methodologies, and literature relating to proliferative growth control, cellular differentiation, and gene expression. Emphasis on practical problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Wang Credit/no-credit only.

PHCOL 573 Signaling Systems Linked to Neuroinflammation (1) Discussion of research strategies, methodologies, and literature related to neuroinflammation, microglial cell activation, and the cannabinoid signaling pathway. Emphasis on solving practical problem, data analysis, and

presentation. Prerequisite: permission of instructor. Instructors: Stella Offered: AWSpS.

PHCOL 575 Structural Biology of Ubiquitination (1)

Discussion of research strategies, methodologies and literature concerning the structure, function, and regulation of ubiquitin-protein ligases and the mechanism underlying ubiquitination and ubiquitin-dependent proteolysis. Emphasis on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Zheng Credit/no-credit only. Offered: AWSpS.

PHCOL 576 Pharmacological, Molecular, and Functional Characterization of G-protein Coupled Receptors (1)

Discusses research strategies, methodologies, and literature relating to the pharmacological characterization, molecular biology, and functional coupling of GPCRs. Emphasizes practical problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Hague Credit/no-credit only. Offered: AWSpS.

PHCOL 577 Regulatory Roles of Ubiquitin in the Nucleus (1)

Focuses on the design and implementation of research aimed at understanding the nuclear functions of the small protein modifier ubiquitin. Strongly emphasizes the understanding of current literature, experimental design and troubleshooting, data analysis, and presentation of experimental results. Prerequisite: permission of instructor. Instructors: Gardner Credit/no-credit only. Offered: AWSpS.

PHCOL 578 A-Kinase Anchoring Proteins in Cell Signaling Research (1)

Scott Focuses on the design and implantation of research A-Kinase anchoring proteins in cell signaling. Emphasizes understanding experimental design and troubleshooting, data analysis, and presentation of experimental results. Credit/no-credit only. Offered: AWSpS.

PHCOL 579 Genetic Regulation of Emotional Behavior (1)

Zweifel Provides background in the materials and methods used in the study of the genetic basis of learning and memory and neural circuit function achieved through discussion of current literature, data acquisition and analysis, and experimental design. Offered: AWSpS.

PHCOL 580 Proteomics for Cellular Systems (1)

Ong Discusses and reviews literature for proteomics and other genome-wide approaches to study cellular systems. Trains students to integrate knowledge from existing literature with ongoing laboratory research to enhance data analysis and experimental design. Offered: AWSpS.

PHCOL 581 Mitochondrial Signaling and Metabolism (1, max. 35)

Y. Sancak Trains graduate students on mitochondrial biology, signaling and metabolism by literature review and data analysis. Focuses on effective experimental design, scientific presentation and writing. Introduces basic and advanced laboratory techniques commonly used in mitochondrial biology. Offered: AWSpS.

PHCOL 582 Nuclear Architecture and the Noncoding Transcriptome (1, max. 35)

D. Shechner Examines the biogenesis, regulation, and functional impact of mammalian nuclear architecture during differentiation and disease, emphasizing the interplay between chromatin biology and noncoding RNAs. Trains graduate students in rigorous approaches to experimental design and data analysis, novel technology design and implementation, effective scientific communication and writing, and comprehensive command of the literature. Offered: AWSpS.

PHCOL 583 Kinase Signaling in Neurodevelopment and Disease (1, max. 35)

Explores fundamental concepts in kinase mediated signaling pathways and their regulation of neuronal structure and function during development and disease. Current genetic and proteomic approaches to investigate kinase pathways will be examined. Principles of experimental design, data interpretation and analysis will be discussed as graduate students present key findings of their individual research projects. Offered: AWSpS.

PHCOL 600 Independent Study or Research (*-)

Pharmacology graduate students only. Credit/no-credit only. Offered: AWSpS.

PHCOL 700 Master's Thesis (*-)

Pharmacology graduate students only. Credit/no-credit only. Offered: AWSpS.

PHCOL 800 Doctoral Dissertation (*-) Pharmacology graduate students only. Credit/no-credit only. Offered: AWSpS.

PHYSIOLOGY AND BIOPHYSICS

P BIO 375 Human Physiology in Health and Disease (4) NW Anna Melby Structure and function of the human body with emphasis on pathophysiology and disease treatment. Introduces the basic concept of homeostasis and focuses on the nervous system, musculoskeletal system, endocrine system, and immune system. Prerequisite: BIOL 220; and either CHEM 155 or CHEM 162; recommended: knowledge of basic cell biology and biochemistry. Offered: A.

P BIO 376 Human Physiology in Health and Disease (4) NW Anna Melby Structure and function of the human body with emphasis on pathophysiology and disease treatment. Focuses on the digestive system, cardiovascular system, respiratory system, renal system, and reproductive system. Prerequisite: P BIO 375; recommended: knowledge of basic cell biology and biochemistry. Offered: W.

P BIO 498 Undergraduate Thesis (*, max. 35) Offered: AWSpS.

P BIO 499 Undergraduate Research (*, max. 35) Offered: AWSpS.

P BIO 504 Biophysics of Nerve, Muscle, and Synapse (3) Sullivan Introduces biophysical properties of nerve and muscle cells. Topics include intrinsic electrical properties of neurons, ion channels, receptor signaling, calcium signaling, contraction of muscles, and synaptic function. Offered: jointly with NEURO 504.

P BIO 505 Human Physiology (4-) Binder Provides an introduction to the study of human physiology. Covers the physiology of excitable cells, muscle physiology, renal physiology, gastrointestinal physiology, and the physiology of the central nervous system. Offered: A.

P BIO 506 Human Physiology (-4) Provides an introduction to the study of human physiology. Covers cardiovascular physiology, respiratory physiology, acid base balance, neuroendocrinology, and reproductive physiology. Prerequisite: P BIO

505, or equivalent with permission of instructor. Instructors: Wordeman Offered: W.

P BIO 508 Introduction to Laboratory Research in Physiology (1-5, max. 15) Students participate in the performance of ongoing projects in designated research laboratories. Emphasis is on experimental design, methodology, and techniques. For first- and second-year graduate students in physiology and biophysics to provide a basis for future independent research. Offered: AWSpS.

P BIO 509 Neuroendocrinology (3) Emphasizes the cellular and molecular aspects of several topics in neuroendocrinology, including neuropeptide genes, reproduction, steroid hormone regulation of gene expression, mechanisms of hormone action, endocrine rhythms, and neural oscillations. Prerequisite: BIOL 220; BIOC 442 or permission of instructor. Instructors: Steiner Offered: jointly with NEURO 541; W, even years.

P BIO 513 Practicum in Teaching Physiology and Biophysics (4) Students undertake instructional material development, presentation of materials, and develop problem-solving techniques. Credit/no-credit only. Offered: AW.

P BIO 519 Membrane and Muscle Biophysics Seminar (1) Oscar Vivas, Sharona E Gordon Lectures on current research topics in cell membrane function and muscle contraction with emphasis on presentation skills. Prerequisite: permission of instructor. Credit/no-credit only. Offered: Sp.

P BIO 520 Physiology Seminar (*) Selected topics in physiology. Prerequisite: permission of instructor.

P BIO 521 Biophysics Seminar (*) Selected topics in biophysics. Prerequisite: permission of instructor.

P BIO 522 Selected Topics in Respiratory Physiology (1-3, max. 3) Advanced seminar on selected topics, including pulmonary mechanics, gas exchange, lung fluid balance, regulation of breathing, pulmonary circulation, respiration in the neonate, liquid breathing, airway dynamics, lung structure and development, cardiopulmonary interactions, exercise physiology. Prerequisite: permission of instructor. Instructors: Hildebrandt Offered: AWSpS.

P BIO 523 Heat Transfer and Temperature Regulation (2-5, max. 5) Thermal exchange between the body surface and the environment. Heat production and distribution within the body. Properties of cutaneous and deep temperature receptors. Neural integration and homeothermy. Prerequisite: permission of instructor. Instructors: Brengelmann Credit/no-credit only.

P BIO 525 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: A.

P BIO 526 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: W.

P BIO 527 Readings in Advanced Physiology and Biophysics (*) Guided study of the experimental literature of physiology and biophysics. Essays are written and discussed with the staff. Emphasis is placed on critical analysis, accuracy of expression, bibliographical technique, and other factors of good scholarship. Prerequisite: permission of instructor. Offered: SpS.

P BIO 540 Molecular Mechanisms of Cardiac Remodeling and Heart Failure (1) The mini-course discusses recent progress on novel molecular mechanisms underlying cardiac hypertrophy, myocardial remodeling, and heart failure development. Novel methodologies in basic and translational cardiovascular research will also be discussed.

P BIO 545 Quantitative Methods in Neuroscience (3) Discusses quantitative methods applicable to the study of the nervous system. Revolves around computer exercises/discussion of journal papers. May include linear systems theory, Fourier analysis, ordinary differential equations, stochastic processes, signal detection, and information theory.

Prerequisite: NEUBEH 501, NEUBEH 502, NEUBEH 503, or permission of instructor. Instructors: Rieke Offered: jointly with NEURO 545.

P BIO 548 Molecular Mechanisms of Synaptic Plasticity (2) *Barria* Discusses recent primary literature on the molecular mechanisms underlying structural and functional changes of dendritic spines and synapses in the mammalian brain as result of synaptic activity and experience. Offered: jointly with NEURO 548; Sp, even years.

P BIO 550 Biophysics of Calcium Signaling (1) Introduction to cellular calcium signaling including theoretical and technical issues of calcium signal detection and biological conclusions. Prerequisite: CONJ 531. Instructors: Hille, Santana Offered: jointly with NEURO 550; Sp, odd years.

P BIO 554 Motor Learning: Cellular and Network Mechanisms (1) *Fetz, Perlmutter* Five-week mini-course reviews the current state of research on cellular and network mechanisms of motor learning. After an introductory overview of behavioral and physiological examples of motor learning in various species and systems, students choose specific topics for discussion, using the primary literature as a source. Offered: jointly with NEURO 554.

P BIO 555 Sensory Receptors (1) *Detwiler, Rieke* Five-lecture mini-course examines how different kinds of sensory receptors detect and respond to different modalities of sensory stimuli. Discussion focuses on the cellular and molecular mechanisms of the underlying transduction processes and the experimental evidence that they are based on. Offered: jointly with NEURO 555.

P BIO 556 Axon Pathfinding Mechanisms (1) *Bothwell* Examines mechanisms governing axon growth cone behavior during embryonic development and during regeneration in the injured adult. Discusses approaches employing both invertebrate and vertebrate model systems. Offered: jointly with NEURO 556.

P BIO 557 Ion Channel Gating (1) *Zagotta* Compares and contrasts mechanisms of gating in ligand-gated and voltage-gated ion channels. Covers basics of ligand gating and voltage gating, kinetic schemes, inactivation and desensitization, gating currents and

partial agonists, and ion channel structure. Offered: jointly with NEURO 557.

P BIO 558 Concepts and Mechanisms in Mitosis (2)
Asbury, Wordeman Examines how the mitotic spindle organizes and separates duplicated chromosomes during cell division. Overview of spindle components and key mechanistic concepts. Discusses recent or classic papers from the primary literature.

P BIO 559 Neurobiology of Disease (3) Introduces medically important neurological and psychiatric diseases and experimental approaches to understanding the basis for diseases and their treatments. Covers stroke, epilepsy, autoimmune diseases of the CNS, neurodegenerative diseases, autism, psychosis, anxiety disorders, and mood disorders. Offered: jointly with NEURL 559/NEURO 559.

P BIO 561 From Biophysics to Neural Computation (2) Introduces the mathematics and methods of neuronal modeling. Develops, compares, and relates dynamical systems approaches and empirical characterizations of neuronal function. Includes lectures, student-led journal paper discussions, biweekly computational workshops on neuronal modeling packages, and a computations project. Offered: jointly with NEURO 561; Sp.

P BIO 600 Independent Study or Research (*-)
Offered: AWSp.

P BIO 700 Master's Thesis (*-) Offered: AWSpS.

P BIO 800 Doctoral Dissertation (*-) Offered: AWSpS.

PSYCHIATRY AND BEHAVIORAL SCIENCES

PBSCI 498 Undergraduate Thesis (*, max. 15)
Opportunity to complete work on psychiatric research projects or to pursue a specific psychiatric topic in depth, for instance, through library research. Offered: AWSpS.

PBSCI 499 Undergraduate Research (*, max. 15)
Opportunities are available for participation in a wide variety of ongoing research in the behavioral sciences and clinical psychiatry, or for the development of an individual investigative project

under the supervision of a faculty sponsor. Offered: AWSpS.

PBSCI 505 P-Psychiatry Preceptorship (1, max. 12)
Opportunity for first- and second-year medical students to gain direct experience with clinical faculty members in psychiatry. Includes opportunities to observe different areas of psychiatry including addiction, child, geriatrics, community, crisis, and consultation. Prerequisite: permission of department. Instructors: Combs
Offered: AWSp.

PBSCI 525 P-Psychiatry and the Law (3) E.
GOLDENBERG, J. PIEL Explores issues at the interface of law and psychiatry through didactic curriculum and research. Trainees develop an individualized research project with the assistance of their faculty mentors. Covers topics in civil and criminal forensic psychiatry, research ethics, research design, grantsmanship, and mental health law. Offered: Sp.

PBSCI 546 Psychiatric Epidemiology (3) I. *Rhew, A. Vander Stoep* Using epidemiological methods to study mental illness. Topics include contributions of mental illness to global disease burden; major population-based studies of mental illness; measurement of psychopathology; culture and mental illness; role of neurodevelopment, genetics, social and physical environment in etiology of mental disorders; mental health services research. Prerequisite: either EPI 511, EPI 512, HSERV 591, or permission of instructor. Credit/no-credit only. Offered: jointly with EPI 546.

PBSCI 580 Applied Research in Behavioral Health and Justice Policy (2) Direct experience working with community agencies to build research capacity. Emphasized child welfare, children's mental/behavioral health, and juvenile justice. Seminars cover translational research, community-based research, and communicating research to program and policy audiences. For graduate students, psychiatric residents, and graduate psychology, psychosocial nursing, social work, and public health students. Offered: AW.

PBSCI 598 P-Psychiatry Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Psychiatry Clerkship offered during the patient care phase of the School of

Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

PBSCI 600 Research in Psychiatry ([1-15]-)

Independent laboratory research under the guidance and supervision of research scientists in the Psychiatry Department. Faculty permission required.

PBSCI 630 P-WRITE Psychiatry Clinical Clerkship (*, max. 24)

Basic clinical clerkship for students enrolled in the WRITE Program. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

PBSCI 631 P-Basic Psychiatry Clerkship - Juneau, AK (1-24, max. 25)

Basic psychiatry clerkship in Juneau, Alaska. Fulfills graduation requirements for clerkship in psychiatry.

PBSCI 632 P-LIC Psychiatry Clinical Clerkship (1-12, max. 12)

Basic clinical clerkship for students enrolled in the LIC program. Prerequisite: acceptance into LIC program.

PBSCI 633 P-Basic Psychiatry Clerkship - Billings Clinic (1-24, max. 25)

Rotations on inpatient adult, child, and adolescent psychiatry, consultations, electroconvulsive therapy (ECT), crisis stabilization units (CSU), psychiatry teleconsultation (project ECHO). Involves a range of psychiatric disorders and substance abuse. Professional experiences working with nurse practitioners, physician assistants, and social workers. Drug screening prior to student rotation. Prerequisite: successful completion of School of Medicine 1st and 2nd year foundation courses. Offered: AWSpS.

PBSCI 635 P-Basic Psychiatry Clerkship - Kalispell (1-24, max. 24)

Basic psychiatry clerkship in Kalispell, MT. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 637 P-Basic Psychiatry Clerkship - Fairfax - Kirkland, WA (12)

Basic psychiatry clerkship in Kirkland, Washington. Fulfills graduation requirements for clerkship in psychiatry.

PBSCI 639 P-Basic Psychiatry Clerkship - Olympia (12)

Basic psychiatry clerkship at Olympia, WA.

Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 640 P-Basic Psychiatry Clerkship - Pocatello (12)

Basic psychiatry clerkship at in Pocatello, ID. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 641 P-Basic Psychiatry Clerkship - Orofino, ID (12)

Basic psychiatry clerkship in Orofino, ID. Fulfills graduation requirement for clerkship in psychiatry. Offered: AWSpS.

PBSCI 642 P-Basic Psychiatry Clerkship - Blackfoot ID (1-24, max. 25)

Students will spend most of their time in a State hospital with 29 geriatric, 90 adult, and 16 adolescent beds. Students participate as a member of a multidisciplinary team and have exposure to a wide range of psychiatric illnesses including mood, anxiety, psychotic, personality and substance use disorders. They have the opportunity to spend time in the outpt setting at the Fort Hall Indian Reservation and spend time with a psychopharmacologist. Prerequisite: Successful completion of School of Medicine 1st and 2nd year foundation courses. Offered: AWSpS.

PBSCI 649 P-Basic Psychiatry Clerkship-Eastern State Hospital-Spokane (1-24, max. 25)

Basic psychiatry clerkship at Eastern State Hospital in Spokane, WA. Fulfills graduation requirement for clerkship in Psychiatry. Offered: AWSpS.

PBSCI 655 P-Basic Psychiatry Clerkship - Cheyenne (1-24, max. 25)

Basic psychiatry clerkship in Cheyenne, WY. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 660 P-Basis Psychiatry Clerkship-Bozeman (1-24, max. 25)

Basic psychiatry clerkship in Bozeman, MT. Fulfills graduation requirement for clerkship in psychiatry. Offered: AWSpS.

PBSCI 661 P-Basic Psychiatry Clerkship - Helena (1-24, max. 25)

Basic psychiatry clerkship in Helena, MT. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 662 P- Basic Psychiatry Clerkship - Missoula (1-24, max. 25)

Students work at St. Patrick Hospital with adult and adolescent inpatients and in the

emergency room for emergent-care exposure. Students have outpatient experience through the adult intensive outpatient program, Pain Treatment Center, and in faculty outpatient practices. Didactics include psychopharmacology, addiction, psychosis, mood disorders, child and geriatric psychiatry. Prerequisite: completion of the HUBIO series; third and fourth year students.

PBSCI 663 P- Basic Psychiatry Clerkship - Billings (1-24, max. 25) Students work at South Center Regional Mental Health Center and Behavioral Sciences Clinic with adult and adolescent inpatients, in the emergency room for emergent care exposure. Outpatient experience including consultations at the community mental health center, Indian reservation, and prison. Didactics include psychopharmacology, addiction, psychosis, mood disorders, child and geriatric psychiatry. A vehicle is needed by students at this site. Prerequisite: completion of the HUBIO series; third and fourth year students.

PBSCI 665 P-Basic Clinical Clerkship (*, max. 24) Inpatient clerkship in psychiatry. Students have primary responsibility under direction of attending psychiatrists and residents for diagnosis and care of patients at UW Medical Center, Harborview Medical Center, or Veterans Administration Hospital. Emergency room, crisis intervention, consultation to patients with psychiatric dysfunction. Familiarity with psychopharmacology and short-term hospitalization emphasized. (Six weeks, full-time.)

PBSCI 666 P-WWAMI Psychiatry and Behavioral Sciences Clerkship (12) Rotation aims to increase student's skills in basic psychiatry, social psychiatry, transcultural psychiatry, and community psychiatry. Orientation is around the diagnosis, treatment, and clinical management of white, Aleut, Indian, and Eskimo children and adults in outpatient, inpatient, and community settings. Third-, fourth-year medical students. (Limit: Two or three students) . Prerequisite: HUBIO 563.

PBSCI 667 P-Basic Psychiatry Clerkship - Boise (1-24, max. 25) Basic psychiatry clerkship at Veterans' Administration Medical Center in Boise, Idaho. Fulfills graduation requirement for clerkship in psychiatry.

PBSCI 668 P-Psychiatry Clerkship - Spokane (1-24, max. 25) Students work on adult, geriatric, and

adolescent inpatient psychiatric units of Sacred Heart Medical Center, following patients after transfer to partial hospitalization or outpatient clinic. Didactics include basic psychiatric diagnosis, treatment, and pharmacotherapy. (Limit: two or three students) . Prerequisite: completion of HUBIO series; third and fourth-year medical students.

PBSCI 669 P-Basic Psychiatry Clerkship - Casper, Wyoming (12) Students work in the Wyoming Behavioral Institute with adult, adolescent, and child inpatients. Students have some outpatient experience and emergent care assessment experience at the Wyoming Medical Center. Didactics and discussion include topics such as psychopharmacology, emergent care and assessment, diagnosis, and substance abuse issues.

PBSCI 670 P-Clerkship in Consultation/Liaison Psychiatry - UWMC (*, max. 24) Assessment of patients with major psychosocial problems associated with physical disease, including: problems stemming from the way the illness is perceived and experienced, liaison with other clinical disciplines on complex diagnosis and treatment of problems. (Limit: one student; two or four weeks.) Prerequisite: satisfactory completion of required psychiatry clerkship.

PBSCI 671 P-Clerkship in Consultation/Liaison Psychiatry - HMC (*, max. 24) Students receive organized instruction and supervised clinical experience in the evaluation of psychiatric and/or behavioral problems in patients on medical and surgical services, and in effectively consulting with their health care providers regarding their clinical management. Includes evaluation of (non-financial) decisional competency. (Limit: two students) . Prerequisite: satisfactory completion of required psychiatry clerkship.

PBSCI 672 P-Elective Clerkship in Primary Care Psychiatry - Boise, VAMC (8/12) Assessment and treatment of patients with acute psychiatric problems in a primary care/rural setting. Consultation work on general medicine and surgery; assessment and dealing with outpatient psychiatric problems as they initially present. Evaluations, crisis intervention strategies, and brief therapies stressed. Prerequisite: satisfactory completion of required psychiatry clerkship (Four weeks; visiting students

interested in the Boise Psych Residency Track allowed.)

PBSCI 673 P-Outpatient Psychiatry Elective (*, max. 24) Offered at Harborview Outpatient Center. Students function as subinterns, conducting diagnostic interviews, initiating and managing pharmacotherapeutic treatment regimens, and providing crisis intervention, under the supervision of the full-time attending at Psychopharmacology Clinic. (Four to six weeks, full-time) . Prerequisite: satisfactory completion of required psychiatry clerkship.

PBSCI 674 P-Elective in Therapeutic Communication (4-8) *J. Carr, H. Combs* Students participate in diverse, interdisciplinary clinical encounters while being supervised by advanced psychotherapists. Includes multidisciplinary chemical dependency evaluations, cognitive assessments, cognitive-behavioral training, and hypnosis. Students complete a holistic patient assessment and are introduced to the complexities of therapeutic communication and improvement methods.

PBSCI 676 P-Inpatient Clerkship in Psychiatry - American Lake VA (8/12) For medical students with a defined interest in psychiatry who wish to develop their knowledge and skills in the evaluation, management, and treatment of a wide range of acute and chronic psychiatric conditions requiring inpatient hospital treatment. (Four or six weeks, full-time) . Prerequisite: satisfactory completion of required psychiatry clerkship. Instructors: Johnston

PBSCI 677 P-Alcohol and Drug Treatment Clerkship - American Lake VA (8/12) Student assists in every phase of the substance-abuse treatment, including admission interviews, patient evaluation, problem identification, group and individual psychotherapy, assertiveness training, anger control, human sexuality, medical evaluation and treatment, couples therapy, discharge and aftercare planning. Experience primarily clinical. Prerequisite: satisfactory completion of required psychiatry clerkship. (Four or six weeks, full-time) . Instructors: Lim

PBSCI 678 P-Clerkship in Psychiatric Long-Term Care and Rehabilitation (*, max. 12) Two- to six-week clerkship provides learning experiences in rehabilitation of long-term psychiatric patients with

medical illness. Multidisciplinary team approach, working with homeless mentally ill. Diagnostic skills emphasized. Spectrum of diseases (cardiovascular, Huntington's, organic brain syndrome) is such that physical rehabilitation is not an emphasis. Prerequisite: HUBIO 563; satisfactory completion of required psychiatry clerkship. Instructors: Johnston

PBSCI 680 P-Clerkship in Emergency Psychiatry (*, max. 24) Emphasis on clinical evaluation, acute management, and treatment planning for individual patients. Experience in coordinating these activities with other emergency room personnel, and various hospital and community resources. Emphasis on skills useful to physicians in any specialty. Third- and fourth-year medical students only. (Four or six weeks, full-time) . Prerequisite: satisfactory completion of required psychiatry clerkship. Instructors: Pasic

PBSCI 682 P-Addiction Medicine - Rock Spring WY (4) Students identify, assess, diagnose, and treat addiction disorders in inpatient and outpatient settings through hospital rounds, inpatient hospital consults, and observation of intensive outpatient groups. 2 weeks.

PBSCI 685 P-Geriatric Psychiatry Clerkship (*, max. 12) Two- to six-week elective (four weeks highly recommended) . Participation in the evaluation and care of older persons with psychopathology, such as intellectual impairment and depression, in a variety of settings. Emphasis on improving clinical skills regarding diagnosis and treatment of common behavioral problems in the elderly. Prerequisite: satisfactory completion of required psychiatry clerkship, vehicle required for this rotation.

PBSCI 688 P-Subinternship in General Psychiatry (*, max. 16) Students function as interns under the supervision of house staff and attending psychiatrists. Further development of their diagnostic and therapeutic skills emphasized. Special areas of interest, such as family intervention, substance abuse, psychoses, neuropsychiatry, community psychiatry, administration, research pursued. (Four or six weeks, full-time) . Prerequisite: satisfactory completion of required psychiatry clerkship; permission of instructor.

PBSCI 689 P-Subinternship in General Psychiatry - Spokane, WA (8, max. 16) Students function as

interns under the supervision of house staff and attending psychiatrists. Further development of their diagnostic and therapeutic skills emphasized. Special areas of interest, such as family interventions, substance abuse, psychoses, neuropsychiatry, community psychiatry, administration, research pursued. (Four or six weeks, full time.) Prerequisite: Satisfactory completion of required psychiatry clerkship, instructor permission. Offered: AWSpS.

PBSCI 695 P-Advanced Clerkship in Child Psychiatry - CSTC (*, max. 24) Provides an opportunity to participate in evaluation and treatment of children and adolescents in Lakewood, WA. Prerequisite: satisfactory completion of required psychiatry clerkship; fourth year medical student status. 2/4/6 weeks.

PBSCI 696 P-Advanced Clerkship in Child Psychiatry (*, max. 24) Provides students an opportunity to participate in evaluation and treatment. Experiences in specialized clinics are also available. (Four or six weeks, full-time. Limit: one student) . Prerequisite: satisfactory completion of required psychiatry clerkship.

PBSCI 697 P-Psychiatry Special Electives (*, max. 24) By special arrangement, clerkships, externships, and research opportunities can be taken at other institutions. Students obtain permission from Dr. Combs before contacting the dean's office one month before advance registration. Students contact affiliating institutions. Does not fulfill the requirement for a basic clerkship in psychiatry.

PBSCI 699 P-WWAMI Psychiatry and Behavioral Sciences Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

RADIATION ONCOLOGY

R ONC 499 Undergraduate Research (*, max. 51) R. *Ermoian, U. Parvathaneni, M. Phillips, D. Wilbur* Opportunities in clinical or laboratory investigation in radiation oncology, radiation physics, or computer-related research. Student participation in

ongoing or new projects. Open to students in the biological or physical sciences.

R ONC 505 P-Radiation Oncology Preceptorship (1, max. 12) *Kane, Kelly, Kim, Koh, Laramore, Liao, Patel, Rockhill, Russell* Students choose either to follow an attending physician through all aspects of radiation oncology including consults, follow-up, and treatment planning; or to follow a small cohort of patients throughout their treatment course to learn about the experience of a cancer patient undergoing treatment for life-threatening disease. Credit/no-credit only.

R ONC 600 Independent Study or Research (*) Prerequisite: permission of department and faculty sponsor. Offered: AWSpS.

R ONC 601 Multidisciplinary Oncology Clerkship (4) *Ralph P Ermoian* Introduces students to interdisciplinary oncology care. Students follow patients through multidisciplinary clinic visits, attend tumor boards, and spend dedicated time with specialties like medical oncology, radiation oncology, pediatric oncology, surgical oncology, pathology, and radiology. Students see patients at the Seattle Cancer Care Alliance, Seattle Children's Hospital, and University of Washington Medical Center. Prerequisite: UW School of Medicine students must have completed the Foundations phase of the curriculum. Visiting students must have completed their preclinical curriculum and be in the clerkship phase of medical school. Credit/no-credit only. Offered: AWSpS.

R ONC 694 P-Clinical Cancer Management - SCCA (*, max. 8) Participation in the clinical management of patients with cancer, emphasizing a multi-modality approach. Includes clinical assessment, planning of radiation treatment, and follow-up evaluation of patients. Special procedures include three-dimensional treatment planning, implant brachytherapy, and intraoperative radiation. Daily teaching conferences with faculty and residents. Prerequisite: medicine core clerkship or permission of instructor.

R ONC 695 P-Clinical Cancer Management - UWMC (*, max. 8) Participation in the clinical management of patients with cancer, emphasizing a multi-modality approach. Includes clinical assessment, planning of radiation treatment, and follow-up

evaluation of patients. Special procedures include three-dimensional treatment planning, implant brachytherapy, and intraoperative radiation. Daily teaching conferences with faculty and residents. Prerequisite: medicine core clerkship or permission of instructor. Instructors: Kane

R ONC 697 P-Radiation Oncology Special Elective (*, max. 24) By specific arrangement for qualified students, special clerkship, externship, or research opportunities are made available at institutions other than the University of Washington. Students obtain a "special assignment" form from the dean's office at least one month before advance registration. Prerequisite: permission of instructor. Instructors: Kane

R ONC 699 P-WWAMI Radiation Oncology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions located within the WWAMI region, other than the University of Washington. Prerequisite: permission of department. Instructors: Kane

RADIOLOGY

RADGY 498 Undergraduate Thesis (*, max. 30) Supervised clinical and/or laboratory research in the broad field of medical imaging, culminating in a thesis. Offered: AWSpS.

RADGY 499 Undergraduate Research (*, max. 35) Opportunity to gain research experience and direct participation in either clinical or basic sciences investigation in diagnostic and/or nuclear medicine. Offered: AWSpS.

RADGY 505 P-Preceptorship in Radiology (1-, max. 24) Opportunity for medical students to gain experience with faculty in clinical and academic environments. Students observe general aspects of diagnostic radiology, interventional radiology, or nuclear medicine, including clinical problems, the different relationships in clinic between physician and patient, and research aspects of the department. Prerequisite: permission of instructor. Offered: AWSpS.

RADGY 508 Physical Aspects of Medical Imaging (4) Quantitative physical principles of medical imaging

are presented for electromagnetic and sonic radiation. Methods of image formation and analysis are discussed for conventional film radiography, CT, DSA, PET, B-mode ultrasound, and Doppler ultrasound.

RADGY 580 P-Nuclear Medicine Technique, Physics, and Instrumentation (2.5) Provides familiarization with basic nuclear phenomena and with the instrumentation used in the practice of nuclear medicine. Discussions and laboratory exercises. Practical experience in instrument operation and sample counting are provided. Prerequisite: permission of instructor. Offered: S.

RADGY 600 Independent Study or Research (*-) Prerequisite: permission faculty sponsor. Offered: AWSpS.

RADGY 684 Interventional Radiology (8) *David Shin* Advanced Patient Care (APC) clerkship in interventional radiology (IR) for third- or fourth-year medical students strongly considering application to IR residency. Sites include UWMC, HMC, VA, and SCH. Prerequisite: permission of clerkship coordinator and director; recommended: RADGY 694. Offered: AWSpS.

RADGY 685 P-Introduction to Diagnostic Radiology - Bozeman (4/8) Overview of the sub-specialty areas of diagnostic radiology and nuclear medicine. Emphasizes utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies.

RADGY 686 P-Introduction to Diagnostic Radiology - Idaho Falls (4) Overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasizes utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies.

RADGY 687 P-Introduction to Diagnostic Radiology - Casper (4) Overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasizes utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 688 P-Introduction to Diagnostic Radiology - Boise (4)

RADGY 689 P-Introduction to Diagnostic Radiology - Billings (4) Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 690 P-Introduction to Diagnostic Radiology - Nampa (4) Half-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 691 P-Introduction to Diagnostic Radiology - Alaska (4) Half-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology and nuclear medicine. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 692 P-Introduction to Diagnostic Radiology - Spokane (4/8) Full-time clerkship in the field of medical imaging. Lectures, case discussions, film reading, and independent study provide an overview of the subspecialty areas of diagnostic radiology. Emphasis on utilization and selection of imaging tests, radiologic anatomy, and interpretation of commonly encountered studies. Offered: AWSpS.

RADGY 694 P-Advanced Radiology Clerkship (4/8)
G. REDDY Clerkship for third- or fourth-year medical students providing a more in depth experience in diagnostic or interventional radiology. Prerequisite: Offered: AWSpS.

RADGY 695 P-Radiology Elective Clerkship (4/8) Clinical rotations for third- or fourth-year medical students in one to four subspecialty areas of radiology at University of Washington and affiliated hospitals for those who have not previously completed a radiology clerkship. Offered: AWSpS.

RADGY 696 P-Nuclear Medicine Clerkship (*, max. 12) Daily participation at University of Washington Medical Center nuclear medicine clinic emphasizing technical performance, diagnostic interpretation, and clinical relevance of nuclear imaging. Daily clinical teaching conferences of the division. Four- and six-week clerkships can be preplanned in areas such as pulmonary, cardiovascular, renal, bone, computer analysis. Prerequisite: permission of instructor. Offered: AWSpS.

RADGY 697 P-Radiology Special Electives (*, max. 24) Radiologic training in a nonaffiliated institution. Permission and arrangements must be made at the time of registration through direct communication between the student and the education coordinator in Radiology. A written outline from a preceptor at the intended site required. Prerequisite: permission of radiology education coordinator. Offered: AWSpS.

RADGY 699 P-WWAMI Radiology Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

REHABILITATION MEDICINE

PROSTHETICS AND ORTHOTICS

RHB PO 501 Prosthetics and Orthotics Skills (1) Emphasizes the development of psychomotor skills for the application of contemporary technology uses. Practice and discussion of material and design theories related to durability, weight, and ease of fabrication to encourage problem-solving skills for independent practice. Credit/no-credit only. Offered: A.

RHB PO 502 Professional and Practice Issues (1) Provides an overview of professional and practice issues in prosthetics and orthotics. Includes discussion of healthcare, policy, and systems; introduction to reimbursement, Medicare and Medicaid rules and regulations; practice management; bioethics; professional organizations; legislative issues; and medical ethics and compliance. Offered: Sp.

RHB PO 511 Upper Limb Prosthetics I (4) Covers upper limb prosthetics providing students with

background knowledge of rehabilitation planning and principles of below elbow prosthetic management and prescription consideration. With direct patient contact, students assess and then formulate, implement, and evaluate a prosthetic treatment plan. Offered: A.

RHB PO 512 Upper Limb Prosthetics II (4) Integrates principles from upper limb prosthetics I, focusing on above-elbow prosthetic management. Encourages critical thinking and appropriate clinical decision-making through discussions and case study exercises that include body-powered, externally-powered, and hybrid systems. Offered: Sp.

RHB PO 515 Upper Limb Orthotics (3) Focuses on the integration of information acquired in previous foundational courses in anatomy and patient evaluation procedures with knowledge and skills of orthotic principles and theories related to upper limb orthotic interventions and patient management.

RHB PO 521 Lower Limb Prosthetics and Orthotics I: Theory and Application (5) Integrates prior core foundational knowledge (anatomy, kinesiology, medical science, gait analysis, patient evaluation procedures, and functional skills) with new knowledge of prosthetic and orthotic theory, patient evaluation, and clinical practice. Analyzes, evaluates, and synthesizes principles and theories in developing intervention plans for individuals with lower limb dysfunction or amputation. Offered: S.

RHB PO 522 Lower Limb Prosthetics I: Clinical Practice (4) Explains and applies biomechanical principles of prosthetic gait and alignment to treatment of individuals with amputations below the knee. Students develop individualized treatment plans that demonstrate analysis of client needs, application of transtibial socket design, prescription principles, and components. Integrates knowledge of available research and protocols into the planning process. Offered: S.

RHB PO 523 Lower Limb Orthotics I: Clinical Practice (4) Utilizes patient evaluation skills and applies knowledge of pathology, anatomy, biomechanics, and orthotic theory and principles to evaluate and provide orthotic treatment plans for individuals with lower extremity dysfunction. Students refine professional skills and behavior and develop

psychomotor and cognitive skills required for patient care. Offered: S.

RHB PO 524 Lower Limb Prosthetics and Orthotics II: Theory and Application (5) Integrates prior foundational knowledge acquired in RHB PO 521 with new knowledge and skills of prosthetic and orthotic theory and practice. Students actively analyze, evaluate, and synthesize principles and theories in the development of prosthetics/orthotics intervention plans for individuals with lower limb dysfunction or amputation. Prerequisite: RHB PO 521. Offered: A.

RHB PO 525 Lower Limb Prosthetics II: Clinical Practice (3) Includes advanced instruction in concepts and skills developed in Lower Limb Prosthetics I. Offered: A.

RHB PO 526 Lower Limb Orthotics II: Clinical Practice (3) Utilizes patient evaluation skills and applies knowledge of pathology, anatomy, biomechanics, and orthotic theory and principles to evaluate, develop, and provide orthotic treatment plans for individuals with lower extremity dysfunction. Students refine professional skills and behavior and develop psychomotor and cognitive skills required for patient care. Offered: A.

RHB PO 527 Pediatric Prosthetics and Orthotics (2) Focuses on the integration of information from previous coursework focusing on specific pediatric medical conditions and interventions. Includes discussion of pathology/pathophysiology, etiology, clinical presentation, natural history, and surgical and medical management. Discusses implications of various medical interventions and their functional considerations based on the available literature. Offered: ASp.

RHB PO 528 Lower Limb Prosthetics III: Theory and Application (5) Develops individualized prosthetic treatment plans based on a comprehensive knowledge of prosthetic gait, alignment, transfemoral socket design, and component principles. Develops support treatment plans by integrating knowledge of available research and treatment protocols into the decision-making process. Offered: W.

RHB PO 529 Lower Limb Prosthetics III: Clinical Practice (6) Advanced instruction in application of

biomechanical principles of prosthetic gait and alignment to treatment of individuals with amputations above the knee. Includes obtaining histories, assessing physical function, and taking residual limb impressions and measurements to prove prosthetic care. Offered: W.

RHB PO 530 Lower Limb Orthotics III: Theory and Application (4) Integrates knowledge and competencies from prior courses with new knowledge of orthotics management of the lower limb involving the knee and hip. Students acquire knowledge of components and design options for dysfunction of the hip and knee. Offered: WSp.

RHB PO 531 Lower Limb Orthotics III: Clinical Practice (4) Integrates prior knowledge of design principles, material science, and fabrication process; acquires knowledge of components and design options; and analyzes efficacy of orthotic treatment plans in achieving desired biomechanical goals and outcomes. Offered: WSp.

RHB PO 532 Spinal Orthotics (5) *Yamane* Integrates competencies gained from core foundational courses with additional theories and principles of orthotic management of spinal pathologies including scoliosis, trauma, and congenital and degenerative etiologies. Offered: Sp.

RHB PO 533 Spinal Orthotics I (2) Integrates prior knowledge (anatomy, physiology, patient evaluation skills) obtained in the foundational courses with knowledge and skills of orthotic theory and practice related to trauma and degenerative etiologies. Learning is achieved through lectures, discussion, and laboratory experiences. Offered: AWSp.

RHB PO 534 Spinal Orthotics II (3) Integrate prior knowledge of anatomy, physiology, and clinical evaluation with knowledge and skills of orthotic theory and practice related to scoliosis and kyphosis. Learning is achieved through lectures, discussion, and laboratory experiences.

RHB PO 541 Engineering Concepts (3) *S. Spaulding* Students are introduced to principles of mechanics, strength of materials, force analyses, fatigue, materials science and related topics that are relevant to prosthetic and orthotic device design. These concepts are applied to component failure and are relevant to the overall curriculum's laboratory and

clinical work. Engineering concepts are discussed for application in future courses. Offered: Sp.

RHB PO 561 Clinical Rotation I (2) Students actively observe patient care, perform patient histories and evaluation procedures, and develop clinical patient care psychomotor skills under the guidance and mentorship of clinical preceptors. Offered: S.

RHB PO 562 Clinical Rotation II (1) Students actively observe patient care, perform patient histories and evaluation procedures, and develop clinical patient care psychomotor skills under the guidance and mentorship of clinical preceptors. Offered: A.

RHB PO 563 Clinical Rotation III (1) Students actively participate in the provision of prosthetics and orthotics treatment services and develop clinical patient care skills under the mentorship of clinical preceptors. Offered: W.

RHB PO 564 Clinical Rotation IV (1) Students actively participate in the provision of prosthetics and orthotics treatment services and refine clinical patient care, decision-making, and problem-solving skills under the mentorship of clinical preceptors. Offered: Sp.

RHB PO 581 Outcome Measures for the Prosthetics and Orthotics Clinic (2) Examines development and use of health-related outcome measures. Focuses on the relationship between measurement constructs and patient populations as well as psychometric properties. Students select, implement, and critically evaluate patient outcome measures. Offered: Sp.

RHB PO 582 Critical Evaluation of the Prosthetics and Orthotics Literature (1) Examines and applies appropriate methods of analyzing prosthetics/orthotics literature. Offered: A.

RHB PO 583 Evidence Based Practice I (3) Focuses on the use and critical evaluation of evidence to answer clinical problems. Encourages students to become consumer of evidence by developing an understanding of how to acquire and incorporate evidence into routine clinical practice. Offered: W.

RHB PO 584 Evidence Based Practice II (3) Covers developing a treatment plan based on theory, evidence, and experience; and proposing a

quantitative and qualitative assessment strategy to evaluate the developed treatment. Encourages students to become consumers of evidence to answer clinically relevant questions. Offered: Sp.

REHABILITATION MEDICINE

REHAB 300 Introduction to Occupational Therapy (1) Introduction to occupational therapy profession. Provides historical perspectives, theoretical foundations, and clinical case studies in various practice arenas. Credit/no-credit only.

REHAB 496 Special Topics in Rehabilitation (1-9, max. 14) Guided opportunity for in-depth study in specific areas of rehabilitation. Topics vary.

REHAB 498 Undergraduate Thesis (*, max. 15)

REHAB 499 Undergraduate Research (*, max. 15) Opportunity to design, perform, and analyze research investigation in problem areas in rehabilitation medicine. These include clinical and basic research problems in, for example, head and spinal injury, chronic disease, pain neurophysiology, electrodiagnosis, communication, and bioengineering.

REHAB 500 Clinical Clerkship in Physical Therapy (4) Observation, instruction, and supervised practice in treatment of patients in diverse clinical settings. Emphasis is given to the application of previously learned material and skills to specific clinical problems. Required for physical therapy students. Credit/no-credit only.

REHAB 502 Pediatric Physical Therapy (4-, max. 8) Provides foundational knowledge in development and an overview of pediatric physical therapy practice for children with atypical development. Presents examination, evaluation, and development of physical therapy plans of care for children with various disabilities within the frameworks of family-centered care and disablement models.

REHAB 503 Lifespan III: Geriatric Physical Therapy (3) Theory and principles of exercise procedures used when treating the geriatric patient. Includes a discussion of age related changes in the systems essential to movement control; factors contributing to physical disability and frailty with aging;

adaptation of assessment and treatment procedures to the geriatric patient. Lectures and laboratories.

REHAB 504 Procedures I: Basic Physical Examination of the Extremities (2) Develops technical skills and theoretical foundations in the examination of patients from a neuromusculoskeletal perspective. Special emphasis on examination of the extremities, including applied anatomy, posture, screening tests, special tests, and scanning exams.

REHAB 505 Introduction to Pharmacology (2) Pharmacological survey of drugs commonly prescribed for clients seen in a physical therapy practice setting. Presentations on basic principles. Additional data search and group reports. Overview of medical emergencies.

REHAB 506 Procedures II: Basic Physical Examination of the Spine (2) Develops technical skills and theoretical foundations in the examination of patients from a neuromusculoskeletal perspective. Emphasizes examination of the spine including applied anatomy, posture, screening tests, special tests, and scanning exams.

REHAB 507 Physical Therapy Procedures III: Modalities (3-4) Principles and practice of physical therapy clinical treatment procedures utilizing therapeutic modalities. Lecture and laboratory format.

REHAB 508 Principles of Therapeutic Exercise (5) Theory, principles, and practice of exercise procedures used for treatment purposes in physical therapy, including motor learning, variables of motor performance, and exercise prescription. Lectures and laboratories. Simulated patient problems.

REHAB 509 Rehabilitation Procedures: Functional Skills Assessment (1) Development of clinical competence in assessment and training of basic patient functional skills, including handling techniques, transfers, and assisted ambulation.

REHAB 510 Rehabilitation Psychology (2) Focuses on understanding assimilation of disability, participation in rehabilitation, management of behavior, and maintenance of performance from both the practitioner and patient perspective. Focuses on the role of the psychologist in the

rehabilitation team. Includes case study and case conference materials.

REHAB 511 Musculoskeletal IV: Clinical Management (4) Physical therapy clinical evaluation and management of patients with musculoskeletal dysfunction. Special emphasis on upper quadrant anatomy. Lecture and laboratory format. Offered: A.

REHAB 512 Musculoskeletal V: Clinical Management (3-4, max. 8) Physical therapy clinical evaluation and management of patients with musculoskeletal dysfunction. Special emphasis on upper and lower extremity musculoskeletal conditions. Lecture, laboratory and simulation learning format.

REHAB 513 Special Studies in Physical Therapy (1-5, max. 15) Theory and practice in specialized areas of physical therapy. Includes organization and administration of specialized programs, advanced evaluation and treatment techniques, role of the consultant. Credit/no-credit only.

REHAB 514 Systems Review for Physical Therapists (3) Development of advanced physical assessment skills to provide students with the ability to determine if a patient's disorder is within the scope of practice for physical therapy or requires referral to another healthcare provider. Lectures and laboratory format, with an emphasis on the lab component. Credit/no-credit only.

REHAB 515 Advanced Neuromusculoskeletal Interventions in Physical Therapy (3) Advanced neuromusculoskeletal treatment techniques. Emphasis on review of manual therapy, exerciser and modality interventions in case studies across lifespan and continuum of care. Credit/no-credit only.

REHAB 516 Medical Information for Rehabilitation Counselors (3) Lectures in medical science field regarding the etiology, prognosis, and physical restoration of common disabling conditions. Case studies are used extensively, and major emphasis is placed on vocational implications of physical disability. Prerequisite: permission of instructor. Instructors: Johnson

REHAB 517 Physical Therapy Seminar (2-, max. 12) Focuses on physical therapy topics pertaining to transcurricular and professional practice issues.

REHAB 518 PT Professional Series III: Diversity, Inclusion and Health Disparities (2) In-depth exploration of health disparities in the United States based on race, ethnicity, culture, social economic status, or sexual orientation. Covers roles of health status indicators, social determinants of health, cultural competency, and access to health services. Offered: Sp.

REHAB 519 P-Preceptorship in Rehab Medicine (1, max. 12) *McNalley* Explores the field of physical medicine and rehabilitation. Students observe a physiatrist one half day each week, and gain understanding of the management of acute injuries, chronic disease, and disabilities. Offered: AWSpS.

REHAB 520 Seminar (1-5, max. 12) Conferences, seminars, discussions of advanced physical medicine and rehabilitation topics for graduate students, residents, and postdoctoral fellows in rehabilitation medicine. Lectures, discussion, and laboratory work in selected aspects appropriate to elected area of study for applicants for master-level degree.

REHAB 521 Survey of Pathophysiology for Rehabilitation (2-3, max. 6) *J. Jandreau* Uses a systems approach overview of the disease process and the impact it has on the rehabilitation process. Provides a foundation for understanding how dysfunction of major systems can influence a person's ability to move. Discusses risk reduction and prevention strategies surrounding diseases. Offered: AW.

REHAB 522 Physiological Topics in Rehabilitation Medicine (2) Reviews traditional physiological concepts related to the nervous, musculoskeletal, and cardiopulmonary systems as a foundation for rehabilitation practice. Includes recent advances in research and applicable case studies.

REHAB 523 Neuroscience III: Applied Neurology (4) Theory and principles of advanced exercise procedures used when treating patients with neurologic pathology. Includes the application of principles of motor learning and control; facilitation and inhibition of variables affecting functional motor performance; adaptation of assessment and

treatment procedures to patients with different types of neurologic impairments. Lectures and laboratories.

REHAB 525 Exercise Physiology for Rehabilitation (3) Provides systems approach to exercise physiology, including cardiovascular and musculoskeletal response to exercise training, and the impact it has on the rehabilitation process. Reviews common disease processes that effect ability and tolerance, and may benefit from rehabilitation interventions.

REHAB 527 Neuroscience IV: Special Topics in Neurologic Rehabilitation (3) Critical analysis and application of physical therapy assessment and treatment techniques to problems related to specific adult neurological disorders. Neurological disorders to be covered include stroke, spinal cord injury, traumatic brain injury, and multiple sclerosis.

REHAB 528 International Clinical Clerkship (2) Short-term clinical education experience outside the United States. Participants work in a mentored relationship as part of a multi-disciplinary rehabilitation team providing direct clinical services and consultation to patients and their care-givers. Sponsored sites selected and screened by clinical coordinator. Students may choose area of clinical focus. Credit/no-credit only.

REHAB 529 PT Professional Series II: Professional and Practice Issues in Physical Therapy (2) Augments the student's understanding of the profession and current issues in healthcare. Includes healthcare delivery, scope of practice, professional organization, political activism, specialist certification, licensure, collaboration, therapeutic relationships, disclosure, privacy, and informed consent. Offered: W.

REHAB 530 Medical Aspects of Vocational Counseling (2-3) Introduction to vocational implications of physical and emotional disabilities. Methods, counseling techniques, therapeutic modalities, community resources used in producing vocational assistance for persons with disabilities. Prerequisite: resident standing in rehabilitation medicine or permission of instructor. Instructors: Johnson

REHAB 531 PT Professional Series I: Critical Thinking Skills in Physical Therapy (2) *Kevin J McQuade*
Introduces students to structured critical thinking for discussion and analysis of selected musculoskeletal approaches. Interactive small groups explore key papers with controversial or novel assertions, or that address commonly used treatment techniques. Offered: A.

REHAB 532 Clinical Affiliation for Rehabilitation Counselors (5-6) Under preceptorship of rehabilitation counseling staff, students counsel and evaluate patients with severe physical, emotional, or social problems; administer vocational testing; obtain placement on job stations; work with community resources for vocational/educational placement; and develop activity-oriented schedules. Prerequisite: permission of instructor. Instructors: Johnson

REHAB 533 Diseases and Diagnosis in Rehabilitation (2-, max. 4) Provides an introduction to medical diagnoses and diseases having high rates of referral to rehabilitation services in order to promote comprehensive patient care.

REHAB 535 Physical Therapy Administration Issues (2) In-depth discussion of administrative issues overarching physical therapy practice, including economic trends, operational policy, budgeting, reimbursement, staffing, business structure, and entrepreneurship. Required for physical therapy students. Credit/no-credit only.

REHAB 536 Patient Evaluation and Clinical Decision Making (1-2, max. 8) General principles and practice of physical therapy patient evaluation and use of the clinical decision-making models. The application of patient management principles through examination techniques and documentation strategies. Lecture and laboratory format.

REHAB 537 Functional Mobility Skills (2) Principles and practice of physical therapy interventions related to functional mobility skills, including transfer training, wheelchair fitting, wheelchair mobility, gait training, and caregiver training. Lecture and laboratory format.

REHAB 538 Integumentary, Edema Management, and Circulatory Screening for PT (2) Principles and practice of physical therapy evaluation and

interventions related to wound care, burn care, edema management, circulatory screening, and splinting applications. Lecture and laboratory format.

REHAB 539 Communication Disorders in Rehabilitation Medicine (1) *Yorkston* Overview of communication disorders secondary to central and peripheral nervous system impairment. Emphasis on facilitating identification of speech/language disorders with discussion of implications for rehabilitation.

REHAB 540 Acute Care Practice in Physical Therapy (3, max. 6) Provides an in-depth analysis of the role of the physical therapist in the acute care setting. Lectures frame care-based problem solving and experiential learning. Consequences of recumbent positioning and reduced activity examined using a systems-based approach. Develop entry-level knowledge for delivery of acute care PT services within a multidisciplinary team.

REHAB 541 Gross Anatomy Laboratory - Extremities (1) Uses cadavers to study the musculoskeletal, peripheral-vascular, and peripheral-nervous systems. Focuses on the extremities. Uses primarily prospected material, but provides some opportunity for independent dissection. Credit/no-credit only.

REHAB 542 Gross Anatomy Laboratory - Spine (1) Studies the musculoskeletal, peripheral-vascular, and peripheral-nervous systems from cadavers. Focuses on the spine. Uses primarily prospected material, but includes some opportunity for independent dissection. Credit/no-credit only.

REHAB 543 Rehabilitation Kinesiology Laboratory (1) Provides instruction and focus on practical experience and clinical problem solving in kinesiology by exploring and developing proficiency in a framework for observation, analysis, and description of human movement on the normal pathological spectrum. Credit/no-credit only.

REHAB 544 Functional Anatomy for Rehabilitation of the Extremities (5-) Covers the functions of the musculoskeletal system as applied by professionals in the practice of clinical rehabilitation. Focuses on anatomy and of the upper and lower extremities, including associated peripheral-vascular and peripheral-nervous systems. Intended to enhance

functional assessment and to improve diagnosis and treatment through greater understanding of underlying anatomy. Offered: A.

REHAB 545 Functional Anatomy for Rehabilitation of the Spine (-4) Covers functions of the musculoskeletal system as applied by professionals in the practice of clinical rehabilitation. Focuses on the anatomy of the spine, including associated vascular and nervous systems. Enhances functional assessments and the improvement of diagnosis and treatment through greater understanding of underlying anatomy. Offered: W.

REHAB 546 Teaching Practicum in Rehabilitation (1-3, max. 15) Integration of knowledge and skills in teaching through teaching in the classroom or presentation of a minicourse, workshop, or in-service training series. Prerequisite: permission of instructor.

REHAB 548 Kinesiology (4) Concepts for rehabilitation professionals in Physical Therapy, Occupational Therapy, and Prosthetics and Orthotics. Offered: Sp.

REHAB 550 Neuropsychology in Rehabilitation (2) *J. HOFFMAN* Examination and management of patients with brain lesions, as well as an understanding of the consequences of such conditions. Prerequisite: graduate standing in rehabilitation medicine.

REHAB 551 Neurobiology for Rehabilitation (5) In-depth analysis of human neuroanatomical structure and neurophysiological function as a basis for rehabilitation practice.

REHAB 554 Perspectives in Interprofessional Practice (0/1, max. 1) Distributed over seven consecutive quarters, this course integrates diverse interprofessional perspectives to prepare graduate and professional students for effective practice as collaborative team members. Offered: AWSpS.

REHAB 555 P-Neuromuscular Electrodiagnosis (2.5) Demonstration of fundamentals of electromyography and peripheral nerve stimulation followed by participation in clinical electrodiagnosis examinations. Develops awareness of knowing when such procedures are indicated for patients and interpreting results rather than developing proficiency in performing these examinations.

Prerequisite: permission of instructor. Instructors: Kraft

REHAB 556 Foundations of Rehabilitation Science

(3) Overview of rehabilitation science and social constructs of disability emphasizing bio-psycho-social-environmental models of the enabling-disabling process across the lifespan. Lays the philosophical and theoretical foundations for the study of rehabilitation as a science and is designed to promote interdisciplinary thinking. Prerequisite: instructor permission. Instructors: Johnson, Kartin, Yorkston

REHAB 557 Evidence-Based Rehabilitation (3)

Addresses frameworks for evaluating the evidence in rehabilitation science; asking answerable questions, using advanced search strategies; critically appraising literature; understanding the systematic review process; conducting and interpreting meta-analyses; developing evidence-based practice guidelines; communicating the evidence to stakeholders; and translating evidence into rehabilitation practice. Prerequisite: permission of instructor. Instructors: Kartin, Yorkston

REHAB 558 Rehabilitation Research Methods (3)

Provides an orientation and critical analysis of current practices in disability and rehabilitation research by appraising methodologies and strategies used to investigate consequences of human function, activity performance, and social participation. Topics include introduction to qualitative and quantitative methodologies with respect to rehabilitation research. Prerequisite: permission of instructor. Instructors: Johnson, Kartin, Yorkston

REHAB 559 Introduction to Global Rehabilitation (3)

Cody L McDonald Explores rehabilitation from a global perspective. Provides framework for students to develop proposals addressing current global rehabilitation issues. Offered: S, odd years.

REHAB 560 Defining and Measuring Outcomes in Rehabilitation Research (3)

Introduces the importance, methods, and challenges of outcomes research in rehabilitation. Addresses definitions and importance of outcomes research; behaviors measurement, functional abilities, quality of life, and consumer satisfaction; outcomes measurement for diverse populations across lifespan; research

outcomes design; and challenges specific to outcomes research. Prerequisite: permission of instructor. Instructors: Amtmann

REHAB 561 Epidemiological and Health Services Approaches to Rehabilitation Research (3)

Introduces the application of principles and methods from the fields of epidemiology and health services to rehabilitation research. Provides an overview of epidemiological research methods applicable to rehabilitation research, health services approaches, ethics, and use of research to inform disability policy. Prerequisite: permission of instructor. Instructors: Ciol, Hoffman

REHAB 562 Neuroscience in Rehabilitation (3)

Develops knowledge related to neural control of movement; movement dysfunction from neurologic pathology; and methodological approaches to investigating neural control of movement. Includes concepts in motor control; motor learning; and neural plasticity relating to movement dysfunction in people with neurologic pathology and to rehabilitation science. Prerequisite: permission of instructor. Instructors: Kelly, Yorkston

REHAB 564 Practice Skills for Occupational Therapy

(1, max. 3) Provides an introduction to physical assessments and interventions with a focus on physical management of clients, management of medical and adaptive equipment, splint fabrication, and maintenance of therapist and client safety. The therapeutic skills covered serve as a foundation for more advanced technical and professional competencies in subsequent courses and fieldwork. Credit/no-credit only. Offered: AWSp.

REHAB 566 Special Topics in Rehabilitation (1-9, max. 14)

Philosophy and concepts in the interdisciplinary rehabilitation of persons with major disabilities, including advanced content in the rehabilitation theory and process of selected categories.

REHAB 567 Practicum in Rehabilitation (1-12, max. 24)

Specialized practicum experience in environment providing rehabilitation services. Practicum arrangements and permission by instructor.

REHAB 568 Biophysics as Applied to Physical

Medicine (2) Propagation and absorption characteristics of physical forms of energy used for

treatment in physical medicine. Physiologic effects basic to prescription of the physical therapy modalities. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Esselman

REHAB 569 Prosthetics and Orthotics for Physical Therapists (2) Introduces the principles and designs of orthoses and prostheses, using a clinical problem-solving approach to determine functional deficits to create joint rehabilitation goals between physical therapy and prosthetics and orthotics in regards to the prosthesis and orthosis. Emphasizes team medicine and collaboration in rehabilitation.

REHAB 570 Foundations of Occupational Therapy (5) *Powell* An overview of the practice of occupational therapy, emphasizing the role of occupational performance in context, frames of reference, clinical reasoning, and purposeful activity. Introduces the diversity of occupational therapy practice environments through didactic and clinical experiences.

REHAB 572 Occupational Therapy Theory and Practice in Psychosocial Dysfunction I (1-7, max. 7) *Fogelberg* An overview of bodies of knowledge in psychosocial practice as related to occupational performance. Learning topics include major frames of reference, effects of psychosocial disorders on occupational performance (life activities) , and occupational therapy evaluation and intervention skills. Lectures, reading, class discussions, role-playing, problem-based learning, and fieldwork comprise the learning experiences.

REHAB 574 Occupational Therapy Theory and Practice in Physical Disabilities I (6) Provides theoretical bases and clinical practice skills used in evaluation and intervention of occupational performance (life activities) . Focus is on individuals with sensorimotor (physical) and/or cognitive impairments. Practical applications of theory occur through lecture, laboratory, and problem-based learning approaches.

REHAB 575 Occupational Therapy Theory and Practice in Physical Disabilities II (5) *Powell* Provides theoretical bases and clinical practice skills used in evaluation and intervention of occupational performance (life activities) . Focus is on individuals with sensorimotor (physical) and/or cognitive

impairments. Practical applications of theory occur through lecture, laboratory, and problem-based learning approaches.

REHAB 576 Occupational Therapy Theory and Practice in Pediatrics (1-7, max. 7) Provides knowledge and skills necessary for providing occupational therapy evaluation, intervention, and transition services focused on occupational performance (life activities) for children and teens with disabilities and their families.

REHAB 577 Occupational Therapy Theory and Practice in Geriatrics (5) *Powell* Occupational therapy evaluation and intervention with older adults. Covers psychology, physiology, and socio-demographics of aging. Emphasis on interaction skills with the elderly and occupational performance (life activities) . Laboratory experiences and fieldwork in the practice setting enhance didactic coursework.

REHAB 578 Occupational Therapy Domain and Process I (4) Skills in the analysis, adaptation, and sequencing of therapeutic occupations and activities to support occupational performance through the lifespan. The analysis process covers all aspects of the domain of occupational therapy including areas of occupation, client factors, performance skills, performance patterns, context, and environment.

REHAB 579 Occupational Therapy Domain and Process II (3) Introduces basic principles and skills of effective interpersonal communication in dyadic interactions and in groups. Emphasis on effective listening, interviewing, and principles and concepts of occupational therapy groups. Lectures, readings, class discussions, role playing, and in-class exercises comprise the learning experiences.

REHAB 580 Introduction to Research in Rehabilitation (3) Evaluation of rehabilitation research literature and design of research studies relevant to rehabilitation.

REHAB 581 Application of Measurement Systems (3) *Jirikowic* Provides basis for critically evaluating and using tests and measurements in occupational therapy evaluation. Focus on reliability, validity, norms, test development process, statistics relevant to tests and measurement, and ethical implications

of testing. Critical evaluation of selected standardized test used in occupational therapy.

REHAB 582 Assistive Technology in Rehabilitation (3) *T. JIRIKOWIC* Overview of the field of assistive technology as it impacts occupational performance in self-care, work, and leisure activities. Covers interface devices, computer applications, environmental controls, augmentative communications, power mobility, seating and positioning systems, and sensory enhancements.

REHAB 583 Exploring Disability (1) Explores multiple aspects of disability including social, mental, physical, and financial factors. Provides skills for working with people with disabilities and exposure to a multidisciplinary team approach to overcoming healthcare barriers. Utilizes interactive didactic with patient participation and introduction to community resources for people with disabilities.

REHAB 585 Leadership and Management in Occupational Therapy (5) *T. MROZ* Focuses on occupational therapy leadership and management in healthcare delivery systems. Includes theoretical and professional competencies focuses on healthcare access, health policy laws, service delivery settings, reimbursement, regulation, political advocacy. Management topics include leadership, program planning, budgeting, personnel, and outcome measurement.

REHAB 588 Fieldwork II Seminar (1) Supports a successful transition from academic work to the full-time Fieldwork II clinical experiences by reinforcing the integration and application of acquired technical and professional competencies needed for REHAB 594, Fieldwork II. Credit/no-credit only. Offered: Sp.

REHAB 591 Graduate Project (1-4, max. 10) Graduate project focuses on practice, administration, education, policy, research, or other scholarly or creative work. Required of entry-level occupational therapy students.

REHAB 592 Principles of Orthotic Use in Rehabilitation (2) *Crane* General principles and clinical applications of orthoses in patient management, with exposure to research issues in orthotic design.

REHAB 593 Principles of Prosthetic Use in Rehabilitation (2) *Morgenroth* General principles of prevention of amputation, prosthetic design, biomechanics, and clinical applications of upper and lower extremity prostheses.

REHAB 594 Clinical Fieldwork in Occupational Therapy (10, max. 30) *Rollinger* 12-week, full-time fieldwork, delivering occupational therapy services to clients focusing on application of meaningful occupation under direct supervision. Exposure to varied clients across the lifespan and in various settings reflective of current practice. Students must complete a minimum of two 12-week placements. Credit/no-credit only.

REHAB 595 Clinical Affiliation in Physical Therapy ([2-10]-, max. 30) Clinical practice of physical therapy techniques under supervision in community-based clinics. Credit/no-credit only.

REHAB 596 Electromyography and Clinical Neurophysiology (4) Didactic course covering electromyography and clinical neurophysiology. First part covers basic neurophysiology and second covers electromyography, nerve conduction studies, somatosensory-evoked potentials, residual- and auditory-evoked potentials, single fiber EMG, late response, quantitative analysis, and macro EMG. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft

REHAB 597 Electromyography and Electrodiagnosis Laboratory (1-) Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft Credit/no-credit only.

REHAB 598 Electromyography and Electrodiagnosis Laboratory (-1-) Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in rehabilitation medicine; others by permission of instructor. Instructors: Kraft Credit/no-credit only.

REHAB 599 Electromyography and Electrodiagnosis Laboratory (-1) Elective work in clinical electromyography and other electrodiagnostic methods. Prerequisite: resident standing in

rehabilitation medicine; others by permission of instructor. Instructors: Kraft Credit/no-credit only.

REHAB 600 Independent Study or Research (*-) Credit/no-credit only.

REHAB 683 P-Rehabilitation medicine Clerkship-Pediatric, Boise, ID (8) Incorporates material of REHAB 685 and expands into disabling pediatric disease. School planning, family counseling, community support services included. Four week, full time clerkship permits inpatient, outpatient, and consultation experience. Recommended for students contemplating pediatrics. Prerequisite: Third year medical student standing.

REHAB 684 Rehabilitation Elective - Boise, ID (8) Students work directly with the physician, seeing a variety of patients with musculoskeletal diagnoses as outlined in the objectives for the course, as well as working as a member of a multidisciplinary rehab team. They also observe procedures such as EMGs, nerve conduction studies, and a variety of peripheral and central injections. Students participate in care of injured workers and their return to work. (Four weeks).

REHAB 685 P-Chronic Disease and Disability (4) Structured clinical experience on rehabilitation medicine services. Differences between acute and chronic medicine, identification of disability problems, and therapeutic techniques for removing disability. Hospitals are within University system, local area, and WWAMI area. Prerequisite: third-year medical student standing. Instructors: McNalley

REHAB 686 P-Rehabilitation Medicine Clerkship - Pediatrics (8/12) Incorporates material of REHAB 685 and expands into disabling pediatric disease. School planning, family counseling, community support services included. Four- or six-week package permits inpatient, outpatient, and consultation experience. Recommended for students contemplating pediatrics. Prerequisite: third-year medical student standing. Instructors: McNalley

REHAB 687 Rehabilitation Medicine Clerkship - Harborview Medical Center - Seattle (8) Focuses on neuro-rehabilitation and general rehabilitation. Intended for those interested in exploring a career in Physical Medicine and Rehabilitation or wishing to gain more experience working with patients with

disability. Students primarily work on the inpatient rehabilitation unit. Some exposure to outpatient general rehabilitation and neuro-rehabilitation clinics. Prerequisite: completion of Patient Care Phase or equivalent. Offered: AWSpS.

REHAB 688 Rehabilitation Medicine Clerkship - VA Puget Sound Seattle Division, Rehab Care Services (8) Focuses on providing medical and rehabilitative care to inpatients with a variety of diagnoses and functional limitations including, but not limited to, stroke, amputation, multiple sclerosis and motor neuron disease. Structured clinical experience on a general inpatient rehabilitation unit. Opportunities to participate at a variety of outpatient rehabilitation clinics. Prerequisite: completion of Patient Care Phase or equivalent. Offered: AWSpS.

REHAB 689 Rehabilitation Medicine Clerkship - VA Puget Sound Seattle Division, Spinal Cord Injury (8) Introduction to diagnosis, management, and rehabilitation of patients with spinal-cord injuries. Interaction with rehabilitation team, psychiatrists, and subspecialists in urology, neurosurgery, and plastic surgery. Performance at subintern level expected. Prerequisite: completion of Patient Care Phase or equivalent. Offered: AWSpS.

REHAB 690 Rehabilitation Medicine Clerkship - UW Medical Center - Seattle (8) Four-week clerkship on inpatient PM&R management of patients with disabilities and functional impairments due to disorders such as acquired brain injury, CNS disorders, spinal cord injury, and complex medical conditions. Recommended for careers in family medicine, internal medicine, neurology, geriatrics, orthopedic surgery, neurosurgery, rheumatology, and cardiology. Prerequisite: completion of Patient Care Phase or equivalent. Offered: AWSpS.

REHAB 691 Rehabilitation Medicine Clerkship - Community Medical Center - Missoula (4/8) Two or four week Physical Medicine and Rehabilitation (PM&R) clerkship at Community Medical Center in Missoula, Montana. Work in inpatient setting for patients in acute rehab, and see patients in outpatient clinic. Two week rotation for students desiring broad overview of PM&R, seeing variety of patients. Four week rotation for students desiring more exposure to neuromuscular anatomy, physical exam, and neuromuscular disorders. Prerequisite:

completion of Patient Care Phase or equivalent.
Offered: AWSpS.

REHAB 692 P-Rehabilitation Medicine Elective - Spokane-St. Luke's (8) Students will provide medical and rehabilitative care to patients with variety of diagnoses and functional limitations including, but not limited to, stroke, amputation, multiple sclerosis and motor neuron disease. Recommended for careers in PM&R, family medicine, internal medicine, neurology, rheumatology, geriatrics, orthopedic surgery, or neurosurgery. Site is St. Luke's Rehabilitation in Spokane, WA. Prerequisite: 3rd year medical student standing Offered: AWSpS.

REHAB 697 P-Rehabilitation Medicine Special Elective (*, max. 24) Equivalent to REHAB 686, REHAB 687, or REHAB 688. Student arranges with another university, using the "special assignment form." Students qualify after review, similar experience at another university. Prerequisite: permission of instructor. Instructors: McNalley

REHAB 699 P-WWAMI Rehabilitation Medicine Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions other than the University of Washington located within the WWAMI region. Prerequisite: permission of department.

REHAB 700 Master's Thesis (*-) Credit/no-credit only.

REHAB 800 Doctoral Dissertation in (*-) Offered: AWSpS.

REHAB 801 Practice Doctorate Project/Capstone ([1-4]-, max. 12) Credit/no-credit only. Offered: AWSpS.

SURGERY

SURG 498 Undergraduate Thesis (*, max. 35) Offered to those students who have engaged in undergraduate research in general surgery. (Full- or part-time.)

SURG 499 Undergraduate Research (*, max. 35) Provides an opportunity to participate in ongoing research projects or carry out an independent

research project under supervision of Department of Surgery faculty. Practical experience in experimental design and execution is provided under direct supervision of selected faculty members. (Full- or part-time.)

SURG 505 P-Preceptorship in Surgery (1, max. 12) Opportunity for first- and second-year medical students to gain personal experience with clinical faculty members in the community. Students observe general aspects of private practice, including clinical problems seen; practice limitation; doctor-doctor, doctor-patient, and doctor-nurse relationships in the office and hospital. Prerequisite: permission of department.

SURG 598 P-Surgery Independent Study and Remediation (*, max. 8) Designed for medical students required to complete additional study related to the required Surgery clerkship offered during the patient care phase of the School of Medicine curriculum. Intended for students in remedial or extended programs to master fund of knowledge. Prerequisite: department permission. Offered: AWSpS.

SURG 600 Independent Study or Research (*-)

SURG 601 General Surgery Advanced Clerkship - Swedish Medical Center (8) Advanced clerkship at Swedish Medical Center/First Hill offering training in a 700-bed tertiary-care hospital. Emphasizes collegial relationships between attending surgeons, residents, and fourth year medical students considering a career in general surgery or one of its subspecialties. Prerequisite: required surgery clerkship. Offered: AWSpS.

SURG 602 P-Clinical Clerkship - Coeur D'Alene, ID (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 603 P-Clinical Clerkship - Spokane VAMC (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical

management. Care of inpatients and outpatients, including participation in the operating room.

SURG 604 P-Clinical Clerkship - Bozeman, MT (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 605 P-Clinical Clerkship - Swedish Medical Center (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 606 P-Clinical Clerkship - Anchorage, AK (1-24, max. 25) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision-making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 607 Colorectal Surgery - Boise, ID (8) Focus on benign and malignant diseases: colorectal carcinoma, colitis, inflammatory bowel disease, anorectal diseases such as anal fissure, anorectal abscess and fistula, hemorrhoids and pilonidal disease. Focus primarily on minimally invasive techniques with exposure to the OR, clinic, endoscopy unit, and da Vinci robotic surgical procedures. Practice of modern surgical techniques. Prerequisite: General Surgery clerkship. Offered: AWSpS.

SURG 608 General Surgery Advanced Clerkship - Virginia Mason (8) Advanced clerkship designed to give fourth year medical students direct exposure to defined categories of general surgery. Students participate in the pre-op, intra-op, and post-operative care of surgical patients. Students also participate in outpatient clinic and perform initial consults and post-operative visits. Students work closely with resident physicians to provide primary care for post-operative inpatients. Prerequisite: required Surgery clerkship.

SURG 609 Surgery Clerkship - Alaska Native Medical Center (12) Students participate in and contribute to the team approach to managing emergency general surgery conditions and oversight of management of complex trauma victims. Activities include patient care assessment in both inpatient and outpatient settings, observation and participation in the operating room, attendance of weekly conferences, and didactic experience with faculty. Offered: AWSpS.

SURG 610 Plastic Surgery Sub-Internship (8) Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers, and pediatric and adult cosmetic and reconstructive surgery. Participants act in sub-intern capacity in all surgery-related activities and work towards essential skills necessary for surgical residency. Students rotate through Veterans Affairs Puget Sound (primary site), UW Medical Center Montlake, and UW Medical Center Northwest. Prerequisite: completion of required general surgery and medicine clerkships.

SURG 630 P-WRITE Surgery Clinical Clerkship (*, max. 24) Basic clinical clerkship for students enrolled in the WRITEpProgram. Prerequisite: completion of basic curriculum; third- and fourth-year students; acceptance in the WRITE program.

SURG 631 P-LIC Surgery Clinical Clerkship (12) Basic clinical clerkship for students enrolled in LIC program. Prerequisite: Acceptance into LIC program. Offered: AWSpS.

SURG 632 P-Plastic Surgery - Spokane Plastic Surgeons (4-8) Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: Surgery and medicine required clerkships

SURG 633 P-Clinical Clerkship - Olympia (non LIC) (1-12, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Offered: WSpS.

SURG 634 Surgery Clerkship - Twin Falls, ID (1-24, max. 25) Required surgery clerkship - Patient Care Phase; St. Luke's Magic Valley, Twin Falls ID Offered: AWSpS.

SURG 638 P-Rural Surgery - Lewistown, MT (8) Learn to identify and describe the most common surgical problems presenting in the particular community to which you are assigned. Prerequisite: Surgery required clerkship Offered: AWSpS.

SURG 639 P-Rural Surgery - Polson, MT (8) Evaluate and diagnose surgical referrals; do pre-op evaluations and counseling/discussion of surgical procedures. Evaluation of post operative patients in the hospital and clinic. Assessment of acute care surgical patients in the ED and hospital. Trauma resuscitations. Prerequisite: Surgery and Medicine required clerkships Offered: AWSpS.

SURG 640 P-Rural Surgery- Dillon, MT (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: Surgery required clerkship and permission of department. Offered: AWSpS.

SURG 641 P-Rural Surgery- Glasgow, MT (8) Designed to supplement basics learned in SURG 665. opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: Surgery required clerkship and permission of department. Offered: AWSpS.

SURG 642 P-Rural Surgery Clerkship - Pullman, WA (8) Designed to supplement basics learned in surgery required clerkship. Excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Highly suggested for student entering primary care. Prerequisite: required surgery clerkship; medicine clerkship.

SURG 644 P-Rural Surgery Clerkship - Lewiston, ID (8) Designed to supplement basics learned in surgery required clerkship. Excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Highly suggested for student entering primary care. Prerequisite: required surgery clerkship; medicine clerkship.

SURG 646 P-Rural Surgery Clerkship - Gillette (8) Designed to supplement basics learned in surgery required clerkship. Provides an excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery clerkship; medicine clerkship; permission of the department.

SURG 647 P-Rural Surgery Clerkship - Powell (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 648 P-Rural Surgery Clerkship - Libby (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 649 P-Rural Surgery Clerkship - Lewistown (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 650 P-Rural Surgery Clerkship - Twin Falls (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 651 P-Community Surgery Clerkship - Rock Springs, WY (8) Designed to supplement basics learned in Surgery 665. Excellent opportunity to participate in general surgery and various other subspecialties in a smaller city. Encouraged for students entering primary care. Prerequisite: completed required Surgery and Medicine clerkships.

SURG 652 P-Plastic Surgery - Spokane (8) Introduces fundamental techniques and enhances knowledge of

plastic surgery, wounds, trauma, burns, cancers, and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: surgery and medicine required clerkships.

SURG 653 P-Pediatric Surgery - Spokane (8) Student functions as a subintern directly assisting on the services and is an integral part of the team. Prerequisite: surgery required clerkship.

SURG 654 P-Cardiothoracic Surgery - Spokane (4-8) The student functions as a subintern and directly assists on the service and is an integral part of the team. Prerequisite: surgery required clerkship.

SURG 655 Surgery Clerkship - Gillette, WY (12) Provides a method of focused evaluation for patients with surgical problems. Includes workup and preparation of patients for anesthesia and surgical intervention. Offered: AWSpS.

SURG 656 P-Trauma/Acute Care Surgery - Boise (8) The student functions as a subintern and directly assists on the service and is an integral part of the team at St. Alphonsus Trauma Services. (Four weeks) .

SURG 657 P-Vascular Surgery - Spokane (4/8) Student spends two or four weeks at the Vascular Institute in Spokane. The student functions as a subintern and directly assists on the service and is an integral part of the team.

SURG 658 P-Ambulatory Surgery Clerkship - Mary Bridge (4) Rotation focuses on increasing the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

SURG 659 P-Ambulatory Surgery Clerkship - Madigan (4-8, max. 12) Rotation focuses on increasing the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

SURG 660 P-Ambulatory Surgery Clerkship - Group Health (4) Rotation focuses on increasing the student's ability as a primary care physician to

recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

SURG 661 P-Surgical Intensive Care Unit Sub-Internship - VA (8) Designed to augment experience gained in SURG 665. Excellent opportunity to participate in the management of critically ill patients under the close supervision of the staff/house staff. Recommended for students entering surgery or primary care. Prerequisite: surgery required clerkship.

SURG 662 P-Community Surgery Clerkship - Longview (8) Designed to supplement basics learned in SURG 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a group practice in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 663 P-Subinternship in General Surgery - Virginia Mason (*, max. 16) Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: surgery required clerkship.

SURG 664 P-Subinternship in General Surgery - VAMC (*, max. 16) Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: surgery required clerkship.

SURG 665 P-Clinical Clerkship - UWMC (*, max. 24) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 666 P-Clinical Clerkship - Boise (1-24, max. 25) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision making, and basic principles of surgical management. Care of inpatients and

outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 667 P-Clinical Clerkship - Spokane (1-24, max. 25) Diagnosis and management of surgical problems. Physiological basis of surgical care, differential diagnosis and decision-making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 668 P-Clinical Clerkship - Casper (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 669 P-Clinical Clerkship - Billings (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 670 P-Clinical Clerkship - Missoula (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 671 P-Clinical Clerkship - Madigan (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision-making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 672 P-Clinical Clerkship - HMC (*, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of

inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery. Prerequisite: HUBIO 563.

SURG 673 P-Clinical Clerkship - VA (*, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery. Prerequisite: HUBIO 563.

SURG 674 P-Clinical Clerkship - Virginia Mason (*, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery. Prerequisite: HUBIO 563.

SURG 675 P-Clinical Clerkship - Caldwell, ID (*, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 676 P-Pediatric Cardiothoracic Surgery (8) Students will learn about the technical and physiological aspects of cardiopulmonary treatments. Prerequisite: Surgery required clerkship Offered: AWSpS.

SURG 677 P-Clinical Clerkship - Sheridan, WY (*, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 678 P-Clinical Clerkship - Kalispell, MT (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 679 P-Clinical Clerkship - Wenatchee, WA (1-24, max. 25) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms.

SURG 680 P-Clinical Clerkship - Northwest Hospital (1-12, max. 12) Diagnosis and management of problems amenable to surgical therapy. Physiological basis of surgical care, differential diagnosis and decision making, and the basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Offered: AWSpS.

SURG 681 P-Peripheral Vascular Disease (4/8, max. 8) Peripheral arterial and venous problems, including methods of clinical evaluation; new diagnostic procedures; and the available methods of treatment. Patient workup, performance of diagnostic studies, and presentation of case material to the staff. Prerequisite: surgery required clerkship.

SURG 682 P-Clinical Burn Care (*, max. 12) Offered on the burn unit of Harborview Medical Center. Exposure to the care of patients with thermal injury, including management of severe metabolic and septic problems and opportunity to participate in surgical procedures. Exposure to plastic and reconstructive surgery. Prerequisite: surgery required clerkship.

SURG 683 P-Pediatric Surgery Externship (8/12) Surgical conditions peculiar to the particular age group with a preponderance of congenital and neoplastic conditions that are amenable to surgical treatment. Prerequisite: surgery required clerkship.

SURG 684 P-Pediatric Surgery Clerkship- Boise (8) Student functions as a subintern directly assisting on the services and is an integral part of the team. Held in Boise, ID. Prerequisite: PEDS and SURG clerkships. Offered: AWSpS.

SURG 685 P-Cardiothoracic Surgery Externship (*, max. 12) Serve as a subintern on the Cardiothoracic surgery service at the UWMC. Opportunity to participate in the full spectrum of perioperative care for both cardiac and thoracic surgery patients

including end stage lung disease, heart failure and transplantation patients, with an emphasis on cardiopulmonary physiology and perioperative management.

SURG 686 P-Plastic Surgery Clerkship and Preceptorship (*, max. 12) Introduces fundamental techniques and enhances knowledge of plastic surgery, wounds, trauma, burns, cancers, and pediatric and adult cosmetic and reconstructive surgery. Participate in all surgery-related activities. Prerequisite: surgery and medicine required clerkships.

SURG 687 P-Transplantation Surgery Clerkship (8) Clerkship is in the University regional multi-organ transplantation center. Student participates fully in the care of all transplant patients, on twice daily multidisciplinary rounds, in pre-operative conference, and in the operating room and on the donor harvest team. Weekly didactic teaching sessions. Prerequisite: surgery and medicine required clerkships.

SURG 688 P-Subinternship in General Surgery (*, max. 12) Offered on the general surgery wards of the University-affiliated hospitals. Diagnosis, preoperative care, and postoperative care; management of surgical emergencies, the ICU patient, and outpatient follow-up of discharged patients. Students function at the intern level under close supervision of the staff and house staff. Prerequisite: surgery required clerkship.

SURG 689 P-Community Surgery Clerkship - Coeur d' Alene (8) Designed to supplement basics learned in SURG 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a group practice in a smaller city. Recommended for students entering primary care. Prerequisite: SURG 665 and permission of department.

SURG 690 P-Alaska Native Medical Center Surgery Sub-Internship (8/12) Designed to supplement basics learned in SURG 665. Excellent opportunity to participate in general, thoracic, vascular, and plastic surgery in a specialized population of patients. Recommended for students entering primary care. Prerequisite: SURG 665 and permission of department.

SURG 691 P-Surgical Intensive Care Unit Sub-Internship - HMC (8) Designed to augment experience gained in SURG 665. Excellent opportunity to participate in the management of critically ill patients under the close supervision of the staff/house staff. Recommended for students entering surgery or primary care. Prerequisite: surgery required clerkship.

SURG 692 P-Ambulatory Surgery Clerkship - Seattle Children's (4) Rotation focuses on increasing the student's ability as a primary care physician to recognize and form an initial plan of management for common surgical problems seen in the outpatient setting. Offered: AWSpS.

SURG 693 P-Rural Surgery Clerkship - Buffalo (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 694 P-Rural Surgery Clerkship - Riverton (8) Designed to supplement basics learned in SURG 665. Opportunity to participate in general surgery and various other subspecialties in a smaller city. Recommended for students entering primary care. Prerequisite: surgery required clerkship and permission of department.

SURG 695 Vascular Surgery (8/12) The student spends four weeks on the vascular surgery at Harborview Medical Center. The student functions as a subintern and directly helps the residents manage all patients on the service and is an integral part of the OR team.

SURG 696 P-Breast Surgery - Spokane (4/8) Two or four weeks at the Breast Center in Spokane. Student functions as a subintern directly assisting on the service and is an integral part of the team.

SURG 697 P-Surgery Special Electives (*, max. 24) Special clerkship, externship, or research opportunities may be available at institutions other than the University of Washington. Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: surgery required clerkship and permission of department.

SURG 698 P-Clinical Clerkship - Fairbanks (*, max. 24) Includes the diagnosis and management of surgical problems. Focuses on the physiological basis of surgical care, differential diagnosis and decision making, and basic principles of surgical management. Care of inpatients and outpatients, including participation in the operating rooms. Fulfills graduation requirement for surgery.

SURG 699 P-WWAMI Surgery Special Electives (*, max. 24) By special arrangement for qualified students, special clerkships or externships may be available at institutions, other than the University of Washington, located within the WWAMI region. Prerequisite: permission of department.

UROLOGY

UROL 498 Undergraduate Thesis (*, max. 35) Provides an opportunity for medical students to write in the area of urology.

UROL 499 Undergraduate Research (*, max. 35) The student participates in current urologic research projects under supervision of full-time staff. Certain specific problems may be elected by the student. Elective for medical students.

UROL 501 P-Urology Preceptorship (1, max. 12) Individual experiences with one or more of the full-time department faculty members covering research, teaching, and patient care. Students observe activities in the clinic, hospital ward, operating room, and research laboratories. Prerequisite: first- or second-year medical student standing; permission of instructor.

UROL 600 Independent Study or Research (1-3, max. 16) *John L Gore* Independent study or research in urology conducted under the direction of one or more instructors. Offered: AWSpS.

UROL 675 P-Urology Preceptorship (*, max. 8) Student follows a private practice preceptor in all of his or her work. Becomes acquainted with the office management of urological problems. (Two or four weeks). Prerequisite: UROL 680, HUBIO 562.

UROL 678 P-Urology Clerkship - Idaho (4-8, max. 8) Medical clinical rotation. Involves participation in a standard urology clinic, as well as procedures and

surgical cases. Prerequisite: completion of Internal Medicine or Surgery required third year clerkship is recommended. Offered: AWSpS.

UROL 679 P-Urology Clerkship - Boise VA (*, max. 8)

Two or four week rotation. Full activities of clinical service. Emphasizes basic principles of urology. Prerequisite: HUBIO 562.

UROL 680 P-Urology Clerkship (*, max. 8)

Full activities of clinical service. Basic principles of urology emphasized. (Two or four weeks). Prerequisite: HUBIO 562. Instructors: Dalkin, Grady, Krieger, Lendvay, Porter, Voelzke, Wessells, Yang

UROL 681 P-Female Urology (4) Observation of cases of lower urinary tract disorders specific to women, emphasizing behavioral management and multidisciplinary care. Ninety-five percent of cases observed are women. Not intended as the only exposure to urology for students considering urology as career choice. Prerequisite: third- or fourth-year standing and permission of instructor. Instructors: J. Miller

UROL 682 P-Urology Clerkship - Spokane (4-8, max. 8) Full activities of clinical service. Basic principles of urology emphasized. (Two or four weeks). Offered: AWSpS.

UROL 683 P-Urology Clerkship - Boise (*, max. 8) Full activities of clinical service. Basic principles of urology emphasized. (Two or four weeks). Prerequisite: HUBIO 562.

UROL 684 P-Urology Clerkship - Billings (*, max. 8) Two or four week rotation. Includes full activities of clinical service. Emphasizes basic principles of urology. Prerequisite: HUBIO 562.

UROL 685 P-Urology Sub-Internship (*, max. 12) Subintern is responsible for patient workups and for preoperative and postoperative care and participates in the operating room. Prerequisite: MED 665 or pediatrics basic clerkship, or permission of instructor. Instructors: Dalkin, Grady, Krieger, Lendvay, Porter, Voelzke, Wessells, Yang

UROL 686 P-Urology Clerkship - Bozeman (4-8, max. 8) Medical clinical rotation. Involves participation in

a standard urology clinic, as well as procedures and surgical cases. Prerequisite: completion of Internal Medicine or Surgery required third year clerkship is recommended. Offered: AWSpS.

UROL 687 P-Urology Clerkship - Northwest Hospital (4-8, max. 8)

Rotation providing exposure to all aspects of patient care in urology, including exposure to outpatient clinic and operating room. Recommended: third-year clerkship and completion of Patient Care Phase courses in Internal Medicine or Surgery. Offered: AWSpS.

UROL 688 Advanced Patient Care -Urology Clerkship - Bozeman (8)

Advanced patient care rotation provides exposure to all aspects of patient care in urology through a private practice setting. Students, as part of a primary or consultative team, are exposed to outpatient clinic and operating room procedures, with daily responsibilities. Four weeks. Prerequisite: third- or fourth-year medical student; recommended: Internal Medicine and/or Surgery clerkships. Offered: AWSpS.

UROL 690 P-Urology Specialties (*, max. 8) For those who wish further exposure to a specific aspect of urology. Students spend time with one attending at University of Washington Medical Center, Harborview Medical Center, Seattle Children's Hospital, or Veterans' Administration Hospital studying oncology, infections, infertility, stone disease, impotence, or other aspects of urology. Prerequisite: UROL 680 and permission of instructor.

UROL 697 P-Urology Special Electives (*, max. 24)

Special clerkship, externship, or research opportunities may be available at institutions other than the University of Washington. Prospective students obtain from the dean's office a special assignment form at least one month before preregistration. Prerequisite: permission of instructor.

UROL 699 P-WWAMI Urology Special Electives (*, max. 24)

By special arrangement for qualified students, special clerkships or externships may be available at institutions, other than the University of Washington, located within the WWAMI region. Prerequisite: permission of department.

SCHOOL OF NURSING

INFANT AND EARLY CHILDHOOD MENTAL HEALTH

IECMH 537 Development and Psychopathology: Parents and Infants (3) *Spieker* Provides an overview of typical social and emotional development and psychopathology in children ages three and younger. Demonstrates attachment relationships with parents and family to infant's development and psychopathology. Core course of Infant Mental Health Certificate program. Recommended: IECMH 548 Offered: A.

IECMH 548 Frameworks in Infant and Early Childhood Mental Health (3) Review infant mental health (IMH) and early development from a developmental interdisciplinary perspective. Pays special attention to brain development, sensory integration, early communication, and emotion regulation. Offered: A.

IECMH 555 Relationship Based Mental Health Assessment of Young Children (3) Focuses on multi-disciplinary, diagnostic mental health observation and assessment of infants, toddlers, and preschoolers within the context of their primary relationships. Recommended: IECMH 548 Offered: Sp.

IECMH 569 Reflective Practice And Consultation (2) *Colleen O. Dillon, Susan J Spieker* Focuses on reflective practice, consultation and supervision, distinct and core features of practice across disciplines providing infant mental health services to young children and families. Recommended: IECMH 548 Offered: S.

NURSING (NSG)

NSG 432 Infants and Children: Risk and Resilience (5) I&S *C. Dillon, M. Hirschstein, S. Spieker* Provides a survey of infant and early childhood development, including prenatal and neonatal factors, and social/societal influences, using an infant mental health framework. Emphasizes how risk and protective factors can impact social-emotional, physical, and cognitive growth. Includes research-

based principles and approaches to supporting families, teachers, and caregivers of young children. Offered: SpS.

NSG 505 Applied Occupational Health and Safety (3) Application of occupational safety and health principles. Student teams perform evaluations, assess production methods/processes and exposures, health and safety procedures and programs, and develop engineering and administrative controls. Students perform on a consulting project with a local company including budgeting, project reporting, and presentation. Offered: jointly with ENV H 559/IND E 567; Sp, even years.

NSG 506 Occupational Safety Management (4) Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates philosophic issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Contains numerous case problems and student involvement opportunities. Offered: jointly with ENV H 560; Sp.

NSG 507 Technical Aspects of Occupational Safety (3) Reviews federal OSHA (Occupational Safety and Health Administration) and state WISHA (Washington Industrial Safety and Health Act) standards. Explores the impact of these regulations on industry, particularly construction. Upon completion of the course, student receive an OSHA 510 30-hour Construction Safety and Health certificate. Offered: jointly with ENV H 562; W.

NSG 508 Introduction to Ergonomics (3) Basic principles of ergonomics in work environment applied to problems of worker and management. Topics include measurement of physical work capacity, problems of fatigue and heat stress, applied biomechanics, worker-machine interactions and communication, design of displays and controls. Prerequisite: basic human physiology or permission of instructor. Offered: jointly with ENV H 566/IND E 566; W.

NSG 511 Prevention Issues in Community Health (3)

An interdisciplinary overview of community health prevention approaches focusing on the social determinants of health and health disparity reduction among vulnerable populations. Analysis of community and population preventive strategies across the life course. Roles of advanced community health nurses as prevention leaders and consumers of prevention information are emphasized. Offered: Sp.

NSG 512 Prevention Critique in Community Health (3)

Critical examination of community health prevention programs that build community health capacity and show promise in facilitating long-term health equity among vulnerable populations. Focuses on the leading health disparities among U.S. racial and ethnic people of color, and how to be a critical program consumer, adopter, and adapter. Offered: A.

NSG 513 Psychopharmacology for Children and Adolescents (1)

Tyson, Walsh Reviews pertinent issues in prescribing psychoactive medications to children and adolescents. Emphasizes empirical neuroendocrine bases, and nursing management relevant to these interventions. Examines legal and ethical issues pertaining to prescribing for children and adolescents. Credit/no-credit only. Offered: S.

NSG 516 Physiological Aspects of Aging (3)

Barbara B. Cochrane Focuses on biological theories of aging, major physiological and pathophysiological changes that occur in human body systems with aging. Also addresses health considerations and individual adaptations based on current research. Offered: A.

NSG 526 Introduction to Person Centered and Interprofessional Palliative Care (1-5)

Introduces fundamental concepts in narrative and person centered communication and interprofessional practice. Presents foundations for learning to apply an interdisciplinary approach to palliative care. Offered: jointly with B H 566/FAMED 531; A.

NSG 527 Advanced Topics in Person Centered and Interprofessional Palliative Care (1-5)

Interprofessional course presenting advanced concepts in narrative and person centered communication and interprofessional practice. Requires admissions into the Palliative Care

Graduate Certificate Program. Prerequisite: NSG 526 Offered: jointly with B H 567/FAMED 532; W.

NSG 528 Palliative Care: Quality Metrics and System Integration (1-5)

Prepares students to integrate team based palliative care into a larger system, introduces community engagement, and palliative care policy issues. Specific content includes building palliative care service, engaging leadership to support palliative care, and using quality metrics to leverage and support quality care. Requires admissions into the Palliative Care Graduate Certificate Program. Offered: jointly with B H 568/FAMED 533; Sp.

NSG 530 Leadership, Communication, and Professional Identity (3)

Analyzes professional identity, transition to new roles and responsibilities, leadership approaches, and inter-professional teamwork skills needed to provide effective, efficient and patient/community-centered care. Covers advanced, multi-modal communication strategies specific to professional role certification, conflict resolution, professional communication, inter-professional teamwork and leadership using interactive, skills-based learning.

NSG 539 Management of Common Newborn Conditions (1-2, max. 2)

Focuses on evidence-based clinical-decision making and management of common newborn health conditions. Emphasizes concepts of health promotion and patient/family centered care. Provides a theoretical and conceptual foundation for clinical decision-making and critical appraisal of data to determine diagnosis and comprehensive, cost-effective plan of care. Prerequisite: NCLIN 502 or equivalent, or permission of instructor.

NSG 540 Telehealth Systems and Applications (4)

Introduces challenges for designers and managers of telehealth and remote healthcare networks. Develops abilities of managers, leaders, and researchers of telehealth systems through exploration into systems components. Activities range from research to implementation of system design for applications that bridge geographic distance to the development of practical applications. Offered: jointly with BIME 581; S.

NSG 548 Basic Arrhythmia, Conduction Disturbance, and 12-Lead Electrocardiography Interpretation (2)

Covers the theory and practice of basic arrhythmia, conduction disturbance, and 12-lead electrocardiography (ECG) interpretation, as well as selected pharmacologic and electrical management. Content is appropriate for primary care, and provides foundation for advanced interpretation for students in acute/critical care.

NSG 549 Complex Arrhythmia, Conduction Disturbance, and 12-Lead Electrocardiography Interpretation (2) Covers the theory and practice of complex arrhythmia, conduction disturbance, and 12-lead electrocardiography (ECG) interpretation, as well as selected pharmacologic and electrical management. Appropriate for acute/critical care. Prerequisite: NSG 548, or satisfactory pretest of basic ECG interpretation.

NSG 550 Seminar on Professional Issues in Nursing Education (3) Seminar on role and related professional issues in nursing education. Prerequisite: either NSG 545, B NURS 513, or T NURS 513; either NSG 546, B NURS 511, or T NURS 511. Offered: jointly with B NURS 550/T NURS 550.

NSG 551 Health Politics and Policy (3) Critically analyzes the politics of health policy in the United States. Examines leadership and advocacy in influencing politics and policy to address and influence health outcomes.

NSG 552 Social Determinants of Health and Health Equity (3) Examines fundamental concepts, emerging theory, research, and intervention strategies regarding the influence and putative mechanisms of environment and societal factors on health at population, community, and individual levels. Emphasizes an interdisciplinary, multi-level socio-ecological perspective on health and illness with consideration of principles of equity and justice in societal contexts.

NSG 553 Foundations of Health Systems and Health Economics (3) Examines health systems and care delivery in the context of principles of business, finance, and economics. Concepts applied in the design of cost and care effectiveness system-level health improvements. Prerequisite: either NMETH 536, which may be taken concurrently, or permission of instructor.

NSG 554 Population Health and the Environment (3) Introduces core concepts and principles related to the science and practice of environmental and occupational health. Examines historical cases and current issues to illustrate how environmental conditions contribute to injury and illness among human populations. Explores health professionals' roles in actions that protect and promote healthy environmental and workplace settings. Offered: Sp.

NSG 555 Perspectives on Implementing Research in Advanced Nursing Practice (3) *Boutain, Landis* Provides an overview of contemporary multidisciplinary perspectives, models and research approaches for advanced practice nursing. Focuses on understanding and applying science to practice, and practice to science. Emphasizes ethical practice, scientific responsibility, research curiosity and use.

NSG 556 Program Planning and Health Systems and Multicultural Communities (4) *Carolyn Jb Strickland, Jenny Hsin-Chun Tsai* Explores culture as it related to the program planning process, methods, theories, attitudes, and skills in health promotion and disease prevention through community engagement. Offered: W.

NSG 557 Physiology and Pathophysiology Across the Life Span (4) Analyzes disordered physiologic responses in individuals within the context of lifespan physiology. Examines pathophysiologic principles and responses, using case studies as exemplars for selected concepts, and the relationship between physiologic and pathophysiologic principles and the evidence basis for current practice. Offered: A.

NSG 558 Occupational Health Nursing: Advanced Practice and Leadership in Program Development (3) Examination of advanced professional practice and leadership in the context of occupational health and safety programs. Focuses on assessment, development, implementation, and evaluation of programs involving workplace health surveillance, case management, workers' compensation, and health promotion in consideration of political, economic, legal, ethical issues, and application of current research.

NSG 559 Prevention Effectiveness in Community Health (1) Focuses on increasing effectiveness of organization- and community-level health promotion

and prevention programs with multicultural communities. Includes web-based tool-kits pertaining to: cross-cultural adaptations of health promotion programs; mental health promotion in communities; institutional readiness to sustain prevention policies; and community engagement in health promotion efforts. Credit/no-credit only.

NSG 560 Pediatric Case Studies (2) Focuses on integration and application of pediatric history-taking, diagnostic reasoning, behavioral and developmental assessment, health promotion, and management of common pediatric conditions in case-based scenarios. Prerequisite: NCLIN 502; NURS 518; NURS 529, any of which may be taken concurrently, or permission of instructor. Credit/no-credit only. Offered: W.

NSG 561 Community Health Systems for Equity (3) Defines, evaluates, and synthesizes how community health systems promote health equity. Emphasizes how various systems, such as care, public health, governmental, tribal, family, and social-kin, nonprofit, faith-based, and business, inhibit or promote communal health. Highlights advanced practice, practice inquiry, and leadership implications. Offered: A.

NSG 562 Management of Adults I (2-3) Focuses on evidence-based clinical-decision making and management of common adult health problems, emphasizing episodic and acute concerns. Emphasizes concepts of health promotion and patient/family focuses care. Provides a theoretical and conceptual foundation for clinical decision-making and critical appraisal of data to determine diagnosis and comprehensive, cost-effective plan of care.

NSG 563 Management of Adults II (3) Focuses on evidence-based clinical-decision making and management of common adult health problems, emphasizing episodic and acute concerns. Emphasizes concepts of health promotion and patient/family focuses care. Provides a theoretical and conceptual foundation for clinical decision-making and critical appraisal of data to determine diagnosis and comprehensive, cost-effective plan of care. Offered: Sp.

NSG 564 Management of the Adult III (3) Focuses on evidence-based patient-centered care of older

adults with multiple chronic conditions across the continuum from outpatient to acutely or critically ill, including prevention and management of geriatric syndromes. Explores strategies for optimal transition across care settings and across the health continuum.

NSG 565 Primary Care Management Across the Lifespan (1) Clinical application of theories of health promotion and chronic disease management in complex patients across lifespan, utilizing evidence-based approaches to health promotion, assessment, differential diagnosis and disease management. Emphasizes clinical decision-making, considering the chronic care model, coordination of care, poly-drug therapy, and information systems. Prerequisite: NCLIN 518, which must be taken concurrently; permission of instructor. Credit/no-credit only. Offered: A.

NSG 566 Pediatric Pharmacology (1-2, max. 2) Focuses on clinical application of pharmacologic management in pediatric acute and chronic illnesses. Emphasizes pediatric pharmacotherapeutics including selection of therapeutic agents, indications, efficacy, therapeutic and adverse effects, monitoring parameters, and dosing principles. Includes didactic as well as case-based learning strategies. Offered: Sp.

NSG 567 Advanced Pharmacotherapeutics in Complex Case Management (1) Uses a case-based method to examine an evidence-based approach to pharmacotherapeutic management of complex chronic conditions across the lifespan. Incorporates examination of both pharmacologic factors and patient-related factors, such as age, socioeconomic status, and behavioral aspects that support the selection of commonly used drugs for patients of all ages across multiple settings. Prerequisite: PHARM 514; permission of instructor. Offered: A.

NSG 568 Infant Observation (1-, max. 4) *Susan J Spieker, Colleen O. Dillon* Includes observing an infant and parent in the first year of life and reflecting on observations. GCPAPN-IMH core course. Four quarter sequence begins each Autumn. Offered: AWSpS.

NSG 569 Pediatric Cardiac Anatomy, Physiology, Pathophysiology, and Management (2) Explores anatomy and physiology of the normal heart,

transition from fetal circulation, and pathophysiology of congenital and acquired cardiac conditions common in pediatric patients. Comprehensive care from diagnosis through medical and surgical management as well as appropriate follow-up care and potential long-term sequelae. Content appropriate for both primary and acute-care providers. Prerequisite: NCLIN 502 or permission of the instructor. Offered: S.

NSG 571 Theory and Science of Population Health Nursing (3) Covers foundational concepts, principles, and historical events related to population health. Examines the evolution and intersection of nursing and public health sciences as they shape contemporary nursing knowledge, competencies, practices, and roles. Considers multidisciplinary frameworks and perspectives to understand health needs and strategies for groups, communities, and populations. Offered: A.

NSG 572 Collaborating for Health Equity (3) Evaluates models and approaches to effective collaboration with communities and other stakeholders toward advancing health equity. Emphasizes application of cultural humility in working across sectors, leveraging existing assets and other resources, and developing collective impact. Develops approaches to build community and organizational capacity, rectify power asymmetries, and institutionalize supportive practices for sustainment. Prerequisite: NSG 571. Offered: A.

NSG 573 Systems Thinking for Population Health (3) Develops systems-level thinking with emphasis on identifying, analyzing, and addressing factors relevant to improving population health. Reviews theories focused on approaches and actions to affect change for the utilization and delivery of health promoting services. Emphasis on developing a theory of action and multicultural considerations to transform the health status of underserved and marginalized communities. Prerequisite: either EPI 511; NSG 572; and NMETH 536, or permission of instructor Offered: W.

NSG 574 Program Development and Evaluation to Improve Population Health (4) Steps in developing population health interventions and programs, including assessment, prioritization, planning, and evaluation. Appraise best practices and evidence to

inform the execution of strategies that improve health. Makes use of reliable data sources and stakeholder engagement, while considering ethical, political, and socio-cultural contexts. Prerequisite: either EPI 511, NSG 572, NMETH 536, or permission of instructor. Offered: W.

NSG 575 Leadership for Population Health (3) Analyzes and applies leadership literature and models for advanced nursing practice in population health. Explores skills in organizational strategic planning and change, with emphasis on roles and responsibilities in advocacy, workforce development, operational management of organizations, and professional ethics. Emphasis on transforming organizations, communities, systems, and other contexts to advance the health of all populations. Prerequisite: NSG 571, or permission of instructor. Offered: Sp.

NURSING (NURS)

NURS 201 Growth and Development through the Life Span (5-6) I&S Focuses on human growth and development throughout the life span. Emphasizes influence of growth and development theory and research on achievement of health and health promotional efforts directed toward persons of various ages and life styles. Optional service learning component. Open to nonmajors. Offered: AWS.

NURS 204 Learning Wellness: Healthy Ways to Respond to Stressful Student Life (3) Examines the intimate connections of body, mind, spirit, as well as how stress challenges personal health. Provides overview of methods that respond to stress in health-producing ways, including time management, making healthy choices, and practicing wellness. Discusses evidence for each method and provides experiential components. Credit/no-credit only.

NURS 205 Nursing as a Career in Contemporary Society (1) Introduces an accurate description of nursing career, educational requirements and rationale, including advanced degree career possibilities. Explores breadth of nursing roles in promoting health to individuals, groups, and populations. Links historical development with contemporary practice. Explores factors that promote student and professional success in nursing. Credit/no-credit only.

NURS 210 Science, Evidence and Health: Mastering Health Information and Personal Health Technologies (4/5) NW/I&S, DIV Provides foundations for becoming skilled consumers of health information and health technologies. Using current topics in health, students will learn to navigate the available health information, understand its quality, become familiar with personal health technologies, and link information learned to their health and the health of their communities. Offered: W.

NURS 215 Disaster Management, Risk Reduction, and Health (5) I&S Explores how disasters affect the health of individuals and populations both locally and globally. Covers common health problems associated with disasters and the health care provider's role during disasters. Topics include natural hazards, responses to disasters, communicable and non-communicable disease management, water, sanitation, and hygiene (WASH), nutrition, policy, and personal and community preparedness. Offered: Sp.

NURS 301 General Anatomy (4) NW Introduces the student to general human anatomy, examining both cellular and gross anatomy. The relationship between structure and function is a central focus of course content. Offered: jointly with B STR 301.

NURS 303 Foundations of Professional Nursing Practice (4) Exploration of the profession of nursing, including past and present work of nurses, the experience of being ill and seeking healthcare, and the U.S. healthcare system.

NURS 304 Foundations in Pharmacotherapeutics and Pathophysiology (4) Covers concepts of normal and pathophysiological responses to states of health and illness. Emphasizes the principles of pharmacology, drug therapy, pharmacologic-therapeutic classes of drugs, clinically important prototype drugs, and drug information resources. Nursing issues related to drug administration are discussed. Offered: A.

NURS 308 Human Responses II (3) Examines normal and pathophysiological responses to states of health and illness. Examines internal and external defense systems, balance and regulation of body systems, and integration of these concepts in the assessment and management of patient problems. Offered: W.

NURS 309 Pharmacotherapeutics in Nursing Practice I (-[2-3]) Emphasizes the principles of pharmacology, drug therapy, pharmacologic-therapeutic classes of drugs, clinically important prototype drugs, and drug information resources. Nursing issues related to drug administration are also discussed. First of a two-quarter sequence. Offered: A.

NURS 310 Pharmacotherapeutics in Nursing Practice II (-[2-3]) Emphasizes the principles of pharmacology, drug therapy, pharmacologic-therapeutic classes of drugs, clinically important prototype drugs, and drug information resources. Nursing issues related to drug administration are also discussed. Second of a two-quarter sequence. Offered: W.

NURS 401 Fundamentals of Nursing Practice for Illness Care I (6) Examines pathophysiological responses to illness. Introduces major concepts relevant to the experience of acute and chronic illness, including physiological, pathophysiological, behavioral and experimental human responses, assessment of functional health status and interdisciplinary therapeutics in common alteration across the lifespan. First of a two-quarter sequence. Offered: W.

NURS 404 Gerontological Nursing (2) Focuses on concepts and issues relevant to the nursing care of older adults across the care continuum. Major course themes include nursing assessment of the older adult, health promotion, patient safety, geriatric syndromes, gerontechnology and influence of payer systems on care for older adults. Prerequisite: NURS 310.

NURS 405 Fundamentals of Nursing Practice for Illness Care II (6) Examines pathophysiological responses to illness. Introduces major concepts relevant to the experience of acute and chronic illness, including physiological, pathophysiological, behavioral and experimental human responses, assessment of functional health status and interdisciplinary therapeutics in common alteration across the lifespan. Second course of a two-quarter sequence.

NURS 407 Culture, Diversity, and Nursing Practice (3) Analyzes the impact of cultural, social, and global factors on the health of multicultural and diverse

groups at the individual, population, and systems levels. Students gain knowledge and skills to effectively respond to the healthcare needs of multicultural societies through non-discriminatory and culturally appropriate nursing care practice. Offered: Sp.

NURS 410 Legal and Ethical Issues in Clinical Practice (3) Identification of ethical and legal issues and the ensuing dilemmas relevant to the profession of nursing and nurses as health professionals and citizens. Selected problems and dilemmas affecting nurses, nursing, and the delivery of healthcare analyzed using specific moral-ethical perspectives. Offered: AW.

NURS 412 Healthcare Systems (3) Introduction to healthcare systems with emphasis on the political economy of health; access to, utilization and quality of healthcare services; health inequities and the social determinants of health; health insurance and reimbursement; global health issues and innovations; leadership and teamwork; and community-engagement/activism to ensure the best health outcomes for all.

NURS 415 Nursing Care of Childbearing Families (3) Apply family and cultural competency concepts to nursing of childbearing families. Focus on family as context for care of individuals. Emphasizes use of physiological, psychological, developmental, cultural, and environmental concepts for health promotion, disease prevention, and nursing therapeutics. Uses current evidence-based research to guide best practices related to childbearing families. Offered: A.

NURS 417 Psychosocial Nursing in Health and Illness (4) Examines psychosocial disorders/issues of life transitions from integrated perspective of biological, social sciences, nursing, and humanities. Emphasizes utilizing psychosocial nursing and interpersonal therapeutics for assessment, intervention, health promotion with individuals/families/groups at risk for experiencing psychosocial disorders. Prerequisite: NCLIN 418, which may be taken concurrently.

NURS 419 Transition to Professional Practice (3-5) Focuses on critical examination, synthesis, and evaluation of professional nursing care. Emphasizes mastery, synthesis, and application of theory, research, and practice in relation to nursing

management, leadership, and nursing care of individual clients or groups of clients and populations. Offered: SpS.

NURS 420 Community and Public Health Nursing (3) DIV Community and public health nursing theory focused on populations. A synthesis of theory, practice, and research in relation to community/public health in informed by: 1) social justice framework, 2) social determinants of health, 3) community partnerships. and 4) culturally and linguistically appropriate population focused care. Theory class for NCLIN 420

NURS 425 Health Equity (3) This course focuses on understanding and addressing health inequities. Theoretical frameworks and the root causes for health disparity will be reviewed. Health inequities found among marginalized groups will be discussed. This course will also explore approaches, strategies and tools that can be used to address health inequity.

NURS 431 Child Health (2) Focuses on the core processes of growth and development from infancy to adolescence, highlighting the family as the context for care of individuals. Emphasizes use of physiological, psychological, developmental, cultural, and environmental theories for health promotion, disease prevention, and nursing therapeutics.

NURS 445 Special Topics in Nursing (1-10, max. 10) Guided seminar that focuses on selected professional nursing and patient care topics.

NURS 452 Care Coordination and Transition Management (3) Focuses on exploring the role, skills, and competencies related to care coordination and transition management across care continuum. Course themes include the role of the RN, models of care, evidence-based practice to support patient outcomes and cost savings, patient-centered care planning, collaboration and communication within and between settings/community, the role technology plays, and the structures for reimbursement for services. Prerequisite: NURS 412.

NURS 499 Special Electives (1-4, max. 15) Seminars on selected nursing issues of clinical problems, with independent study option, under supervision of nursing faculty. Credit/no-credit only. Offered: AWSpS.

NURS 500 Child Management II: Chronic Conditions

(3) *Kieckhefer, Magyary* Focuses on approaches to caring for children and adolescents with chronic physical, neurobiological, developmental, or psychosocial conditions. Emphasizes evidence-based, culturally-competent, family-centered, interdisciplinary, and comprehensive assessment, referral, management, and care-coordination strategies. Offered: S.

NURS 501 Child Mental Health Assessment and Interventions (3)

Developmentally based assessment and therapeutic approaches relevant for children with psychosocial health problems. Consideration to matching therapeutic approaches with specific nature of symptomatology and other child, family, cultural, and environmental characteristics, including social and educational systems. Individual and group evaluation research emphasized.

NURS 505 Selected Topics in Child, Family, and Population Health Nursing (2-10, max. 10)

In-depth exploration of the major theoretical issues in psychosocial nursing. Seminar with analysis and discussion of selected topics and readings and implications for research and healthcare. Offered: Sp.

NURS 507 Older Adult Mental Health Assessment and Intervention (2)

Examines the dynamics of mental health research and practice in normal, optimal, and pathological aging. Focuses on psychosocial and environmental influences on mental health of older adults. Topics include: models of aging, cognitive impairment, depression, severe mental illness, and successful strategies to enhance mental health in older adults.

NURS 509 Issues in Violence and Aggression for Health Professionals (3)

Focuses on research and theory of violent/aggressive behavior. Perspectives of victim, offender, family, community, society examined. Focus is recognition of violence against women. Designed to challenge students to clarify beliefs, values related to topics such as rape, homicide, domestic violence. Prerequisite: graduate nursing student or permission of instructor.

NURS 514 Physiologic Adaptations in Women and Children: Physiologic Adaptations During Pregnancy and Postpartum (1-3, max. 6) *Blackburn* Analyzes

the physiologic adaptations in the maternal-fetal-neonatal unit, fetal development, and developmental adaptations in children from infancy to adolescence. Implications of normal and altered physiologic functions for nursing practice and examination of the basis for selected nursing intervention strategies.

NURS 515 Common Adolescent Health Problems (2-3)

Focuses on assessment, clinical decision making, and management of common adolescent problems. Concepts and theories of health promotion, adolescent development, and intervention strategies are explored to provide a broad framework for caring for adolescents in primary settings.

NURS 517 Pediatric Pulmonary Anatomy, Physiology, and Pathophysiology: Clinical Applications (2)

Content includes normal pediatric lung development infancy through adolescence and explores evidence for diagnosis, management, and follow up of commonly encountered respiratory problems. Emphasizes coordination of care with multiple disciplines when diagnosing and treating children with special health care pulmonary needs and family centered care and professional leadership role. Prerequisite: permission of instructor. Offered: Sp.

NURS 518 Child Management I: Acute Conditions

(3) Focuses on use of clinical decision making framework to develop theoretically and empirically sound individualized management plans for the young child, with physical and behavioral symptoms of common pediatric illness, in the primary care setting. Prerequisite: PNP or FNP specialty, or permission of instructor.

NURS 520 Evaluation of Clinical Performance in Nursing (3)

For graduate students preparing for faculty or staff development positions in nursing. Theory and principles of evaluation. Instruments to appraise clinical nursing performance developed as part of course requirements. Prerequisite: graduate standing or permission of instructor.

NURS 524 Conceptual Foundations for Healthcare Systems: Organizational Structure and Effectiveness

(4) Examines the healthcare delivery system and systems of care within it, including evolution and structure of organized healthcare in the United States, key drivers of organizational effectiveness,

components of care systems, and Innovations in care system design and adoption. Explores use of various types of information technology to monitor and increase organizational effectiveness. Prerequisite: graduate standing. Offered: A.

NURS 525 Managing Quality Improvement, Access and Utilization (5) Care-system practices for managing quality and process improvement, access, and utilization within health care systems. Emphasis on managing care systems with a focus on leadership, healthcare access and resource utilization among diverse populations, reimbursement models and team-based strategies, and impacts on healthcare delivery from policy, leadership, and practical perspectives.

NURS 526 Managing Organizational Effectiveness Within Care Systems (3) Analysis of management strategies for attaining effective and efficient organizational structures and processes within healthcare systems. Prerequisite: NURS 524 or permission of instructor.

NURS 527 Managing Effective Access and Utilization Within Care Systems (3-4) In-depth inquiry into healthcare access and resource utilization patterns among diverse populations, with emphasis on management strategies for establishing effective population-system fit. Additional credit for exploring access and utilization patterns within specific populations.

NURS 529 Childhood Common Developmental and Behavior Issues (2) Focus on common developmental and behavioral issues presented by children and their families in primary care setting. Emphasis on the developmental, family, and cultural aspects of assessment and management of the common issues.

NURS 534 Aging and Health in Contemporary Society (3) Explores demographic, cultural, psychological, theoretical, political, and ethical context of aging and health in contemporary society. Content is based on empirical data and policy statements on aging. Analyzes healthcare delivery at an individual, community, and systems level to support optimal functioning across the health continuum for older adults. Offered: Sp.

NURS 535 Pharmacotherapeutics for Acute/Critical Illness (3) Analysis of issues that impact the assessment, prescription, and evaluation of pharmacotherapeutic regimens for patients with acute/critical illness or injury. Current evidence together with pharmacotherapeutic principles are considered within the clinical context as the basis for decision-making in acute/critical care clinical practice. Prerequisite: PHARM 514 or equivalent Offered: Sp.

NURS 537 Symptom Science and Patient-reported Outcomes Research (3) Focuses on research to understand symptom development and trajectories, design of interventions to prevent and treat symptoms and improve function and quality of life across diverse populations. Recommended: Graduate Student Offered: Sp.

NURS 539 Management of Patients with Acute/Critical Illness and Injury I (4) Systematic inquiry into pathophysiology and management of the acute/critically ill or injured across the lifespan. Emphasizes evidence-based assessment, management, and evaluation strategies, including therapeutics and use of technology to support care. Highlights advanced practice provider role and multidisciplinary approach to management. Offered: W.

NURS 540 Special Topics in Biobehavioral Nursing and Health Systems (1-6, max. 12) Guided seminar that focuses on selected biobehavioral and health system topics.

NURS 541 Sexual and Reproductive Healthcare (2/3) Examines advanced practice sexual and reproductive healthcare issues including health maintenance, contraceptive care, and diagnosis, and treatment of sexual and reproductive health problems across the lifespan. Prerequisite: permission of instructor. Offered: W.

NURS 542 Theoretical Foundations of Advanced Practice Nursing: Childbearing I (1-4, max. 4) Analyzes and applies concepts of advanced practice nursing/nurse-midwifery care, specific to the normal childbearing woman, during preconception, antepartum, intrapartum, and postpartum. Examines primary care management of pregnant client within the context of the individual, family, socio-cultural environment, and healthcare system.

NURS 543 Theoretical Foundations of Advanced Practice Nursing: Childbearing II (3) Analyzes and applies concepts of advanced practice nursing/nurse-midwifery care, specific to at-risk childbearing woman, during preconception, antepartum, intrapartum, and postpartum. Examines primary care management of at-risk pregnant client within the context of the individual, family, socio-cultural environment, and healthcare system.

NURS 546 Interpersonal Therapeutics in Advanced Psychiatric Mental Health Nursing: Current Perspectives (3) Selected theories in relation to psychosocial development and adaptation across life span for individuals, families, and small groups and as explanatory models of major psychosocial disabilities. General and psychosocial nursing models evaluated for heuristic value for research and practice. Prerequisite: graduate standing or permission of instructor.

NURS 547 Neuroscience Basis of Advanced Practice Psychiatric/Mental Health (4) Focuses on the role of the neuroendocrine system in the integration of genetic and environmental domains as these pertain to mental health/mental illness. Emphasis will be placed on mental health disorders as these occur across the lifespan. Current research on the role of gene-environment interactions will be addressed. Prerequisite: graduate standing in nursing or permission of instructor.

NURS 549 Assessment in Psychosocial Nursing (3) Conceptual and clinical approaches to advanced-level data collection and diagnostic reasoning in psychiatric/psychosocial disorders. Synthesizes knowledge from psychosocial nursing and multiple allied fields to enhance learners' cognizance of principles for establishing accurate and comprehensive data bases and sound multifaceted diagnostic formulations. Emphasizes DSM diagnostic scheme.

NURS 552 Wellness, Health Promotion, and Disease Prevention (3) Covers theoretical perspectives and evidence for wellness, health promotion, disease prevention, and risk reduction through the lifespan for advanced practice nursing. Examines issues impacting individual, family, population, and community health related to context and culture. Includes strategies for health promotion and

behavior change at individual, family, population, and community levels.

NURS 554 Management of Psychiatric Disorders: Adult and Adolescent (3) Focuses on advanced nursing management strategies for psychiatric disorders and primary mental health conditions. Emphasizes the synthesis and integration of scientific evidence to formulate psychiatric diagnoses, and select appropriate interventions for individuals, families, and communities. Measures outcomes through practice inquiry at both system and policy levels. Prerequisite: NURS 549.

NURS 557 Health, Culture, and Community (3)
Chrisman A multidisciplinary approach to the development of leadership in personal and organizational cultural competence in community-based participatory research. Emphasizes understanding collaborative assessment, planning, and evaluation of health promotion and disease prevention programs to address the social determinants of health at the population level. Offered: jointly with HSERV 576; W.

NURS 560 Dynamics of Community Health Practice (3) Analysis of principles of community health as applied to the delivery of clinical services in order to improve public health, reduce disparities, provide leadership in delivery of care, and synthesize one's clinical role with public health. Examines environmental, social, cultural, and behavioral determinants of health. Includes family, aggregates, and populations. Offered: jointly with HSERV 508.

NURS 561 Selected Topics in Comparative Nursing Care Systems (2/3, max. 10) In-depth examination of the literature pertinent to major theoretical issues in cross-cultural nursing and healthcare systems. Seminar with analysis and discussion of selected topics and readings. Implications for research and healthcare stressed.

NURS 562 Clinically Applied Anthropology (3) Anthropology as it relates to interdisciplinary delivery of culturally relevant healthcare. Cultural variation in illness beliefs and behavior, types of healing practices, illness prevention, social support networks. Prerequisite: graduate standing, permission of instructor. Offered: jointly with ANTH 562.

NURS 564 Biological Intervention in Advanced Practice Psychiatric/Mental Health Nursing (3-4)

Biological and pharmacological interventions pertinent to practice of psychosocial nursing, including psychopharmacology, electroconvulsive therapy, and phototherapy. Emphasis on empirical neuroendocrine bases and then nursing management issues pertaining to these interventions. Legal and ethical issues pertaining to advanced practice and putative neurological mechanism are examined. Prerequisite: NURS 547 or permission of instructor.

NURS 566 Work Stress and Health (3) Delineates our understanding of the relationship between work-related stressors and worker health. Theoretical models of job-stress are considered and methodological issues examined. Uses social justice framework to explore worker stress and health disparities in immigrants and other disadvantaged populations. Offered: Sp.

NURS 569 Management of Patients with Acute/Critical Illness and Injury II (2/3) Continuing inquiry into pathophysiology and management of the acute/critically ill or injured patient across the lifespan. Emphasizes evidence-based assessment, management, and evaluation strategies, including therapeutics and use of technology to support care. The advanced practice provider role and multidisciplinary approach to management are emphasized. Prerequisite: NURS 539 or permission of instructor.

NURS 573 Foundational Seminar in Advanced Practice Nursing (1) Explores specific advanced practice nursing roles and populations within the healthcare system. Links historical development and analysis of health care trends with contemporary specialty practice. Exploration of current issues and trends in the specialty. Credit/No Credit only. Prerequisite: Credit/no-credit only.

NURS 576 Assessment and Collaboration with Communities and Systems (3) Examines, critiques, and applies theory in assessing communities, populations, and systems cross-culturally. Focuses on advanced practice, executive leadership/policy, and practice inquiry; broad definition of community includes organizations. Emphasizes team work in assessment implementation, i.e., survey, interview, focus groups, observation/participant observation to

advance understanding of social determinants of health.

NURS 579 Transcultural Nursing Practices (3)

Seminars examine four decades of nursing practice literature and other disciplines related to appropriate and competent care of diverse and multicultural populations. Concepts and methods from anthropology and other behavior sciences are considered in relationship with current health practice guidelines. Graduate standing or instructor permission.

NURS 580 Current Issues in Occupational and Environmental Medicine (2, max. 12)

Interdisciplinary seminar on current and emerging topics in the practice of environmental and occupational health. Faculty- and student-led presentations with an interdisciplinary focus, including occupational hygiene, nursing, and medical issues. Prerequisite: environmental health graduate student, occupational health nursing student, or permission of instructor. Offered: jointly with ENV H 596; AWSp.

NURS 581 Global Health Nursing (3) Reviews global health topics and the complex local and global conditions that affect the health and illness of individuals, communities, and populations. Emphasizes the multi-faceted roles of health care providers. Offered: jointly with G H 574; A.

NURS 582 Culture, Society, and Genomics (3) B.

MCGRATH Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with ANTH 574/PHG 521; Sp.

NURS 583 Emotions and Mental Health: From Adversity to Adaptation (3-4) Betrus, Elmore

Provides an understanding of nature and function of emotions as well as relationship of emotion to mental health/illness. Emphasizes adversity arising from individual and community sources and its impact on emotional health. Addresses implications for interpersonal and social policy interventions.

NURS 584 Critical and Interdisciplinary Approach to Health Policy (3) Advanced seminar to critically

analyze various public health policies from a social justice framework.

NURS 587 Leadership Seminar (1, max. 3) Facilitates transition to successful doctoral study and future professional roles and serves to integrate content and experiences across core courses. Addresses leadership and future roles, cross-disciplinary teamwork, and scientific communication competencies. Topics include collaboration and facilitation, giving and receiving feedback, leadership and career development strategies to facilitate success in the doctoral program. Prerequisite: enrolled in PhD program in Nursing Science; recommended: PhD student in good standing. Credit/no-credit only. Offered: AWSp.

NURS 588 Philosophical Inquiry and Nursing Science (4) Focuses on the epistemological and ontological basis of forms of inquiry for generating knowledge in nursing. Emphasizes approaches to knowledge development as applied to phenomena in nursing. Includes critique of conceptual issues among schools of thought including but not limited to interpretive/postmodern, critical/feminist, and contemporary empiricist and how the philosophical underpinnings influence the generation of research questions. Prerequisite: matriculated student in PhD in Nursing Science Program. Offered: A.

NURS 589 Application of Theory and Evidence in Nursing Science (4) Addresses the role of theory in guiding scientific inquiry in nursing. Concept and theory development, analysis, and critique are examined as foundational to the scientific evidence that informs nursing inquiry, practice, and systems/contexts of health. Distinct approaches for synthesizing and representing knowledge about health phenomena are reviewed for their theoretical elements and contributions to the quality of evidence in nursing science. Prerequisite: NURS 588, or permission of instructor; recommended: matriculation in the PhD in Nursing Science Program Offered: W.

NURS 590 Ecology of Human Health (5) Provides conceptual foundation for the study of human health ecology within nursing science. Frameworks for understanding human health as an outcome of individual, family, and group interactions and transactions with environments are applied.

Provides the basis for evaluation and developing therapeutic approaches to improve health.

NURS 592 The Science of Therapeutics: Theoretical Foundations (4) Addresses the state of the science of nursing therapeutics. Students examine the practices of nursing to promote, maintain, and restore human health from an ecological perspective. Therapeutics considered from the perspectives of the individual, family, and community systems. Prerequisite: NURS 590 or equivalent with permission of instructor.

NURS 595 Synthesis of Nursing Science (3/4) Provides a forum for the development of a grant proposal in a focused area of nursing science including development of specific aims, background and significance, choosing a research design and method to answer research questions, choosing outcomes and measures, constructing the analysis plan, and addressing important human subject issues. Practice and participation in the peer review process via mock scientific reviews and written critiques. Prerequisite: completion of the year 1 core PhD curriculum; successful completion of preliminary examination. Credit/no-credit only. Offered: Sp.

NURS 597 Health in the Context of Culture (5-6, max. 24) Provides basic overview of health and healthcare challenges and opportunities in other countries. Examines socio-cultural, environmental, economic, political, and ecological factors that influence health, health promotion, illness, disability, and death. Address responses to health issues both within and outside the health sector. May include study abroad.

NURS 599 Selected Readings in Nursing Science (1-6, max. 18) Analysis of synthesis of selected readings with faculty mentor. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

NURS 610 Teaching Practicum (3, max. 6) Individualized project, under the direction of a faculty member, focused on issues of teaching/learning at the university level and designed to target specific teaching competencies enhancing the student's ability to make innovative contributions in teaching. Prerequisite: student in doctoral program; permission of faculty member Credit/no-credit only. Offered: AWSpS.

NURSING CLINICAL

NCLIN 301 Practicum: Health Assessment and Foundational Skills for Nursing Practice (6) Focuses on foundational nursing skills including health assessment, interviewing and communication, as well as psychomotor skills and critical thinking in the context of nursing care to individuals across the lifespan. Person-centered care and patient safety and are emphasized through use of simulation.

NCLIN 302 Practicum: Health Assessment (3) First in a series of clinical courses emphasizing beginning nursing skills. These skills will include health assessment of the individual and family, communication, and interviewing. Predominant themes include communication skills, physical and psychosocial assessment of the individual across the developmental life span. Offered: A.

NCLIN 306 Practicum: Foundational Skills for Professional Nurses ([1-3]-, max. 6) This laboratory-based course focuses on psychomotor skills and critical thinking in the context of nursing care to individuals across the lifespan. Patient safety and quality; person-centered care are emphasized through use of simulation. Prerequisite: NCLIN 302, which may be taken concurrently. Credit/no-credit only. Offered: AWSp.

NCLIN 403 Practicum: Pediatric Nursing (4) Provides supervised acute/chronic illness nursing care to pediatrics clients. Emphasizes beginning skills in systematic health and developmental assessment, including person/environment fit, basic competency in selected nursing therapies, and developing role as care agent for pediatrics clients and their families. Prerequisite: NURS 401, may be taken concurrently. Credit/no-credit only. Offered: WSp.

NCLIN 407 Practicum: Nursing Care of Ill Adults (5) Provides supervised nursing care to ill adults and their families. Emphasizes systematic assessment, including person/environment fit, developing competency in selected nursing therapies, and developing a role as a professional nurse. Prerequisite: NURS 401, which may be taken concurrently. Credit/no-credit only.

NCLIN 409 Population Health Through Community Health Nursing Partnerships (4) Analysis,

application, and evaluation of community partnership process for health. Analysis of nursing role in community/public health, including community building, collaboration, policy. Development and formulation of community interventions to maintain/promote biopsychosocial health, and to promote health/prevention of injury and disease. Credit/no-credit only.

NCLIN 411 Transition to Clinical Practice (7) Capstone clinical in a specialty focusing on critical examination, synthesis, and evaluation of professional nursing care. Client populations include individuals and/or groups reflecting diverse settings, ages, and ethnic communities. Emphasis on mastering theoretical concepts, applying theory and research findings, improving skill competency, and developing leadership capabilities in the clinical setting. Credit/no-credit only.

NCLIN 416 Practicum: Care of Childbearing Families (2) Provides the opportunity for supervised nursing of childbearing families and individuals. Emphasizes expanding nursing process skills, especially health promotion, with individuals and families during childbearing. Prerequisite: NURS 415, which may be taken concurrently. Credit/no-credit only. Offered: WSp.

NCLIN 418 Practicum: Psychosocial Nursing (3-4) Provides supervised psychosocial nursing care to individuals/families/groups/communities with threats to or alterations in psychosocial health. Emphasizes increasing skill in systematic assessment, developing competency in selected psychosocial nursing interventions, and evaluation of treatment outcomes. Credit/no-credit only. Offered: AW.

NCLIN 422 Practicum: Ambulatory Care (3) Provides opportunity for simulated and supervised nursing of individuals in a variety of ambulatory care settings. Discussion of organization of ambulatory care within the health care system and role of professional nursing. Emphasizes concepts of episodic care, triage, health promotion and education, interdisciplinary communication, care coordination, and resource and environmental management. Prerequisite: NCLIN 407. Offered: A.

NCLIN 475 Foundations of Interprofessional Practice ([0-1]-, max. 3) Team-based training in healthcare team functioning for professional nursing

students. Students work and co-learn with other health sciences students in applying knowledge of evidence-based practice, quality improvement principles, and informatics to patient-centered care situations. The course will provide careful attention to development of intra- and interprofessional roles and professional identity. Credit/no-credit only. Offered: AWSp.

NCLIN 490 Special Laboratory Elective (1-4, max. 4)

Provides supervised laboratory experience to enhance and document clinical skills and decision making. Prerequisite: permission of instructor. Credit/no-credit only.

NCLIN 499 Clinical Practicum Elective (1-5)

Provides opportunities to develop nursing skills in the care of individuals, groups, communities, or care-systems. Individually arranged with faculty member for application of theory and principles to direct care, consultation, education, or care coordinator roles. Prerequisite: NCLIN 302; NCLIN 306; NCLIN 402; NCLIN 406.

NCLIN 500 Comprehensive Health Assessment (3)

Uses didactic and experimental learning to develop evidence-informed advanced assessment skills including systematic collection, organization, interpretation, and communication of data reflecting the health status of adolescents/adults/older adults. Emphasizes a holistic analysis of developmental, familial, physiological, psychosocial, occupational, environmental, functional, nutritional, and cultural aspects of health. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWS.

NCLIN 501 Diagnostic Health Assessment (1-5, max. 5)

Examines evidence-informed clinical decision-making in the advanced assessment of symptoms experienced by adolescents/adults/older adults. Uses didactic and experimental learning in the systematic collection, integration, analysis, interpretation, and communication of focuses subjective and objective data, including formulation of diagnostic hypotheses. Prerequisite: NCLIN 500, which may be taken concurrently. Credit/no-credit only. Offered: AWS.

NCLIN 502 Pediatric Diagnostic Health Assessment ([1-4]-, max. 4)

Uses didactic and experimental learning to develop evidence informed advanced assessment skills including systematic collection,

organization, interpretation, integration, and communication of data reflecting health status of children from birth to adolescence. Emphasizes holistic analysis of development, familial, physiological, psychosocial, environmental, functional, nutritional, and cultural aspects of health. Prerequisite: permission of instructor. Credit/no-credit only. Offered: A.

NCLIN 503 Advanced Fieldwork Community Health Nursing (2-6, max. 12)

Guided experience in delineating nursing roles in community settings. Development of a philosophy of community health nursing. Application of core concepts pertaining to health, ethics, care, and community. A minimum of four hours of guided experience weekly. Prerequisite: graduate standing and permission of instructor.

NCLIN 505 Diagnostic Management and Decision Making (2-5)

P. CHRISTIANSON Examines diagnostics pertinent to adult and geriatric illnesses from individual and population perspectives in the context of evidence, risk/benefits, equity, cost, access and care quality. Case analyses integrate health assessment and differential diagnoses into selection of appropriate tests. Includes didactic and laboratory/simulation components. Prerequisite: NCLIN 501 or equivalent. Offered: W.

NCLIN 508 Seminar in Group Treatment (1)

Seminar on the theoretical basis for working with various treatment groups. Analysis of selected approaches to group treatment. Analysis of leader responsibilities and functions in the development of therapeutic group experiences.

NCLIN 510 Group Work with High-Risk Youth (3-6, max. 6)

Theory and application course in group counseling for high-risk youth. Central theme is group leader effectiveness in helping young people increase school performance, decrease drug involvement, and increase emotional well-being. Open to graduate students in nursing, education, and related human services professions.

NCLIN 511 Introduction to Perinatal Care for Advanced Practice (1)

Provides an introduction to women's health and prenatal care visit structure, documentation, and skill development necessary to be successful in advanced practice clinical practicum. Both didactic and experiential learning will be used

to prepare students for the systematic collection of subjective and objective data and clinical decision-making in the clinical setting. Intended for NM and PNS students. Prerequisite: permission of track lead. Credit/no-credit only. Offered: W.

NCLIN 512 Advanced Practicum in Family and Child Nursing I (2-12, max. 35) Clinical seminar and practicum provide opportunities to develop advanced nursing practice competencies in the care of women, families, children, and/or adolescents. Focuses on the application of theory and principles when providing direct patient care, patient education, and the collaboration of care with individuals and/or groups. Credit/no-credit only.

NCLIN 514 Seminar in Home Care for Chronic Illness (3) Home-care services as component of community health nursing. Understanding effects of direct nursing functions on care of chronically ill persons and their families. Selected field study experiences in community health settings. Prerequisite: NURS 563, graduate standing, and permission of instructor.

NCLIN 516 Advanced Clinical Practicum I (4-5) Clinical practicum and seminar providing opportunities to develop advanced nursing practice competencies with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals and groups. Credit/no-credit only. Offered: Sp.

NCLIN 517 Advanced Clinical Practicum II (5-7) Clinical practicum and seminar providing opportunities to develop advanced nursing practice competencies with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals, groups, and systems. Credit/no-credit only. Offered: S.

NCLIN 518 Advanced Clinical Practicum III (5-7) Clinical practicum and seminar providing opportunities to develop advanced nursing practice competencies with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals, groups, and systems. Credit/no-credit only. Offered: A.

NCLIN 519 Newborn Assessment for Advanced Practice (1) Credit/no-credit only.

NCLIN 520 Clinical Reasoning and Assessment Across the Lifespan (2) Provides the framework to begin evidence-informed clinical decision-making in the advanced assessment of patients across the lifespan. Includes didactic and experiential learning in systematic collection, integration, analysis, interpretation, and communication of focused subjective and objective data, including formulation of diagnostic hypotheses. Emphasizes a holistic approach. Credit/no-credit only. Offered: A.

NCLIN 521 Diagnostic Decision Making and Clinical Skills Laboratory (2) Designed to enhance student's knowledge, performance, and interpretation of various diagnostic tests and clinical procedures in multiple settings. Includes skills across the age span. Skill demonstration and validation occur in the lab classroom. Co-requisite: NCLIN 516; permission of instructor. Credit/no-credit only.

NCLIN 532 Advanced Practice in Community Health Systems Nursing: Overview (3) Seminar and practicum focusing on evidence-based approaches to community health systems nursing, integration and application of theories, and content related to social determinants of health and social justice. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: A.

NCLIN 533 Advanced Practice in Community Health Systems Nursing: Culture (3) Seminar and practicum focusing on evidence-based approaches to community health systems nursing, integration and application of theories, and content related to cultural issues affecting the health of individuals, populations, and communities. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: W.

NCLIN 534 Advanced Practice in Community Health Systems Nursing: Assessment (3) Seminar and practicum focusing on evidence-based approaches to community health-systems nursing. Includes integration and application of theories and content related to the assessment and appraisal of communities and populations. Emphasizes the development of advanced practice, leadership, and

practice inquiry competence. Credit/no-credit only. Offered: Sp.

NCLIN 535 Advanced Practice in Community Health Systems Nursing: Policy (4) Seminar and practicum focusing on evidence-based approaches to community health-systems nursing. Includes integration and application of theories and content related to health-related organizational and public policy that promotes health equity. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: A.

NCLIN 536 Advanced Practice in Community Health Systems Nursing: Health Systems (4) Seminar and practicum focusing on evidence-based approaches to community health-systems nursing. Includes integration and application of theories and content related to systems-level models of practice to service delivery among communities and populations. Emphasizes the development of advanced practice, leadership, and practice inquiry competence. Credit/no-credit only. Offered: W.

NCLIN 540 Infant Mental Health Practice: Parent Child Relationships and Intervention ([3-6]-, max. 18) Focuses on reflective practice, relationship-based consultation, and therapeutic interventions with infants/toddlers and caregivers. Students complete required clinical practicum at assigned community sites for three quarters. Prerequisite: admission to Infant Mental Health certificate program. Credit/no-credit only. Offered: AWSp.

NCLIN 541 Advanced Practice Specialist Clinical Practicum (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Emphasis is on specialization and role development. Prerequisite: permission of instructor. Credit/no-credit only.

NCLIN 542 Advanced Practice Specialist Clinical Practicum II (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Fieldwork emphasizes greater depth/complexity/independence in specialization and role development. Seminars emphasize critical analysis of role-related issues.

Capstone experience for clinical practicum. Prerequisite: NCLIN 541. Credit/no-credit only.

NCLIN 543 Advanced Practice Specialist Clinical Practicum III (1-10, max. 10) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Role development within specialty context. Emphasis is on critical analysis of leadership-related issues. For students in final clinical, serves as capstone. Prerequisite: NCLIN 542. Credit/no-credit only.

NCLIN 544 Advanced Practice Specialist Clinical Practicum IV (1-10, max. 20) Apply, synthesize, evaluate, and communicate knowledge about a specific domain of advanced medical/surgical or forensics nursing practice. Fieldwork serves as capstone experience. Seminar emphasis is on consultation and collaboration. Prerequisite: NCLIN 543. Credit/no-credit only.

NCLIN 549 Nurse Practitioner Clinical Practicum I: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced nursing practice with individual/groups. Students practice under clinical preceptor supervision. Focuses on data collection/critical thinking related to health status and threats to health, incorporating knowledge from the biological, behavioral, and social sciences. Prerequisite: permission of instructor, or NCLIN 501 or equivalent. Credit/no-credit only.

NCLIN 550 Nurse Practitioner Clinical Practicum II: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced practice nursing. Builds on NCLIN 549, emphasizing critical thinking related to the differential diagnosis/management of health problems and human responses. Students practice under clinical preceptor supervision. Addresses selected role issues in advanced practice nursing. Prerequisite: NCLIN 549 or permission of instructor. Credit/no-credit only.

NCLIN 551 Advanced Practice Nursing Clinical Practicum III: Adults/Older Adults (1-10, max. 10) Clinical fieldwork and seminar in advanced practice nursing. Builds on NCLIN 550, emphasizing the integration and application of previous learning in the care of people with multiple health problems. Students practice under preceptor supervision. Addresses selected role issues in advanced practice

nursing. Prerequisite: NCLIN 550 or permission of instructor. Credit/no-credit only.

NCLIN 552 Nurse Practitioner Clinical Practicum IV: Adults/Older Adults (1-10, max. 10) Intensive clinical experience in which students integrate previous learning to assume responsibility for care of older adults and/or adults with multiple health problems. Students practice as an advanced practice nurse supervised by a preceptor, assuming increasing responsibility for planning/implementing therapies and for documenting/evaluating outcomes. Prerequisite: NCLIN 551. Credit/no-credit only.

NCLIN 562 Professional Interpersonal Styles of Communication with Families to Enhance Health Outcomes (3) Complex communication processes evaluated and applied to the family as unit of interaction within interdisciplinary context. Empirical based communication practices analyzed considering family variables adherence, satisfaction, health outcomes, and cost effectiveness. Engagement in experiential learning through challenging clinical scenarios. Emphasizes cultural competencies. Prerequisite: DNP nursing student or permission of instructor. Credit/no-credit only.

NCLIN 567 Advanced Practice Clinical Practicum (1-6, max. 22) Practicum used to expand, deepen, or enrich advanced practice skills relevant to area of specialty preparation. Uses clinical activities to reflect an integration of advanced practice, leadership, and practice inquiry. Emphasizes self-directed learning, in-depth clinical skill building and decision-making, continuity of care, and inter professional collaboration. Prerequisite: permission of instructor. Credit/no-credit only.

NCLIN 599 Independent Study Clinical Practicum (1-12, max. 25) Clinical practicum to develop advanced practice nursing skills in care of individuals, groups, communities, or care systems. Individually arranged with faculty member for application of theory and principles to direct care, consultation, education, or care coordinator roles. Prerequisite: matriculated MN, DNP students, or post-master's student, and permission of academic adviser and instructor. Credit/no-credit only. Offered: AWSpS.

NCLIN 798 Tripartite Immersion Practicum ([1-5]-, max. 5) Practicum to synthesize and expand

knowledge and skills in application of tripartite role of advanced practice, inquiry, and leadership. Analysis of practice issues including reflective practice, collaboration, health systems, technology, ethics, and policy. Prerequisite: permission of instructor and Supervisory Committee. Credit/no-credit only.

NCLIN 801 Advanced Clinical Practicum Immersion (6-9) Immersion clinical practicum and seminar providing opportunities to integrate advanced nursing practice competencies, leadership, professional role, and collaboration with targeted populations. Focuses on the application of theory and principles when providing care, education, and collaboration with individuals, groups, and systems. Credit/no-credit only. Offered: AW.

NURSING METHODS

NMETH 403 Introduction to Research in Nursing (1/3, max. 3) Introduction to concepts and processes of research used in investigating nursing problems.

NMETH 416 Methods for Research and Inquiry in Nursing I (2) Explores the generation of new knowledge and evidence base for nursing practice in health and illness. Focuses on appraising literature and methods for generating evidence. Offered: A.

NMETH 417 Methods for Research and Inquiry in Nursing II (2) Explores the generation of new knowledge and evidence base for nursing practice in health and illness. Focuses on searching evidence, appraising evidence, and classifying different types/levels of evidence. Offered: W.

NMETH 418 Methods for Research and Inquiry in Nursing III (2) Explores the generation of new knowledge and evidence base for nursing practice in health and illness. Focuses on identifying gaps in the literature/evidence, and formulating a plan to conduct research. Offered: Sp.

NMETH 419 Application of Methods for Research and Inquiry in Nursing (2) Apply methods for contributing to evidence relevant to nursing. In small groups identify, implement, and disseminate a plan for generating, evaluating, synthesizing, or translating evidence around health, healthcare, and/or nursing practice. Offered: Sp.

NMETH 450 Informatics, Patient Safety, and Quality Improvement (4) Explores concepts of the patient safety, quality and cost-effectiveness of health care, root cause analysis, and use of information technologies that promote quality and safety. Culminates in the design, implementation and evaluation of a small test of change with presentation of findings. Prerequisite: NMETH 403 or ABSN status; recommended: NMETH 403 ABSN status

NMETH 499 Undergraduate Research (1-5, max. 12) Supervised individual scholarly inquiry on a specific nursing problem. Credit/no-credit only.

NMETH 520 Scholarly Inquiry for Clinical Informatics Practice (5) Evaluation of completed research for scientific adequacy and applicability to clinical informatics practice. The student applies conceptual, theoretical, ethical, and empirical knowledge as a basis for posing clinical informatics research questions, identifying research designs, selecting sampling and data collection strategies and proposing analytic methods to answer a research question. Offered: Sp.

NMETH 522 Data Management for Research Professionals (4) Surveys industrial strength data management, using techniques applicable to multi-center, longitudinal research trials with survey instruments. Involves challenges research professionals face as they graduate from a student project to a study with hundreds of cases, variables, multiple survey instruments and a staggered, repeated sampling protocol. Credit/no-credit only.

NMETH 523 Project Management and System Analysis for Health Informatics (3) Application of methods of inquiry to develop a scholarly proposal through faculty-guided individual composition. Students select the project topic and complete the conceptual phase of proposal development to fulfill their project plan. Offered: A.

NMETH 524 Healthcare Information Systems and the Electronic Health Records (3) Overview and analysis of healthcare informatics issues, including patient safety and Information Technology (IT), infrastructure, clinical systems, definitions and functions of EHR systems, IT leadership in healthcare organizations, informatics change management,

including key user roles evaluating EHR and workflow changes. Offered: A.

NMETH 526 Patient-Centered Technologies (3) Current and emerging consumer-centric eHealth technologies. Theories and principles of health, communication, information, cognitive processing, and human-technology interaction. Experts from multiple disciplines and patient/consumers lead seminar presentations and discussions on select topics. Addresses ethical implications of these tools, including health disparities. Offered: Sp.

NMETH 527 Introduction to Clinical Informatics (3) Overview of the history, current efforts, and future challenges in designing, developing, and implementing information and communication technologies for healthcare. Examines how these technologies fulfill the Quadruple Aim: enhancing the patient experience, improving population health, reducing the overall cost of care, and improving the work life of health care providers. Offered: A.

NMETH 528 Computing Fundamentals for Health Professionals (3) Survey of applied computing concepts, including computer algorithms, operating systems, networking, databases, digital privacy and security, applied programming principles to enhance productivity, and data science opportunities and pitfalls in healthcare. Offered: W.

NMETH 529 Database Concepts and Applications in Clinical Informatics (3) Introduction to relational database theory and technology from a clinical informatics perspective. Focuses on transactional database theory, architecture, and implementation in a socio-technical context and analyzes database applications used in clinical environments. Introduces knowledge bases and data warehouses. Prerequisite: NMETH 528. Offered: Sp.

NMETH 530 Scholarly Proposal Development (3) Application of methods of inquiry to develop a scholarly proposal through faculty-guided individual composition. Students select the project topic and complete the conceptual phase of proposal development to fulfill their project plan. Prerequisite: NMETH 520. Offered: S.

NMETH 533 Appraisal and Translation of Evidence for Practice (5) Designed to enhance use of methods to critically appraise literature, design, and

implement processes to evaluate outcomes of practice, and promote patient-centered care. Applies relevant findings to improve practice, develop guidelines, and use information technology and research methods. Includes dissemination of findings. Prerequisite: either NMETH 535 or permission of instructor.

NMETH 535 Nursing Inquiry to Support Evidence-Based Practice (4) Works to understand and apply conceptual, ethical, and practical aspects of quantitative and qualitative research methods by design, sampling, data collection, measurement, and analysis, as a basis for evaluating and generating evidence for nursing practice. Develops skills in data management and statistical analysis to utilize in practice-based inquiry. Prerequisite: either NGS 555 or permission of instructor.

NMETH 536 Methods of Program Evaluation and Quality Improvement (4) Teaches principles and practice of program evaluation and quality assurance. Emphasizes current practices in designing, managing, evaluating, and disseminating finding for use in a variety of healthcare contexts. Includes content on use of informatics to improve healthcare delivery effectiveness, efficiency, and safety. Prerequisite: either NMETH 535, which may be taken concurrently, or permission of instructor. Instructors: Jarrett, Walsh

NMETH 570 Seminar in Clinical Research in Nursing (3) Philosophy, problems of design; use of criterion measures in terms of patient care.

NMETH 575 Methodological Issues in Family Research (3) Emphasizes research with the family as unit of analysis. Examines patterns of family functioning in relation to responses to heal situations. Reviews family units from generational and intergenerational perspectives. Critiques methods assessing dyadic and triadic relationships and therapeutic interventions on family outcomes. Prerequisite: permission of instructor.

NMETH 579 Quantitative Research Methods (5) Provides the foundation for appraising and designing quantitative research (non-experimental, quasi-experimental, and experimental), including research questions, hypothesis testing, methodological and analytic approaches for nursing and health-related sciences. Prerequisite: matriculated student in PhD

Nursing Science Program; recommended: epidemiology; and Advanced Nursing Science via Scholarly Inquiry, Translational methods. Offered: Sp.

NMETH 580 Methodological Perspectives in Nursing Inquiry (3) Allows students to translate philosophical and theoretical perspectives into research methodologies. Foci include the relationship of theoretical perspectives to methodologies; the methodological issues among and between varying schools of thought such as interpretive/postmodern, critical/feminist, and contemporary empiricist; and how the methodologies influence choices of research design and methods. Prerequisite: NURS 588 or permission of instructor.

NMETH 581 Observational Research Methods (2-6, max. 6) Examines observational methods for conducting verbal and nonverbal behavioral research. Emphasizes critical analysis and rigor in research question formulation, measurement decisions, coding scheme development, data collection, and analysis and interpretation of data. In-depth application of observational method optional. Prerequisite: graduate standing and basic research methods course or permission of instructor. Offered: W.

NMETH 583 Advanced Qualitative Research Methods (4) Advanced seminar and practicum focused on study design, analysis, and dissemination within a selected interpretive tradition. Demonstration of a selected research strategy and method is required. Prerequisite: prior introductory course about qualitative research; and completion of a pre-course survey to determine course preparation.

NMETH 584 Methods: Physiologic Measures (4) Exploration of the measurement of physiologic functioning in human and animal models. Examples include biochemical and biophysical measure. Students develop beginning skills with one physiologic measure. Prerequisite: physiology and chemistry and permission of instructor.

NMETH 588 Mixed Methods Research for Health Sciences (4) Focuses on understanding research designs that combine qualitative and quantitative data collection, analysis and integration to answer critical healthcare questions. Includes application of

analysis and synthesis of selected design approaches using real data. Prerequisite: graduate student standing. Foundational graduate level quantitative and qualitative research courses. Permission of instructor. Offered: A.

NMETH 590 Special Topics in Nursing Research (2-5, max. 9) Examination of a specific research method, with evaluation of appropriateness, efficiency, rigor of measurement, and potential for inference for nursing research. Prerequisite: minimum of 5 credits of basic nursing research methodology at graduate level and permission of instructor.

NMETH 591 The Science of Therapeutics: Design and Outcomes (4) Synthesizes advanced strategies to evaluate the short- and long-term outcomes of clinical therapeutics with special emphasis on feasibility, pilot studies, and randomized control trials. Includes analysis of completed studies as well as the design of a randomized control trial of a clinical therapeutic. Prerequisite: NMETH 579, NURS 592, or permission of instructor.

NMETH 592 Clinical Outcome Research II (2-4, max. 4) Application and evaluation of philosophical, methodological, and analytical concepts and issues examined in NMETH 591. Two modules are offered: a) case study and small-n studies and b) large-n studies. Students demonstrate application of decision-making process involved in development of clinical outcome study. Prerequisite: permission of instructor.

NMETH 594 Innovations in Health Systems Delivery: Implementation and Measurement (3) Overview of T3/T4 research focusing on translation of effective interventions into practice and the community. Innovations in health services research including frameworks, appropriate study designs, methods, modalities, strategies and tools (formative, implementation, dissemination and communication) . Introduces basic cost/comparative effectiveness. Prerequisite: graduate standing. Offered: W, odd years.

NMETH 595 Designing a Theory-Driven Behavioral Intervention (3) Focuses on design and development of a theory- and population-informed behavioral intervention to enhance health behavior and outcomes. Examines selected theories of health behavior, including potential contribution to framing

a behavioral intervention. Analytical process of "fitting" a theory onto an observed health related problem in a specific population is included as well as research designs and methods to evaluate interventions. Prerequisite: NURS 589 (or equivalent) , or permission of instructor; recommended: graduate-level standing.

NMETH 596 Application of Methods in Conduct of Research (5) Develops knowledge and skills related to practical implementation of research projects for PhD students. Areas include protocol development, IRB procedures and applications, standard operating procedures, data management, study staff composition, community advisory boards, budget management, and study oversight. Prerequisite: graduate standing in Nursing, or permission of instructor. Offered: Sp.

NMETH 598 Special Projects ([1-12]-, max. 12) Fulfills the requirements of the non-thesis option for Master's students in nursing. Projects involve scholarly inquiry with in-depth focused analysis, culminating in a written product/report for dissemination. Prerequisite: NMETH 520 or permission of instructor. Credit/no-credit only.

NMETH 600 Independent Study or Research (*-) Credit/no-credit only.

NMETH 610 Research Practicum (2-4, max. 8) Hands-on, practical experience as a member of a research team, supervised by graduate faculty in Nursing or related disciplines. Students will participate in team meetings, complete reflection assignments, and contribute to study activities. Possible areas of contribution include subject recruitment and screening; instrument development; data collection, management or analysis, interpretation of results; and dissemination or report writing. Prerequisite: PhD students in Nursing Science. Credit/no-credit only. Offered: AWSpS.

NMETH 700 Master's Thesis (*-) Credit/no-credit only.

NMETH 800 Doctoral Dissertation (*-) Prerequisite: permission of Supervisory Committee chairperson or Graduate Program Coordinator. Credit/no-credit only.

NMETH 801 Practice Doctorate Project (3-, max. 6)

Addresses a clinical or systems problem using an evidence-based, practice relevant approach.

Students engage in self-reflection, collaborative partnership building, and use of leadership

strategies. Analyzes implications of project for future practice and practice inquiry activities. Culminates in written and oral reports for dissemination.

Recommended: Student in final year of program

Credit/no-credit only. Offered: AW.

SCHOOL OF PHARMACY

MEDICINAL CHEMISTRY

MEDCH 327 The Science of Drugs (3) NW Libin Xu

Introduces students to medicinal chemistry and pharmaceutical sciences. Recommended for sophomore, junior and senior students majoring in chemistry, biochemistry, bioengineering, chemical engineering, public health and other health sciences, and related fields. Prerequisite: either CHEM 223, CHEM 237, or CHEM 335; recommended: basic knowledge in general chemistry and organic chemistry. Offered: jointly with PCEUT 327; Sp.

MEDCH 495 Special Studies in Medicinal Chemistry

(* , max. 6) Opportunity to expand the breadth and depth of understanding in specific areas.

Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

MEDCH 499 Independent Study/Research (* , max. 24)

Research problems in medicinal chemistry.

Prerequisite: cumulative GPA of 2.50 and permission of instructor. Offered: AWSpS.

MEDCH 500 Fundamental Medicinal Chemistry (2)

Provides pharmacy students a working knowledge of different aspects of chemical and physical properties of drugs, such as chemical bonds, functional groups, acid and base properties, stereochemistry, ADME properties, and organic transformations in drug actions and metabolism. Recommended: completion of undergraduate organic chemistry series. Offered: A.

MEDCH 501 Medicinal Biochemistry (3) Abhinav Nath

Provides a working knowledge of biochemistry directly related to understanding disease and drug therapy in pharmacy practice. Areas of study include drug metabolism, principles of enzyme kinetics and receptor theory, signal transduction, lipids and membrane transport, structure and function of antibodies, and regulation of protein expression and modification. Recommended: completion of undergraduate biochemistry series. Offered: W.

MEDCH 520 Seminar (1, max. 30) Qingcheng Mao

Graduate students attend seminars and make one formal presentation per year while in residence;

maximum of three presentations. Credit/no-credit only. Offered: jointly with PCEUT 520.

MEDCH 521 Advanced Medicinal Chemistry (3)

Application of integrated data from the physical and biological sciences to problems of chemotherapy, including transport of drugs to site of action, biotransformation of drugs, interaction of drugs with enzyme systems, and recent advances in drug design. Prerequisite: CHEM 457, CHEM 531, and BIOC 442, or permission of instructor. Instructors: Atkins, Nelson Offered: Sp.

MEDCH 527 Drug Metabolism (4) A. RETTIE, K. THUMMEL

Considerations of the biochemical mechanisms for the biotransformation of drugs and foreign compounds. Includes reaction mechanisms, ultrastructural considerations, induction mechanisms, methodology, kinetics of inhibition and activation, steroid and amine metabolism. Offered: jointly with PHCOL 527; W, odd years.

MEDCH 528 Biophysical Enzymology and Biopharmaceuticals (2) Atkins, Catalano

Covers in-depth treatment of chemical catalysis and transition state theory as related to enzyme mechanisms; thermodynamics and kinetics of protein-ligand interactions, protein-protein-interactions and protein-lipid interactions, and methods for their study. Discusses therapeutically relevant examples, including viruses, therapeutic antibodies, and drug targets. Offered: W, even years.

MEDCH 529 Advanced Medicinal Chemistry (4)

Atkins, Kunze, Nelson, Rettie, Totah Covers the fundamental aspects of contemporary medicinal chemistry. Discusses the chemical characteristics of drugs and drug targets, pharmaceutical properties of drugs, drug metabolism, toxicology, and pharmacogenetics. Focuses on various drug classes; their biochemistry, pharmacology, mechanism of action, and toxicology. Offered: W.

MEDCH 530 Integrated Pharmacology (1) Atkins, Beavo, Rettie

Students present and discuss primary literature that integrates aspects of medicinal chemistry and pharmacokinetics with the physiology, pharmacology, and genetics of therapeutic drug

targets. Examples of targets discussed include ion channels and enzymes relevant to cardiovascular disease, and neurodegenerative disease. Credit/no-credit only. Offered: Sp.

MEDCH 531 Laboratory Methods in Protein Therapeutics (3) Hands-on experience with laboratory methods and data analysis used to characterize biophysical properties of therapeutic antibodies. Students measure functional protein interactions and stability of constructs currently used for anti-body-based therapeutics. Background lectures from industry and government scientists highlight the role of these analyses in development of protein-based therapeutics.

MEDCH 532 Chemical and Molecular Pharmacology I: Autonomic and Cardiovascular Drugs (5) Chemical and molecular properties of drugs, their mechanism of action, and adverse effects. Drugs that act on the autonomic nervous system, used to treat endocrine disorders and pathologic conditions that disrupt pulmonary or cardiovascular function, including diabetes and dyslipidemia. Prerequisite: MEDCH 500 and MEDCH 501. Offered: A.

MEDCH 533 Chemical and Molecular Pharmacology II: Blood, CNS, Endocrine and GI Drugs (4) Chemical and molecular properties of drugs, their mechanism of action and adverse effects. Focuses on drugs that act on the blood, in the brain, and are used to treat hematological disorders, inflammation, pathologic conditions that disrupt central nervous system function, and gastrointestinal disorders. Prerequisite: MEDCH 500 and MEDCH 501. Offered: W.

MEDCH 535 Diagnostic Medicinal Chemistry (3) *Catalano, Kunze* Examination of clinical diagnostic tests with regard to the chemical or biochemical rationale of the testing method, interpretation of test results, and major factors influencing test values with special emphasis on the effects of medications. Clinical laboratory data from patients considered in light of these factors. Offered: W.

MEDCH 541 Biological Mass Spectrometry (3) Covers the basics of modern ionization methods and mass analyzers; small molecule structure assignment, quantitative assay development by LC-MS and metabolomics; quantitative discovery-based proteomics and validation methods; and peptide

sequence determination, post-translational modification mapping, and protein structure determination methods. Prerequisite: permission of instructor. Instructors: Whittington Offered: Sp.

MEDCH 551 Flavin and Heme-Containing Monooxygenases (1) Discussion of research strategies and methodologies concerning the structure, function, and polymorphic expression of human monooxygenases, especially the cytochrome P450s and flavin-containing monooxygenases. Emphasis placed on experimental problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Rettie Credit/no-credit only. Offered: AWSpS.

MEDCH 552 Medicinal Chemistry Aspects of Drug Action and Drug Metabolism (1) Discussion of research strategies, methodologies, and literature concerning the mechanisms of drug action and drug metabolism, particularly as these apply to opiate drugs and beta blockers. Emphases placed on problem solving, data analysis, and presentation. Prerequisite: permission of instructor. Instructors: Nelson Credit/no-credit only. Offered: AWSpS.

MEDCH 553 Structure and Function of Macromolecular Protein Assemblies (1) Discussion of research strategies, methods, and current literature concerning macromolecular self-assembly processes and protein-protein interactions as they relate to biological specificity. Emphasis on experimental approaches used in current literature. Prerequisite: permission of instructor. Instructors: Atkins Credit/no-credit only. Offered: AWSpS.

MEDCH 554 Biophysical and Structural Virology (1) *Lee* Discusses current topics in virus research and literature. Weekly sessions led by all participating members of the research group. Prerequisite: permission of instructor Credit/no-credit only. Offered: AWSpS.

MEDCH 555 Biophysics and Pharmacology of Dynamic Proteins (1) Discusses current topics in protein dynamics, focusing on intrinsically disordered proteins and drug-metabolizing enzymes. Weekly sessions led by all participating members of the research group. Prerequisite: permission of instructor. Instructors: Nath Credit/no-credit only. Offered: AWSpS.

MEDCH 556 Clinical and Mechanistic Aspects of Drug Metabolism (1) Discussion of research methodologies and new approaches to elucidate chemical mechanisms and enzymology of reactions catalyzed by cytochrome P-450. Emphasis on clinical applications and predicting in vivo drug behavior and toxicity. Prerequisite: permission of instructor. Instructors: Totah Credit/no-credit only. Offered: AWSpS.

MEDCH 557 Antibody-Antigen Interactions (1, max. 10) *M. Guttman* Discussion of research strategies, methods, and current literature in characterizing the structures of antibody-antigen interactions with an emphasis on carbohydrate interactions. Weekly sessions are led by all participating members of the research group. Prerequisite: Permission of instructor. Credit/no-credit only. Offered: AWSpS.

MEDCH 558 Human Cytochrome P-450 Biochemistry (1) Presentation and discussion of research strategies and methodologies related to current problems in human drug metabolism by cytochrome P-450 enzymes. Emphasis on hypothesis testing and experimental problem solving in the areas of enzyme kinetics and mechanism. Prerequisite: permission of instructor. Instructors: Kunze Credit/no-credit only. Offered: AWSpS.

MEDCH 559 Biosynthesis, Metabolism, and Analysis of Lipids (1) *L. XU* Covers recent advanced on oxidative metabolism of lipids, lipid biosynthesis, and application of advanced mass spectrometry to the analysis of lipids and oxidized lipids. Weekly sessions led by all participating members of the research group. Prerequisite: permission of instructor. Credit/no-credit only. Offered: AWSpS.

MEDCH 561 Immunizing and Antimicrobial Agents (3) *Rheem A. Totah, Kelly K. Lee* A course for pharmacy students focused on introducing the major classes of antimicrobial drugs for treatment of bacterial, viral, and fungal infections. For antimicrobial agents, the focus is on mechanisms of action and drug targets rather than for therapeutic applications. The course will also discuss the issue of antibiotic resistance. In the second half of the course the primary focus will be on vaccines for infectious disease. Prerequisite: MEDCH 501 or equivalent, PharmD major, or permission of instructor; recommended: completion of undergraduate Biochemistry series. Offered: Sp.

MEDCH 562 Medicinal Chemistry (3) *W. ATKINS, K. KUNZE, D. PORUBEK, A. RETTIE* Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Offered: A.

MEDCH 563 Medicinal Chemistry (3) Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Instructors: Nelson, Rettie Offered: W.

MEDCH 564 Medicinal Chemistry (3) Study of the various classes of medicinal compounds with particular emphasis on biological activity, mechanism of action, biotransformation, and the structural and physical properties governing absorption, distribution, and excretion. Prerequisite: MEDCH 400 or satisfactory completion of qualifying exam. Instructors: Atkins, Nelson Offered: Sp.

MEDCH 580 Current Trends in Pharmacy Science and Practice (1, max. 2) Current topics in active research relevant to professional pharmacy practice. Topics include drug metabolism, molecular mechanisms of diseases progression, large molecule drug development and analysis, or related to research within the Department of Medicinal Chemistry. Prerequisite: School of Pharmacy professional or graduate student standing. Undergraduate students with permission of instructor. Credit/no-credit only. Offered: A.

MEDCH 582 Topics in Medicinal Chemistry (1, max. 30) Discussion of pertinent articles from current literature. Credit/no-credit only. Offered: AWSp.

MEDCH 599 Cumulative Exams for Medicinal Chemistry (1) Quarterly cumulative examinations for graduate students. Credit/no-credit only. Offered: AWSp.

MEDCH 600 Independent Study or Research (*-) Credit/no-credit only. Offered: AWSpS.

MEDCH 700 Master's Thesis (*-) Credit/no-credit only. Offered: AWSpS.

MEDCH 800 Doctoral Dissertation (*-) Credit/no-credit only. Offered: AWSpS.

PHARMACEUTICS

PCEUT 327 The Science of Drugs (3) NW Libin Xu Introduces students to medicinal chemistry and pharmaceutical sciences. Recommended for sophomore, junior and senior students majoring in chemistry, biochemistry, bioengineering, chemical engineering, public health and other health sciences, and related fields. Prerequisite: either CHEM 223, CHEM 237, or CHEM 335; recommended: basic knowledge in general chemistry and organic chemistry. Offered: jointly with MEDCH 327; Sp.

PCEUT 499 Undergraduate Research (1-6, max. 12) Research problems in drug disposition, drug targeting, and drug development. Prerequisite: cumulative GPA of 2.50 and permission of instructor.

PCEUT 501 Pharmacometrics (3) Jashvant D Unadkat Compartmental (rich and sparse data) pharmacokinetic/pharmacodynamic and physiologically-based pharmacokinetic models. Evaluates how well models fit data. Advantages and disadvantages of various modeling and simulation approaches. Prerequisite: PCEUT 506 and PCEUT 532. Offered: Sp, even years.

PCEUT 502 Drug Disposition Science (2) Introduction to drug metabolism and transport pharmacokinetics. Topics include basic processes of drug absorption, distribution and elimination, enzyme/transporter kinetics, associated experimental methodologies for generating kinetic parameter estimates, and principles of drug-drug interactions and other sources of inter-individual variability. Covers experimental rigor and reproducibility and research ethics. Recommended: biochemistry. Offered: A.

PCEUT 503 Drug Transport and Delivery (5) Provides advance knowledge of the physico-chemical and biological concepts underlying in vivo transport and delivery of drugs. Prerequisite: PCEUT 506. Instructors: Ho, Hu, Mao, Shen, Unadkat, Wang

PCEUT 505 Concepts in Pharmaceutical Sciences I (2) R. HO Provides the student with foundational knowledge of drug properties and interaction with physiology upon administration in vivo, and an understanding of pharmaceutical formulation which is a key disciplinary area within the pharmaceutical sciences and its application to small molecules and protein-based therapeutics. Offered: A.

PCEUT 506 Concepts in Pharmacokinetics (3) Jashvant D Unadkat, Nina Isoherranen Theory and practice. Includes principles of physiological basis of pharmacokinetics, a mechanistic understanding of pharmacokinetic parameters, and the ability to derive basic pharmacokinetic equations and concepts. Prerequisite: either PCEUT 505, PCEUT 531, or permission of instructor. Offered: W.

PCEUT 507 Advanced Pharmacokinetics (3) Yvonne S Lin Includes absorption kinetics, bioavailability, multi-compartment kinetics, non-linear clearance, pharmacokinetics of biologics, and animal and clinical study design. Prerequisite: either PCEUT 506 and PCEUT 532, or permission of instructor. Offered: Sp.

PCEUT 510 Drug Interactions (3) Covers common pharmacokinetic mechanisms underlying clinically important interactions between drugs, and patient- and drug-related factors that predispose a patient to adverse drug effects. Includes case-based discussion of approaches to identification, clinical evaluation, and clinical management of drug-drug interaction risk. Prerequisite: PHARM 558; PHARM 559; PHARM 560; PHARM 561; PHARM 563; PHARM 564, and PHARM 565. Instructors: Lin and Horn.

PCEUT 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) K. THUMMEL Addresses current technologies for DNA sequencing, genotyping, RNA and epigenetic analysis and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause variability in drug treatment responses, as well as diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Offered: jointly with ENV H 513/PHG 513; W.

PCEUT 520 Seminar (1, max. 30) Qingcheng Mao Graduate students attend seminars and make one

formal presentation per year while in residence; maximum of three presentations. Credit/no-credit only. Offered: jointly with MEDCH 520.

PCEUT 531 Pharmaceutical Formulation: Principles and Dosage Forms (4) *Qingcheng Mao* Provides knowledge base for subsequent pharmacy courses and professional practice. Theory and problems involved in incorporating drugs into stable dosage forms suitable for human use and intended routes of drug administration. Fundamentals of safe and appropriate handling and use of dosage forms. Common dosage forms and basic compounding skills. Recommended: general chemistry. Offered: A.

PCEUT 532 Clinical Pharmacokinetics (4) *Nina Isoherranen* Covers basic principles of pharmacokinetics and their application to the clinical setting. Includes the design of an appropriate dosing regimen, such as single-dose intravenous and oral administration, multiple dosing, nonlinear pharmacokinetics, metabolite kinetics, pharmacodynamics, inter-individual variability and the physiological basis of pharmacokinetics. Prerequisite: PCEUT 531. Offered: W.

PCEUT 534 Principles of Precision Medicine (2) *Kenneth E Thummel* Variation in drug absorption, distribution, elimination, and response, with emphasis on pharmacokinetic-pharmacodynamic relationships. Includes pharmacogenetics, drug-drug interactions, as well as ontogenic and disease state effects and associated precision testing platforms. Uses case studies to integrate possible sources of variation and impact on individual therapeutic decisions. Prerequisite: MEDCH 501; PCEUT 531; and PCEUT 532; recommended: basic understanding of pharmacokinetics and principles of drug absorption, distribution and elimination and drug response. Offered: Sp.

PCEUT 537 Chemical and Molecular Pharmacology III: Cancer Treatments and Biotherapeutics (4) Cancer biology and agents used in cancer treatment and supportive care. Mechanisms of action and toxicities of agents. Formulating and optimizing dosage forms for small molecules and protein drugs. Major biopharmaceutical products (e.g., monoclonal antibodies, endogenous protein replacement) and their unique characteristics. Prerequisite: either PCEUT 531; PCEUT 532; and MEDCH 501, or permission of instructor. Offered: Sp.

PCEUT 570 Advanced Research Topics (1, max. 15) Combines a discussion of the practical aspects and experimental techniques used to address the questions relating to drug disposition with comprehensive theoretical treatment of pharmacokinetic principles. Prerequisite: permission of the instructor. Credit/no-credit only.

PCEUT 583 Topics in Pharmaceutics (1, max. 30) *Kenneth E Thummel, Nina Isoherranen* Discussion of pertinent articles from current literature and recent laboratory results. Credit/no-credit only.

PCEUT 586 Biotechnology and Biopharmaceutics (2-3) *Edward J Kelly* Current topics in pharmaceuticals and biotechnology focusing on transforming small molecules, proteins, and genes into therapeutic products. Includes new drug therapies, drug design, pharmacogenomics, molecular modeling, high throughput screen, production and stability considerations, and delivery systems of protein and gene therapeutics in relation to pharmacokinetic and therapeutic responses.

PCEUT 598 Independent Research (*, max. 24) Basic and clinical research problems in drug disposition and effect. Prerequisite: minimum grade of 2.50 GPA and permission of instructor.

PCEUT 600 Independent Study or Research (*-) Credit/no-credit only.

PCEUT 700 Master's Thesis (*-) Credit/no-credit only.

PCEUT 800 Doctoral Dissertation (*-) Credit/no-credit only.

PHARMACY (PHARM)

PHARM 301 Medications and Health: It's Not All About Drugs (3) I&S/NW *Dawson, Odegard, Weber* Covers personal health promotion, treatment of illness, and health care. Explores several medication-related topics, provides insight on drug development and efficacy, and serves as introduction to students contemplating careers in health sciences, especially in pharmacy. Credit/no-credit only.

PHARM 499 Undergraduate Research (1-6, max. 24) Research problems in clinical pharmacy or

pharmaceutical sciences, including preclinical and/or clinical drug development and effectiveness research, and participate in departmental research projects. Prerequisite: permission of instructor
Offered: AWSpS.

PHARM 500 Profession of Pharmacy (1) Introduces the new student to the profession of pharmacy. Provides both an historical and a modern context that assists student pharmacists begin to participate in the profession. Provides an overview of career opportunities. Prerequisite: professional PharmD class 1 student. Instructors: Kedzierski, Weber
Credit/no-credit only. Offered: A.

PHARM 501 Alternative and Complementary Medicines (2) Studies popular alternative and complementary medicines used in the United States. Focuses on herbal products with some coverage of other non-nutritional dietary supplements. Open to professional and graduate students in the Schools of Pharmacy, Nursing, Medicine, Dentistry, and Public Health, or by permission of instructor. Prerequisite: completion of first-professional year in PharmD program. Credit/no-credit only. Offered: AW.

PHARM 503 Senior Care Introductory Pharmacy Practice Experience (2) Under faculty supervision, provides clinical services for senior patients in various settings. Includes reviewing charts, interviewing patients, collaborating with other health care providers, and making recommendations on medication therapies to providers and patients. All students participate in an orientation/seminar workshop and in a weekly (for five weeks) clinical pearls workshop. Prerequisite: either successful completion of the first five quarters of the PharmD curriculum or permission of instructor. Instructors: Murphy, Plein
Credit/no-credit only. Offered: Sp.

PHARM 509 Principles of Evidence Based Medicine III: Critical Evaluation of Published Evidence (1) T. O'SULLIVAN Provides a critical evaluation of medical literature. Prerequisite: permission of School of Pharmacy.

PHARM 510 Contemporary Concepts in Clinical Nutrition Support (2) Addresses current topics and concepts in clinical nutrition support. Topics include assessment and management of patients requiring specialized nutrition support, enteral nutrition, and parental nutrition. Recommended: biochemistry,

anatomy and physiology, or permission of instructor. Credit/no-credit only. Offered: A.

PHARM 512 Timely Topics for Health Professionals (1, max. 4) Explores timely and inter-professionally relevant topics on social justice, health disparities, and health care; including the annual UW Health Sciences "Common Book". Involves active learning methods and group discussions where students and faculty can share thoughts and perspectives. Credit/no-credit only. Offered: AWSpS.

PHARM 513 Medical Devices for Home Healthcare (3) D. DOWNING Study of medical devices commonly provided by pharmacists to their patients, including their selection and adaptation for specific patient needs. Lectures include display and demonstration of actual devices.

PHARM 514 Pharmacotherapeutics for Advanced Nursing Practice (3) Hertig Application of principles of pharmacology as foundation for clinical decision making by advanced practice nurses for individuals and populations. Incorporates pharmacotherapy into advanced nursing therapeutics by addressing pharmacokinetics, pharmacodynamics, pharmacogenetics as well as patient-related factors that support selection of commonly used drugs. Selected drugs within categories are compared/contrasted.

PHARM 515 Pharmacotherapeutics for Acute/Critical Illness (3) Analysis of issues that impact the assessment, prescription, and evaluation of pharmacotherapeutic regimens for patients with acute/critical illness or injury. Current evidence together with pharmacotherapeutic principles are considered within the clinical context as the basis for decision-making in acute/critical care clinical practice. Prerequisite: either PHARM 514 or equivalent. Offered: Sp.

PHARM 516 Introduction to Biomedical Regulatory Affairs (3) Hazlet Surveys government oversight of drugs, devices, and biotechnology derived products; laws and regulations that apply to development, testing, and production; and responsibilities of a regulatory affairs specialist in the regulatory setting.

PHARM 517 Product Development and Manufacturing Systems (3) Hazlet Surveys government oversight of drugs, devices, and

biotechnology derived products; laws and regulations that apply to development, testing, and production.

PHARM 518 Product Testing, Evaluation, and Post-Market Issues (3) *Hazlet* Medical product post-marketing requirements; reporting and enforcement actions; inspections (internal and by regulators) preparation, conduct, and follow-up actions; surveillance and studies, reimbursement, and economics.

PHARM 519 Pharmacotherapeutics for Infectious Disease and Infection (2) *Black, Simpson* Analysis of pharmacotherapeutics to control infection and manage infectious disease through seminar discussion of cases, critical analysis of a pharmacotherapeutic regimen, and development of references to enhance students' clinical expertise. Emphasis on principles of anti-infective therapy, problem solving clinical cases with complex medication regimens, and identifying judicious pharmacotherapeutic plans.

PHARM 520 Introduction to Pharmacoeconomics and Outcomes Research (2) *Veenstra* Provides an introduction to economic evaluation and outcomes research related to pharmaceuticals and other healthcare technologies. Covers the methods of cost-effectiveness analysis and quality of life evaluation, and their use in real-world decision-making.

PHARM 521 Pharmacy Teaching Practicum (1-3, max. 6) *R. ALLEN, D. DOWNING, A. ELLSWORTH, T. HAZLET* Allows students the opportunity to apply learning about education in a mentored experiences. Students serve as assistant instructors in existing pharmacy courses or engage in other approved educational experiences. Prerequisite: PHARM 586, instructors permission. Credit/no-credit only. Offered: AWSp.

PHARM 525 Advanced Compounding Skills (1) Prepares the student to create unique, patient-specific pharmaceutical dosage forms used in contemporary pharmacy practice. Includes pre-readings and assignments, a didactic session and a laboratory session, and is offered over a weekend. Prerequisite: PCEUT 531. Instructors: Lawhorn, Needham Credit/no-credit only.

PHARM 526 Bayesian Biostatistics (3) Introduction to Bayesian methods for data analysis; Bayesian reasoning, prior elicitation, inference and decision making, and computation applied to biomedical research. Prerequisite: any course in statistics at the 400-level or higher or instructor's permission. Offered: jointly with BIOST 526/EPI 540; Sp.

PHARM 529 Introduction to Systematic Reviews and Meta-Analysis of Evidence (3) Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with BIME 541/EPI 541/HSERV 529.

PHARM 531 Advances in the Diagnosis, Treatment and Management of Epilepsy (2) Complexity of epilepsy pathophysiology, classification, diagnosis, and treatment. Introduces principles of anti-seizure drug discovery and emerging opportunities for epilepsy research at UW. Five week condensed survey. Prerequisite: permission of Instructor. Offered: W.

PHARM 532 Methods in Pharmaceutical Policy Analysis (4) *Garrison, Hazlet* Introduction to the tools used in and the framework and dominant contexts for pharmaceuticals policy development and analysis. Methods reviewed in a series of sessions presenting a specific method and case analyses involving pharmaceuticals development. Project and in-class presentation required.

PHARM 533 Pharmacoepidemiology (3) Overview of pharmacoepidemiology including drug development and approval; application of epidemiologic methods to study drug safety and effectiveness; exploration of the interplay between research and public policy; introduction to resources for information about drugs; introduction to pharmacology principles pertinent to pharmacoepidemiology. Prerequisite: Health Sciences graduate student; either EPI 511 or both EPI 512 and EPI 513. Offered: jointly with EPI 533.

PHARM 534 Economic Evaluation in Health and Medicine (3) *J. Babigumira, L. Steuten* Methods and techniques for evaluating costs and cost-effectiveness of health, medical, and pharmaceutical interventions. Emphasis on economic evaluation, decision analysis, and modeling techniques for resource allocation and decision making. Applications to technology assessment, health policy, clinical practice, and resource allocation. Prerequisite: permission of instructor. Offered: jointly with HSERV 583.

PHARM 535 Assessing Outcomes in Health and Medicine (3) Concepts and methods for developing and using patient-reported outcomes in health and medicine. Emphasis on patient self-reported health status and quality of life. Qualitative research and psychometric methods applied to health outcomes assessment and all applications. Prerequisite: permission of instructor. Instructors: Devine, Edwards Offered: jointly with HSERV 584; W.

PHARM 536 Advanced Methods in Economic and Outcomes Evaluation in Health and Medicine (3) Covers advanced methods and techniques for evaluating costs, outcomes, and cost-effectiveness of health, medical, and pharmaceutical interventions. Topics include: network meta-analysis, Markov modeling, probabilistic sensitivity analysis, value of information analysis, utility mapping, conjoint analysis, and budget impact analysis. Prerequisite: either PHARM 534 and PHARM 535 or permission of instructor. Instructors: Carlson Offered: Sp.

PHARM 537 Chemical Dependency Concepts (2) *Kedzierski* Examines the development of therapeutic frame for working with patients with addictions. Includes the genesis of addiction harm reduction strategies, legal and ethical considerations, medication management in the substance-abusing population, impaired pharmacist rehabilitation, detection and dealing with substance abuse issues in pharmacy practice, community resources. Course offered to professional PharmD, class 2. Credit/no-credit only. Offered: A.

PHARM 538 Chemical Dependency Issues in Practice (3) Emphasis on drug classes, pharmacologic management of abstinence and withdrawal, drug testing, drug use in pregnancy, treatment options and recovery, codependency and legal and ethical

considerations. Prerequisite: PHARM 537. Instructors: Kedzierski Credit/no-credit only. Offered: W.

PHARM 539 Principles of Professional Practice Management (3) *Downing, Somani* Emphasizes the major issues and barriers of providing pharmaceutical care in institutional and community pharmacies. Topics include evaluating workflow and facility design, complying with legal and safety standards, managing drug distribution services, payment for pharmacist services, human resource management and marketing pharmaceutical care services.

PHARM 540 Systematic Reviews and Meta-Analysis (2) Provides students an overview of best practices to conduct a systematic review of an intervention; then analyzing data through meta-analytic methods. Classroom activities solidify topics covered in lectures and readings. Collaboration with another student to complete a systematic review. Recommended: a basic understanding of statistics and a background in evidence-based medicine. Offered: Sp.

PHARM 541 Pharmacy, Healthcare, and Society (3) *Sullivan* Introduction to health services and pharmacy practice designed for future healthcare practitioners. Examines the history, organization, and effectiveness of the U.S. healthcare system. Stresses the student's ability to adopt a broad perspective across healthcare disciplines and traditional boundaries.

PHARM 542 Managed Care Pharmacy: Principles and Practice (3) *Fullerton, Penna* Surveys the activities, tactics, and strategies used by managed care to deliver pharmacy services to their members. Includes: formulary development, clinical improvement programs, quality improvement measures, regulatory activities, contracting with pharmaceutical manufacturers, network management, financial issues, sales and marketing, and provider relations. class 2, 3, and 4 PharmD students.

PHARM 543 Pharmacy Laws and Ethics ([2-3]-, max. 5) *Hazlet* Studies the laws governing the practice of pharmacy, approaches to legal, and ethical dilemmas in the delivery of pharmaceutical care, and methods of statutory and regulatory reform.

PHARM 544 Survey of Pharmacy Laws (1) Hazlet Prepare, discuss, and present responses to assigned questions developed by faculty regarding laws governing pharmacy practice in the course of reviewing for the Multistate Pharmacy Jurisprudence Examination. Class meets for two consecutive Saturdays in February and March. Email and web access required. Open to fourth-year PharmD students; non-matriculated students by permission only. Credit/no-credit only.

PHARM 548 Current Topics in Geriatrics (1, max. 2) Case-based approach to principles of geriatric pharmacotherapy and medications commonly prescribed for older adults. Utilizes a "layered-learning model" in which more experienced students teach junior students under guidance of a faculty mentor. Credit/no-credit only. Offered: W.

PHARM 549 Pharmacotherapeutics for Older Adults (3-4) Applies pharmacologic knowledge to the assessment, individualized selection of therapy, and monitoring of treatment in older adults with multiple comorbidities; and age-related changes in pharmacokinetics and pharmacodynamics with emphasis on problem solving, using case examples. Prerequisite: either PHARM 561; PHARM 565 or permission of the School of Pharmacy. Instructors: Murphy Offered: Sp.

PHARM 550 Seminar in Geriatrics ([0-1]-, max. 1) L. MIKE Students facilitate a discussion with students/faculty about the management of an older adult with complex medication regimen. In addition, students critically review and appraise primary literature relevant to contemporary issues related to geriatric pharmacotherapy. Prerequisite: PHARM 549; permission of the instructor. Credit/no-credit only. Offered: AWSpS.

PHARM 552 Practice-Based Leadership and Project Development (2) J. Arnold, N. Murphy Strengthen skills necessary to develop, implement, and evaluate innovated programs that improve health, healthcare delivery, and the patient experience. In addition to actively participating in class discussions and group work, students are responsible for submitting weekly assignments, a final reflection paper, and a project proposal. Credit/no-credit only. Offered: W.

PHARM 557 Pharmacotherapeutics II (3) Peggy Soule Odegard Discusses the integration of and

applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge toward the management of common diseases. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of school. Offered: Sp.

PHARM 558 Pharmacotherapeutics I - Pharmacotherapy with Non-prescription (OTC) Drugs (3) Ellsworth Overview of common classes of nonprescription drug therapeutics with an emphasis on case examples, patient assessment, non-drug adjunct therapy, product selection, and patient advice. Oral presentation required. Computer (Internet) case discussion mandatory. Enrollment restricted to first-year PharmD students.

PHARM 559 Pharmacotherapeutics III (4) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy. Offered: Sp.

PHARM 560 Pharmacotherapeutics IV (6) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy Offered: A.

PHARM 561 Pharmacotherapeutics V (7) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy Offered: W.

PHARM 562 Pharmacotherapeutics VI (6) Discusses the integration of and applies epidemiology, pathophysiology, clinical diagnostics, and drug-related knowledge towards the management of common disease. Emphasizes problem-solving through the use of case examples. Prerequisite: permission of School of Pharmacy Offered: Sp.

PHARM 563 Applied Pharmacotherapeutics I (2) L. Mike Develops a foundation of skills that enables a pharmacist to practice collaborative patient-specific

care. Prerequisite: permission of School of Pharmacy. Offered: Sp.

PHARM 564 Applied Pharmacotherapeutics II (2) L. *MIKE* Develops a foundation of skills that enables a pharmacist to practice collaborative patient specific care. Prerequisite: permission of School of Pharmacy. Offered: A.

PHARM 565 Applied Pharmacotherapeutics III (2) L. *MIKE* Develops a foundation of skills that enables a pharmacist to practice collaborative patient-specific care. Prerequisite: permission of School of Pharmacy. Offered: W.

PHARM 566 Applied Pharmacokinetics (2) Pharmacokinetics of specific drugs. Influence of age, weight, sex, and disease states on patient-specific dosage regimens emphasized. Advanced kinetic concepts are discussed and put into applied context. Prerequisite: PCEUT 532. Instructors: Bauer

PHARM 567 Cancer Pharmacotherapeutics (2) Pharmacotherapy of cancer, covering supportive care therapeutics (antibiotics, antiemetics, analgesics,) to the antineoplastic agents. The pathophysiology, staging, and treatment of different cancers is discussed. Specialists from the different oncology practice areas serve as guest lecturers. Prerequisite: either PHARM 561; PHARM 565, or permission of the School of Pharmacy. Instructors: Gibson, Kwok, McQuary, Vincent Offered: Sp.

PHARM 568 Health Economics (3) Applies microeconomics principles and models to understand the nature of healthcare markets and systems. Includes a wide range of health sector activities and policy issues studied by applying rigorous economic analytical tools coupled with review of key econometric and empirical analysis. Prerequisite: introductory coursework in microeconomic principles and basic statistics. Instructors: Garrison Offered: W.

PHARM 569 Fluid and Electrolytes and Parenteral Nutrition (2) *Chan* Focuses on the principles of fluid electrolyte and nutritional management in patients requiring parenteral nutrition (PN) and infusion therapy. Topics include acid-base balance, macro- and micro-nutrient requirements, nutritional assessment, complications of PN and compounding and compatibility of PN solutions. Discusses

consideration in special populations (e.g., ICU) . Prerequisite: Prerequisite: either PHARM 561; PHARM 565, or permission of the School of Pharmacy.

PHARM 570 Critical Care Pharmacotherapeutics (2) Overviews pharmacotherapeutic topics for patients in the critical care setting. Discusses principles in hemodynamic monitoring, respiratory management, concepts in pathophysiology related to critical illnesses, and other timely topics reflecting current clinical practice. Prerequisite: third-year PharmD student, or approval of instructor. Instructors: Mike

PHARM 571 Current Topics in Acute Care Pharmacotherapy (1) Increases understanding and stimulates discussion in current topics related to acute care pharmacotherapy. Reviews the management of patients in the acute care setting through current cases presented by instructors. May be taken alone or concurrently with PHARM 570. Prerequisite: either PHARM 561 ;PHARM 565, or permission of the School of Pharmacy. Instructors: Chan

PHARM 572 Pharmacist Advocacy I: Legislative and Grassroots Affairs (1, max. 3) Increases student awareness and knowledge of local, state, and national healthcare issues that affect pharmacists and their patients. Prepares pharmacy students to knowledgeably represent their school, profession, and their patients during individual and organized-group pharmacy legislative and other advocacy activities. Credit/no-credit only. Offered: A.

PHARM 573 Pharmacist Advocacy II: Legislative and Grassroots Affairs (1, max. 3) *Downing* Prepares pharmacy students to knowledgeably represent their school, profession, and their patients during individual and organized-group pharmacy legislative and other advocacy activities. Students actively participate in off-campus legislative and advocacy activities while the Washington State legislature is in session. Credit/no-credit only. Offered: W.

PHARM 579 Current Topics in Pharmacy (1, max. 3) *Black, Murphy* Provides a forum for discussing late-breaking topics that impact current and future pharmacy research and practice. Credit/no-credit only. Offered: AW.

PHARM 581 Global Health Pharmacy: Medicines, Practice, and Policy (2) *Andy Stergachis* Introduces the critical role of pharmaceutical in addressing major diseases (such as HIV/AIDS, malaria, tuberculosis) affecting persons in resource-limited settings. Addresses the wide range of relevant issues, including burden of disease, human resource capacity, regulation, drug safety/pharmacovigilance, drug distribution, pharmacoconomics, financing, intellectual property, and drug trade policies. Offered: jointly with G H 543.

PHARM 582 Special Topics in Global Health Pharmacy and Medical Products ([1-3]-, max. 6) *Babigurmira, Garrison* Provides in-depth instruction on selected special topics relating to the use, access to, and impact of pharmaceuticals, vaccines, and diagnostics/medical devices in global health. Credit/no-credit only.

PHARM 584 Pharmacy Practice I - Introduction to Community Pharmacy Practice I (3) *R. ALLEN, J. BACCI, K. DAWSON* Introduction to development and practice of skills in drug information resources; prescription processing and problem solving; pharmaceutical calculations and compounding; patient information and counseling on over-the-counter and compounded medications. Offered: A.

PHARM 585 Pharmacy Practice II (3) *R. ALLEN, J. BACCI, K. DAWSON* Continued development and practice of skills in drug information resources; prescription problem solving; pharmaceutical calculations; and patient information and counseling. Emphasizes use of commonly prescribed prescription medication as well as patient-specific characteristics that impact their care. Prerequisite: PHARM 584. Offered: W.

PHARM 586 Pharmacy Practice III: Applications of Public Health Practice (3) *R. ALLEN, J. BACCI, K. DAWSON* Develops skills that enable public health screening and health promotion in community-based settings: administration of vaccines to adults and adolescents; practical application of community-based health screenings, counseling, and referral; and teaching self-monitoring techniques to patients. Emphasizes communication with members of special populations. Prerequisite: PHARM 585. Offered: Sp.

PHARM 587 Diabetes Prevention (2) Provides students with knowledge/skills to serve as Diabetes

Prevention lifestyle coaches. The knowledge/skills developed can be applied to promote health/wellness in the community. Prerequisite: PHARM 563. Instructors: Danielson, McKennon, Odegard Credit/no-credit only. Offered: A.

PHARM 588 Diabetes Care (2) Further develops foundations in the principles of diabetes management and provides practice in application of diabetes-care principles. Develops knowledge and ability to assess, manage, educate, and monitor patients with diabetes. Prerequisite: either PHARM 560; PHARM 564, or permission of the School of Pharmacy. Instructors: Danielson, Odegard Credit/no-credit only.

PHARM 591 Community Collaborations in Healthcare Practicum (2, max. 8) Collaboration with representatives from the Salvation Army Adult Rehabilitation Center and other community sites to improve health literacy and health outcomes of men and women beneficiaries (residents) in addiction treatment and recovery. Prerequisite: permission of instructor. Instructors: Kedzierski Credit/no-credit only. Offered: ASp.

PHARM 592 Pharmacy Practice IV: Design and Analysis of Medical Studies (3) Introduces the basic biostatistical concepts used in the medical literature, and the various study designs. Develops students' skills in critically evaluating the medical literature, with the goal of applying these skills to clinical practice. Prerequisite: PHARM 584; PHARM 585; PHARM 586. Instructors: Devine Offered: A.

PHARM 593 Pharmacy Practice V: Institutional Pharmacy Practice (3) *Somani* Includes discussion and skill development related to contemporary institutional pharmacy practice. Focuses on health information technology, the quality improvement process, MUE and cost management, medication order processing, counseling and medication reconciliation, interpersonal teamwork, and patient-oriented services. Students create and present mock proposals for new guidelines and practice protocols. Prerequisite: PHARM 592. Offered: W.

PHARM 594 Pharmacy Practice VI: Medication Quality and Safety (2) Introduces topics related to medication safety and quality improvement. Describes the role of information technology and the importance of organizational leadership and

teamwork in improving safety. Introduces topics of collaborative drug therapy management and managed care pharmacy practice. Prerequisite: PHARM 593. Offered: Sp.

PHARM 595 Special Studies in Pharmacy (1-6, max. 24) Special studies of professional topics in pharmacy. An opportunity to expand the breadth and depth of understanding in specific pharmaceutical areas. Students may undertake independent study under the individual direction of a faculty member.

PHARM 596 Seminars in Pediatric Pharmacotherapy (2) Explores therapeutic topics pertinent to the pediatric population. Emphasizes ambulatory pediatrics. Prerequisite: third-year PharmD student or permission of instructor. Instructors: Harvey
Credit/no-credit only. Offered: W.

PHARM 597 Graduate Seminar (1, max. 24)
Interactive discussion of topical issues, methods, or analytic techniques. Topics vary. Prerequisite: graduate program student. Credit/no-credit only.

PHARM 599 Independent Study/Research (1-6, max. 24) Applied pharmaceutical research problems. Credit/no-credit only.

PHARM 600 Independent Study or Research (*-)
Credit/no-credit only.

PHARM 700 Master's Thesis (*-) Credit/no-credit only.

PHARM 800 Doctoral Dissertation (*-) Credit/no-credit only.

PHARMACY (PHRMCY)

PHRMCY 501 Foundations of Being a Pharmacist I (3) First course of a two-quarter series providing a foundation in the knowledge, skills, and attitudes to be an effective patient-centered pharmacist provider. Content is designed to facilitate the development of a student's professional identity and leadership abilities. Offered: A.

PHRMCY 502 Foundations of Being a Pharmacist II: Teams and Systems (3) Second course of a two-quarter series providing a foundation in the

knowledge, skills, and attitudes to be an effective patient-centered pharmacist provider. Content is designed to facilitate the development of a student's professional identity and leadership abilities. Prerequisite: PHRMCY 501. Offered: W.

PHRMCY 503 Advanced Pharmacy Leadership (1) Provides a foundation in the knowledge, skills, and attitudes to be effective in creating and achieving shared goals through personal and professional leadership. Prerequisite: either PHRMCY 501 and PHRMCY 502, or permission of instructor.

PHRMCY 511 Introduction to Evidence-Based Practice (2) Introduces primary, secondary, and tertiary medical literature. Practiced skills include forming an answerable question, retrieving and summarizing credible biomedical literature, interpreting study results, and writing effectively for the public and for health professionals. Offered: A.

PHRMCY 512 Fundamentals of US Health Care, Pharmacy Safety and Law (3) Introduction to health care and pharmacy practice designed for future healthcare practitioners. Examines the organization and financing of the U.S. healthcare system, patient safety, and pharmacy law. Offered: A.

PHRMCY 513 Applied Patient Safety and Quality (2) Introduction to principles of patient safety and quality designed for future health care practitioners. Content is designed to facilitate the development of a student's ability to provide safe and quality care. Prerequisite: PHRMCY 511 and PHRMCY 512. Offered: Sp.

PHRMCY 514 Design and Analysis of Medical Studies (2) Provides basic understanding of the fundamental concepts of biostatistics and epidemiology as they relate to study designs and evaluation of the medical literature. Prerequisite: PHRMCY 511; recommended: undergraduate course in statistics. Offered: Sp.

PHRMCY 515 Population Health and Pharmacy Management (3) Examines the concept of population health and the pharmacist's role therein as well as pharmacy management for future healthcare practitioners. Offered: A.

PHRMCY 531 Pharmacotherapeutics I (4) First course in a 7-course series providing a foundation in

knowledge for patient-centered clinical case management. Includes introduction to pharmacotherapeutics and special populations, over-the-counter medications and self-care. Offered: W.

PHRMCY 532 Pharmacotherapeutics II (3) Second course in a 7-course series providing a foundation in knowledge for patient-centered clinical case management. Includes assessment and management of drug-related hypersensitivity and various bacterial, fungal, and viral infectious diseases. Prerequisite: PHRMCY 531. Offered: Sp.

PHRMCY 533 Pharmacotherapeutics III (4) Third course in a 7-course series providing a foundation in knowledge for patient-centered clinical case management. Includes assessment and pharmacotherapeutic management of diseases affecting the cardiovascular, pulmonary, renal, and endocrine systems. Prerequisite: PHRMCY 532. Offered: A.

PHRMCY 534 Pharmacotherapeutics IV (4) Fourth in a seven-course series. Patient-centered clinical case management. Includes assessment and pharmacotherapeutic management of diseases associated with hematological, neurological, psychiatric, and gastrointestinal systems. Prerequisite: PHRMCY 533. Offered: W.

PHRMCY 535 Pharmacotherapeutics V (3) Patient-centered clinical case management. Assessment and pharmacotherapeutic management of diseases associated with the hematological, gastrointestinal, and immune systems, as well as pharmacotherapeutics associated with cancer therapy, transplantation, and biological therapies. Prerequisite: PHRMCY 534. Offered: Sp.

PHRMCY 536 Pharmacotherapeutics VI (4) Provides a foundation in knowledge for patient-centered clinical case management. Includes assessment and pharmacotherapeutic management of issues related to gender-related health and care, reproductive health, geriatrics, rheumatological diseases, and diseases affecting the urological, dermatological and ophthalmic systems. Prerequisite: PHRMCY 535. Offered: A.

PHRMCY 537 Pharmacotherapeutics VII (4) Provides a foundation in knowledge for patient-centered

clinical case management. Covers pharmacotherapeutics in special patient populations, including children, critically ill patients, obese patients, patients requiring nutrition support, and those with multiple comorbidities. Prerequisite: PHRMCY 536. Offered: W.

PHRMCY 541 Pharmacist Provider Readiness I (2) Prepares students for practice as a pharmacist provider. Includes development and refinement of skills necessary for being successful in the Pharmacist Provider Experience course series and Introductory Pharmacy Practice Experiences (IPPEs). Prerequisite: successful completion of on-boarding and compliance requirements for PharmD program. Credit/no-credit only. Offered: A.

PHRMCY 542 Pharmacist Provider Readiness II (2) Prepares students for practice as a pharmacist provider. Includes development and refinement of skills necessary for being successful in the Pharmacist Provider Experience course series and Introductory Pharmacy Practice Experiences (IPPEs). Prerequisite: PHRMPR 511 and PHRMCY 541. Credit/no-credit only. Offered: W.

PHRMCY 543 Introductory Pharmacist Provider Readiness III (3) Prepares students for practice as a pharmacist provider. Includes development and refinement of skills necessary for being successful in the Pharmacist Provider Experience course series and Introductory Pharmacy Practice Experiences (IPPEs). Prerequisite: PHRMCY 542 and PHRMPR 512. Offered: Sp.

PHRMCY 544 Pharmacist Provider Readiness IV (3) Delivery of care to patients with increasingly complex health care needs. Prepares students for practice as a pharmacist provider. Includes development and refinement of skills necessary for success in the Pharmacist Provider Experience course series and Introductory Pharmacy Practice Experiences (IPPEs). Prerequisite: PHRMCY 543 and PHRMPR 513. Credit/no-credit only. Offered: A.

PHRMCY 545 Pharmacist Provider Readiness V (3) Development and refinement of skills necessary for success in the Pharmacist Provider Experience course series and Introductory Pharmacy Practice Experiences (IPPEs). Emphasizes delivery of care to multiple patients with increasingly complex health

care needs. Prerequisite: PHRM CY 544 and PHRM PR 514. Credit/no-credit only. Offered: W.

PHRM CY 546 Pharmacist Provider Readiness VI (3)

Development and refinement of skills necessary for success in the Pharmacist Provider Experience course series and Introductory Pharmacy Practice Experiences (IPPEs) . Emphasizes delivery of care to multiple patients with increasingly complex healthcare needs. Prerequisite: PHRM CY 545 and PHRM PR 515. Credit/no-credit only. Offered: Sp.

PHRM CY 547 Pharmacist Provider Readiness VII (3)

Development and refinement of skills necessary for success in the Pharmacist Provider Experience course series; and Introductory Pharmacy Practice Experiences (IPPEs) ; and Advanced Pharmacy Practice Experiences (APPEs) . Prerequisite: PHRM CY 546 and PHRM PR 516. Credit/no-credit only. Offered: A.

PHRM CY 550 Readiness for Advanced Pharmacy Practice Experiences (5)

Capstone course preparing students for transition to Advanced Pharmacy Practice Experiences (APPE) . Involves applying and integrating skills acquired from both the didactic courses and experiential training. Credit/no-credit only. Offered: Sp.

PHRM CY 580 Current Trends in Pharmacy Science and Practice (1, max. 2)

Current topic areas pertinent to professional pharmacy practice. Emphasizes use of applied knowledge in pharmaceutical sciences for professional development in critical thinking, data analysis, and in-depth expertise in pharmacy-related research sciences and practice areas. Prerequisite: open to undergraduates with permission of instructor; recommended: general undergraduate science background. Credit/no-credit only. Offered: Sp.

PHARMACY PRACTICE (PHARMP)

PHARMP 511 Introductory Pharmacy Practice Experience in Community Pharmacy I (1)

Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Seminars allow for orientation, discussion/reflection, and progress assessment. Orients students to

community practice, fulfills requirements for entering patient care, and sets expectations for the course series. First in a series of four. Prerequisite: PHARM 584. Credit/no-credit only. Offered: W.

PHARMP 512 Introductory Pharmacy Practice Experience in Community Pharmacy II (1)

Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Emphasizes legal requirements for practice, fulfills requirements for entering patient care, and exposes student to leaders in community pharmacy practice. Second in a series of four. Prerequisite: PHARMP 511. Credit/no-credit only. Offered: Sp.

PHARMP 513 Introductory Pharmacy Practice Experience in Community Pharmacy III (1)

Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Seminars allow for orientation, discussion/reflection, and progress assessment. Emphasizes patient safety, involvement in health/wellness screening, and exposes students to leaders in community pharmacy. Third in a series of four. Prerequisite: PHARMP 512 and PHARM 586. Credit/no-credit only. Offered: A.

PHARMP 514 Introductory Pharmacy Practice Experience in Community Pharmacy IV (1)

Introduces student to community pharmacy practice. Students process prescriptions, begin to manage drug therapy, communicate with patients, and provide public health activities in the patient care setting. Seminars allow for orientation, discussion/reflection, and progress assessment. Emphasizes reflection on and documentations of professional competency. Fourth in a series of four. Prerequisite: PHARMP 513. Credit/no-credit only. Offered: W.

PHARMP 521 Foundations of Interprofessional Practice I ([0-1]-, max. 1)

J. DANIELSON Team-based training and experiential immersion in healthcare team functioning for PY2 pharmacy students. work with medical, nursing, physician assistant, social work, dental and dietetics students in patient care situations to apply evidence-based practice and

quality improvement principles. Focuses on development of intra- and inter-professional roles and professional identity. Credit/no-credit only.

PHARMP 522 Foundations of Interprofessional Practice II ([0-1]-, max. 1) *J. DANIELSON, P. ODEGARD*

Team-based training and experiential immersion in healthcare team functioning for PY3 pharmacy students. Work with medical, nursing, physician assistant, social work, dental, and dietetic students in patient care situations to apply evidence-based practice and quality improvement principles. Focuses on development of intra and interprofessional roles and professional identity. Credit/no-credit only. Offered: AWSp.

PHARMP 531 Introductory Pharmacy Practice Experience in Institutional Pharmacy I (1)

Introduces institutional pharmacy practice. The role of pharmacists in the inpatient settings, participation in product distribution, provision of drug information, and exposure to quality assurance activities in hospitals. Orients students to institutional practice, exposes student to leaders in hospital practice, and introduces expectations for quality assurance activities. First in a series of three. Prerequisite: PHARMP 514. Credit/no-credit only. Offered: AWSpS.

PHARMP 532 Introductory Pharmacy Practice Experience in Institutional Pharmacy II (1)

Introduces institutional pharmacy practice. Students learn about the role of pharmacists in the inpatient settings, participate in product distribution, provide drug information, and gain exposure to quality assurance activities in hospitals. Quality assurance in hospital practice, reflects on medication reconciliation, and orients students to subsequent IPPE coursework. Second in a series of three. Prerequisite: PHARMP 531. Credit/no-credit only. Offered: AWSpS.

PHARMP 533 Introductory Pharmacy Practice Experience in Institutional Pharmacy III (1) *J. DANIELSON*

Introduces students to institutional pharmacy practice. Students learn about the role of pharmacists in the inpatient setting, participate in product distribution, provide drug information, and gain exposure to quality assurance activities in hospitals. Seminars allow for orientation, discussion, and progress assessment. Third in a three-part

series. Prerequisite: PHARMP 532. Credit/no-credit only. Offered: AWSpS.

PHARMP 541 Introductory Pharmacy Practice Experience in Clinical Skills (1)

Students interview and assess a patient in the practice setting, present the patient case and an oral seminar in a small group setting, and complete other requirements for beginning advanced pharmacy practice experience. Prerequisite: PHARMP 533. Instructors: O'Sullivan. Credit/no-credit only. Offered: Sp.

PHARMP 571 Advanced Pharmacy Practice Experience in Inpatient/Acute Care General Medicine (6, max. 36) *O'Sullivan*

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a general medicine care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 572 Advanced Pharmacy Practice Experience in Hospital or Health-System Pharmacy (6, max. 36) *O'Sullivan*

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in an acute care or other inpatient setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 573 Advanced Pharmacy Practice Experience in Ambulatory Care (6, max. 36) *O'Sullivan*

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a clinic-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and provide drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 574 Advanced Pharmacy Practice Experience in Community Pharmacy (6, max. 36) *O'Sullivan*

Advanced pharmacy practice experience

focusing on providing patient-centered care to patients in a community-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 575 Advanced Pharmacy Practice Experience in Patient Care (6, max. 30) *O'Sullivan* Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a non-required setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Credit/no-credit only. Offered: AWSpS.

PHARMP 576 Advanced Pharmacy Practice Experience in Non-Patient Care (6, max. 24) *O'Sullivan* Advanced pharmacy practice experience focusing on providing pharmacy services in a variety of non-patient care settings. Credit/no-credit only. Offered: AWSpS.

PHARMP 577 Advanced Pharmacy Practice Experience in Senior Care (6, max. 12) *O'Sullivan* Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a senior or geriatric care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 578 Advanced Pharmacy Practice Experience Elective (1-6, max. 12) *O'Sullivan* Advanced pharmacy practice experience in patient or non-patient care settings. Credit/no-credit only. Offered: AWSpS.

PHARMP 580 Preparation for Global Health Experience in Low-resource Countries (3) Prepares students to safely and fully engage in clinical healthcare experiences in low-resource countries. Helps students understand common barriers to healthcare access and to appreciate the communicable and non-communicable health issues

that individuals and communities experience in these countries. Credit/no-credit only. Offered: Sp.

PHARMP 581 Advanced Pharmacy Practice Experience in Inpatient/Acute Care General Medicine (9, max. 36) *O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in a general medicine care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 582 Advanced Pharmacy Practice Experience in Hospital or Health-System Pharmacy (9, max. 36) *O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in an acute care or other inpatient setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 583 Advanced Pharmacy Practice Experience in Ambulatory Care (9, max. 36) *O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care in a clinic-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 584 Advanced Pharmacy Practice Experience in Community Pharmacy (9, max. 36) *O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in community-based setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 585 Advanced Pharmacy Practice Experience in Patient Care (9, max. 27) *O'Sullivan* Six

week advanced pharmacy practice experience focusing on providing patient-centered care to patients in a non-required setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMP 586 Advanced Pharmacy Practice Experience in Non-Patient Care Settings (9, max. 18) *O'Sullivan* Six week advanced pharmacy practice experience focusing on providing pharmacy services in a variety of non-patient care settings. Offered: AWSpS.

PHARMP 587 Advanced Pharmacy Practice Experience in Senior Care (9, max. 18) *O'Sullivan* Six week advanced pharmacy practice experience focusing on providing patient-centered care to patients in a senior or geriatric care setting. Applies therapeutic knowledge to assess and develop therapeutic plans in collaboration with other healthcare professionals, taking medication histories, monitoring patient progress, and providing drug information to professionals and patients. Offered: AWSpS.

PHARMACY PRACTICE (PHRMPR)

PHRMPR 511 Pharmacist Provider Experience I (2) Prepares students for practice as a pharmacist provider. Emphasizes application of classroom learning in a patient care setting. This is part of the (WIP) Wednesdays in Practice course series. Prerequisite: successful completion of on-boarding and compliance requirements for PharmD program. Credit/no-credit only. Offered: A.

PHRMPR 512 Pharmacist Provider Experience II (2) Prepares students for practice as a pharmacist provider. Emphasizes application of classroom learning in a patient care setting. This is part of the Wednesdays in Practice course series. Prerequisite: PHRMPR 511 and PHRMCY 541. Credit/no-credit only. Offered: W.

PHRMPR 513 Pharmacist Provider Experience III (2) Prepares students for practice as a pharmacist provider. Emphasizes application of classroom

learning in a patient care setting. This is part of the Wednesday in Practice (WIP) course series. Prerequisite: PHRMCY 542 and PHRMPR 512. Credit/no-credit only. Offered: Sp.

PHRMPR 514 Pharmacist Provider Experience IV (2) Delivery of care to patients with increasingly complex health care needs. Prepares students for practice as a pharmacist provider. Emphasizes application of classroom learning in a patient-care setting. Part of the Wednesday in Practice (WIP) course series. Prerequisite: PHRMCY 543 and PHRMPR 513. Credit/no-credit only. Offered: A.

PHRMPR 515 Pharmacist Provider Experience V (2) Application of classroom learning in a patient-care setting. Emphasizes delivery of care to multiple patients with increasingly complex healthcare needs. Prerequisite: PHRMCY 544 and PHRMPR 514. Credit/no-credit only. Offered: W.

PHRMPR 516 Pharmacist Provider Experience VI (2) Application of classroom learning to a patient-care setting. Emphasizes delivery of care to multiple patients with increasingly complex healthcare needs. Prerequisite: PHRMCY 545 and PHRMPR 515. Credit/no-credit only.

PHRMPR 517 Pharmacist Provider Experience VII (1-, max. 2) Prepares students for practice as a pharmacist provider. Emphasizes application of classroom learning in a patient care setting. This is part of the Wednesday in Practice course series. Emphasizes the delivery of care to multiple patients with increasingly complex healthcare needs. Prerequisite: PHRMCY 546 and PHRMPR 516. Credit/no-credit only. Offered: ASp.

PHRMPR 541 Introductory Pharmacy Practice Experience in Institutional Health-System Setting ([1-3]-, max. 3) *Jennifer M Danielson* Prepares students for practice in institutional health-system setting. Students learn about the role of pharmacists in inpatient setting; medication use and patient safety; pharmacists' patient care process; medication knowledge; calculations; ethical, legal and professional behavior; general communication; patient education; drug information; insurance/prescription drug coverage; quality improvement. Prerequisite: PHRMCY 542. Credit/no-credit only. Offered: ASp.

PHRMPR 542 Introductory Pharmacy Practice Experience in Community Practice Settings ([1-2]-, max. 3)

Prepares students for practice in the community practice setting; medication use and patient safety; pharmacists' patient care process; medication knowledge; calculations; ethical, legal and professional behavior; general communication; patient education; drug information; insurance/prescription drug coverage; and health and wellness. Students will spend the majority of class time for this course at a practice site. Prerequisite: PHRMCY 545 and PHRMPR 515. Credit/no-credit only. Offered: ASp.

PHRMPR 561 Core Community Pharmacy Advanced Pharmacy Practice Experience (7)

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a community pharmacy care setting. Each experience will be six weeks in length and will primarily involve patient care activities. Prerequisite: successful completion of all didactic and laboratory coursework in the UW School of Pharmacy professional curriculum. Credit/no-credit only. Offered: AWSpS.

PHRMPR 562 Core Ambulatory Care Advanced Pharmacy Practice Experience (7)

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a primary or specialty care clinic setting. Each experience will be six weeks in length and will primarily involve patient care activities. Prerequisite: successful completion of all didactic and laboratory coursework in the UW School of Pharmacy professional curriculum. Credit/no-credit only. Offered: AWSpS.

PHRMPR 563 Core General Medicine Acute Care Advanced Pharmacy Practice Experience (7)

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a general medicine acute care setting. Each experience will be six weeks in length and will primarily involve patient care activities. Prerequisite: successful completion of all didactic and laboratory coursework in the UW School of Pharmacy professional curriculum. Credit/no-credit only. Offered: AWSpS.

PHRMPR 564 Core Health System Pharmacy Advanced Pharmacy Practice Experience (7)

Advanced pharmacy practice experience focusing on providing patient-centered care to patients in a health system acute care setting. Each experience

will be six weeks in length and will primarily involve patient care activities. Prerequisite: successful completion of all didactic and laboratory coursework in the UW School of Pharmacy professional curriculum. Credit/no-credit only. Offered: AWSpS.

PHARMACY REGULATORY AFFAIRS**PHRMRA 524 Introduction to Clinical Trials (3) D.**

Hammond, E. Hayashi Introduces the major concepts under which clinical trials are designed to run. Focuses on the phases of clinical trials, the role of the Food and Drug Administration, Institutional Review Boards, the Code of Federal Regulations and ethical principles. Addresses study design and statistical concepts. Offered: A.

PHRMRA 525 Implementation and Conduct of Clinical Trials (3) D.

Hammond, E. Hayashi Outlines the work of carrying out a clinical trial including the complex work of study initiation, issues of site and data managements, preparation of the final report and study close out, as well as the details that control the study conduct. Offered: W.

PHRMRA 526 Project Management and the Business of Clinical Trials (3) D.

Hammond, E. Hayashi Addresses the business dimension of clinical trials, including the principles of project management, planning, analysis, contingency and follow-up within the context of clinical trials that involve a large number of tasks and people responsible for parts of the overall study. Offered: Sp.

PHRMRA 527 International Regulatory Affairs (3)

Develops an understanding of international differences in the regulation of design, manufacture, and post-marketing surveillance of medical products relative to U.S. Food and Drug Administration requirements. Prerequisite: PHARM 504. Instructors: Hammond Offered: A.

PHRMRA 528 Medical Risk Analysis and Management (3) Karp

Examines the principles and application of risk management methods in the design, manufacture, and marketing of medical products. Offered: A.

PHRMRA 536 Skills for the Regulatory Affairs Professional (2) Rose

Covers essential skills in

regulatory affairs and includes an overview of local medical products companies. Offered: A.

PHRMRA 545 Statistical Topics for Biomedical Regulatory Affairs Professionals (3) Applies statistical techniques to meet medical product regulatory commitments including biosimilars, product comparability, design and continued process verification. Prerequisite: introductory statistics. Offered: W.

PHRMRA 546 Technical Writing for the Medical Products Industries (3) *Teal* Presents up-to-date information and strategies for effective technical communication within the medical product industries. Addresses the appropriate and correct use of the English language, information design, and the use of computer technology in producing professional documents. Emphasizes communicating technical information to a variety of stakeholders. Offered: A.

PHRMRA 548 Biomedical Regulatory Affairs Practicum ([1-9]-, max. 9) *Feagin* Provides a practical experience to ensure that participants are able to shepherd new medical products (drug, device, biologic) through regulatory, clinical, and quality

assurance aspects. Includes a project and final report. Offered: AWSpS.

PHRMRA 550 Advanced Technical Writing for Biomedical Regulatory Affairs (2) Further examines communications with attention to best written practices. Provides an intensive review of common editing and advanced strategies for crafting highly reliable and effective documentation. Prerequisite: PHRMRA 546 or permission of instructor. Instructors: Teal Credit/no-credit only. Offered: Sp.

PHRMRA 554 Advanced Medical Products Regulation I (2) *Hammond* Provides an in-depth exploration of regulatory issues primarily related to non-clinical and clinical aspects of medical product development. Offered: W.

PHRMRA 560 Short Course in Multinational Biomedical Regulatory Affairs (2, max. 30) *Hazlet* Presents three medical products registration countries or groupings (for instance, European Union, World Health Organization) . Locale based on program impact, unique features, or recent or controversial regulatory issues.

PHRMRA 595 Special Topics in Regulation (1-6, max. 24) Offered: AWSpS.

EVANS SCHOOL OF PUBLIC POLICY AND GOVERNANCE

PUBLIC AFFAIRS EXECUTIVE MPA

PA EX 502 Executive Decision Making (3) Examines multiple ways in which analysis can support good decision making by leaders. Examines the normal heuristics managers and leaders use and looks at the role of data analysis, modeling, and expert judgment in management and leadership.

PA EX 503 Strategic Financial Management I (4) Introduction to state and local public finance and nonprofit financial management and analysis; political context and economic forces causing fundamental shift in resources and types of financing for public service; fundamental concepts of financial statements, their nature, and use in the public and nonprofit sectors.

PA EX 504 Executive Economics (3) Explores basic principles of economics needed by executives to become critical consumers of economic analysis, recognizing when and how it is pertinent to decision-making.

PA EX 505 Strategic Financial Management II (3) Focuses on strategic financial management; alternative forms of organizational financial structure; analytic skills and managerial applications of financial accounting and budgeting, techniques of financial analysis, performance budgeting, and debt management; strategic finance linked to contracting, multiple forms of privatization, social enterprise, and managing multiple revenue streams.

PA EX 506 Improving Organizational Performance (3) Integrates organizational mission with the culture using effective communications, outcomes assessments, and other tools for a citizen-oriented approach that relies on modern marketing methods.

PA EX 507 Values and Integrity (3) Provides a personal and value context from which to use the framework and methods to sustain a personal and institutional mission. Examines ranges of intelligence

and learning styles to create a foundation of self understanding for leadership strength and integrity.

PA EX 508 Managing People (3) Focuses on how to build a humane and fair workplace consistent with the laws that govern modern employment. Examines critical moments of building a strong culture through evaluation, promoting, firing, discrimination, work force succession, and intergenerational leadership.

PA EX 509 Leading Across Boundaries (3) Examines the modern challenges of leading across complex networks of institutions and stakeholders, examining institutional, national, sectoral, and cultural boundaries. Examines these challenges in the context of globalization and the emergence of multi-sectoral and multi-cultural networks of governance.

PA EX 510 Strategic Negotiations (4) Explores a theoretical framework for negotiations with an equal emphasis on developing negotiation skills through role-plays. Focuses on techniques and nuances of negotiation that are most useful for a manager working in a complex, dynamic environment with multiple stakeholders.

PA EX 511 Strategic Communication (3) Focuses on effective communication, highlighting the advocacy and motivation facet of leadership. In order to understand elements of persuasive communication, emphasizes concepts of negotiation analysis; power and dependence, perceptions of conflict, and finding mutual gains.

PA EX 512 Strategic Policy-Making (4) Examines how managers can expertly function at the intersection of politics, policy, and the wishes of the public.

PA EX 513 Leading for a Legacy (3) Explores the nature of human culture and values and how they relate to human legacy by impacting the quality of humans in an organization and how legacy grows from the values of the trusteeship and stewardship.

PUBLIC POLICY

PUBPOL 201 Introduction to Public Policy and Governance (5) I&S Provides an introduction to policy analysis, governance, and public service. Students learn how individuals organize for common purposes, and design, implement, analyze, and evaluate policy. Students examine how policy decisions emerge and how the values of public, nonprofit, and private sector leaders and institutions affect decisions and implementation.

PUBPOL 301 Truth, Evidence, and Public Policy Analytics (5) I&S, QSR Sound public policy and governance decisions rely on having evidence to support conclusions, as well as having an understanding of the extent of certainty regarding the available evidence. Students will learn qualitative, statistical, experimental, and mixed methods to evaluate: the origins of policy; the management, implementation, and administration of public programs; and the intended and unintended impacts of public policies. Prerequisite: PUBPOL 201; and one of the following: STAT 220, STAT 221/CS&SS 221/SOC 221, or STAT 311.

PUBPOL 313 Evidence-Based Policy Implementation (5) I&S Explores the multidimensional challenge of turning policy and program intentions into valued results on the ground. Understanding why implementation can fall short of expectation requires an understanding of how public/nonprofit organizations work; including their mission, resources, collaborators, and results measurement. Examines the role that evidence can play in service of democratic governance and policy effectiveness. Recommended: PUBPOL 201

PUBPOL 321 Decision-making, Behavior, and Policy Design (5) I&S Provides a foundation in the application of decision theory and behavioral science to study public policy problems. Students learn how cognition, heuristics, biases, emotion, and social dynamics interact in decision-making, and how context and framing shape decisions. Students learn how decision-making influences the effect of public policies on the equity and efficiency of the production and distribution of goods and resources. Prerequisite: PUBPOL 201.

PUBPOL 355 Special Topics in Nonprofits (3-4, max. 12) Covers various topics regarding nonprofit essentials.

PUBPOL 403 Professional Leadership (4) Cultivates practical skills required to lead within various organizational contexts: managerial strategies for public, nonprofit, and business organizations are developed through case studies and guest speakers. Focuses on analytical and ethical approaches to problem solving and the communication skills needed for effective leadership in any career.

PUBPOL 499 Topics in Public Policy (3-5, max. 6) I&S Examines selected issues of importance in all areas of public policy. Focus on in-depth analysis of vital public policy issues and the integration of economic, political, and administrative perspectives on them. Offered: jointly with POL S 404.

PUBPOL 501 Legislative Relations (4) Studies role of legislative bodies in American public policy making. Builds on case studies and focuses on tactics, constraints, and options involved in working within a legislative process to achieve public policy goals.

PUBPOL 502 Strategy for Public Leaders (4) Explores the design and execution of strategy in public life. Covers concepts and practical tools for making strategy, including situational assessment, strategy design, implementation, and reassessment and revision.

PUBPOL 503 Executive Leadership (4) Cultivate the practical skills required to lead within various operational contexts. Managerial strategies for addressing problems in public, not-for-profit and business organizations will be examined through case studies, general readings, class-exercises, presentations by practitioners, and self-reflection. Throughout this course, students will practice the core skills required for their success as future leaders.

PUBPOL 504 Leadership Ethics in the Public Interest (4) Addresses the moral challenges facing leaders in the public and nonprofit sectors. Examines the values and virtues important to sustained ethical leadership as well as strategies to build strong institutional cultures and support ethical practices in institutions.

PUBPOL 505 The Law of Public Administration (3)

Legal framework of public administrative action in the United States, emphasizing constitutional requirements; operation of the administrative process; management of personnel, funds, and contracts; and judicial review of administrative activity.

PUBPOL 506 Ethics and Public Policy (3/4)

Teaches students to identify moral issues in public life. Special focus on the integration of moral concerns into public discussion in a manner which contributes to good policy and does not polarize issues. Discusses moral and political theory by focusing on contemporary cases and issues.

PUBPOL 507 Mediation and Negotiation (4)

Possibilities offered by mediation and negotiation methods using a mixture of cases, readings, discussions, lectures, and guest speakers. Use of negotiation and mediation techniques to resolve disputes and disagreements over public-policy issues.

PUBPOL 509 Managing People in Public and Nonprofit Agencies (4)

Explore the fundamentals of managing people with a specific emphasis on managing people in nonprofit and public agencies. Covers theoretical and practical aspects of management such as: learning how to motivate a team for results; understanding key aspects of human resource law and practice; exploring how lean management can be utilized in nonprofit and government agencies; managing a diverse workforce, and managing in a union environment.

PUBPOL 510 Foundations of American Democracy (4)

Examines the fundamental values such as equality, liberty, dignity, freedom, and autonomy that individuals justify and shape American political culture and institutions. Focuses upon the philosophical and religious foundations of these values and examines the relations among them as well as how they influence American political culture, institutions, and conflict.

PUBPOL 511 Managing Politics and the Policy Process (4)

Examines broad aspects of organizational life and orients students to key internal and external challenges and opportunities of managing public and nonprofit organizations. Main topics include organizational mission, values, communication,

culture, organizational environment and the policy process.

PUBPOL 512 Managing Organizational Performance (4)

Addresses questions of organizational design, personnel, and operations management to equip students with skills to perform effectively in mission-driven organizations. Core topics include organizational design, inter-organizational networks, human resources and staff management, improving service delivery and production flows, measuring and managing for performance, and ethical leadership. Prerequisite: permission of instructor; recommended: PUBPOL 511

PUBPOL 513 Public Policy Analysis (4)

Equips students to rigorously assess policy responses to public problems, through defining problems, devising alternative solutions, clarifying stakes in choices, predicting impacts of choices. Skills developed by working on specific policy problems. Assumes familiarity with statistics, microeconomic theory, and institutions and processes of American government. Prerequisite: permission of instructor; recommended: PUBPOL 516 , PUBPOL 517

PUBPOL 514 Psychology for Policy Analysis (4)

Examines basic concepts in social psychology, judgment and decision making, and behavioral economics. Explores how these concepts can be applied to the design, implementation, and evaluation of successful policy.

PUBPOL 515 Decision Making for Public Managers (3)

Considers decision making from normative, prescriptive, and descriptive perspectives. Emphasizes individual decision making, with some discussion of organizational decision practice. Focuses on decision analysis; presents tools for structuring decisions; and considers the role of analysis as a basis for negotiation.

PUBPOL 516 Economics for Policy Analysis and Management I (4)

Examines the use of microeconomics in policy analysis. Includes a review of supply, demand, and how government actions (e.g., taxes, subsidies) affects economic efficiency in a competitive market. Develops a deeper understanding of consumer choice as a function of preferences and constraints - the building blocks of demand - and examine how changes in constraints

or opportunities via public policy affects choices.
Recommended: elementary economics

PUBPOL 517 Economics for Policy Analysis and Management II (4) Serves to deepen student understanding of microeconomic theory with a focus on understanding the economic analysis of market failures and on developing policies to address them. Prerequisite: PUBPOL 516 or permission of instructor.

PUBPOL 518 Applied Cost Benefit Analysis (4) Explores the use of benefit-cost techniques for analyzing policy, regulatory, and public investment decisions. Topics to include discounting, estimating demand in primary and secondary markets, risk and uncertainty, and nonmarket valuation. This widely-used applied economics tool will be mastered through lecture, applied problem-solving and a benefit-cost analysis project. Prerequisite: PUBPOL 516 and 517, or permission of instructor.

PUBPOL 519 Law and Economics (2-4, max. 4) Examines the applications of Law and Economics to: torts, property, contract, and criminal law; intellectual property, tobacco litigation, employment law, human organ sales, and U.S. regulatory design. Offered: jointly with LAW A 561.

PUBPOL 520 Intergovernmental Relations (4) Comparative study of the issues involved in implementing government programs across multiple jurisdictions. Issues of accountability, feasibility, politics, and constitutional limits are examined by focusing upon various methods used to implement programs across federal, state, regional, and international jurisdictions.

PUBPOL 521 Managing Public Grants and Contracts (4) Public organizations are increasingly reliant on partners and contractors for the delivery of public services, using a variety of means to engage these partners, including grants and contracts. This course explores how to best design, manage, and evaluate contracts/grants to improve performance, including the process through which contracts and grants are managed, and how to effectively evaluate performance to inform future partnerships.

PUBPOL 522 Financial Management and Budgeting (4) An introduction to financial and management accounting, and an overview of public and nonprofit

budgeting systems. Covers tools and techniques for budget analysis and the use of financial information in managerial decision making.

PUBPOL 523 Advanced Budgeting in the Public Sector (4) Covers more advanced topics in governmental budgeting. Provides an overview of the functions, expenditures, and revenues of federal, state, and local governments. Recommended: PUBPOL 522, or instructor permission. Recommended: PUBPOL 522

PUBPOL 524 Public Sector Financing (4) Covers financial management in public agencies, with the primary focus on state and local government. Prerequisite: PUBPOL 522, or instructor permission.

PUBPOL 525 Qualitative Field Methods and Analysis (4) Provides a review of qualitative field research methods, exposure to writing from the field, and opportunities to try practicing fieldwork. Emphasizes study design, case selection, interviewing techniques, survey design, and field notes. Addresses coding, analysis, writing, and presenting findings.

PUBPOL 526 Program Evaluation (4) Introduction to the theory, practice, and politics of program and policy evaluation. Covers the major types of evaluation, including theory of change, implementation and process evaluation, and impact evaluation, as well as quantitative and qualitative data collection techniques, the ethics of evaluation, and engaging stakeholders in evaluation.

PUBPOL 527 Quantitative Analysis I (4) Two-quarter sequence explores how to formulate research questions, gain experience with conducting research, and learn how to assess which statistical tools or research methods are appropriate to answer different types of policy or management questions. Covers probability, descriptive statistics, hypothesis testing, and confidence intervals.

PUBPOL 528 Quantitative Analysis II (4) Second quarter of a two-quarter sequence aimed at helping students become informed users and critical consumers of research and statistical analysis. Combines material on research design and causal inference methods with tools for multivariate analysis. The multivariate analysis methods include correlation and an introduction to multivariate

regression. Prerequisite: permission of instructor; recommended: PUBPOL 527

PUBPOL 529 Advanced Quantitative Methods for Policy Analysis (4) Teaches students more advanced quantitative methods applied to program evaluation and policy analysis. Students develop ability to do independent research by developing skills in assessing data qualities, research design, and appropriate application of a variety of quantitative methods. Prerequisite: permission of instructor; recommended: PUBPOL 527, PUBPOL 528

PUBPOL 531 Development Management and Governance (4) Addresses the connections linking governance systems, the management and implementation of public policies, and policy and program outcomes, with focus on capacities and strategies of a broad array of actors engaged in international development. Covers management challenges faced by government bureaucracies and civil society actors, the changing landscape of development assistance, public sector reforms, and human rights in development context.

PUBPOL 532 International Development Capstone (2) Provides students the opportunity to interact with professionals in the field during panel discussions. Students produce a short summative paper as a final project. Students will have completed the preceding International Development Certificate Program (IDCP) core courses: PUBPOL 531 and PUBPOL 533.

PUBPOL 533 Economics of International Development (4) Economics of International Development critically examines the validity and reliability of most common economic development indicators of poverty, growth and inequality, and provides an overview of, and basic literacy around, international macroeconomic topics including debt, aid, trade and financial markets.

PUBPOL 534 Food and Agricultural Policy in Developing Countries (4) Provides an understanding of the role of agriculture in economic development. Examines frontier policy issues in developing countries related to food security and agricultural production. The emphasis is on developing a nuanced understanding of contemporary food and agricultural policy issues, with a firm grounding in theory and history.

PUBPOL 535 American Foreign Policy (4) Examines how the U.S. foreign policy process works, emphasizing formation, content, and implementation of post-Cold War U.S. foreign and national security policy, with emphasis on current foreign and national security policy.

PUBPOL 536 Diagnosing and Reforming Corrupt Systems (4) Corruption - one of the greatest obstacles to social, economic, and political development around the world - has become a focal point for efforts to improve public sector performance. This course explores strategies for the prevention and mitigation of corruption across a range of contexts and takes an action-oriented approach, drawing lessons from corruption cases and focusing on what approaches might be undertaken under different circumstances.

PUBPOL 537 Topics in International Affairs (3-5, max. 20) Examines selected topics of interest and import in foreign policy and international affairs or development. Focuses on an in-depth analysis of policy issues considering economic, institutional, and political dimensions.

PUBPOL 538 International Organizations and Ocean Management (3) Survey of the manner in which international regimes and organizations attempt to manage and regulate the uses of the ocean. Primary emphasis is on the analysis of the effectiveness of regimes and of processes that support or constrain these organizations. Prerequisite: SMEA 500 or permission of instructor. Offered: jointly with SMEA 507.

PUBPOL 539 Values in International Development (4) Examines and clarifies international development values, including underlying theories of justice on which they seem to be built, the ways in which they are justified to stakeholders, the general public, and impacts they have upon people, especially the poorest and most vulnerable.

PUBPOL 540 Advanced Policy Analysis (4) Provides a more critical view of policy analysis by taking a deep dive into topics related to policy analysis and questioning underlying assumptions while conceptualizing policy analysis within societal structures. Recommended: PUBPOL 513.

PUBPOL 541 The Role of Nongovernmental Organizations in International Development (4)

Explores issues faced by nongovernmental organizations (NGOs) working in developing and transition countries, including perspectives from international and indigenous NGOs and community-based organizations. Topics covered include relationships between NGOs and the state, the market, intended beneficiaries, and funder relationships. Key issues discussed include the challenges of funding, participation, advocacy humanitarianism, and social change.

PUBPOL 542 Computational Thinking for Governance Analytics (4) Combines data science and computational social science in a policy studies structure. Introduces algorithmic thinking and develops good practices in reproducibility for professional work in policy research.

PUBPOL 543 Visual Analytics for Policy and Management (4) Provides students with visualization tools to show insights to political or scientific communities, while presenting different strategies to avoid biased interpretations. Emphasis on the building of templates to produce information.

PUBPOL 544 Tax Policy and Analysis (4) Provides theoretical and empirical tools to analyze current tax policy and proposed tax reforms. Prerequisite: either PUBPOL 517 and PUBPOL 528, or permission of instructor

PUBPOL 547 Water Resource Economics (4) Explores the economics of water resources, including static and dynamic efficiency for consumers and producers and other topics concerned with water quality. Explores effects of climate change on water resources, and economic approaches to mitigate these effects.

PUBPOL 550 Managing Nonprofit and Philanthropic Organizations (4) Focuses on the roles and practices of nonprofit and philanthropic organizations. Provides an overview of topics relevant to nonprofit and social sector organizations, including theoretical foundations, legal forms, governance and leadership, cross-sector relationships, revenue streams and fundraising, and policy advocacy.

PUBPOL 551 Measuring Social Impact: Advanced Program Design and Evaluation (4) Topics covered

include applying theory of change and design thinking to evaluation; formative and process evaluation; qualitative and participatory approaches; new approaches in quasi-experimental and experimental methods, and evaluating advocacy and collective impact. Prerequisite: instructor permission; recommended: PUBPOL 526

PUBPOL 552 Philanthropy and Society (4) Provides students a holistic background of the philanthropic sector. Begins with an in-depth analysis of history and context and ends with a discussion of current strategies and approaches to giving by foundations. Builds in sequence: history, context, sub-sectors, accountability, and results.

PUBPOL 553 Nonprofit Financial Management (4) Provides an understanding of the financial framework on nonprofit organizations. Focuses on the financial principles of management of nonprofits, with an emphasis on financial reporting, strategic financial planning, managerial decision-making and budgeting.

PUBPOL 554 Nonprofit Organizations and Public Policy (3) Examines the changing role of nonprofit organizations in American society. Selected policy topics include privatization, for-profit/nonprofit competition, public-private partnerships, tax policy, and new sources of revenues.

PUBPOL 555 Topics in Nonprofit Management, Philanthropy, and Social Enterprise (3-5, max. 20) Covers a range of topics applied to nonprofit, philanthropic, and social enterprise organizations.

PUBPOL 556 Public-Private Partnerships (4) Provides a comprehensive overview and examination of partnerships and their implications for public policy and nonprofit and public management. Examines the diverse array of partnerships in the UW and abroad and the management challenges involved in the development and implementation of different partnership strategies.

PUBPOL 557 Financial Modeling for the Public Sector (4) Covers financial modeling concepts at the core of public sector finance including: cash flow (or revenue) forecasting and proforma financial statements, capital life-cycle cost analysis, portfolio

valuation and risk management, debt sizing, structure, and refinancing.

PUBPOL 558 Collaboration and Management Across Sectors (4) Organizations from different sectors (public, business, nonprofit) increasingly work together to achieve unique, collaborative outcomes. Managing cross-sector relationships presents dynamic process and governance challenges that go well beyond the difficulties of managing within an organization. Explores the opportunities and risks involved in working across organizational boundaries.

PUBPOL 559 Advanced Performance Management: Quadruple Bottom Line Lab (4) Examines the Quadruple Bottom Line as a conceptual framework and emerging set of tools for a more comprehensive and balanced accounting of organizational and institutional behavior and outcomes related to economic efficiency, social equity, environmental sustainability, and creative cultural vitality.

PUBPOL 560 Inequality, Governance, and Policy in the Metropolitan Region (3/4) Explores national/local urban policy concerning the major problems confronting cities and metropolitan regions today. Economic globalization, income inequality, and metropolitan decentralization shape the urban agenda, the context for urban policy, and the analytic focus of the course. A project allows the exploration of strategies for intervention. Offered: jointly with URBDP 560.

PUBPOL 561 Urban Economics and Public Policy (4) Examines the rationale for and consequences of public intervention in urban land, housing, and transportation markets through land use regulations such as zoning and growth management, infrastructure investments, and fiscal policies to manage urban development and traffic. Prerequisite: successful completion of an introductory microeconomics course or permission of the instructor. Offered: jointly with URBDP 561.

PUBPOL 562 Immigration Policy (4) Builds foundational knowledge of American immigration policy, providing students with the conceptual and analytical tools required to critically evaluate any and all arguments made in current policy debates, and to move toward making unique and original contributions to those debates.

PUBPOL 563 Intergroup Relations and Public Policy (4) Explores how social psychological research on intergroup relations is pertinent to various aspects of public policy. Includes historical and current perspectives. Examines how the literature describes how individuals perceive, judge, and feel about individuals from various social groups. The groups discussed ranges from minimal groups to classic social groups.

PUBPOL 564 Housing and Social Policy (4) Provides an overview of the field of housing policy and its interrelationships with social problems in the United States. Explores various dimensions of housing problems with an emphasis on housing affordability and examines the primary policy tools used to respond to housing problems.

PUBPOL 565 Topics in Urban Affairs (3-5, max. 20) Examines various topics of public importance in urban policy. Integrates the political, managerial, economic, and technical dimensions of these issues.

PUBPOL 566 Community Economic Development (4) Explores the relationship between local community economic development, environmental sustainability, cultural vitality, and trend in regional and national economics, with specific focus on how to make community and economic investments that yield development outcomes that contribute to economic, equitable, environmental, and cultural vitality.

PUBPOL 567 Community Engagement and Urban Governance (4) Investigates interactions between citizen participation and efforts to measure and improve policy and program performance in large cities. Develops analytic frameworks and practical strategies for sustaining and enhancing participation and performance.

PUBPOL 568 Social Justice and Public Policy (3/4) Examines the values of social justice that motivate action in the public arena; thinks about how those values create concerns and solutions; and explores issues of equity and liberty, of balancing the rights of the individual, the common good, and redistribution.

PUBPOL 569 Race and Public Policy (3-4) Analyzes the way in which the persistent problem of race is expressed in the formation and implementation of social and public policy.

PUBPOL 570 Foundations of Social Policy (3)

Examines major institutions and programs in social policy including: income maintenance, social services, education, and healthcare. Focuses on American social policy with some attention to comparative welfare state development. Includes extensive discussion of different policy strategies to address social policy problems.

PUBPOL 571 Education, The Workforce, and Public Policy (4)

Examination of policy issues involving education, training, the economy, and the development of the nation's human resources. Relationship between education, training, and work, and among the various levels of the education system, underutilized workers, race and gender issues, and the role of education and training in economic development. Offered: jointly with EDLPS 563.

PUBPOL 572 Race and Equity in Policy and Governance (2, max. 4)

An introduction for understanding race and equity in policy and governance. Power, privilege, and disadvantage are distributed based on race, skin color, and ethnicity. Develop the ability to identify and critique racist or racialized policies and management practices; examine your own experience of race, privilege, and oppression; and learn to use tools for increasing racial equity and inclusion in public, nonprofit, and private sectors. Credit/no-credit only.

PUBPOL 573 Topics in Education and Social Policy (3-5, max. 20)

Examines various issues of public importance in the areas of education and social policy. Focuses on in-depth analysis of relevant issues and the integration of the economic, administrative, and political dimensions of these issues.

PUBPOL 574 Economics of Race and Inequality in the United States (3/4)

Covers the history of racial inequality over the past century, theories of the causes, wage determination and discrimination in employment and pay, inequalities in education and human capital development, and residential segregation and its consequences. Discusses the effectiveness and limitations of policy response to racial inequality.

PUBPOL 575 Taxes and Social Policy (4) Examines major areas of social policy that interact with the tax

system. Prerequisite: either PUBPOL 517 and PUBPOL 528, or permission of instructor.

PUBPOL 576 Poverty and Anti-Poverty in the United States (4)

Examines the nature and extent of poverty in the United States, its causes and consequences, and the antipoverty effects of public policies.

PUBPOL 577 Economics of Health Policy (4)

Uses an economic perspective to examine a variety of issues related to the provision of medical care in the United States. Topics include medical care demand, the role of health insurance, the health and financial consequences of being without insurances, health care spending, and the Affordable Care Act. Prerequisite: instructor permission; recommended: PUBPOL 517

PUBPOL 578 Asset Building for Low Income Families (4)

Explores assets and finances for low income families primarily in the United States. Identifies programs and policies targeted toward asset building and looks at evidence of their efficacy. Uses a multi-disciplinary perspective to examine the economic, social, and political contexts for these policies.

PUBPOL 579 Child Well-being and Public Policy (4)

Covers the contexts of child well-being, the arguments for government intervention during childhood, and 4-5 specific topics in child policy. Integrates theory and evidence from Developmental Psychology, Economics, Sociology, and Social Neuroscience. Focuses on US Federal, state, and local policies.

PUBPOL 582 Communicating Climate Change (4)

Surveys climate change communications and their role in achieving climate change policy goals. Assesses the ethics and science of climate change communication. Explores theories and frameworks to evaluate and improve climate change communications. Examines the role of climate change communication as a policy tool.

PUBPOL 583 Science, Technology, and Public Policy (4)

Examines the relationship between the advancement of technical knowledge, the pace of technological change, and public policies designed to induce or respond to these development. Issues of policy formulation, administrative design, and future trends; applications include biotechnology, energy,

information technology, global warming, robotics, national security, homeland security, and space exploration.

PUBPOL 585 Topics in Science, Technology, and Public Policy (3-5) Examines relationship between advancement of technical knowledge and pace of technological change, and public policies to induce or respond to these trends. Generic issues of government research, development, and personnel training programs are addressed. Applications of policy issues involving biomedical, communications, energy, environmental, transportation, and weapons technologies.

PUBPOL 587 Native Nations, Native Lands, Native Waters (4) Examines the ways that Native Nations in the US function as self-governing sovereigns and the ways that Native Nations govern their lands and waters. Considers how Native Nations interact with other governments and the consequences of those interactions.

PUBPOL 589 Risk Assessment for Environmental Health Hazards (4) Examines context, methodologies, data, uncertainties, and institutional arrangements for risk assessment. Qualitative and quantitative approaches to identification, characterization, and control of environmental hazards to health emphasized through didactic and case studies. Offered: jointly with CEWA 560/ENV H 577; A.

PUBPOL 590 Environmental Policy (4) Presents background to establish the need for environmental policy. Explores in a comparative manner, examining both successes and failures, various strategies that have been used or proposed to protect the environment. Explores different policy tools for environmental protection, including command-and-control regulation, market-based incentives, third-party certifications, and collaborative partnerships.

PUBPOL 592 Resource Policy and Administration (4) Study based on understanding of the actors, arenas, issues, and policy communities that form the context for policy development and implementation. Exploration of approaches to policy inquiry. Consideration of implications for both policy and management. Students develop a study design for course project. Offered: jointly with SEFS 571.

PUBPOL 593 Climate Change and Energy Policy (4) Energy policy formulation and implementation with emphasis on post-1973 developments. Energy conservation programs; changing roles of oil, coal, gas, nuclear, and solar energy; institutional, environmental, and equity considerations; government research and development programs.

PUBPOL 594 Economic Approaches to Environmental Management (4) Examines the economic tools relevant to natural resource and environmental management. Tools are developed in the context of a series of resource problems, with an eye towards building intuition useful for addressing complex policy problems that do not fit neatly into textbook examples. Prerequisite: PUBPOL 516; PUBPOL 517; PUBPOL 527; PUBPOL 528

PUBPOL 595 Topics in Environmental Policy and Management (3-5, max. 20) Examines various topics of public importance in environmental policy and management. Integrates the political, managerial, and economic dimensions of these issues.

PUBPOL 596 Environmental Risks and Values (4) Explores a range of sources of risk to human health and the environment, and the values that color communication, perception, and decision making about risk. This topic lies at the core of an ongoing conversation between communities, governments, scientists, the media, and others. Topics include energy, climate, water supply, emerging technology, and environmental justice.

PUBPOL 597 Environmental Decision Analysis (4) Examines how science contributes to decisions that involve the natural environment; how science and scientists help frame debates and decisions; how scientific findings are incorporated into decision-making processes; how scientists and non-scientists deal with uncertainty about scientific questions.

PUBPOL 598 Administrative and Policy Professional Skills Workshop (1-3, max. 12) Teaches practical administrative, leadership, and analytic skills commonly required of managers and analysts in the public and nonprofit sectors. The workshops emphasize hands-on problem resolution, simulations, and actual practice. Credit/no-credit only.

PUBPOL 599 Special Topics (1-6, max. 28) Study and analysis of special topics in public affairs. Topics vary each quarter depending on curricular needs and interests of students and faculty.

PUBPOL 600 Independent Study or Research (*-) Evans School MPA students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School MPA Student Handbook for details.

PUBPOL 605 Degree Project ([1-8]-) Evans School MPA students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School MPA Student Handbook for details.

PUBPOL 608 Capstone Project Seminar ([4-8]-) Meets the capstone project requirements as part of the Evans School MPA curriculum. Students work in a supportive seminar environment facilitated by peers and faculty to complete team-based capstone degree projects.

PUBLIC POLICY AND MANAGEMENT

PPM 500 Proseminar in Public Policy and Management (1, max. 9) Engages students with faculty to discuss research in public policy and management. Provides an effective means to become familiar with research agendas and opportunities in this field, and other aspects of socialization into the academic process, including teaching, grant writing, and publishing. Credit/no-credit only.

PPM 502 Research Design (4) Provides a rigorous foundation for interdisciplinary research design. Introduces iconic types of theory (predictive, interpretive, and explanatory) and the philosophical foundations underlying these. Reviews a range of methodological approaches to research: experimental and quasi-experimental, ethnographic, comparative case-study, statistical, meta-analytic, simulations, and triangulation.

PPM 504 Perspectives on Institutions (4) Prepares doctoral students for careers in research and teaching public policy, management, and leadership by introducing foundational scholarship on the major institutional forces that influence the policy

process. Examines key critiques as well as integration and application of the perspectives to public policy and management challenges.

PPM 506 Advanced Microeconomics for Policy Analysis (4) Introduction to advanced economic theory. Covers core models in consumer theory, producer theory, and public economics. Topics include: consumer choice, the theory of the firm, choice under uncertainty, neoclassical and behavioral models of inter-temporal choice, basic game theory, externalities, public goods, and an introduction to welfare economics. Recommended: multivariate calculus; intermediate microeconomic theory.

PPM 508 Public Policy Processes (4) Political science frameworks, approaches, and theories concerning development and implementation of public policies within American and other democratic political systems. Governmental behaviors and processes, including rational, political, and bureaucratic models of governmental decision making; agenda-building processes; and the role of institutions in constraining and enabling policy change.

PPM 510 Public Policy Analysis (4) Reviews public policy analysis and evaluation building on prior study of microeconomics, policy processes, research design, and statistics. Covers theoretical and interdisciplinary frameworks and applications of empirical methods to policy problems and solutions, and considers regularities in incidence, and effects of the use of alternative policy tools.

PPM 512 Data Analysis Practicum (4) Develops the methodological capacity to undertake independent research. Includes reading, critiquing, and replicating portions of selected empirical papers from a range of scholarly areas. Provides opportunities to deal with issues of research design, data limitations, measurement, model specification, and interpretation.

PPM 514 Organizations, Management, and Theory (4) Explores key theories of organizations and management employing perspectives from sociology, political science, economics, and public management. Theories are applied in the context of private, nonprofit, and public sector organizations. The course builds on the required course PPM 504 Institutional Perspectives. Recommended: PPM 504

PPM 599 Topics in Public Policy and Management (1-6, max. 16) Examines various research topics of importance in public policy and management.

PPM 600 Independent Study or Research (*) Evans School PhD students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School PhD Student Handbook for details.

PPM 603 Teaching Mentorship (2, max. 50) Evans School PhD students only. By arrangement with instructor. See current Time Schedule for link to application. Refer to Evans School PhD Student Handbook for details. Credit/no-credit only.

PPM 800 Doctoral Dissertation (*) Evans School PhD students only. See current Time Schedule for link to application. By arrangement with doctoral dissertation supervisor. Refer to Evans School PhD Student Handbook for details.

SCHOOL OF PUBLIC HEALTH

BIOSTATISTICS

BIOST 111 Lectures in Applied Statistics (1) NW

Weekly lectures illustrating the importance of statisticians in a variety of fields, including medicine and the biological, physical, and social sciences. Credit/no-credit only. Offered: jointly with STAT 111; Sp.

BIOST 290 Introduction to Biomedical Research: Study Design and Interpretation (3) NW

Introduces biostatistical concepts necessary for the interpretation, evaluation, and communication of biomedical research. Includes biomedical study design, randomization, graphical data displays, control bias, variability, confounding, interaction, and ethics of human experimentation. Students participate in group and individual projects, group discussions, and oral presentations.

BIOST 302 Forensic Genetics (3) I&S/NW, QSR Bruce

S Weir Introduces the field of forensic genetics through discussion of genetic and statistical issues emerging since the introduction of DNA profiling. Students develop the skills to interpret the evidence of matching genetic profiles; to perform calculations relevant for parentage determination; the identification of remains; and to consider the implications of familial searching of DNA databases. Prerequisite: either BIOST 310, STAT 220, STAT 221/CS&SS 221/SOC 221, STAT 311, Q SCI 381, or Q METH 201. Offered: jointly with PHG 302; W.

BIOST 310 Biostatistics for the Health Sciences (4)

QSR Introduction to statistics for students who plan to major in health sciences. Uses case studies from popular and scientific literature to study topics such as data description, study design, estimation, hypothesis testing, regression. Emphasizes concepts and interpretation rather than computation. Students should be able to interpret graphs and use concepts covered in 2nd-year algebra, including linear equations, logarithms, summation notation. Offered: AWSp.

BIOST 311 Regression Methods in the Health Sciences (4) QSR Introduces regression methods for analysis of continuous, binary, and time-to-event

(survival) data. Covers linear regression; logistic regression; and proportional hazards regression, all at an introductory level. Makes use of examples drawn from the biomedical and health sciences literature. Prerequisite: BIOST 310.

BIOST 401 Computational and Applied Genetic Epidemiology (5) QSR Alison Fohner

Advanced topics in genetic epidemiology for undergraduate students, focusing on hands-on introduction to computational analysis of population genetics and individual health data using R programs. Students will investigate how genes and environment interact to cause disease and health-states and to inform public health interventions. Recommended: PHG 301 or prior background in basic genetics and statistics. Offered: jointly with EPI 410/PHG 401; Sp.

BIOST 405 Introduction to Health Data Analytics (3)

Covers the process of and tools used in evaluating data using analytical and logical reasoning to examine each component of the health data. Offered: jointly with HIHIM 405.

BIOST 406 Research Design and Statistics for HIHIM (3)

Explores healthcare and research statistics. Addresses hospital statistics, used to calculate usage levels of healthcare resources and outcomes of clinical operations, and research statistics, used to summarize and describe significant characteristics of a data set, and to make inferences about a population based on data collected from a sample. In addition, principles of research are described, including the Institutional Review Board process. Offered: jointly with HIHIM 425/STAT 406.

BIOST 425 Introduction to Nonparametric Statistics (3) NW

Overview of nonparametric methods, such as rank tests, goodness of fit tests, 2 x 2 tables, nonparametric estimation. Useful for students with only a statistical methods course background. Prerequisite: Either STAT 311 and STAT 340, STAT 390, or STAT 391. Offered: jointly with STAT 425.

BIOST 499 Undergraduate Research (1-10, max. 30)

Supervised reading programs; library and field research; special projects.

BIOST 502 Introduction to Statistics in Health Sciences (4) Description and examples of common concepts in biostatistics. Probability, point and confidence interval estimation, hypothesis testing including two-sample and paired t and chi-square tests, introduction to simple linear regression. Emphasizes applications in health sciences. Offered: W.

BIOST 503 Application of Statistics to Health Sciences ([0-3]-, max. 3) Standard statistical techniques presented with examples drawn from the health sciences literature. Critical interpretation of research results, and introduction to the computer for data processing and statistical analysis. Prerequisite: BIOST 502 or equivalent. Offered: Sp.

BIOST 504 Foundations of Public Health for Biostatistics (2) Introduces students to key foundational concepts in Public Health and highlights the role of biostatistical methods and applications. Prerequisite: BIOST 522 or STAT 512; and BIOST 514 or BIOST 517 (can be taken concurrently) Credit/no-credit only. Offered: A.

BIOST 505 Writing, Presentation, and Collaboration Skills for Biostatistics (2) Develops communication and collaboration skills for biostatisticians working as part of a biomedical research team. Topics include effective dialogue with collaborators; summarizing scientific ideas and questions and translating these to targets of inference; collaborating to develop appropriate study designs and statistical analyses; communicating statistical analysis methods and results in clear written summaries and graphical displays. Prerequisite: BIOST 514; and BIOST 515, which may be taken concurrently; recommended: at least one quarter of both mathematical statistics and applied Biostatistics at the graduate level. Credit/no-credit only. Offered: W.

BIOST 507 Health Data Analytics (3) *Ken White* Healthcare organizations generate a large number of clinical performance metrics. Extracted data from different data systems is used to display relevant metrics in dashboards that are meaningful to senior leadership. Statistical tools may determine if differences in performance are significant and what factors are associated with the differences. Predictive models may then be built and inputs varied to obtain performance improvements.

Recommended: beginner Excel skills. Offered: jointly with HIHIM 524; Sp.

BIOST 508 Biostatistical Reasoning for the Health Sciences (4) Provides a broad overview of biostatistical methods. Students are introduced to the data summaries and presentation, statistical inference (including hypothesis testing, p-values, and confidence intervals), sample size calculation, and modeling approaches such as linear regression analysis. Includes hands-on data analysis. Prerequisite: EPI 511 or instructor's permission Offered: W.

BIOST 509 Introduction to R for Data Analysis in the Health Sciences (2) Introduction to R for data analysis. Covers installing R; scripts; reading in data and writing output; using help files; using functions; writing functions; graphics; R packages; data manipulation; loops; permutation tests; bootstrapping; and fitting models. Prerequisite: upper-division course in statistics or permission of instructor.

BIOST 510 Biostatistics in Dentistry (3) Introduction to concepts and methods of descriptive and inferential statistics with applications in dentistry emphasized. Topics include comparison of means and proportions, hypothesis testing, confidence intervals, non-parametric methods, linear regression, and correlation. Prerequisite: enrollment in School of Dentistry or permission of instructor. Instructors: Spiekerman Offered: jointly with OHS 568; S.

BIOST 511 Medical Biometry I (4) Presents the principles and methods of data description and elementary parametric and nonparametric statistical analysis. Examples from the biomedical literature, and real data sets are analyzed by the students after a brief introduction to the use of standard statistical computer packages. Statistical techniques covered include description of samples, comparison of two sample means and proportions, simple linear regression and correlation. Offered: A.

BIOST 512 Medical Biometry II (4) Multiple regression, analysis of covariance, and an introduction to one-way and two-way analyses of variance: including assumptions, transformations, outlier detection, dummy variables, and variable selection procedures. Examples drawn from the

biomedical literature with computer assignments using standard statistical computer packages.

Prerequisite: either BIOST 511, BIOST 517, PHI 512, or equivalent. Offered: W.

BIOST 513 Medical Biometry III (4) Analysis of categorical data including two sample methods, sets of 2 x 2 tables, R x C tables, and logistic regression. Classification and discrimination techniques. Survival analysis including product limit estimates and the Cox proportional hazards model. Prerequisite: BIOST 512 or permission of instructor. Offered: Sp.

BIOST 514 Biostatistics I (4) Presentation of principles and methods of data description; graphics; point, confidence interval estimation; hypothesis testing; relative risk; odds ratio; Mantel-Haenszel; chi-square test. Examples drawn from biomedical literature; real-data sets analyzed using statistical computer packages. Prerequisite: biostatistics majors or permission of instructor. Offered: A.

BIOST 515 Biostatistics II (4) Introduction to linear models; multiple regression, correlation; residual analysis; dummy variables; analysis of covariance; one-, two-way analysis of variance; randomized blocks; fixed, random effects (repeated measure, factorial designs) ; multiple comparisons . Real biomedical data sets analyzed. Prerequisite: BIOST 514, biostatistics major, or permission of instructor. Offered: W.

BIOST 516 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with EPI 535/PHG 519.

BIOST 517 Applied Biostatistics I (4) Introduction to the analysis of biomedical data. Descriptive and inferential statistical analysis for discrete, continuous, and right-censored random variables. Analytic methods based on elementary parametric and non-parametric models for one sample; two sample (independent and paired) , stratified sample, and simple regression problems. Offered: A.

BIOST 518 Applied Biostatistics II (4) Multiple regression for continuous, discrete, and right-censored response variables, including dummy variables, transformations, and interactions. Introduction to regression with correlated outcome data. Model and case diagnostics. Computer assignments using real data and standard statistical computer packages. Prerequisite: BIOST 517 or permission of instructor. Offered: W.

BIOST 519 Advanced Epidemiologic Methods I (3) *Steve Mooney* First in a series of 2 courses. Increases knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 512 and EPI 513 Offered: jointly with EPI 515.

BIOST 520 Advanced Epidemiologic Methods II (4) *Brandon L Guthrie* Second of a series of 2 courses whose objective is to deepen students' knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 515. Offered: jointly with EPI 516.

BIOST 522 Statistical Inference for Biometry I (4) This is the first in a two-course sequence that introduces the theory of statistical inference that provides foundations to common biostatistical methods. Topics of the sequence include basic concepts of probability, parametric distributions, exact and asymptotic sampling distribution of statistics, maximum likelihood estimation, unbiased estimating equations, theory of hypothesis testing and Bayesian inference. Prerequisite: either STAT 395, STAT 421, STAT 423, STAT 504 or BIOST 514 (can be taken concurrently) Offered: A.

BIOST 523 Statistical Inference for Biometry II (4) This is the second in a two-course sequence that introduces the theory of statistical inference that provides foundations to common biostatistical methods. Topics of the sequence include basic concepts of probability, parametric distributions, exact and asymptotic sampling distribution of statistics, maximum likelihood estimation, unbiased estimating equations, theory of hypothesis testing and Bayesian inference. Prerequisite: BIOST 522, or permission of instructor. Offered: W.

BIOST 524 Design of Medical Studies (3) Design of medical studies, with emphasis on randomized controlled clinical trials. Bias elimination, controls, treatment assignment and randomization, precision, replication, power and sample size calculations, stratification, and ethics. Suitable for graduate students in biostatistics and for research-oriented graduate students in other scientific fields.

Prerequisite: BIOST 511 or equivalent, and one of BIOST 513, BIOST 518, STAT 421, STAT 423, STAT 512, or EPI 512; or permission of instructor. Offered: jointly with STAT 524; Sp.

BIOST 525 Advanced Methods for Global Health III (4) *Brad Wagenaar* Focuses on applying advanced non-randomized methods to quantitatively evaluate global health implementation science questions, including a specific focus on applying difference-in-differences, interrupted time-series, and regression discontinuity designs. Assumes prior knowledge of generalized linear models and modern methods to analyze correlated data, including generalized estimating equations (GEE) and random-effects models. Prerequisite: either BIOST 540, CS&SS 560/SOC 560/STAT 560, or permission of instructor; recommended: EPI 512 and EPI 513. Offered: jointly with EPI 556/G H 537/HMS 537; Sp.

BIOST 526 Bayesian Biostatistics (3) Introduction to Bayesian methods for data analysis; Bayesian reasoning, prior elicitation, inference and decision making, and computation applied to biomedical research. Prerequisite: any course in statistics at the 400-level or higher or instructor's permission. Offered: jointly with EPI 540/PHARM 526; Sp.

BIOST 527 Nonparametric Regression and Classification (3) Covers techniques for smoothing and classification including spline models, kernel methods, generalized additive models, and the averaging of multiple models. Describes measures of predictive performance, along with methods for balancing bias and variance. Prerequisite: either STAT 502 and STAT 504 or BIOST 514 and BIOST 515. Offered: jointly with STAT 527; Sp.

BIOST 528 Advanced Methods for Global Health II (4) Presents applications of the cluster-randomized trial design to estimate the impact of interventions for a global health and implementation science audience. Covers trial design and implementation, reviews methods commonly used for analysis.

Assumes prior knowledge of generalized linear models and modern methods to analyze correlated data, including generalized estimating equations (GEE) and random-effects models. Prerequisite: either BIOST 540, CS&SS 560/SOC 560/STAT 560, or permission of instructor; recommended: EPI 512 and EPI 513. Offered: jointly with EPI 553/G H 536/HMS 536; W.

BIOST 529 Sample Survey Techniques (3) Design and implementation of selection and estimation procedures. Emphasis on human populations. Simple, stratified, and cluster sampling; multistage and two-phase procedures; optimal allocation of resources; estimation theory; replicated designs; variance estimation; national samples and census materials. Prerequisite: either STAT 421, STAT 423, STAT 504, QMETH 500, BIOST 511, or BIOST 517, or equivalent; or permission of instructor. Offered: jointly with CS&SS 529/STAT 529.

BIOST 531 Statistical Methods for Analysis with Missing Data (3) Covers statistical methods for the analysis of missing data, including likelihood-based, weighted GEE, multiple imputation, and Bayesian approaches. Uses computational tools such as EM algorithm and Gibbs' sampler. Covers both ignorable and non-ignorable missing-data mechanisms as well as cross-sectional and longitudinal study designs. Primarily uses data arising from epidemiologic studies. Offered: jointly with EPI 531.

BIOST 532 Research Ethics in the Data Sciences (2) *E. Sheppard* Exposes students to ethical issues in the conduct of biomedical research, particularly the computation, interpretation, and communication of statistics. Provides the knowledge and resources needed to practice statistics ethically in this domain. Helps students formulate justified responses to ethical challenges, and nurtures a sense of professional responsibility to take action. Credit/no-credit only. Offered: Sp, even years.

BIOST 533 Theory of Linear Models (3) Examines model structure; least squares estimation; Gauss-Markov theorem; central limit theorems for linear regression; weighted and generalized least squares; fixed and random effects; analysis of variance; blocking and stratification; and applications in experimental design. Prerequisite: STAT 421 or STAT 423 or BIOST 515; and STAT 513; and a course in matrix algebra. Offered: jointly with STAT 533; Sp.

BIOST 534 Statistical Computing (3) Introduction to scientific computing. Includes programming tools, modern programming methodologies, (modularization, object oriented design), design of data structures and algorithms, numerical computing and graphics. Uses C++ for several substantial scientific programming projects. Prerequisite: experience with programming in a high level language. Offered: jointly with STAT 534; Sp.

BIOST 536 Categorical Data Analysis in Epidemiology (4) Summary of univariate categorical data analysis; introduction to multivariate analysis of categorical epidemiologic and health sciences data using multiplicative models. Experience at interpretation; familiarity with available software programs gained by analysis of bona fide data and critiques of published analyses appearing in literature. Prerequisite: BIOST 515; EPI 513 and either BIOST 513 or BIOST 518; or permission of instructor. Offered: jointly with EPI 536; A.

BIOST 537 Survival Data Analysis in Epidemiology (4) Introduction to multivariate analysis of survival data using multiplicative models. Application to epidemiologic and health sciences studies. Familiarity with interpretation and available software computer programs gained by analysis of bona fide sets of data and critiques of published analyses appearing in the literature. Prerequisite: BIOST 536 or EPI 536. Offered: jointly with EPI 537; W.

BIOST 540 Longitudinal and Multilevel Data Analysis (3) Introduction to regression modeling of longitudinal and clustered data from epidemiology and health sciences. Interpretation and familiarity with software gained by analysis of data and critiques of published analyses. Prerequisite: either BIOST 513, BIOST 515, BIOST 518, BIOST 536, or permission of instructor. Offered: Sp.

BIOST 544 Introduction to Biomedical Data Science (3/4) Provides an introduction to biomedical data science with an emphasis on statistical perspectives, inducing the process of collecting, organizing, and integrating information toward extracting knowledge from data in public health, biology, and medicine. Prerequisite: either BIOST 511 or equivalent; either BIOST 509 or equivalent; or permission of instructor. Offered: A.

BIOST 545 Biostatistical Methods for Big Omics Data (3) This "hands-on" course introduces statistical methods for high-dimensional omics data, as well as the R programming language and the Bioconductor project as tools to extract, query, integrate, visualize, and analyze real world omics data sets. Prerequisite: BIOST 512, 514, or 517. Offered: jointly with GENOME 545/PHG 545.

BIOST 546 Machine Learning for Biomedical and Public Health Big Data (3) Provides an introduction to statistical learning for biomedical and public health data. Intended for graduate students in SPH/SOM. Prerequisite: BIOST 511 or BIOST 512 and familiarity with R. Offered: W.

BIOST 550 Statistical Genetics I: Mendelian Traits (3) Mendelian genetic traits. Population genetics; Hardy-Weinberg, allelic variation, subdivision. Likelihood inference, information and power; latent variables and EM algorithm. Pedigree relationships and gene identity. Meiosis and recombination. Linkage detection. Multipoint linkage analysis. Prerequisite: STAT 390 and STAT 394, or permission of instructor. Offered: jointly with STAT 550; Sp.

BIOST 551 Statistical Genetics II: Quantitative Traits (3) Statistical basis for describing variation in quantitative traits. Decomposition of trait variation into components representing genes, environment and gene-environment interaction. Methods of mapping and characterizing quantitative trait loci. Prerequisite: STAT/BIOST 550; STAT 423 or BIOST 515; or permission of instructor. Offered: jointly with STAT 551; A.

BIOST 552 Statistical Genetics III: Design and Analysis (3) Overview of probability models, inheritance models, penetrance. Association and linkage. The lod score method. Affected sib method. Fitting complex inheritance models. Design mapping studies; multipoint, disequilibrium, and fine-scale mapping. Ascertainment. Prerequisite: STAT/BIOST 551; GENOME 371; or permission of instructor. Offered: jointly with STAT 552; W.

BIOST 555 Statistical Methods for Spatial Epidemiology (3) Motivates the need for, and describes methods for the analysis of spatially indexed epidemiological data. Covers four major topics: clustering and cluster detection, disease mapping, spatial regression, and an introduction to

geographical information systems. Considers both point-references and spatially aggregated data. Offered: jointly with EPI 555/G H 534.

BIOST 556 Introduction to Statistics and Probability

(5) Overview of probability; conditional probability and independence; Bayes Theorem; discrete and continuous random variables including jointly distributed; key distributions including the normal and its spin offs; properties of expectation and variance; conditional expectation; covariance and correlation; Central Limit Theorem; law of large numbers; Parameter Estimation. Offered: jointly with DATA 556/STAT 556; A.

BIOST 557 Applied Statistics and Experimental

Design (5) Inferential statistical methods for discrete and continuous random variables including tests for difference in means and proportions; linear and logistic regression; causation versus correlation; confounding; resampling methods; study design. Prerequisite: STAT/BIOST/DATA 556 or instructor's permission. Offered: jointly with DATA 557/STAT 557; W.

BIOST 558 Statistical Machine Learning for Data

Scientists (5) Bias-variance trade-off; training versus test error; overfitting; cross-validation; subset selection methods; regularized approaches for linear/logistic regression: ridge and lasso; non-parametric regression: trees, bagging, random forests; local regression and splines; generalized additive models; support vector machines; k-means and hierarchical clustering; principal components analysis. Prerequisite: STAT/BIOST/DATA 557, or permission of instructor. Offered: jointly with DATA 558/STAT 558; Sp.

BIOST 561 Computational Skills for Biostatistics I

(1/2) Provides an introduction to statistical computing with R. Emphasizes good programming techniques useful in statistical analysis. Prerequisite: biostatistics and statistics graduate student. Credit/no-credit only. Offered: A.

BIOST 562 Computational Skills for Biostatistics II

(1) Provides an introduction to statistical computing with R. Emphasizes good programming techniques useful in statistical analysis. Prerequisite: either BIOST 561 or permission of instructor. Credit/no-credit only.

BIOST 563 Computing and Research (2) Provides an introduction to statistical computing with R. Emphasizes good programming techniques useful in statistical analysis. Prerequisite: either BIOST 562 or permission of instructor. Credit/no-credit only.

BIOST 565 Statistical Evaluation of Biomarkers (3)

Covers evaluation of biomarkers for diagnosis; decision-theoretic assessment tools; measures of the incremental value of a new biomarker; evaluation of risk prediction models; evaluation of biomarkers for prognosis or for guiding therapy; statistical learning for developing a diagnostic/prognostic score; and clinical trial designs for biomarker guided decisions. Prerequisite: BIOST 515; either BIOST 518 or both BIOST 512 and BIOST 513; or equivalent.

BIOST 570 Advanced Regression Methods for Independent Data (3)

Covers linear models, generalized linear and non-linear regression, and models. Includes interpretation of parameters, including collapsibility and non-collapsibility, estimating equations; likelihood; sandwich estimations; the bootstrap; Bayesian inference: prior specification, hypothesis testing, and computation; comparison of approaches; and diagnostics. Prerequisite: STAT 512 and STAT 513;BIOST/STAT 533 or STAT 421/STAT 502 and STAT 423/STAT 504; a course in matrix algebra. Offered: jointly with STAT 570; A.

BIOST 571 Advanced Regression Methods for Dependent Data (3)

Covers longitudinal data models, generalized linear and non-linear mixed models; marginal versus conditional models; generalized estimating equations, likelihood-based inference, REML, BLUP, and computation of integrals; Bayesian inference: Markov chain Monte Carlo; covariance models, including models for split plot designs; comparison of approaches; and diagnostics. Prerequisite: BIOST570/STAT 570. Offered: jointly with STAT 571; W.

BIOST 572 Advanced Regression Methods: Project

(3) Student presentations and discussion on selected methodological research articles focusing on regression modeling. Prerequisite: STAT 571. Offered: jointly with STAT 572; Sp.

BIOST 576 Statistical Methods for Survival Data (3)

Statistical methods for censored survival data arising from follow-up studies on human or animal

populations. Parametric and nonparametric methods, Kaplan-Meier survival curve estimator, comparison of survival curves, log-rank test, regression models including the Cox proportional hazards model, competing risks. Prerequisite: STAT 581 and either BIOST 515, STAT 473, or equivalent. Offered: jointly with STAT 576.

BIOST 578 Special Topics in Advanced Biostatistics (*, max. 30) Advanced-level topics in biostatistics offered by regular and visiting faculty. Prerequisite: permission of instructor. Offered: jointly with STAT 578; AWSpS.

BIOST 579 Data Analysis and Reporting (2/3, max. 12) Analysis of real data to answer scientific questions. Common data-analytic problems. Sensible approaches to complex data. Graphical and tabular presentation of results. Writing reports for scientific journals, research collaborators, consulting clients. Graduate standing in statistics or biostatistics. Credit/no-credit only. Offered: jointly with STAT 579; SpS.

BIOST 580 Seminar in Biostatistics (*, max. 30) Presentation and discussion of special topics and research results in biostatistics. Speakers include resident faculty, visiting scientists, and advanced graduate students. Offered: AWSp.

BIOST 581 Statistical Genetics Seminar (1, max. 30) Presentations and discussion of special topics and research results in statistical genetics. Students, postdocs, and faculty present their work and papers from the literature. Credit/no-credit only. Offered: AWSp.

BIOST 582 Student Seminar (1, max. 30) Student seminar series for collaboration, exchange of ideas, and exposure to different stages of performing independent research. Encourages both students and faculty to give presentations including RA work, extended class projects, master's theses, dissertation progress, data analysis, practice talks, and journal articles. Credit/no-credit only. Offered: AWSp.

BIOST 588 Special Topics in Biostatistical Practice (1-10, max. 30) Selected topics in biostatistical practice.

BIOST 590 Biostatistical Consulting (3, max. 6) Training in consulting on the biostatistical aspect of

research problems arising in the biomedical field. Students, under the supervision of a faculty member, participate in discussions with investigators leading to the design and/or the analysis of a quantitative investigation of a problem. With experience, independent associations of student and research worker are encouraged, with subsequent review by faculty of resulting design and analysis. Prerequisite: permission of instructor. Offered: AWSpS.

BIOST 595 Biostatistics Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how biostatistics is applied in a public health setting and in the formation of public health policy. Prerequisite: BIOST 514; BIOST 515; BIOST 536; BIOST 537.

BIOST 596 Biostatistics Capstone I - Project Planning (3) Project sponsors introduce students to health data analytics challenges. Students form collaborative teams, each of which writes, presents and revises a project proposal that outlines the approach and methods the group plans to use. Prerequisite: BIOST 504; BIOST 514; BIOST 515; BIOST 522; BIOST 523; BIOST 561; and BIOST 579, or permission of instructor. Credit/no-credit only. Offered: A.

BIOST 597 Biostatistics Capstone II - Project Implementation (3) Student teams implement their project proposals. At the end of the course, teams share their results in oral and written form, and prepare materials for individual portfolios. Prerequisite: BIOST 596, or permission of instructor. Credit/no-credit only. Offered: W.

BIOST 598 Techniques of Statistical Consulting (1) Seminar series covering technical and non-technical aspects of statistical consulting, including skills for effective communication with clients, report writing, statistical tips and rules of thumb, issues in survey sampling, and issues in working as a statistical consultant in academic, industrial, and private-practice settings. Prerequisite: entry code. Offered: jointly with STAT 598; ASp.

BIOST 600 Independent Study or Research (*-) Offered: AWSpS.

BIOST 700 Master's Thesis (*-) Offered: AWSpS.

BIOST 800 Doctoral Dissertation (*-) Offered: AWSps.

ENVIRONMENTAL AND OCCUPATIONAL HEALTH SCIENCES

ENV H 105 Toxic Tales: Building Skills for Academic Success through the Study of Poisons (2) *T. MAR*
Designed to help first-year undergraduate students develop the study skills necessary for success through an exploration of the environmental health sciences and toxicology. Through a series of lectures, readings, case studies, group discussions, and student presentations, students are introduced to, master, and demonstrate a variety of learning strategies. Offered: Sp.

ENV H 111 Exploring Environment and Health Connections (3) *I&S/NW*
Introduction to environmental health concepts. Examines current events to illustrate and better appreciate the relationship between environment and health and to explore whether an environmental condition is or is not an important threat to health. Emphasizes the roles of environmental scientists and related professionals. Offered: AW.

ENV H 205 Environmental Health in Media (3) *I&S*
Explores how the perspective of filmmakers and documentaries can influence the public's interpretation of environmental health issues, and examines the science and cultural norms that support both sides of the argument. Offered: Sp.

ENV H 220 Global Environmental Change and Public Health (3) *I&S Kristie L Ebi*
Humans are the primary drivers of global environmental changes that are changing the planet on the scale of geological forces. Students will be introduced to these changes and their consequences for human health and well-being, with a focus on climate change and its consequences. Offered: jointly with G H 220.

ENV H 305 Environmental Poisons and Public Health (3) *I&S/NW*
Introduces concepts and tools that help students think critically about how environmental toxicants can impact human health. Covers basic principles and core concepts from toxicology, epidemiology, exposure assessment, risk assessment and risk management through a case-based approach that focuses on a selection of

representative toxicants of current public health relevance. Offered: A.

ENV H 306 Health and Sustainability (3) *I&S/NW, DIV H. Frumkin*
Focuses on the intersection of human health and environmental sustainability. Introduces core concepts of sustainability (for health sciences students) and public health (for environmental studies students) and explores the intersections of health and sustainability in specific domains including energy, transportation, the built environment, food systems, and chemicals. Emphasizes a systems thinking approach to formulating solutions. Prerequisite: any of the following: BIOL 118, BIOL 180, CHEM 120, CHEM 142, or CHEM 145. Offered: Sp.

ENV H 310 Green Chemicals, Green Products, Green Processes: Crafting a Less Toxic World (3) *I&S/NW D. KALMAN*
Presents green chemistry in the context of social impact and public health. Focuses on the relationship between the science and application of chemistry, and the conditions of life that affect everyone's health, particularly in the developed world. Prerequisite: CHEM 142 or CHEM 120; recommended: either CHEM 220 or CHEM 237; either one ENV H or SPH course.

ENV H 311 Introduction to Environmental Health (3) *I&S/NW*
Relationship of people to their environment, how it affects their physical well-being and what they can do to influence the quality of the environment and to enhance the protection of their health. Emphasis on environmental factors involved in transmission of communicable diseases and hazards due to exposure to chemical and physical materials in our environment. Offered: ASp.

ENV H 320 Introduction to Technical Communication in Environmental Health (5)
Written and oral communication for environmental health professionals. Principles of effective writing for technical articles, proposals, and reports with attention to structure, clarity, style, and language usage. Students learn to translate complex technical information for broader audiences. Offered: W.

ENV H 405 Toxic Chemicals and Human Health (3)
Examines the basic principles of toxicology and the effects of chemicals on human health. Includes mechanisms; dose/response relationships; toxicity testing, disposition in the body; modifiers of

response; chemicals and cancer; birth defects; exposures in the home, workplace, and environment; and risk assessment and government regulation. Prerequisite: minimum grade of 2.0 in BIOL 220; and a minimum grade of 2.0 in either CHEM 220, CHEM 224, CHEM 238, or CHEM 336. Offered: Sp.

ENV H 406 Disasters and Public Health (3) I&S/NW

Introduces students to the public health and environmental health consequences of common domestic disasters, and the role of public health agencies and practitioners. Students will describe and evaluate the public health community's role in preparing for and responding to disasters through case studies, discussions, debates, course lectures and readings. Offered: A.

ENV H 409 Microbiome and Environmental Health (3) NW

Introduces the current science of microbiome impacts on environmental public health. Defines human, animal, and environmental microbiomes, describes the methods used to characterize these microbiomes, and discusses the impact of microbiomes on the health of human and animal populations. Factors that have been suggested to modulate microbial populations, host-microbe interactions, and the dynamics of microbiome populations are also examined. Offered: Sp.

ENV H 417 Case Studies in Children's Environmental Health Disparities (3) DIV

Introduces students to the ways in which children are disproportionately affected by environmental health hazards. Through a series of engaging case studies, student learn the core scientific concepts of children's environmental health while exploring the social, cultural, regulatory, political, and economic factors that lead to children's health disparities. Offered: Sp.

ENV H 418 Understanding and Managing the Health Risks of Climate Change (3) *Kristie L Ebi*

The health risks of climate change are multiple and range across the public health space. Addresses current and projected health risks of climate change and the policies and measures to manage these risks as the climate continues to change. Offered: jointly with G H 418; W.

ENV H 426 Leadership in Public Health I (1) I&S, DIV

Designed for students who are serving on the School

of Public Health Dean's Advisory Council of Students (DACS) . Focuses on development of personal leadership skills and acumen. Credit/no-credit only. Offered: A.

ENV H 427 Leadership in Public Health II (1) I&S, DIV

Designed for students who are serving on the School of Public Health Dean's Advisory Council of Students (DACS) . Focuses on leading others in academic settings. Credit/no-credit only. Offered: W.

ENV H 428 Leadership in Public Health III (1) I&S, DIV

Designed for students who are serving on the School of Public Health Dean's Advisory Council of Students (DACS) . Focuses on leading others in practice/community settings. Credit/no-credit only. Offered: Sp.

ENV H 431 Environmental and Occupational Sampling and Analysis I (3) NW

Laboratory and lecture on sampling. Field and laboratory analysis of chemical and physical agents found in the occupational and ambient environments. Prerequisite: CHEM 162 ; PHYS 114 ; and ENV H 311, may be taken concurrently. Offered: A.

ENV H 432 Chemical Sampling and Analysis (5) NW

Laboratory and lecture on chemical sampling and analysis. Field and laboratory analysis of chemical and physical agents found in the occupational and ambient environments. Prerequisite: CHEM 152 Offered: Sp.

ENV H 433 Microbiological Sampling and Analysis (5) NW

Laboratory and lecture on microbiological sampling and analysis. Field and laboratory analysis of microbiological agents found in the occupational and ambient environments (water, food and air) . Prerequisite: MICROM 301 or MICROM 410; and MICROM 302 or MICROM 402. Offered: W.

ENV H 439 One Health: Human and Animal Health in a Changing Environment (3) I&S/NW *P. RABINOWITZ*

Case based exploration of the One Health concept, connecting human, animal, and environmental health. Topics include emerging zoonotic infectious diseases transmitted between humans and animals, animals as sentinels of environmental hazards, the human-animal bond, and the comparison of spontaneous diseases between human and animals. Includes two optional field trips. Prerequisite: BIOL 180. Offered: Sp.

ENV H 440 Water, Wastewater, and Health (3)

Review of water supply, water quality, and water/wastewater treatment as they relate to human health. Includes water law and regulations, source water protection, basic treatment technologies for water and waste, chemical and microbial contaminants, and recreational water. Offered: A.

ENV H 441 Food Protection (3) Study of identification and characteristics of chemicals and biological agents implicated in foodborne disease outbreaks and conditions or circumstances by which food contamination occurs. Examination of food protection activities conducted by local and state government at the retail level. Prerequisite: either CHEM 120, CHEM 142, MICROM 301, or MICROM 410. Offered: W.

ENV H 442 Zoonotic Diseases and Their Control (3)

Examines the transmission and control of zoonotic and vector-borne diseases of public health importance in the United States and globally. Pays attention to identification, surveillance, and control methods. Prerequisite: minimum grade of 2.0 in BIOL 220. Offered: W.

ENV H 443 Housing and Health (3) I&S/NW C.

TRESER Explores healthy and safe homes as a crucial element in public health. Review of federal, state and local approaches to housing-related programs under the banner of healthy homes. Students completing this course will understand the relationship between housing and human health and well-being. Offered: A.

ENV H 444 Antibiotic Resistant Bacteria/Genes Impact on the Environment and Public Health (4)

Marilyn C Roberts Explores how the global use and abuse of antibiotics has profound consequences on the health of humans, animals, and the environment. Addresses issues of antibiotic resistant bacteria and genes through an interdisciplinary "One Health" approach that integrates human, animal, and environmental health. Offered: A.

ENV H 445 Solid Waste Management (3)

Examination of the public health, environmental, economic, and materials conservation aspects of solid wastes management; amounts and sources of solid wastes, waste reduction and recycling, methods of storage, transportation and disposal,

integrated waste management, identification of present problems and future needs. Offered: Sp.

ENV H 446 Hazardous Waste and Public Health (3)

Characterization of hazardous wastes and introduction to pertinent federal and state regulations. Discussion of exposure pathways and description of management options at pre-generation, pre-release, and post-release stages. Emphasis on public health significance. Supplemented with case studies. Prerequisite: CHEM 152 or CHEM 220; and MATH 124 or Q SCI 291. Offered: W.

ENV H 447 Environmental Change and Infectious Disease (3) G. CANGELOSI

Uses multidisciplinary approach to address the impacts of environmental change (including climate change) on infectious disease. Concepts include categories of environmental change; infectious disease emergence/re-emergence; environmental aspects of infectious disease exposure, acquisition, and progression; pathogen growth/survival in the environment; historical and societal perspectives; surveillance; and strategies for control. Offered: Sp.

ENV H 448 Community Air Pollution (3)

Offers a comprehensive overview of community air pollution including: air pollution sources, chemistry, and meteorology; human health and environmental effects; global warming; air quality standards, monitoring, control, and management; indoor air; and local air quality management. Offered: Sp.

ENV H 451 Ecology of Environmentally Transmitted Microbiological Hazards (3)

Focuses on the transmission of infectious microorganisms by air, food, water, and other environmental media. Provides an introduction to environmentally transmitted pathogens, and discusses factors affecting their environmental fate, transport, and persistence. Offered: A.

ENV H 452 Detection and Control of Environmentally Transmitted Microbiological Hazards (3)

Focuses on the detection and control of infectious microorganisms in air, food, water, and other environmental media. Provides a discussion on sample collection, processing, and detection for infectious microorganisms. Provides coverage of engineered controls and

disinfection/decontamination processes for infectious microorganisms. Offered: W.

ENV H 453 Industrial Hygiene (3) Introduction to the principles and scientific foundation of industrial hygiene. Examines the anticipation, recognition, evaluation, and control of work place hazards to health and safety. Focuses on the first three functions, but includes some consideration of control methods. Offered: A.

ENV H 460 Occupational Safety Management (3) Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Offered: Sp.

ENV H 461 Air-Pollution Control (4) Fundamental concepts of air pollution Control including emission sources, atmospheric dispersion, ambient concentrations, and emission standards, with emphasis on processes and equipment for controlling emissions. Offered: jointly with CEE 490; ASp.

ENV H 462 Technical Aspects of Occupational Safety (3) Reviews federal OSHA (Occupational Safety and Health Administration) and state WISHA (Washington Industrial Safety and Health Act) standards. Explores the impact of these regulations on industry, particularly construction. Upon completion of the course, students receive an OSHA 510 30-hour Construction Safety and Health certification. Offered: W.

ENV H 465 Geographic Information Systems (GIS) in Public Health (3) NW/I&S Applications of Geographic Information Systems (GIS) in public health. Practical experience using the principles, methods, and techniques of spatial analysis to solve practical public health problems within a variety of sub-disciplines, focusing on environmental health, but also exploring infectious diseases, health services and community health. Spatial data representation and management, visualization of spatial data, and exploratory analyses. Offered: A.

ENV H 472 Environmental Risk and Society (3) I&S Examines scientific determinations of environmental risks and explores how such determinations are

evaluated by affected communities and society. Employs risk analysis to integrate technical knowledge in hazard identification and exposure assessment to provide a more rational basis for environmental policies. Role of public participation in risk-based decision making discussed. Offered: A.

ENV H 473 Environmental Health Policy and Practice (4) I&S Explores how environmental health problems are controlled in the United States. Examines both the policies and practices of environmental health. Looks at how various government programs are established, organized, and operated to prevent or control hazards in the community. Also examines the legal and regulatory framework. Offered: A.

ENV H 480 Undergraduate Seminar (1, max. 6) Covers career exploration and planning within the environmental health major through presentation of current environmental and occupational health issues. Offered: A.

ENV H 482 Environmental Health Internship (2-15, max. 15) Assignment to an environmental health or environmental protection agency for supervised observation and experience in environmental health technology, program planning, and utilization of community resources. Prerequisite: minimum grade of 2.5 in ENV H 311. Credit/no-credit only. Offered: AWSpS.

ENV H 490 Selected Topics in Environmental Health (1-6, max. 20) In-depth study of a current environmental health topic. Offered: Sp.

ENV H 497 Environmental Health Special Electives (*, max. 35) Offered: Sp.

ENV H 499 Undergraduate Research (*, max. 35) Individual research on a specific topic in environmental health upon which specific conclusions, judgments, or evaluation can be made or upon which facts can be presented. Offered: AWSpS.

ENV H 501 Foundations of Environmental and Occupational Health (4) Covers the foundational environmental and occupational public health knowledge domains. Provides a comprehensive overview of an environmental and occupational public health framework and a One Health systems

model for assessing and managing environmental health risks on a local and global scale. Offered: A.

ENV H 502 Assessing and Managing Risks from Human Exposure to Environmental Contaminants (4)

Exposure science provides quantitative data needed to inform risk assessments and apply regulatory standards to a wide range of hazards. Introduces techniques such as hazard identification, dose response estimation, fate and transport modeling, statistical exposure and dose estimation, exposure biomarkers and toxicological risk characterization as applied in both occupational and community environments. Offered: W.

ENV H 503 Adverse Health Effects of Environmental and Occupational Toxicants (4)

Principles governing the effects of toxicants on health, including: acute, sub-acute and chronic toxicity; dose response modeling; derivation of potency; response modifiers; adverse health effects including cancer, birth defects and damage to major organ systems; regulation of toxicants in the home, workplace and general environment. Focus on human health impacts of toxicants in a public health context. For non-toxicology majors. Offered: Sp.

ENV H 506 Disasters and Public Health (3) I&S/NW

Introduces students to the public health and environmental health consequences of common domestic disasters, and the role of public health agencies and practitioners. Students will describe and evaluate the public health community's role in preparing for and responding to disasters through case studies, discussions, debates, course lectures and readings. Offered: A.

ENV H 509 Microbiome and Environmental Health (3)

Introduces the current science of microbiome impacts on environmental public health. Defines human, animal, and environmental microbiomes, describes the methods used to characterize these microbiomes, and discusses the impact of microbiomes on the health of human and animal populations. Factors that have been suggested to modulate microbial populations, host-microbe interactions, and the dynamics of microbiome populations are also examined. Offered: Sp.

ENV H 510 Global Environmental and Occupational Health (4)

Provides an overview of environmental and occupational health, with major focus on

developing countries. Examines a variety of environmental hazards and influential factors, interactions with human health and well-being, and relevance to public health. Considers workplace, community, home, regional, and global problems. Offered: W.

ENV H 511 Environmental and Occupational Health (4-) J. HESS

Provides a graduate-level overview of the multidisciplinary field of environmental and occupational health. Environmental, occupational, and nutritional problems in different settings (e. g. the workplace, community, and home) and at varying scaled (local, regional, and global) are considered, with special emphasis on considerations related to food systems and nutrition. Offered: Sp.

ENV H 512 Environmental and Occupational Health for Public Health Practitioners (3)

Introduces students in professional degree programs in Public Health to basic concepts from environmental and occupational health sciences, to the methods used to study the links between the environment and health, to the health impacts of various environmental exposures, and to the environmental public health approach to controlling or managing risks and promoting health. Offered: W.

ENV H 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) K. THUMMEL

Addresses current technologies for DNA sequencing, genotyping, RNA and epigenetic analysis and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause variability in drug treatment responses, as well as diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Offered: jointly with PCEUT 513/PHG 513; W.

ENV H 514 Fundamentals of Toxicology (3)

Covers major fundamentals and core areas of toxicology, including dose response, absorption, distribution, metabolism, and excretion of toxicants, toxicity testing, interpretation of toxicological data; and biochemical, cellular, and physiological mechanisms by which chemicals produce toxic responses. Also explores mechanisms and fate of chemical interaction with biological systems. Prerequisite: BIOL 212, BIOC 405, or permission of instructor. Offered: A.

ENV H 515 Organ System Toxicology (3) T.

KAVANAGH Focuses on organ system toxicology. Emphasizes the pathophysiology of toxicant-induced organ injury, including adaptive responses to toxicant exposure, inflammation, and tissue repair pathways. Prerequisite: ENV H 514 or permission of instructor. Offered: W.

ENV H 516 Toxic Agents: Effects and Mechanisms (3)

Focuses on the toxic effects and the underlying mechanisms of the principal classes of toxicants: pesticides, metals, solvents, air pollutants, persistent organic pollutants, radiation, as well as on food safety and occupational/clinical/eco toxicology. Prerequisite: ENV H 515 or permission of instructor. Offered: Sp.

ENV H 517 Children's Environmental Health (3)

Discussion of environmental health issues as they pertain to children's health. Topics include historical perspective of public health research and policies directed at protecting children's health and emerging scientific and public health issues such as the risks and benefits of seafood consumption during pregnancy; use of pesticides on food and in the home; air pollution and childhood asthma, and childhood injuries and the built environment. Offered: Sp.

ENV H 518 Understanding and Managing the Health Risks of Climate Change (3)

Kristie L Ebi The health risks of climate change are multiple and range across the public health space. Addresses current and projected health risks of climate change and the policies and measures to manage these risks as the climate continues to change. Offered: jointly with G H 518; W.

ENV H 520 Advanced Technical Communication in Public Health (3)

Covers written and oral communication for environmental health and public health professionals, with particular emphasis on three main areas: conveying information more effectively to technical audiences, translating that information for general audiences in the public arena, and crafting effective commentary relating to topics of professional interest.

ENV H 521 Effective Communication Strategies for Environmental Public Health Professionals (2)

Introduces students to the science of and best practices in science communication. Covers how and

why to use narrative structure, how to identify and emphasize important messages, how to influence behavioral change, identifying common mistakes in messaging, and how to interact with the media. Prepares students to present at conferences, interact with the media, engage with diverse communities, and write high impact papers and competitive grants. Credit/no-credit only. Offered: Sp.

ENV H 526 Leadership in Public Health I (1)

Designed for students who are serving on the School of Public Health Dean's Advisory Council of Students (DACs) . Focuses on development of personal leadership skills and acumen. Credit/no-credit only. Offered: A.

ENV H 527 Leadership in Public Health II (1)

Designed for students who are serving on the School of Public Health Dean's Advisory Council of Students (DACs) . Focuses on leading others in academic settings. Credit/no-credit only. Offered: W.

ENV H 528 Leadership in Public Health III (1)

Designed for students who are serving on the School of Public Health Dean's Advisory Council of Students (DACs) . Focuses on leading others in practice/community settings. Credit/no-credit only. Offered: Sp.

ENV H 530 Research Proposal Preparation for Biological Sciences (3)

Provides first-hand experience for doctoral students in the biological sciences on proposal writing and the review process. Focuses on hypothesis-driven, laboratory benchwork based research following the NIH pre-doctoral fellowship format, and aims to prepare students for their pre-doctoral fellowship submissions and general qualifying exams. Offered: A.

ENV H 531 Neurotoxicology (3)

Advanced discussions of the principles and methodological approaches to neurotoxicology (including behavioral toxicology) , classes of neurotoxic agents, types and mechanisms of neurotoxic effects, as well as the role of neurotoxicology in toxicology and public health. Prerequisite: ENV H 514, ENV H 515, ENV H 516 or ENV H 405 or permission of instructor. Offered: W, even years.

ENV H 532 Reproductive and Developmental Toxicology (3)

Investigates chemicals that can induce

adverse reproductive and developmental outcomes. Discussion topics include identification and characterization of specific classes of toxic agents, mechanisms of action of these agents at the molecular and cellular level, and risk assessment and regulatory issues. Prerequisite: ENV H 514 and ENV H 515 or ENV H 405 or permission of instructor. Offered: W, odd years.

ENV H 533 Molecular Toxicology (3) Advanced discussion of molecular mechanisms whereby chemical and biological agents produce their harmful effects on biological tissues. Topics include the role of xenobiotic biotransformation enzyme expression in chemical susceptibility, toxicogenomics, chemical-induced oxidative stress, alternative models, species differences, and dietary anti-carcinogens. Prerequisite: prior coursework in toxicology and biochemistry, or permission of instructor. Offered: Sp, odd years.

ENV H 534 Biochemical Toxicology of the Puget Sound (3) Advanced discussion of effects of pollutants on aquatic organisms at the molecular, biochemical, and physiological levels, and in the context of Puget Sound case studies. Topics include assessing toxicant-induced cell injury in aquatic organisms, biotransformation and detoxification pathways, toxicogenomics, assessing chemical diseases in fish, biomarkers, and zebrafish models. Prerequisite: prior coursework in toxicology and biochemistry or permission of instructor. Offered: W, even years.

ENV H 536 Health Impact Assessment (2) Examines the use of Health Impact Assessment as a public health tool for informing decision-makers about the potential health impacts of proposed projects and policies. Students learn the steps for conducting HIAs, review case studies, and conduct an HIA of a current local proposed project. Offered: jointly with URBDP 536.

ENV H 538 Public Health and the Built Environment (2) Examines how the design of communities and land use and transportation decision have positive and adverse effects on health. Considers built environment impacts on physical activity, obesity, air quality, injuries, mental health, social capital, and environmental justice; and explores interventions to promote healthy community design. Offered: jointly with URBDP 538.

ENV H 539 One Health: Human and Animal Health in a Changing Environment (3) *P. RABINOWITZ* Case based exploration of the One Health concept, connecting human, animal, and environmental health. Topics include emerging zoonotic infectious diseases transmitted between humans and animals, animals as sentinels of environmental hazards, the human-animal bond, and the comparison of spontaneous diseases between human and animals. Includes two optional field trips. Offered: Sp.

ENV H 541 Ecology of Environmentally Transmitted Microbial Hazards (3) Focuses on the transmission of infectious microorganisms by air, food, water, and other environmental media. Provides an introduction to environmentally transmitted pathogens, and discusses factors affecting their environmental fate, transport, and persistence. Offered: A.

ENV H 542 Detection and Control of Environmentally Transmitted Microbial Hazards (3) Focuses on the detection and control of infectious microorganisms in air, food, water, and other environmental media. Provides a discussion on sample collection, processing, and diction for infectious microorganisms. Provides coverage of engineered controls and disinfection/decontamination processes for infectious organisms. Offered: W.

ENV H 543 Quantitative Microbial Risk Assessment (3) Focuses on the principles of quantitative risk assessment as applied to infectious microorganisms. Covers hazard identification, exposure assessment, health effects assessment, risk characterization, and risk communication. Offered: Sp, even years.

ENV H 544 Antibiotic Resistant Bacteria/Genes Impact on the Environment and Public Health (4) *M. ROBERTS* Explores how the global use and abuse of antibiotics has profound consequences on the health of humans, animals, and the environment. Addresses issues of antibiotic resistant bacteria and genes through an interdisciplinary "One Health" approach that integrates human, animal, and environmental health. Prerequisite: either EPI 320, BIOL 220, or MICROM 301. Offered: A.

ENV H 545 Water, Wastewater, and Health (4) Review of water supply, water quality, and water/wastewater treatment as they relate to

human health. Includes water law and regulations, source water protection, basic treatment technologies for water and waste, chemical and microbial contaminants, and recreational water. Offered: A.

ENV H 546 Hazardous Waste and Public Health (3)

Characterization of hazardous wastes and introduction to pertinent federal and state regulations. Discussion of exposure pathways and description of management options at pre-generation, pre-release, and post-release stages. Emphasis on public health significance. Supplemented with case studies. Offered: W.

ENV H 547 Environmental Change and Infectious Disease (3)

G. CANGELOSI Uses multidisciplinary approach to address the impacts of environmental change (including climate change) on infectious disease. Concepts include categories of environmental change; infectious disease emergence/re-emergence; environmental aspects of infectious disease exposure, acquisition, and progression; pathogen growth/survival in the environment; historical and societal perspectives; surveillance; and strategies for control. Offered: Sp.

ENV H 548 Community Air Pollution (3) Offers a comprehensive overview of community air pollution including: air pollution sources, chemistry, and meteorology; human health and environmental effects; global warming; air quality standards, monitoring, control, and management; indoor air; and local air quality management. Prerequisite: SPH graduate student or permission. Offered: Sp.

ENV H 549 Research Methods in Human Factors (3)

Includes fundamental guidelines for survey design, controlled experiments, quasi-experimental, and observational studies. Focus on safety, productivity, functionality, and usability. Review of journal articles on research methods and design issues, given functional, psychological, physiological, and environmental constraints. Recommended: introductory class in human factors. Offered: jointly with IND E 549; Sp.

ENV H 550 Occupational and Environmental Disease (3/4)

J. SPECTOR A case-based introduction to occupational and environmental diseases, focusing on disease epidemiology, pathophysiology, diagnostic testing basics, and aspects of population

management such as disease surveillance, policy development, and health protection programs. A four credit option offered to clinically-oriented students additionally covers diagnostic test interpretation, differential diagnosis, and clinical management. Offered: Sp.

ENV H 552 Environmental Chemistry of Pollution (4)

Chemical and physical processes determining distribution and fate of chemical hazards, detection of low levels of hazardous compounds, and environmental evaluation and prediction. Fundamental chemical concepts and measurable properties of individual compounds to interpret and relate measurements. Prerequisite: admission to graduate program or permission of instructor. Offered: W.

ENV H 553 Environmental Exposure Monitoring Methods (4)

Provides an in-depth understanding of current monitoring methods for occupational, residential, and community exposures to hazardous chemical agents. Examines the technical basis for sampling strategies and sampling and analytical methods for chemicals in air, water, food, and soil, and for biological markers of exposure and effect in humans and other biota. Prerequisite: ENV H 453 or permission of instructor. Offered: W.

ENV H 554 Biological Monitoring for Chemical Exposure (2)

Advanced seminar on biological monitoring for assessment of chemical exposure and health risks from environmental agents. Considers applications and interpretation of results from analysis of biological specimens taken from persons exposed to chemicals in the work place and the general environment. Prerequisite: ENV H 551 or permission of instructor. Credit/no-credit only. Offered: Sp, odd years.

ENV H 555 Instrumental Methods for Industrial Hygiene Measurement: Laboratory (3)

Utilizes typical instrumental techniques and analytical methods for the evaluation of potential occupational exposures. Prerequisite: ENV H 453 and ENV H 553 or permission of instructor. Offered: Sp.

ENV H 556 Quantitative Exposure Assessment (3)

Offers statistical skills and examples to conduct analysis of occupational and environmental exposure data in order to understand the nature of airborne exposures in the environment, and their

interpretation for human health. Focuses on reading and discussion of primary exposure assessment literature and statistical analysis and interpretation of real datasets. Prerequisite: either BIOST 508, BIOST 511, or BIOST 517. Offered: W, odd years.

ENV H 557 Exposure Controls (3/4) Presents engineering concepts for selecting exposure controls for chemical, physical, and biological agents. Topics include regulatory mandates, hazard rating strategies, protective clothing, respiratory protection, chemical safety management, building ventilation, local exhaust ventilation, chemical and biohazards controls, airflow measurements, and ventilation troubleshooting. Offered: W.

ENV H 559 Applied Occupational Health and Safety (3) Application of occupational safety and health principles. Student teams perform evaluations, assess production methods/processes and exposures, health and safety procedures and programs, and develop engineering and administrative controls. Students perform on a consulting project with a local company including budgeting, project reporting, and presentation. Offered: jointly with IND E 567/NSG 505; Sp, even years.

ENV H 560 Occupational Safety Management (4) Explores industrial organization and methods of integrating safety and industrial hygiene programs with industrial operations. Investigates philosophic issues related to industrial safety and health such as responsibility for safety, dependency on safe practice, and hierarchy of prevention. Contains numerous case problems and student involvement opportunities. Offered: jointly with NSG 506; Sp.

ENV H 562 Technical Aspects of Occupational Safety (3) Reviews federal OSHA (Occupational Safety and Health Administration) and state WISHA (Washington Industrial Safety and Health Act) standards. Explores the impact of these regulations on industry, particularly construction. Upon completion of the course, student receive an OSHA 510 30-hour Construction Safety and Health certificate. Offered: jointly with NSG 507; W.

ENV H 564 Recognition of Health and Safety Problems in Industry (2) Develops skills in occupational health and safety hazard recognition in a variety of important Northwest industries. Focuses

on process understanding and hazard recognition skills during walk-through inspections of several local facilities, stressing a multidisciplinary approach. Offered: jointly with IND E 564; A.

ENV H 565 Geographic Information Systems (GIS) in Public Health (3) Applications of Geographic Information Systems (GIS) in public health. Practical experience using the principles, methods, and techniques of spatial analysis to solve practical public health problems within a variety of sub-disciplines, focusing on environmental health, but also exploring infectious diseases, health services and community health. Spatial data representation and management, visualization of spatial data, and exploratory analyses. Offered: A.

ENV H 566 Introduction to Ergonomics (3) Basic principles of ergonomics in work environment applied to problems of worker and management. Topics include measurement of physical work capacity, problems of fatigue and heat stress, applied biomechanics, worker-machine interactions and communication, design of displays and controls. Prerequisite: basic human physiology or permission of instructor. Offered: jointly with IND E 566/NSG 508; W.

ENV H 569 Occupational Biomechanics (4) Lectures and laboratories address human occupational biomechanical and physiological limits and measurement, analysis, and modeling techniques that are used by ergonomists for design of safe, healthful, and productive physical work. Prerequisite: ENV H 566 or permission of instructor. Offered: jointly with IND E 569; Sp, even years.

ENV H 570 Occupational and Environmental Epidemiology (3) Research in occupational and environmental determinants of disease. Defining exposed populations, characterizing exposure levels, estimating disease risks relative to exposure. Cohort, case-control, cross-sectional designs for various health outcomes. Applications to exposure standard setting and risk assessment. Prerequisite: EPI 511 or EPI 512, EPI 513 or permission of instructor. Offered: jointly with EPI 570.

ENV H 571 Neuroepidemiology and Environmental Risk Factors (3) *Walter A Kukull* Focuses on neurologic diseases and etiology. Presentation of descriptive epidemiology, clinical features, and risk

factors, including stroke, Parkinson's disease, Alzheimer's disease, multiple sclerosis, and other disorders. Discussion of NIH grantsmanship. Guest experts present some topics. Psychiatric disorders e.g. schizophrenia, autism spectrum disorders, and depression will not be discussed. Offered: jointly with EPI 571.

ENV H 572 Environmental Risk and Society (3)

Examines environmental health risk assessments and explores how such assessments are viewed by affected communities. Reviews scientific risk assessment methods, risk perception, risk communication, and public participation processes. Examines the influence of advocacy and special-interest publications on risk assessment debates. Offered: A.

ENV H 573 Methods and Issues in Using Biological Measurements in Epidemiologic Research (3)

Schwartz Introduction to use of measurements from biological specimens in epidemiologic studies. Prepares epidemiology and laboratory science students for conduct of interdisciplinary human studies. Evaluation of biomarkers, preliminary studies, methodologic issues, quality control. Brief review of molecular biology. Applications and current literature discussed. Prerequisite: EPI 511 or EPI 512. Offered: jointly with EPI 573.

ENV H 574 Probabilistic Exposure Analysis (3)

Examination of probabilistic (in contrast to deterministic) approaches to prediction of human exposure to environmental contaminants including explicit separation of population variability from uncertainty due to ignorance. Discussion of data needs, pitfalls, policy ramifications, and current state of development and regulatory acceptance. Examples from real world. Student project required. Offered: Sp, odd years.

ENV H 576 Clinical Occupational Medicine (2)

For clinicians in training, comprehensive overview of occupational disease principles, occupational history-taking, and the provider's role in workers' compensation. Epidemiologic evidence and pathophysiologic basis for occupational diseases reviewed, emphasizing organ system approach to diagnosis and management. Prerequisite: occupational medicine or preventive medicine residents/fellows, nursing students, or permission of instructor. Offered: S.

ENV H 577 Risk Assessment for Environmental Health Hazards (4)

Examines context, methodologies, data, uncertainties, and institutional arrangements for risk assessment. Qualitative and quantitative approaches to identification, characterization, and control of environmental hazards to health emphasized through didactic and case studies. Offered: jointly with CEWA 560/PUBPOL 589; A.

ENV H 580 Environmental and Occupational Health Sciences Seminar (1, max. 21)

Presentation of current environmental and occupational health research and issues. Credit/no-credit only. Offered: AWSp.

ENV H 581 Environmental Health Reading (1)

Critical reading of selected basic and applied research publications on environmental health problems and programs.

ENV H 583 Thesis Research Proposal Preparation (1)

Includes reviewing components of research proposals and practicing writing and developing effective aims, hypotheses, background materials, and analytic strategies for writing theses and presenting at scientific meetings. Offered: Sp.

ENV H 584 Environmental Health Policy and Practice (4)

Explores how environmental health problems are controlled in the United States by examining the policies and practices of environmental health. Covers how various government programs are established, organized, and operated to prevent or control hazards in the community, and the legal and regulatory framework behind them. Offered: A.

ENV H 586 Current Issues in Occupational Health at the Human Animal Interface (2, max. 8)

Problem-based seminar about the occupational health issues faced by workers with animal contact, including animal agriculture workers, veterinary workers, wildlife workers, and laboratory animal workers. Anchoring course for trainees in the Occupational Health at the Human Animal Interface (OHHA) training grant. Offered: ASp.

ENV H 590 Selected Topics (1-6, max. 20)

In-depth study of a current environmental health topic.

ENV H 591 Current Topics in Toxicology (2, max. 12)

T. KAVANAGH, Z. XIA Provides in-depth examination of current topics in environmental and occupational toxicology taken from journal articles and seminars. Consists of presentations led by outside speakers, students, post-doctoral fellows, and faculty. Students expected to participate actively in discussion. Assigned weekly readings given according to the schedule of seminar speakers and topics.

ENV H 592 Current topics in Occupational Health Sciences (1/3)

Weekly discussion of current research on a broad range of topics relevant to occupational and environmental health including exposure assessment, occupational epidemiology, occupational hygiene, and control of environmental hazards. Presentations and discussion sessions designed to help students organize and prepare a critical analysis of research findings. Credit/no-credit only. Offered: A.

ENV H 593 Current Topics in Risk Assessment (2, max. 24)

Examines current topics in risk assessment and risk communication with a focus on issues in environmental health. Consists of presentations led by students, postdoctoral fellows, and faculty. Students expected to participate actively in discussion. Offered: AWSp.

ENV H 594 Current Topics in Environmental Health (1, max. 2)

Critical review and discussion of current scientific literature of particular relevance to the Environmental Health program. Primary presentations rotate among faculty and students. Credit/no-credit only. Offered: W.

ENV H 595 Research Rotation (3, max. 9)

Research laboratory rotation for pre-doctoral graduate students. Students commit at least 10 hours per week to a laboratory research project aimed at introducing the student to current methods of laboratory research, and to familiarize the student with specific faculty research interests. Prerequisite: graduate standing and permission of program director.

ENV H 596 Current Issues in Occupational and Environmental Medicine (2, max. 12)

Interdisciplinary seminar on current and emerging topics in the practice of environmental and occupational health. Faculty- and student-led presentations with an interdisciplinary focus,

including occupational hygiene, nursing, and medical issues. Prerequisite: environmental health graduate student, occupational health nursing student, or permission of instructor. Offered: jointly with NURS 580; AWSp.

ENV H 597 Case Studies in Environmental and Occupational Health (1, max. 12)

Discusses clinical cases, recent journal articles, and global environmental health scenarios relevant to the clinical practice of environmental and occupational health. Explores collaborative management of environmental and occupational health-related illnesses and navigation of complex environmental health scenarios through real-world cases and critical analysis of published literature. Offered: AWSp.

ENV H 598 Degree Program Project/Portfolio ([1-9]-, max. 18) Supervised project work on a topic related to student's concentration in graduate study that results in a project paper. Offered: AWSpS.

ENV H 599 Field Studies (2-6, max. 6)

Assignment to an environmental research or service program to develop field research and evaluation skills. Credit/no-credit only. Offered: AWSpS.

ENV H 600 Independent Study or Research (*-)

Prerequisite: permission of departmental adviser. Offered: AWSpS.

ENV H 700 Master's Thesis (*-)

Prerequisite: permission of departmental adviser. Offered: AWSpS.

ENV H 800 Doctoral Dissertation (*-)

Prerequisite: permission of departmental adviser. Credit/no-credit only. Offered: AWSpS.

EPIDEMIOLOGY

EPI 201 Outbreak Investigation and Response (5)

I&S/NW, QSR J. BASEMAN Provides an introduction to infectious disease outbreaks of both domestic and global significance. Students learn about outbreak detection, investigation and response activities and methodologies through a combination of lecture, case studies, homework, and popular media. Offered: Sp.

EPI 220 Sexually Transmitted Infections: Causes and Consequences (5) I&S/NW, QSR L. MANHART

Examines the causes and consequences of sexually transmitted infections (STI). Discusses strategies to prevent STI with a focus on sexual and reproductive health. Explores new advances in STI epidemiology, treatment, and public health control. Offered: A.

EPI 221 Maternal and Child Health-a Population Health Approach (5) NW D. Enquobahrie

Provides a public health perspective of maternal and child health. Includes information on indicators of maternal, infant, and child health; risk factors for pregnancy complications, infant and child morbidity and mortality; and impact of maternal and child health on life course disease risk. Offered: A.

EPI 320 Introduction to Epidemiology (4) NW For the undergraduate student wishing to devote only one quarter to a course in epidemiologic methods. Description of ways in which variation in disease occurrence is documented and how that variation is studied to understand causes of disease. Offered: AWSp.

EPI 330 Analyzing Epidemiologic Data: Basic Methods (4) I&S, QSR Application of concepts to real data using basic epidemiologic analysis methods. Prerequisite: EPI 320; and either BIOST 310, QMETH 201, Q SCI 381, STAT 220, STAT 221/CS&SS 221/SOC 211, or STAT 311. Offered: Sp.

EPI 360 Exploring the HIV/AIDS Pandemic (5) I&S/NW, QSR Jen Balkus Presents a comprehensive overview of the historical, public health, clinical, and biological aspects of HIV infection. Covers impact of AIDS on community and global health care and prospects for prevention and control. Offered: W.

EPI 410 Computational and Applied Genetic Epidemiology (5) QSR Alison Fohner Advanced topics in genetic epidemiology for undergraduate students, focusing on hands-on introduction to computational analysis of population genetics and individual health data using R programs. Students will investigate how genes and environment interact to cause disease and health-states and to inform public health interventions. Recommended: PHG 301 or prior background in basic genetics and statistics. Offered: jointly with BIOST 401/PHG 401; Sp.

EPI 499 Undergraduate Research (*) Offered: AWSpS.

EPI 502 Physical Activity in Health and Disease (3)

Impact of physical activity on individual and public health. Overview of physiological adaptations to activity, exercise prescription, exercise epidemiology, and prevention of chronic diseases. Public health recommendations for activity in the U.S. population, and the effects of the built environment on activity. Recommended: human physiology. Offered: jointly with NUTR 505.

EPI 505 Preventing Healthcare Associated Infections (1)

Multidisciplinary approach to understanding, measuring, and developing policy to prevent healthcare associated infections. Credit/no-credit only. Offered: jointly with MED 540.

EPI 506 Surveillance Systems and Decision Making in Public Health (2)

This course will introduce students to public health surveillance systems and decision-making based on surveillance data. A range of surveillance system types will be covered (e.g. foodborne illness, newborn screening, lead, emerging infectious diseases). Credit/no-credit only.

EPI 510 Epidemiologic Data Analysis (3) Jeffrey Stanaway

Intended for students planning to take EPI 514. Introduces concepts and programming skills necessary to analyze data sets for case-control and cohort studies. Provides students hands-on experience in using epidemiologic data sets for stratified analyses with Stata and R. Co-requisite: either EPI 511, EPI 512, or PHI 512. Credit/no-credit only. Offered: A.

EPI 511 Introduction to Epidemiology (4)

Epidemiologic methods for non-epidemiology majors. Focuses on research designs and methods to describe distribution and determinants of disease and health events in populations; uses quantitative and biomedical information to infer whether causal relationships exist between potential causes and disease in populations. Offered: A.

EPI 512 Epidemiologic Methods I (4) Ali Rowhani-Rahbar, Amanda I Phipps

Considers principles and methods of epidemiology. Covers measures of disease frequency, descriptive epidemiology, overview of study designs, measures of excess risk, causal inference, screening, measurement error,

misclassification, effect modification, and confounding. First in a two course sequence. Prerequisite: BIOST 511, which may be taken concurrently, or equivalent. Offered: A.

EPI 513 Epidemiologic Methods II (4) *Amanda I Phipps, Ali Rowhani-Rahbar* Considers how epidemiologic studies may be designed to maximize etiologic inference. Covers infectious disease epidemiologic studies, randomized controlled trials, cohort studies, case-control studies, cross-sectional studies, ecological and multilevel studies, and selected topics such as meta-analysis. Second in a two course sequence. Prerequisite: either EPI 512 or PHI 512. Offered: W.

EPI 514 Application of Epidemiologic Methods (5) *Stephen E. Hawes, Alyson Littman* Practical experience in analysis of data. Students analyze data sets currently on file using contemporary epidemiologic methods as taught in EPI 512 and EPI 513. Prerequisite: EPI 510 or experience in statistical programming; EPI 512, EPI 513, and epidemiology major. Offered: Sp.

EPI 515 Advanced Epidemiologic Methods I (3) *Steve Mooney* First in a series of 2 courses. Increases knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 512 and EPI 513 Offered: jointly with BIOST 519.

EPI 516 Advanced Epidemiologic Methods II (4) *Brandon L Guthrie* Second of a series of 2 courses whose objective is to deepen students' knowledge of epidemiological principles by introducing methodological approaches to handling common problems in epidemiologic research that extend beyond the scope of traditional methods. Prerequisite: EPI 515. Offered: jointly with BIOST 520.

EPI 517 Genetic Epidemiology (3) *Sara Lindstroem* Research methods for evaluating genetic influences on disease and risk factors and genetic-environmental interactions. Study designs and statistical methods include twin studies, family studies, population-based association studies, segregation analysis, and linkage analysis.

Prerequisite: EPI 511, BIOST 511, and GENOME 371, or equivalent. Offered: jointly with PHG 511.

EPI 519 Research Methods and Current Topics in Cardiovascular Epidemiology (3) *N. Smith* Overview of epidemiologic research methods applied to current topics in cardiovascular and cardiometabolic health and disease in human populations. Covers pathophysiology; molecular, clinical, behavioral, and social risk factors; burden and disparities across and within populations nationally and globally; and public health interventions. Prerequisite: EPI 511 or EPI 512; BIOST 508, BIOST 511 or BIOST 517; or permission Credit/no-credit only.

EPI 520 Epidemiology of Infectious Diseases (3) *Christine M Khosropour* Focuses on infectious diseases from a public health perspective. Uses domestic and international case studies to apply traditional and contemporary epidemiologic principles and methods to infectious disease research and public health practice. Specific topics include: surveillance, program evaluation, outbreak investigation, transmission dynamics, and mathematical modeling. Prerequisite: either EPI 511, EPI 512, or permission of instructor.

EPI 521 Epidemiology of Maternal and Child Health Problems ([3-4]-) *D. ENQUOBAHRIE* Contributions to understanding and prevention of major maternal and child health problems, including pregnancy outcome, infant and child morbidity and mortality, maternal morbidity and mortality, abnormal child growth and development, and early-life factors in adult health problems. Prerequisite: graduate, medical, or dental school standing and EPI 511 or EPI 512 or permission of instructor. Offered: jointly with HSERV 542.

EPI 522 Reproductive Epidemiology (3) Focuses on female reproductive system conditions and diseases, non-birth pregnancy outcomes, and impact of pregnancy on later health. Presentation of current epidemiologic knowledge and discussion of methodologic issues on topics including the menstrual cycle; contraception; infertility; spontaneous and induced abortion; and uterine and ovarian disease. Prerequisite: either EPI 511, both EPI 512 and EPI 513, or permission of instructor.

EPI 524 Cancer: Epidemiology and Biology (3) *M. MADELEINE* Explores the epidemiology of major

cancers (infection-related, breast, prostate, lung, colon, melanoma) , with an emphasis on milestones in cancer mechanisms (such as tumor viruses, cell cycle, DNA repair, and metastasis) . Integrates knowledge from different fields of cancer research, with guest lectures from experts in epidemiology and cancer biology. Prerequisite: either EPI 511 or EPI 512; either undergraduate biology coursework or instructor permission.

EPI 527 Vaccines (3) *H. Chu* Overview of issues in vaccine development, clinical trials, implementation of vaccination programs, and the role of vaccines in the control of infectious diseases. Emphasizes current issues and real-world challenges in the vaccine field and features critical reading of the literature.

EPI 529 Emerging Infections of International Public Health Importance (3-) Focuses on the nexus between emerging infections and increasing globalization of the world due to the mobility of people and goods. Examines emergent events through risk factors and associated macro changes implicated in their genesis. Reviews microbial evolutionary strategies and factors of emergence. Prerequisite: graduate standing. Offered: jointly with HSERV 536.

EPI 530 AIDS: A Multidisciplinary Approach (2) *Carey Farquhar* Comprehensive overview of the public health, clinical, and laboratory aspects of human immunodeficiency virus (HIV) infection and disease. Topics include the pathogenesis, natural history, and management of HIV infections; the impact of HIV/AIDS on community and global healthcare; and prospects for prevention and control. Credit/no-credit only. Offered: jointly with G H 562/MED 530.

EPI 531 Statistical Methods for Analysis with Missing Data (3) Covers statistical methods for the analysis of missing data, including likelihood-based, weighted GEE, multiple imputation, and Bayesian approaches. Uses computational tools such as EM algorithm and Gibbs' sampler. Covers both ignorable and non-ignorable missing-data mechanisms as well as cross-sectional and longitudinal study designs. Primarily uses data arising from epidemiologic studies. Offered: jointly with BIOST 531.

EPI 532 Epidemiology of Infectious Diseases in Resource-Limited Countries (3) A review of major infectious disease problems of the developing world, including AIDS, malaria, tuberculosis, measles, and diarrhea, with an emphasis on public health control strategies.

EPI 533 Pharmacoepidemiology (3) Overview of pharmacoepidemiology including drug development and approval; application of epidemiologic methods to study drug safety and effectiveness; exploration of the interplay between research and public policy; introduction to resources for information about drugs; introduction to pharmacology principles pertinent to pharmacoepidemiology. Prerequisite: Health Sciences graduate student; either EPI 511 or both EPI 512 and EPI 513. Offered: jointly with PHARM 533.

EPI 535 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with BIOST 516/PHG 519.

EPI 536 Categorical Data Analysis in Epidemiology (4) Summary of univariate categorical data analysis; introduction to multivariate analysis of categorical epidemiologic and health sciences data using multiplicative models. Experience at interpretation; familiarity with available software programs gained by analysis of bona fide data and critiques of published analyses appearing in literature. Prerequisite: BIOST 515; EPI 513 and either BIOST 513 or BIOST 518; or permission of instructor. Offered: jointly with BIOST 536; A.

EPI 537 Survival Data Analysis in Epidemiology (4) Introduction to multivariate analysis of survival data using multiplicative models. Application to epidemiologic and health sciences studies. Familiarity with interpretation and available software computer programs gained by analysis of bona fide sets of data and critiques of published analyses appearing in the literature. Prerequisite: BIOST 536 or EPI 536. Offered: jointly with BIOST 537; W.

EPI 538 Nutritional Epidemiology (3) Application of epidemiological methods to studies of diet, nutrition, and chronic disease. A discussion of current issues and controversies enables students to design studies and read the literature in nutritional epidemiology. Prerequisite: EPI 511 or EPI 512 or instructor permission. Offered: jointly with NUTR 538.

EPI 539 Research and Evaluation Methods in Global Health (3-4) *Caryl Feldacker* Provides an overview of a range of evaluation and research designs used in global health. Students learn practical methodologies to obtain, validate, and analyze information regarding health status, services, and programs. Discusses usefulness, validity, limitation of vital records, health reports, household (and cluster) surveys, and qualitative methods. Offered: jointly with G H 531; Sp.

EPI 540 Bayesian Biostatistics (3) Introduction to Bayesian methods for data analysis; Bayesian reasoning, prior elicitation, inference and decision making, and computation applied to biomedical research. Prerequisite: any course in statistics at the 400-level or higher or instructor's permission. Offered: jointly with BIOST 526/PHARM 526; Sp.

EPI 541 Introduction to Systematic Reviews and Meta-Analysis of Evidence (3) Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with BIME 541/HSERV 529/PHARM 529.

EPI 542 Clinical Epidemiology (2) *Weiss* Principles and methods involved in studying the outcome of illness. Prerequisite: EPI 511, or EPI 512 and EPI 513.

EPI 546 Psychiatric Epidemiology (3) *I. Rhew, A. Vander Stoep* Using epidemiological methods to study mental illness. Topics include contributions of mental illness to global disease burden; major population-based studies of mental illness; measurement of psychopathology; culture and mental illness; role of neurodevelopment, genetics,

social and physical environment in etiology of mental disorders; mental health services research. Prerequisite: either EPI 511, EPI 512, HSERV 591, or permission of instructor. Credit/no-credit only. Offered: jointly with PBSCI 546.

EPI 547 Social Determinants of Population Health and Health Disparities (3) Explores the elements and actions of a population health approach, including conceptualizing the determinants of health, synthesizing knowledge about major social determinants, and applying knowledge to improve population health and reduce health disparities. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, permission of instructor. Offered: jointly with HSERV 514.

EPI 548 Research Methods for Social and Contextual Determinants of Health (3) *A. Hajat* Explores study-design, measurement, analytic, and interpretation issues applicable to research on social and contextual determinants of health and health disparities. This lecture/seminar course is offered to graduate students with knowledge of epidemiologic and biostatistical principles who are interested in understanding complex relationships between social/contextual factors and health. Prerequisite: EPI 511 or EPI 512/513; and BIOST 511/512/513 or BIOST 517/518. Credit/no-credit only. Offered: jointly with HSERV 548; W.

EPI 549 HIV/STI Prevention Research Methods (3) *R. Heffron, A. Roxby* Focuses on current research and implementation of HIV/STI prevention including biomedical, behavioral, and public health interventions. Includes analyzing strength of research evidence to support novel interventions, understanding key features of study design, and applying interventions that are most appropriate and feasible for specific settings and populations. Offered: jointly with G H 563.

EPI 553 Advanced Methods for Global Health II (4) Presents applications of the cluster-randomized trial design to estimate the impact of interventions for a global health and implementation science audience. Covers trial design and implementation, reviews methods commonly used for analysis. Assumes prior knowledge of generalized linear models and modern methods to analyze correlated data, including generalized estimating equations (GEE) and random-effects models. Prerequisite: either BIOST 540,

CS&SS 560/SOC 560/STAT 560, or permission of instructor; recommended: EPI 512 and EPI 513. Offered: jointly with BIOST 528/G H 536/HMS 536; W.

EPI 554 Introduction to Epidemic Modeling for Infectious Diseases (3) *R. BARNABAS* Covers the basic tools for building and analyzing mathematical models of infectious disease epidemics. Model types include deterministic and stochastic models, compartmental and individual-based models. Laboratory provides hands-on model building experience in Excel, Stella, and R.

EPI 555 Statistical Methods for Spatial Epidemiology (3) Motivates the need for, and describes methods for the analysis of spatially indexed epidemiological data. Covers four major topics: clustering and cluster detection, disease mapping, spatial regression, and an introduction to geographical information systems. Considers both point-references and spatially aggregated data. Offered: jointly with BIOST 555/G H 534.

EPI 556 Advanced Methods for Global Health III (4) *Brad Wagenaar* Focuses on applying advanced non-randomized methods to quantitatively evaluate global health implementation science questions, including a specific focus on applying difference-in-differences, interrupted time-series, and regression discontinuity designs. Assumes prior knowledge of generalized linear models and modern methods to analyze correlated data, including generalized estimating equations (GEE) and random-effects models. Prerequisite: either BIOST 540, CS&SS 560/SOC 560/STAT 560, or permission of instructor; recommended: EPI 512 and EPI 513. Offered: jointly with BIOST 525/G H 537/HMS 537; Sp.

EPI 570 Occupational and Environmental Epidemiology (3) Research in occupational and environmental determinants of disease. Defining exposed populations, characterizing exposure levels, estimating disease risks relative to exposure. Cohort, case-control, cross-sectional designs for various health outcomes. Applications to exposure standard setting and risk assessment. Prerequisite: EPI 511 or EPI 512, EPI 513 or permission of instructor. Offered: jointly with ENV H 570.

EPI 571 Neuroepidemiology and Environmental Risk Factors (3) *Walter A Kukull* Focuses on neurologic

diseases and etiology. Presentation of descriptive epidemiology, clinical features, and risk factors, including stroke, Parkinson's disease, Alzheimer's disease, multiple sclerosis, and other disorders. Discussion of NIH grantsmanship. Guest experts present some topics. Psychiatric disorders e.g. schizophrenia, autism spectrum disorders, and depression will not be discussed. Offered: jointly with ENV H 571.

EPI 573 Methods and Issues in Using Biological Measurements in Epidemiologic Research (3) *Schwartz* Introduction to use of measurements from biological specimens in epidemiologic studies. Prepares epidemiology and laboratory science students for conduct of interdisciplinary human studies. Evaluation of biomarkers, preliminary studies, methodologic issues, quality control. Brief review of molecular biology. Applications and current literature discussed. Prerequisite: EPI 511 or EPI 512. Offered: jointly with ENV H 573.

EPI 582 Design and Analytic Strategies to Enhance the Validity of Epidemiologic Studies (2) *Weiss* Discusses the issues that led to specific methodologic developments during the past 30 years, along with a characterization of these developments and the consequences of their application. Prerequisite: EPI 512 Credit/no-credit only.

EPI 583 Epidemiology Seminar (1, max. 12) Presentation of current epidemiologic research and application of epidemiologic research in the practice of public health. Offered: AWSp.

EPI 584 Doctoral Dissertation Seminar (1, max. 2) *A. FITZPATRICK, N. WEISS* Forum for epidemiology doctoral students to obtain information for doctoral research, including: project ideas; forming a committee; developing a proposal; conducting the project; and presenting results. Prerequisite: EPI 512 and EPI 513, admission to the PhD program, successful completion of the preliminary examination, or second-year status. Credit/no-credit only.

EPI 585 Injury and Violence: A Public Health Approach (3) Focuses on broad concepts including a conceptual model, surveillance, research methods, control and prevention of injuries. Topics include unintentional injuries from motor vehicle crashes,

falls, drowning, sports injuries and intentional injuries from youth violence, intimate partner violence, homicide and suicide.

EPI 586 Responsible Conduct of Research: Global and Local (3) *Alison Drake, Carey Farquhar* Prepares international and U.S. students to develop research proposals; conduct international and domestic field research; and present scholarly work. Credit/no-credit only. Offered: jointly with G H 532; A.

EPI 588 Preparing, Writing, and Critiquing Scientific Research Proposals (2-3) *A. FITZPATRICK, L. KESSLER* Experience in preparing, organizing, and writing research proposals, following NIH and AHRQ guidelines. Includes weekly assignments and didactic exercises, leading to final research proposal. All students participate in mock study section to review and critique proposals. Prerequisite: second-year graduate student (PhD recommended) , or PhD or MD in health-related field. Credit/no-credit only. Offered: jointly with HSERV 578.

EPI 590 Selected Topics in Epidemiology or International Health (1-6, max. 6) Tutorials arranged for a small number of students for in-depth examination of an area of epidemiology or international health, usually of current nature. Seminar format. Prerequisite: EPI 511. Also a special summer format presenting introductory material. May be offered with ENV H 590 and/or HSERV 590. For more information and permission, consult department program adviser.

EPI 591 Current Literature in Epidemiology (1, max. 15) Articles pertaining to epidemiology and related subjects selected from the current literature to be distributed and read by all participants. Faculty members and enrolled students alternate being responsible for conducting sessions and choosing articles to read. Prerequisite: EPI 513. Credit/no-credit only. Offered: AWSp.

EPI 592 Program Seminars (1-6, max. 16) Graduate seminars organized to address specific educational needs of students in various specialized programs within the Department of Epidemiology (i.e., Maternal and Child Health) . Prerequisite: permission of instructor.

EPI 593 Cancer Prevention Research Laboratory (3, max. 24) Research experience for pre- and post-

doctoral students working on cancer prevention projects at the Fred Hutchinson Cancer Research Center. Credit/no-credit only. Offered: AWSpS.

EPI 594 Field Epidemiology: Student Epidemic Action Leaders Team (1-2, max. 8) *J. BASEMAN* Introduces applied epidemiology in public health practice, specifically in areas of outbreak investigation, public health preparedness and response. Includes fieldwork opportunities. Offered: AWSpS.

EPI 595 Epidemiology Master's Practicum (1-6, max. 6) Supervised practice experience providing students an opportunity to learn how epidemiology is applied in a public health setting and in the formulation and application of public health policy. Prerequisite: EPI 512 and BOST 511 or equivalent and permission of instructor. Credit/no-credit only. Offered: AWSpS.

EPI 600 Independent Study or Research (*-) Prerequisite: permission of independent study supervisor. Credit/no-credit only. Offered: AWSpS.

EPI 700 Master's Thesis (*-) Prerequisite: permission of thesis chair. Credit/no-credit only. Offered: AWSpS.

EPI 800 Doctoral Dissertation (*-) Prerequisite: permission of dissertation chair. Credit/no-credit only. Offered: AWSpS.

HEALTH SERVICES

HEALTH INFORMATICS AND HEALTH INFORMATION MANAGEMENT

HIHIM 400 Health Care Language for Health Informatics and Information Management (3) Designed for HIHIM majors to compile a working vocabulary in health care and to explain clinical documentation. Strengthens student competence to read/write/comprehend and speak the language used by health providers/administrators. Employs a variety of tools (reading, writing, listening exercises; electronic health record documents/case studies; mini-lectures on body systems) . Practices written and verbal communication to achieve proficiency. Prerequisite: BIOL 118 and BIOL 119 Offered: A.

HIHIM 405 Introduction to Health Data Analytics (3)

Covers the process of and tools used in evaluating data using analytical and logical reasoning to examine each component of the health data. Offered: jointly with BIOST 405.

HIHIM 407 Foundations for Healthcare Vocabularies

(3) Focuses on health concepts, documentation, healthcare taxonomies, and clinical vocabularies, terminologies, classifications, and nomenclatures required for health data analysis, clinical coding, and clinical systems associated with the electronic health record.

HIHIM 408 Management Concepts with HIM

Applications (4) Covers management principles from a health information management perspective and core management functions of planning, organizing, staffing, delegating, leading, and controlling; theories of management, both traditional and contemporary; leadership concepts in HIM; change management; human resource management; employment law; performance management, and HIM organizational structure.

HIHIM 409 Disease Concepts for Managers (4)

Develops a methodology for understanding and communicating dimensions of disease states as all health state that a person might experience. Presents clear, effective ways to describe the diversity of health conditions and focuses on disease from a health information systems perspective.

HIHIM 410 Foundations in Health Information Management (4)

Focuses on the basic of health information through study of the creation and maintenance of health records, access to and retention of health information, accreditation, licensure and professional standards in acute care hospitals and alternate care facilities.

HIHIM 411 Health Data Management (3) Addresses the governance and management of healthcare data through exploration of data assets and linking the assets to standards and quality.

HIHIM 412 Healthcare Coding (5) Covers healthcare coding principles for International Classification of Diseases (ICD) and Current Procedural Terminology (CPT) code sets used in diagnosis and procedure code assignments for research and reimbursement

by healthcare providers in all settings. Prerequisite: HIHIM 409.

HIHIM 413 Revenue Cycle Management (3) Covers the revenue cycle management of health information administration.

HIHIM 414 ICD, Clinical Documentation and Revenue Management (3) In depth study of ICD code sets for diagnosis and procedure coding, clinical documentation to support ICD code assignment, and reimbursement methodologies which use the ICD code set to determine payment models.

HIHIM 415 CPT/HCPCS, Clinical Documentation and Revenue Management (5) in depth study of CPT/HCPCS code sets for procedure coding, clinical documentation to support CPT/HCPCS code assignment, and reimbursement methodologies which use the CPT/HCPCS code sets to determine payment models.

HIHIM 420 Healthcare Computer Systems and Electronic Health Records (5) Current health information systems and the role of health informatics; technology infrastructure and health informatics standards, electronic health records, definitions, functions, issues, and barriers; hospitals, ambulatory care, home health and long-term care and computer applications. Prerequisite: HIHIM 410; HIHIM 411.

HIHIM 421 Health Information Systems Analysis (5) Examines lifestyle systems development process and tools, project management and team coordination, analysis of health information systems, and user requirements. Prerequisite: HIHIM 420.

HIHIM 425 Research Design and Statistics for HIHIM (3) Explores healthcare and research statistics. Addresses hospital statistics, used to calculate usage levels of healthcare resources and outcomes of clinical operations, and research statistics, used to summarize and describe significant characteristics of a data set, and to make inferences about a population based on data collected from a sample. In addition, principles of research are described, including the Institutional Review Board process. Offered: jointly with BIOST 406/STAT 406.

HIHIM 450 Healthcare Delivery and Policy (5) Organization of healthcare services across delivery

systems - both governmental (federal, state, local) and private. Financing health care services and related policy issues. Competencies and content areas related to public health profession, science, and human health. Offered: A.

HIHIM 454 Finance Concepts for Healthcare Managers (4) Covers financial concepts applied to today's healthcare environment, financial management tools, and budgeting.

HIHIM 455 Leadership and Strategic Management (4) Focuses on leadership and strategic management for enterprise-wide health information and information governance initiatives; evaluates organizational ethics and culture for situations impacting HIM and health informatics; and analyze individual interpersonal skills and professional and personal goals.

HIHIM 456 Quality Improvement in Healthcare (5) Focuses on quality improvement, risk management and utilization management; management of quality improvement systems; use of data systems in quality assurance; health data retrieval, analysis and presentation. Recommended: statistics; medical terminology.

HIHIM 460 Professional Pathways (3) Explores the development of management skills and competencies, and a seminar through site experience in healthcare facilities with campus and clinical faculty. Prerequisite: HIHIM 410

HIHIM 461 Professional Development and Networking (2) Addresses the professional portfolio and mentoring, and preparation for the national credentialing examination for Registered Health Information Administrator (RHIA) .

HIHIM 462 Capstone Project (5) Explores applied management using a formal capstone project in a healthcare setting. Prerequisite: HIHIM 460.

HIHIM 470 Legal Concepts for Health Fields (3) Examines principles of law as applied to the health field, with reference to health information management.

HIHIM 480 HIM Operations and Project Management (5) Provides the tools and experiences

useful for health informatics and information management professionals in the daily functions and activities of a HIM department, and in the controlling the activities of a health care project.

HIHIM 490 Special Topics (1-5, max. 15)

HIHIM 499 Independent Study (1-5, max. 5)

HIHIM 508 Health Information Management systems and Leadership (3) Provides a high level framework of health informatics and health information management practice. Covers practice related systems with emphasis on enterprise information governance, patient record organization, content and structure, and associated enterprise business functions and processes to provide foundation for understanding the practice. Offered: A.

HIHIM 509 Introduction to Health Informatics (3) Healthcare is one of today's most information-intensive industries. Yet healthcare delivery organizations have been slow to adopt advanced health information technology (HIT) . It is imperative that future health care leaders have a deep understanding of and belief in HIT spanning the spectrum of health delivery systems.

HIHIM 510 Enterprise Systems and Electronic Health Records (3) Covers industry drivers, development, compliance framework, and certification of electronic health record systems status and operations addressed through strategic decision making and leadership: data movement among enterprise clinical, business, administrative systems to legal health record; and barrier and benefit assessment within major institutional culture and technology initiative changes. Offered: A.

HIHIM 520 Law, Policy, and Ethics in Health Information (3) Explores the laws, policies, and issues involved in oversight and management of health data and health information systems. Defines the legal health record and the requirements, role, and uses. Covers the legal and ethical framework, issues and concepts, and the role of e-discovery on the emerging health data environment. Offered: W.

HIHIM 524 Health Data Analytics (3) *Ken White* Healthcare organizations generate a large number of clinical performance metrics. Extracted data from

different data systems is used to display relevant metrics in dashboards that are meaningful to senior leadership. Statistical tools may determine if differences in performance are significant and what factors are associated with the differences. Predictive models may then be built and inputs varied to obtain performance improvements. Recommended: beginner Excel skills. Offered: jointly with BIOST 507; Sp.

HIHIM 525 Healthcare Databases and Applications

(3) Provides an overview of data models, architecture platforms, and relational database theory and technology. Covers design and uses of databases in patient record systems, registries and indexes, and health databases, security, privacy and ethical issues, database design, data integrity, field properties, tables, reports, queries, and data retrieval. Offered: Sp.

HIHIM 530 Healthcare Privacy and Security in the e-Environment

(3) Covers the laws, regulations, policies, and practice related to the confidentiality, privacy, and security of health information in an electronic environment. Federal and state laws and regulations require specific performance in the acquisition, use, storage, and maintenance of health information. Examines systems and practices. Offered: Sp.

HIHIM 535 Clinical Vocabularies and Terminologies

(3) Covers clinical terminologies, classifications, and mapping, which provides information on taxonomies and metadata, information objects, and classification theory in organizing information in an electronic system. Includes current initiatives in terminologies and data mapping in electronic health record systems. Offered: S.

HIHIM 540 Consumer Health Informatics

(3) Covers community and consumer health informatics associated with health services provides; electronic health records that address internal and external standards; accreditation and regulatory requirements needed to provide quality care; and health information exchange from policy to implementation. Offered: A.

HIHIM 550 Health Care Information Governance

(3) Covers the conceptualization, design, and management of data initiatives and knowledge needed by the healthcare enterprise. Reviews data

integrity principles and guidelines to determine methodology for evaluation development and management of internal and external information requirements. Offered: W.

HIHIM 552 Healthcare Business Intelligence

(3) Examines business and enterprise data used to inform enterprise healthcare business intelligence and decision making to underpin and meet strategic and operational business goals and objectives. Performance metrics, business data analytics, data mining, predictive modeling, business process modeling, data visualization and other tools used to enable healthcare program and product performance assessment are featured. Offered: A.

HIHIM 555 EHR/Hi Systems Operations and Improvement

(3) Addresses leadership and management of an organization's health information assets that are required as the nation transitions to interoperable health information systems. Offered: A.

HIHIM 556 Healthcare Quality and Technology

(3) Explores the current healthcare environment related to healthcare safety issues. Examines an overview of major health and safety challenges and responses; focusing on the impact of the issues in improving health and safety in healthcare and information resources needed. Offered: Sp.

HIHIM 560 Special Topics in Health Informatics

(3) Presents problem solving opportunities on health industry information issues, strategies and unmet challenges. Topics reflect the current state, progress, and future expectations faced by healthcare and health information managers.

HIHIM 598 Project Management

(3) Focuses on applying leadership readiness at the enterprise level; informatics and information governance challenges; research and project management resources; communication management strategies; and the impact of technology from management oversight to health services delivery. Offers an opportunity to practice a key role of leadership: transforming organizational culture by effective implementation of change. Offered: W.

HIHIM 599 Capstone Project

(3) Provides a practice-based problem solving experience that draws on health informatics and information management;

health industry knowledge; leadership and management strategies; and applies project management skills to design, plan, and implement a management project in healthcare and healthcare related organizations. Offered: S.

HEALTH SERVICES

HSERV 100 Personal and Public Health (3) I&S

Provides an overview of the key components of health and wellness. Presents a balance between individual responsibility and social determinants of public health, emphasizing a holistic preventative model. Incorporates self-assessment and considers the impact of personal, family, social, cultural, and environmental factors on health.

HSERV 204 Communicating about Health: Current Issues and Perspectives (3) Provides an overview of health communication topics and perspectives for students who are interested in pursuing careers in the health industry and those with a research interest in health communication such as caregivers, health care administrators, marketing and public relations professionals, media planners, public health promoters, and educators, researchers and others. Offered: WSp.

HSERV 230 Sleep and Population Health (3)

NW/I&S M. Garrison Examines the role of sleep in population health, including risk factors and short and long-term consequences for inadequate sleep. Expands understanding of sleep science and how sleep can function as not only an outcome, but also as a predictor, mediator, confounder, and effect modifier of health outcomes and disparities. Also explores established and emerging sleep interventions and their potential to improve population health outcomes. Offered: W.

HSERV 290 Special Topics (1-6, max. 12) I&S

Explores current or evolving areas of interest in public health.

HSERV 343 Health Behavior and Health Promotion

(5) Introduction to health behavior change and health promotion. The course will cover theoretical foundations of health behavior and health promotion, as well as how to apply theory and evidence in health promotion practice. It will also

introduce strategies for implementing and evaluating health promotion programs. Offered: A.

HSERV 344 Public Health and Health Systems

Management (5) Introduces public health and health systems management concepts. Students learn key tenets of high-performing public health and healthcare organizations, and environments in which these organizations operate. Examines a variety of health system models, including governmental public health, healthcare delivery systems, accountable communities of health and other collaborative models. Offered: W.

HSERV 345 Community Health Assessment (5)

Introduces role of assessment in planning for community health improvement through health promotion activities. Considers determinants of health; methods to find, collect, and analyze quantitative and qualitative data; interpret findings to describe the health resources, risks, and outcomes; role of assessment in identifying health disparities and patterns of health inequities. Offered: Sp.

HSERV 346 Using Economics to Solve Today's Healthcare Problems (4) I&S

Health economics is a growing field and an important aspect of public policy. Introduces health economics and the tools economists use to analyze current issues in health care. Furthers the understanding of economics and how it is used in current debates. Prerequisite: ECON 200. Offered: jointly with ECON 346; A.

HSERV 415 War and Health (4) I&S A. Hagopian, E.

Kanter Explores the health consequences of war (injury, infectious diseases, mental health, chronic disease, malnutrition, infrastructure) and the role of health professionals and others in preventing war (advocacy, measurement and application of epidemiology methods, promotion of social equity). Offered: jointly with G H 415; Sp.

HSERV 475 Perspectives in Medical Anthropology

(5) I&S Introduction to medical anthropology. Explores the relationships among culture, society, and medicine. Examples from Western medicine as well as from other medical systems, incorporating both interpretive and critical approaches. Offered: jointly with ANTH 475.

HSERV 476 Introduction to Applied Ethnographic Methods in Public Health (4) Introduces practical methods of gathering ethnographic data. Students investigate a local culture, including such diverse groups as graffiti artists and dumpster divers.

HSERV 479 Black Lives and Police Violence: Racism and the Public's Health (4) I&S, DIV C. SPIGNER The effects of racism on health are profound and multi-dimensional. Critically analyzes theories of human behavior in relation to epidemiological concepts of race, against the backdrop of the current Black Lives Matter movement in the United States. Offered: Sp.

HSERV 482 The Health of Populations (4) I&S, DIV Explores what makes a population healthy or unhealthy. Examines why the United States is less healthy than all other rich countries, despite being one of the healthiest fifty years ago. Offered: jointly with G H 482.

HSERV 488 Dark Empire: Race, Health, and British Society - Abroad (6) I&S, DIV Explores factors responsible for the well-being and health of black and other racial/ethnic minorities in Britain. Addresses: the National Health Service; ethnic diaspora, anti-immigration laws; urban riots; inequality, and the rise of Muslim fundamentalism and Islamophobia. Conducted in Britain.

HSERV 490 Advanced Topics (1-6, max. 12) I&S Explores current or evolving public health problems. Offered: W.

HSERV 499 Independent Study in Health Services (1-12, max. 12) Individual library or field study project selected in consultation with a faculty adviser.

HSERV 504 Health Promotion and Behavior Change Communication ([1-3]-, max. 3) Overview of the theory and practice of designing, producing, and evaluating public health communication campaigns, including the use of mass media. Develops greater capacity for critical judgment about the use of communication strategies for achieving public health goals.

HSERV 507 Health Communication and Marketing for Health Promotion: Theory and Practice (3) Discusses health communication theories and applications at the individual level (persuasion), interpersonal level (motivational interviewing), and

population level (mass media). Examines marketing principles for health promotion. Develops a health communication campaign for clients. Investigates adaptation frameworks of communication campaign cutting across cultures.

HSERV 508 Dynamics of Community Health Practice (3) Analysis of principles of community health as applied to the delivery of clinical services in order to improve public health, reduce disparities, provide leadership in delivery of care, and synthesize one's clinical role with public health. Examines environmental, social, cultural, and behavioral determinants of health. Includes family, aggregates, and populations. Offered: jointly with NURS 560.

HSERV 509 Public Health and Informatics (3) Introduction to the emerging field of public health informatics. Covers general public health topics as well as key public health informatics issues and applications. Evaluates a public health information system. Prerequisite: either BIME 530 or permission of instructor. Offered: jointly with BIME 533.

HSERV 510 Social and Behavioral Sciences in Health Program Planning and Implementation (3) Provides an overview of three core areas in the social and behavioral sciences of public health practice and research: social determinants of individual and population health, health promotion and disease prevention, and cultural competency and community collaboration. Offered: A.

HSERV 511 Introduction to Health Services and Public Health (3-4) History, organization, and effectiveness of U.S. healthcare and public health systems. Determinants of health, need, and utilization. Public and private financing. Supply and provision of personal and public health services. Managed care. Government and private sector roles. Prerequisite: graduate standing or permission of instructor.

HSERV 512 Health Systems and Policy (3) Students review and examine selected topics from literature. Includes need and access to care; theory and effects of health insurance; private and public insurance programs; managed care; costs/expenditures; availability and organization of health resources; and quality assessment and improvement. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511.

HSERV 513 Health Policy Research (3) Extends students' understanding of the nature of health policy and health policy development in the context of a market-based economy. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, permission of instructor.

HSERV 514 Social Determinants of Population Health and Health Disparities (3) Explores the elements and actions of a population health approach, including conceptualizing the determinants of health, synthesizing knowledge about major social determinants, and applying knowledge to improve population health and reduce health disparities. Enrollment priority for Health Services PhD students. Prerequisite: HSERV 511, permission of instructor. Offered: jointly with EPI 547.

HSERV 515 War and Health (4) *A. Hagopian, E. Kanter* Explores the health consequences of war (injury, infectious diseases, mental health, chronic disease, malnutrition, infrastructure) and the role of health professionals and others in preventing war (advocacy, measurement and application of epidemiology methods, promotion of social equity) . Offered: jointly with G H 515; Sp.

HSERV 516 Introduction to Health Services ([3-4]-) Provides overview of healthcare system, exposes students to current issues and developments affecting organization and delivery of health services, helps students develop ability to frame and analyze questions and issues related to health services. Prerequisite: registration in Extended MPH degree program.

HSERV 517 Qualitative Research Methods: An Introduction (3) Introduction to research skills to discern how and why humans behave relative to their health. Emphasizes planning, design, evaluation, using qualitative research procedures. Students gain an understanding of qualitative research techniques by articulating a phenomenon of interest, identifying a target population, employing proper data collection strategies, and rigorous verifying results. Offered: S.

HSERV 518 Social and Ethical Issues (2-4, max. 4) Presents introduction to ethical issues in public health policy and practice. Additional one credit option focuses on health administration/managed

care. Coursework designed to train students in basic skills of ethical analysis and increase competency in recognizing, researching, and analyzing issues arising in public health and health services delivery.

HSERV 519 Study Design and Causal Inference (1) Increases depth of knowledge about causal inference in impact evaluation. Applies the elements of causal inference to impact study design and statistical analysis, including the concept of statistical conclusion validity, internal validity, construct validity, and external validity. Credit/no-credit only. Offered: A.

HSERV 520 Methods in Applied Community Research ([0-4]-, max. 4) Skills/knowledge necessary to conduct orderly investigation of specific problems in preparation for MPH thesis or project. Includes problem identification, posing research questions, literature review, consideration of theoretical/practical context, choosing study design, data collection, protection of human subjects, and recognizing potential errors. Prerequisite: registration in Extended MPH degree program. Credit/no-credit only.

HSERV 522 Health Program Evaluation ([1-5]-, max. 5) Politics, theory, methods of evaluation, from simple health programs to evaluation of large-scale interventions. Emphasizes experimental and quasi-experimental designs to estimate program impacts, as well as evaluation of program implementation. Case studies drawn from health field illustrate various types of evaluations. Prerequisite: background in introductory statistics.

HSERV 523 Advanced Health Services Research Methods I: Large Public Databases; Big Data (4-5) Introduces the new big data of health services research, health claims, and survey databases. Discusses the promises and pitfalls of the data and models for analyzing the correlates of health care costs and utilization. Prerequisite: either HSERV 511, BOST 511/BOST 512/BOST 513, BOST 517/BOST 518, or EPI 511/EPI 512, and permission of instructor.

HSERV 524 Advanced Health Services Research Methods II: Hierarchical and Incomplete Data (4-5) Introduces advanced biostatistical techniques for analyzing incomplete data in population health research. Examines a wide range of topics including:

missing data and potential outcome framework for causal inference, propensity score and multiple imputation, multilevel random effect linear and logistic models, and empirical Bayes prediction
Prerequisite: either HSERV 523 or permission of instructor.

HSERV 525 Advanced Health Services Research Methods III: Casual Inference Using Observational Data ([4-5]-) Focuses on reviewing statistical methods developed for "micro" (individual-level) data on behavior (choices or exposures) and outcomes in order to make casual inference about the role of a choice or an exposure on outcomes.
Prerequisite: either HSERV 523, BIOST 511, BIOST 512, BIOST 513, or permission of instructor.

HSERV 527 Survey Research Methods (4) A. *MOKDAD* Provides students with skills in questionnaire development and survey methods. Students develop a questionnaire and design a survey research proposal on a health-related or social topic. Prerequisite: either HSERV 511/HSERV 513; BIOST 517/BIOST 518; or EPI 512/EPI 513, which may be taken concurrently, or permission of instructor. Students should have a survey project in mind. Offered: jointly with CS&SS 527/G H 533.

HSERV 528 Critically Appraising and Applying Evidence in Healthcare (3) Literature appraisal skills for various articles (therapy effectiveness, diagnostic tests, literature reviews, clinical measurement, prognosis, quality of care, decision analysis, causation/etiology, guidelines, and economic evaluation) . Appraisal of clinical information from literature, strengths/weaknesses of data, analyses, study design/applicability to a current patient's problem. Prerequisite: permission of instructor. Offered: jointly with BIME 540.

HSERV 529 Introduction to Systematic Reviews and Meta-Analysis of Evidence (3) Conceptual understanding of the quantitative methods used to synthesize evidence. Methods for pooling evidence across independent studies, pooling binary/continuous outcomes, differences between fixed and random effects models, and guidelines for appraising published systematic reviews/meta-analyses. Prerequisite: either introductory level courses in statistics, epidemiology, or biostatistics or permission of instructor. Offered: jointly with BIME 541/EPI 541/PHARM 529.

HSERV 531 COPHP Population Health and Community Development (6) Population Health considers social and other factors that determine health. The course challenges dominate views of health. We compare health in the United States with other countries. In Community Development, we learn asset-based community engagement. Students work directly with community members, advocates, and service organizations to address health issues. Offered: A.

HSERV 533 COPHP Quantitative Methods (6) Acquaints students with methods of epidemiology and biostatistics used in conceptualizing, collecting, analyzing, and interpreting quantitative data on health outcomes and risk factors with quantitative methods for evaluating programs or treatments that address health concerns in populations. Expands skills in communicating quantitative aspects of public health, using writing, tables, and graphs. Offered: W.

HSERV 534 COPHP Health Behavior and Health Promotion and Environmental Health (6) Environmental Health reviews scientific principles utilized in environmental public health and examines the occurrence of diseases resulting from environmental and occupational exposures. Health Behavior and Promotion reviews theory and practice of planning and evaluating public health promotion problems and applying sound judgment when deciding about identification, audience segmentation, and intervention selection. Offered: Sp.

HSERV 536 Emerging Infections of International Public Health Importance (3-) Focuses on the nexus between emerging infections and increasing globalization of the world due to the mobility of people and goods. Examines emergent events through risk factors and associated macro changes implicated in their genesis. Reviews microbial evolutionary strategies and factors of emergence. Prerequisite: graduate standing. Offered: jointly with EPI 529.

HSERV 537 COPHP Health Policy (6) Covers concepts and analytic tools for health policy analysis, development, and advocacy, while exploring factors affecting public health policy, including science and community values. Student write a policy statement for an advocacy organization, teach a lay audience

about an issue, and arrive at policy conclusions based on quantitative data.

HSERV 538 COPHP Evaluation Design and Community Organizing (6) Covers concepts and approaches for program evaluation in public health. Uses one case, including a final assignment requiring students to work as a team to design an evaluation. Organizing synthesizes accumulated skills and knowledge a public health professional uses to work with communities to advance public health. Integrates a broad array of skills to consolidate perspectives of the many players that interact in dynamic community settings. Offered: W.

HSERV 540 COPHP Management and Leadership (6) Explores the principles of leadership and management within the context of public health organizations. Explores the distinction between management and leadership and examines the management functions of planning, organizing, directing, and controlling the use of human and financial resources to accomplish the goals of the organization.

HSERV 541 Topics in Maternal and Child Health I (3-) Provides an overview of the historical and legislative basis for the major MCH health and social service policies and programs. Uses the life-course perspective to examine the social determinants of health and development of women, children, and adolescents. Pays special attention to racial inequities on the health of families.

HSERV 542 Epidemiology of Maternal and Child Health Problems ([3-4]-) D. ENQUOBAHRIE Contributions to understanding and prevention of major maternal and child health problems, including pregnancy outcome, infant and child morbidity and mortality, maternal morbidity and mortality, abnormal child growth and development, and early-life factors in adult health problems. Prerequisite: graduate, medical, or dental school standing and EPI 511 or EPI 512 or permission of instructor. Offered: jointly with EPI 521.

HSERV 544 Maternal and Child Health in Low and Middle Income Countries (3) D. DENNO Emphasizes critical health problems of women and children in developing countries in social, economic, and cultural contexts. Practical approaches to developing MCH programs shared via lecture/discussions,

exercises, and small group work. Students acquire skills in baseline assessment, setting objectives, planning and evaluating interventions, and involving communities. Offered: jointly with G H 544; W.

HSERV 548 Research Methods for Social and Contextual Determinants of Health (3) A. Hajat Explores study-design, measurement, analytic, and interpretation issues applicable to research on social and contextual determinants of health and health disparities. This lecture/seminar course is offered to graduate students with knowledge of epidemiologic and biostatistical principles who are interested in understanding complex relationships between social/contextual factors and health. Prerequisite: EPI 511 or EPI 512/513; and BOST 511/512/513 or BOST 517/518. Credit/no-credit only. Offered: jointly with EPI 548; W.

HSERV 551 Public Health Law (2-4, max. 4) Focuses on the role of law in public health administration and in the increasingly regulated healthcare industry. Provides a foundation in the relevant law for public health officers and healthcare industry administrators. Offered: jointly with LAW H 512; A.

HSERV 552 Health Policy Development (3-) Uses primarily case- and problem-based learning and small-group projects to focus on factors that influence public policy development concerning health services in the U.S., with some global health content. Examines the roles of science and stakeholder interests in the structure of and changes to a nation's health system. Offered: A.

HSERV 555 Health Disparities (2) Focuses on health disparities and health inequity in the United States. Course will cover both theoretical and empirical approaches to understanding patterns of health across social groups, with a focus on designing research and public health programs to addressing health disparities. Offered: W.

HSERV 556 Tobacco-Related Health Disparities (1/2) Integrates multiple disciplinary perspectives to address the pressing issue of disproportionate tobacco use and related diseases among marginalized populations, including those defined by socioeconomic status, race/ethnicity, and sexual orientation. Explores links between, and intervention strategies for, smoking and mental

illness, social stress, acculturation processes, and genetics.

HSERV 558 Tobacco and Public Health: Prevention, Treatment, Policy, and Social Change (1-3, max. 3)

Integrates multiple disciplinary perspectives to provide a comprehensive overview of the history, health effects, policy, prevention, and treatment of tobacco use. Utilizes readings, stimulates discussions, and hosts renowned experts to provide students with the foundation to understand and address the local, national, and global epidemic of tobacco use.

HSERV 559 Public Policy and the Public's Health ([0-3]-, max. 3)

Watts Explores the factors that affect health policy and the interaction of policy, markets, and the legal system through public health examples. Examines how science and community values intertwine in policy development, and how context influences the structure of and changes to a nation's health system.

HSERV 560 Adult Learning: Theory and Practice (3)

Designed to help students apply Popular Education theory and practice to preparation, presentation, and evaluation of health education. Students design, teach, and evaluate four separate teaching sessions (one between each seminar) using theory and principles of Popular Education learned to date. Prerequisite: graduate standing or permission of instructor.

HSERV 561 Introduction to Health Promotion Planning and Evaluation ([0-3]-, max. 3)

Links practice to theory between the planning, implementation, and evaluation of health promotion intervention and behavior change theory. Uses PRECEDE/PROCEED planning model by Green and Kreuter as framework.

HSERV 567 Strategic Leadership of Public Health Systems ([2/3]-, max. 5)

Prepares students to become public health leaders as envisioned in the Public Health 3.0 framework. Emphasizes leadership and communication skills for public health leaders to spearhead health promotion efforts in partnership with stakeholders such as health care clinicians and leaders in widely diverse sectors, and being deeply engaged in addressing social determinants of health and advancing health equity. Offered: WSp.

HSERV 568 Health Economics (3) Applies microeconomics principles and models to understand the nature of health care markets and systems. Includes a wide range of health sector activities and policy issues by applying rigorous economic analytical tools coupled with review of key econometric and empirical analysis. Prerequisite: introductory coursework in microeconomic principles and basic statistics. Offered: W.

HSERV 571 Cultural Competency for Public Health Practice ([1-4]-, max. 4)

Application of cultural competency to clinical practice, healthcare management, and health services research when working with culturally diverse populations. Methodological orientation is qualitative, historical, and ethnographic. Lecture, narratives, discussions, guest presentations, film, video. Interdisciplinary perspective appropriate for graduate students in public health, health administration, nursing, social work, and anthropology.

HSERV 572 Planning, Advocacy and Leadership Skills (4)

An opportunity to master basic concepts, analytic tools, and skills for health program and policy planning, advocacy, evaluation and leadership skills under close mentor-ship of faculty and teaching staff in an interdisciplinary and applied setting. Engages MPH and other graduate students with real-world public health problems, partners with local community health organizations, builds skills and competencies in a number of topics and processes. Offered: Sp.

HSERV 575 Cancer Prevention and Control (3)

Provides an overview of research in cancer prevention and control for students training for a career in this field. Students identify major areas of prevention and control research, conduct an analysis of data in cancer prevention and control, and learn to prepare a research project grant. Prerequisite: permission of instructor.

HSERV 576 Health, Culture, and Community (3)

Chrisman A multidisciplinary approach to the development of leadership in personal and organizational cultural competence in community-based participatory research. Emphasizes understanding collaborative assessment, planning, and evaluation of health promotion and disease prevention programs to address the social

determinants of health at the population level.
Offered: jointly with NURS 557; W.

HSERV 577 Health Behavior and Preventative Medicine ([2/4]-, max. 4) Focuses on psychosocial and cultural factors related to health, preventive health behavior, illness perception, and behavior; theoretical basis for prevention; the interaction of consumers and providers in the delivery of healthcare services; and clinic and community based applications.

HSERV 578 Preparing, Writing, and Critiquing Scientific Research Proposals (2-3) A. FITZPATRICK, L. KESSLER Experience in preparing, organizing, and writing research proposals, following NIH and AHRQ guidelines. Includes weekly assignments and didactic exercises, leading to final research proposal. All students participate in mock study section to review and critique proposals. Prerequisite: second-year graduate student (PhD recommended) , or PhD or MD in health-related field. Credit/no-credit only. Offered: jointly with EPI 588.

HSERV 579 Structural Racism and Public Health (1) Introduces the concept of institutional racism and ways structural racism undermines public health. Discusses history of racism and intersections between structural racism and other systems of oppression. Explores relationship to racism and ways internalized racism acts as a barrier to health equity. Considers public health practitioners' role in addressing racism. Credit/no-credit only. Offered: jointly with PHI 579; AWSp.

HSERV 580 Foundations of Health Behavior and Social Determinants of Health (2) Provides an overview of core areas of health behavior and social determinates of health, including: social determinants of health; population health and health disparities; community engagement; and working effectively in diverse communities. Offered: A.

HSERV 581 Strategies of Health Promotion (4) Assessment of health promotion planning, implementation, and evaluation strategies for their strengths, weaknesses, and effectiveness. Students critique strategies to modify behavioral factors that influence lifestyles of individuals, including decisions influencing their reciprocal relationship with environmental factors affecting the health of

individuals, organizations, and communities.
Prerequisite: HSERV 511.

HSERV 583 Economic Evaluation in Health and Medicine (3) J. Babigumira, L. Steuten Methods and techniques for evaluating costs and cost-effectiveness of health, medical, and pharmaceutical interventions. Emphasis on economic evaluation, decision analysis, and modeling techniques for resource allocation and decision making. Applications to technology assessment, health policy, clinical practice, and resource allocation. Prerequisite: permission of instructor. Offered: jointly with PHARM 534.

HSERV 584 Assessing Outcomes in Health and Medicine (3) Concepts and methods for developing and using patient-reported outcomes in health and medicine. Emphasis on patient self-reported health status and quality of life. Qualitative research and psychometric methods applied to health outcomes assessment and all applications. Prerequisite: permission of instructor. Instructors: Devine, Edwards Offered: jointly with PHARM 535; W.

HSERV 585 Seminar in Medical Geography (5, max. 10) Intensive research seminar dealing with new and promising research themes in medical geography and public health. Offered: jointly with GEOG 581.

HSERV 586 Medical Geography (3) Geography of disease, consideration in health systems planning. Analysis of distributions, diffusion models, migration studies. Application of distance, optimal location models to health systems planning; emergency medical services; distribution of health professionals; cultural variations in health behavior. Prerequisite: familiarity with social science research; health-related issues. Offered: jointly with GEOG 580.

HSERV 587 Health Policy Economics (3) Applies economic theory to selected topics in healthcare, including information, risk and insurance, industry organization, government regulation, and public health issues. Emphasizes policy implications of these applications. Offered: jointly with ECON 547.

HSERV 589 Community Based Participatory Research and Health (3) Begins with a research topic of importance to the community with the aim of combining knowledge and action for social change. Provides an understanding of principles and

strategies, and appreciate of its advantages and limitations, and skills for participating effectively.

HSERV 590 Selected Topics in Health Services (*-, max. 30) Explores current or evolving public health problems. Prerequisite: permission of instructor.

HSERV 591 Community Oriented Public Health Practice (1-6, max. 42) Seven-quarter integrated sequence covers public health aspects of community assessment, biostatistics, epidemiology, health promotion/disease prevention, behavior change, environmental health, community development, policy development and analysis, and program planning and management. It is taught in a problem-based format. Prerequisite: enrollment in the COPHP program.

HSERV 592 Program Seminars (1-6, max. 20) Graduate seminars organized to address specific educational needs of students in various fellowships, residencies, and other specialized programs within the Department of Health Sciences (i.e., maternal and child health, international health, preventive medicine, social and behavioral sciences). Prerequisite: permission of instructor.

HSERV 595 Practicum/Field Work in Community Medicine ([1-12]-, max. 12) Experience in variable time blocks in community health activities in agencies delivering and planning health services. Sites include neighborhood clinics, health planning bodies, medical practice settings, public health agencies, special problem clinics and facilities, environmental programs and services. Prerequisite: master's student in health services and permission of instructor.

HSERV 598 Executive Master of Public Health Capstone ([1-10]-, max. 25) Students work with a community, public or private health-related agency to (a) identify and contribute to the solution of a community health problem, and (b) summarize, present, and evaluate this effort. Includes survey of literature, development of approach, and written paper on conclusions. Prerequisite: registration in extended MPH degree program and satisfactory completion of the first summer's coursework.

HSERV 599 Capstone Project (*-) Applies and extends the public health skills learned to other settings, develops new skills, expands a professional

network, and provides specialized knowledge that can be used to advance the student's future career and effectiveness in public health.

HSERV 600 Independent Study or Research (*-) Prerequisite: permission of instructor.

HSERV 700 Master's Thesis (*-) Prerequisite: permission of instructor.

HSERV 800 Doctoral Dissertation (*-)

HEALTH SERVICES MANAGEMENT

HSMGMT 500 Risk and Insurance Seminar (3) Presents the principles and practices of health insurance and risk. Emphasizes healthcare financing arrangements in the United States, including both private and government-sponsored (public) programs. Discusses comparisons with other developed countries.

HSMGMT 501 Epidemiology/Critical Evidence Appraisal (2-4, max. 4) Basic knowledge about methods used in epidemiology and their application to critical appraisal of clinical, epidemiological, and health administration literature for evidence-based management of healthcare organizations, improvement of delivery of health services, and for creating health policies.

HSMGMT 503 Population Health Management (2) Provides health administration students with an introduction to managing the health of defined populations. Examples include: the population within the catchment area of a hospital, the members of a health maintenance organization, the persons served by an accountable care organization, and the population employed in a workplace.

HSMGMT 505 Managing Healthcare Organizations (2-4) Introduces healthcare organizations and organizational management concepts. Develops a broad perspective by integrating conceptual, strategic, and systemic frameworks using four knowledge themes; the management role, organizational theory, management economics, and theory and practice of systemic organizational change within overall strategic management and systemic contexts.

HSMGMT 506 Introduction to Clinical Care (2)

Introduces the world of clinical care. Discovers through readings, discussion, and direct experience, the people and processes of clinical care and how they relate to healthcare administration.

HSMGMT 507 Group Dynamics and Team Leadership ([1-4]-, max. 4)

Focuses on theories and observations of team behaviors and techniques with emphasis on the individual as a team member; introduces team management/leadership models, theories, and skills. Students develop self-awareness, knowledge, and skills associated with building interpersonal relationships. Credit/no-credit only.

HSMGMT 510 Organizational Behavior (3-4)

Application of organizational behavior theory to explore the factors that affect behavior, performance, and job satisfaction of people working in organizations. Provides a body of knowledge and skills needed to successfully manage and lead healthcare organizations. Focuses on "best practices" for managing individuals, teams, and organizations.

HSMGMT 513 Seminar in Healthcare Finance (3-4)

Focuses on case studies and modern theory in managerial finance relevant to health services. Students prepare group presentations and individual case study analyses of health services finance problems. Builds on accounting and finance principles.

HSMGMT 514 Health Economics (3/4)

Uses economic concepts and tools to examine range of issues pertaining to healthcare, delivery of healthcare services. Includes demand analysis, production of health services, expenditure growth, markets for hospital and physician services, externalities. Emphasis on using economics to examine issues and solve problems. Prior economics courses not required.

HSMGMT 515 Advanced Economics - Decision Analysis ([1-3]-, max. 3) Develops skills to become informed consumers of economic evaluations of health programs. Develops skills necessary to conduct economic analyses of public health and health service programs.

HSMGMT 518 Ethical Issues in Health Services (2-3)

Presents an introduction to ethical issues that arise

in management of health services organizations. Covers clinical and organizational ethics.

HSMGMT 523 Informatics in Healthcare Management (3)

Medical informatics concerns the representation, organization, and manipulation of biomedical information and knowledge. Exposes students to a high-level understanding of informatics and its healthcare applications. Discussion of successes and failures in implementing information technology focuses on gaining leadership and management knowledge that embraces informatics.

HSMGMT 531 Systems Modeling Frameworks for Healthcare (3)

Focuses on methodologies to support strategic decision making in a systems context, considering the material, patients, providers, information, and resource dependencies of most healthcare organizations. Includes optimization models and basic alternative evaluation methods for the applications of capacity planning, policy investigation, and design and planning decisions. Offered: W.

HSMGMT 532 Quantitative Methods for Health Systems Design and Analysis (3)

Focuses on the method and application of operations research in health systems design and analysis. Covers a variety of topics in healthcare management and decision making. Healthcare decision making touches areas in resource allocation, scheduling, staffing, capacity planning, cost-effectiveness analysis, and assessment of medical technologies. Offered: W.

HSMGMT 545 Capstone Integrative Seminar ([1-4]-, max. 4)

Designed to assist students in the transition from theory to practice. Emphasis on sharpening analytical and intuitive leadership practices through the use of interactive case studies, team building exercises, and field projects. Prerequisite: second-year MHA students.

HSMGMT 550 Medical Practice Quality Measurement and Management (3)

Provides an overview of healthcare industry themes regarding cost, access, and quality. Concentrates on definition, measurement, and improvement of quality. Shows how quality measurements and specifications; the concept of value, guidelines, and pathway; and the evidence-based medicine movement interconnect. Utilizes examples of cutting edge programs to apply and promote improvement.

HSMGMT 552 Health Administration and Business Law (4) Studies numerous interrelated legal topics pertinent to healthcare organizations, typically including contracts, medical malpractice, legal and ethical obligations to provide healthcare, privileging, medical decision-making, tax-exemption, antitrust, fraud, and health information management. Encourages discussion of how the law supports or hinders current efforts to improve healthcare delivery systems.

HSMGMT 553 Healthcare Marketing Strategy (2) Provides an understanding of wholesale and retail markets in the healthcare sector. Examines market research and the application of marketing strategies and tactics to support an organization's core strategies. Applies the concepts of market segmentation, targeting, and positioning to decisions about design, distribution, pricing, and promotion of health services.

HSMGMT 554 Entrepreneurship (2) Focuses on developing students' resourcefulness, know how, and decision support skills needed to critically identify, evaluate, and develop new healthcare ventures. Topics include anatomy of startup ventures; new venture creation and innovation, business plan development and assessment, financing, marketing, and growth strategies; and corporate venturing.

HSMGMT 560 Management Practice in Healthcare and Public Health Organizations (1-4, max. 4) Introduction to leadership and management, focusing on effective strategies for creating a productive work environment. Organizational structure and strategy introduced. Case studies and other problem-solving methods, using health services applications, are utilized in order to apply theoretical material. Prerequisite: graduate student.

HSMGMT 562 Strategic Management of Healthcare Organizations (3-5) Management of goals, strategy, and structure in healthcare organizations. Design of external relationships and internal structures., strategy-formulation, decision-making, and change. Integration of professional, social, and organizational values. Theory, student and practitioner experience, and case studies used to enhance repertoire of management approaches and skills. Prerequisite: HSERV 511 and HSMGMT 560 or equivalent.

HSMGMT 563 Personnel Management for Health Professionals ([1-3]-, max. 3) Designed for midcareer health services professionals developing strategies and skills in human resource management. Focuses on policy and practice issues important to handling day-to-day personnel problems-selection, promotion, performance appraisal, discipline, grievances. Prerequisite: registration in Extended MPH degree program or permission of instructor; non-business majors.

HSMGMT 566 Decision Support Models for Health Services (3) Management science and approaches developed as applied to problems in public health. Emphasizes conceptual understanding of processes/application of systematic and rational approach to managerial problem solving, including cost-benefit, cost effectiveness analysis. Prerequisite: BIOST 502 and BIOST 503, or BIOST 511; registration in Extended MPH degree program; non-business majors.

HSMGMT 567 Clinical Systems Management (3) Introduces the management of clinical systems and their underlying cultures. Focuses on quality improvement, change management, governance, and clinical leadership development of physician-administrator partnerships in complex medical care settings.

HSMGMT 568 Quality Process Management (3-4) Provides a thorough understanding of the main concepts of operations management with a focus on total quality management techniques, along with key integrative frameworks that provide the foundation for successful applications of these approaches, as applied to healthcare organizations.

HSMGMT 570 Quantitative Methods (3-4) Concentrates on fundamental concepts of statistics and their application to healthcare management. Approaches statistics from two different perspectives that benefit leaders in healthcare: that of biostatistics and evidence based medicine, and that of management statistics for process improvement.

HSMGMT 571 Healthcare Financial Management (3) Focuses on the tools and analytic frameworks that healthcare managers use to make prospective forward-looking decisions. Problems worked in-class and assigned as homework to ensure that

participants develop competencies and confidence in applying the analytic tools and frameworks.

Prerequisite: HSERV 511 and ACCTG 500 or ACCTG 501 or permission of instructor. Offered: W.

HSMGMT 572 Financial Management for Health Professionals (3) Intensive review of basic accounting principles/terminology and an introduction to financial management/managerial accounting, including budgeting for managerial control, planning, cost accounting, financing health programs. Managerial accounting, program costing, rate setting, budget preparation. Prerequisite: BOST 502 and BOST 503, or BOST 511; registration in Extended MPH degree program or permission of instructor; non-business majors.

HSMGMT 574 Financial Management I (3-4) Prepares clinical professionals for participating intelligently in, and contributing to, financial decisions of healthcare organizations. Learn the language and fundamental concepts of accounting and finance, and become comfortable with what is required in formal financial analysis.

HSMGMT 576 Capital Planning (2) Emphasizes preparing clinical executives for managerial and leadership in healthcare organizations. Key concepts include capital cycle, creditworthiness, financial planning, cost of capital, capital structure, and capital allocation.

HSMGMT 577 Environment of Care (2) Addresses the basic issues of the "environment of care." Explores the physical environments in which care is provided to patients, JCAHO standards provide the core structure. Uses real world experiences and examples.

HSMGMT 578 Project Management (2/3) Introduces need for, concepts of, and tools and techniques used in contemporary project management. Builds upon prior courses and experience in leadership, management, planning, and team development. Focuses on difference between management of ongoing operations and of projects, and the need for a disciplined approach when planning and executing projects. Offered: W.

HSMGMT 579 Accounting for Health Service Managers (3) Emphasis on preparing graduate students for management and leadership roles in

their healthcare organizations. Covers financial accounting including the accounting equation, journal entries, and processes of accounting.

HSMGMT 590 Select Topics (1-6, max. 12) By arrangement, students and faculty members develop a program of reading and conference appropriate to the selected topic. Topic chosen is within the special competence of the participating faculty member, in the area of health services management.

HSMGMT 592 Health Management Program Seminar (1-6, max. 6)

PATHOBIOLOGY

PABIO 498 Undergraduate Thesis (*)

PABIO 499 Undergraduate Research (*, max. 12)

PABIO 500 Introduction to Pathobiology Research (3-9, max. 15) Rotation through research laboratory. Credit/no-credit only. Offered: AWSpS.

PABIO 536 Bioinformatics and Gene Sequence Analysis (3) *T. ROSE* Nature and relevance of molecular sequence information, computer-based protein, and DNA sequence analysis, molecular sequence and genomic databases, and methods for database accession and interrogation. Prerequisite: background in molecular biology and permission of instructor. Offered: jointly with PHG 536; Sp.

PABIO 548 Molecular and Cellular Parasitology (3) Molecular and cellular biology of parasites of health-related significance, emphasizing current research topics unique to parasites, particularly well-suited for study in parasites, and especially important to study in host-parasite systems. Prerequisite: familiarity with molecular and cellular biology and permission of instructor. Instructors: Feagin

PABIO 550 Diseases and Issues in Global Health (2) *O. Soge* Provides a broad perspective on global health issues; the biology and strategies for control of diseases of global importance; the global health landscape; and factors that influence global health. Recommended: Background in cellular and molecular biology, and microbiology recommended. This course is intended for students pursuing

laboratory-based research in pathogen biology.
Offered: jointly with G H 565; A.

PABIO 551 Biochemistry and Genetics of Pathogens and Their Hosts (4) Provides a strong foundation in biochemistry, molecular biology, and genetics for students interested in disease. Principles illustrated through examples focusing on pathogens, and infectious and non-infectious disease. Prerequisite: undergraduate-level coursework in molecular biology or biochemistry, or permission of instructor. Instructors: L. Campbell Offered: jointly with G H 566; A.

PABIO 552 Cell Biology of Human Pathogens and Disease (4) Cell biology and immunology explored through diseases of public health importance. Examples of pathogen interaction with host cell biology and immune systems, unique aspects of the cell biology of pathogens, perturbations of these systems in non-infectious diseases, and design of therapeutics and vaccines to combat diseases of public health importance. Prerequisite: undergraduate-level coursework in biology or molecular biology or permission of instructor. Offered: W.

PABIO 553 Survival Skills for Scientific Research (2) Focuses on skills needed for scientific career: writing abstracts, curriculum vitae, research proposals; preparing for oral presentations; lab management skills; discussion of mentorship/trainee relationships; case-based discussions of various topics in ethics and scientific misconduct. Credit/no-credit only. Offered: W.

PABIO 580 Pathobiology Seminar (1, max. 21) Research from students, faculty members, and invited speakers presented and discussed. Topics include immunochemistry, viruses, membranes, infectious diseases, immune response, and other related topics. Offered: W.

PABIO 581 Current Literature in Pathobiology (1, max. 15) Develops skills in analyzing data and assessing conclusions through an analysis of current literature in pathobiology. Focuses on breadth and analytical skills. Prerequisite: enrollment in the pathobiology graduate program.

PABIO 582 Critical Thinking and Research Design in Pathobiology (1.5, max. 12) Analysis of issues,

hypothesis and experimental design and testing. Prerequisite: graduate standing in pathobiology. Instructors: Lingappa Credit/no-credit only. Offered: Sp.

PABIO 590 Selected Topics (1-20, max. 20)

Individual offerings focusing on topics such as pathogenesis, immunology, virology, disease agents, bioinformatics and grant writing. Small lecture format. Prerequisite: permission of instructor.

PABIO 591 Rotating Pathobiology Minicourses (1)

Individual offerings focusing on topics such as pathogenesis, immunology, virology, disease agents, bioinformatics and grant writing. Small lecture format with discussion. Offered: Sp.

PABIO 598 Didactic Pathobiology (*, max. 12)

Supervised teaching experience in pathobiology courses for PhD candidates. Prerequisite: permission of instructor.

PABIO 600 Independent Study or Research (*-)

Prerequisite: permission of Graduate Program Adviser. Credit/no-credit only.

PABIO 700 Master's Thesis (*-) Prerequisite:

permission of Graduate Program Adviser. Credit/no-credit only.

PABIO 800 Doctoral Dissertation (*-) Prerequisite:

permission of Graduate Program Adviser. Credit/no-credit only.

PUBLIC HEALTH GENETICS

PHG 200 Implications of Public Health Genomics for the Modern World (3) I&S/NW J. GOGARTEN

Introduces the field of public health genomics through examples of genetic, ethical, political, and social issues emerging in the wake of the Human Genome Project. Students develop the skills to analyze and critique public health, clinical, personal, and social implications resulting from emerging genomic technologies. Offered: A.

PHG 301 Introduction to Genetic Epidemiology (5) I&S/NW J. Gogarten

Explores basic approaches that are used to identify genetic and environmental factors in health and disease, and how application of this information can be used to improve population

health. Discusses the relevant ethical, legal, and social implications that occur in research and translation to practice. Offered: Sp.

PHG 302 Forensic Genetics (3) I&S/NW, QSR Bruce S Weir Introduces the field of forensic genetics through discussion of genetic and statistical issues emerging since the introduction of DNA profiling. Students develop the skills to interpret the evidence of matching genetic profiles; to perform calculations relevant for parentage determination; the identification of remains; and to consider the implications of familial searching of DNA databases. Prerequisite: either BIOST 310, STAT 220, STAT 221/CS&SS 221/SOC 221, STAT 311, Q SCI 381, or Q METH 201. Offered: jointly with BIOST 302; W.

PHG 303 Direct-to-Consumer Genetic Testing: Uses and Issues (5-) I&S/NW Jennifer Morris Gogarten Surveys current genetic tests offered directly to customers (including all types of genomic data generated, and interpretations in health and ancestry) . Investigates current use of personal genomics in forensic and political realms, as well as marketing and regulation of these tests. Ethical, legal, and social implications covered in lectures, debates, and case studies. Recommended: prior exposure to basic genetics (at any level) . Offered: Sp.

PHG 401 Computational and Applied Genetic Epidemiology (5) QSR Alison Fohner Advanced topics in genetic epidemiology for undergraduate students, focusing on hands-on introduction to computational analysis of population genetics and individual health data using R programs. Students will investigate how genes and environment interact to cause disease and health-states and to inform public health interventions. Recommended: PHG 301 or prior background in basic genetics and statistics. Offered: jointly with BIOST 401/EPI 410; Sp.

PHG 511 Genetic Epidemiology (3) Sara Lindstroem Research methods for evaluating genetic influences on disease and risk factors and genetic-environmental interactions. Study designs and statistical methods include twin studies, family studies, population-based association studies, segregation analysis, and linkage analysis. Prerequisite: EPI 511, BIOST 511, and GENOME 371, or equivalent. Offered: jointly with EPI 517.

PHG 512 Legal, Ethical, and Social Issues in Public Health Genetics (3) Equips the student to anticipate and assess potential legal, ethical, and social barriers complicating the incursion of new genetic advances, information, and technologies into public and private healthcare delivery efforts. Prerequisite: GENOME 361, GENOME 371, or equivalent. Offered: jointly with B H 514/LAW H 504; A.

PHG 513 Basic Concepts in Pharmacogenetics and Toxicogenomics (3) K. THUMMEL Addresses current technologies for DNA sequencing, genotyping, RNA and epigenetic analysis and basic concepts of pharmacogenetics and toxicogenomics. Emphasis placed on applications of genomic technologies to the understanding of "gene-environment interactions" that cause variability in drug treatment responses, as well as diseases of public health importance, including cancer, chronic neurological diseases, and adverse drug reactions. Offered: jointly with ENV H 513/PCEUT 513; W.

PHG 519 Statistical Methods in Genetic Epidemiology (3) Theory and application of statistical techniques used in genetic epidemiology. Includes discussion of association studies, linkages and segregation analyses. Examples stressed with reference to assumptions and limitations. Prerequisite: either BIOST 513 or BIOST 518; PHG 511/EPI 517; or permission of instructor. Offered: jointly with BIOST 516/EPI 535.

PHG 521 Culture, Society, and Genomics (3) B. MCGRATH Examines social and cultural issues of human genome sequencing and control of genetic expression. Attitudes and behaviors toward health, illness, and disability are studied using historical, contemporary, and cross-cultural case study material. Offered: jointly with ANTH 574/NURS 582; Sp.

PHG 523 Genetics and the Law (3) Explores and analyzes legal issues arising from genetic technologies and information. Statutes, regulations, and cases demonstrate the constitutional, contract, tort, criminal, and family law use of genetic science to determine rights, disputes, and controversies. Prerequisite: either LAW H 504/B H 514/PHG 512 or permission of instructor. Offered: jointly with LAW H 520; Sp.

PHG 527 Social Science Research Methods (3) D. *BOWEN* Introduces students to research methods in bioethics, ranging from qualitative to quantitative: interviews, focus groups, surveys, and experimental and observational designs. Students write research questions, match research methods to research questions, and conclude with a proposal that uses a social sciences empirical approach to address their research question. Offered: jointly with B H 527; Sp.

PHG 536 Bioinformatics and Gene Sequence Analysis (3) T. ROSE Nature and relevance of molecular sequence information, computer-based protein, and DNA sequence analysis, molecular sequence and genomic databases, and methods for database accession and interrogation. Prerequisite: background in molecular biology and permission of instructor. Offered: jointly with PABIO 536; Sp.

PHG 544 Ethical Implications of Emerging Biotechnology (3) S. FULLERTON Introduces students to select biotechnology innovations and invites consideration of the ethical and policy implications surrounding their development and potential use. Offered: jointly with B H 544; W.

PHG 545 Biostatistical Methods for Big Omics Data (3) This "hands-on" course introduces statistical methods for high-dimensional omics data, as well as the R programming language and the Bioconductor project as tools to extract, query, integrate, visualize, and analyze real world omics data sets. Prerequisite: BIOST 512, 514, or 517. Offered: jointly with BIOST 545/GENOME 545.

PHG 580 Interactive Seminar (1, max. 30) Bruce S Weir Seminar series on topics related to public health genetics, including current bioethical, legal, medical, biotechnology, and public policy issues. Credit/no-credit only. Offered: jointly with LAW H 579; AWSp.

PHG 590 Selected Topics in Public Health Genetics (1-6, max. 6) Tutorials are arranged for a small number of students for in-depth examination of an area of public health genetics, usually of a current nature.

PHG 595 Master's Practicum (1-12, max. 12) Supervised practice experience providing students an opportunity to learn how genetics is applied in a public health setting and in the formulation and

application of public health policy. Prerequisite: practicum agreement.

PHG 600 Independent Study or Research (*-) Credit/no-credit only.

PHG 700 Master's Thesis (*-) Credit/no-credit only.

PHG 800 Doctoral Dissertation (*-) Credit/no-credit only.

SCHOOL OF PUBLIC HEALTH

PUBLIC HEALTH INTERDISCIPLINARY

PHI 511 Foundations of Public Health (3) Examines public health and healthcare - U.S. and globally. Covers foundational elements of public health, including history and impact, importance of health equity and human rights, and how racism manifests and is perpetuated within public health/healthcare systems. Builds community and provides a foundation for students to work effectively as public health professionals on inter-professional teams.

PHI 512 Analytic Skills for Public Health I (7) Focuses on principles and methods of epidemiology and biostatistics, including: descriptive epidemiology, data summaries and presentation, study design, measures of excess risk, causal inference, screening, measurement error, misclassification, effect modification, confounding, confidence intervals, hypothesis testing, p-values, sample size calculation, and linear regression analysis. Includes hands-on data analysis.

PHI 513 Analytic Skills for Public Health II (3) Introduces qualitative and mixed methods and relevance to rigorous public health research and practice. Places a strong emphasis on qualitative data analysis as an integral dimension of the mixed-methods approach. Focuses on contexts for and types of qualitative research questions, integration with quantitative measures of magnitude and frequency, and assessment of strength of evidence in the context of implementation science. Prerequisite: PHI 511 and PHI 512.

PHI 514 Determinants of Health (3) Describes and applies frameworks for understanding determinants of health at multiple levels and within different

systems. Emphasizes individual- and family-level determinants, physical and social environments, population-level determinants, and systems dynamics. Students learn how to apply theory and to interpret and weigh evidence to identify and prioritize health determinants for public health research, practice, and policy. Prerequisite: PHI 511 and PHI 512.

PHI 515 Implementing Public Health Interventions (4) Uses evidence and ethics in intervention design, implementation, and evaluation. The concepts, models, and methods of implementation science in public health are emphasized across multiple levels of the socio-ecological framework. Ethical considerations include assessing and acting on the values and preferences of stakeholder groups and striving for equity in potential outcomes. Prerequisite: PHI 511; PHI 512; PHI 513; and PHI 514.

PHI 516 Public Health Practice (3) Integrates knowledge of health determinants, public health systems, analytic skills and evidence-based approaches to public health problem solving. Public Health Practice, the culminating course of the MPH core curriculum, develops new skills in public health leadership, management, communication and community engagement. Students work in teams to apply knowledge and skills to real world public health practice challenges through case studies. Prerequisite: PHI 511; PHI 512; PHI 513; and PHI 514.

PHI 579 Structural Racism and Public Health (1) Introduces the concept of institutional racism and ways structural racism undermines public health. Discusses history of racism and intersections between structural racism and other systems of oppression. Explores relationship to racism and ways internalized racism acts as a barrier to health equity. Considers public health practitioners' role in addressing racism. Credit/no-credit only. Offered: jointly with HSERV 579; AWSp.

PHI 590 Public Health Interdisciplinary Selected Topics (1-10, max. 20) Topics vary.

SCHOOL OF PUBLIC HEALTH

SPH 380 History and Practice of Public Health (5) *Suzinne Pak-Gorstein* Provides a historical overview of public health as a framework to understand

organization of contemporary public health and key issues faced today. Offered: AWSp.

SPH 381 Science and Public Health (5) *Edward J. Kasner, Sarah F. Benki* Provide an overview and introduction to the ways different scientific disciplines are used to address public health goals. Prerequisite: minimum grade of 1.7 in SPH 380; either BIOL 118, BIOL 180, CHEM 120, CHEM 142, CHEM 145, or both MICROM 301 and MICROM 302. Offered: AWSp.

SPH 480 Research Methods in Public Health (5) *Sara Nelson Glick, Jennifer A. Slyker, Kate McGlone West* Applies concepts and research methods to real public health problems. Prerequisite: EPI 320; either BIOST 310, QMETH 201, Q SCI 381, STAT 220, STAT 221/CS&SS 221/SOC 221, or STAT 311; and a minimum grade of 1.7 in SPH 381. Offered: AWSp.

SPH 481 Ethics, Social Justice, and Policy in Public Health (5) *ALEXANDRA MONTANO, Stephanie Ann Farquhar, Rabi Yunusa* Integration of prior learning and consideration of public health decision from an ethics and justice perspective. Prerequisite: minimum grade of 1.7 in SPH 480. Offered: WSp.

SPH 489 Structural Racism and Public Health (1) *DIV Tara Bostock, Omid Bagheri Garakani* Introduction to and exploration of institutional and structural racism in a public health context. Credit/no-credit only. Offered: AWSp.

SPH 490 Selected Topics in Public Health (1-5, max. 15) In depth study of current public health topics. Offered: AWSpS.

SPH 491 Public Health Capstone I (2-) *Anjulie Ganti* Part one of integrative experience bringing together students' knowledge and skills acquired in the public health major. Prerequisite: SPH 380, SPH 381, or SPH 480. SPH 480 may be taken concurrently. Offered: AWS.

SPH 492 Public Health Capstone II (-3) *Anjulie Ganti* Part two of integrative experience bringing together students' knowledge and skills acquired in the public health major. Prerequisite: SPH 491. Offered: WSpS.

SPH 493 Public Health Capstone (5) Students complete a final self-directed paper on public health

topic of interest integrating the knowledge and skills acquired during their time in the public health major. Offered: AWSpS.

SPH 494 Honors Seminar in Public Health (1, max. 5)

Anjulie Ganti Skill-building, discussion-based seminar designed to challenge ability to analyze issues in public health using topics raised in current media. Credit/no-credit only. Offered: AWSp.

SPH 495 Public Health Internship (1-5, max. 15)

Anjulie Ganti Internship in public health related area. Credit/no-credit only. Offered: AWSpS.

SPH 497 Public Health Special Electives (1-5, max. 15) Independent study of a current public health topic. Offered: AWSpS.

SPH 499 Undergraduate Research (1-5, max. 15)

Individual research on a specific topic in public health. Offered: AWSpS.

SPH 589 Undoing Racism in Public Health (1)

Introduction to and exploration of institutional and structural racism in a public health context. Credit/no-credit only. Offered: AWSp.

SPH 590 Selected Topics in Public Health (1-5, max. 15)

In depth study of current public health topics.

RESERVE OFFICER TRAINING CORPS

AEROSPACE STUDIES

A S 101 Foundations of the United States Air Force I

(1) Focuses on the basic characteristics of air doctrine; U.S. Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: A.

A S 102 Foundations in the United States Air Force II

(1) Focuses on the basic characteristics of air doctrine; U.S. Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: W.

A S 103 Foundations in the United States Air Force III

(1) Focuses on the basic characteristics of air doctrine; U.S. Air Force mission and organization; functions of United States strategic offensive and defensive, general-purpose, and aerospace support forces; officership/professionalism and an introduction to communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Offered: Sp.

A S 211 The Evolution of Air and Space Power I (1)

Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Prerequisite: either A S 101, A S 102, or A S 103, any of which may be taken concurrently. Offered: A.

A S 212 The Evolution of Air and Space Power II (1)

Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine.

History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Prerequisite: either A S 101, A S 102, or A S 103, any of which may be taken concurrently. Offered: W.

A S 213 The Evolution of Air and Space Power III (1)

Factors contributing to the development of air power from its beginnings to the present, and the evolution of air power concepts and doctrine. History of air power employment in military and nonmilitary operations in support of national objectives. Assessment of communicative skills. Additional one-hour leadership laboratory is mandatory for cadets, but not special students. Prerequisite: either A S 101, A S 102, or A S 103, any of which may be taken concurrently. Offered: Sp.

A S 250 Aerospace Studies Leadership Laboratory

(0-1, max. 10) Evaluates the challenges of team leadership in complex contemporary environments. Students apply critical thinking skills using scenarios that emulate real-life Air Force issues and environments. Evaluates Air Force leadership attributes, skills, and activities. Focuses on advanced leadership development. Corequisite: any A S course. Credit/no-credit only. Offered: AWSp.

A S 331 Aerospace Studies 300 (3) Emphasis on basic leadership and management fundamentals, professional knowledge, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Prerequisite: A S 213. Offered: A.

A S 332 Aerospace Studies 300 (3) Emphasis on basic leadership and management fundamentals, professional knowledge, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership

experiences, giving students the opportunity to apply learned principles. Prerequisite: A S 213. Offered: W.

A S 333 Aerospace Studies 300 (3) Emphasis on basic leadership and management fundamentals, professional knowledge, and communicative skills required of an Air Force officer. Case studies used to examine leadership and management situations. An additional leadership laboratory (mandatory for cadets but not special students) provides leadership experiences, giving students the opportunity to apply learned principles. Prerequisite: A S 213. Offered: Sp.

A S 431 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy, policy, and organization; methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Prerequisite: A S 333. Offered: A.

A S 432 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy, policy, and organization; methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Prerequisite: A S 333. Offered: W.

A S 433 Aerospace Studies 400 (3) I&S Needs for national security, evolution of American defense strategy, policy, and organization; methods for managing conflict, alliances and regional security to preserve American interests. Arms control, terrorism, and current military issues; refinement of communicative skills. A one-hour leadership laboratory is also required for cadets, but not special students. Prerequisite: A S 333. Offered: Sp.

MILITARY SCIENCE

M SCI 101 Military Science and Leadership Development (3) Introduction to challenges and competences critical for effective leadership. Examines how critical thinking, goal setting, time

management, and stress relate to leadership. Develops knowledge and comprehension of leadership dimensions. Lessons include history and mission of the Army and leadership, personal development, values and ethics, and tactics and techniques discussions. Offered: A.

M SCI 102 Military Science and Introduction to Tactical Leadership (3) Overviews leadership fundamentals of problem solving, listening skills, briefings, providing feedback, and effective writing. Explores dimensions of leadership values, attributes, skills, and actions in the context of practical, hands-on, and interactive exercises. Introduction of effective oral communication. Develops skills in map reading, land navigation, and tactical maneuvering at team levels. Offered: W.

M SCI 103 Military Science and Introduction to Applied Basic Leadership (3) Final introductory series on leadership. Applies leadership fundamentals emphasizing attributes, skills, and actions. Students assess capabilities simultaneously, considering their personal leadership. Lessons apply leadership to military tasks of map reading, navigation, and tactics. Offered: Sp.

M SCI 110 Military Science Leadership Laboratory (0.5, max. 3) Evaluates the challenges of leading teams in complex contemporary environments. Students apply critical thinking skills using challenging scenarios related to small unit operations. Provides feedback on the 16 Army leadership attributes, skills, and actions. Focuses on leadership development. Credits do not count toward graduation. Credit/no-credit only. Offered: AWSp.

M SCI 201 Military Science and Innovative Team Leadership (3) Explores dimensions of innovative tactical leadership strategies and styles. Practices personal motivation and team building through planning, preparing, and executing group exercises. Develops knowledge of leadership values and attributes through an understanding of Army leadership examples. Lessons include leadership, personal development, values and ethics, officership, and tactics and techniques. Offered: A.

M SCI 202 Military Science and Foundations of Tactical Leadership (3) Explores creative and innovative tactical leadership strategies and styles by

examining team dynamics and leadership theories. Examines challenges of leading teams in complex contemporary environments. Practical exercises focus on dimensions of terrain analysis, patrolling, operation orders, and cultural awareness. Lessons include fundamentals of leadership, personal development, and tactics and techniques. Offered: W.

M SCI 203 Military Science and Transformational Leadership (3) Continues study of the theoretical basis of Army leadership and framework and dynamics of transformational leadership in the context of military operations. Develops greater self-awareness by assessing leadership styles and practices oral and written communication skills. Enables progress to applied and advanced tactical leadership study. Offered: Sp.

M SCI 301 Military Science and Tactical Leadership (3) Studies, practices, and evaluates adaptive leadership skills. Develops self-awareness and critical thinking skills using challenging scenarios related to small unit operations. Analyzes and evaluates leadership values, attributes, skills, and actions. Lessons focuses on leadership, land navigation, oral and written presentations, tactics, and physical fitness. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher. Offered: A.

M SCI 302 Military Science and Applied Leadership (3) Continues adaptive approach to leadership applying situations necessary to build skills required in complex scenarios. Develops proficiency in evaluating, decision-making, persuading, and motivating peers through practical exercises. Students evaluate individual leadership values, attributes, skills, and actions, and receive specific feedback on their leadership abilities based on written and oral presentations. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher. Offered: W.

M SCI 303 Military Science and Advanced Tactical Leadership (3) Finalizes M SCI 301 and M SCI 302 leadership skills that are necessary to successfully lead others while solving complex problems. Explores, evaluates, and develops decision-making skills required in contemporary environments.

Reviews critical aspects of combat, specifically stability and support operations. Provides specific leadership feedback and prepares for advanced leadership and management. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher. Offered: AWSp.

M SCI 305 Practicum-Techniques of Military Instructions (1-3, max. 3) Analysis, review of techniques used in military training and instructions. Students plan, rehearse, deliver, provide written critique on block of military instruction from the Military Qualification Skills Manual. Prerequisite: M SCI 101; M SCI 102; M SCI 103; M SCI 201; M SCI 202; M SCI 203; may not be repeated if received grade of 2.0 or higher.

M SCI 310 Military Science Advanced Leadership Laboratory (1, max. 6) Evaluates the challenges of leading teams in complex contemporary environments. Students apply critical thinking skills using challenging scenarios related to small unit operations. Provides feedback on the 16 Army leadership attributes, skills, and actions. Focuses on advanced leadership development. Prerequisite: M SCI 110. Offered: AWSp.

M SCI 401 Military Science and Developmental Leadership (3) I&S Develops proficiency in planning, executing, and assessing complex problems, functioning as a staff member, and providing leadership-performance feedback. Explores situational opportunities assessing values, risk, and ethical decisions. Performance measured by abilities to give and receive systematic, specified feedback on 16 leadership attributes, skills, and actions focusing on advanced leadership development. Prerequisite: M SCI 301; M SCI 302. Offered: A.

M SCI 402 Military Science IV: Advanced (3) I&S Explores dynamics of leading in complex situations of contemporary environments. Examines differences in customs and courtesies, military law, principles of war, and rules of engagement. Lessons review aspects of interacting with nongovernmental organizations, civilians, and host nation support with case studies examining complex ethical and practical demands of leadership. Prerequisite: M SCI 301; M SCI 302; M SCI 303; may not be repeated if received grade of 2.0 or higher. Offered: W.

M SCI 403 Military Science and Advanced Leadership (3) I&S Completes fundamental learning of advanced leadership attributes, skills, and actions that effectively prepare students for careers in military or civilian leadership. Examines Army modularity, unit organization, joint operations, and the role of junior leaders. Focuses on case studies, situational exercises, student presentations, and battlefield analysis to develop insights on leadership. Prerequisite: M SCI 301; M SCI 302; M SCI 303; may not be repeated if received grade of 2.0 or higher. Offered: Sp.

NAVAL SCIENCE

N SCI 101 The Naval Service (3) General introduction to the U.S. Navy and Marine Corps, with emphasis on organization, missions, roles, tasks, assets, and operations. Offered: A.

N SCI 102 History of U.S. Sea Power I (3) I&S A study of the U.S. Navy and Marine Corps as they fit into the history of the United States, from the American Revolution to the outbreak of World War II. Prerequisite: N SCI 101. Offered: W.

N SCI 103 History of U.S. Sea Power II (3) I&S A study of the U.S. Navy and Marine Corps as they fit into the history of the United States, from World War II to the present day. Prerequisite: N SCI 102. Offered: Sp.

N SCI 110 Naval Science Laboratory (*, max. 12) Evaluates the challenges of leading teams in complex contemporary environments. Topics vary. Required each quarter for NROTC students. Credit/no-credit only. Offered: A/Sp.

N SCI 201 Naval Leadership and Management (3) I&S Introduction of the theory and techniques of naval leadership based on principles of behavioral science pertinent to understanding individual and group behavior of adults. Introduces the management process and the relationship of management functions to leadership. Stresses acceptance of a traditional deep sense of moral responsibility on the part of the aspiring leader. Prerequisite: minimum 2.0 grade in N SCI 101. Offered: A.

N SCI 202 Navigation I (3) NW The science and practice of maritime coastal navigation, including visual fixing, dead reckoning, and piloting methods. Computation of tides and currents and nautical rules of the road. Prerequisite: N SCI 101. Offered: W.

N SCI 203 Navigation II (3) NW Basic theory and practice of celestial and electronic navigation. Relative motion theory and contact coordination practice in a multiple ship environment. Prerequisite: N SCI 202. Offered: Sp.

N SCI 301 Naval Ship Systems I (3) Study of fundamental principles of energy transfer and thermodynamics. An introduction to nuclear propulsion, gas turbines, and auxiliary power systems. Offered: A.

N SCI 302 Naval Ship Systems II (3) Study of ship characteristics, ship design, hydrodynamic forces, stability, damage control, and shipboard electrical systems. Includes introduction to engineering documentation, electrical safety, preventative maintenance, and personnel qualifications. Prerequisite: N SCI 301. Offered: W.

N SCI 303 Naval Weapon Systems (3) Study of fundamental principles of sensor, tracking, weapon delivery subsystems, and current naval weapons. Includes techniques of linear analysis of ballistics and weapons, and dynamics of basic components of weapon-control systems. Prerequisite: N SCI 302. Offered: Sp.

N SCI 321 Evolution of Warfare (3) I&S Focuses on how and why warfare has changed. Explores how warfare technology has evolved over time. Topics include military theory, fourth generation warfare, and Marine Corps doctrine. Designed for future Marine Corps Officers, but open to all students. Offered: A.

N SCI 323 USMC Leadership and Administration of Justice I (3) Concepts, objectives, characteristic qualities, and practical techniques of leadership as exercised by the Marine Corps officer. Emphasizes leadership and management role of the junior officer in the Fleet Marine Forces. Intensive physical activities and outdoor projects to test an individual's physical and mental endurance. Prerequisite: N SCI 110; N SCI 421. Offered: Sp.

N SCI 401 Naval Operations (3) Introduction to naval operations, the employment of naval forces, naval tactics, formulation of operations plans and orders, employment of detection equipment, and meteorology. Prerequisite: N SCI 101. Offered: A.

N SCI 402 Naval Leadership and Ethics (3) I&S Study of leadership and ethics within a military context using applicable case studies. Examines the Law of Armed Conflict and Code of Conduct; the importance of integrity, moral courage, and ethical behavior to effective leadership; and the interrelationship between authority, responsibility, and accountability. Offered: W.

N SCI 403 Naval Organization and Management (3)
Study of organization, systems, and techniques

employed in the Navy for management of its human, material, and financial resources. Some work relates to the administration of discipline in the Navy under the Uniform Code of Military Justice. Emphasis on the leadership and management role of the junior officer in the fleet. Prerequisite: minimum 2.0 grade in N SCI 402. Offered: Sp.

N SCI 421 Amphibious Warfare (3) I&S Provides basic knowledge of evolution of amphibious warfare from premodern era to present. Strategic, operational, and tactical considerations in planning specific operations and amphibious landings. Prerequisite: either N SCI 321 or minimum two POL S or JSIS courses. Offered: A, even years.

SCHOOL OF SOCIAL WORK

SOCIAL WELFARE (BASW)

SOC WF 101 Social Work in Action: Bridging the Gap From Science to Service (5) I&S Explores current social work practice and research applied to major societal problems. Lectures and discussions by leading faculty introduce students to the evidence-based perspective underlying program planning and practice innovation. Topics include: juvenile delinquency, child maltreatment, domestic violence, foster care reform, mental health, school violence, substance abuse, and poverty. Offered: A.

SOC WF 120 International Responses to Human Needs: Social Welfare Policies and Services (5) Focuses on major global social services such as poverty, immigration, and health that are reshaping social welfare policies and services throughout the world. Provides a comparative overview of social welfare policies and programs in the United States and selected other countries.

SOC WF 200 Introduction to Social Welfare Practice (5) I&S Introduction to the field of social work, including the theoretical concepts and institutional framework that guide practice. Overview of social work profession and social welfare system within which it operates. Lectures supplemented by exercises, films, guest lectures, and class discussions. Offered: A.

SOC WF 201 Advances in Prevention Science: Bridging the Gap from Science to Service (5) I&S Investigates the potential for preventing major social problems (child abuse and neglect, alcohol misuse, and interpersonal violence). Critically examines the state of prevention science, includes dialogue about ways to enhance the exchange of ideas between research and practice communities, and explores implications for social policy.

SOC WF 215 Intergroup Dialogues (3) DIV Explores issues of social identities, differences, and inequalities to build understanding, skills, and values for bringing about greater social justice using dialogic communication.

SOC WF 250 Writing for Social Welfare (1-2, max. 2) Offers an engaging space for social welfare students to develop, practice, and strengthen college-level writing using exercises, discussion, and lecture. Covers summarizing and responding, critical thinking and argument, APA style and academic honesty, as well as language and the writing process. Review of punctuation and mechanics, grammar, and sentence style. Credit/no-credit only.

SOC WF 297 Study Abroad in Social Work (1-15, max. 15) For participants in a UW study abroad program. Specific content varies and must be individually evaluated.

SOC WF 310 Social Welfare Practice I (5) Provides an introduction to the roles, tasks, and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families, and small groups; and an opportunity to develop skills in problem assessment, intervention, termination, and evaluation. Offered: A.

SOC WF 311 Social Welfare Practice II (5) Provides an introduction to the roles, tasks, and functions of the social welfare practitioner and to theories and methods of intervention; a conceptual framework for social work practice with individuals, families, and small groups; and an opportunity to develop skills in problem assessment, intervention, termination, and evaluation. Prerequisite: SOC WF 310. Offered: W.

SOC WF 312 Social Welfare Practice III (5) Focus on macro systems in a diverse society using the generalist perspective. The implications of system resources and configurations for meeting human needs are considered. The role and function of generalist social workers to understand and advocate for system development and change is emphasized. Prerequisite: SOC WF 311. Offered: Sp.

SOC WF 315 Community Service Learning (1-5, max. 6) Opportunity for students to apply social work theory to practice, to advocate for social justice, and to be involved in community service. Students learn by connecting classroom theory and community-

based experience through the completion of community-based projects in social work-type agencies. Majors only.

SOC WF 320 Social Welfare Policy (5) I&S

Emphasizes policy and program development in social welfare with emphasis on the context, making, and unmaking of social policy. Covers policy formulation as well as current and emerging policies in social welfare. Prerequisite: SOC WF 200. Offered: WSp.

SOC WF 390 Introduction to Social Welfare

Research (5) Introduction to logic of the scientific method as applied to social work and social welfare practice, to the design and conduct of a research study, and to data collection and summarization. Skill development in critical consumption of social welfare research. Prerequisite: either STAT 220 or QMETH 201. Offered: A.

SOC WF 402 Human Behavior and Social

Environment I (5) I&S Focuses on understanding human development across the lifespan. Integrates biological, psychological, structural, environmental, political, global, and socio-cultural perspectives. Explores the relationship between the person and the environment including families, groups, organizations, communities, and institutions.

SOC WF 404 Cultural Diversity and Justice (5) I&S,

DIV History and culture of disadvantaged and oppressed groups served by social welfare generalist practitioners. Offered: Sp.

SOC WF 405 Fieldwork Seminar (1-4, max. 9)

Integrates social work practicum experiences with prior and concurrent coursework in social sciences, social work, and research. Includes discussion of class presentations and simulations or practice situations that combine knowledge and skill utilization. Student logs provide a basis for individual goal identification and achievement. Required of social welfare seniors. Offered: AWSp.

SOC WF 410 Evidence-Based Practices in Social

Welfare (3) Focuses on interface between social work research and practice, with attention to origins and defining features of evidence-based practice (EBP) and approaches to intervention consistent with EBP framework. Integrates content on research and practice priorities, and provides students with

knowledge and skills to promote use of theory-driven, empirically-supported interventions.

SOC WF 415 Beginning Field Instruction (1-12, max.

12) Students are placed in selected social service agencies and accept beginning social service assignments under the supervision of competent agency personnel. Credit/no-credit only. Offered: AWSp.

SOC WF 435 Skills for Social Welfare Practice (1)

Builds on first-year generalist practice content. Provides skill building in one or two areas of social work practice relevant to many practice settings. Topic chosen by students and faculty. Credit/no-credit only.

SOC WF 442 Building Competencies for Intergroup

Dialogue Facilitation (5) VLPA/I&S, DIV Focuses on both knowledge and skills development for peer facilitators. Topics include philosophy and principles of dialogic education and dialogic communication; intergroup communication; social identity development; principles of working with conflict; group dynamics, observation, and facilitation; team building among co-facilitators; and creating a support system among instructors and facilitators.

SOC WF 443 Facilitating Intergroup Dialogue (5)

VLPA/I&S, DIV Practicum seminar providing instruction, consultation, and supervision of peer group facilitators. Focuses on comparison of facilitation experiences and consultations, troubleshooting with other facilitators, co-facilitator team building, and planning for dialogues. Exploration of specific, current intergroup issues, such as affirmative action and immigration. Continuation of team-building work begun in SOC WF 442.

SOC WF 445 Special Topics in Social Work Practice

Methods (3, max. 6) Examines roles, skills, and methods in designated areas of social work practice. Content builds on foundation practice methods.

SOC WF 450 Integrative Seminar: Poverty Analysis

(5) Critical analysis of poverty both in the United States and from a global perspective. Analytical and descriptive focus on measurement, processes of production and perpetuation, and theoretical perspectives that lead to different social and economic policy responses.

SOC WF 460 Chemical Dependency: Assessment and Treatment (3) Provides students the knowledge and basic skills needed to recognize and understand the dynamics of chemical dependency in the lives of individuals. Students learn how to assess the presence of this disorder and what the issues are in referring individuals to treatment.

SOC WF 465 Social Welfare Capstone Seminar (1) Students demonstrate and reflect on mastery of core competencies and respective practice behaviors foundational to generalist practice. Studies analyze and synthesize data from their experiences in the BASW program and integrate this understanding with their new identity as a professional social worker. Credit/no-credit only.

SOC WF 490 Independent Research in Social Welfare (1-15, max. 15) Individual work with faculty member to assist with current research project(s). Students trained and supervised in some or all of the following research tasks: literature review, data analysis, record-keeping, interviewing, report writing, data entry and coding, data collection, and other tasks commonly found in research problems in social welfare. Credit/no-credit only.

SOC WF 491 Honors Seminar (1, max. 3) Three quarter seminar for students admitted into the BASW Honors Program. Guides students through stages of research conceptualization and proposal writing, IRB application, data collection and analysis, and dissemination. Includes feedback and discussion with instructor and peers. Credit/no-credit only.

SOC WF 492 Honors Thesis I (3-) Part one of a two quarter series for BASW Honors students writing their honors thesis. Students carry out an individual project of their choosing under the guidance of a faculty member. Focuses on data collection, management, and preliminary analysis.

SOC WF 493 Honors Thesis II (-3) Part two of a two quarter series for BASW Honors students writing their honors thesis. Students carry out an individual project of their choosing under the guidance of a faculty member. Focuses on data analysis, research writing, and presentation of results.

SOC WF 495 Special Topics in Generalist Social Welfare (1-5, max. 15) Readings, lectures, and

discussions pertaining to significant topics of special and current interest to social workers.

SOC WF 497 Advanced Study Abroad in Social Work (1-15, max. 15) For participants in a UW study abroad program. Specific content varies and must be individually evaluated.

SOC WF 499 Independent Study in Social Welfare (1-15, max. 15) Independent reading or independent study. Includes written paper. Not open to graduate or non-matriculated students.

SOCIAL WELFARE

SOC WL 515 Community Service Practicum (3, max. 6) Development of skills on working in partnership with community institutions in the role of researcher or scholarly collaborator, through ongoing reflection and consultation with a faculty member. Uses a learning contract to focus specific activities. Credit/no-credit only. Offered: AWSpS.

SOC WL 552 Seminar in Contemporary Social Welfare Policy (3) Critical review of contemporary American income maintenance and related social welfare policies, and the economic, political, and social factors that affect their development, implementation, and effectiveness. Evaluation of their effects on poverty, income inequality, and related social outcomes, including international comparisons. Assessment of proposals for reform. Closely linked to SOC WL 553.

SOC WL 553 Policy Implementation and Organizations (3) Examines diverse organization theories relevance to policy implementation, translational research, and practice interventions within health and human service settings. Emphasizes multilevel models and integrative frameworks that take into account individual, group, and organizational factors, recognizing outcomes as embedded phenomenon nested within organization, community, and societal contexts. Offered: Sp.

SOC WL 554 Analytical Perspectives on Social Welfare Policy (3) Broad overview of the social welfare policy process, including epistemological issues, content on social problem construction and definition, policy agendas and case study methodology. Introduction to analytical tools and

concepts needed to take a proactive role in policy development, advocacy, implementation, and policy research.

SOC WL 556 West Coast Poverty Center Seminar Series (1, max. 15) Presents cutting-edge research on poverty, inequality, and public policy. Offered: AWSp.

SOC WL 557 Dissertation and Career Seminar (1, max. 20) Orients advanced PhD students to three main tasks: dissertation, job market, and entering teaching and research careers. Offered: AWSp.

SOC WL 559 Preparing to Teach: Instructional Theory and Practice (3) Teaching conceptualized as professional practice. Focuses on integration of theory, research and educational strategies, techniques, and skills into students' practice as educators. Classroom discussions and activities promote reflection, exploration, critical analysis, and experimentation.

SOC WL 573 Proseminar: Cross-Cohort Impact Science Career Development (1) *Paula S Nurius* Year long course reserved for social welfare doctoral students toward building a cross-cohort collegial support community. Topical foci are broadly: (1) transdisciplinary collaboration skills, (2) translational dissemination and science communication skills, (3) social justice and equity driven aims in scholarship, and (4) stakeholder engagement, co-production of research models and strategies. Offered: AWSp.

SOC WL 577 Promoting Well-Being among At-Risk Groups through Prevention Research (3) Interdisciplinary overview of major concepts and methods in health promotion and prevention research, with emphasis on at-risk populations. Attentive to health disparities, collaboration with diverse communities and biobehavioral advances in addition to application of theory and prevention-science framework. Encourages interdisciplinary participation and supporting students in articulating their research perspectives.

SOC WL 578 Seminar in Special Topics for Prevention Research (1, max. 30) Interdisciplinary overview of major concepts in promotion of mental health and prevention of mental distress with prevention science as framework. Provides conceptual foundations for advanced study in

specialized aspects of mental health prevention research. Credit/no-credit only.

SOC WL 579 Interdisciplinary Approaches to Prevention Science: Children and Adolescents (3) Overview of theory, research, and practice in prevention science. Developmental perspective examining factors that promote or inhibit health development at different stages and during transitions (focus on birth through age 21) . Designed for interdisciplinary dialogue, and includes guest faculty from around the University who are specialists in course topics. Credit/no-credit only.

SOC WL 580 Quantitative Research Methods and Design (3) Logic, terminology, and methods of quantitative social science approaches to correlational, experimental, quasi-experimental, survey, and program evaluation research. Components of the research process (problem definition, concept explication, ethical evaluating, and designing defensible quantitative research studies) .

SOC WL 581 Qualitative Research Methods and Design (3) Theoretical and methodological foundations of a range of qualitative methods relevant to social welfare and social science research. Fundamentals of qualitative research design and implementation, including framing research questions, sampling, data collection, analytical methods, and quality criteria. Focus on ethics, cultural sensitivity, and community-based research with vulnerable populations.

SOC WL 582 Research Practicum (3-) Development of specific methodological skills in social welfare research through participation in an ongoing research project. Learning contract used to target specific research competencies. Credit/no-credit only. Offered: ASpS.

SOC WL 583 Research Practicum (-3) Development of specific methodological skills in social welfare research through participation in an ongoing research project. Learning contract used to target specific research competencies. Credit/no-credit only. Offered: ASpS.

SOC WL 584 Teaching Practicum (3) Supervised teaching of a required course or teaching as a co-instructor with a faculty member. Learning contract

used to target specific teaching competencies, e.g., assessing and evaluating student outcomes, identifying class session goals and objectives, tailoring instruction methods to diverse learning styles. Credit/no-credit only. Offered: AWSpS.

SOC WL 585 Qualitative Methods in Social Work Research I (3) The first in a two-quarter sequence offering intensive experience in the theory and application of qualitative and ethnographic research methods. Prepares students for conducting qualitative studies and for combining qualitative and quantitative research methods. Focuses on applications especially relevant to social welfare.

SOC WL 586 Qualitative Methods in Social Work Research II (3) The second in a two-quarter sequence offering intensive experience in the theory and application of qualitative and ethnographic research methods. Prepares students for conducting qualitative studies and for combining qualitative and quantitative research methods. Focuses on applications especially relevant to social welfare.

SOC WL 589 Multivariate Data Analysis for the Social Sciences (4, max. 8) *E. EROSHEVA* Multivariate analysis aims to summarize and describe patterns among multiple observed characteristics. Explores theoretical introduction and practical skills to carry out multivariate analysis methods such as cluster analysis, principal components, factor analysis, and latent class analysis. Prerequisite: SOC 504, SOC 505, or SOC 506. Offered: jointly with CS&SS 589; A.

SOC WL 590 Topics in Advanced Research Methods (3) Special topics in social and behavioral research design for advanced graduate students. Topics vary and focus on community-based research methods and measurement construction for culturally diverse populations. Prerequisite: doctoral student in social welfare or related discipline; advanced master's level students by permission of instructor.

SOC WL 591 Seminar on Topics in Social Welfare (1-5, max. 15)

SOC WL 592 Applied Longitudinal Data Analysis For Social Sciences (4) *E. Eroshva* Addresses statistical methodology for using longitudinal data to answer research questions about changes over time including exploratory analysis tools, and random coefficient, growth curve, multilevel and hierarchical

models, and their extensions. Prerequisite: Successful completion of SOC 504, SOC 505, and SOC 506; and a solid knowledge of linear regression. Offered: jointly with CS&SS 592; A, odd years.

SOC WL 594 The Embodiment of Risk, Health Disparities, and Stress Mechanisms (3) Interdisciplinary course focused on multi-level exposure to and impacts of stress, integrating social determinants and life course development perspectives. An overview of theory and research integrating biological and psychosocial processes with emphasis on vulnerable populations and disparities. Encourages interdisciplinary engagement and supporting students in articulating their research perspectives. Offered: A.

SOC WL 598 Theory and Metatheory in Social Research (3) Explores the nature and role of theory in social research, theoretical and metatheoretical foundations of major social science research paradigms, and interdisciplinary perspectives on the socially constructed nature of theory and definitions of social "problems." Encourages critical, collaborative reflection on the role of theory in contemporary interdisciplinary research environments.

SOC WL 599 Theory Development for Social Research (3) Assists students in applying theory in building an original conceptual model. Emphasizes critical and integrative thinking derived from a social justice framework. Encourages students to examine the ideological, political, methodological, and ethical principles shaping theories, models, and concepts in contemporary social science and social welfare research. Open to interdisciplinary students with instructor permission. Prerequisite: admission to social welfare PhD program or permission of instructor.

SOC WL 600 Independent Study or Research (*-) Prerequisite: approval of a well-specified plan by the instructor and program director. Includes a written product. Credit/no-credit only. Offered: AWSpS.

SOC WL 800 Doctoral Dissertation (*-) Offered: AWSpS.

SOCIAL WORK (MSW)

SOC W 500 Intellectual and Historical Foundations of Professional Social Work Practice (3) Intellectual, historical, and ethical foundations of the social work profession. Engagement with crucial aspects of the profession's history; contemporary issues, problematics, and directions; and key concepts and theoretical frameworks. Students develop personal, professional, and intellectual foundations for practicing social work built on the central values of plurality and social justice.

SOC W 501 Poverty and Inequality (3) Analysis of poverty and inequality in United States. Analytic and descriptive focus on measurement, processes of production and perpetuation, and public policy responses. Examines causes of poverty, the role of policy, and socioeconomic dimensions of stratification, including race, ethnicity, class, gender, immigration status, disability, age, sexual orientation, and family structure.

SOC W 504 Social Work for Social Justice: Developing a Personal-Professional Stance (1-4, max. 4) Focuses on personal and professional development toward social work practice for social justice. Employs critically self-reflective, experiential, and dialogic learning processes to engage students to explore personal meaning systems and narratives in the context of professional values of social justice, multiculturalism, empowerment, and globalization. Credit/no-credit only.

SOC W 505 Foundations of Social Welfare Research (3) Overview of research process/methods in social work, with focus on consuming and performing practice-related research and evaluating one's own practice. Emphasis on critical understanding of empirical literature, development of useful and appropriate questions about social work practice, and strategies and techniques for doing research and applying findings to practice. Offered: Sp.

SOC W 506 Social Welfare Research and Evaluation (3) Second of a two-quarter research sequence. Introduces a range of methods for informing evidenced-based social work practice. Emphasizes critical appraisal of the literature, development of research questions, and strategies and techniques for conducting practice-relevant research, including

data collection and analysis. Prerequisite: minimum 2.5 grade in SOC W 505.

SOC W 507 Advanced Standing Social Welfare Research and Evaluation (5) Introduces a range of methods for informing evidence-based social work practice. Emphasizes critical appraisal of the literature, development of research questions, and strategies and technique for conducting practice-relevant research, including data collection and analysis. Prerequisite: advanced standing students.

SOC W 510 Micro/Meso Social Work Practice 1: Individuals (3) Foundation course in direct social work practice with individuals. Introduces knowledge and skills needed for effective and accountable person-centered and participant-directed practice. Students gain skills for engagement, relationship building, interviewing, assessment and collaborative intervention planning with individuals through an intersectional lens.

SOC W 511 Micro/Meso Social Work Practice 2: Families and Groups (3) Foundation course in direct practice with families and groups. Provides generalist practice knowledge and skills for social work practice with families, small groups and service delivery systems to promote maximum self-determination, functioning, and quality of life. Prepares students for assessment, intervention planning and decision making with families and groups within the context of social systems.

SOC W 512 Macro Social Work Practice 1: Community and Policy Practice (3) Foundation course in macro social work, focused on community-based social work and policy practice. Students develop skills in system-level assessment, intervention, and evaluation. Theories of social change are examined with examples drawn from community organizing and policy advocacy.

SOC W 513 Macro Social Work Practice 2: Organizational Practice (3) Foundation course in macro social work practice, focused on organizational change. Using an anti-oppression lens, students develop skills in assessment, intervention and evaluation with groups, organizations, and communities. Students examine ways to facilitate change within organizations and critically assess the cultural aspects of organizations.

SOC W 514 Clinical Social Work: Practice with Adults (3) Theory and practice of clinical social work, emphasizing social justice frameworks and life course perspectives. Emphasizes specialized, strengths-based approaches to all phases of social work practice. Students learn motivational interviewing, critically examining applications with clients of varying social identity categories, given intersectional identities.

SOC W 515 Clinical Social Work: Practice With Children, Youth, and Families (3) Builds on foundational frameworks/competencies applying strength-based, social-justice informed approaches including motivational interviewing to all phases of social work practice specific to children and families. Covers common child and family topics (historical trauma, child development, attachment, intersectionality and disability) focusing on assessment and intervention through a culturally responsive lens.

SOC W 516 Research Base for Prevention Science (3) Introduces the transdisciplinary field of prevention science; enhances understanding of the developmental epidemiology of risk, protection and outcome and how prevention interventions are conceptualized and evaluated; critiques research on preventive interventions and practice; and outlines the role of prevention science in advancing health and well-being over the life course.

SOC W 517 Promoting Individual, Family, School, and Community Risk Prevention (3) Covers existing evidence-based practices in prevention science that have demonstrated effects on reducing risks and promoting positive development in youth. Emphasizes practice skills, topic include promotion of healthy development in childhood/adolescence; prevention of child abuse and neglect, early pregnancy, violence and delinquency, substance abuse, school misbehavior, and mental health disorders.

SOC W 518 Macro Practice in Health and Prevention (3) Students engage in the translation of research, advocacy, and the sustainability and dissemination of prevention initiatives and programs. Includes skill development in policy analysis, community organizing, and media/legislative advocacy. Covers current issues in prevention, the policy context

surrounding them, and skills to propel prevention forward as a priority in or society.

SOC W 519 Policy/Services: Health/Mental Health (3) Investigates how social and economic inequality in America is established, manifested, and maintained. Also examines interventions that purportedly address inequality. Provides analytic tools to help with critical thinking about competing views of inequality and the interventions that address it.

SOC W 520 Policy/Services: Multigenerational (3) Investigates how social and economic inequality in America is established, manifested, and maintained. Also examines interventions that purportedly address inequality. Provides analytic tools to help with critical thinking about competing views of inequality and the interventions that address it.

SOC W 521 Child and Family Inequalities: Policy/Services Platform (3) Advanced study of policy and services relevant to practice with children, adolescents, and families. Applies social justice framework to understanding policy context and organization of services responses to child and family inequalities, especially for historically oppressed and marginalized populations. Examines social construction of policies in historical, political, and comparative context.

SOC W 522 Advanced Standing Integrative Seminar (5) Assists with transition to graduate study for students entering MSW Advanced Standing Program. Serves as bridge between students' BASW preparation and the advanced MSW curriculum; builds graduate-level critical analysis and writing skills, integrating MSW foundation course content in social justice principles, diversity, structural inequalities, anti-oppression work; and micro/mezzo/macro practice.

SOC W 523 Preparation for Advanced Professional Practice - Advanced Standing Students (3) Designed to prepare students in the Advanced Standing MSW program for field/practicum experience. Builds upon content and skills acquired through generalist (micro, mezzo, and macro levels) practice. Includes development of critical thinking skills, values, and knowledge to advance social justice, skills for advancing multiculturalism, intergroup

collaboration, and empowerment. Credit/no-credit only.

SOC W 524 Foundation Practicum (0-10, max. 14)

Agency-based practicum with emphasis on development of knowledge, perspectives, and skills needed for practice with individuals, families, groups, organizations, and communities.

Prerequisite: social work major. Credit/no-credit only. Offered: AWSpS.

SOC W 525 Advanced Practicum (1-10, max. 24)

Agency-based advanced practicum. Prerequisite: completion of foundation courses and practicum.

Credit/no-credit only. Offered: AWSpS.

SOC W 526 Social and Healthcare Policy in an Aging Society (3)

Applies a multigenerational, social justice framework to analyze how historical and current service structures, policies, and regulations support or undermine families across the lifespan, especially marginalized populations. Builds and applies skills to analyze, critique, and advocate for policies and services that support growing numbers of older adults and multigenerational families.

SOC W 527 Global and Local Inequalities: Critical Analyses of the Processes and Policies of Globalization (3)

Discussion of the health of the planet, economic and cultural globalization, the enduring legacies of imperialism and colonialism in this global era, and their local impacts. Foci include international agreements, UN conventions, immigration, and refugee policies.

SOC W 528 Healthcare Inequalities: Policy/Services Platform (3)

Examines the organization, policies, and services of U.S. healthcare system from a social justice framework. Topics include the U.S. healthcare system's historical development, differential access to health and healthcare, healthcare system reform, and the analysis of healthcare policy from contrasting ideological perspectives.

SOC W 529 Mental Health Inequalities:

Policy/Services Platform (3) Mental health policy trends and organization of services at national, state, and local levels reflected in legislative, regulatory, and institutional policies. Provides historical perspective on the development of U.S. mental health policies and services. Discusses specific areas

of intersystem linkages in terms of equitable access and empowerment.

SOC W 530 Advanced Practice with Diverse Children and Families (3)

Builds on foundation frameworks and competencies to develop specialized knowledge and skills for working with vulnerable children and families. An ecological framework informs family- and community-centered assessment and intervention that is empowering, culturally responsive, and clinically relevant. Foci include resilience, violence, attachment, loss, substance abuse, and disability.

SOC W 531 Practice with Diverse Children and Families: Focus on Child Mental Health (3)

Develops specialized knowledge and skills for practice with children with mental health concerns and their families. Emphasis on child and family mental health assessment and interventions that are culturally relevant, collaborative, and strength-promoting. Topics include culture and mental health, system of care, psychotropic medication, ADHD, and depression.

SOC W 532 Practice with Diverse Children and Families: Focus on Child Welfare (3)

Develops specialized knowledge and skills for culturally relevant child welfare practice across a range of settings including child protection, foster care, and adoption. Topics include family dynamics around child maltreatment; trauma and its impact on children; separation, loss, and identity development; and self-care in child welfare practice.

SOC W 533 Practice with Diverse Children, Youth, and Families: Community Settings (3)

Focuses on the critical role of neighborhoods and communities as settings for child and family social work intervention. Provides the theoretical, empirical, and practical foundations for engaging with, implementing, and designing effective programs and services with and for children, youth, and families in diverse community settings.

SOC W 534 Praxis of Intergroup Dialogue (3)

Students design, plan, implement, and evaluate intergroup dialogue sessions as peer facilitators. Students facilitate intergroup dialogue in conjunction with SOC W 504. Focuses on intensive in-vivo instruction, consultation, and supervision of facilitators.

SOC W 535 Special Topics in Interpersonal/Direct Practice (2-3, max. 9) Examines current substantive topics in direct/interpersonal practice.

SOC W 536 Social Movements and Organizing: People, Power, and Praxis (3) Focuses on social, economic, and political problems from an organizer's perspective, and strategies, tactics, and skills necessary to engage in organizing activities. Emphasizes principles common to community, electoral, union, and issue organizing. Addresses why people organize, how organizing works, and what it takes to be a good organizer.

SOC W 537 Empowerment Practice with Refugees (3) Empowerment practice with refugees and immigrants across a transnational continuum of forced migration, including flight, internal displacement, asylum seeking, repatriation, and resettlement. Instruction includes classroom activities, workshops with local service providers, and agency-based projects. Addresses implications for strengths-based social services, policy, and practice skills.

SOC W 538 Critical Empowerment Practice with Multi-ethnic Communities (3) Principles of empowering practice, critical analyses of models of multiculturalism and paradigms of knowledge and practice proven problematic in our increasingly diverse society. Assists students in developing empowering practice values, knowledge, and skills for work in multi-ethnic communities.

SOC W 539 Breaking Down the Wall and Shifting the Paradigm: Engaged Practice with Latinas and Latinos (3) Provides advanced knowledge and skills for practice with diverse Latinx populations through 1) examination of structural and cultural factors, and 2) understanding of Latinx practice models to promote the well-being of Latinx communities at multiple levels and in local and global contexts in culturally responsive ways.

SOC W 540 Advanced Social Work Practice in Health Settings I (3) Teaches theory and strengths-based practice within interprofessional health care settings from bio-psychosocial, family systems, multicultural, contextual, and lifespan perspectives. Advances skills in conducting assessments and interventions to support individuals and families

experiencing pain and loss associated with trauma and acute or chronic illness.

SOC W 541 Social Work Practice in Health Settings (3) Teaches health care theory and practice skills relevant to working with adults and children in a variety of health care settings, using biopsychosocial, contextual, multicultural, interdisciplinary, and lifespan perspectives. Advances skills in adherence assessment, ethical decision-making, discharge planning, cross-cultural and cross-professional practice, and counseling regarding life-threatening illness.

SOC W 542 Recovery-Oriented Social Work Practice in Community Mental Health (3) Emphasizes recovery-oriented practice with adults with severe and persistent mental illness and persons with co-occurring mental illness and substance disorders. Trains for generalist social work practice in most community mental health settings: community mental health centers, psychiatric hospitals, residential programs, jails, homeless shelters, on-the-streets, client's homes, etc.

SOC W 543 Social Work Practice in Community Mental Health II (3) Focuses on social work practice with persons with severe mental illness. Emphasizes recovery, supported housing, supported employment, integrated treatment of co-occurring disorders. Covers practice with diverse populations: multicultural, developmentally disabled, geriatric, and gay/lesbian. Examines partnering with family members and working with Social Security. Complements SOC W 542, but may be taken free-standing.

SOC W 544 Clinical Social Work with Individuals I: Theory and Practice (3) First quarter of a two-quarter sequence on the theory and practice of clinical social work. Focuses on key concepts underlying direct practice. Topics include the therapeutic relationship, therapeutic listening, the ground rules, transference, counter transference, psychological defenses, resistance, phases of treatment, transference, countertransference, and vicarious trauma.

SOC W 545 Evidence-Based Practices for Clinical Social Work (3) Continues knowledge building around the theory and practice of clinical social work with adults. Focuses on deeper application of

theories and evidence-based practices for clinical social work. Emphasizes cognitive-behavioral approaches within the context of a social ecological framework and a recovery orientation.

SOC W 546 Addressing Trauma and Recovery in Multi-Generational Advanced Practice (3)

Multigenerational perspective on clinical interventions for various traumas: childhood sexual abuse, battering at any age, chemically dependent parents, elders with abusive adult children, and a range of losses throughout the lifespan. Recovery process explicated in terms of family strengths across the generations and through state-of-the-art techniques for healing trauma.

SOC W 547 Multigenerational Integrative Seminar (1-3, max. 3)

Designed to foster the integration of classroom learning and field education. Taken concurrently with advanced practicum, provides support for addressing challenges in professional settings, development of leadership skills, and preparing for future work in the field of multigenerational practice. Credit/no-credit only.

SOC W 548 Advanced Practice I: Multigenerational (3)

First quarter of a two-quarter sequence. Emphasizes preparation of practitioners with capacity to move flexibly among a variety of professional roles, including the provision of direct services, program planning, supervision, and community practice. Emphasizes contextual assessment from micro to macro levels.

SOC W 549 Advanced Practice II: Multigenerational (3)

Second quarter of a two-quarter sequence. Highlights program planning, supervision, and intervention across all levels of practice.

SOC W 550 Strategic Program Management and Change Leadership in Human Services (3)

Examines tools and techniques required for leadership, program planning, implementation, and program change. Topics include strategic planning, logic modeling, agency-bound relations, work-group facilitation, and diversity-promoting management. Lecture, discussion, and exercises. Required for SSW administration concentrators; open to others with permission of instructor.

SOC W 551 Human Resource Management in the Human Services (3)

Theories and techniques for 1)

designing human services workplaces that support employees' performance and well-being, and 2) managing diverse, satisfied, and high-performing human service staffs. Topics include job quality analyses; job descriptions; employee interviewing, supervision and performance evaluation; models of negotiation and conflict resolution; and strategies for working with volunteers.

SOC W 552 Financial Management of Human Services Programs (3)

Covers key financial management components of human service programs, including development and use of business plans, budgets, and financial statements. Helps students to demonstrate an understanding of financial management through budget preparation, financial statement analysis, new project cost projections, audits, and presentations using computer-based spreadsheets and presentation software.

SOC W 554 People, Place, Equity (3)

Introduces empirical, theoretical, and applied knowledge on place as a key dimension of social work practice. Examines how people-place relationships differentially affect social opportunities such as health and wellness, employment, and housing. Provides intellectual and practical foundations for incorporating spatial analyses and collaborative place-making interventions in practice.

SOC W 555 Global Perspectives in Social Work Practice (3)

Focuses on contemporary social issues of global importance: poverty; HIV/AIDS; population growth; gender inequality; and war, conflict, and displacement, with specific focus on these issues in the global south. Examines sociocultural, economic, and political processes that shape these issues, and entwined perspective of human rights and development.

SOC W 556 Family Healing: A Cross-Generational Approach (3)

Lustbader Explores how to respond to multi-generational dynamics within the entire extended family and examines how bow difficulties and strengths are passed from one generation to another. Emphasizes cultural differences as well as issues pertaining to the impact of chemical dependency, mental illness, and disability across generations.

SOC W 557 Caring for Persons with Life-Limiting Illness: A Lifespan Approach (3) Focuses on multi-systemic social work practice with seriously ill people with a life-limiting condition. Examines how families care for a critically ill loved one, and the differences that occur when the seriously ill person is a child, adolescent, a mid-aged adult, or an elder at the end of life.

SOC W 558 Gender, Gender Identity, and Sexuality (3) Anti-oppression focus on social work practice with lesbian, gay, bisexual, transgender, two-spirit, intersexed, and queer communities. Emphasizes cultural, social, and political context within which such practice occurs as well as an examination of the diversity and heterogeneity within these communities. Enhances students' micro and macro practice skills.

SOC W 559 Child Development (3) Provides students with a basic understanding of child development theory and research as well as specific knowledge about the development of children from infancy through adolescence. Emphasizes developmental approach to assessment and intervention with children and families. Particular emphasis placed on developmentally-based child welfare practice.

SOC W 560 Policy Processes, Institutions, and Influences (3) Focuses on the process and institutions through which social policies are developed, adopted, and implemented, with special attention to the implications of these processes for social justice. Develops practice skills in analyzing and influencing the policy process, including social problem definition, policy design, policy adaptation, and policy implementation.

SOC W 561 Concepts and Methods of Policy Analysis (3) Engages students in the concepts and applied practice of policy analysis and evaluation. Prepares students to address two generic policy questions: Given an identified problem, what policy or program should be selected? Given a particular policy or program, how do we evaluate effectiveness? Particular attention paid to social justice implications.

SOC W 562 Advanced Practice I: Health/Mental Health (3) First quarter of a two-quarter sequence. Emphasizes preparation of practitioners with capacity to move flexibly among a variety of

professional roles, including the provision of direct services, program planning, supervision, and community practice. Emphasizes contextual assessment from micro to macro levels.

SOC W 563 Advanced Practice II: Health/Mental Health (3) Second quarter of a two-quarter sequence. Highlights program planning, supervision, and intervention across all levels of practice.

SOC W 565 Special Topics in Policy Practice (2-3) Examination of current substantive topics in policy practice. Content varies according to recent developments in the field and the interests of the instructor.

SOC W 569 Community-Centered Integrative Practice (3) This interactive student-centered course shifts the paradigm from the binary of macro vs micro and elevates the importance of relationships, connectivity, and allyship as acts of love, justice and resistance. Provides advanced skill building in assessing and maximizing community strengths, empowering practices and coalition building.

SOC W 570 Anti-racist Organizing for Social and Economic Change (3) Applies an institutional analysis of racism and white privilege to the strategies of community organizing by communities of color and indigenous peoples. Examines anti-racist organizational transformation, intersectionality of oppressions and privileges, white allies in anti-racist struggles, and the role of social workers in maintaining and combating institutional racism.

SOC W 571 Assessment of Mental Disorders (3) Provides basic knowledge and skills to assess mental disorders and improve critical thinking concerning assessment and diagnosis. Emphasizes the Diagnostic and Statistical Manual of Mental Disorders (DSM-V) for its system of symptom description and classification. Examines challenges of methodological implications of mental health assessment across race, gender, and ethnicity.

SOC W 572 Understanding Addiction, Pharmacology of Drugs, and Treatment Methods (3) Provides students with the knowledge and basic skills to recognize and understand the dynamics of chemical dependency in the lives of individuals, how to assess the presence of this disorder, and what the issues

are in referring individuals to treatment for this disorder.

SOC W 573 Child Welfare and Permanency Planning

(3) Focuses on social work interventions within the public child welfare system for children who have been abused and neglected. Includes practice models to ensure safety and permanency for children, federal and state mandates for permanency, cultural determinants, juvenile court dependency system, and research findings pertaining to permanency planning outcomes.

SOC W 574 Collaborative Community-Based

Program Evaluation (3) Focuses on carrying out a formative and process evaluation of a community program in conjunction with program staff and clients. In addition to learning about program theory, measurement construction, study design, and data analysis, students develop consultative and presentation skills needed in utilization-focused evaluation.

SOC W 575 Domestic Violence Policy and

Intervention (3, max. 6) Examines policy, theory, research, and intervention in field of intimate partner violence with emphasis on historical, cultural, and political contexts. Advanced study of structural contributors, policy parameters, and service delivery and cross-systems necessary to effective practice and leadership in the field locally, nationally, and globally.

SOC W 576 Contexts of Disability and Anti-Ableist

Practice (3) Engages several areas of social work practice where knowledge about disability as an element of human diversity is needed. Examines disability's recent socio-political history, models of disability, disability rights and disability justice frameworks. Emphasizes how policies and their implications for practice affect peoples' daily lives and facilitates critical personal reflection.

SOC W 577 Maintaining Quality Social Work

Practice: Ethics, Self-care, and Risk Management (2-3) Develops models for managing ethical and legal obligations to clients and others; managing risk; and maintaining ethical, responsible, and self-sustaining practice over a professional career. Examines competing ethical frameworks and material on essential values underlying ethical principles and the basis for ethical and legal regulation of practice.

SOC W 578 Evidence-Based Practice in Child Mental Health (3)

Critically examines the program components and empirical research base of selected child mental health treatment program models designed to serve children and youth who present with severe emotional or behavioral disorders. Focuses on treatment models that reflect a "systems care philosophy" and which offer alternatives to traditional services.

SOC W 579 Faith Matters and Mental Health

Practice: Conflict vs Integration (3) Examines the complex interrelation between faith matters and the practice of mental health professions, including approaches to definitions and assessments.

SOC W 580 Grant Writing and Fund Development

(3) Prepares students to participate and provide leadership in grant writing and fundraising for community-based human services. Opportunity to practice skills required for developing a successful grant proposal and planning a successful fundraising program. Identify, cultivate, and develop sources of funding. Students assist in writing a complete grant proposal as final project.

SOC W 581 Historical Trauma and Healing (3)

Provides specialized knowledge and skills for practice with communities experiencing historical trauma. Covers emerging theories of historical trauma, impact of historical trauma on families and communities, and culturally relevant interventions to promote healing. Builds upon the concepts of empowerment practice and indigenous models of social work.

SOC W 582 Interpersonal Violence and Trauma (3)

Examines trauma theory, nature of interpersonal violence, psychodynamic concepts, cognitive behavioral theory, treatment of victims and offenders. Psychological trauma, abuse-specific psychotherapy, multidisciplinary and cognitive behavioral interventions with victims and offenders, effects of interpersonal violence, and counter-transference reactions. Includes lecture, discussion, case presentations, and presentations by community experts.

SOC W 583 Multicultural and Multigenerational

Approaches to Healing Grief and Loss (3) Uses critical analysis to expand Western symptom-oriented grief and loss theory to include

multicultural approaches, exploring new constructionist models of meaning-making, narrative biography, and cultural tradition through case studies. Assessment and intervention exercises include journaling, art, and ritual, allowing students to explore how their own grief affects practice.

SOC W 584 Multicultural Mental Health Practice (3)

Advanced-practice course that builds upon foundation content in HUB, micro- and macro-practice/HBSE sequences, policy, diversity, and research. Grapples with complex mental health service design and delivery issues often informed by ethnocentric paradigms of knowledge and practice that have proven problematic in their general application in our increasingly diverse society.

SOC W 585 Advanced Group Work (3) Overview of group work and major theorist in the field. Examines differential applicability of methods across diverse populations. Emphasis on developing powers of observation of group process (as opposed to content) and on ability to intervene at the group level (as opposed to individual level) . Prerequisite: Group work experience.

SOC W 586 Policy Advocacy (1-3, max. 3) Focuses on involvement in the policy-making process. Students design projects to influence public policy in local, state, and federal levels. Readings based on policy materials (proposed and final laws, regulations, budgets, advocacy documents) . Credit/no-credit only.

SOC W 587 Spirituality in Healthcare (2)

Examination of the beliefs, values, meaning, and spirituality of health professionals for the well-being of their patients as well as for themselves. Offered: jointly with B H 518/FAMED 547; Sp.

SOC W 588 Social Work in Schools (3) Meets professional standards for Washington State Educational Staff Associate certification. Explores social work role within organizational and legal contexts of school systems. Addresses evidence-informed and multi-level social work practice relative to national, state and local trends in education. Examines school reform, truancy, homelessness, diversity, violence, student support and special education.

SOC W 589 Social Work Practice with Families (3)

Philosophical, theoretical, and practice issues relevant to family-centered social work. Presents family systems theory and a generalized model of engagement, assessment, and treatment. Clinical applications with particular client populations and their presenting problems, such as couples, family crisis, child behavioral problems, and affective disorders.

SOC W 590 Social Work Supervision and Consultation (3)

Provides knowledge and skills involved in the role of social worker as supervisor and team leader; supervision as a leadership function, power and authority, professional boundaries, staff recruitment, selection, performance evaluation, and addressing staff-related performance problems.

SOC W 591 Social Work Practice in Long-Term Care Across the Lifespan (3)

Applies a multigenerational framework to introduce values, skills, and knowledge necessary for social work practice in long-term care settings across all age groups. Meets at a nearby continuing care community and provides regular opportunities to interact with persons requiring long-term care, their families, and formal caregivers.

SOC W 592 Social Work Practice with African-American Families (3)

Introduces the study of African-American families from a historical, socio-cultural, and political perspective. Presents various theories for understanding African-American families and addresses an Afrocentric framework for intervention.

SOC W 593 Social Work Practice with Chemically Dependent Adults: Understanding Assessment, Evaluation, and Counseling (3)

Teaches skills in four contexts: (1) incorporating questions concerning alcohol/drug use in an assessment of new clients, (2) conducting a comprehensive alcohol/drug assessment when a problem has been identified, (3) offering a brief motivational enhancement intervention to ambivalent clients, and (4) delivering cognitive-behavioral counseling focusing on overcoming dependence.

SOC W 594 Gender and Inequalities in the Global Context (3)

Examines issues of gender, globalization, and inequality through a gender lens. Topics include

global movements of capital (the global factory) and labor (migration, trafficking, etc.) , disruption/creation of family forms and gender roles (domestic violence) , social welfare, private/public policies, international frames (human rights) , resistance, and response.

SOC W 595 Co-Occurring Addiction and Mental Health Disorders (3) Provides students with the knowledge and skills to understand the dynamics of co-occurring addiction and mental health disorders (COD) in the lives of individuals. Students learn how to assess the presence of COD and what the issues are in referring individuals to treatment or providing them treatment for COD.

SOC W 596 Special Topics in Social Work (1-10, max. 15) Introduces and explores a specific area of social work, with specific focus on emerging methods of practice. Content varies according to recent developments in the field and the interests of the instructor.

SOC W 597 Graduate Study Abroad in Social Work (1-15, max. 15) For graduate students in a UW study

abroad program. Specific content varies and must be individually evaluated.

SOC W 598 Integrative Seminar (1-5, max. 12)

Integrative, skill-based seminar that provides MSW students an opportunity to synthesize social work theory and practice through applied critical thinking, case presentations, skill-building, and professional development. Credit/no-credit only.

SOC W 599 Independent Study in Social Work (1-10, max. 10) Prerequisite: approval of a well-specified plan by an instructor and program director, including learning objectives and activities. Credit/no-credit only.

SOC W 600 Independent Study or Research (1-10, max. 10) An independent research project.

Prerequisite: approval of a well-specified plan by an instructor and program director, including learning objectives and activities included on the SOC W 600 form.

SOC W 700 Master's Thesis (*-)

INTERDISCIPLINARY UNDERGRADUATE PROGRAMS

HONORS PROGRAM

HONORS 100 Introduction to Honors Education (1)

Introduces students to the essential features of the Honors Program, including interdisciplinary thinking, experiential learning, and the Honors portfolio. For University Honors Program students only.

HONORS 205 What We Know and How We Know It (5) C

Helps students to develop methods of researching and gaining knowledge through critical reading of texts, dialogue, reflective writing, and visiting faculty lecturers from different disciplines. For University Honors Program students only. Cannot be taken for credit if credit received for HONORS 345.

HONORS 210 Humanities for Honors Students I (5, max. 15) VLPA

Evolution of an idea or a discipline central to the humanities. Content varies from year to year. For University Honors Program students only. Offered: A.

HONORS 211 Humanities for Honors Students II (5, max. 15) VLPA

Evolution of an idea or a discipline central to the humanities. Content varies from year to year. For University Honors Program students only. Offered: W.

HONORS 212 Humanities for Honors Students III (5, max. 15) VLPA

Evolution of an idea or a discipline central to the humanities. Content varies from year to year. For University Honors Program students only. Offered: Sp.

HONORS 213 Honors Foreign Study I - Humanities (2-5, max. 15) VLPA

Coursework drawn from interdisciplinary groups in the arts and humanities. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 220 Science for Honors Students I (5, max. 15) NW

Evolution of an idea or concept central to

the natural sciences. Content varies from year to year. For University Honors Program students only. Offered: A.

HONORS 221 Science for Honors Students II (5, max. 15) NW

Evolution of an idea or concept central to the natural sciences. Content varies from year to year. For University Honors Program students only. Offered: W.

HONORS 222 Science for Honors Students III (5, max. 15) NW

Evolution of an idea or concept central to the natural sciences. Content varies from year to year. For University Honors Program students only. Offered: Sp.

HONORS 223 Honors Foreign Study II - Natural Science (2-5, max. 15) NW

Coursework drawn from interdisciplinary groups in the natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 230 Social Science for Honors Students I (5, max. 15) I&S

Development of an idea, concept, or institution central to the social sciences. Content varies from year to year. For University Honors Program students only. Offered: A.

HONORS 231 Social Science for Honors Students II (5, max. 15) I&S

Development of an idea, concept, or institution central to the social sciences. Content varies from year to year. For University Honors Program students only. Offered: W.

HONORS 232 Social Science for Honors Students III (5, max. 15) I&S

Development of an idea, concept, or institution central to the social sciences. Content varies from year to year. For University Honors Program students only. Offered: Sp.

HONORS 233 Honors Foreign Study III - Social Science (2-5, max. 15) I&S

Coursework drawn from interdisciplinary groups in the social sciences.

Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 240 Fine Arts for Honors Students I (5, max. 15) VLPA Evolution of an art form, an idea, or a discipline central to the fine arts. Content varies from year to year. For University Honors Program students only.

HONORS 241 Fine Arts for Honors Students II (5, max. 15) VLPA Evolution of an art form, an idea, or a discipline central to the fine arts. Content varies from year to year. For University Honors Program students only.

HONORS 242 Fine Arts for Honors Students III (5, max. 15) VLPA Evolution of an art form, an idea, or a discipline central to the fine arts. Content varies from year to year. For University Honors Program students only.

HONORS 345 Interdisciplinary Writing Seminar (5, max. 15) C Investigates emerging topics of interest in the arts and sciences and frames the investigation of subject matter through writing and dialogic inquiry within a particular field. Students discuss, revise, and reflect upon their work through peer review, in-class writing activities, and editorial feedback. For University Honors Program students only. Cannot be taken for credit if credit received for HONORS 205.

HONORS 350 Honors Seminar (2, max. 20) Discussion of selected topics in a variety of subject-matter fields. Topics and reading material vary from year to year. For University Honors Program students only. Credit/no-credit only.

HONORS 381 Honors Foreign Study IV (2-5, max. 15) NW/I&S/VLPA Develops ideas, concepts, or institutions that cut across the arts, humanities, social sciences, and natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 382 Honors Foreign Study V (2-5, max. 15) I&S/NW Develops ideas, concepts, or institutions that cut across the social sciences and natural sciences. Specific content varies and must be

individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 383 Honors Foreign Study VI (2-5, max. 15) VLPA/NW Develops ideas, concepts, or institutions that cut across the arts, humanities, and natural sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 384 Honors Foreign Study VII (2-5, max. 15) VLPA/I&S Develops ideas, concepts, or institutions that cut across the arts, humanities, and social sciences. Specific content varies and must be individually evaluated. For University Honors Program students participating in a UW study abroad program only. Offered: AWSpS.

HONORS 391 Honors Interdisciplinary Study I (5, max. 15) NW/VLPA/I&S Develops ideas, concepts, or institutions that cut across the arts, humanities, social sciences, and natural sciences. For University Honors Program students only.

HONORS 392 Honors Interdisciplinary Study II (5, max. 15) NW/I&S Develops ideas, concepts, or institutions that cut across the social sciences and natural sciences. For University Honors Program students only.

HONORS 393 Honors Interdisciplinary Study III (5, max. 15) VLPA/NW Develops ideas, concepts, or institutions that cut across the arts, humanities, and natural sciences. For University Honors Program students only.

HONORS 394 Honors Interdisciplinary Study IV (5, max. 15) I&S/VLPA Develops ideas, concepts, or institutions that cut across the arts, humanities, and social sciences. For University Honors Program students only.

HONORS 396 Interdisciplinary Special Topics-Natural Science (1-5, max. 10) NW Special courses drawn from interdisciplinary groups in the natural sciences. Content varies. For University Honors Program students only.

HONORS 397 Interdisciplinary Special Topics-Social Science (1-5, max. 10) I&S Special courses drawn from interdisciplinary groups in the social sciences. Content varies. For University Honors Program students only.

leadership development lens. Credit/no-credit only.
Offered: W.

HONORS 398 Interdisciplinary Special Topics-Humanities (1-5, max. 10) VLPA Special courses drawn from interdisciplinary groups in the humanities. Content varies. For University Honors Program students only.

HONORS 496 Integration of the Honors Core Curriculum (1) Allows students completing the Interdisciplinary Honors Program to reflect on and present to peers the intersection between their Interdisciplinary Honors core courses and experiential learning projects. For University Honors Program students only. Offered: WSp.

HONORS 499 Honors Independent Study or Research (1-5, max. 10) Faculty supervised Honors independent study or research for students in areas extending beyond their major departments or along lines not otherwise accommodated by existing Honors courses. For University Honors Program students only.

LEADERSHIP

LEAD 100 Learning Leadership in Theory and Practice (5) Introduces students to contemporary leadership theories and frameworks. Emphasis on translating formal, academic study of leadership into practice. Highlights authentic leadership constructs and concepts that center the value of social justice and critical perspectives. Develops students' leadership identity and confidence and sets the stage for continued leadership development. Credit/no-credit only. Offered: AWSp.

LEAD 298 Special Topics in Leadership Studies (1-5) Varied topics related to leadership studies taught at an introductory level. Offered: AWSpS.

LEAD 495 Leadership E-portfolio (2/3) Francesca C. Lo Guides the creation of a leadership e-portfolio through a series of reflective exercises. Supports students in integrating learning and articulating connections between personal strengths, values, key learning experiences and future goals through a

FACULTY

Entries include appointment to the Graduate School faculty (indicated by *); year of appointment to the University; graduate or professional degree(s), date(s) and institution(s) (or highest-known degree where graduate or professional degree was unavailable; see note below). Faculty are listed only under their primary appointing department.

Please note: Due to a change in databases just prior to publication of this edition of the General Catalog, many of the highest-attained degrees for faculty were unavailable. Listed is the highest-attained degree that was available at the time of publication. For full information on faculty, please consult the departmental web pages listed with each department's entry.

Professors

ADAMS, LOYCE M. * 1985; Doctorate, 1983, University of Virginia-Main Campus; Applied Mathematics
 CRIMINALE, WILLIAM O, 1982; Doctorate, 1960, Johns Hopkins University
 DECONINCK, BERNARD * 1999; Bachelor's, 1993, Ghent University
 GREENBAUM, ANNE * 1997; Master's, 1978, University of California-Berkeley
 KUTZ, JOSE NATHAN * 1997; Doctorate, 1994, Northwestern University
 LEUNG, SIU-TANG * 2016; Bachelor's, 2003, Cornell University
 LEVEQUE, RANDALL J * 1985; Doctorate, 1982, Stanford University
 MARTIN, R DOUGLAS * 1982; Bachelor's, 1959, Princeton University
 MOOLGAVKAR, SURESH H. * 1984; Doctorate, 1973, Johns Hopkins University
 QIAN, HONG * 1997; Bachelor's, 1982, Peking University
 SHEA-BROWN, ERIC T. * 2007; Master's, 2001, Princeton University
 TUNG, KA KIT * 1988; Bachelor's, 1972, California Institute of Technology

Associate Professors

ARAVKIN, ALEKSANDR Y. * 1998; Bachelor's, 2004, University of Washington
 HETMANIUK, ULRICH L., 2008; Bachelor's, 1999, American University of Paris
 KOT, MARK * 1989; Master's, 1979, Cornell University
 LORIG, MATTHEW J. * 2014; Doctorate, 2011, University of California-Santa Barbara
 LUEBECK, GEORG * 2013; Master's, 1983, University of Washington
 TROGDON, THOMAS * 2019

Assistant Professors

BOZIC, IVANA * 2017; Doctorate, 2012, Harvard University
 SHLIZERMAN, ELI * 2009; Bachelor's, 2002, Bar Ilan University

Art, Art History, and Design

Professors

BERGER, PAUL E * 1982; Master's, 1973, New York University
 BRAVMANN, RENE A * 1972; Bachelor's, 1961, Case Western Reserve University
 BRODY, DAVID * 1996; Bachelor's, 1981, Bennington College
 CARRAHER, RONALD G, 1982; Master's, 1961, San Jose State University
 CASTERAS, SUSAN P * 1996; Bachelor's, 1971, Vassar College
 CHENG, KAREN * 1997; Bachelor's, 1991, Pennsylvania State University-College of Medicine
 CHRISTOFIDES, C G, 1982; Bachelor's, 1948, Columbia Union College
 CLAUSEN, MEREDITH L * 1979; Bachelor's, 1964, Scripps College
 CUMMIINS, REBECCA * 2001; Doctorate, 2003, Australian College of Theology
 DAHN, RICHARD F, 1982
 GALE, ANN E * 1995; Bachelor's, 1988, Rhode Island College
 GARVENS, ELLEN J. * 1994; Master's, 1983, University of Phoenix-New Mexico Campus
 GOLDSMITH, LAYNE * 1983; Master's, 1979, Cranbrook Academy of Art
 GOULD, ANNABELLE K * 2003; Master's, 1999, Cranbrook Academy of Art
 GOVEDARE, PHILIP B * 1991; Bachelor's, 1980, San Francisco Art Institute
 HOLM, BILL, 1968; Bachelor's, 1949, University of Washington
 JONES, ROBERT C, 1960; Bachelor's, 1953, Rhode Island School of Design
 KARTSONIS, ANNA D., 1983; Master's, 1968, New York University
 KEHL, RICHARD L, 1982; Bachelor's, 1959, Kansas City Art Institute
 LIN, ZHI * 2001; Bachelor's, 1982, China Central Academy of Fine Arts
 LINGO, ESTELLE C * 2006; Master's, 1993, Brown University
 LINGO, STUART P * 2006; Doctorate, 1998, Harvard University
 LUNDIN, NORMAN K, 1982; Bachelor's, 1961, The Art Institutes
 MARSHALL, JOHN C, 1982; Bachelor's, 1965, Cleveland Institute of Art
 O'TOOLE, HELEN J * 1996; Bachelor's, 1986, National College of Art and Design
 OZUBKO, CHRISTOPHER * 1981; Master's, 1981, Cranbrook Academy of Art
 ROESLER, AXEL * 2005; Master's, 2001, Ohio State University Agricultural Technical Institute
 TIHANYI, TIMEA, 2001; Bachelor's, 1998, Massachusetts College of Art and Design
 WALKER, JAMIE * 1987; Master's, 1983, Rhode Island School of Design
 WHITEHILL-WARD, JOHN, 1982; Bachelor's, 1972, Maryland Institute College of Art

Associate Professors

AHN, SANG-GYEUN * 2006; Bachelor's, 1996, Kookmin University
CABEEN, LOUISE * 1993; Master's, 1989, School of the Art Institute of Chicago
GERMANY, JASON O * 2009; Bachelor's, 1999, Montana State University
HIRSCH, EDWARD, 2011; Master's, 2000, Carnegie Mellon University
JECK, DOUGLAS A * 1996; Bachelor's, 1986, Appalachian State University
KHULLAR, SONAL * 2009; Master's, 2004, University of California-Berkeley
LABITZKE, CURT W * 1984; Master's, 1984, University of Notre Dame
MATTHEWS, KRISTINE * 1989; Master's, 1997, Royal College of Art
MCNEEL, AMIE L * 2007; Bachelor's, 1988, Kansas City Art Institute
MUREN, DOMINIC L, 2008
PRACZUKOWSKI, EDWARD, 1965; Master's, 1965, Cranbrook Academy of Art
ROUNTHWAITE ESSE, VANESSA * 2015; Master's, 2007, University of Amsterdam
SCHEIER, SHIRLEY E. * 1986; Bachelor's, 1976, University of Kansas
WANG, HAICHENG * 2008; Bachelor's, 1997, Peking University
WIECZOREK, MAREK K. * 1997; Master's, 1992, Columbia University
ZIRPEL, MARK * 2008; Master's, 1989, San Francisco Art Institute

Assistant Professors

BUNN-MARCUSE, KATHRYN * 1997; Bachelor's, 1993, Middlebury College
DESJARDINS, AUDREY * 2016; Bachelor's, 2009, Canadian University College
JAMISON, AARON FLINT * 2015; Master's, 2006, San Francisco Art Institute
LYNN, WHITNEY, 2018; Master's, 2007, San Francisco Art Institute
PIERCE, JAMES * 2020
RHEE, ROBERT * 2020; Master's, 2010, Columbia University
SPERLING, JULIET * 2020; Bachelor's, 2011, University of North Carolina at Chapel Hill
SWAINE, MICHAEL EDWARD * 2015; Bachelor's, 1994, Alfred University

Lecturers

AGUILAR, GAVRIELLA, 2015
BEYER, ROBERT D, 2017
CASTRO, FREDERIC M., 2018
DAVIS, KATHERINE F, 2017
ELEK, JENNIFER, 2018
EWING JR, RICHARD A, 2017
GHERARD, EMILY M., 2017
HALPINE, CLARE, 2015
HAWKINS, WYNDEN, 2018
JIN, DING, 2015
KADO, STEVE, 2018
MILHOAN, JASON T., 2007
MORA, DANIELA, 2015
NORSWORTHY, SARAH K, 2018; Bachelor's, 2002, Dartmouth College
OLDHAM, CHRISTIAN, 2016
ROBERTS, SARAH K, 2016
SALOV, AMANDA E., 2018
SCHROEDER, KATHERINE, 2016

SPARANO, JOSEPH F, 2014; Master's, 2016, University of Washington
SZOSZ, CARL M, 2017

Artists in Residence

COWIE, CLAIRE M., 1998
RICE, KOLYA, 1994

Asian Languages and Literature

Professors

ATKINS, PAUL S * 2002; Bachelor's, 1990, Stanford University
BI, NYAN-PING, 2000; Master's, 1988, Indiana University-Bloomington
BOLTZ, WILLIAM * 1982; Bachelor's, 1965, University of California-Berkeley
COX, COLLETT D * 1985; Bachelor's, 1972, Carleton College
HAMM, JOHN C * 1999; Bachelor's, 1978, Princeton University
HANDEL, ZEV * 1998; Bachelor's, 1988, Harvard University
KNECHTGES, DAVID R * 1982; Master's, 1965, Harvard University
MATSUDA-KIAMI, IZUMI, 1996; Bachelor's, 1990, Osaka University
PAUWELS, HEIDI R * 1990; Bachelor's, 1983, Catholic University of Leuven
SALOMON, RICHARD G. * 1981; Bachelor's, 1970, Columbia University
SANDJAJA, DESIANA P, 2004; Bachelor's, 1994, Atma Jaya Yogyakarta University
SHAPIRO, MICHAEL * 1970; Bachelor's, 1967, Queens College
YU, LIPING, 2004; Bachelor's, 1986, Beijing Normal University
YUE-HASHIMOTO, ANNE OI-KAN * 1980; Doctorate, 1966, Ohio State University Agricultural Technical Institute

Associate Professors

AHMAD, JAMEEL, 2004; Master's, 1996, Jawaharlal Nehru University
BHOWMIK, DAVINDER L * 1986; Bachelor's, 1986, University of Washington
CHO, HEEKYOUNG * 2010; Doctorate, 2010, University of Chicago
DUBROW, JENNIFER E * 2006
JESTY, JUSTIN C * 2011; Bachelor's, 1996, Oberlin College
KIM, JUNGHEE, 2018
LU, CHAN * 2016; Master's, 2005, Beijing Language and Culture University
MACK, EDWARD T * 2002; Master's, 1996, Columbia University
NISHIKAWA, ITSUKO, 2005; Master's, 1999, Columbia University
OHTA, AMY * 1990; Master's, 1990, University of California-Los Angeles
OHTA, KAORU, 1987; Bachelor's, 1981, Meiji Gakuin University
PAHLAJRAI, PREM, 2002; Master's, 1990, Georgia Institute of Technology-Main Campus
WANG, PING * 2000; Bachelor's, 1993, Anhui University
WON, EUNYOUNG, 2010; Bachelor's, 1998, Hanbuk University

Assistant Professors

CAO, YU QING, 1988; Bachelor's, 1990, University of Washington
IWATA, AKIKO, 2004; Master's, 2002, Columbia University

MARINO, JOSEPH A * 2009
TAKEDA, FUMIKO, 2018
TURNER, BICH NGOC, 2014; Bachelor's, 1994, Hanoi University

Senior Lecturer

LENZ, TIMOTHY J, 1989; Master's, 1994, University of Washington

Lecturers

ABEDIN, NANDINI, 1997
KIM, WOOJOO, 2010
NEWTON, HONGYAN ZHANG, 2008
OLSON, TIMOTHY P, 2017

Astronomy

Professors

AMEMIYA, CHRIS T * 2008; Bachelor's, 1981, Purdue University-Main Campus
AMMIRATI, JOSEPH * 1979; Bachelor's, 1965, San Francisco State University
BALIGA, NITIN * 2005; Bachelor's, 1992, Mumbai University
BENDICH, ARNOLD J * 1982; Bachelor's, 1962, University of Vermont
BERGSTROM, CARL T * 2001; Bachelor's, 1993, Harvard University
BOERSMA, P DEE * 1974; Bachelor's, 1969, Central Michigan University
BOSMA, MARTHA * 1987; Bachelor's, 1979, McGill University
BRADSHAW, HARVEY D * 1984; Bachelor's, 1979, East Carolina University
BUCKLEY, LAUREN * 2013; Doctorate, 2005, Stanford University
CARRINGTON, EMILY * 2005; Bachelor's, 1985, Cornell University
CATTOLICO, ROSE A. * 1982; Doctorate, 1973, Stony Brook University
CROWE, ALISON J, 2000; Doctorate, 1993, Stony Brook University
DANIEL, THOMAS L. * 1984; Doctorate, 1982, Duke University
DE LA IGLESIA, HORACIO O. * 2003; Master's, 1991, Universidad de Buenos Aires
DEL MORAL, ROGER * 1968; Bachelor's, 1965, University of California-Santa Barbara
DETHIER, MEGAN N * 1983; Bachelor's, 1975, Carleton College
DOHERTY, JENNIFER HELEN, 2014; Bachelor's, 2000, University of Pennsylvania
EBREY, THOMAS * 1997; Bachelor's, 1963, University of Central Oklahoma
HILLE, MERRILL * 1976; Bachelor's, 1960, Cornell University
HUEY, RAYMOND B * 1977; Doctorate, 1975, Harvard University
IMAIZUMI, TAKATO * 2008; Bachelor's, 1996, Tokyo Metropolitan University
KENAGY, GEORGE JAMES * 1982; Bachelor's, 1967, Pomona College
KENNEDY, MICHAEL L, 1999; Doctorate, 1994, Arizona State University
KERR, BENJAMIN B * 2005; Doctorate, 2002, Stanford University
KLICKA, JOHN T * 2012; Master's, 1994, The University of Texas
LEACHE, ADAM D. * 2010; Bachelor's, 1997, San Diego State University
MARTIN-MORRIS, LINDA E, 1994; Doctorate, 1991, Brandeis University
MOODY, WILLIAM J * 1982; Doctorate, 1977, Stanford University
NEMHAUSER, JENNIFER L * 2006; Doctorate, 2000, University of California-Berkeley
ODELL, GARRETT M., 1985; Bachelor's, 1965, Johns Hopkins University
OLMSTEAD, RICHARD G. * 1982; Bachelor's, 1973, New York University
PALKA, JOHN M * 1982; Bachelor's, 1960, Swarthmore College
PERKEL, DAVID J * 2000; Bachelor's, 1984, Harvard University
RIDDIFORD, LYNN M * 1982; Bachelor's, 1958, Briarcliffe College
RIFFELL, JEFFREY A * 2010; Doctorate, 2004, University of California-Los Angeles
RUESINK, JENNIFER * 1990; Bachelor's, 1989, Cornell University
SEBENS, KENNETH * 2005; Bachelor's, 1972, University of Connecticut
SIDOR, CHRISTIAN A * 2005; Bachelor's, 1994, Connecticut College
STRATHMANN, RICHARD R * 1982; Bachelor's, 1963, Pomona College

STROMBERG, CAROLINE A. * 2007; Bachelor's, 1994, Lund University
SUMMERS, ADAM P. * 1995; Master's, 1992, New York University
SWALLA, BILLIE J. * 1999; Bachelor's, 1981, University of Iowa
THERIOT, JULIE ANNE, 2018
TRUMAN, JAMES W * 1982; Master's, 1969, Harvard University
VAN VOLKENBURGH, ELIZABETH * 1982; Bachelor's, 1973, Duke University
WAALAND, J ROBERT * 1982; Bachelor's, 1966, University of California-Berkeley
WAKIMOTO, BARBARA T * 1984; Bachelor's, 1976, Arizona State University
WARD, PETER D * 1984; Doctorate, 1976, McMaster University
WASSER, SAMUEL K. * 1982; Bachelor's, 1975, Michigan State University
WENDEROTH, MARY PAT * 1988; Master's, 1981, Purdue University-Main Campus
WILSON, GREGORY * 2007; Bachelor's, 1995, Stanford University

Associate Professors

BAGHERI, NADA * 2019; Doctorate, 2007, University of California-Santa Barbara; Electrical Engineering
BROSI, BERRY JUSTICE * 2020; Doctorate, 2006, Stanford University; Biology
BRUNTON, BINGNI W * 2012; Bachelor's, 2006, California Institute of Technology
BUCHWITZ, BRIAN JOSEPH, 1997; Bachelor's, 1997, University of Minnesota-Duluth
CABERNARD, CLEMENS C * 2015; Master's, 2000, Universität Basel
COOPER, MARK S * 1990; Bachelor's, 1978, New Mexico State University-Grants
DISTILIO, VERONICA SANDRA * 2003; Bachelor's, 1990, Universidad de Buenos Aires
HERRON, JON, 1987; Bachelor's, 1985, Princeton University
LIEPKALNS, JUSTINE, 2016; Bachelor's, 2004, Eckerd College
MOENS, CECILIA B * 1998; Doctorate, 1993, University of Toronto
PAREDEZ, ALEXANDER R. * 2012; Associate, 1995, College of the Sequoias
PARRISH, JAY Z * 2010; Doctorate, 2002, University of Colorado at Boulder
PETERSEN, KAREN E, 1990; Bachelor's, 1975, University of Nebraska-Lincoln
SANTANA MATA, SHARLENE E. * 2012; Master's, 2004, Universidad de los Andes Mérida
SCHIVELL, AMANDA E, 1994; Bachelor's, 1992, Stanford University
SELF, CASEY J, 2007; Bachelor's, 2003, University of California-Davis
SHOU, WENYING * 2008; Doctorate, 2001, California Institute of Technology

Assistant Professors

ABRAHMS, BRIANA LEE * 2020; Doctorate, 2016, University of California-Berkeley; Environmental Science
HURME, KRISTIINA JUNE, 2019; Doctorate, 2011, University of Connecticut; Biology
RASMUSSEN, JEFFREY P * 2018; Bachelor's, 2002, Brown University; Biology
RICO-GUEVARA, ALEJANDRO, 2019; Doctorate, 2014, University of Connecticut; Ecology
STEINBRENNER, ADAM D * 2019; Doctorate, 2015, University of California-Berkeley; Botany/Plant Biology
THEOBALD, ELINORE JENKINS, 2004; Doctorate, 2016, University of Washington; Biology

Lecturers

COOPER, JACOB DEVIN, 2008; Bachelor's, 2005, University of California-Berkeley
DOOLEY, FREDERICK DANIEL, 2009
DRAPER, MOON, 2014; Doctorate, 2005, The University of Texas; Molecular Genetics
FREEMAN, SCOTT RIDER * 1985; Bachelor's, 1978, Carleton College

Chemistry

Professors

CAMPBELL, CHARLES T * 1989; Bachelor's, 1975, The University of Texas
CHIU, DANIEL T. * 2000; Doctorate, 1998, Stanford University
CHRISTIAN, GARY D * 1982; Master's, 1962, University of Maryland-University College
COSSAIRT, BRANDI MICHELLE * 2012; Bachelor's, 2006, California Institute of Technology
DALTON, LARRY R. * 1998; Doctorate, 1971, Harvard University
DROBNY, GARY P * 1981; Bachelor's, 1976, San Francisco State University
DUNNING, THOMAS HAROLD * 2013; Doctorate, 1970, California Institute of Technology
GAMELIN, DANIEL R. * 2000; Bachelor's, 1990, Reed College
GELB, MICHAEL H. * 1985; Bachelor's, 1979, University of California-Davis
GINGER JR, DAVID S. * 2003; Bachelor's, 1997, Indiana University-Bloomington
GOLDBERG, KAREN * 1995; Bachelor's, 1983, Barnard College
HEINEKEY, DENNIS M, 1991; Doctorate, 1982, University of Alberta
KELLER, SARAH L. * 2000; Doctorate, 1995, Princeton University
KHALIL, MUNIRA * 2006; Bachelor's, 1998, Colgate University
KOVACS, JULIA A. * 1988; Doctorate, 1986, Harvard University
KWIRAM, ALVIN L, 1982; Doctorate, 1963, California Institute of Technology
LALIC, GOJKO * 2008; Doctorate, 2004, Harvard University
LI, XIAOSONG * 2005; Bachelor's, 1999, University of Science and Technology of China; Chemistry
MALY, DUSTIN JAMES * 2006; Doctorate, 2002, University of California-Berkeley
MASIELLO, DAVID * 2004; Bachelor's, 1999, University of Florida
MC COY, ANNE BOWEN * 2015; Bachelor's, 1987, Haverford College
RATHOD, PRADIPSINH K. * 2001; Doctorate, 1982, Oregon Health & Science University
RAUCHER, STANLEY, 1982; Bachelor's, 1970, University of Minnesota-Duluth
REID, PHILIP J. * 1995; Doctorate, 1992, University of California-Berkeley
REINHARDT, WILLIAM P., 1991; Master's, 1966, Harvard University
ROBINSON, BRUCE H * 1980; Bachelor's, 1967, Princeton University
ROSE, NORMAN J, 1966; Bachelor's, 1957, Knox College
SASAKI, TOMIKAZU * 1989; Master's, 1981, Kyoto University
SPIRO, THOMAS, 2007; Doctorate, 1960, Massachusetts Institute of Technology
SYNOVEC, ROBERT E. * 1986; Bachelor's, 1981, Bethel College
TURECEK, FRANTISEK * 1990; Master's, 1973, Charles University
VANDENBOSCH, ROBERT, 1982; Bachelor's, 1954, Calvin College
VARANI, GABRIELE * 2001; Bachelor's, 1982, Università degli Studi di Milano
WIEGAND, DEBORAH H, 1990; Doctorate, 1990, Northern Illinois University
XANTHEAS, SOTIRIS * 2016
ZHANG, BO * 2008; Master's, 2002, Peking University

Associate Professors

BOYDSTON, ANDREW JACKSON * 2010; Doctorate, 2007, The University of Texas
BUSH, MATTHEW FRANCIS * 2011; Bachelor's, 2003, Carleton College
CARROLL, ANDREA D., 1998; Bachelor's, 1997, Creighton University
CHATTERJEE, CHAMPAK * 2010; Master's, 1999, IIT

CRAIG, COLLEEN, 2001; Bachelor's, 2001, University of Colorado Denver
GOLDMAN, LAWRENCE MICHAEL, 2014; Bachelor's, 2005, Rutgers University-Camden
MICHAEL, FORREST * 2004; Master's, 1998, Harvard University
NELSON, ALSHAKIM * 2015; Bachelor's, 1999, Pomona College
STOLL, STEFAN * 2011; Doctorate, 2003, Swiss Federal Institute of Technology ETH Zürich
VAUGHAN, JOSHUA CHARLES * 2013; Doctorate, 2005, Massachusetts Institute of Technology

Assistant Professors

FU, DAN * 2015; Bachelor's, 2003, Peking University
GOLDER, MATTHEW ROSS * 2019; Master's, 2014, Boston University; Chemistry
MAIBAUM, LUTZ GERRIT, 2011; Diploma, 2001, Heinrich Heine Universität Düsseldorf; Physics
ROBINSON, SAMANTHA JO, 2018; Bachelor's, 2009, University of Iowa; Chemistry
SCHLENKER, CODY W * 2011; Bachelor's, 2004, Linfield College
THEBERGE, ASHLEIGH * 2015; Doctorate, 2011, University of Cambridge
VELIAN, ALEXANDRA * 2017; Bachelor's, 2009, California Institute of Technology
XIAO, DIANNE JING * 2019; Bachelor's, 2011, Harvard University; Chemistry
ZALATAN, JESSE GEORGE * 2014; Bachelor's, 2002, Harvard University

Senior Lecturer

BRYANT, JASMINE R, 1998; Bachelor's, 1995, California Institute of Technology

Lecturers

CHONG, ERICA CHRISTINE, 2010; Bachelor's, 2010, Mississippi College; Chemistry
FURUTANI, JUSTINE L., 2018; Bachelor's, 1983, California Institute of Technology; Chemistry
SKOGERBOE, KRISTEN, 2017; Bachelor's, 1982, Colorado State University; Chemistry

Cinema and Media Studies

Professors

ADAMS, HAZARD S, 1977; Bachelor's, 1948, Princeton University
AMES, ERIC C. * 1991; Bachelor's, 1991, Dartmouth College
BORCH-JACOBSEN, MIKKEL * 1986; Doctorate, 1981, Université de Strasbourg
BRAESTER, YOMI * 2000; Bachelor's, 1985, Hebrew University of Jerusalem
BROWN, MARSHALL J * 1988; Bachelor's, 1965, Harvard University
STEELE, CYNTHIA * 1986; Bachelor's, 1973, California State University-Chico
TWEEDIE, JAMES * 2004; Bachelor's, 1992, Stanford University

Associate Professors

BEAN, JENNIFER M * 1998; Bachelor's, 1990, Davidson College
GROENING, STEPHEN F * 2014; Master's, 2001, Claremont Graduate University
KOGOJ-KAPETANIC, BREDA, 1982; Doctorate, 1966, University of Zagreb
MAHADEVAN, SUDHIR * 2008; Master's, 2000, New York University

Assistant Professors

AHERN, MALLORY * 2019; Master's, 2011, CUNY Graduate School and University Center

Lecturer

DIAZ POZUETA, MARIA, 1999

Classics

For complete faculty listing, please visit <https://classics.washington.edu/people/faculty>

Professors

BLIQUEZ, LAWRENCE J * 1982; Bachelor's, 1963, St Marys University
 BLONDELL, RUBY * 1985; Doctorate, 1984, University of California-Berkeley
 CLAUSS, JAMES J * 1984; Master's, 1976, Fordham University
 CONNORS, CATHERINE M. * 1990; Bachelor's, 1984, Harvard University
 GOWING, ALAIN M. * 1988; Master's, 1981, Bryn Mawr College
 HARMON, DANIEL P * 1982; Bachelor's, 1962, Loyola University Chicago
 HINDS, STEPHEN E * 1992; Doctorate, 1985, St John's College
 KAMEN, DEBORAH E * 2007; Bachelor's, 1998, Bryn Mawr College
 LEVANIUK, OLGA * 2001; Doctorate, 2000, Harvard University
 STROUP, SARAH C * 1992; Master's, 1994, University of California-Berkeley

Associate Professors

HOLLMANN, ALEXANDER J * 2001; Doctorate, 1998, Harvard University
 LEVIN-RICHARDSON, SARAH * 2009; Master's, 2006, Stanford University
 TOPPER, KATHRYN R * 2008; Bachelor's, 2000, Bryn Mawr College

Assistant Professor

WALDO, CHRISTOPHER, 2020

Lecturer

GOREY, MATTHEW M, 2012

Communication

For complete faculty listing, please visit <https://com.uw.edu/people/faculty/>

Professors

BALDASTY, GERALD J * 1974; Bachelor's, 1972, University of Washington
 BEAM, RANDAL A * 1997; Bachelor's, 1974, American University
 BOWEN, LAWRENCE, 1982; Bachelor's, 1968, Pennsylvania State University-College of Medicine
 CECCARELLI, LEAH M. * 1996; Master's, 1992, Northwestern University
 COUTU, LISA, 1990; Bachelor's, 1988, University of Massachusetts
 CRANSTON, PATRICIA, 1982; Bachelor's, 1944, The University of Texas

DOMKE, DAVID S. * 1998; Bachelor's, 1991, California State University-Fullerton
FOOT, KIRSTEN A * 2001; Bachelor's, 1989, Northwestern University
HAROLD, CHRISTINE L * 2007; Master's, 1999, Pennsylvania State University-College of Medicine
JOSEPH, RALINA L * 2005; Bachelor's, 1996, Brown University
LANG, KURT, 1984; Bachelor's, 1949, University of Chicago
MANUSOV, VALERIE L * 1993; Master's, 1984, Michigan State University
MCGARRITY, MATTHEW K, 2004; Master's, 2000, Indiana University-Bloomington
MOY, PATRICIA * 1998; Bachelor's, 1989, Cornell University
NISHIME, LEILANI * 2008; Bachelor's, 1989, University of California-Berkeley
PEMBER, DON R, 1982; Bachelor's, 1964, Michigan State University
PHILIPSEN, GERRY F, 1982; Doctorate, 1972, Northwestern University
RIVENBURGH, NANCY * 1990; Master's, 1982, Boston University
RUSSELL, ADRIENNE MARIE * 2017; Doctorate, 2001, Indiana University-Bloomington
SCHEIDEL, THOMAS, 1976; Master's, 1955, University of Washington
UNDERWOOD, DOUGLAS M, 1987; Master's, 1974, Ohio State University Agricultural Technical Institute

Associate Professors

COOK, CALEY K, 2013; Bachelor's, 2002, University of San Diego
CROFTS, ANITA, 1996; Bachelor's, 1992, Haverford College
FEARN-BANKS, KATHLEEN A. * 1990; Master's, 1965, University of California-Los Angeles
KIELBOWICZ, RICHARD B * 1984; Bachelor's, 1975, The College of Wooster
OTANEZ, ANDREA K., 2013; Bachelor's, 1986, University of Utah
PEARCE, KATY E. * 2012; Doctorate, 2011, University of California-Santa Barbara
POST, ROBERT M, 1982; Master's, 1958, Ohio Christian University
POWERS, MATTHEW J * 2013; Doctorate, 2013, New York University
SPRATT, MARGARET, 1998; Bachelor's, 1982, University of California-Los Angeles
YASIN, EKIN, 2013; Bachelor's, 2003, Georgetown University

Assistant Professors

CROWLEY, JOHN P. * 2008; Master's, 2006, San Diego State University
FRIZ, AMANDA, 2020; Master's, 2013, University of Utah
GONZALEZ, CARMEN * 2015; Bachelor's, 2005, University of Southern California
HILL, BENJAMIN C * 2013; Bachelor's, 2003, Hampshire College
RAHMAN, ABU SALEH MOHAMMAD ANISUR, 2020; Master's, 2007, Rajshahi University
SCHARP, KRISTINA * 2018; Doctorate, 2014, University of Iowa
SLAKER, JANINE S, 2020; Bachelor's, 2005, Maryland Institute College of Art

Lecturers

KEYES, WHITNEY M, 2017
MAYO, JUSTIN, 2017
SOUDERS, MICHAEL C., 2013; Bachelor's, 2004, Eastern New Mexico University-Main Campus
STUTEVILLE, SARAH R, 2009
VANNINI, SARA, 2016

Artists in Residence

SILBERNER, JOANNE MARCIA, 2010; Master's, 1979, Columbia University

TOMASIC, JOHN F., 2019; Doctorate, 1997, Indiana University-Bloomington

Comparative History of Ideas

For complete faculty listing, please visit <https://chid.washington.edu/people>

Professors

Professors

BURNS, EDWARD M, 1984; Master's, 1966, University of Arizona
COGGINS, TRUMAN E * 1982; Bachelor's, 1970, University of Redlands
EADIE, TANYA L * 2003; Bachelor's, 1995, Queen's University
ESTES, ANNETTE M * 1991; Bachelor's, 1988, The Evergreen State College
KENDALL, DIANE L. * 2008; Master's, 1989, California State University-Fullerton
KUHL, PATRICIA K * 1976; Bachelor's, 1967, Rasmussen College-St Cloud
LEE, ADRIAN K * 2010; Doctorate, 2007, Massachusetts Institute of Technology
MAX, LUDO * 2009; Bachelor's, 1989, Artesis Hogeschool Antwerpen
MINIFIE, FRED D, 1982; Bachelor's, 1958, Linfield College
SPENCER, KRISTIE * 1999; Bachelor's, 1990, University of Pittsburgh-Bradford
STOEL-GAMMON, CAROL * 1983; Bachelor's, 1965, Smith College
TREMBLAY, KELLY L, 1998; Master's, 1987, Dalhousie University
WERNER, LYNNE A. * 1986; Doctorate, 1980, American University

Associate Professors

ANDERSON, SUSAN J, 2007; Bachelor's, 1988, University of Northern Colorado
BURNS, MICHAEL I, 2008; Bachelor's, 1998, California State University-Fresno
CARPENTER, ROBERT L, 1982; Bachelor's, 1964, Augustana College
COOKER, HARRY S, 1982; Bachelor's, 1957, New York University
DANIELS, JACQUELINE L., 2013; Bachelor's, 2003, University of Iowa
DUNLAP, JULIE A., 1992; Bachelor's, 1986, Northwestern University
HARNEY, MARTHA L., 1983; Bachelor's, 1978, San Jose State University
ILLICH, LISA L, 2006; Bachelor's, 1988, The University of Montana
KOVER, SARA T * 2014; Bachelor's, 2005, Johns Hopkins University
KRINGS, KATHERINE, 2001; Bachelor's, 2001, University of Missouri-St Louis
LEONARDO, JULIE D, 2006; Bachelor's, 1992, University of Massachusetts
NEVDAHL, MARTIN, 1983; Bachelor's, 1982, University of Washington
THORNE, JOHN C, 2003; Bachelor's, 1987, New Mexico State University-Grants

Assistant Professors

BROWN, ANDREW * 2018; Associate, 2005, Green River Community College

LEIGHTON, KELSEY, 2012; Master's, 2004, University of Washington
NEUFELD, TANNA LYNN, 2017; Associate, 2002, Broward College
PACE, AMY E * 2015; Bachelor's, 2003, University of California-San Diego
RODDA, AMY C, 2006; Master's, 2004, Truman State University; Communication Disorders
SHEN, YI * 2020; Doctorate, 2010, Indiana University-Bloomington; Speech Pathology

Lecturers

BOULSE, TERRA L, 2008; Master's, 1999, Truman State University
GRAY, JENNIFER, 2011; Doctorate, 2009, University of Arizona
JACOBSEN, KAREN M, 2010; Bachelor's, 1989, Portland State University
KING, DAELENE, 2017
NEHILLA, LAUREN, 2013; Master's, 2006, Emerson College
ROBINSON, DANA, 2001; Bachelor's, 1999, Rutgers University-Camden

LEE, STEPHANIE, 2017; Bachelor's, 2011, Stanford University; Economics
MALOY, FRANCES, 1987; Bachelor's, 1981, New York University
MARIN, MONICA, 2013; Bachelor's, 2003, Augusta State University
MATTHEWS, MARTHA N., 1992; Bachelor's, 1982, Appalachian State University
MCPHERSON, RICHARD S., 2005; Bachelor's, 1979, Arizona State University
MUMMALANENI, NARASIMHA * 2016; Master's, 2012, Northwestern University
NAGESWARAN, LEELA, 2018; Doctorate, 2018, Carnegie Mellon University; Operations Management

NICHOLS, CHRISTINA, 2016; Master's, 2012, Texas A & M University; Marketing
OLSON, DANIEL M., 2016; Bachelor's, 2000, Brigham Young University
PATRICK, PAIGE H, 2013; Master's, 2002, Arizona State University
QUINN, PHILLIP J, 2014; Bachelor's, 2005, Drake University
SCHABRAM, KIRA * 2016; Master's, 2010, Concordia University
SCHULZ, FLORIAN, 2014; Master's, 2008, London Business School
SEONG, SORAH, 2018; Bachelor's, 2009, Harvard University; Sociology
SHAIKH, SARAH, 2015; Bachelor's, 2004, Drake University
SHUNKO, MARIA * 2015; Master's, 2007, Carnegie Mellon University
SONG, YANG, 2018; Bachelor's, 2011, Fudan University; Mathematics
STERN, LEA H, 2016; Bachelor's, 2007, Canadian University College
VALSESIA, FRANCESCA, 2018; Master's, London School of Economics and Political Science; Political Science
WALLACE, SCOTT GORDON * 2018; Doctorate, 2018, Duke University; Marketing
WANG, YINGFEI, 2017; Bachelor's, 2012, Peking University; Computer and Information Science
WEE, XUN MING ELIJAH, 2017; Bachelor's, 2004, National University of Singapore
YANG, MINGWEN, 2019; Master's, 2013, Georgia Institute of Technology-Main Campus
ZENG, YAO, 2016; Bachelor's, 2007, Beijing University of Technology
ZHANG, ZAOZAO, 2010; Master's, 2007, Columbia University
ZUZUL, TIONA WHITE, 2017; Bachelor's, 2005, Harvard University

Senior Lecturers

DATTA, SUMON, 2018; Master's, 2004, Indian Institute of Technology Madras; Chemical Engineering
LI, SAILU, 2017; Master's, 2008, Boston College; Economics
PILCHER, MARTHA G, 1987; Bachelor's, 1976, Georgia Institute of Technology-Main Campus
RACHAMADUGU, RAM-MOHAN, 2016; Master's, 1980, Carnegie Mellon University
STUDER-ELLIS, ERICH, 2009; Doctorate, 1996, Duke University

Lecturers

BARNES, MARIA, 2018; Master's, 2006, Gonzaga University; Accounting
BERGSTROM, TOD, 1999
BERMAN, JOEL CHARLES, 2017
BETTIN, PATRICK J, 1988
BYERS, MARILEE, 2017
CARTER, JAMES, 2018
CONLEY, BRIAN THOMAS, 2011
CORMICK, GERALD W, 1975
DASHKEEV, VLADIMIR V, 2008; Doctorate, 2017, University of Washington; Economics
EGUCHI, MICHAEL S, 2004
FIRESTONE, PATRICK, 2016
GIAMBATTISTA, MICHELE DONATO, 1995; Master's, 1969, Harvard University
GRIMSTAD, GARY, 2015
GUSCHIN, ANDREI G, 2014
HECKEL, JASON, 2016; Diploma, 2002, University of Washington; Accounting
HOCHBERG, LEE E, 2008
JENSEN, ANDREW, 2003
KOKTA, THOMAS L, 1986
LEGG, DIANE, 2008; Bachelor's, 1987, College of William and Mary
LEONG, ALAN, 1995; Bachelor's, 1994, Simon Fraser University

MALARKEY, SUSANNAH, 2016; Bachelor's, 1978, University of Oregon

MARQUEZ, ERIKA J, 2011

MCCANN, T.A., 2018

MCCORMACK, TIMOTHY B, 2014

MCREYNOLDS, EMILY C, 2013

MCREYNOLDS, NEIL L, 2002

NASRABADI, EBRAHIM, 2017; Doctorate, 2009, Technische Universität Berlin; Mathematics

PAPERMAN, JOSEPH B., 1995

SIMON, MICHAEL A, 2005; Bachelor's, 1990, University of Idaho

VITASEK, KATE, 2017; Master's, 1994, The University of Tennessee

WEEDE, ROBERT, 2013; Bachelor's, 1979, University of California-Davis; Accounting

School of Dentistry

Professors

BEIRNE, OWEN ROSS * 1985; Medical Doctorate, 1972, Harvard University
BERG, JOEL H. * 2000; Medical Doctorate, 1983, University of Iowa
BOLENDER, CHARLES L, 1959; Medical Doctorate, 1956, University of Iowa
BOLLEN, ANNE-MARIE * 1990; Medical Doctorate, 1984, Université Libre de Bruxelles
BRUDVIK, JAMES S * 1979; Medical Doctorate, 1957, University of Minnesota-Duluth
CHAN, DANIEL C. N. * 2008; Master's, 1984, University of Iowa
CHEN, SSU-KUANG * 1988; Medical Doctorate, 1986, National Taiwan University
CHI, DONALD L * 2002; Bachelor's, 2000, Cornell University
CHIODO, GARY T, 2018
CHUNG, KWOK-HUNG * 2005; Medical Doctorate, 1979, National United University
CHUNG, WHASUN O. * 1994; Master's, 1989, Maranatha Baptist Bible College
COHENCA, NESTOR * 2005; Medical Doctorate, 1990, Universidad Nacional de Asunción
COLDWELL, SUSAN E. * 1994; Bachelor's, 1989, Duke University
DALE-CRUNK, BEVERLY, 1982; Bachelor's, 1964, University of Michigan-Ann Arbor
DARVEAU, RICHARD P. * 1989; Bachelor's, 1975, Northern Illinois University
DE ROUEN, TIMOTHY * 1982; Bachelor's, 1967, McNeese State University
DODSON, THOMAS B, 2013; Master's, 1984, Harvard University
DOMOTO, PETER K, 1982; Medical Doctorate, 1964, University of California-San Francisco
DRANGSHOLT, MARK T. * 1983; Bachelor's, 1981, University of Washington
DWORKIN, SAMUEL F, 1974; Bachelor's, 1954, New York University
FALES, MARTHA H, 1959; Bachelor's, 1943, University of Michigan-Ann Arbor
FRANK, RICHARD P, 1971; Medical Doctorate, 1962, University of Iowa
GHRIG, JOHN D, 1982; Medical Doctorate, 1946, University of Minnesota-Duluth
GORDON, SARA CHRISTINE * 2003; Bachelor's, 1981, Dalhousie University
HARRINGTON, GERALD W, 1982; Medical Doctorate, 1959, University of Missouri-St Louis
HUANG, GREG J., 1987; Bachelor's, 1983, Emory University
HUJOEL, PHILIPPE P * 1989; Medical Doctorate, 1984, Université Libre de Bruxelles
IZUTSU, KENNETH, 1982; Bachelor's, 1964, University of Washington
JOHNSON, JAMES D * 2003; Medical Doctorate, 1969, Northwestern University
KRONSTROM, MATS HENRIK * 2006; Medical Doctorate, 1980, Lund University
LE RESCHE, LINDA A * 1983; Bachelor's, 1969, Carleton College
LEGGOTT, PENELOPE J, 1993; Medical Doctorate, 1969, University of Bristol
LEROUX, BRIAN * 1991; Bachelor's, 1982, Carleton University
LITTLE, ROBERT M, 1982; Medical Doctorate, 1966, Northwestern University
LIU, ZIJUN * 1997; Medical Doctorate, 1983, Nanjing University
MILGROM, PETER M, 1974; Bachelor's, 1969, University of California-Los Angeles
MORRISON, KENNETH N, 1948; Medical Doctorate, 1943, University of Toronto
MORTON, THOMAS H, 1982; Medical Doctorate, 1972, Creighton University
NATKIN, EUGENE, 1982; Bachelor's, 1953, Columbia University
NICHOLLS, JACK I, 1982; Doctorate, 1966, Purdue University-Main Campus
ODA, DOLPHINE * 1985; Medical Doctorate, 1975, University of Iraq
PARANJPE, AVINA * 2009; Bachelor's, 2000, Mumbai University

PERSSON, GOSTA RUTGER * 1985; Medical Doctorate, 1967, Lund University
 RAMSAY, DOUGLAS S * 1983; Bachelor's, 1979, Franklin and Marshall College
 ROBERTSON, PAUL B. * 1992; Bachelor's, 1963, The University of Texas
 ROBINOVITCH, MURRAY * 1982; Bachelor's, 1959, University of Minnesota-Duluth
 RUBENSTEIN, JEFFREY E. * 1989; Bachelor's, 1972, Rutgers University-Camden
 SORENSEN, JOHN ALAN * 2012; Medical Doctorate, 1980, Tufts University
 TRUELOVE, EDMOND L * 1972; Doctorate, 1967, Indiana State University
 WORTHINGTON, PHILIP, 1982; Bachelor's, 1953, University of Liverpool

Associate Professors

ANDERSON, J MARTIN, 1981; Bachelor's, 1960, Pacific Lutheran University
 AW, TAR C., 1995; Medical Doctorate, 1990, Northwestern University
 BLOOMQUIST, DALE S, 1972; Master's, 1972, Georgetown University
 CHASTEEN, JOSEPH E, 1989; Medical Doctorate, 1967, University of Michigan-Ann Arbor
 CHEN, YEN-WEI, 2008; Medical Doctorate, 1998, Taipei Medical University
 DAVIS, JOHN M, 1982; Medical Doctorate, 1961, University of Washington
 DOGAN, SAMI, 2000; Medical Doctorate, 1991, Ankara University
 EGBERT, MARK A, 1982; Bachelor's, 1976, Pacific Lutheran University
 FLAKE, NATASHA M. * 2006; Doctorate, 2005, University of Maryland-University College
 GANDARA, BEATRICE K * 1982; Medical Doctorate, 1978, University of Southern California
 GARCIA, MARIELLA * 2008; Medical Doctorate, 2000, Universidad Peruana Cayetano Heredia
 JOONDEPH, DONALD R * 1982; Bachelor's, 1963, Northwestern University
 LEPE, XAVIER * 1993; Master's, 1987, Loyola University Chicago
 MANCL, LLOYD A. * 1986; Bachelor's, 1985, Pomona College
 MCLEAN, JEFFREY S * 2014; Master's, 2000, University of Guelph
 NELSON, TRAVIS M. * 2007; Medical Doctorate, 2007, Loma Linda University
 PHILLIPS, SANDRA L., 1982; Bachelor's, 1982, University of Washington
 PITTS, DAVID LEROY, 1982; Bachelor's, 1967, Indiana University-Bloomington
 POPOWICS, TRACY * 1997; Doctorate, 1997, Brown University
 PRESLAND, RICHARD B * 1989; Doctorate, 1987, University of Adelaide
 RAFFERTY, KATHERINE L., 1997; Bachelor's, 1986, Indiana University-Bloomington
 RAMOS JR, SERVANDO * 2016; Medical Doctorate, 1985, The University of Texas Health Science Center at Houston
 ROBERTS, FRANK A. * 1996; Bachelor's, 1986, Davidson College
 SADR, ALIREZA * 2015; Medical Doctorate, 2002, Shahid Beheshti University
 SEMINARIO, ANA LUCIA * 2007; Doctorate, 2006, Charles University
 SHELLER, BARBARA L * 1981; Medical Doctorate, 1981, University of Washington
 SILVA, JOANA CUNHA CRUZ * 2004; Medical Doctorate, 1999, Universidade de Pernambuco (UPE)
 STIEFEL, DORIS, 1982; Bachelor's, 1951, University of Washington
 TOOLSON, LEIGH, 1982; Medical Doctorate, 1967, University of Washington
 WANG, I-CHUNG * 2002; Medical Doctorate, 1985, Chung Shan Medical and Dental University
 XU, ZHENG * 2014; Master's, 1999, Peking University
 ZHANG, HAI * 2004; Medical Doctorate, 1992, Sichuan University

Assistant Professors

CHIGURUPATI, KAVITA, 2000
 CHREPA, VARVARA, 2015; Medical Doctorate, 2009, American University of Athens
 DEAN, DAVID * 2007; Doctorate, 2010, University of Washington
 HEATON, LISA J * 2005; Master's, 2002, University of Kentucky

LEE, PEGGY PEI-FUN, 1985; Bachelor's, 1982, National Yang Ming University

MIDDAUGH, DAN, 1967; Bachelor's, 1955, University of Minnesota-Duluth

PALMER, ELIZABETH * 2014; Medical Doctorate, 2008, Oregon Health & Science University

College of Education

MEEKER, KATHLEEN * 2013; Bachelor's, 2002, Ohio State University Agricultural Technical Institute
NEWMAN, JODI, 1999; Bachelor's, 1995, Haverford College
PARIS, DJANGO * 2018; Doctorate, 2008, Stanford University; Philosophy
POWELL, SELMA, 2014; Doctorate, 2012, University of Central Florida
RIGBY, JESSICA * 2014; Bachelor's, 1998, Oberlin College
ROBERTS, CARLY * 2015; Master's, 2010, University of Alaska Southeast
ROSENBERG, NANCY E * 2003; Bachelor's, 1987, Stanford University
SANDERS, ELIZABETH * 2004
SCHINDLER, HOLLY S * 2012; Doctorate, 2007, Boston College

SPAULDING, SCOTT * 2009; Bachelor's, 1989, The University of Tennessee
SUN, MIN * 2014; Master's, 2006, Beijing Normal University
TAYLOR, KATHERINE * 2015; Bachelor's, 2003, New York University
THOMPSON, JESSICA J * 1992; Master's, 2001, University of Washington
WANG, CHUN * 2018

Assistant Professors

ASTIVIA, OSCAR OLVERA * 2020; Doctorate, 2017, University of British Columbia
BENEKE, MARGARET R * 2017
DUNCHEON, JULIA * 2019
ELLIOTT-GROVES, EMMA * 2019; Doctorate, 2016, University of Washington; Educational Psychology
KAUERZ, KRISTIE * 2011; Master's, 1995, American University
KNIGHT, DAVID * 2019; Doctorate, 2015, University of Southern California; Education
MACHADO, EMILY, 2018; Master's, 2011, American University
MARTINEZ, CARLOS RICARDO * 2020; Doctorate, 2019, University of Pennsylvania; Education
NICKSON, DANA * 2020
PARK, SOOJIN OH * 2015; Master's, 2010, Harvard University
ROCHA, TOMAS DE REZENDE * 2020
SANTIAGO, MARIBEL * 2020
SHAH, NIRAL * 2019; Doctorate, 2013, University of California-Berkeley; Education
SHEA, MOLLY * 2019; Doctorate, 2013, University of Colorado at Boulder; Education
WASHINGTON, SHANEE ADRIENNE * 2019; Doctorate, 2019, Boston College; Education

Senior Lecturer

BRENNAN, CAROLYN, 2008; Bachelor's, 2003, University of Colorado at Boulder

Lecturers

IVES, CHARLES, 2013
MATLACK, ALEXA, 2013
OLSON, ERIN, 2002
PARKIN, JASON R, 2017

College of Engineering

Aeronautics and Astronautics

For complete faculty listing, please visit <https://www.aa.washington.edu/facultyfinder>

Professors

ACIKMESE, BEHCET * 2015; Master's, 1996, Indiana University-Purdue University-Indianapolis
BRAGG, MICHAEL B * 2013; Doctorate, 1981, Ohio State University Agricultural Technical Institute
BREIDENTHAL, ROBERT E * 1980; Master's, 1974, California Institute of Technology
BRUCKNER, ADAM * 1972; Bachelor's, 1966, McGill University
DABIRI, DANA * 2002; Master's, 1987, University of California-Berkeley
DECHER, REINER, 1982; Master's, 1962, Massachusetts Institute of Technology
FYFE, IAN M, 1982; Doctorate, 1957, Stanford University
HERMANSON, JAMES C. * 1986; Master's, 1980, California Institute of Technology
HILL, KRISTI MORGANSEN * 2002; Bachelor's, 1993, Boston University
HOLSAPPLE, KEITH A * 1982; Bachelor's, 1960, University of Washington
JARBOE, THOMAS R. * 1989; Doctorate, 1974, University of California-Berkeley
KUROSAKA, MITSURU * 1987; Doctorate, 1968, California Institute of Technology
LIVNE, ELI * 1990; Bachelor's, 1974, Technion Israel Institute of Technology
MESBAHI, MEHRAN * 2002; Bachelor's, 1989, California State University-Northridge
PARMERTER, R REID, 1963; Bachelor's, 1958, California Institute of Technology
SHUMLAK, URI * 1994; Bachelor's, 1987, The University of Texas
VAGNERS, JURIS * 1982; Master's, 1963, Stanford University
WAAS, MODERAGE ANTHONY * 2014; Master's, 1983, California Institute of Technology

Associate Professors

FERRANTE, ANTONINO * 2008
HURLEN, ERIK, 2020
KNOWLEN, CARL * 1983; Bachelor's, 1983, University of Washington
MATTICK, ARTHUR T., 1982; Bachelor's, 1971, Massachusetts Institute of Technology
YANG, JINKYU * 2013; Bachelor's, 2000, Korea University

Assistant Professors

HABTOUR, ED MANSOUR * 2020
LITTLE, JUSTIN M * 2015
LUM, CHRISTOPHER W. M. * 2001; Bachelor's, 2003, University of Washington
NARANG, ANSHU, 2013; Master's, 2008, Indian Institute of Technology Delhi
SALVIATO, MARCO * 2015; Bachelor's, 2007, Università degli Studi di Padova
WILLIAMS, OWEN JAMES * 2016; Master's, 2008, Imperial College
YOU, SETTHIVOINE, 2008

Lecturers

NAGABHUSHAN, VIVEK, 2018
RICHARD, LUKE I, 2008

SPETZLER, MAX GEORG, 2011

Chemical Engineering

For complete faculty listing, please visit <https://www.cheme.washington.edu/facresearch/core-faculty.html>

Professors

BANEYX, FRANCOIS * 1992

BERG, JOHN C * 1964; Bachelor's, 1960, Carnegie Mellon University

BOWEN, J RAY, 1982; Bachelor's, 1956, Massachusetts Institute of Technology

CASTNER, DAVID G. * 1986; Bachelor's, 1975, Oregon State University

DAVIS, E JAMES * 1983; Bachelor's, 1956, Gonzaga University

FINLAYSON, BRUCE A, 1982; Bachelor's, 1961, Rice University

HEIDEGER, WILLIAM J, 1957; Bachelor's, 1954, Carnegie Mellon University

HILLHOUSE, HUGH * 1995; Bachelor's, 1995, Clemson University

JENEKHE, SAMSON A * 2000; Bachelor's, 1977, Michigan Technological University

LIDSTROM, MARY E. * 1982; Master's, 1975, University of Wisconsin-Madison

OVERNEY, RENE M * 1996; Bachelor's, 1987, Universität Basel

PFAENDTNER, WALTER JAMES * 2009; Bachelor's, 2001, Georgia Institute of Technology-Main Campus

POZZO, LILO D. * 2007; Bachelor's, 2001, American University of Puerto Rico

RIBE, FRED L, 1977; Bachelor's, 1944, The University of Texas

RICKER, NEIL L, 1982; Master's, 1972, University of California-Berkeley

SCHWARTZ, DANIEL T. * 1991; Master's, 1985, University of California-Davis

SLEICHER, CHARLES A, 1982; Bachelor's, 1944, Brown University

STUVE, ERIC M * 1985; Master's, 1979, Stanford University

SUBRAMANIAN, VENKAT * 2014; Bachelor's, 1997, Madurai Kamaraj University

WOODRUFF, GENE L, 1982; Master's, 1963, Massachusetts Institute of Technology

Associate Professors

ADLER, STUART B. * 2001; Master's, 1989, University of California-Berkeley

BECK, DAVID * 2000; Bachelor's, 2000, Drexel University

CAROTHERS, JAMES * 2012; Doctorate, 2005, Harvard University

DEFORREST, COLE ALEXANDER * 2013; Bachelor's, 2006, Princeton University

KRIEGER-BROCKETT, BARBARA, 1982; Bachelor's, 1968, University of Wisconsin Colleges

Assistant Professors

BERGSMAN, DAVID STEVENS * 2020

HOLMBERG, VINCENT * 2015; Master's, 2010, The University of Texas

NANCE, ELIZABETH * 2015; Doctorate, 2012, Johns Hopkins University

VALLEAU, STEPHANIE * 2019; Doctorate, 2016, Harvard University; Chemical Physics

Lecturers

KIM, ANTHONY YOUNG, 1987; Master's, 1993, University of California-Davis

MURBACH, MATTHEW, 2013

Civil and Environmental Engineering

For complete faculty listing, please visit <https://www.ce.washington.edu/facultyfinder>

Professors

ARDUINO, PEDRO * 1997; Master's, 1992, American University of Puerto Rico
BAN, XUEGANG * 2016; Bachelor's, 1997, Tsinghua University
BENJAMIN, MARK M * 1982; Bachelor's, 1972, Carnegie Mellon University
BERMAN, JEFFREY WILLIAM * 2006; Bachelor's, 2000, New York University
BRETT, MICHAEL T * 1997; Bachelor's, 1983, Humboldt State University
CARLSON, DALE A, 1955; Bachelor's, 1950, University of Washington
CHEN, QIUZI * 2009; Bachelor's, 1992, Nankai University
EBERHARD, MARC O * 1989; Bachelor's, 1984, University of California-Berkeley
GOODCHILD, ANNE V. * 2005; Master's, 2002, University of California-Berkeley
HORNER-DEVINE, ALEXANDER * 2004; Bachelor's, 1995, Princeton University
HOSSAIN, FAISAL * 2014; Bachelor's, 1996, Indian Institute of Technology Delhi
ISTANBULLUOGLU, ERKAN * 2009; Bachelor's, 1996, Uludag University
KORSHIN, GREGORY * 1991; Bachelor's, 1978, Kazan State University
LARSON, TIMOTHY * 1970; Bachelor's, 1968, Lehigh University
LEHMAN, DAWN E * 1998; Bachelor's, 1989, Tufts University
LETTENMAIER, DENNIS P * 1982; Master's, 1973, George Washington University
LOWES, LAURA N * 1989; Doctorate, 1999, University of California-Berkeley
LUNDQUIST, JESSICA D * 2006; Bachelor's, 1999, University of California-Davis
MAHONEY, JOE PAUL * 1978; Bachelor's, 1968, The University of Texas
MARSHALL, JULIAN * 2015; Bachelor's, 1996, Princeton University
MILLER, GREGORY * 1983; Master's, 1981, Northwestern University
MUENCH, STEPHEN T * 1990; Bachelor's, 1990, University of Washington
NECE, RONALD E, 1982; Master's, 1951, Lehigh University
NIHAN, NANCY L * 1982; Bachelor's, 1964, Northwestern University
NIJSSEN, BART * 1994; Doctorate, 2000, University of Washington
REED, DOROTHY * 1983; Master's, 1977, Princeton University
RUTHERFORD, G. SCOTT, 1981; Doctorate, 1974, Northwestern University
STAHL, DAVID A * 2000; Master's, 1975, University of Illinois at Urbana-Champaign
STANTON, JOHN * 1978; Master's, 1975, Cornell University
WANG, YINHAI * 1998; Bachelor's, 1989, Tsinghua University
WARTMAN, JOSEPH * 2010; Master's, 1996, University of California-Berkeley

Associate Professors

DODD, MICHAEL * 2009; Bachelor's, 2001, Georgia Institute of Technology-Main Campus
KAMINSKY, JESSICA A * 2014; Bachelor's, 2004, Rice University
MACKENZIE, DONALD W * 2013; Master's, 2009, Massachusetts Institute of Technology
MACKENZIE-HELNWEIN, PETER * 2003; Doctorate, 1997, International University Vienna
MCCORMACK, EDWARD D * 1982; Bachelor's, 1979, University of Washington
MOTLEY, MICHAEL * 2012; Bachelor's, 2003, Citadel Military College of South Carolina
NEUMANN, REBECCA B * 2010; Doctorate, 2009, Massachusetts Institute of Technology

Assistant Professors

CALVI, PAOLO * 2015; Bachelor's, 2008, Università degli Studi di Pavia
 GOMEZ, MICHAEL GREGORY * 2017; Bachelor's, 2011, University of California-Davis
 KIM, AMY AHIM * 2014; Master's, 2008, Illinois Institute of Technology
 MAURER, BRETT W * 2017; Bachelor's, 2009, Syracuse University
 NIRNIMESH KUMAR, UNKNOWN, 2016; Bachelor's, 2007, Indian Institute of Technology Kharagpur
 RAY, JESSICA R. * 2019; Doctorate, 2015, Washington University in St Louis; Chemical Engineering
 SHEAN, DAVID E * 2011; Bachelor's, 2004, Brown University
 THONSTAD, TRAVIS E. * 2020; Doctorate, 2016, University of Washington; Civil Engineering
 WIEBE, RICHARD * 2014; Doctorate, 2012, Duke University
 WINKLER, MARIKAROLIINA H * 2015; Doctorate, 2012, Delft University of Technology
 YAMAURA, JULIAN TAKASHI, 2009; Doctorate, 2018, University of Washington; Civil Engineering

Computer Science and Engineering

For complete faculty listing, please visit <https://www.cs.washington.edu/people/faculty/>

Professors

ANDERSON, RICHARD J. * 1986; Bachelor's, 1981, Reed College
 ANDERSON, THOMAS E. * 1987; Bachelor's, 1983, Harvard University
 BAER, JEAN-LOUP, 1969; Bachelor's, 1961, École Supérieure d'Ingenierie Informatique Grenoble
 BALAZINSKA, MAGDALENA * 2005; Bachelor's, 1998, École Polytechnique de Montréal
 BEAME, PAUL W. * 1987; Bachelor's, 1981, University of Toronto
 BODIK, RASTISLAV * 2015; Master's, 1994, University of Pittsburgh-Bradford
 BURGER, DOUGLAS CHRISTOPHE * 2008; Master's, 1993, University of Wisconsin-Madison
 CEZE, LUIS HENRIQUE DE BAR * 2007; Bachelor's, 2000, Universidade de São Paulo (USP)
 COHEN, MICHAEL F * 1998; Bachelor's, 1976, Beloit College
 CURLESS, BRIAN L. * 1997; Master's, 1991, Stanford University
 DOMINGOS, PEDRO MORAIS DEL * 1999; Master's, 1992, Universidade Técnica de Lisboa
 EGGERS, SUSAN JANE * 1989; Bachelor's, 1965, Connecticut College
 ERNST, MICHAEL D * 1996; Bachelor's, 1989, Massachusetts Institute of Technology
 ETZIONI, OREN * 1991; Master's, 1988, Carnegie Mellon University
 FOGARTY, JAMES A * 2006; Master's, 2005, Carnegie Mellon University
 FOX, DIETER * 2000; Bachelor's, 1990, Rheinische Friedrich Wilhelms Universität Bonn
 FOX, EMILY * 2012; Bachelor's, 2004, Massachusetts Institute of Technology
 GROSSMAN, DANIEL JOSEPH * 2003; Master's, 2001, Cornell University
 GUESTRIN, CARLOS E * 2012; Master's, 2000, Stanford University
 HEER, JEFFREY M * 2013; Bachelor's, 2001, University of California-Berkeley
 KAKADE, SHAM * 2015; Bachelor's, 1997, California Institute of Technology
 KARLIN, ANNA R. * 1994; Bachelor's, 1981, Stanford University
 KEHL, THEODORE, 1982; Bachelor's, 1956, University of Wisconsin Colleges
 KHULLER, SAMIR * 2011; Master's, 1989, Cornell University
 KOHNO, TADAYOSHI * 2006; Master's, 2004, University of California-San Diego
 KRISHNAMURTHY, ARVIND * 2005; Bachelor's, 1991, Indian Institute of Information Technology
 LADNER, RICHARD E * 1971; Bachelor's, 1965, St Marys University
 LANDAY, JAMES ANTHONY * 2003; Master's, 1993, Carnegie Mellon University
 LAZOWSKA, EDWARD D * 1977; Bachelor's, 1972, Brown University

LEE, JAMES RUSSELL * 2006; Bachelor's, 2001, Purdue University-Main Campus
LEVY, HENRY M * 1983; Bachelor's, 1974, Carnegie Mellon University
MANKOFF, JENNIFER CAROLYN * 2017; Doctorate, 2001, Georgia Institute of Technology-Main Campus
MONES, BARBARA ELLEN, 1999; Master's, 1979, Rhode Island School of Design
MORRIS, MEREDITH JUNE * 2008; Bachelor's, 2001, Brown University
PATEL, SHWETAK NARAN * 2008; Bachelor's, 2003, Georgia Institute of Technology-Main Campus
POPOVIC, ZORAN * 1999; Bachelor's, 1991, Brown University
RAO, RAJESH P.N. * 2000; Bachelor's, 1992, Angelo State University
REGES, STUART THOMAS, 2004; Bachelor's, 1979, Case Western Reserve University
RUZZO, WALTER L * 1977; Bachelor's, 1968, California Institute of Technology
SALESIN, DAVID HENRY * 1992; Bachelor's, 1983, Brown University
SEITZ, STEVEN M * 2000; Bachelor's, 1991, University of California-Berkeley
SHAPIRO, LINDA G. * 1986; Bachelor's, 1970, University of Illinois at Urbana-Champaign
SHAW, ALAN CARY, 1971; Master's, 1962, Stanford University
SMITH, JOSHUA R. * 2005; Master's, 1995, Massachusetts Institute of Technology
SMITH, NOAH A * 2014; Master's, 2004, Johns Hopkins University
SNYDER, LAWRENCE * 1983; Doctorate, 1973, Carnegie Mellon University
SUCIU, DAN * 2000; Master's, 1991, University of Bucharest
TAN, DESNEY SWEE-LEONG * 2007; Doctorate, 2004, Carnegie Mellon University
TANIMOTO, STEVEN L * 1977; Bachelor's, 1971, Harvard University
TODOROV, EMANUIL V * 2009; Bachelor's, 1993, West Virginia Wesleyan College
TOMPA, MARTIN * 1982; Bachelor's, 1974, Harvard University
WELD, DANIEL SABEY * 1988; Master's, 1984, Massachusetts Institute of Technology
ZAHORJAN, JOHN * 1980; Bachelor's, 1975, Brown University
ZETTLEMOYER, LUKE S * 2010; Master's, 2003, Massachusetts Institute of Technology

Associate Professors

ANDERSON, RUTH ELIZABETH, 1991; Bachelor's, 1991, University of North Carolina
BOOTS, BYRON EMERETH * 2019; Doctorate, 2012, Carnegie Mellon University
CAKMAK, MAYA * 2013; Doctorate, 2012, Georgia Institute of Technology-Main Campus
CHOI, YEJIN * 2014; Master's, 2009, Cornell University
FARHADI, ALI * 2012; Doctorate, 2011, University of Illinois at Urbana-Champaign
FROELICH, JON E * 2017
GOLLAKOTA, SHYAMNATH V * 2012; Bachelor's, 2006, Indian Institute of Technology Delhi
HEMINGWAY, BRUCE RAY, 2002
KEMELMAHER, IRENA * 2009; Bachelor's, 2001, Bar Ilan University
LEE, SU-IN * 2009; Bachelor's, 2001, Korea University
LIN, HUIJIA * 2019
MAHAJAN, RATUL * 1999; Bachelor's, 1999, Indian Institute of Technology Delhi
MAUSAM, MAUSAM * 2001; Bachelor's, 2001, Indian Institute of Technology Delhi
MOSTAFAVI, SARA * 2020
OH, SEWOONG * 2019
OSKIN, MARK H. * 2001; Bachelor's, 1996, University of California-Davis
OVEIS GHARAN, SHAYAN * 2015; Bachelor's, 2008, Sharif University of Technology
PERKINS, JOHN H. JR., 1998; Bachelor's, 1975, Arizona State University
RAO, ANUP * 2010; Bachelor's, 2002, Georgia Institute of Technology-Main Campus
REINECKE, KATHARINA * 2015; Master's, 2006, Universität Koblenz Landau
ROESNER, FRANZISKA * 2009; Bachelor's, 2008, The University of Texas

SRINIVASA, SIDDHARTHA * 2017; Master's, 2001, Carnegie Mellon University
TATLOCK, ZACHARY L * 2013; Bachelor's, 2007, Purdue University-Main Campus
TAYLOR, MICHAEL BEDFORD * 2017; Bachelor's, 1996, Dartmouth College
TESSARO, STEFANO MASSIMO * 2019
TORLAK, EMINA * 2014; Bachelor's, 2003, Massachusetts Institute of Technology
WANG, XI * 2014; Doctorate, 2014, Massachusetts Institute of Technology

Assistant Professors

AGARWAL, SAMEER * 2006; Master's, 2000, Indian Institute of Technology Delhi
ALTHOFF, CHRISTOPHER TIM * 2019
BRICKER, LAUREN J, 2017; Bachelor's, 1985, University of Michigan-Ann Arbor
CHEUNG, ALVIN K * 2014; Doctorate, 2015, Massachusetts Institute of Technology
DU, SIMON S * 2020; Doctorate, 2019, Carnegie Mellon University
HAJISHIRZI, HANNANEH * 2012; Bachelor's, 2003, Sharif University of Technology
HARROW, ARAM WETTROTH * 2010; Bachelor's, 2001, Massachusetts Institute of Technology
HEIMERL, KURTIS L. * 2002; Master's, 2009, University of California-Berkeley
HSIA, JUSTIN EZEKIEL, 2016; Bachelor's, 2007, University of California-Berkeley
JAMIESON, KEVIN G * 2017; Master's, 2010, Columbia University in the City of New York
JUST, RENE * 2018; Doctorate, 2013, Universität Ulm; Computer and Information Science
KOHLEBRENNER, DAVID WILLIAM * 2020
LEE, YIN TAT * 2017; Bachelor's, 2012, Chinese University of Hong Kong
LIN, KEVIN, 2019
MAAS, RYAN W., 2006
MORGENSTERN, JAMIE * 2019; Doctorate, 2015, Carnegie Mellon University
PORTS, DANIEL ROBERT KENNE * 2012; Bachelor's, 2005, Massachusetts Institute of Technology
RATNER, ALEXANDER J. * 2019; Doctorate, Stanford University
SCHAFFER, HUNTER A, 2014; Master's, 2018, University of Washington; Computer Engineering
SCHMIDT, LUDWIG * 2020
SCHULZ, ADRIANA * 2018; Doctorate, 2018, Massachusetts Institute of Technology
THACHUK, CHRISTOPHER * 2020
WANG, YULIANG * 2016; Bachelor's, 2009, Tianjin University
WEBER, ROBERT THOMAS, 2015
WORTZMAN, BRETT G. B., 2017; Bachelor's, 2006, Harvard University
ZHANG, AMY XIAN * 2019

Lecturers

BLANK, ADAM DAVID, 2014; Bachelor's, 2012, Carnegie Mellon University
COHN, GABRIEL ADAM, 2018; Bachelor's, 2009, California Institute of Technology; Electrical Engineering
EVANS, SUSAN R, 2011; Bachelor's, 2008, University of Arizona
HESS, CRYSTAL, 2017
MARTIN BRUALLA, RICARDO, 2018; Doctorate, 2016, University of Washington; Computer and Information Science
MCCARTY, EVAN JAMES, 2014
WINSTANLEY, MELISSA R, 2018
ZATLOUKAL, KEVIN, 1997

Electrical and Computer Engineering

Professors

AFROMOWITZ, MARTIN * 1982; Bachelor's, 1965, Career School of NY
ALEXANDRO, FRANK J * 1982; Bachelor's, 1956, New York University
ANANTRAM, MANJERI * 2008; Bachelor's, 1986, Anna University
ANDERSEN, JONNY * 1967; Master's, 1962, Massachusetts Institute of Technology
ATLAS, LES EUGENE * 1983; Master's, 1978, Stanford University
BERNARD, GARY D * 1989; Bachelor's, 1959, University of Washington
BILMES, JEFFREY A * 1999; Master's, 1993, Massachusetts Institute of Technology
BOHRINGER, KARL F. * 1998; Master's, 1992, Cornell University
BUSHNELL, LINDA GRACE * 2000; Master's, 1989, University of California-Berkeley
CHIZECK, HOWARD JAY * 1998; Bachelor's, 1974, Case Western Reserve University
DAMBORG, MARK J * 1982; Bachelor's, 1962, Iowa State University
DARLING, ROBERT B * 1985; Bachelor's, 1980, Georgia Institute of Technology-Main Campus
DOW, DANIEL G * 1968; Doctorate, 1958, Stanford University
DUNHAM, SCOTT T. * 1999; Bachelor's, 1979, Cornell University
FAZEL SARJOU, MARYAM * 2007; Bachelor's, 1995, Sharif University of Technology
HANNAFORD, BLAKE * 1989; Master's, 1982, University of California-Berkeley
HARALICK, ROBERT M * 1986; Bachelor's, 1964, University of Kansas
HAUCK, SCOTT * 1990; Bachelor's, 1990, University of California-Berkeley
HENDERSON, THOMAS R * 2002; Bachelor's, 1990, Stanford University
HWANG, JENQ-NENG * 1989; Bachelor's, 1981, National Taiwan University
KIRSCHEN, DANIEL SADI * 2011; Master's, 1980, University of Wisconsin-Madison
KLAVINS, ERIC * 2003; Bachelor's, 1991, San Francisco State University
KUGA, YASUO * 1982; Bachelor's, 1977, University of Washington
LAURITZEN, PETER O * 1982; Bachelor's, 1956, California Institute of Technology
LIN, LIH-YUAN * 2003; Bachelor's, 1990, National Taiwan University
LIU, HUI * 1998; Bachelor's, 1988, Fudan University
MAMISHEV, ALEXANDER V * 1999; Doctorate, 1999, Massachusetts Institute of Technology
MORITZ, WILLIAM E, 1982; Bachelor's, 1965, Rensselaer Polytechnic Institute
OSTENDORF, MARI * 1999; Bachelor's, 1980, Stanford University
PARVIZ, BABAK AMIR * 2003; Bachelor's, 1995, Sharif University of Technology
POOVENDRAN, RAADHAKRISHNAN * 2000; Bachelor's, 1988, Indian Institute of Technology Delhi
RISKIN, EVE A * 1990; Bachelor's, 1984, Massachusetts Institute of Technology
RITCEY, JAMES A * 1985; Bachelor's, 1976, Duke University
ROY, SUMIT * 1998; Bachelor's, 1983, Indian Institute of Technology Delhi
SAHR, JOHN D., 1991; Bachelor's, 1984, California Institute of Technology
SEELIG, GEORG * 2009; Doctorate, 2003, Switzerland University of Business and International Studies Geneva
SHI, CHUAN-JIN RICHARD * 1998; Bachelor's, 1985, Fudan University
SOMA, MANI * 1982; Bachelor's, 1975, California State University
SUN, MING-TING * 1996; Bachelor's, 1976, National Taiwan University
WILSON, DENISE M * 1999; Master's, 1989, Georgia Institute of Technology-Main Campus
ZURK, LISA, 2018

Associate Professors

CHEN, TAI-CHANG, 1991; Bachelor's, 1988, National Tsing Hua University Taiwan
CHRISTIE, RICHARD DUNSTAN * 1989; Doctorate, 1989, Carnegie Mellon University
HELMS, WARD J * 1982; Master's, 1963, University of Washington
LI, MO * 2018; Doctorate, 2007, California Institute of Technology; Applied Physics
MAJUMDAR, ARKA * 2013; Master's, 2009, Stanford University
MORITZ, CHET T * 1998; Doctorate, 2003, University of California-Berkeley
REYNOLDS, MATTHEW STEPHEN * 2013; Bachelor's, 1998, Massachusetts Institute of Technology
ROSEN, JACOB * 1997; Bachelor's, 1988, Tel Aviv University
RUDELL, JACQUES CHRISTOPHE * 2009; Master's, 1994, University of California-Berkeley
SATHE, VISVESH * 2013; Bachelor's, 2001, Indian Institute of Technology Delhi

Assistant Professors

BURDEN, SAMUEL A. * 2004; Doctorate, 2014, University of California-Berkeley
HINKE, PENNY ELIZABETH, 2011
HUSSEIN, RANIA, 2012
JOHNSON, BRIAN * 2017
KANNAN, SREERAM * 2014; Master's, 2008, All India Institute of Medical Sciences
MOAZENI, SAJJAD, 2019
ORSBORN, AMY * 2016; Bachelor's, 2007, Case Western Reserve University
RAITI, JOHN GIULIAN, 2017
RATLIFF, LILLIAN JANE * 2015; Doctorate, 2015, University of California-Berkeley
ZHANG, BAOSEN * 2015; Doctorate, 2013, University of California-Berkeley

Lecturer

ECKER, ALLAN C., 2003

Human Centered Design and Engineering

For complete faculty listing, please visit <https://www.hcde.washington.edu/faculty>

Professors

ARAGON, CECILIA * 2010; Bachelor's, 1982, California Institute of Technology
ATMAN, CYNTHIA J. * 1998; Doctorate, 1990, Carnegie Mellon University
BEREANO, PHIL, 1982; Doctorate, 1965, Columbia University
CONEY, MARY B, 1982; Master's, 1963, University of Illinois at Urbana-Champaign
FARKAS, DAVID K * 1983; Master's, 1969, University of Chicago
HASELKORN, MARK P * 1985; Bachelor's, 1971, Columbia University
KIENTZ, JULIE A * 2008; Doctorate, 2008, Georgia Institute of Technology-Main Campus
KOLKO, BETH E * 2000; Bachelor's, 1989, Oberlin College
MCDONALD, DAVID W * 2002; Master's, 1992, California State University
RAMEY, JUDITH A * 1983; Bachelor's, 1969, The University of Texas
SPYRIDAKIS, JAN * 1982; Bachelor's, 1970, University of Washington
TSUTSUI, MICHIO * 1990; Bachelor's, 1970, Osaka University
TURNS, JENNIFER A. * 1999; Doctorate, 1999, Georgia Institute of Technology-Main Campus
ZACHRY, MARK R * 2006; Master's, 1992, Arizona State University

Associate Professors

CRAFT, BROCK R * 2015; Bachelor's, 1992, Columbia College
DAVIDSON, ANDREW H., 2006; Master's, 1982, University of Pennsylvania
FINDLATER, LEAH K * 2017; Master's, 2004, University of British Columbia; Computer and Information Science
FOX, TYLER STEVEN * 1998; Doctorate, 2015, Simon Fraser University
HENDRICKS, DIANNE G., 2013; Doctorate, 2010, Duke University
HSIEH, GARY * 2013; Doctorate, 2010, Carnegie Mellon University
LEE, CHARLOTTE P * 2008; Master's, 1997, San Jose State University
MUNSON, SEAN A * 2010; Bachelor's, 2006, Franklin W. Olin College of Engineering
RIBES, DAVID * 2015; Master's, 2000, McGill University
ROSNER, DANIELA K * 2013; Bachelor's, 2003, Rhode Island School of Design
STARBIRD, CATHARINE E * 2012; Bachelor's, 1999, Stanford University
WAGNER, LINDA E, 2013; Master's, 1998, Illinois Institute of Technology

Assistant Professors

COPPOLA, SARAH MARIE, 2020; Doctorate, 2019, Harvard University
DEW, KRISTIN N * 2011
PEEK, NADYA M * 2018; Doctorate, 2016, Massachusetts Institute of Technology
SPYRIDAKIS, IRINI K, 2007

Senior Lecturer

SANOCKI, ELIZABETH, 1988; Bachelor's, 1985, Michigan State University

Lecturers

BARBOZA, LAURA M, 2017; Bachelor's, 2006, Florida International University
BRUNDRETT, ALEXANDER, 2018; Master's, 2018, University of Washington
CAMPBELL, JASON, 2006; Master's, 2007, University of Washington; Art
FERRO, TONI DIANE, 2008; Master's, 2010, University of Washington
FLEISHER, JACOB, 2017
GEISTWEIDT, JASON, 2017
HUTCHINSON, BLAIR NEVILLE, 2017; Bachelor's, 2015, University of Vermont; Computer and Information Science
IRANI, XERXES, 2018; Bachelor's, 1998, Alberta Vocational College
JENKINS, MARY-COLLEEN, 2010
KAYES, JEREMY, 2017; Bachelor's, 2000, Virginia Commonwealth University
LOUCKS-JARET, CHRISTINE M, 1997
MARTIN-EMERSON, ROBIN, 2015
MARX, JUSTIN ANDREW, 2017; Bachelor's, 2003, New York University; Music
MOBRAND, KATHRYN A, 2005
NEELY, TAMARA L, 2018; Master's, 2000, American University; Journalism
SHI, KEVIN, 2017; Master's, 2018, University of Washington
SLOTA, STEPHEN C, 2017
SPENCE, JEANINE, 2018; Master's, Rhode Island School of Design; Industrial Design

Industrial and Systems Engineering

Professors

BOYLE, LINDA T. * 1992; Bachelor's, 1986, University at Buffalo
FURNESS, THOMAS A * 1989; Bachelor's, 1966, Duke University
GHATE, ARCHIS VIJAY * 2006; Bachelor's, 2001, Indian Institute of Technology Delhi
KAPUR, KAILASH C. * 1992; Master's, 1965, Indian Institute of Technology Delhi
STORCH, RICHARD * 1982; Master's, 1968, Massachusetts Institute of Technology
ZABINSKY, ZELDA * 1985; Master's, 1984, University of Michigan-Ann Arbor

Associate Professors

DRUI, ALBERT B, 1959; Bachelor's, 1949, Washington State University
HUANG, SHUAI * 2014; Doctorate, 2012, Arizona State University
LIU, SHAN * 2013; Master's, 2008, Massachusetts Institute of Technology
MASTRANGELO, CHRISTINA M. * 2002; Bachelor's, 1986, Arizona State University

Assistant Professors

BANERJEE, ASHIS G * 2015; Bachelor's, 2004, Indian Institute of Technology Delhi
BUCHANAN, PATRICIA CECILIA, 2016; Doctorate, 2014, University of Central Florida
CHOE, YOUNGJUN * 2016; Bachelor's, 2010, Korea Advanced Institute of Science & Technology
KIM, JI-EUN * 2017; Doctorate, 2017, Pennsylvania State University-Main Campus; Industrial Engineering
RAJIVAN, PRASHANTH * 2018; Bachelor's, 2007, Anna University; Information Technology
YAN, CHIWEI * 2019; Doctorate, 2017, Massachusetts Institute of Technology
ZHAO, CHAOYUE * 2019; Doctorate, 2014, University of Florida; Industrial Engineering

Materials Science and Engineering

For complete faculty listing, please visit <https://mse.washington.edu/facultyfinder>

Professors

CAO, GUOZHONG * 1996; Bachelor's, 1982, East China University of Science and Technology
HINDS, BRUCE JACKSON III * 2014; Bachelor's, 1991, Harvey Mudd College
JEN, ALEX K-Y. * 1999; Bachelor's, 1978, National Tsing Hua University Taiwan
KRISHNAN, KANNAN * 2001; Bachelor's, 1978, Indian Institute of Technology Delhi
LIU, JUN * 2019; Bachelor's, 1982, Hunan University; Chemical Engineering
LUSCOMBE, CHRISTINE K. * 2006; Master's, 2000, University of Cambridge
OHUCHI, FUMIO * 1992; Bachelor's, 1972, Sophia University
POLONIS, DOUGLAS H, 1955; Bachelor's, 1951, University of British Columbia
SARIKAYA, MEHMET * 1984; Bachelor's, 1976, Middle East Technical University
STOEBE, THOMAS GAINES, 1966; Bachelor's, 1961, Stanford University
TAMERLER-BEHAR, CANDAN * 2002; Master's, 1971, Bogazici University
YANG, JIHUI * 2011; Bachelor's, 1989, Fudan University
ZHANG, MIQIN * 1999; Bachelor's, 1983, Jiangxi University of Science and Technology

Associate Professors

AROLA, DWAYNE D * 1991; Bachelor's, 1989, University of Washington
 BRUSH, LUCIEN N * 1990; Master's, 1984, Carnegie Mellon University
 FLINN, BRIAN D. * 1991; Bachelor's, 1984, Colorado School of Mines
 MACKENZIE, JOHN DEVIN * 2015; Bachelor's, 1994, Massachusetts Institute of Technology
 MILLER, ALAN D, 1967; Bachelor's, 1957, University of Washington
 PAUZAUSKIE, PETER JOHN * 2010

Assistant Professors

CAO, TING * 2018; Bachelor's, 2012, Peking University; Physics
 HUANG, YUE, 2017
 ROLANDI, MARCO * 2008; Doctorate, 2005, Stanford University
 ROUMELI, ELEFThERIA * 2019; Doctorate, 2014, Aristotle University of Thessaloniki
 ZOBEIRY, NAVID * 2019; Master's, 2005, University of British Columbia

Lecturer

ROHATGI, AASHISH, 2017

Mechanical Engineering

For complete faculty listing, please visit <https://www.me.washington.edu/facultyfinder>

Professors

ALISEDÁ, ALBERTO * 2006; Master's, 1998, Polytechnic University of Puerto Rico San Juan
 BALISE, PETER, 1950; Bachelor's, 1948, Massachusetts Institute of Technology
 CHALUPNIK, JAMES, 1964; Bachelor's, 1953, Texas Tech University
 COOPER, JOYCE S. * 1998; Master's, 1992, Duke University
 DALY, COLIN H., 1982; Bachelor's, 1963, University of Glasgow
 DEL ALAMO DE PEDRO, JUAN CARLOS, 2019; Bachelor's, 2000, Universidad Politécnica de Madrid; Aerospace Engineering
 DEVASIA, SANTOSH * 2000; Bachelor's, 1988, Indian Institute of Technology Delhi
 EMERY, ASHLEY F * 1961; Bachelor's, 1956, University of California-Berkeley
 FORSTER, FRED * 1982; Master's, 1968, Stanford University
 GALLE, KURT R, 1982; Bachelor's, 1946, Purdue University-Main Campus
 GANTER, MARK * 1986; Bachelor's, 1979, University of Wisconsin Colleges
 GAO, DAYONG * 2004; Doctorate, 1991, Concordia College
 GARBINI, JOSEPH * 1979; Bachelor's, 1971, University of Washington
 KLUTE, GLENN K. * 1985; Master's, 1990, Pennsylvania State University-College of Medicine
 KOBAYASHI, ALBERT S * 1982; Doctorate, 1958, Illinois Institute of Technology
 KRAMLICH, JOHN C. * 1991; Bachelor's, 1973, Washington State University
 KUMAR, VIPIN * 1988; Bachelor's, 1970, Indian Institute of Technology Delhi
 LEDOUX, WILLIAM R. * 1999; Master's, 1993, University of Pennsylvania
 LI, JIANGYU * 2006; Bachelor's, 1994, Tsinghua University
 MAMIDALA, RAMULU * 1978; Master's, 1976, Indian Institute of Technology Delhi
 MC CORMICK, NORMAN J, 1982; Bachelor's, 1960, University of Illinois at Urbana-Champaign
 POSNER, JONATHAN D * 2011

PRATT, DAVID T, 1981; Master's, 1962, University of California-Berkeley
REINHALL, PER G * 1982; Master's, 1978, California Institute of Technology
SEIBEL, ERIC J. * 1988; Bachelor's, 1983, Cornell University
SHEN, I-YEU * 1993; Bachelor's, 1981, National Taiwan University
SNIADCKI, NATHAN JOHN * 2007; Doctorate, 2003, University of Maryland-University College
STORTI, DUANE W * 1983; Bachelor's, 1979, Cornell University
TUTTLE, MARK E * 1985; Bachelor's, 1975, Michigan Technological University
WANG, JUNLAN * 2008; Bachelor's, 1994, Huazhong University of Science and Technology

Associate Professors

BERG, MARTIN C * 1986; Doctorate, 1986, Stanford University
BRUNTON, STEVEN L. * 2012; Bachelor's, 2006, California Institute of Technology
CHUNG, JAEHYUN * 2005; Doctorate, 2004, Northwestern University
COBB, CORIE * 2016; Bachelor's, 2002, Stanford University
HOLT, RICHARD, 1947; Bachelor's, 1947, University of Washington
JONES, JULIA H, 1983; Bachelor's, 1984, University of Washington
LIU, JONATHAN * 2014; Bachelor's, 1999, Princeton University
MESCHER, ANN M * 1996; Bachelor's, 1988, Ohio State University Agricultural Technical Institute
NOVOSSELOV, IGOR * 1999; Master's, 2002, University of Washington
POLAGYE, BRIAN L * 2002; Bachelor's, 2000, Princeton University
STEELE, KATHERINE M. * 2012; Bachelor's, 2007, Colorado School of Mines

Assistant Professors

AUBIN, PATRICK M. * 2004; Bachelor's, 2004, University of Washington
BOECHLER, NICHOLAS S. * 2012; Master's, 2008, California Institute of Technology
CHEN, XU * 2019; Bachelor's, 2008, Tsinghua University; Mechanical Engineering
FULLER, SAWYER BUCKMINSTER * 2015; Doctorate, 2011, California Institute of Technology
KANG, SOYOUNG, 2014
LIPTON, JEFFREY IAN * 2018; Bachelor's, 2010, Cornell University; Applied Physics
MALAKOOTI, MOHAMMAD H * 2019; Bachelor's, 2008, Iran University of Science and Technology (IUST);
Mechanical Engineering
MANOHAR, KRITHIKA * 2013; Bachelor's, 2013, University of Washington; Mathematics
MEZA, LUCAS R. * 2018; Master's, 2013, California Institute of Technology; Mechanical Engineering
ROMBOKAS, ERIC SCOTT * 2005; Bachelor's, 2001, Rice University
VASHISTH, ANIRUDDH * 2020; Doctorate, 2018, Pennsylvania State University-Main Campus; Philosophy

Lecturer

PRABHAKAR, RENUKA, 2008

College of the Environment

Aquatic and Fishery Sciences

For complete faculty listing, please visit <https://fish.uw.edu/faculty-research/>

Professors

ANDERSON, CHRISTOPHER M. * 2012; Bachelor's, 1996, Brown University
ANDERSON, JAMES J * 1969; Bachelor's, 1969, University of Washington
CONQUEST, LOVEDAY L * 1976; Bachelor's, 1970, Pomona College
ESSINGTON, TIMOTHY E. * 2003; Bachelor's, 1991, University of Michigan-Ann Arbor
FRIEDMAN, CAROLYN * 1984; Doctorate, 1990, University of California-Davis
GALLUCCI, VINCENT * 1976; Master's, 1966, New York University
GUNDERSON, DONALD R, 1982; Bachelor's, 1963, Montana State University
HAUSER, LORENZ * 2002; Master's, 1989, International University Vienna
HILBORN, RAY * 1987; Bachelor's, 1969, Grinnell College
HORNE, JOHN K. * 1999; Bachelor's, 1985, Dalhousie University
KARR, JAMES, 1991; Bachelor's, 1965, Iowa State University
LISTON, JOHN, 1957; Doctorate, 1955, University of Aberdeen
MILLER, BRUCE S, 1971; Bachelor's, 1958, Grinnell College
NAIMAN, ROBERT J, 1988; Doctorate, 1974, Arizona State University
NAISH, KERRY-ANN * 2000; Bachelor's, 1988, Rhodes University
OLDEN, JULIAN D. * 2006; Doctorate, 2004, Colorado State University
PARRISH, JULIA * 1990; Bachelor's, 1982, Carnegie Mellon University
PIETSCH, THEODORE * 1978; Bachelor's, 1967, University of Michigan-Ann Arbor
PLISETSKAYA, ERIKA, 1982; Bachelor's, 1952, Leningrad State University AS Pushkin
PUNT, ANDRE * 1992; Bachelor's, 1985, University of Cape Town
QUINN, THOMAS P. * 1986; Bachelor's, 1976, Swarthmore College
SCHINDLER, DANIEL E. * 1997; Bachelor's, 1990, University of British Columbia
SEEB, JAMES * 2007; Bachelor's, 1974, University of Puget Sound
SEEB, LISA * 2007; Master's, 1977, The University of Montana
SIMENSTAD, CHARLES * 1969; Bachelor's, 1969, University of Washington
SKALSKI, JOHN RAYMOND * 1987; Master's, 1978, Cornell University
SMITH, LYNWOOD S, 1982; Bachelor's, 1952, University of Washington
SWARTZMAN, GORDON LENI, 1982; Bachelor's, 1964, Cooper Union for the Advancement of Science and Art
WISSMAR, ROBERT C * 1982; Master's, 1968, University of Idaho
YOUNG, GRAHAM * 2004; Bachelor's, 1975, University of Sheffield

Associate Professors

BRANCH, TREVOR * 2000; Bachelor's, 1994, University of Cape Town
HOLTGRIEVE, GORDON W. * 2003; Bachelor's, 1999, Stanford University
ROBERTS, STEVEN * 2006; Bachelor's, 1997, North Carolina A & T State University
SCHEUERELL, MARK D. * 1997; Master's, 1996, Cornell University

Assistant Professors

BERDAHL, ANDREW * 2017; Doctorate, 2014, Princeton University
 BRAUN, CAMRIN, 2018; Master's, 2013, King Abdullah University of Science & Technology; Marine Science
 GUZMAN JIMENEZ, JOSE M, 2015; Doctorate, 2010, Universidad de Cádiz
 PADILLA GAMINO, JACQUELINE * 2016; Master's, 2005, California State University-Northridge
 TORNABENE, LUKE M. * 2016; Bachelor's, 2007, Hofstra University
 WOOD, CHELSEA L. * 2016; Doctorate, 2013, Stanford University

Atmospheric Sciences

For complete faculty listing, please visit <https://atmos.uw.edu/people-and-research/core-faculty/>

Professors

BATTISTI, DAVID S * 1983; Bachelor's, 1978, University of Massachusetts
 BITZ, CECILIA * 1988; Bachelor's, 1988, Oregon State University
 BRETHERTON, CHRISTOPHER S * 1984; Bachelor's, 1980, California Institute of Technology
 BROWN, ROBERT A, 1971; Bachelor's, 1957, University of California-Berkeley
 BUSINGER, JOOST A, 1958; Doctorate, 1954, Utrecht University
 CHEN, SHUYI * 2001
 COVERT, DAVID S, 1982; Bachelor's, 1970, University of Washington
 DURRAN, DALE R * 1987; Bachelor's, 1974, California Polytechnic State University-San Luis Obispo
 FU, QIANG * 2000; Bachelor's, 1983, Peking University
 HAKIM, GREGORY J * 1999; Bachelor's, 1990, SUNY at Albany
 HARTMANN, DENNIS L * 1977; Master's, 1973, Princeton University
 HEGG, DEAN A * 1975; Bachelor's, 1969, University of Chicago
 JAEGLE, LYATT * 2000; Master's, 1992, California Institute of Technology
 MARCHAND, ROGER T * 2007; Bachelor's, 1990, Virginia Polytechnic Institute and State University
 MASS, CLIFFORD F * 1981; Bachelor's, 1974, Cornell University
 SARACHIK, EDWARD, 1984; Master's, 1963, Brandeis University
 SUESS, BECKY ALEXANDER * 2004; Bachelor's, 1997, Colgate Rochester Crozer Divinity School
 THORNTON, JOEL A. * 2004; Bachelor's, 1996, Dartmouth College
 WALLACE, JOHN M * 1982; Doctorate, 1966, Massachusetts Institute of Technology
 WARREN, STEPHEN G * 1981; Bachelor's, 1967, Cornell University
 WOOD, ROBERT * 2001; Bachelor's, 1992, University of Cambridge

Associate Professors

FRIERSON, DARGAN M * 2007; Bachelor's, 2000, North Carolina A & T State University
 HARRISON, HALSTEAD, 1971; Bachelor's, 1955, Stanford University
 KIM, DAEHYUN * 2014; Bachelor's, 2003, Seoul National University
 MC MURDIE, LYNN A * 1982
 SWANN, ABIGAIL * 2012; Master's, 2005, Columbia University

Assistant Professors

ANDERSON-FREY, ALEXANDRA * 2019
 BLANCHARD, EDWARD * 2007; Bachelor's, 2003, University of Cambridge
 TURNER, ALEXANDER JAY, 2020; Doctorate, 2017, Harvard University; Atmospheric Science

Lecturer

WARNER, MICHAEL DAVID, 2006; Bachelor's, 2007, University of Washington

Earth and Space Sciences

For complete faculty listing, please visit <https://www.ess.washington.edu/people/directory.php>

Professors

ADAMS, JOHN B, 1975; Bachelor's, 1956, Stanford University
ANDERSON, PATRICIA M * 1982; Master's, 1976, Brown University
ATWATER, BRIAN F * 1986; Bachelor's, 1974, Stanford University
BAKER, MARCIA * 1980; Bachelor's, 1959, Cornell University
BERGANTZ, GEORGE W * 1988; Master's, 1985, Georgia Institute of Technology-Main Campus
BODIN, PAUL A * 2006; Master's, 1981, Humboldt State University
BOOKER, JOHN R, 1982; Bachelor's, 1963, Stanford University
BOOTH, DEREK B * 1982; Bachelor's, 1974, Hampshire College
BROWN, J MICHAEL * 1984; Doctorate, 1980, University of Minnesota-Duluth
BUICK, ROGER * 2001; Bachelor's, 1976, University of Western Australia
CATLING, DAVID C. * 2001; Bachelor's, 1990, University of Birmingham
CHENEY, ERIC S * 1982; Bachelor's, 1956, Yale University
COWAN, DARREL S * 1974; Bachelor's, 1966, Stanford University
CREAGER, KENNETH C * 1986; Bachelor's, 1978, Pomona College
CROSSON, ROBERT S, 1982; Doctorate, 1966, Stanford University
EVANS, BERNARD W, 1982; Bachelor's, 1955, University of London
GILLESPIE, ALAN R * 1985; Master's, 1977, California Institute of Technology
GOMBERG, JOAN * 2006; Bachelor's, 1979, Massachusetts Institute of Technology
GONZALEZ, FRANK IGNACIO * 2005; Bachelor's, 1967, St Marys University
GREENE, MOTT T * 1984; Bachelor's, 1967, Columbia College
HALLET, BERNARD * 1980; Bachelor's, 1970, University of California-Los Angeles
HOLZWORTH, ROBERT * 1982; Master's, 1974, University of California-Berkeley
HOUSTON, HEIDI B * 2006; Doctorate, 1987, California Institute of Technology
HUNTINGTON, KATHARINE W * 2008; Doctorate, 2006, Massachusetts Institute of Technology
MALONE, STEPHEN * 1982; Bachelor's, 1966, Occidental College
MONTGOMERY, DAVID R * 1991; Bachelor's, 1984, Stanford University
NELSON, BRUCE K. * 1986; Bachelor's, 1977, Carleton College
PARKS, GEORGE K, 1982; Bachelor's, 1961, University of California-Berkeley
RAYMOND, CHARLES F, 1982; Doctorate, 1969, California Institute of Technology
RENSBERGER, JOHN M, 1982; Master's, 1961, California State University
RICHARDS, MARK ALAN, 2018
ROE, GERARD H * 1999; Doctorate, 1999, Massachusetts Institute of Technology
SCHMIDT, DAVID A * 2012; Doctorate, 2002, University of California-Berkeley
SMITH, STEWART W, 1982; Master's, 1958, California Institute of Technology
STEIG, ERIC J * 1989; Bachelor's, 1988, Hampshire College
STUIVER, MINZE, 1969; Bachelor's, 1953, University of Groningen
SWANSON, TERRY W * 1988; Associate, 1981, Santa Rosa Junior College
TENG, FANGZHEN * 2012; Bachelor's, 2001, Huazhong University of Science and Technology
TOBIN, HAROLD JAMES * 2018; Doctorate, 1995, University of California-Santa Cruz; Geology

VIDALE, JOHN E * 2006; Doctorate, 1987, California Institute of Technology
WADDINGTON, EDWIN D * 1984; Master's, 1973, University of Alberta
WINGLEE, ROBERT M, 1991; Bachelor's, 1980, University of Sydney

Associate Professors

ABRAMSON, EVAN H. * 1988; Doctorate, 1985, Massachusetts Institute of Technology
COLLINS, BRIAN D * 1983; Bachelor's, 1979, Oberlin College
CRIDER, JULIET G * 1991; Bachelor's, 1989, Amherst College
DUVALL, ALISON R * 2012; Master's, 2003, University of California-Santa Barbara
GORMAN-LEWIS, DREW J * 2008; Doctorate, 2006, University of Notre Dame
KOUTNIK, MICHELLE R * 2002; Bachelor's, 2001, University of California-Los Angeles
MCCARTHY, MICHAEL P * 1978; Doctorate, 1988, University of Washington
NESBITT, ELIZABETH A., 1993; Doctorate, 1982, University of California-Berkeley
SLETTEN, RONALD S * 1983; Bachelor's, 1979, University of Washington
STONE, JOHN O.H. * 1998; Doctorate, 1986, University of Cambridge
SWANSON, BRIAN, 1982; Bachelor's, 1981, University of Washington
TROOST, KATHY G. * 1996; Bachelor's, 1979, Indiana State University
VANCE, JOSEPH A, 1982; Bachelor's, 1951, University of Washington
WALTERS, STEVEN * 2006; Bachelor's, 1991, Carnegie Mellon University

Assistant Professors

CHRISTIANSON, KNUT * 2014; Doctorate, 2012, Pennsylvania State University-College of Medicine
CONDIT, CAILEY, 2018; Doctorate, University of Colorado at Boulder; Geology
DECOSMO, JANICE M, 1984; Bachelor's, 1979, University of Iowa
DENOLLE, MARINE, 2020
FUDGE, TYLER JEFFREY * 2007; Bachelor's, 2002, Bowdoin College
LICHT, ALEXIS GERMAIN A * 2015; Master's, 2009, École des Mines de Paris
LIPOVSKY, BRADLEY PAUL, 2020
MORIARTY, ERIN W * 2014; Bachelor's, 2009, New York University
SHERROD, BRIAN L * 1995; Bachelor's, 1986, James Madison University

Lecturer

MARTIN, RUTH A., 2004

Program on the Environment

For complete faculty listing, please visit <https://envstudies.uw.edu/people/faculty/>

Associate Professors

MCDONALD, PATRICK S. * 1998; Doctorate, 2006, University of Washington
STRAUS, KRISTINA M, 2003; Bachelor's, 1998, Colby College

Lecturers

BILLO, TIMOTHY, 2001; Doctorate, 2011, University of Washington
SCHAUMBERG, EDWARD, 2010
WENG, YEN-CHU, 2013; Doctorate, 2011, University of Wisconsin-Madison; Geography

WHEAT, ELIZABETH E, 2004; Master's, 2001, New York University

Environmental and Forest Sciences

Professors

ALLAN, G GRAHAM, 1966; Bachelor's, 1952, University of Glasgow
BAKKER, JONATHAN * 2006; Bachelor's, 1994, Dordt College
BARE, B BRUCE, 1982; Bachelor's, 1964, Purdue University-Main Campus
BOLTON, SUSAN M * 1992; Master's, 1985, New Mexico State University-Grants
BORMANN, BERNARD * 1984; Doctorate, 1981, Oregon State University
BRADLEY, GORDON A * 1982; Bachelor's, 1969, Pomona College
BROWN, DANIEL G * 2018; Bachelor's, 1987, Shippensburg University of Pennsylvania
BROWN, SALLY L. * 1998; Master's, 1993, University of Maryland-University College
BURA, RENATA * 2006; Bachelor's, 1997, Ryerson University
DOTY, SHARON L * 1989; Bachelor's, 1989, University of California-Davis
EASTIN, IVAN * 1987; Bachelor's, 1983, Michigan Technological University
EDMONDS, ROBERT L * 1982; Bachelor's, 1964, University of Sydney
EWING, KERN * 1983; Bachelor's, 1962, Texas Tech University
FORD, E DAVID * 1985; Doctorate, 1968, University College London
FRANKLIN, JERRY F * 1986; Bachelor's, 1959, Oregon State University
FRIDLEY, JAMES * 1982; Master's, 1980, Michigan State University
GARA, ROBERT I * 1968; Master's, 1962, Oregon State University
GRAUMLICH, LISA J * 2010; Doctorate, 1985, University of Washington
GUSTAFSON, RICHARD ROY * 1986; Bachelor's, 1977, University of Washington
HALPERN, CHARLES * 1991; Bachelor's, 1980, Cornell University
HARRELL, STEVAN * 1974; Master's, 1971, Stanford University
HINCKLEY, THOMAS M * 1980; Bachelor's, 1966, Carleton College
JOHNSON, JAY A, 1983; Master's, 1970, New York University
KIM, SOO-HYUNG * 2006; Bachelor's, 1992, Seoul National University
LAWLER, JOSHUA J * 2007; Bachelor's, 1993, Bowdoin College
LEVIN, PHILLIP SCOTT * 2016; Bachelor's, 1984, The University of Texas
MARZLUFF, JOHN M. * 1997; Master's, 1983, Northern Arizona University
MCKEAN, WILLIAM T * 1982; Bachelor's, 1960, University of Colorado
MOSKAL, LUDMILA M. * 2006; Master's, 2000, University of Calgary
PETERSON, DAVID L * 1989; Bachelor's, 1976, University of Illinois at Urbana-Champaign
RYAN, CLARE * 1984; Master's, 1990, University of Michigan-Ann Arbor
SCHREUDER, GERARD FRITZ, 1982; Master's, 1967, University of North Carolina
TORGERSEN, CHRISTIAN E. * 2006; Master's, 1996, Oregon State University
VOGT, KRISTIINA * 1982; Master's, 1974, New Mexico State University-Grants
WEST, STEPHEN D * 1979; Master's, 1974, University of Alaska Southeast
WIRSING, AARON * 1996; Bachelor's, 1996, Bowdoin College
WOTT, JOHN A * 1981; Master's, 1966, Cornell University
ZABOWSKI, DARLENE * 1982; Bachelor's, 1981, University of Washington

Associate Professors

ALVARADO-CELESTIN, ERNESTO * 1988; Bachelor's, 1980, Universidad Autónoma Chapingo
 ASAH, STANLEY TANYI * 2009; Master's, 2003, University of Minnesota-Duluth
 BUTMAN, DAVID E * 2014; Bachelor's, 2000, Connecticut College
 CONVERSE, SARAH J * 2017; Doctorate, 2005, Colorado State University
 Ettl, GREGORY J * 1988; Master's, 1989, University of Washington
 GANGULY, INDRONEIL * 2002; Bachelor's, 1996, University of Calcutta
 GARDNER, BETH ANN * 2016; Bachelor's, 1999, Allegheny College
 GOUGH, HEIDI LOIS * 2004; Bachelor's, 1993, Northwestern University
 PRUGH, LAURA RYANNE * 2015; Bachelor's, 1996, Earlham College
 RABOTYAGOV, SERGEY S. * 2007; Master's, 2002, Iowa State University
 TOBIN, PATRICK C * 2014; Master's, 1997, Pennsylvania State University-College of Medicine
 TOTH, SANDOR F. * 2007; Master's, 1994, Mendel University of Agriculture and Forestry Brno
 TURNBLOM, ERIC * 1994; Master's, 1986, University of British Columbia
 VOGT, DANIEL * 1982; Bachelor's, 1968, New Mexico State University-Grants
 WHEELER, KENT WILLIAM * 2017; Doctorate, 1994, The University of Texas at Austin; Marketing

Assistant Professors

ANDERSEN, HANS * 1995; Master's, 1997, University of Washington
 BRATMAN, GREGORY NELSON * 2017; Bachelor's, 1997, Princeton University
 COMBS, JULIE * 1998; Bachelor's, 1994, University of California-Davis; Environmental Science
 DICHIARA, ANTHONY BRUNO * 2015; Doctorate, 2012, École Centrale Paris
 HARVEY, BRIAN J * 2016; Master's, 2010, San Francisco State University
 JOHNSON, BRITTANY * 2018; Bachelor's, 2007, Concordia College at Moorhead
 KANE, VAN R * 2004; Bachelor's, 1977, Pennsylvania State University-College of Medicine
 MCKENZIE, DONALD * 1992; Bachelor's, 1971, University of California-Berkeley
 PACHECO DE RESENDE, FERNAN, 2011; Bachelor's, 2000, Universidade Estadual de Campinas (Unicamp)

Lecturers

EWANICK, SHANNON M, 2007
 SUGDEN, EVAN A, 1998; Doctorate, 1984, University of California-Davis; Entomology

Marine and Environmental Affairs

Professors

CHRISTIE, PATRICK JOHN * 1999; Master's, 1993, University of Michigan-Ann Arbor
 DOLSAK, NIVES * 2002; Doctorate, 2000, Indiana University-Bloomington
 HUPPERT, DANIEL D., 1987; Bachelor's, 1968, University of Redlands
 KLINGER, TERRIE * 1993; Master's, 1984, University of British Columbia
 MILLER, MARC * 1979; Bachelor's, 1971, University of California-Irvine

Associate Professors

BEAUDREAU, ANNE HOUSTON, 2020; Doctorate, 2009, University of Washington

COPPING, ANDREA * 1982; Bachelor's, 1974, McGill University
 FLUHARTY, DAVID L * 1983; Doctorate, 1977, University of Michigan-Ann Arbor
 KELLY, RYAN P * 2013; Master's, 2003, Columbia University

Assistant Professors

ACEVES BUENO, ERENDIRA * 2020; Doctorate, 2017, University of California-Santa Barbara; Environmental Science
 GRIFFIN, P. JOSHUA * 2011; Doctorate, 2019, University of Washington
 JARDINE, SUNNY L * 2016; Bachelor's, 2002, New York University
 OTA, YOSHITAKA * 2017; Doctorate, 2006, University of London; Anthropology
 WOELFLE-HAZARD, CLEO ASTER * 2016; Bachelor's, 2009, The University of Montana

Oceanography

Professors

ANDERSON, GEORGE C, 1972; Bachelor's, 1947, University of British Columbia
 ARMBRUST, E. VIRGINIA * 1995; Doctorate, 1990, Massachusetts Institute of Technology
 BAROSS, JOHN A * 1984; Bachelor's, 1963, San Francisco State University
 CANNON, GLENN A * 1983; Bachelor's, 1963, Drexel University
 DELANEY, JOHN R. * 1977; Bachelor's, 1964, Lehigh University
 DEMING, JODY W * 1988; Bachelor's, 1974, Smith College
 DEUTSCH, CURTIS A. * 2003; Bachelor's, 1996, Oberlin College
 DEVOL, ALLAN * 1975; Bachelor's, 1967, Knox College
 FEELY, RICHARD A * 1983; Master's, 1971, The University of Texas
 HARRISON, DON EDMUNDS * 1985; Master's, 1973, Harvard University
 HEATH, G ROSS, 1984; Doctorate, 1968, Scripps College
 HICKEY, BARBARA M * 1982; Master's, 1969, University of California-San Diego
 HOLMES, MARK L, 1984; Bachelor's, 1960, Princeton University
 INGALLS, ANITRA E. * 2003; Bachelor's, 1992, Reed College
 JOHNSON, GREGORY C * 1990; Bachelor's, 1985, Bates College
 JOHNSON, HARLAN PAUL * 1976; Master's, 1966, Southern Illinois University
 KEIL, RICHARD G * 1991; Bachelor's, 1986, Drake University
 KELLEY, DEBORAH S. * 1983; Doctorate, 1990, Dalhousie University
 KESSLER, WILLIAM S * 1983; Bachelor's, 1982, San Francisco State University
 LESSARD, EVELYN J. * 1989; Bachelor's, 1976, Middlebury College
 LEWIN, JOYCE C, 1965; Bachelor's, 1948, Cornell University
 LEWIS, BRIAN T, 1982; Bachelor's, 1961, University of Cape Town
 MACCREADY, PARKER * 1986; Master's, 1986, California Institute of Technology
 MARTIN, SEELYE * 1982; Bachelor's, 1962, Harvard University
 MC DUFF, RUSSELL E * 1982; Bachelor's, 1973, California Institute of Technology
 MC PHADEN, MICHAEL J * 1982; Bachelor's, 1953, New York University
 NOWELL, ARTHUR R.M. * 1978; Bachelor's, 1969, Trinity College Carmarthen
 OGSTON, ANDREA S * 1990; Bachelor's, 1987, Eastern Oregon University
 RISER, STEPHEN C * 1981; Master's, 1974, Massachusetts Institute of Technology
 ROCAP, GABRIELLE L * 2001; Bachelor's, 1992, Massachusetts Institute of Technology
 SACHS, JULIAN P. * 2006; Bachelor's, 1991, Massachusetts Institute of Technology

STEPIEN, CAROL * 2017; Doctorate, 1982, University of Southern California; Marine Biology
THOMPSON, LUANNE * 1990; Master's, 1986, Harvard University
WILCOCK, WILLIAM S D * 1993; Master's, 1986, Imperial College

Associate Professors

ARMOUR, KYLE C. * 2004; Bachelor's, 2005, University of California-San Diego
CRONIN, MEGHAN * 1998; Bachelor's, 1986, Columbia University
DUXBURY, ALYN C, 1982; Doctorate, 1963, The University of Texas
HAUTALA, SUSAN L * 1985; Bachelor's, 1984, Brown University
KAWASE, MITSUHIRO * 1988; Master's, 1983, Princeton University
MORRIS, ROBERT * 2007; Bachelor's, 1995, George Mason University
NUWER, MIKELLE, 1997; Bachelor's, 1999, University of Washington
SANDELL, JULIE EILEEN * 1996; Doctorate, 2008, Oregon State University
SOLOMON, EVAN A * 2009; Doctorate, 2007, Scripps College
WARNER, MARK J * 1989; Bachelor's, 1981, Florida Institute of Technology

Assistant Professors

BUNDY, RANDELLE MAY * 2016; Bachelor's, 2008, University of California-San Diego
GAGNON, ALEXANDER C. * 2012; Doctorate, 2010, California Institute of Technology
GRAY, ALISON R. * 2006; Bachelor's, 2002, Rice University
LAUER, JOHN WESLEY * 2009; Master's, 1998, University of California-Berkeley
MANUCHARYAN, GEORGY * 2018; Doctorate, 2014, Yale University; Oceanography
YOUNG, JODI N * 2016; Bachelor's, 2002, Murdoch University

Lecturers

LELONG, MARIE-PASCALE * 1982; Bachelor's, 1981, University of Washington
LOGSDON, MILES G. * 1987; Bachelor's, 1976, Southeastern Oklahoma State University

The Information School

Professors

BOIKO, ROBERT B, 2000; Bachelor's, 1983, Humboldt State University
BRUCE, HARRY * 1998; Master's, 1993, Australian School of Business University of New South Wales
CUTRELL, EDWARD BRYAN * 2011; Bachelor's, 1992, Rice University
CZERWINSKI, MARY P * 1998; Bachelor's, 1981, Ball State University
DEY, ANIND KUMAR * 2018; Master's, 2000, Georgia Institute of Technology-Main Campus; Computer and Information Science
EISENBERG, MICHAEL. * 1998; Bachelor's, 1971, New York University
FIDEL, RAYA * 1982; Master's, 1976, Hebrew University of Jerusalem
FISHER, KAREN E * 1999; Bachelor's, 1989, Memorial University of Newfoundland
FRIEDMAN, BATYA * 1999; Bachelor's, 1979, University of California-Berkeley
KO, AMY JENSEN * 2008; Doctorate, 2008, Carnegie Mellon University
LEVY, DAVID M * 2000; Bachelor's, 1971, Dartmouth College
LUKE, JESSICA * 2012; Bachelor's, 1995, Queen's University
MARTIN, MICHELLE H * 2016; Bachelor's, 1988, College of William and Mary
MCGANN, SEAN, 2015; Bachelor's, 1992, Bowling Green State University-Firelands
MOORE, ADAM DANIEL * 2003; Bachelor's, 1990, Ohio State University Agricultural Technical Institute
PALMER, CAROLE L * 2014; Bachelor's, 1979, Southern Illinois University
PRATT, WANDA * 2002; Doctorate, 1999, Stanford University
SCHOLL, HANS JOACHIM * 2002; Doctorate, 2002, New York University
TENNIS, JOSEPH T. * 2001; Master's, 1999, Indiana University-Bloomington
WILLIAMS, HELENE C., 1995; Master's, 1989, Indiana University-Bloomington
WOBBROCK, JACOB O * 2006; Doctorate, 2006, Carnegie Mellon University

Associate Professors

ANNABI, HALA P * 2004; Bachelor's, 1997, Le Moyne College
BARKER, SCOTT F, 1999; Bachelor's, 1984, Syracuse University
CARLYLE, ALLYSON, 1996; Master's, 1986, University of California-Los Angeles
CARTER, MICHELLE SUZANNE * 2014; Bachelor's, 2000, Anglia Ruskin University
DAVIS, KATHARINE E. * 2012; Master's, 2002, Harvard University
DOANE, MICHAEL, 2008; Bachelor's, 1983, San Francisco State University
FREEMAN, MICHAEL, 2010; Bachelor's, 2010, Colorado College
GOMEZ, RICARDO J * 2007; Doctorate, 1997, Cornell University
HENDRY, DAVID * 2002; Doctorate, 1996, Robert Gordon University
HILL, TRENT G., 2000; Bachelor's, 1985, Duke University
HOWE, WILLIAM GREGORY * 2009; Bachelor's, 1999, Georgia Institute of Technology-Main Campus
HUNT, CHANCE, 1991; Bachelor's, 1985, University of California-San Diego
JANES, JOSEPH W * 1998; Bachelor's, 1982, Syracuse University
JOHNSON, RONALD A., 1986; Master's, 1972, University of Chicago
JONES, WILLIAM P. * 2000; Bachelor's, 1975, University of Kansas
LEE, JIN HA * 2009; Bachelor's, 2000, Ewha Womens University
MENKING, AMANDA * 2012; Master's, 2002, Hardin-Simmons University; English
METOYER, CHERYL * 2003; Bachelor's, 1968, Immaculata University; English

NAHON, KARINE * 2004; Bachelor's, 1997, Tel Aviv University
REIFERS, ANDREW, 2019; Doctorate, 2010, Pennsylvania State University-Main Campus; Information Science
ROSS, JOEL, 2015; Bachelor's, 2006, Colorado College
SAXTON, MATTHEW * 2000; Bachelor's, 1991, Occidental College
SEARLE, MARGARET A, 2009; Bachelor's, 1966, University of Iowa
SHAH, CHIRAG * 2019; Bachelor's, 2000, Dharamsinh Desai University; Computer Engineering
SPIRO, EMMA STUART * 2013; Bachelor's, 2007, Pomona College
SUTTON, STUART, 1999; Doctorate, 1981, Golden Gate University
TEEVAN, JAIME * 2016; Master's, 2001, Massachusetts Institute of Technology
WALE, CARLA PRITCHETT * 2020; Juris Doctor, 2006, Loyola University New Orleans
WEST, JEVIN D * 2005; Doctorate, 2010, University of Washington

Assistant Professors

ALTHOUSE, BENJAMIN M * 2007; Doctorate, 2013, Johns Hopkins University; Epidemiology
BELARDE-LEWIS, MIRANDA H. * 2017; Bachelor's, 2002, University of Arizona; Anthropology
BLUMENSTOCK, JOSHUA E * 2012; Master's, 2010, University of California-Berkeley
CIFOR, MARIKA L * 2019; Bachelor's, 2007, Mills College; Political Communication
DAHYA, NEGIN * 2014; Bachelor's, 2005, University of British Columbia
FINN, MEGAN * 2014; Master's, 2005, University of California-Berkeley
HAY, GREGORY THOMAS, 2008; Bachelor's, 2005, University of Washington
HINIKER, ALEXIS * 2012; Bachelor's, 2005, Harvard University; Computer and Information Science
HOFFMANN, ANNA LAUREN * 2017; Bachelor's, 2005, University of Minnesota-Twin Cities
HULLMAN, JESSICA * 2015; Master's, 2006, Naropa University
LEFTHAND-BEGAY, CLARITA * 2005; Bachelor's, 2002, University of Arizona
LITTLETREE, SANDRA D, 2012; Master's, 2004, New Mexico State University-Main Campus
MITRA, TANUSHREE * 2020; Doctorate, 2017, Georgia Institute of Technology-Main Campus; Computer and Information Science
NELSON, JEROLD A, 1982; Doctorate, 1971, University of California-Berkeley
SCHILDKRAUT, LAURA B., 1996; Bachelor's, 1982, New York University
SELVAKUMAR, MEENA * 2017; Bachelor's, 1990, Osmania University
SNYDER, JAIME * 2014; Master's, 1997, Stanford University
SOPER, MARY E, 1982; Bachelor's, 1955, University of Illinois at Urbana-Champaign
STURMAN, RICHARD O, 2017; Master's, 2013, RMIT University
THAYER, KYLE M, 2014; Bachelor's, 2006, Colorado State University; Computer and Information Science
TOOMET, OTT S., 2015; Doctorate, 2005, Aarhus University
WEBER, NICHOLAS M * 2015; Bachelor's, 2005, University of Illinois at Urbana-Champaign
YIP, JASON * 2015; Doctorate, 2014, University of Maryland-University College

Senior Lecturers

LARSON, ROBERT E, 1983; Bachelor's, 1983, Central Washington University
MANRIQUE, EDMUND, 2019; Master's, 1999, Benedictine University; Management Information Systems
STEARNS, DAVID L, 2013; Bachelor's, 1991, Pacific Lutheran University

Lecturers

ANKNEY, DONALD J, 1993
BRAUN, LINDA W, 2016; Master's, 1996, Lesley University
BROOK, FREEDA, 2017; Bachelor's, 2007, Grinnell College

CHAFFIN, KRISTIN, 2017; Bachelor's, 1990, Louisiana State University; Anthropology
CHAN, JOHN, 2018
DEL VECCHIO, STEPHEN V., 2017; Master's, 1987, Columbia University; Library Science
DRAVID, AVNIEL, 2006
FRIMER, DANIEL DAVID, 2018; Master's, 2018, University of Washington; Information Technology
GOLDSMITH, ANNETTE, 2009; Doctorate, 2009, Florida State University
HIMMA, KENNETH E, 1992
LALAIAN, MICHAEL G, 2017; Master's, Azerbaijan Technical University; Mechanical Engineering
LUNG, JANNIE, 2018; Bachelor's, 1998, University of Illinois at Urbana-Champaign; Finance
MCKENNA, ANDREW CHARLES, 2009; Bachelor's, 2012, University of Washington; Political Science
MORRISSEY, KRISTINE A., 2007; Bachelor's, 1974, Michigan State University
NICKLAS, ROBERT, 2003; Bachelor's, 1974, The College of Wooster
PAJEWSKI, AMY L, 2017; Master's, 2010, Clarion University of Pennsylvania
PARK, NAM HO, 2014; Master's, Columbia University; Architecture
PATEL, SHOPEN, 2012
SWAMINATHAN, GANDHINATH, 2018; Bachelor's, 1997, University of Madras; Business
Administration/Management
TIBBETTS, TODD, 2017
TROTТА, VICTORIA, 2017
WANG, CHUN-KAI, 2013; Master's, 2007, Stanford University; Computer and Information Science
WHEELER, RONALD E, 2018; Juris Doctor, University of Michigan-Ann Arbor; Pre-Law
YI, MYONGHO, 2017; Doctorate, 2006, Florida State University
ZIEMER, MARIA L., 2015; Master's, 2006, Dominican University; Library Science
ZIMMERMAN, JOHN, 2017

Professors

ALLBRITTON, NANCY LYNN, 2019; Medical Doctorate, 1985, Johns Hopkins University
BASSINGTHWAIGHTE, JAMES, 1975; Doctorate, 1964, Mayo Graduate School
BRYERS, JAMES D * 2004; Doctorate, 1980, Rice University
DAGGETT, VALERIE D. * 1993; Bachelor's, 1983, Reed College
FOLCH, ALBERT * 2000; Bachelor's, 1989, Universitat de Barcelona
FOSTER, DAVID M, 1982; Bachelor's, 1962, Northwestern University
GAO, XIAOHU * 2005; Doctorate, 2004, Indiana University-Bloomington
GIACHELLI, CECILIA * 1982; Bachelor's, 1982, University of California-Davis
HORBETT, THOMAS A * 1982; Doctorate, 1970, University of Washington
O'DONNELL, MATTHEW * 2006; Bachelor's, 1972, University of Notre Dame
POLLACK, GERALD H * 1968; Bachelor's, 1961, American Institute
PUN, SUZIE H * 2003; Master's, 1998, California Institute of Technology
RATNER, BUDDY D * 1972; Doctorate, 1972, American Institute
RATNER, DANIEL M. * 1993; Doctorate, 2004, Massachusetts Institute of Technology
REGNIER, MICHAEL * 1995; Bachelor's, 1980, Portland State University
SANDERS, JOAN ELIZABETH * 1985; Master's, 1985, Northwestern University
SAURO, HERBERT M * 2007; Bachelor's, 1981, University of Kent
SIMS, CHRISTOPHER E, 2020; Bachelor's, 1980, Auburn University-Montgomery
SPELMAN, FRANCIS A, 1982; Bachelor's, 1959, Stanford University
STAYTON, PATRICK * 1992; Bachelor's, 1984, Illinois State University
THOMAS, WENDY * 1998; Bachelor's, 1987, Princeton University
WANG, RUIKANG * 2010; Bachelor's, 1988, Tianjin University of Commerce China
YAGER, PAUL * 1987; Bachelor's, 1975, Princeton University

Associate Professors

AVERKIOU, MICHALAKIS A * 1994; Bachelor's, 1987, The University of Texas
CHUDLER, ERIC H * 1982; Bachelor's, 1980, University of California-Los Angeles
GAMBLE, LARA J. * 1991; Bachelor's, 1990, University of California-Santa Cruz
KIM, DEOK-HO, 2011
LAI, JR-IUAN * 2005; Master's, 2003, American Institute
LUTZ, BARRY R. * 1998; Bachelor's, 1998, The University of Texas
NEILS, CHRISTOPHER * 2001; Bachelor's, 1990, Massachusetts Institute of Technology
PELIVANOV, IVAN * 2010; Master's, 1998, Moscow State Technical University
PRICE, NATHAN * 1999; Bachelor's, 2000, Brigham Young University
SCATENA, MARTA * 1996; Bachelor's, 1989, Università degli Studi di Padova
SPEER, YANFENG * 2000; Medical Doctorate, 1982, Huazhong University of Science and Technology
TAYLOR AMOS, ALYSSA, 2010; Bachelor's, 2003, University of California-Davis
WOODROW, KIM A. * 2009; Master's, 2001, Stanford University
ZHENG, YING * 2011; Doctorate, 2008, University of Michigan-Ann Arbor

Assistant Professors

BAILEY, SORAYA, 2018; Bachelor's, 2009, University of Calgary
 BERNDT, ANDRE * 2016; Bachelor's, 2003, Humboldt Universität zu Berlin
 BOYLE, PATRICK MICHAEL JOSEPH * 2018
 GIBBONS, SEAN M * 2020; Doctorate, 2015, University of Chicago
 INTERLANDI, GIANLUCA * 2007; Master's, 2000, Universität Zürich
 KUEH, HAO YUAN * 2016; Doctorate, 2008, Harvard University
 STEVENS, KELLY R. * 2003; Doctorate, 2008, University of Washington
 YAZDAN-SHAHMORAD, AZADEH * 2016; Doctorate, 2011, University of Michigan-Ann Arbor

Lecturer

BLANK, MOLLY ANNEISE B., 2010; Doctorate, 2016, Carnegie Mellon University

Global Health

Professors

BAETEN, JARED * 1995; Doctorate, 2001, University of Washington
 BAEZA, CRISTIAN C, 2014; Master's, 1994, Johns Hopkins University
 BUKUSI, ELIZABETH ANNE * 1996; Medical Doctorate, 1987, University of Nairobi
 CAMPBELL, LEE ANN * 1985; Bachelor's, 1977, Pennsylvania State University-College of Medicine
 CELUM, CONNIE L. * 1987; Bachelor's, 1979, Stanford University
 COLER, RHEA N. * 1994; Master's, 1990, London School of Hygiene & Tropical Medicine
 EBI, KRISTIE L * 2014; Master's, 1976, Massachusetts Institute of Technology
 FARQUHAR, CAREY * 1994; Bachelor's, 1989, Brown University
 GIMBEL-SHERR, KENNETH * 1999; Bachelor's, 1995, Kenyon College
 GLOYD, STEPHEN S. * 1985; Bachelor's, 1969, Harvard University
 HAKOMORI, SEN-ITIROH, 1982; Medical Doctorate, 1951, Tohoku University
 HOLMES, KING K. * 1967; Medical Doctorate, 1963, Cornell University
 JOHN STEWART, GRACE C. * 1992; Bachelor's, 1983, University of Michigan-Ann Arbor
 KENNY, GEORGE E * 1982; Bachelor's, 1952, Fordham University
 LAMPE, PAUL D * 1996; Bachelor's, 1979, Carleton College
 LINGAPPA, JAIRAM R. * 1991; Doctorate, 1987, Harvard University
 LINGAPPA, JAISRI * 1999; Doctorate, 1985, Harvard University
 MURRAY, CHRISTOPHER J * 2007; Bachelor's, 1984, Harvard University
 PFEIFFER, JAMES T. * 2004; Master's, 1989, University of California-Los Angeles
 RAO, DEEPA * 2009; Doctorate, 2004, Illinois Institute of Technology
 STAMATATOS, LEONIDAS * 2001; Master's, 1983, American University of Paris
 UNUTZER, JURGEN * 1994; Bachelor's, 1983, Iowa State University
 WALSON, JUDD L. * 2004; Bachelor's, 1993, Pitzer College
 WASSERHEIT, JUDITH N. * 1982; Medical Doctorate, 1978, Harvard University
 WEINER, BRYAN * 2016; Bachelor's, 1989, University of California-Santa Cruz

Associate Professors

BABIGUMIRA, JOSEPH BRIAN, 2006; Master's, 2004, Case Western Reserve University

BARNABAS, RUANNE V. * 2009; Medical Doctorate, 1997, University of Cape Town
DONNELL, DEBORAH J * 1982; Bachelor's, 1980, University of Auckland
DRAIN, PAUL K * 1999; Bachelor's, 1996, Miami University-Oxford; Microbiology
FRAHM, NICOLE, 2008; Doctorate, 2003, Universität Hamburg
FRIESEN, JENNIFER LUND * 2006; Bachelor's, 2001, Macalester College
GORSTEIN, JONATHAN L. * 2003; Bachelor's, 1982, The Evergreen State College
GRAHAM, SUSAN M. * 2003; Master's, 1990, Boston University
HANSEN, JOHN D. * 2004; Doctorate, 1996, Oregon State University
HEFFRON, RENEE * 2008; Bachelor's, 2000, Boston University
KURTH, ANN E. * 1998; Master's, 1987, Columbia University
LEVIN, CAROL E. * 2003; Doctorate, 1992, Cornell University
MUGO, NELLY * 1998; Medical Doctorate, 1987, University of Nairobi
O'MALLEY, GABRIELLE E. * 1992; Master's, 1989, Johns Hopkins University
RIVIN, BETH E. * 1996; Medical Doctorate, 1982, East Carolina University
SLYKER, JENNIFER A. * 2000; Bachelor's, 1997, Colgate University

Assistant Professors

COWAN, JAMES FAIRMAN, 2008; Bachelor's, 2003, Brown University
DRAKE, ALISON LOUISE * 2005; Bachelor's, 2000, University of Michigan-Ann Arbor
FELDBACKER, CARYL B, 2010; Master's, 2001, Tulane University of Louisiana
GUTHRIE, BRANDON L * 2003; Bachelor's, 2000, Macalester College
HERBECK, JOSHUA THOMAS, 2004; Bachelor's, 1995, Tufts University
JOHNSON, WENDY L. * 2006; Master's, 2004, Johns Hopkins University
LANE, JEFFREY PATRICK, 2008; Bachelor's, 2005, Boston College
MCGRATH, CHRISTINE J, 2005; Bachelor's, 1996, The University of Texas
MCGUIRE, ANDREW * 2018; Doctorate, 2011, University of Guelph
MUGAMBI, MELISSA, 2015; Doctorate, 2013, Case Western Reserve University
MUGWANYA, KENNETH, 2011; Master's, 2009, Case Western Reserve University
NG, TAN HUNG MARIE, 2002; Master's, 2006, University of Southern California
PAVLINAC, PATRICIA B. * 2008; Bachelor's, 2005, Colgate University
PERRONE, LUCY A., 2012; Bachelor's, 1999, Fordham University
PUTTKAMMER, NANCY * 2002; Bachelor's, 1989, Princeton University
SOGÉ, OLUSEGUN O., 2003; Master's, 2001, University of Ibadan
WAGENAAR, BRADLEY H. * 2012; Master's, 2012, Emory University

Professors

ALBERS, NANCY * 2018

ALLEN, CRAIG H. * 1994; Bachelor's, 1979, Portland State University

AMBROSE, KIMBERLY D * 2002; Bachelor's, 1984, University of Washington

ANDERSEN, WILLIAM, 1982; Bachelor's, 1956, University of Colorado Denver

ANDREWS, THOMAS R * 1985; Master's, 1973, Northwestern University

ARONSON, ROBERT H, 1982; Doctorate, 1973, University of Pennsylvania

BARNES, MARIO LAMOUNT * 2018

BOXX, KAREN E * 1996; Bachelor's, 1976, University of Phoenix-New Mexico Campus

CALANDRILLO, STEVE P * 2000; Doctorate, 1998, Harvard University

CALO, MICHAEL R * 2012; Bachelor's, 1999, Dartmouth College

CIMINI, CHRISTINE N. * 2015; Bachelor's, 1989, Clark University

COVINGTON, WILLIAM EDWARD * 2003; Bachelor's, 1972, New York University

EDDY, JONATHAN * 1989; Bachelor's, 1966, Harvard University

FAN, MARY D * 2010; Bachelor's, 2000, University of Arizona

GOMULKIEWICZ, ROBERT W * 1997; Bachelor's, 1983, Pacific Lutheran University

HALEY, JOHN O * 1982; Bachelor's, 1964, Princeton University

HARDISTY, JAMES, 1982; Bachelor's, 1963, Harvard University

HATFIELD, MICHAEL W * 2012; Doctorate, 1996, New York University

HAZELTON, PENELOPE A * 1985; Doctorate, 1975, Lewis and Clark Community College

HICKS, GREGORY A * 1984; Doctorate, 1978, The University of Texas

HJORTH, ROLAND L, 1982; Bachelor's, 1957, American University

HOTCHKISS, MARY A * 1989; Master's, 1978, Catholic University of America

HOWARD, MAUREEN A * 1994; Bachelor's, 1982, Gonzaga University

HUME, LINDA S., 1982; Bachelor's, 1967, California State University

HUSTON, JOHN, 1967; Master's, 1955, New York University

JAY, STEWART * 1980; Bachelor's, 1973, Georgetown University

JUNKER, JOHN M, 1982; Associate, 1957, Clark College

KELLY, LISA A. * 2002; Doctorate, 1982, University of Pennsylvania

KNUDSEN, SANNE H * 2011; Bachelor's, 1998, Northwestern University

KUSZLER, PATRICIA CAROL * 1994; Medical Doctorate, 1978, Mayo Graduate School

LOMBARDI, CLARK B * 2004; Doctorate, 1998, Columbia University

MARANVILLE, DEBORAH * 1989; Doctorate, 1975, Harvard University

MASTROIANNI, ANNA C. * 1996; Bachelor's, 1982, University of Pennsylvania

MCCORMACK, SHANNON W * 2012; Master's, 2006, Georgetown University

MCGINNIS, KATHLEEN M * 1994; Doctorate, 1984, University of California-Berkeley

MCMURTRIE, JACQUELINE * 1989; Bachelor's, 1978, University of Michigan-Ann Arbor

MYHRE, THEODORE A * 1994; Master's, 1994, Boston College

NICOLAS, PETER * 2000; Doctorate, 1999, Harvard University

O'CONNOR, SEAN M, 2002; Master's, 1995, Arizona State University

O'NEILL, KATHLEEN M. * 1993; Doctorate, 1980, Columbia University

RAMASASTRY, ANITA G. * 1996; Bachelor's, 1988, Harvard University

RIEDINGER, JEFFREY M * 2013; Bachelor's, 1977, Dartmouth College

RODGERS, WILLIAM H * 1979; Bachelor's, 1965, Columbia University
SAID, ZAHR KASSIM * 2011; Doctorate, 2008, Columbia University
SCHNAPPER, ERIC * 1995; Bachelor's, 1962, Johns Hopkins University
SCHUMACHER, SCOTT A * 2000; Bachelor's, 1986, Loyola Marymount University
SMITH, FRANK W, 1968; Master's, 1968, Harvard University
TAKENAKA, TOSHIKO * 1992; Bachelor's, 1981, Seikei University
TAYLOR, VERONICA * 2001; Bachelor's, 1986, Monash University
TESTY, KELLYE, 2009; Bachelor's, 1982, Indiana University-Bloomington
VAUGHN, LEA B * 1984; Bachelor's, 1975, Princeton University
WATTS, KATHRYN A * 2007; Bachelor's, 1998, Northwestern University
WINN, JANE K * 2002; Doctorate, 1987, Harvard University
WOLCHER, LOUIS E., 1986; Doctorate, 1973, Harvard University

Associate Professors

CLYNCH, JOHN ALFRED * 2005; Bachelor's, 1985, University of Washington
COBB, THOMAS DILLON * 2004; Master's, 1993, Reed College
HALASZ, BENJAMIN S * 2013; Bachelor's, 1999, Dartmouth College
KIRTLEY, ALAN, 1984; Bachelor's, 1969, Indiana University-Bloomington
MANHEIM, ELISABETH * 2011; Bachelor's, 2002, Yale University
PORTER, ELIZABETH G * 2010; Bachelor's, 1991, Brown University
SANCKEN, LAUREN ELIZABETH * 2008; Bachelor's, 2005, Harvard University
SANFORD, SALLIE T * 2002; Bachelor's, 1986, Brown University
TOWNSEND, MICHAEL E. * 1992; Bachelor's, 1973, University of Michigan-Ann Arbor
WALSH, WALTER J * 1996; Bachelor's, 1979, University College Dublin National University of Ireland
WILLIAMS, BRENDA E * 1996; Bachelor's, 1994, University of Washington
ZANG, DONGSHENG * 2005; Master's, 1996, Harvard University
ZIFF, DAVID J * 2012; Bachelor's, 2000, Brown University

Assistant Professors

BAILEY, WILLIAM S * 1993; Doctorate, 1974, Northwestern University
CHAZARO, ANGELICA * 2013; Doctorate, 2006, Columbia University
FAN, JENNIFER * 2010; Bachelor's, 1995, Stanford University; Political Science
GARDNER II, TREVOR G, 2016; Doctorate, 2003, Harvard University
NGUGI, JOEL M * 2004; Master's, 1999, Harvard University
RAIGRODSKI, DANA * 2004; Bachelor's, 1995, Tel Aviv University
WILDERMUTH, TODD * 2011; Bachelor's, 1997, Northwestern University

Lecturers

BEHNKE, LANCE WYRILL, 2006; Doctorate, 1977, Georgetown University
BENJAMIN, G. ANDREW H., 1984; Master's, 1982, University of Arizona
BLANCHARD, TIMOTHY P, 2017
DE SA E SILVA, MARCO, 2016
LEVEZU, ALICIA, 2014
MANNING, MARGARET M, 2017
MORENO, PETER SHAWN, 2005
SHAW, MELISSA A, 2014
SPITZER, HUGH D * 1986

WOOL, JEFFREY A., 1994

COOPER, JONATHAN A * 1987; Bachelor's, 1973, University of Cambridge
DAVIE, EARL WARREN, 1962; Bachelor's, 1950, University of Washington
FISCHER, EDMOND H, 1953; Doctorate, 1947, Switzerland University of Business and International Studies Geneva
HAHN, STEVEN M * 1994; Doctorate, 1984, Brandeis University
HAUSCHKA, STEPHEN D * 1966; Bachelor's, 1962, Amherst College
HOL, WILHELMUS G.J. * 1992; Master's, 1966, Eindhoven University of Technology
HURLEY, JAMES BRYANT * 1985; Bachelor's, 1975, New York University
KIMELMAN, DAVID * 1989; Doctorate, 1985, Harvard University
KLEVIT, RACHEL E * 1983; Bachelor's, 1978, Reed College
MERZ, ALEXEY JARRELL * 2004; Doctorate, 2000, Oregon Health & Science University
MORRIS, DAVID R * 1966; Bachelor's, 1961, University of California-Los Angeles
MULLER, TRISHA DAVIS * 1987; Bachelor's, 1976, University of California-Santa Cruz
PALMITER, RICHARD D * 1982; Bachelor's, 1964, Duke University
PARSON, WILLIAM W, 1971; Doctorate, 1965, Case Western Reserve University
PETRA, PHILIP H, 1966; Bachelor's, 1960, Tulane University of Louisiana
RUOHOLA-BAKER, HANNELE * 1993; Bachelor's, 1984, University of Helsinki*
STODDARD, BARRY L * 1994; Doctorate, 1990, Massachusetts Institute of Technology
TELLER, DAVID C, 1982; Bachelor's, 1960, Swarthmore College
TSUKIYAMA, TOSHIO * 1999; Doctorate, 1991, Hiroshima University
WALSH, KENNETH A, 1982; Bachelor's, 1951, McGill University
WEINER, ALAN * 2000; Doctorate, 1973, Harvard University
YOUNG, ELTON, 1982; Doctorate, 1967, California Institute of Technology

Associate Professors

AILION, MICHAEL * 1994; Bachelor's, 1993, University of Utah
 BAI, JIHONG * 2011; Bachelor's, 1995, Beijing University of Agriculture
 BRADLEY, PHILIP H. * 2001; Doctorate, 2001, Massachusetts Institute of Technology
 BRZOVIC, PETER S * 1993; Doctorate, 1991, University of California-Riverside
 DIMAIO, FRANK * 2007; Bachelor's, 2001, Pennsylvania State University-College of Medicine
 FAN, ERKANG * 1996; Bachelor's, 1987, Peking University
 GONEN, TAMIR * 2005; Bachelor's, 1997, University of Auckland
 HOPPINS, SUZANNE * 2013; Bachelor's, 2000, University of Alberta
 KOLLMAN, JUSTIN M * 2014; Bachelor's, 1998, Menlo College
 MILLER, DANA L * 2010; Doctorate, 2003, Johns Hopkins University
 MULLER, ERIC G. * 1988; Bachelor's, 1975, Stony Brook University
 ROTH, MARK * 1994; Doctorate, 1988, University of Colorado at Boulder
 VEESLER, DAVID J * 2014; Master's, 2006, Université Aix-Marseille 3 Paul Cézanne
 VERLINDE, CHRISTOPHE * 1992; Doctorate, 1988, Catholic University of Leuven

Assistant Professors

GU, LIANGCAI * 2015; Bachelor's, 1998, Lanzhou University
 KENNEDY, BRIAN K. * 2001; Doctorate, 1996, Massachusetts Institute of Technology
 KING, NEIL * 2010; Bachelor's, 2004, Northwestern University
 KWON, YOUNG * 2015; Doctorate, 2008, Johns Hopkins University
 WILLS, ANDREA * 2015; Bachelor's, 2002, Pomona College

Bioethics and Humanities

Professors

BERRYMAN, JACK W * 1982; Bachelor's, 1969, Lock Haven University
 BOWEN, DEBORAH J * 1987; Doctorate, 1986, American University of Health Sciences
 BURKE, WYLIE * 1982; Bachelor's, 1970, Brookline College
 DUDZINSKI, DENISE M * 2001; Bachelor's, 1991, Emory University
 EDWARDS, KELLY ALISON * 1993; Bachelor's, 1989, Occidental College
 FULLERTON, STEPHANIE MALIA * 2005; Bachelor's, 1989, Occidental College
 JECKER, NANCY A.S. * 1982; Bachelor's, 1982, Stanford University
 WHORTON, JAMES C, 1982; Bachelor's, 1964, Duke University

Associate Professors

BLACKSHER, ERIKA A * 2010; Bachelor's, 1986, University of Kansas
 STARKS, HELENE * 1989; Master's, 1989, University of California-Berkeley

Assistant Professor

CAMPEDIA, GEORGINA D * 2016; Bachelor's, 2007, Bowdoin College

Senior Lecturer

MC CORMICK, THOMAS R., 1974; Master's, 1960, Drake University

Biological Structure

For complete faculty listing, please visit <http://www.biostr.washington.edu/>

Professors

ADMAN, ELINOR T, 1982; Master's, 1964, Brandeis University
BERMINGHAM-MCDONOGH, OLIVIA * 1996; Bachelor's, 1980, University College Dublin National University of Ireland
BRINKLEY III, JAMES F. * 1988; Bachelor's, 1970, Amherst College
CLARK, JOHN I * 1982; Bachelor's, 1968, Dartmouth College
DACEY, DENNIS M. * 1986; Bachelor's, 1976, Swarthmore College
GRANEY, DANIEL O, 1982; Associate, 1957, University of California-Berkeley
KOEHLER, JAMES K, 1982; Master's, 1958, University of California-Berkeley
LEE, MINAKO Y, 1982; Medical Doctorate, 1963, Japan Women's University
MULLIGAN, KATHLEEN A., 1987; Bachelor's, 1979, University of New South Wales
PASUPATHY, ANITHA * 2006; Bachelor's, 1992, Indian Institute of Technology Delhi
RAIBLE, DAVID W. * 1995; Bachelor's, 1983, Cornell University
REH, THOMAS A. * 1989; Bachelor's, 1977, University of Illinois at Urbana-Champaign
REUVENI, ZIPORA * 1979; Bachelor's, 1972, Hebrew University of Jerusalem
ROBINSON, FARREL R. * 1986; Doctorate, 1982, Brown University
ROSSE, CORNELIUS, 1967; Bachelor's, 1961, University of Bristol
SHERK, HELEN, 1982; Doctorate, 1978, Massachusetts Institute of Technology
STENKAMP, RONALD E * 1978; Bachelor's, 1970, University of Oregon
WONG, RACHEL O * 2006; Doctorate, 1986, Australian National University
XU, WENQING * 1999; Bachelor's, 1985, Huazhong University of Science and Technology

Associate Professors

BAIR, WYETH DANIEL * 2011; Doctorate, 1996, California Institute of Technology
DE VITO, JUNE R, 1955; Bachelor's, 1947, University of British Columbia
DHAKA, AJAY K * 2009; Bachelor's, 1992, University of California-Los Angeles
GADDUM-ROSSE, PENELOPE, 1982; Doctorate, 1965, University of Liverpool
GALLAHER, ZACHARY, 2016; Bachelor's, 2007, Washington State University
PITTACK, CATRIN, 1989; Bachelor's, 1987, University of Massachusetts
PROTHERO, JOHN W, 1965; Bachelor's, 1956, University of Western Ontario
SUNDSTEN, JOHN WALLIN, 1982; Bachelor's, 1956, University of California-Los Angeles

Assistant Professors

GOLDEN, SAM A. * 2019; Bachelor's, 2006, Bates College
SINGHVI, AAKANKSHA * 2018; Bachelor's, 1998, Gujarat University
STEINMETZ, NICHOLAS A. * 2019; Doctorate, 2014, Stanford University; Neuroscience
WANG, LIGUO, 2011; Doctorate, 2003, Cornell University

Biomedical Informatics and Medical Education

Professors

ALPERS, CHARLES E. * 1986; Medical Doctorate, 1978, University of Rochester
 ARGENYI, ZSOLT B, 2001; Medical Doctorate, 1978, Semmelweis University
 BAIRD, GEOFFREY S * 2003; Bachelor's, 1995, Stanford University
 BOWEN-POPE, DANIEL, 1979; Doctorate, 1979, University of California-Berkeley
 BYERS, PETER H * 1976; Medical Doctorate, 1969, Case Western Reserve University
 CHATRIAN, GIAN E, 1959; Medical Doctorate, 1951, Università degli Studi di Napoli Federico II
 CHHIENG, CHEUNG F, 2017; Medical Doctorate, 1987, Chinese University of Hong Kong
 CHOU, DAVID, 1998; Bachelor's, 1970, Carnegie Mellon University
 COOKSON, BRAD T * 1991; Doctorate, 1991, Washington State University
 COOMBS, ROBERT W * 1985; Doctorate, 1977, Dalhousie University; Medical Doctorate, 1981, Dalhousie University
 COREY, LAWRENCE * 1977; Medical Doctorate, 1971, University of Michigan-Ann Arbor
 COYLE, MARIE B, 1982; Doctorate, 1965, Kansas State University
 CRISPE, IAN N. * 2009; Bachelor's, 1975, University of London
 CYDERS, MELISSA UPTON, 2002; Medical Doctorate, 1978, Northwestern University
 DE ROSA, STEPHEN C. * 2004; Bachelor's, 1983, Columbia University
 DETTER, JAMES C, 1982; Bachelor's, 1955, University of Kansas
 DEUTSCH, GAIL H, 2008; Medical Doctorate, 1993, University of Chicago
 DISTECHE, CHRISTINE M * 1980; Doctorate, 1976, Université de Liège
 FANG, FERRIC C. * 2001; Medical Doctorate, 1983, Harvard University
 FANG, MIN, 2008; Medical Doctorate, 1990, Shanghai Medical University
 FINE, JAMES * 1977; Bachelor's, 1968, University of Minnesota-Duluth
 FINN, LAURA S, 1998; Bachelor's, 1985, Pennsylvania State University-College of Medicine
 FLIGNER, CORINNE LINA, 1982; Bachelor's, 1973, University of Phoenix-New Mexico Campus
 GARCIA, ROCHELLE, 1983; Medical Doctorate, 1989, University of Washington
 HESS, JOHN R, 2012; Master's, 1979, University of Hawaii
 HOOFNAGLE, ANDREW N * 2004; Doctorate, 2002, University of Colorado at Boulder
 HORWITZ, MARSHALL S * 1983; Bachelor's, 1983, University of California-San Diego
 JEROME, KEITH R * 1993; Doctorate, 1992, Duke University; Medical Doctorate, 1993, Duke University
 KAEBERLEIN, MATT R * 2003; Doctorate, 2002, Massachusetts Institute of Technology
 KAPUR, RAJ P. * 1988; Bachelor's, 1981, University of California-Los Angeles

KEAN, LESLIE S * 2013; Bachelor's, 1987, Case Western Reserve University
KENNY, MARGARET, 1982; Doctorate, 1968, University of Illinois at Urbana-Champaign
KIVIAT, NANCY C, 1979; Bachelor's, 1967, University of Washington
LOEB, LAWRENCE A * 1978; Bachelor's, 1957, New York University
MARTIN, GEORGE * 1982; Bachelor's, 1949, University of Washington
MONNAT, RAYMOND J * 1982; Medical Doctorate, 1976, University of Chicago
MORROW, RHODA ASHLEY * 1982; Doctorate, 1977, University of California-Davis
MURRY, CHARLES E. * 1989; Doctorate, 1989, Duke University
NARAYANAN, A SAMPATH * 1971; Bachelor's, 1961, The Tamil Nadu Dr. M.G.R. Medical University
NARESH, KIKKERI NARASIMHAMURTHY, 2020
NESTER, THERESA * 2001; Bachelor's, 1988, Bowdoin College
NICOSIA, ROBERTO F, 1999; Medical Doctorate, 1976, American University of Rome
NORWOOD, THOMAS H * 1973; Bachelor's, 1960, Brown University
POLYAK, STEPHEN J. * 1993; Doctorate, 1993, McMaster University
PORTER, PEGGY L. * 1987; Bachelor's, 1974, Humboldt State University
PROMISLOW, DANIEL E * 2013; Bachelor's, 1986, University of Chicago
QIN, XUAN, 2005; Medical Doctorate, 1982, Nanjing University
RABINOVITCH, PETER S. * 1980; Bachelor's, 1972, University of Washington
RAINEY, PETRIE M., 2000; Doctorate, 1973, University of California-Berkeley
SCHMIDT, RODNEY, 1982; Bachelor's, 1977, Bethel College
SCHWARTZ, STEPHEN MARK, 1974; Medical Doctorate, 1967, Boston University
SMITH, KELLY D. * 1996; Doctorate, 1996, University of Iowa
STEPHENS, KAREN G. * 1989; Bachelor's, 1972, Indiana State University
SUMI, SHUZO MARK, 1966; Medical Doctorate, 1956, University of Toronto
SWANSON, PAUL E, 2001; Bachelor's, 1979, Dartmouth College
TAIT, JONATHAN F * 1983; Bachelor's, 1977, Harvard University
TRUE, LAWRENCE DASHIELL * 1990; Bachelor's, 1967, Harvard University
WENER, MARK H * 1980; Medical Doctorate, 1974, Washington University in St Louis
WIGHT, THOMAS * 1982; Bachelor's, 1966, University of Maine
WOOD, BRENT L., 1990; Doctorate, 1988, Loma Linda University
XU, HAODONG, 2017; Medical Doctorate, 1987, Soochow University
YEH, MENG-CHE, 2002; Medical Doctorate, 1989, National Taiwan University
ZHANG, JING, 2002; Doctorate, 1995, Duke University

Associate Professors

BANKSON, DANIEL DUKE, 1993; Master's, 1981, Massachusetts Institute of Technology
BIELAS, JASON H * 2003; Bachelor's, 1998, York University
CHEN, ELEANOR Y * 1995; Doctorate, 2006, University of Minnesota-Duluth
CHEN, XUEYAN, 2011; Master's, 1998, Peking Union Medical College
CHERIAN, SINDHU, 2005; Bachelor's, 1996, Brown University
DAVIS, JENNIFER M * 2015; Master's, 2001, San Diego State University
DINTZIS, SUZANNE M, 2008; Bachelor's, 1985, Princeton University
EDLEFSEN, KERSTIN, 1998; Bachelor's, 1997, The Evergreen State College
FROMM, JONATHAN R, 1998; Bachelor's, 1990, Grinnell College
GUI, XIANYONG, 2018; Medical Doctorate, 1994, Peking Union Medical College
HERR, ALAN J * 1992; Bachelor's, 1992, Pacific Lutheran University
HOCH, BENJAMIN, 2008; Medical Doctorate, 1999, Thomas Jefferson University
HOFFMAN, NOAH G * 2005; Bachelor's, 1995, University of North Carolina

HUANG, ERIC, 2018; Medical Doctorate, 2005, Albany Medical College
KEENE, CHRISTOPHER D * 2005; Doctorate, 2003, University of Minnesota-Duluth
LI, KE, 2019
LIBBY, STEPHEN JAMES * 2003; Master's, 1983, Iowa State University
LIU, YAJUAN, 1995; Doctorate, 1995, New York University
LOCKWOOD, CHRISTINA M, 2014; Bachelor's, 2001, University of North Carolina at Chapel Hill
LOEB, KEITH, 1983; Doctorate, 1994, Medical College of Wisconsin
MAHONEY, WILLIAM * 2004; Bachelor's, 1999, Connecticut College
MORISHIMA, CHIHIRO * 1991; Bachelor's, 1984, Washington State University
MURPHY, SEAN C, 2008; Bachelor's, 1999, Iowa State University
MYERSON, DAVID, 1985; Bachelor's, 1970, Brown University
NAJAFIAN, BEHZAD, 2010; Medical Doctorate, 1996, University of Tehran
NEWELL, EVAN * 2020; Doctorate, 2006, University of Toronto; Physiology
PAGANO, MONICA BEATRIZ, 2009; Medical Doctorate, 1999, Universidad de Buenos Aires
PRITCHARD, COLIN C., 1996; Bachelor's, 1997, University of Washington
REA, SHANE LESLIE, 2017; Doctorate, 1999, University of Queensland
RENDI, MARA HESTER * 2009; Doctorate, 2004, Dartmouth College
RISQUES, ROSA ANA * 2003; Bachelor's, 1996, Universitat Autònoma de Barcelona
SABATH, DANIEL E. * 1989; Doctorate, 1989, University of Pennsylvania
SALIPANTE, STEPHEN * 2003; Doctorate, 2009, University of Washington
SCHMECHEL, STEPHEN C., 1998; Bachelor's, 1990, Carroll College
SCHWARZE, ULRIKE, 1993; Medical Doctorate, 1992, Technische Universität Berlin
SHIRTS, BRIAN H * 2012; Doctorate, 2006, University of Pittsburgh-Bradford
SOMA, LORINDA A, 2012; Bachelor's, 1994, Hamline University
TRETIAKOVA, MARIA S, 2012; Medical Doctorate, 1994, Saint Petersburg State Medical Academy
TSUCHIYA, KAREN D. * 1990; Bachelor's, 1985, University of Michigan-Ann Arbor
WU, DAVID * 2008; Medical Doctorate, 2003, Harvard University
YEUNG, CECILIA C S, 2011; Bachelor's, 1999, University of California-Davis
ZAFAR, NADEEM, 2018
ZHU, JIA * 2003; Doctorate, 1994, University of Science and Technology of China
ZHU, TUOFU, 1997; Medical Doctorate, 1984, Jiangxi Traditional Chinese Medicine University

Assistant Professors

AKILESH, SHREERAM * 2012; Bachelor's, 2000, Dartmouth College
BERONJA, SLOBODAN * 2018; Doctorate, 2006, University of Toronto
BOURASSA, LORI A., 2014; Bachelor's, 2001, Boston College
BRYAN, ANDREW BEVAN BRODY, 2013; Doctorate, 2013, University of Michigan-Ann Arbor
BUCHAN, JILLIAN G, 2020; Master's, 2010, University College Dublin National University of Ireland
CAMPBELL, JEAN S * 1990; Bachelor's, 1981, The College of Wooster
CIMINO, PATRICK J., 2001; Bachelor's, 2004, University of Washington
DARVAS, MARTIN C * 2008; Master's, 2003, Rheinische Friedrich Wilhelms Universität Bonn
ECKEL, ASHLEY M, 2016
FINK, SUSAN L * 1999; Bachelor's, 1999, University of Hawaii
GLYNN, EMILY H., 2004; Medical Doctorate, 2011, University of Washington
GONZALEZ-CUYAR, LUIS F., 2009; Bachelor's, 2001, American University of Puerto Rico
GRENINGER, ALEX * 2015
HAFFNER, MICHAEL, 2019
JALIKIS, FLORENCIA G., 2008; Medical Doctorate, 2001, Universidad del Salvador Buenos Aires

KENNEDY, SCOTT * 2008; Bachelor's, 2001, University of North Carolina at Chapel Hill
KILGORE, MARK R., 2002; Medical Doctorate, 2010, Jefferson College
KOCH, LISA KRISTINE, 2011; Bachelor's, 2003, Brown University
KONNICK, ERIC Q, 2010; Bachelor's, 1998, University of Utah
KRUMM, NIKLAS, 2008
LATIMER, CAITLIN SHANNON, 2013; Doctorate, 2011, University of Kentucky
LIAO, HSUAN-CHIEH, 2018; Doctorate, 2016, National Yang Ming University
LIEBERMAN, JOSHUA A, 2014
LOUZON, MAX JOSEPH, 2011
MARSHALL, DESIREE A, 2010; Bachelor's, 2005, Texas Tech University
MARTIG, DANIEL, 2020; Bachelor's, 2010, University of Minnesota-Twin Cities
MATHIAS, PATRICK C, 2012; Bachelor's, 2004, Duke University
MENDENHALL, ALEXANDER R * 2016; Bachelor's, 2000, The University of Texas
METCALF, RYAN ADAMS, 2015; Medical Doctorate, 2010, University of California-Davis
NOLAN MUNN, AMBER, 2020; Medical Doctorate, 2012, University of Chicago
PAULSON, VERA, 2018; Medical Doctorate, 2012, University of Texas Southwestern Medical Center at Dallas
RICCIOTTI, ROBERT, 2014; Bachelor's, 2004, University of Arizona
ROGERS, DAVID, 2020
STALEY, ELIZABETH, 2019
TSANG, HAMILTON, 2017; Medical Doctorate, 2012, University of Southern California
YOUNG, JESSICA E * 2003; Master's, 2002, Sonoma State University
ZHOU, YI, 2013; Doctorate, 1995, Louisiana State University

Lecturer

TSUCHIDA, AKIKO, 2013; Bachelor's, 2001, Science University of Tokyo

MEDEX Northwest

Associate Professors

HAHN, PATRICIA L, 2013; Bachelor's, 1990, Lewis-Clark State College
NAIDU, AMEE S., 2007; Bachelor's, 1996, Houston Baptist University
SHERMAN, PATRICK A, 2020
STEWART, BETTY L., 1985; Bachelor's, 1996, Seattle University
SYMINGTON, SUSAN L, 2015; Bachelor's, 1990, Spring Arbor University
VADER, KIRA S, 2005; Master's, 2002, Duke University
WICK, KEREN * 1990; Bachelor's, 1990, San Francisco State University

Assistant Professors

BATTS, AVERY, 2018; Doctorate, 2013, Northeastern University; Education
BERNARD, KARI S, 2014; Bachelor's, 1998, Eastern New Mexico University-Main Campus
BESTER, VANESSA S, 2012; Master's, 2003, University of Florida
CASEY, SHANNON M, 2020; Master's, 2017, University of St Francis; Physician Assistant
COPPS-WILSON, KATIE M, 2018
ERICKSON, JENNIFER M, 2016; Bachelor's, 2009, University of Washington
GREENLEE, QUANTE' LAMONT, 2019; Master's, 2009, Duke University; Physician Assistant

HAWKINS, MARC ANTONIO, 2013; Master's, 2000, University of Nebraska at Omaha
IMLACH, HOLLY A, 2017; Bachelor's, 1995, Massachusetts Institute of Technology
JOY, BONNIE, 2020; Master's, 2014, Samuel Merritt University; Physician Assistant
KEMPE, CHRISTINE, 2013; Bachelor's, 1999, Brigham Young University
LAUFENBERG, MAGGIE R, 2019
ORCHARD, THEO RAY, 2018
RIORDAN, BRENDAN M., 2016
ROBERTSON, DALE, 1994; Bachelor's, 2007, University of Washington
SMITH, MICHAEL B, 2014; Medical Doctorate, 2012, A T Still University of Health Sciences
STURGES, DAYTHEON D, 2019
WACHTEL, DIANNA L, 2007; Master's, 2008, A T Still University of Health Sciences

Lecturers

ALVITRE, JOHN JEFFREY, 2014; Bachelor's, 1997, California State University-Chico
BORDERS, ROSA M., 2001; Master's, 1987, American University of Health Sciences
BUTLER, JESSICA C, 2018; Master's, 2014, University of Washington; Physician Assistant
BYRNE, THOMAS J, 2020; Master's, 1983, Brigham Young University; Athletic Training
CHA, HANA, 2017; Bachelor's, 2002, Kansas State University
COOPER, SCOTT A, 2019
FARTHING, BRYAN CHRISTOPHER, 2018
GARZA, EDUARDO JR, 2004
GRIMM, PATRICK J, 2016; Master's, 1998, University of Nebraska Medical Center
HACKENBRUCH, GREGORY S, 2017; Bachelor's, 2009, University of Alaska Anchorage
HAVERKAMP, KENNETH, 1996; Bachelor's, 1990, Whitman College
HOOK, TARA R, 2018; Master's, Saint Louis University-Main Campus
HUYNH, CONSTANCE D, 1999; Bachelor's, 2003, University of Washington
JAIN, ANJU, 2014; Master's, 1997, Western Washington University
KELLY, KAIDEN G, 2020
MAHER, JONATHAN C., 2000; Bachelor's, 1997, University of Massachusetts
MCCROSKEY, JEFFREY J, 2017; Master's, 2007, University of Nebraska Medical Center; Physician Assistant
OLSON, TIMOTHY C, 2020; Master's, 2015, Rosalind Franklin University of Medicine and Science; Physician Assistant
PATTON, SARAH B. W., 2019
RAGOSTA, RACHEL E, 2017
RODGERS, CARI R, 2020; Diploma, 2010, University of Washington; Physician Assistant
SERPINAS, SARAH L, 2014; Bachelor's, 2010, University of Washington
SIEGEL, MALINDA S, 2007; Bachelor's, 1974, Colby College
SMITH, COLLEEN E, 2016; Bachelor's, 2003, Eastern Washington University
SMITH, DONALD J, 2014
THETFORD, LOIS C., 1994; Bachelor's, 1967, Cornell University
WHIPPLE, KATHERINE J, 2016; Bachelor's, 1992, Eastern Washington University
WIESE, TRACEY L, 2020

Professors

ADAMS WALDORF, KRISTINA M * 1992; Medical Doctorate, 1998, Mayo Graduate School

AMIES OELSCHLAGER, ANNE-MA, 1997; Bachelor's, 1991, University of California-Los Angeles

CHENG, EDITH Y., 1987; Master's, 1979, Sarah Lawrence College

CHIANG, SEINE, 2006; Medical Doctorate, 1990, Oregon Health & Science University

CLIFTON, DONALD K, 1981; Bachelor's, 1968, Oregon State University

EASTERLING, THOMAS R, 1985; Bachelor's, 1972, Davidson College

ECKERT, LINDA O., 1992; Bachelor's, 1983, Carleton College

ESCHENBACH, DAVID A, 1976; Bachelor's, 1964, Lawrence University

FIALKOW, MICHAEL F., 1994; Bachelor's, 1989, University of Pennsylvania

GARDELLA, CAROLYN M., 1995; Bachelor's, 1989, Dartmouth College

GOFF, BARBARA A., 1993; Bachelor's, 1982, Brown University

GRAVETT, MICHAEL G., 1982; Bachelor's, 1973, Oregon State University

GRAY, HEIDI J., 1997; Medical Doctorate, 1997, University of California-Los Angeles

GREER, BENJAMIN E, 1980; Bachelor's, 1962, Allegheny College

HITTI, JANE, 1993; Bachelor's, 1984, Brown University

LENTZ, GRETCHEN M., 1983; Bachelor's, 1982, University of Puget Sound

NAPOLITANO, PETER GUY, 1996; Medical Doctorate, 1989, Loyola University Chicago

NEAL-PERRY, GENEVIEVE S., 2015; Bachelor's, 1988, Dartmouth College

PATTON, DOROTHY L, 1981; Bachelor's, 1971, University of Puget Sound

PRAGER, SARAH WARD, 2006; Bachelor's, 1993, Princeton University

REED, SUSAN D., 1991; Master's, 1979, Sarah Lawrence College

SHY, KIRKWOOD K, 1979; Bachelor's, 1969, St. Olaf College

STEINER, ROBERT A * 1977; Doctorate, 1975, University of Oregon

SWISHER, ELIZABETH M., 1992; Medical Doctorate, 1992, University of California-San Diego

VONTVER, LOUIS A, 1977; Bachelor's, 1956, University of Minnesota-Duluth

Associate Professors

CALLEGARI, LISA S * 2011; Bachelor's, 1994, Harvard University

DEBIEC, KATHERINE E, 1999; Medical Doctorate, 2005, University of Washington

DELANEY, SHANI S, 2009; Medical Doctorate, 2005, University of California-San Francisco

IRWIN, TRACY E, 2014; Bachelor's, 1997, Emory University

LIAO, JOHN B, 2010; Medical Doctorate, 1998, George Washington University

MAO, CONSTANCE, 1988; Bachelor's, 1984, Princeton University

MENDIRATTA, VIKSA, 1998; Bachelor's, 1990, Ohio State University Agricultural Technical Institute

MOORE, DONALD E, 1982; Medical Doctorate, 1967, Case Western Reserve University

STEPHENSON-FAMY, ALYSSA B, 1995; Bachelor's, 1999, University of Washington

URBAN, RENATA R, 2011; Bachelor's, 2000, Boston University

Assistant Professors

ALBRIGHT, CATHERINE M, 2016; Master's, 2016, Brown University
 BENSON, LYNDSEY S, 2014; Bachelor's, 2005, Brown University
 BURKE, ALSON K, 2005; Bachelor's, 2000, Mount Holyoke College
 DOLL, KEMI M, 2016; Medical Doctorate, 2008, Columbia University
 FAY, EMILY E, 2012; Medical Doctorate, 2012, Rutgers University-Newark
 FUCHS, ESTHER, 2016; Medical Doctorate, 2001, Universität Bern
 HERNDON, CHRISTOPHER N, 2017
 KIRBY, ANNA C, 2004; Bachelor's, 2002, Stanford University
 KREMER, MALLORY E, 2018
 MA, KIMBERLY K, 2011; Bachelor's, 2003, University of Iowa
 MICKS, ELIZABETH A, 2012; Medical Doctorate, 2006, Jefferson College
 NORQUIST, BARBARA S., 1998; Bachelor's, 1999, University of Washington
 PENNINGTON, KATHRYN P, 2011; Bachelor's, 2002, University of Michigan-Ann Arbor
 SHREE, RAJ, 2014; Medical Doctorate, 2010, University of Missouri-St Louis
 UNGER, JENNIFER A., 2005; Bachelor's, 1995, Mount Holyoke College
 YU, BO, 2016; Master's, 1997, Clemson University

Ophthalmology

Professors

CHEN, PHILIP P., 1996; Bachelor's, 1986, Stanford University
 KALINA, ROBERT E, 1967; Bachelor's, 1956, University of Minnesota-Duluth
 NEITZ, JOHN * 2009; Bachelor's, 1979, San Jose State University
 NEITZ, MAUREEN * 2009; Bachelor's, 1979, San Jose State University
 SAARI, JOHN C, 1982; Bachelor's, 1961, University of Central Oklahoma
 SHEN, TUENG T * 2003; Medical Doctorate, 1997, Harvard University
 TARCZY-HORNOCH, KRISTINA, 1998; Medical Doctorate, 1998, University of California-San Francisco
 VAN GELDER, RUSSELL * 2008; Bachelor's, 1985, Stanford University
 WEISS, AVERY H, 1991; Medical Doctorate, 1974, Miami University-Oxford

Associate Professors

ATTARAN REZAEI, KASRA, 2014; Medical Doctorate, 2001, Islamic Azad University, Tehran Medical Sciences
 BANITT, MICHAEL, 2015; Bachelor's, 1996, University of Missouri-St Louis
 CABRERA, MICHELLE T, 2014; Bachelor's, 2001, Stanford University
 CHAMBERS, CHRISTOPHER B, 2015; Medical Doctorate, 2005, Ohio State University Agricultural Technical Institute
 CHAO, JENNIFER, 2009; Bachelor's, 1996, Stanford University
 FRANCIS, COURTNEY, 2010; Bachelor's, 1999, Brown University
 HERLIHY, ERIN P., 2004; Medical Doctorate, 2003, Loyola University Chicago
 LAM, DEBORAH, 2002; Bachelor's, 1996, Northwestern University
 LEE, CECILIA S, 2014; Bachelor's, 2004, Emory University; Biology
 MUDUMBAI, RAGHU, 2000; Bachelor's, 1990, New York University
 OLMOS DE KOO, LISA, 2016; Medical Doctorate, 2005, Baylor University
 PEPPLER, KATHRYN, 2013; Doctorate, 2006, Baylor College of Medicine; Molecular Genetics
 TARAVATI, PARISA, 2009; Bachelor's, 2001, University of Iowa
 WEN, JOANNE C, 2014; Bachelor's, 2004, Harvard University

Assistant Professors

CHEE, YEWLIN E, 2016; Bachelor's, 2004, Princeton University
 CHEN, ANDREW, 2020; Medical Doctorate, 2015, University of California-Los Angeles
 JUNG, HOON C, 2014; Bachelor's, 1998, Cornell University
 KUMAR, SABESAN RAM * 2015; Bachelor's, 2005, Indian Institute of Technology Delhi
 LEE, AARON, 2015; Bachelor's, 2004, Harvard University
 MANOOKIN, MICHAEL B * 2009; Bachelor's, 2002, Brigham Young University
 MERCADO, CARMEL, 2019; Medical Doctorate, 2014, Johns Hopkins University
 PETERSEN, CHRISTINE A, 2015; Bachelor's, 2008, Eastern Oregon University; Biochemistry
 SARAF, STEVEN, 2017; Medical Doctorate, 2012, University of California-Los Angeles
 STACEY, ANDREW, 2016; Bachelor's, 2005, Brigham Young University
 YANG, DONG, 2019; Medical Doctorate, 2010, University of Florida
 ZHANG, MATTHEW MAO, 2018; Medical Doctorate, 2012, University of Pittsburgh-Pittsburgh Campus

Orthopaedics

PARK, JULIE RUGGIERI, 1988; Bachelor's, 1983, University of Vermont
PIHOKER, CATHERINE, 1997; Medical Doctorate, 1987, Albany Medical College
PORTMAN, MICHAEL A., 1992; Bachelor's, 1974, John Carroll University
RAJAGOPAL, LAKSHMI * 1999; Bachelor's, 1993, Bangalore University
RAMSEY, BONNIE W, 1978; Medical Doctorate, 1976, Harvard University
RAWLINGS, DAVID J * 2001; Bachelor's, 1979, Davidson College
REDDING, GREGORY J, 1980; Medical Doctorate, 1974, Stanford University
RICHARDSON, LAURA P., 1998; Bachelor's, 1991, University of Michigan-Ann Arbor
RIVARA, FREDERICK P. * 1984; Bachelor's, 1970, College of the Holy Cross
ROSE, TIMOTHY M * 1991; Doctorate, 1981, Switzerland University of Business and International Studies Geneva
ROSENFELD, MARGARET, 1988; Medical Doctorate, 1988, Harvard University
ROTH, CHRISTIAN L., 2007; Medical Doctorate, 1990, University of Professional Education Heidelberg
SAELENS, BRIAN E * 2006; Bachelor's, 1992, Cornell University
SALERNO, JACK, 2003; Medical Doctorate, 1996, University of California-San Diego
SCHARENBERG, ANDREW M., 2000; Bachelor's, 1985, Indiana University-Bloomington
SCOTT, C RONALD, 1965; Medical Doctorate, 1959, University of Washington
SESLAR, STEPHEN, 2008; Doctorate, 1993, Georgetown University
SHUGERMAN, RICHARD P, 1984; Bachelor's, 1979, Case Western Reserve University
SIDBURY, ROBERT, 2000; Bachelor's, 1985, Duke University
SMITH, CHARLES VINCENT, 2007; Bachelor's, 1970, Rice University
SMITH, JODI, 1999; Bachelor's, 1991, McGill University
SMITH, JOSEPH * 2003; Bachelor's, 1988, Macalester College
SMITH, MARK S, 1977; Medical Doctorate, 1969, Virginia University of Lynchburg
SMITH, SHERILYN, 1994; Medical Doctorate, 1989, Baylor University
SODORA, DONALD L * 2008; Bachelor's, 1985, Rutgers University-Camden
STAPLETON, F. BRUDER, 1996; Bachelor's, 1968, University of Kansas

STOUT, JAMES W., 1986; Master's, 1981, Duke University
STUART, KENNETH DANIEL * 1985; Bachelor's, 1963, Northeastern University
STUDHOLME, COLIN * 2011; Bachelor's, 1990, University of Bradford
SUSKIND, DAVID, 2003; Medical Doctorate, 1997, Louisiana State University
SYMONS, JORDAN, 1999; Medical Doctorate, 1992, Columbia University
TORBETT, BRUCE E, 2020; Doctorate, 1988, University of California-Los Angeles; Philosophy
URDAHL, KEVIN B. * 1995; Bachelor's, 1987, Concordia College
WALKER, WILLIAM O., 1993; Bachelor's, 1975, Tulane University of Louisiana
WALKER-HARDING, LESLIE, 2016
WATSON, ROBERT SCOTT, 1993; Medical Doctorate, 1993, University of Pennsylvania
WEDGWOOD, RALPH J, 1962; Medical Doctorate, 1947, Harvard University
WELSH, JOHN P. * 2009; Bachelor's, 1983, Bucknell University
WILFOND, BENJAMIN S * 2006; Bachelor's, 1981, Muhlenberg College
WOODWARD, GEORGE A., 2003; Medical Doctorate, 1983, Temple University
YOUNG, LUCIANA T, 2016; Bachelor's, 1985, Wayne State University
ZERR, DANIELLE M., 1993; Bachelor's, 1989, Brandeis University
ZIMMERMAN, JERRY J., 1998; Bachelor's, 1970, University of Wisconsin Colleges
ZINNER, SAMUEL, 2003; Bachelor's, 1987, University of California-Berkeley

Associate Professors

AHRENS, KYM, 2002; Medical Doctorate, 2002, University of Iowa
ALBERS, ERIN, 2012; Bachelor's, 2000, University of Illinois at Urbana-Champaign
AMBARTSUMYAN, LUSINE, 2013; Medical Doctorate, 2007, Drexel University
ARYA, BHAWNA, 2013; Bachelor's, 2002, Johns Hopkins University
BECK, ANITA E., 2005; Bachelor's, 1988, Massachusetts Institute of Technology
BENDER, MICHAEL ANGELO, 1982; Bachelor's, 1982, University of California-San Diego
BHAT, AARTI, 2011; Medical Doctorate, 1997, Guru Gobind Singh Indraprastha University
BJORNSON, KRISTIE F, 1986; Bachelor's, 1979, University of Minnesota-Duluth
BLEAKLEY, MARIE, 2002; Medical Doctorate, 1993, Flinders University
BRANDLING-BENNETT, HEATHER, 2009; Bachelor's, 1999, Dartmouth College
BROWN, JULIE C, 1996; Medical Doctorate, 1991, McGill University
BUDDHE, SUJATHA, 2013; Medical Doctorate, 2003, Osmania University
BURNS, REBEKAH A., 2013; Bachelor's, 2003, Reed College
BURROUGHS, LAURI, 2001; Bachelor's, 1993, University of Wisconsin-Madison
CAGLAR, DERYA, 2008; Medical Doctorate, 2001, New York Medical College
CHAN, TITUS, 2013; Bachelor's, 2002, University of Alberta
CHEN, KARIN, 2020
CHEN, MAIDA L. * 2005; Bachelor's, 1994, Northwestern University
CHOW, ERIC J., 2001; Master's, 2000, University of California-Berkeley
CHRISMAN, SARA P. D., 2003; Bachelor's, 1993, University of Pennsylvania
CHUN, TERRENCE, 2004; Medical Doctorate, 1997, American College
CLARK, JONNA D., 2008; Bachelor's, 1998, Georgetown University
COKER, TUMAINI, 2016; Bachelor's, 1995, Stanford University
CROWELL, CLAUDIA S, 2003; Medical Doctorate, 2006, University of Washington
DEBLEY, JASON S., 2000; Medical Doctorate, 1995, Northwestern University
DEEN, JASON F, 2010; Bachelor's, 1996, George Washington University
DELROSSO, LOURDES, 2018
DI GENNARO, JANE L., 2001; Bachelor's, 1994, Colgate University

DICHEK, A. K. HELEN L, 2001; Bachelor's, 1976, Académie Universitaire Louvain
DIVALL, SARA A, 2014; Bachelor's, 1995, University of Wisconsin-Madison
EVANS, YOLANDA N, 1999; Medical Doctorate, 2005, Oregon Health & Science University
FARRIS, REID W., 2005; Bachelor's, 1999, Pacific Lutheran University
FILES, MATTHEW D, 2010; Bachelor's, 2002, South University
FRIEDLAND-LITTLE, JOSHUA M, 2000; Bachelor's, 2000, Bowdoin College
GALLAGHER, EMILY R, 2007; Bachelor's, 1996, Brown University
GARDNER, REBECCA A, 2006; Bachelor's, 1999, Bates College
GIEFER, MATTHEW J, 2009; Medical Doctorate, 2006, Loyola University Chicago
GRAHAM, ELINOR A., 1983; Master's, 1993, Johns Hopkins University
GROW, H. MOLLIE GREVES, 2003; Bachelor's, 1997, Dartmouth College
GRUNDNER, CHRISTOPH * 2010; Master's, 1999, Humboldt Universität zu Berlin
GUPTA, DEEPTI, 1999; Bachelor's, 2002, University of Washington
HAYWARD, KRISTEN, 2001; Bachelor's, 1996, Duke University
HEIKE, CARRIE, 1997; Bachelor's, 1996, University of Washington
HELTSHE, SONYA L., 2010; Master's, 2004, University of Colorado Denver
HOFSTETTER, ANNIKA M, 2014; Master's, 2011, Columbia University
HOLM, VANJA A, 1982; Medical Doctorate, 1954, Karolinska Institute
HONG, BORAH J, 2007; Bachelor's, 2002, Duke University
HRABOVSKY KOVES, ILDIKO, 2008; Medical Doctorate, 1994, University of Pécs
HSU, EVELYN K., 2003; Bachelor's, 1998, University of Wisconsin Colleges
INWARDS-BRELAND, DAVID JEROME, 2009; Master's, 1996, University of California-Berkeley
JACKSON, SHAUN W., 2008; Medical Doctorate, 2001, University of Cape Town
JAMES, RICHARD G. * 2010; Doctorate, 2005, Harvard University
JASPAN, HEATHER B, 1999; Doctorate, 1999, Tulane University of Louisiana
JOHNSTON, TROY, 1999; Bachelor's, 1986, Virginia University of Lynchburg
JOSHI, SARITA, 2019
KAPLAN, RON L., 2003; Bachelor's, 1987, Brown University
KATZENELLENBOGEN, RACHEL A, 1999; Bachelor's, 1994, Harvard University
KAUSHANSKY, ALEXIS L * 2015; Master's, 2008, Harvard University
KEMNA, MARISKA S, 2008; Medical Doctorate, 1995, Erasmus University of Rotterdam
KETT, JENNIFER C., 2020; Medical Doctorate, 2005, Albert Einstein College of Medicine
KIM, GRACE J, 2013; Bachelor's, 2000, Smith College
KING, MARY ALICE, 2001; Bachelor's, 1996, University of California-Berkeley
KRONMAN, MATTHEW P., 2003; Master's, 2011, University of Pennsylvania
LEARY, SARAH E., 2009; Bachelor's, 1996, Duke University
LEE, DALE Y, 2014; Bachelor's, 2002, Rice University
LEGER, KASEY J, 2014; Bachelor's, 2001, The University of Texas
LEU, MICHAEL * 1984; Bachelor's, 1985, University of Washington
LEWIS, CHARLOTTE * 1998; Master's, 1988, Cornell University
LEWIS-NEWBY, MITHYA, 1996; Bachelor's, 1993, University of Washington
LOREN, DAVIA LIBA, 2004; Bachelor's, 1987, Oberlin College
LUQUETTI, DANIELA V., 2009; Doctorate, 2009, Universidade de São Paulo (USP)
MAGA, ALI MURAT, 2008; Bachelor's, 1999, Ankara University
MCGUIRE, JOHN K, 2004; Bachelor's, 1991, Northwestern University
MCKINNEY, CHRISTY M., 2002; Master's, 2002, Tulane University of Louisiana
MIRZAA, GHAYDA, 2012; Bachelor's, 2001, Arabian Gulf University
MORENO, MEGAN A, 2005; Medical Doctorate, 2000, George Washington University
MORRAY, BRIAN, 2008; Bachelor's, 2003, Duke University

MUNSHI, RAJ P., 2009; Bachelor's, 1999, Rutgers University-Camden
MURPHY, JANET HAWORTH, 1982; Bachelor's, 1964, University of Manchester
NAGLE, KYLE B., 2017
NANDA, KABITA, 2012; Bachelor's, 1999, Indiana University-Bloomington
NICHOLS, DAVID, 2016; Medical Doctorate, 2001, University of Missouri-Columbia
NIELSEN, KATIE R., 2006; Bachelor's, 2001, Truman State University
NIGAM, VISHAL, 2017; Medical Doctorate, 1999, Baylor College of Medicine
OKAMURA, DARYL M, 1988; Medical Doctorate, 1998, University of Hawaii
OLSON, AARON K., 2006; Bachelor's, 1995, Hamline University
ONG, THIDA, 2009; Bachelor's, 1999, McGill University
OPEL, DOUGLAS J., 2002; Bachelor's, 1996, Duke University
OUKKA, MOHAMED, 2009; Master's, 1991, Université Denis Diderot Paris VII
PAK-GORSTEIN, SUZINNE, 2003; Medical Doctorate, 2000, Michigan State University
PARIS, CAROLYN A., 1996; Medical Doctorate, 1991, Cornell University
PETROVIC, ALEKSANDRA, 2016; Medical Doctorate, 1997, Oregon Health & Science University
PILIPONSKY, ADRIAN M. * 2011; Doctorate, 2003, Hebrew University of Jerusalem
PINTO, NAVIN, 2015; Bachelor's, 2001, University of Missouri-St Louis
REID, JENNIFER R, 1989; Bachelor's, 1993, Columbia University
RINGOLD, SARAH, 2001; Medical Doctorate, 2001, Harvard University
ROBERTS, JOAN S., 1992; Bachelor's, 1986, Johns Hopkins University
ROSENBERG, ABBY R., 2006; Bachelor's, 1996, Brandeis University
RUTMAN, LORI ELLEN, 2011; Medical Doctorate, 2008, Stanford University
SALEHI, PARISA, 2013; Bachelor's, 2003, University of California-Riverside
SARKAR, SUROJIT * 2015; Master's, 1995, Jawaharlal Nehru University
SATHER, DAVID NOAH, 2018
SATHYANARAYANA, SHEELA, 2002; Bachelor's, 1997, Duke University
SAWYER, TAYLOR L, 2012; Bachelor's, 1997, Coe College
SCHENKMAN, KENNETH A. * 1990; Medical Doctorate, 1986, Indiana University-Bloomington
SCHULTZ, AMY H., 2005; Bachelor's, 1992, Cornell University
SHAFII, TARANEH, 2000; Medical Doctorate, 1996, University of Louisville
SHAH, SEEMA, 2016; Bachelor's, 2000, Stanford University
SHENOI, SUSAN, 2008; Medical Doctorate, 1998, Mumbai University
SHIC, FREDERICK, 2016; Bachelor's, 1992, California Institute of Technology
SHIH, ANDY, 2018; Doctorate, 2006, University of British Columbia
SIMON, TAMARA D., 2010; Bachelor's, 1994, Colgate University

Professors

BAJJALIEH, SANDRA M. * 1995; Bachelor's, 1975, University of Illinois at Urbana-Champaign
BEAVO, JOSEPH A * 1977; Bachelor's, 1965, Stetson University
CATTERALL, WILLIAM A * 1977; Bachelor's, 1968, Brown University
CHAVKIN, CHARLES * 1984; Bachelor's, 1974, Cornell University
GARDNER, RICHARD G. * 2006; Bachelor's, 1992, Cornell University
HORITA, AKIRA, 1982; Bachelor's, 1950, University of Washington
JUCHAU, MONT RAWLINGS, 1969; Doctorate, 1966, University of Iowa
MCKNIGHT, G. STANLEY * 1979; Bachelor's, 1970, Bates College
MOON, RANDALL T * 1985; Bachelor's, 1977, New College of Florida
NATHANSON, NEIL * 1979; Doctorate, 1975, Brandeis University
SCHEUER, TODD, 1985; Bachelor's, 1977, Grinnell College
SCOTT, JOHN D * 2008; Bachelor's, 1980, Heriot-Watt University
SLATTERY, JOHN T * 1982; Doctorate, 1978, New York University
STELLA, NEPHI * 1999; Doctorate, 1995, École Polytechnique Fédérale de Lausanne
STORM, DANIEL R * 1978; Doctorate, 1971, University of California-Berkeley
VINCENZI, FRANK F, 1982; Bachelor's, 1960, University of Washington
ZHENG, NING * 2002; Bachelor's, 1991, Fudan University

Associate Professors

HAGUE, CHRIS * 2005; Doctorate, 2002, Creighton University
ONG, SHAO-EN * 2010; Bachelor's, 1995, University of Minnesota-Duluth
WANG, EDITH H. * 1996; Master's, 1987, Columbia University

Assistant Professors

GUJRAL, TARANJIT S * 2018; Bachelor's, 2003, Queen's University
LAND, BENJAMIN * 2003; Bachelor's, 2002, Cornell University
SANCAK, YASEMIN S. * 2017; Bachelor's, 1997, Bogazici University; Molecular Biology
SHECHNER, DAVID MICHAEL * 2017; Doctorate, 2010, Massachusetts Institute of Technology; Biology
YADAV, SMITA * 2017; Doctorate, 2011, Carnegie Mellon University; Biology

Physiology and Biophysics

Professors

ASBURY, CHARLES L * 1993; Bachelor's, 1991, Cornell University
BARRIA-ROMAN, ANDRES * 2005; Doctorate, 1998, Universidad de Chile
BERGER, ALBERT J * 1982; Bachelor's, 1964, Cornell University
BINDER, MARC D * 1978; Bachelor's, 1971, Columbia University
BOTHWELL, MARK ALLEN * 1985; Doctorate, 1975, University of California-Berkeley
BRENGELMANN, GEORGE L, 1966; Bachelor's, 1956, University of Rochester
BUCK, LINDA B * 2003; Doctorate, 1980, The University of Texas
BUFFALO, ELIZABETH A * 2013; Master's, 1995, University of California-San Diego
CARLSON, STEVEN S. * 1985; Doctorate, 1975, University of California-Berkeley
COOK, DANIEL L * 1978; Bachelor's, 1967, University of Michigan-Ann Arbor
DETWILER, PETER B * 1977; Doctorate, 1970, Georgetown University
FAIRHALL, ADRIENNE L * 2003; Bachelor's, 1992, Australian National University
FEIGL, ERIC O * 1982; Bachelor's, 1954, University of Minnesota-Duluth
FETZ, EBERHARD * 1975; Doctorate, 1966, Massachusetts Institute of Technology
FROEHLER, STANLEY C * 2000; Doctorate, 1973, California Institute of Technology
FUCHS, ALBERT F * 1982; Bachelor's, 1960, Drexel University
GORDON, SHARONA E. * 1993; Bachelor's, 1990, Brown University
HILDEBRANDT, JACOB * 1966; Bachelor's, 1957, University of British Columbia
HILLE, BERTIL * 1968; Doctorate, 1967, Rockefeller University
HORWITZ, GREGORY * 2007; Bachelor's, 1993, Harvard University
KOERKER, DONNA J, 1982; Doctorate, 1970, University of Michigan-Ann Arbor
PERLMUTTER, STEVE I * 1991; Doctorate, 1991, Northwestern University
RIEKE, FREDERICK MARTIN * 1997; Bachelor's, 1988, University of California-Berkeley
ROWELL, LORING B, 1963; Bachelor's, 1953, Springfield College
SANTANA, LUIS F * 2001; Bachelor's, 1991, American University of Puerto Rico
SCHWINDT, PETER C, 1974; Master's, 1965, Massachusetts Institute of Technology
SMITH, ORVILLE A, 1958; Master's, 1950, Michigan State University
STIRLING, CHARLES E, 1982; Bachelor's, 1961, George Washington University
WORDEMAN, LINDA * 1994; Bachelor's, 1982, University of California-Berkeley
ZAGOTTA, WILLIAM N. * 1993; Doctorate, 1989, Stanford University

Associate Professors

ADAMS, MARVIN * 2000; Doctorate, 1991, Colorado State University
LIU, QINGHANG * 2011
MELBY, ANNA, 1996; Bachelor's, 1984, McGill University
SULLIVAN, JANE M * 2002; Bachelor's, 1984, Amherst College

Assistant Professors

MORENO MORENO, CLAUDIA M * 2019; Doctorate, 2012, Universidad Nacional Autónoma de México (UNAM)
OLSEN, SHAWN R * 2014; Doctorate, 2009, Harvard University
TUTHILL, JOHN C * 2016; Bachelor's, 2006, Swarthmore College

VIVAS RODRIGUEZ, OSCAR L * 2019; Doctorate, 2012, Universidad Nacional Autónoma de México (UNAM);
Biomedical Science
WATERS, DAVID J * 2013; Doctorate, 1997, University of London

Senior Lecturer

LINDER, THOMAS M, 1982; Bachelor's, 1966, Baldwin-Wallace College

Psychiatry and Behavioral Sciences

Professors

AREAN, PATRICIA A, 2015; Master's, 1986, Adelphi University
AVERY, DAVID H, 1982; Bachelor's, 1968, Wabash College
BEN-ZEEV, DROR Y, 2017; Master's, 2005, Illinois Institute of Technology
BORSON, SOO, 1983; Bachelor's, 1969, Stanford University
BRUNS, ERIC, 2005; Doctorate, 1997, University of Vermont
CAMPBELL, WILLIAM H., 2009; Master's, 1990, Jacksonville University
CARR, JOHN E, 1963; Bachelor's, 1956, Earlham College
CHWASTIAK, LYDIA, 1999; Master's, 1991, Georgetown University
COLLINS, PAMELA Y * 2018
COMTOIS, KATHERINE ANN, 1985; Doctorate, 1992, University of Maryland-College Park; Clinical Psychology
COWLEY, DEBORAH S, 1982; Bachelor's, 1976, Stanford University
DOERR, HANS O, 1982; Bachelor's, 1961, Florida State University
DUNN, CHRISTOPHER W., 1993; Bachelor's, 1973, Colgate University
FANN, JESSE R, 1990; Medical Doctorate, 1989, Northwestern University
FELKER, BRADFORD, 1997; Bachelor's, 1982, Virginia University of Lynchburg
FORTNEY, JOHN C * 2014; Doctorate, 1992, University of Iowa
GRANT, THERESE M., 1984; Master's, 1982, University of Oregon
HILT, ROBERT J, 2006; Bachelor's, 1991, University of Michigan-Ann Arbor
ILIFF, JEFFREY, 2019
KAYSEN, DEBRA, 2002; Bachelor's, 1991, Tufts University
KIMMEL, RYAN, 1994; Bachelor's, 1997, University of Washington
LARIMER, MARY E * 1987; Bachelor's, 1987, University of Washington
LATTEMANN, DIANNE * 1982; Bachelor's, 1974, American University
LINDGREN, KRISTEN, 2000; Bachelor's, 1998, Brown University
MC CANN, BARBARA S., 1986; Master's, 1982, Rutgers University-Camden
MC CAULEY, ELIZABETH * 1979; Doctorate, 1973, New York University
MC CLELLAN, JON M., 1984; Medical Doctorate, 1984, University of Michigan-Ann Arbor
NEUMAIER, JOHN F. * 1983; Bachelor's, 1983, Reed College
PASIC, JAGODA, 1997; Doctorate, 1990, King's College London
PESKIND, ELAINE R., 1986; Medical Doctorate, 1986, University of Washington
PHILLIPS, PAUL EDWARD MACKENZIE * 2004; Bachelor's, 1993, University of Liverpool
RASKIND, MURRAY, 1970; Medical Doctorate, 1968, Columbia University
RATZLIFF, ANNA DE HAAS, 2005; Bachelor's, 1994, Stanford University
RAUE, PATRICK, 2017; Bachelor's, 1989, Catholic University of America
REGER, MARK A., 2001; Master's, 1998, Rosemead Beauty School

RIES, RICHARD K., 1975; Medical Doctorate, 1975, Northwestern University
ROCKHILL, CAROL, 2000; Bachelor's, 1987, University of Illinois at Urbana-Champaign
ROESLER, THOMAS A, 1983; Medical Doctorate, 1972, University of Washington
ROMANO, JOAN, 1982; Bachelor's, 1973, Georgetown University
SAXON, ANDREW J, 1982; Medical Doctorate, 1977, Tufts University
SCHRIFT, MICHAEL, 2020
SIMPSON, TRACY L., 1997; Master's, 1993, University of Phoenix-New Mexico Campus; Doctorate, 1999, University of Phoenix-New Mexico Campus
SNOWDEN, MARK B., 1986; Bachelor's, 1984, Princeton University
STEIN, MARK A, 2013; Master's, 1972, Bowling Green State University-Firelands
SULLIVAN, MARK D. * 1985; Bachelor's, 1976, University of Michigan-Ann Arbor
SYRJALA, KAREN L., 1985; Doctorate, 1983, Boston University
THIELKE, STEPHEN, 1990; Bachelor's, 1992, Reed College
TOWNES, BRENDA D, 1961; Bachelor's, 1957, Antioch College
TRUPIN, ERIC W, 1973; Bachelor's, 1969, New York University
TSUANG, DEBBY W. * 1992; Medical Doctorate, 1988, University of Iowa
TURNER, ERIC E * 2009; Bachelor's, 1979, Stanford University
TURNER, JUDITH A, 1980; Master's, 1975, University of California-Los Angeles
VANDER STOEP, ANN * 1994; Bachelor's, 1973, Stanford University
VARLEY, CHRISTOPHER K., 1974; Medical Doctorate, 1973, University of Washington
VEITH, RICHARD, 1977; Medical Doctorate, 1973, University of Washington
VITALIANO, PETER P * 1978; Bachelor's, 1969, Queens College
VITIELLO, MICHAEL V, 1982; Bachelor's, 1973, Columbia University
WEBB, SARA JANE * 2001; Doctorate, 2001, University of Minnesota-Duluth
WILCOX, JAMES ALLEN, 2018
WISSOW, LAWRENCE SAGIN, 2019
ZATZICK, DOUGLAS F., 2000; Bachelor's, 1984, University of California-Berkeley
ZWEIFEL, LARRY * 2005; Doctorate, 2005, Johns Hopkins University

Associate Professors

ADRIAN, MOLLY C., 2003; Master's, 2007, University of Maine
BAUER, AMY, 2011; Bachelor's, 1994, University of California-Berkeley
BEARSS, KAREN E, 2016; Bachelor's, 1996, University of Florida
BEDARD-GILLIGAN, MICHELE A, 2003; Bachelor's, 2001, Pennsylvania State University-College of Medicine
BORGHESANI, PAUL R., 2001; Doctorate, 1999, Harvard University
BORISOVSKAYA, ANNA, 2002; Bachelor's, 1995, University of Miami
BOYNTON, LORIN D, 1995; Medical Doctorate, 1991, University of Cape Town
BRKANAC, ZORAN, 1998; Medical Doctorate, 1993, University of Zagreb
CARLIN, ALBERT S, 1964; Master's, 1961, Syracuse University
CARLISLE, LYNDA LEE, 1987; Medical Doctorate, 1985, Medical College of Georgia
CLARK, JEREMY J., 2001; Bachelor's, 2001, California State University
CLIFASEFI, SEEMA L., 1992; Doctorate, 2003, University of Manchester
COLLETT, BRENT, 2001; Bachelor's, 1996, University of Idaho
COMBS, HEIDI L., 1992; Bachelor's, 1985, University of Washington
CROICU, CARMEN A., 2005; Medical Doctorate, 1993, University of Bucharest
DAGADAKIS, CHRISTOS S, 1976; Bachelor's, 1970, University of Washington
FERGUSON, SUSAN * 2004; Bachelor's, 2000, University of Michigan-Ann Arbor
FRENCH, WILLIAM, 2008; Bachelor's, 1988, University of Kentucky

GERDTS, JENNIFER ANN, 2005; Bachelor's, 2003, Colby College
GONZALEZ, ERIN SCHOENFELDE, 2014; Master's, 2008, Arizona State University
GUTTMANNOVA, KATARINA, 2009; Bachelor's, 1997, Slippery Rock University of Pennsylvania
HAMBLIN, MARK W., 1990; Doctorate, 1982, University of California-San Diego
HARNED, MELANIE S, 2004; Doctorate, 2002, University of Illinois at Urbana-Champaign
HARRISON, DAVID A, 2007; Bachelor's, 1985, Stanford University
HAWKINS, ERIC J., 2005; Doctorate, 2004, Brigham Young University
HSIAO, RAY CHIH-JUI, 2000; Bachelor's, 1996, Northwestern University
KERNS, SUZANNE, 2004; Bachelor's, 1997, Pennsylvania State University-College of Medicine
KILMER, JASON, 1991; Bachelor's, 1991, University of Washington
KIM, SOO-JEONG, 2011; Medical Doctorate, 1993, Seoul National University
KIVLAHAN, DANIEL R, 1983; Master's, 1979, University of Missouri
KODISH, IAN M., 2004; Bachelor's, 1995, Brown University
KOHEN, RUTH, 1988; Medical Doctorate, 1986, Fachhochschule Aachen
LEHAVOT, KEREN * 2005; Master's, 2007, University of Washington
LEVY, MITCHELL, 1996; Medical Doctorate, 1996, George Washington University
LI, GAIL, 1996; Bachelor's, 1983, Shanxi University
LOCKE, JILL J, 2015; Bachelor's, 2005, University of California-Los Angeles
LOSTUTTER, TY W., 1994; Bachelor's, 1996, University of Washington
LYON, AARON R., 2008; Master's, 2005, DePaul University
MONROE-DEVITA, MARIA, 2000; Bachelor's, 1993, Boston University
MURRAY, SUZANNE B, 1991; Medical Doctorate, 1997, Temple University
PAGULAYAN, KATHLEEN F., 2003; Bachelor's, 1997, College of the Holy Cross
PARKER, MYRA, 2003; Bachelor's, 1996, Stanford University
PASCUALY, O MARCELLA, 1984
PETRIE, ERIC C., 1983; Medical Doctorate, 1985, University of Washington
PIEL, JENNIFER L., 1996; Medical Doctorate, 2007, University of Southern California
POESCHLA, BRIAN D., 2002; Bachelor's, 1981, Duke University
RADANT, ALLEN D, 1985; Medical Doctorate, 1985, University of California-Davis
REGER, GREG M, 2015; Master's, 2000, Fuller Theological Seminary in California
REOUX, JOSEPH P, 1995; Medical Doctorate, 1985, The University of Texas Health Science Center at Houston
RHEW, ISAAC CHUNG HYUN * 2003; Bachelor's, 1995, Stanford University
RUSSO, JOAN E., 1982; Bachelor's, 1977, California State University
SIBLEY, MARGARET HARPER, 2019
STAPPENBECK, CYNTHIA A, 2011; Master's, 2002, New York University
STORCK, MICHAEL G., 1989; Bachelor's, 1975, Denison University
STRACHAN, ERIC, 2003; Master's, 2003, American University
SZOT, PATRICIA, 1987; Master's, 1982, Idaho State University
TRITTSCHUH, EMILY H, 2008; Doctorate, 2006, Northwestern University
VERHULST, JOHAN, 1982; Bachelor's, 1960, Université Catholique de Louvain
VILLACRES, ENRIQUE C., 1981; Bachelor's, 1977, California State University-Northridge
WILSON, LAWRENCE G, 1982; Bachelor's, 1962, University of Kansas
WINGERSON, DANE K, 1987; Bachelor's, 1983, Lewis and Clark Community College
WOMACK, WILLIAM M, 1982; Bachelor's, 1957, Lincoln University
YUODELIS-FLORES, CHRISTINE, 1982; Bachelor's, 1981, University of Washington

Assistant Professors

BHAT, AMRITHA SUBRAY, 2012; Medical Doctorate, 2000, Bangalore University

BLACK, TAYLOR M., 2004; Bachelor's, 2003, University of Washington
BLEDSOE, JESSE C., 2011; Master's, 2008, Michigan State University
BUCHHOLZ, JONATHAN J., 2004; Bachelor's, 2004, University of Washington
CARLSON, ERIK S., 2010; Bachelor's, 1999, Lawrence University
CERIMELE, JOSEPH, 2012; Bachelor's, 2004, Case Western Reserve University
CHEN, JESSICA ANN, 2008
DARNELL, DOYANNE A, 2012; Master's, 2007, Georgia State University
DE LACY, NINA, 2011; Master's, 1993, Northwestern University
DEAN, PAMELA M., 2016; Master's, 2007, Gallaudet University
DUNCAN, MARK H, 2009; Bachelor's, 2000, North Park University
ERICKSON, JENNIFER MARIE, 2016; Bachelor's, 2006, Washington State University
GOLD, SARI D., 2011; Bachelor's, 1997, Swarthmore College
HALLGREN, KEVIN A * 2014; Bachelor's, 2007, University of Missouri-Columbia
HOERSTER, KATHERINE D, 2010; Bachelor's, 2001, Connecticut College
JENNESS, JESSICA, 2014
KOPACZ, DAVID R, 2014; Medical Doctorate, 1993, University of Illinois at Chicago
KOPELOVICH, SARAH L, 2015; Bachelor's, 2003, George Washington University
LAPLANTE, LAURA M, 2014; Bachelor's, 2006, University of Wisconsin-Madison
LIU, FREDA, 2010; Master's, 2007, Arizona State University
MARKMAN, JESSE D, 2009; Master's, 2009, University of Michigan-Ann Arbor
MCCANN, RUSSELL A, 2001; Master's, 2007, Seattle Pacific University
MCGINN, MEGHAN M, 2013; Bachelor's, 2004, Boston College
MINJAREZ, MENDY, 2013; Bachelor's, 1998, Claremont McKenna College
MONTENEGRO, ROBERTO EMILIO, 2016
NAIR, SUNILA, 2009; Bachelor's, 1999, Indira Gandhi Institute of Medical Sciences
NEUHAUS, EMILY, 2005; Bachelor's, 2007, University of Central Oklahoma
READ, KENDRA L., 2016; Bachelor's, 2007, Bucknell University
RUSKIN, DAVID, 2017; Bachelor's, 1992, University of California-San Diego
RUSSELL, DOUGLAS A., 2016; Medical Doctorate, 2011, Thomas Jefferson University
SCHINDLER, ABIGAIL G * 2007; Doctorate, 2012, University of Washington
SCHREIBER, MATTHEW A, 1999; Bachelor's, 1988, Oberlin College
SEDLAR, GEORGANNA * 2012; Bachelor's, 1993, University of California-San Diego
SHARMA, ADITI, 2014; Bachelor's, 2007, University of Michigan-Ann Arbor
SIMMONS, SHANNON W, 2013; Bachelor's, 2002, Tulane University of Louisiana
SOEPRONO, THOMAS M., 2010; Medical Doctorate, 2010, Loma Linda University
SYLVERS, PATRICK D, 2002; Doctorate, 2010, Emory University
THOMPSON, ALYSHA, 2019
TOOR, RAMANPREET, 2014; Medical Doctorate, 2003, Russian State Medical University
VILLATTE, JENNIFER, 2012; Bachelor's, 1999, Lesley University
WALLACE, CATHERINE M, 2015; Bachelor's, 2005, Syracuse University
WANG, LUCY Y., 2002; Bachelor's, 1998, Massachusetts Institute of Technology

KUSHMERICK, MARTIN J., 1988; Medical Doctorate, 1963, University of Pennsylvania
LEE, CHRISTOPH ILSUK, 2012; Bachelor's, 1998, Princeton University
LEE, JANIE M, 2013; Bachelor's, 1993, Harvard University
LEWIS, DAVID H., 1985; Medical Doctorate, 1985, Virginia Commonwealth University
MARCINEK, DAVID J. * 2000; Bachelor's, 1993, Kalamazoo College
MIYAOKA, ROBERT SADAQ * 1984; Bachelor's, 1983, Harvey Mudd College
MONSKY, WAYNE L., 2012; Master's, 1988, Georgetown University
MOSHIRI, MARIAM, 2005; Bachelor's, 1991, New York University
NELP, WIL B, 1982; Bachelor's, 1951, Franklin and Marshall College
ORDOVAS, KAREN, 2020; Medical Doctorate, 1998, Universidade Federal do Rio Grande do Sul (UFRGS)
PALADIN, ANGELISA M., 1998; Medical Doctorate, 1999, Chicago State University
PARISI, MARGUERITE T., 2001; Bachelor's, 1974, Brookline College
PARTRIDGE, SAVANNAH C, 2005; Doctorate, 2001, University of California-Berkeley
PIPAVATH, SUDHAKAR N., 2002; Medical Doctorate, 1997, All India Institute of Medical Sciences
RAJENDRAN, JOSEPH, 1994; Medical Doctorate, 1973, Madurai Kamaraj University
REDDY, GAUTHAM P., 2008; Master's, 1991, George Washington University

RICHARDSON, MICHAEL L., 1984; Medical Doctorate, 1975, Baylor University
 SAHANI, DUSHYANT, 2019
 SHAW, DENNIS, 1983; Bachelor's, 1979, University of Washington
 SHIBATA, DEAN K., 1990; Bachelor's, 1983, California Institute of Technology
 STERN, ERIC J., 1992; Bachelor's, 1981, Moravian College and Moravian Theological Seminary
 TALNER, LEE B., 1993; Bachelor's, 1959, Amherst College
 VALJI, KARIM, 2007; Bachelor's, 1978, Harvard University
 VESSELLE, HUBERT J. * 1997; Master's, 1986, Case Western Reserve University
 WESTPHALEN, ANTONIO, 2020; Medical Doctorate, 1995, Universidade Federal do Rio Grande do Sul (UFRGS)
 YANG, XIAOMING, 2006; Master's, 1986, Peking Union Medical College
 YUAN, CHUN * 1991; Bachelor's, 1982, Beijing Normal University
 YUH, WILLIAM, 2013; Master's, 1974, Auburn University-Montgomery

Associate Professors

ANDRE, JALAL B., 2011; Medical Doctorate, 2004, Drexel University
 BASTAWROUS, SARAH, 2009; Bachelor's, 1996, Old Dominion University
 BHUTTA, SADAF, 2013; Medical Doctorate, 1996, King Edward Medical University
 BOLUS, DAVID N., 2018; Bachelor's, 1981, University of Alabama at Birmingham
 CUEVAS, CARLOS, 2001; Medical Doctorate, 1992, Pontificia Universidad Católica de Chile *
 DALLEY, ROBERTA W., 1987; Medical Doctorate, 1982, University of Utah
 FERGUSON, MARK R., 2004; Bachelor's, 1996, University of Michigan-Ann Arbor
 FINK, JAMES R, 2005; Bachelor's, 1987, Reed College
 HOFF, MICHAEL N, 2013; Bachelor's, 1997, University of British Columbia
 INGRAHAM, CHRISTOPHER R., 2006; Bachelor's, 2001, New York University
 ISHAK, GISELE ELIAS, 2005; Medical Doctorate, 2000, Beirut University
 JOHNSON, GUY, 1999; Medical Doctorate, 2007, New York Medical College
 KAMPS, SHAWN ELIZABETH, 2002; Medical Doctorate, 2001, Eastern Virginia Medical School
 KIM, SOOAH, 2013; Master's, 2003, Chungbuk National University
 KLEINHANS, NATALIA M., 2005; Doctorate, 2005, San Diego State University
 KOGUT, MATTHEW J., 2004; Bachelor's, 2000, Grand Valley State University
 KOLOKYTHAS, ORPHEUS, 2002; Medical Doctorate, 1994, Ruprecht Karls Universität Heidelberg
 KWAN, SHARON W, 2011; Medical Doctorate, 2005, Stanford University
 LEE, HYOJEONG, 2007; Medical Doctorate, 1992, Chungnam National University
 LEE, JEAN H., 2004; Medical Doctorate, 1996, Korea University
 LI, TAO, 2012; Doctorate, 1992, Southern Medical University (First Military Medical University)
 LINNAU, KEN F., 2000; Medical Doctorate, 1996, International University Vienna
 MAXIMIN, SURESH T, 2013; Medical Doctorate, 1988, Northeastern Ohio Universities Colleges of Medicine and Pharmacy
 MEDVERD, JONATHAN R., 1995; Medical Doctorate, 1995, New York University
 MONROE, ERIC JAMES, 2010; Bachelor's, 2005, University of Wisconsin-Madison
 O'MALLEY, RYAN B., 2013; Bachelor's, 2003, University of Notre Dame
 OTTO, RANDOLPH K, 2007; Bachelor's, 1981, University of Michigan-Ann Arbor
 PEREZ, FRANCISCO A., 1998; Bachelor's, 1998, Harvard University
 PHILLIPS, GRACE SIAN, 2002; Medical Doctorate, 1997, Johns Hopkins University
 RAHBAR, HABIBOLLAH, 2005; Medical Doctorate, 2005, University of Michigan-Ann Arbor
 RELYEA-CHEW, ANNEMARIE, 2004; Bachelor's, 1977, Sojourner-Douglass College
 ROBINSON, JEFFREY D., 1998; Medical Doctorate, 1985, University of Minnesota-Duluth
 SANDSTROM, CLAIRE K., 2007; Medical Doctorate, 2006, Duke University

SCHEEL, JOHN, 2012; Bachelor's, 1997, University of California-Riverside
SHIVARAM, GIRIDHAR M., 2008; Bachelor's, 2000, Harvard University
SHRIKI, JABI E, 2014; Medical Doctorate, 2000, The University of Texas at San Antonio
STANESCU, ARTA LUANA, 2006; Medical Doctorate, 1994, Carol Davila University of Medicine and Pharmacy
SWANSON, JONATHAN, 2004; Bachelor's, 1995, Duke University
THAPA, MAHESH, 2001; Bachelor's, 1996, University of Nevada-Las Vegas
VAIDYA, SANDEEP, 2004; Medical Doctorate, 1995, Mumbai University
WANG, CAROLYN L, 2009; Bachelor's, 1999, Rice University
WEAVER, KURT E., 2006; Master's, 2001, Boston University

Assistant Professors

AMIN, KATHAN, 2019; Bachelor's, 2009, Illinois Institute of Technology
BEHNIA, FATEMEH, 2006; Medical Doctorate, 1987, University of Tehran
BENJERT, JAYSON L, 1999; Medical Doctorate, 2005, A T Still University of Health Sciences
BRUNNQUELL, CHRISTINA L., 2018; Bachelor's, 2010, Gustavus Adolphus College; Physics
CHALIAN, MAJID, 2019; Medical Doctorate, 2006, Iran University of Medical Sciences
CHICK, JEFFREY, 2019; Bachelor's, 2005, Colgate University; Biochemistry
COLIP, CHARLES GEORGE, 2017
CROSS, NATHAN, 2011; Bachelor's, 2006, Case Western Reserve University
JAHANIAN, HESAMODDIN, 2017; Bachelor's, 2000, Amirkabir University of Technology; Biomedical Engineering
JOYCE, RYAN, 2019; Medical Doctorate, 2013, St. George's University School of Medicine
KHALATBARI, HEDIEH, 2012; Medical Doctorate, 1995, University of Tehran
KIM, HELEN HYE RYONG, 2019; Medical Doctorate, 2011, Stony Brook University
KOO, KEVIN S, 2017; Bachelor's, 2004, Emory University
LAM, DIANA LAP YING, 2010; Bachelor's, 2004, Massachusetts Institute of Technology
LERNER, DAVID, 2019; Bachelor's, 2005, Rutgers University-New Brunswick
LIM, JIHOON, 2020; Bachelor's, 2007, University of California-Berkeley
LOWRY, KATHRYN P., 2017; Bachelor's, 2005, Duke University; Psychology
MALONEY, EZEKIEL J., 2006; Bachelor's, 2005, Columbia University in the City of New York
MANSOORI, BAHAR, 2019; Medical Doctorate, 2008, Iran University of Medical Sciences
MATESAN, MANUELA CRISTINA, 2007; Medical Doctorate, 1996, University of Medicine and Pharmacy Victor Babes Timisoara
MCNEELEY, MICHAEL FIELDEN, 2009; Bachelor's, 2001, The University of Tennessee
MENASHE, SARAH J, 2012; Medical Doctorate, 2007, Jefferson College
MILETO, ACHILLE, 2016; Medical Doctorate, 2008, Università degli Studi di Messina
MOGENSEN, MONIQUE A., 2018; Bachelor's, 1991, University of Pennsylvania; Biology
NGO, ANH-VU HUYNH, 2000; Medical Doctorate, 2008, Medical College of Wisconsin; Medicine
OTJEN, JEFFREY P., 2005; Medical Doctorate, 2005, Baylor University
RANE, SWATI D, 2015; Doctorate, 2009, Georgia Institute of Technology-Main Campus
REHWALD, CHRISTINE, 2000; Medical Doctorate, 2013, George Washington University; Medicine
REIS, JOSEPH, 2018; Medical Doctorate, 2008, SUNY
RIPLEY, BETH ANN, 2015; Bachelor's, 1998, Stanford University
ROMBERG, ERIN K., 2018; Bachelor's, 2008, Oberlin College; Biology
SHIN, DAVID SUNWOONG, 2011; Bachelor's, 2006, Stanford University
SOLOFF, ERIK, 2017; Bachelor's, 1993, University of Michigan-Ann Arbor
TANG, ELIZABETH, 2014; Medical Doctorate, 2009, Albert Einstein College of Medicine
WANGARYATTAWANICH, PATTANA, 2020; Medical Doctorate, 2003, Chulalongkorn University; Medicine
WRIGHT, JASON NEAL NIXON, 2007; Medical Doctorate, 2006, Chicago State University

WU, LEI, 2014; Bachelor's, 2006, California State University; Biology
ZHANG, MAN, 2017; Medical Doctorate, 2001, Nanjing Medical University

Rehabilitation Medicine

Professors

AMTMANN, DAGMAR * 1991; Bachelor's, 1980, University of Economics and Management
ANDERSON, MARJORIE E., 1982; Bachelor's, 1963, Michigan State University
APKON, SUSAN D, 2009; Bachelor's, 1986, Northwestern University
BOMBARDIER, CHARLES H. * 1989; Bachelor's, 1979, University of Washington
CHILDERS, MARTIN K, 2012; Bachelor's, 1980, Seattle Pacific University
CIOL, MARCIA A. * 1985; Bachelor's, 1979, Universidade Estadual de Campinas (Unicamp)
CZERNIECKI, JOSEPH M * 1982; Bachelor's, 1975, University of British Columbia
DEITZ, JEAN L, 1982; Master's, 1970, University of Florida
EHDE, DAWN M * 1991; Master's, 1989, University of North Dakota
ESSELMAN, PETER C. * 1986; Bachelor's, 1975, University of Washington
FRASER, ROBERT T * 1976; Bachelor's, 1968, Le Moyne College
FRIEDLY, JANNA L., 2001; Medical Doctorate, 2001, Oregon Health & Science University
GOLDSTEIN, BARRY * 1987; Bachelor's, 1974, Occidental College
HAFNER, BRIAN * 1996; Bachelor's, 1996, Southeastern Oklahoma State University
HASELKORN, JODIE K. * 1985; Medical Doctorate, 1985, Louisiana State University
HOFFMAN, JEANNE MARIE, 1999; Master's, 1995, Arizona State University
JENSEN, MARK PHILIP * 1987; Master's, 1984, Arizona State University
JIRIKOWIC, TRACY L. * 1993; Master's, 1995, University of Washington
JOHNSON, KURT LEWIS * 1990; Bachelor's, 1978, University of Washington
KARTIN, DEBORAH * 1984; Bachelor's, 1973, Boston University
KRAFT, GEORGE HOWARD * 1982; Bachelor's, 1958, Harvard University
LITTLE, JAMES WENDELL * 1984; Bachelor's, 1972, Brigham Young University
MASSAGLI, TERESA L. * 1985; Bachelor's, 1978, Brown University
MCCOY, SARAH WESTCOTT * 1984; Bachelor's, 1976, The University of Montana
MOLTON, IVAN, 2005; Master's, 2001, University of Colorado at Colorado Springs
PATTERSON, DAVID R. * 1984; Bachelor's, 1977, Emory University
PEPPING, MARY, 1994; Master's, 1975, California State University-Los Angeles
SHUMWAY-COOK, ANNE, 1995; Bachelor's, 1969, Indiana University-Bloomington
SLIMP, JEFFERSON C, 1979; Bachelor's, 1970, University of Washington
TURNER, AARON P., 1995; Master's, 1997, University of Washington
WILLIAMS, RHONDA M., 1998; Master's, 1995, Arizona State University
YORKSTON, KATHRYN * 1975; Bachelor's, 1970, Stanford University

Associate Professors

ALSCHULER, KEVIN N, 2010; Master's, 2006, Eastern Michigan University
BARR, KAREN P., 2001; Bachelor's, 1989, Kent State University
BAYLOR, CAROLYN RAE * 1987; Bachelor's, 1991, University of Washington
BROWN, MARY BETH, 2018; Doctorate, 2009, Georgia Institute of Technology-Main Campus
BURNS, STEPHEN P. * 1992; Bachelor's, 1988, Brown University

CRANE, DEBORAH ANN, 2005; Bachelor's, 1999, Santa Clara University
FOGELBERG, DONALD J, 2010; Bachelor's, 1989, Occidental College
GUTHRIE, MARK R., 1983; Master's, 1980, University of Washington
HAKIMI, KEVIN N., 2000; Bachelor's, 1996, University of Michigan-Ann Arbor
HARNISS, MARK * 1998; Doctorate, 1996, University of Oregon
HECKMAN, JEFFREY T, 2012; Bachelor's, 2002, Pennsylvania State University-College of Medicine
HOLDEFER, ROBERT N, 2009; Bachelor's, 1979, Drake University
HOWARD, ILEANA M, 2005; Medical Doctorate, 2004, Harvard University
KANNY, ELIZABETH M, 1982; Master's, 1977, Seattle University
KELLY, VALERIE E * 2003; Bachelor's, 1996, University of Pennsylvania
KINNEY, GREGORY A. * 1997; Doctorate, 1996, Northwestern University
MACK, DAVID L * 2012; Master's, 1993, Indiana University-Bloomington
MAITLAND, MURRAY E * 2006; Bachelor's, 1984, University of British Columbia
MARTINEZ, VICENTE, 2008; Bachelor's, 2000, Michigan State University
MC MILLAN, JO ANN, 1982; Bachelor's, 1953, University of North Texas
MCGOUGH, ELLEN L. * 1990; Master's, 2003, University of Washington
MCQUADE, KEVIN J * 1982; Bachelor's, 1980, California State University-Long Beach
MORGENROTH, DAVID C * 2004; Medical Doctorate, 2003, SUNY
MROZ, TRACY * 2014; Master's, 2005, Boston University
ODDERSON, IB R. * 1985; Doctorate, 1979, Indiana University-Bloomington
OSORIO, MARISA, 2012; Medical Doctorate, 2006, Ohio Christian University
POWELL, JANET M. * 1998; Bachelor's, 1973, University of Washington
PRADHAN, SUJATA * 2008; Bachelor's, 1998, Mumbai University
ROBINSON, CYNTHIA ANN, 1992; Bachelor's, 1986, Ithaca College
SPAULDING, SUSAN E, 1995; Master's, 2007, University of Oregon
SURI, PRADEEP, 2003; Master's, 2011, Harvard University
SVIRCEV, JELENA N, 2005; Bachelor's, 1997, University of Minnesota-Duluth
WIECHMAN, SHELLY A * 1994; Master's, 1994, University of Arizona
YAMANE, ANN, 1979; Bachelor's, 1976, University of Washington
YORK, BERNADETTE WILLIAMS, 2019; Bachelor's, 1983, Tulane University of Louisiana
ZUMSTEG, JENNIFER M, 2005; Bachelor's, 2001, Sonoma State University

Assistant Professors

AGRESTA, CRISTINE E, 2019
BUNNELL, AARON ELIJAH, 2008; Bachelor's, 1998, Stanford University
CUMMER, KATHLEEN, 2019
DASHER, NICKOLAS A, 2017
DEL PIERO, LARISSA, 2016
FELDNER, HEATHER * 2016; Bachelor's, 1998, Marquette University
FUENTES, MOLLY M, 2008; Bachelor's, 2003, Stanford University
GILBERTSON, TOREY J, 2010; Doctorate, 2003, Pacific University
HUMBERT, ANDREW, 2013
JUNN, CHERRY C, 2014; Bachelor's, 2007, Boston University
KAPP, SUSAN L, 2017; Bachelor's, 1979, Texas A & M University
LAM, NY-YING, 2015; Medical Doctorate, 2011, Emory University
LEE, DANBI, 2018
LEUNG, AUDREY SAN, 2019
MATSUDA, PATRICIA A, 1993; Bachelor's, 1982, University of Washington

MCCULLOUGH, JANIS A, 2014
 MORGAN, SARA J., 2001; Bachelor's, 2004, University of Washington
 PHAM, KELLY LORAIN DAEUER, 2014; Bachelor's, 2006, Canisius College
 RAD, NASSIM, 2017
 RUNDELL, SEAN, 2009; Doctorate, 2005, Duke University
 SMITH, REBECCA, 2017
 SONG, SHAWN H, 2011; Master's, 2009, University of California-San Francisco
 STAROSTA, AMY, 2017
 TSAO, ELAINE Y, 2009; Medical Doctorate, 2008, Medical College of Wisconsin

Senior Lecturer

OKUMURA, RAMONA M., 1990; Bachelor's, 1981, University of Washington

Lecturer

BENNETT, KIMBERLY D., 1996

Surgery

Professors

BARLOW, WILLIAM E. * 1984; Master's, 1976, University of Toronto
BROWN, ELIZABETH * 2002; Doctorate, 2002, Harvard University
BROWNING, SHARON * 1995; Bachelor's, 1995, University of Auckland
CHAN, KWUN CHUEN GARY * 2008; Doctorate, 2008, Johns Hopkins University
CHEN, YING QING * 2005; Doctorate, 1999, Johns Hopkins University
DIEHR, PAULA K., 1982; Bachelor's, 1963, Harvey Mudd College
FISHER, LLOYD D, 1982; Master's, 1965, Dartmouth College
FLEMING, THOMAS RICHARD * 1984; Master's, 1974, University of Maryland-University College
GILBERT, PETER B * 1991; Bachelor's, 1992, University of Washington
HALLORAN, M. ELIZABETH * 2006; Medical Doctorate, 1983, Freie Universität Berlin
HALLSTROM, ALFRED, 1982; Master's, 1961, Brown University
HEAGERTY, PATRICK J. * 1995; Bachelor's, 1985, Cornell University
HSU, LI * 1989; Bachelor's, 1989, Nanjing University
HUGHES, JAMES P * 1982; Bachelor's, 1977, University of Maine
INOUE, LURDES * 2002; Master's, 1998, Duke University
KERR, KATHLEEN F. * 2001; Bachelor's, 1993, Bryn Mawr College
KOOPERBERG, CHARLES L * 1991; Master's, 1985, Delft University of Technology
KRONMAL, RICHARD A * 1964; Bachelor's, 1961, University of California-Los Angeles
LE BLANC, MICHAEL * 1987; Bachelor's, 1983, Simon Fraser University
MAY, SUSANNE * 2008; Master's, 1994, Universität Karlsruhe (Karlsruhe Institute of Technology)
MCCLELLAND, ROBYN L. * 1994; Bachelor's, 1991, McGill University
MCKNIGHT, BARBARA * 1981; Bachelor's, 1976, Pomona College
PRENTICE, ROSS L * 1974; Master's, 1968, University of Toronto
RICE, KENNETH M. * 2004; Bachelor's, 1995, University of Cambridge
RICHARDSON, BARBRA * 1993; Bachelor's, 1987, Pomona College
SHOJAIE, ALI * 2010; Master's, 2001, Amirkabir University of Technology
THOMPSON, MARY LOU * 1982; Doctorate, 1979, Universität Göttingen
THORNTON, TIMOTHY * 2009; Bachelor's, 1998, Hampton University
WAHL, PATRICIA W, 1982; Bachelor's, 1960, San Jose State University
WEIR, BRUCE SPENCER * 2005; Doctorate, 1968, North Carolina A & T State University

Associate Professors

BRUMBACK, LYNDIA C. * 2001; Master's, 1996, University of Wisconsin-Madison
CARONE, MARCO * 2013; Doctorate, 2010, Johns Hopkins University
COOK, ANDREA * 2000; Master's, 2003, Harvard University
EMOND, MARY JANE * 1987; Bachelor's, 1984, University of Minnesota-Duluth
JANES, HOLLY E. * 2000; Bachelor's, 1998, Skidmore College
LUMLEY, THOMAS S. * 1995; Bachelor's, 1991, Monash University
POLISSAR, NAYAK LINCOLN * 1980; Master's, 1968, Princeton University

SHORTREED, SUSAN * 2001; Bachelor's, 2001, University of Michigan-Ann Arbor
 SIMON, NOAH * 2013; Bachelor's, 2008, Pomona College
 SZPIRO, ADAM A. * 2006; Doctorate, 1999, Brown University
 WU, MICHAEL * 2015; Master's, 2006, Harvard University
 ZHAO, YINGQI * 2017; Master's, 2007, Fudan University; Operations Management

Assistant Professors

DAI, JAMES YU * 2002; Medical Doctorate, 1998, Peking University
 LILA, EARDI, 2019; Master's, 2014, Politecnico di Milano
 SADINLE GARCIA-RUIZ, MAURICIO * 2017; Master's, 2011, Carnegie Mellon University; Statistics
 WANG, CHING-YUN * 1993; Bachelor's, 1983, National Taiwan Normal University
 WILLIS, AMY DONALDSON * 2017; Bachelor's, 2011, Australian National University; Actuarial Science

Lecturer

GOGARTEN, JENNIFER, 2003; Bachelor's, 2006, University of Chicago; Biology

Environmental and Occupational Health Sciences

Professors

BURBACHER, THOMAS M * 1974; Bachelor's, 1973, University of Cincinnati-Clermont College
 CANGELOSI, GERARD A. * 1985; Bachelor's, 1977, Michigan State University
 COHEN, MARTIN * 1997; Master's, 1985, Harvard University
 COSTA, LUCIO GUIDO * 1983; Medical Doctorate, 1977, Università degli Studi di Milano
 DANNENBERG, ANDREW * 2009; Master's, 1983, Johns Hopkins University
 FAUSTMAN, ELAINE M. * 1981; Doctorate, 1981, Michigan State University
 FENSKE, RICHARD A. * 1990; Master's, 1972, Columbia University
 FRANKLIN, GARY M. * 1988; Bachelor's, 1965, Franklin and Marshall College
 FRUMKIN, HOWARD * 2010; Bachelor's, 1977, Brown University
 GALLAGHER, EVAN P * 1991; Master's, 1986, Duke University
 GODWIN, HILARY ARNOLD, 2018
 KALMAN, DAVID A * 1978; Bachelor's, 1972, Harvey Mudd College
 KAUFMAN, JOEL D. * 1988; Bachelor's, 1982, University of Michigan-Ann Arbor
 KAVANAGH, TERRANCE J * 1985; Master's, 1980, Michigan State University
 KISSEL, JOHN C., 1990; Master's, 1974, Harvard University
 KOENIG, JANE * 1982; Bachelor's, 1959, University of Washington
 MESCHKE, JOHN SCOTT * 2002; Master's, 1996, Indiana University-Bloomington
 MORGAN, MICHAEL * 1982; Bachelor's, 1969, Cornell University
 RABINOWITZ, PETER * 1987; Bachelor's, 1978, Amherst College
 ROBERTS, MARILYN C * 1981; Bachelor's, 1973, University of Washington
 ROBKIN, MAURICE A, 1982; Bachelor's, 1953, California Institute of Technology
 ROSENFELD, MICHAEL E. * 1982; Bachelor's, 1975, Grinnell College
 SEIXAS, NOAH S. * 1992; Bachelor's, 1978, Hampshire College
 SHEPPARD, ELIZABETH A. * 1989; Bachelor's, 1979, Johns Hopkins University
 SIMPSON, CHRISTOPHER DAVID * 2000; Doctorate, 1997, University of British Columbia
 WOODS, JAMES * 1982; Bachelor's, 1962, Princeton University

XIA, ZHENGUI * 1987; Doctorate, 1991, University of Washington
 YOST, MICHAEL G. * 1993; Bachelor's, 1977, University of California-Berkeley

Associate Professors

AVERILL, MICHELLE M. * 2000; Bachelor's, 2002, University of Washington
 BUSCH ISAKSEN, TANIA M * 2003; Bachelor's, 1993, Colorado State University
 CUI, YUE * 2014; Doctorate, 2010, University of Kansas
 DANIELL, WILLIAM E * 1984; Medical Doctorate, 1979, Tufts University; Medicine
 GLEASON, RICHARD, 1997; Bachelor's, 1978, Montana Tech of the University of Montana
 LEVY, KAREN, 2020; Bachelor's, 1995, Stanford University; Biology
 OTTEN, JENNIFER * 2012; Bachelor's, 1995, The University of Texas
 SETO, EDMUND * 2013; Bachelor's, 1993, University of California-Berkeley
 SPECTOR, JUNE * 2009; Bachelor's, 2001, Harvard University

Assistant Professors

AUSTIN, ELENA * 2013; Doctorate, 2013, Harvard University; Environmental/Environmental Health Engineering
 BAKER, MARISSA * 2004; Bachelor's, 2007, Northwestern University; Biology
 COLLIER, SARAH M. * 2019; Doctorate, 2011, Cornell University; Botany/Plant Biology
 ERRETT, NICOLE A * 2016; Bachelor's, 2008, Johns Hopkins University
 SIMCOX, NANCY, 1991; Bachelor's, 1987, Cornell University; Natural Resources Conservation
 SIPOS RANDOR, YONA * 2018; Doctorate, 2014, University of British Columbia

Lecturer

TRESER, CHARLES D * 1982; Bachelor's, 1967, Thiel College

Epidemiology
